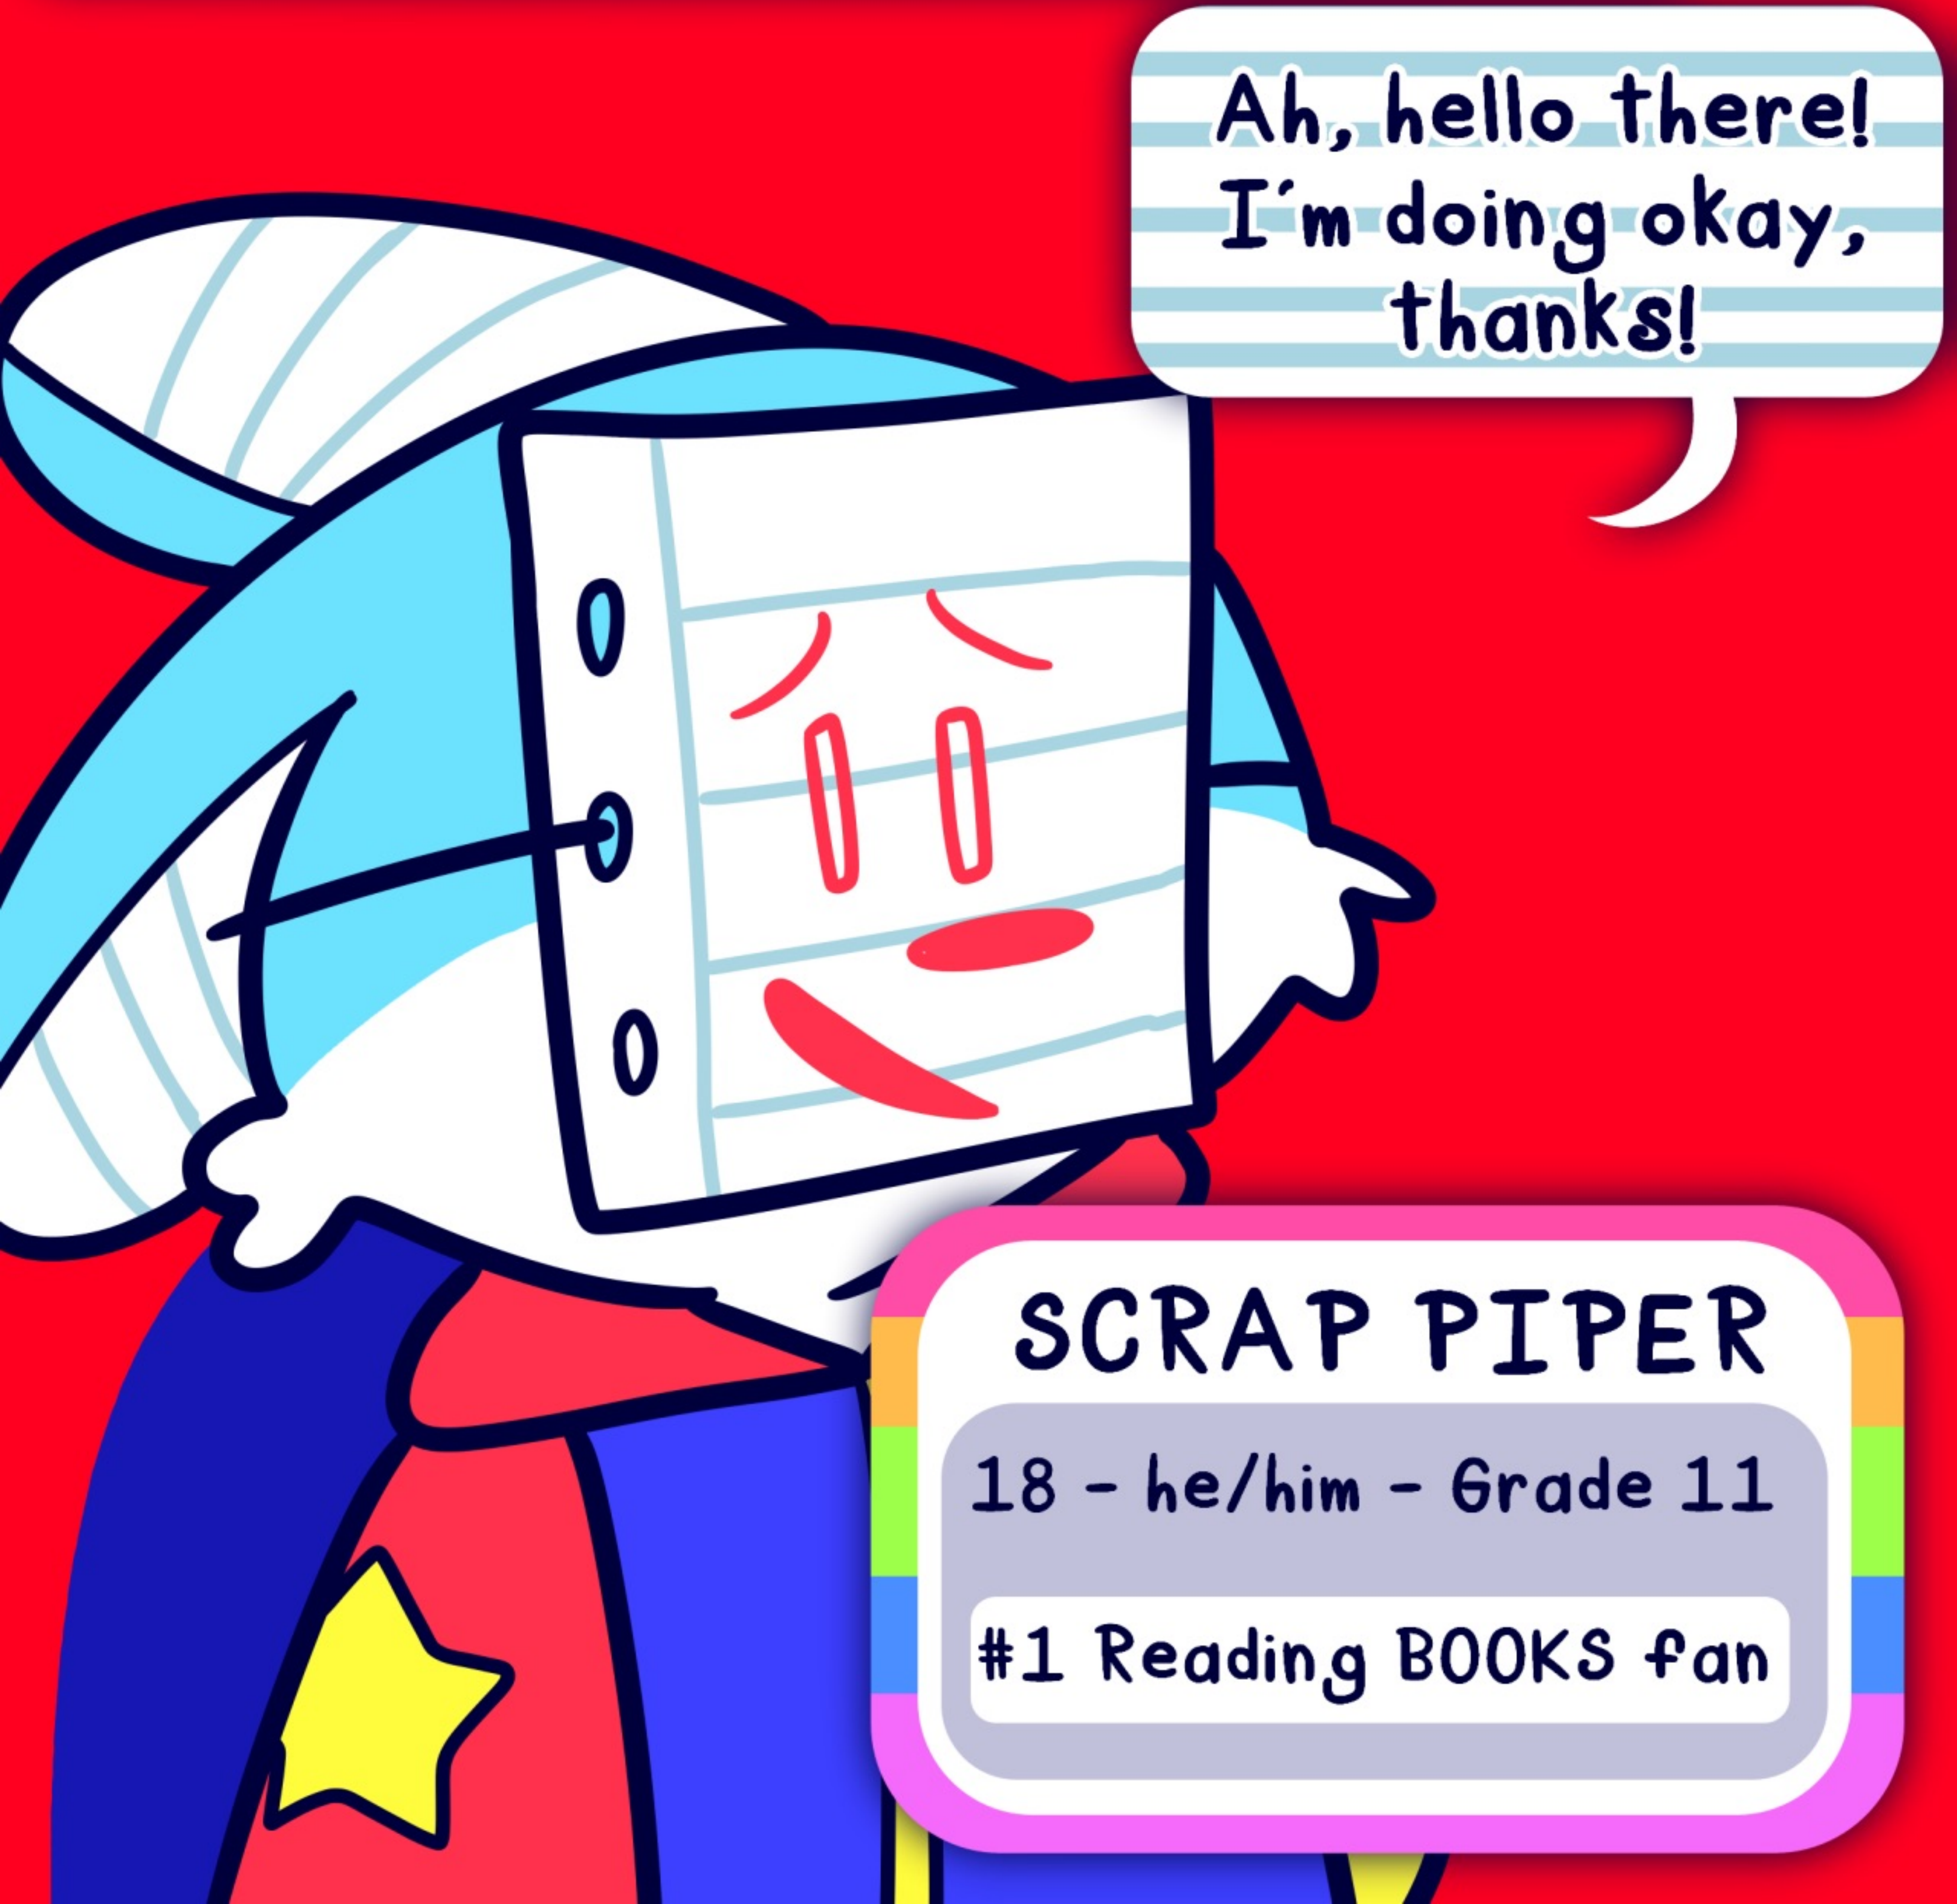
smilingroadkill asked:

SCRAPP HOW ARE YA BUDDY??



Ah, hello there! I´m doing okay, thanks!

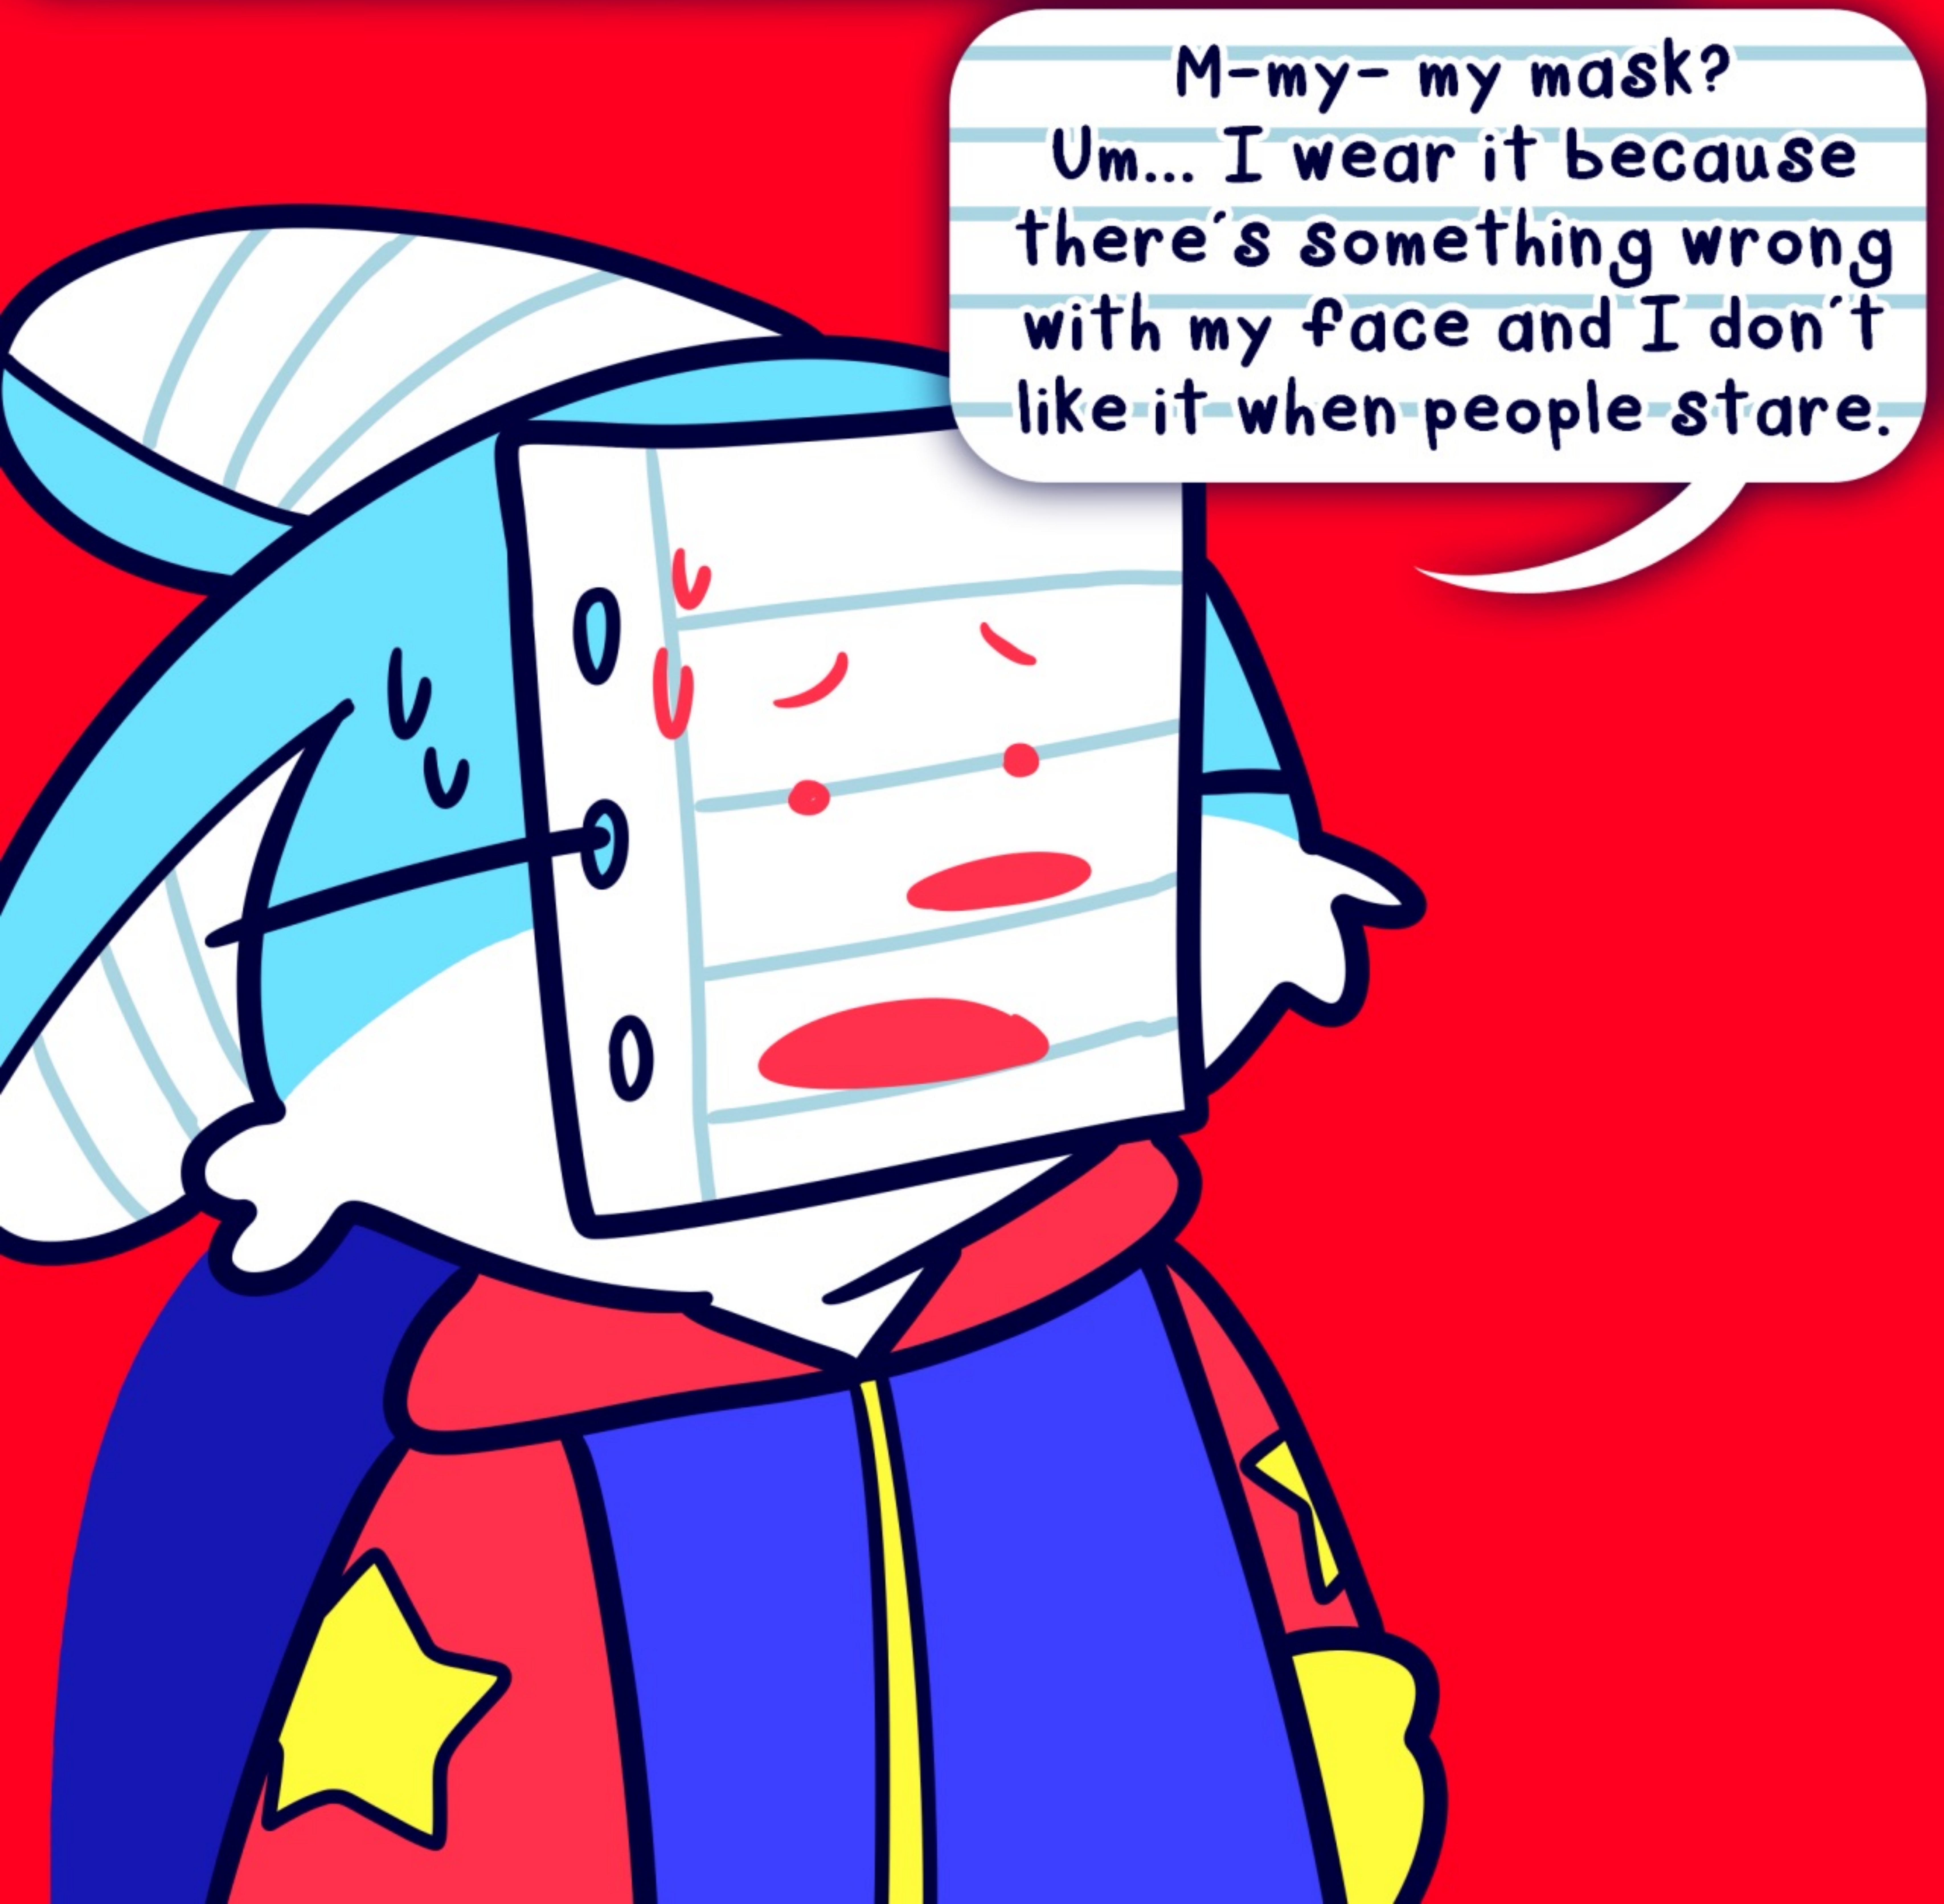
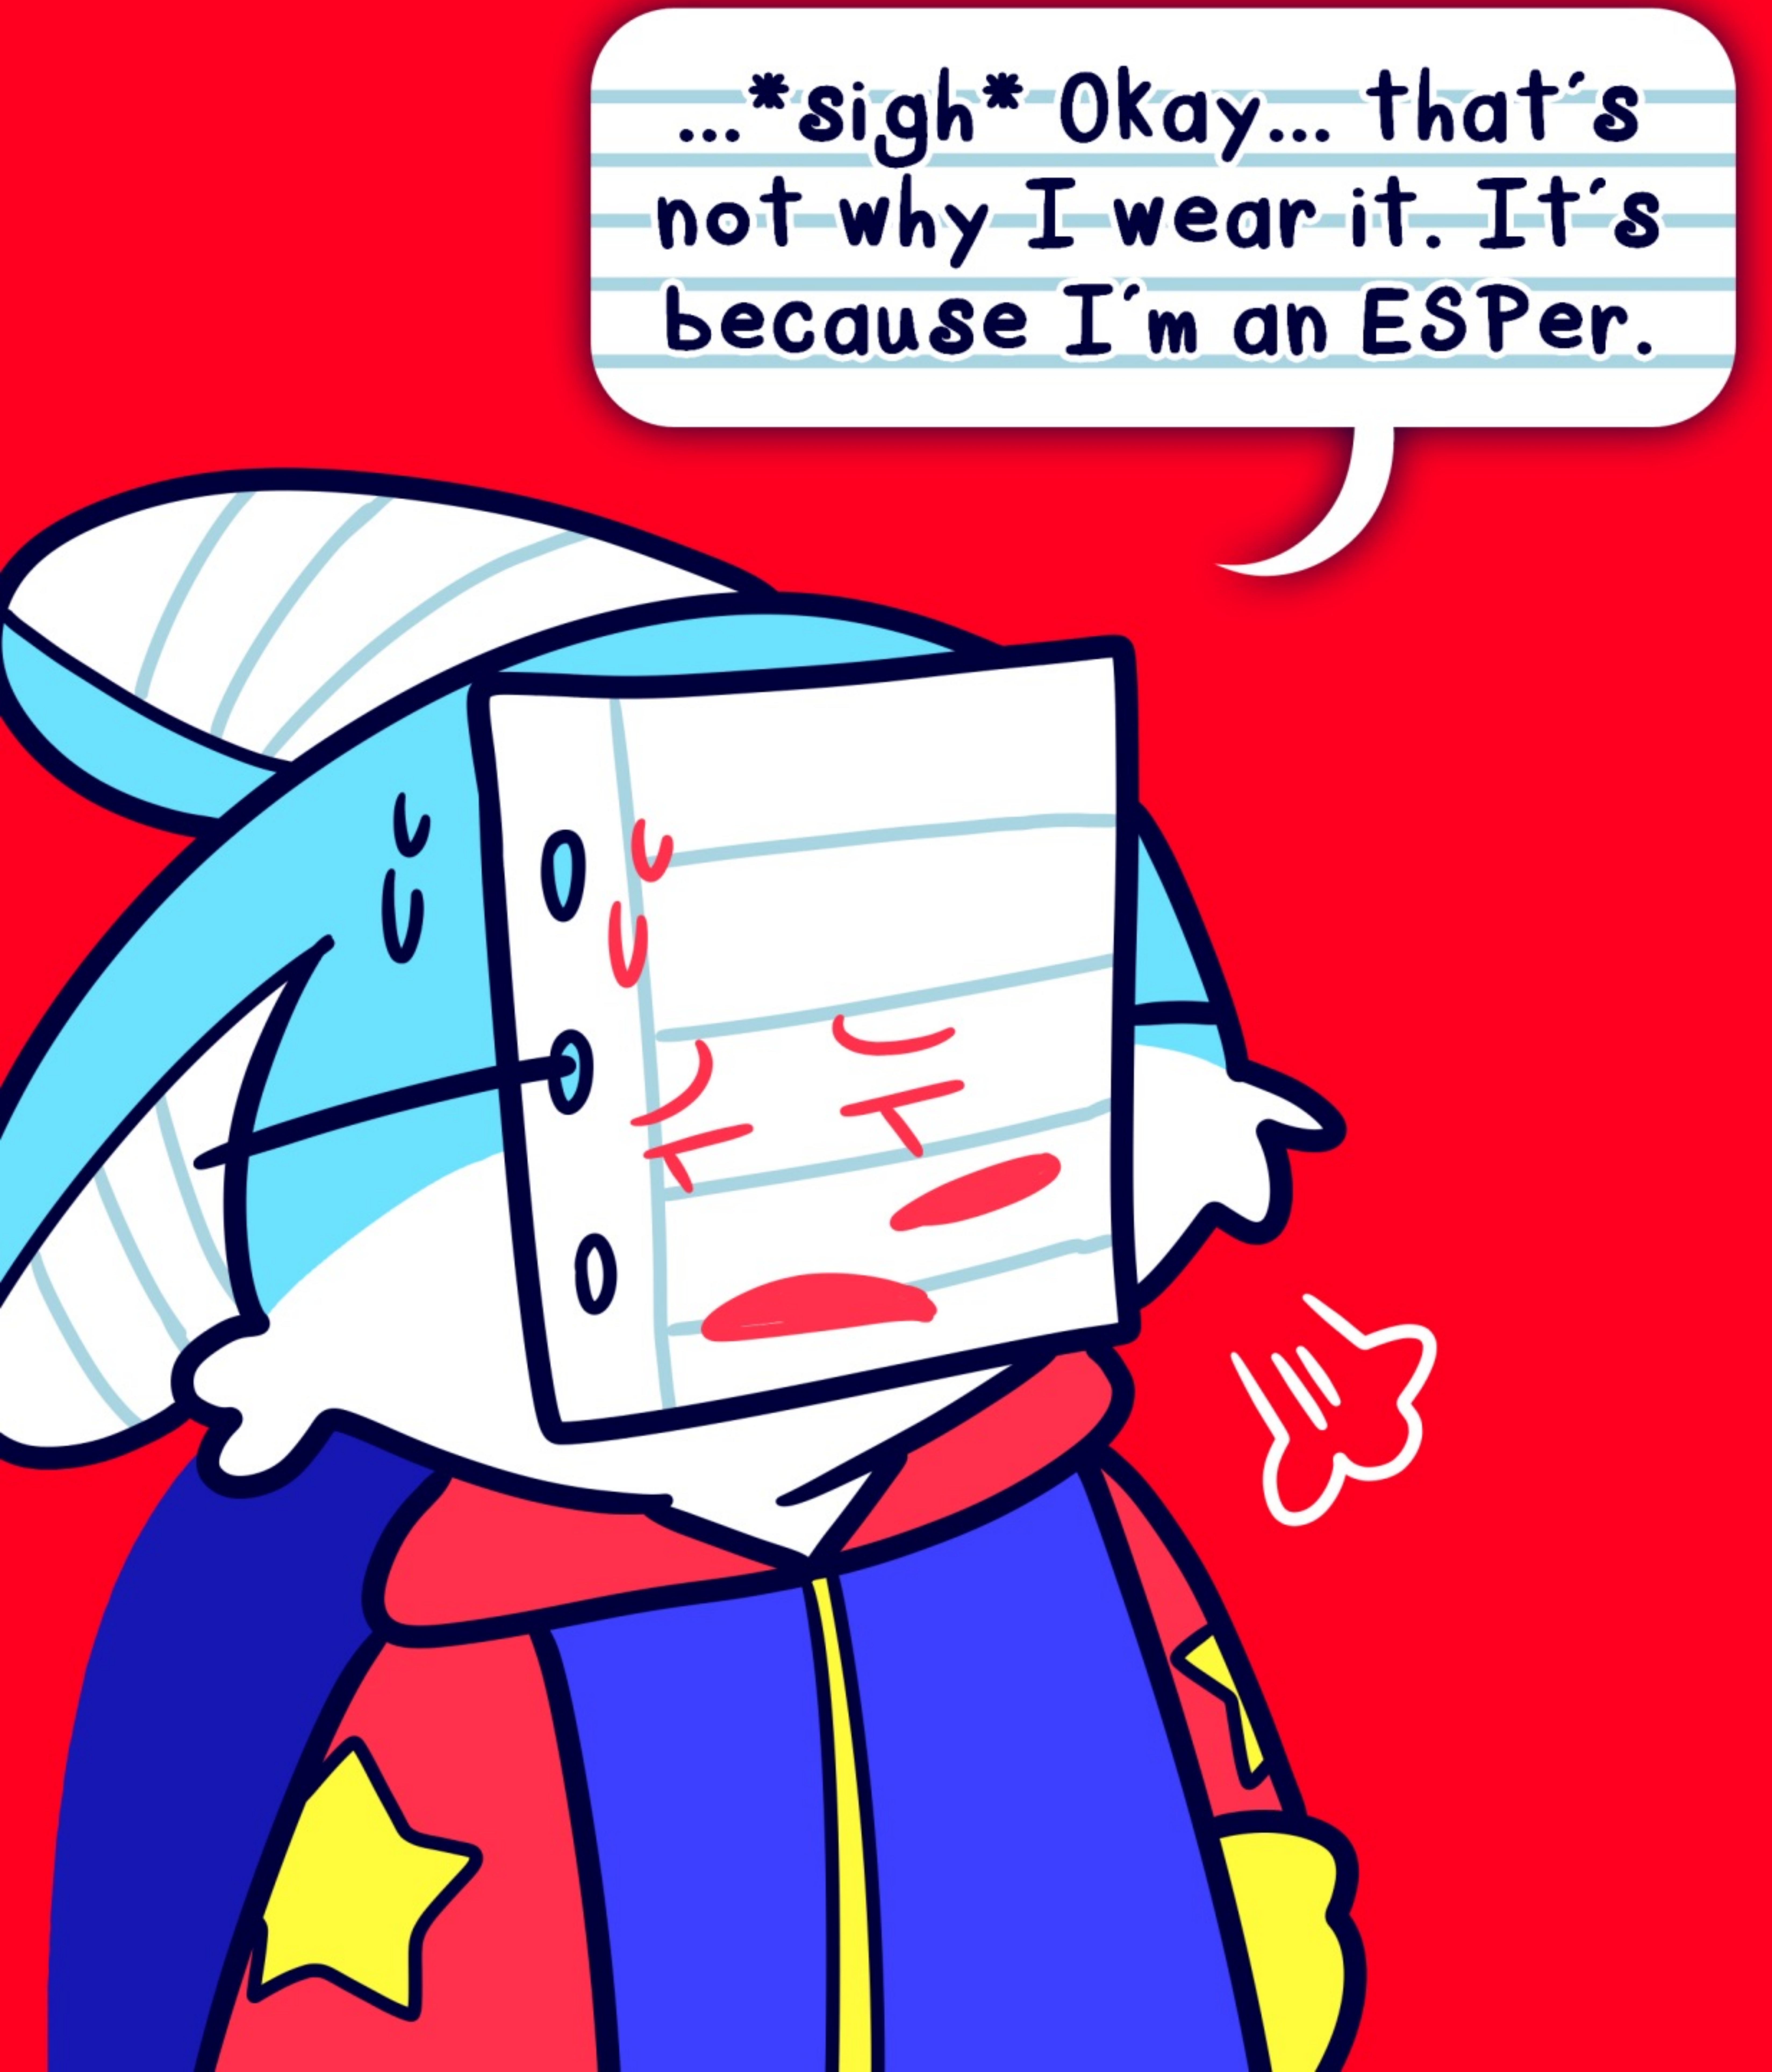
sensoryforegone asked:

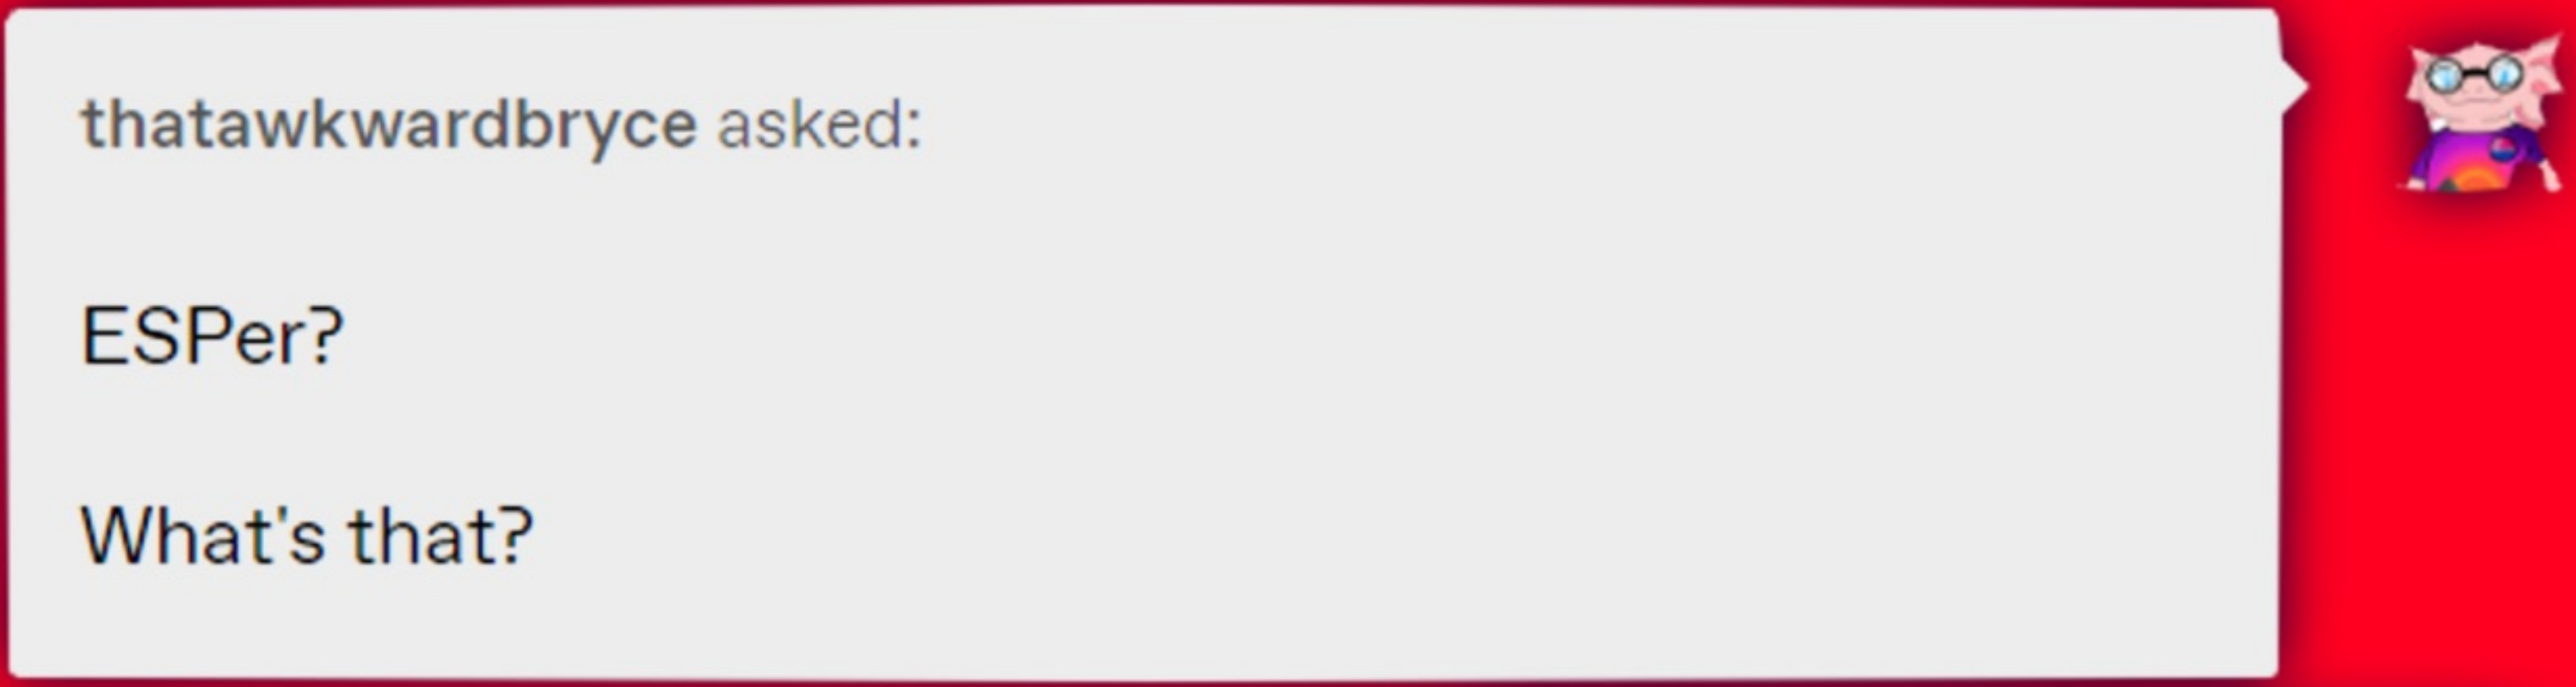
SCRAP!! Love the mask! But what is it for? 🧐



M-my- my mask? Um... I wear it because there´s something wrong with my face and I don´t like it when people stare.



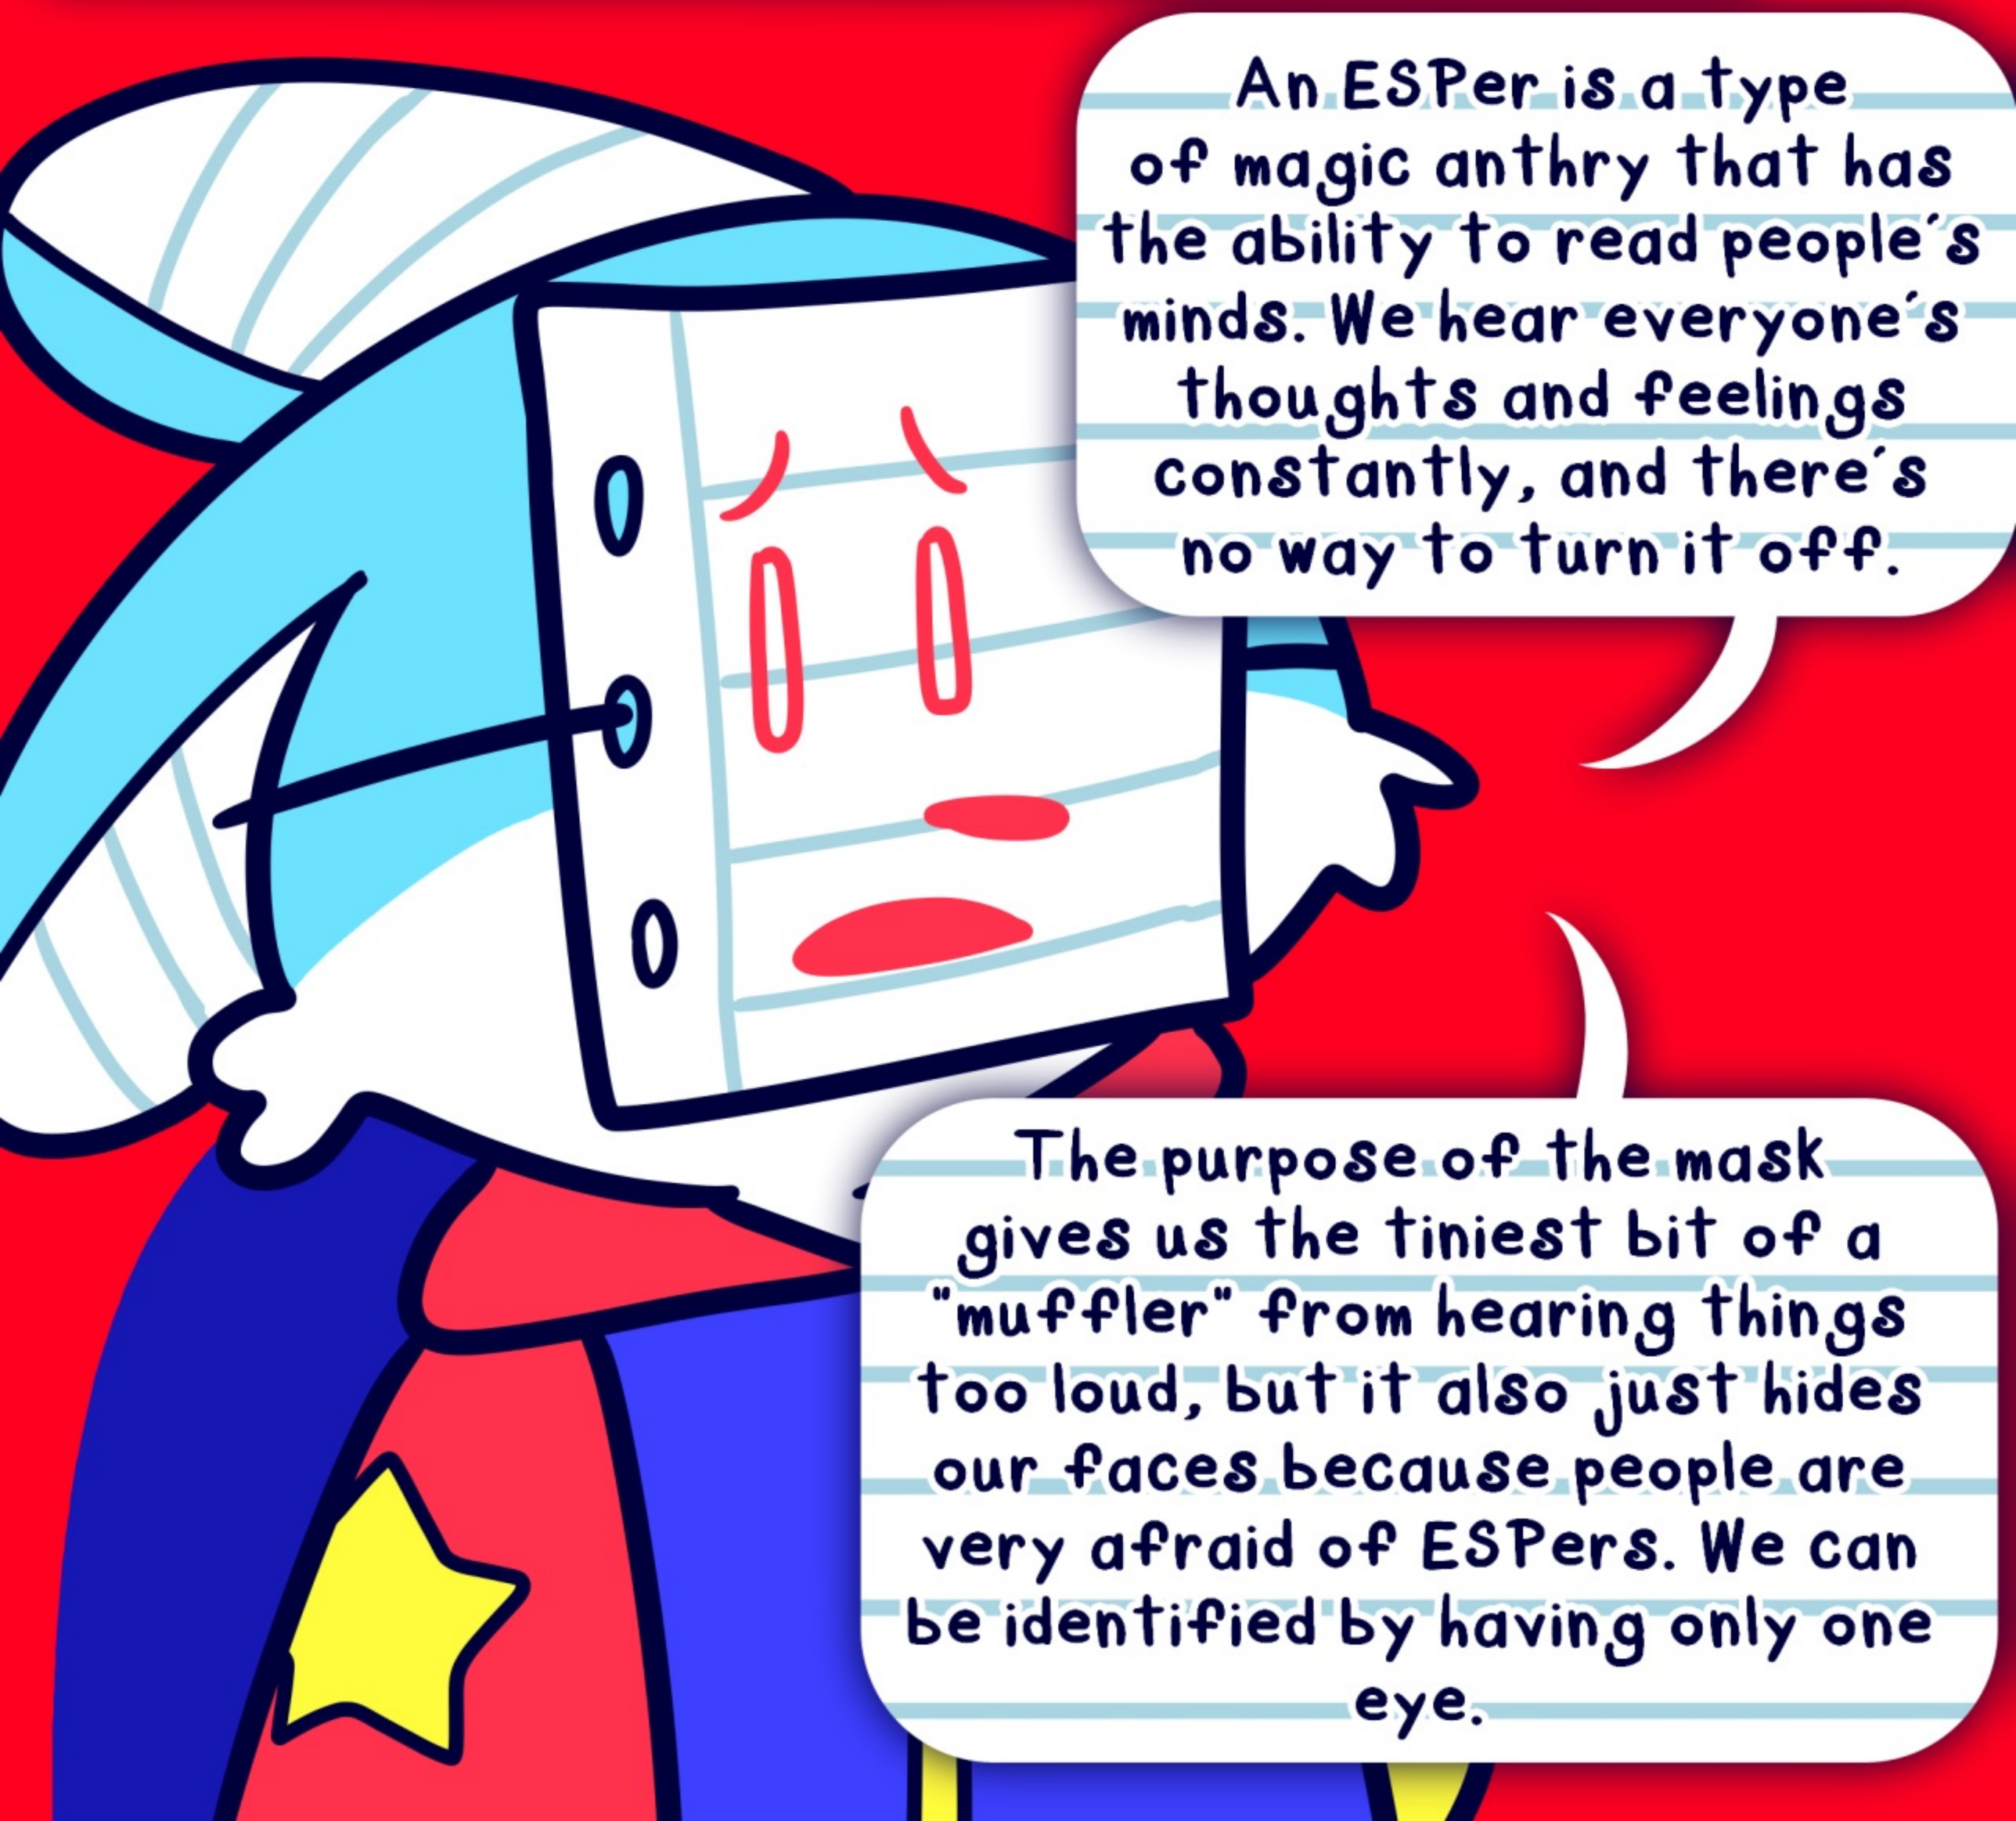
...*sigh* Okay... that's not why I wear it. It's because I'm an ESPer.



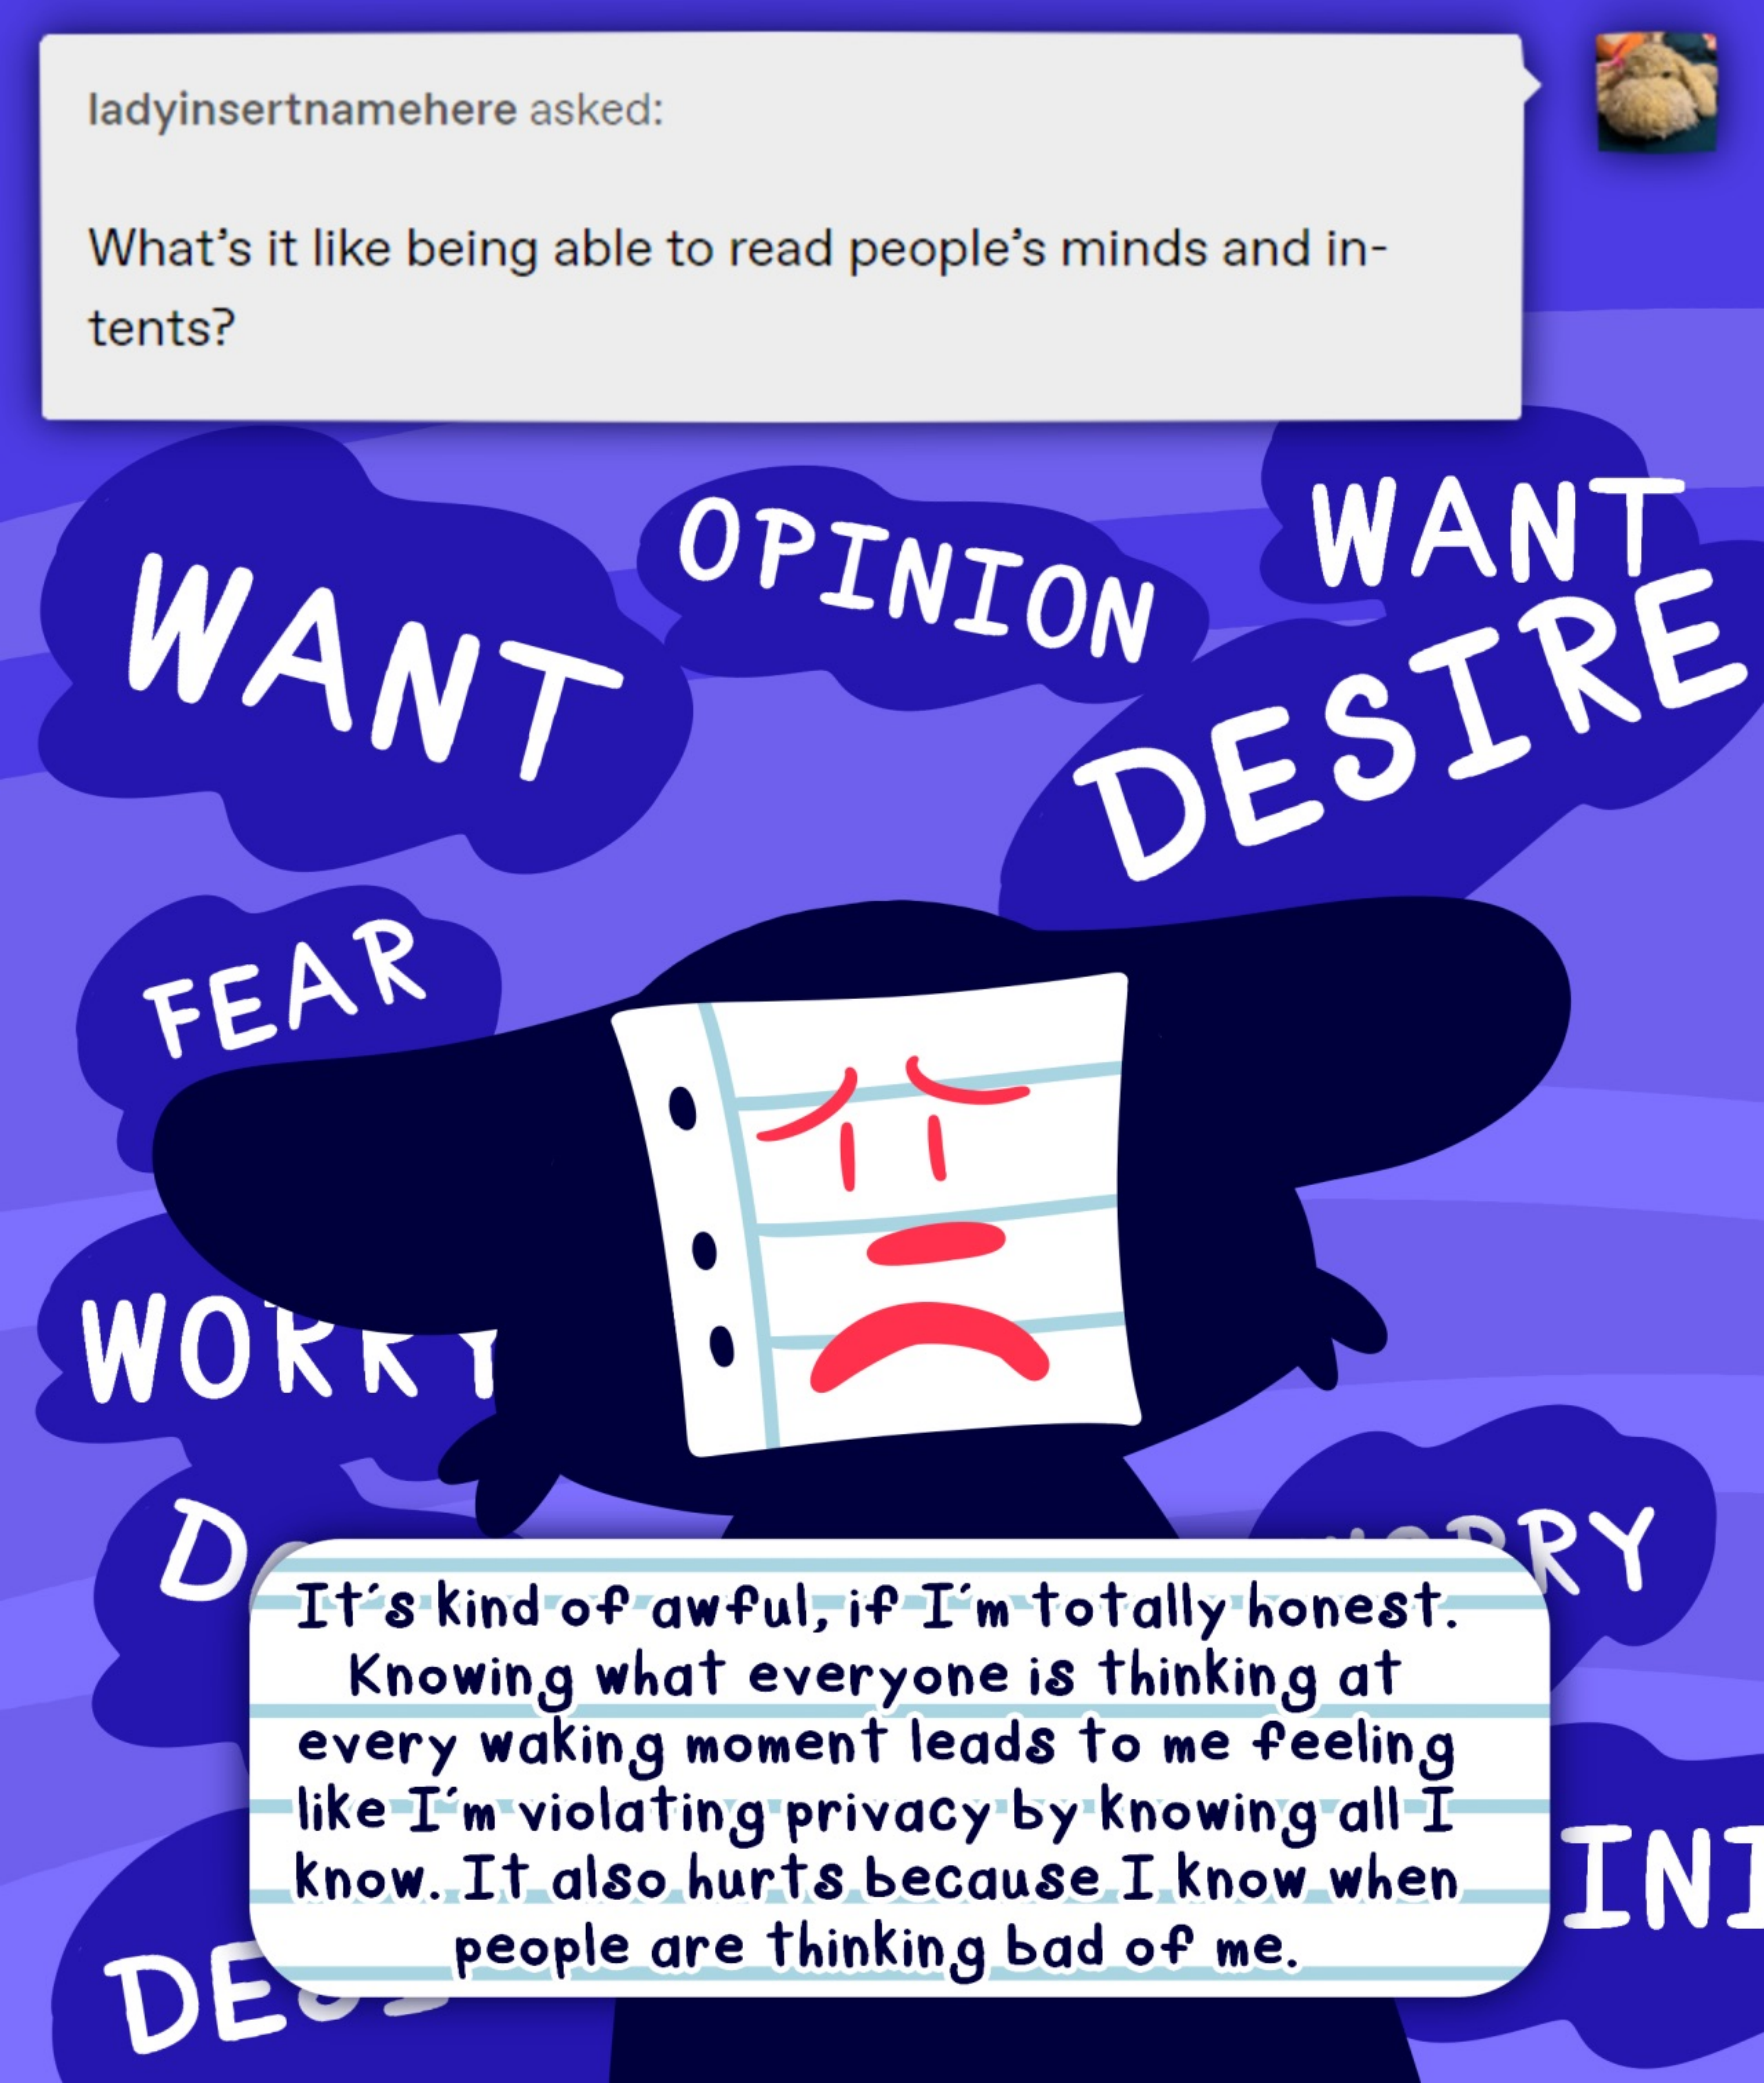
thatawkwardbryce asked:

ESPer?

What's that?



An ESPer is a type of magic anthry that has the ability to read people's minds. We hear everyone's thoughts and feelings constantly, and there's no way to turn it off.
The purpose of the mask gives us the tiniest bit of a "muffler" from hearing things too loud, but it also just hides our faces because people are very afraid of ESPers. We can be identified by having only one eye.



ladyinsertnamehere asked:

What's it like being able to read people's minds and intents?

It's kind of awful, if I'm totally honest. Knowing what everyone is thinking at every waking moment leads to me feeling like I'm violating privacy by knowing all I know. It also hurts because I know when people are thinking bad of me.

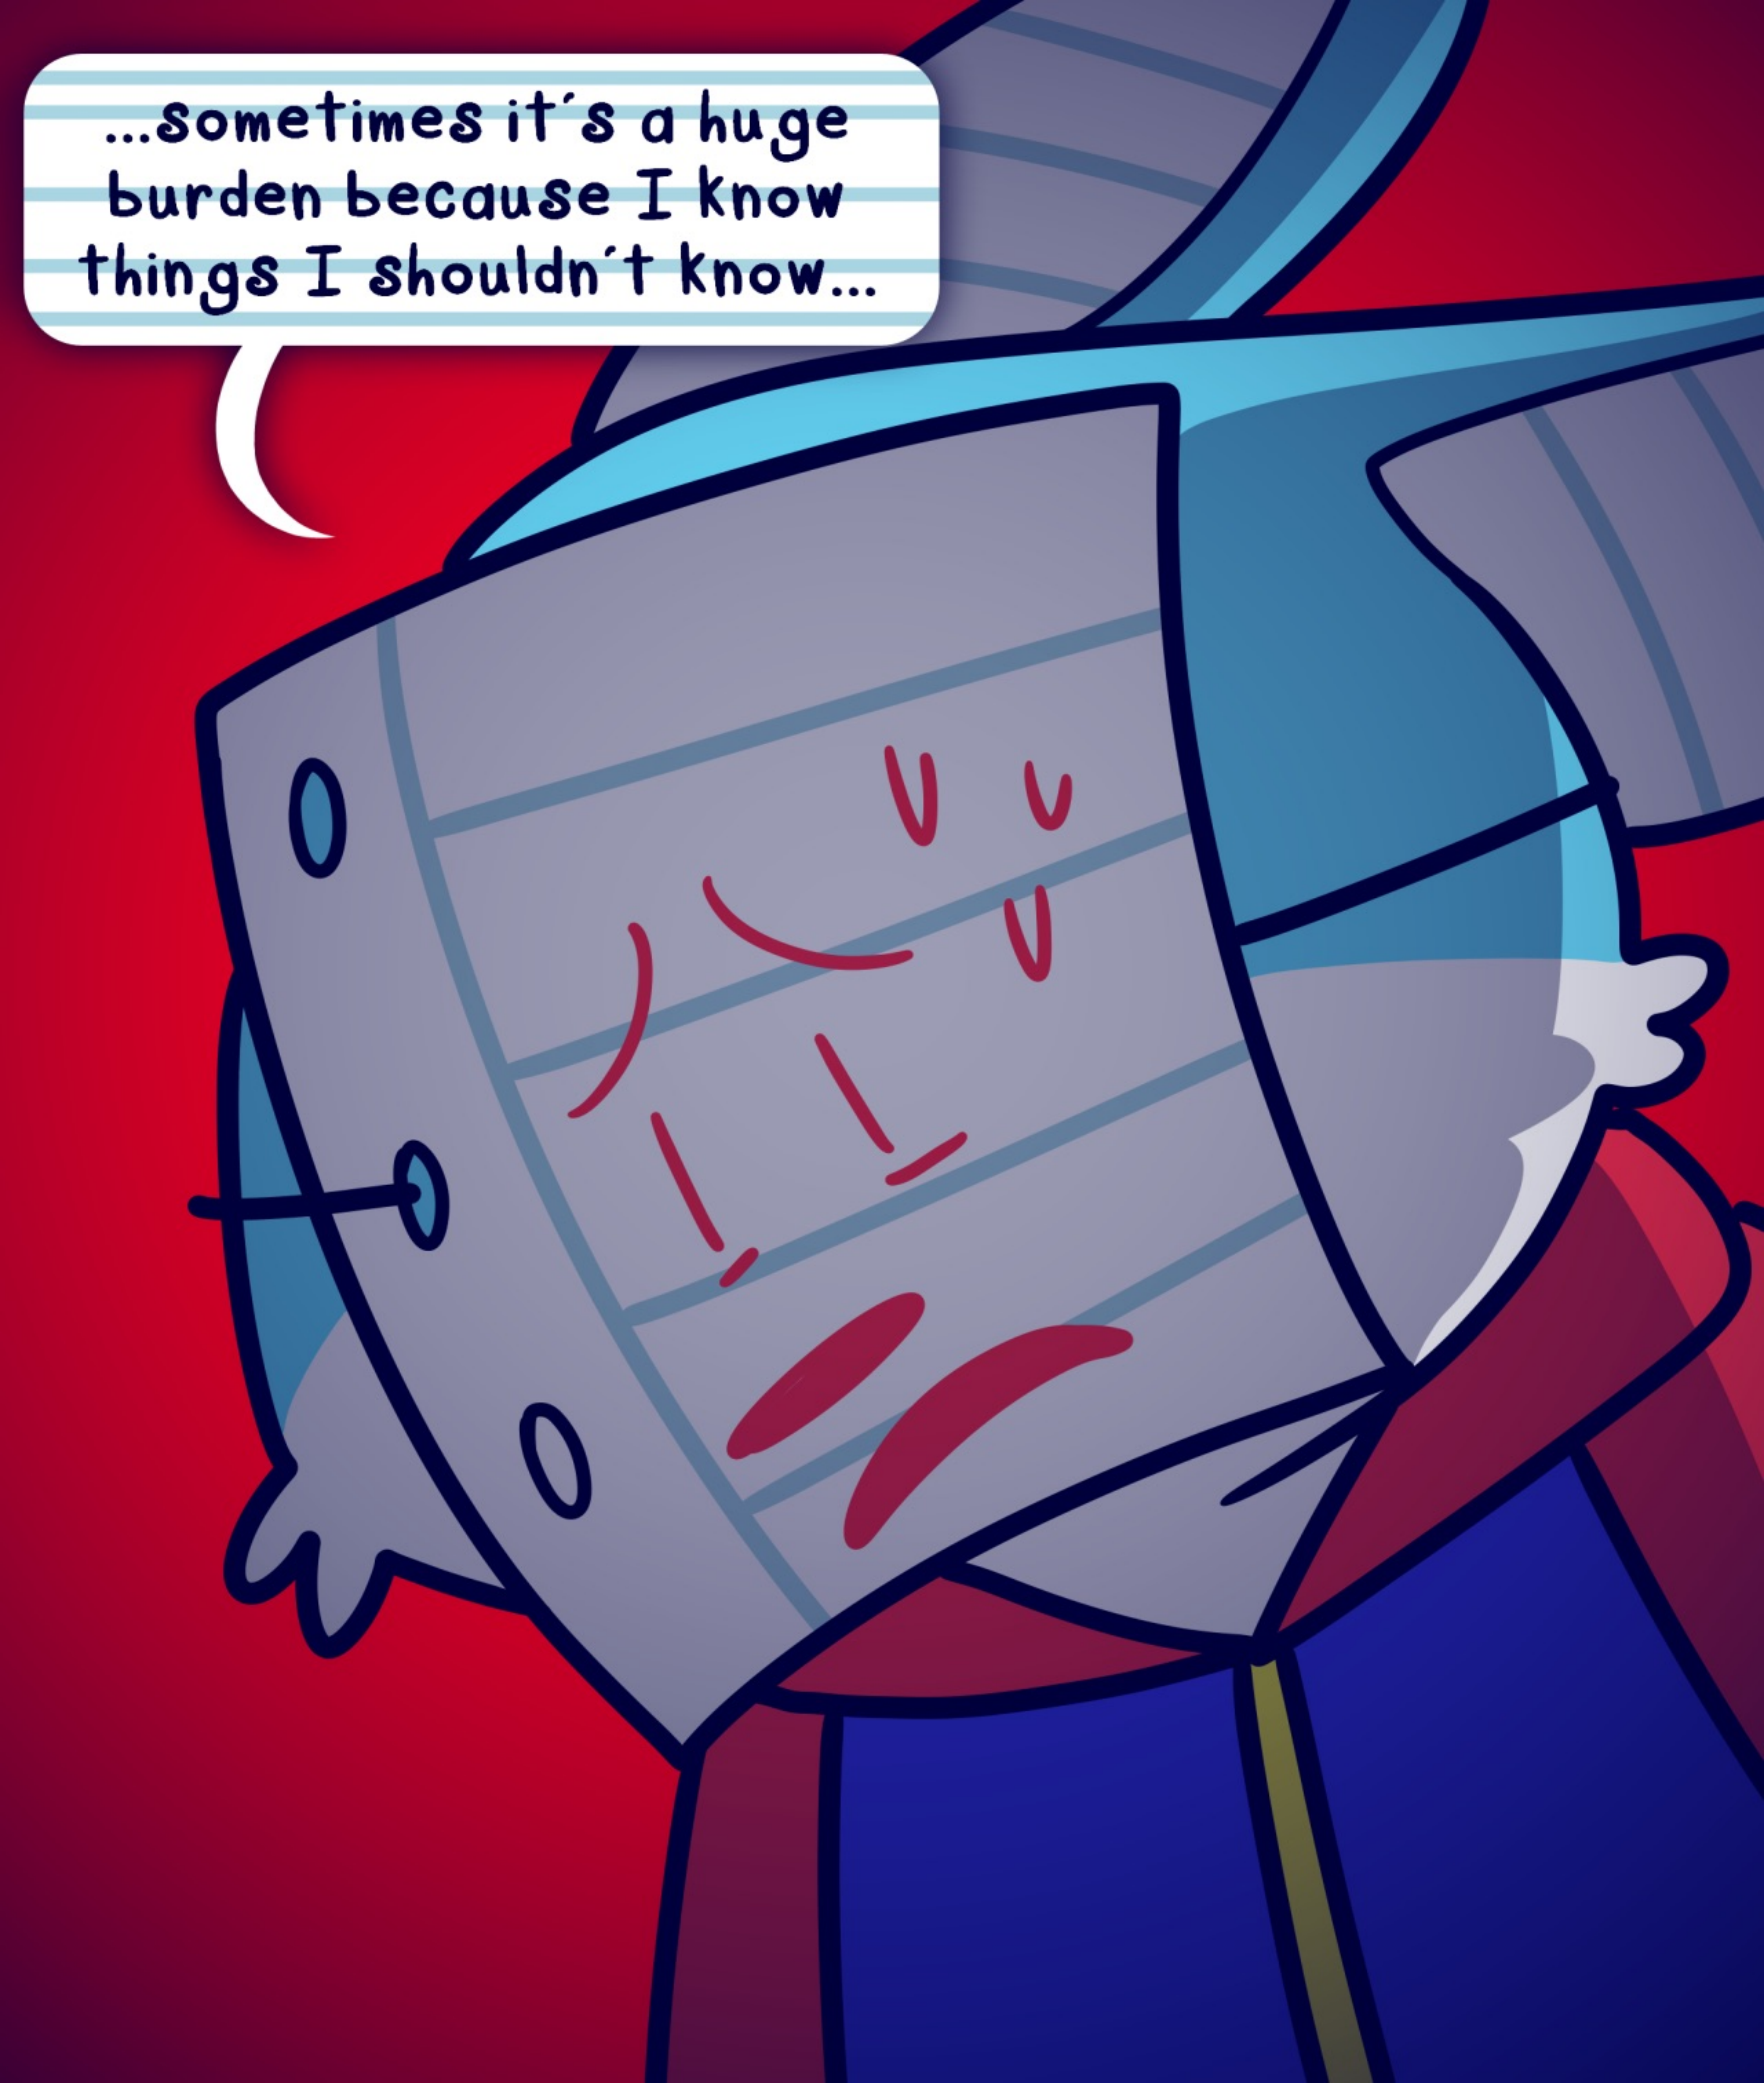
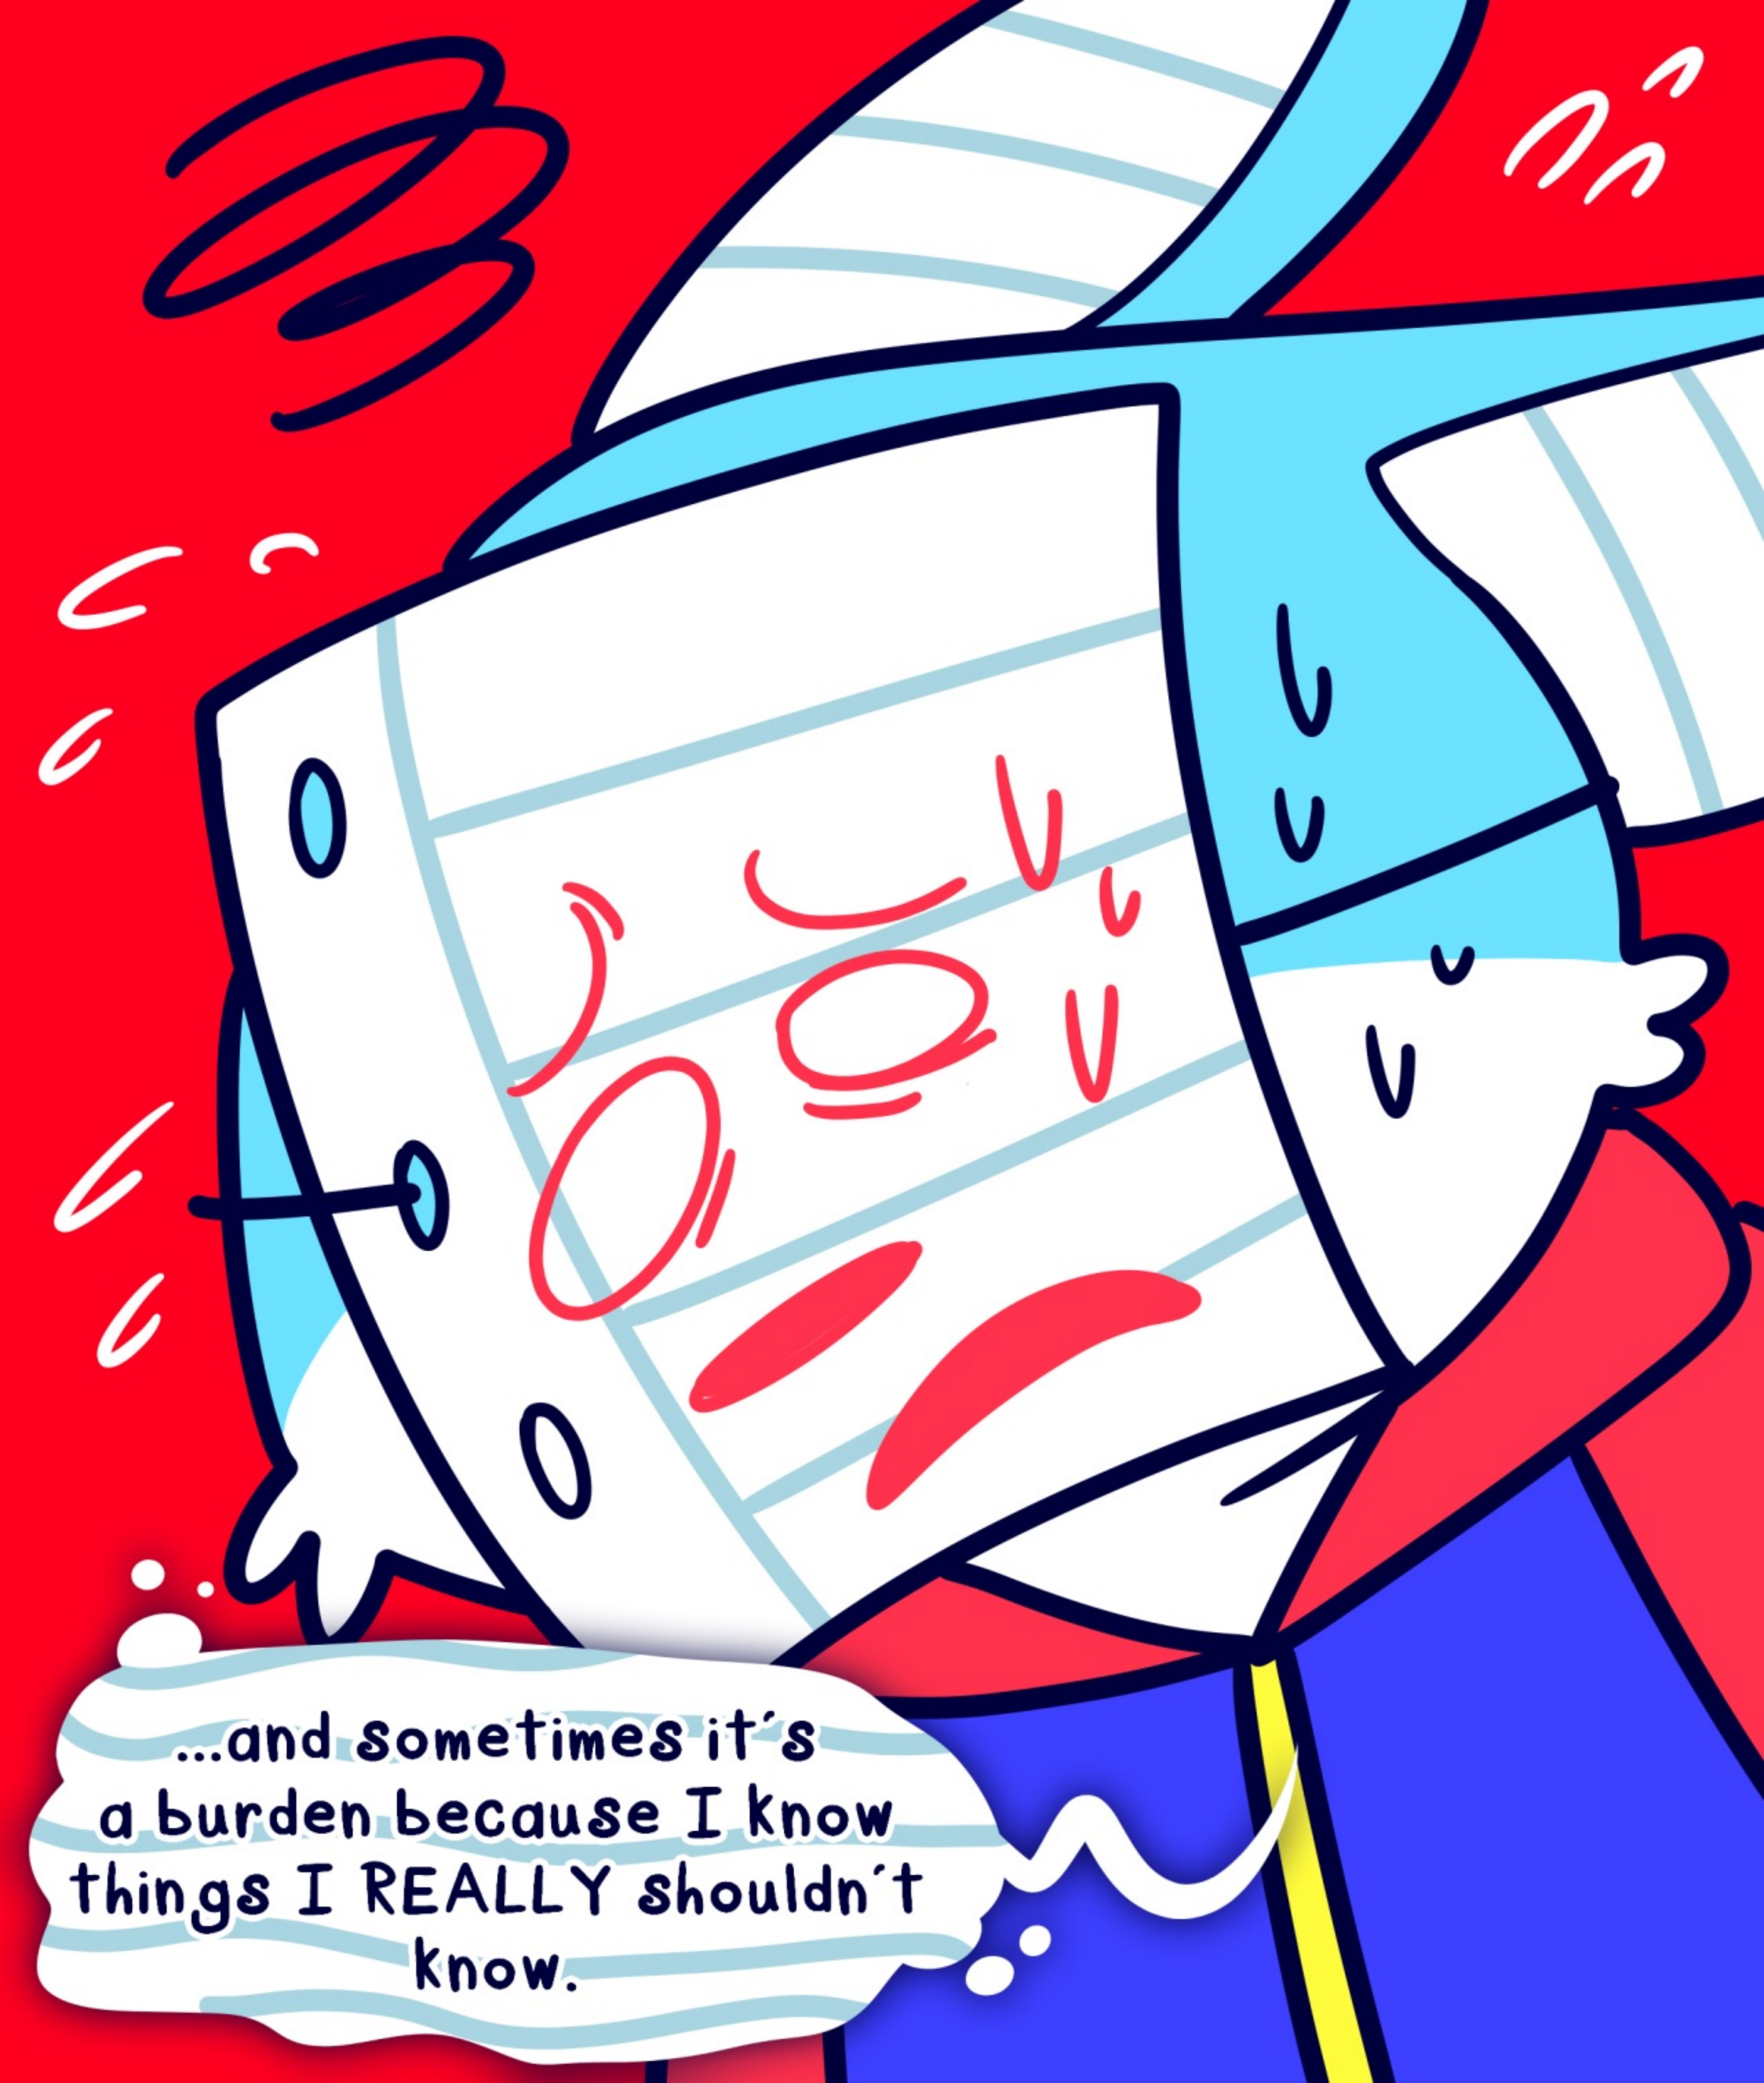
joxterpaws asked:

Is being an ESPer hard?

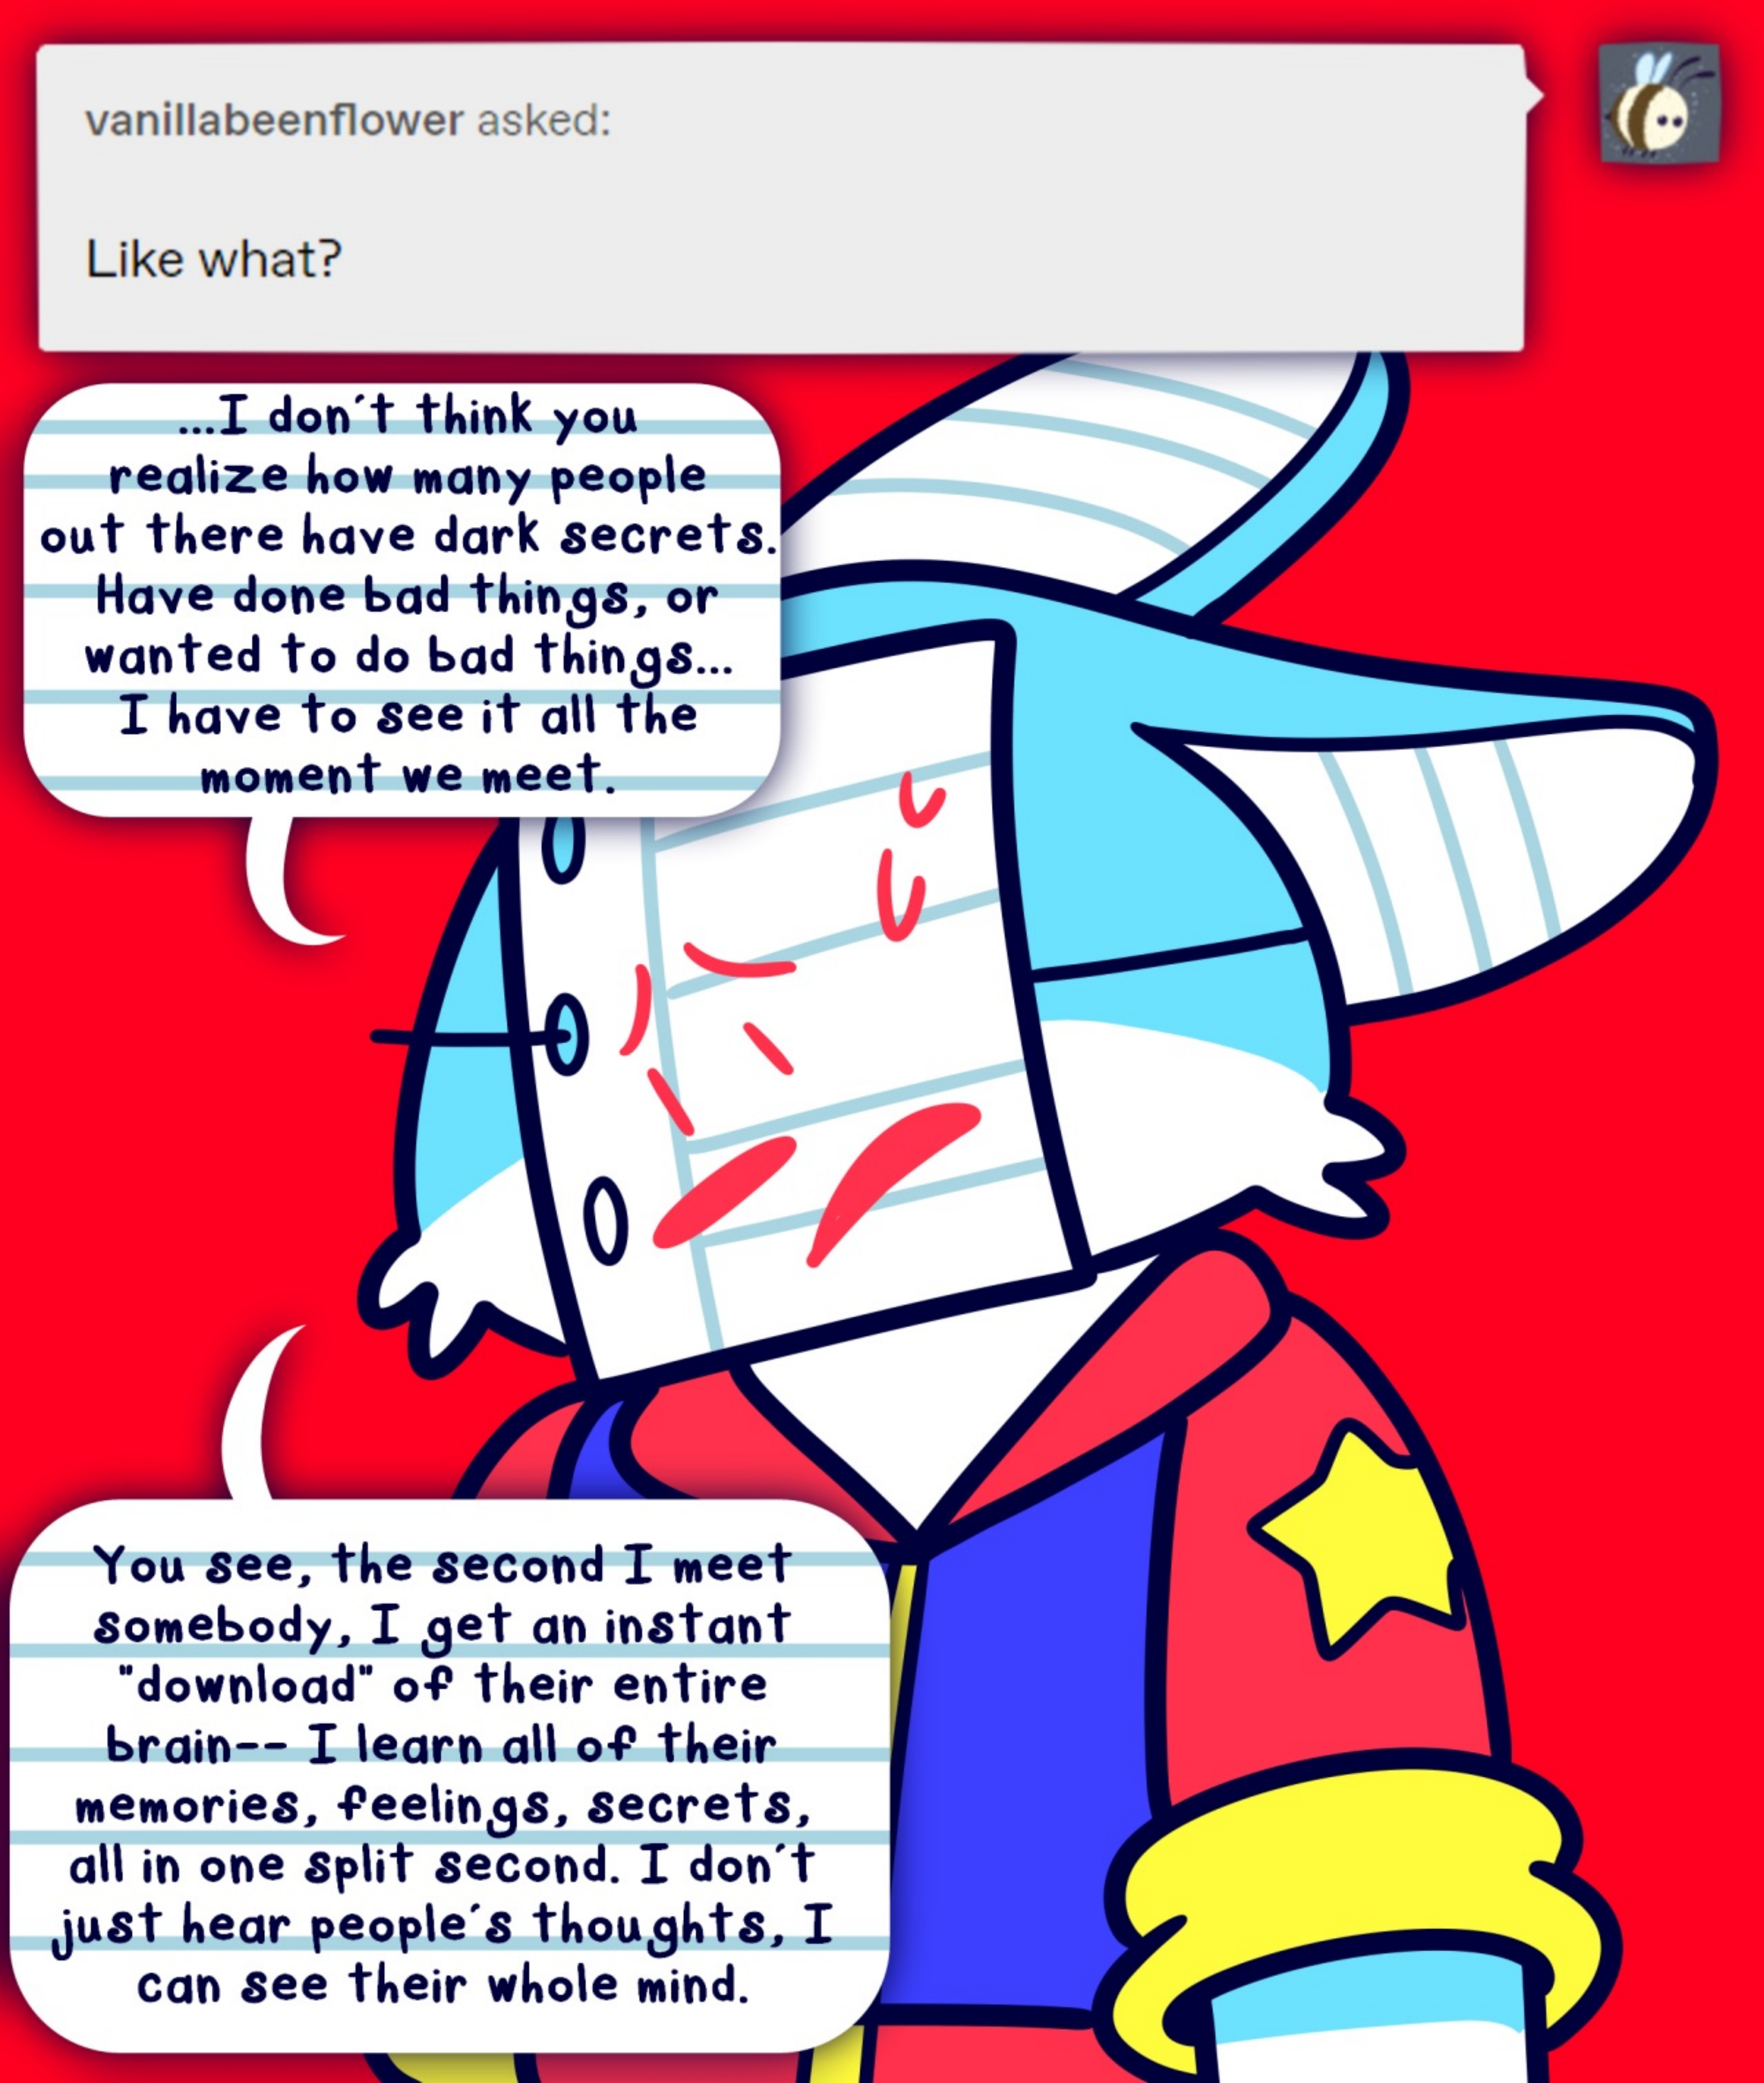
I have auditory sensory issues, which makes the constant flood of thoughts super overwhelming.
I just wish I could stop it for one minute, just so I could get a break from the noise, but it NEVER ends!



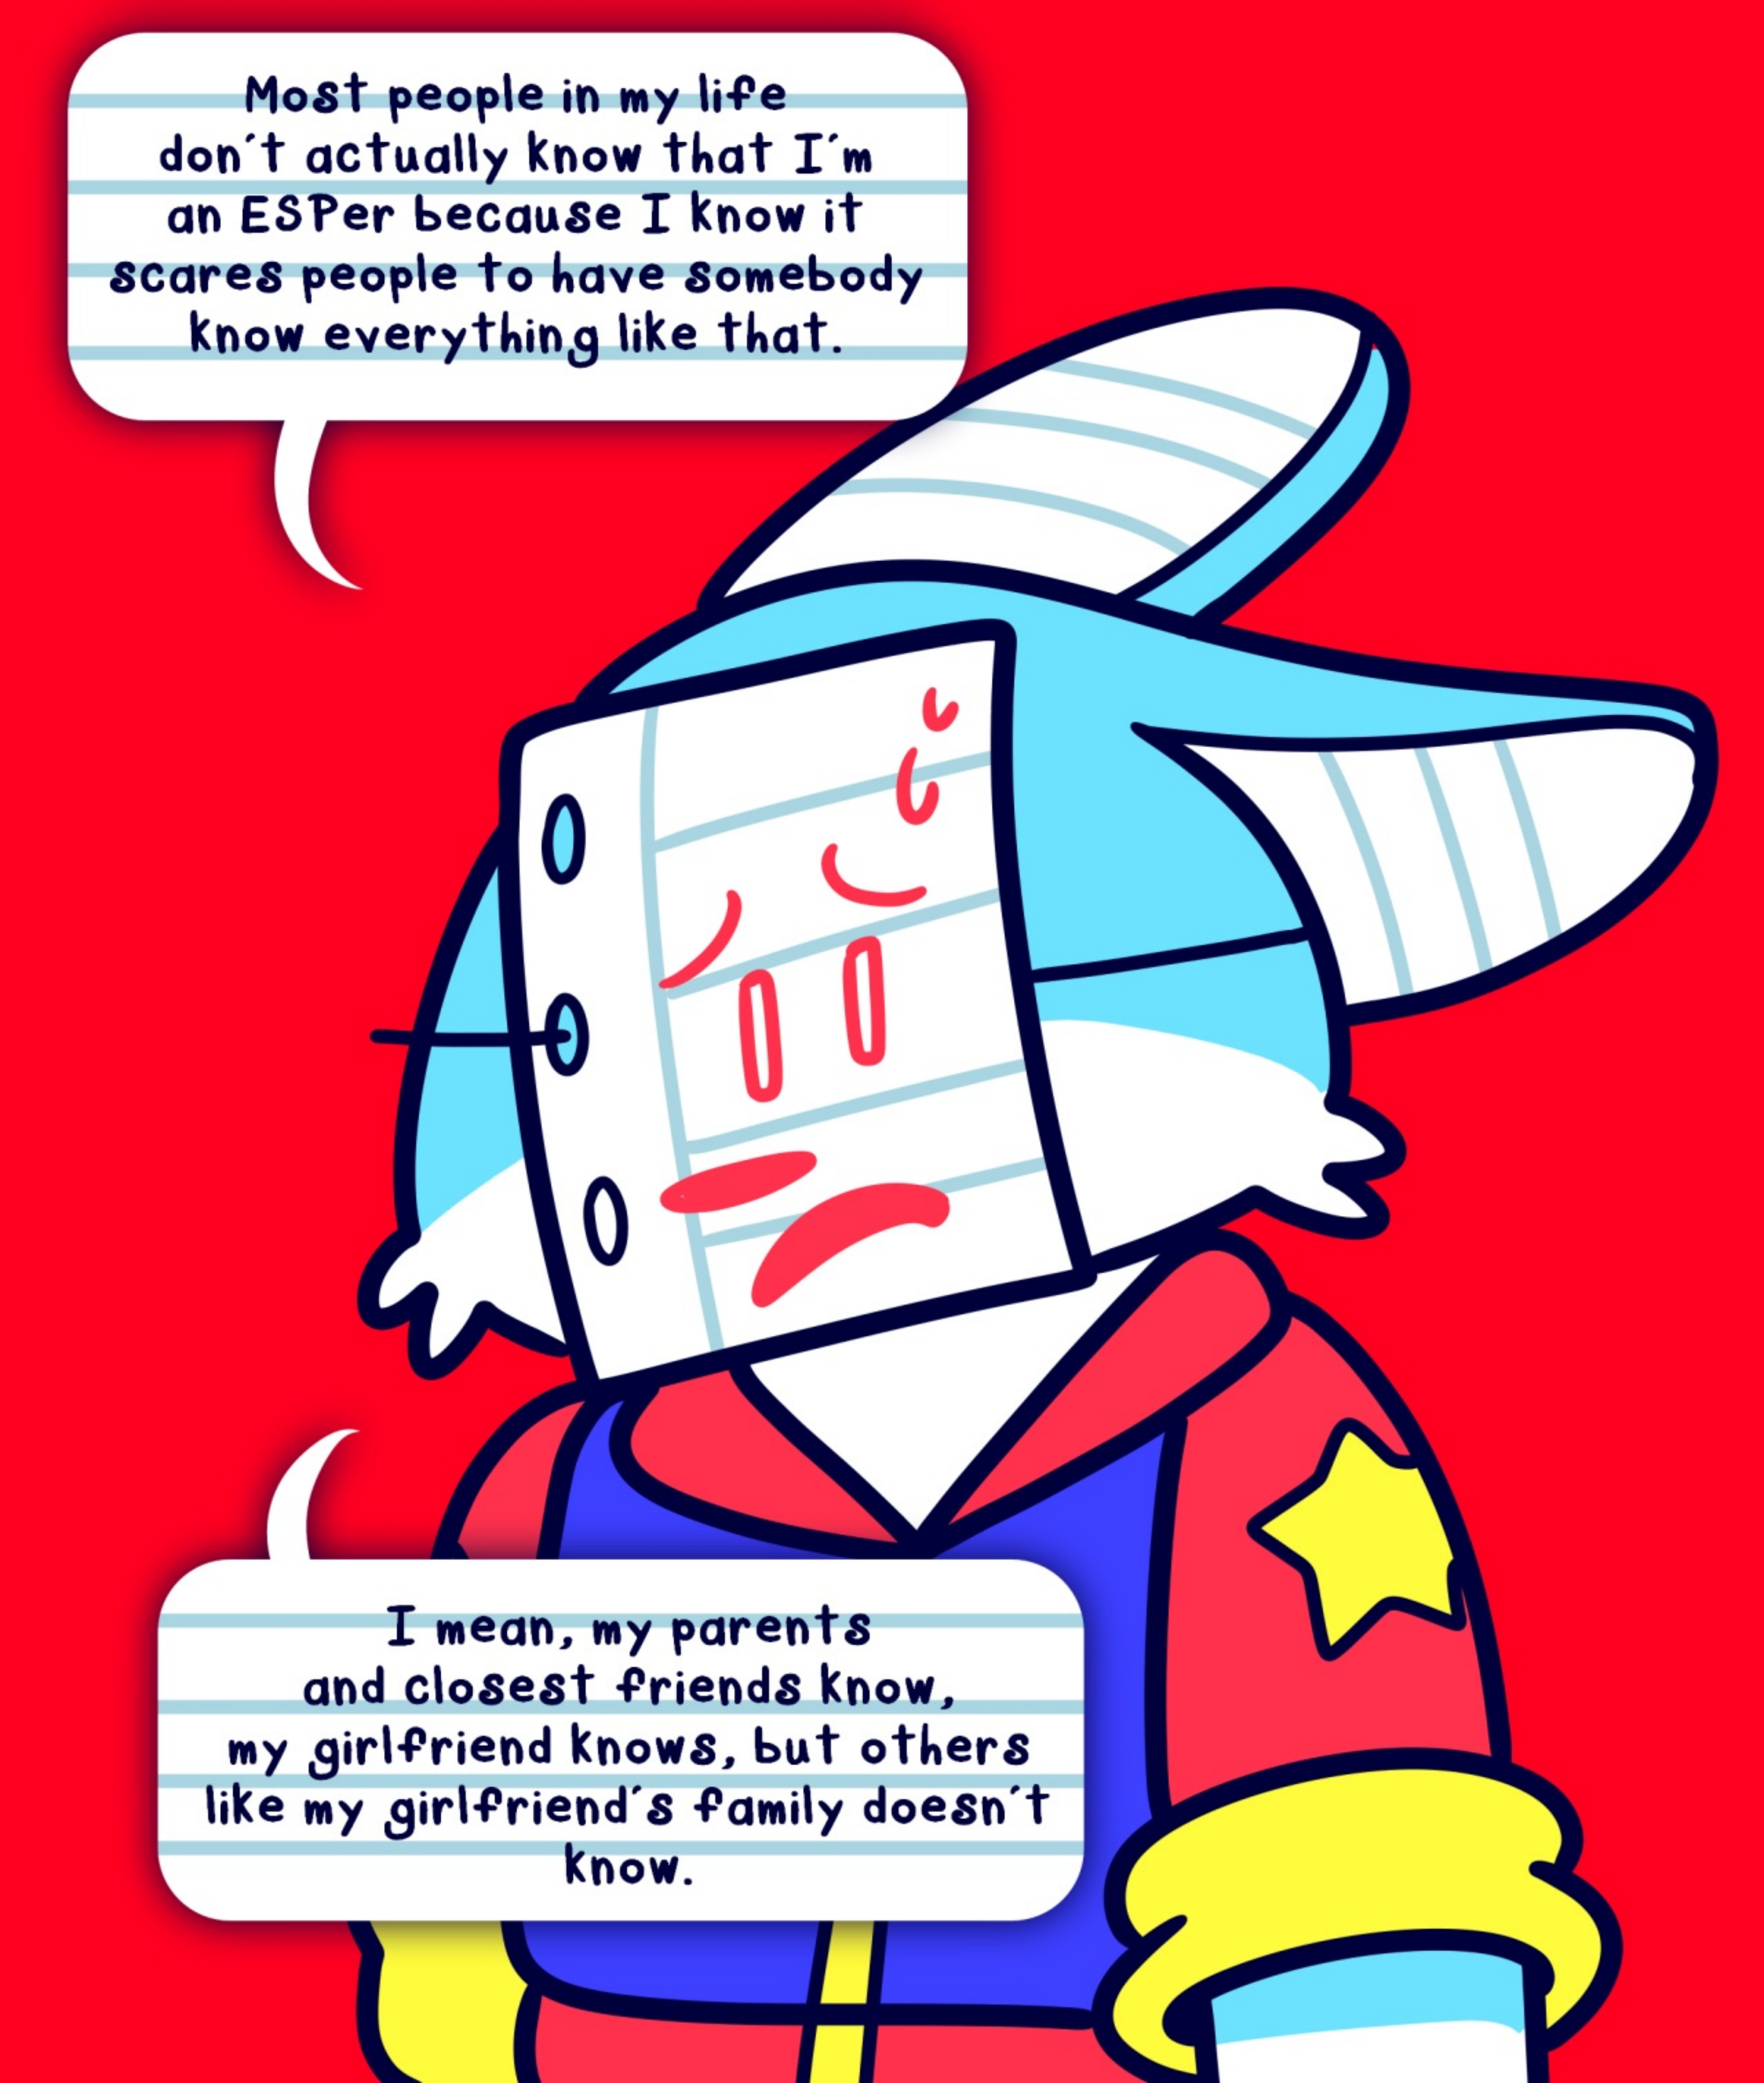
...sometimes it's a huge burden because I know things I shouldn't know...



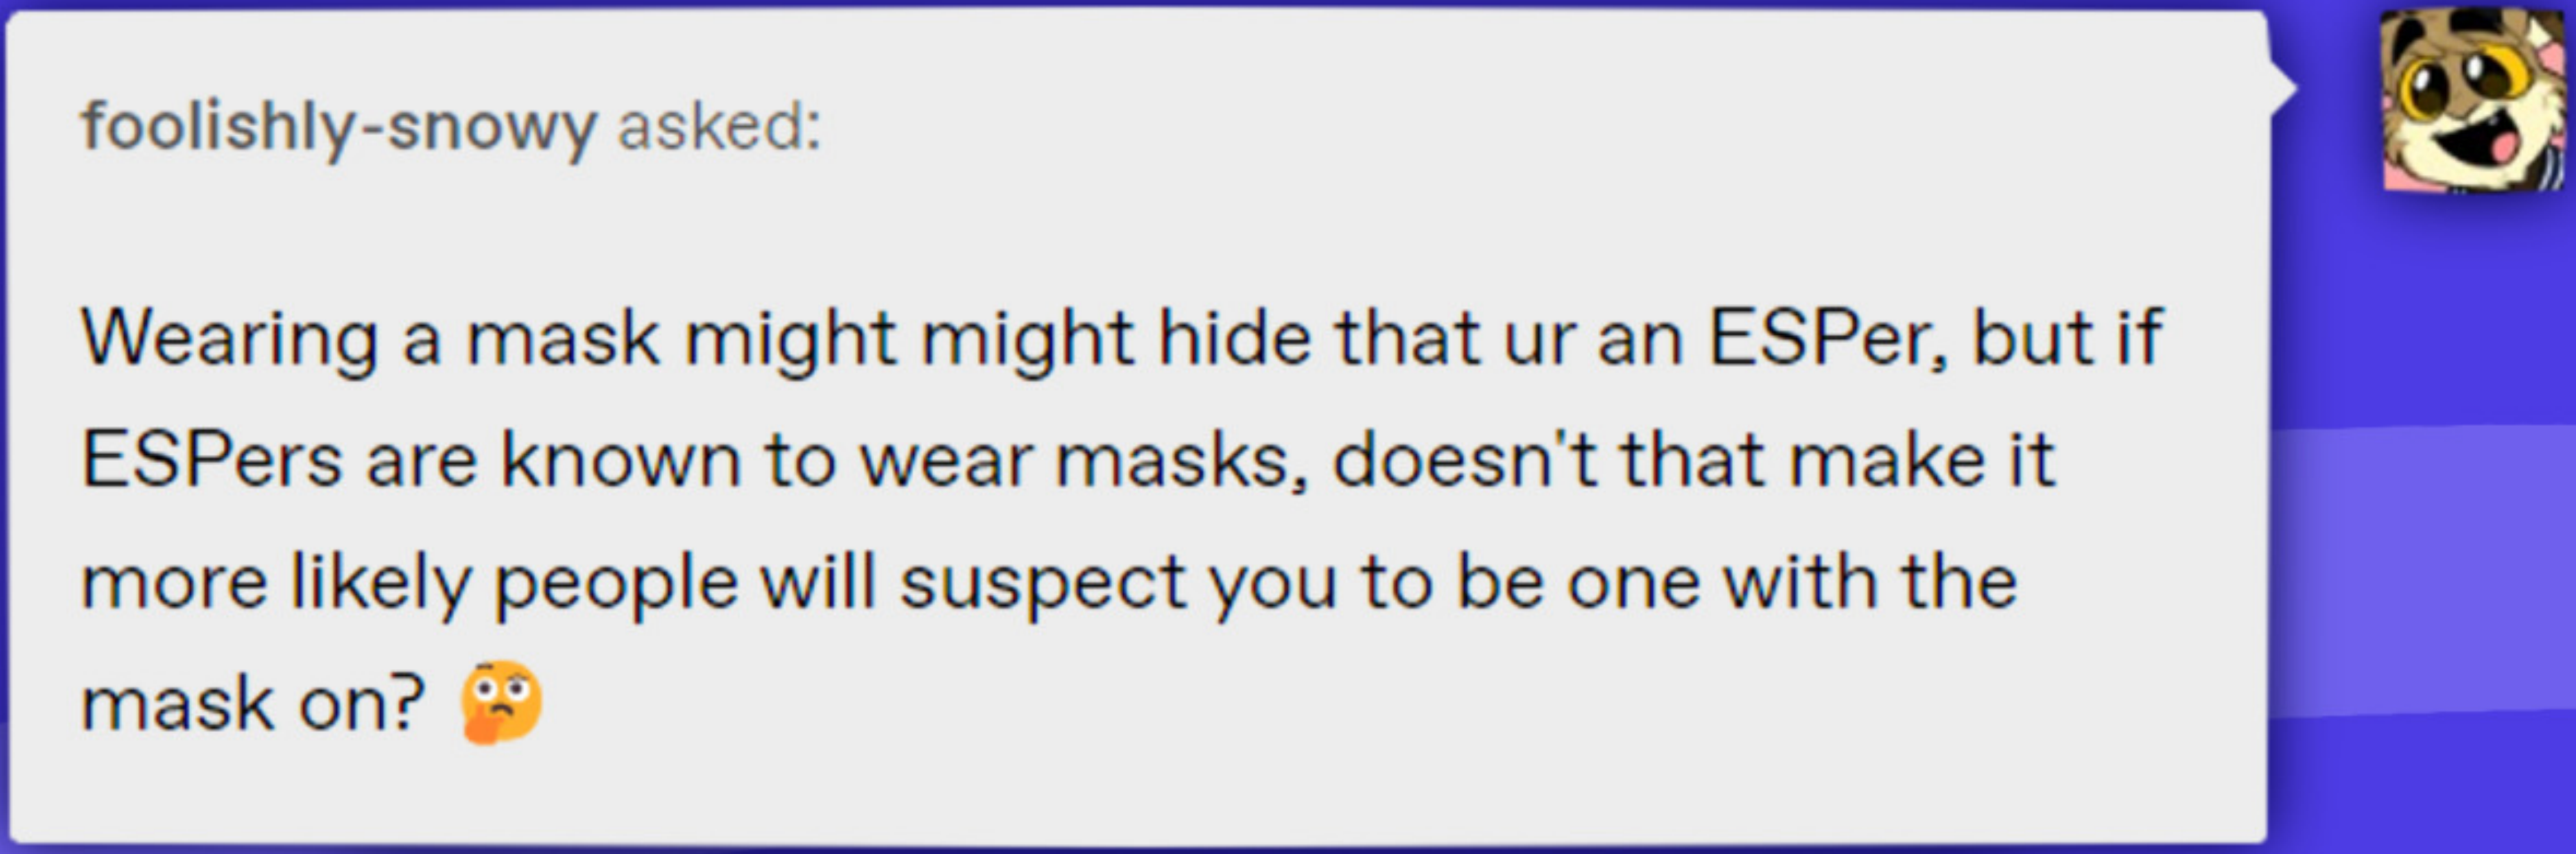
...and sometimes it's a burden because I know things I REALLY shouldn't know.



vanillabeenflower asked:
Like what?
...I don't think you realize how many people out there have dark secrets. Have done bad things, or wanted to do bad things... I have to see it all the moment we meet.
You see, the second I meet somebody, I get an instant "download" of their entire brain-- I learn all of their memories, feelings, secrets, all in one split second. I don't just hear people's thoughts, I can see their whole mind.

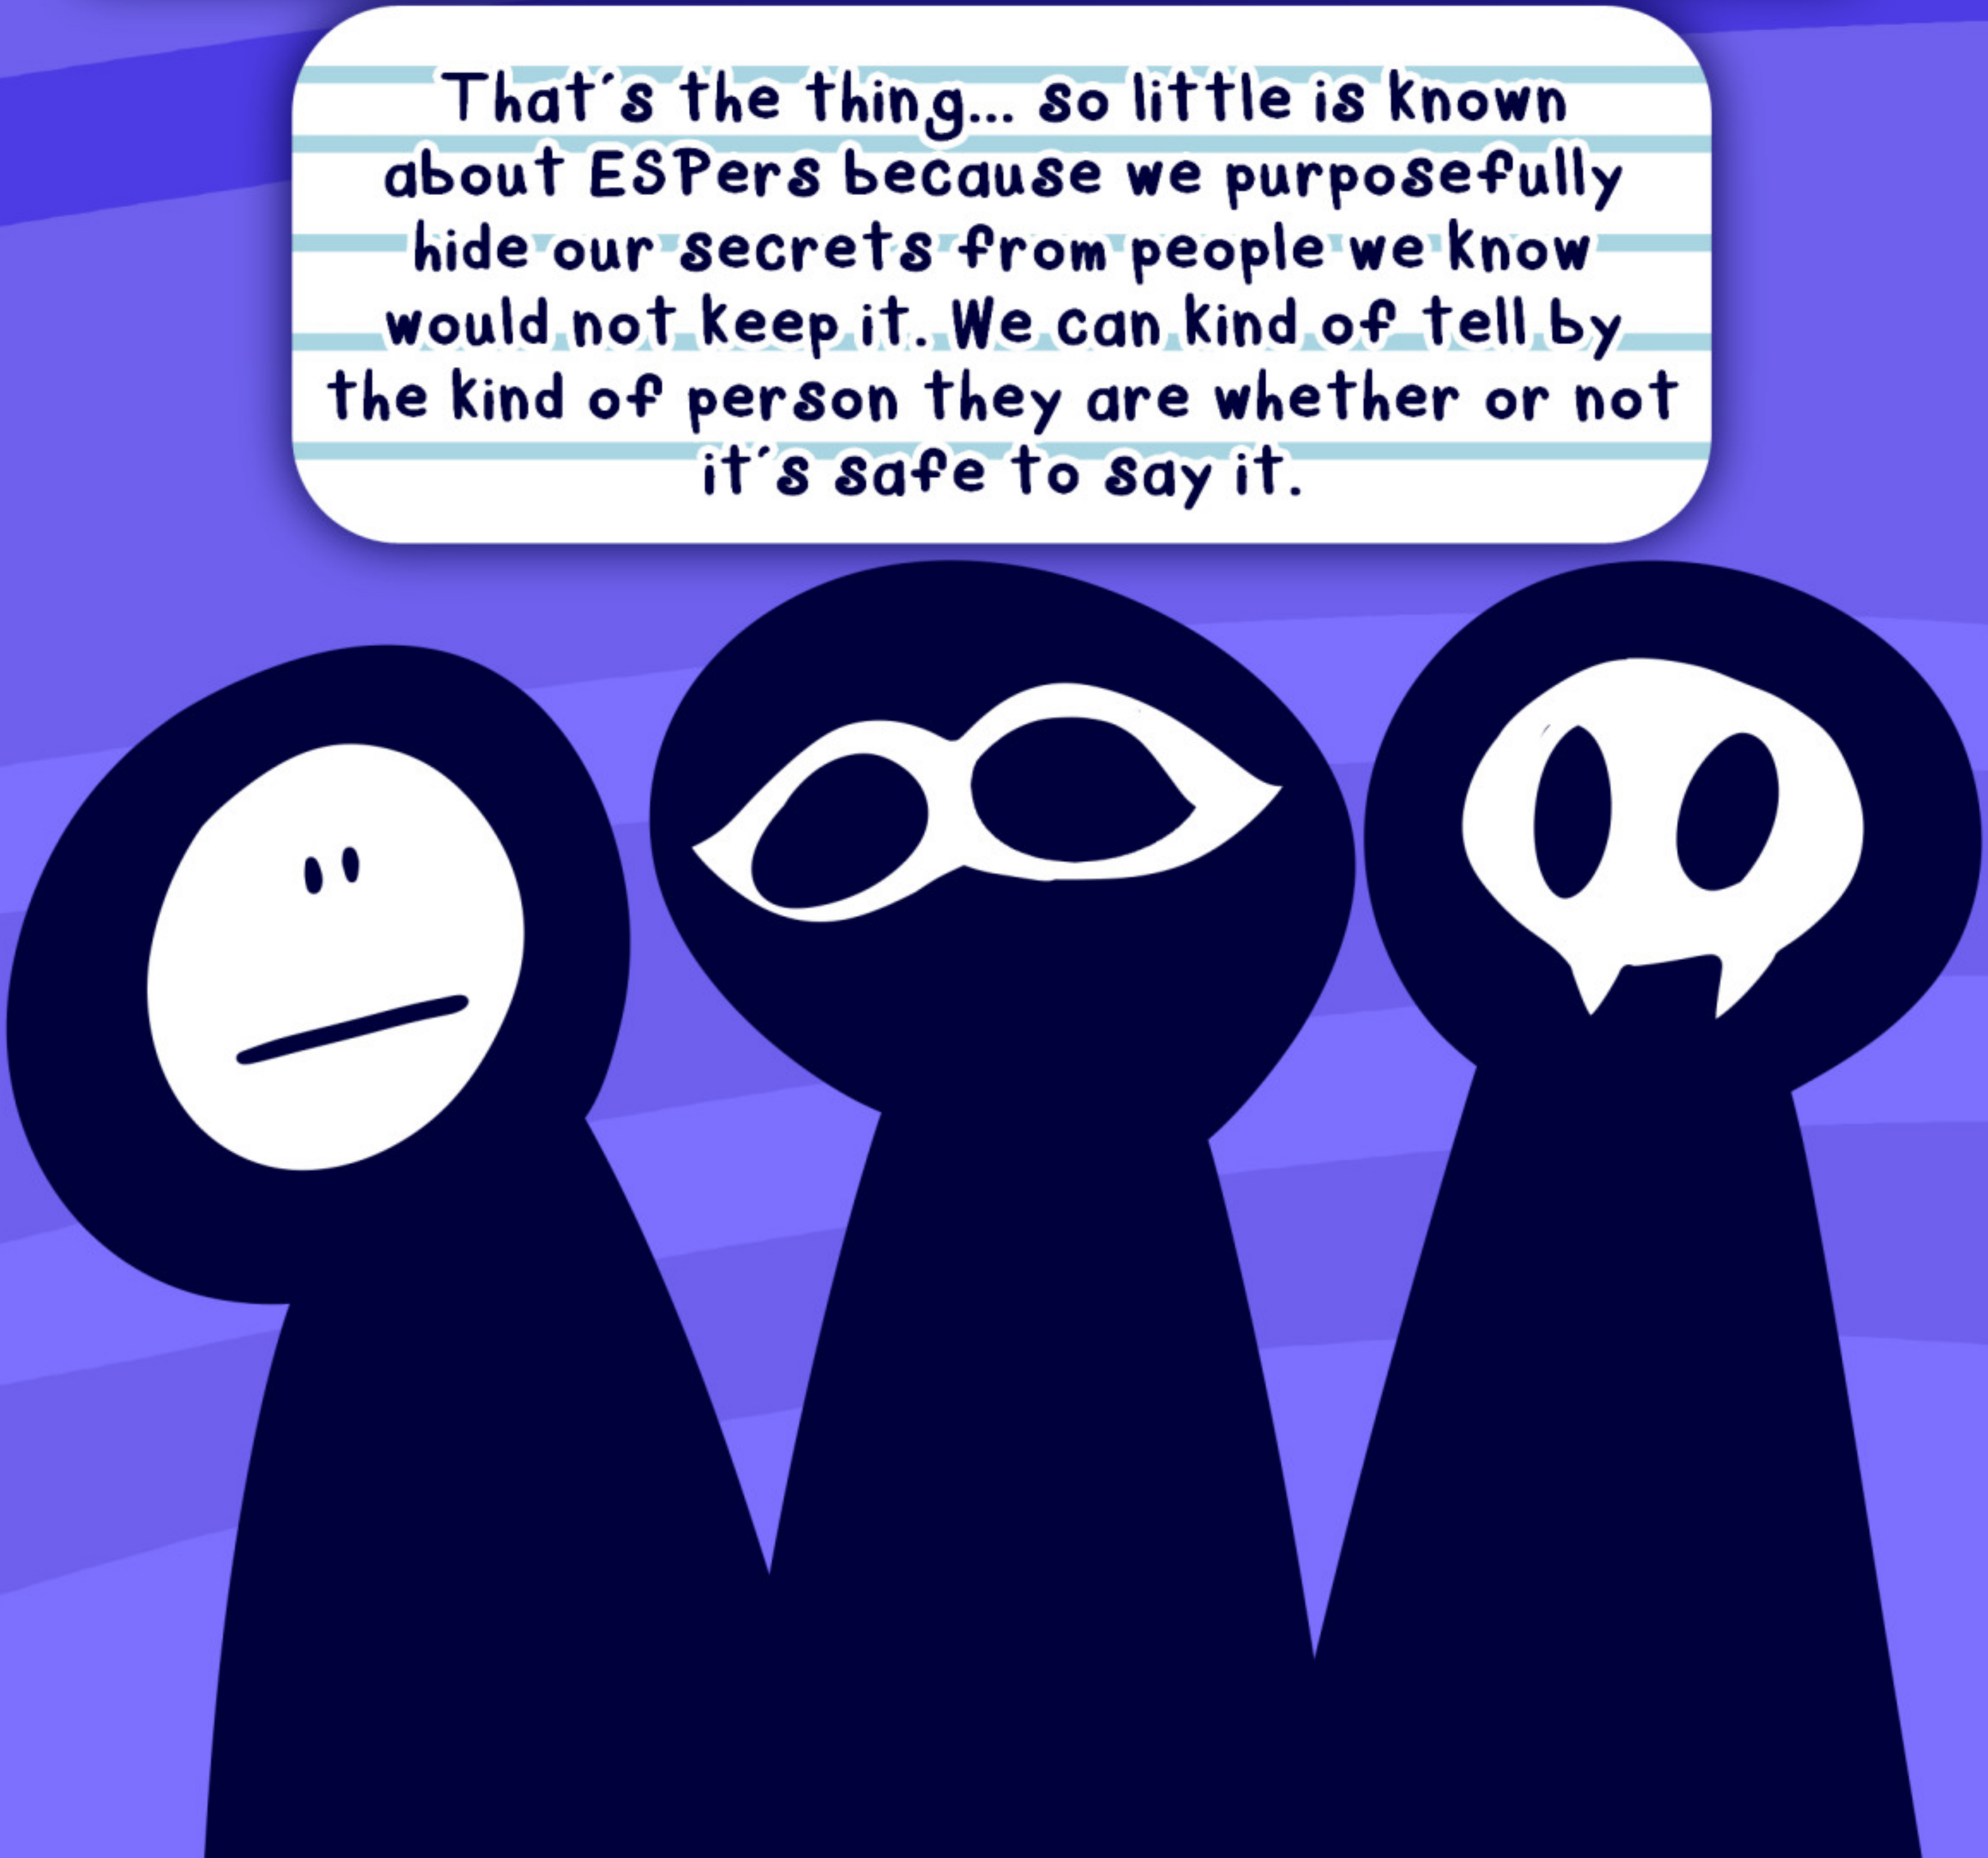


Most people in my life don't actually know that I'm an ESPer because I know it scares people to have somebody know everything like that.
I mean, my parents and closest friends know, my girlfriend knows, but others like my girlfriend's family doesn't know.

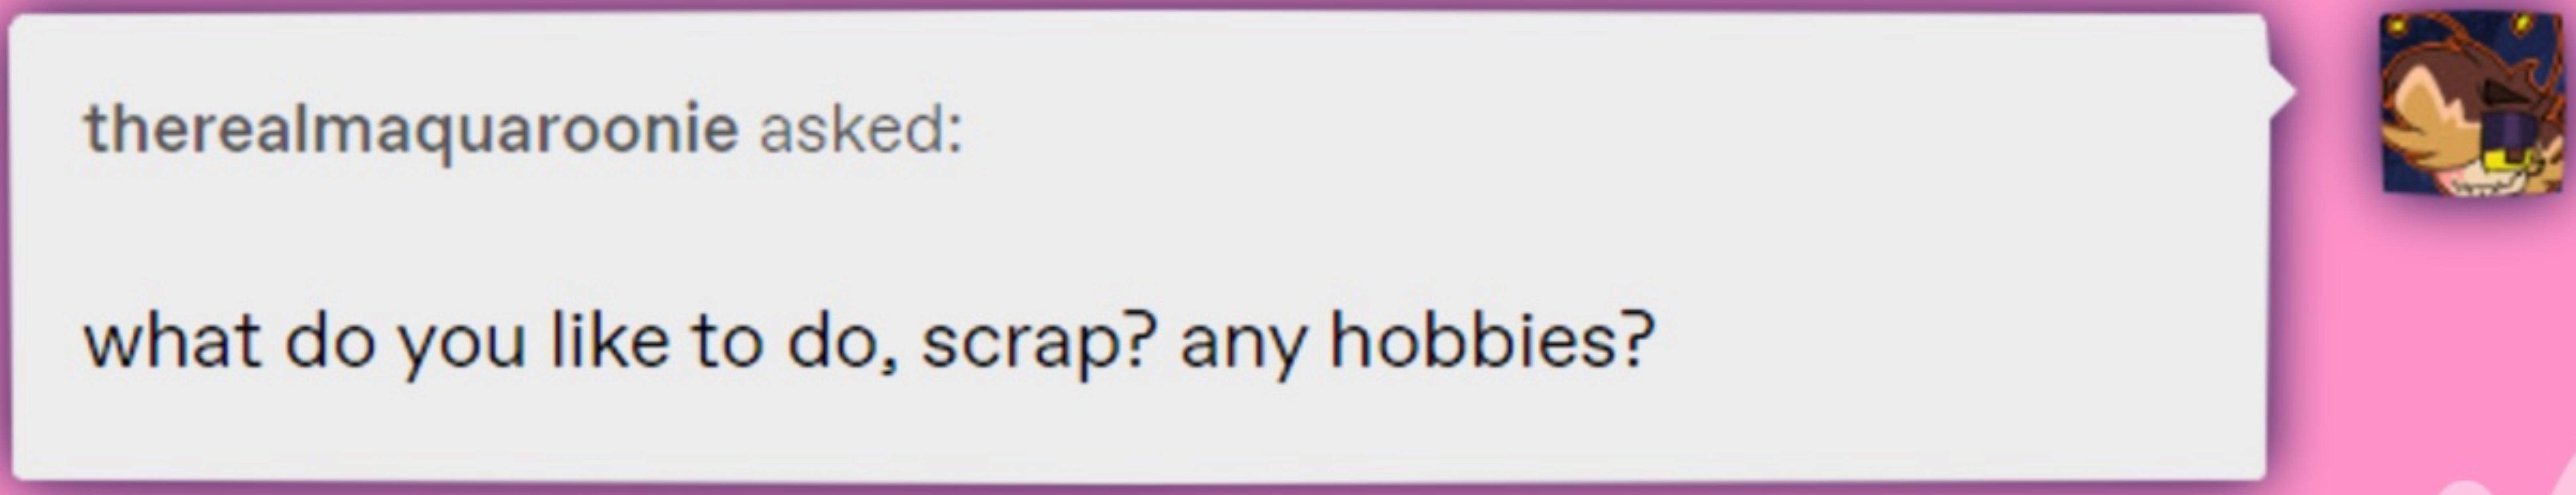


foolishly-snowy asked:

Wearing a mask might might hide that ur an ESPer, but if ESPers are known to wear masks, doesn't that make it more likely people will suspect you to be one with the mask on? 🤔

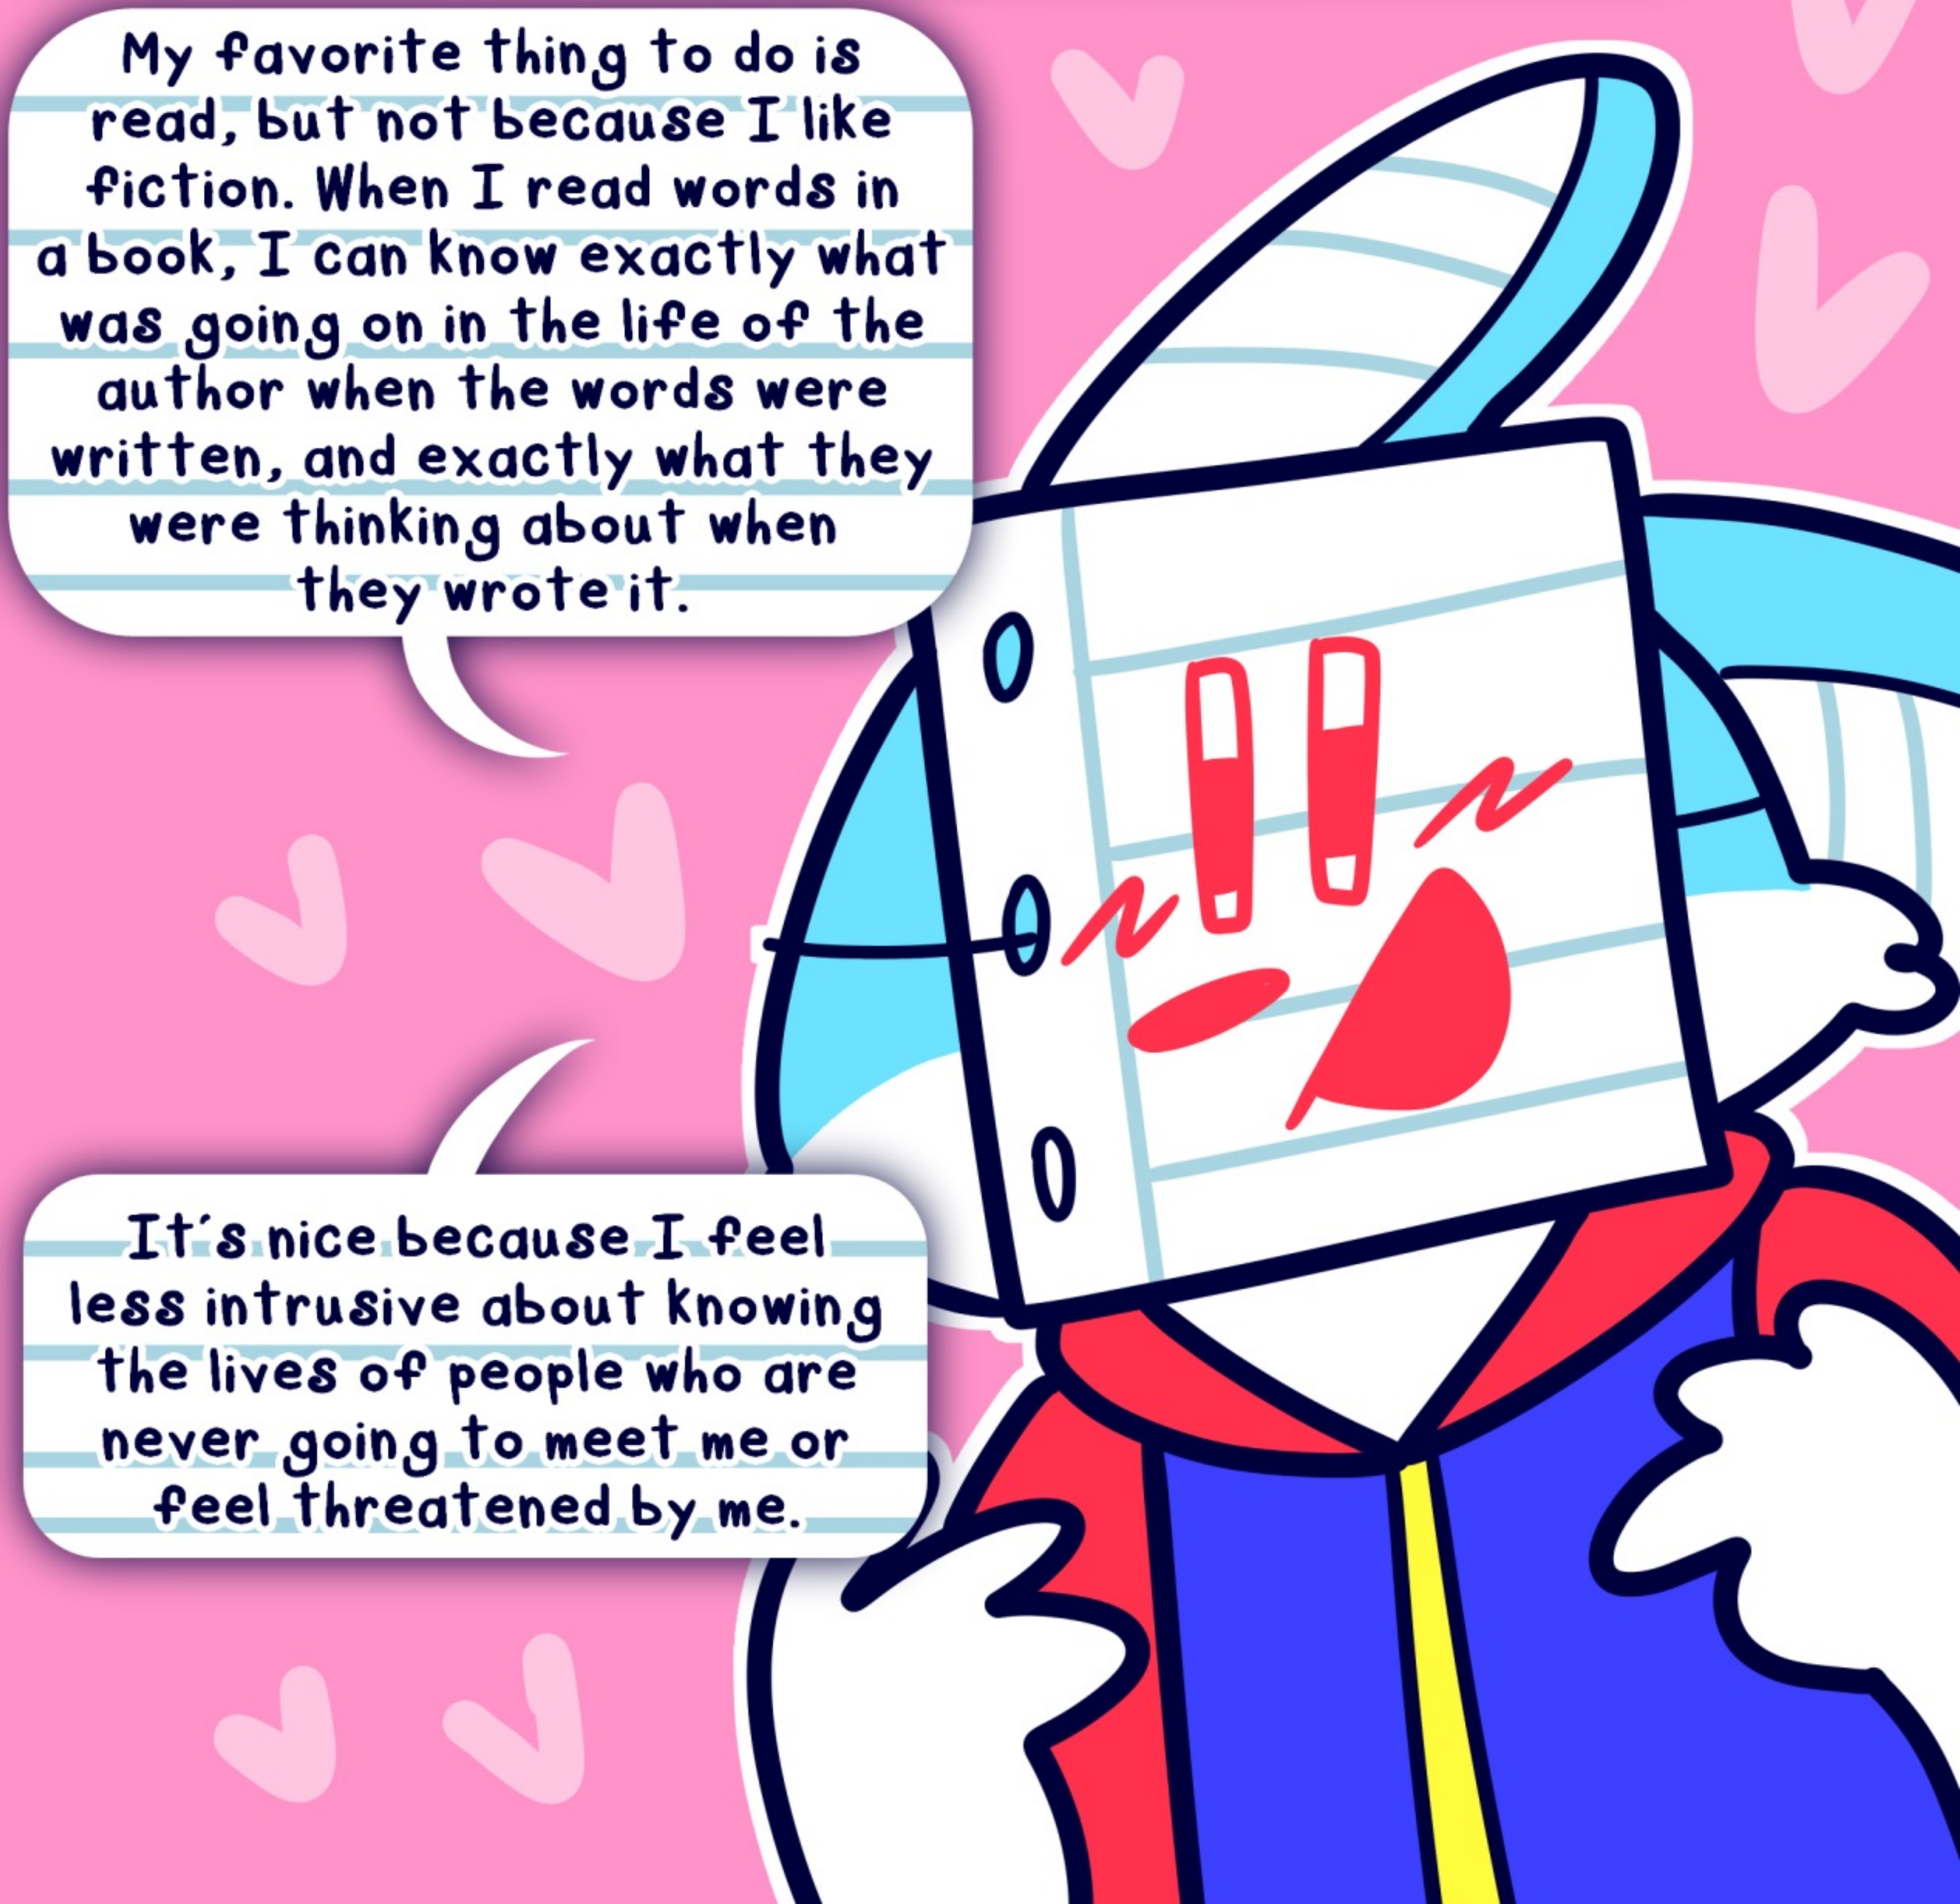


That's the thing... so little is known about ESPers because we purposefully hide our secrets from people we know would not keep it. We can kind of tell by the kind of person they are whether or not it's safe to say it.

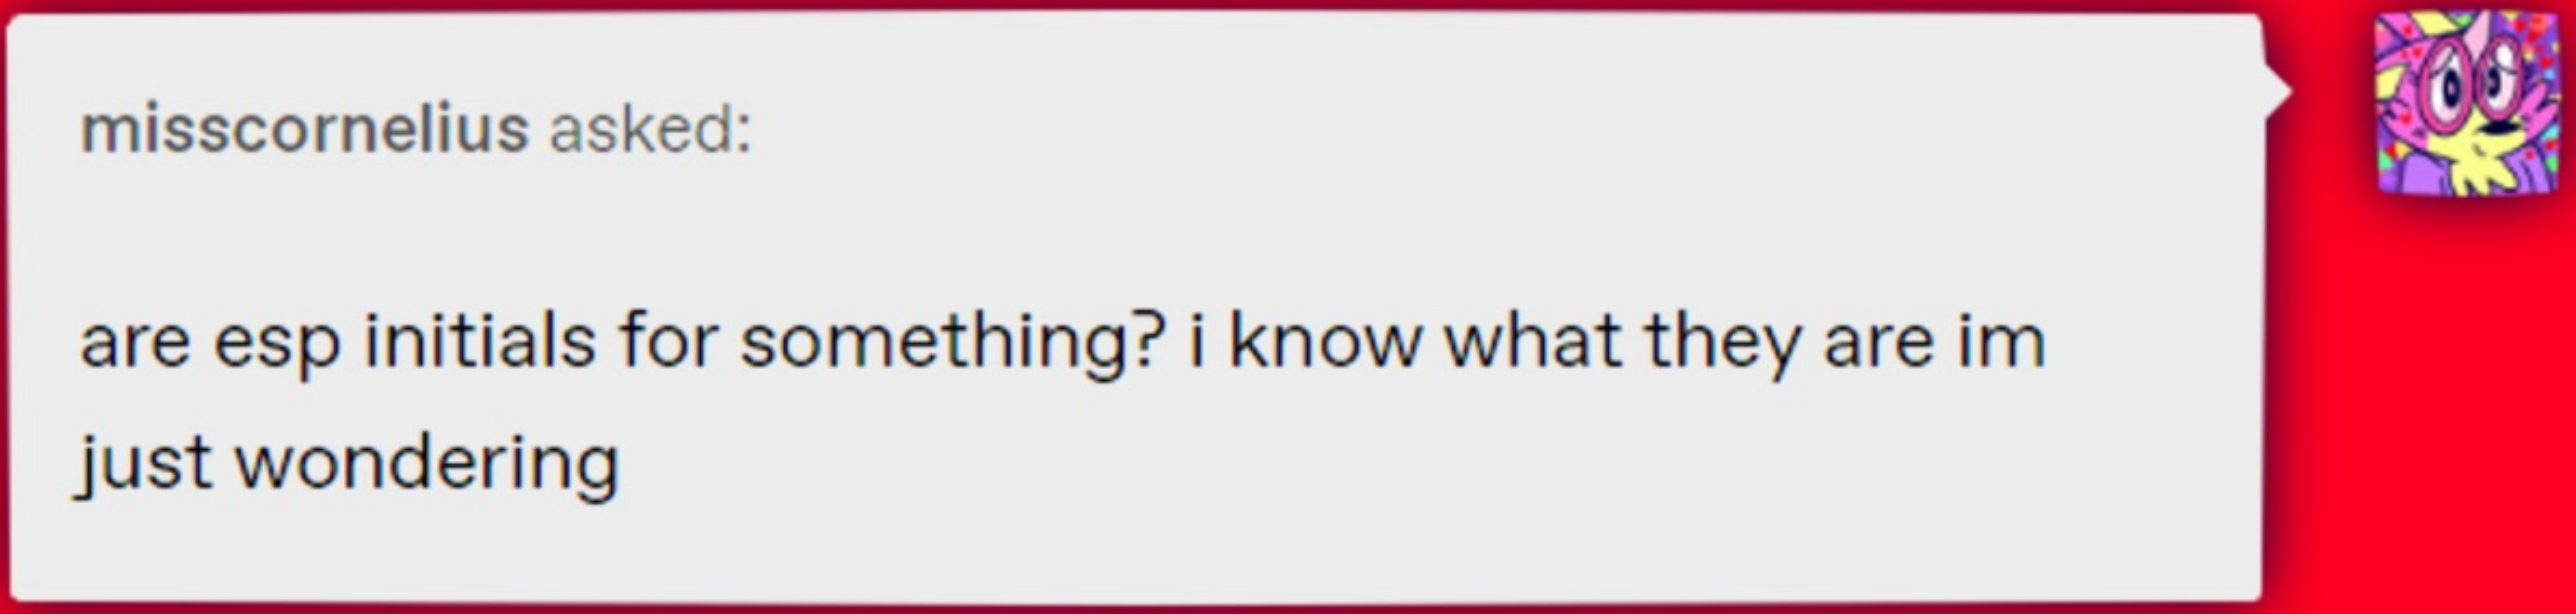


therealmaquaroonie asked:

what do you like to do, scrap? any hobbies?

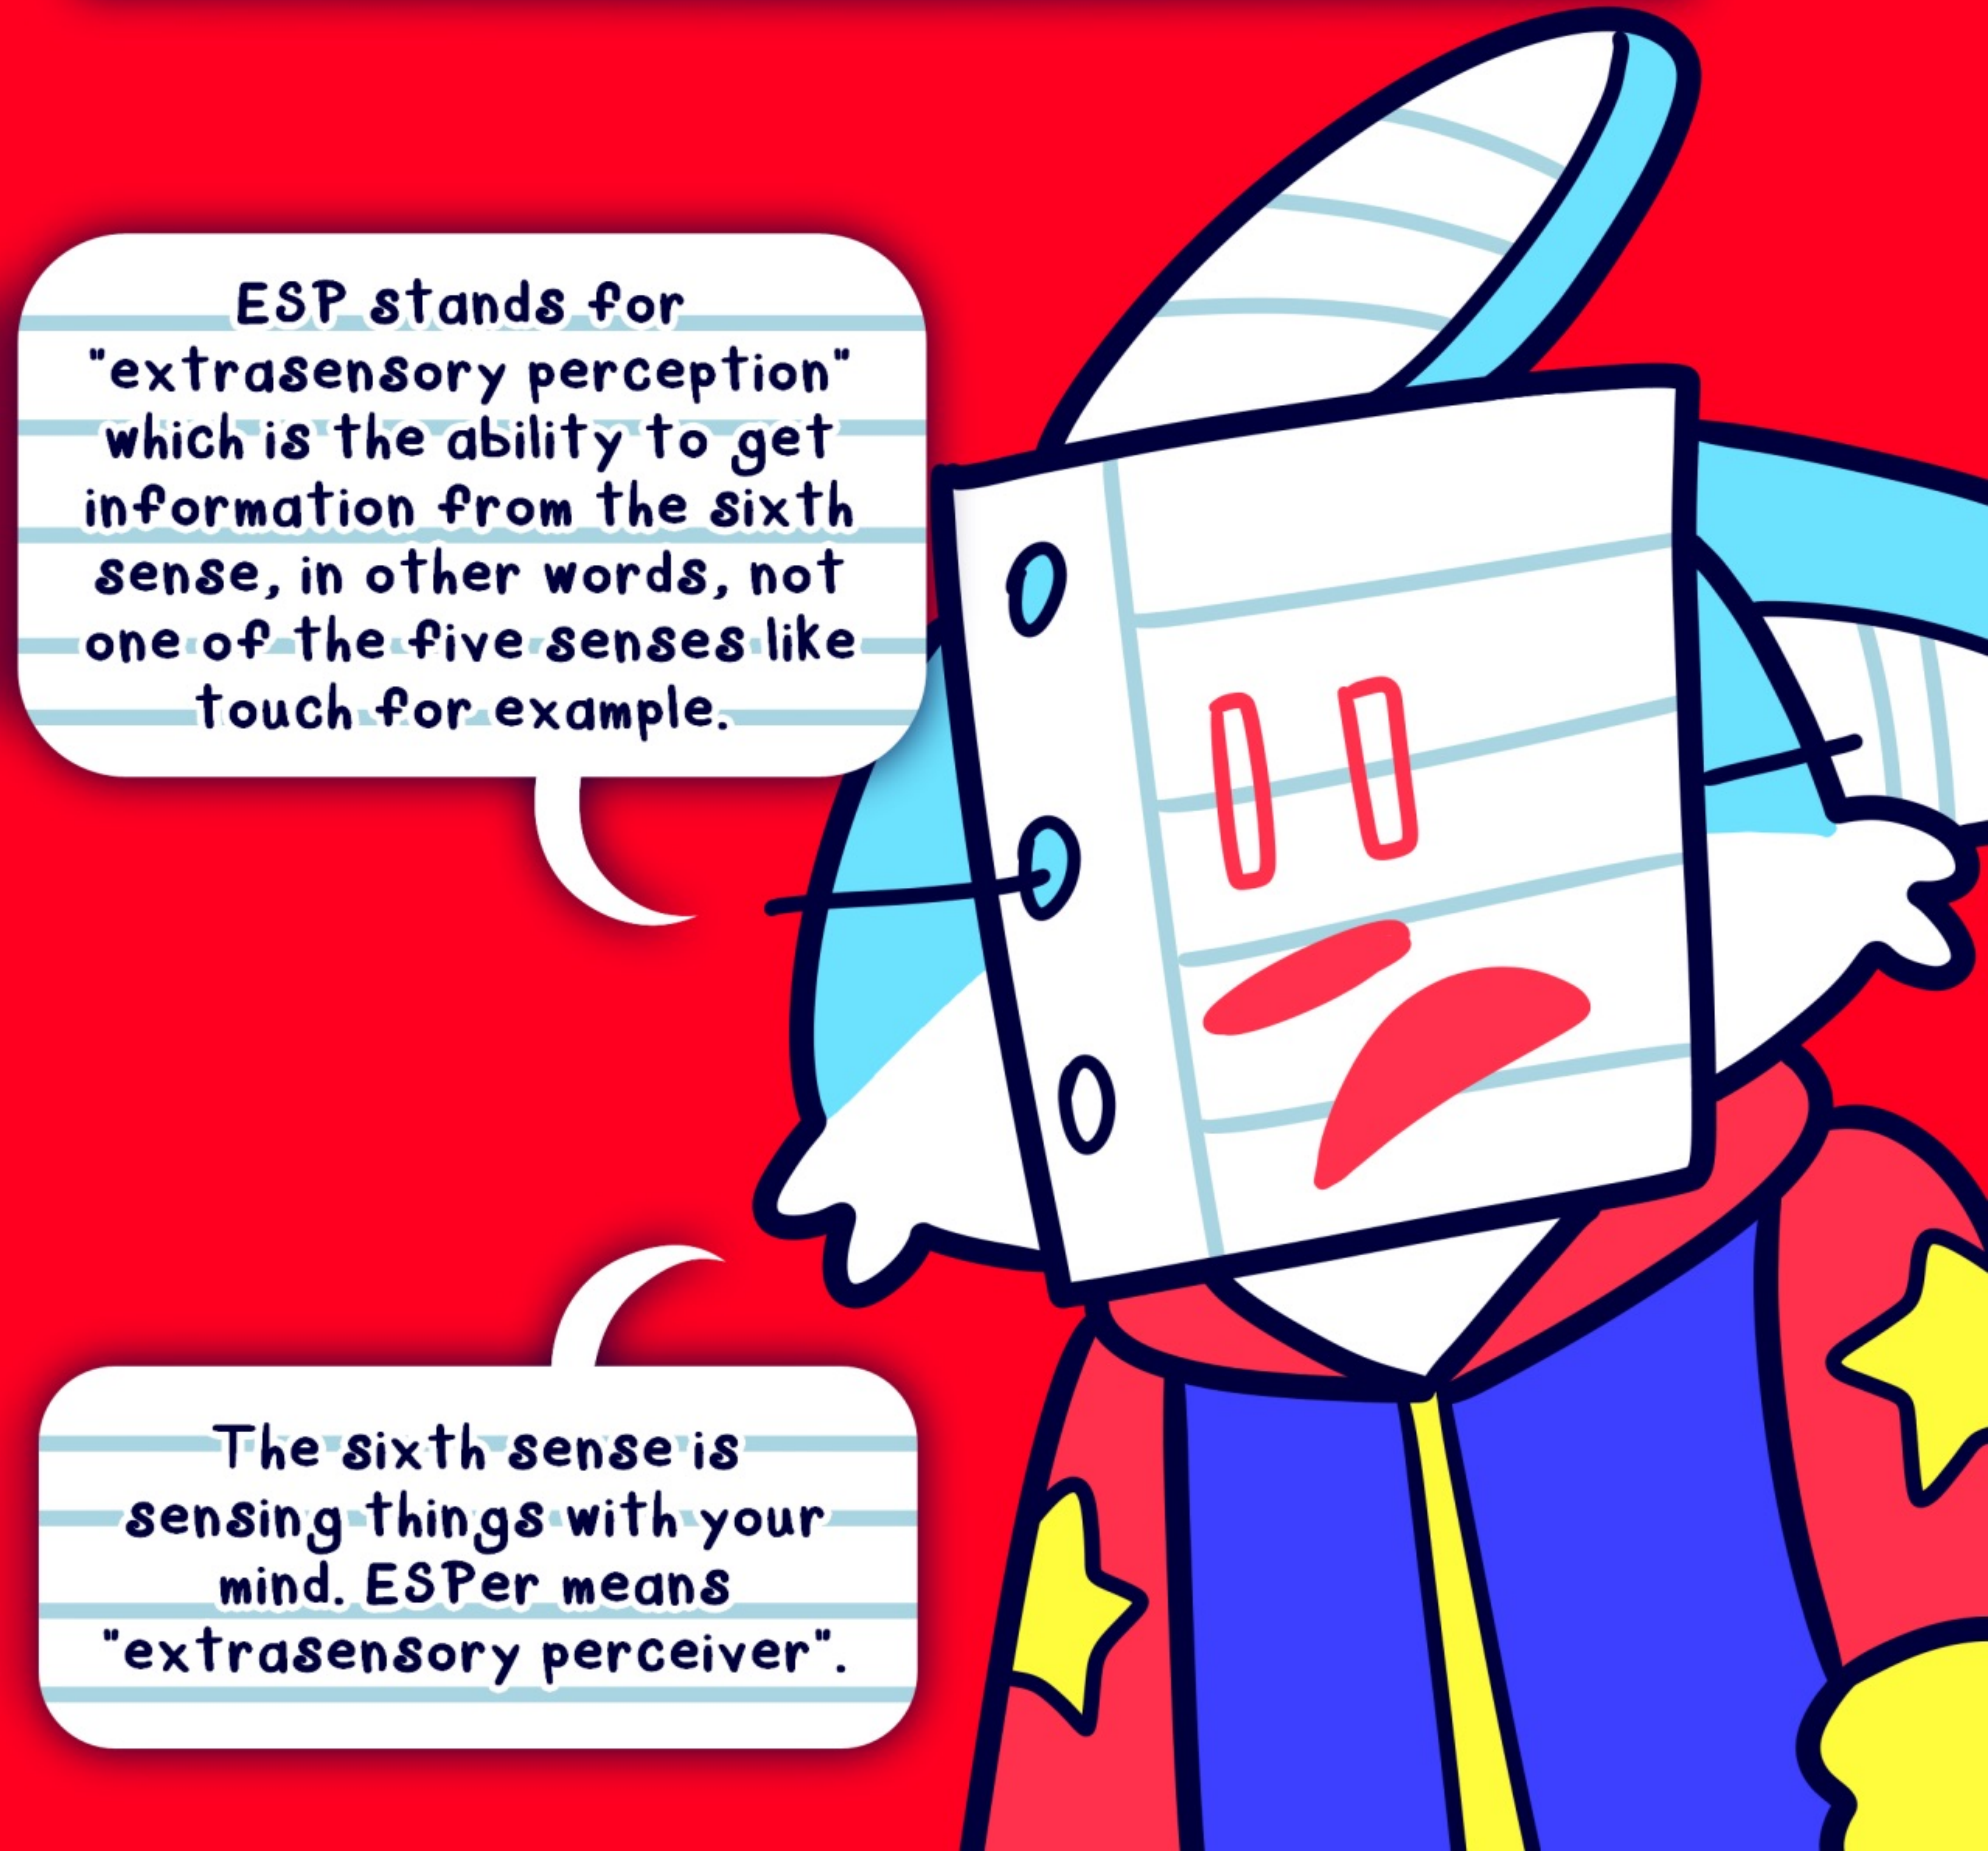


My favorite thing to do is read, but not because I like fiction. When I read words in a book, I can know exactly what was going on in the life of the author when the words were written, and exactly what they were thinking about when they wrote it.
It's nice because I feel less intrusive about knowing the lives of people who are never going to meet me or feel threatened by me.

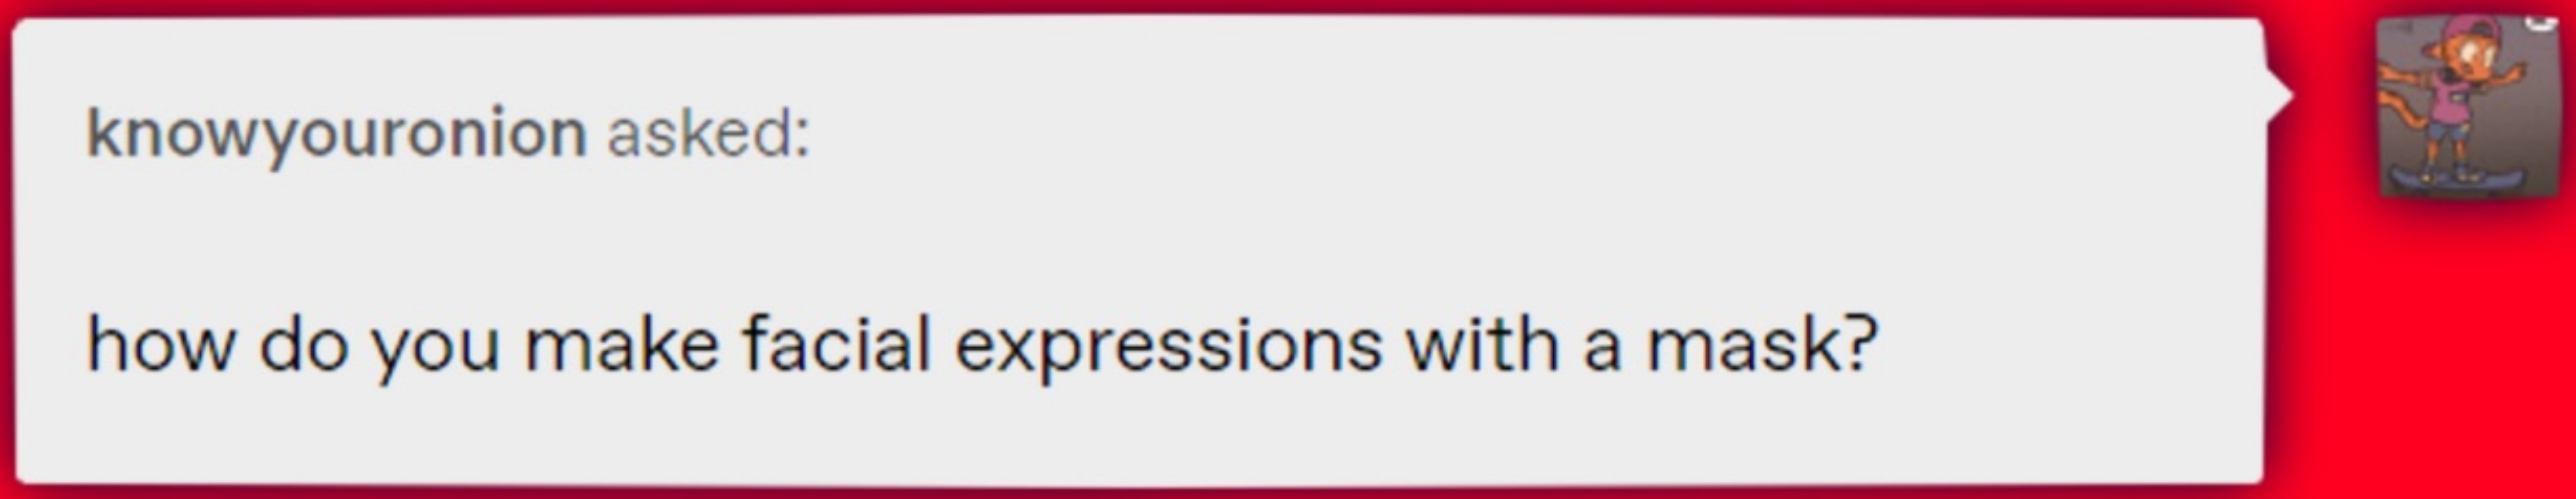


misscornelius asked:

are esp initials for something? i know what they are im just wondering

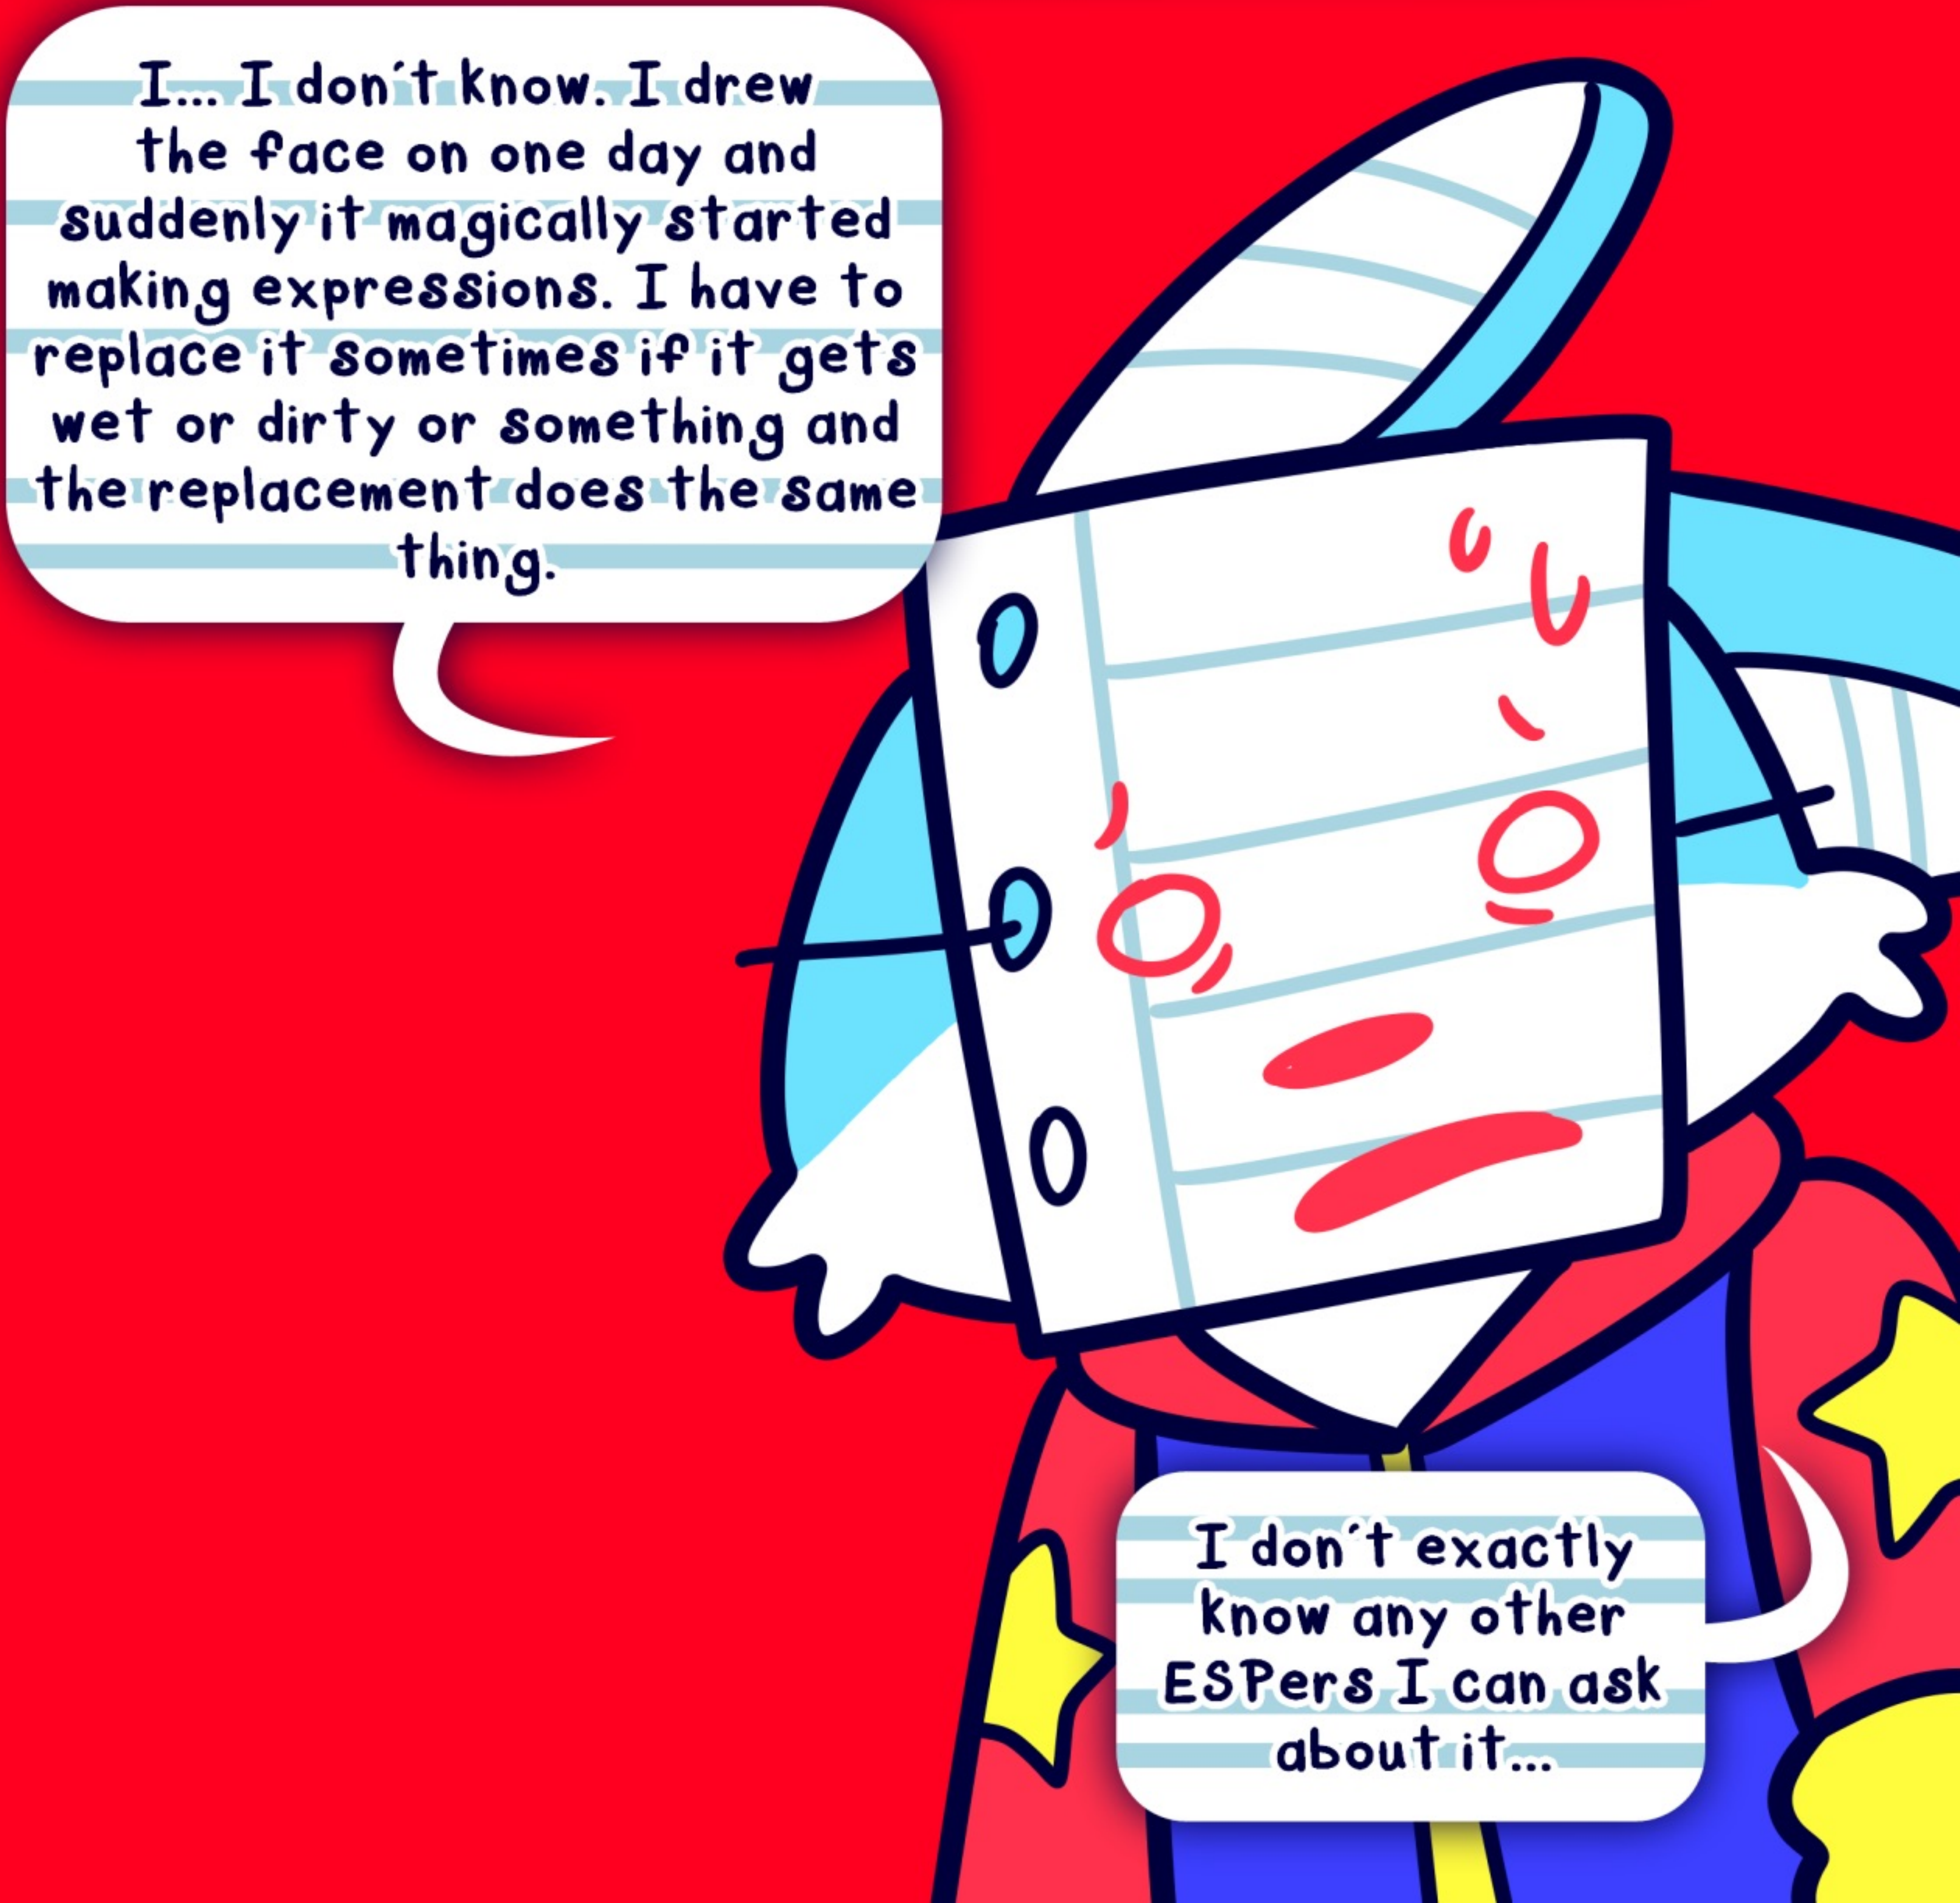


ESP stands for "extrasensory perception" which is the ability to get information from the sixth sense, in other words, not one of the five senses like touch for example.
The sixth sense is sensing things with your mind. ESPer means "extrasensory perceiver".

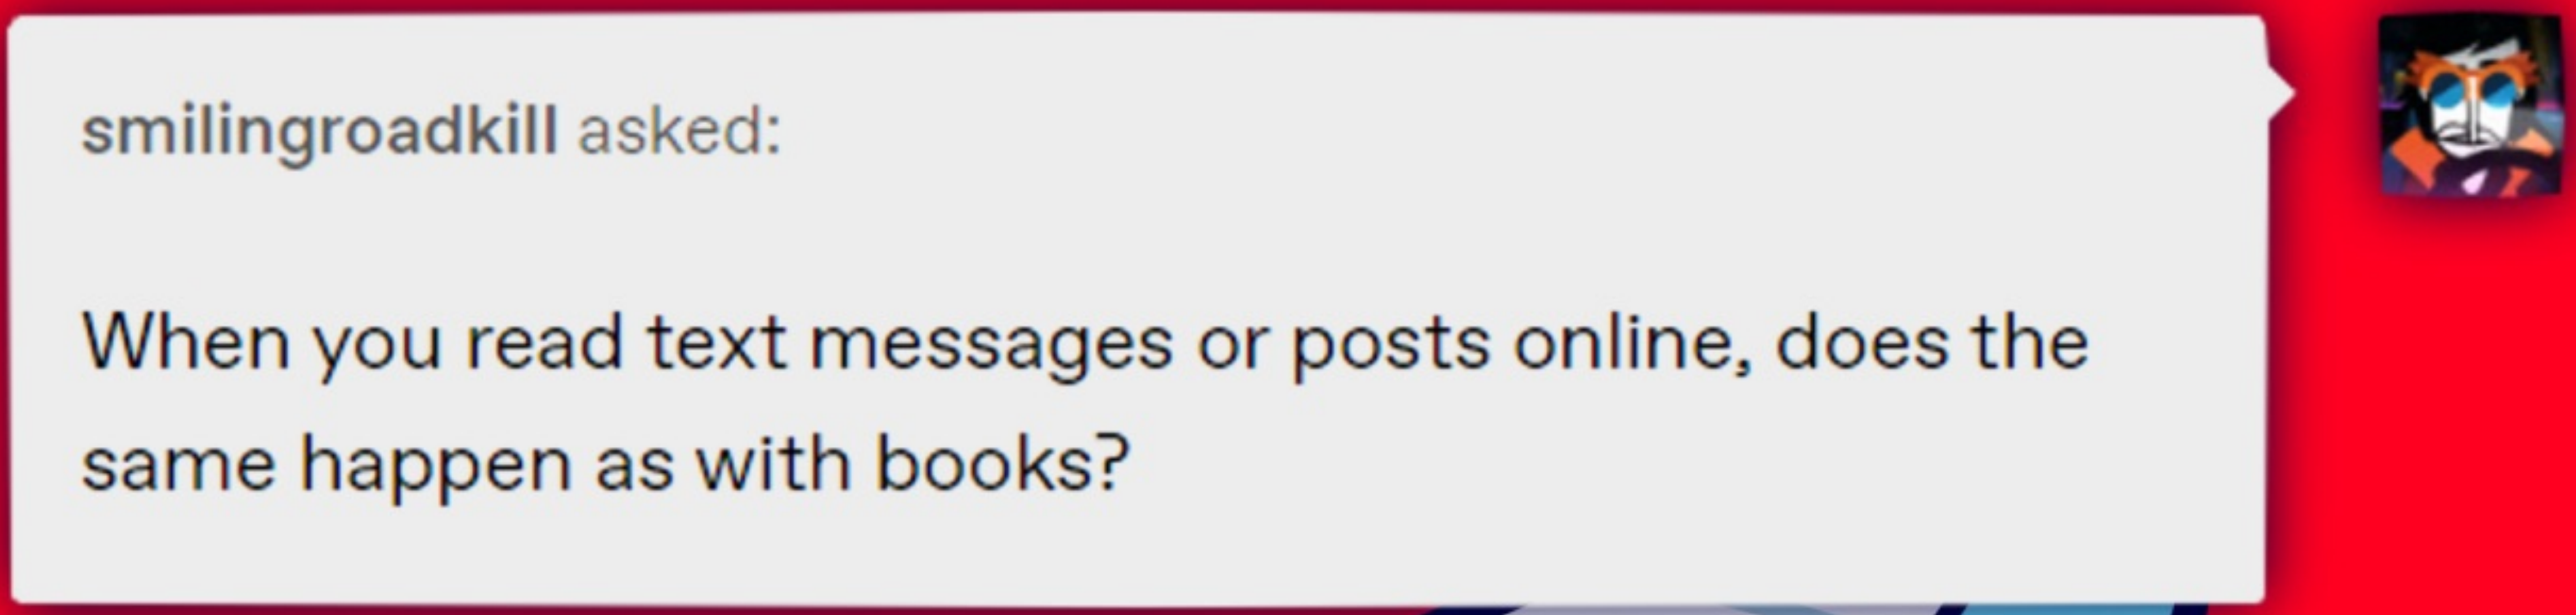


knowyouronion asked:

how do you make facial expressions with a mask?

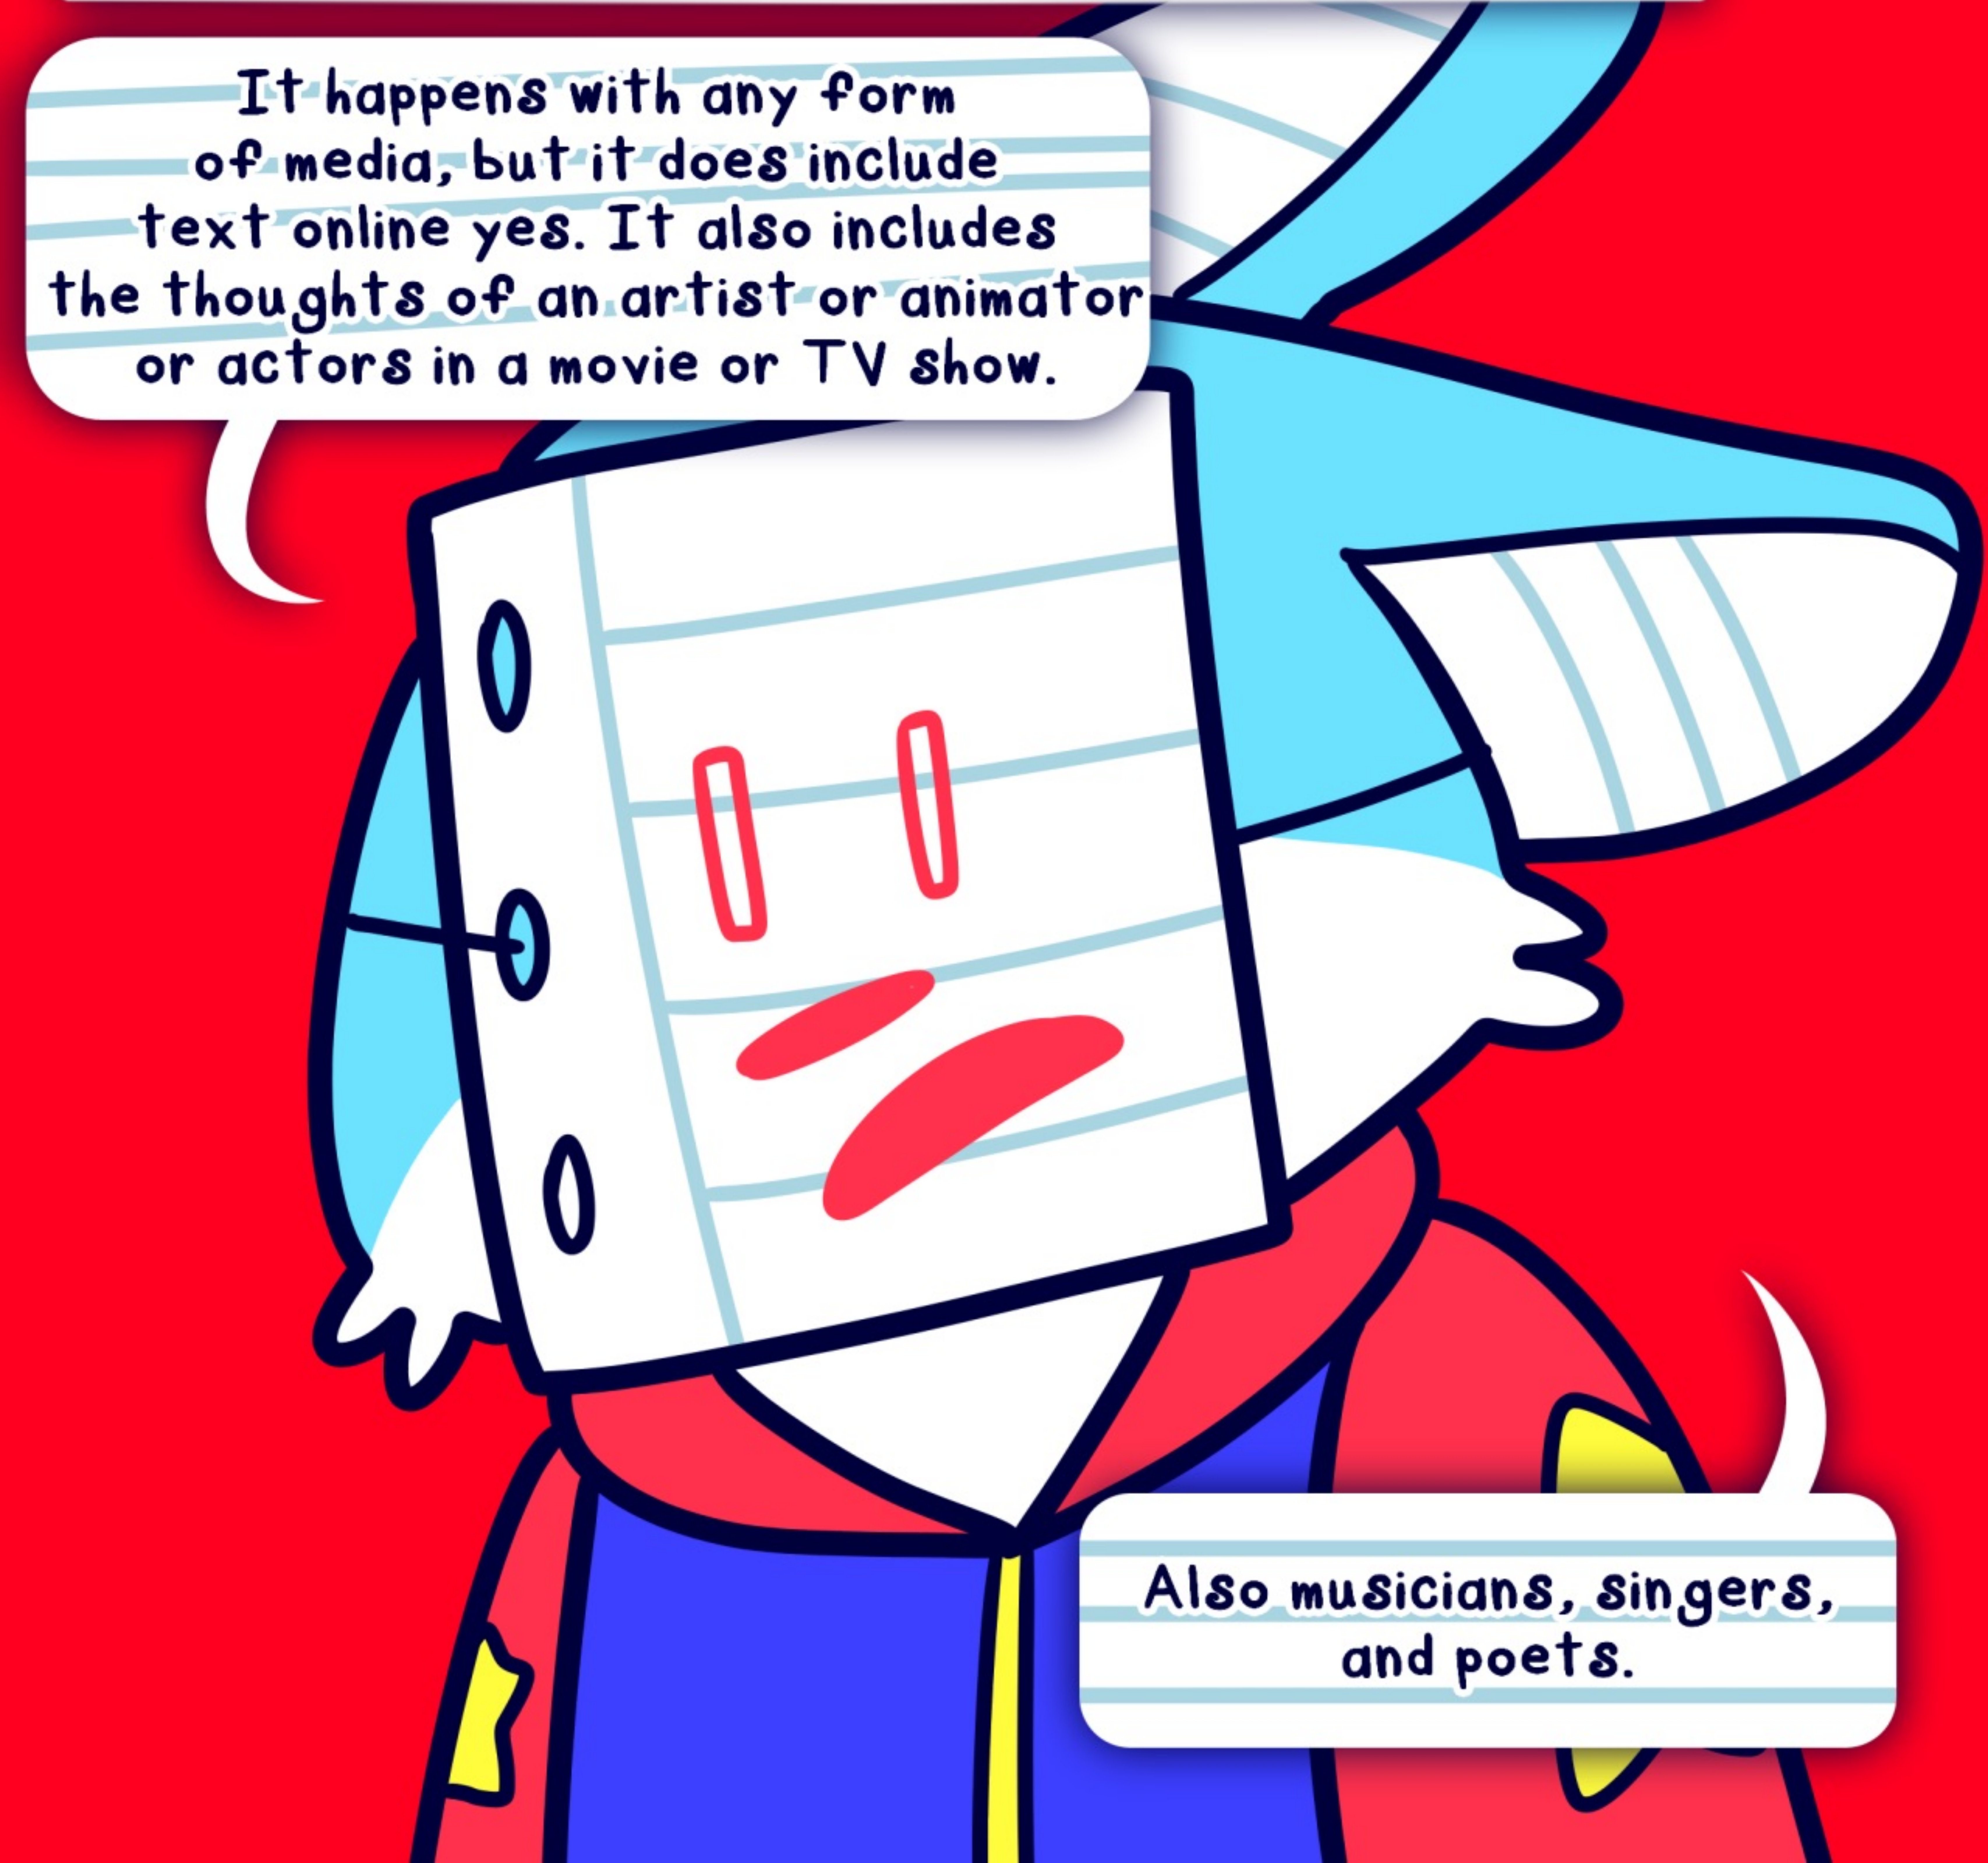


I... I don't know. I drew the face on one day and suddenly it magically started making expressions. I have to replace it sometimes if it gets wet or dirty or something and the replacement does the same thing.
I don't exactly know any other ESPers I can ask about it...

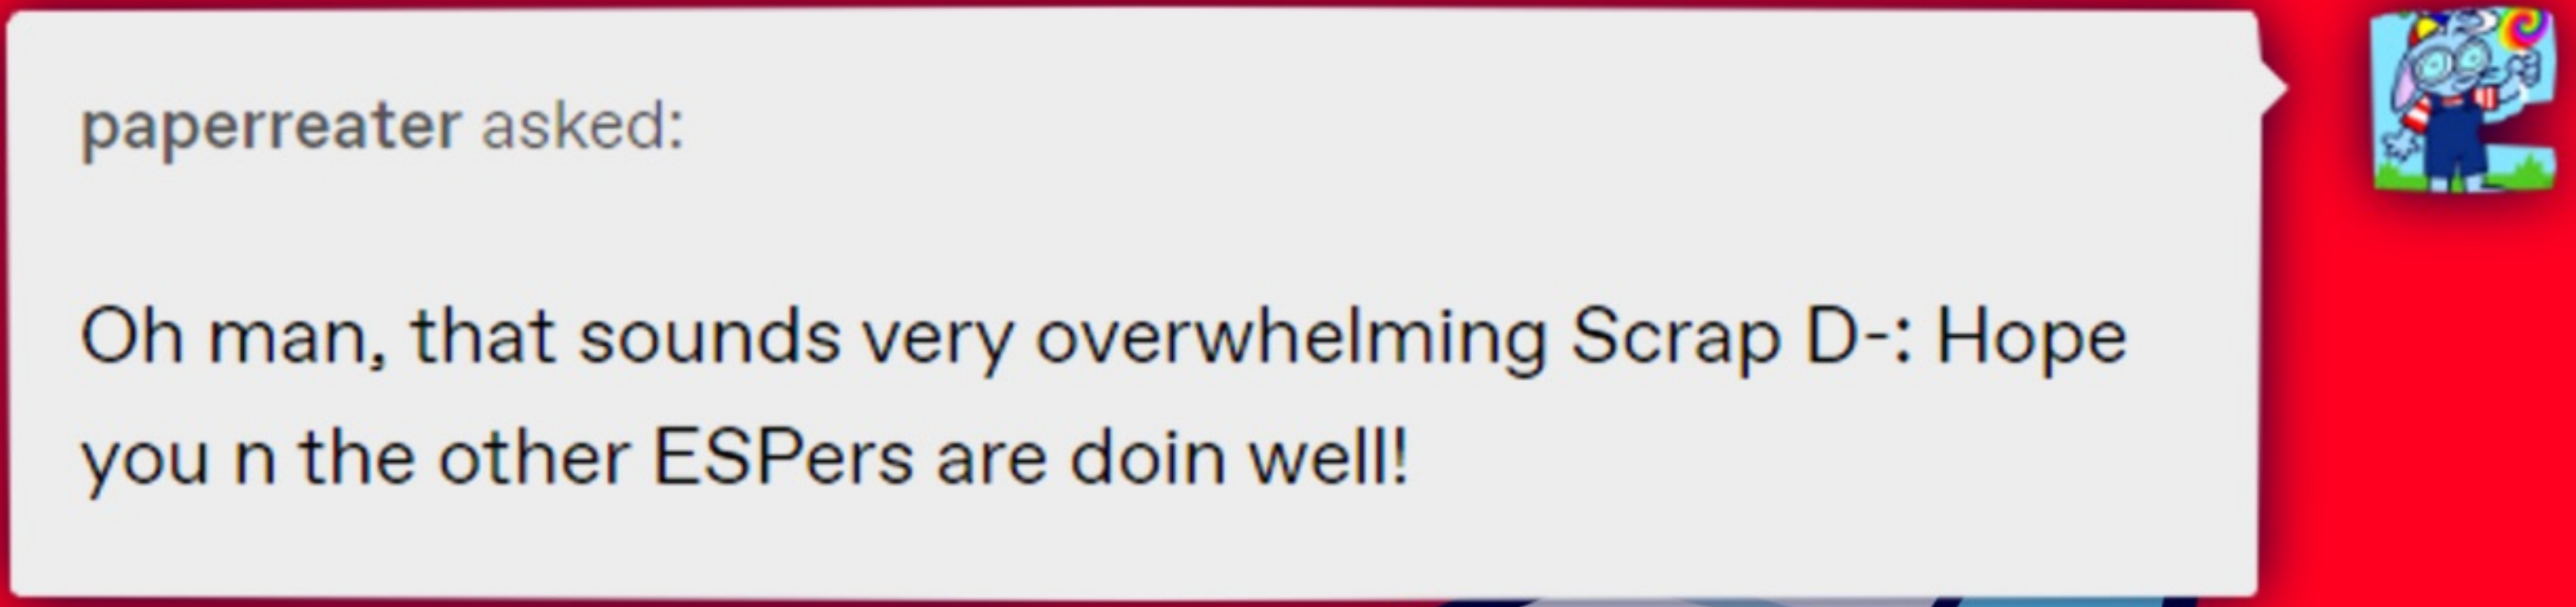


smilingroadkill asked:

When you read text messages or posts online, does the same happen as with books?

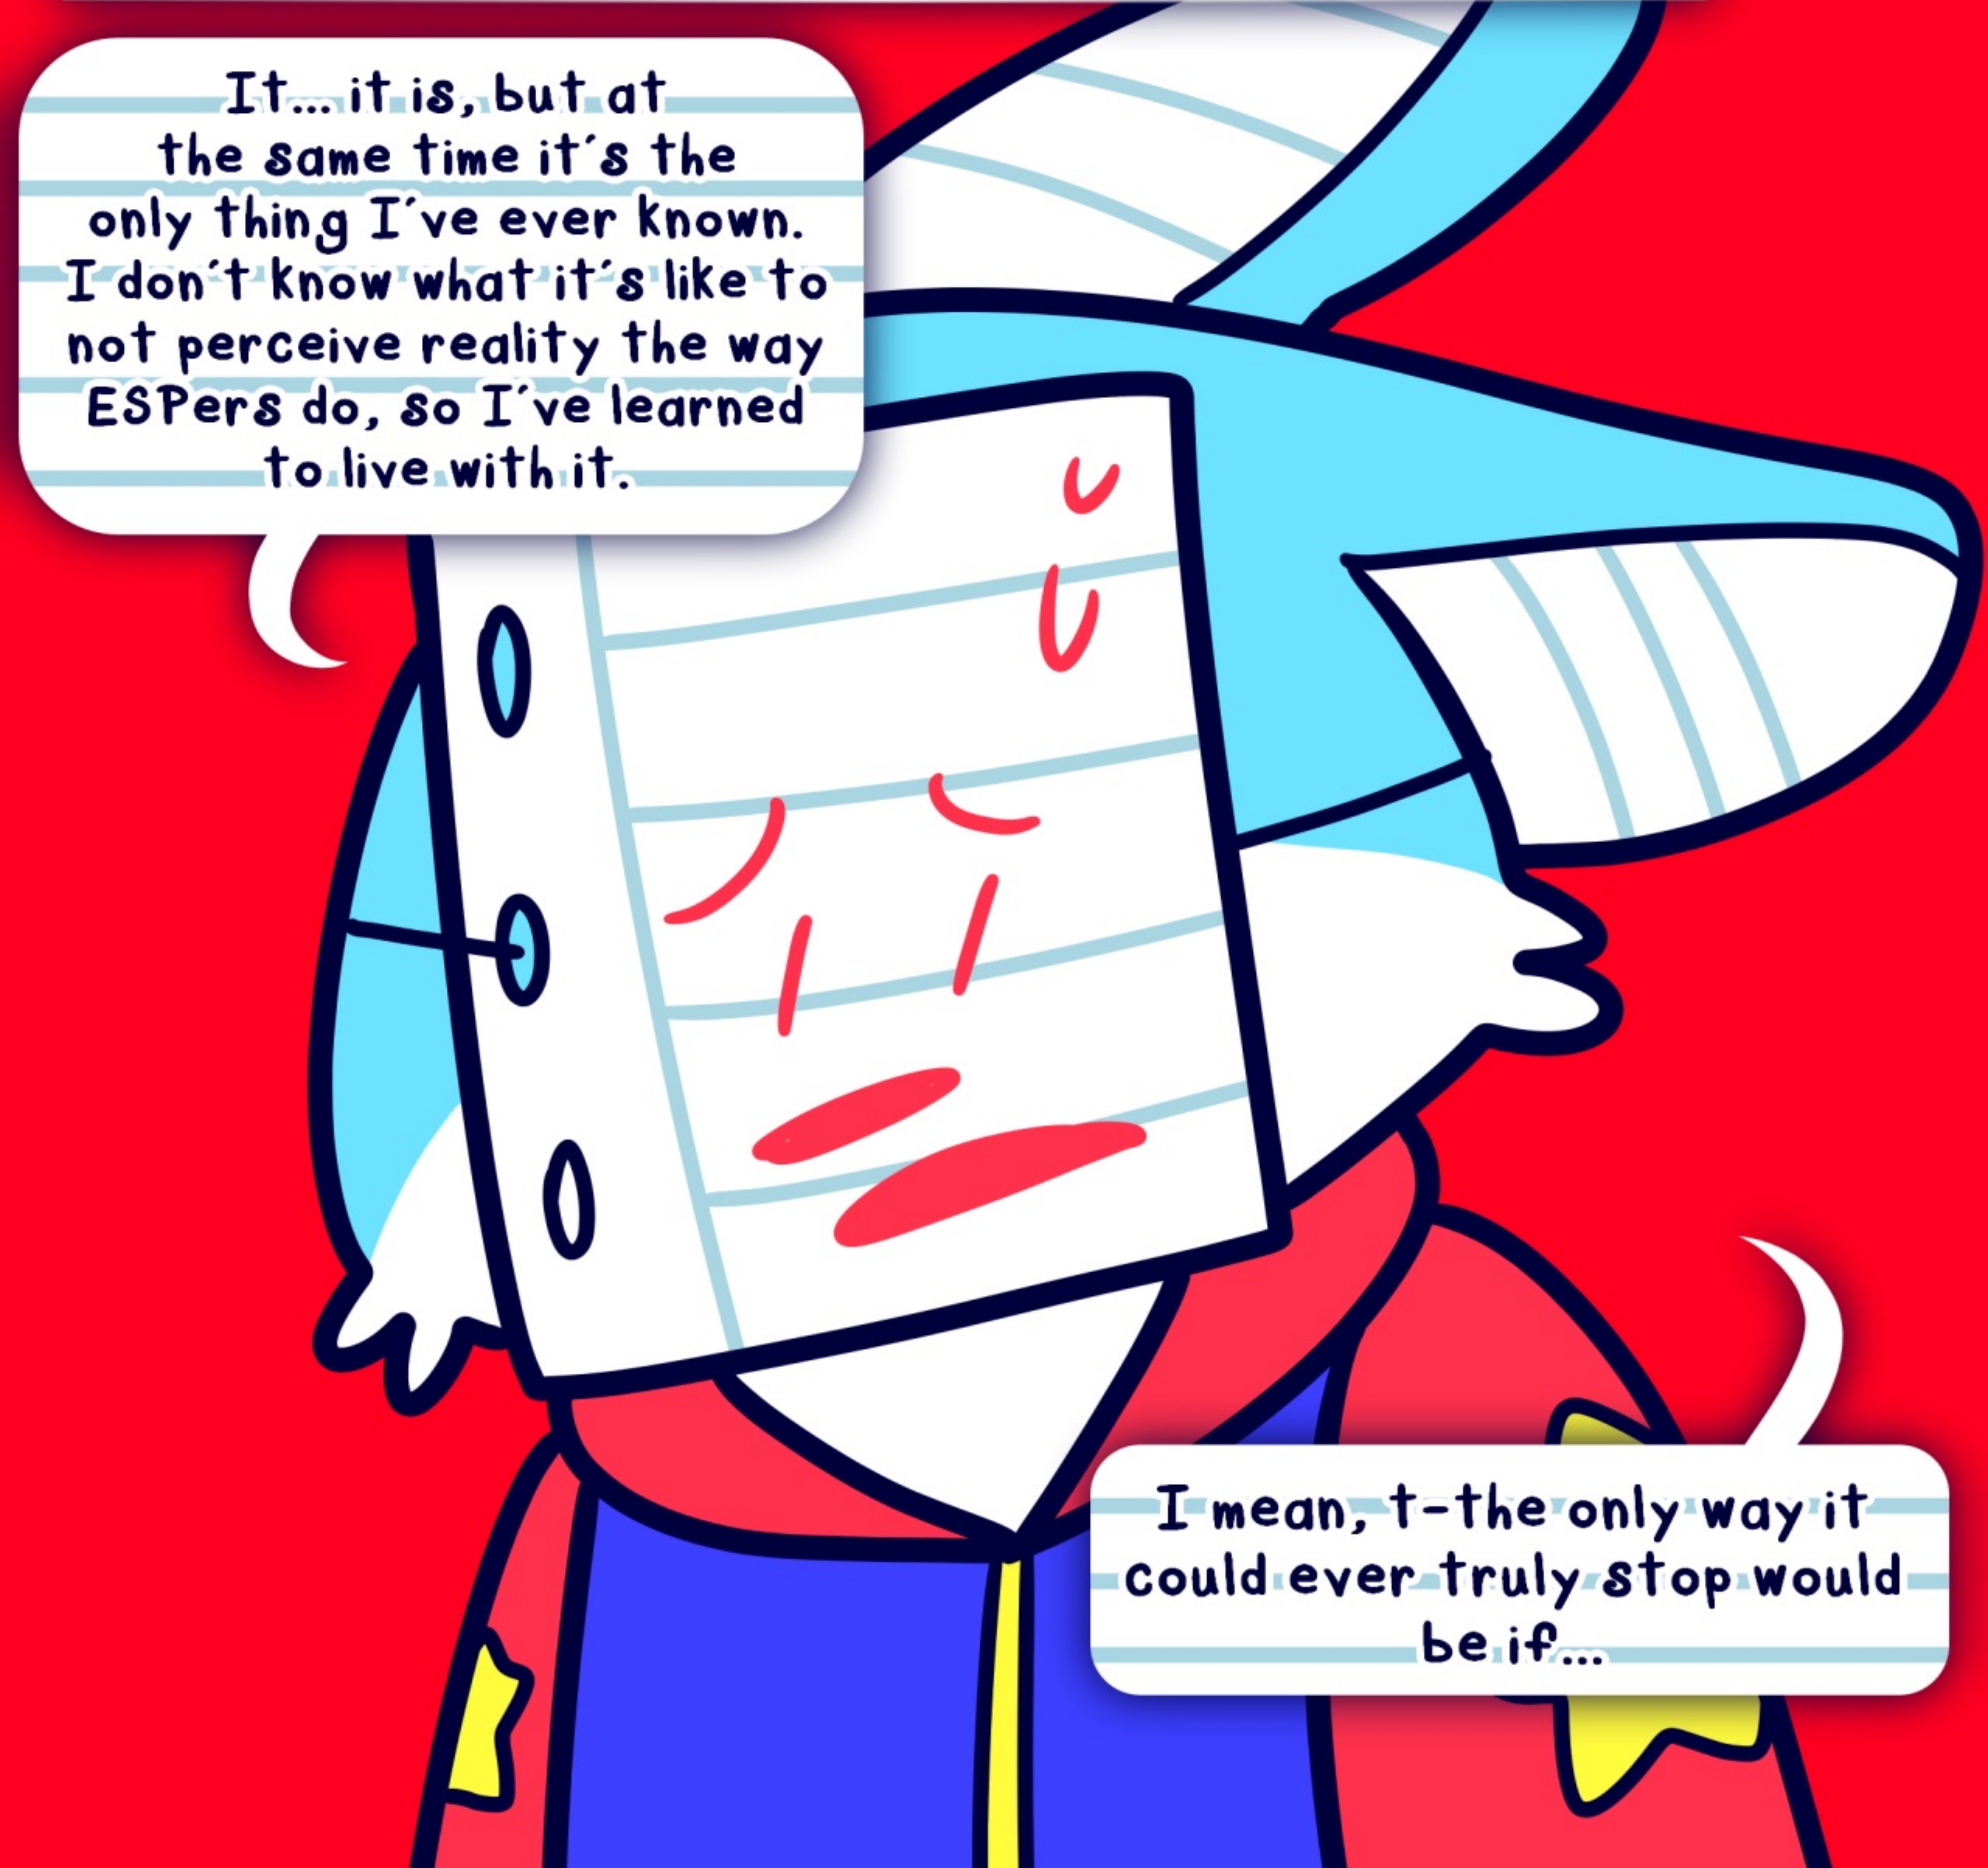


It happens with any form of media, but it does include text online yes. It also includes the thoughts of an artist or animator or actors in a movie or TV show.
Also musicians, singers, and poets.

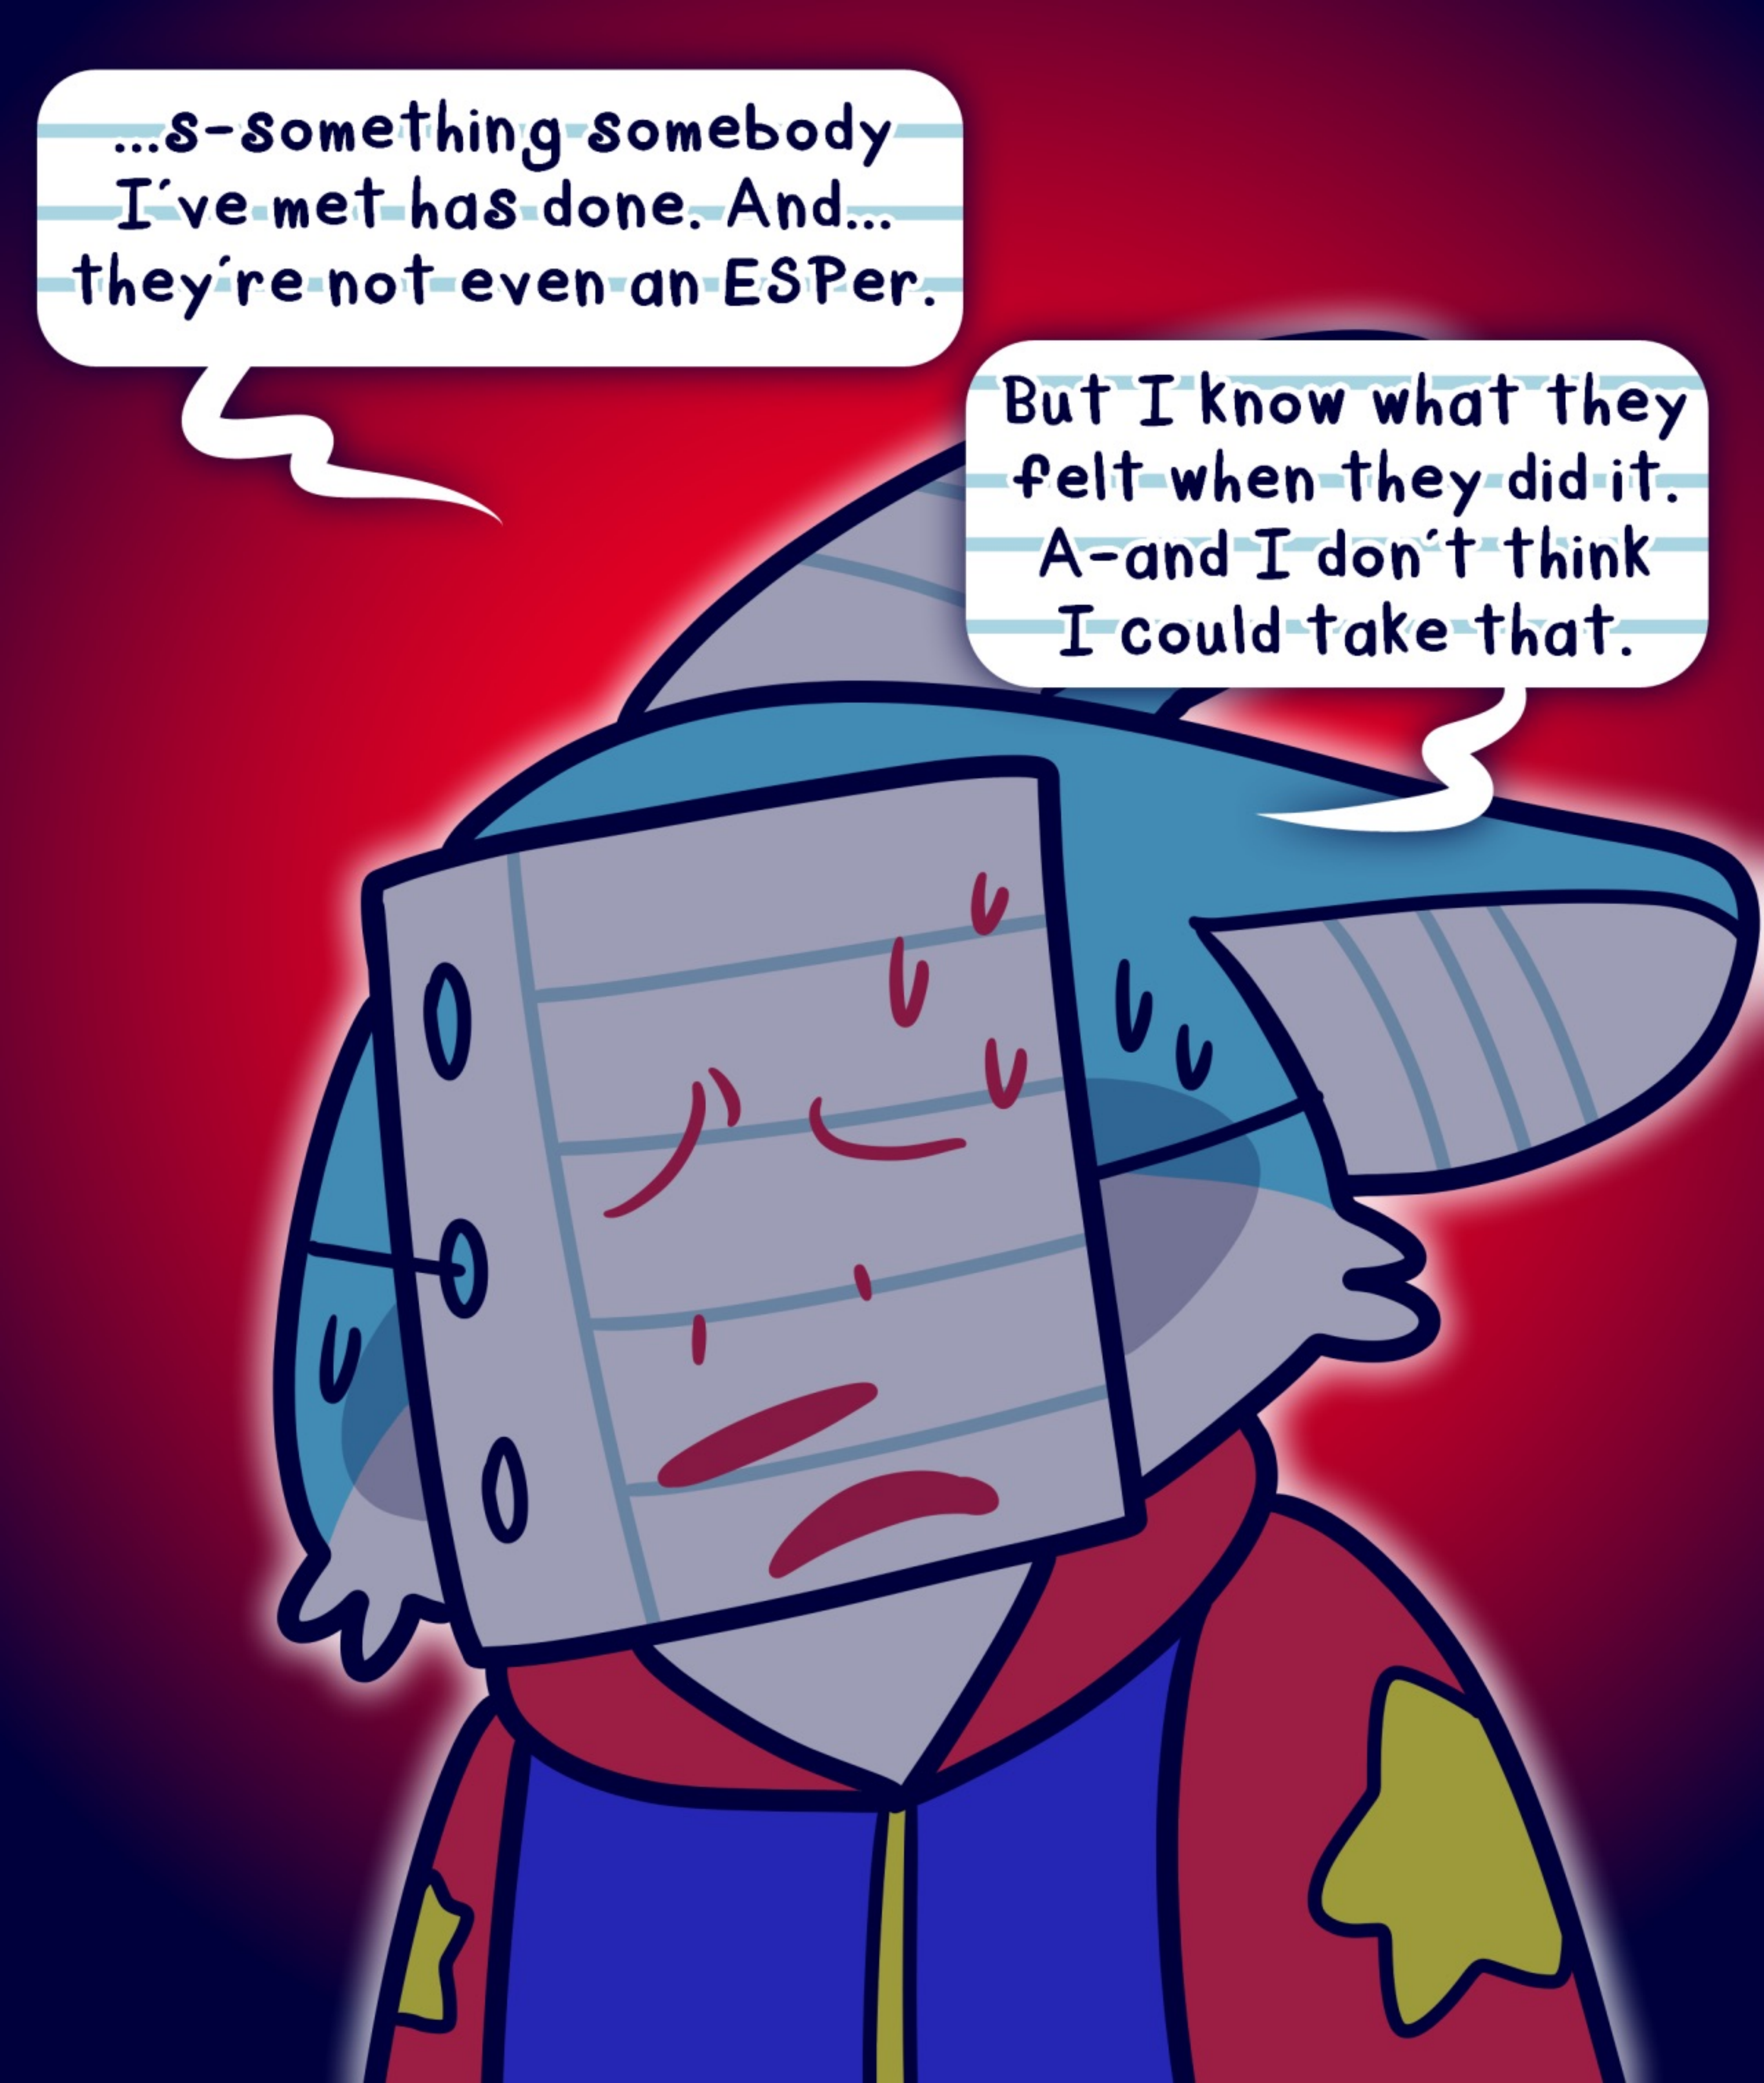


paperreater asked:

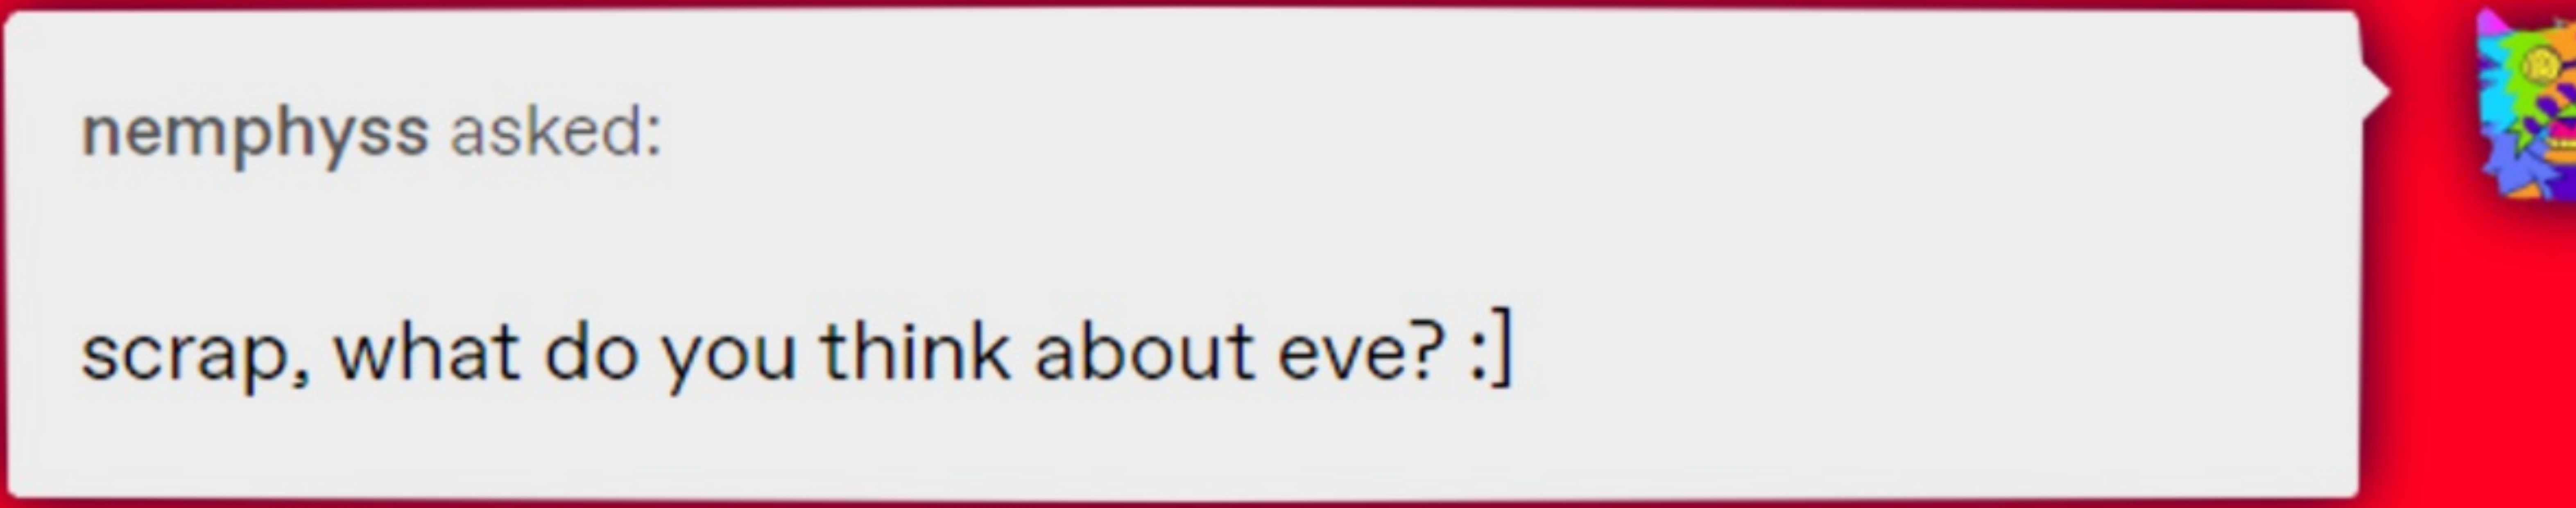
Oh man, that sounds very overwhelming Scrap D-: Hope you n the other ESPers are doin well!



It... it is, but at the same time it's the only thing I've ever known. I don't know what it's like to not perceive reality the way ESPers do, so I've learned to live with it.
I mean, t-the only way it could ever truly stop would be if...

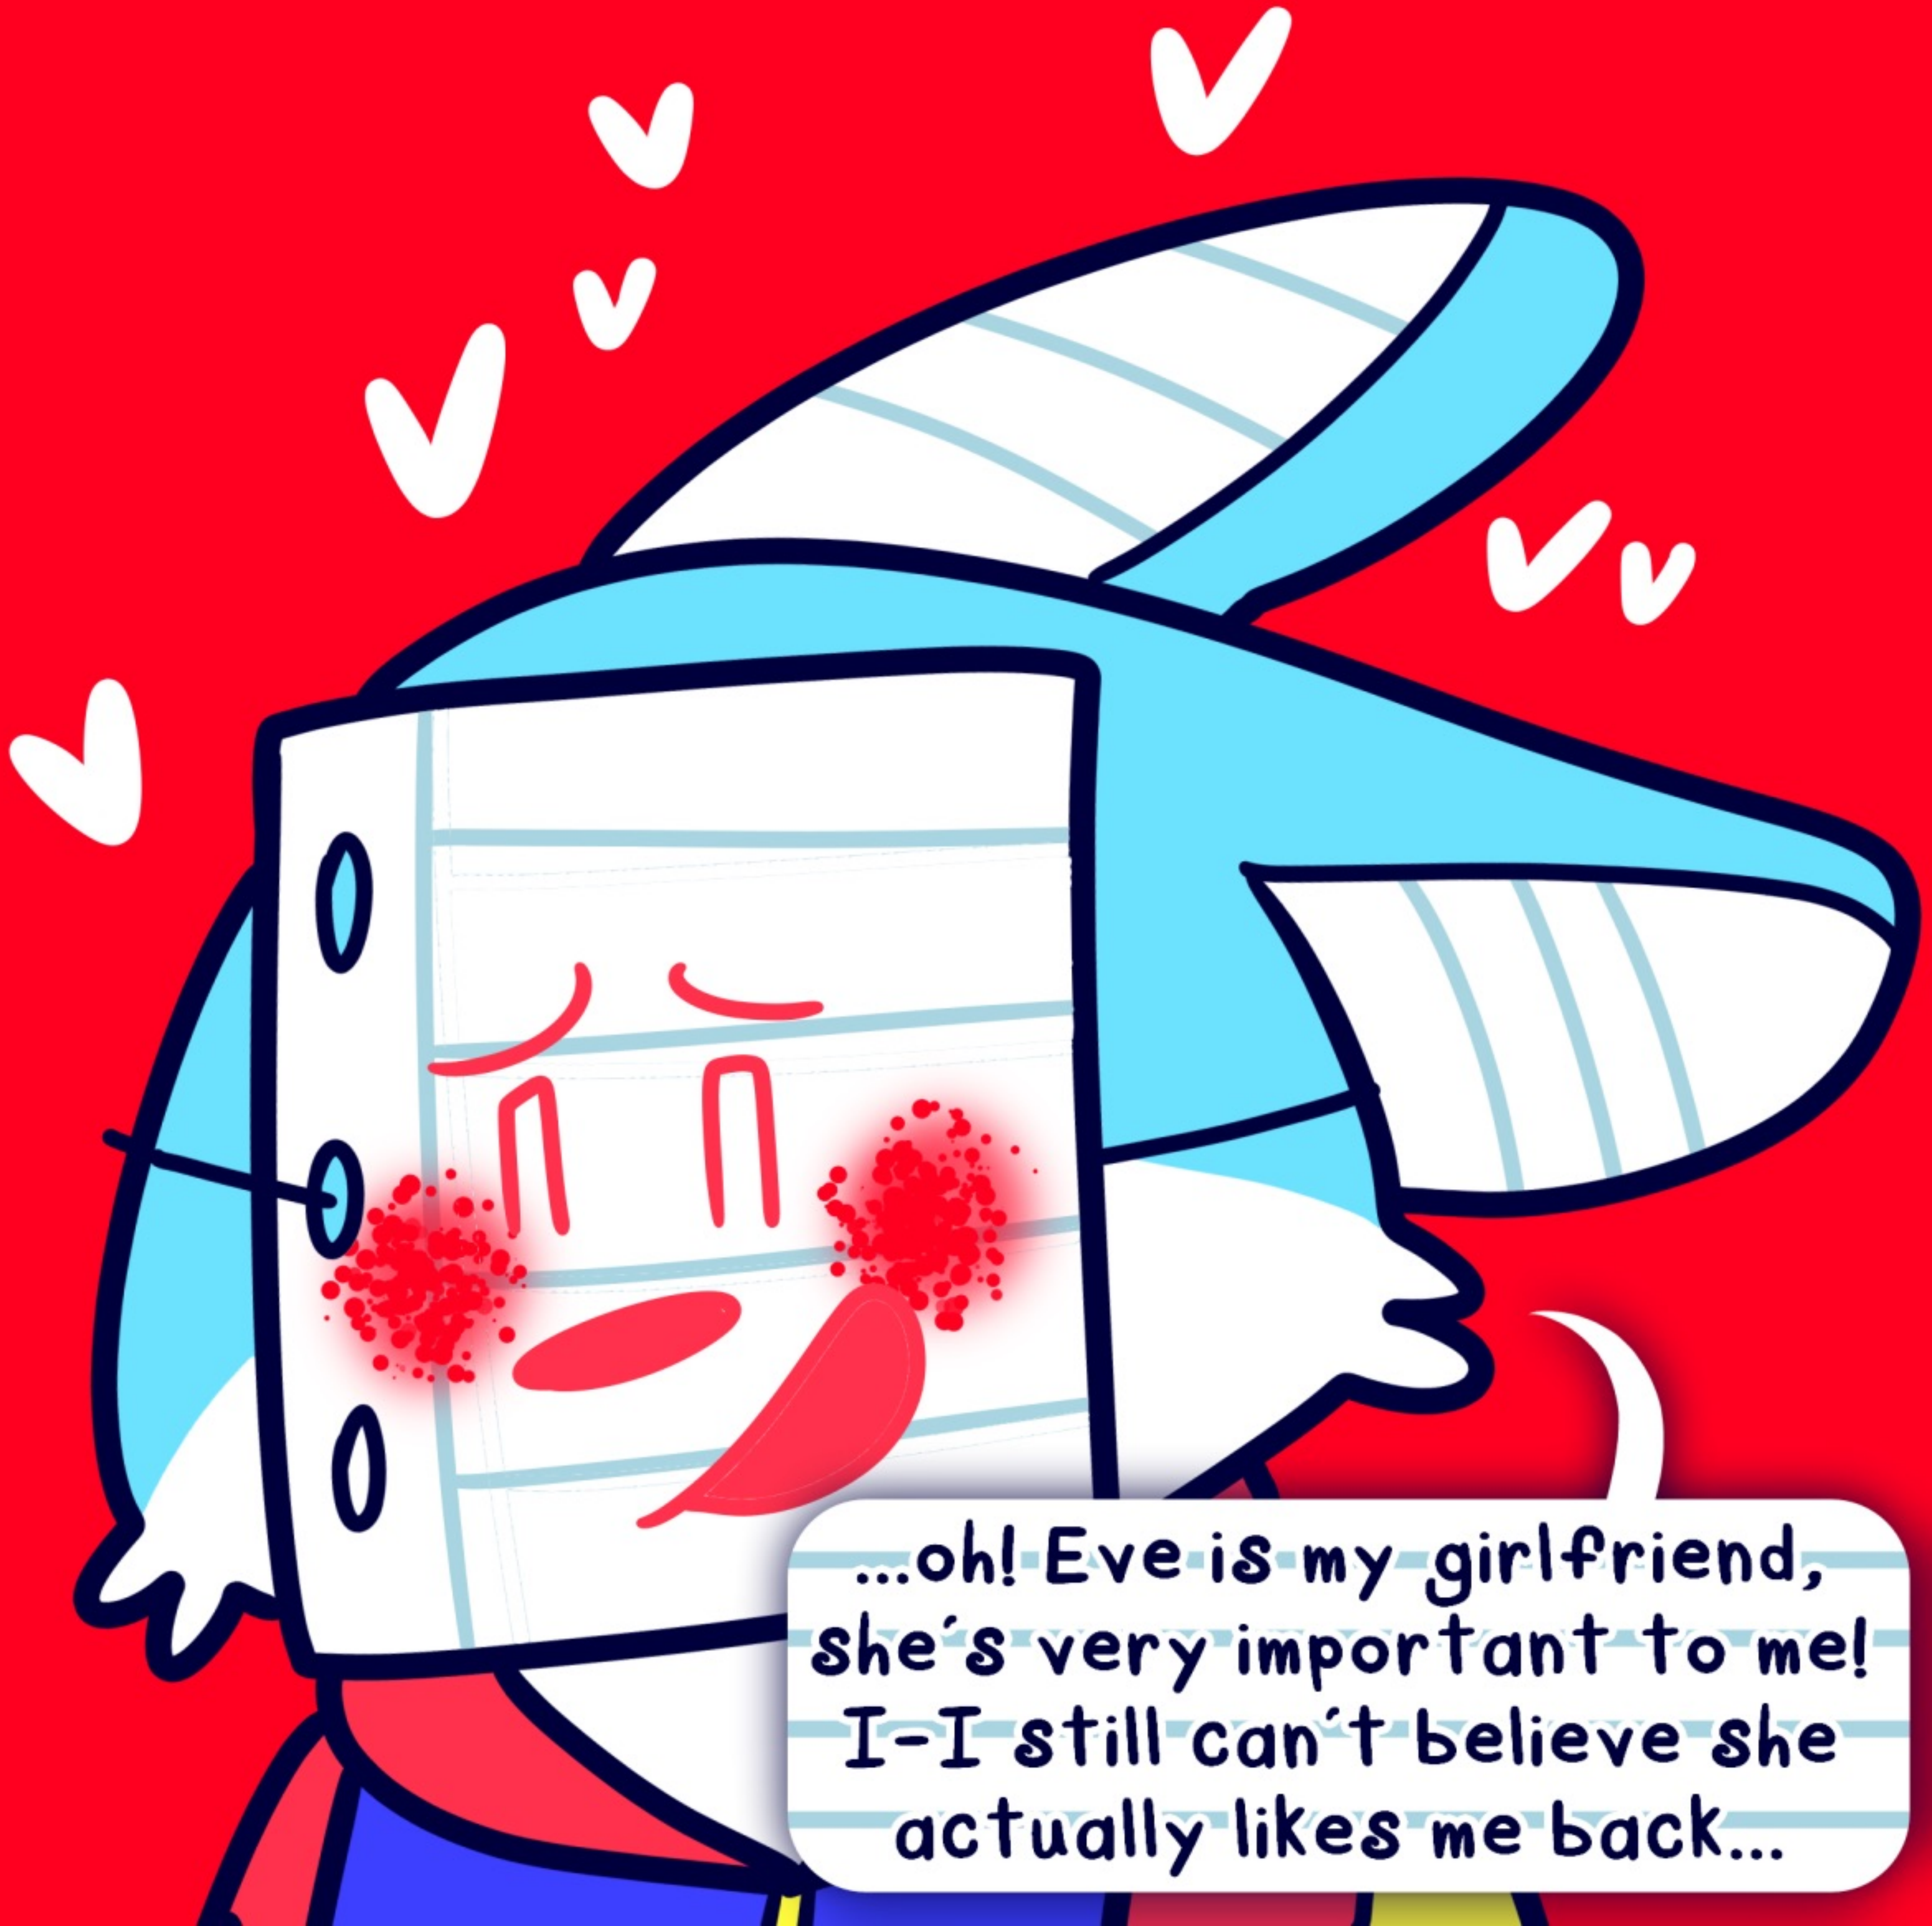


...s-something somebody I've met has done. And... they're not even an ESPer.
But I know what they felt when they did it. A-and I don't think I could take that.

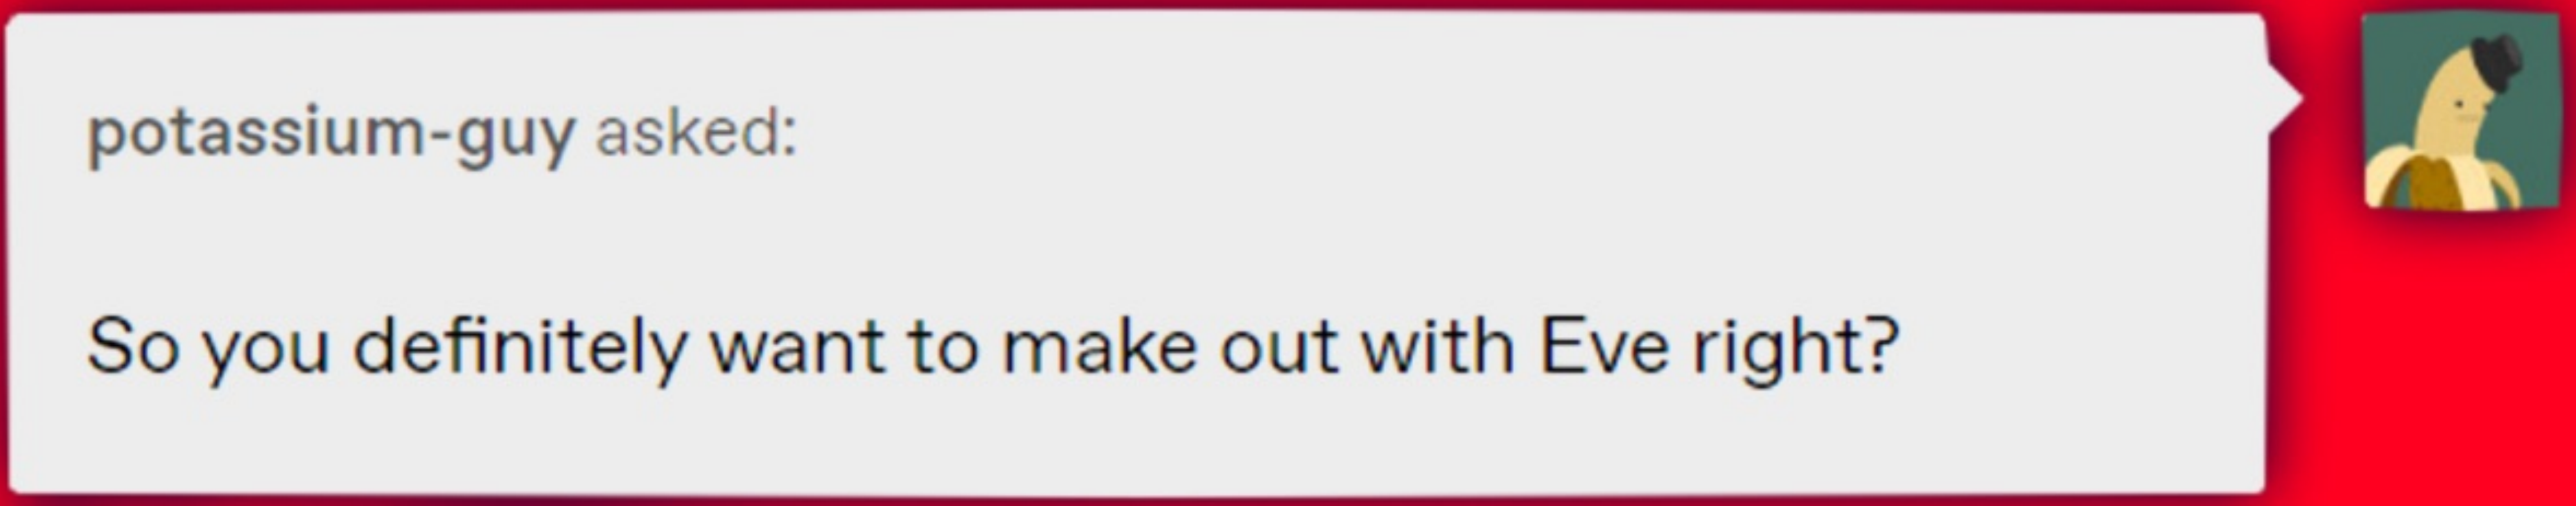


nemphyss asked:

scrap, what do you think about eve? :]

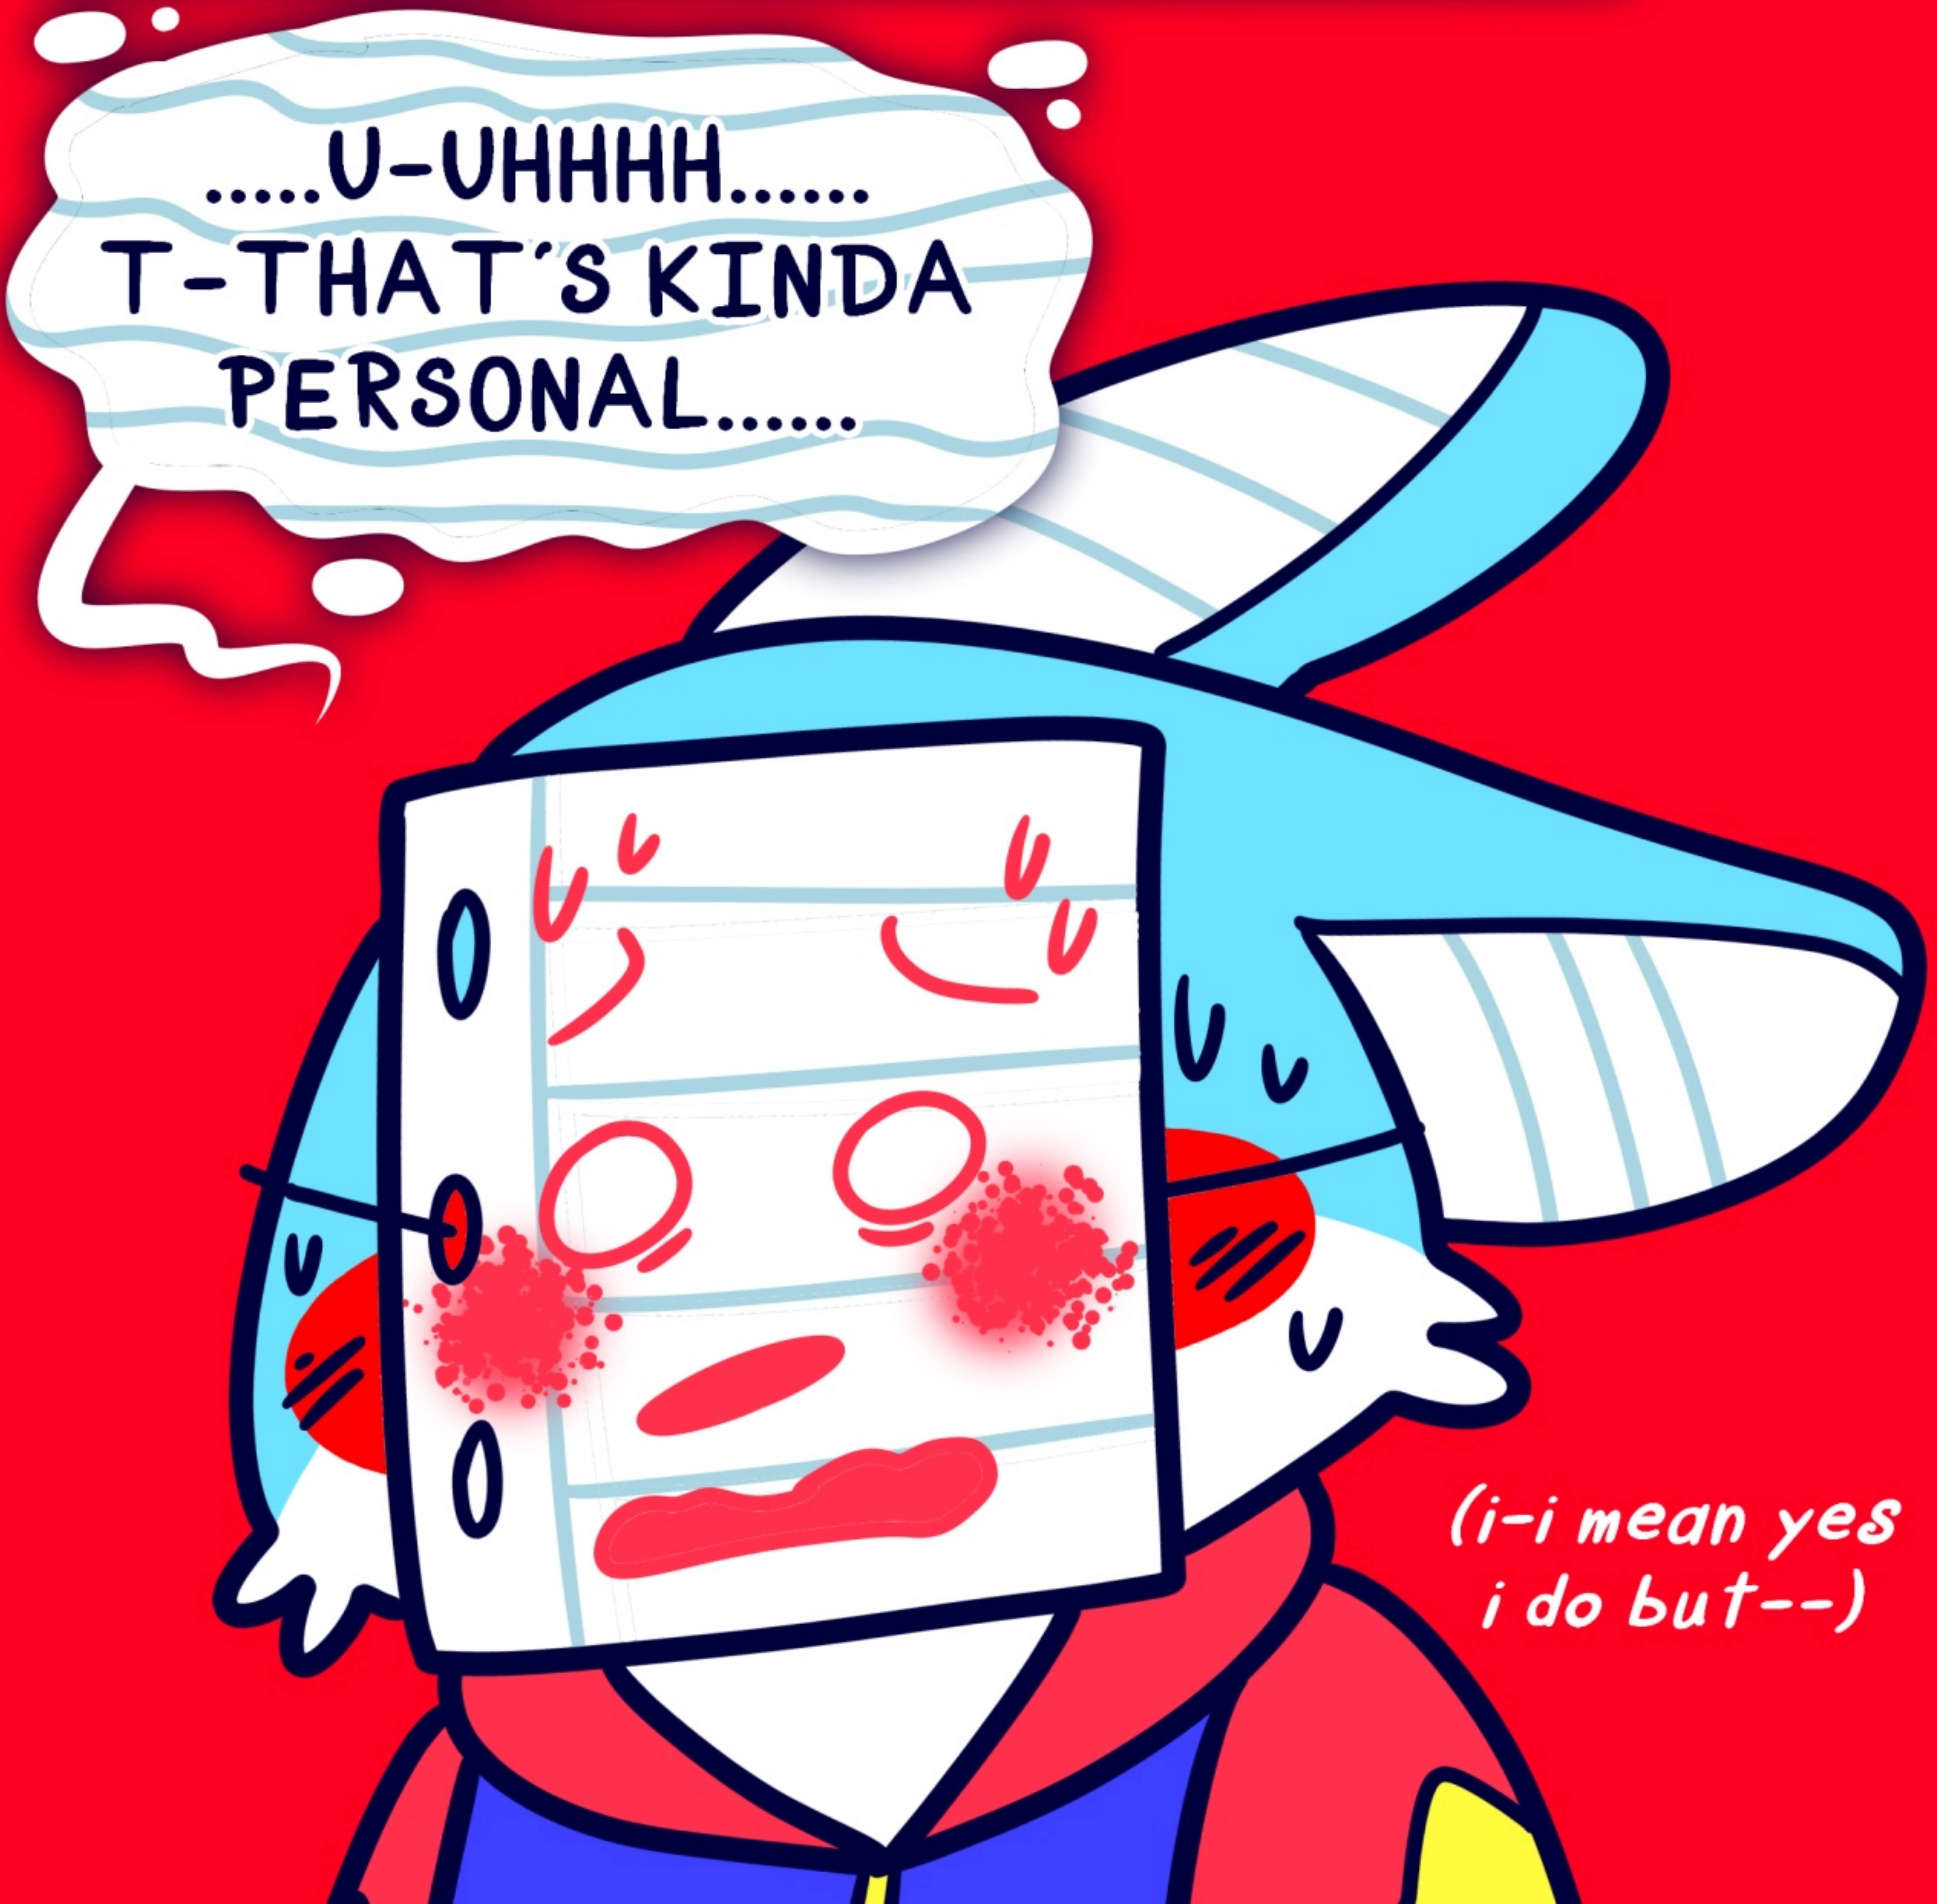


...oh! Eve is my girlfriend, she's very important to me! I-I still can't believe she actually likes me back...

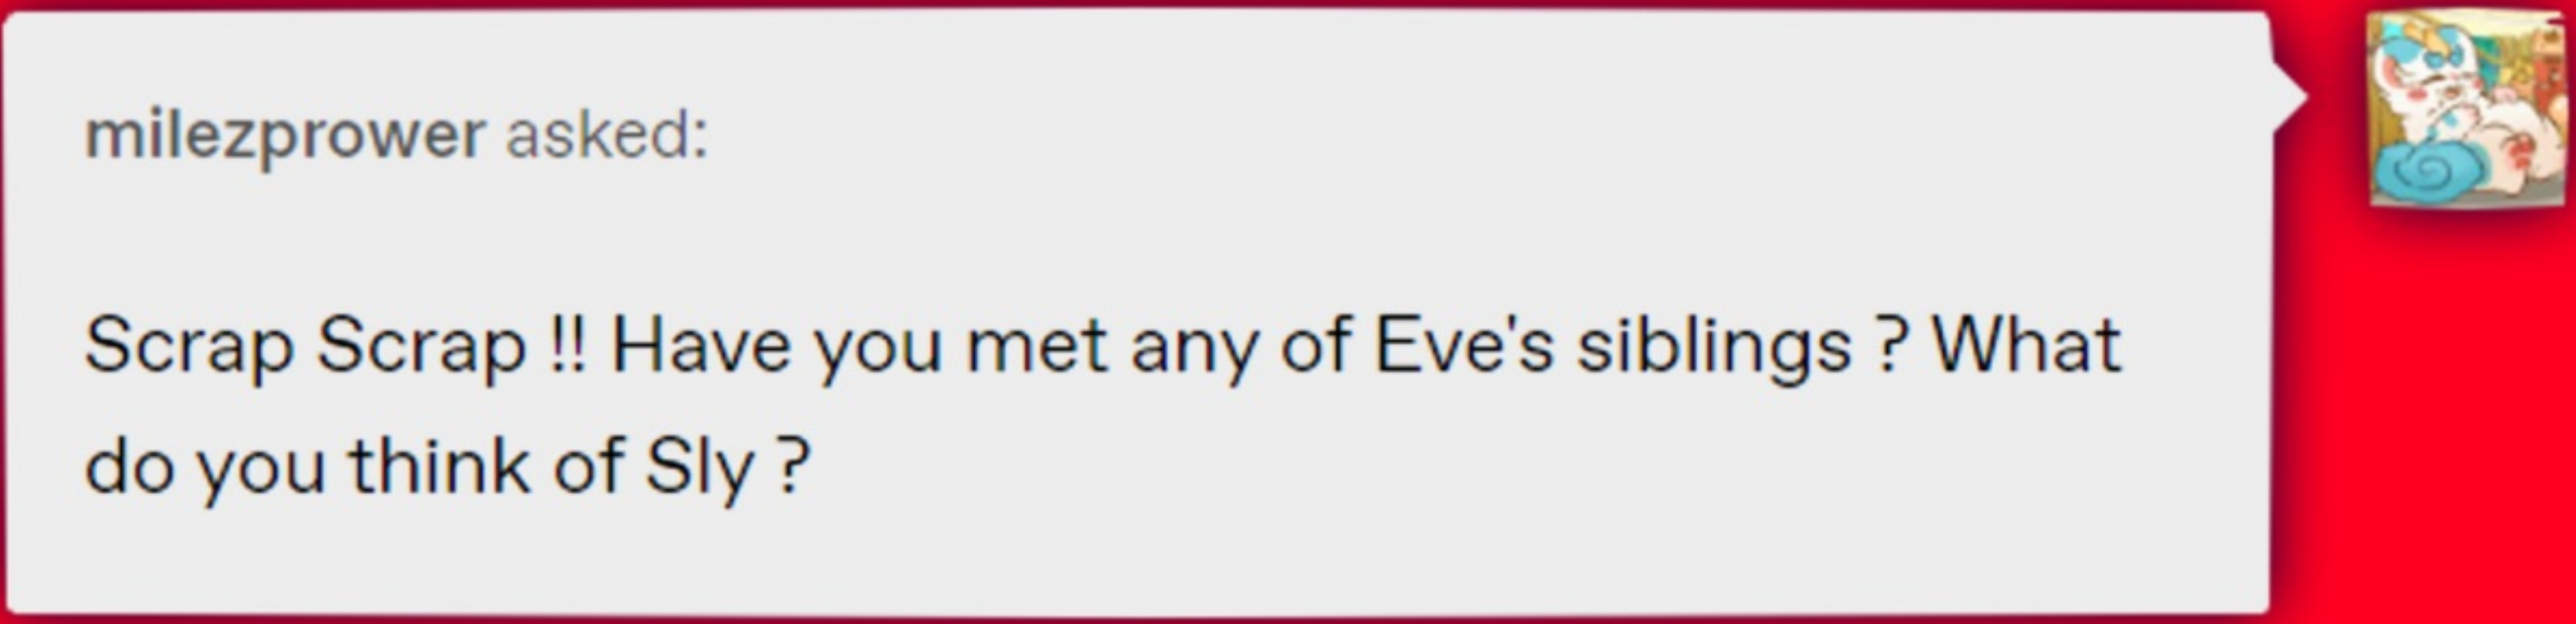


potassium-guy asked:

So you definitely want to make out with Eve right?

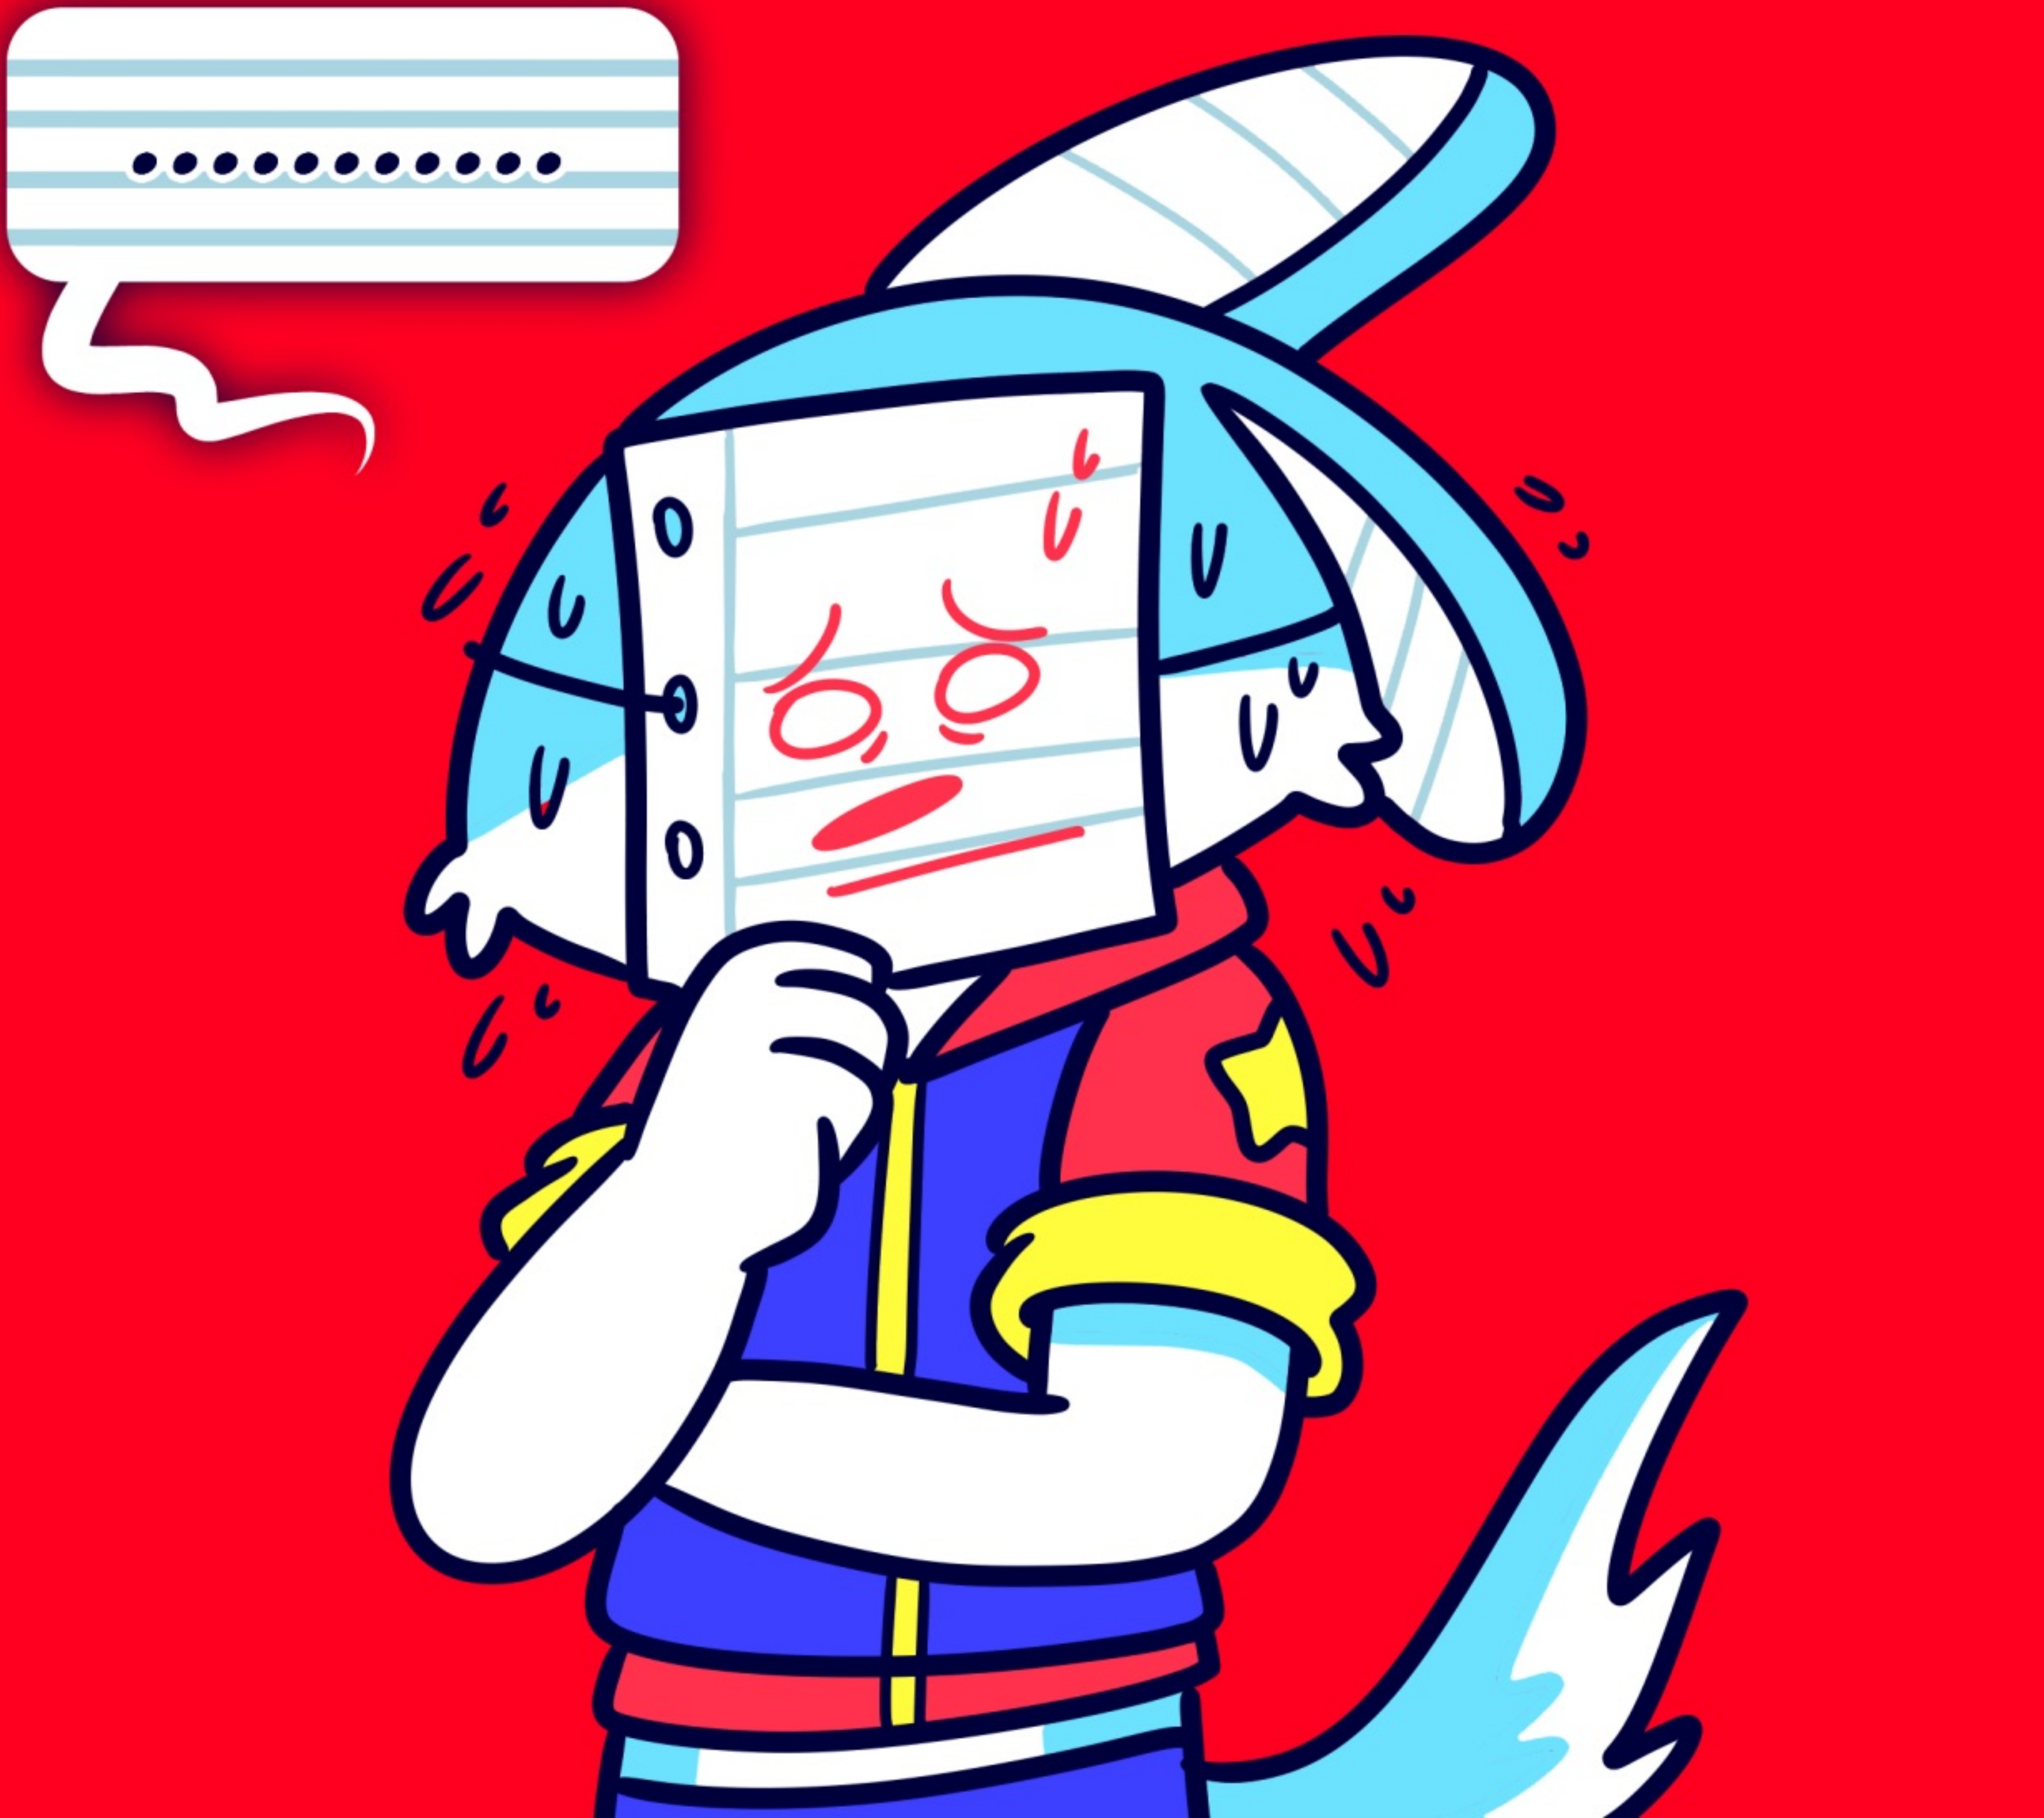


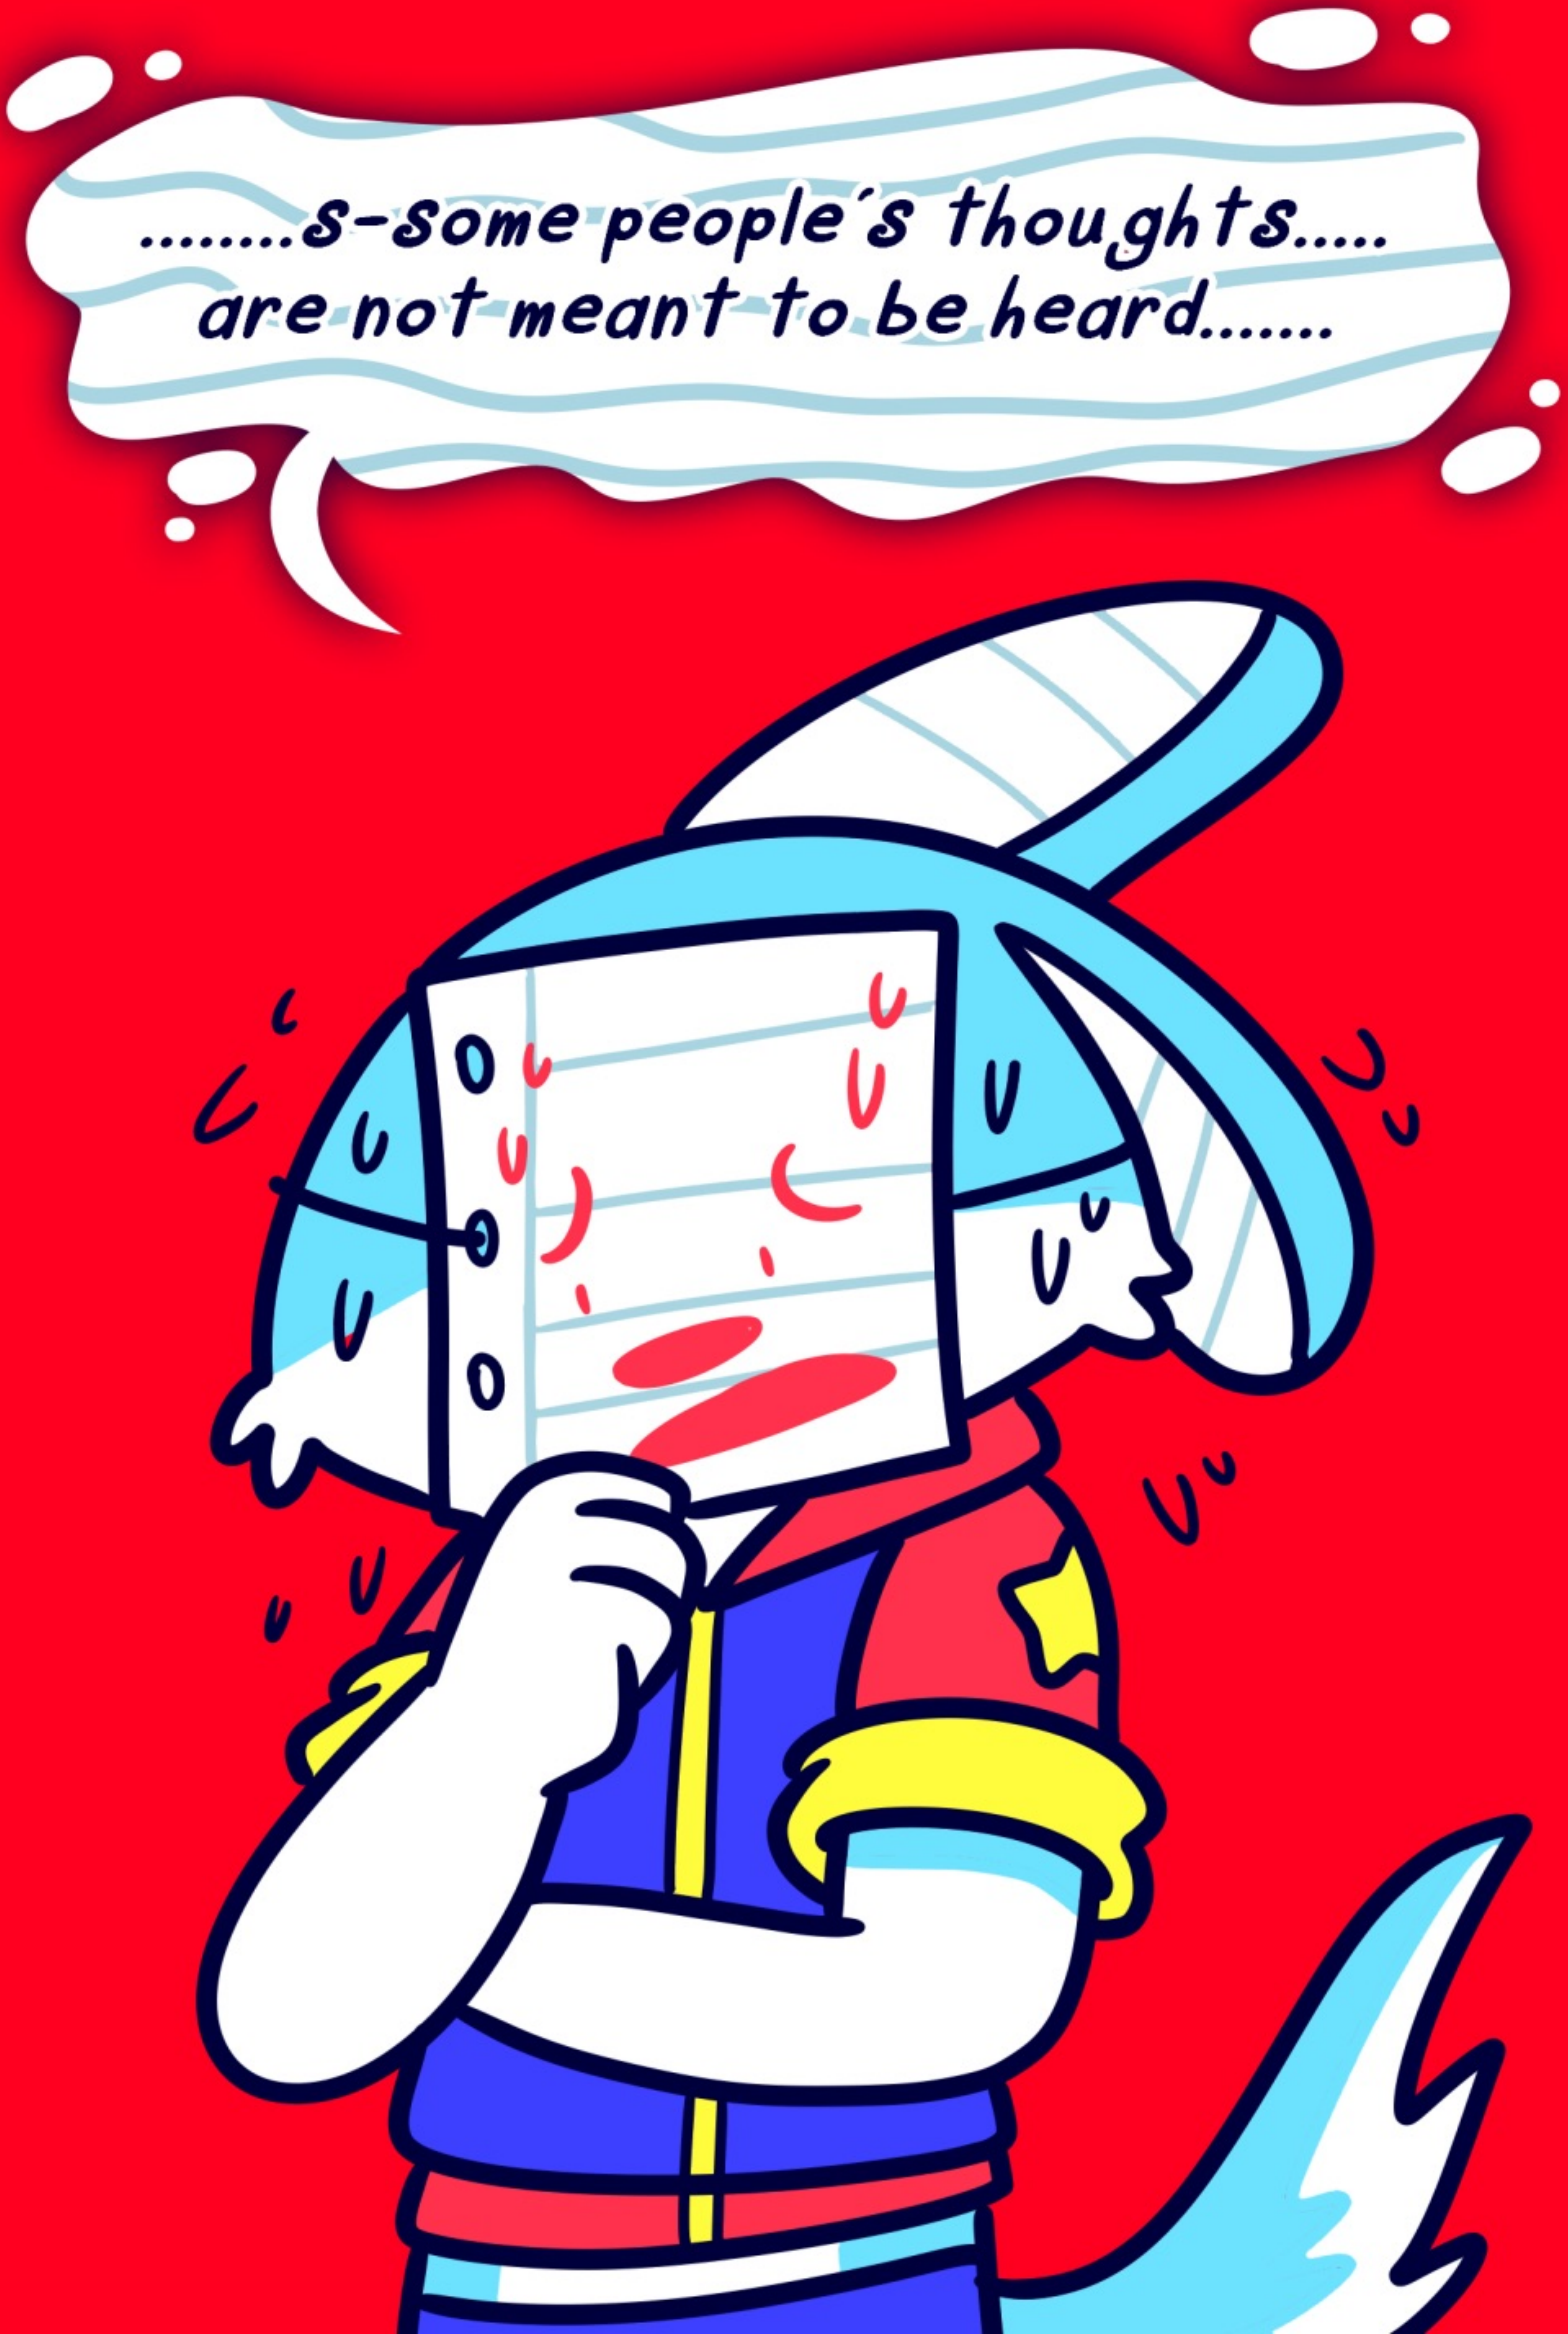
.....U-UHHHH......
T-THAT´S KINDA
PERSONAL......
(i-i mean yes
i do but--)



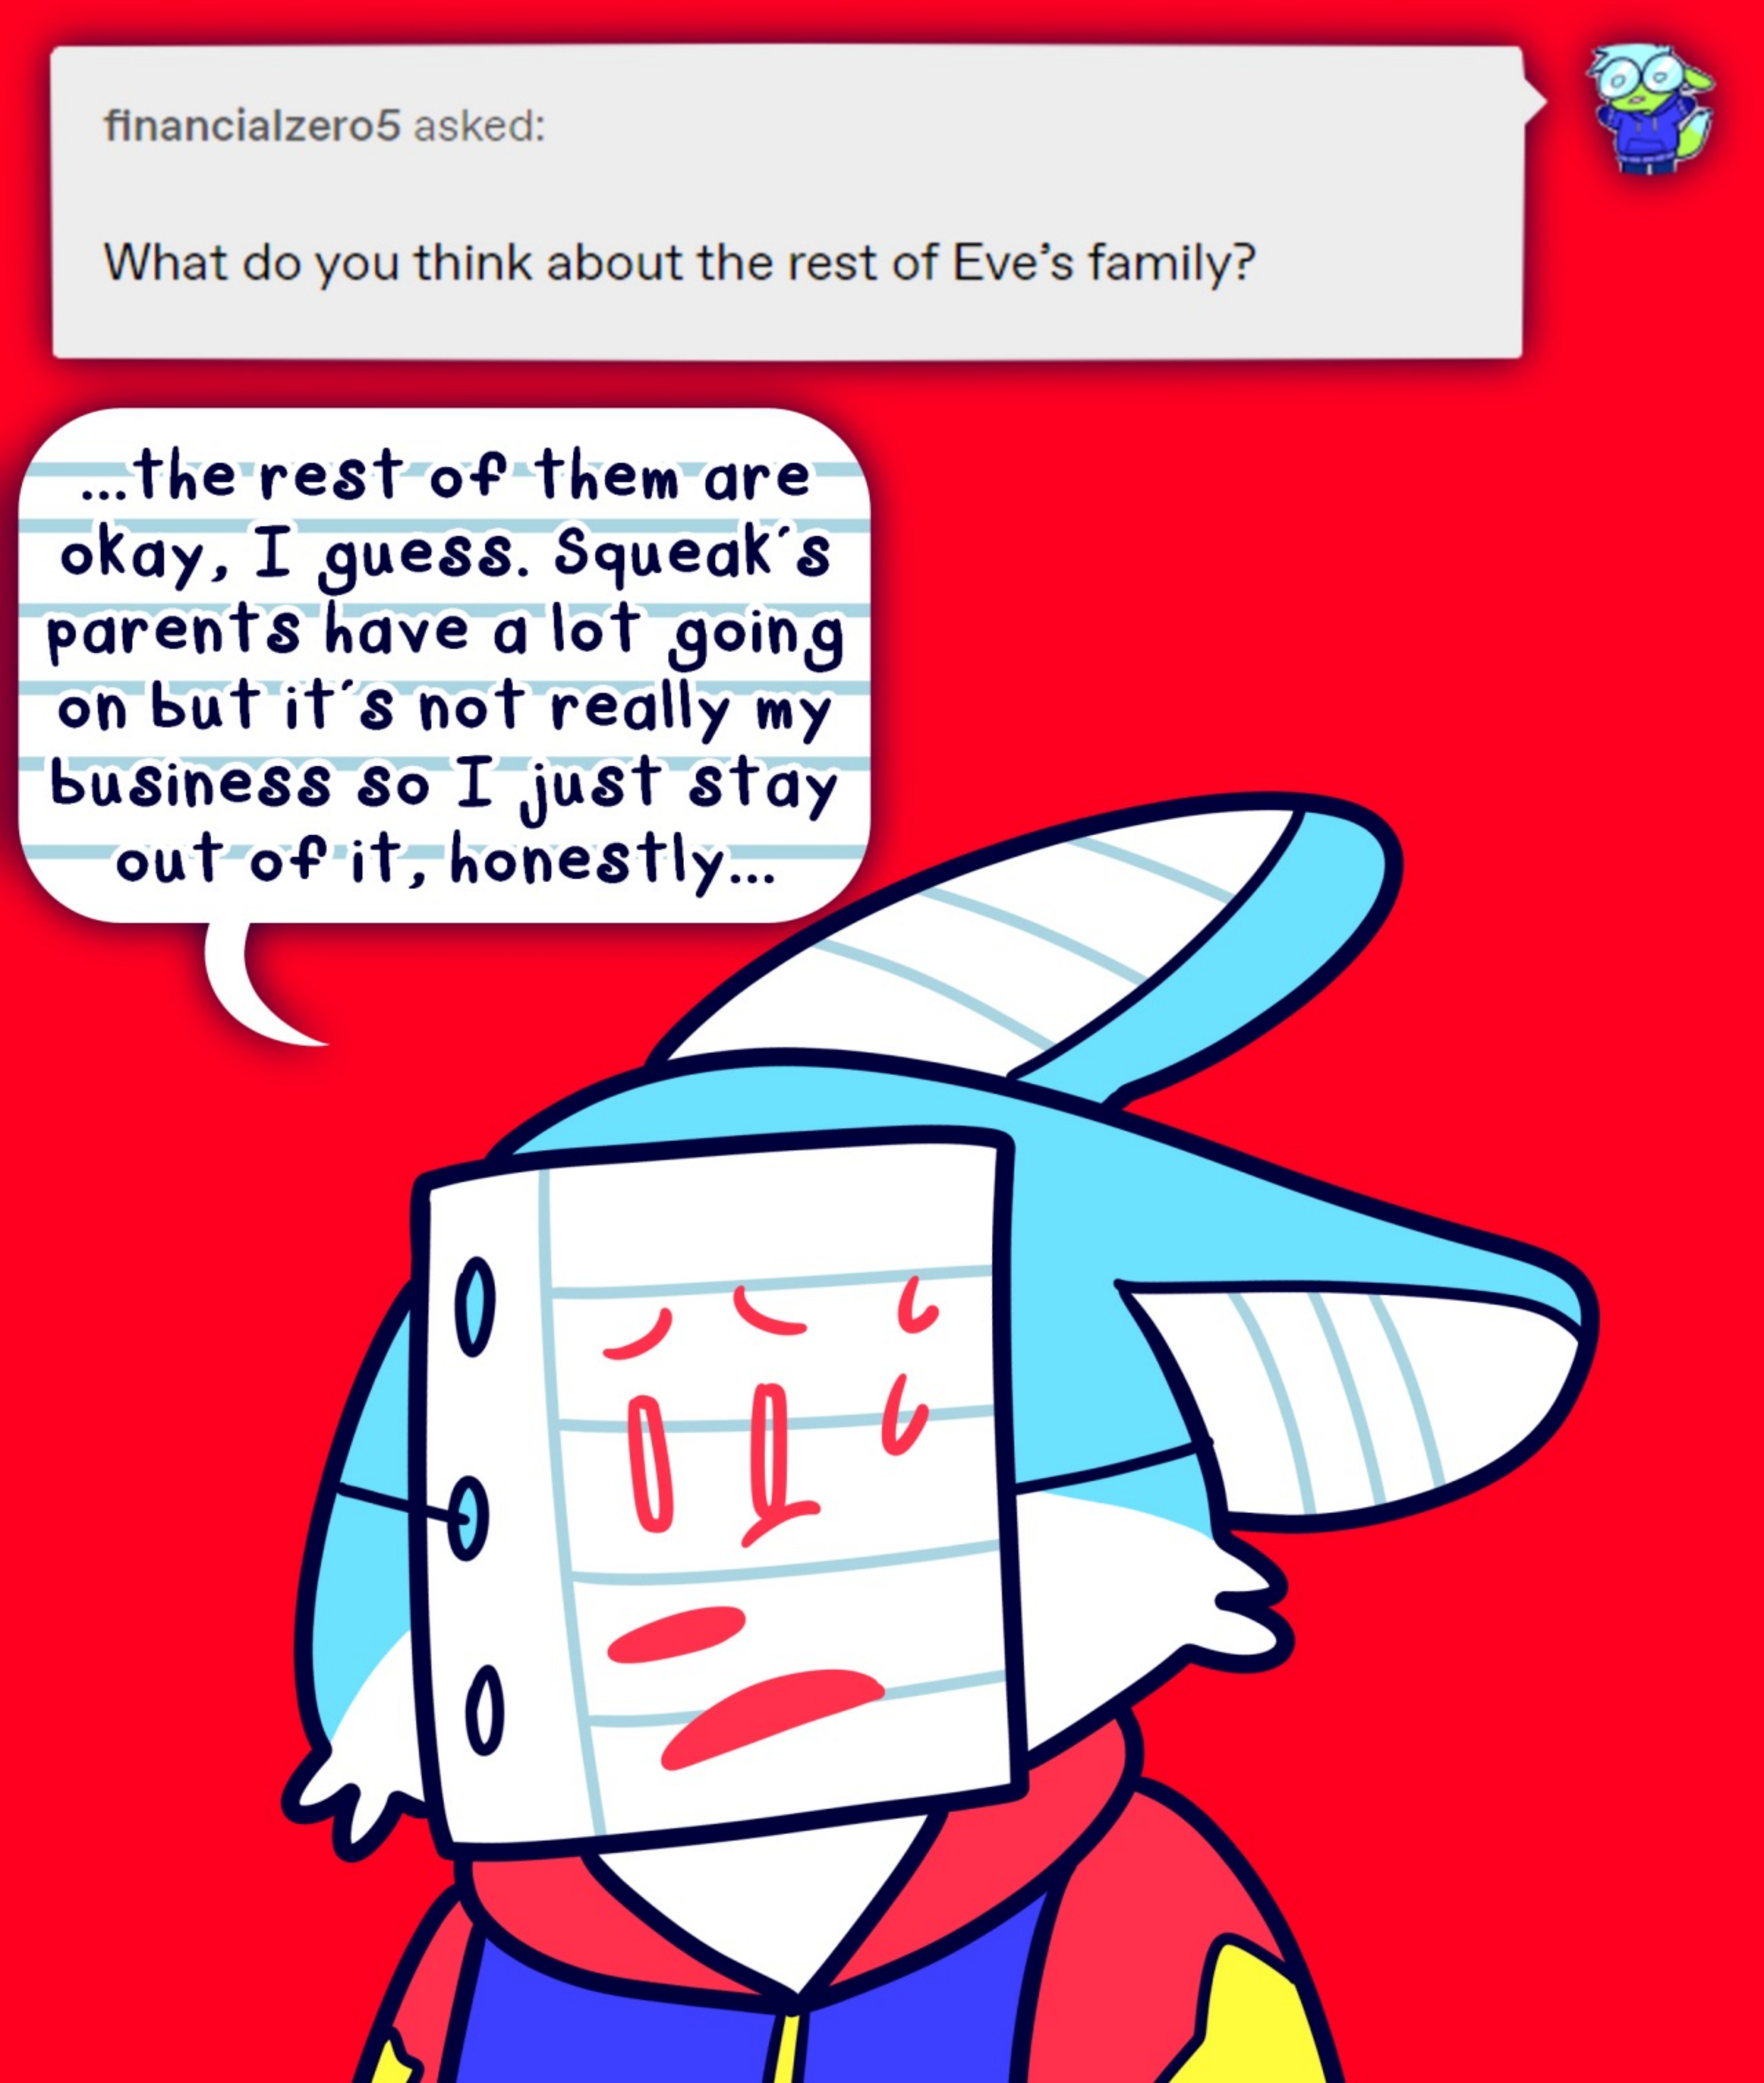
milezprower asked:

Scrap Scrap !! Have you met any of Eve's siblings ? What do you think of Sly ?





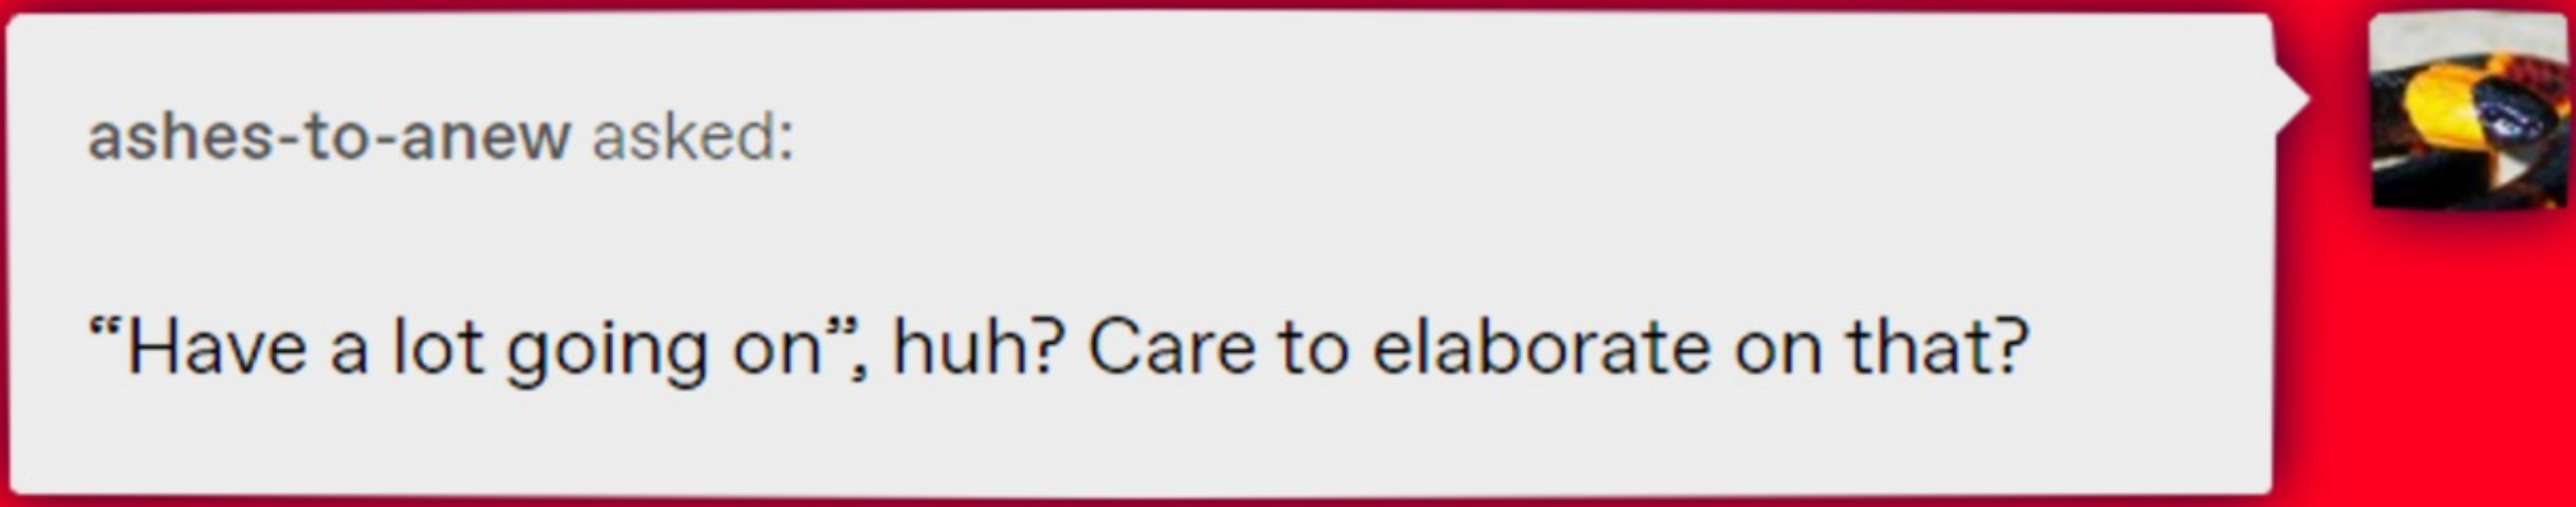
........s-some people´s thoughts.....
are not meant to be heard.......



financialzero5 asked:

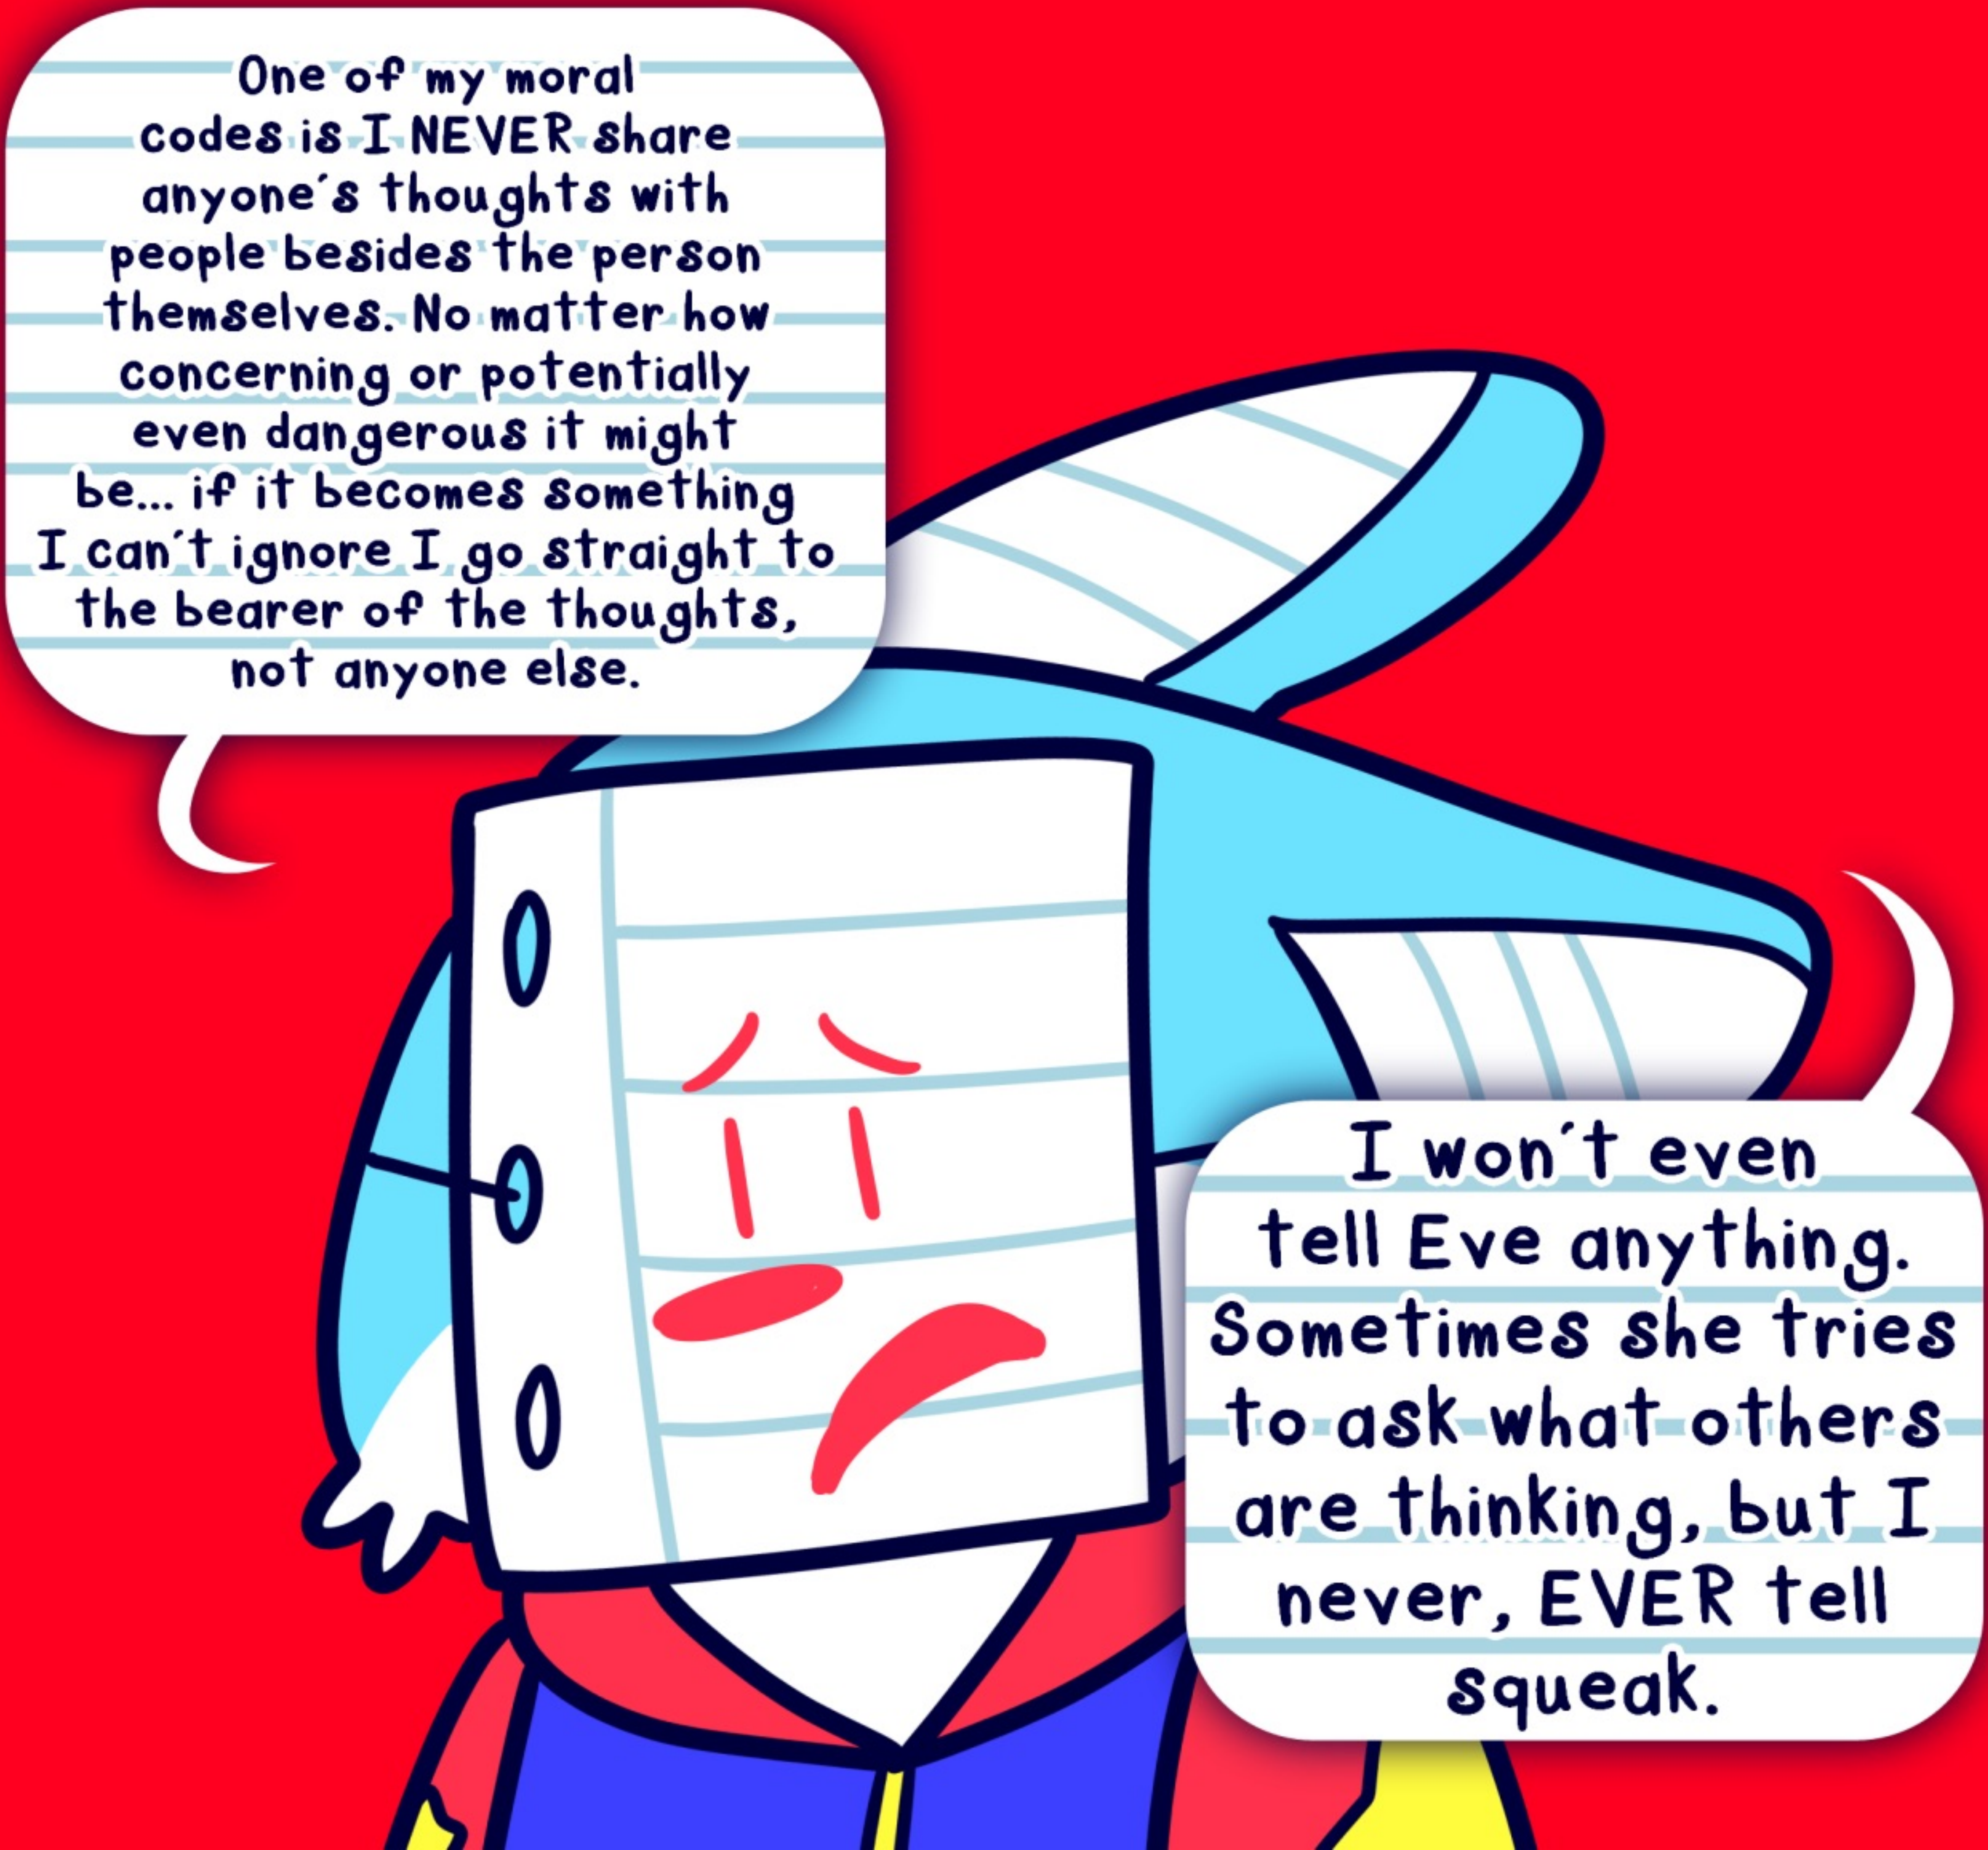
What do you think about the rest of Eve's family?

...the rest of them are okay, I guess. Squeak's parents have a lot going on but it's not really my business so I just stay out of it, honestly...

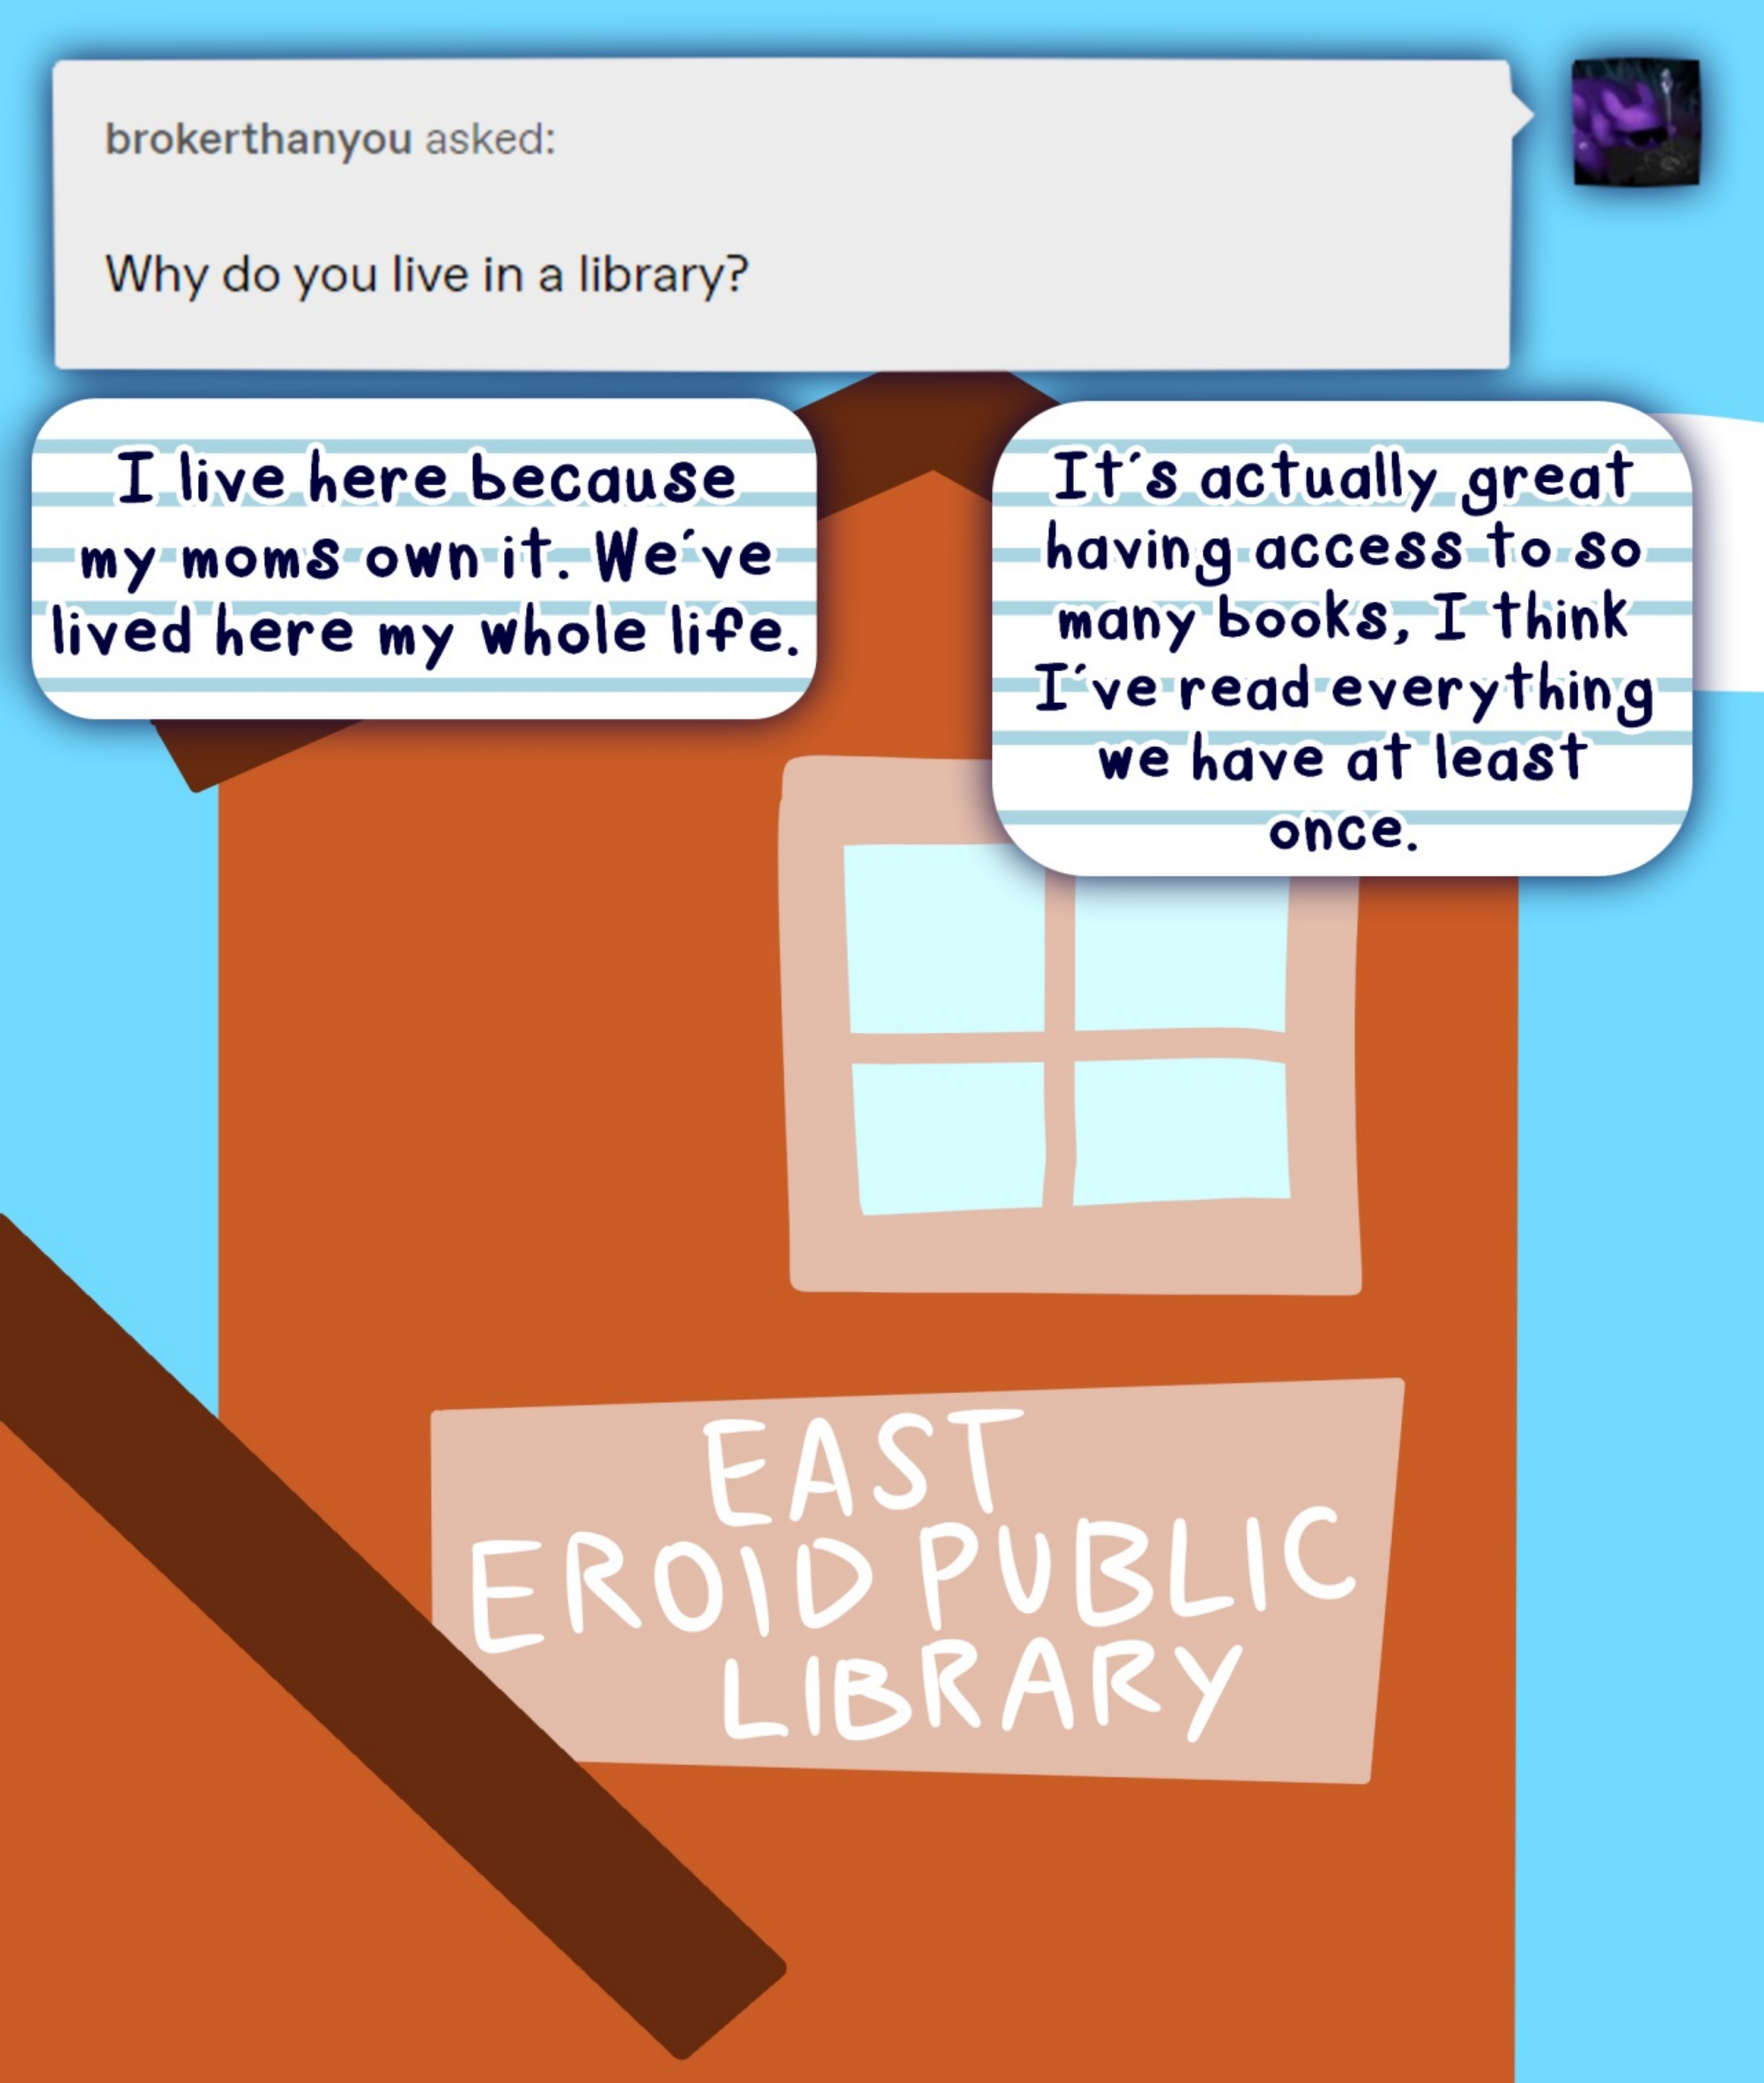


ashes-to-anew asked:

“Have a lot going on”, huh? Care to elaborate on that?



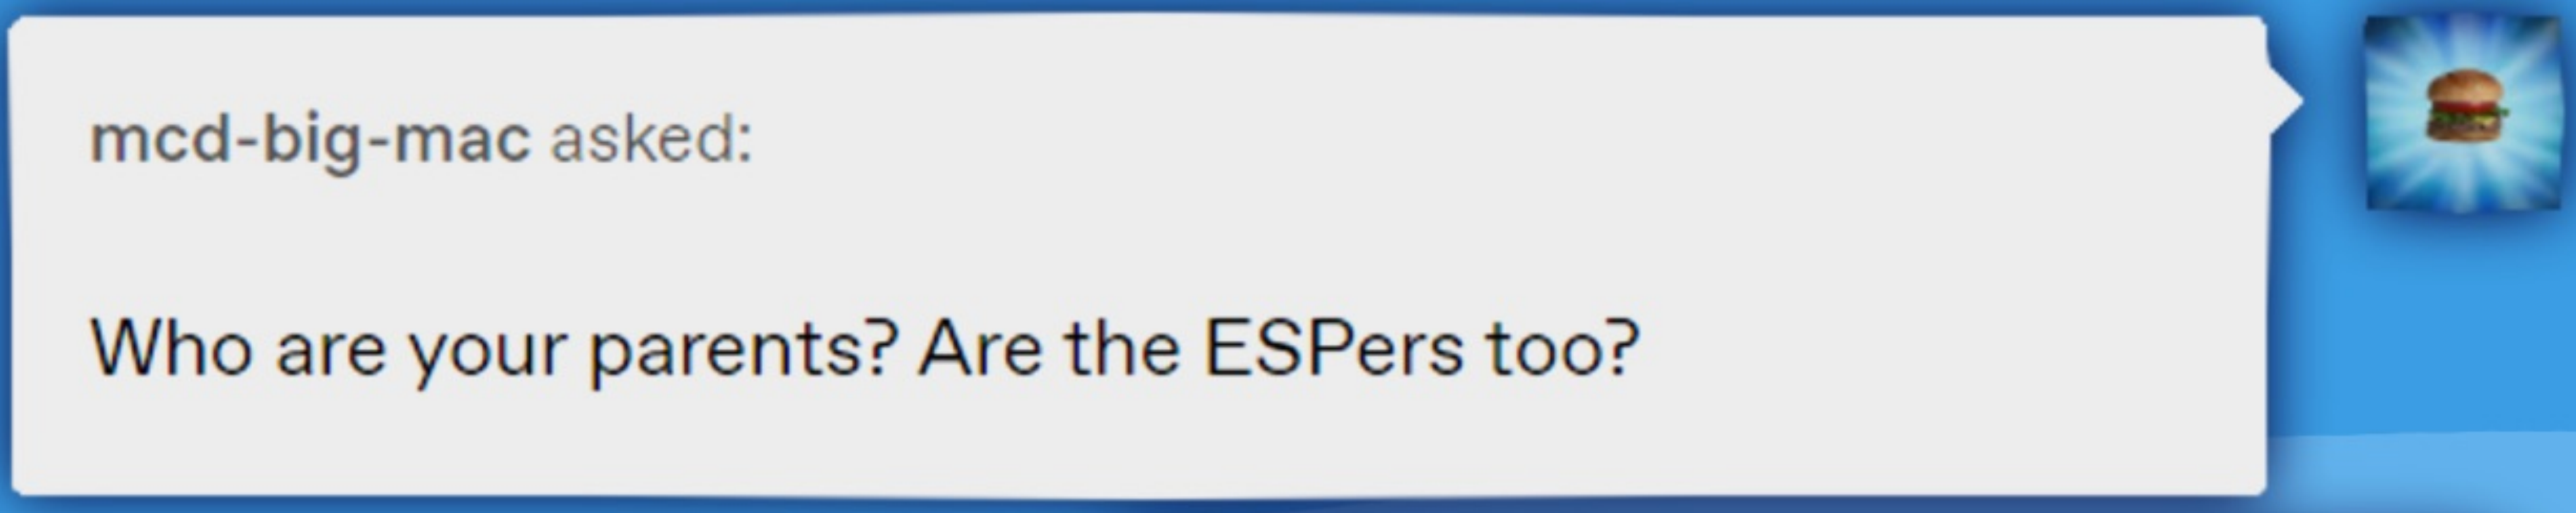
One of my moral codes is I NEVER share anyone´s thoughts with people besides the person themselves. No matter how concerning or potentially even dangerous it might be... if it becomes something I can´t ignore I go straight to the bearer of the thoughts, not anyone else.
I won´t even tell Eve anything. Sometimes she tries to ask what others are thinking, but I never, EVER tell squeak.



brokerthanyou asked:

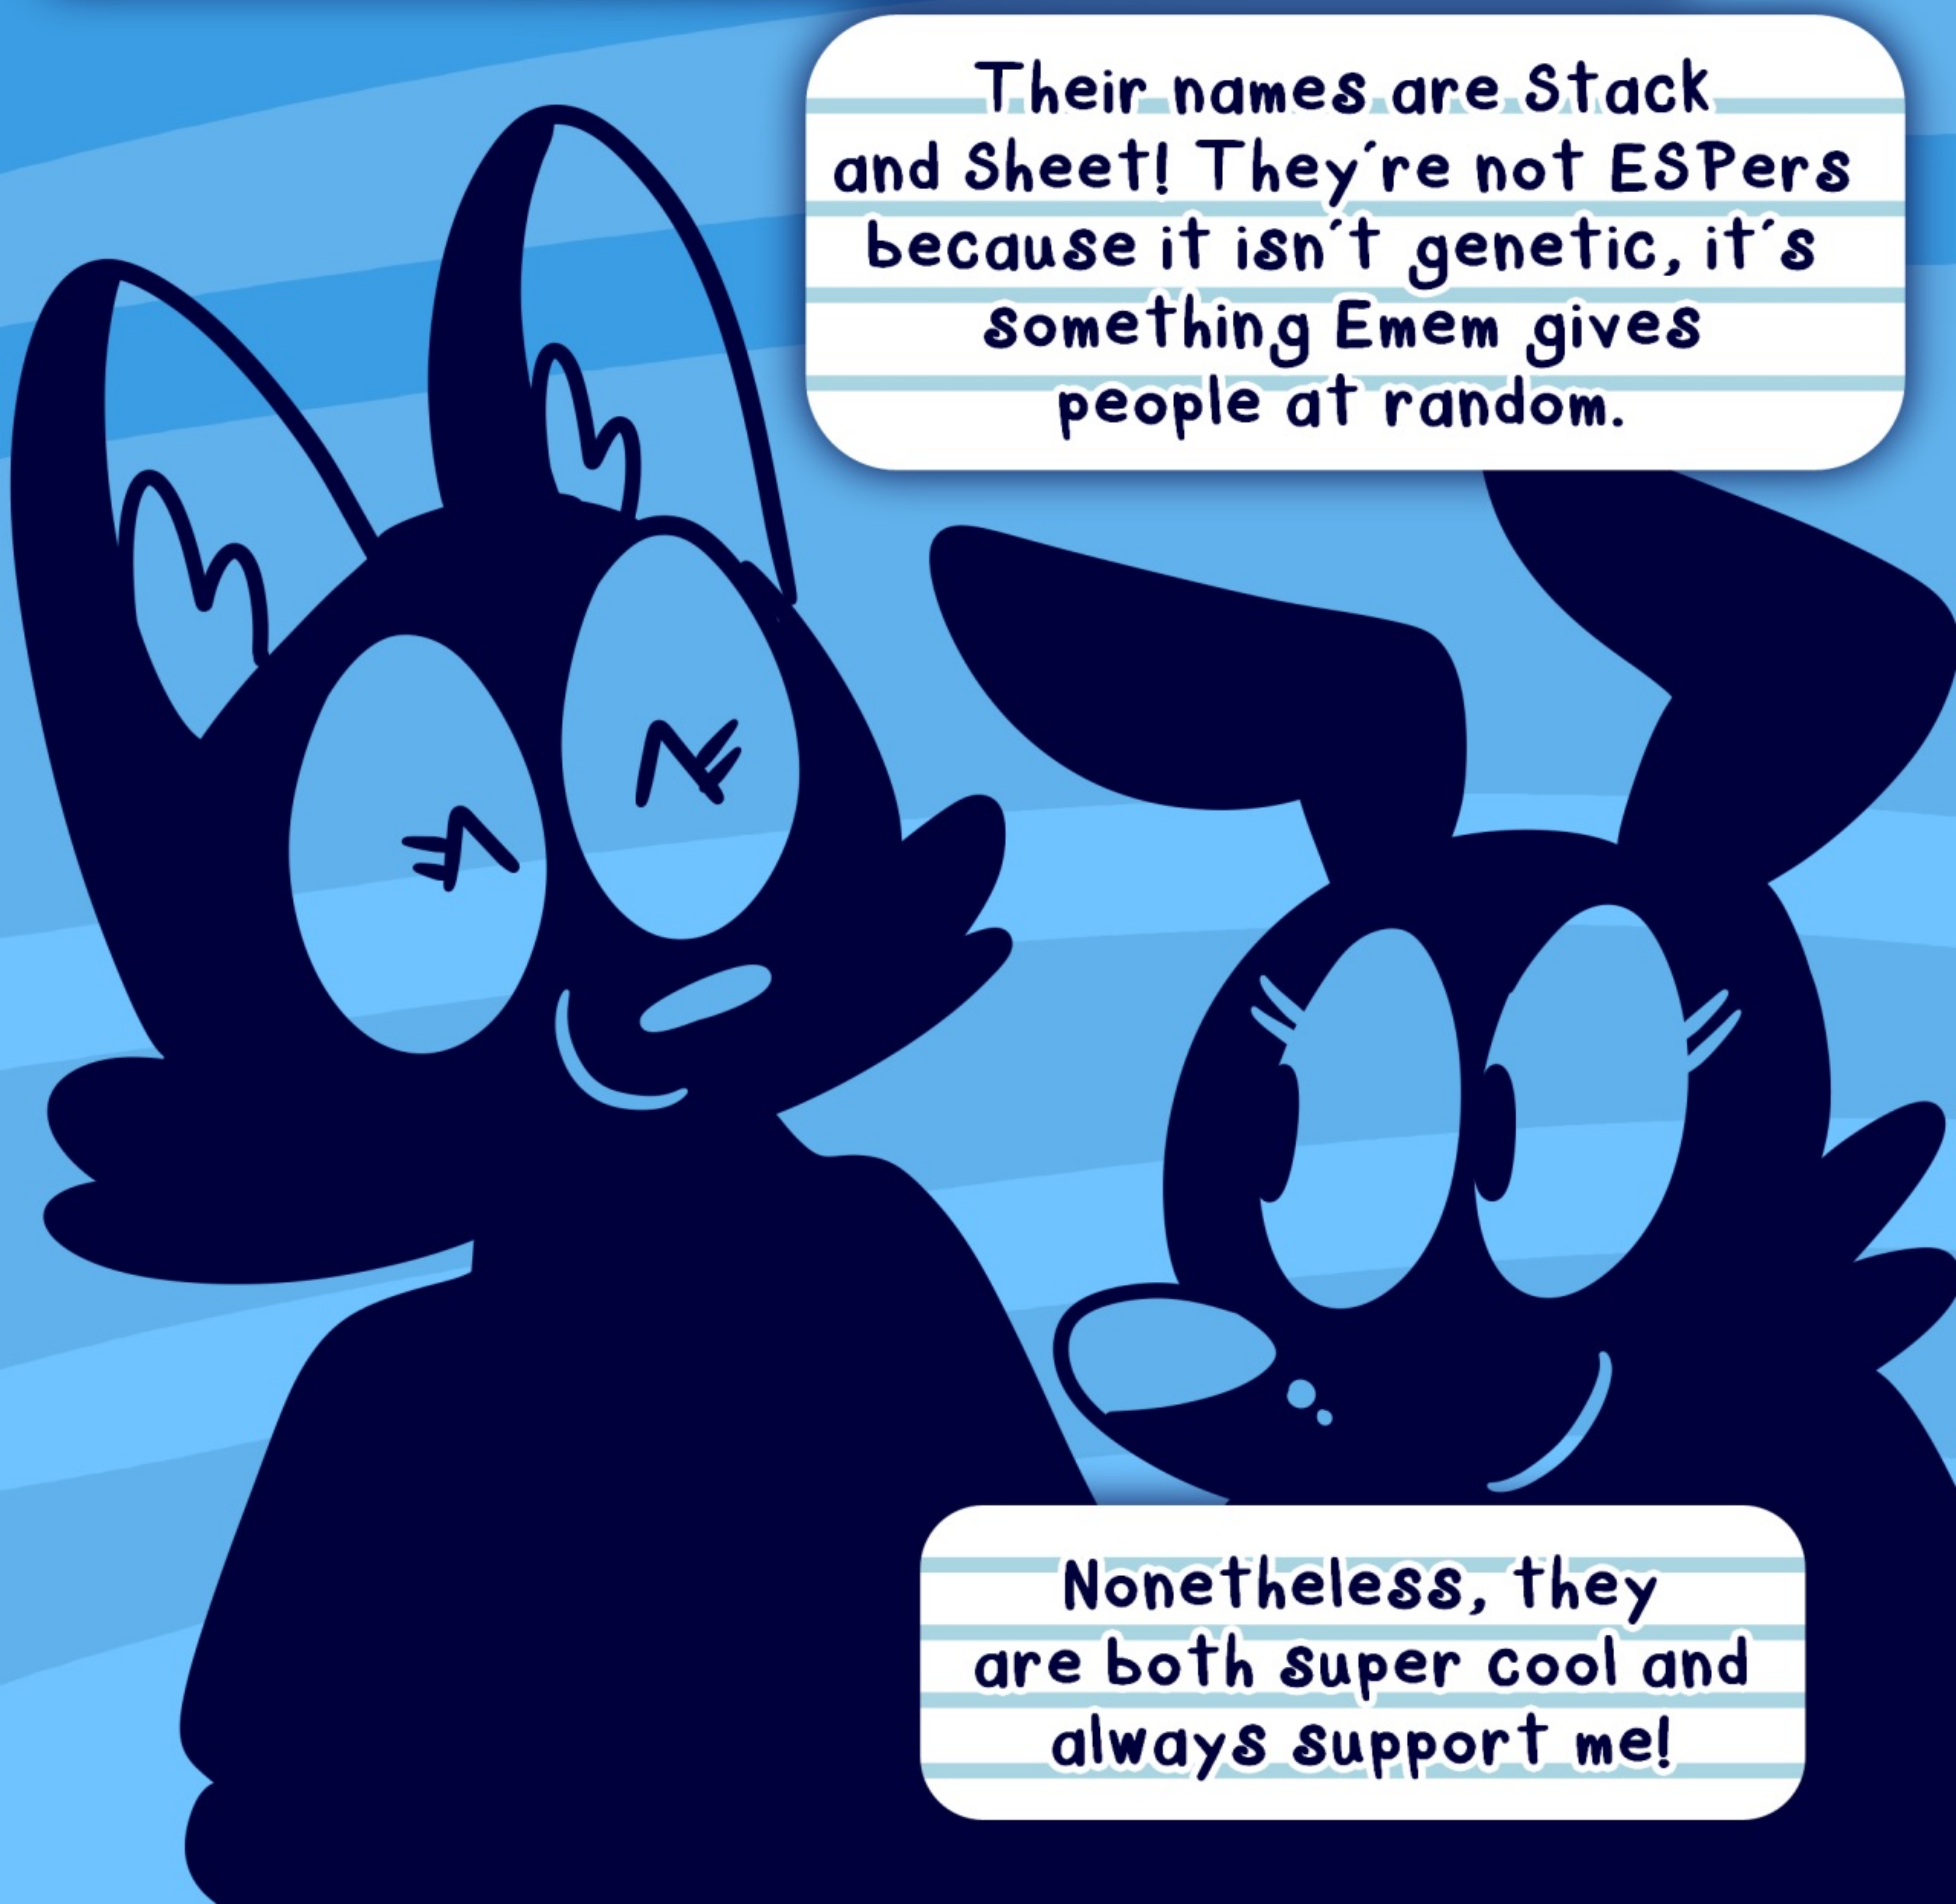
Why do you live in a library?

I live here because my moms own it. We've lived here my whole life.
It's actually great having access to so many books, I think I've read everything we have at least once.
EAST EROID PUBLIC LIBRARY

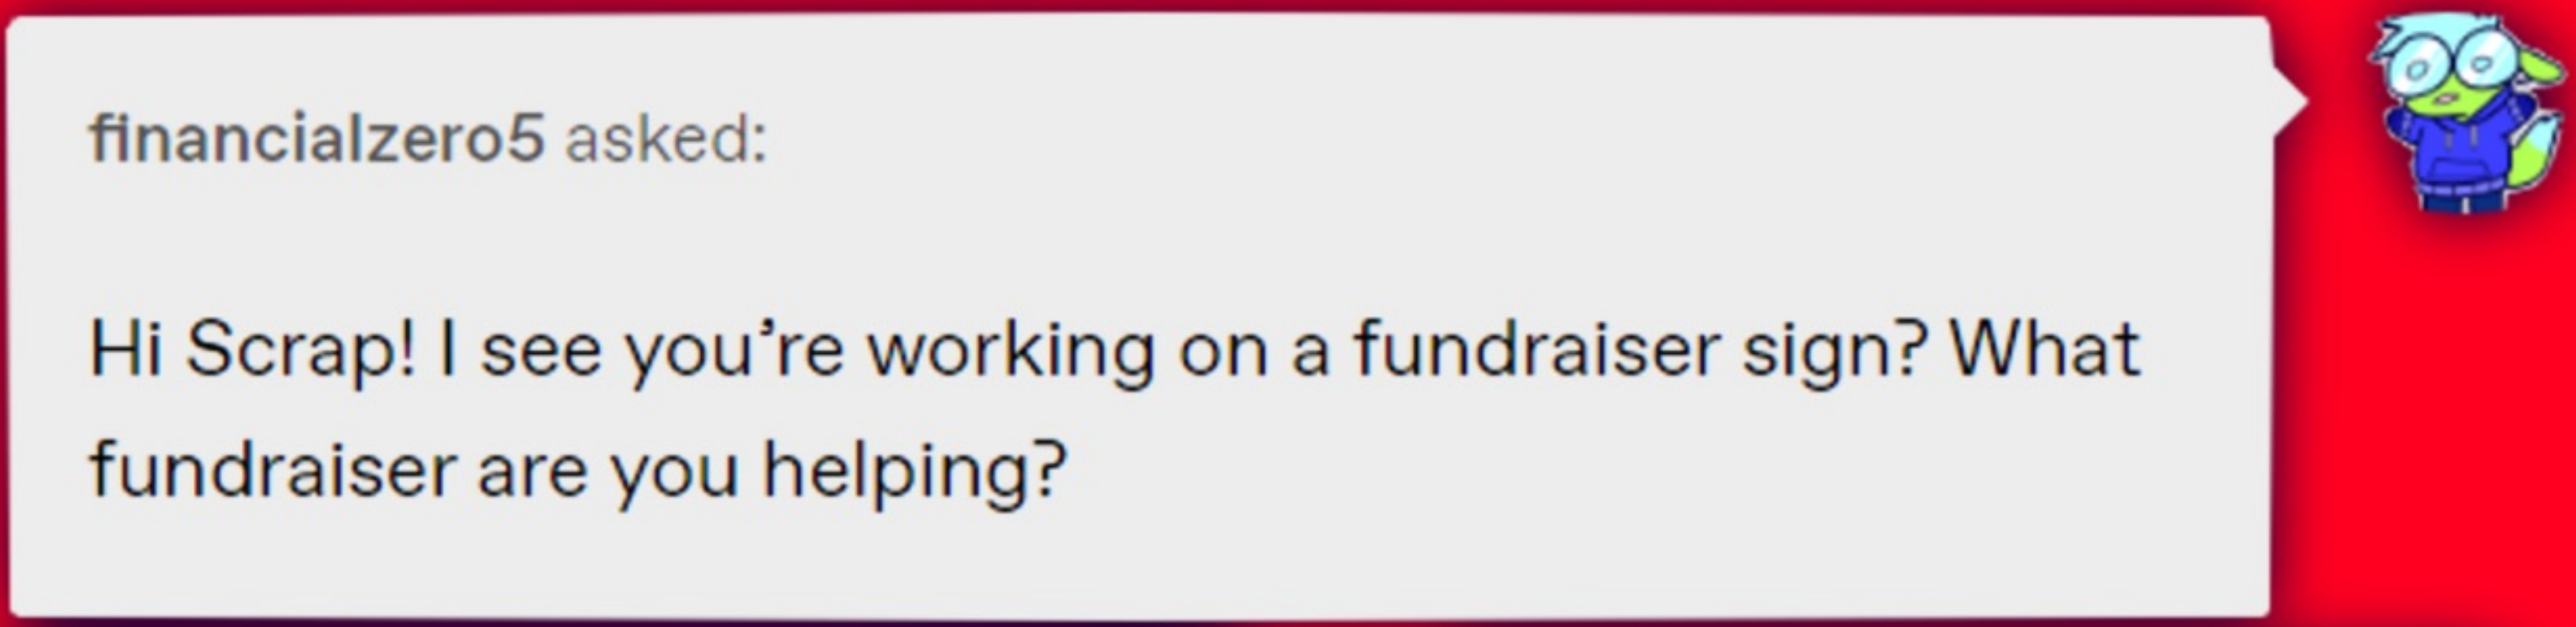


mcd-big-mac asked:

Who are your parents? Are the ESPers too?

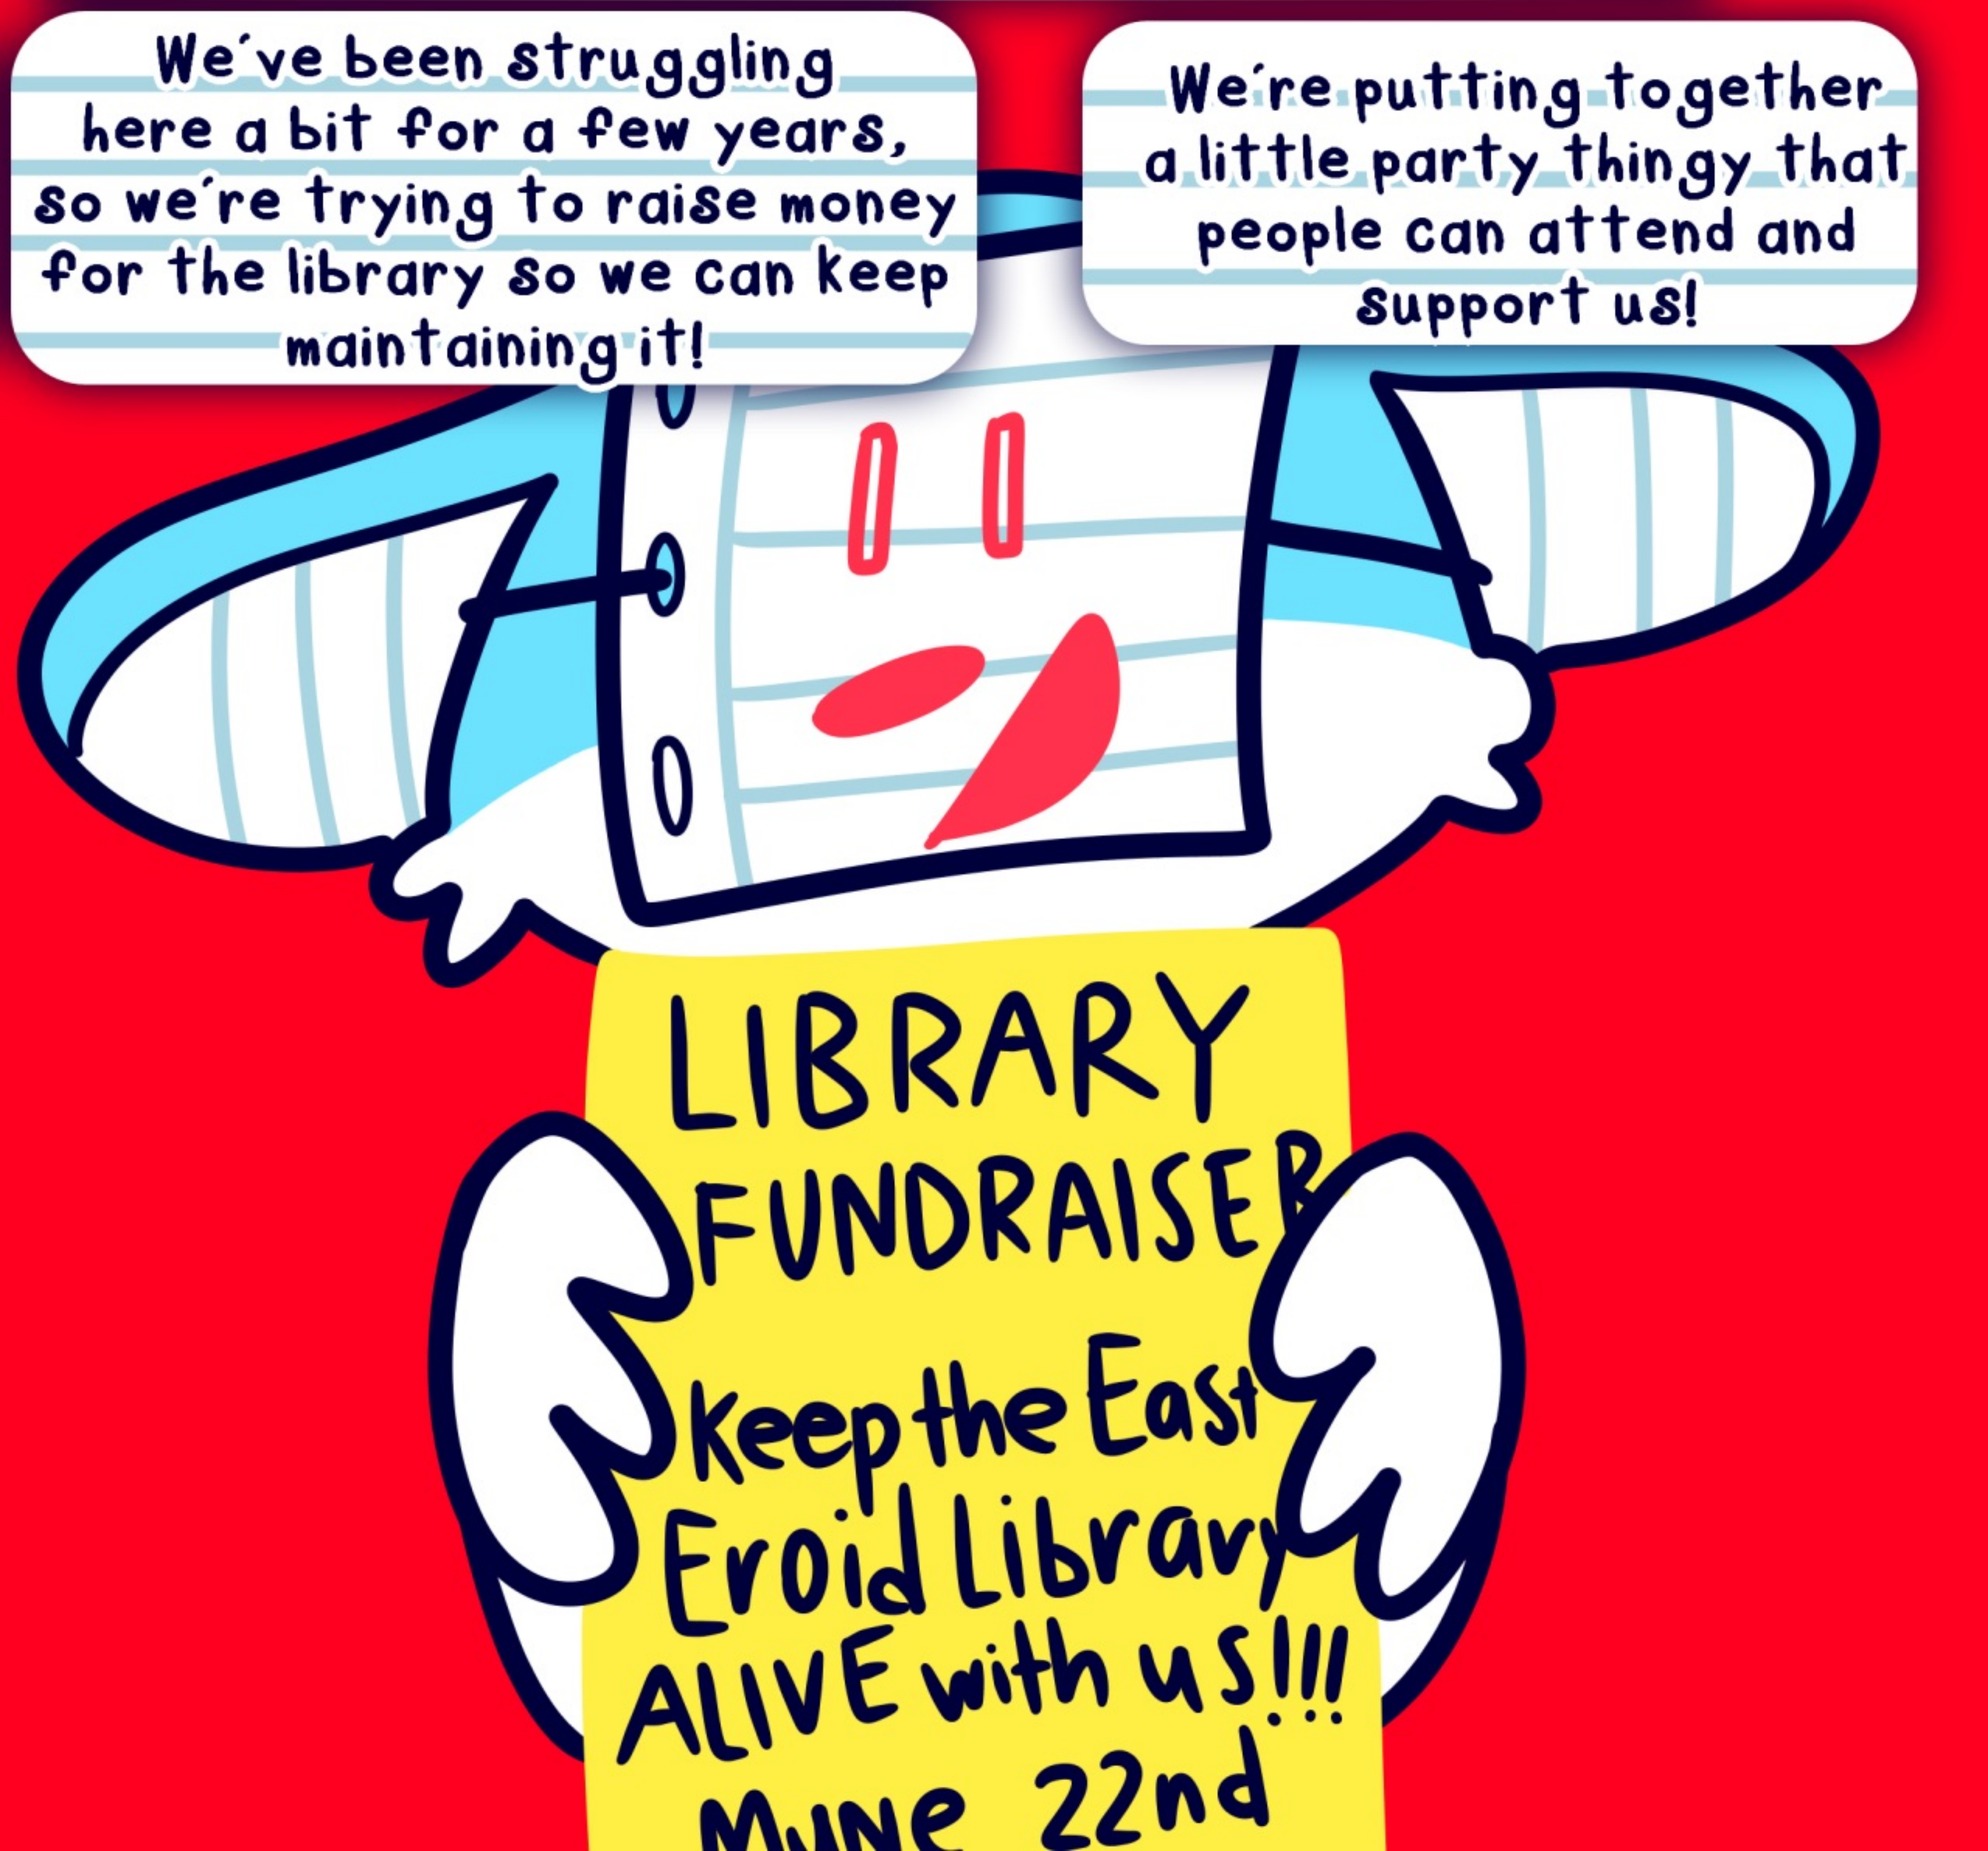


Their names are Stack and Sheet! They're not ESPers because it isn't genetic, it's something Emem gives people at random.
Nonetheless, they are both super cool and always support me!

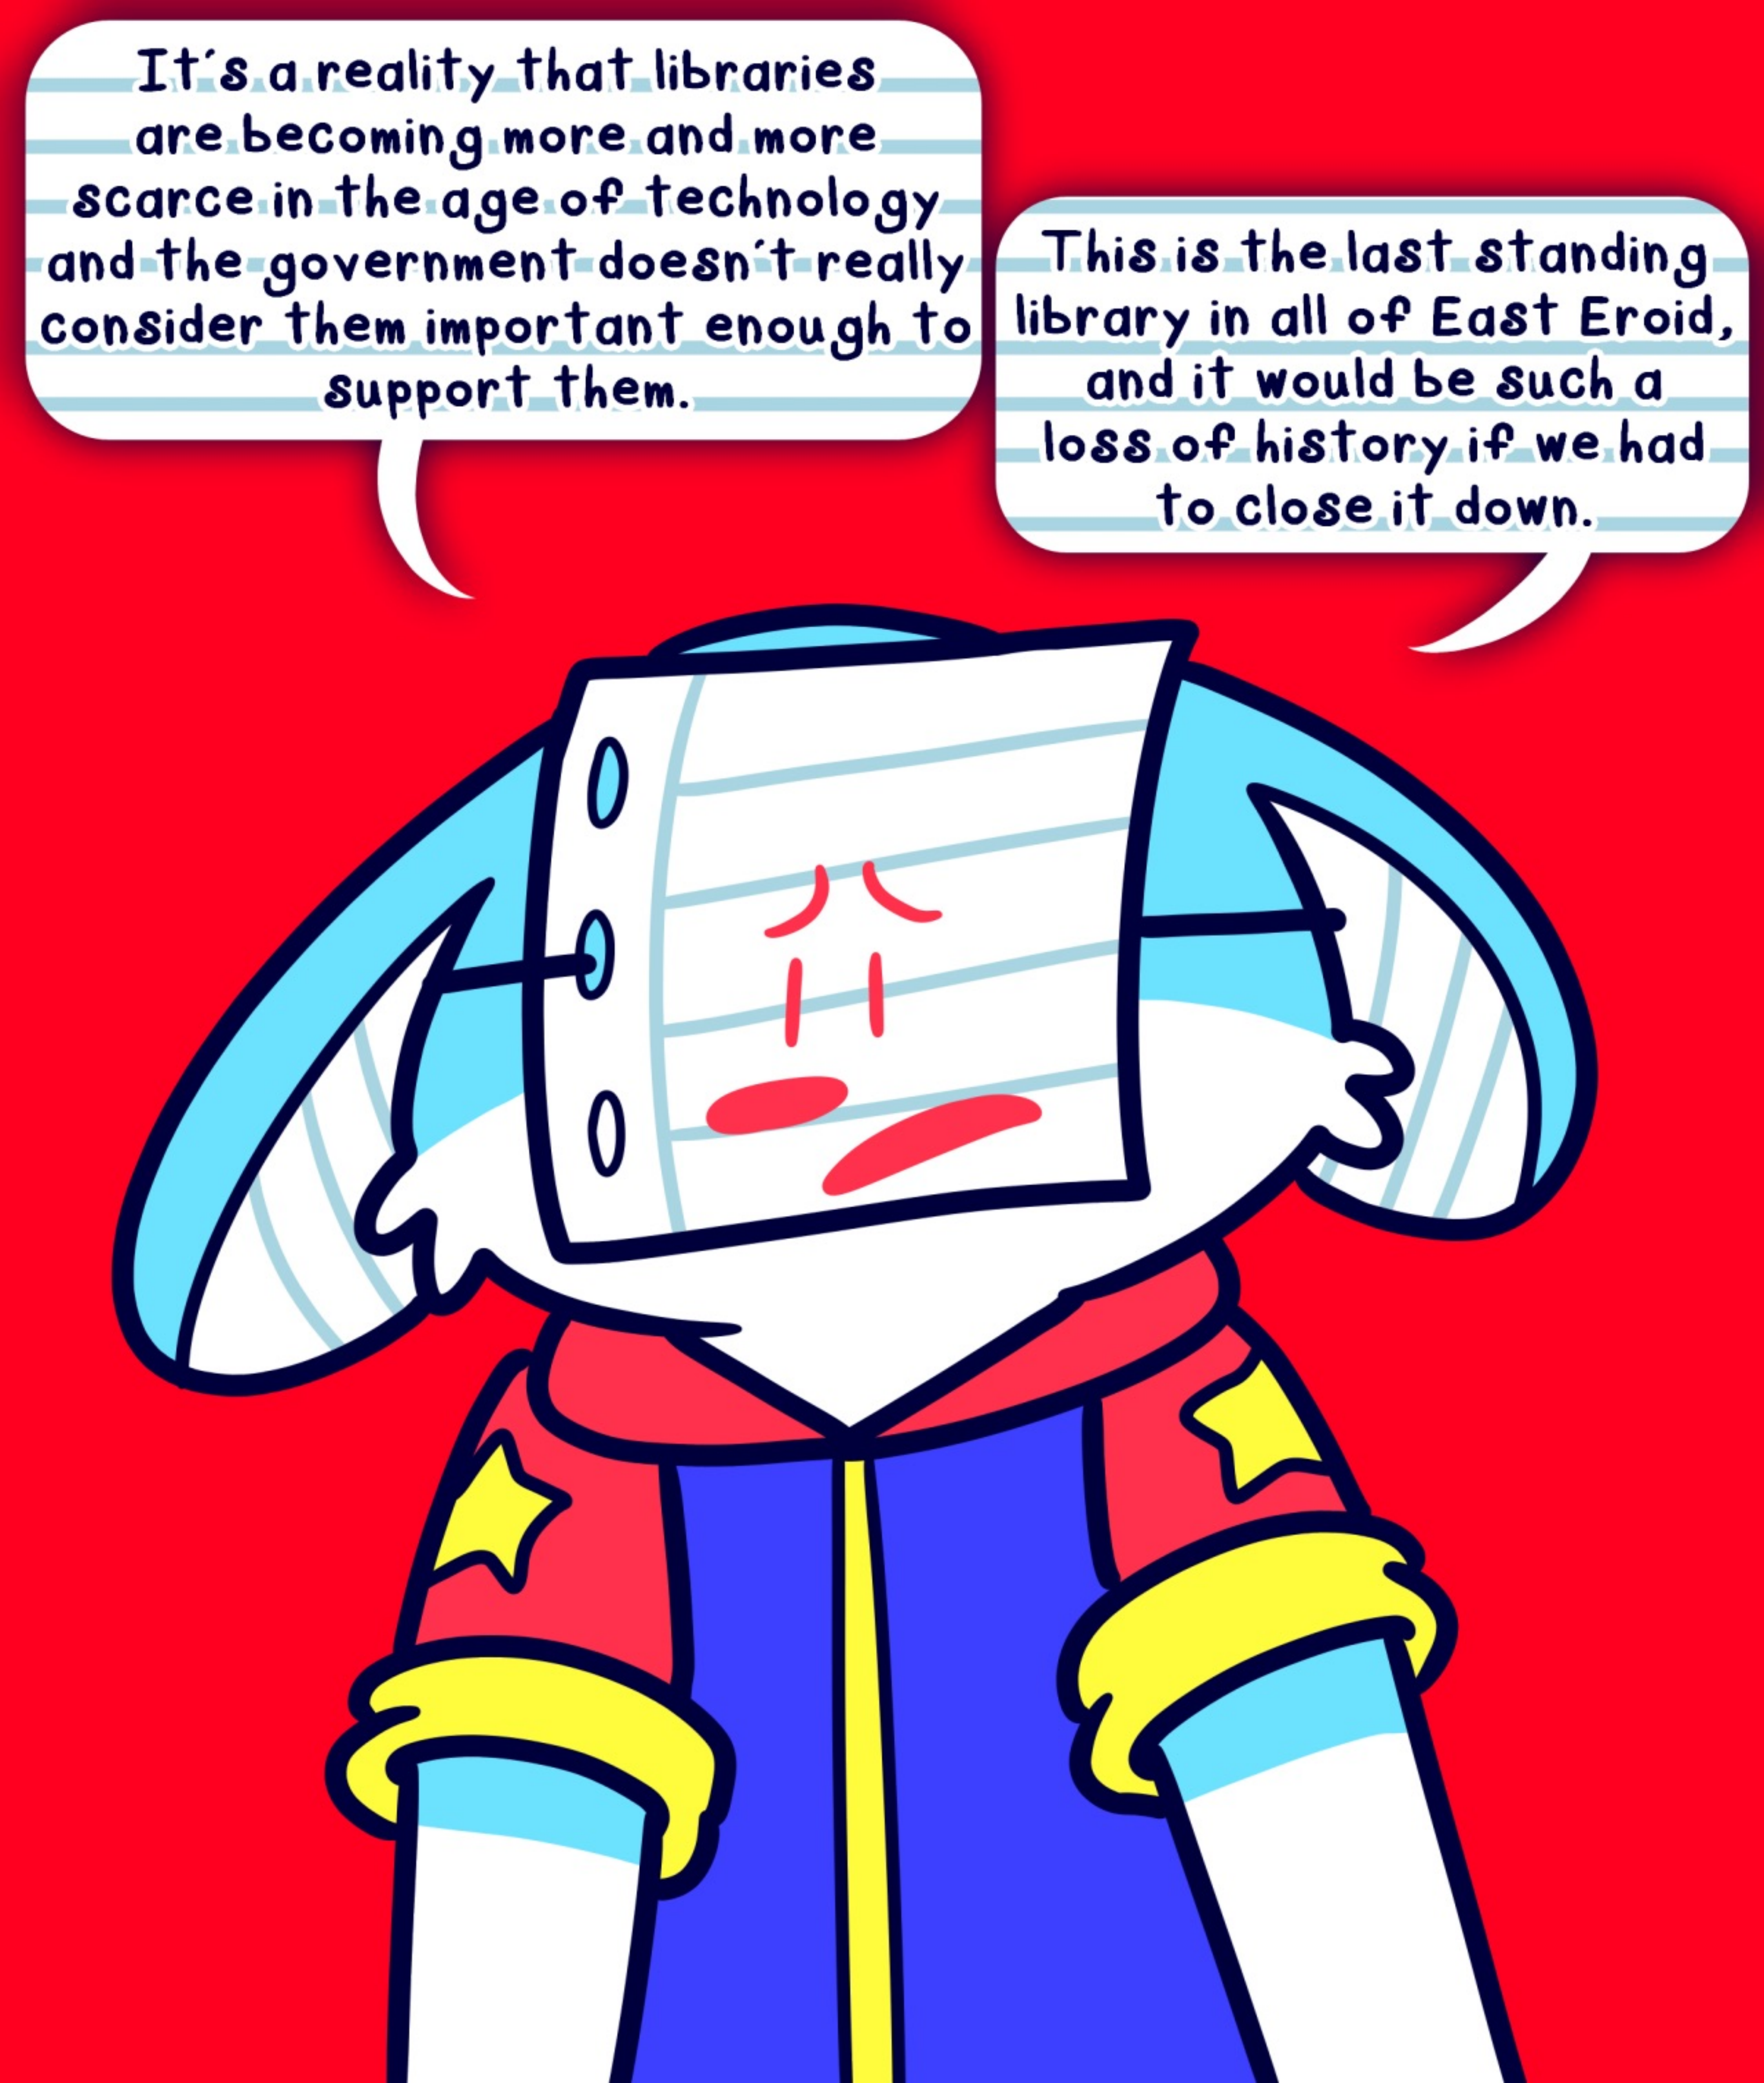


financialzero5 asked:

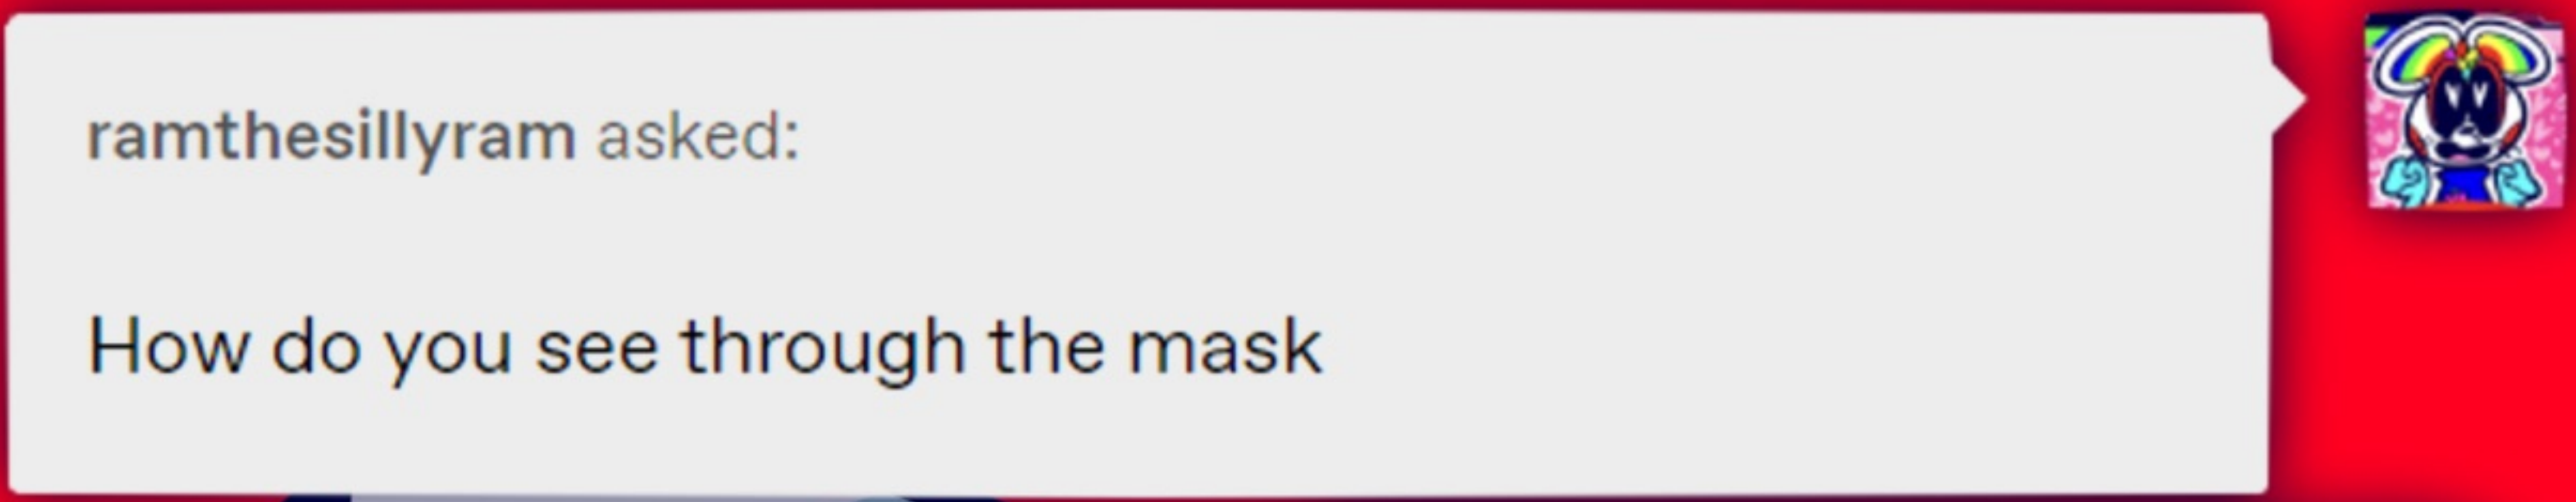
Hi Scrap! I see you're working on a fundraiser sign? What fundraiser are you helping?



We've been struggling here a bit for a few years, so we're trying to raise money for the library so we can keep maintaining it!
We're putting together a little party thingy that people can attend and support us!
LIBRARY FUNDRAISER
Keep the East Eroid Library ALIVE with us!!!
Mune 22nd

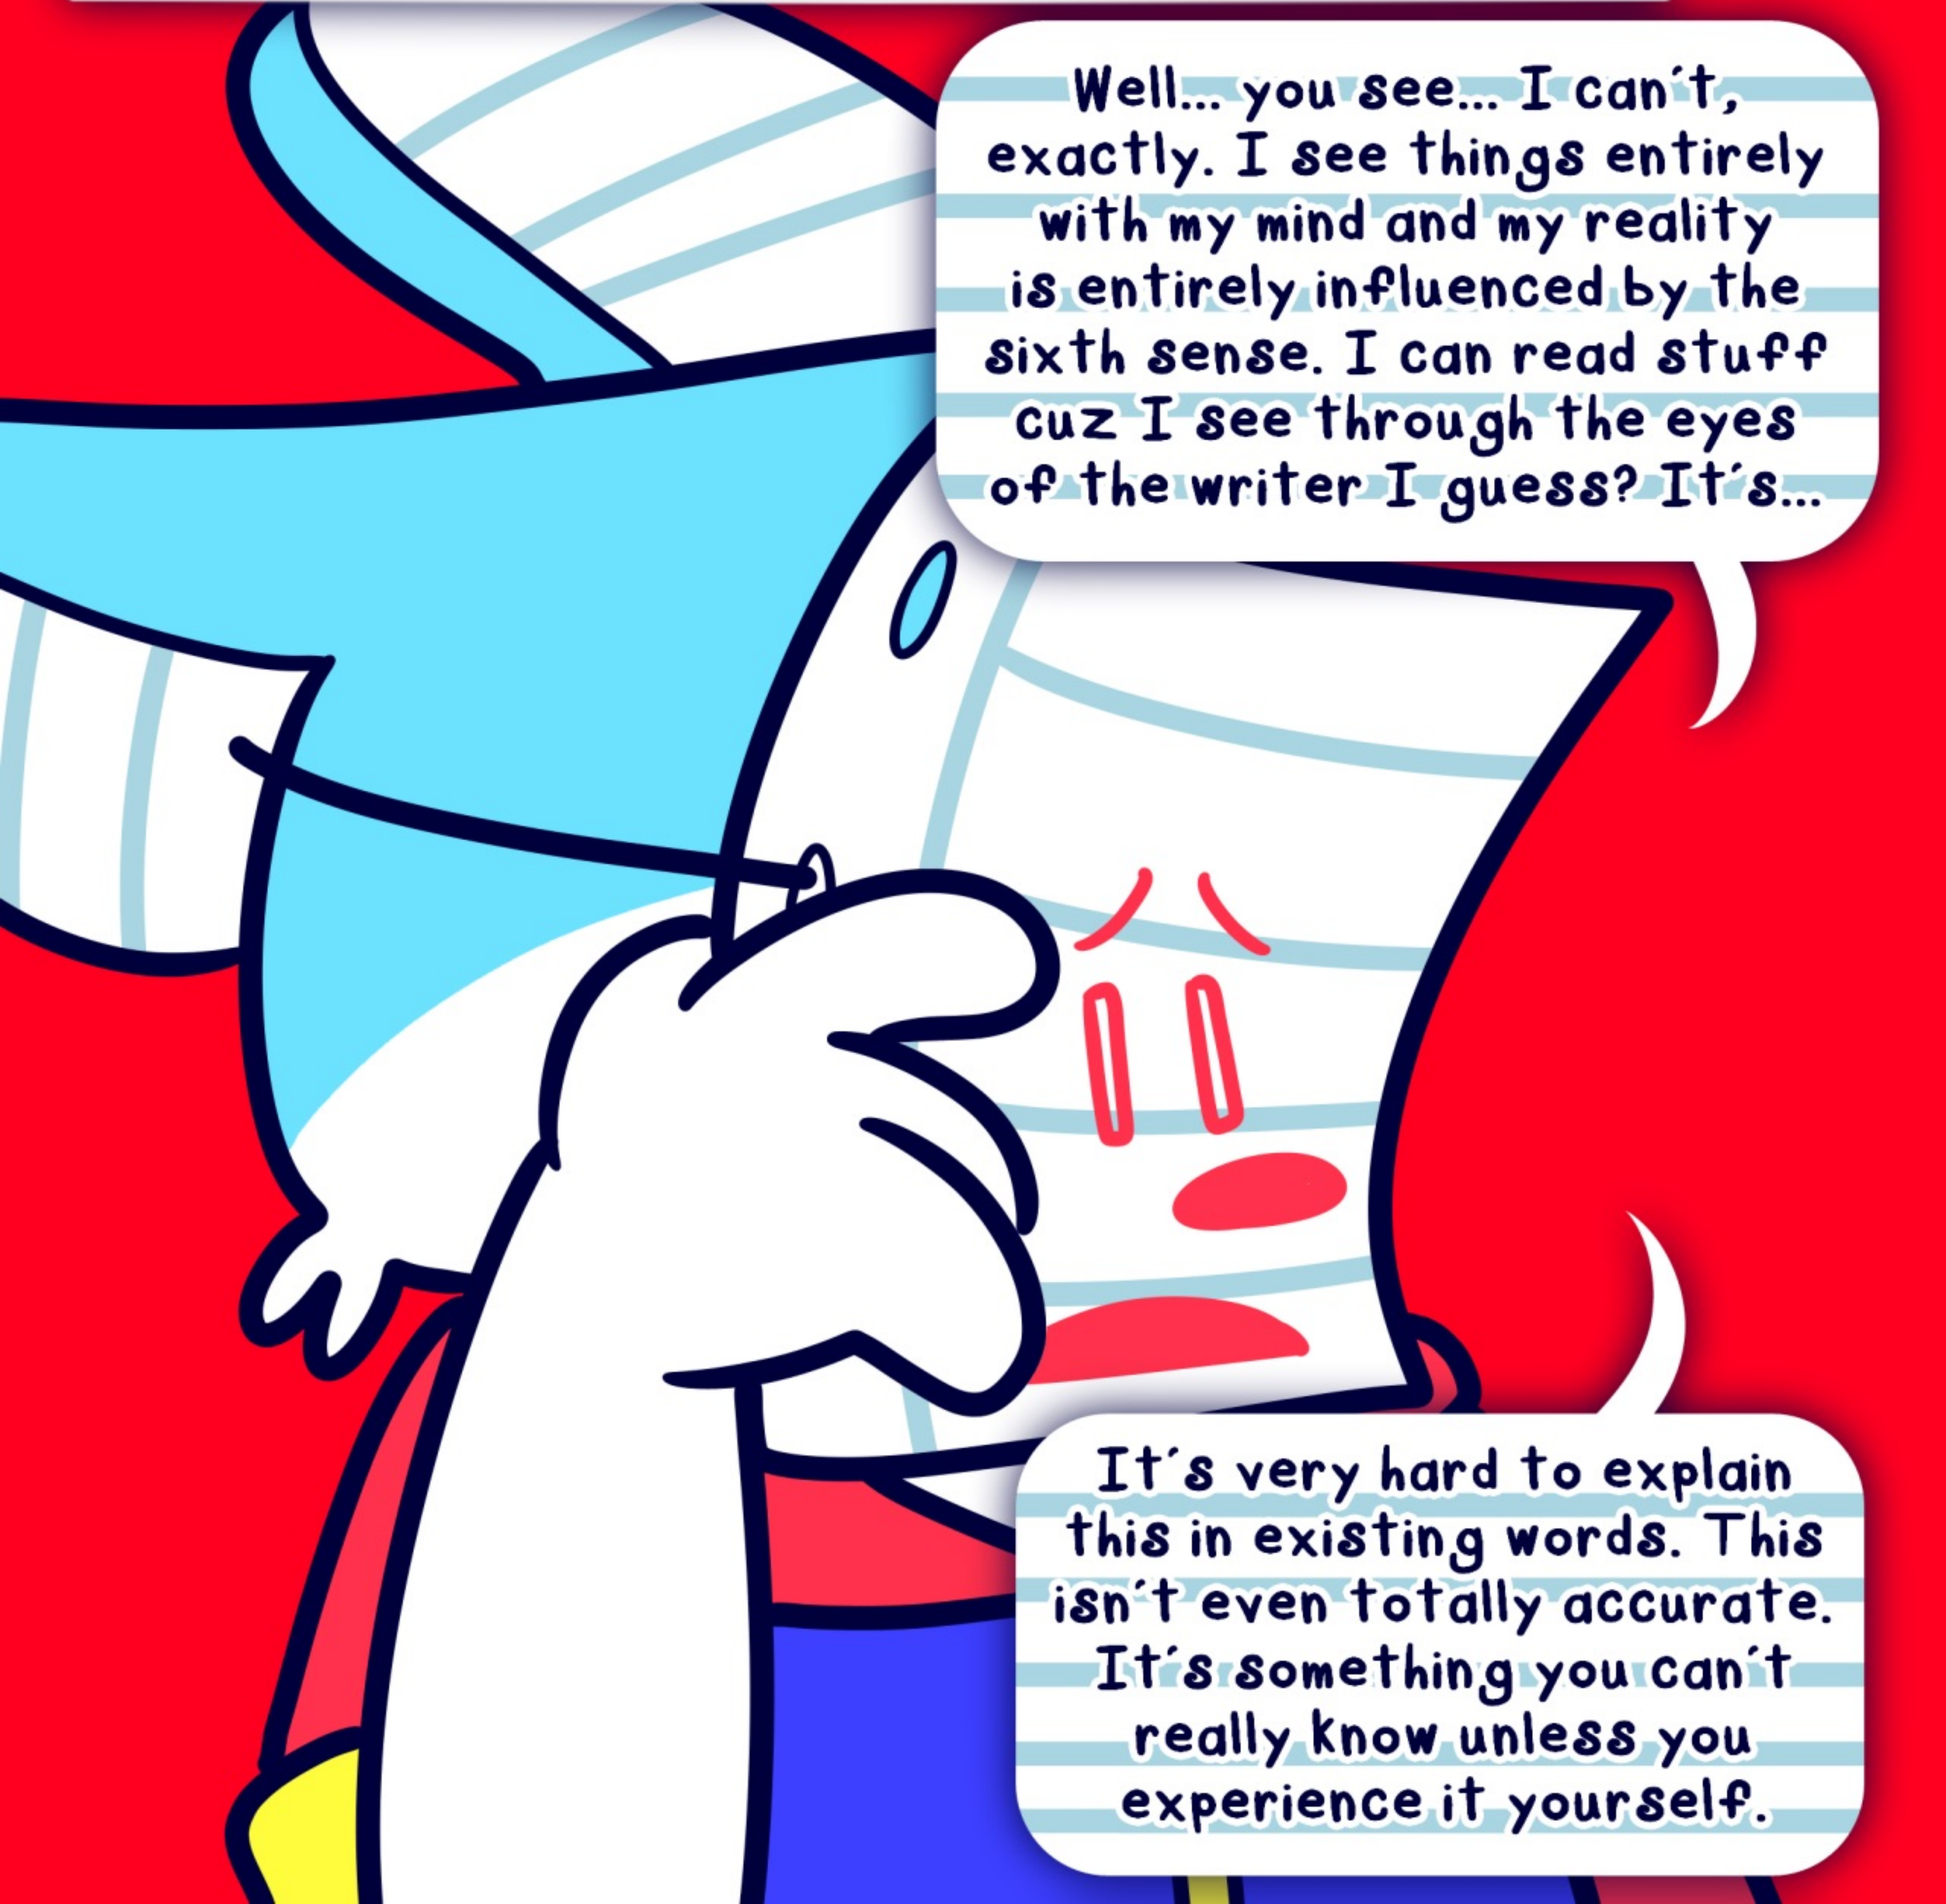


It´s a reality that libraries are becoming more and more scarce in the age of technology and the government doesn´t really consider them important enough to support them.
This is the last standing library in all of East Eroid, and it would be such a loss of history if we had to close it down.



ramthesillyram asked:

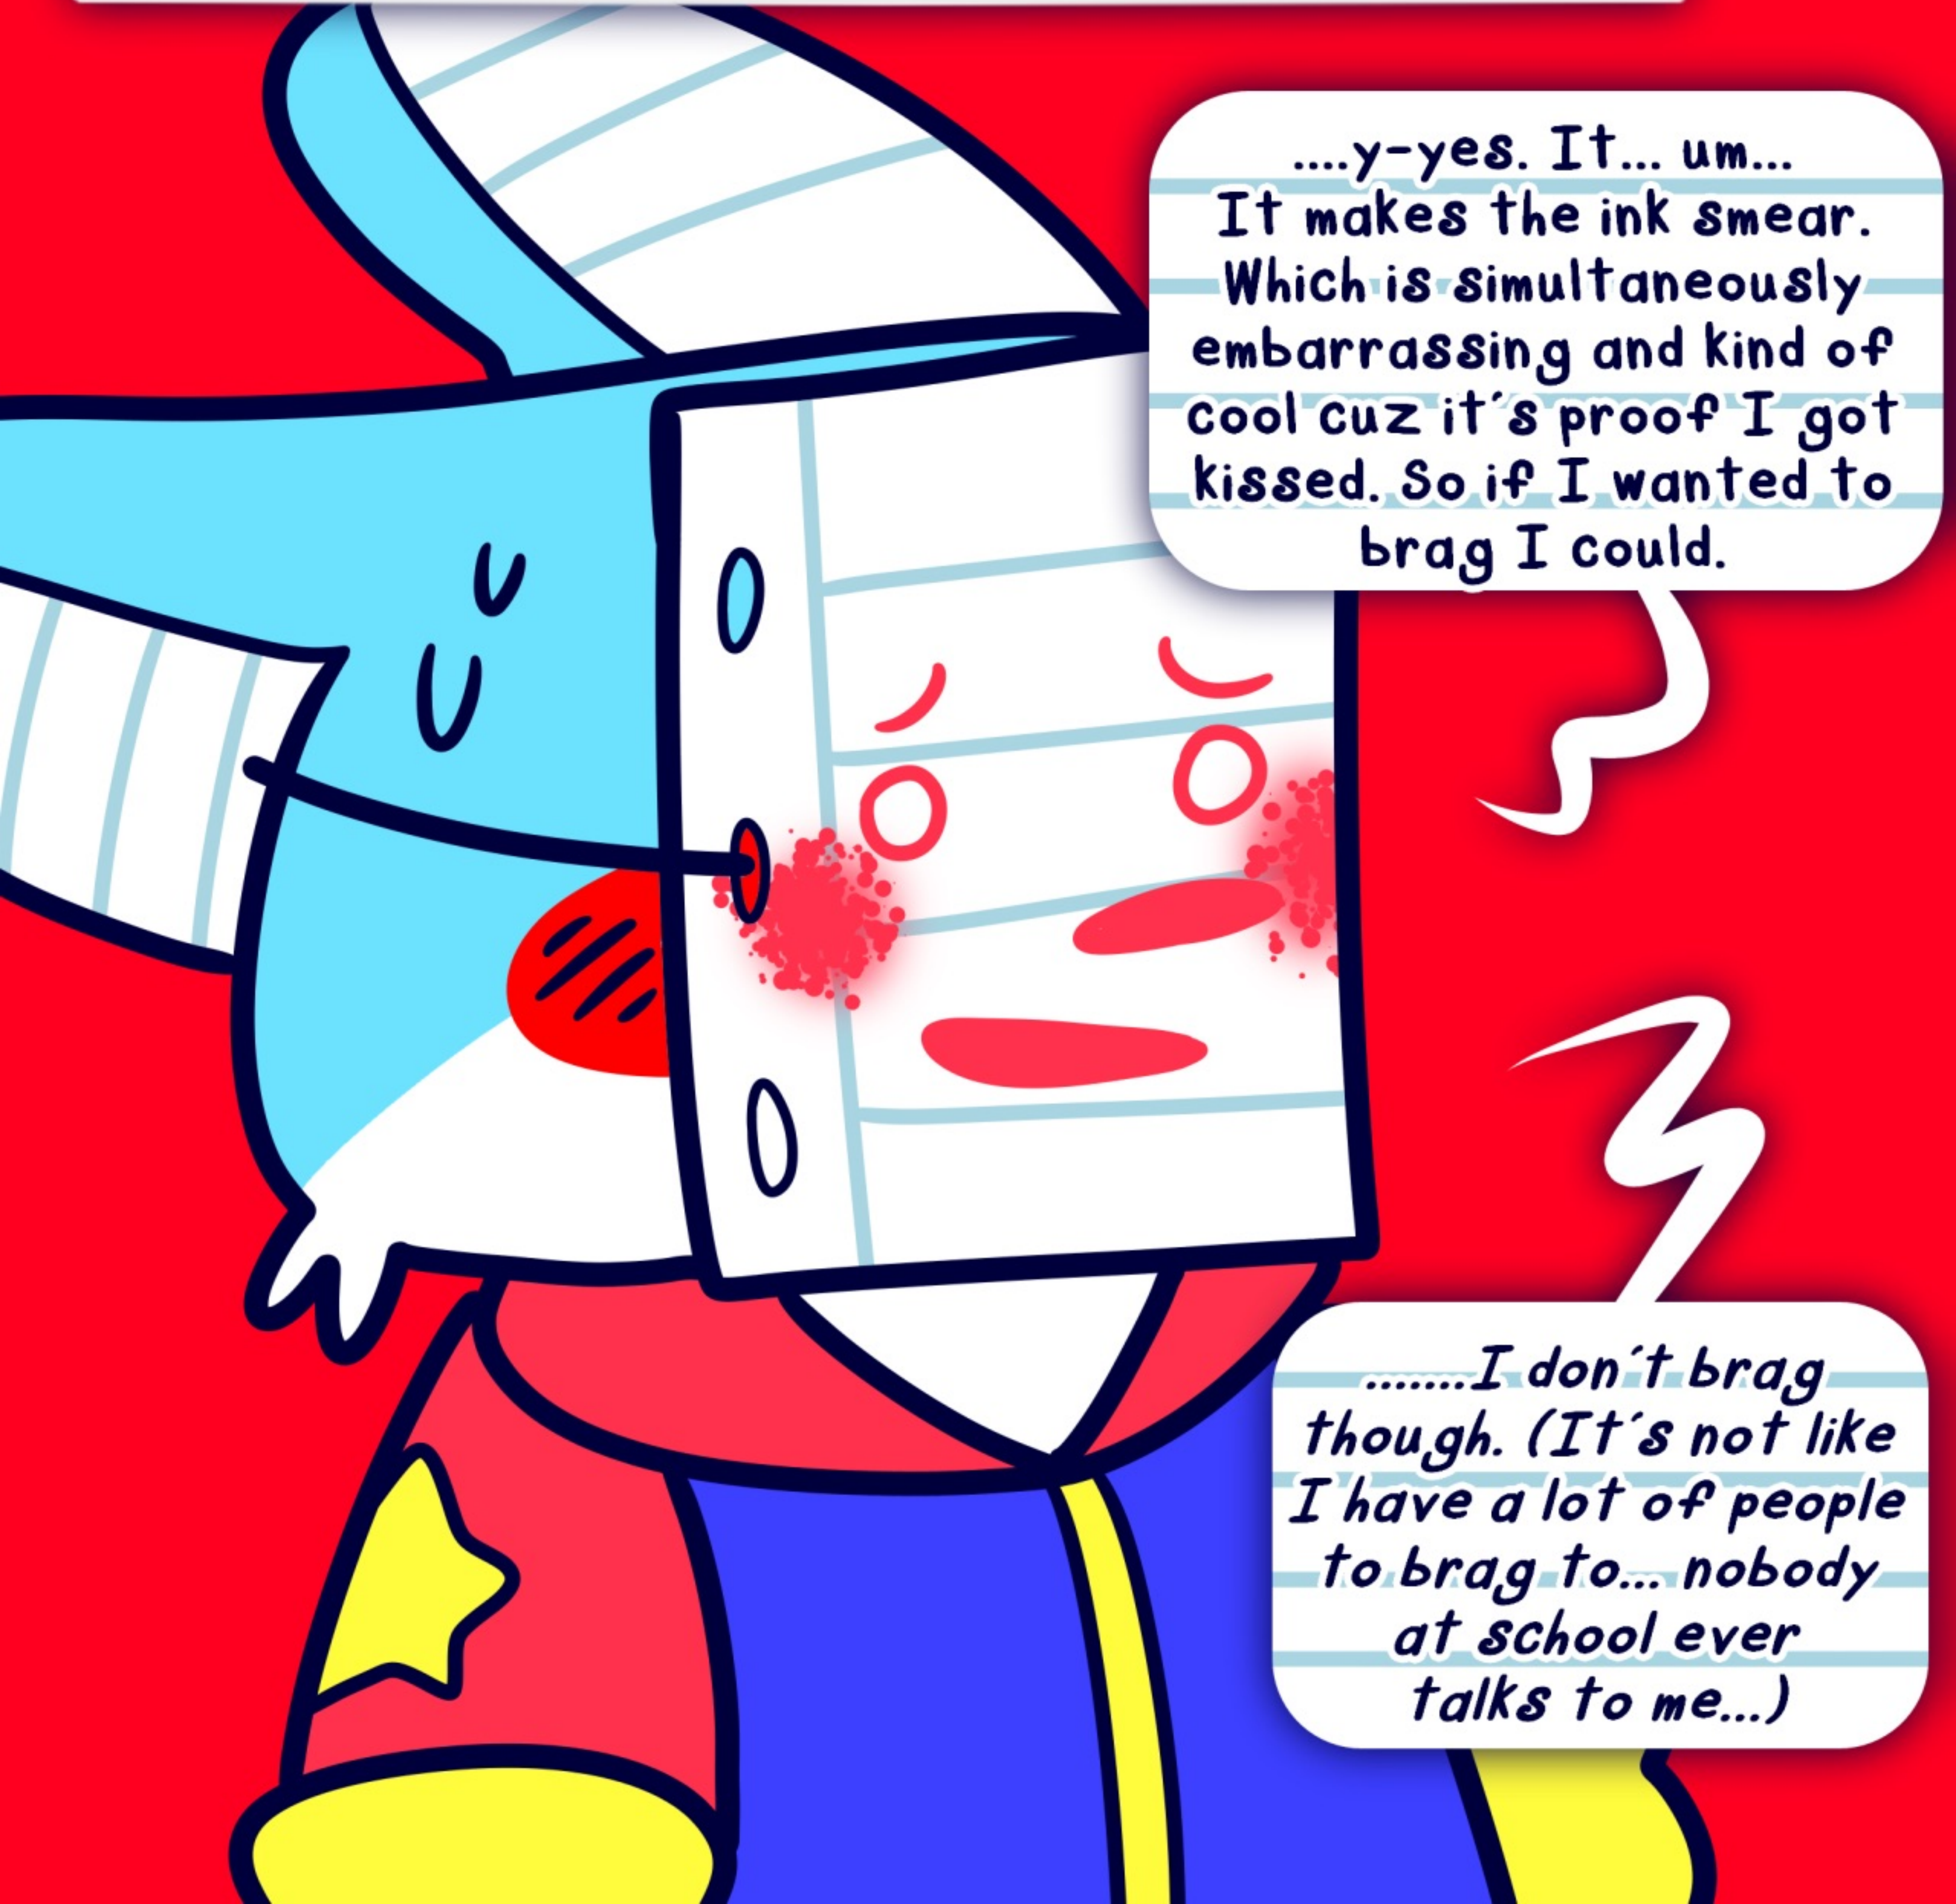
How do you see through the mask



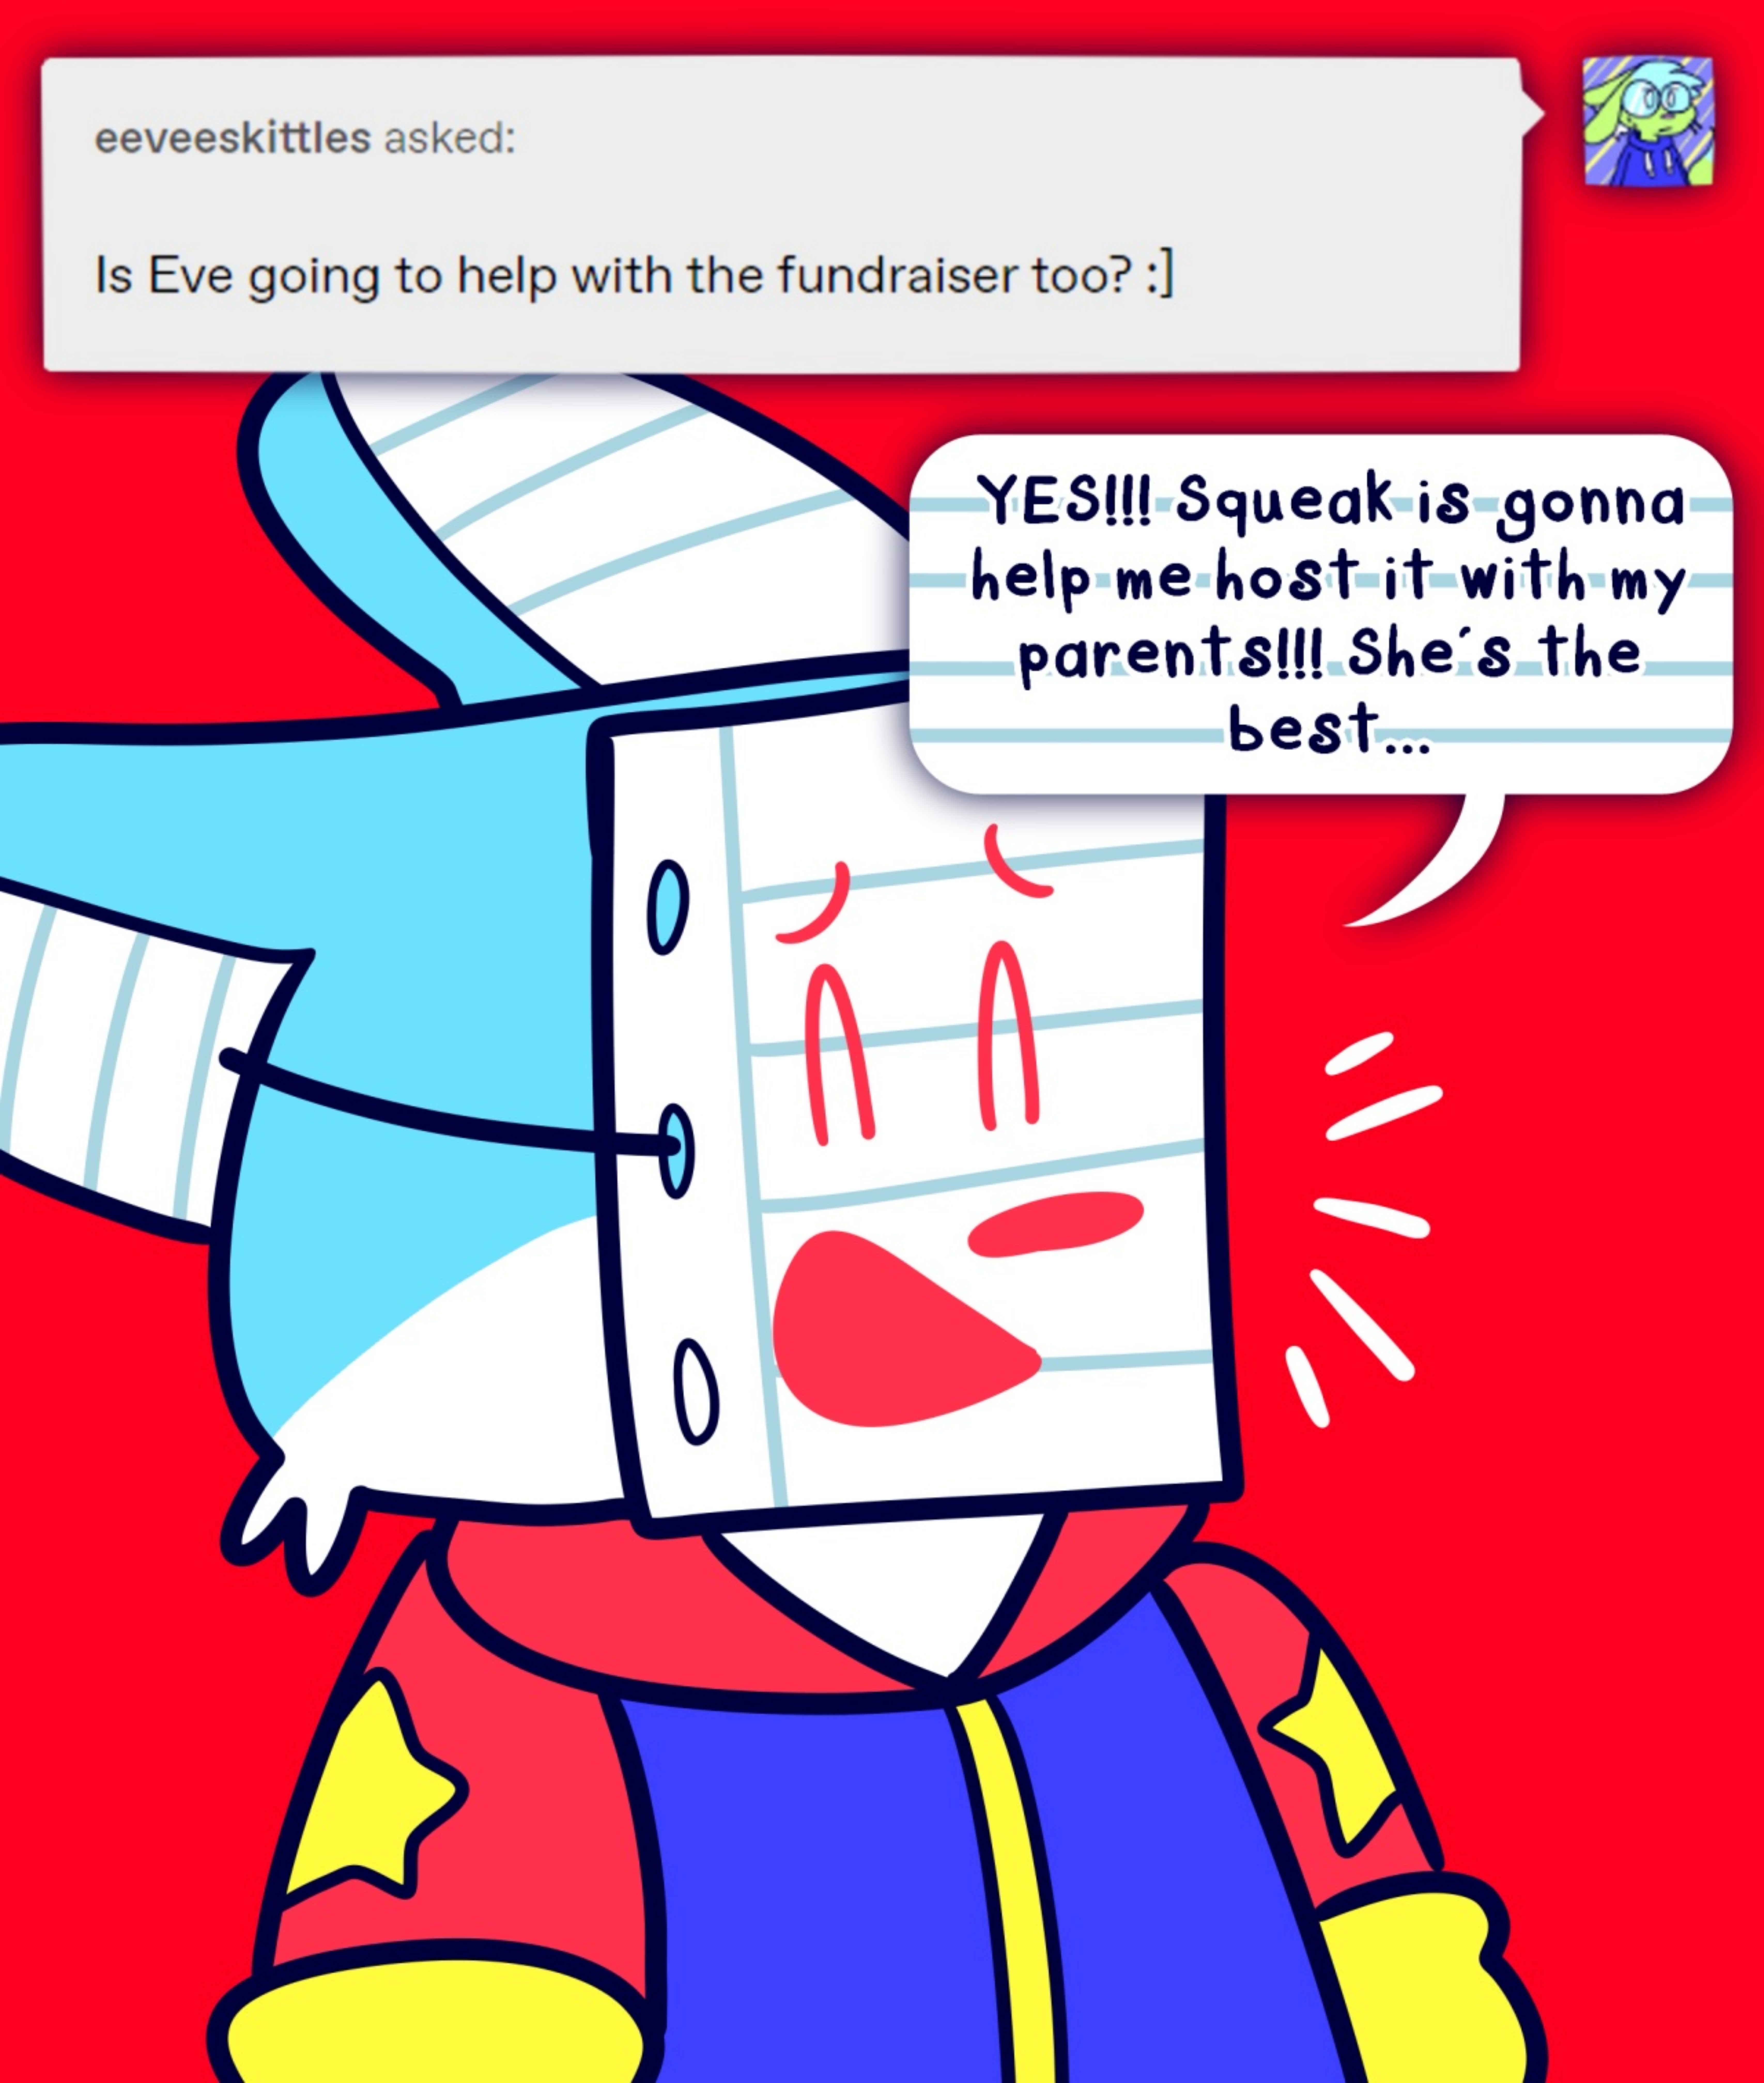
Well... you see... I can't, exactly. I see things entirely with my mind and my reality is entirely influenced by the sixth sense. I can read stuff cuz I see through the eyes of the writer I guess? It's...
It's very hard to explain this in existing words. This isn't even totally accurate. It's something you can't really know unless you experience it yourself.

knowyouronion asked:

have you ever kissed Eve with your mask on?



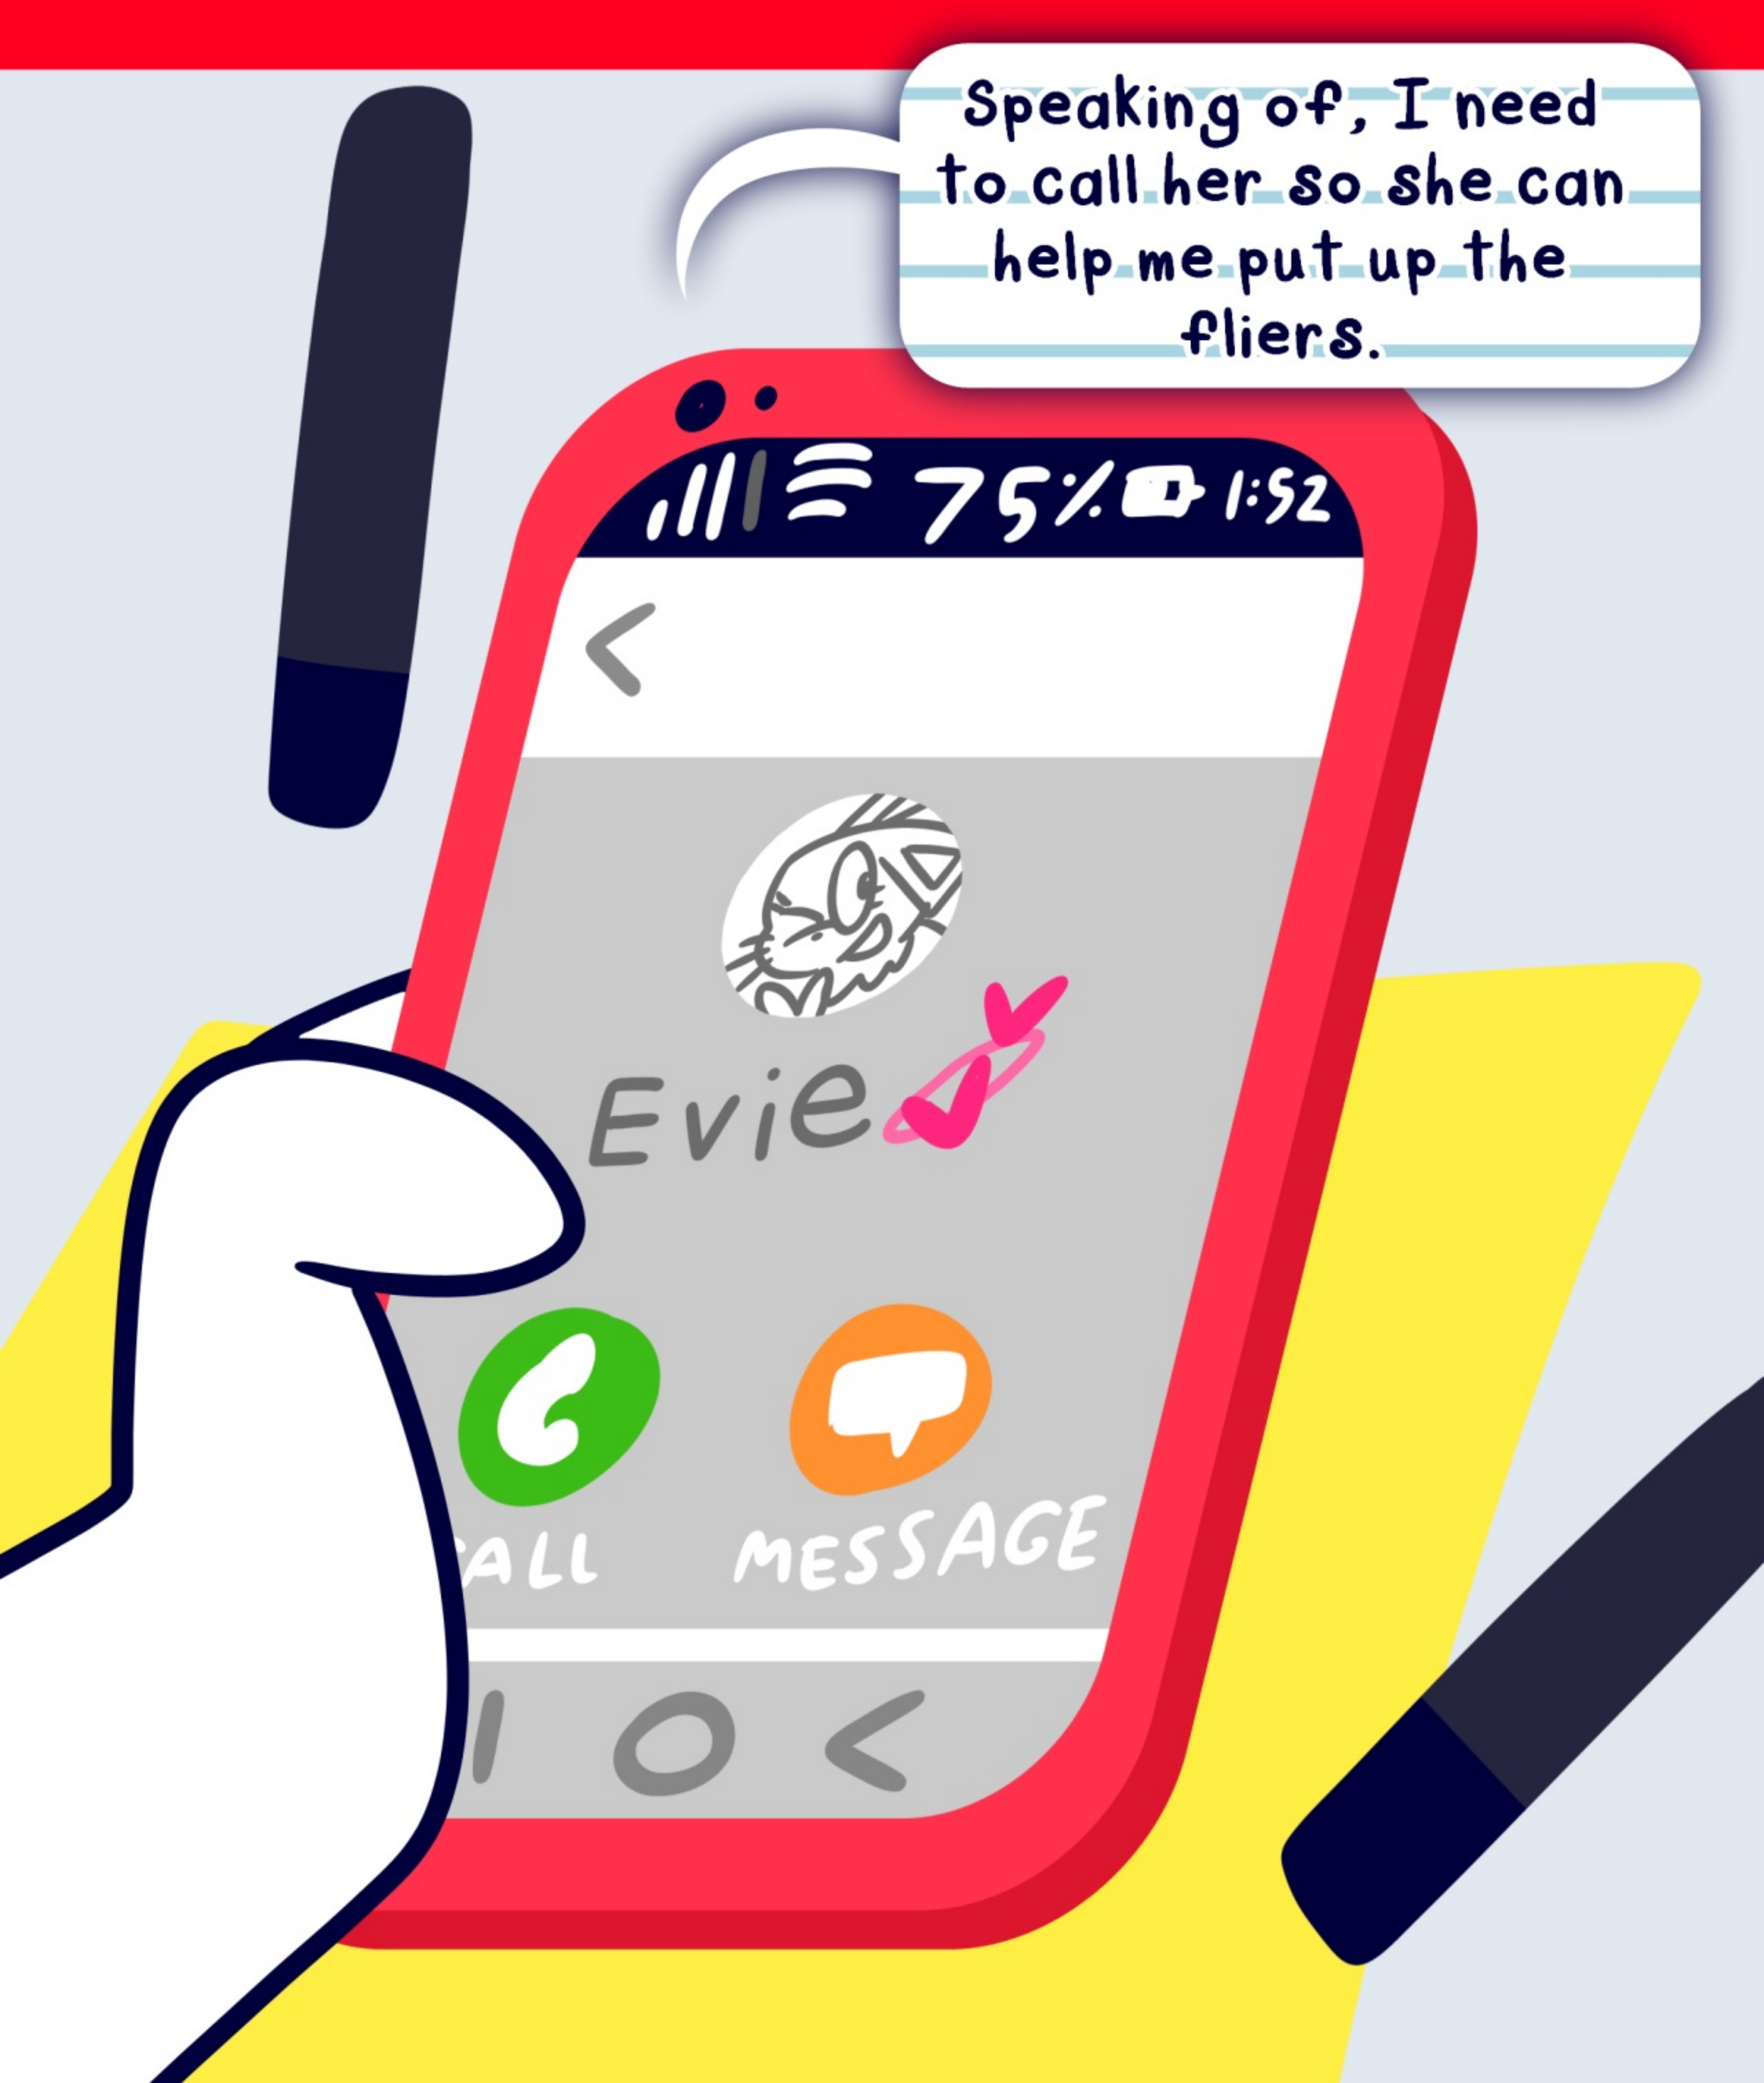
....y-yes. It... um... It makes the ink smear. Which is simultaneously embarrassing and kind of cool cuz it´s proof I got kissed. So if I wanted to brag I could.
.......I don´t brag though. (It´s not like I have a lot of people to brag to... nobody at school ever talks to me...)



eeveeskittles asked:

Is Eve going to help with the fundraiser too? :]

YES!!! Squeak is gonna help me host it with my parents!!! She's the best...



Speaking of, I need to call her so she can help me put up the fliers.

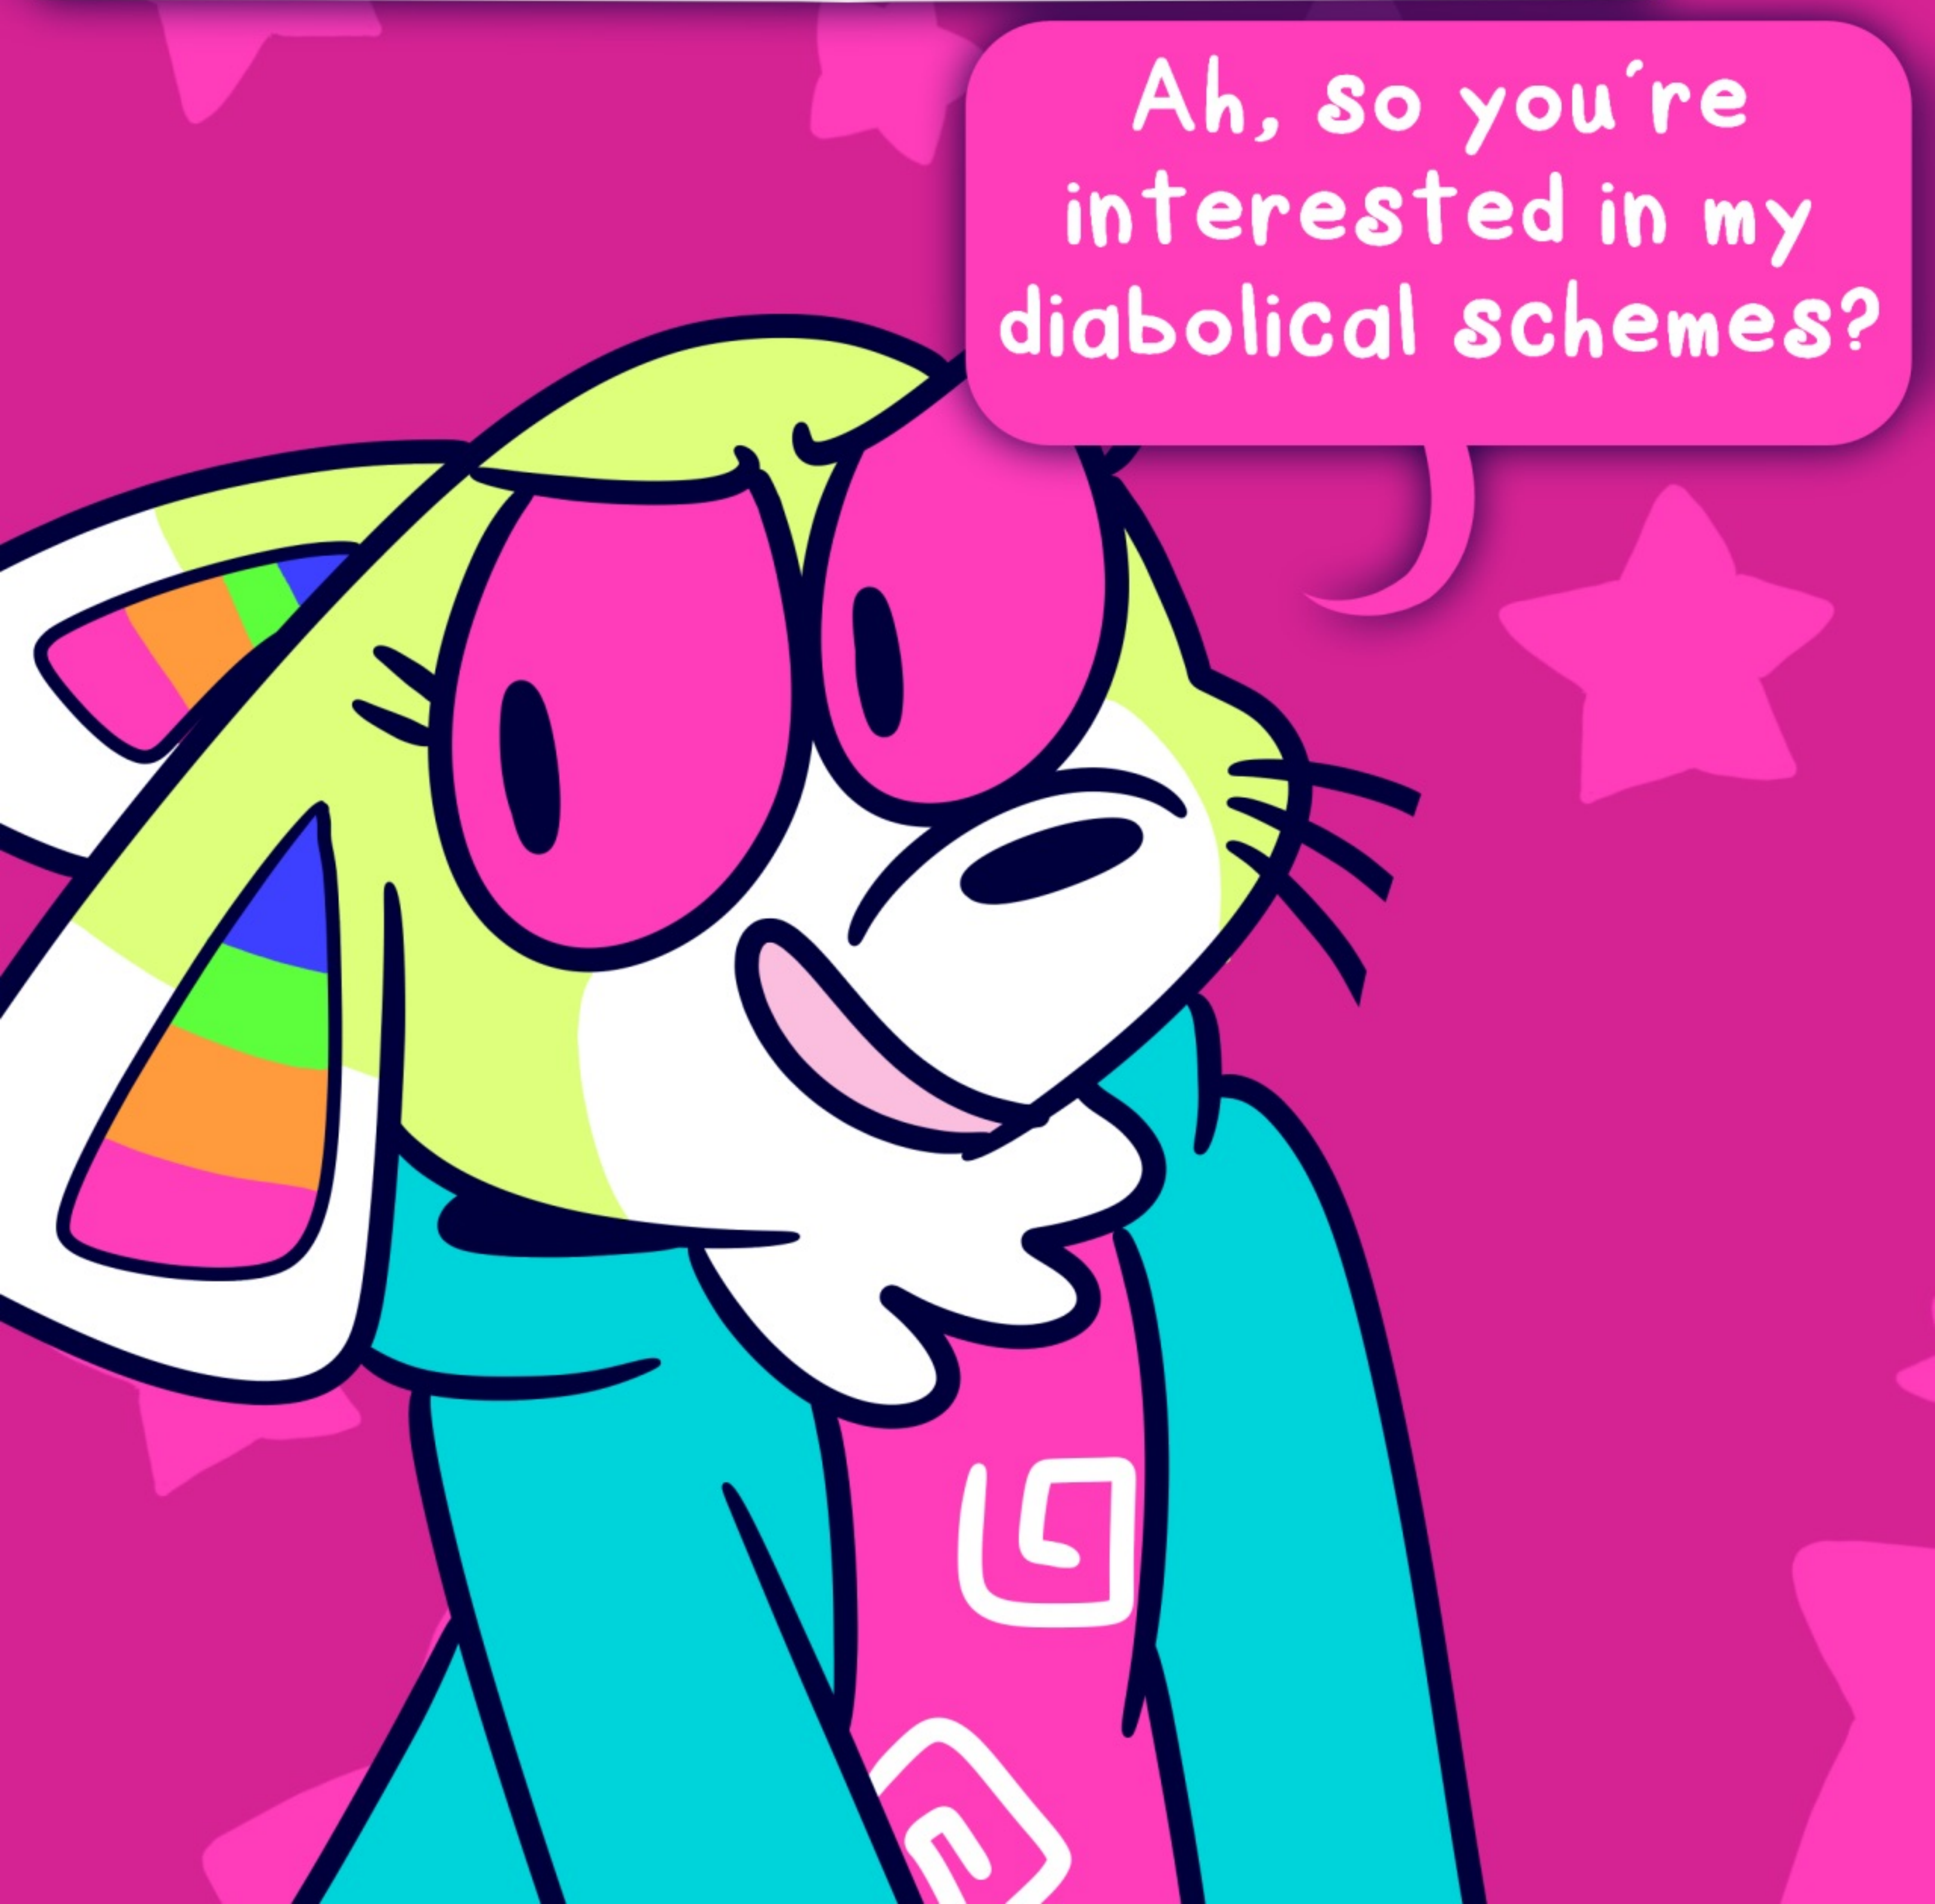
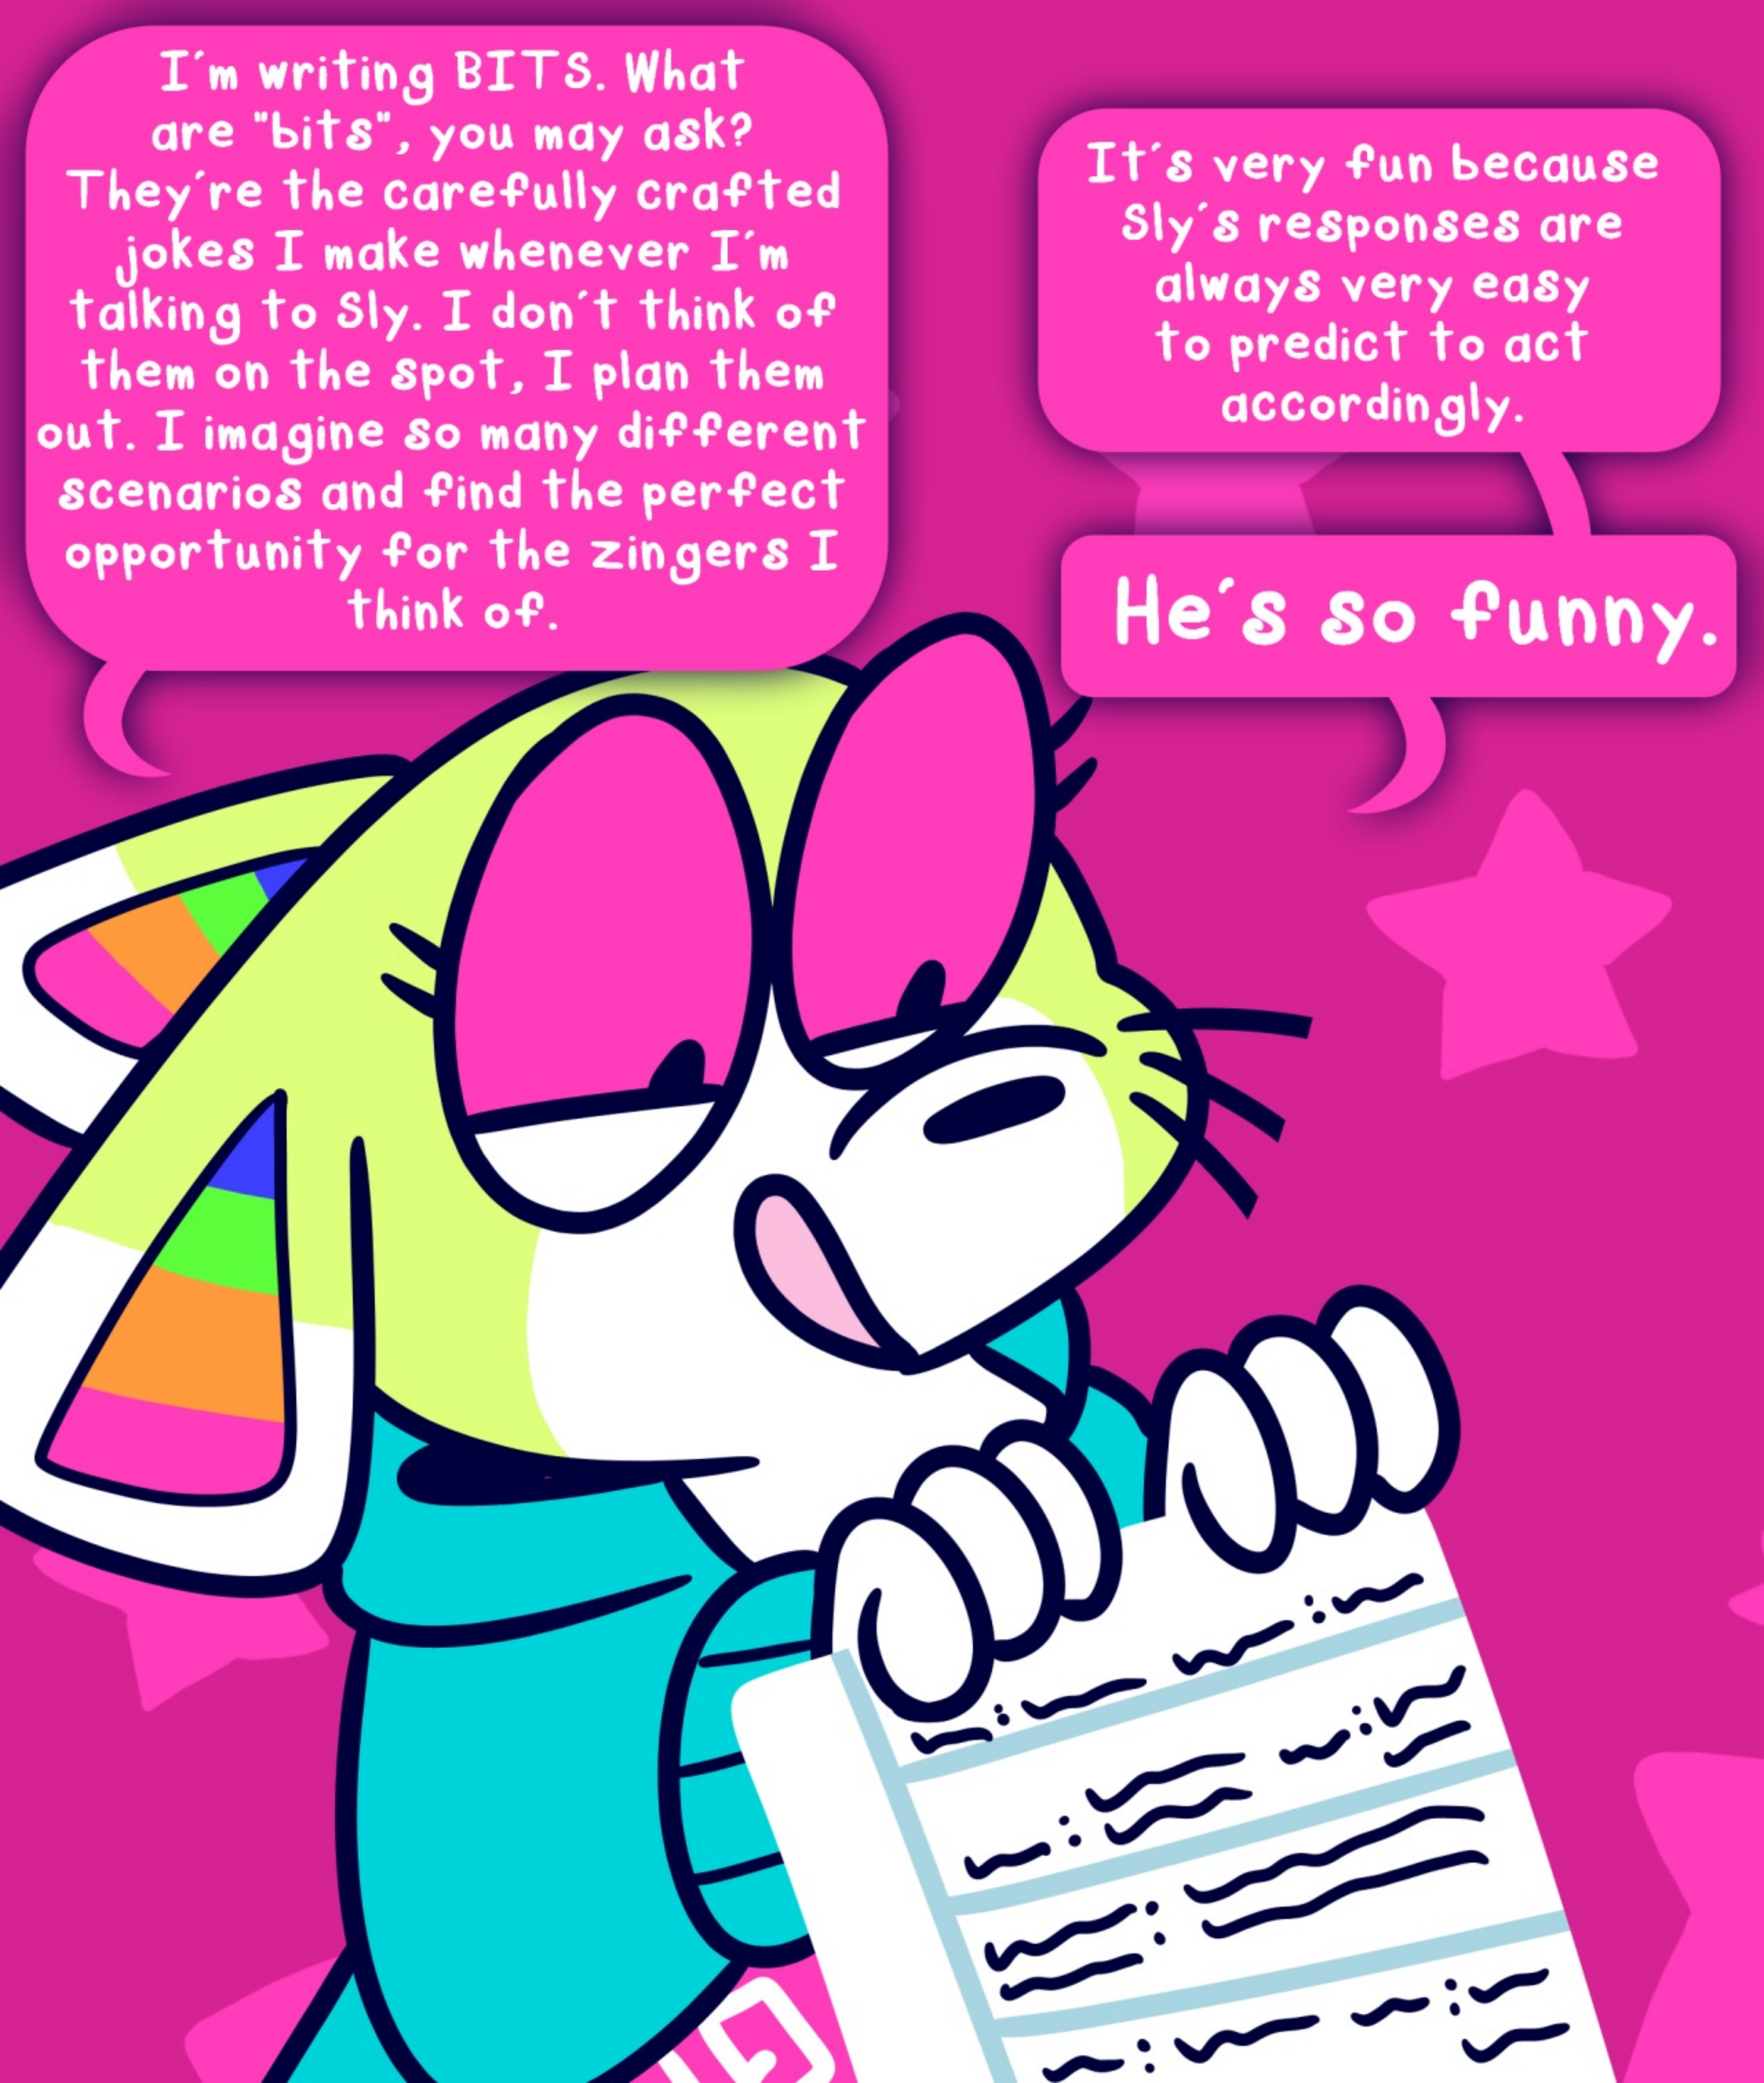
vanillabeenflower asked:

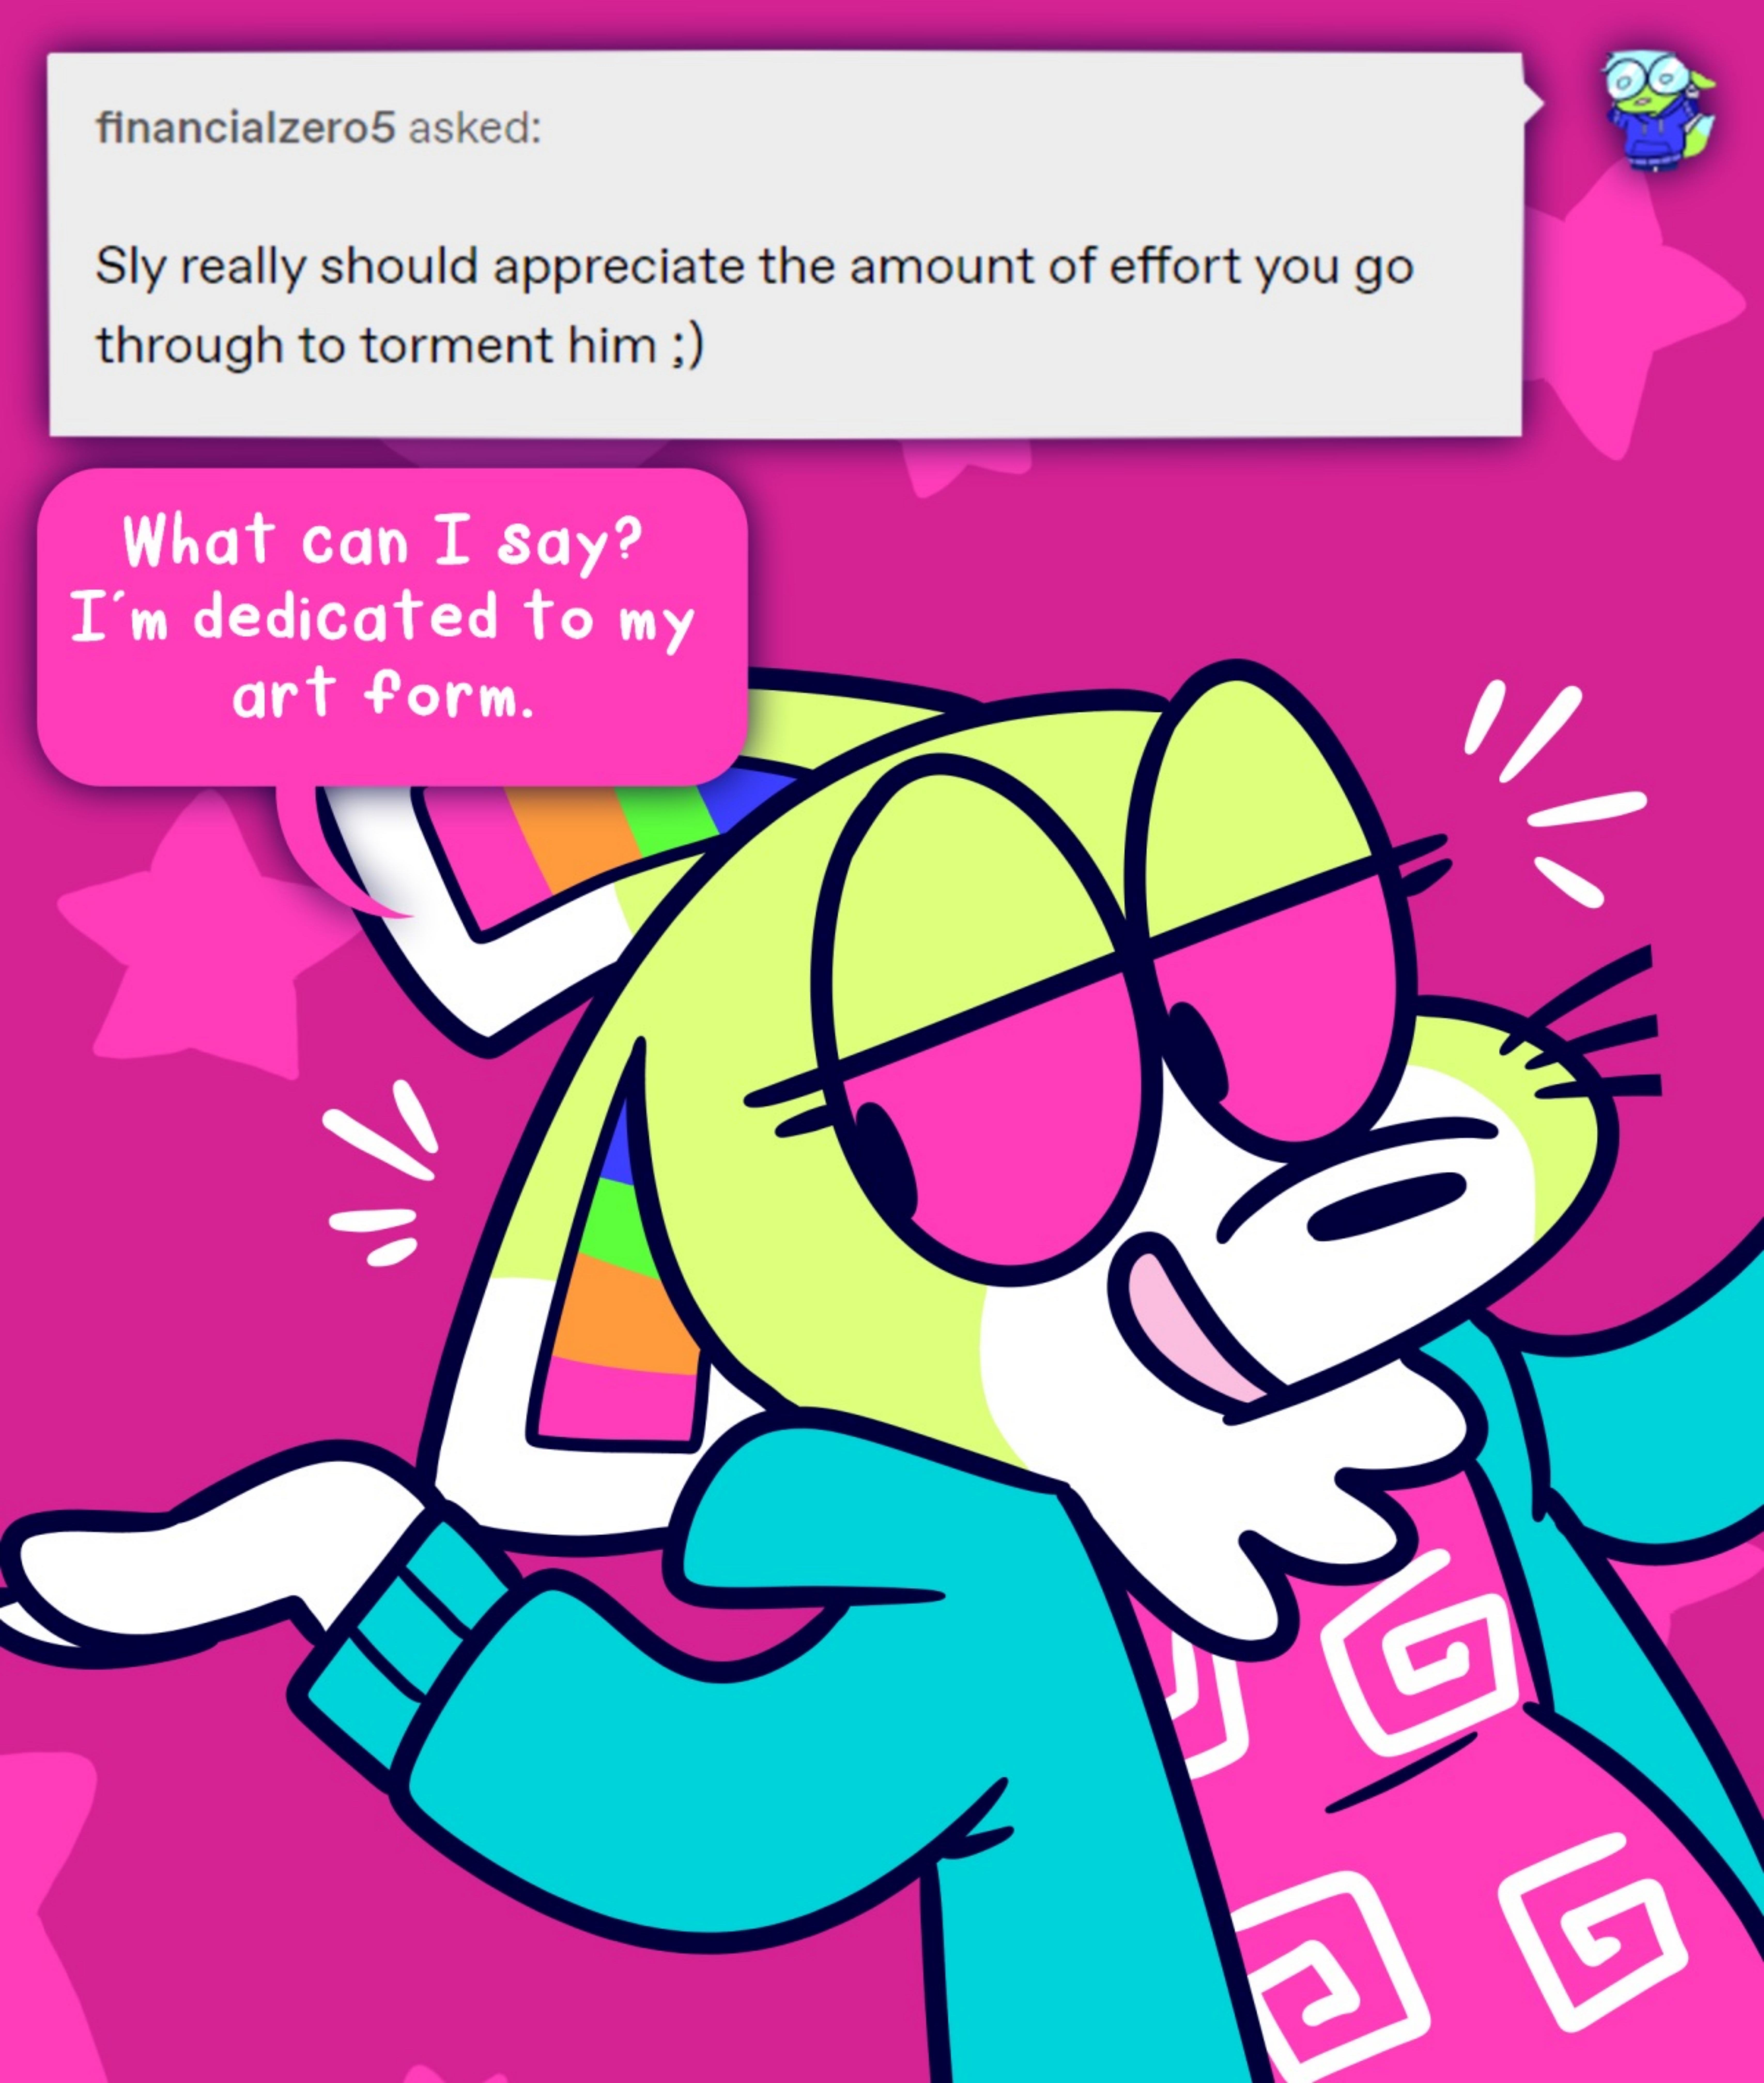
what are you writing?



Ah, so you're interested in my diabolical schemes?



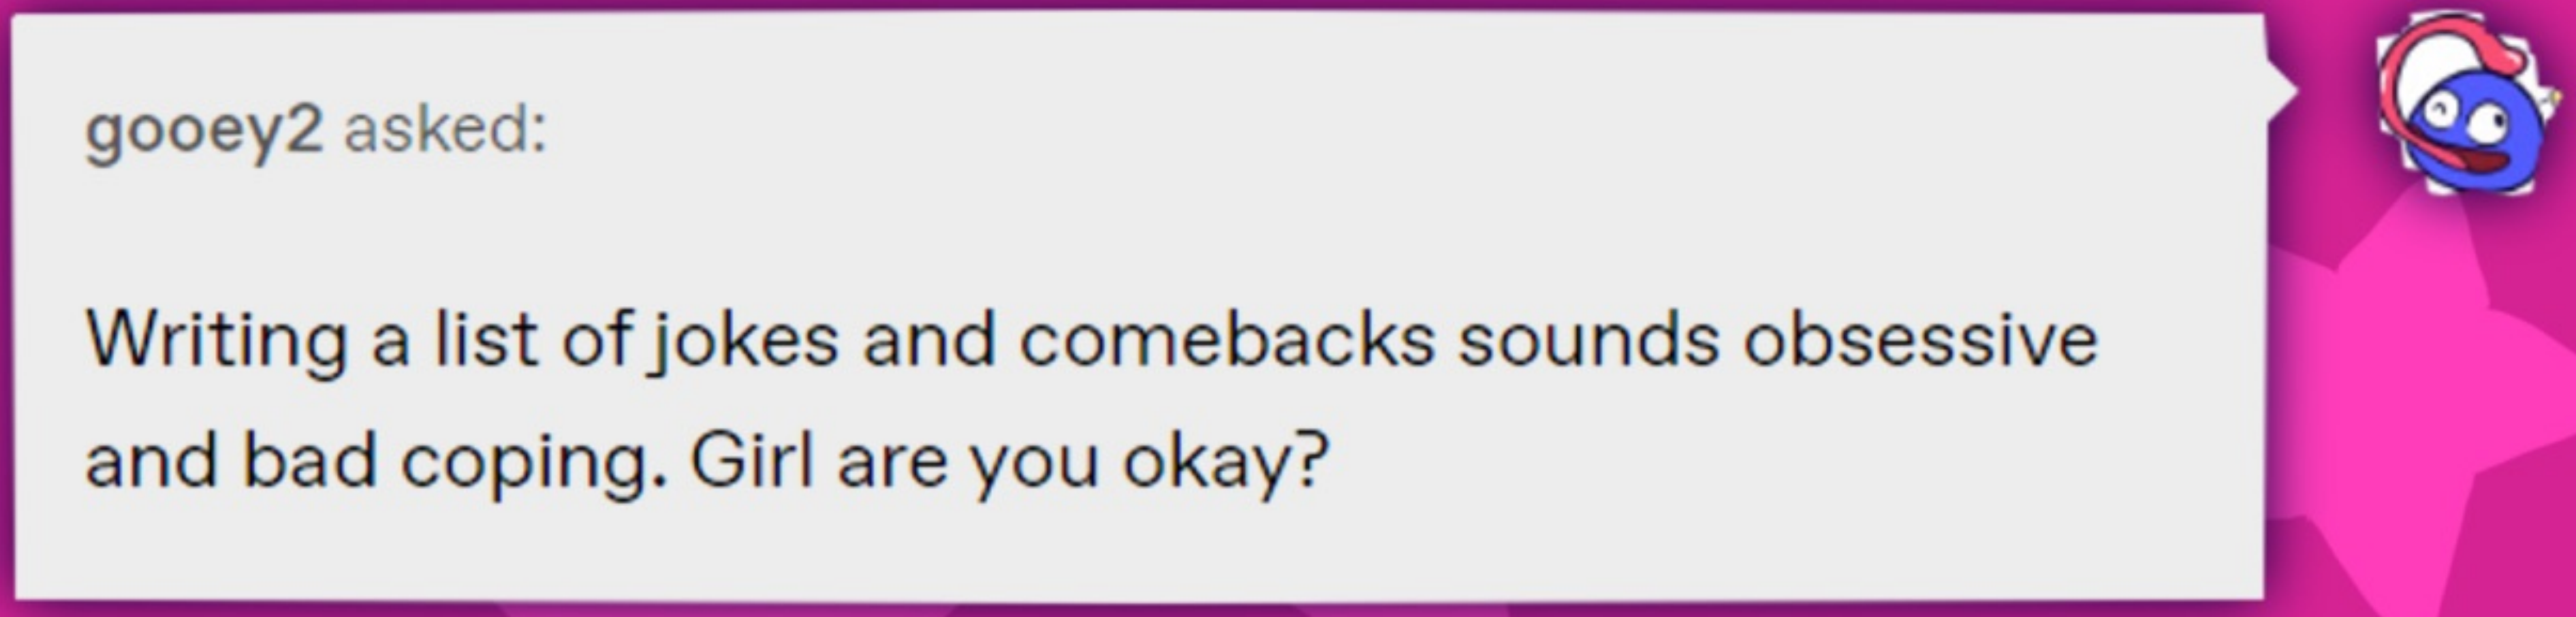
I´m writing BITS. What are "bits", you may ask? They´re the carefully crafted jokes I make whenever I´m talking to Sly. I don´t think of them on the spot, I plan them out. I imagine so many different scenarios and find the perfect opportunity for the zingers I think of.
It´s very fun because Sly´s responses are always very easy to predict to act accordingly.
He´s so funny.



financialzero5 asked:

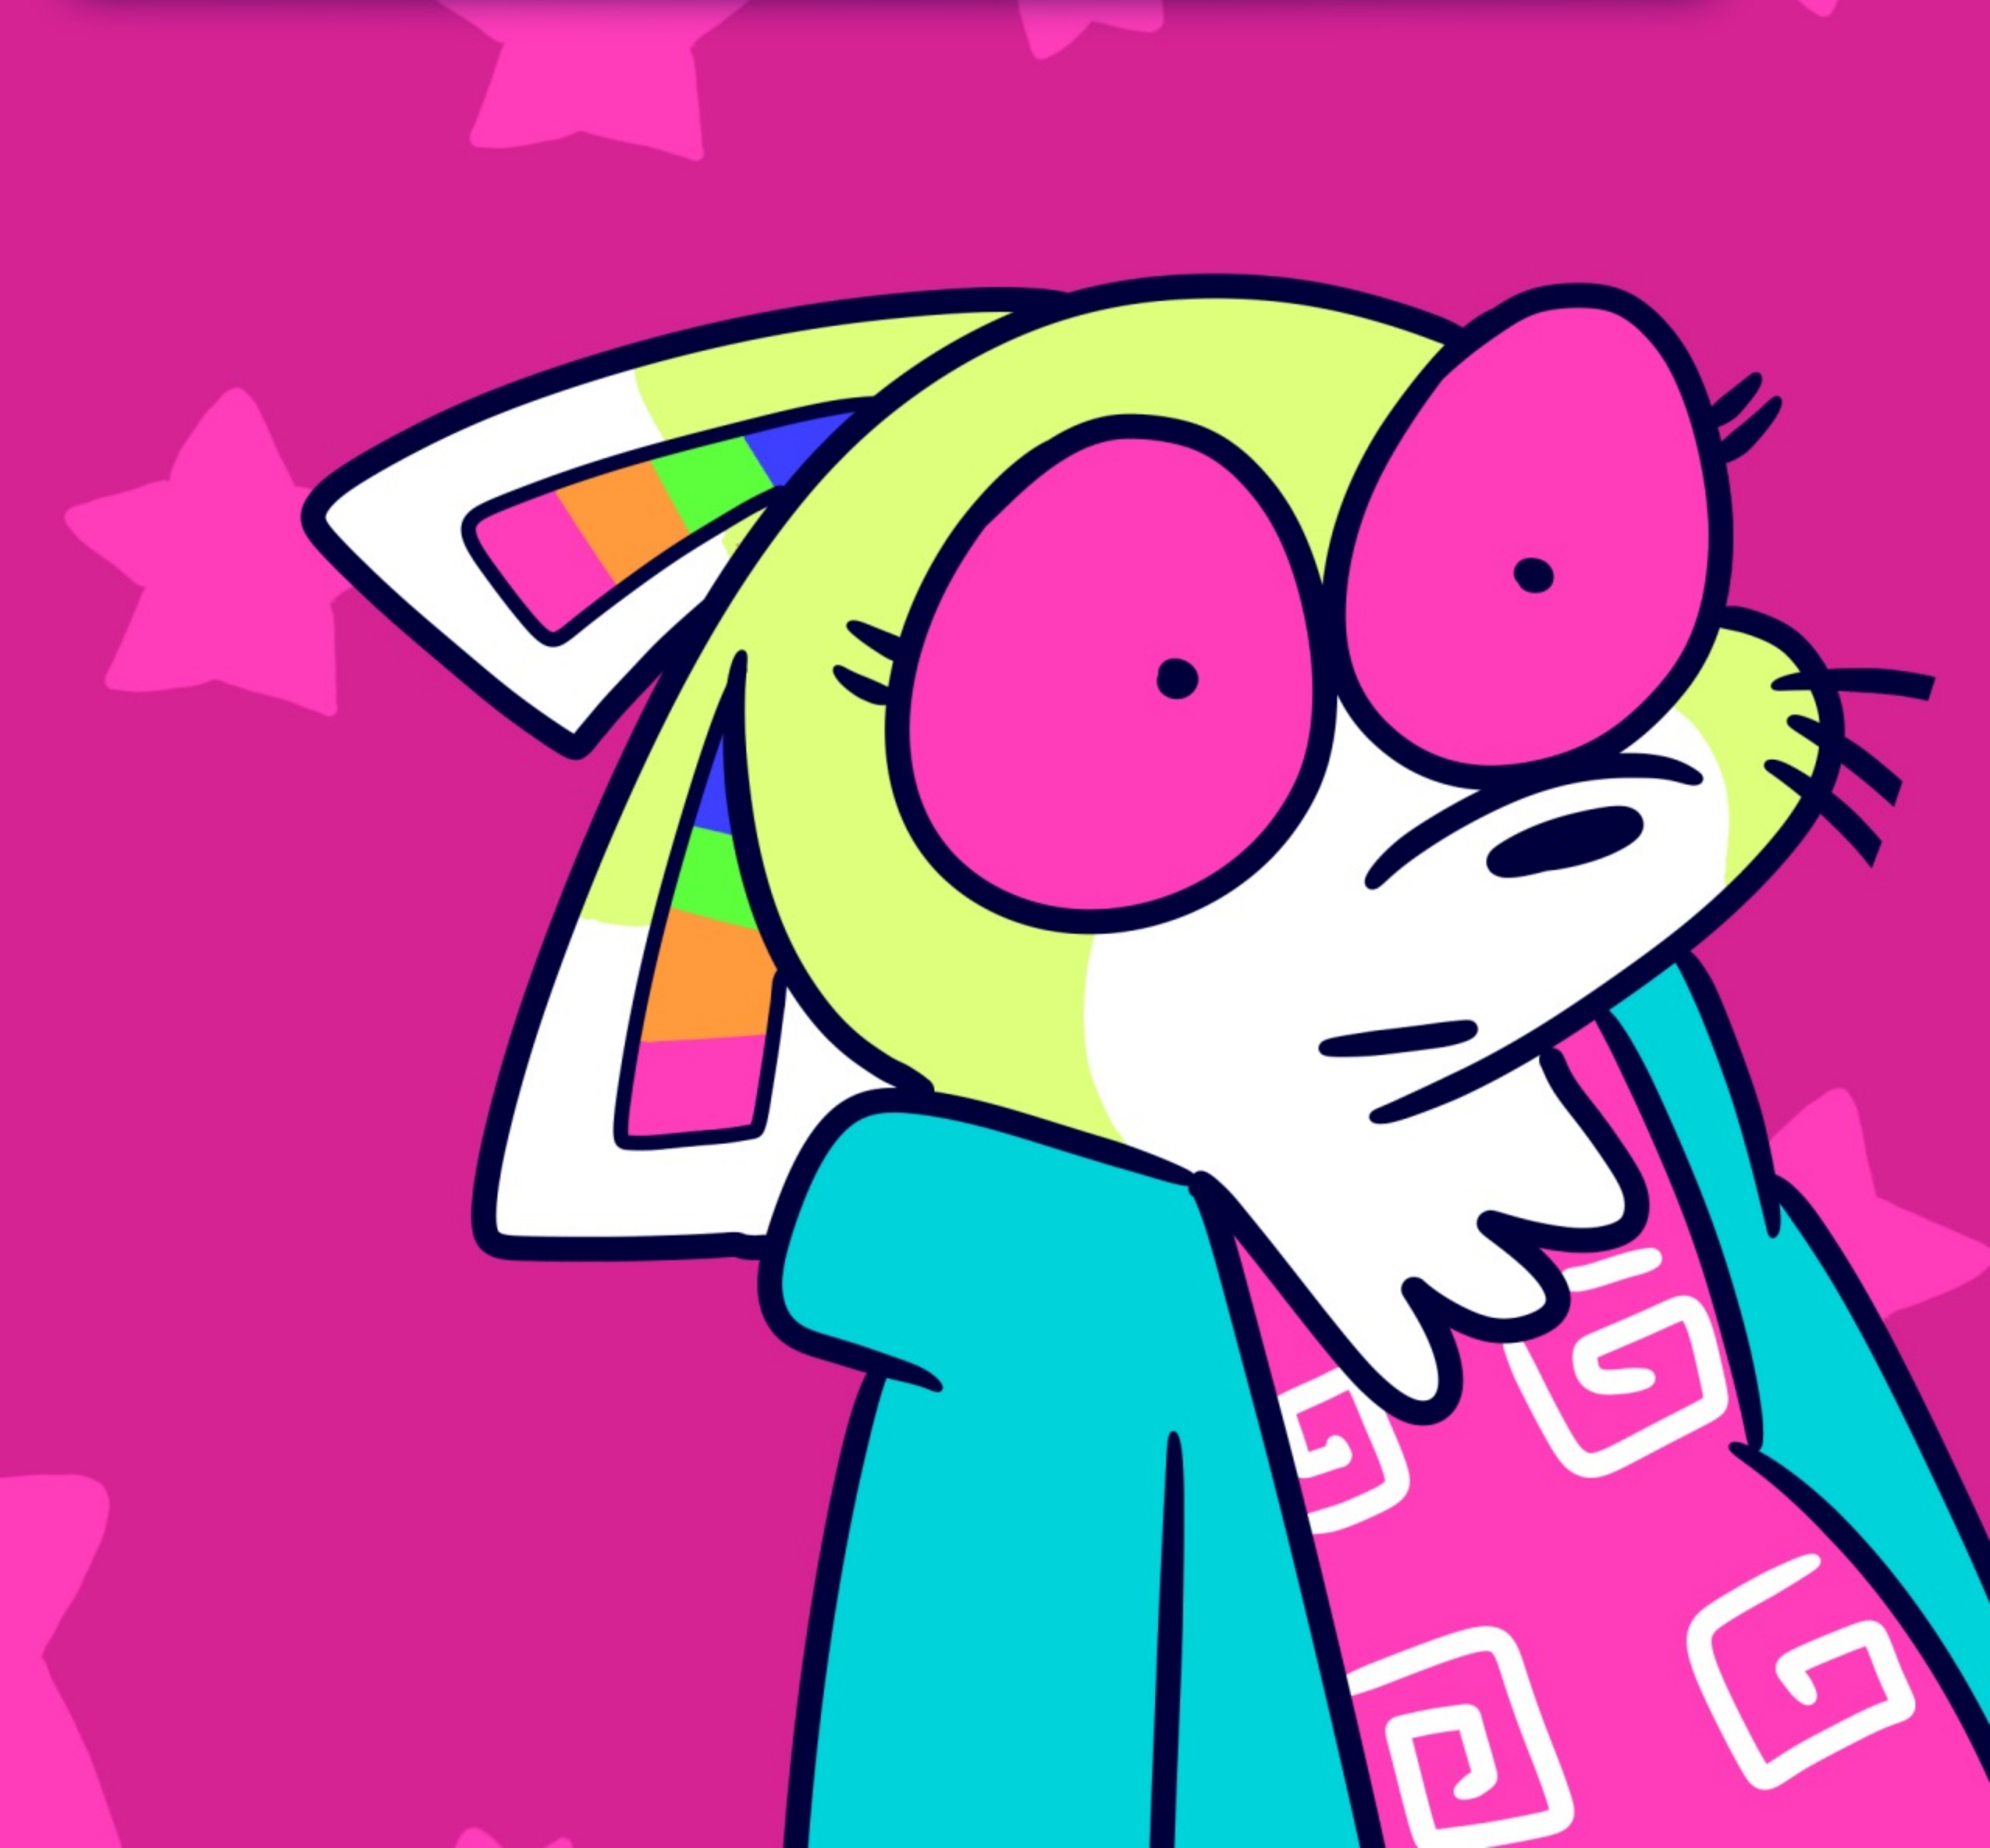
Sly really should appreciate the amount of effort you go through to torment him ;)

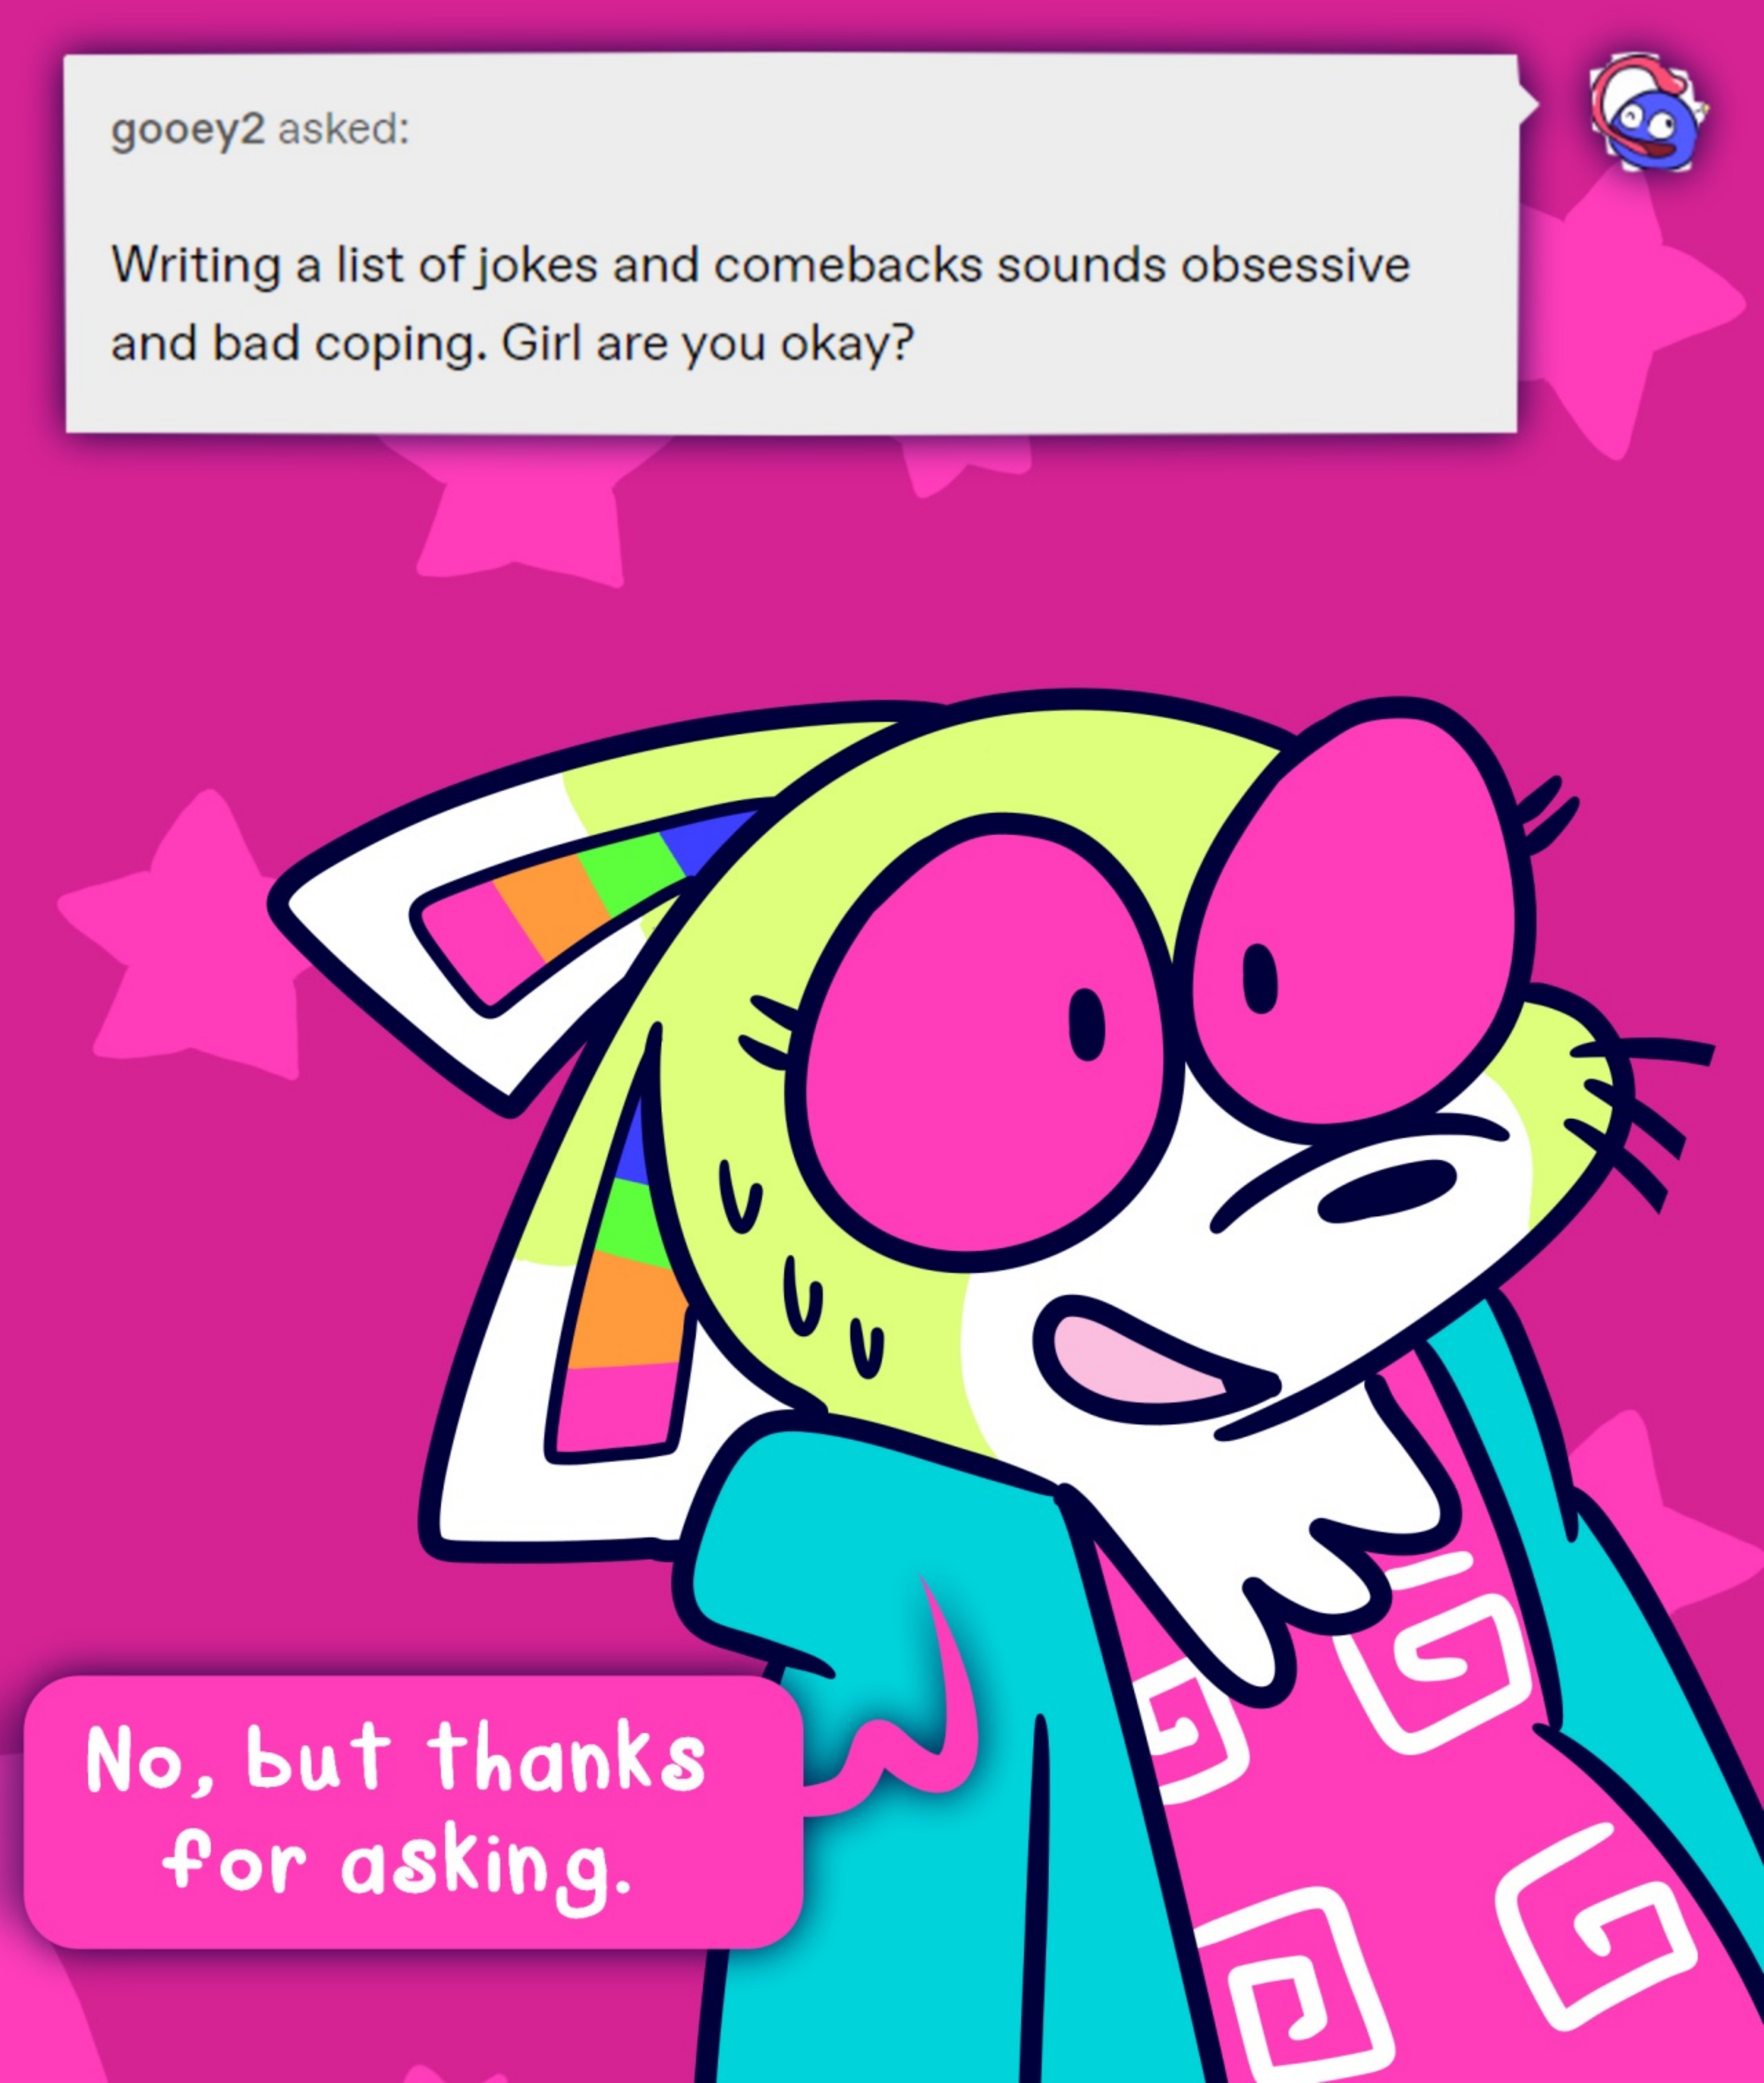
What can I say? I´m dedicated to my art form.



gooey2 asked:

Writing a list of jokes and comebacks sounds obsessive and bad coping. Girl are you okay?

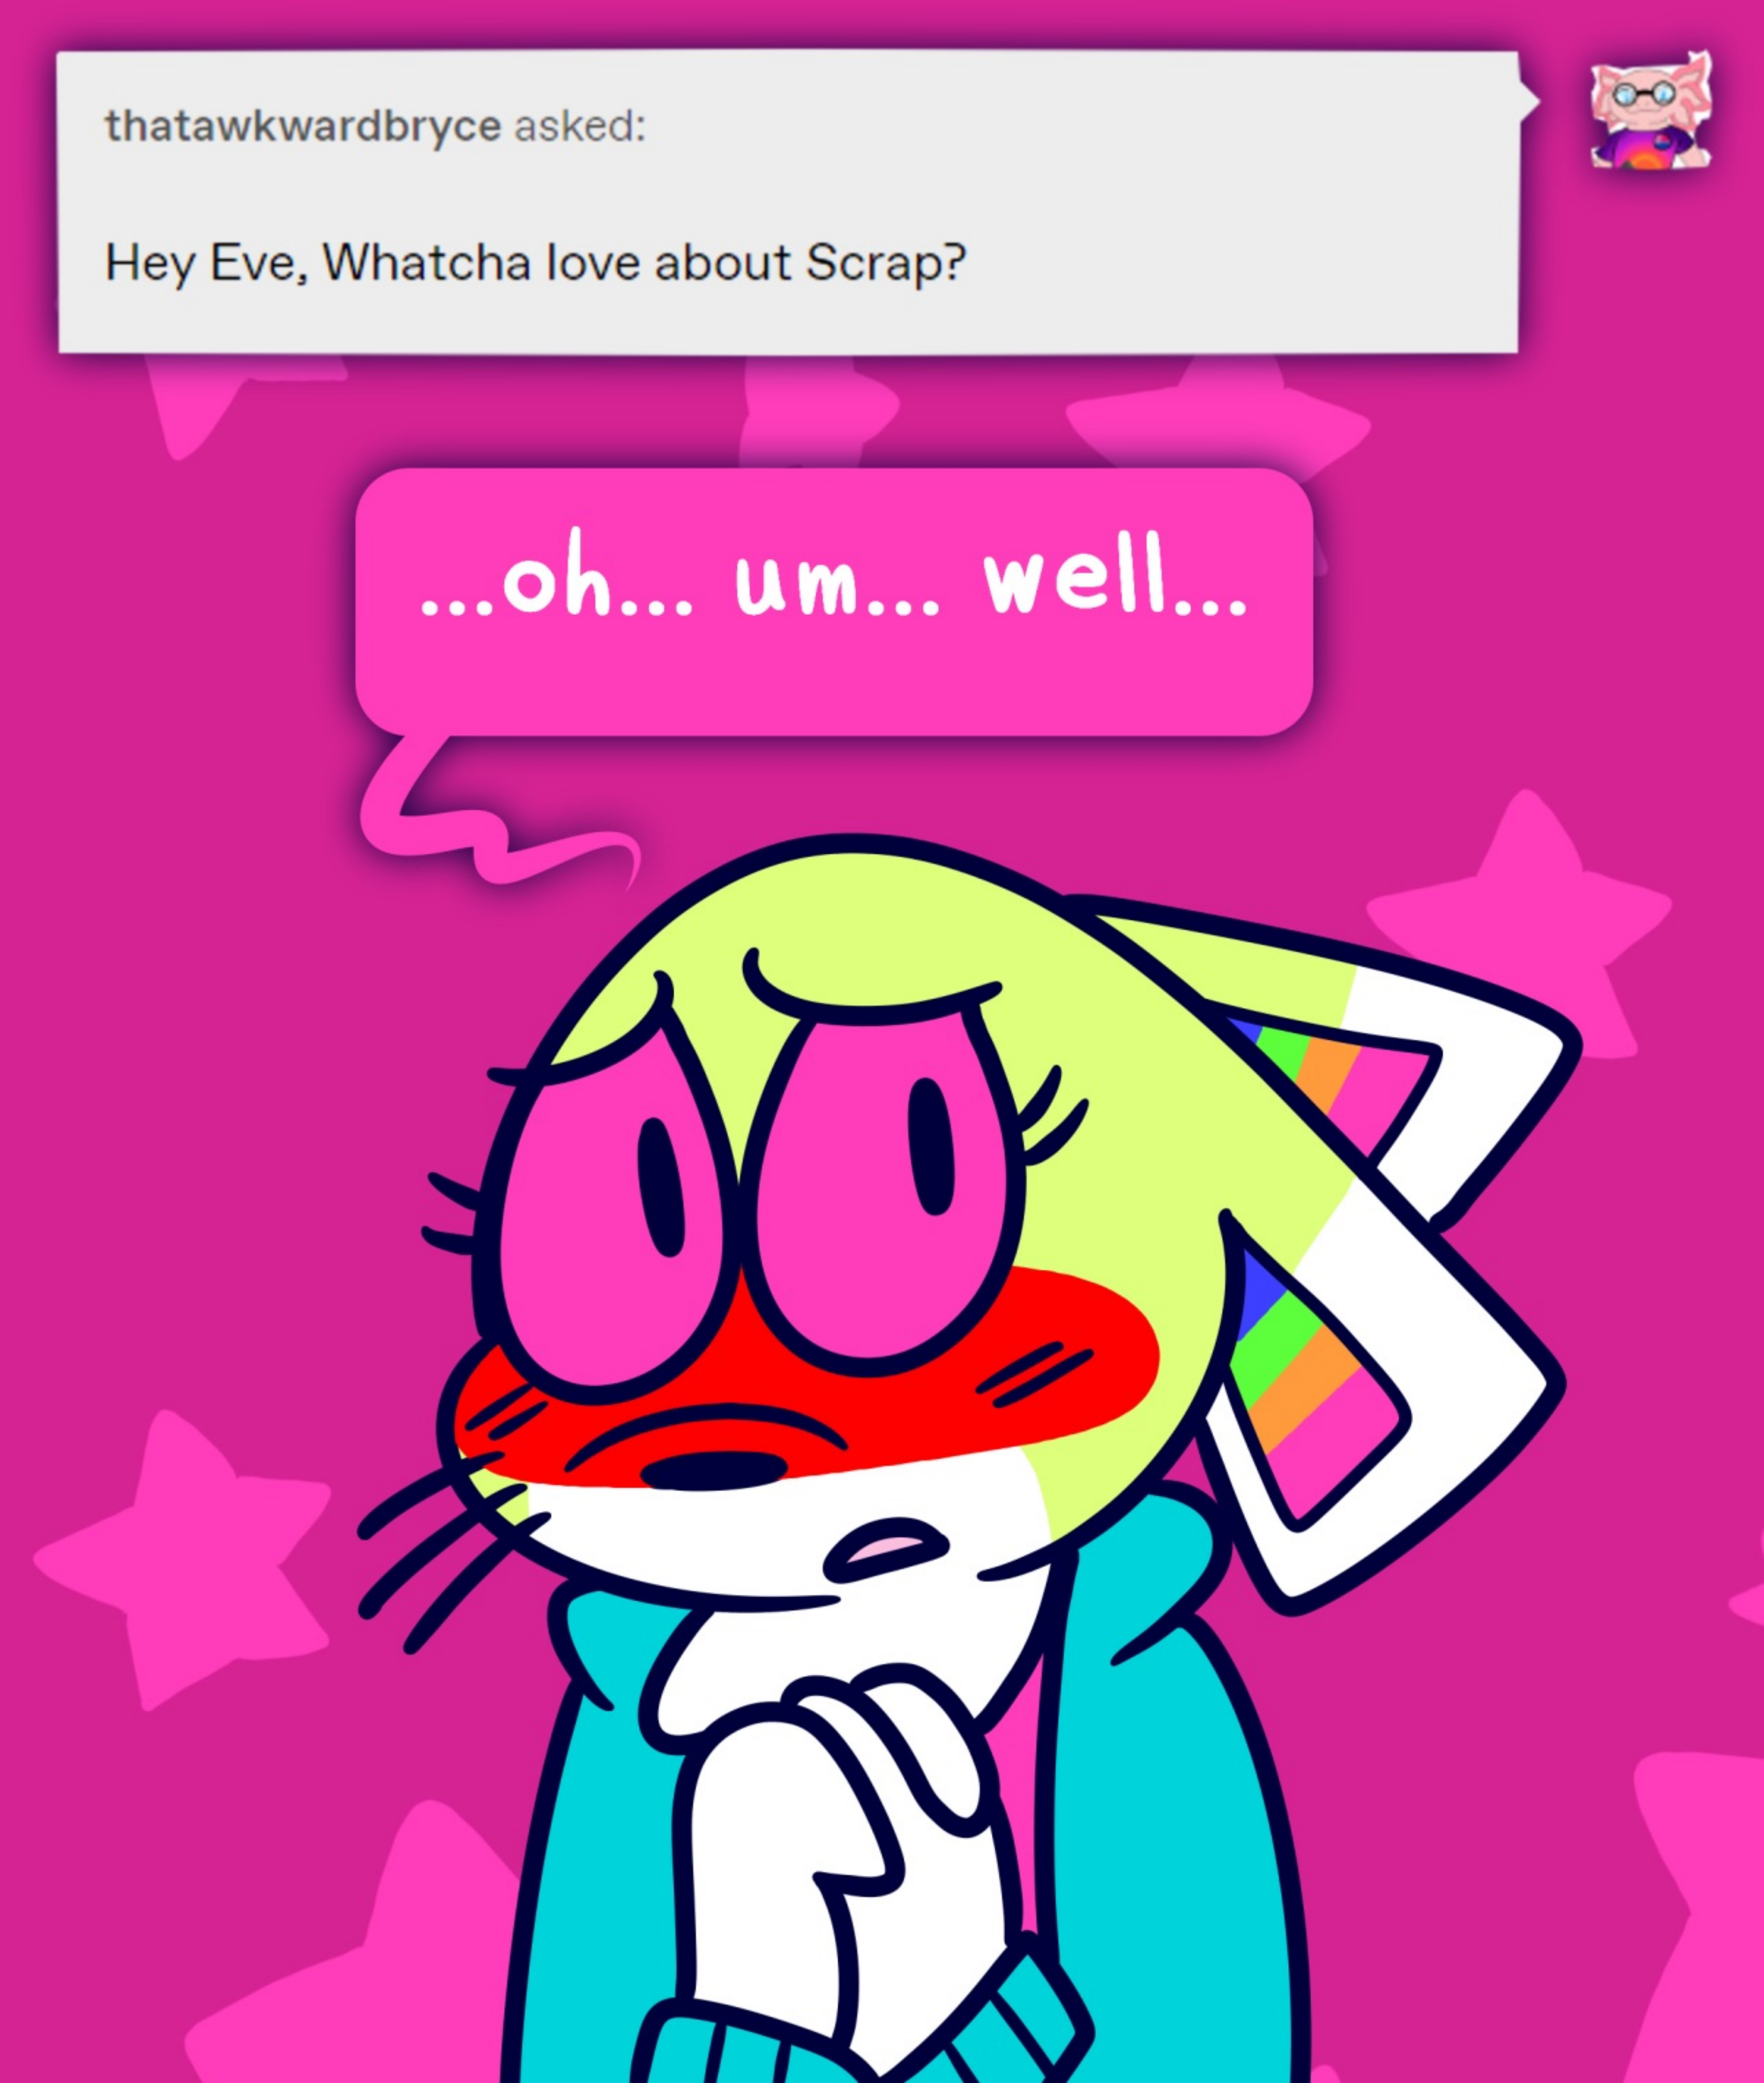




gooey2 asked:

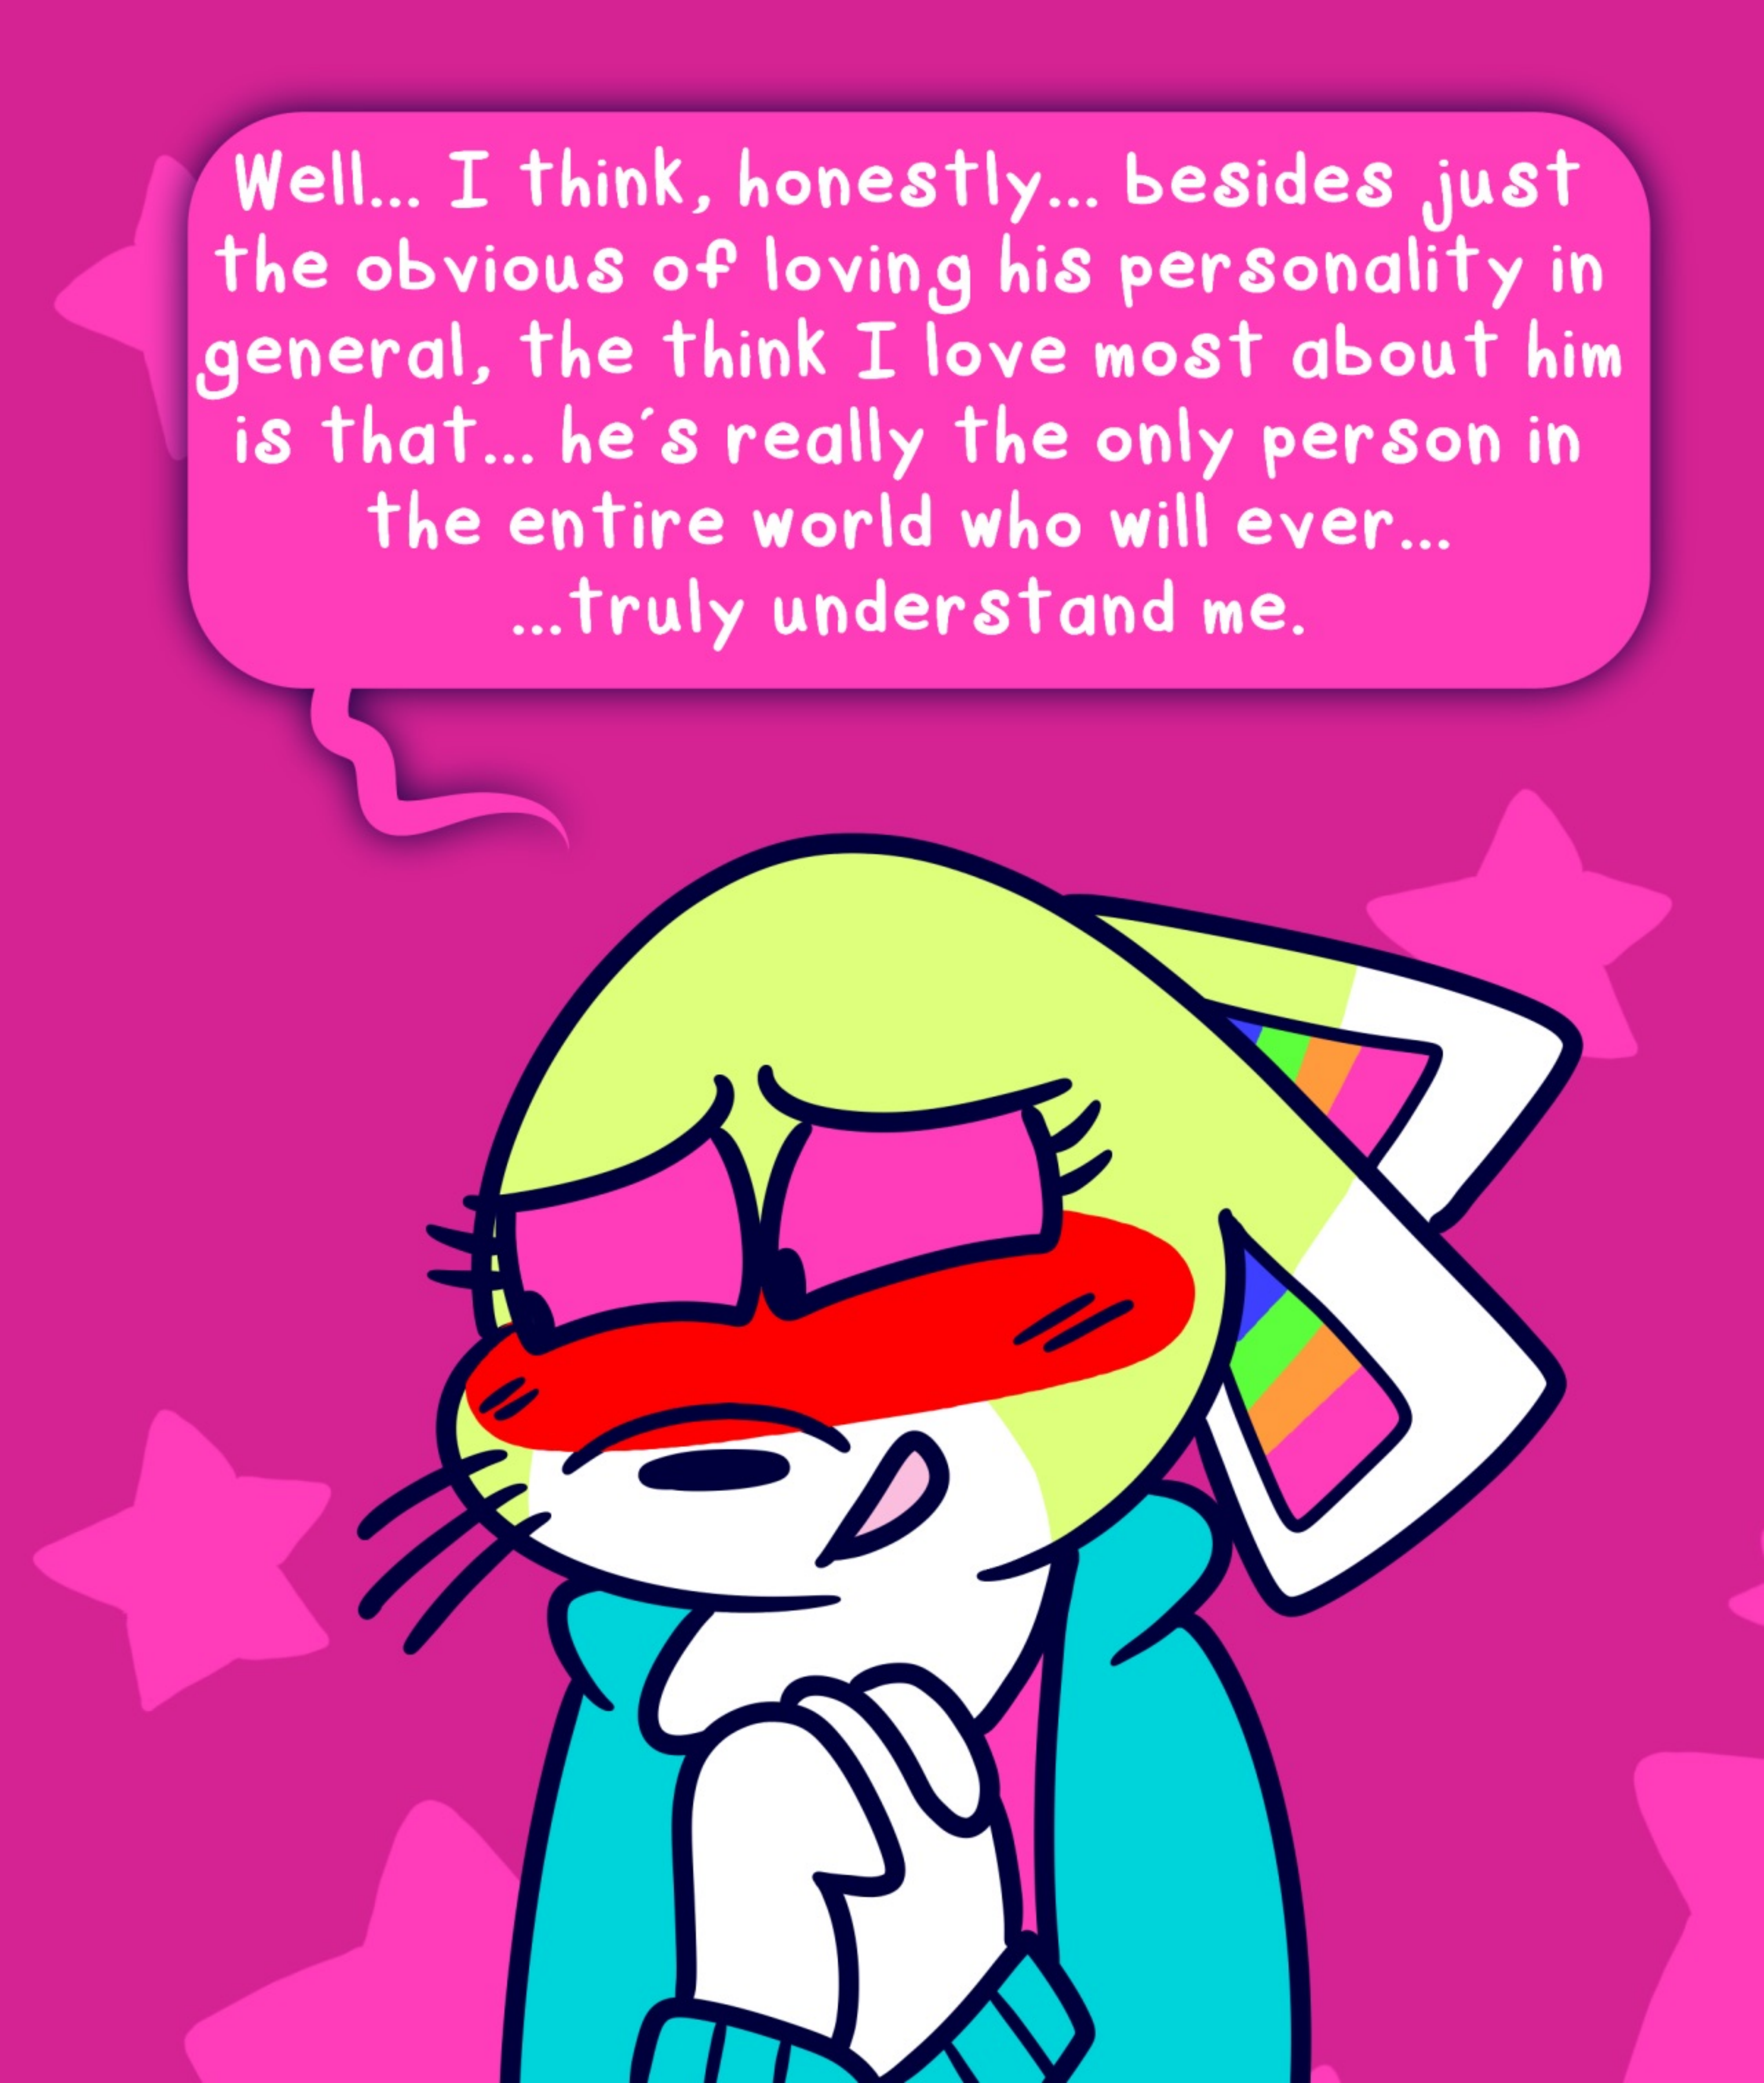
Writing a list of jokes and comebacks sounds obsessive and bad coping. Girl are you okay?

No, but thanks for asking.

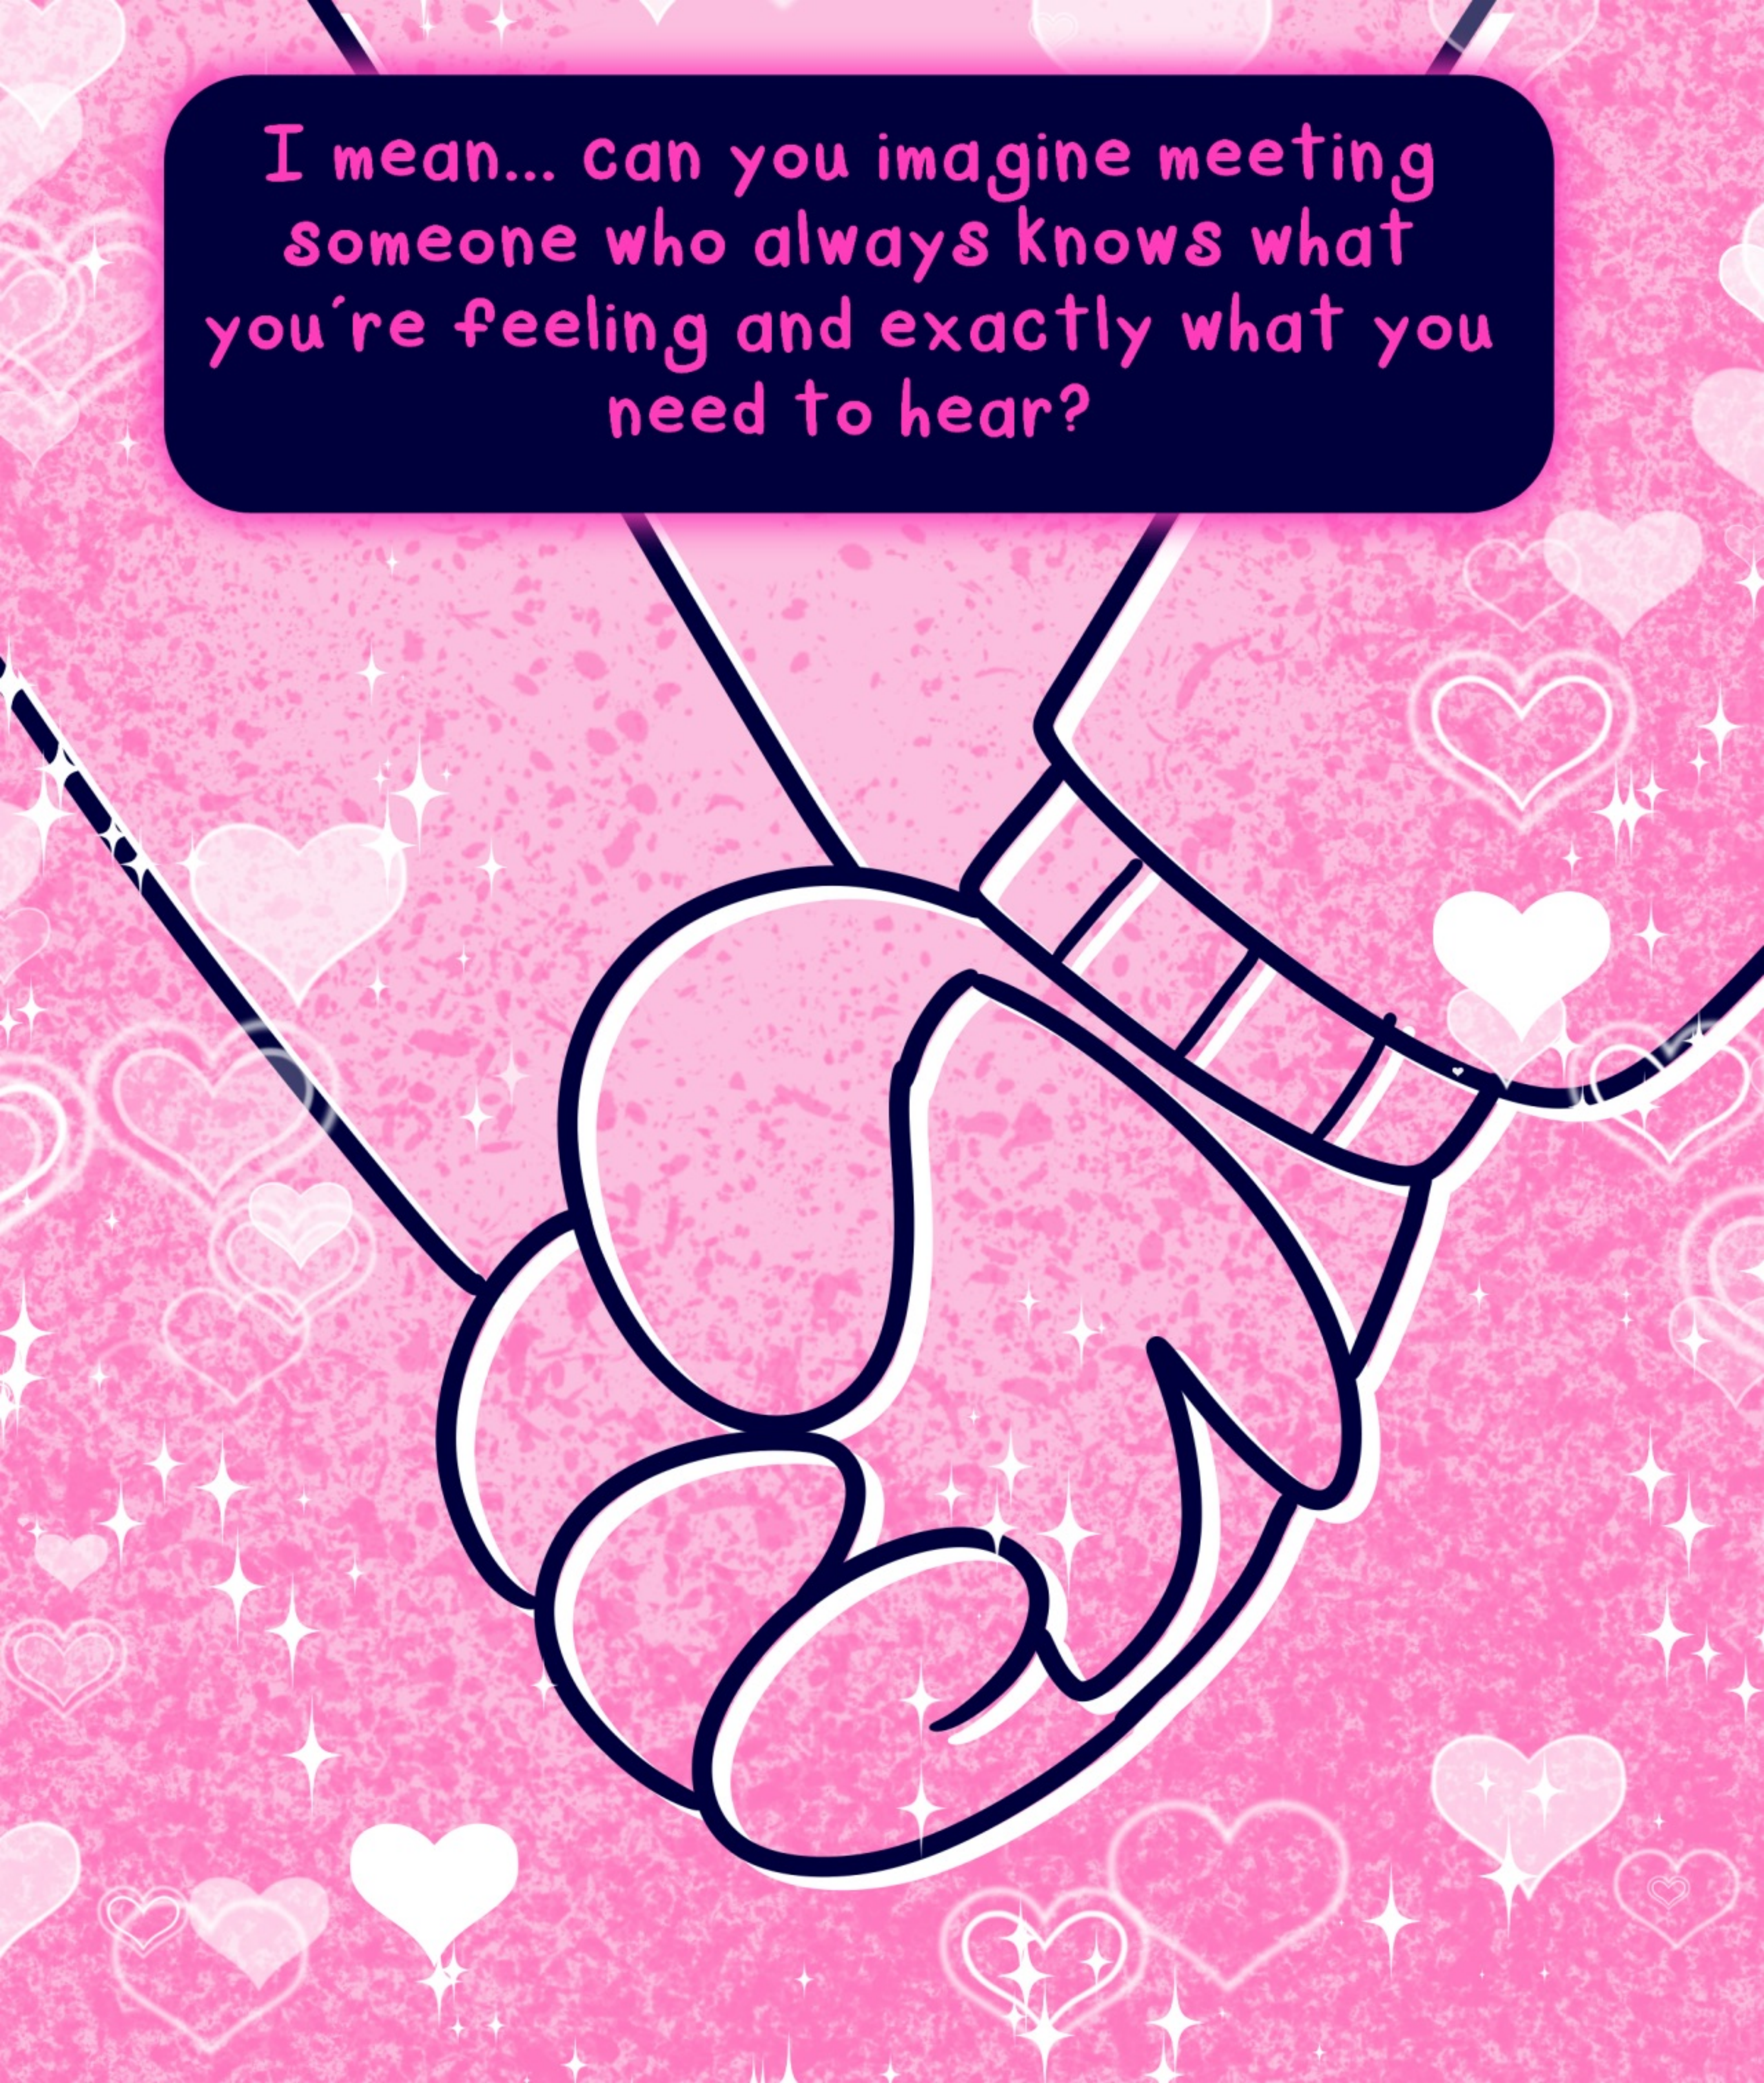


thatawkwardbryce asked:

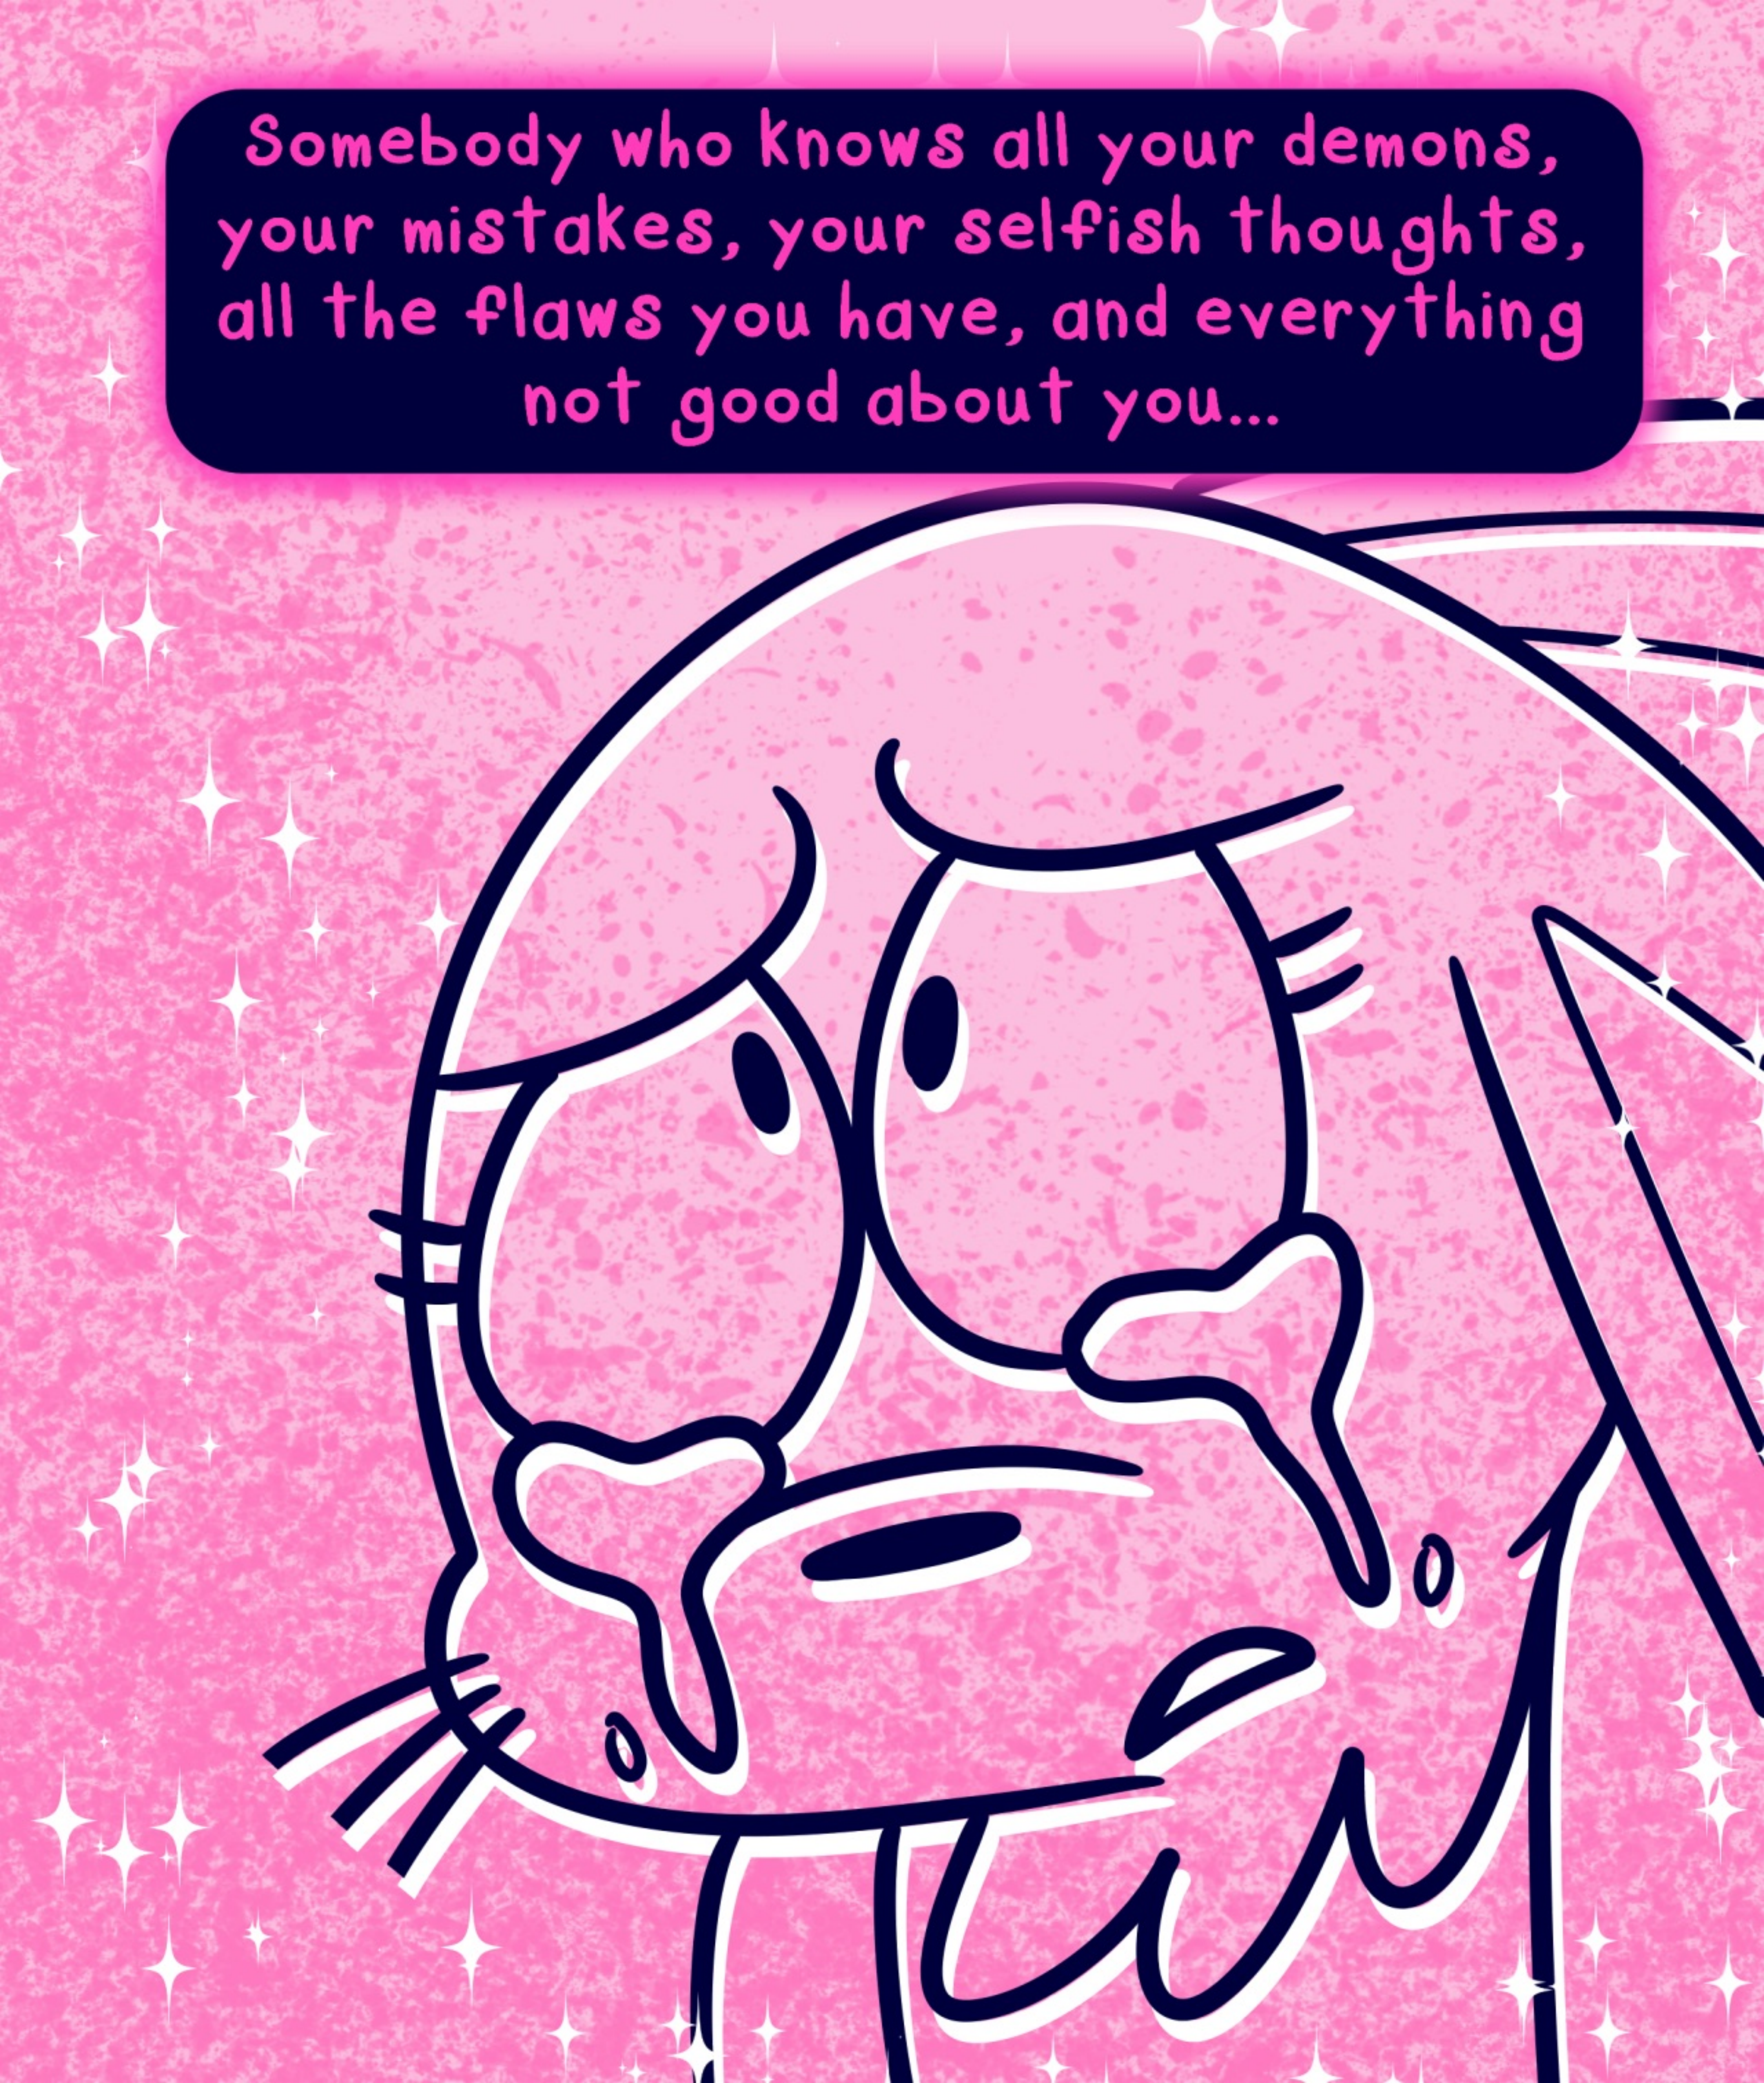
Hey Eve, Whatcha love about Scrap?



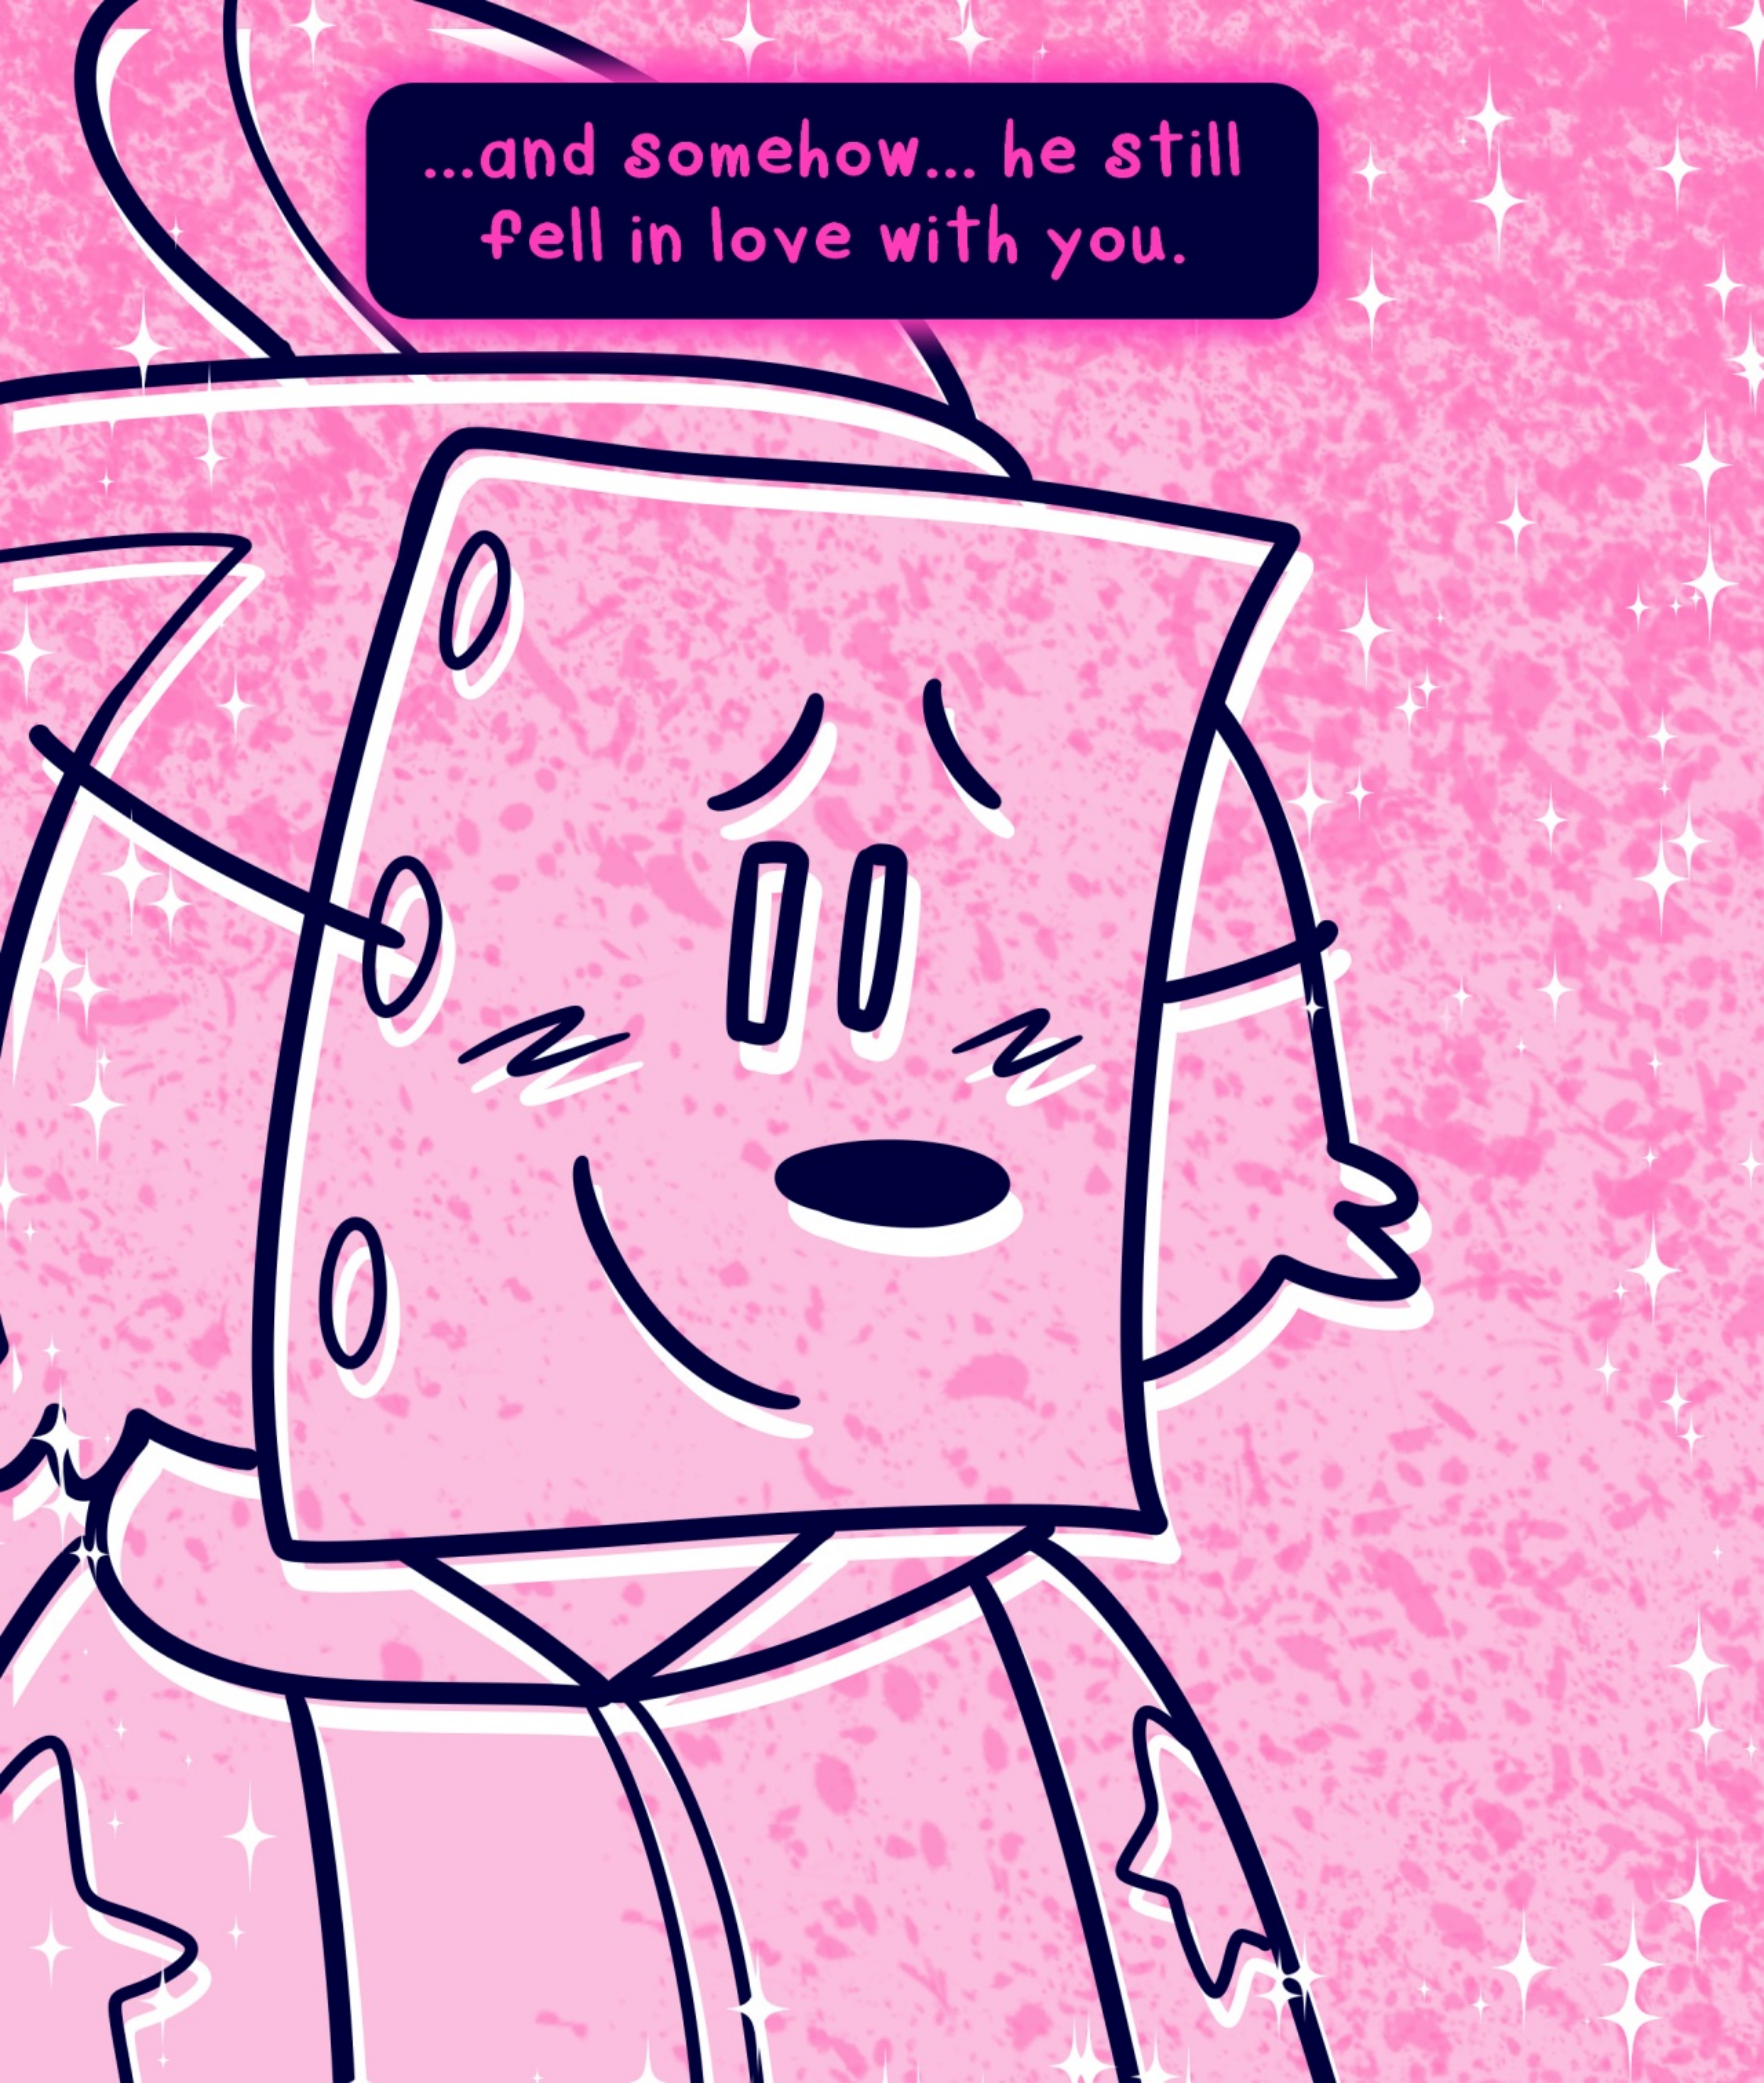
Well... I think, honestly... besides just the obvious of loving his personality in general, the think I love most about him is that... he´s really the only person in the entire world who will ever... ...truly understand me.



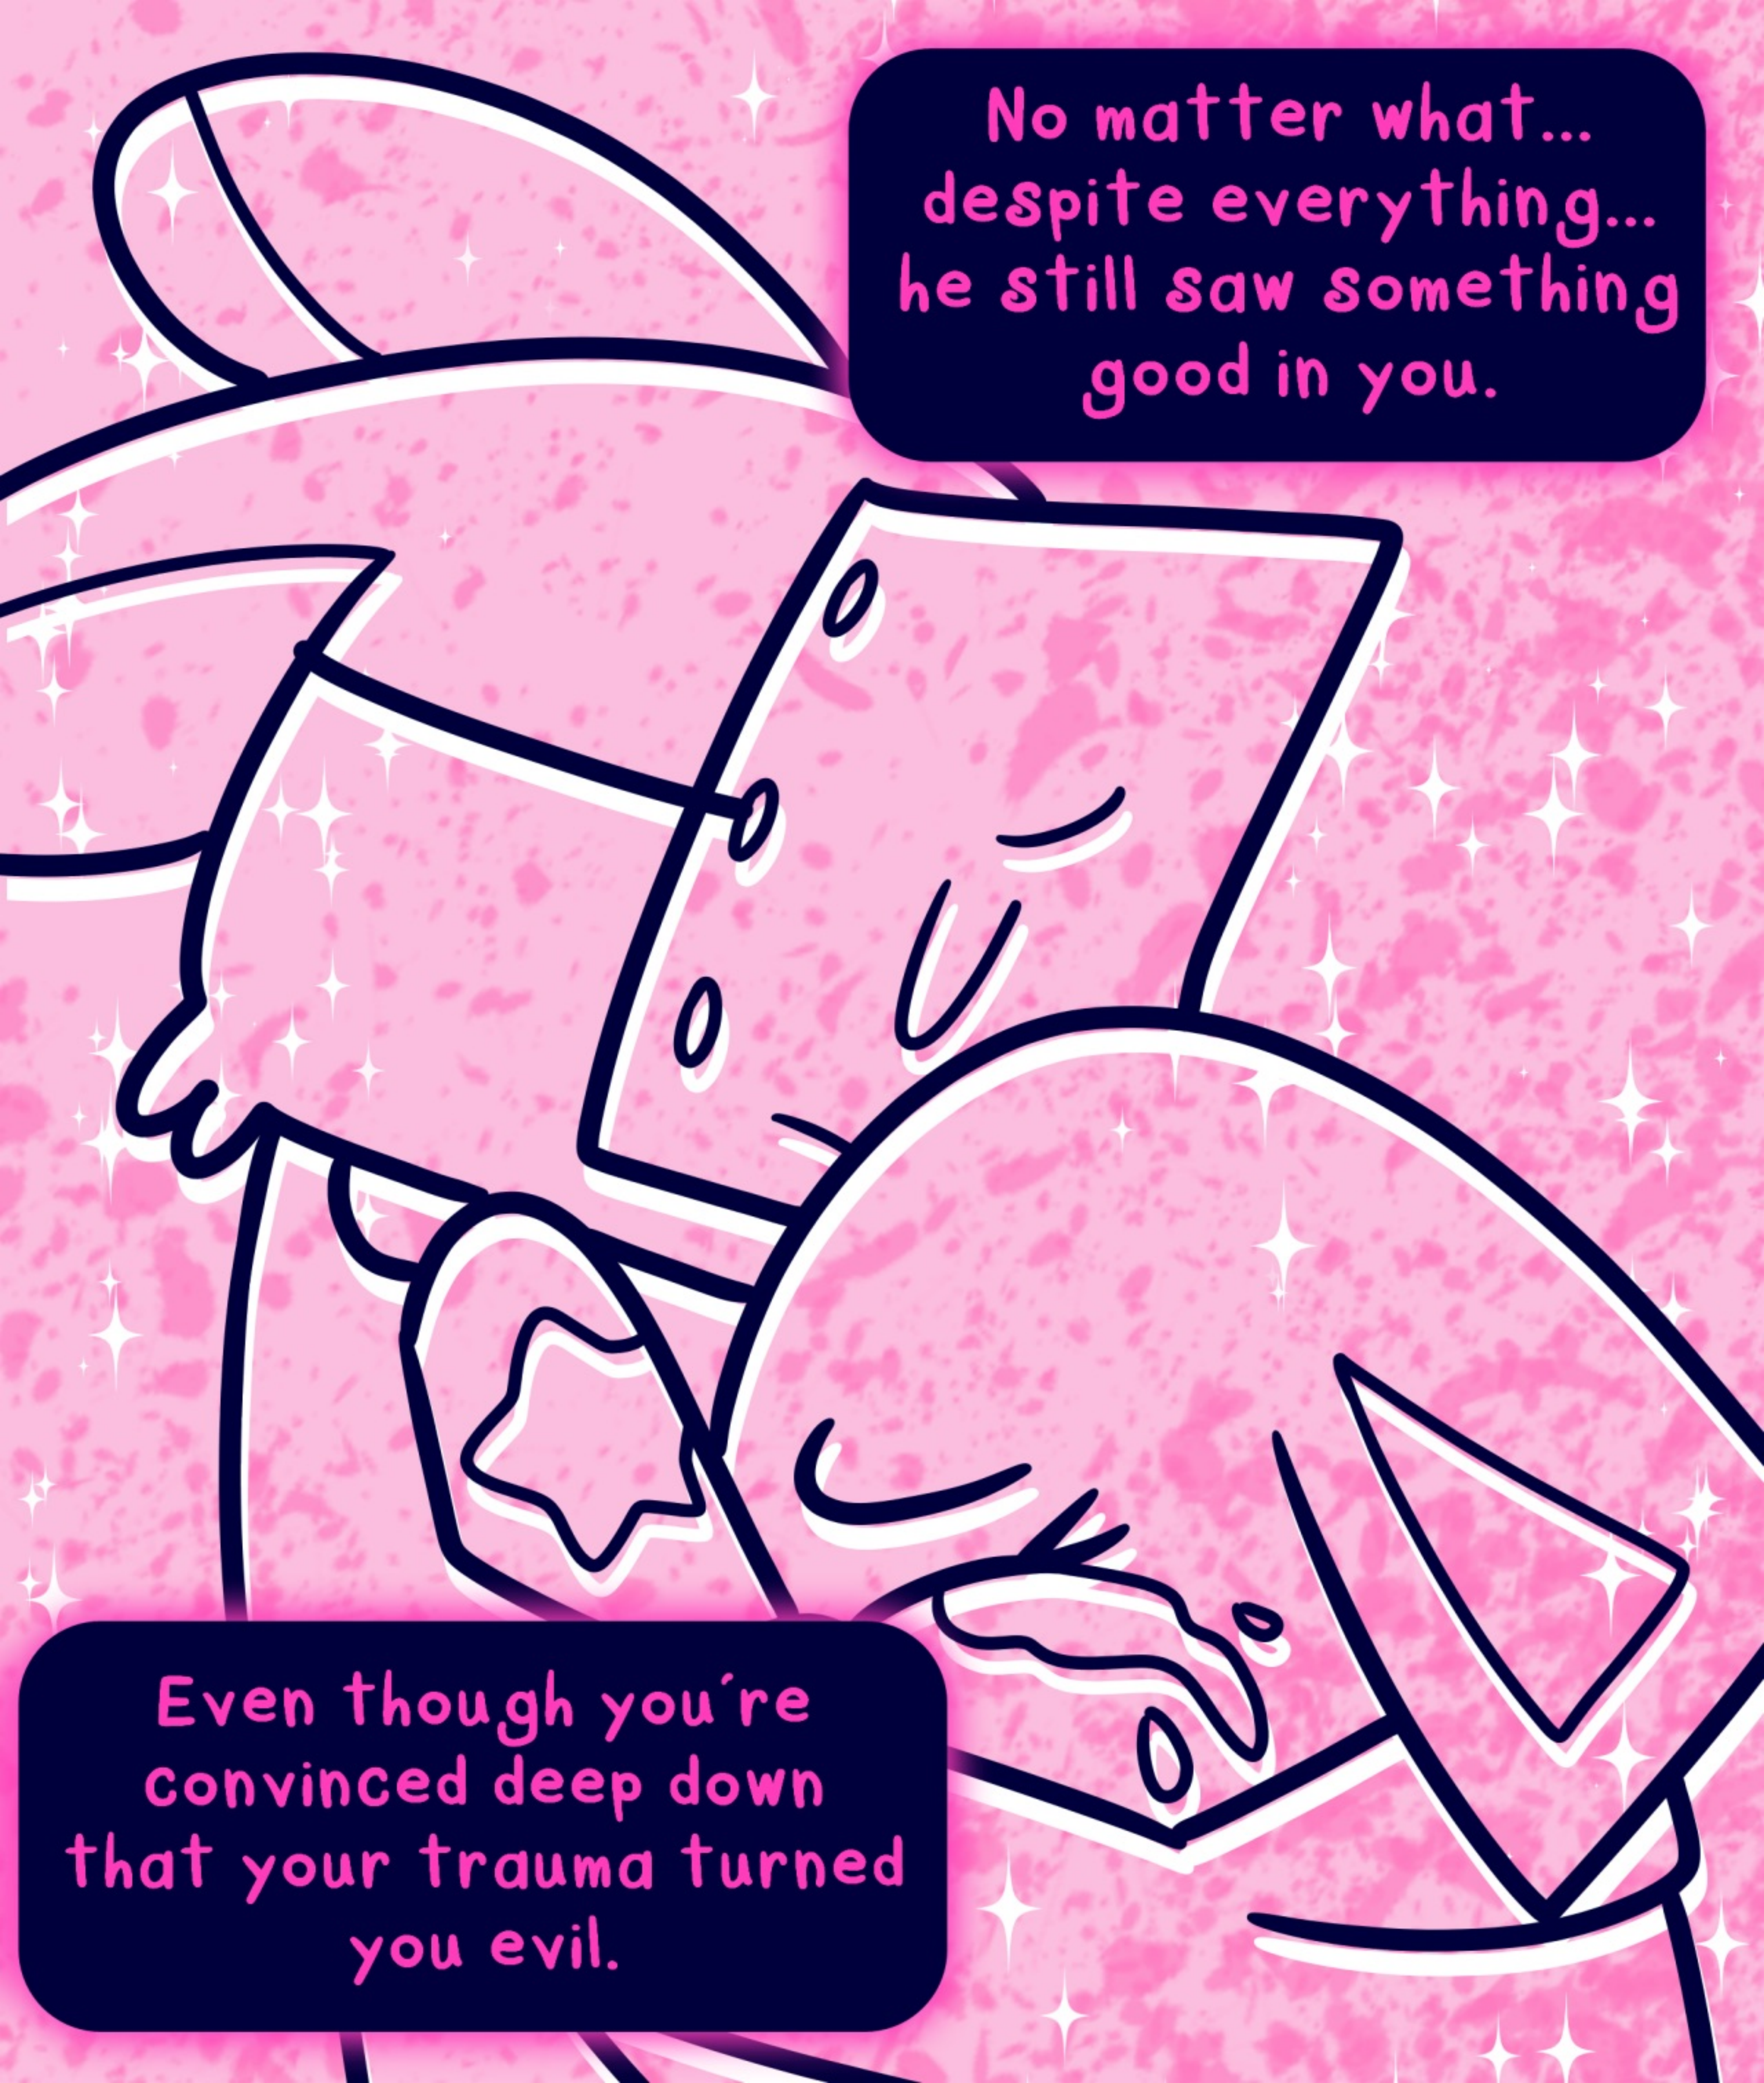
I mean... can you imagine meeting someone who always knows what you´re feeling and exactly what you need to hear?



Somebody who knows all your demons, your mistakes, your selfish thoughts, all the flaws you have, and everything not good about you...



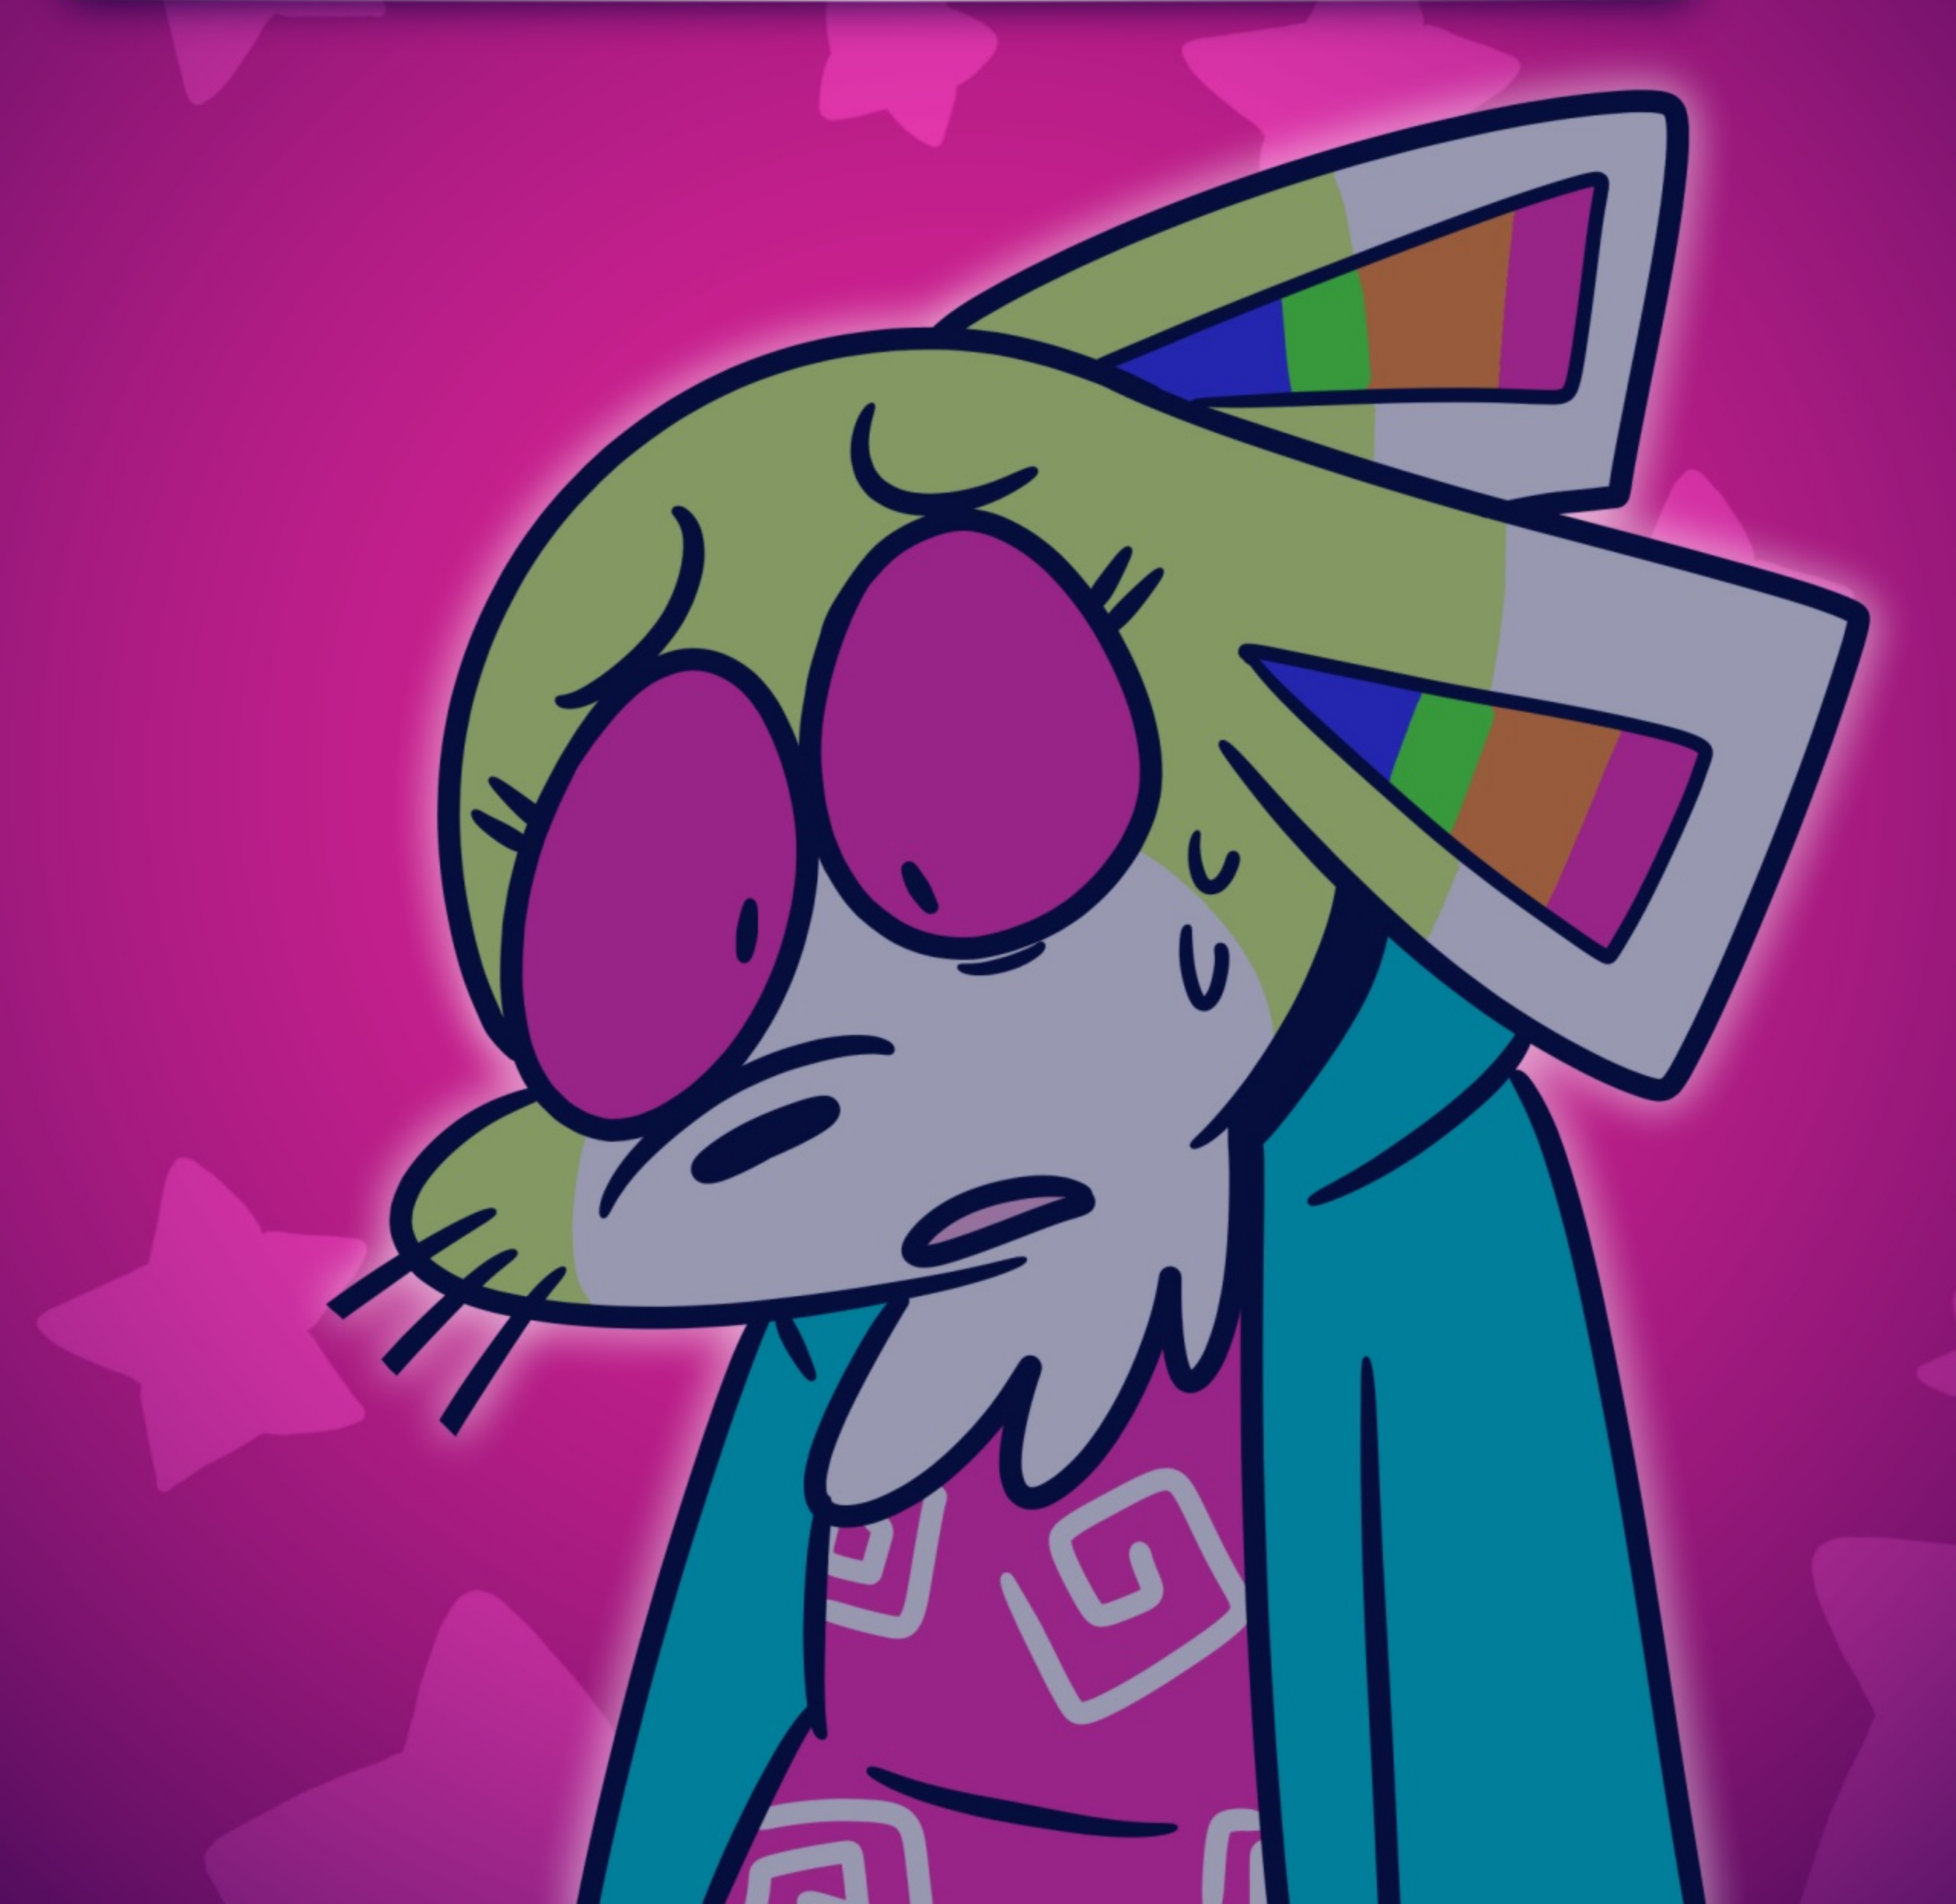
...and somehow... he still fell in love with you.

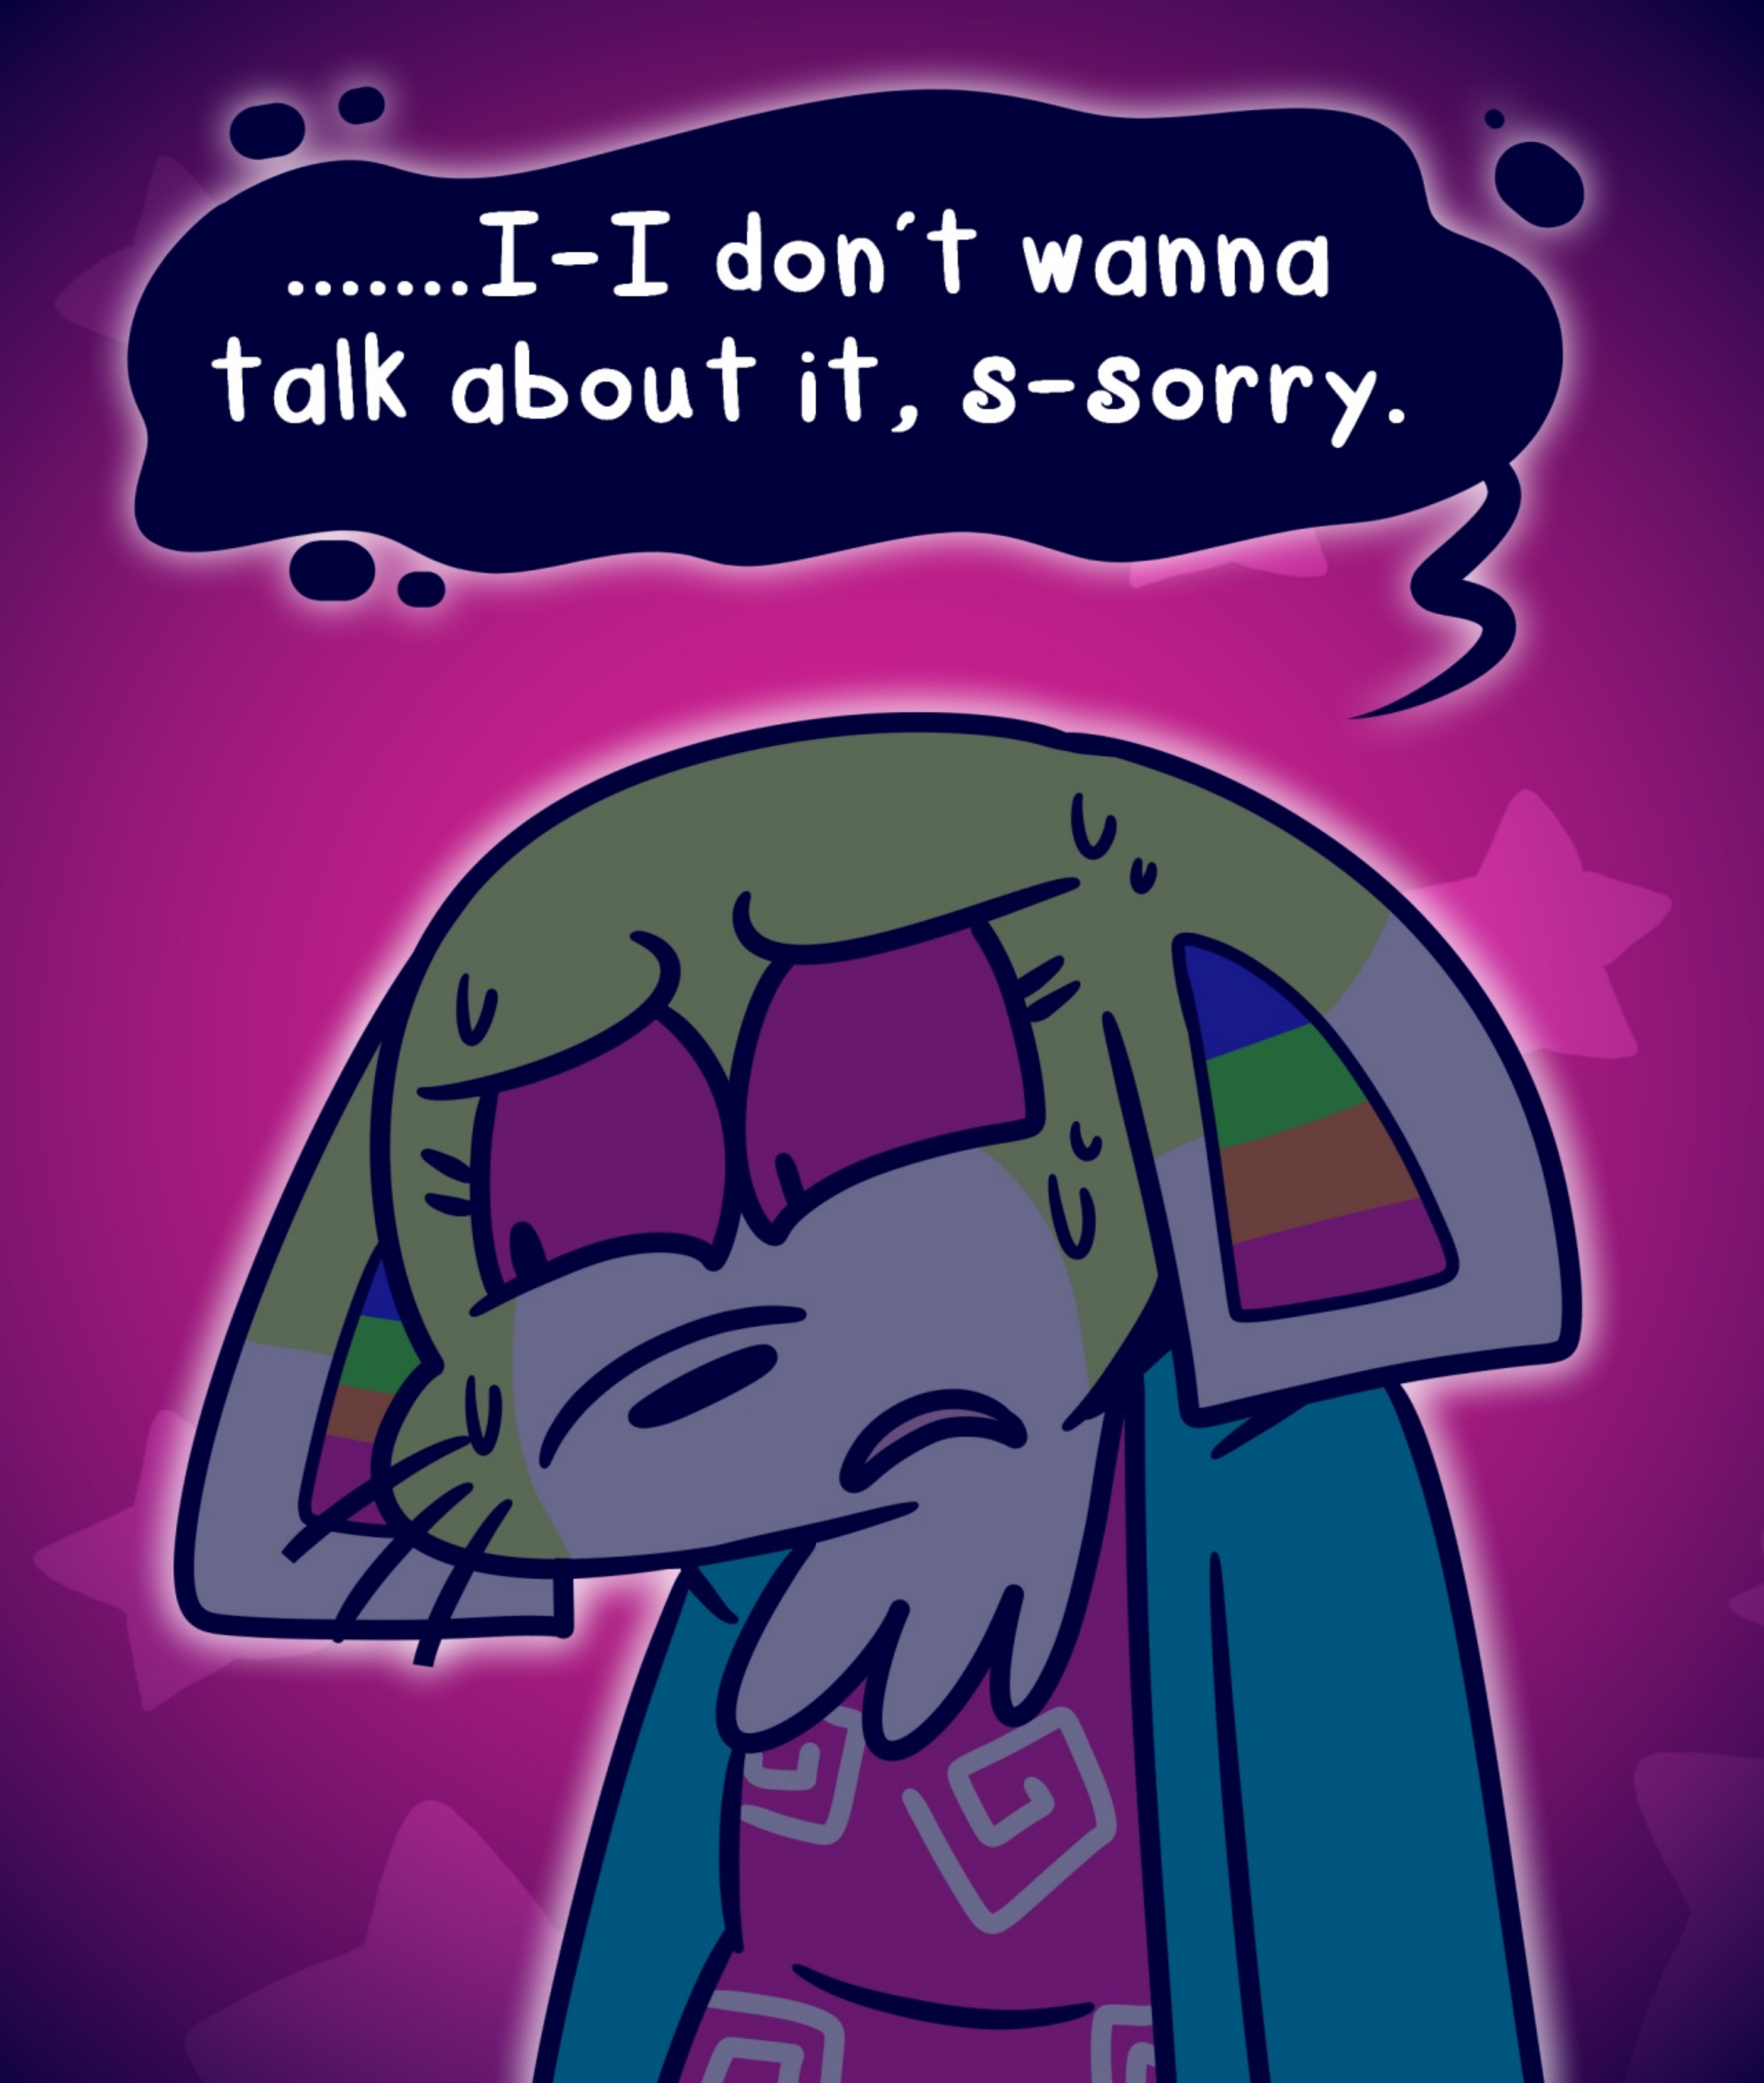


No matter what...
despite everything...
he still saw something
good in you.
Even though you're
convinced deep down
that your trauma turned
you evil.

knowyouronion asked:

what happened that you thought turned you evil?





.......I-I don´t wanna talk about it, s-sorry.

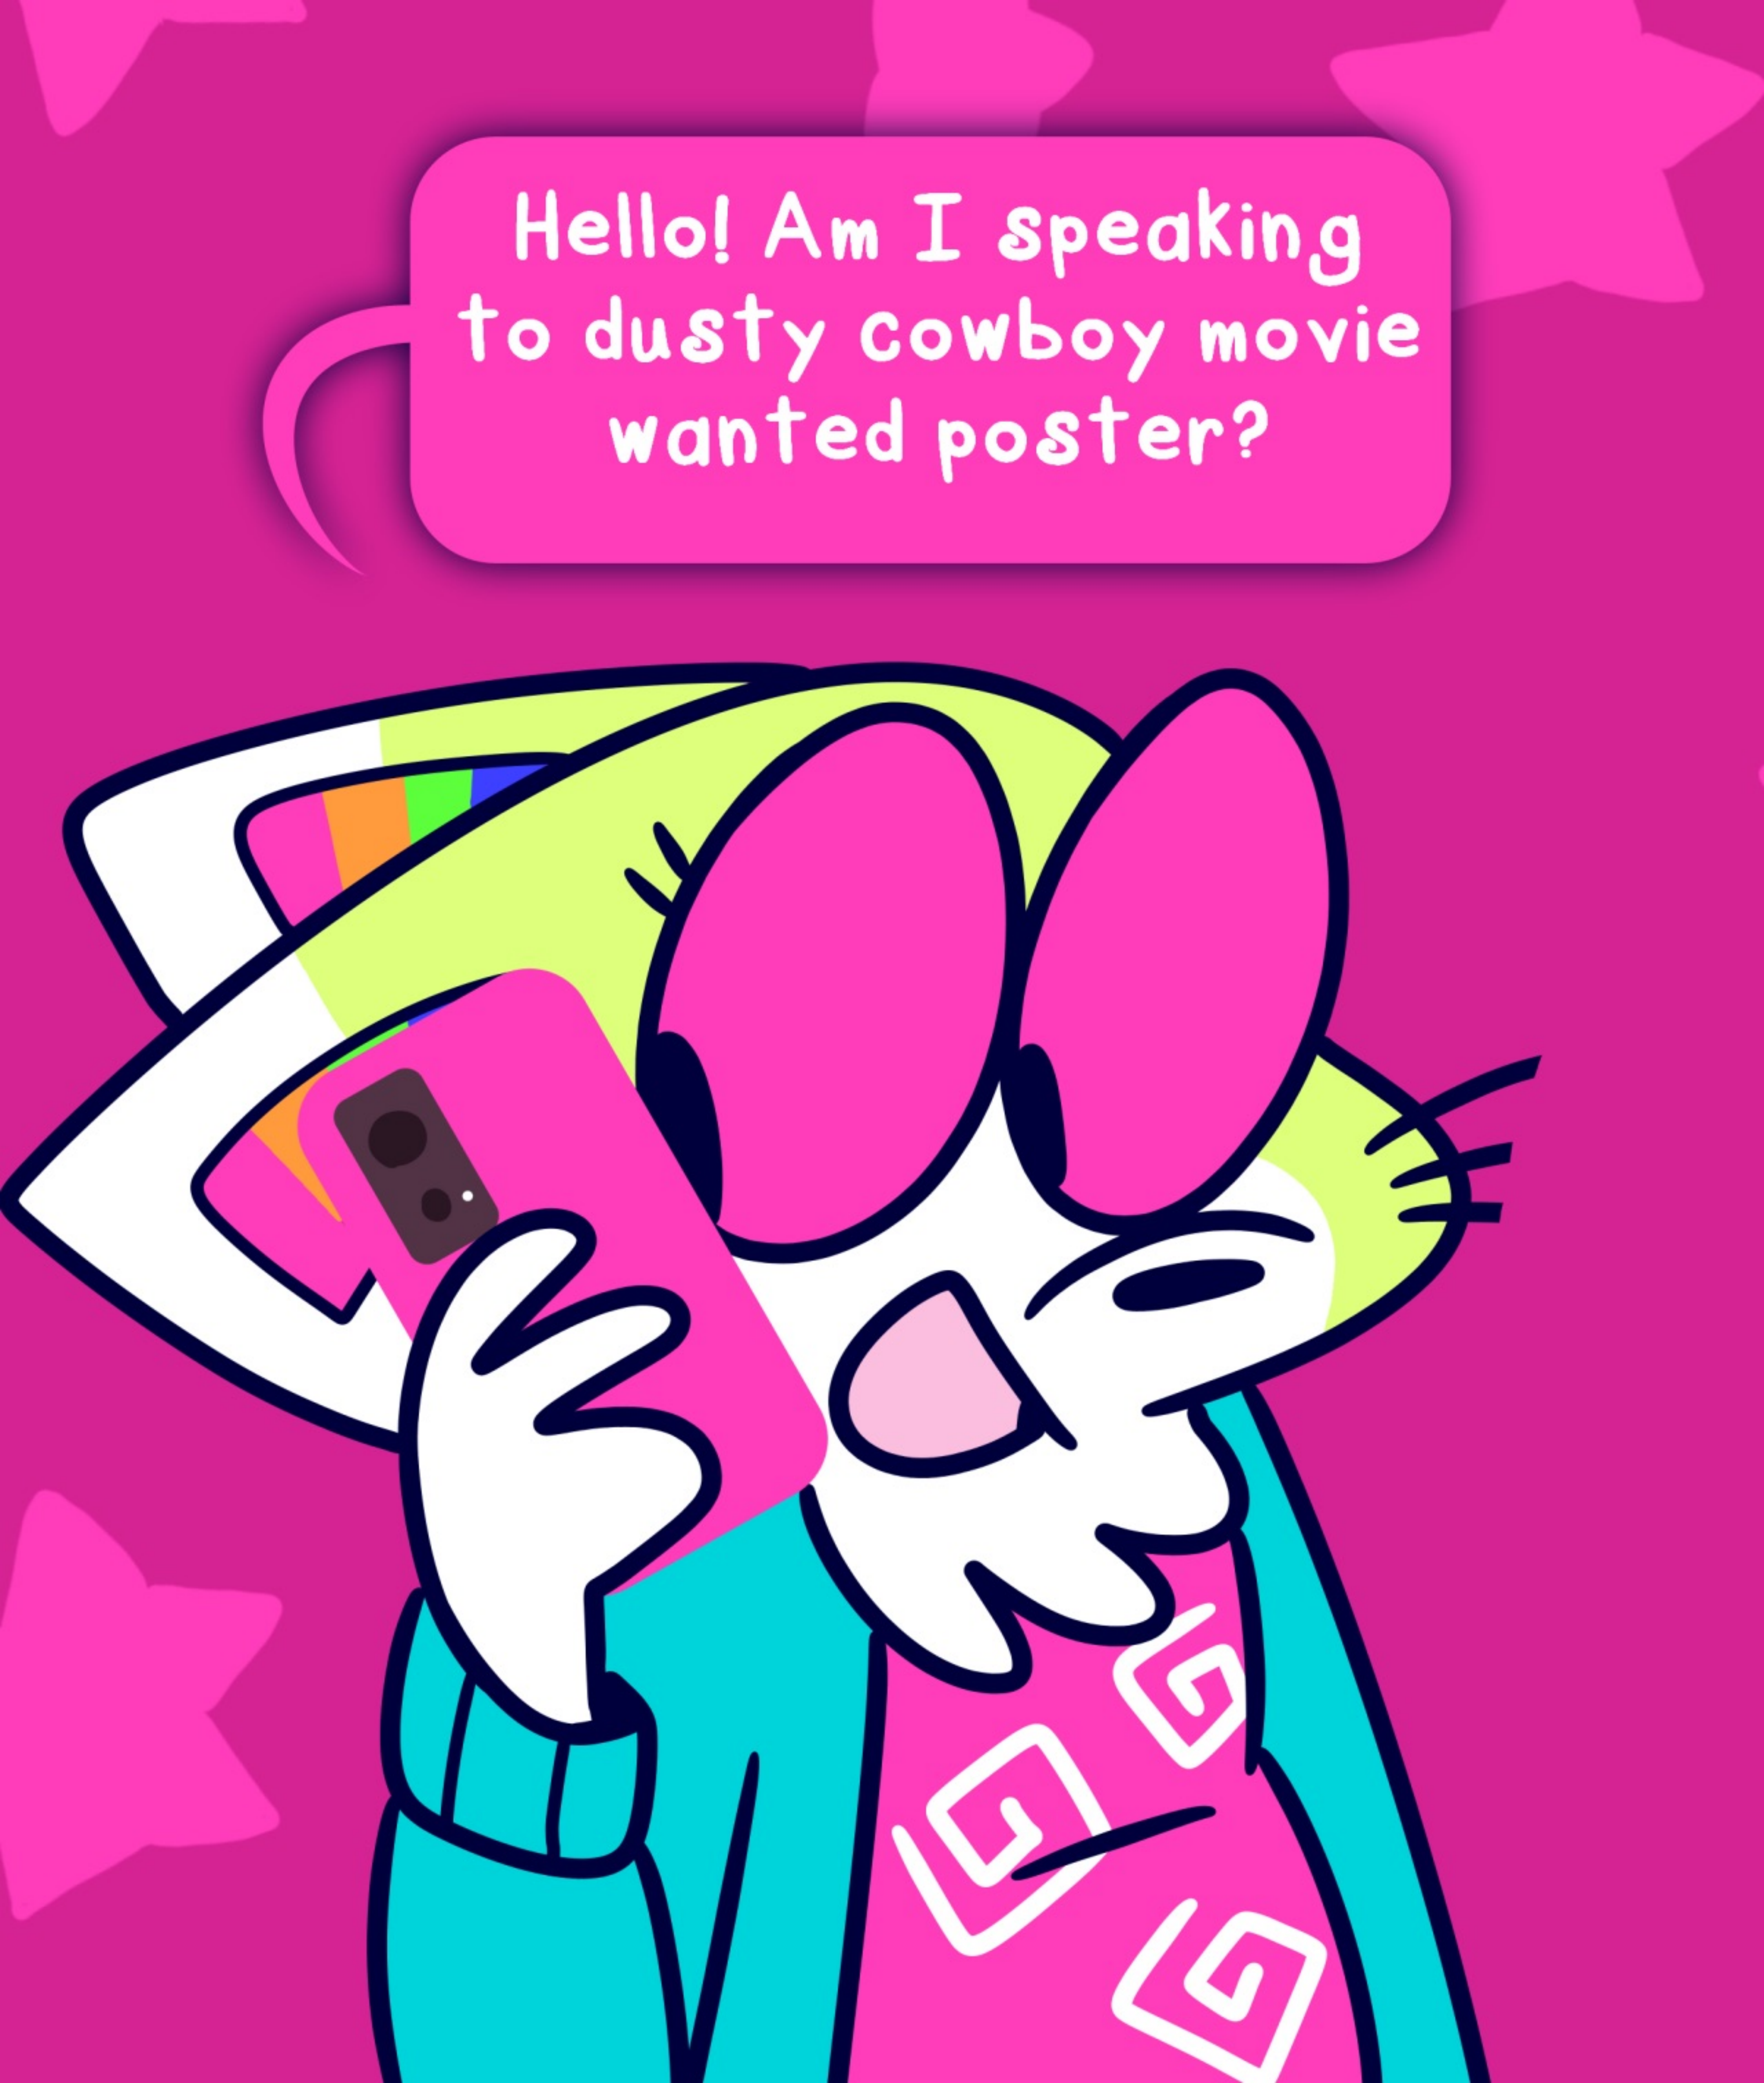
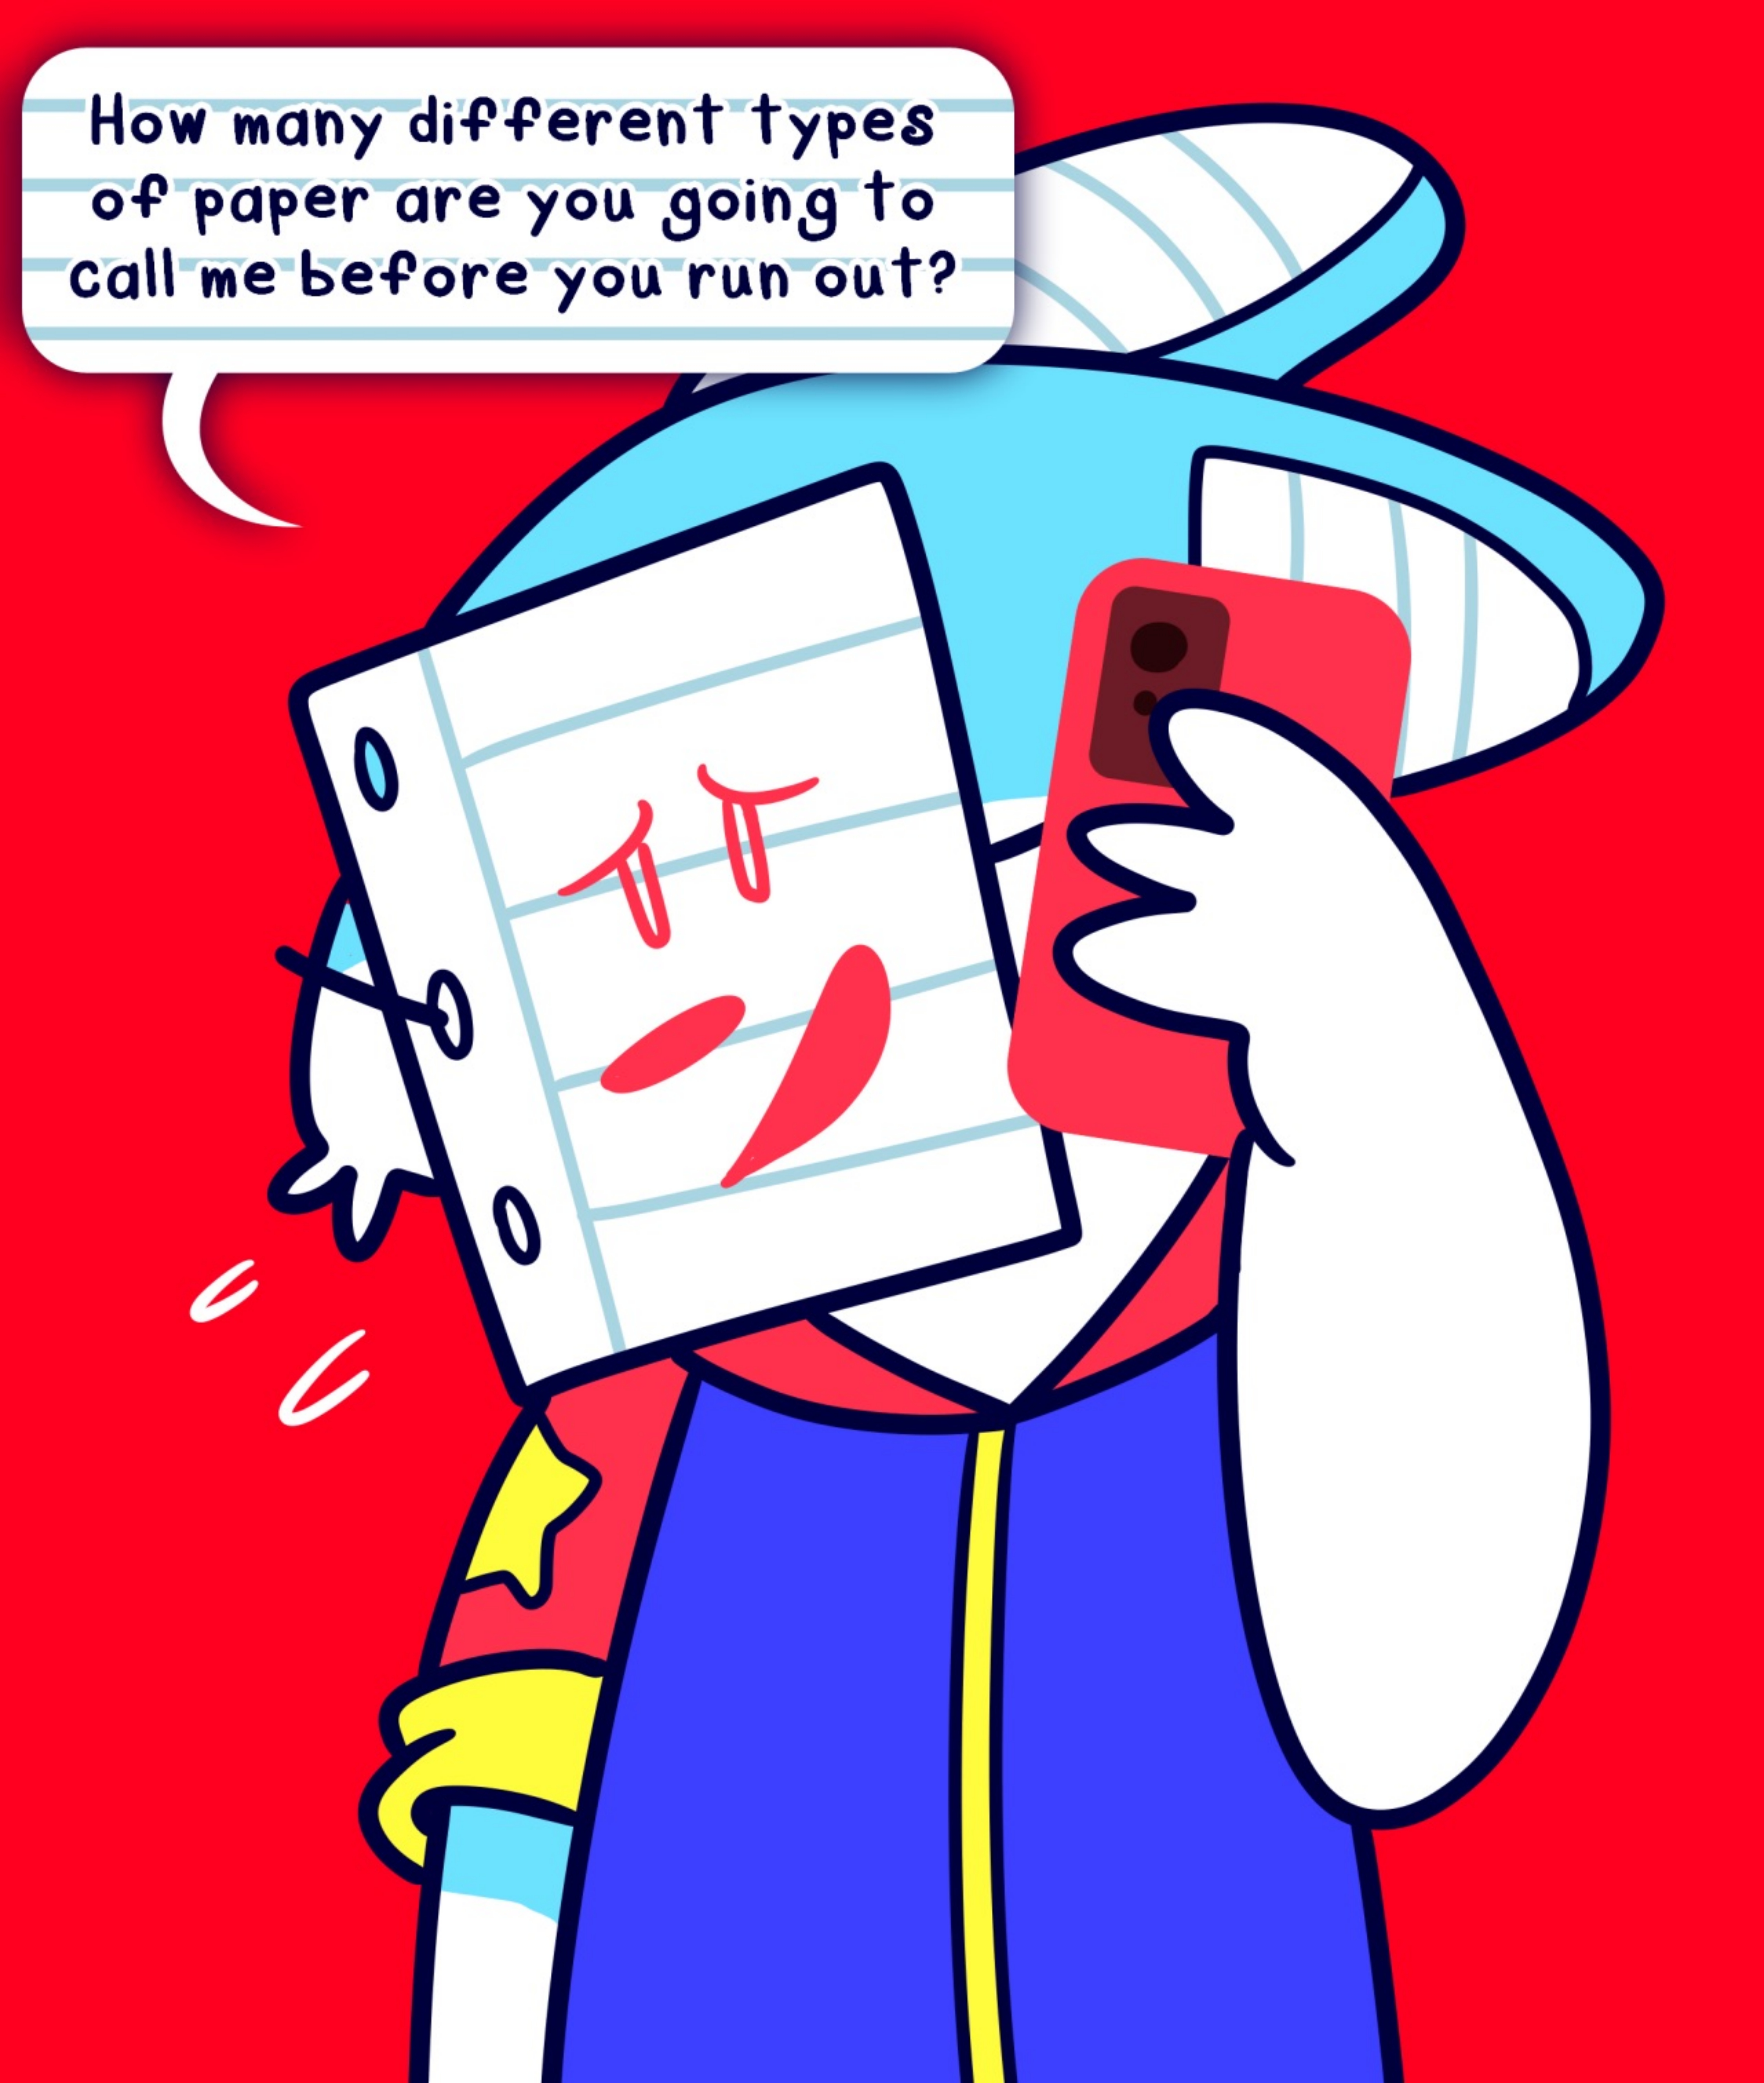
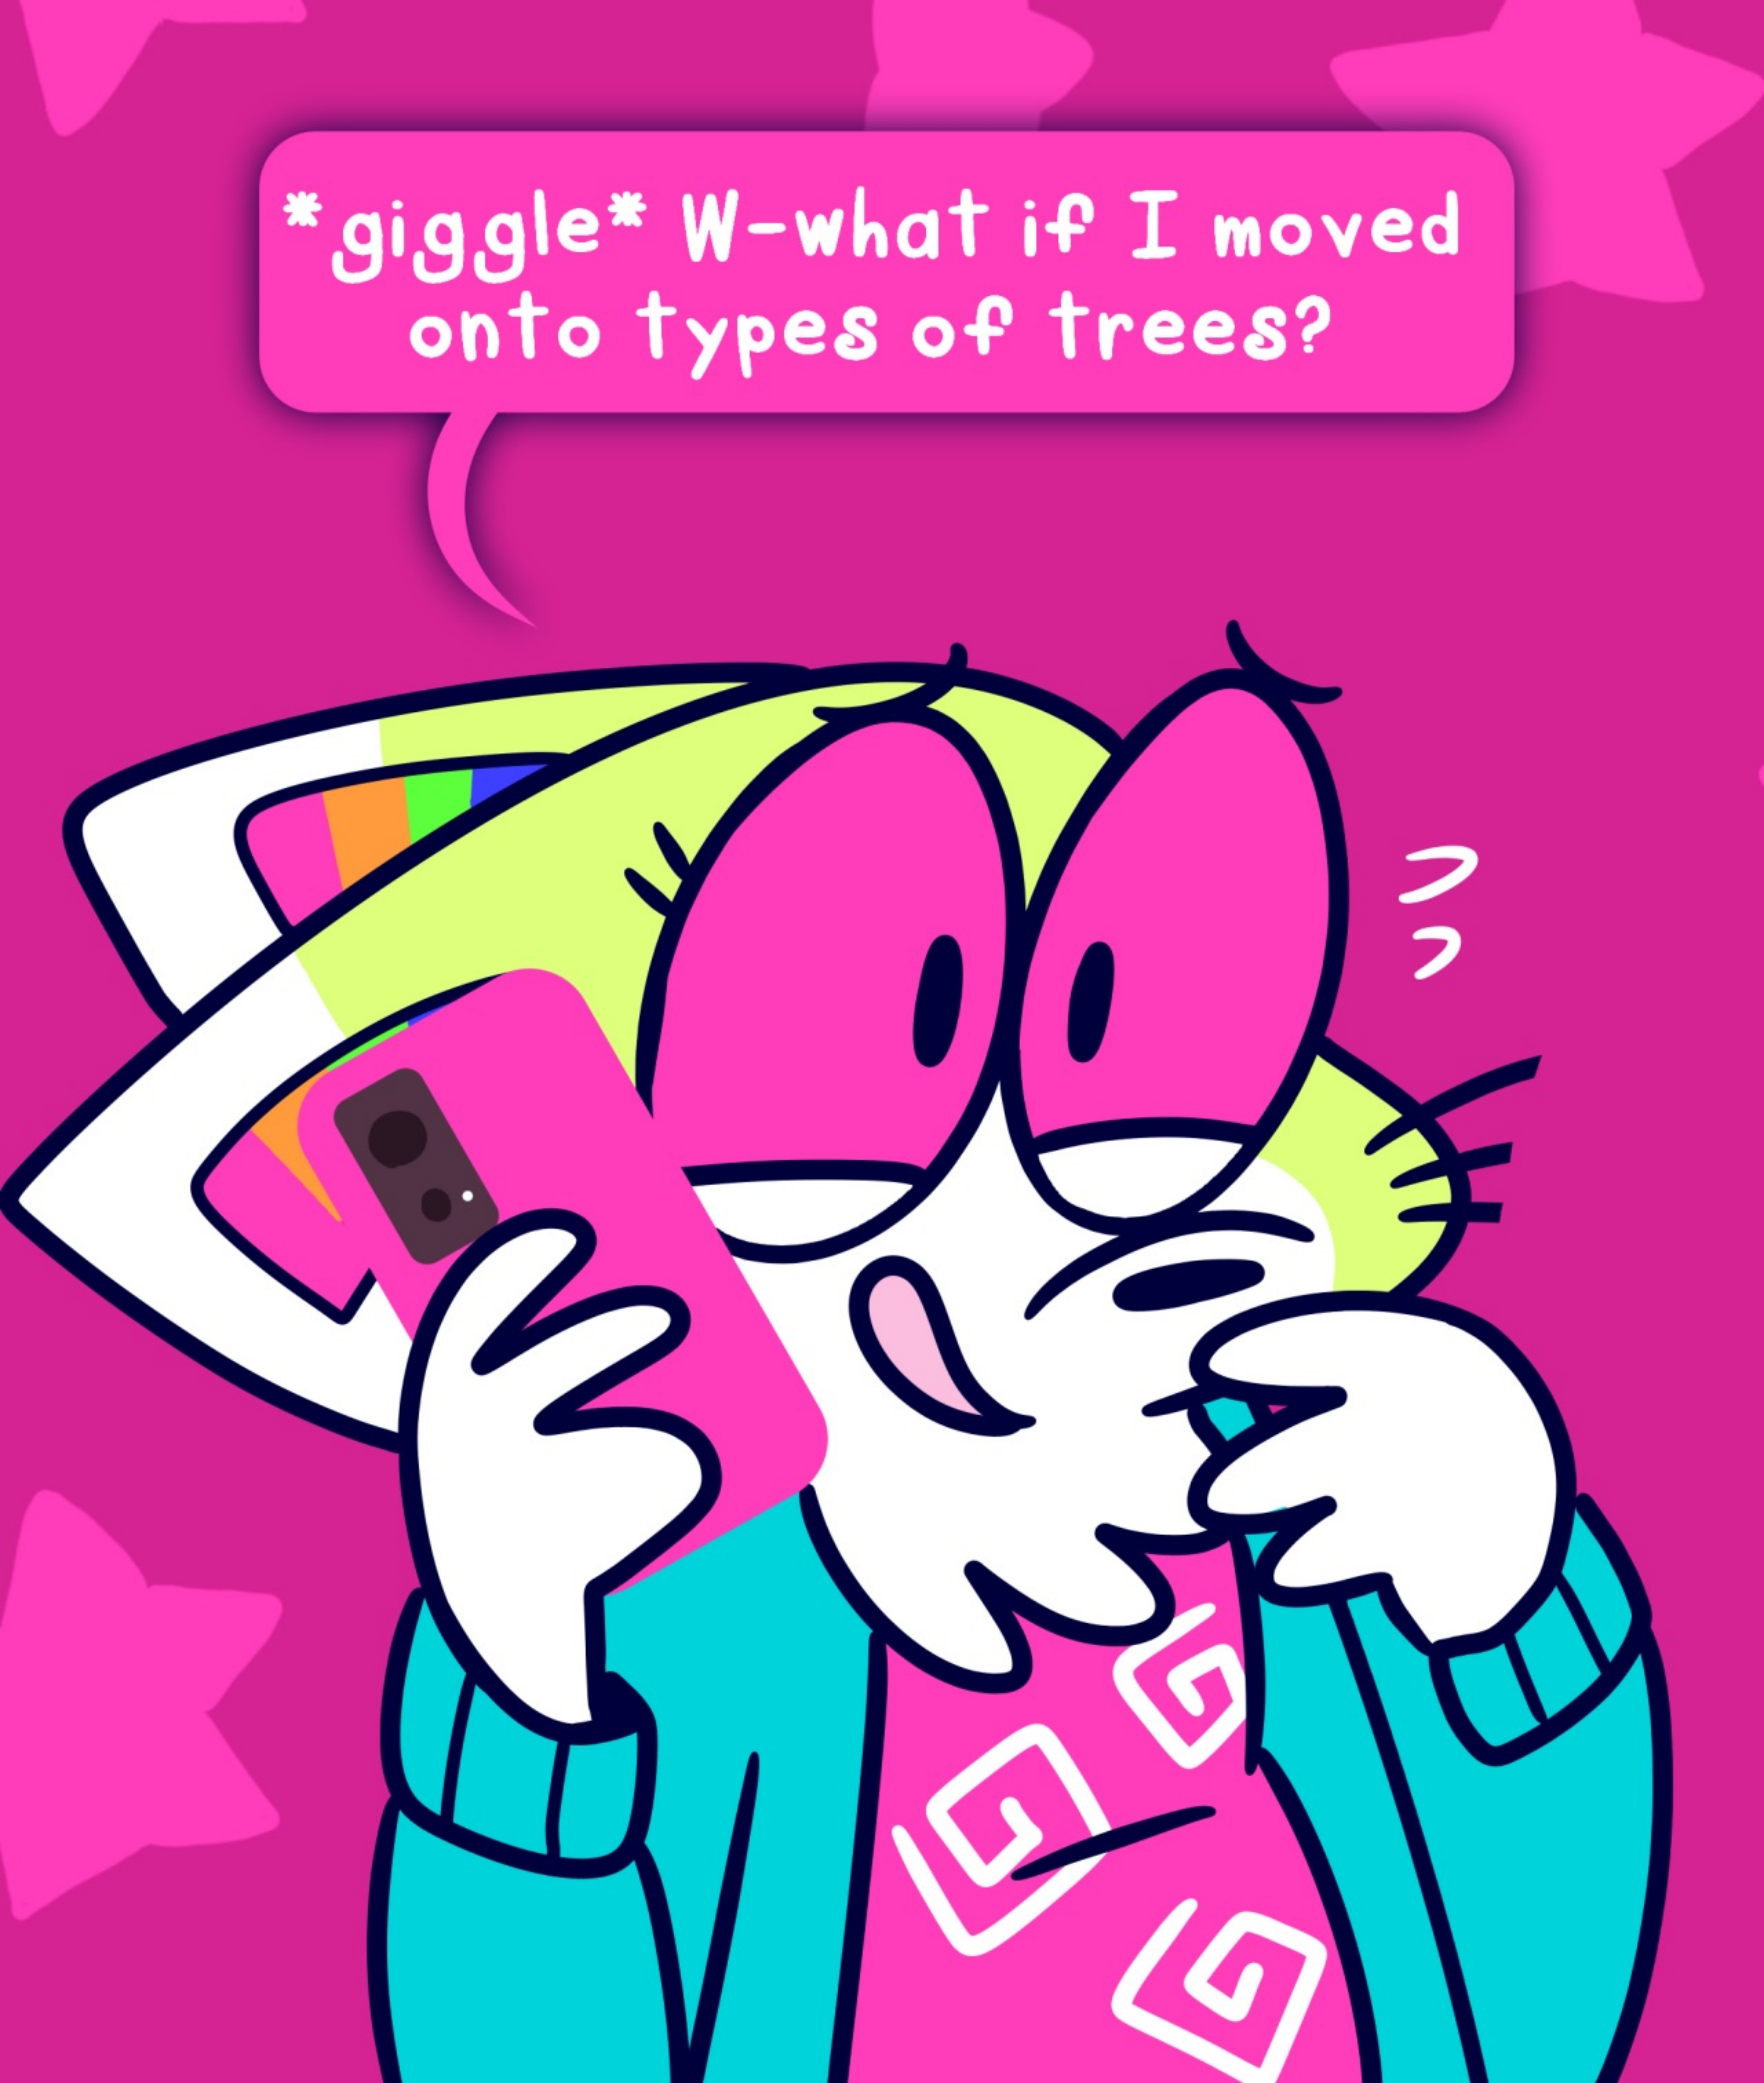
CALLING



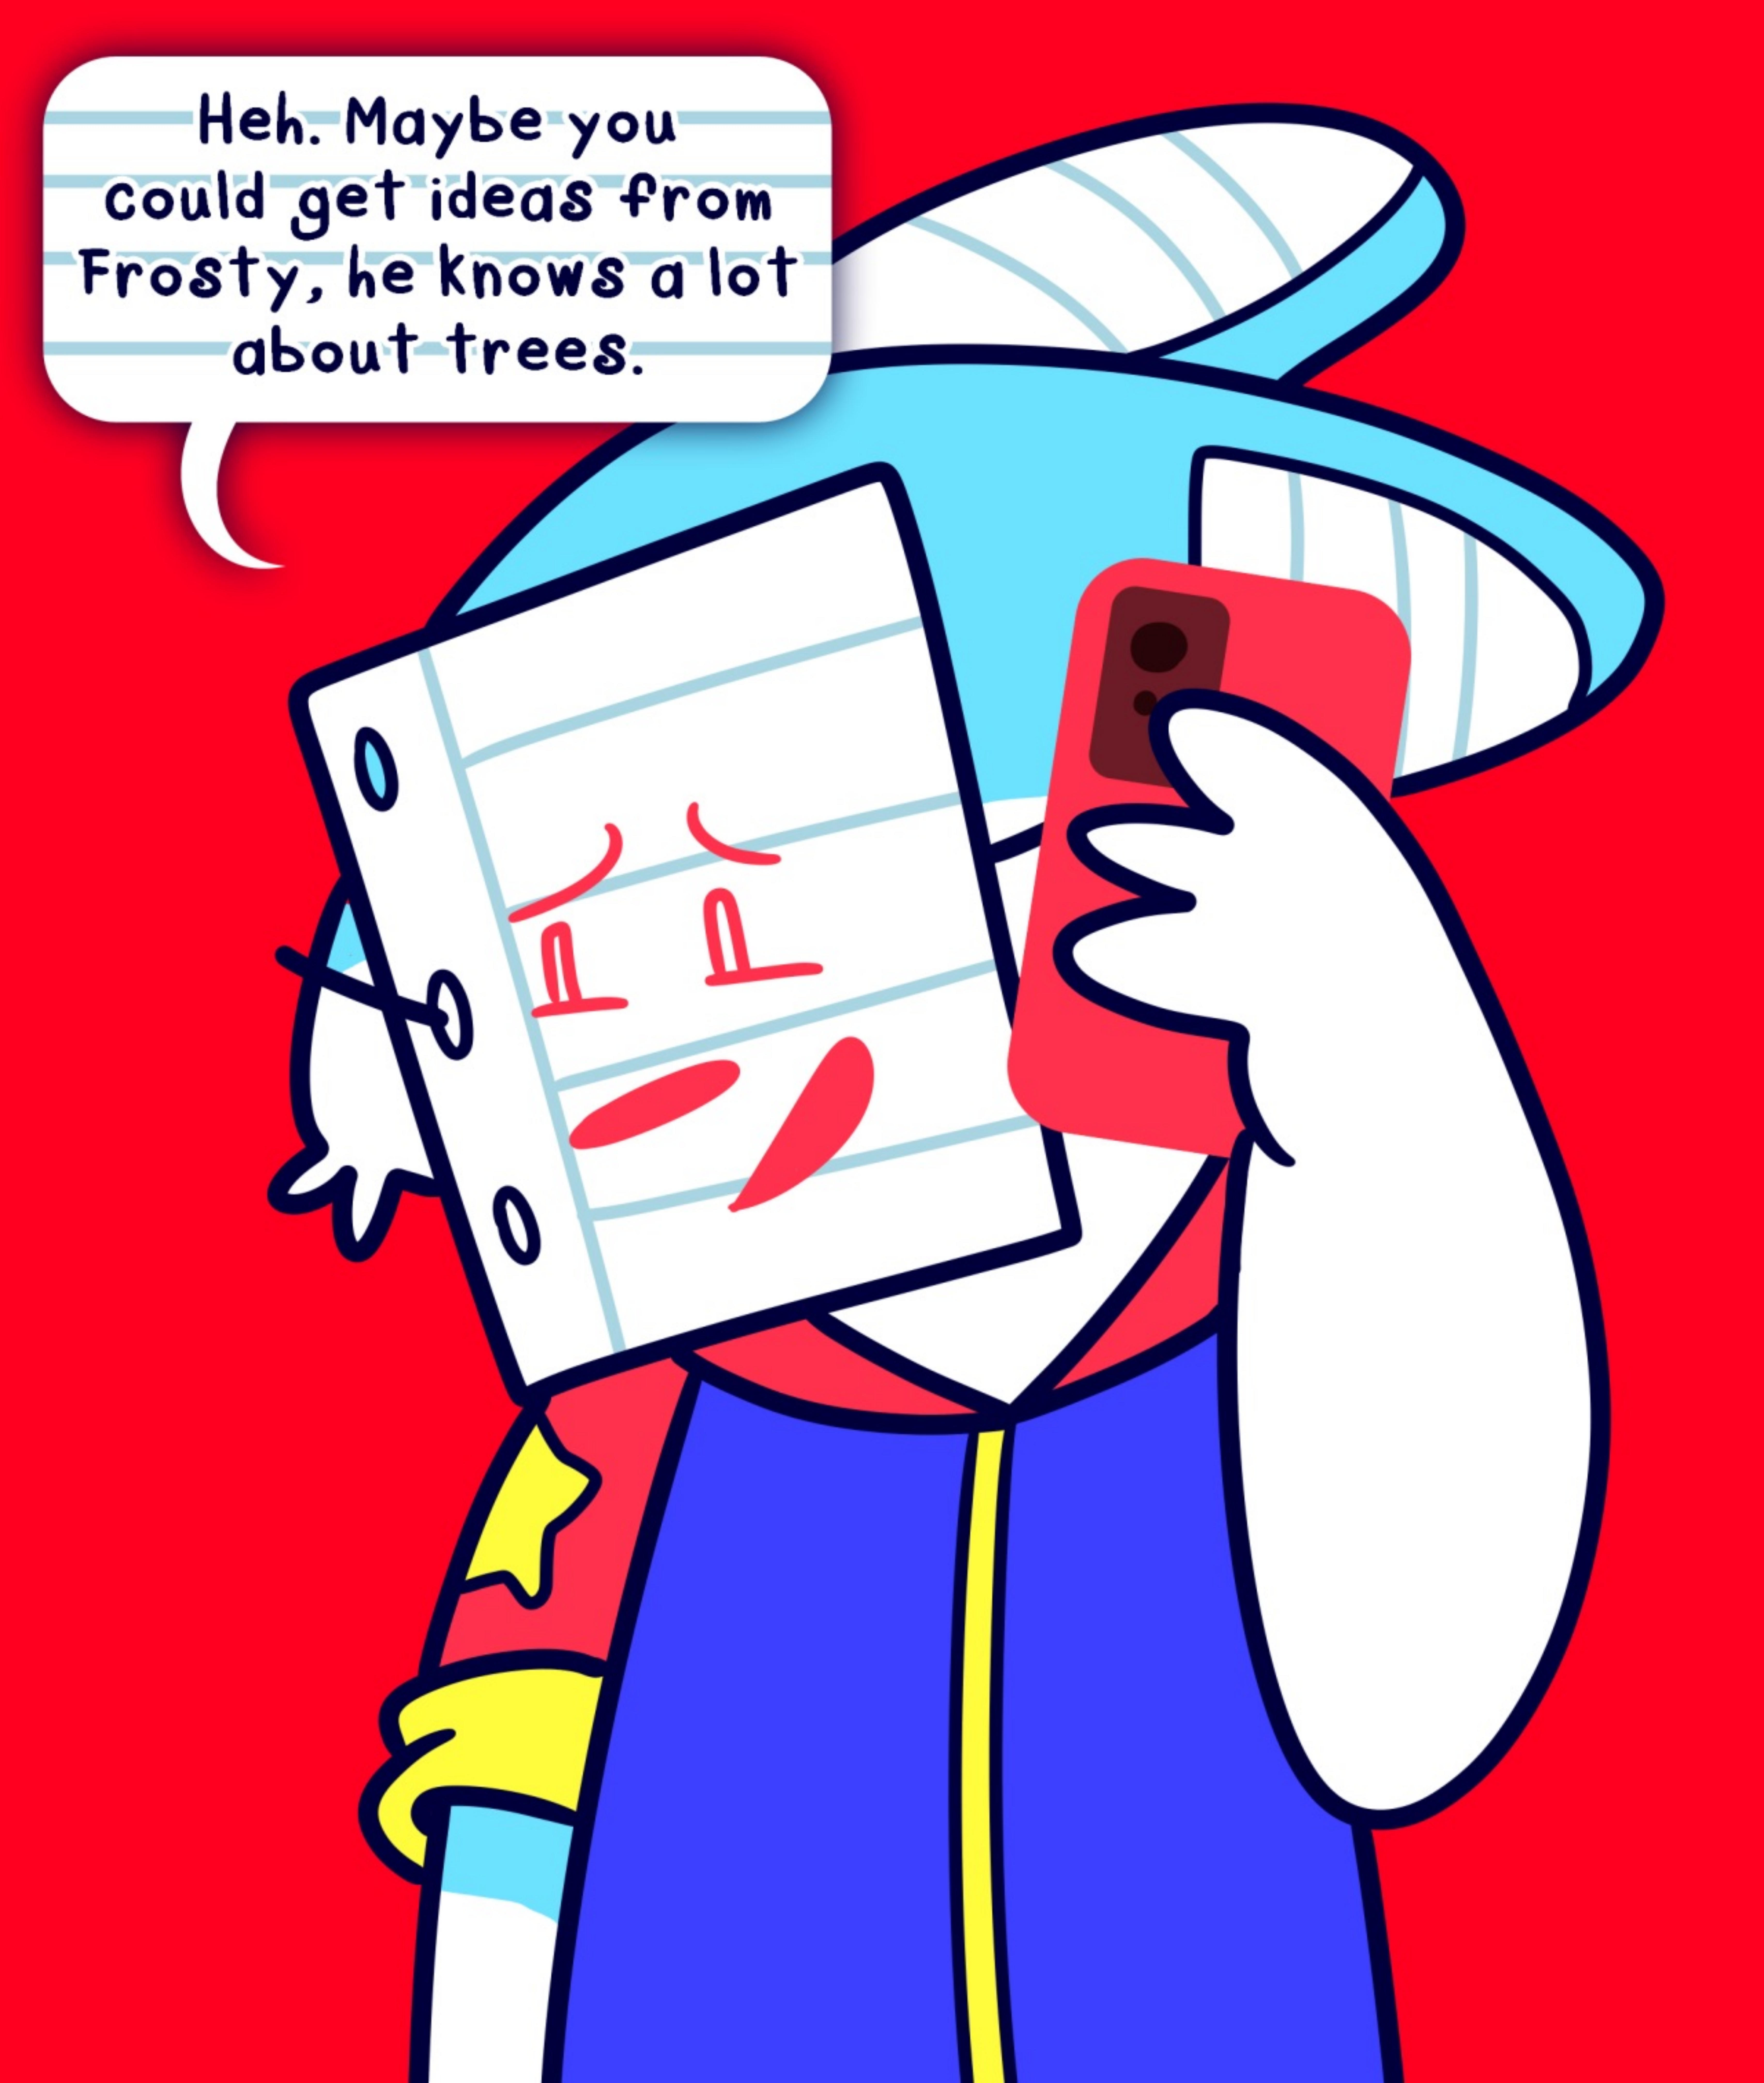
Hello! Am I speaking to dusty cowboy movie wanted poster?



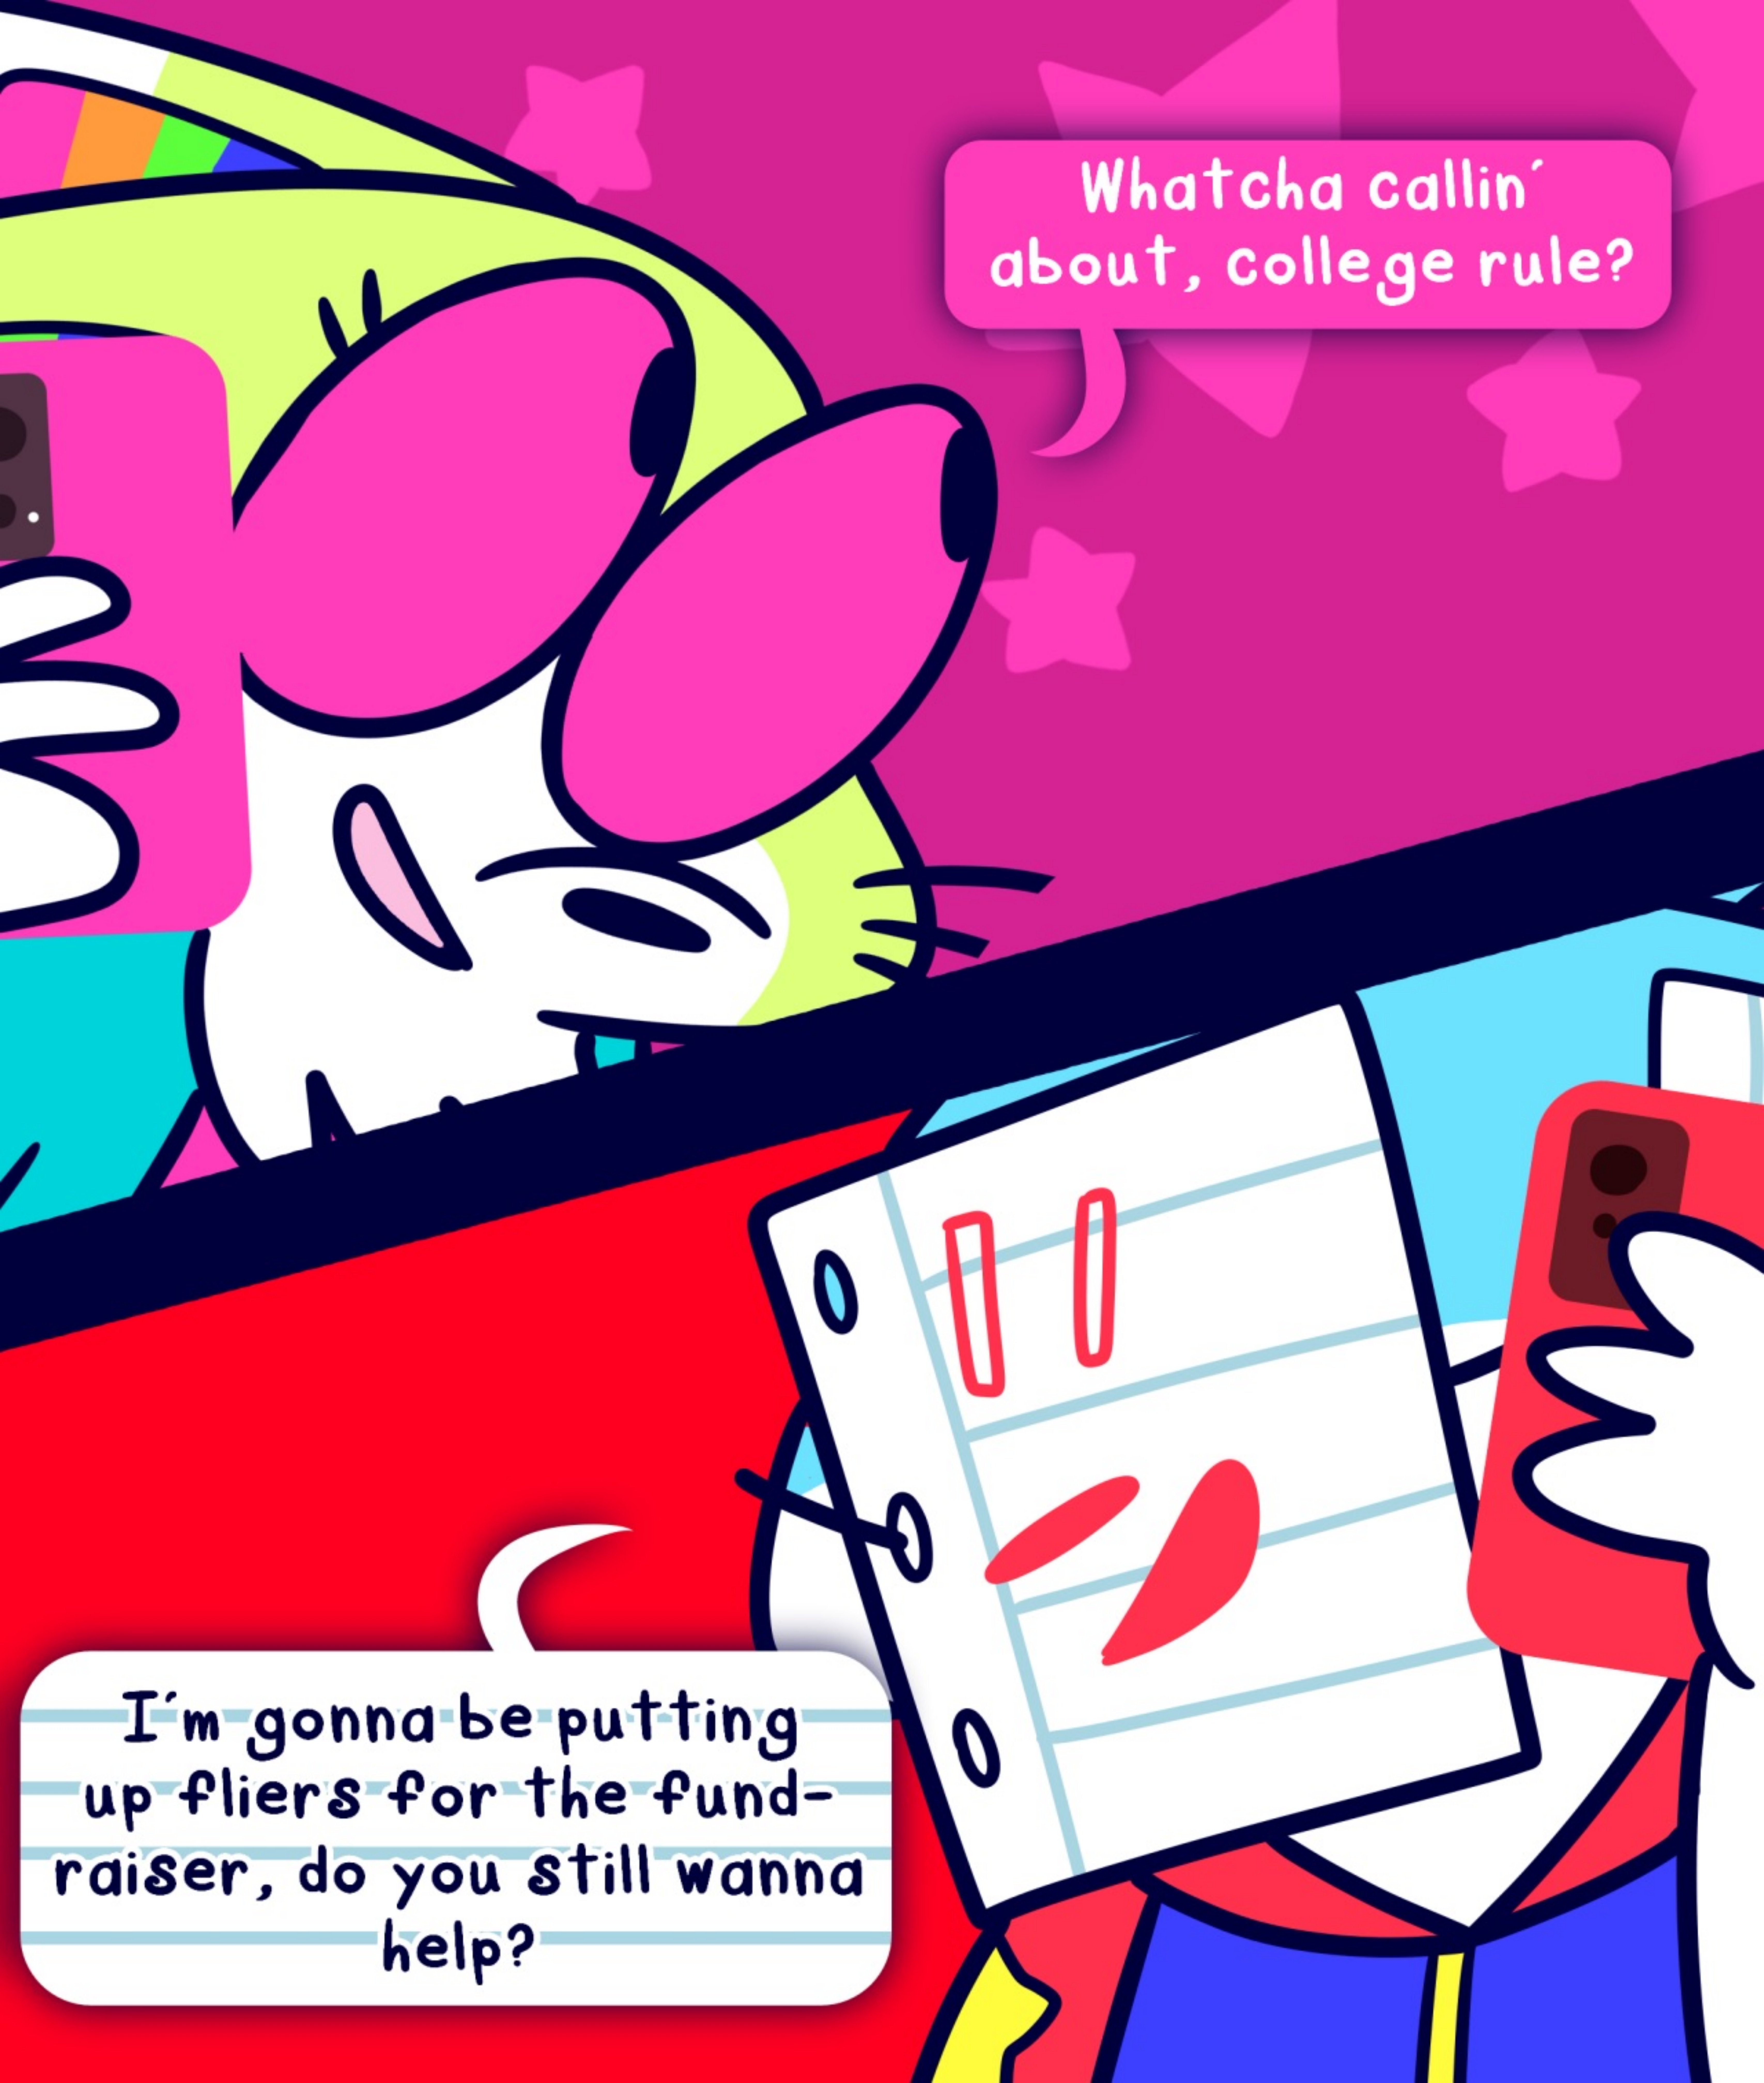
How many different types of paper are you going to call me before you run out?



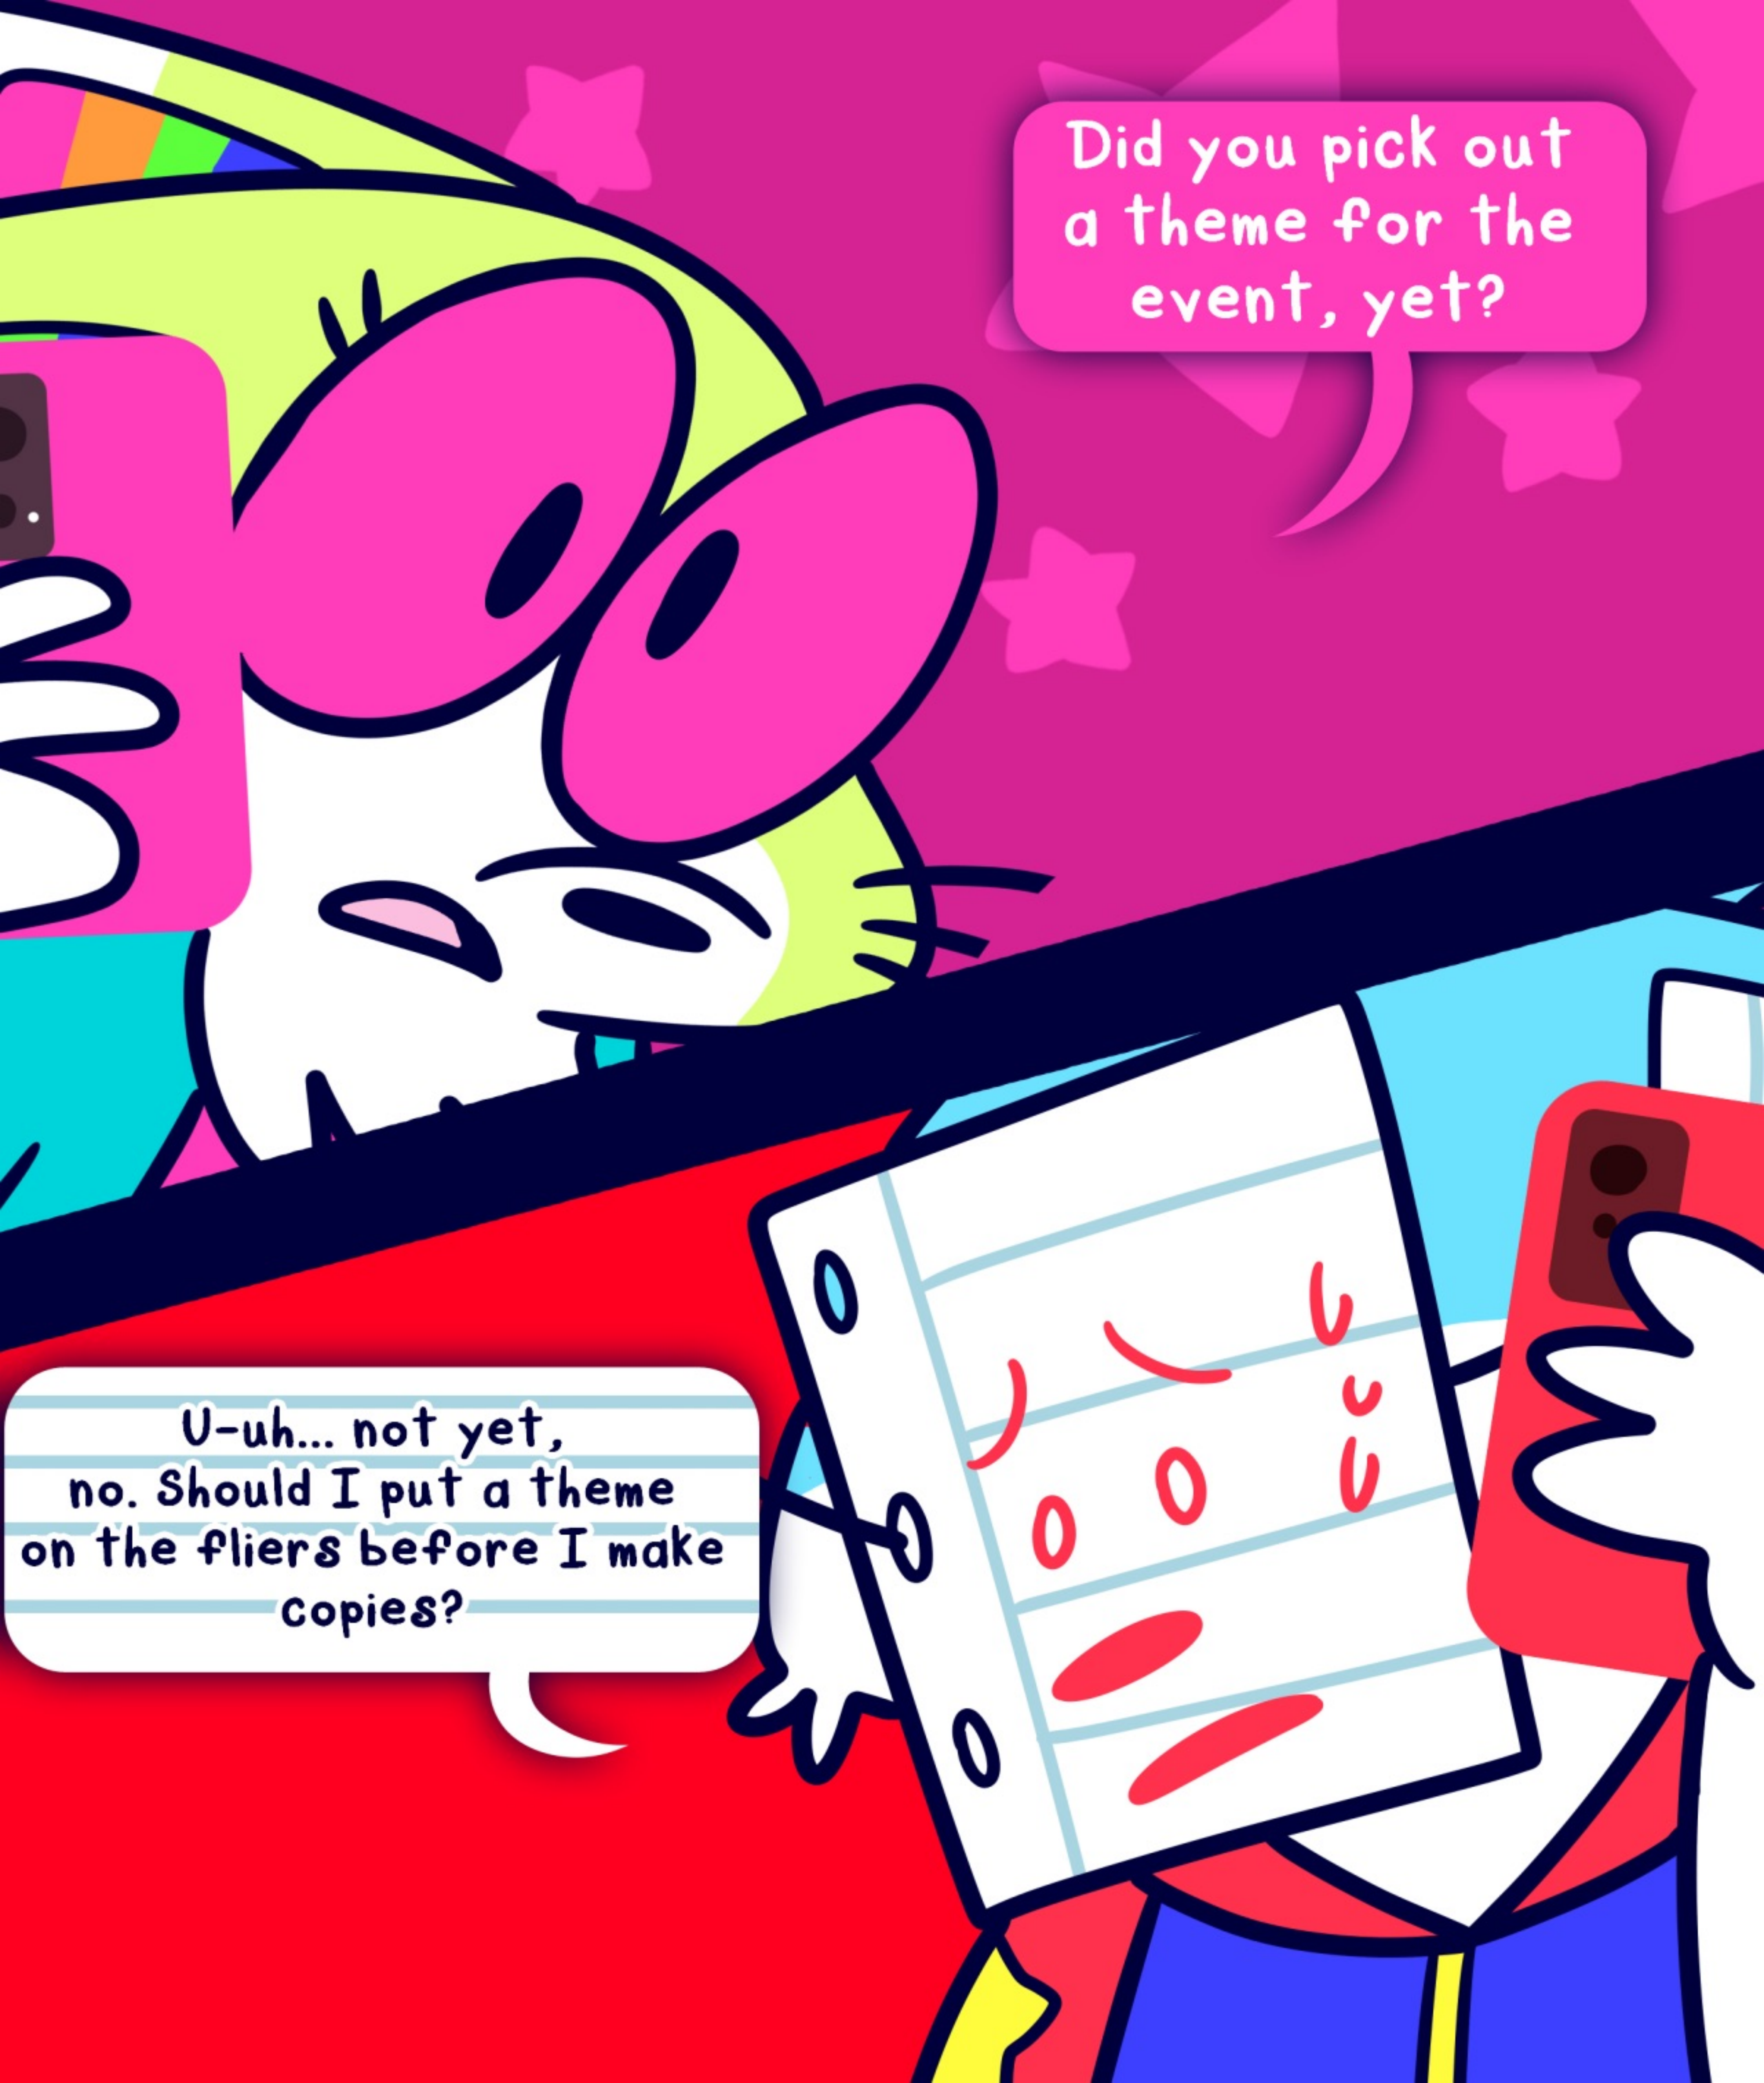
giggle W-what if I moved onto types of trees?



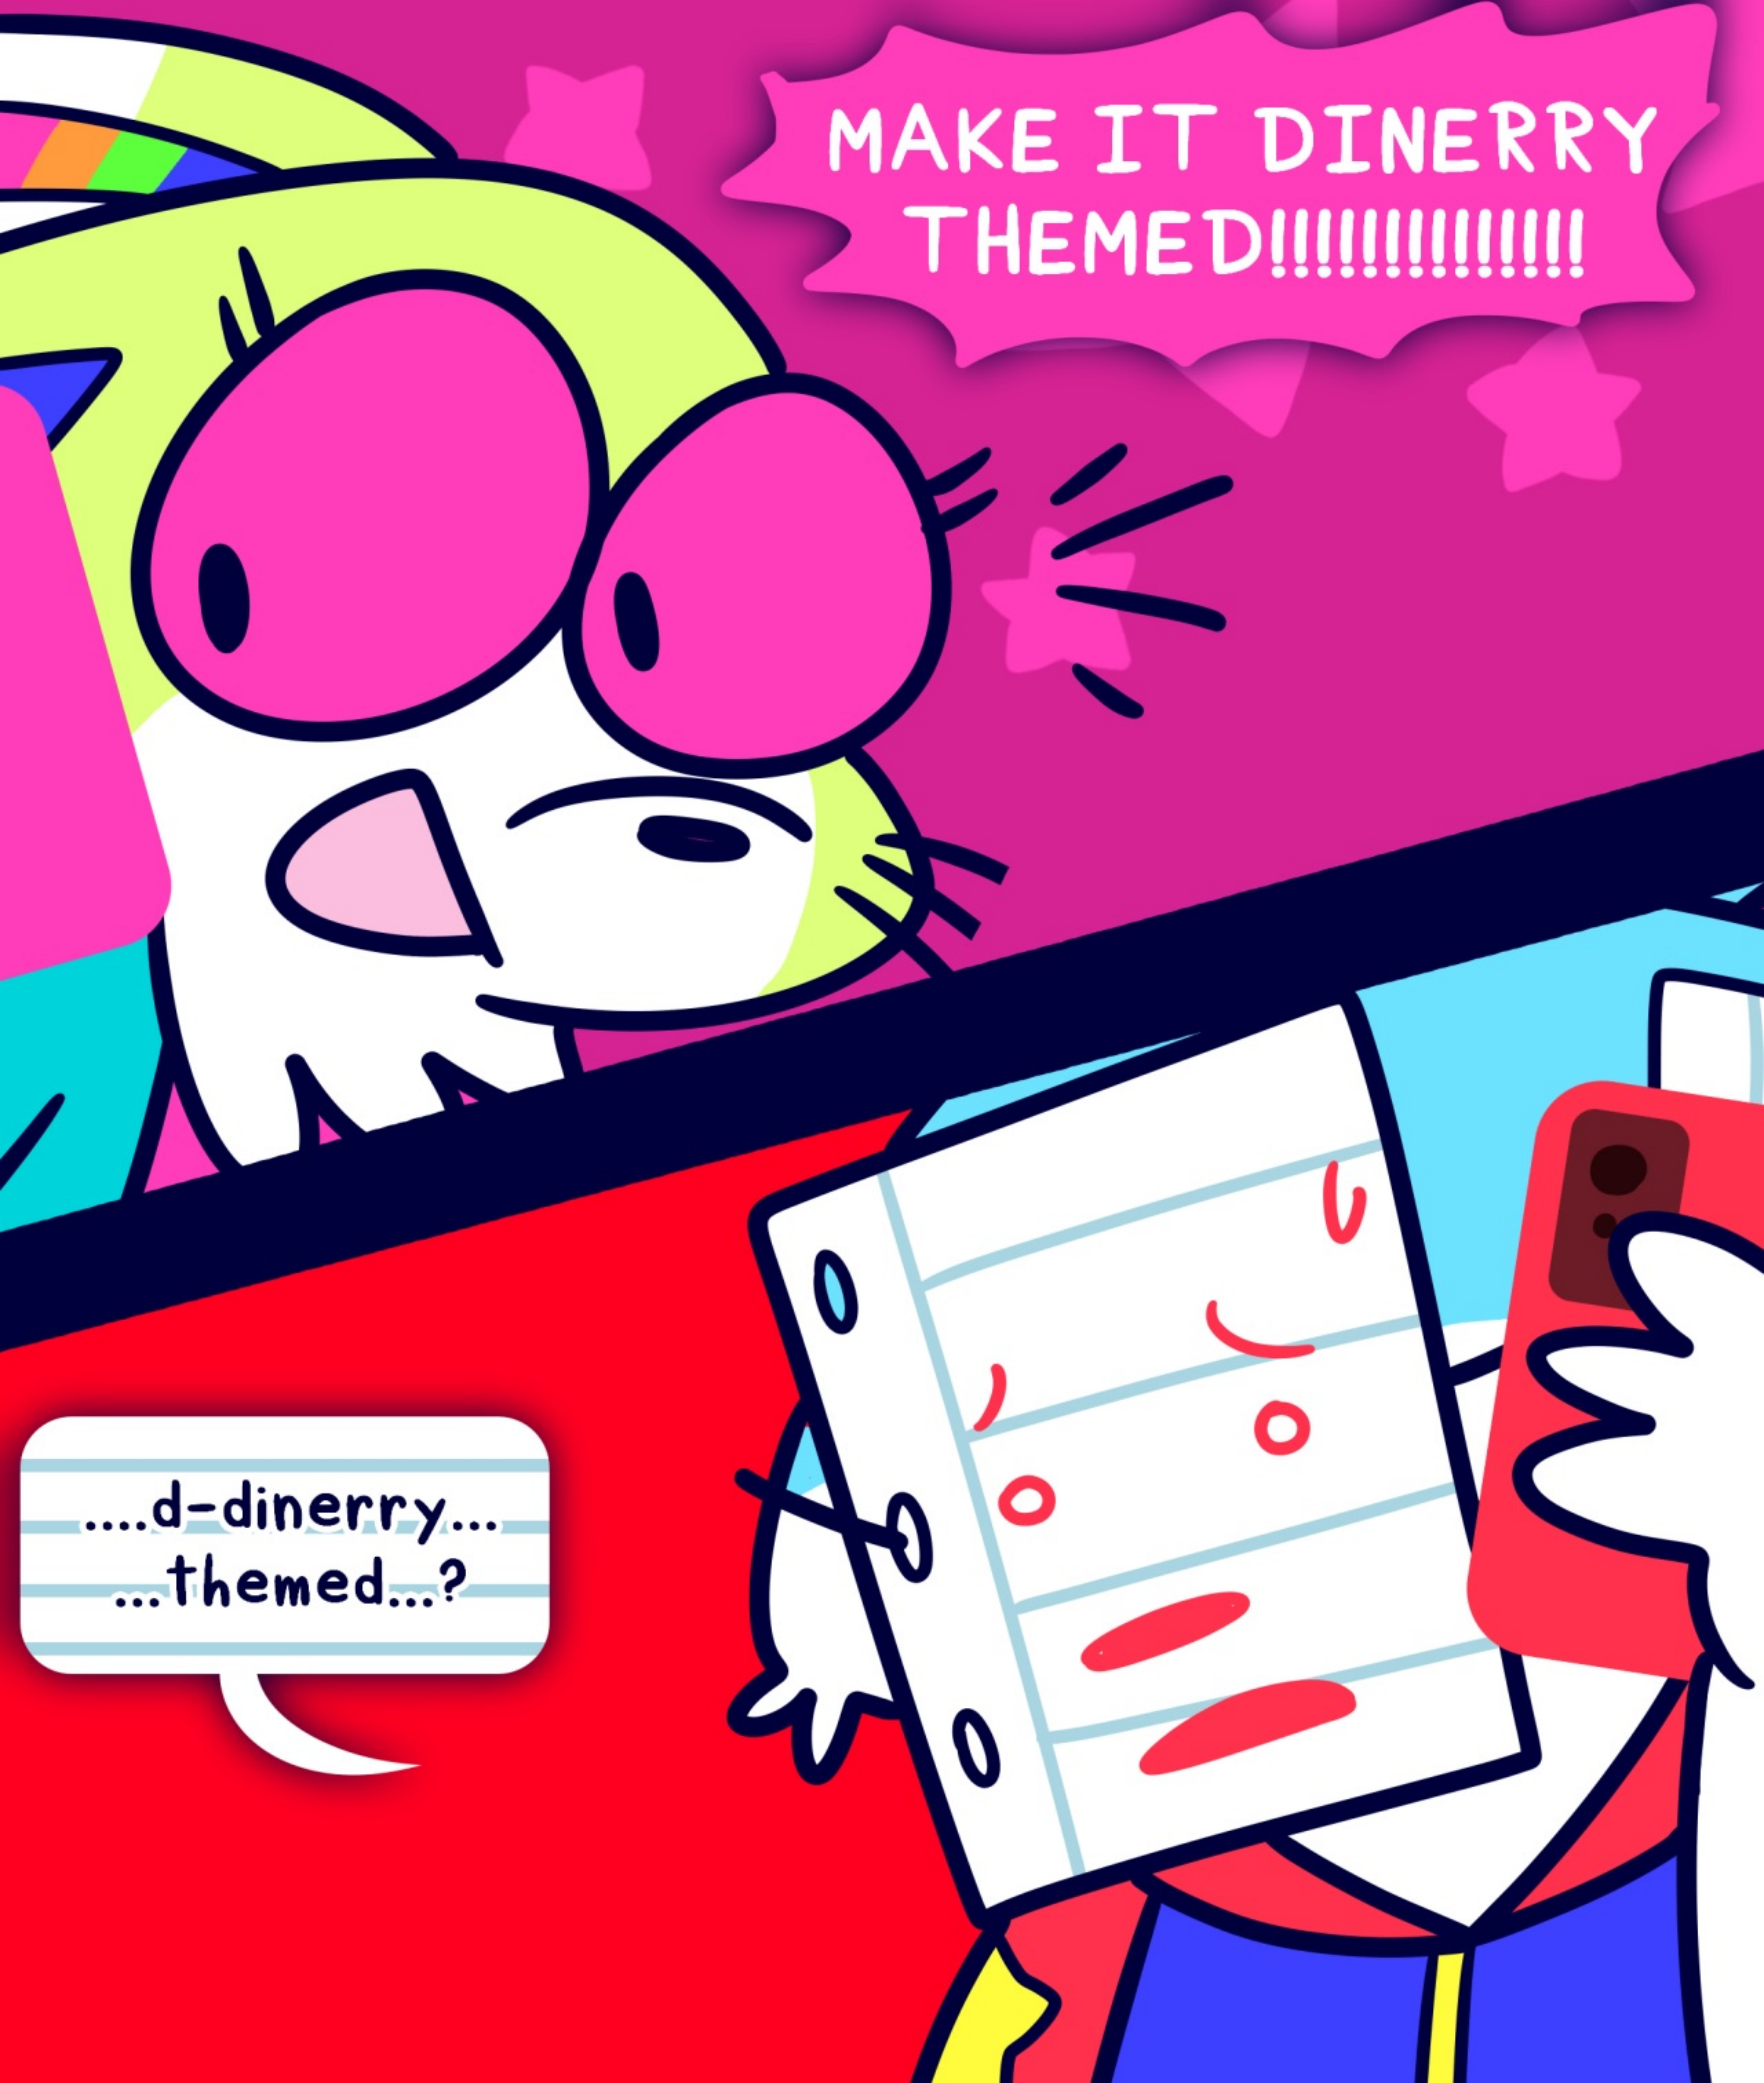
Heh. Maybe you could get ideas from Frosty, he knows a lot about trees.



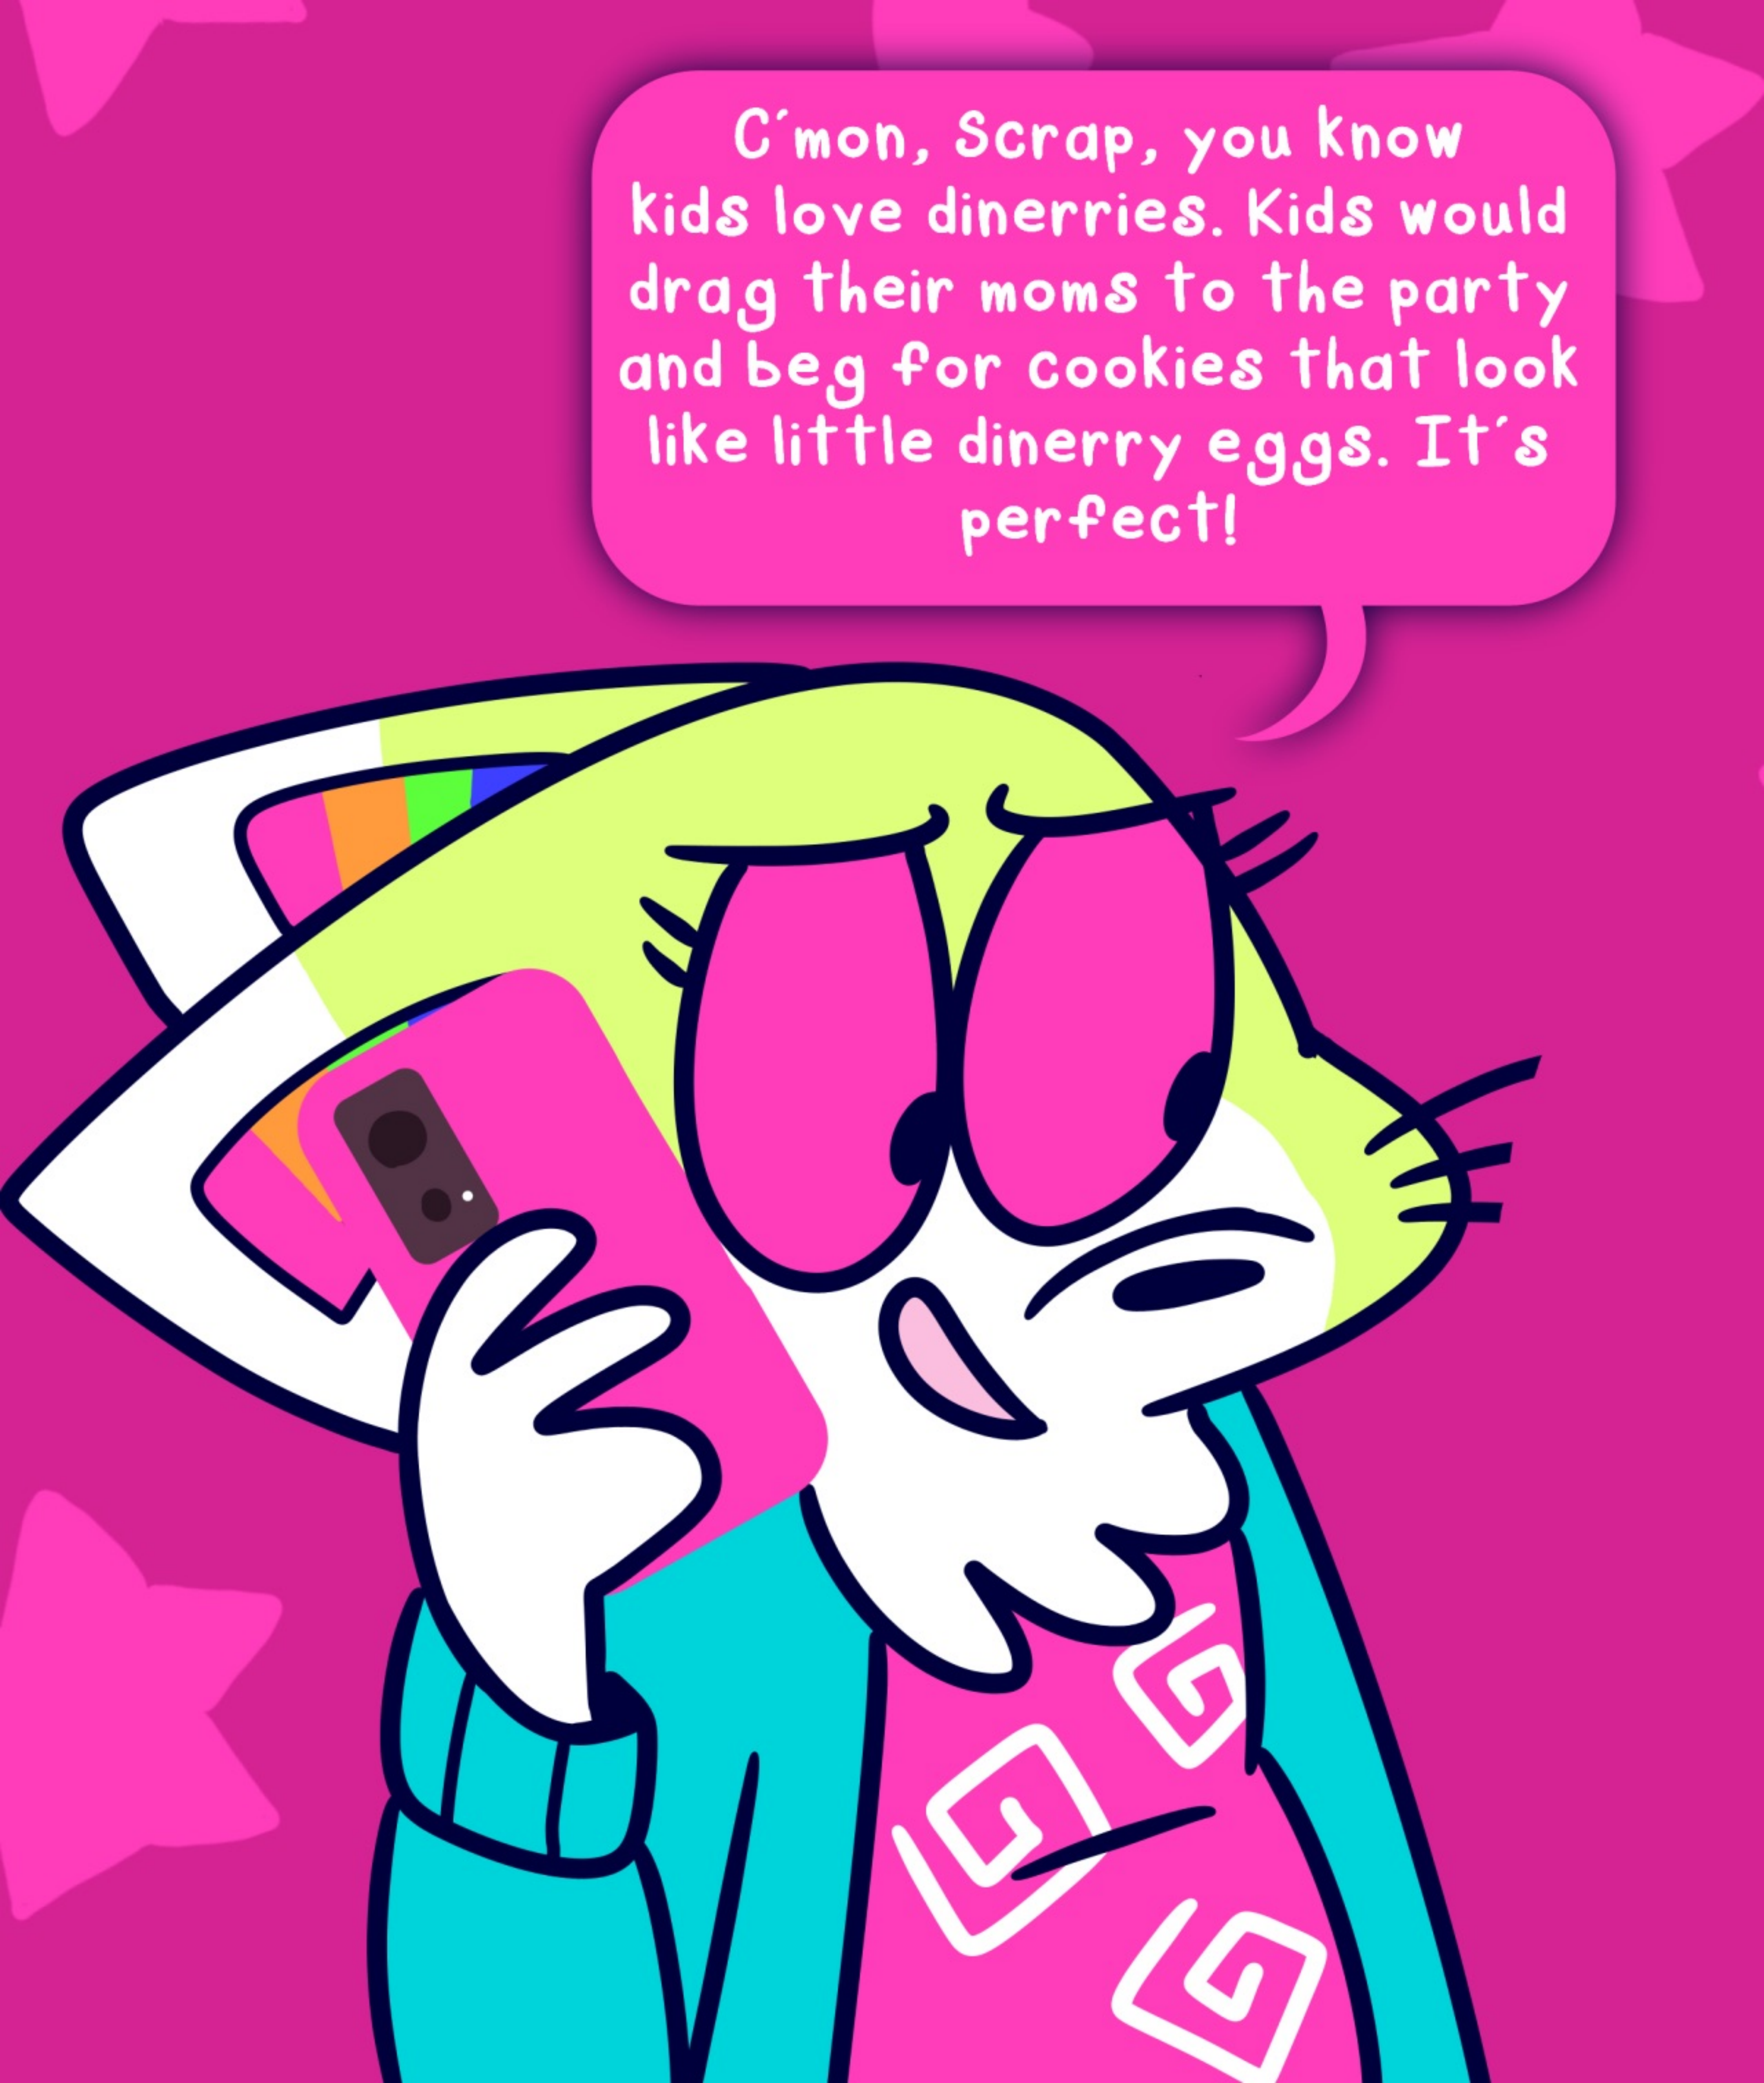
Whatcha callin´ about, college rule?
I´m gonna be putting up fliers for the fund-raiser, do you still wanna help?



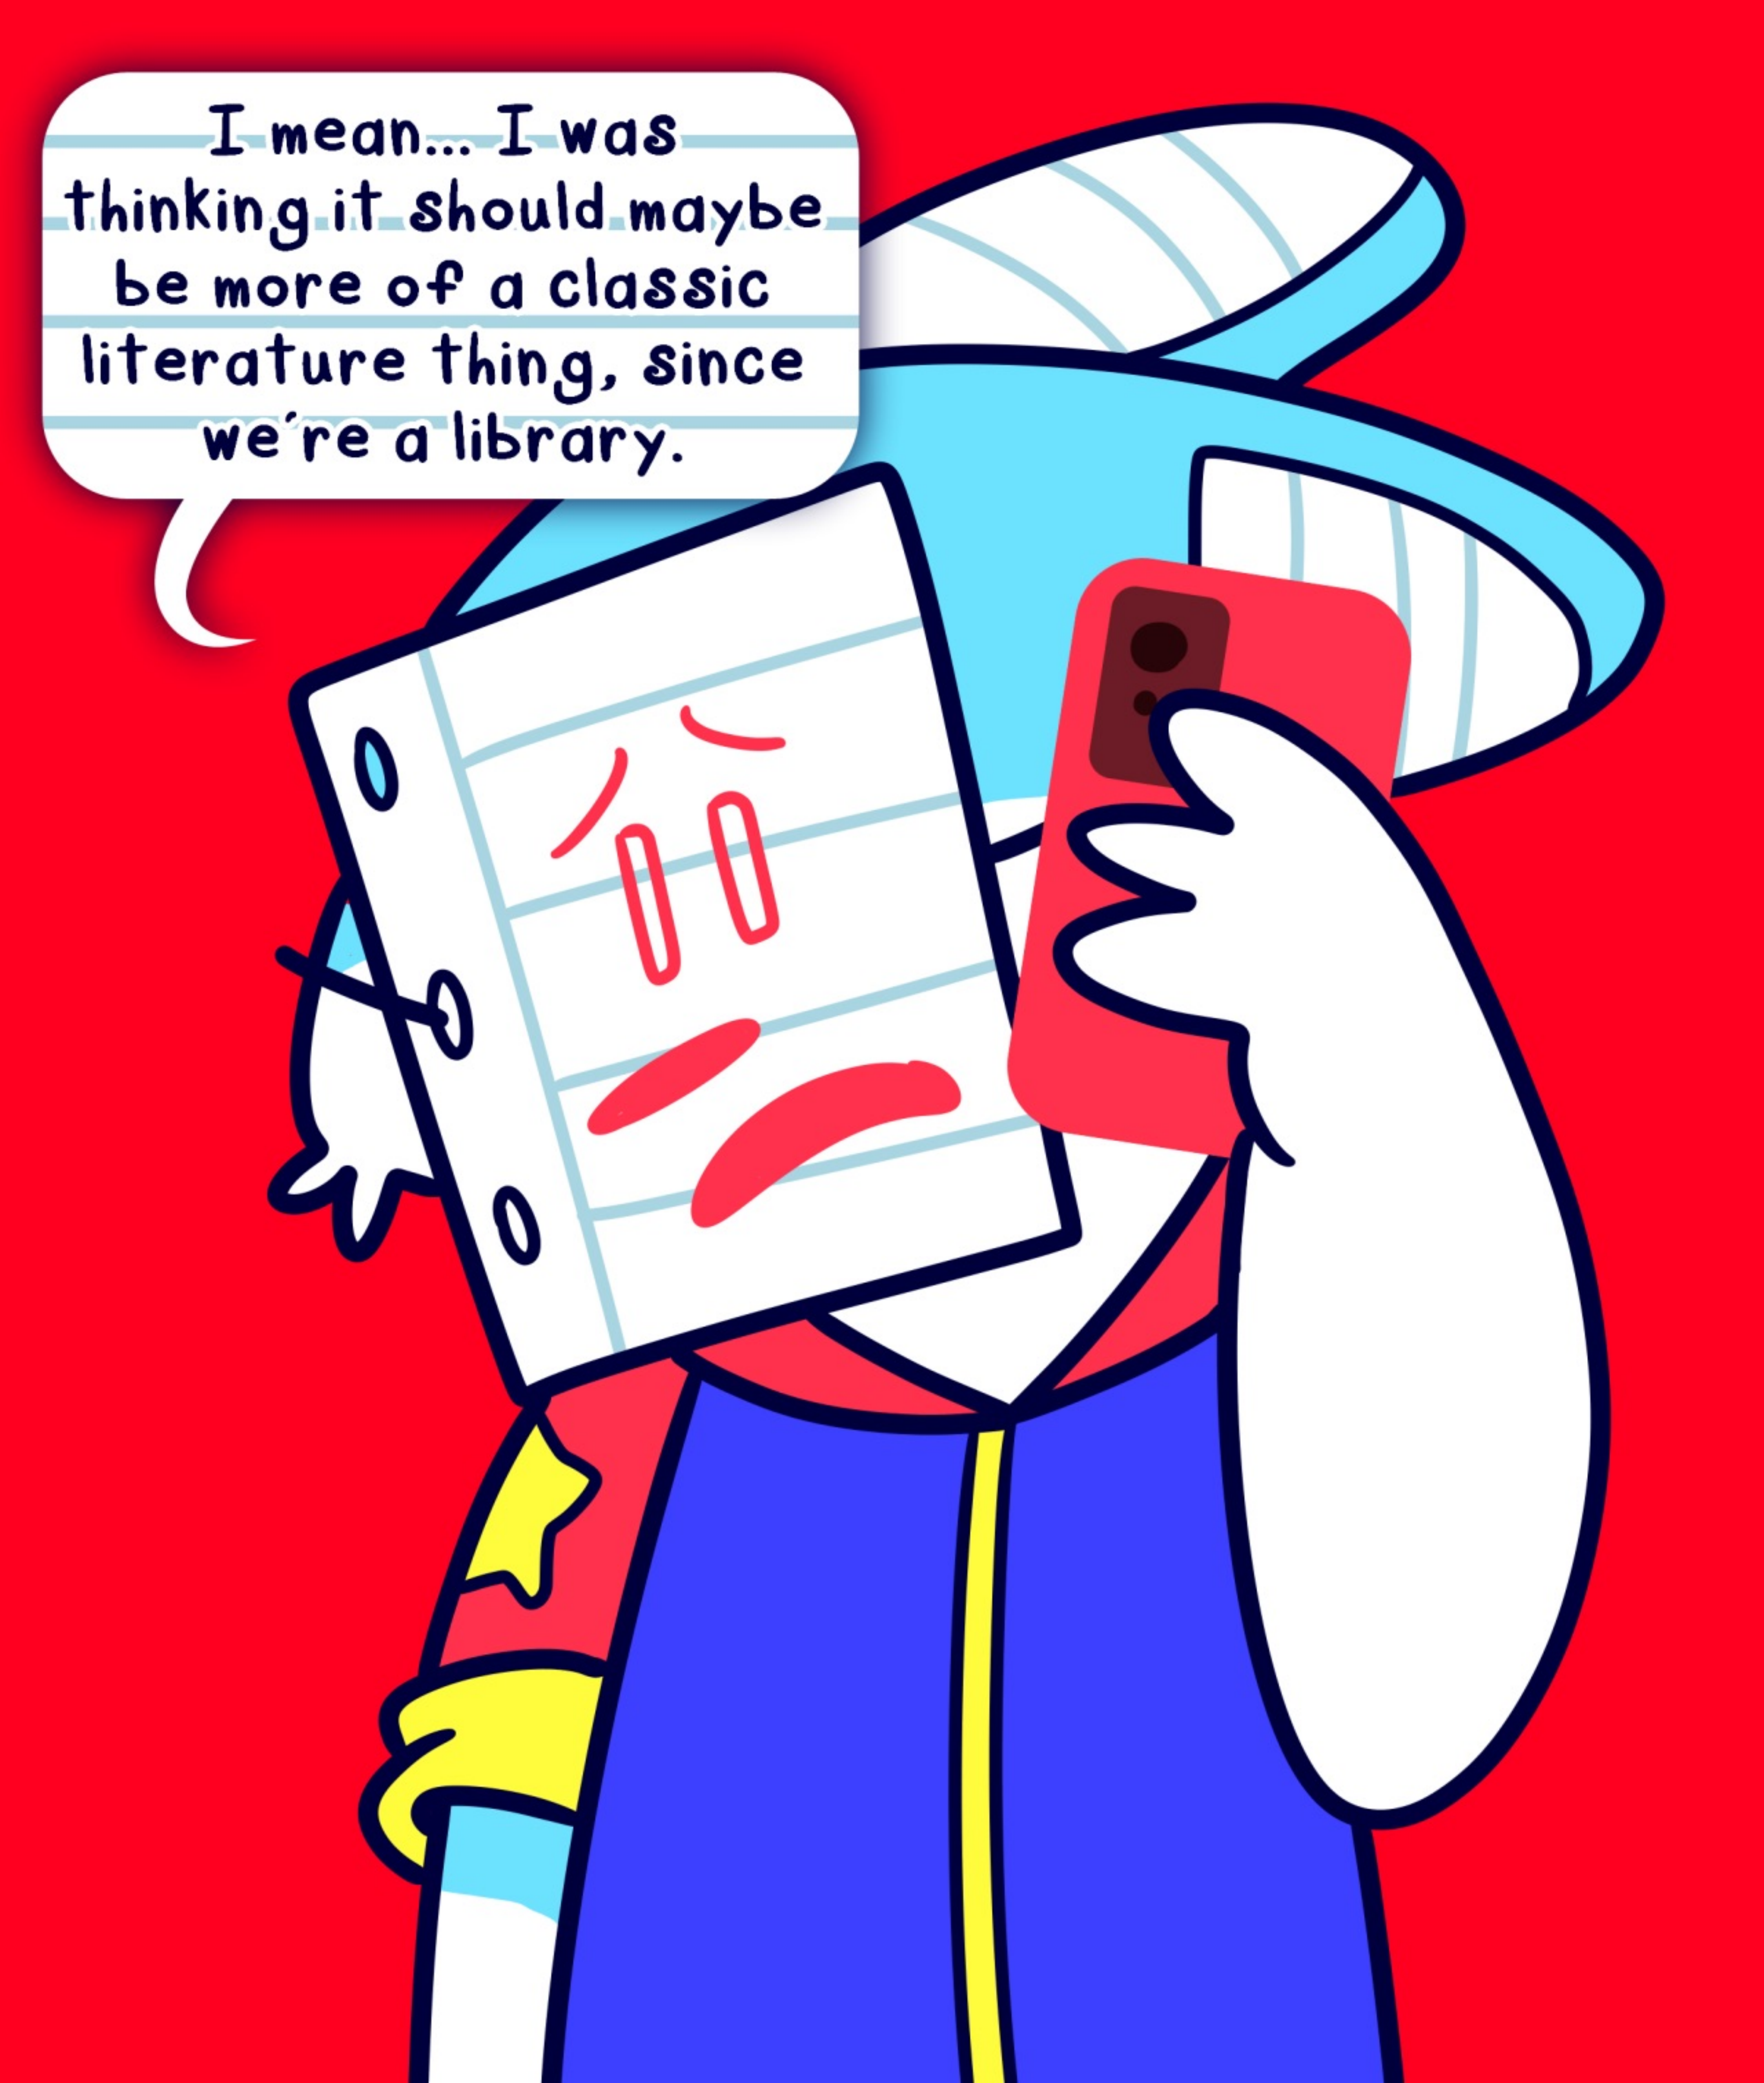
Did you pick out a theme for the event, yet?
U-uh... not yet, no. Should I put a theme on the fliers before I make copies?



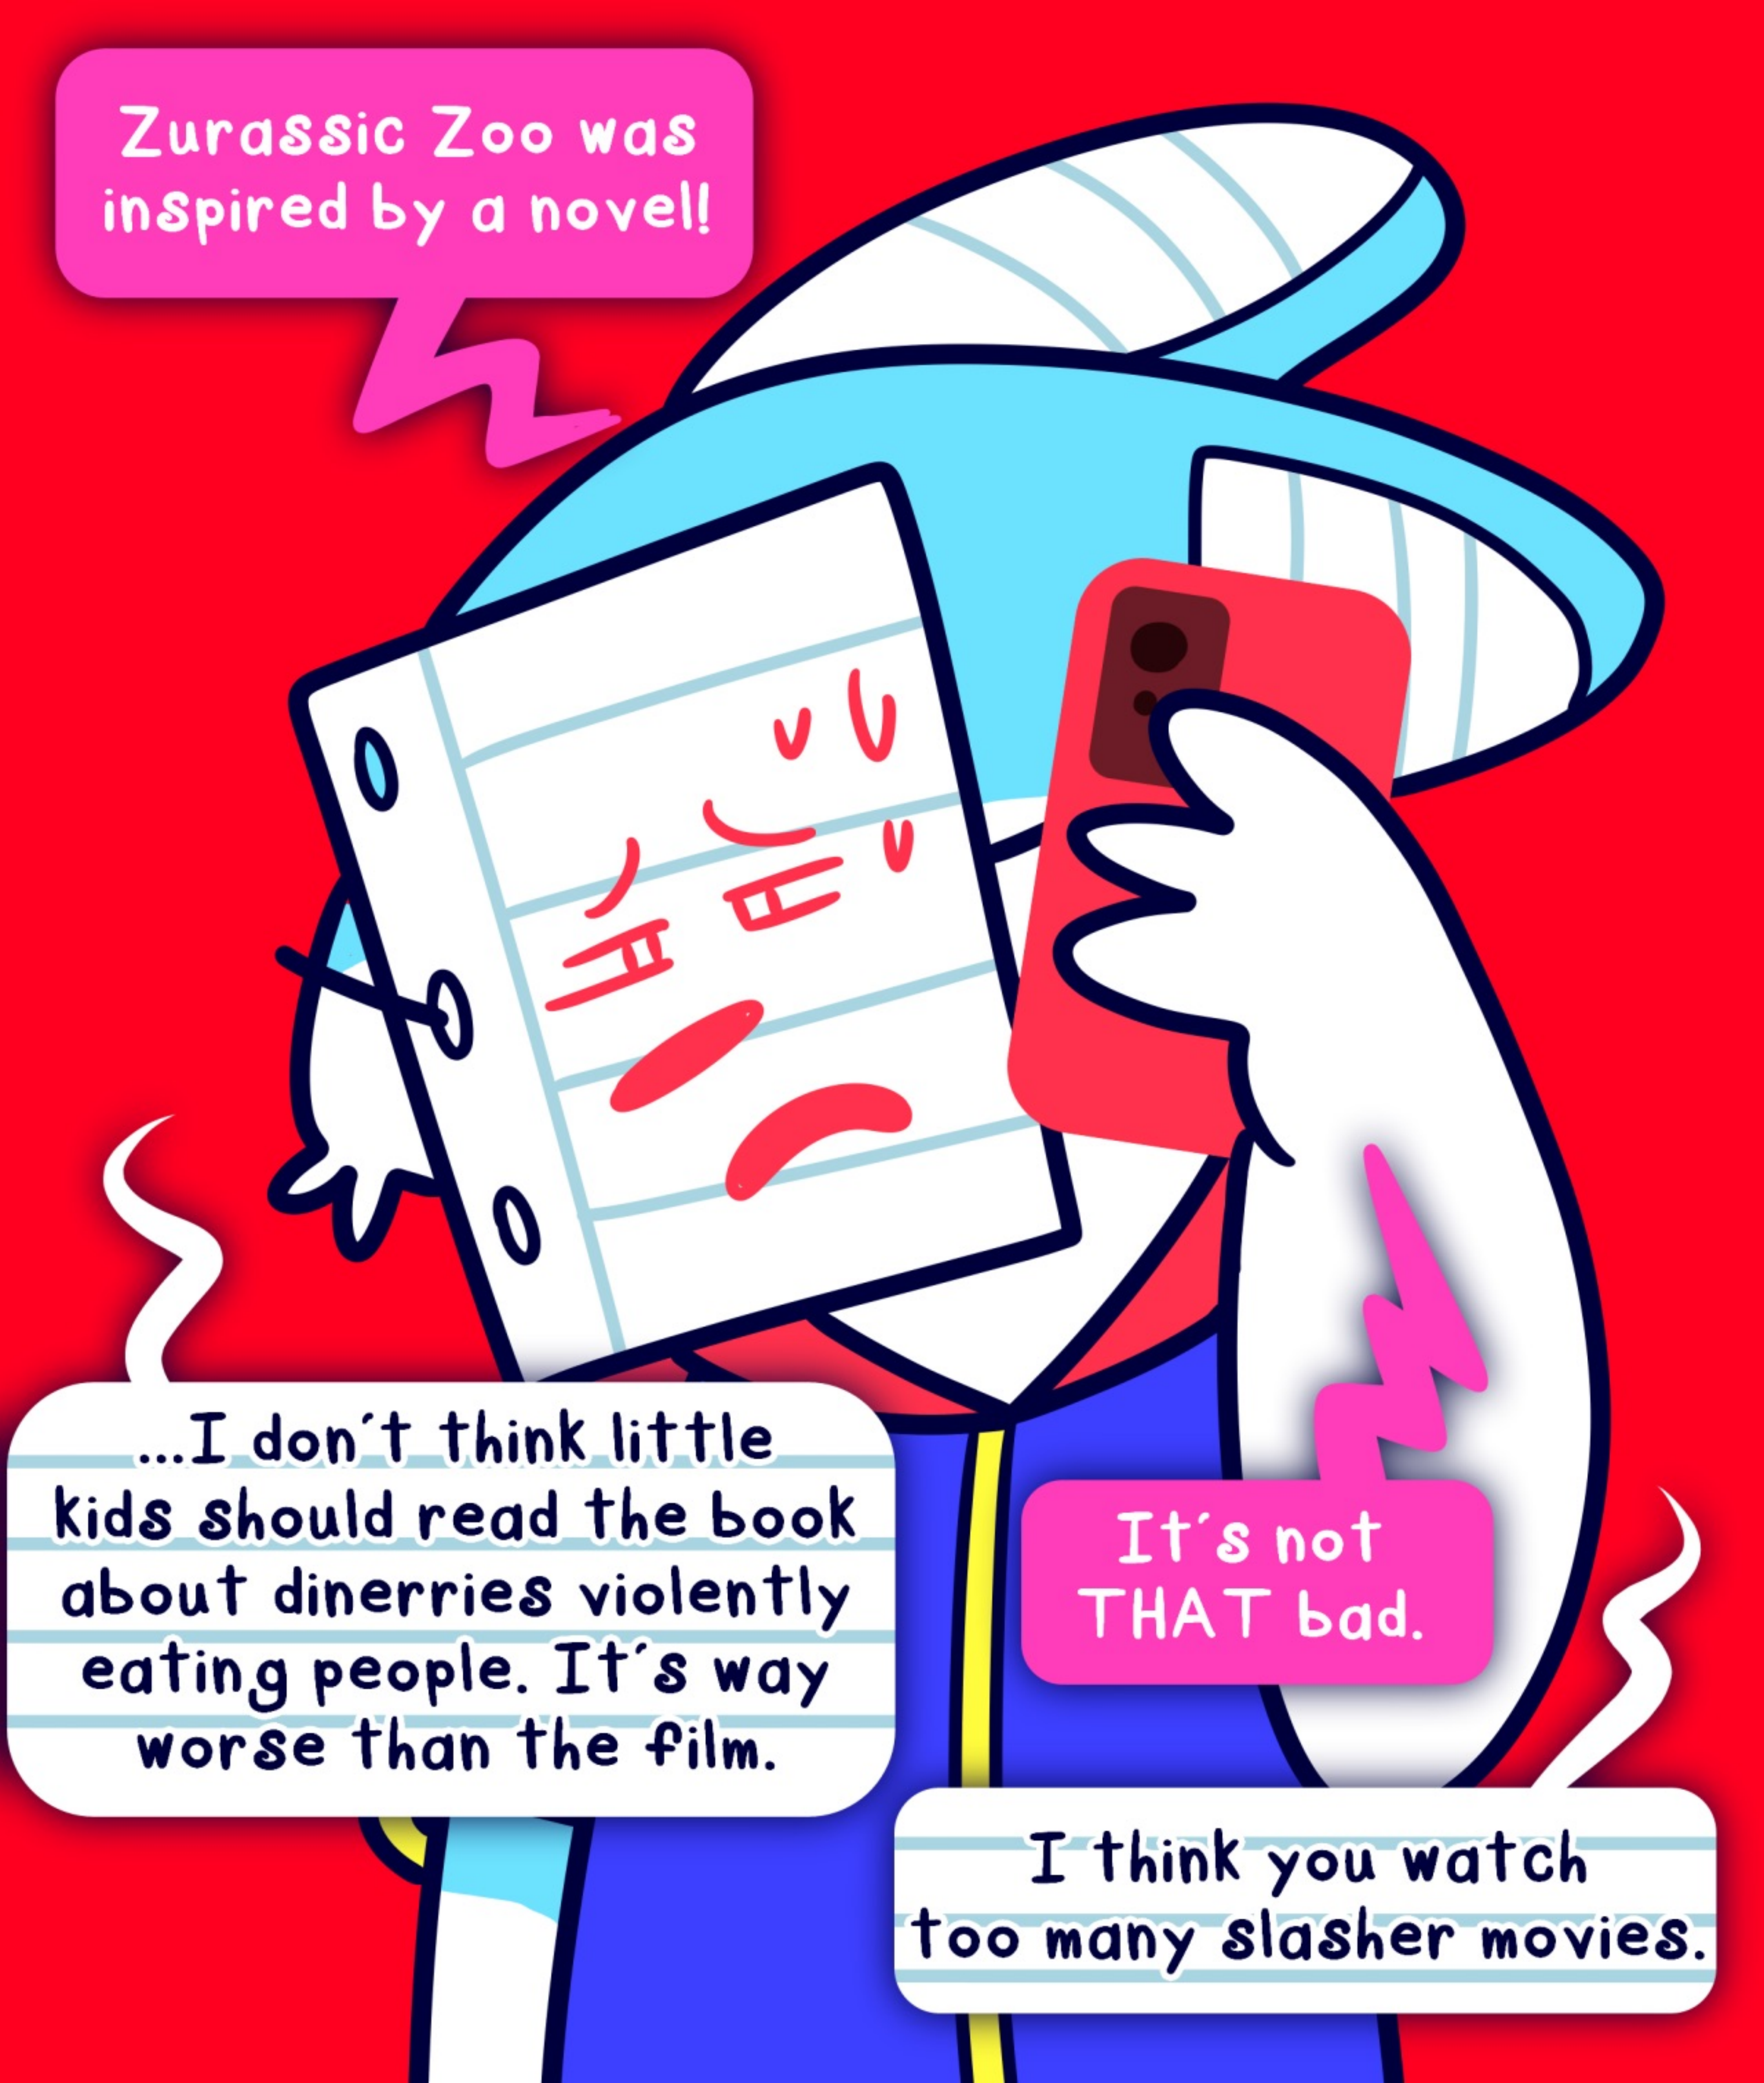
MAKE IT DINERRY THEMED!!!!!!!!!!!!!!
....d-dinerry...
...themed...?



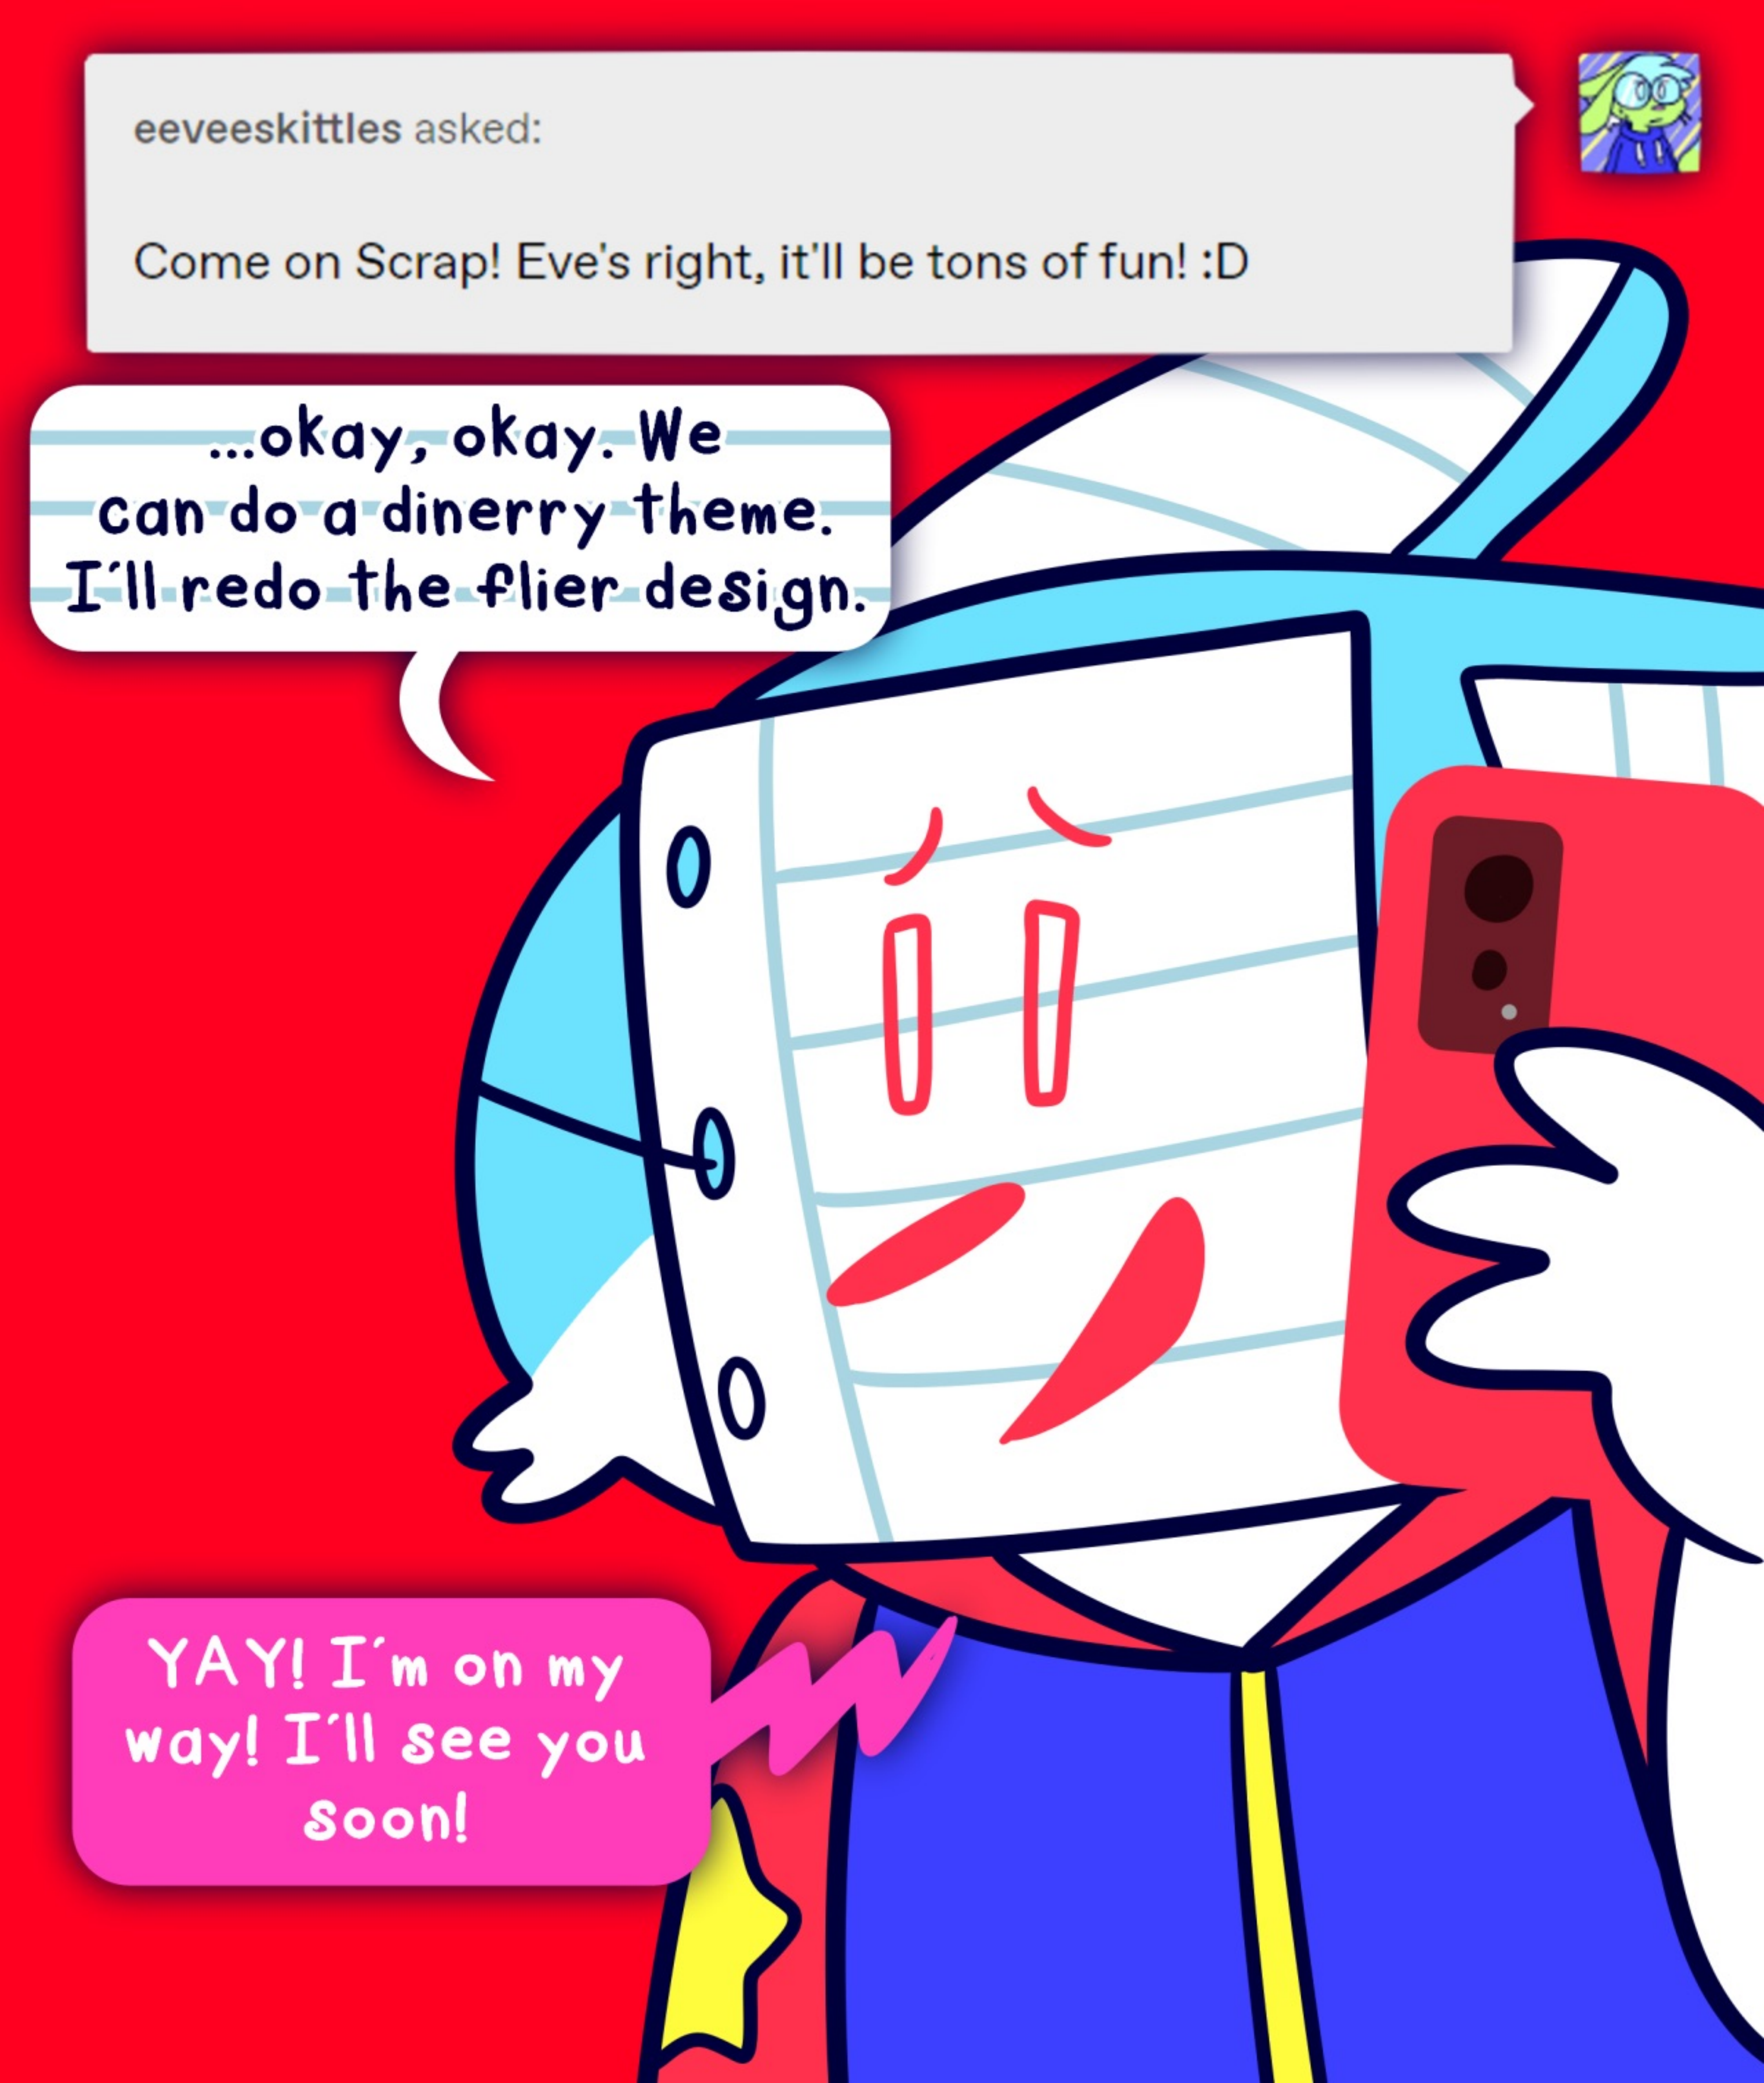
C´mon, Scrap, you know kids love dinerries. Kids would drag their moms to the party and beg for cookies that look like little dinerry eggs. It´s perfect!



I mean... I was thinking it should maybe be more of a classic literature thing, since we're a library.



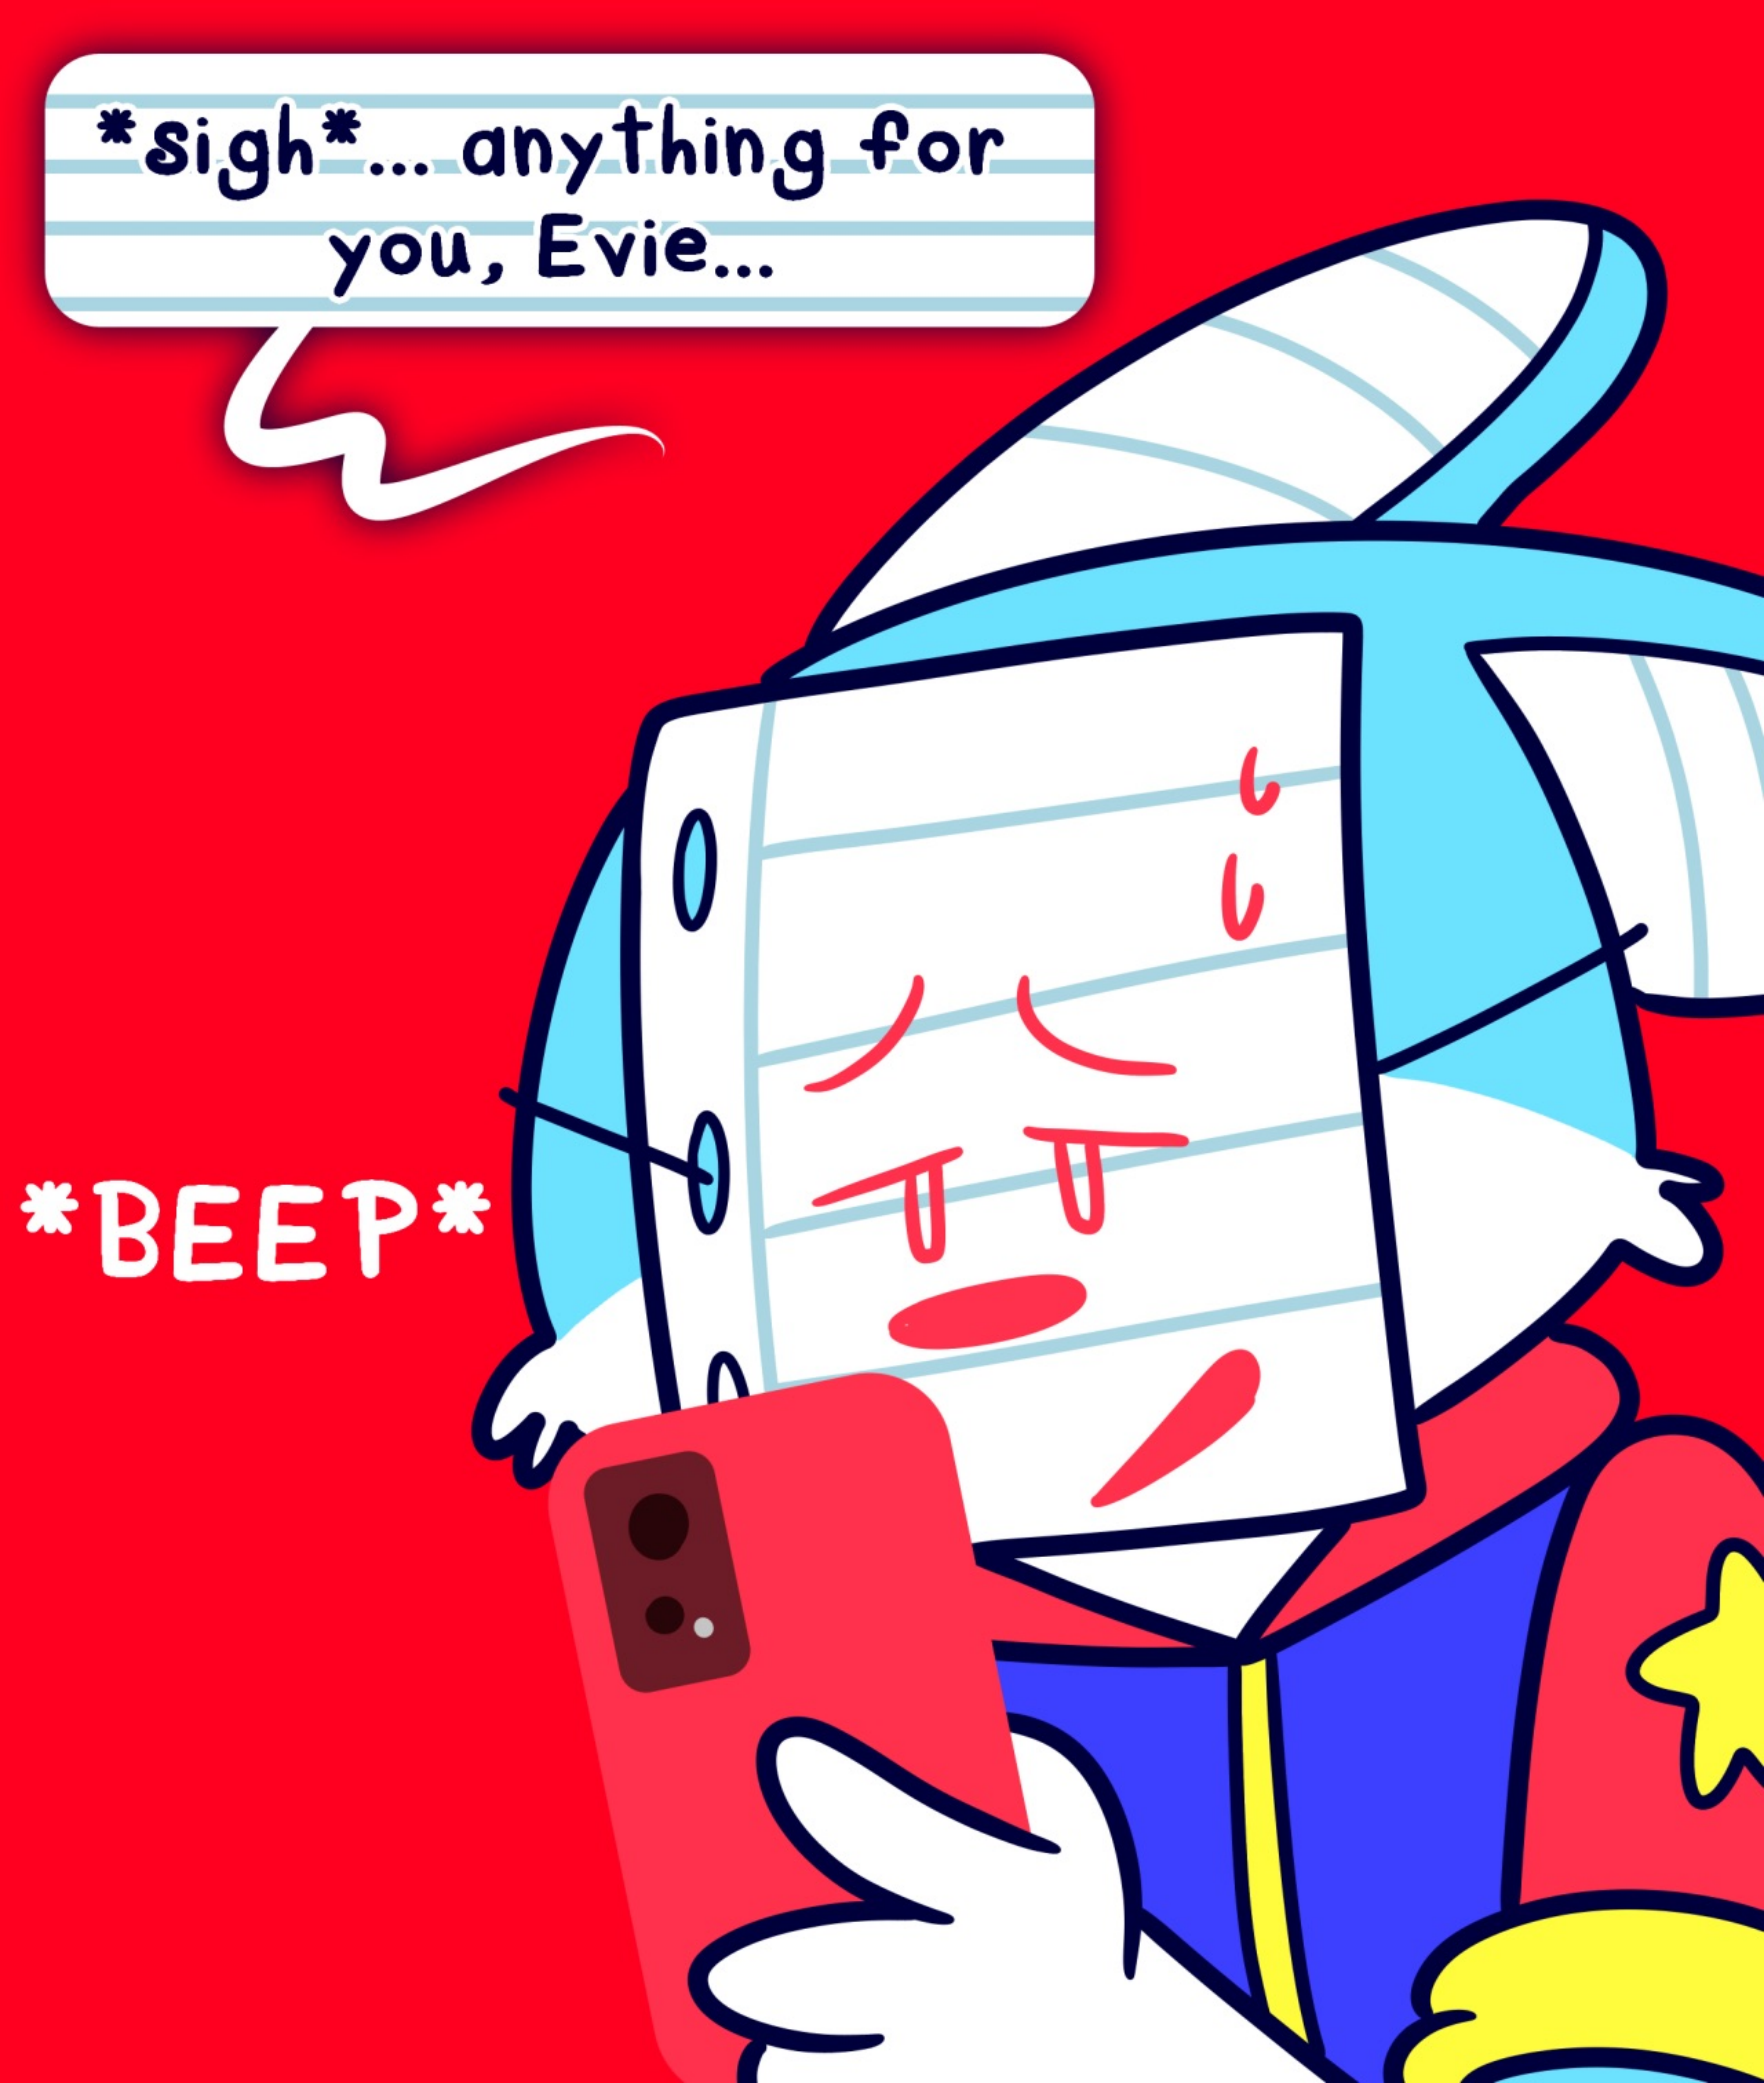
Zurassic Zoo was inspired by a novel!
...I don't think little kids should read the book about dinerries violently eating people. It's way worse than the film.
It's not THAT bad.
I think you watch too many slasher movies.



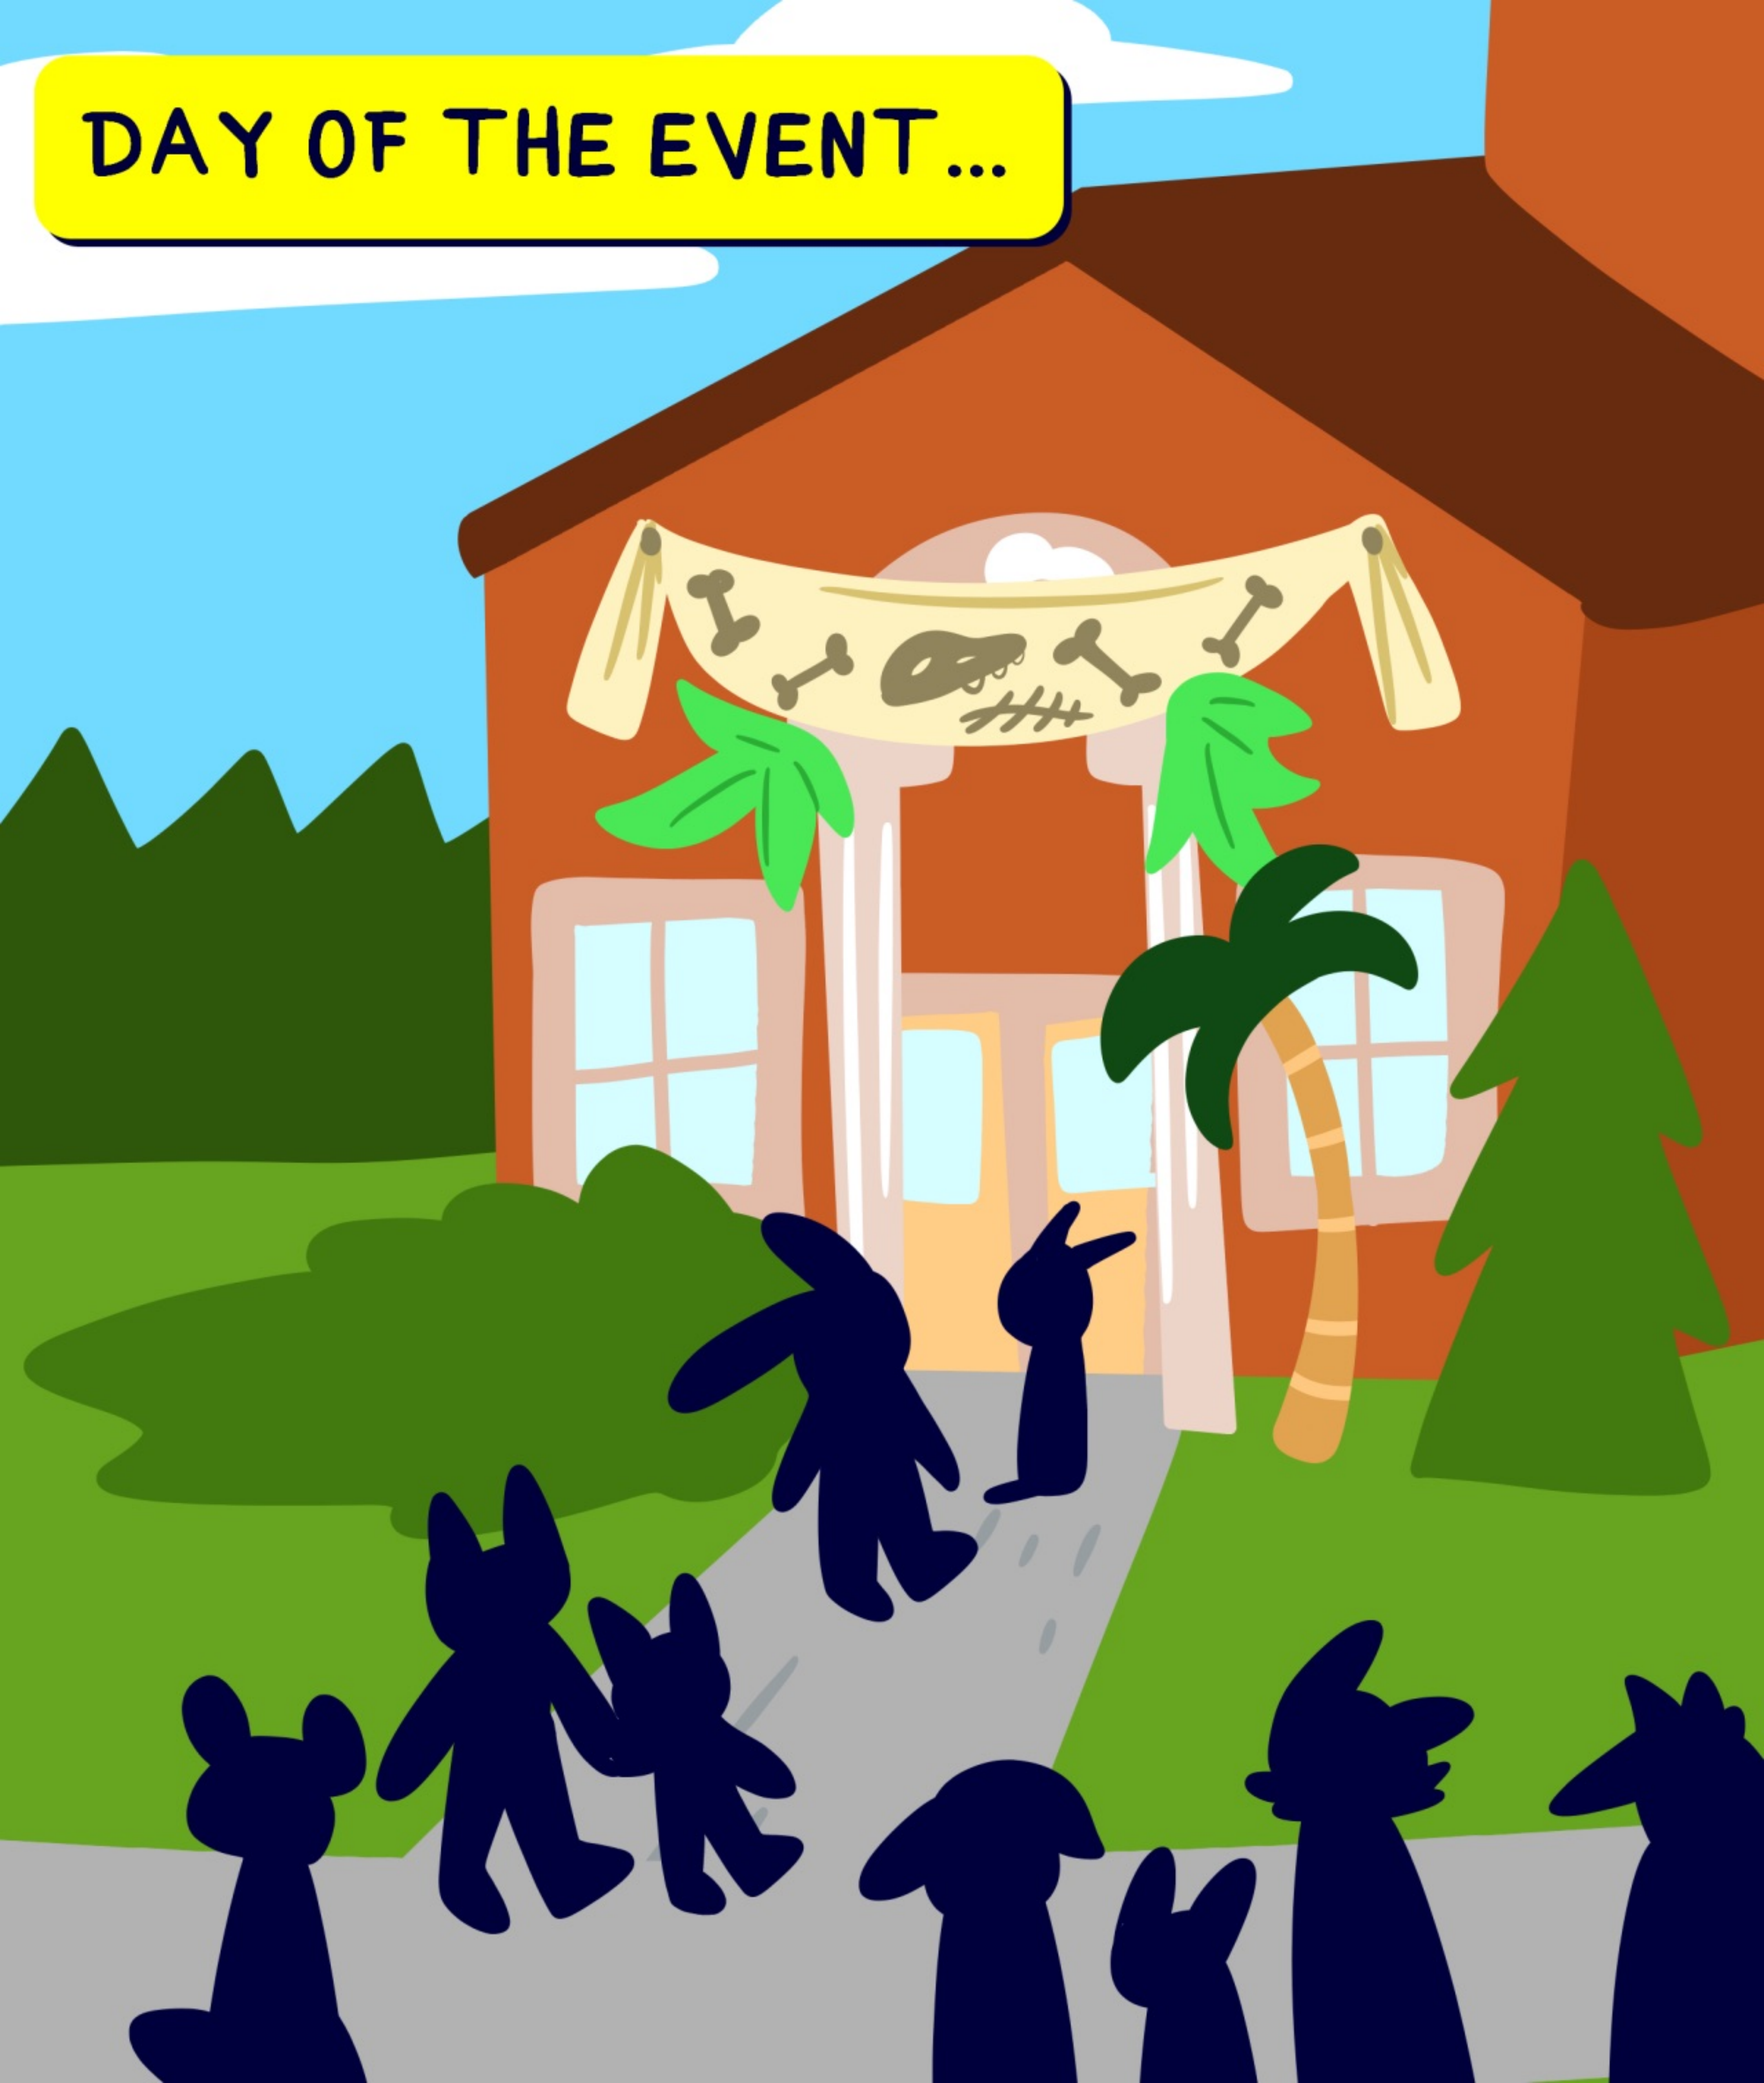
eeveeskittles asked:

Come on Scrap! Eve's right, it'll be tons of fun! :D

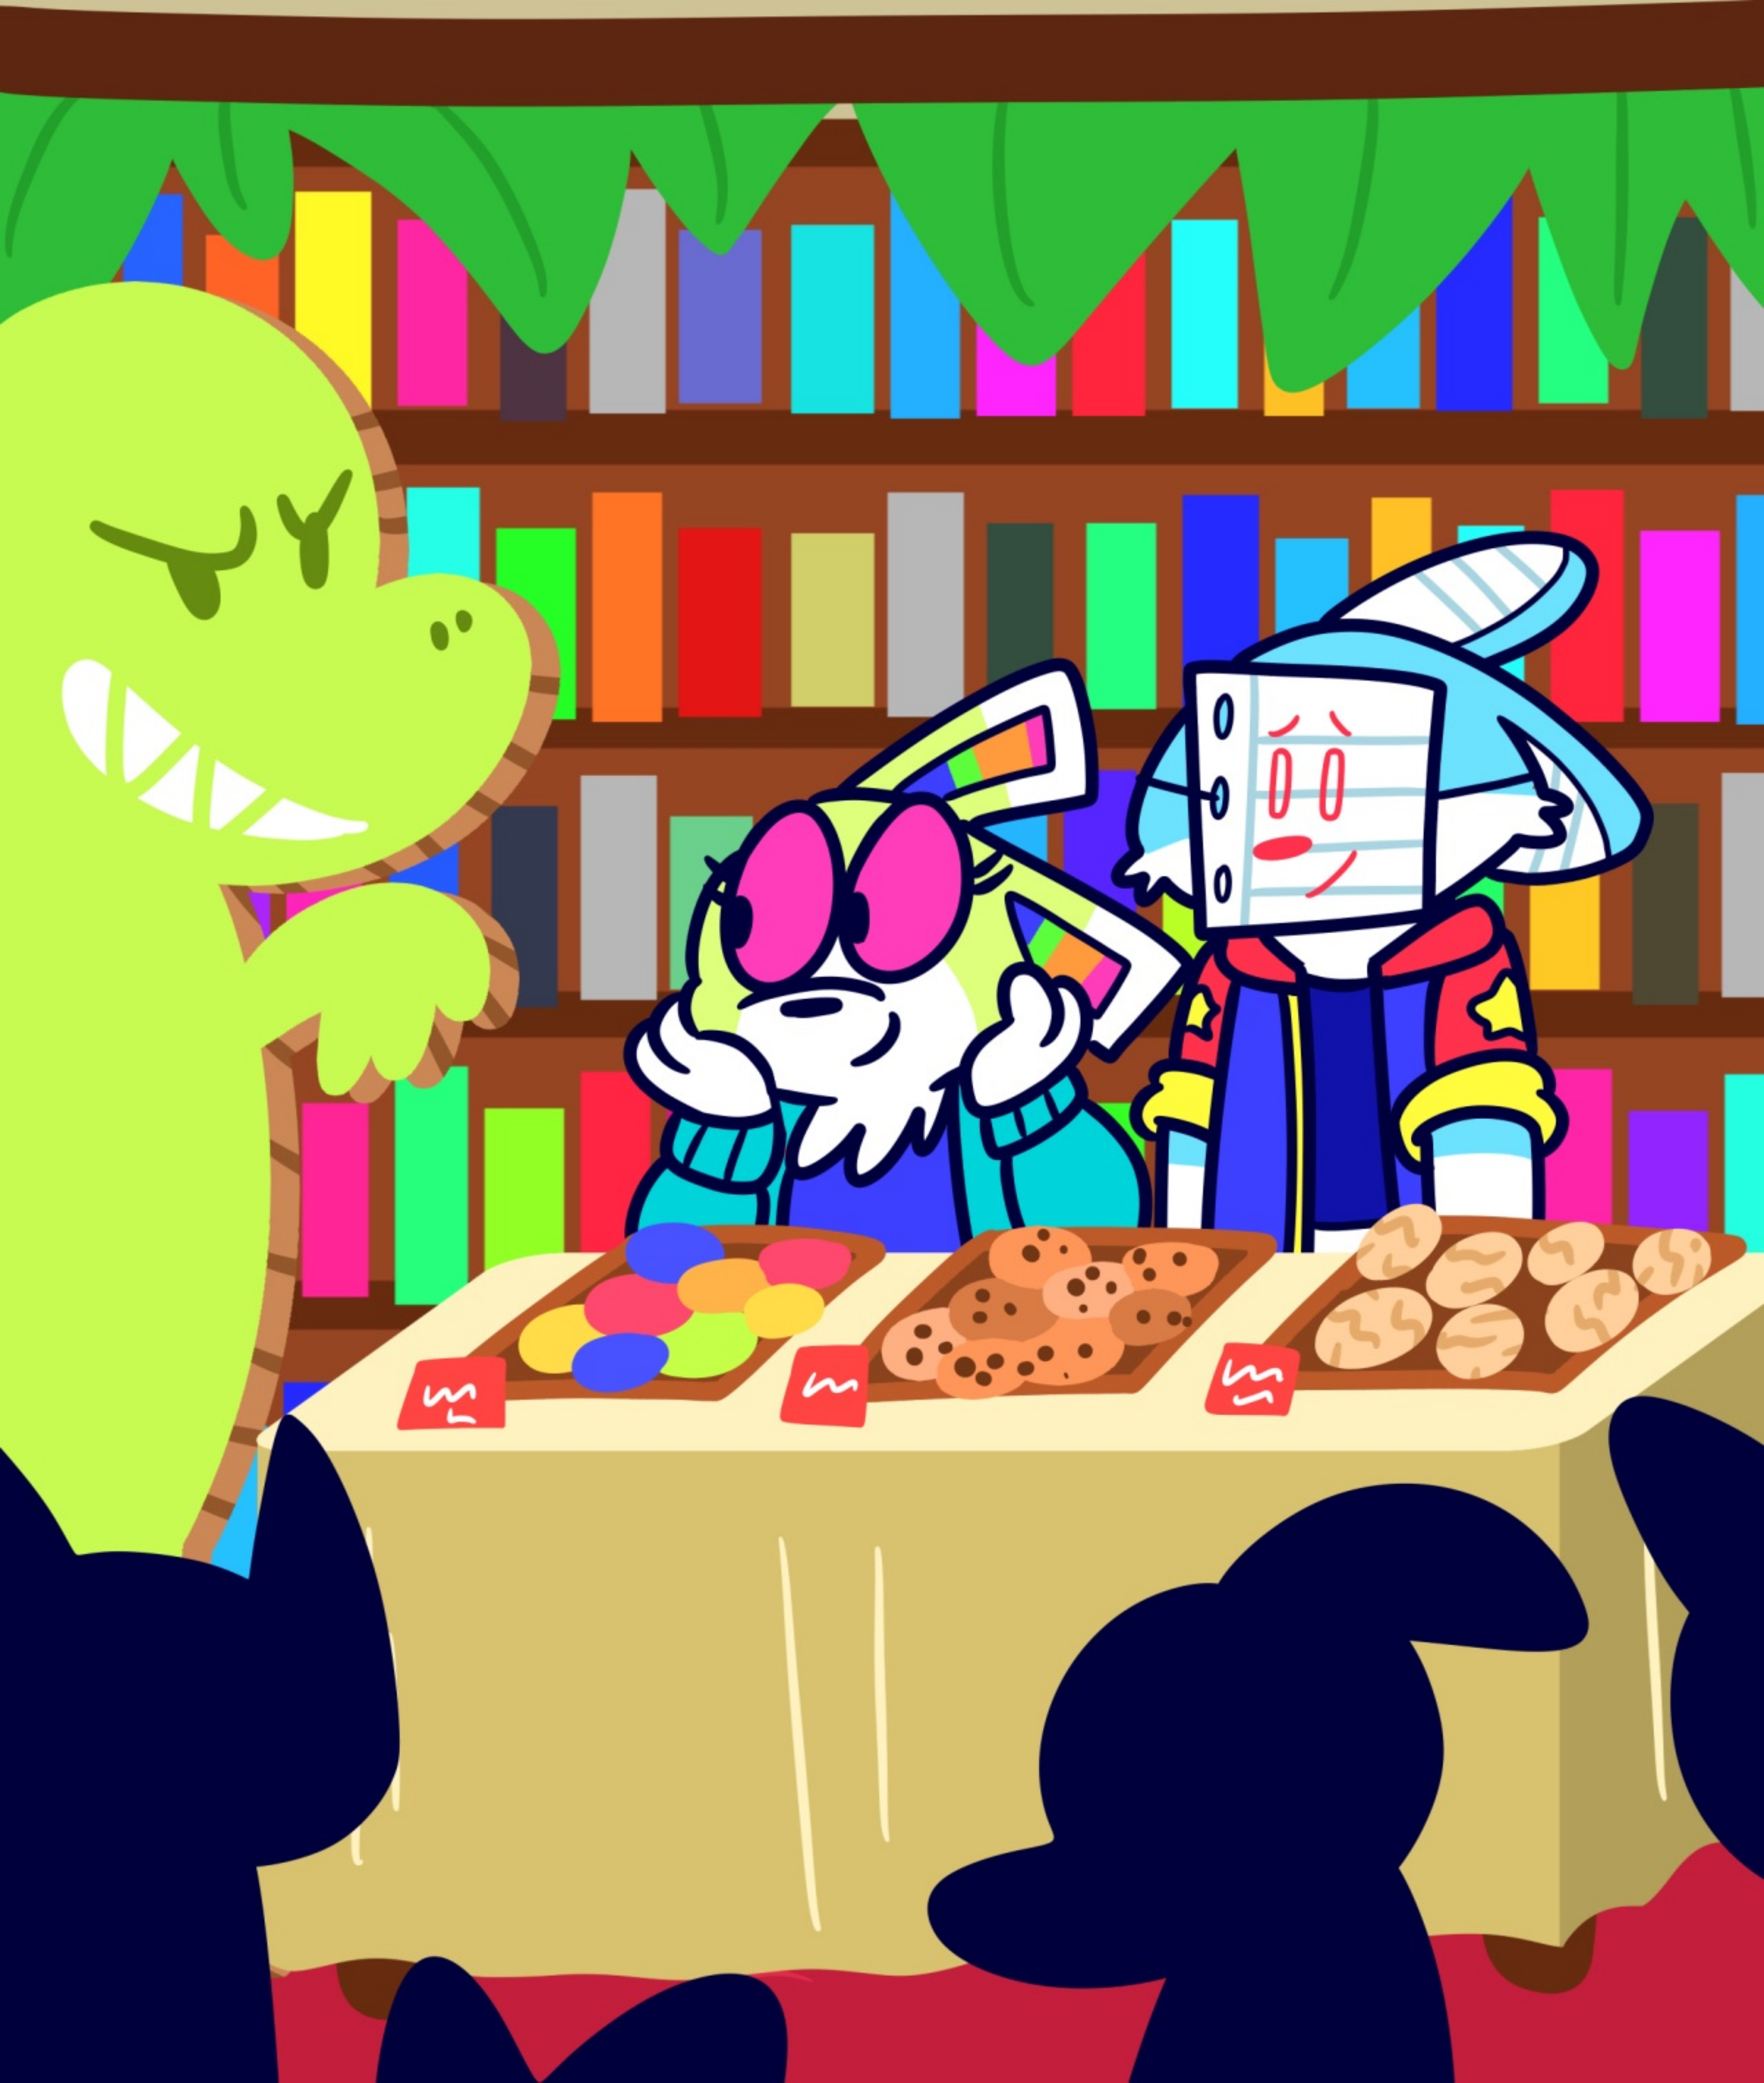
...okay, okay. We can do a dinerry theme. I'll redo the flier design.
YAY! I'm on my way! I'll see you soon!

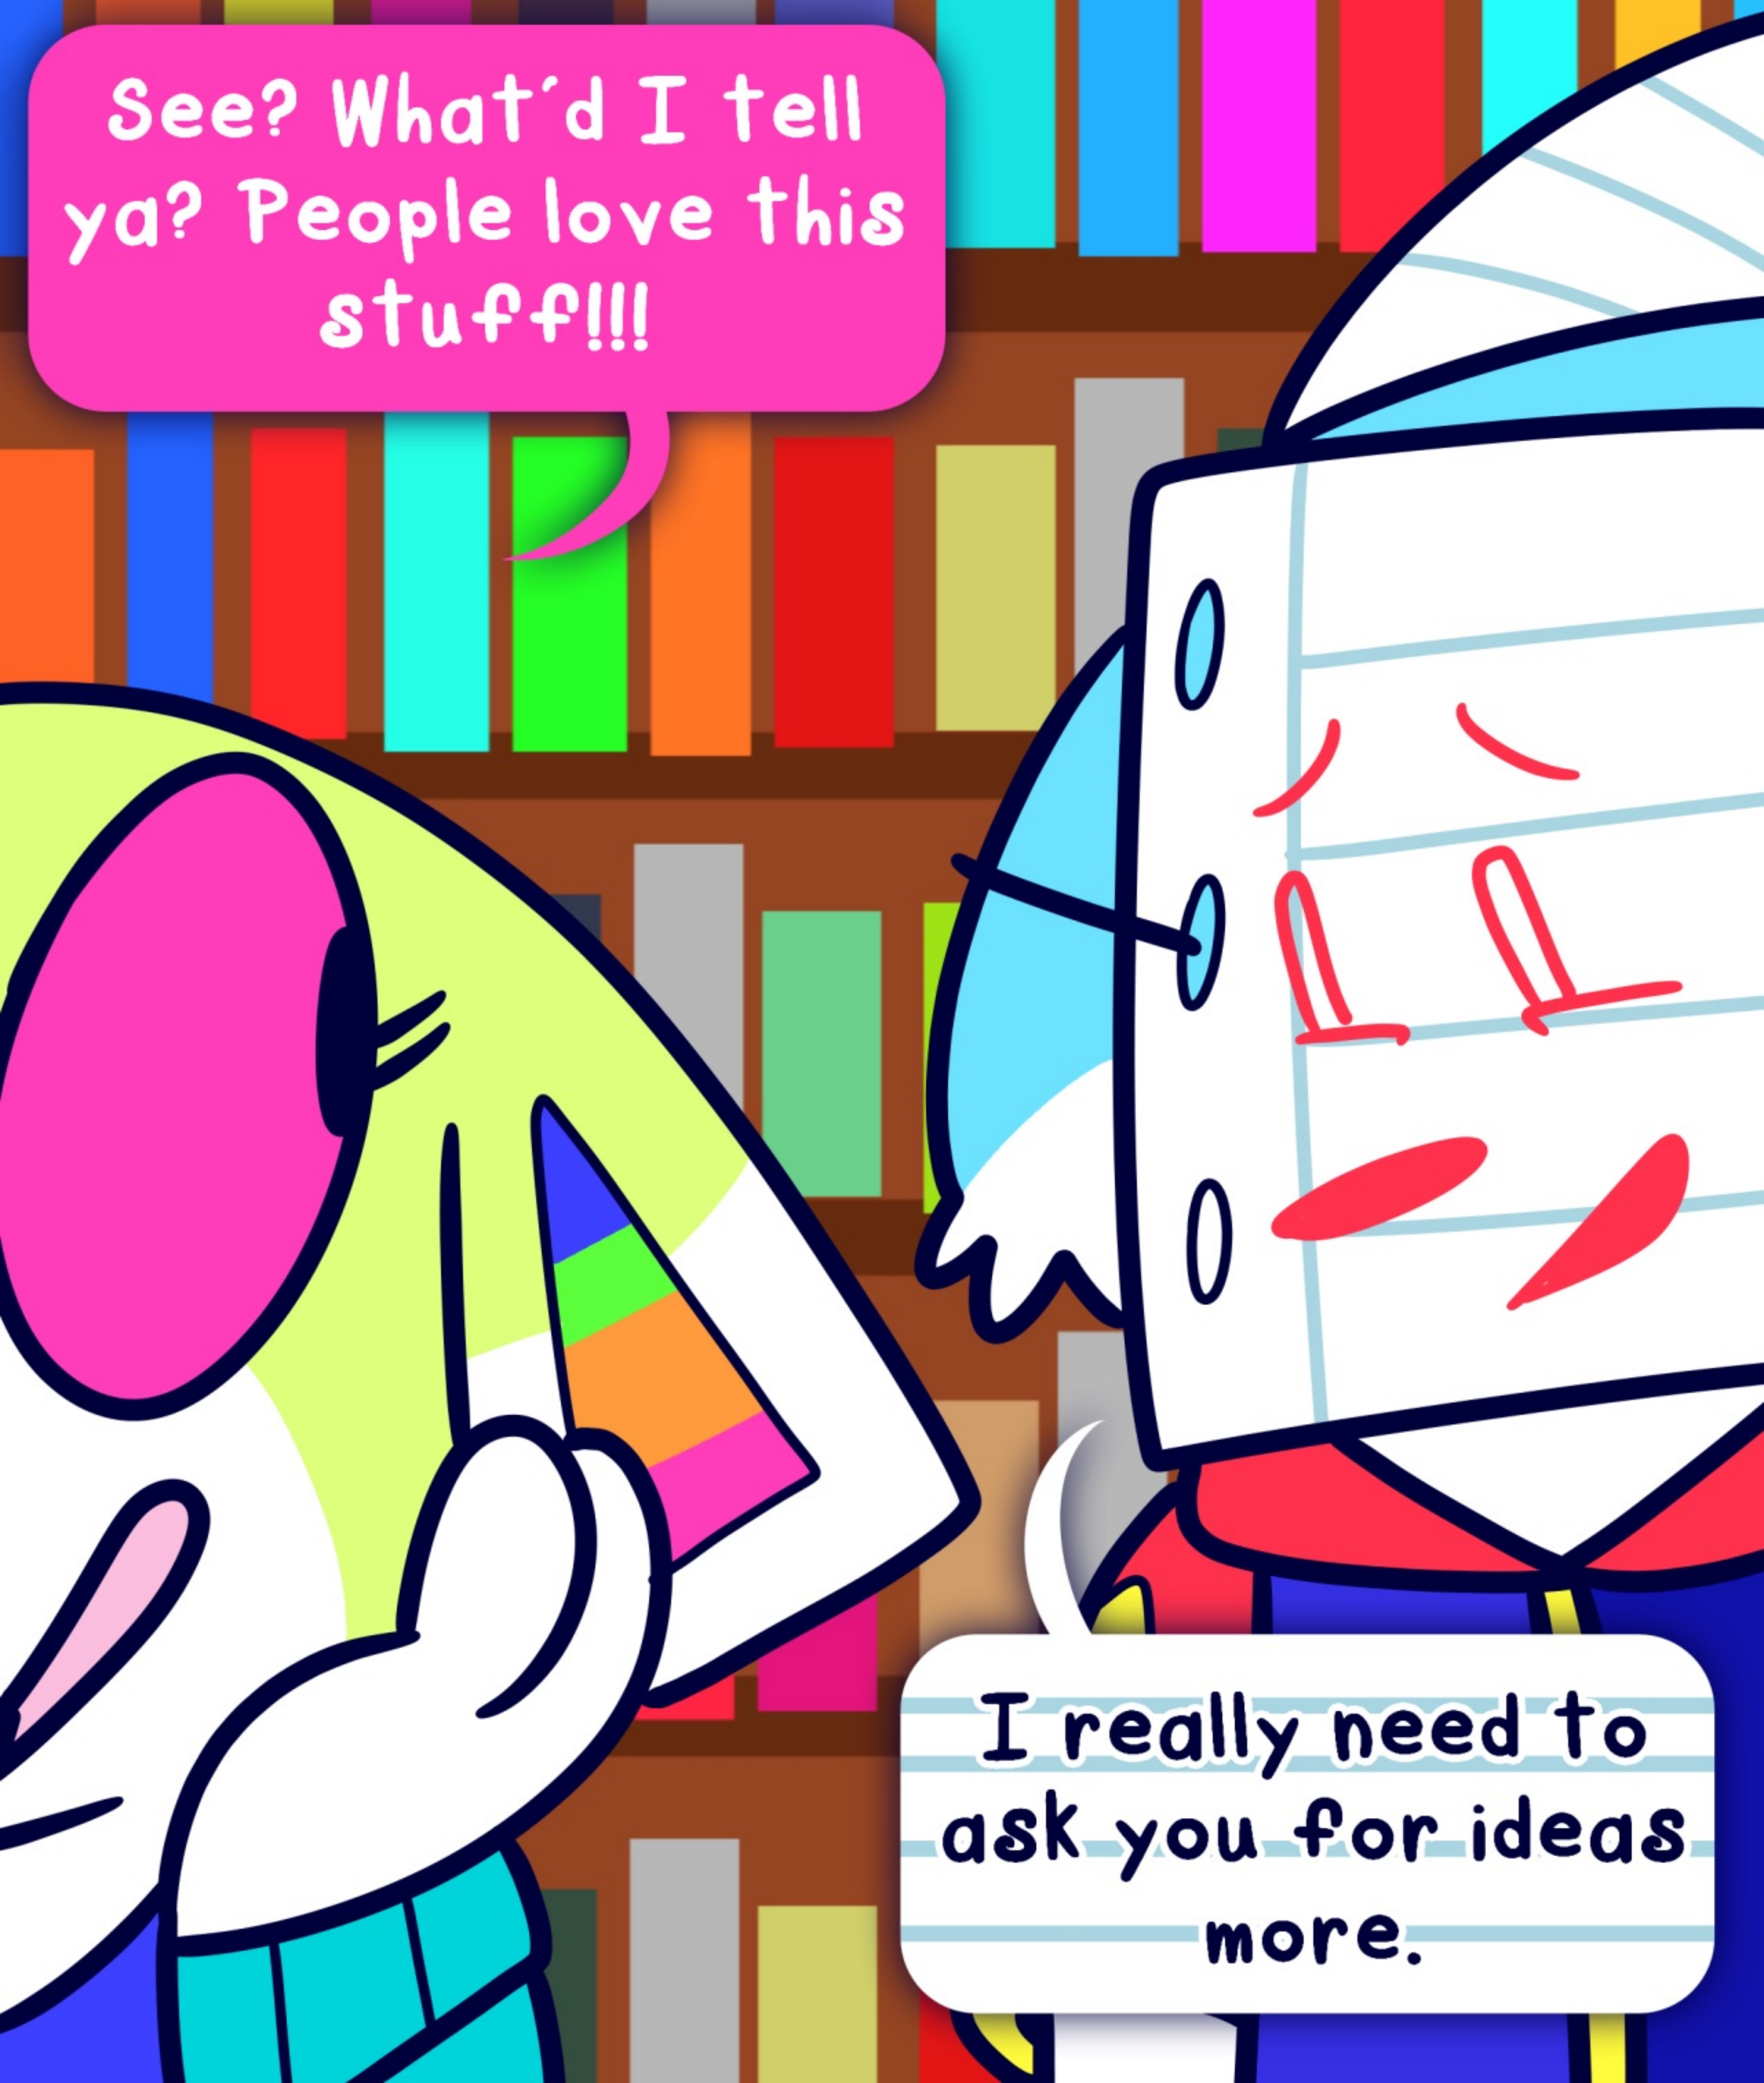


sigh... anything for you, Evie...
BEEP

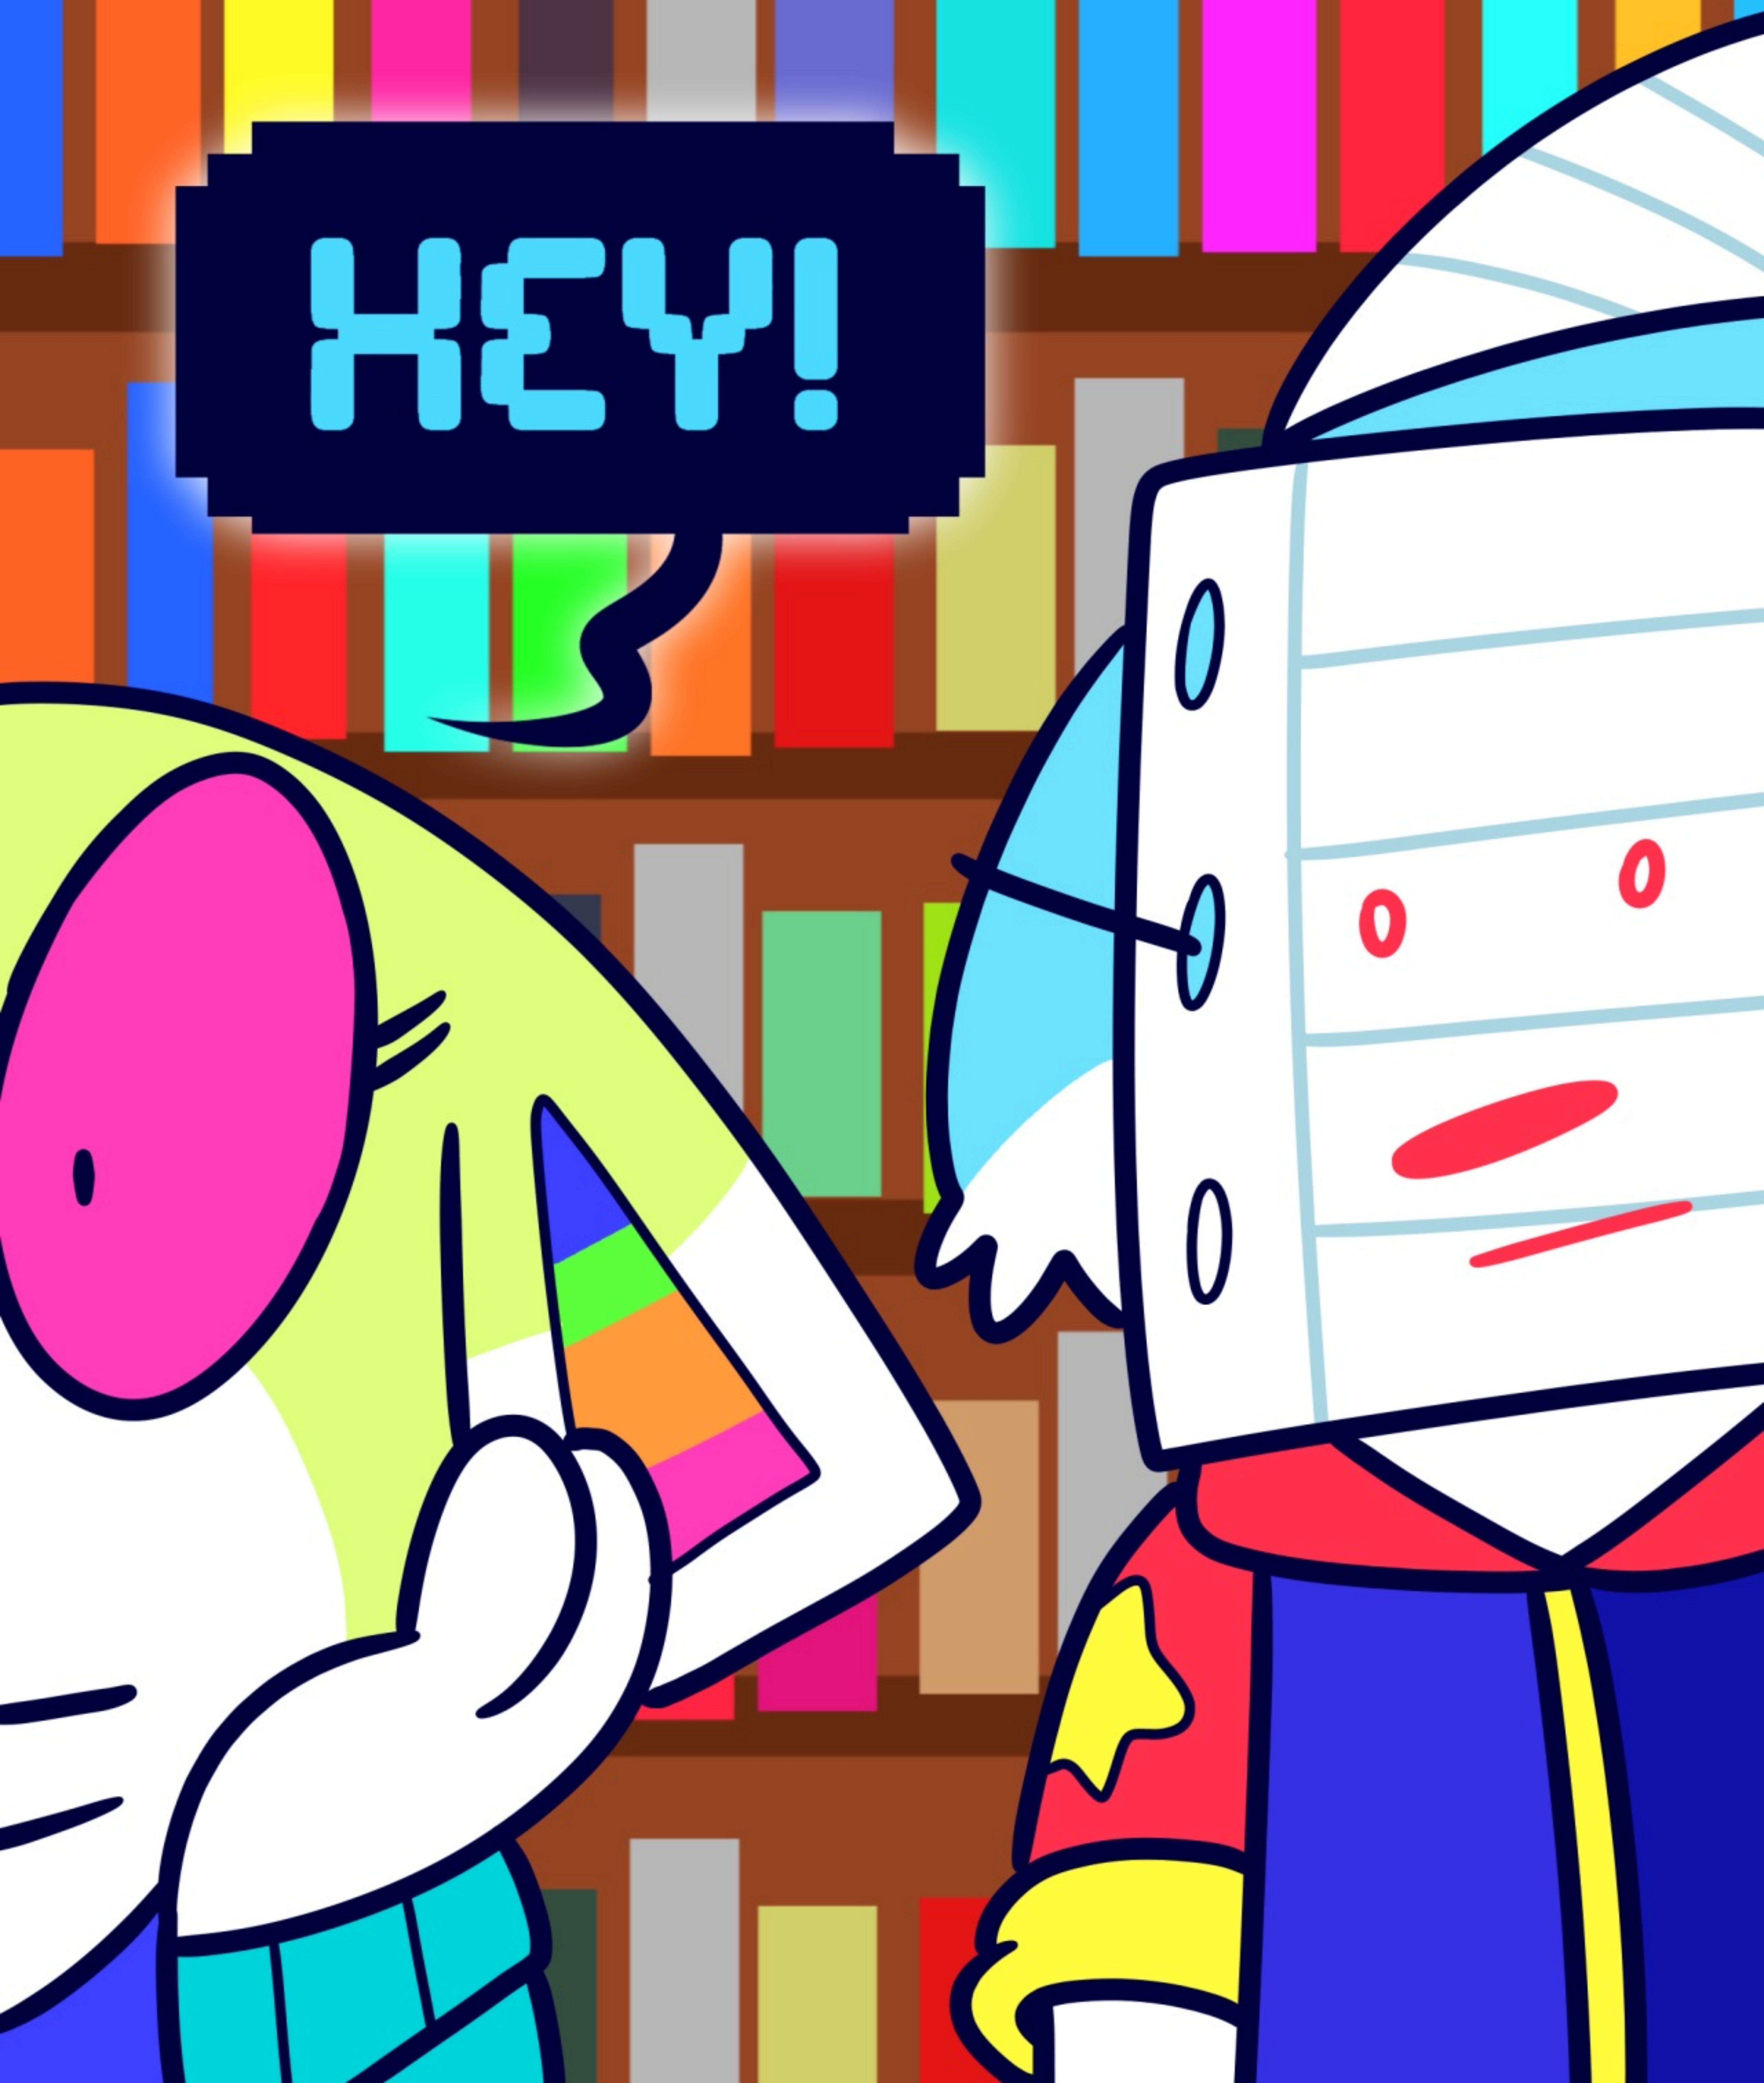


DAY OF THE EVENT...

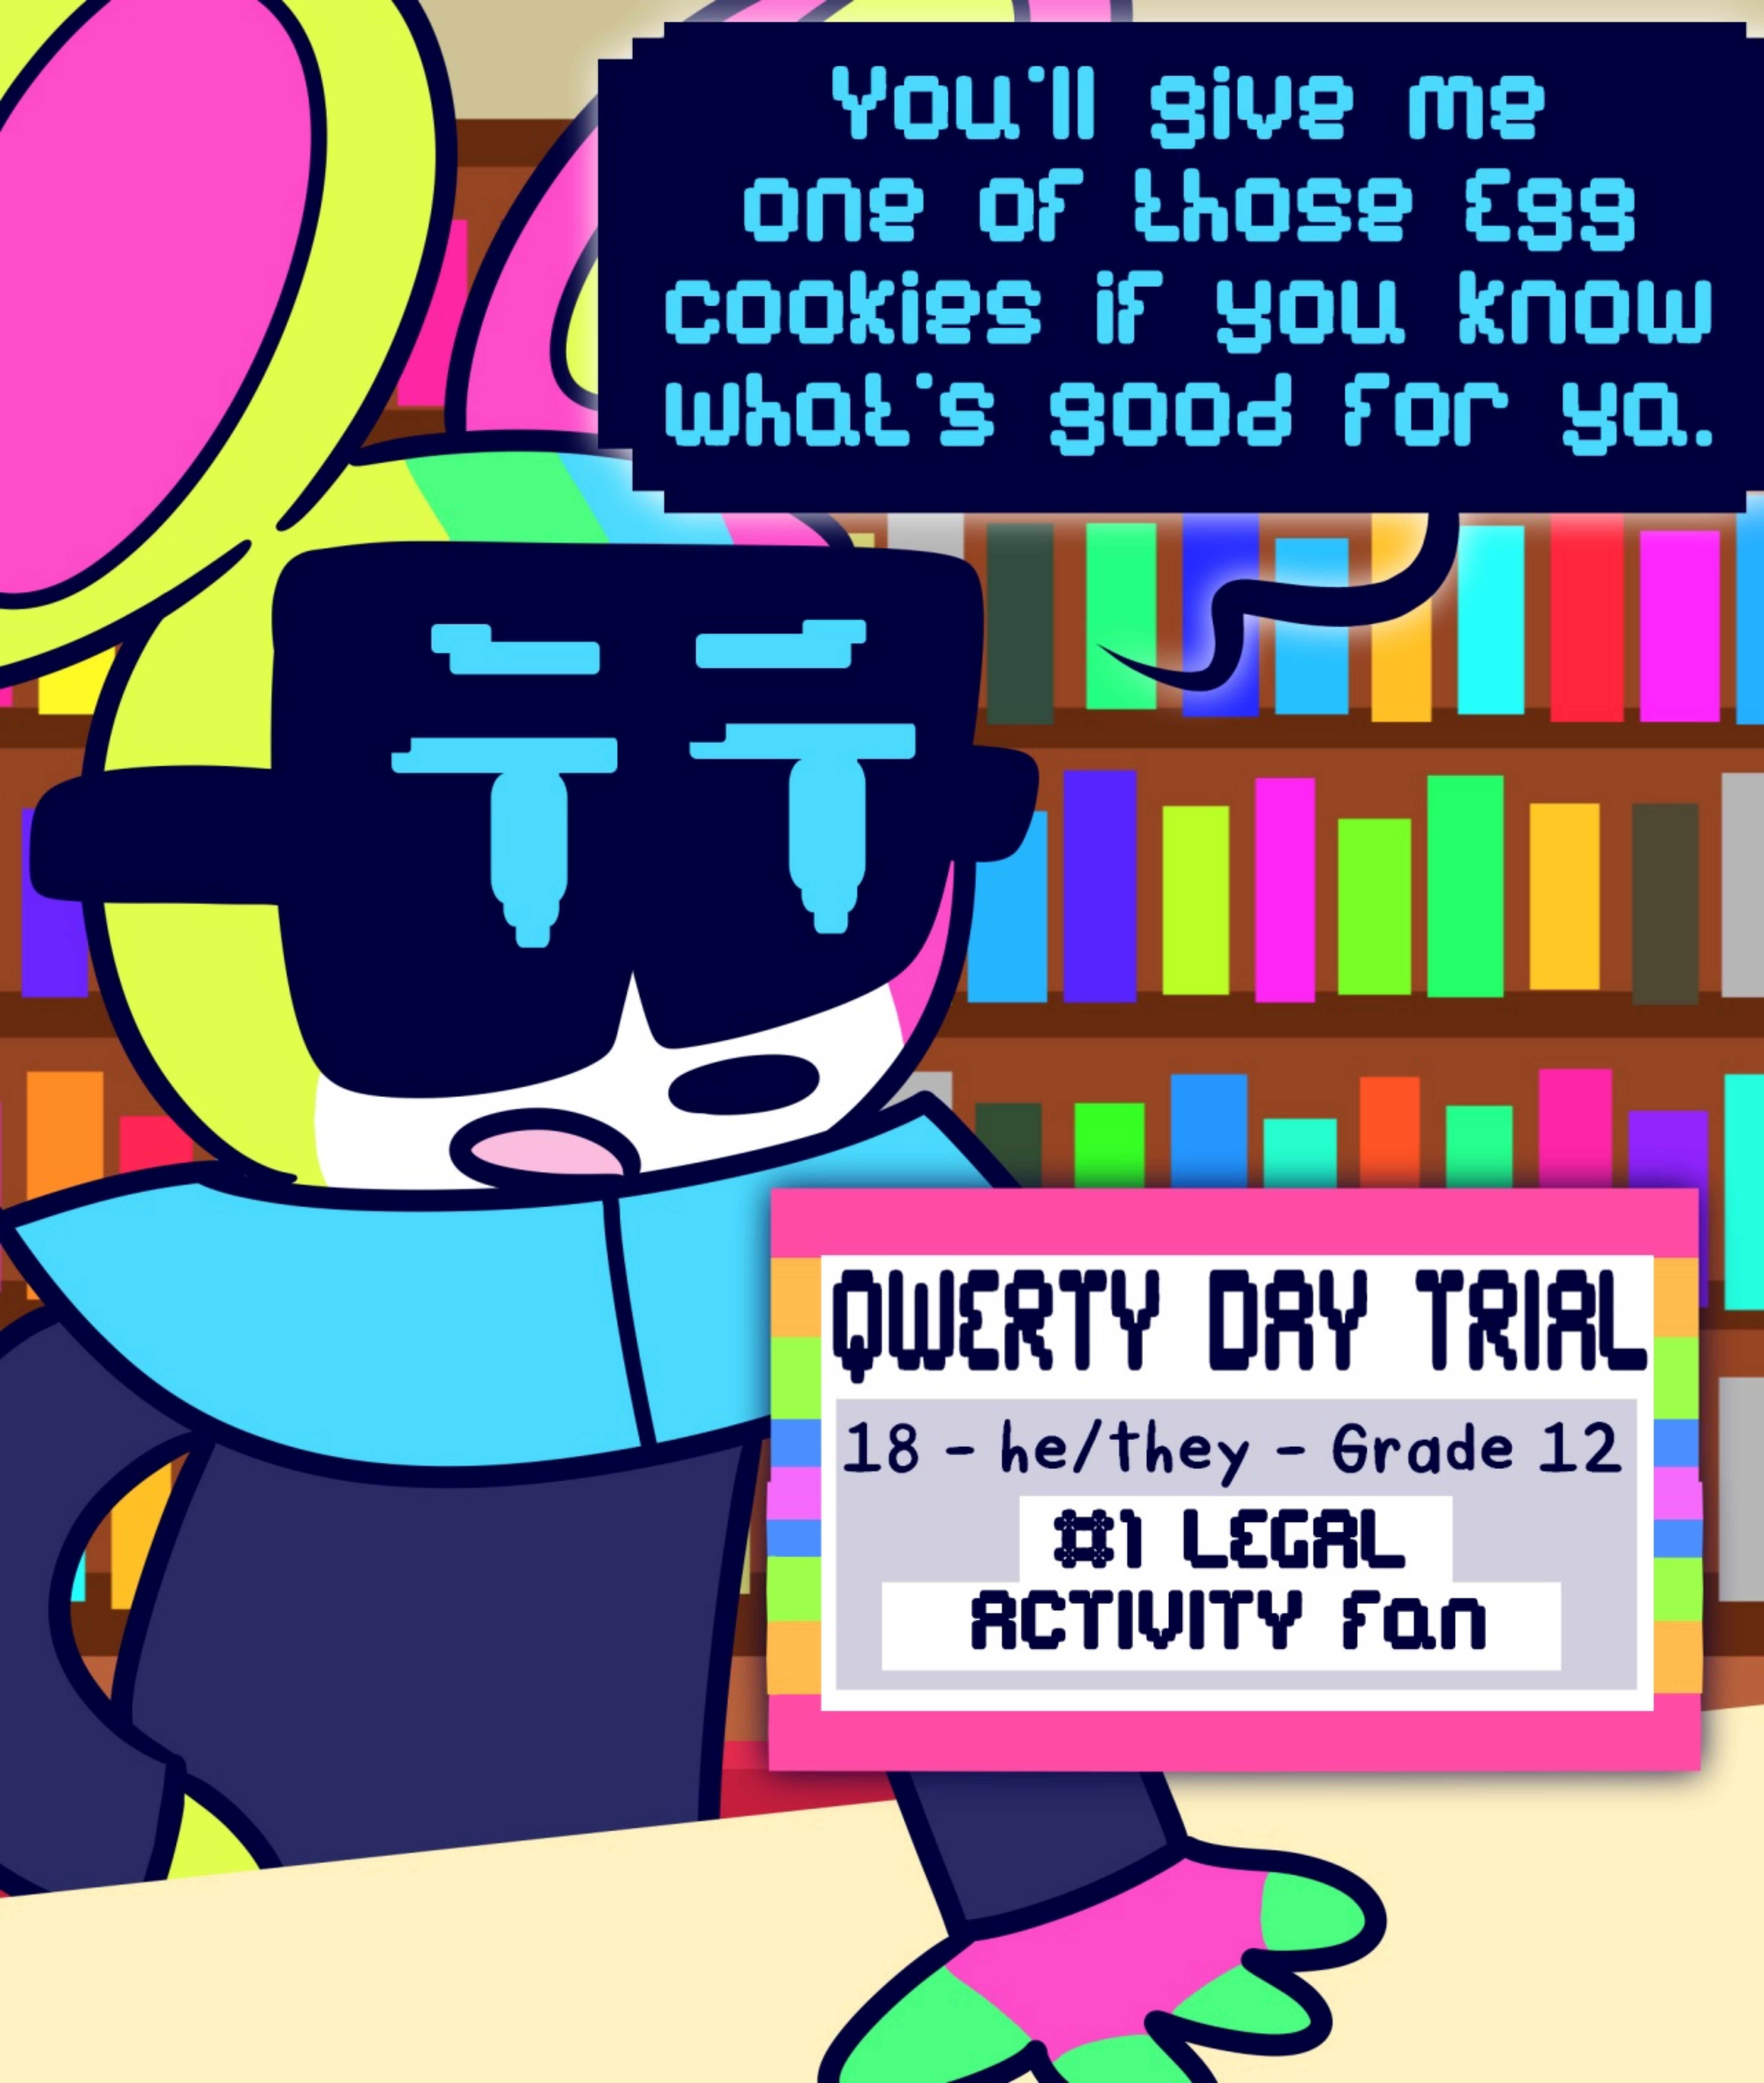




See? What'd I tell ya? People love this stuff!!!
I really need to ask you for ideas more.



HEY!



You'll give me one of those Egg cookies if you know what's good for ya.

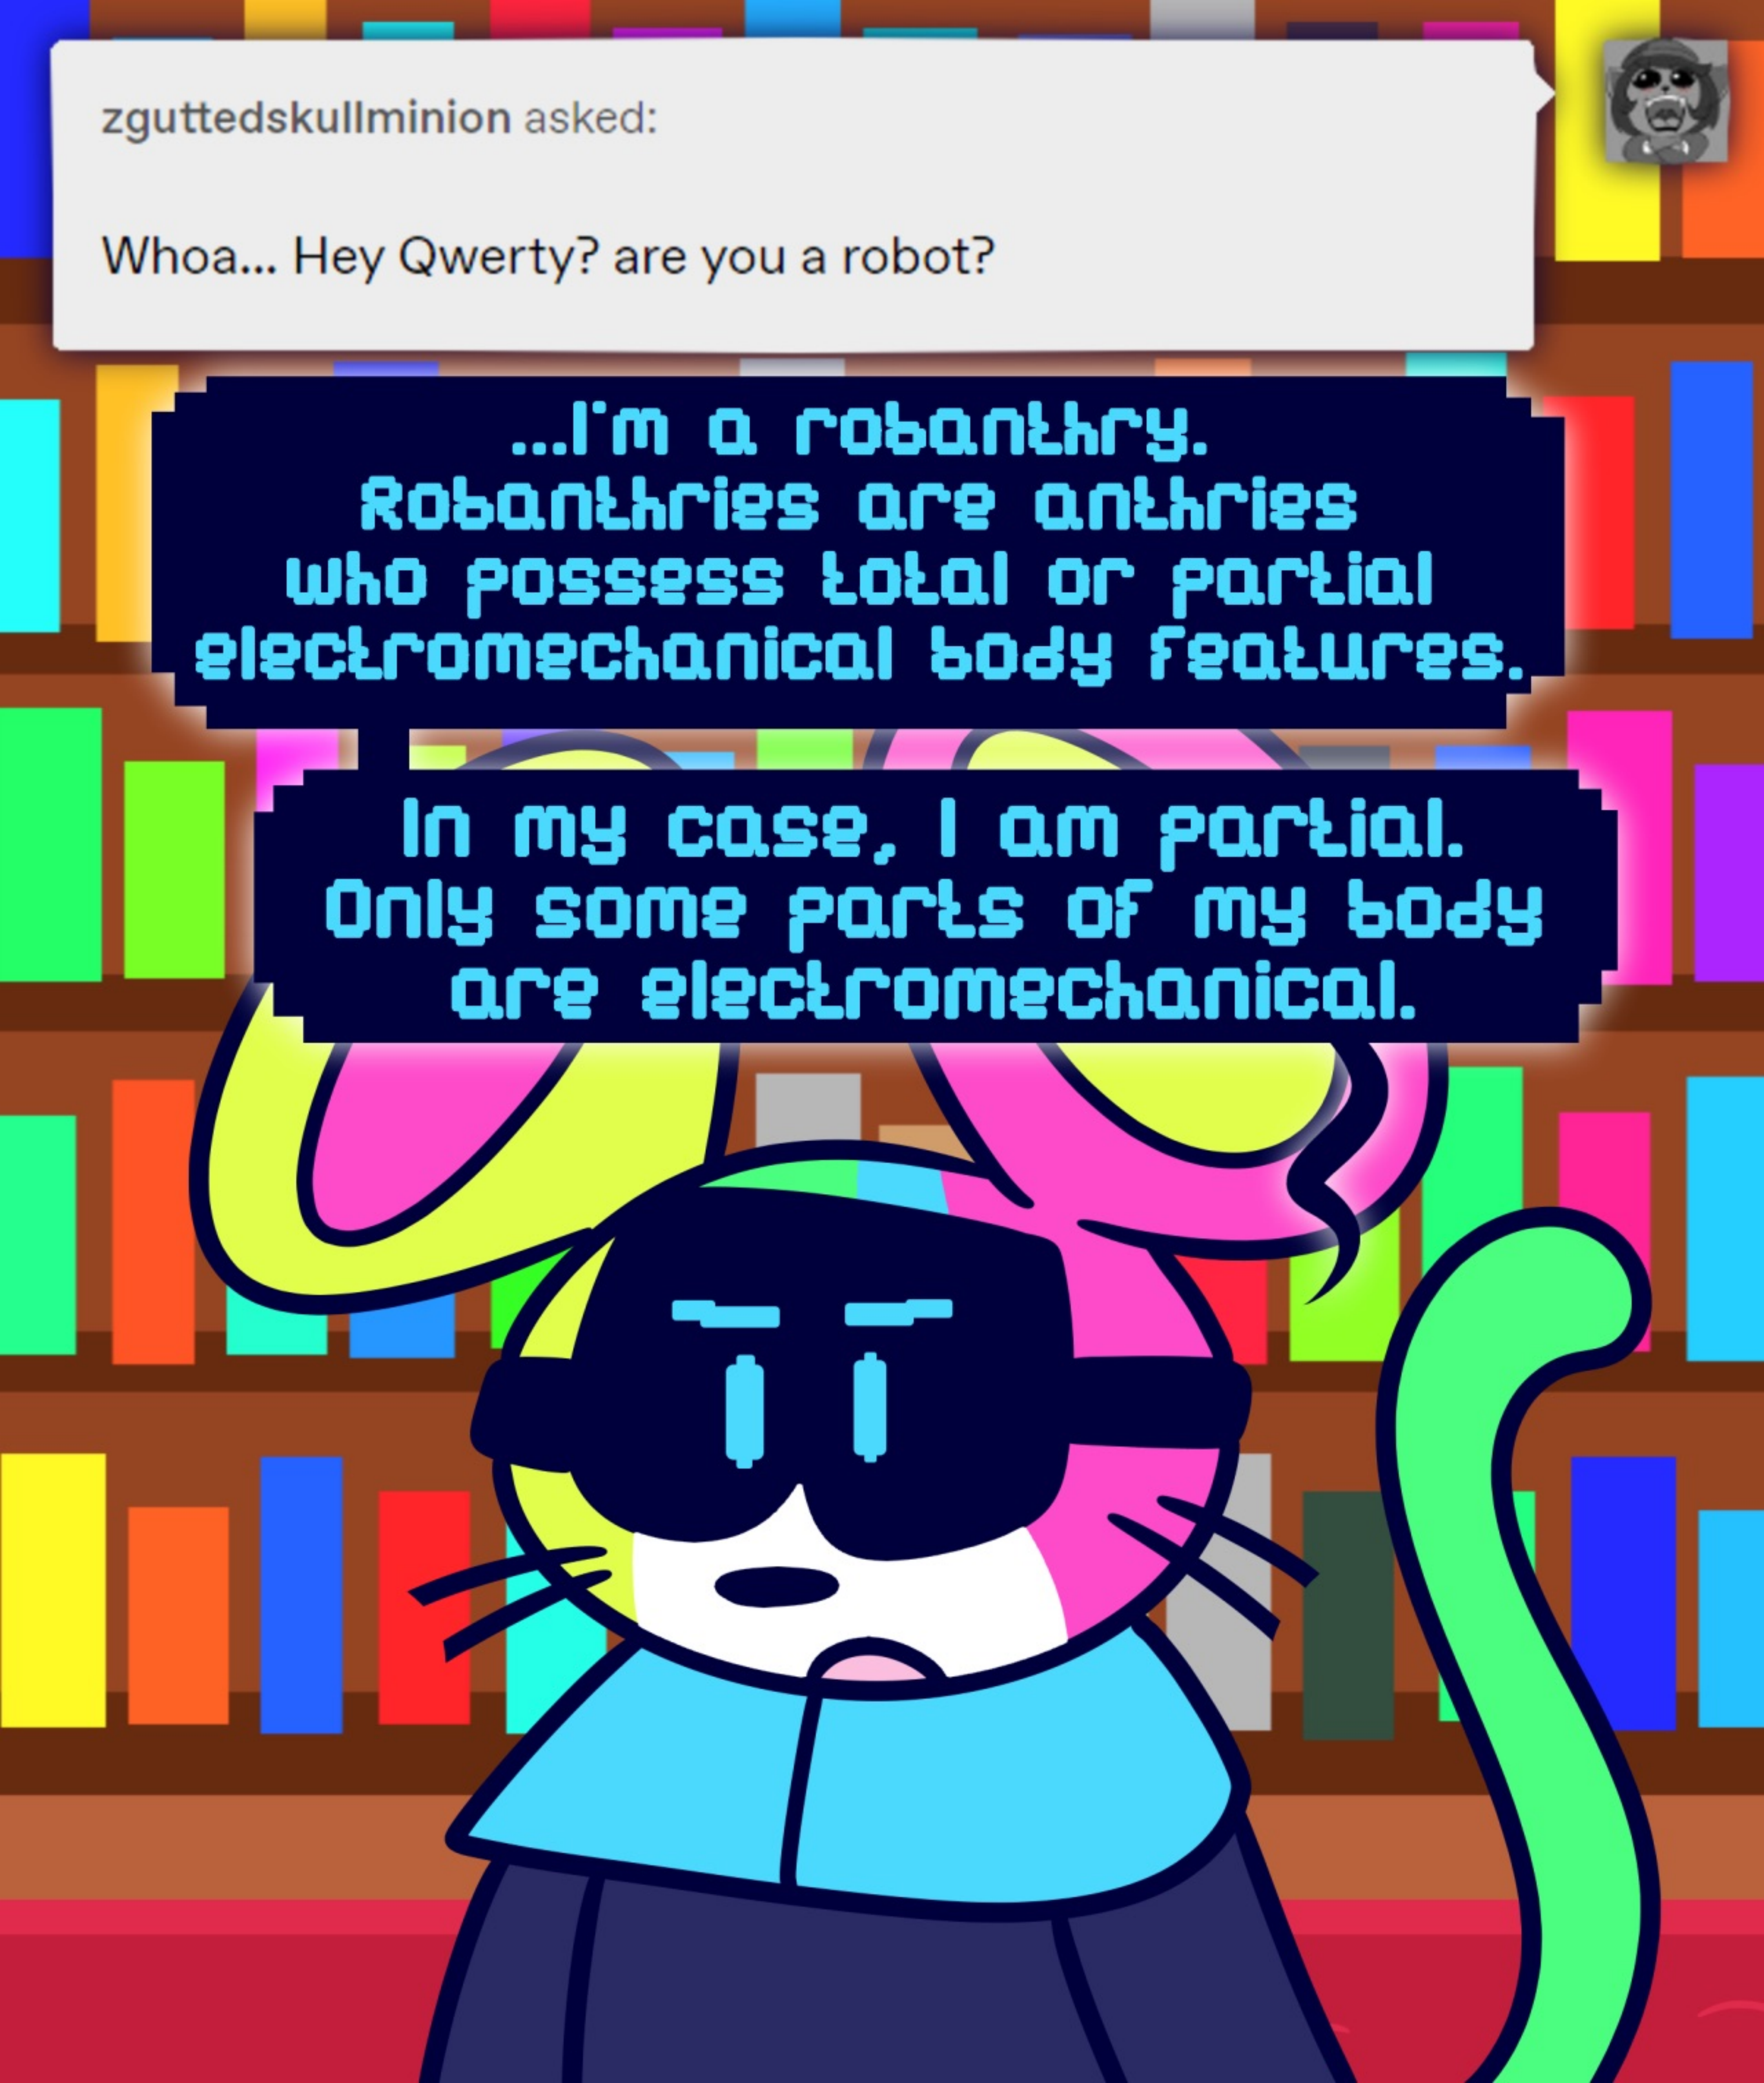
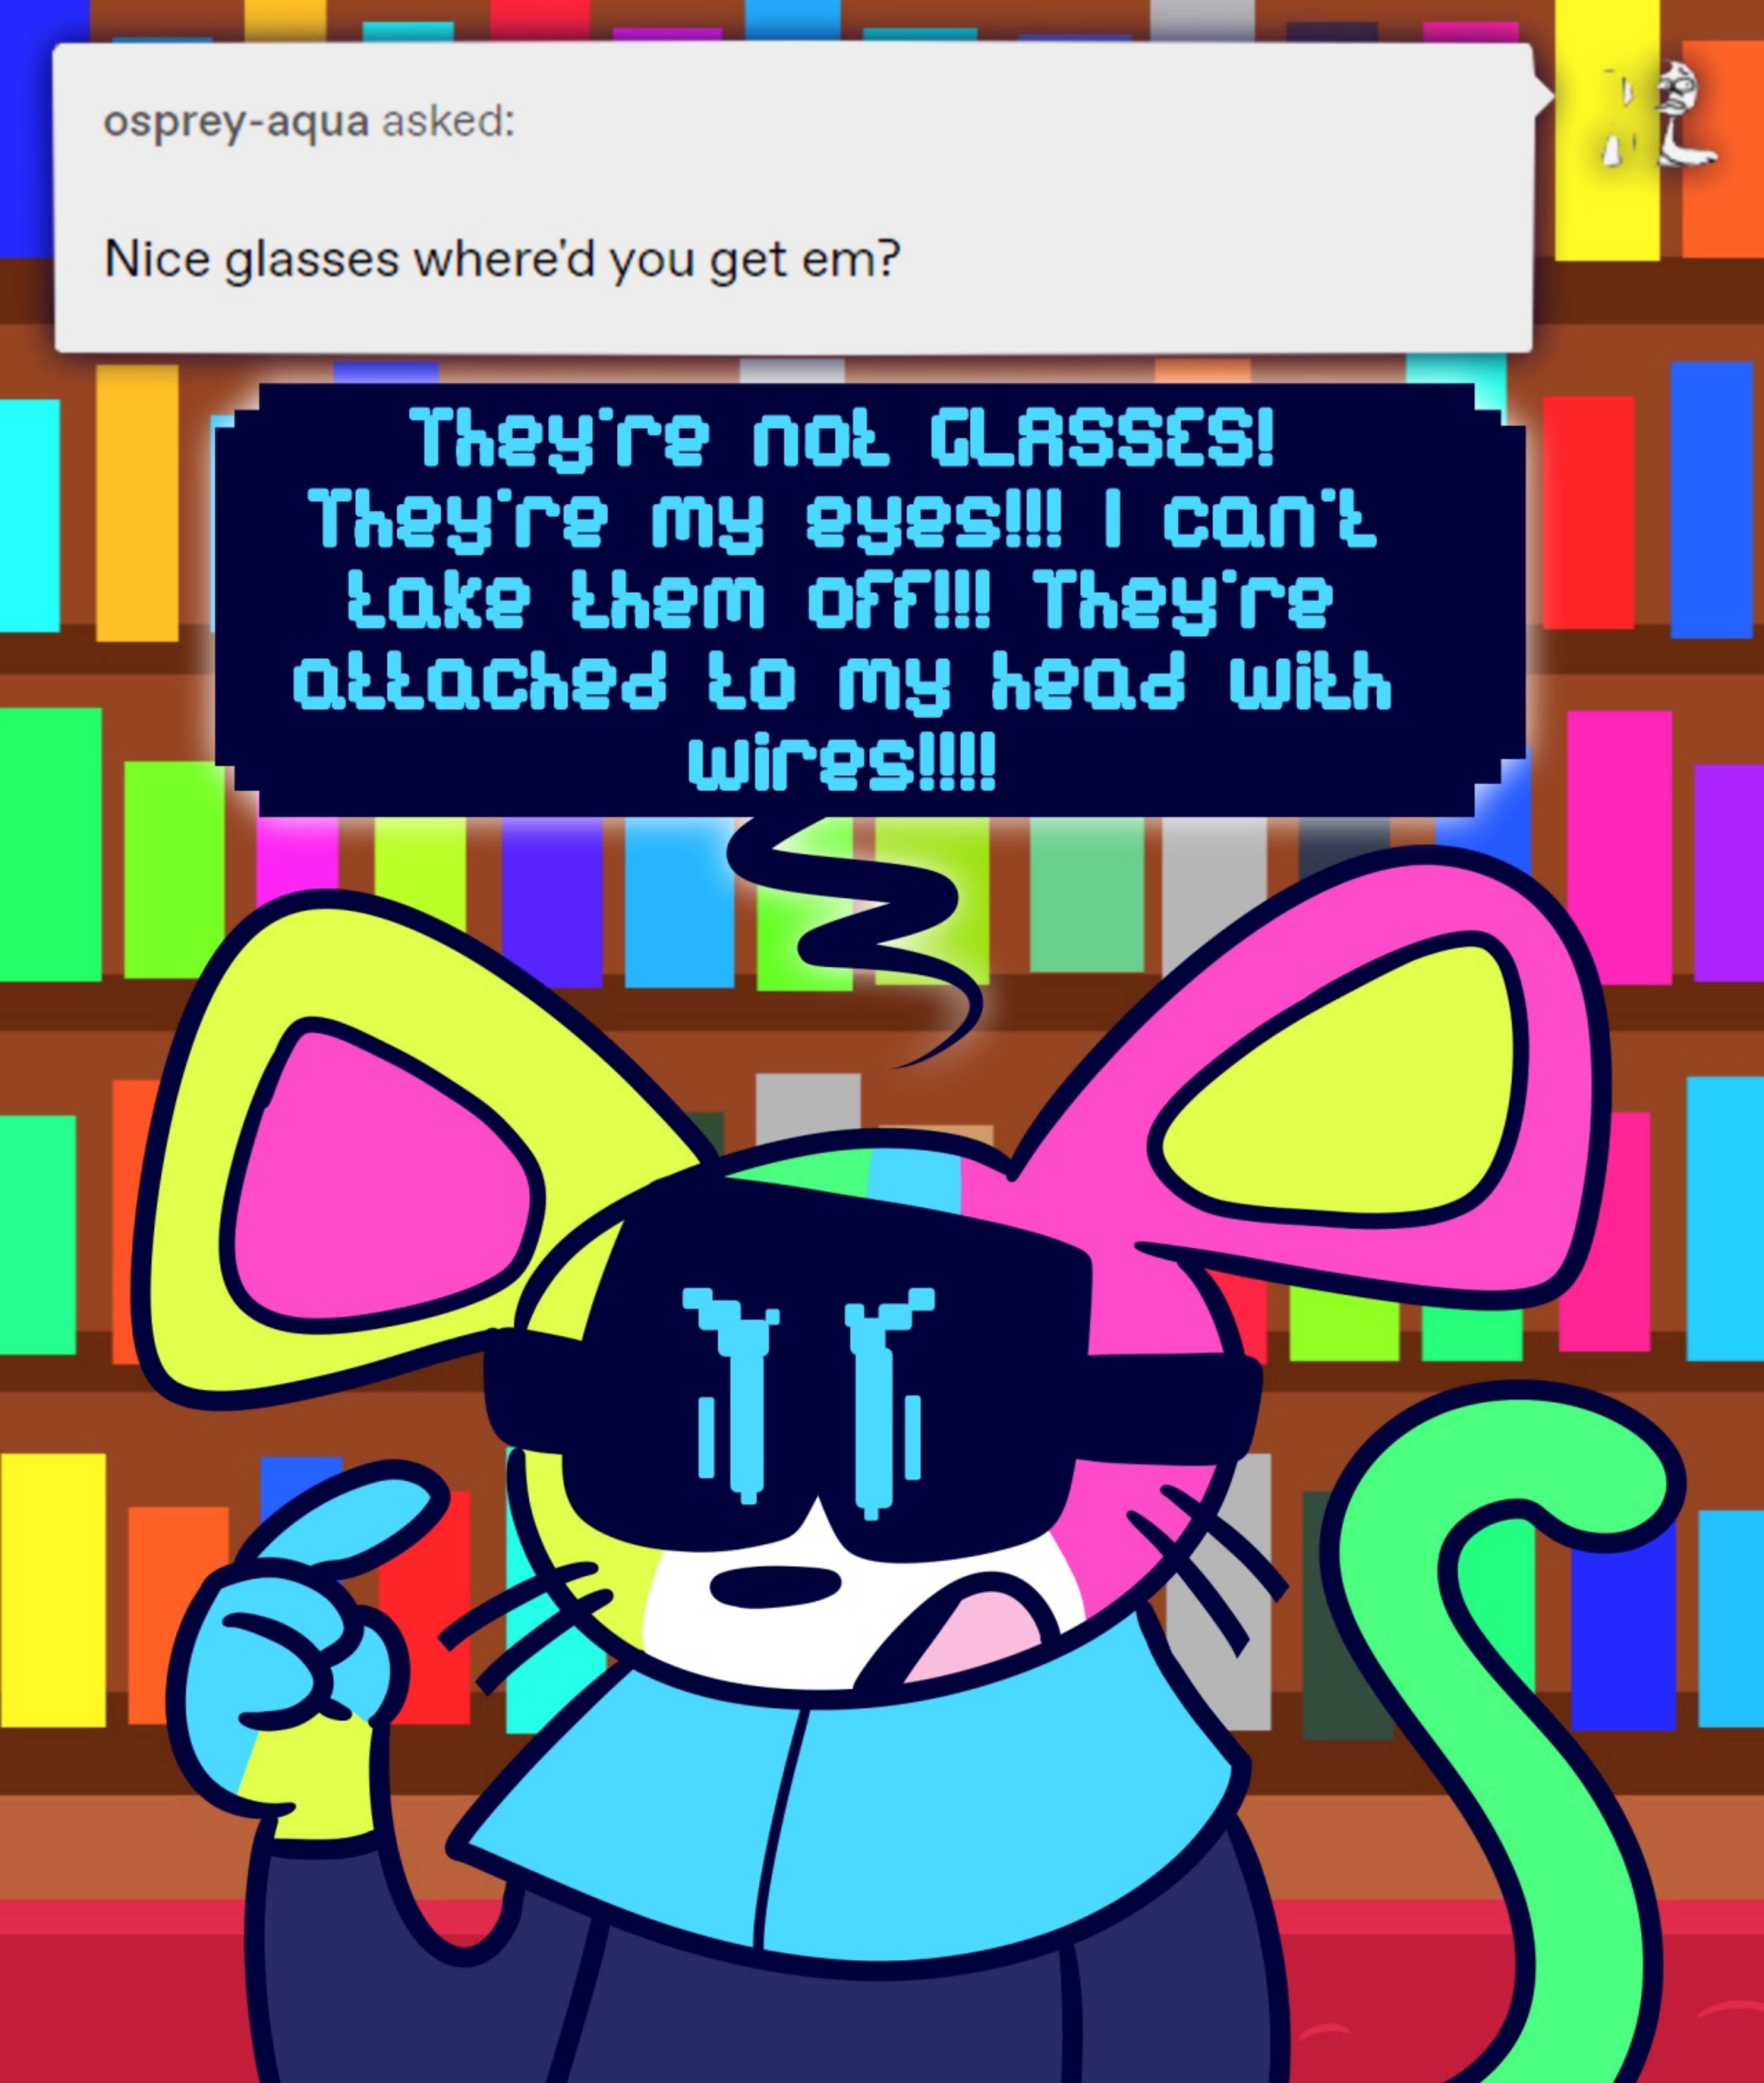
ladyinsertnamehere asked:
Who are you, friend?
I'm Qwerty. No, that's not my real name, but that's what you're gonna call me.
Scrap is my best friend, I'm here for his little fundraiser thing.



zguttedskullminion asked:

Whoa... Hey Qwerty? are you a robot?

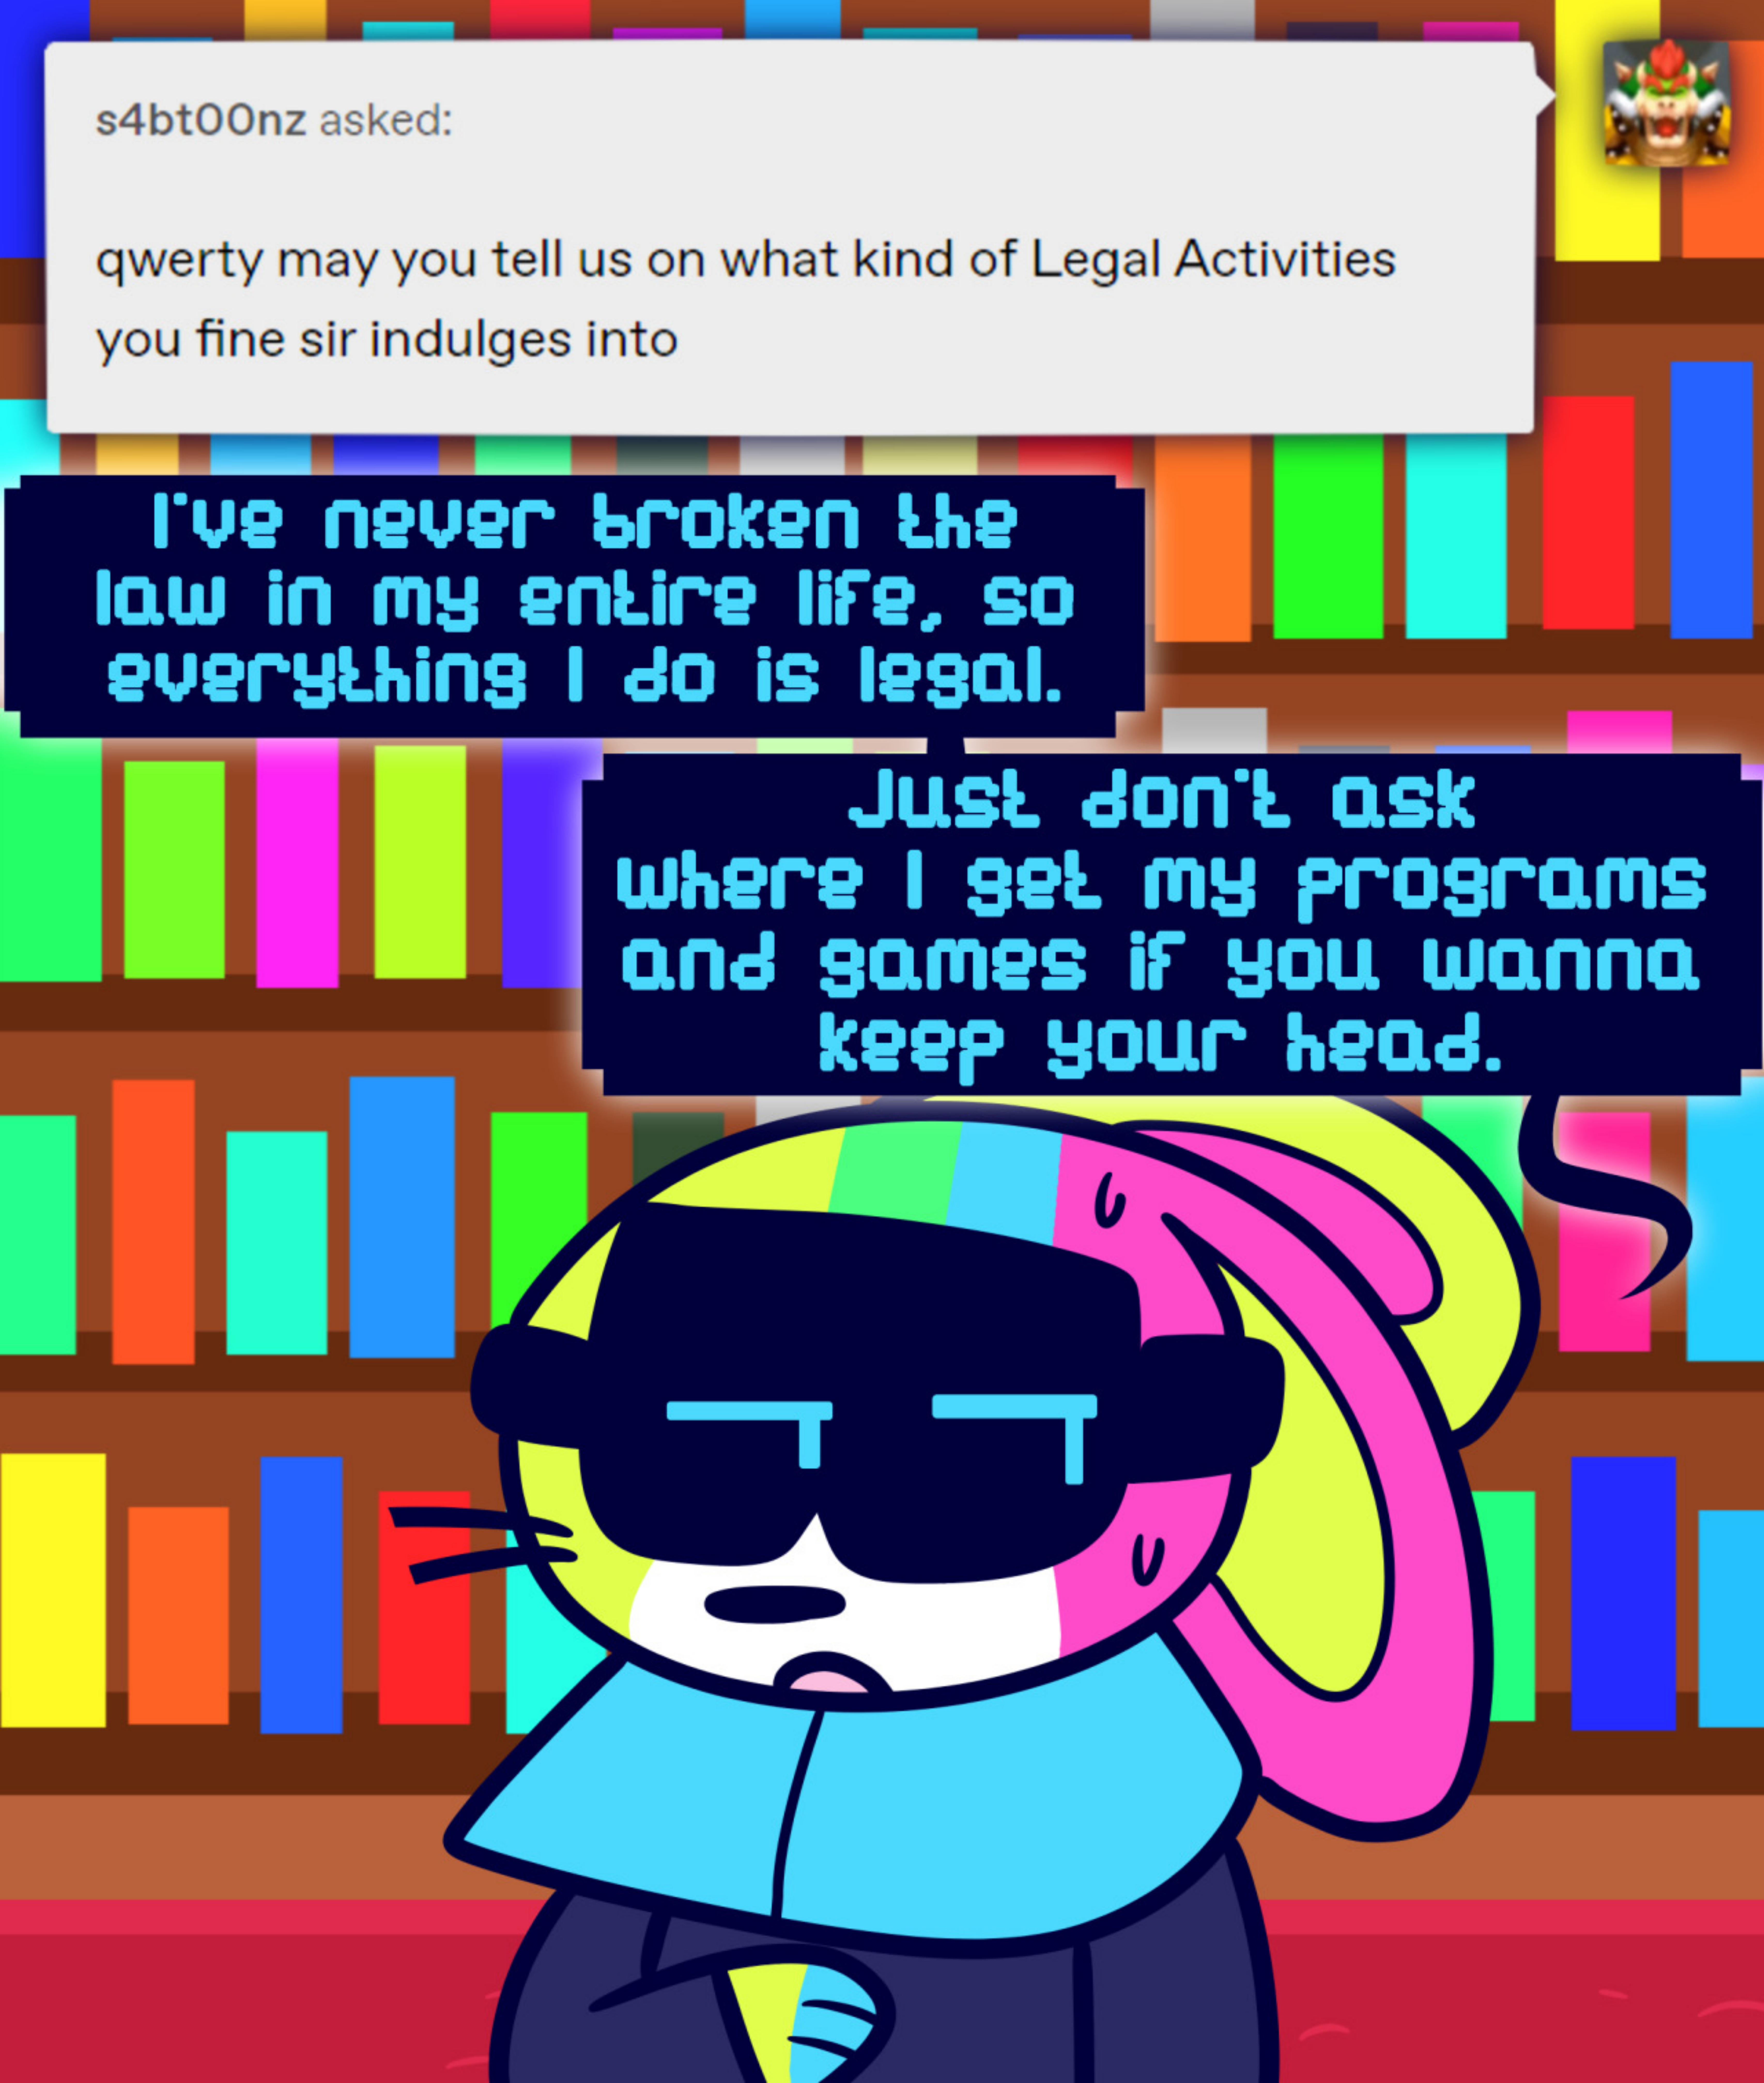
...I'm a robanthry. Robanthries are anthries who possess total or partial electromechanical body features.
In my case, I am partial. Only some parts of my body are electromechanical.



osprey-aqua asked:

Nice glasses where'd you get em?

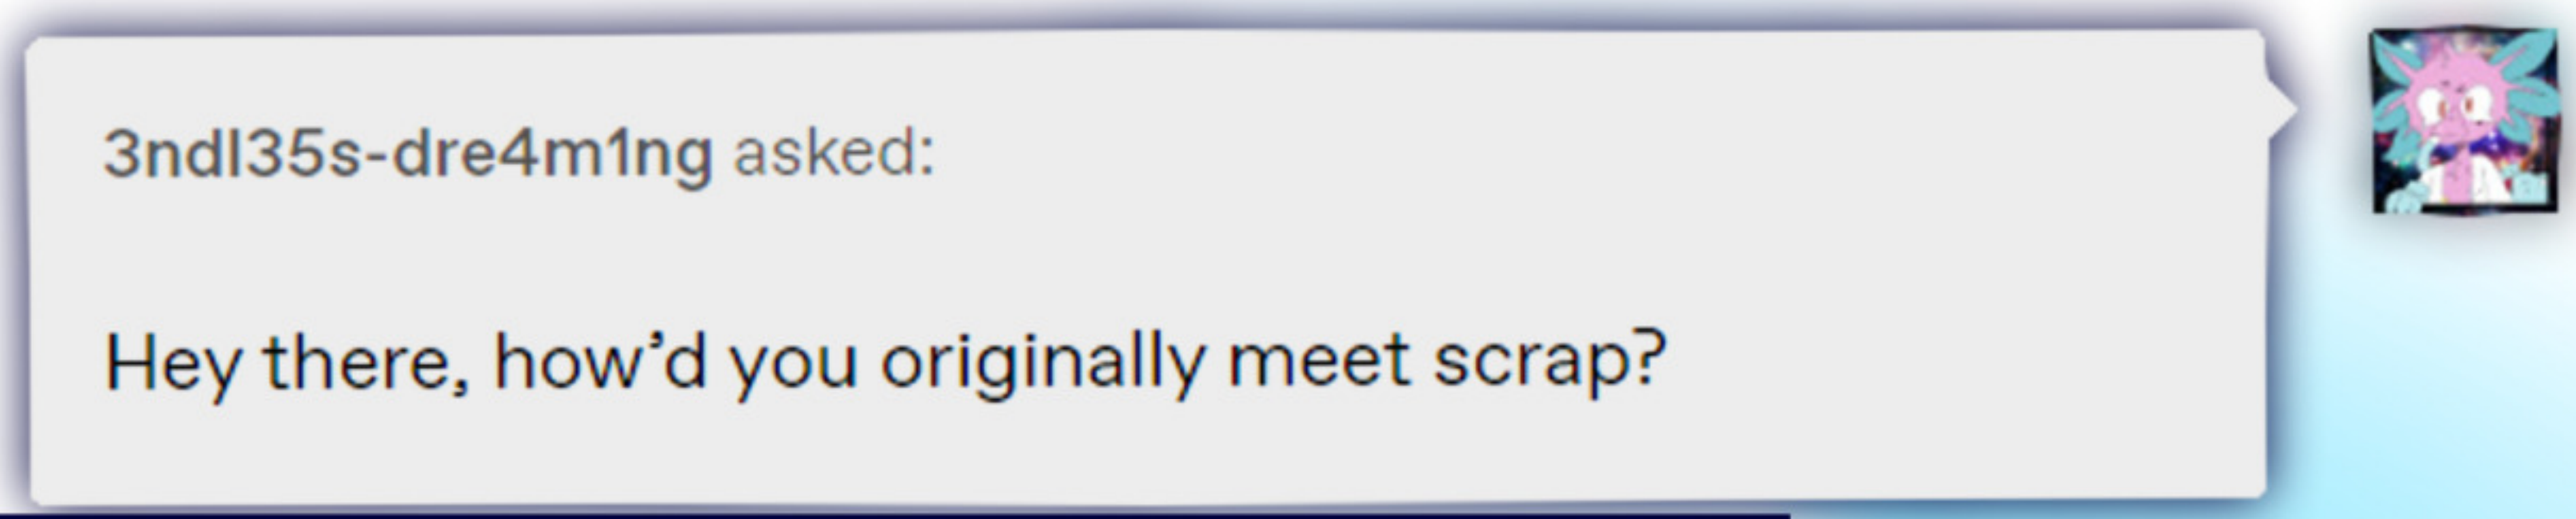
They're not GLASSES! They're my eyes!!! I can't take them off!!! They're attached to my head with wires!!!!



s4bt00nz asked:

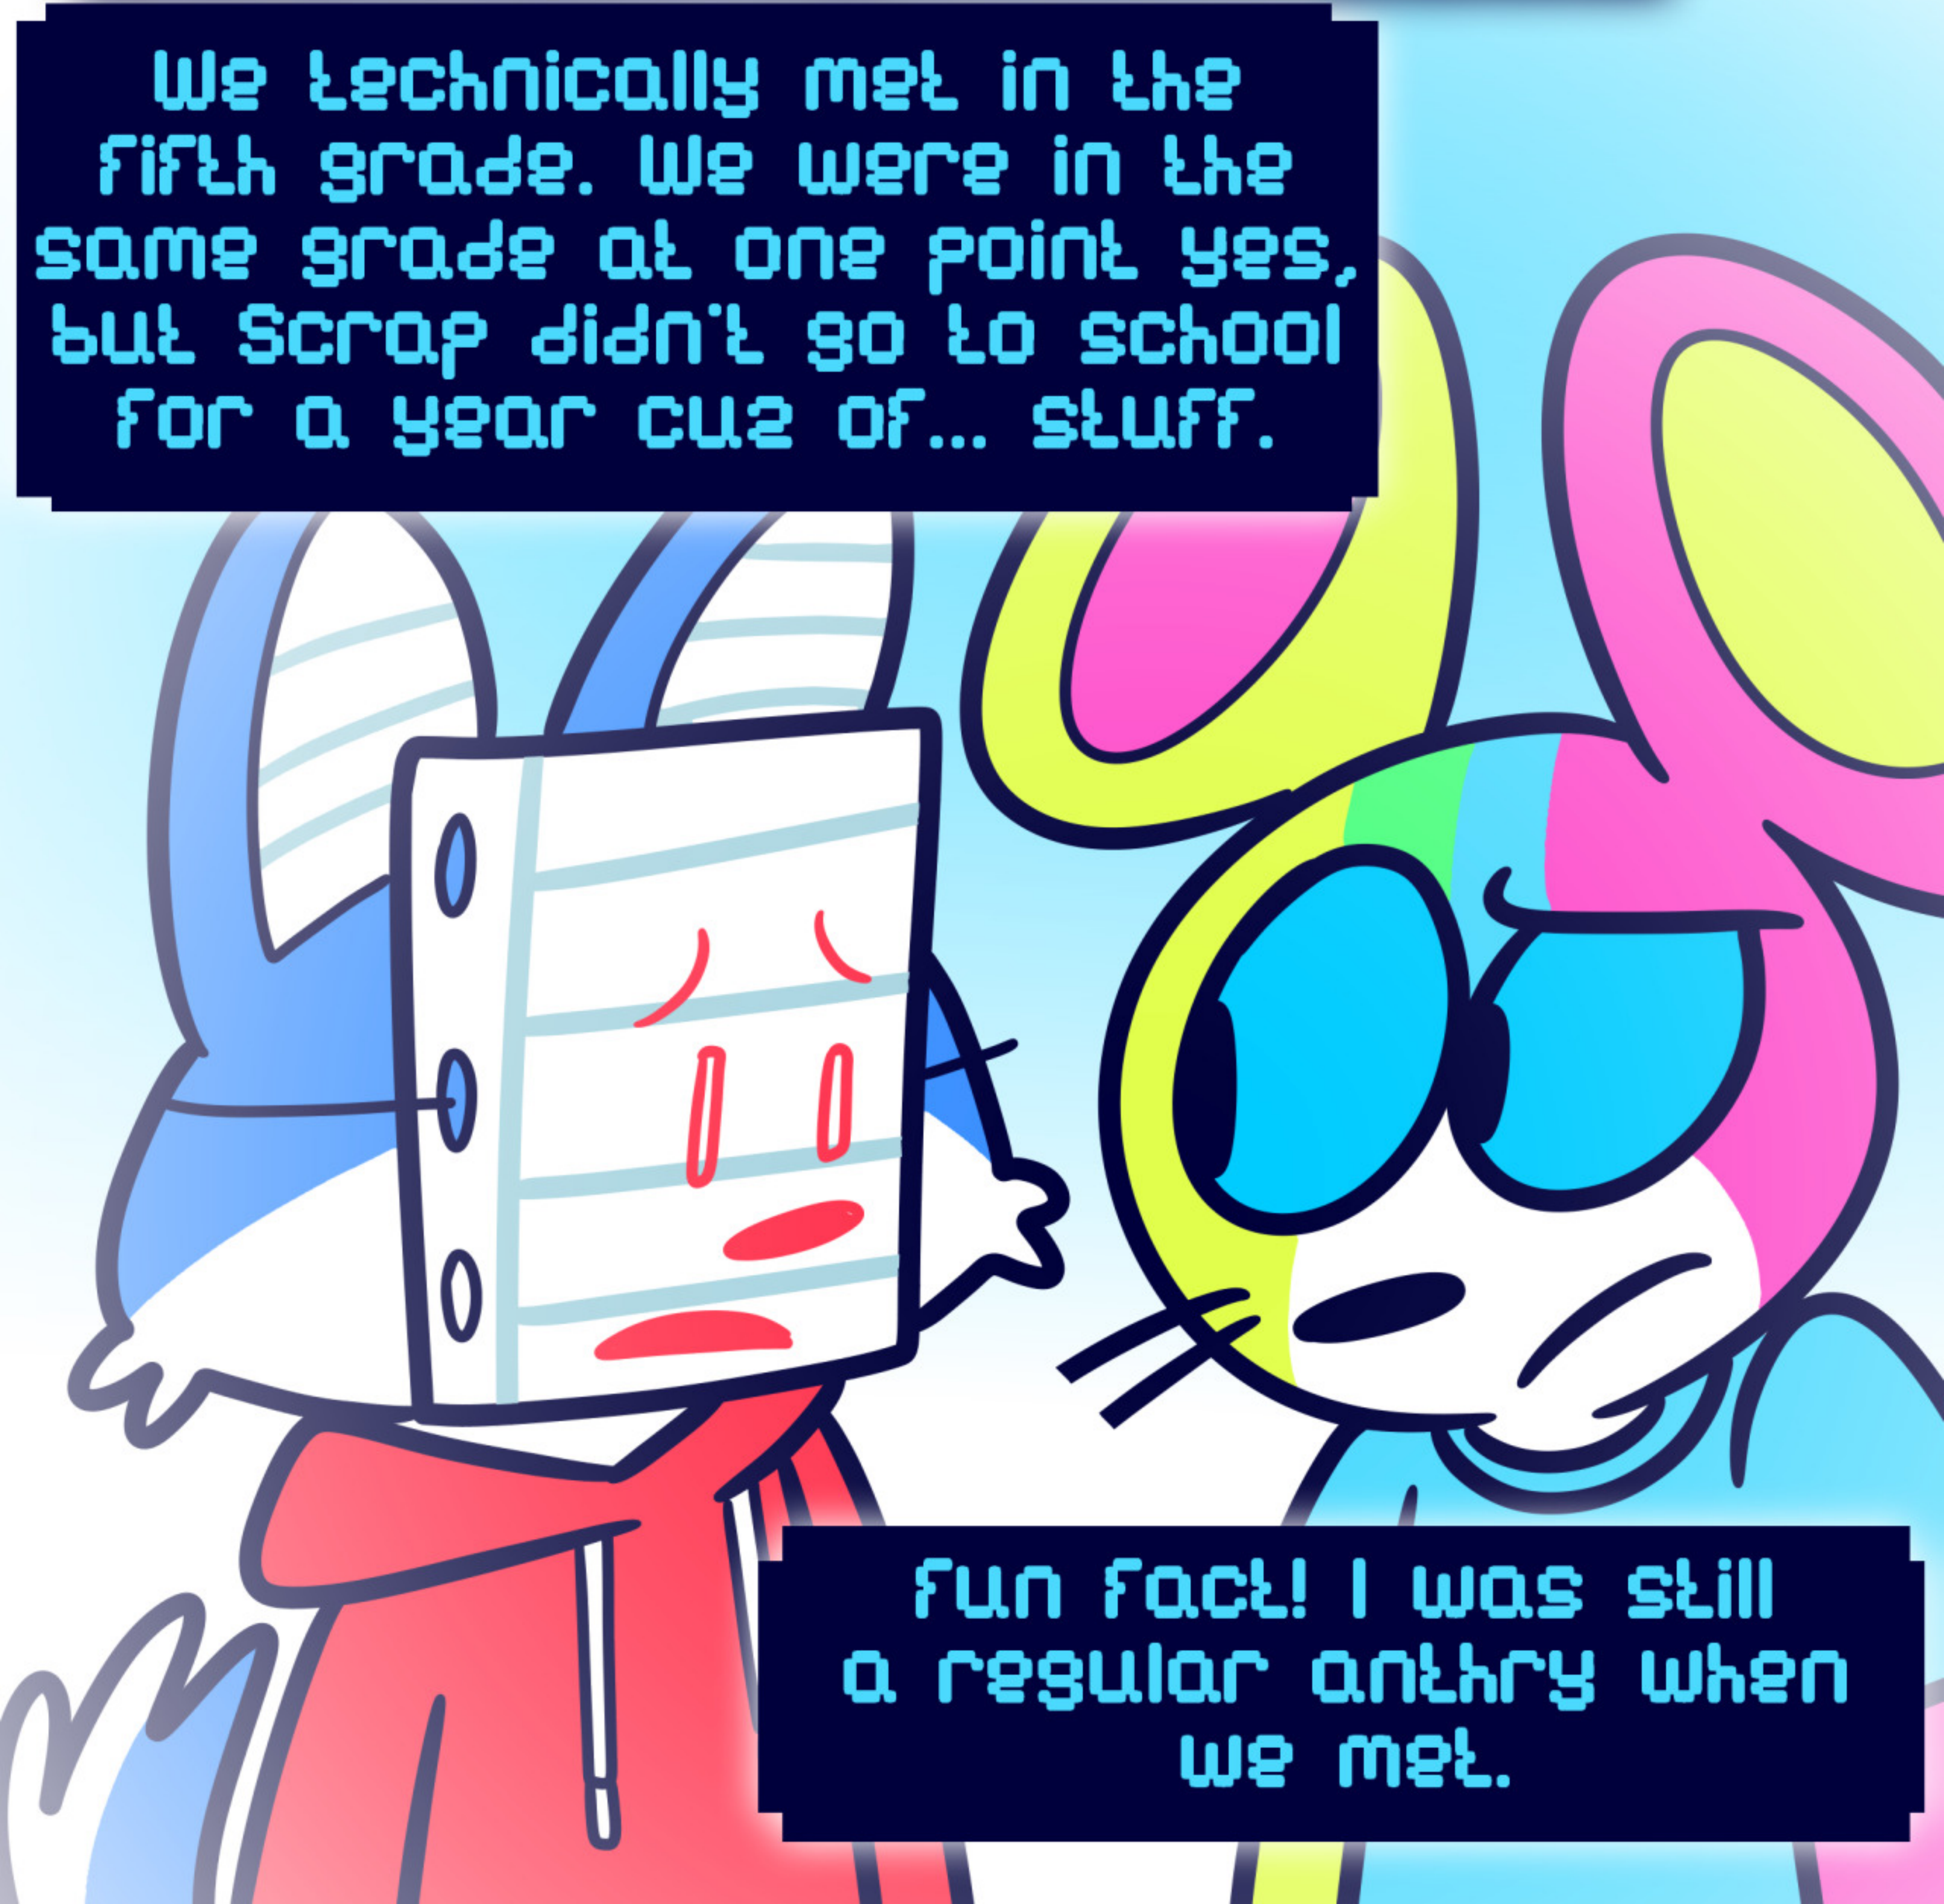
qwerty may you tell us on what kind of Legal Activities you fine sir indulges into

I've never broken the law in my entire life, so everything I do is legal.
Just don't ask where I get my programs and games if you wanna keep your head.

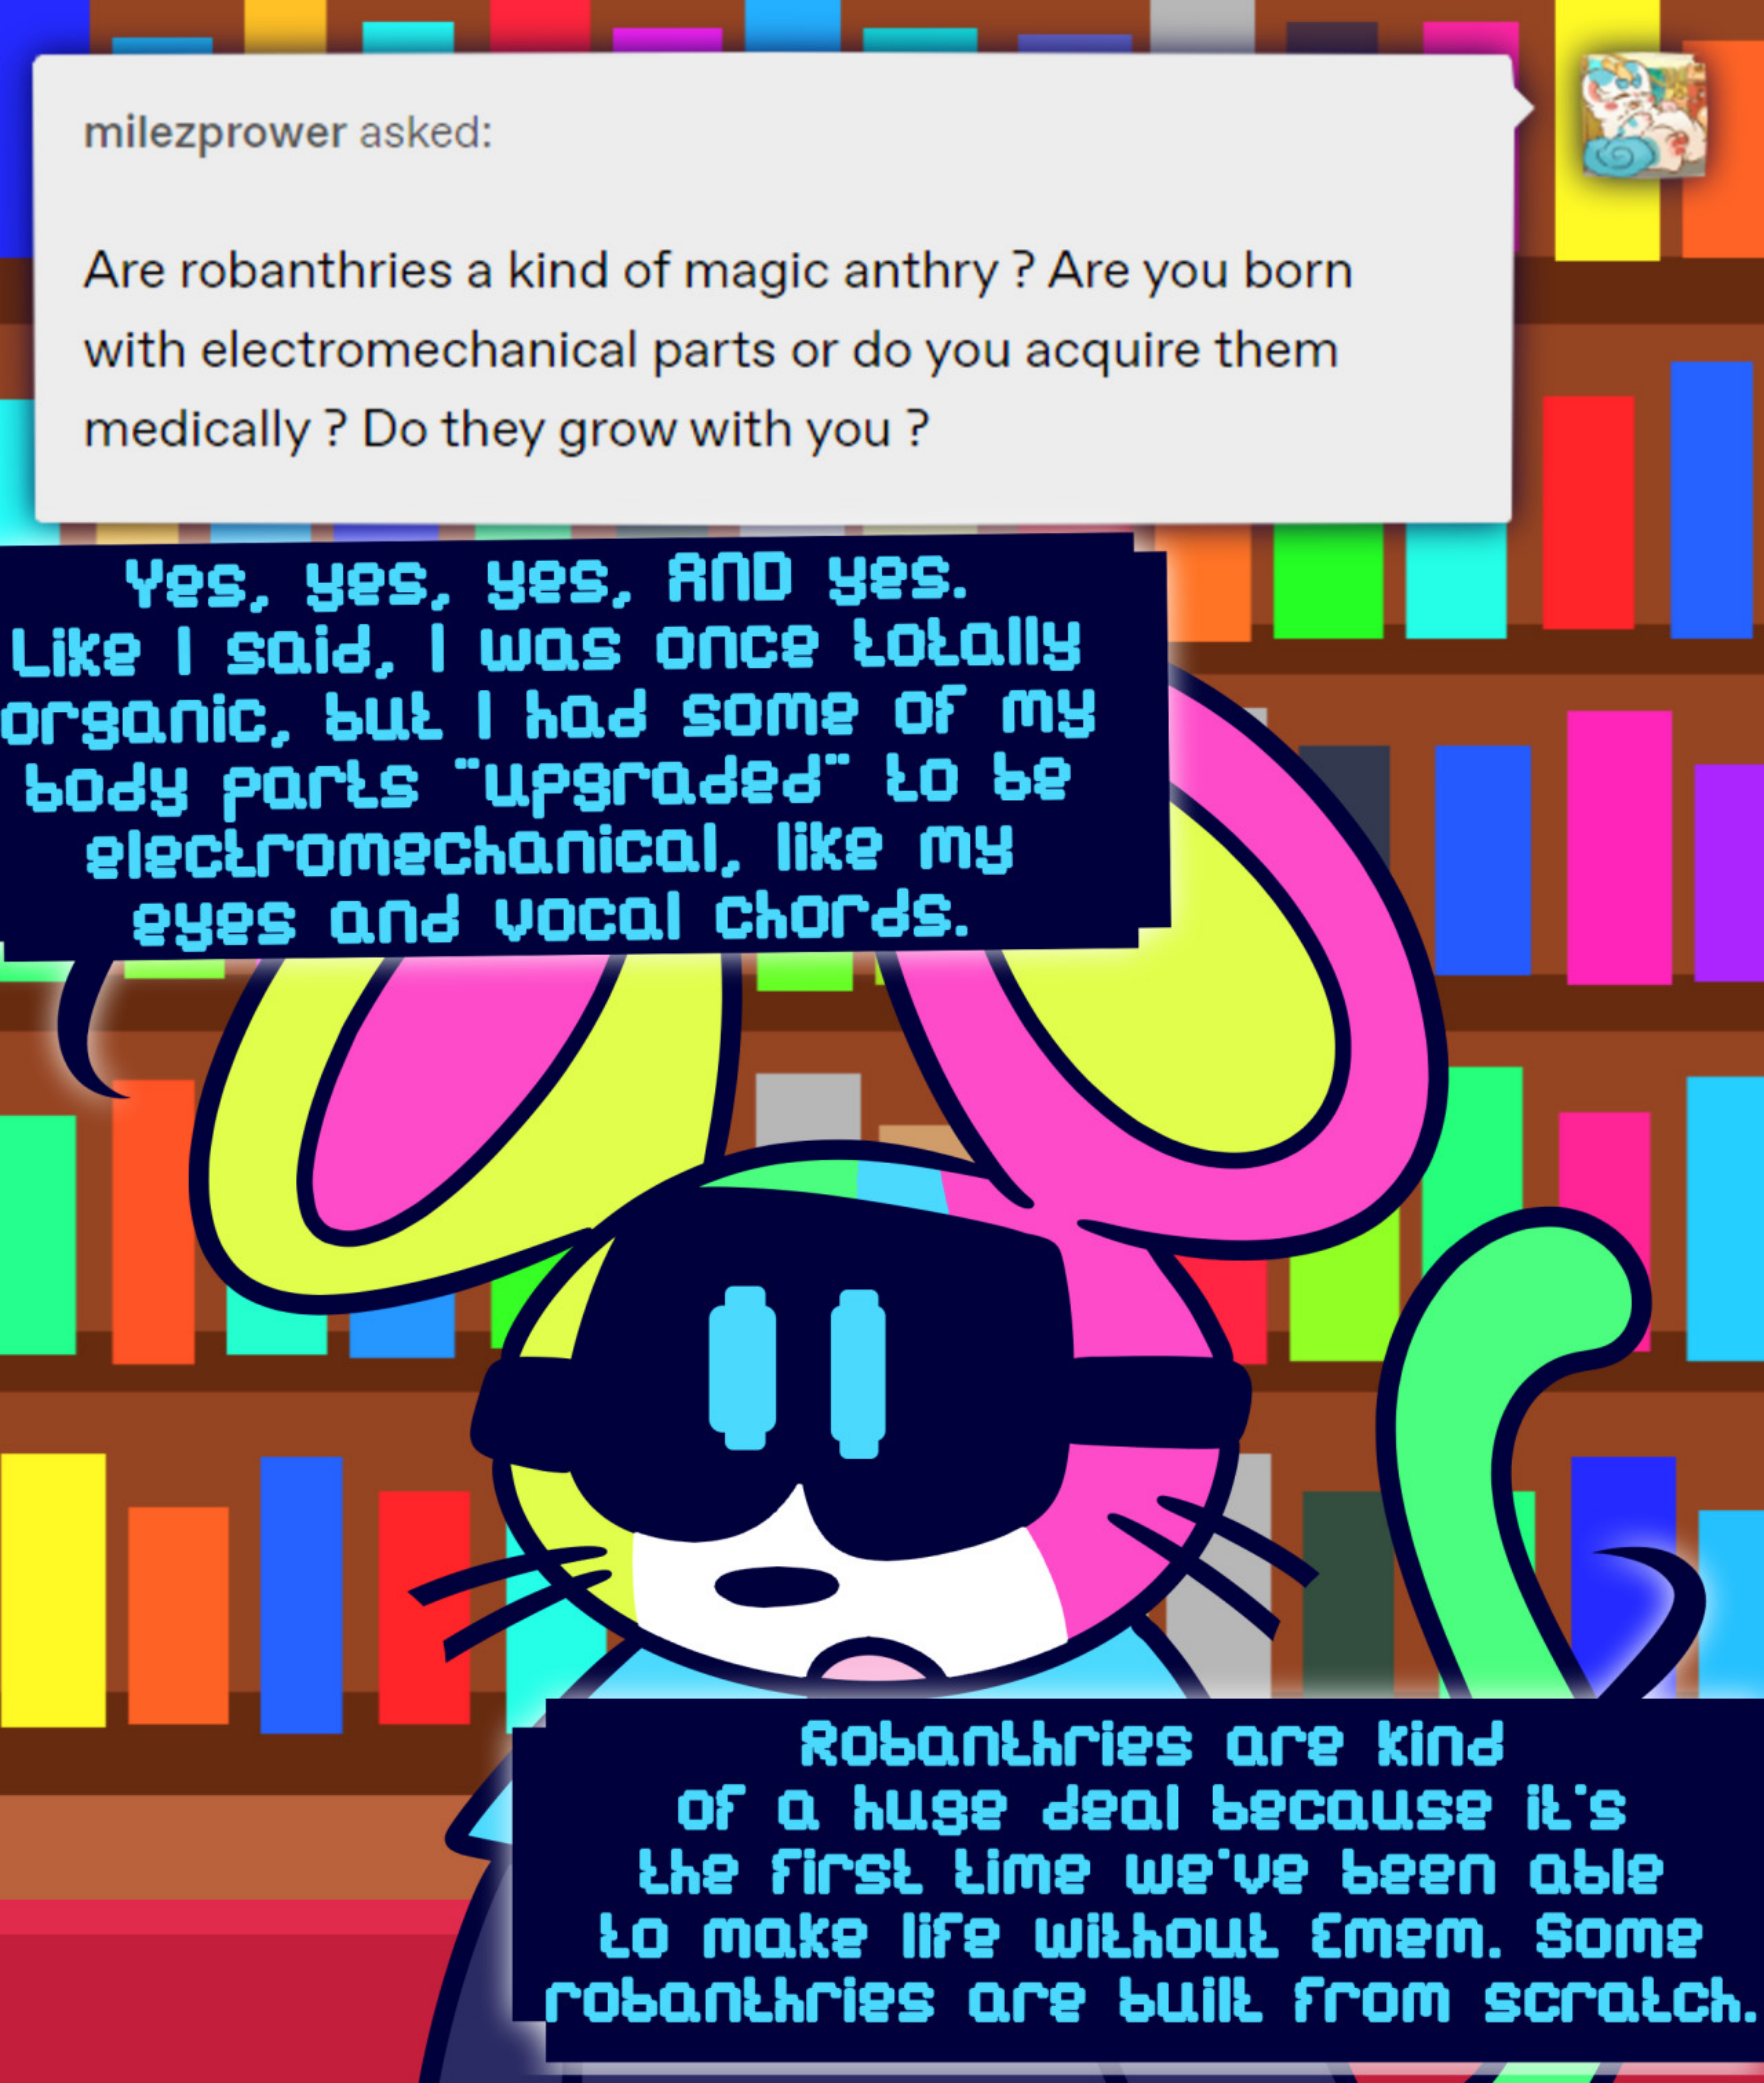


3ndl35s-dre4m1ng asked:

Hey there, how'd you originally meet scrap?



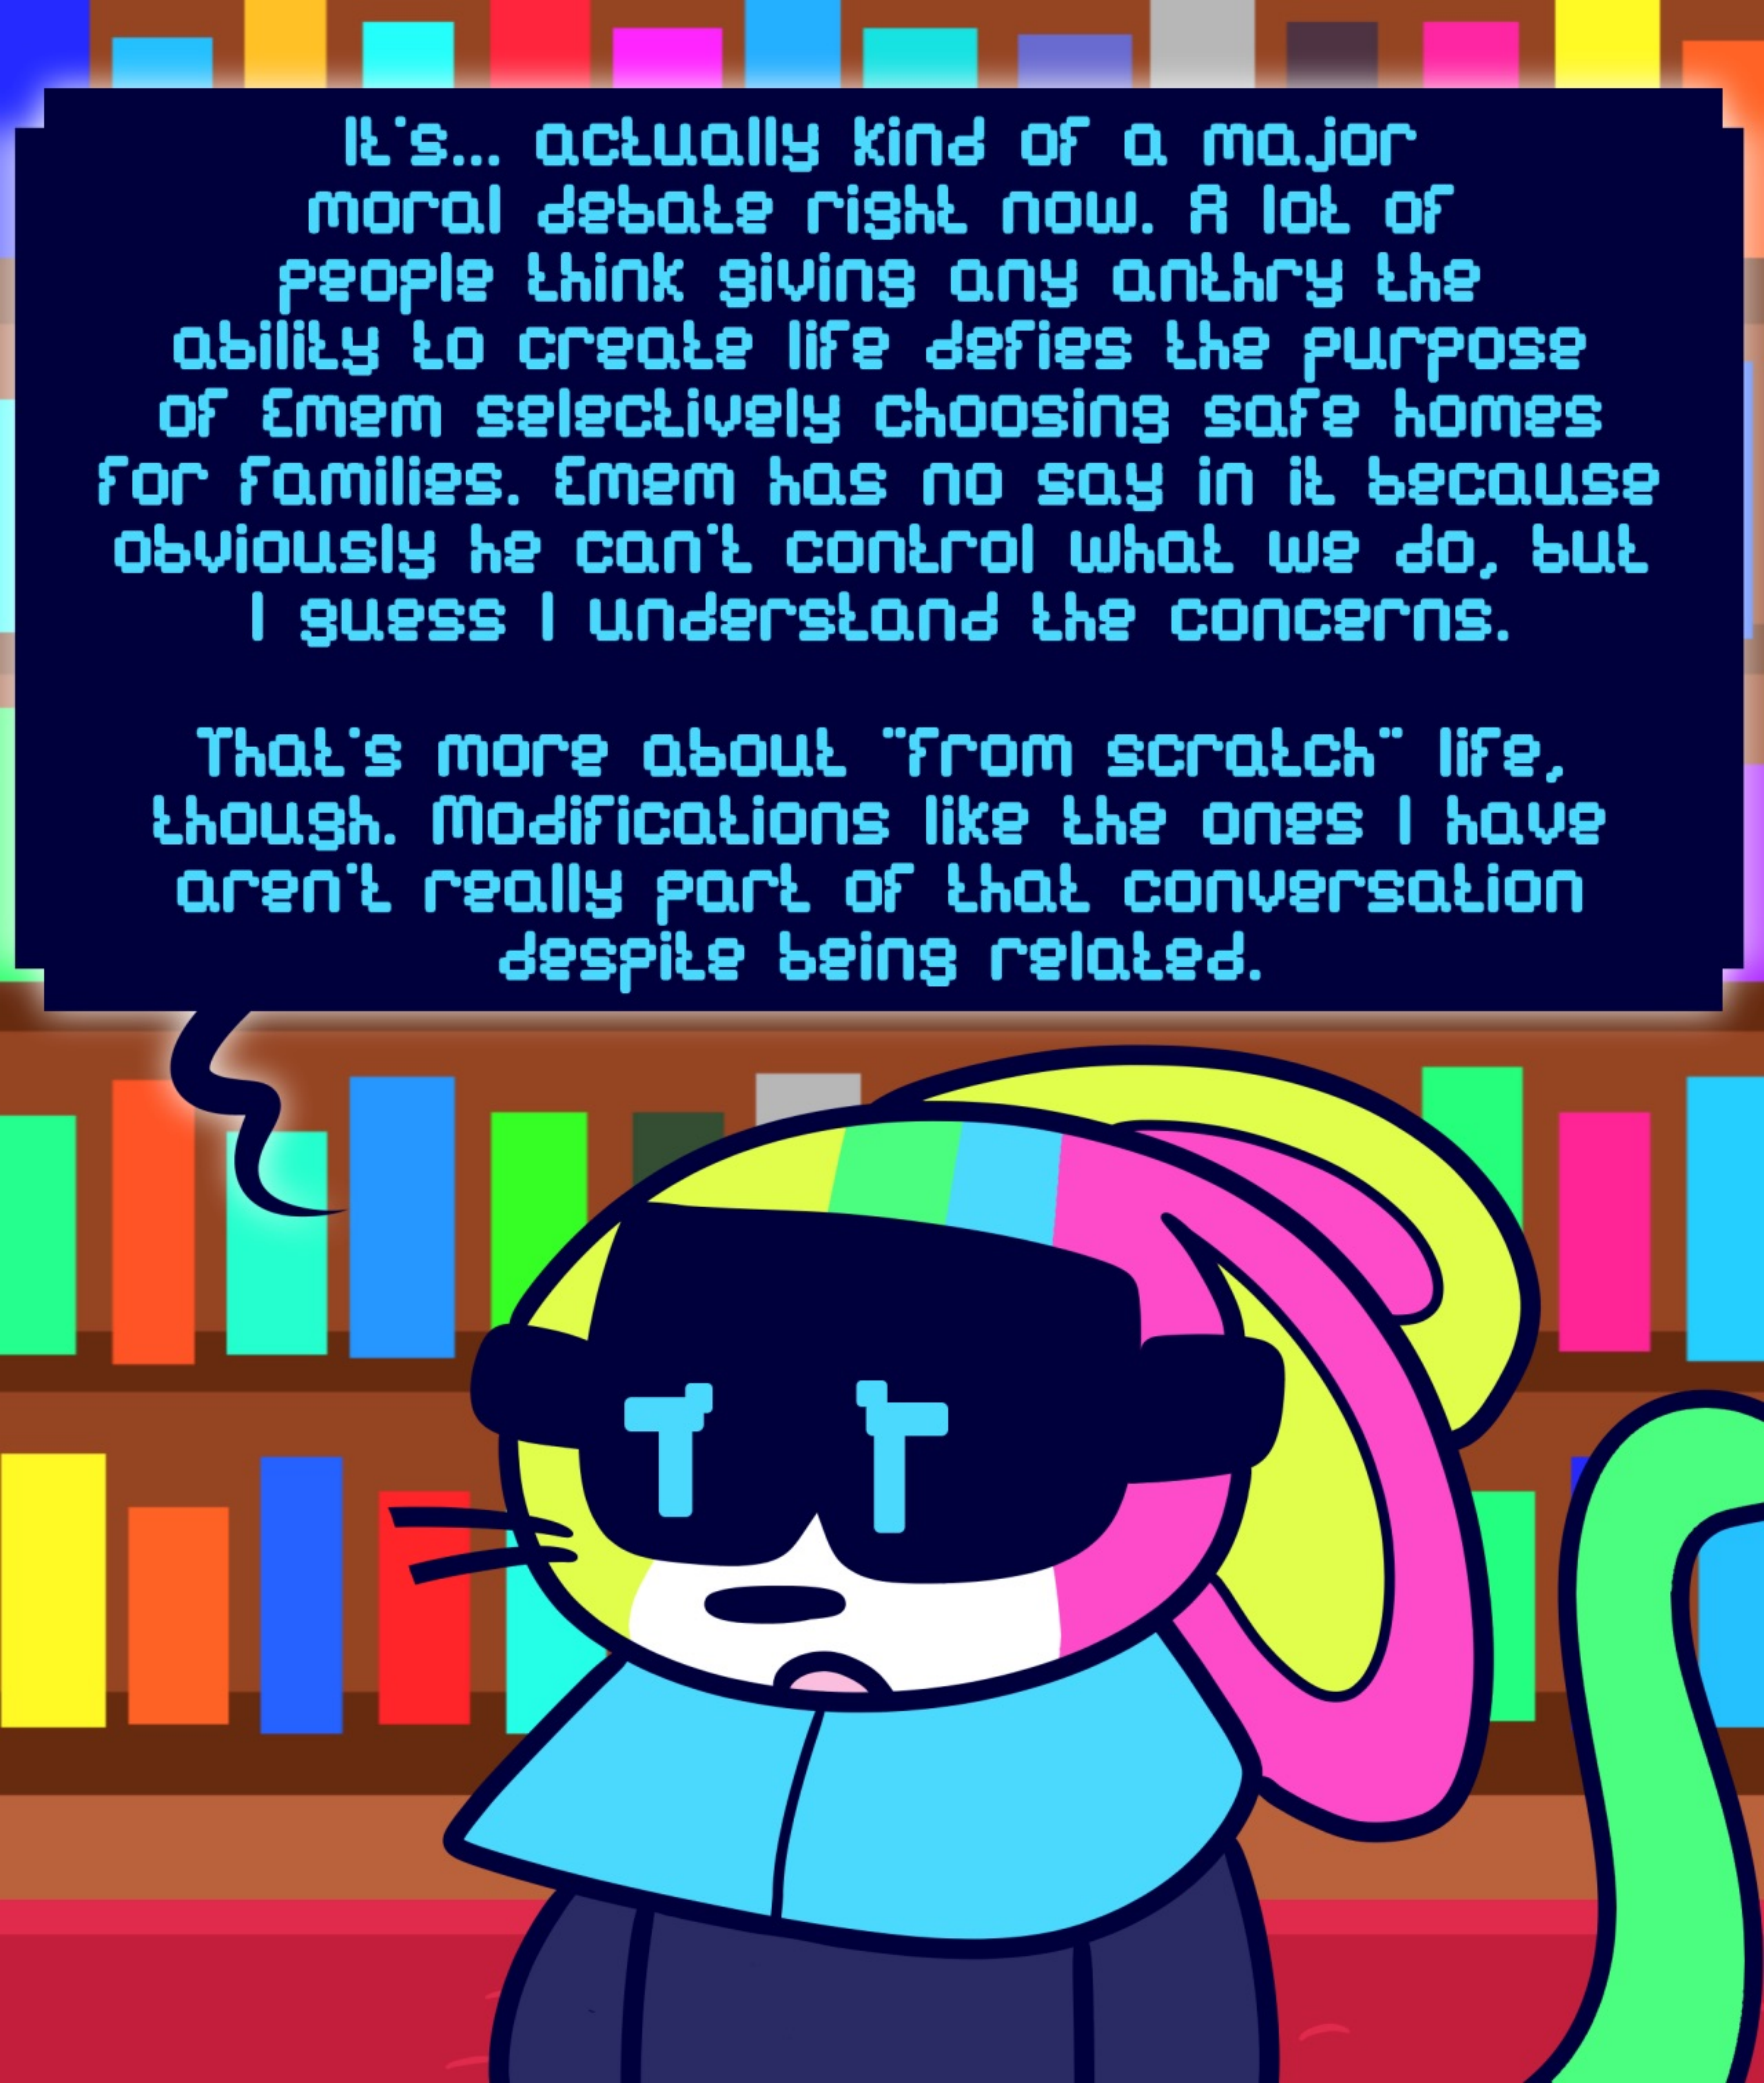
We technically met in the fifth grade. We were in the same grade at one point yes, but Scrap didn't go to school for a year cuz of... stuff.
Fun fact! I was still a regular anthry when we met.



milezprower asked:

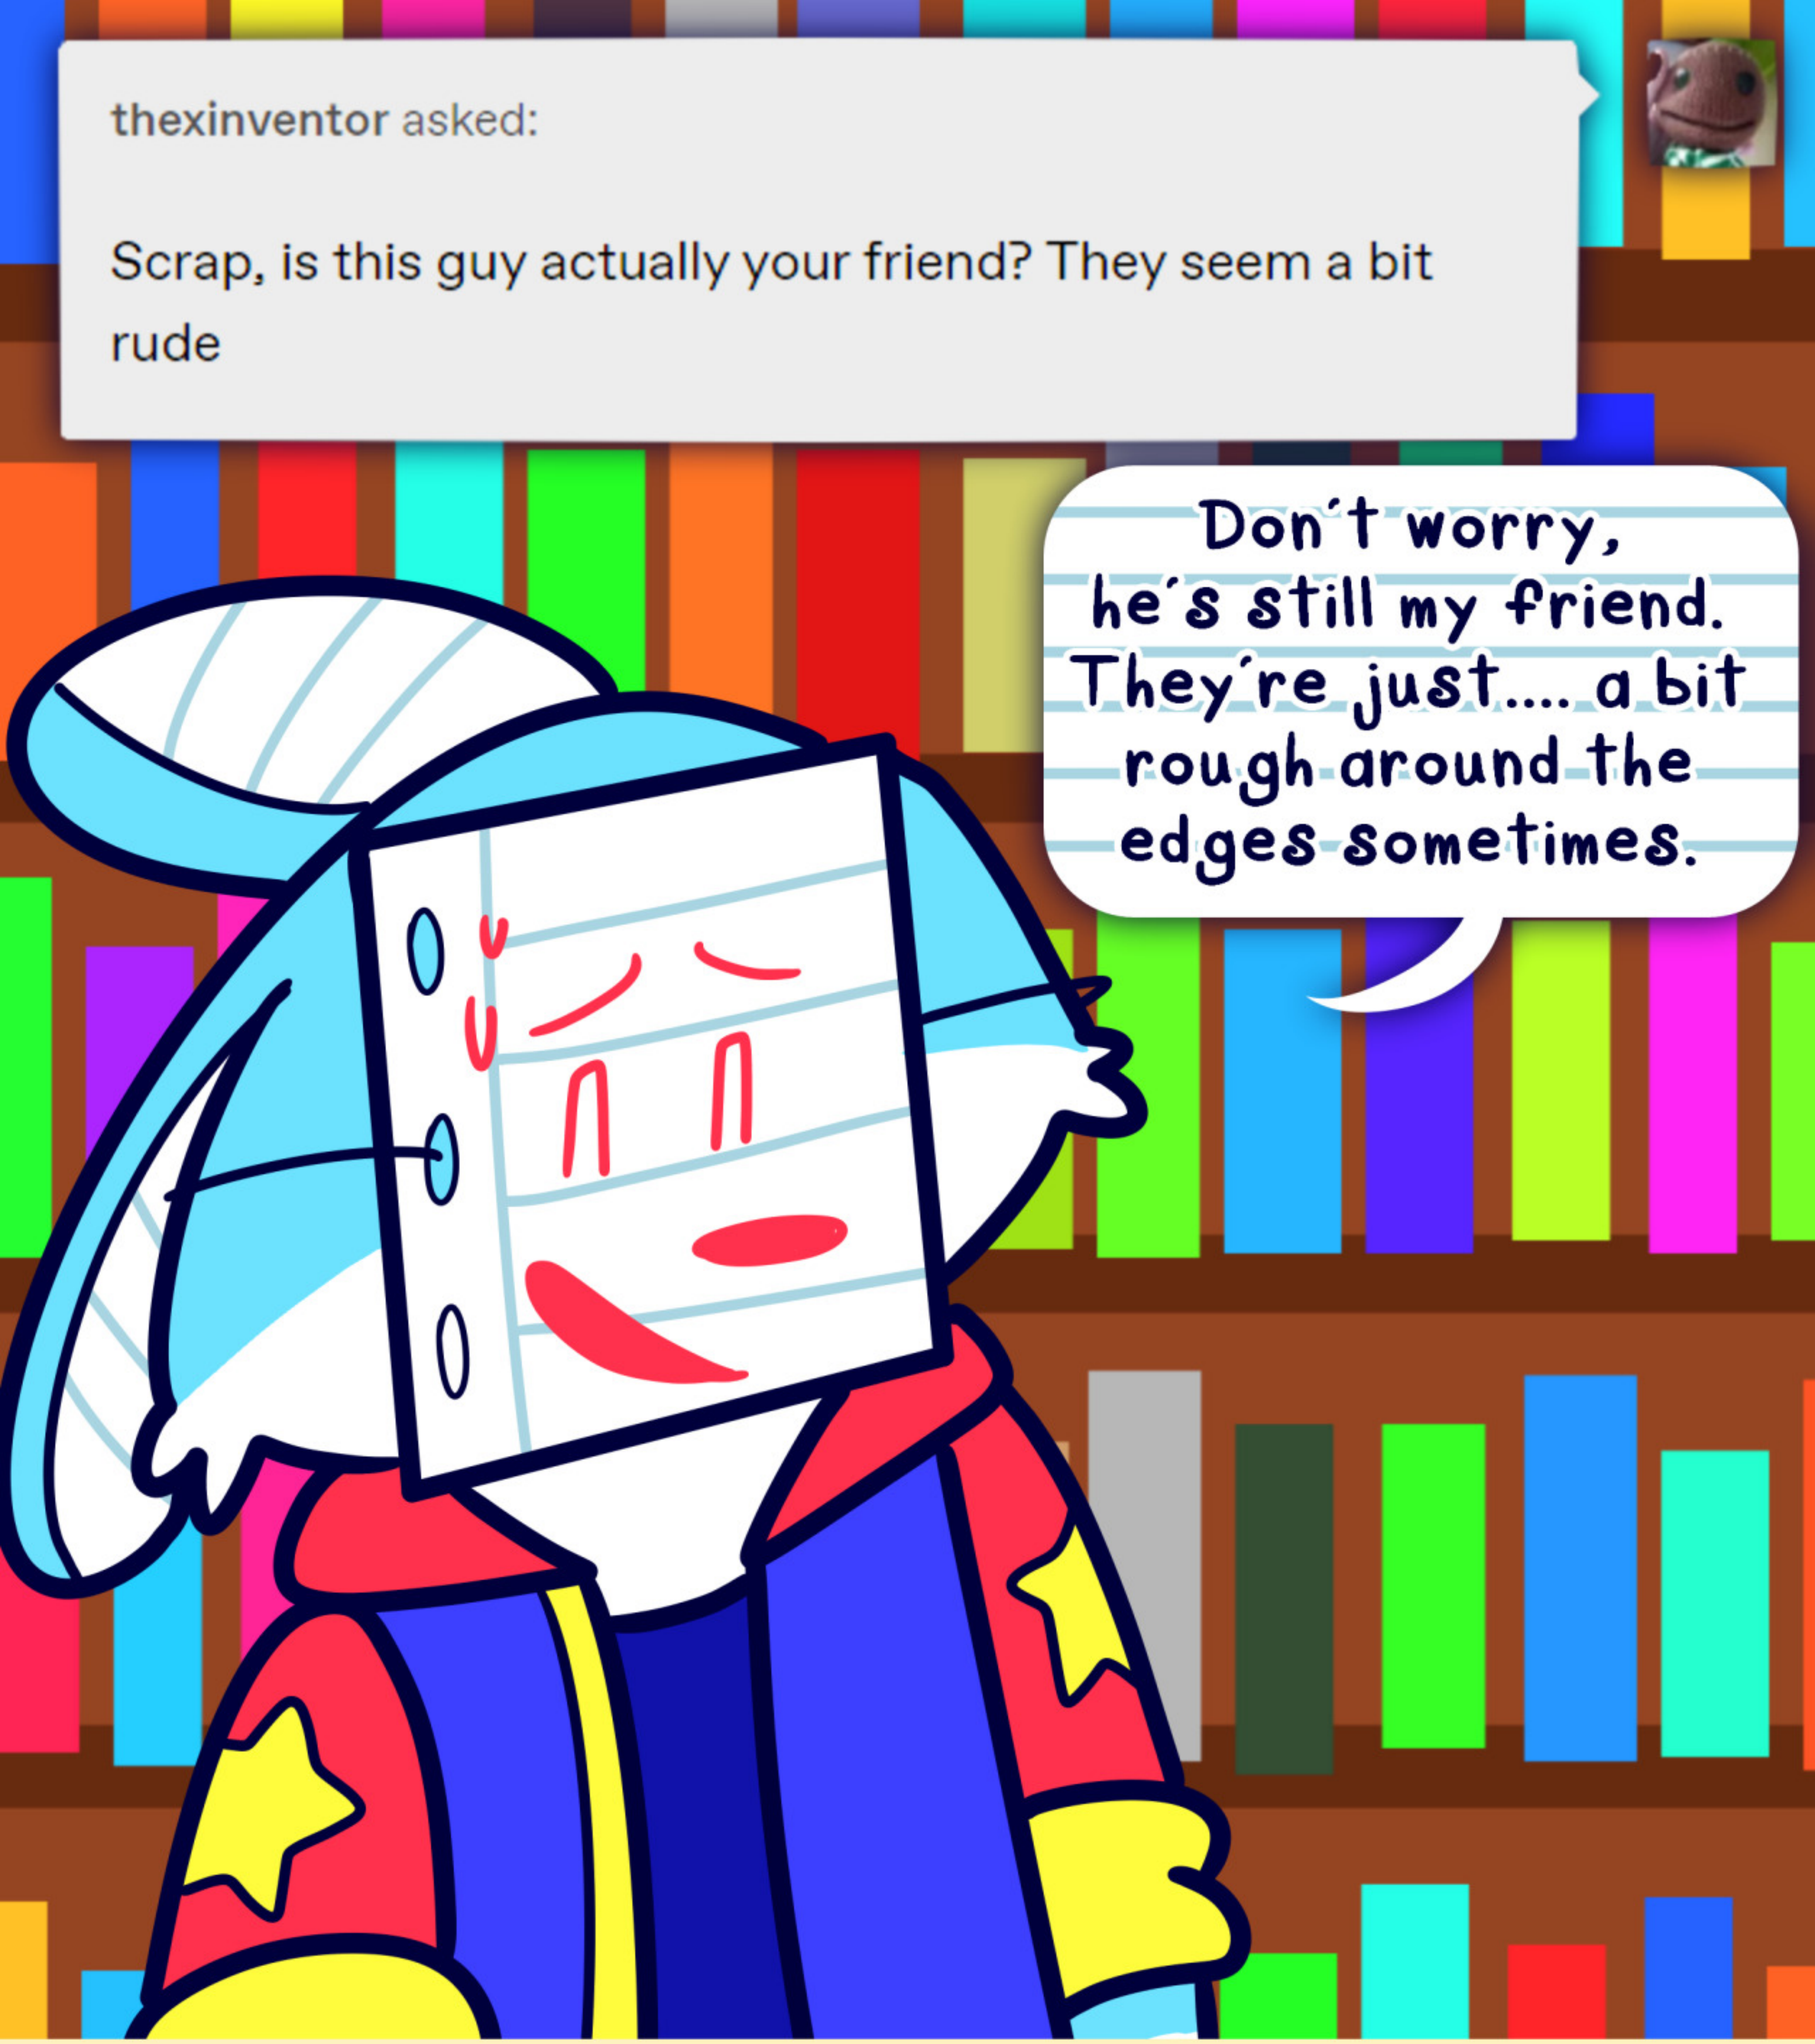
Are robanthries a kind of magic anthry ? Are you born with electromechanical parts or do you acquire them medically ? Do they grow with you ?

Yes, yes, yes, AND yes. Like I said, I was once totally organic, but I had some of my body parts "upgraded" to be electromechanical, like my eyes and vocal chords.
Robanthries are kind of a huge deal because it's the first time we've been able to make life without Emem. Some robanthries are built from scratch.



It's... actually kind of a major moral debate right now. A lot of people think giving any anthry the ability to create life defies the purpose of Emem selectively choosing safe homes for families. Emem has no say in it because obviously he can't control what we do, but I guess I understand the concerns.

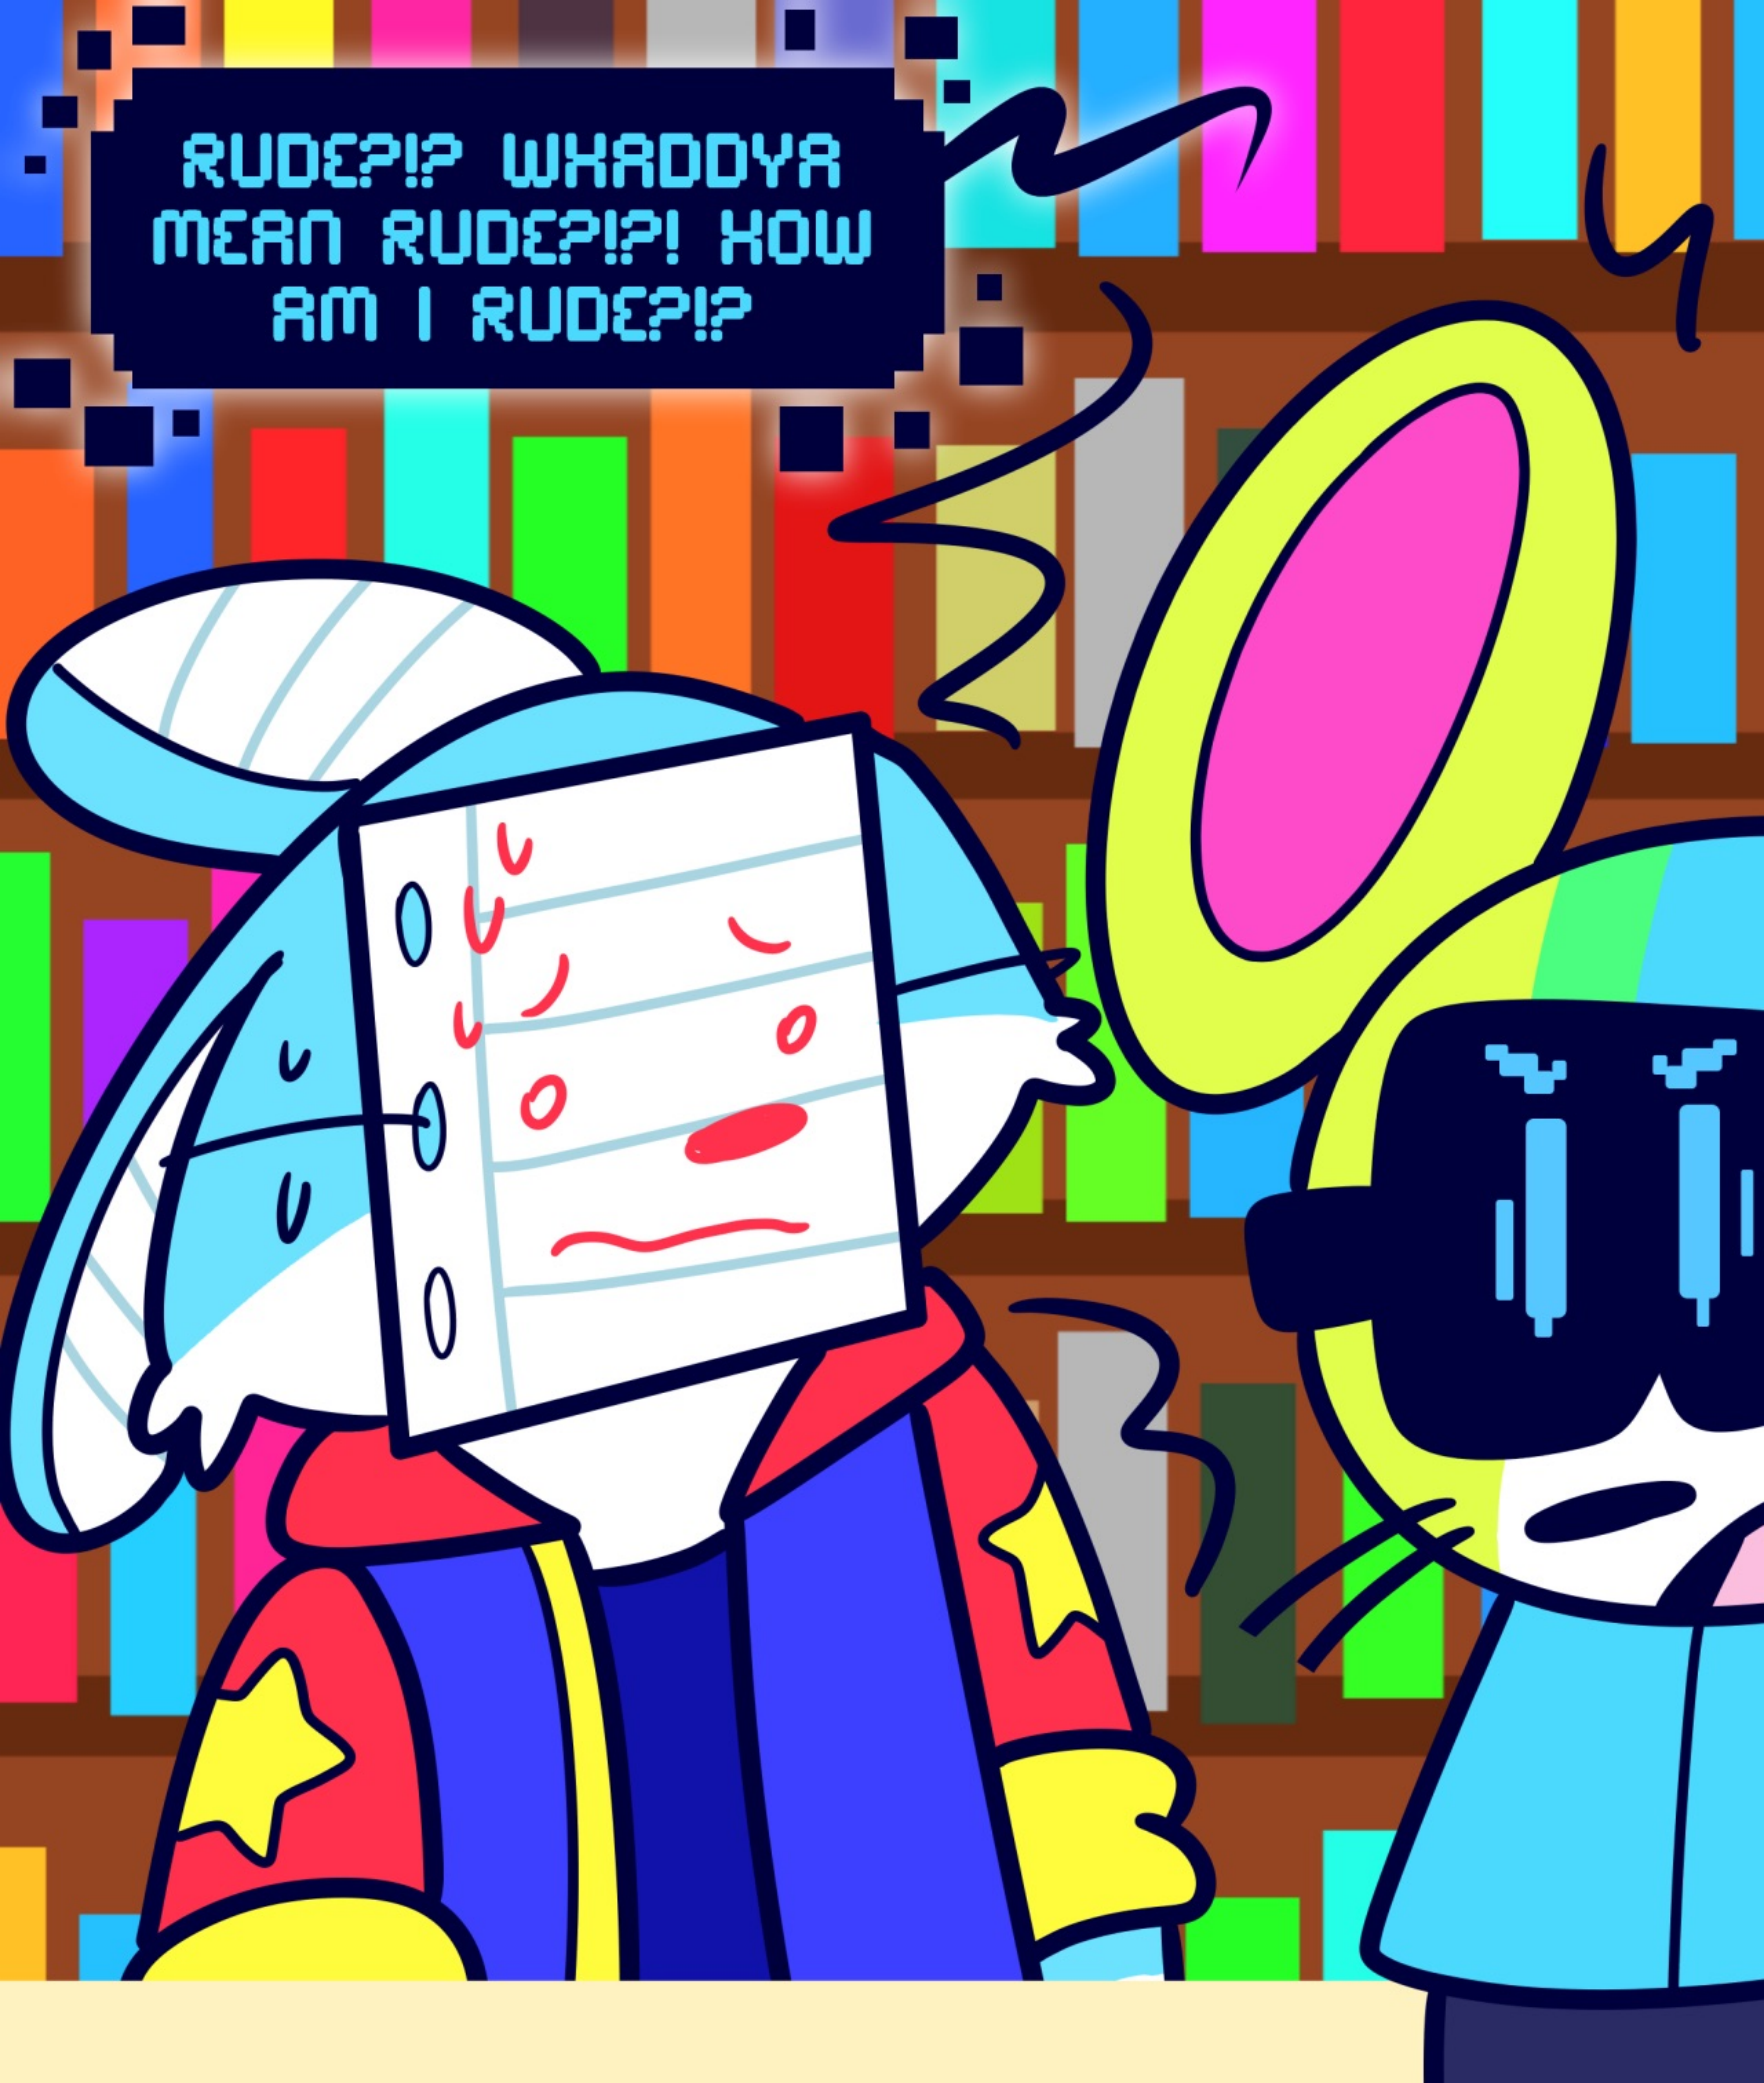
That's more about "from scratch" life, though. Modifications like the ones I have aren't really part of that conversation despite being related.



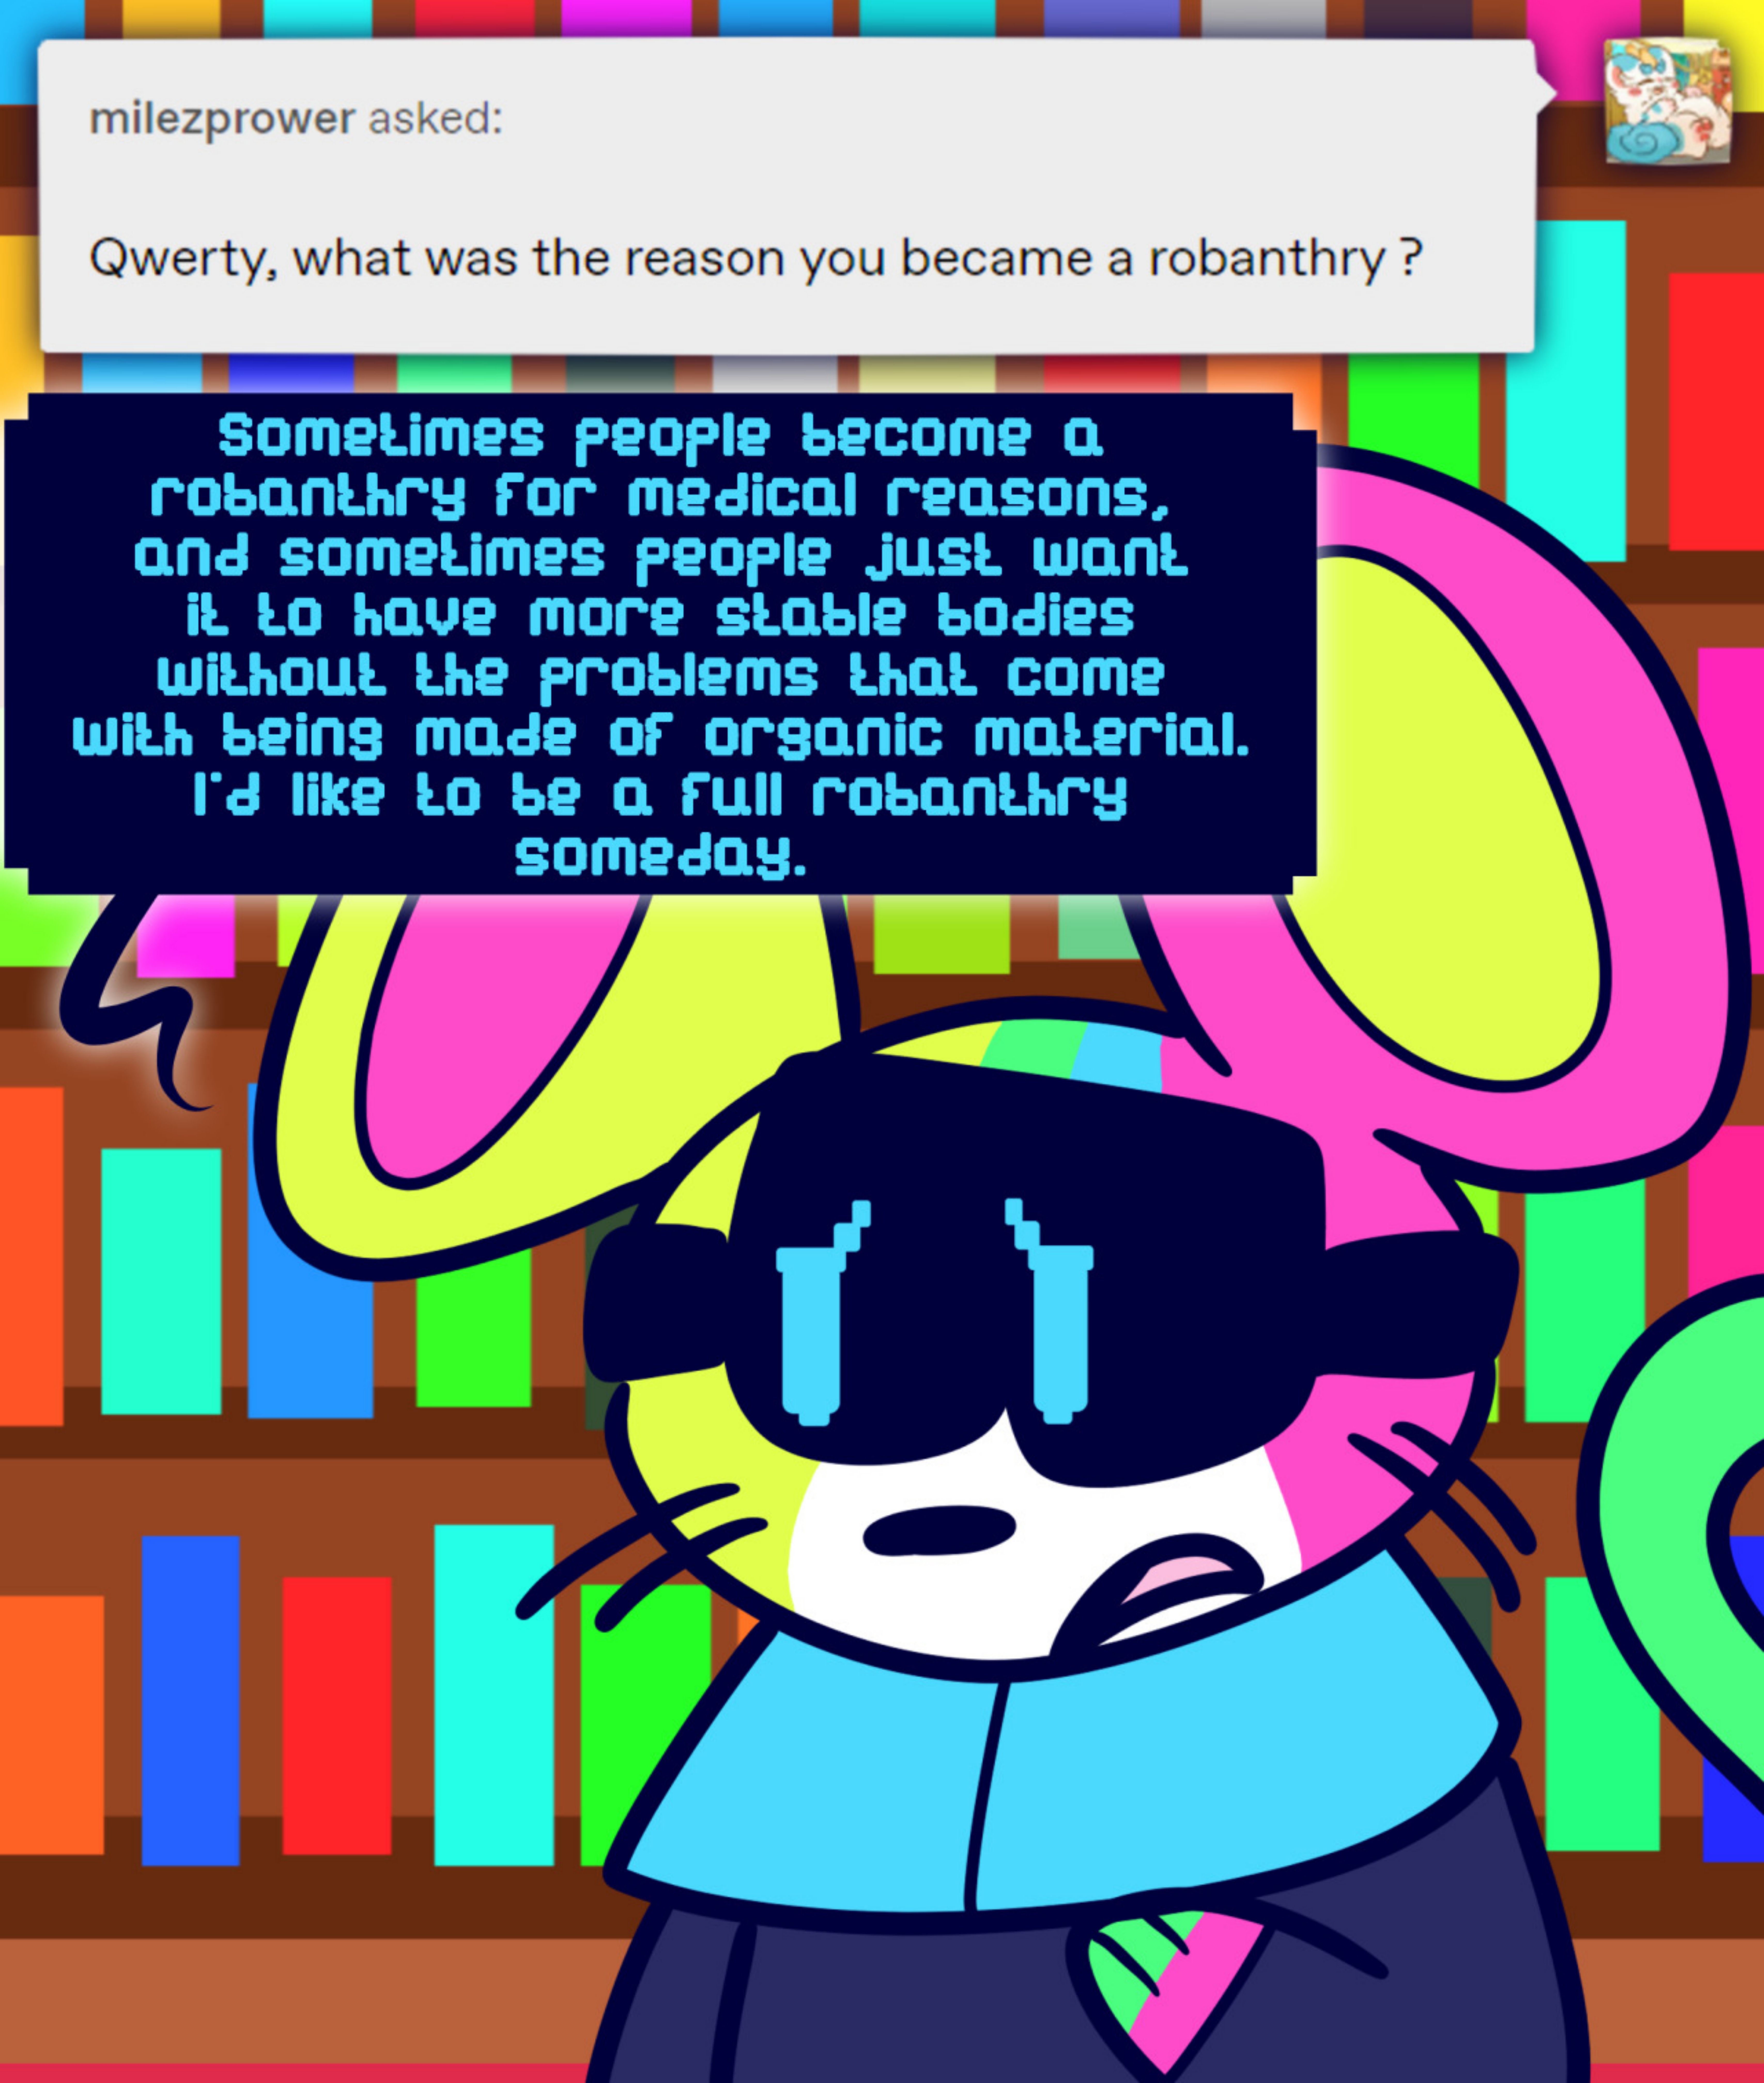
thexinventor asked:

Scrap, is this guy actually your friend? They seem a bit rude

Don't worry, he's still my friend. They're just.... a bit rough around the edges sometimes.



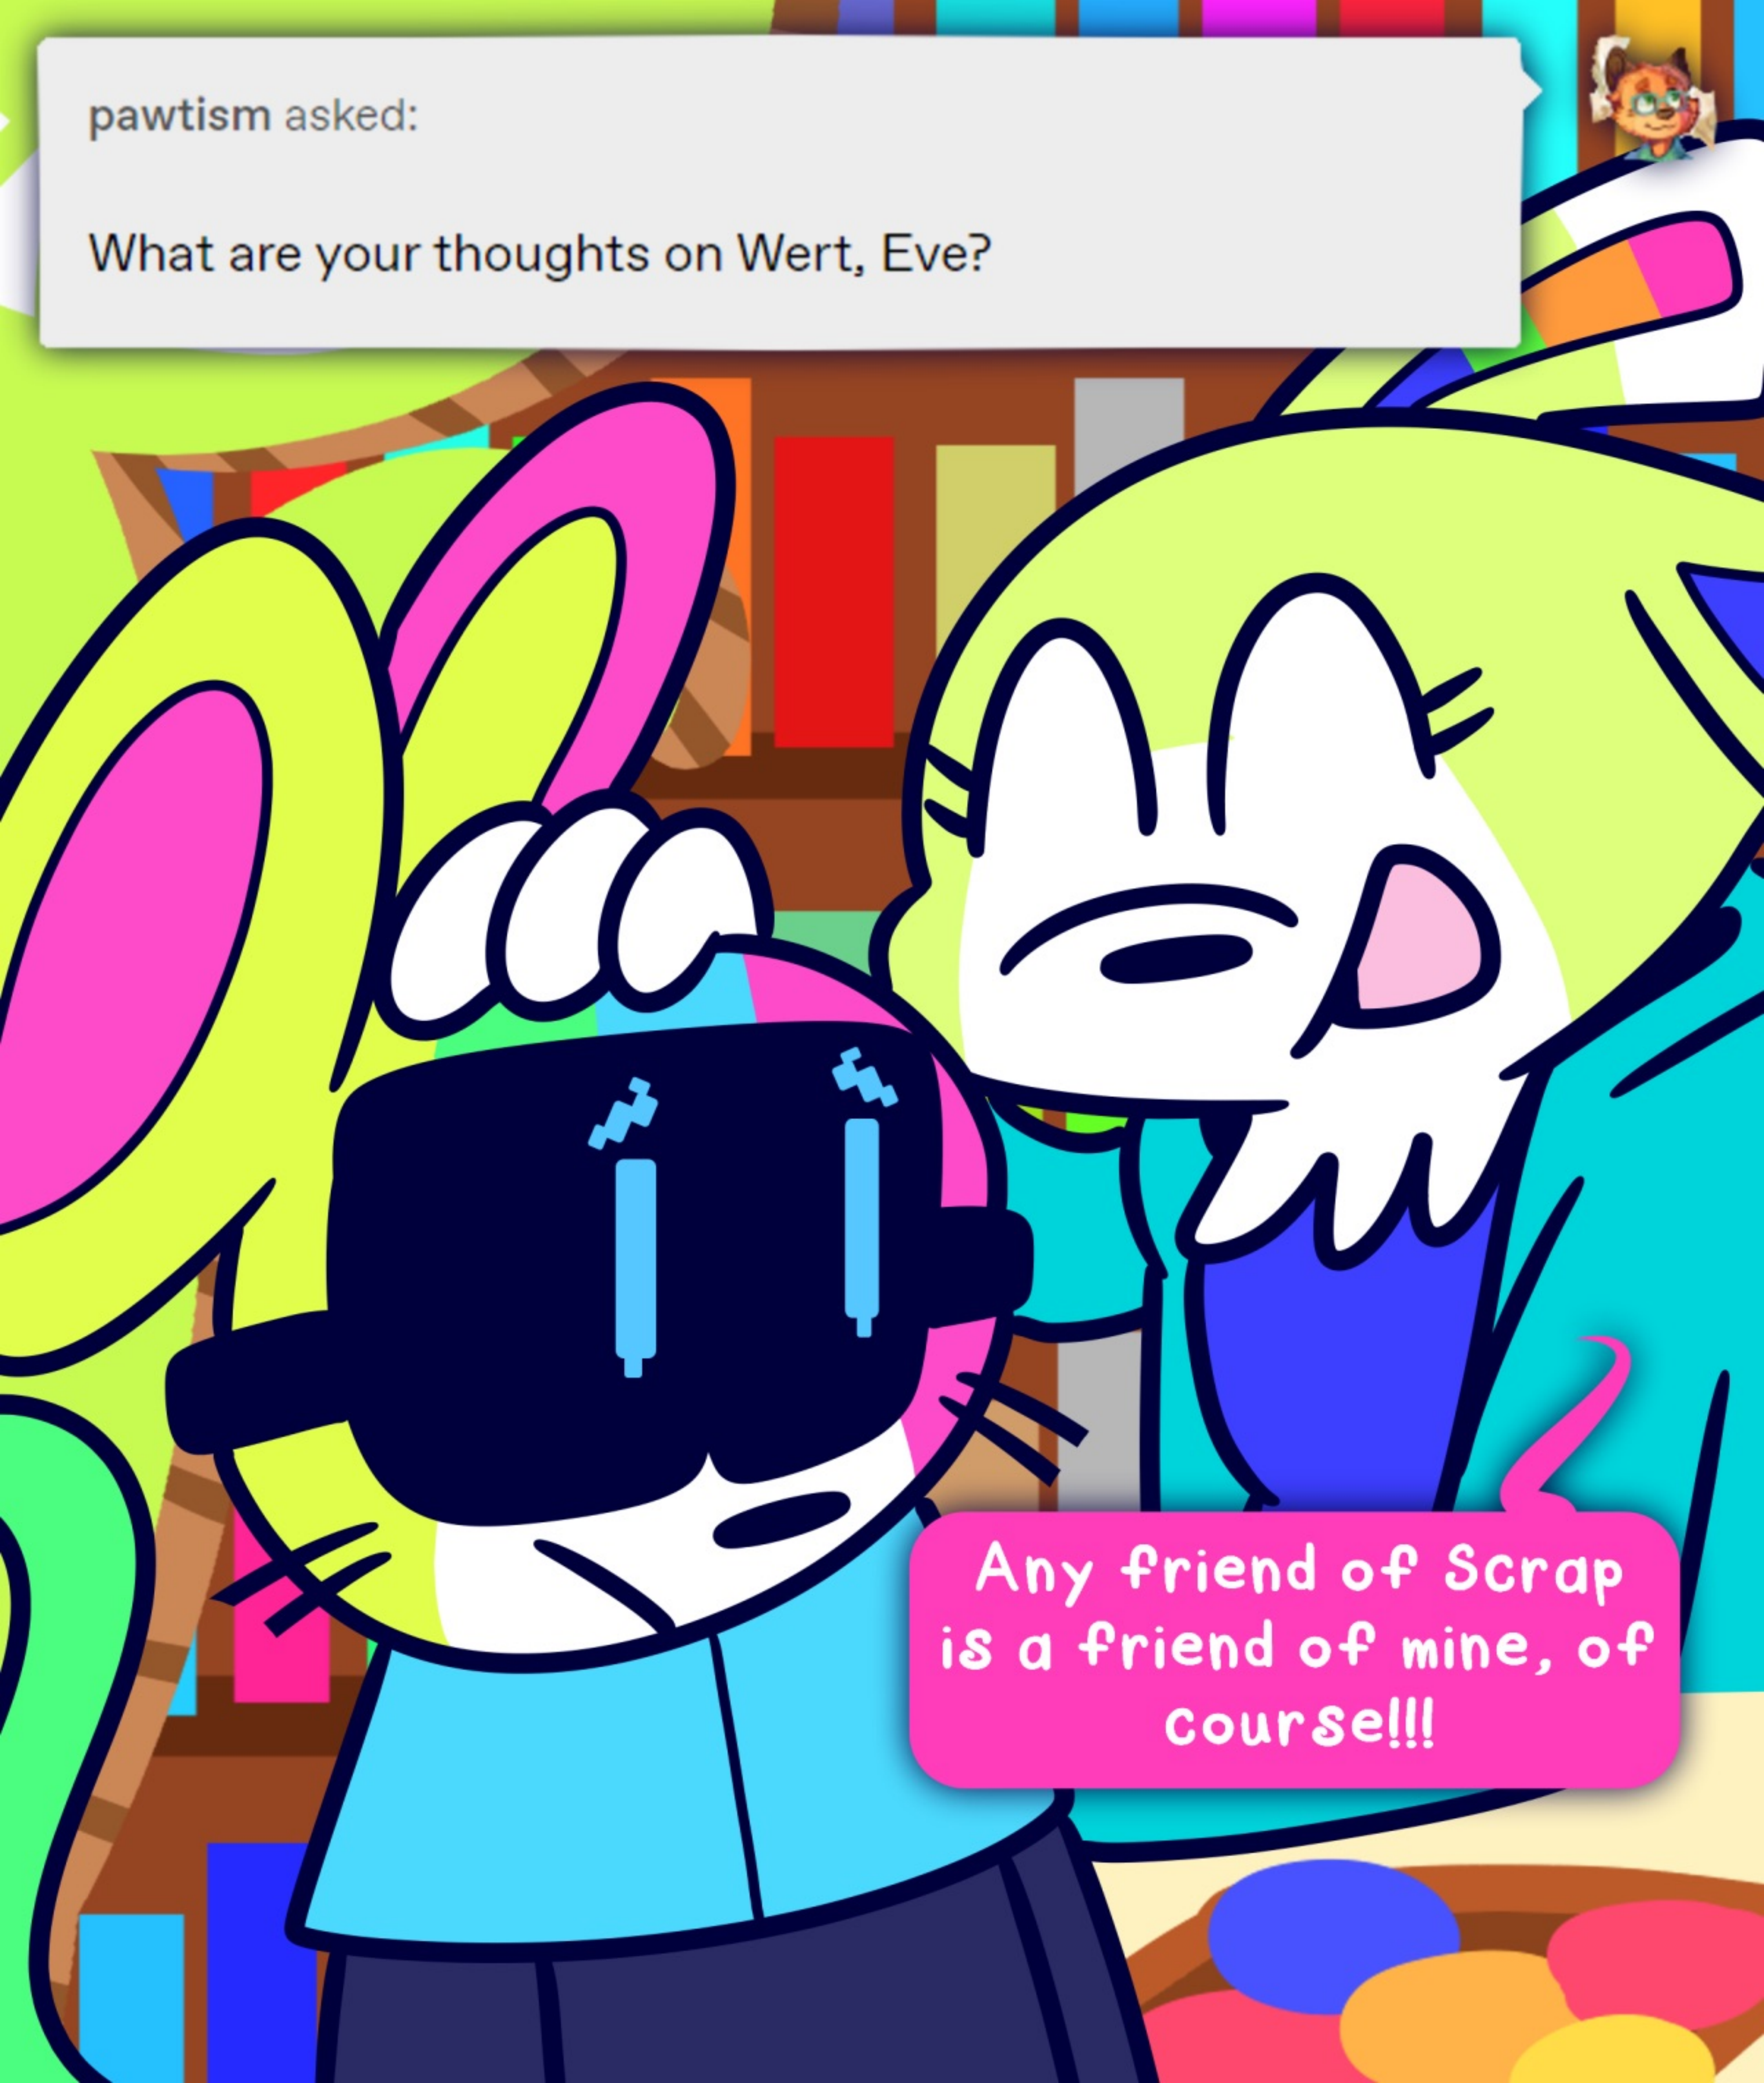
RUDE?!? WHADDYA MEAN RUDE?!?! HOW AM I RUDE?!?



milezprower asked:

Qwerty, what was the reason you became a robanthry ?

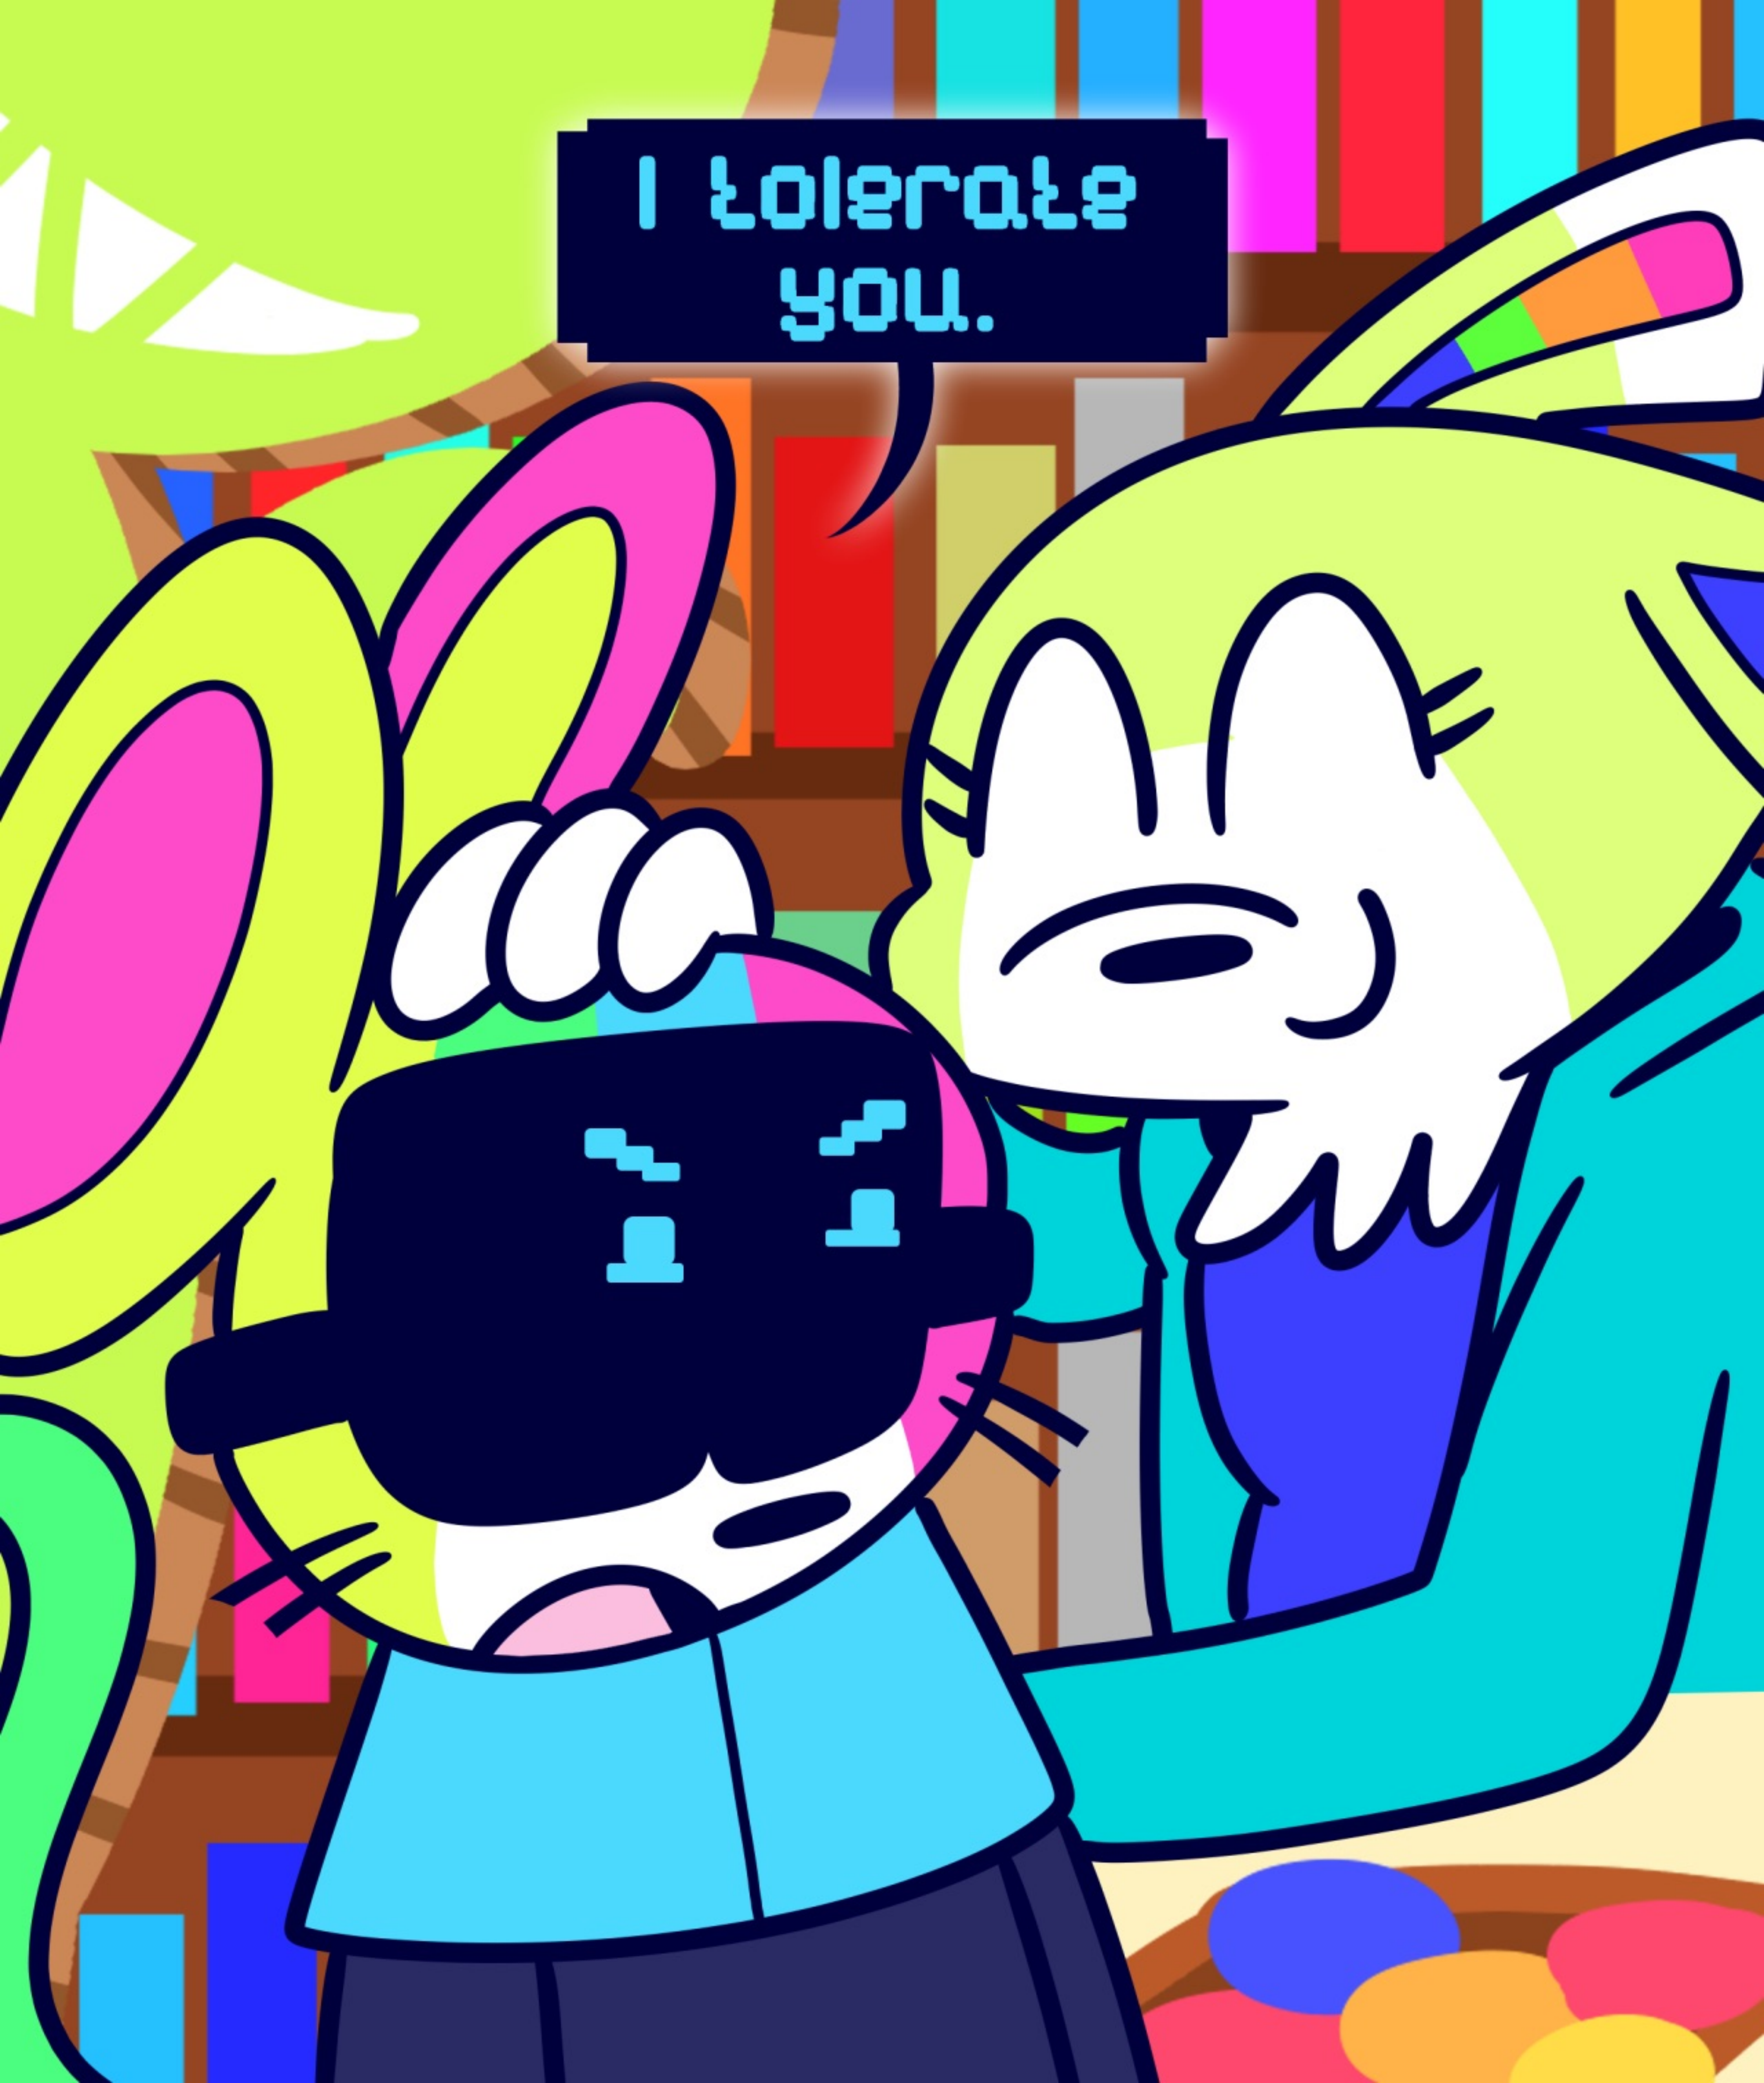
Sometimes people become a robanthry for medical reasons, and sometimes people just want it to have more stable bodies without the problems that come with being made of organic material. I'd like to be a full robanthry someday.



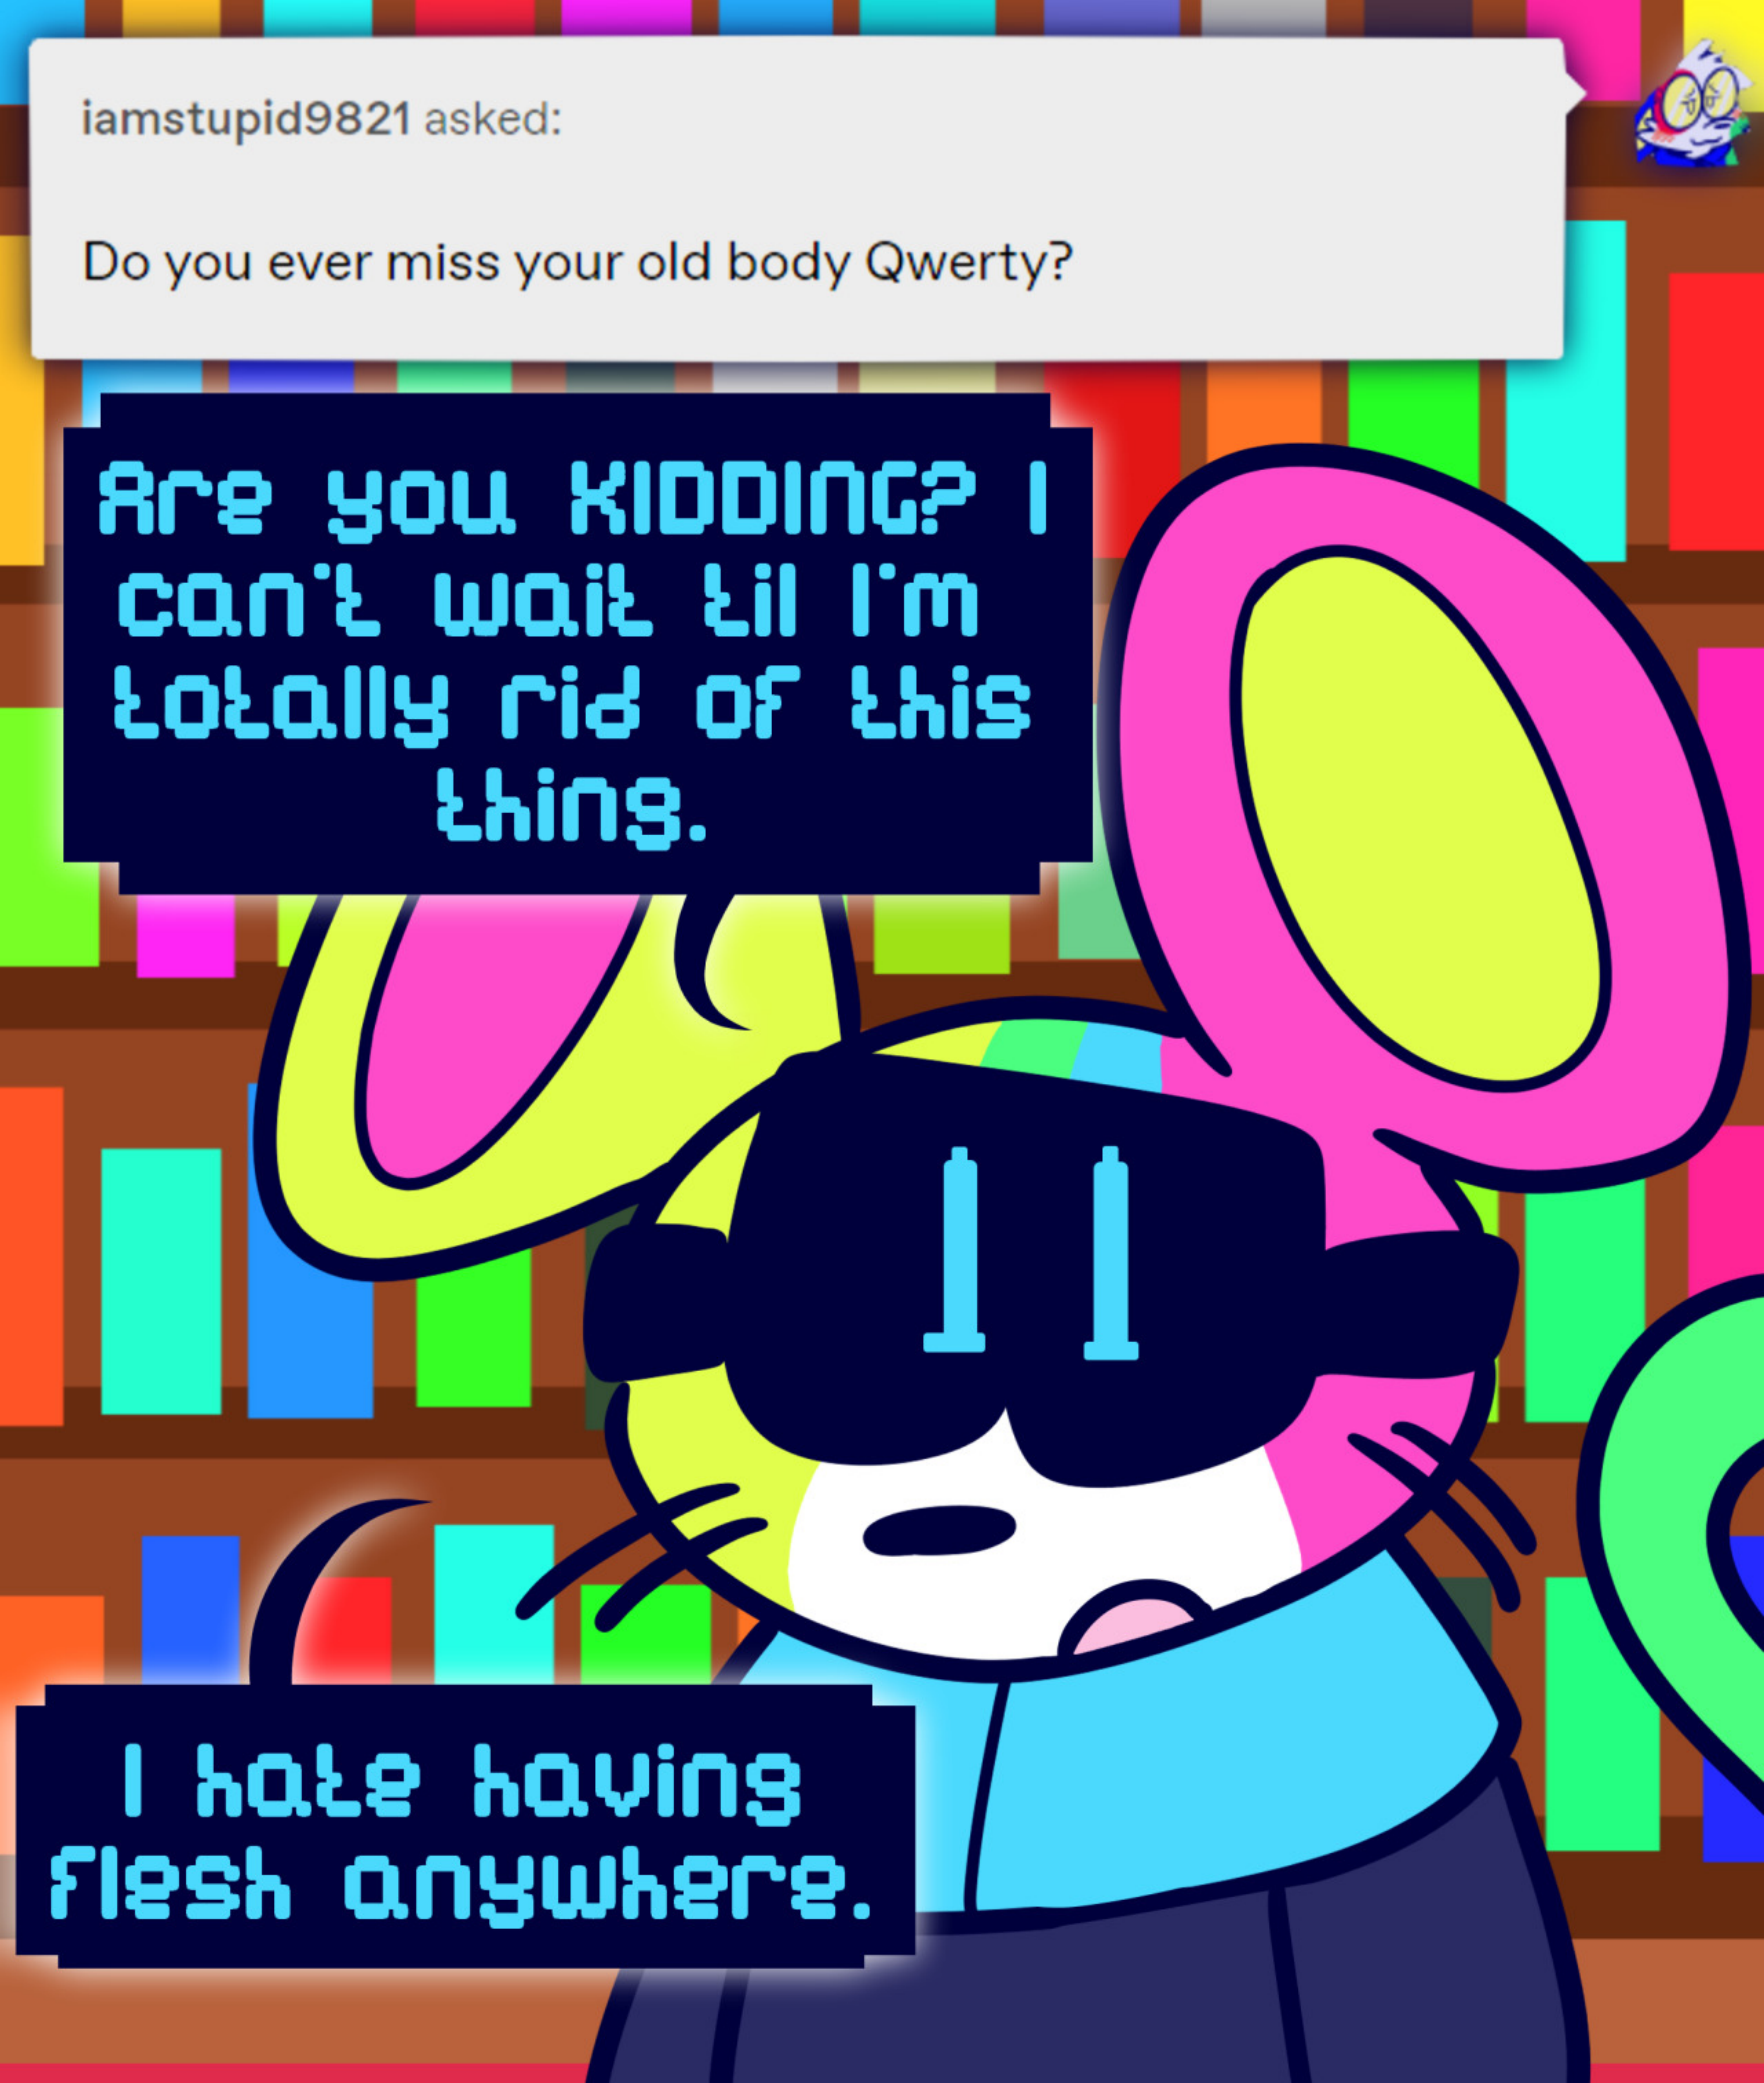
pawtism asked:

What are your thoughts on Wert, Eve?

Any friend of Scrap is a friend of mine, of course!!!



I tolerate you.



iamstupid9821 asked:

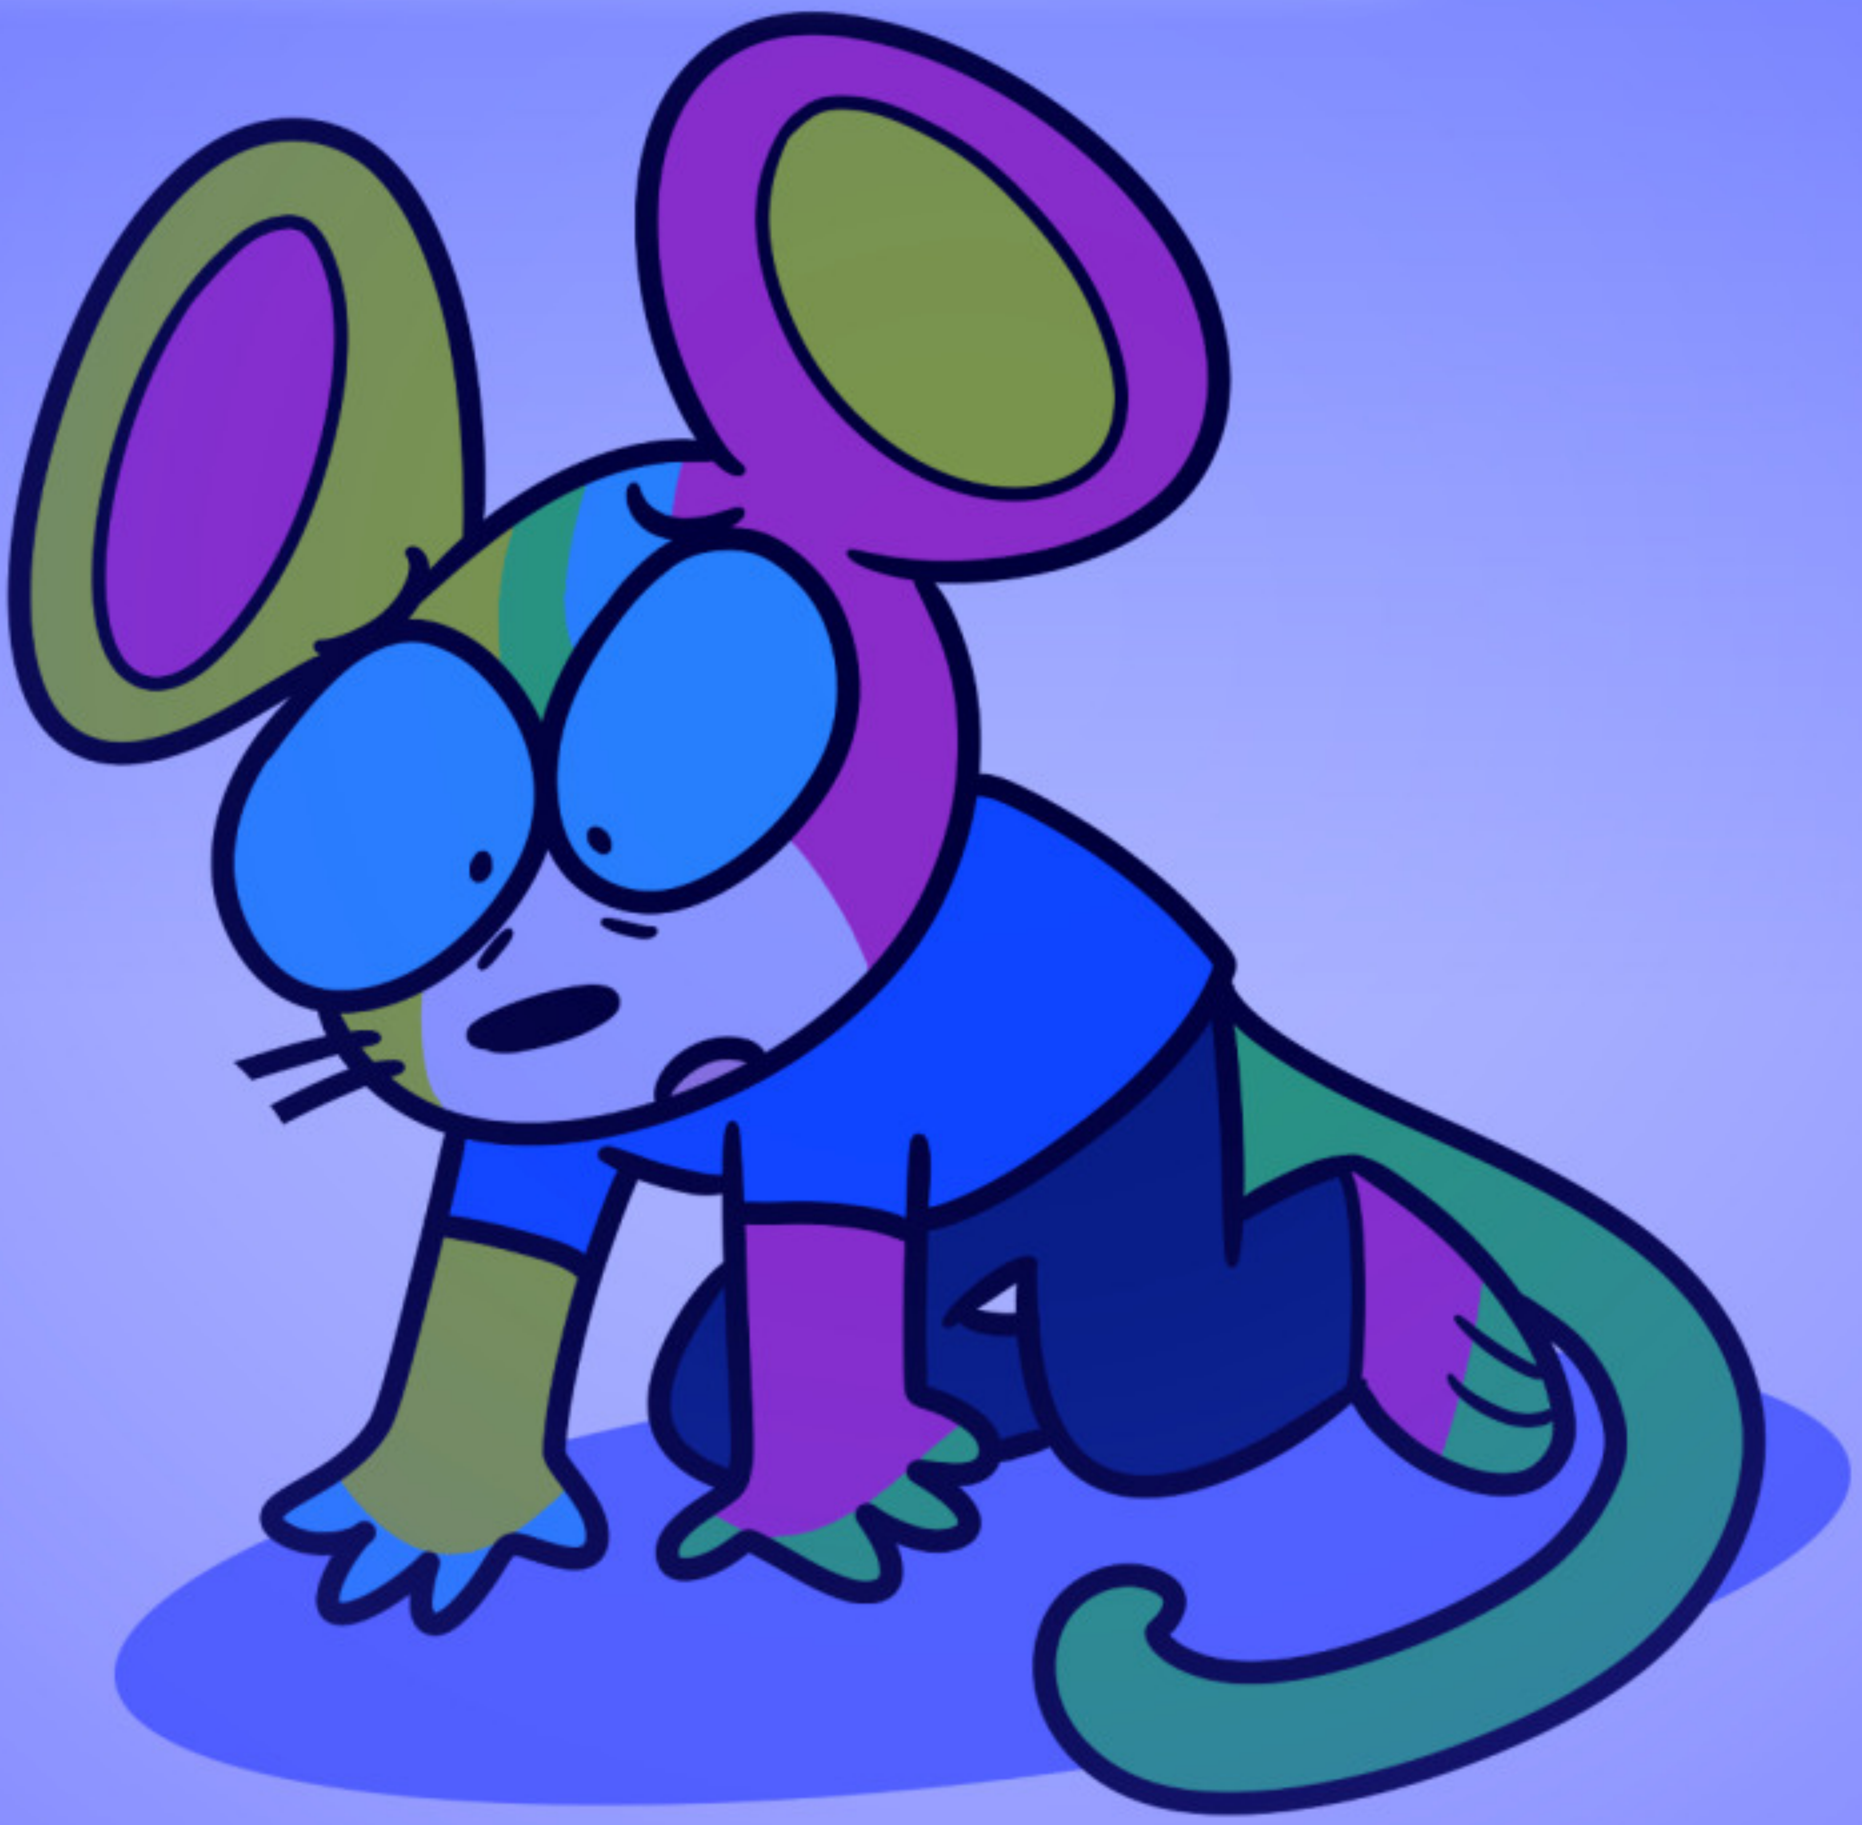
Do you ever miss your old body Qwerty?

Are you KIDDING? I can't wait til I'm totally rid of this thing.
I hate having flesh anywhere.

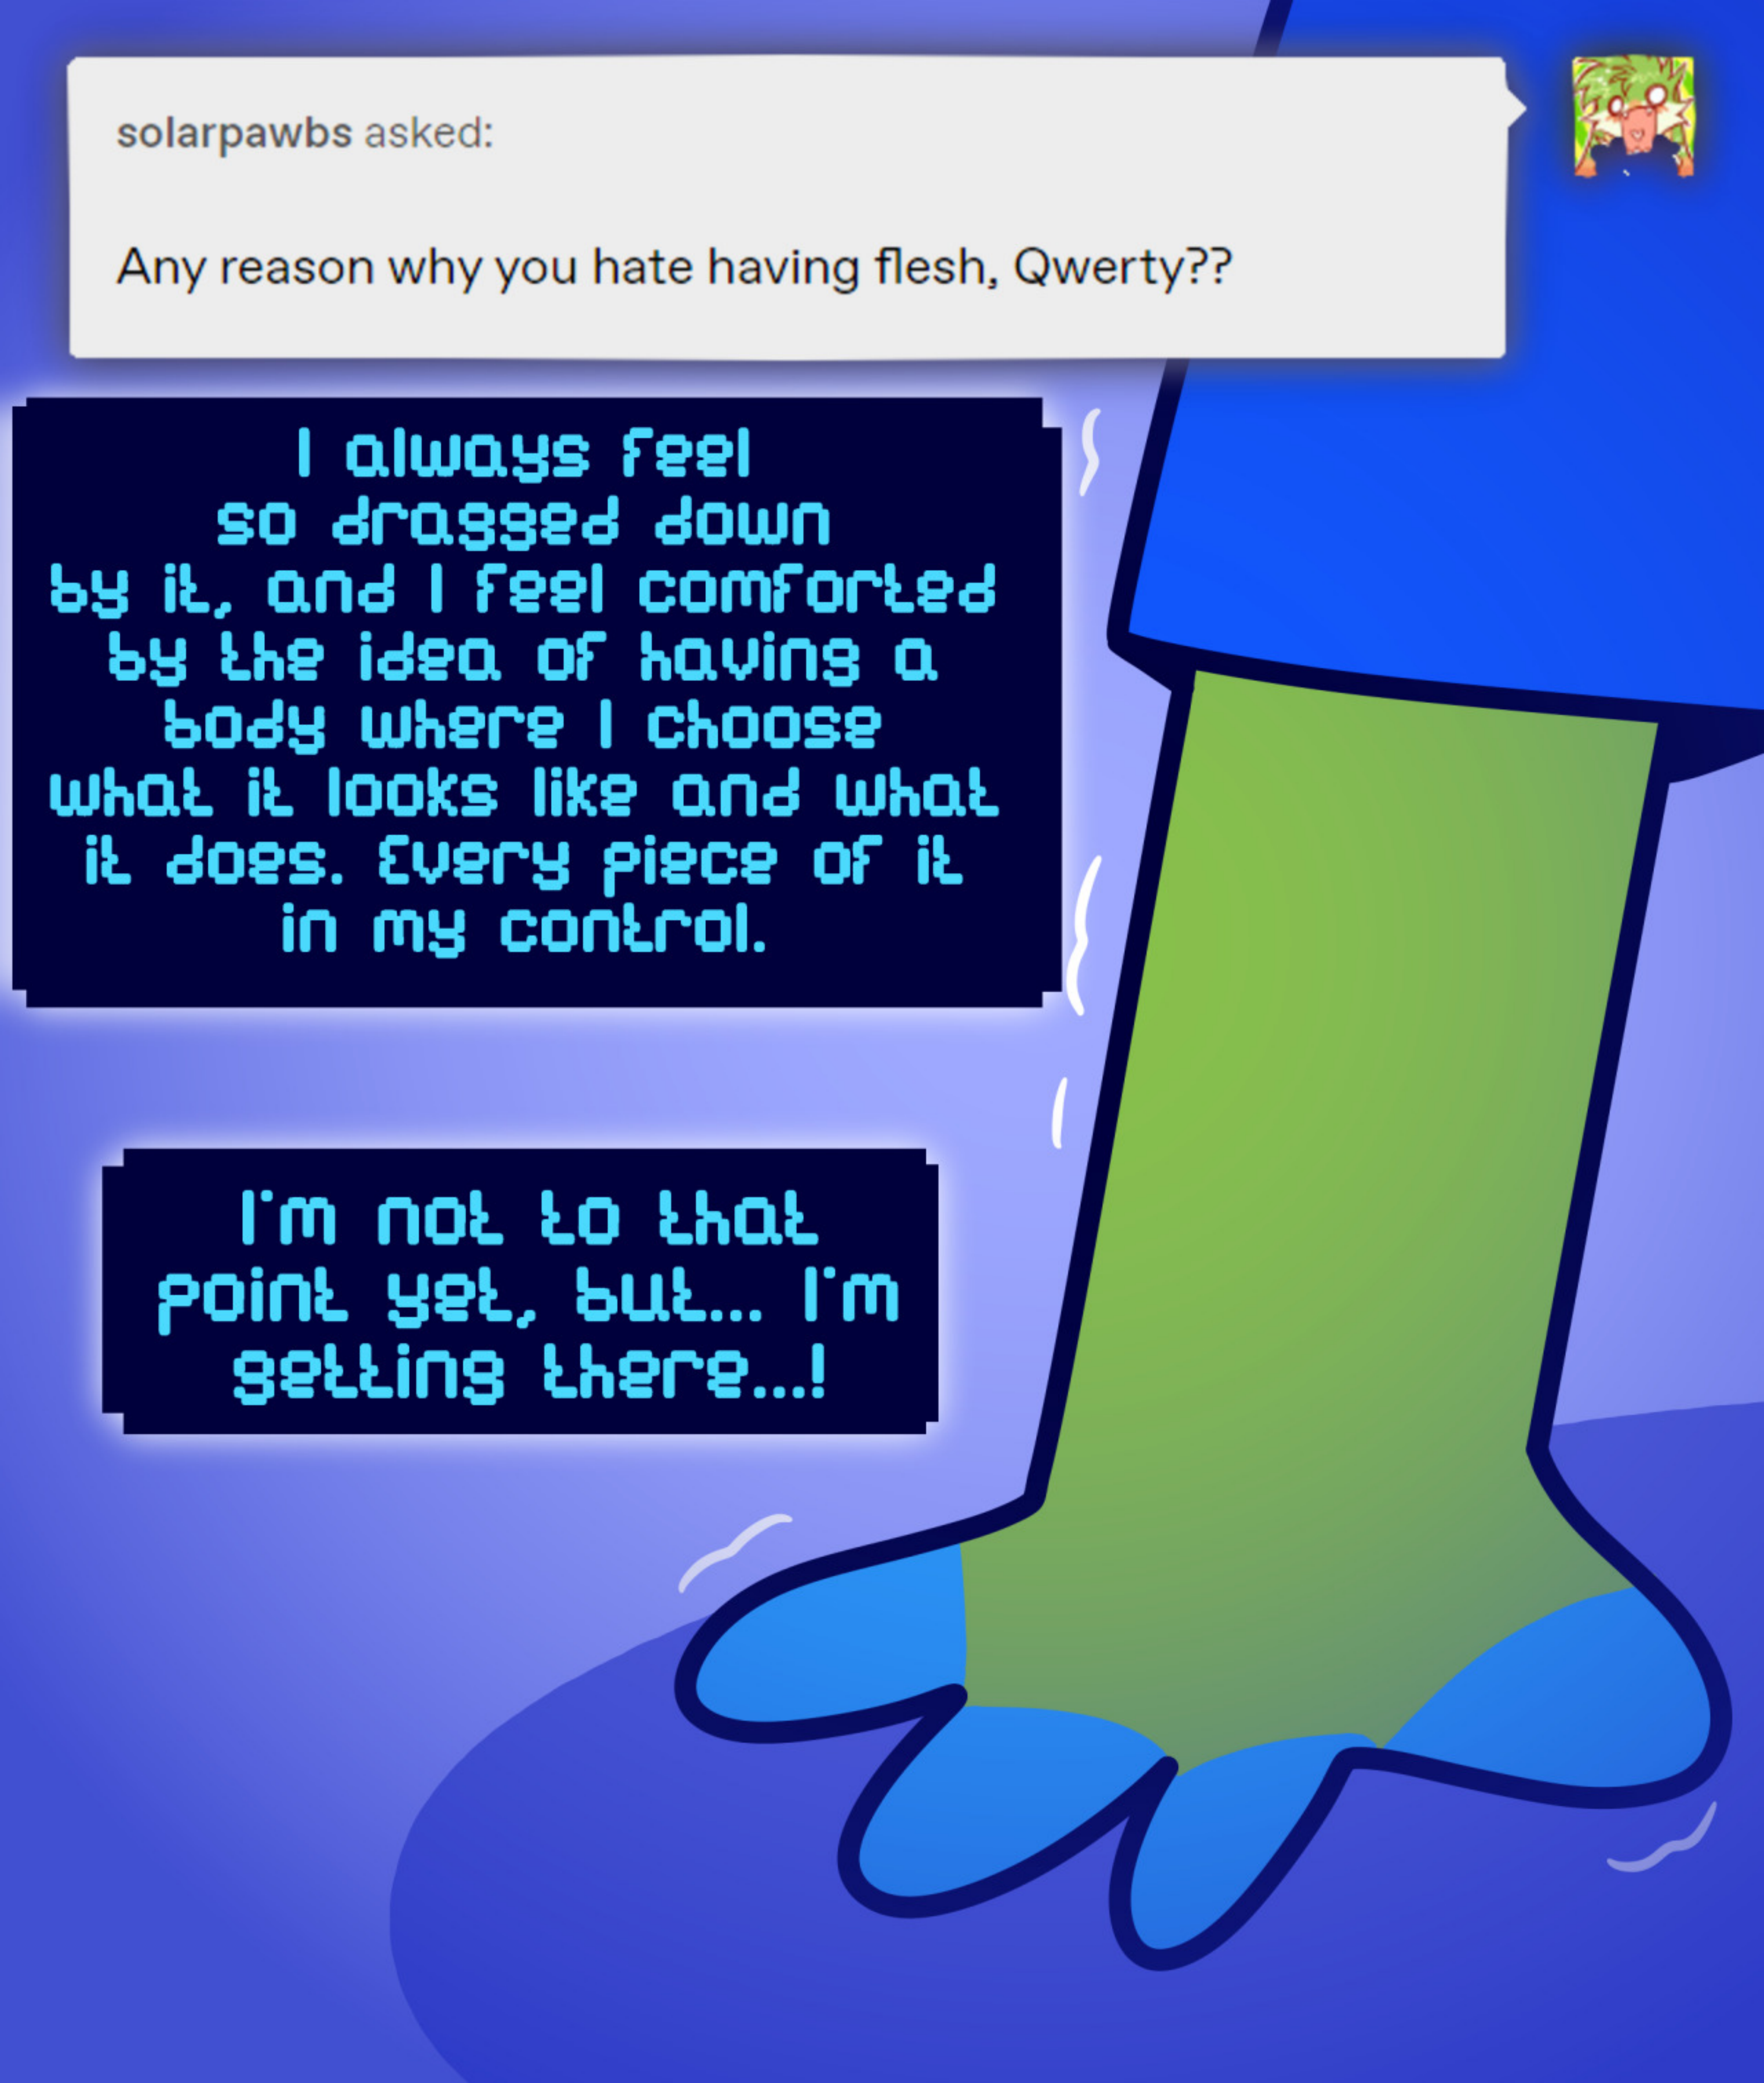
solarpawbs asked:

Any reason why you hate having flesh, Qwerty??

Ever since I was a kid my body always felt... too restricted. I felt so limited by it.



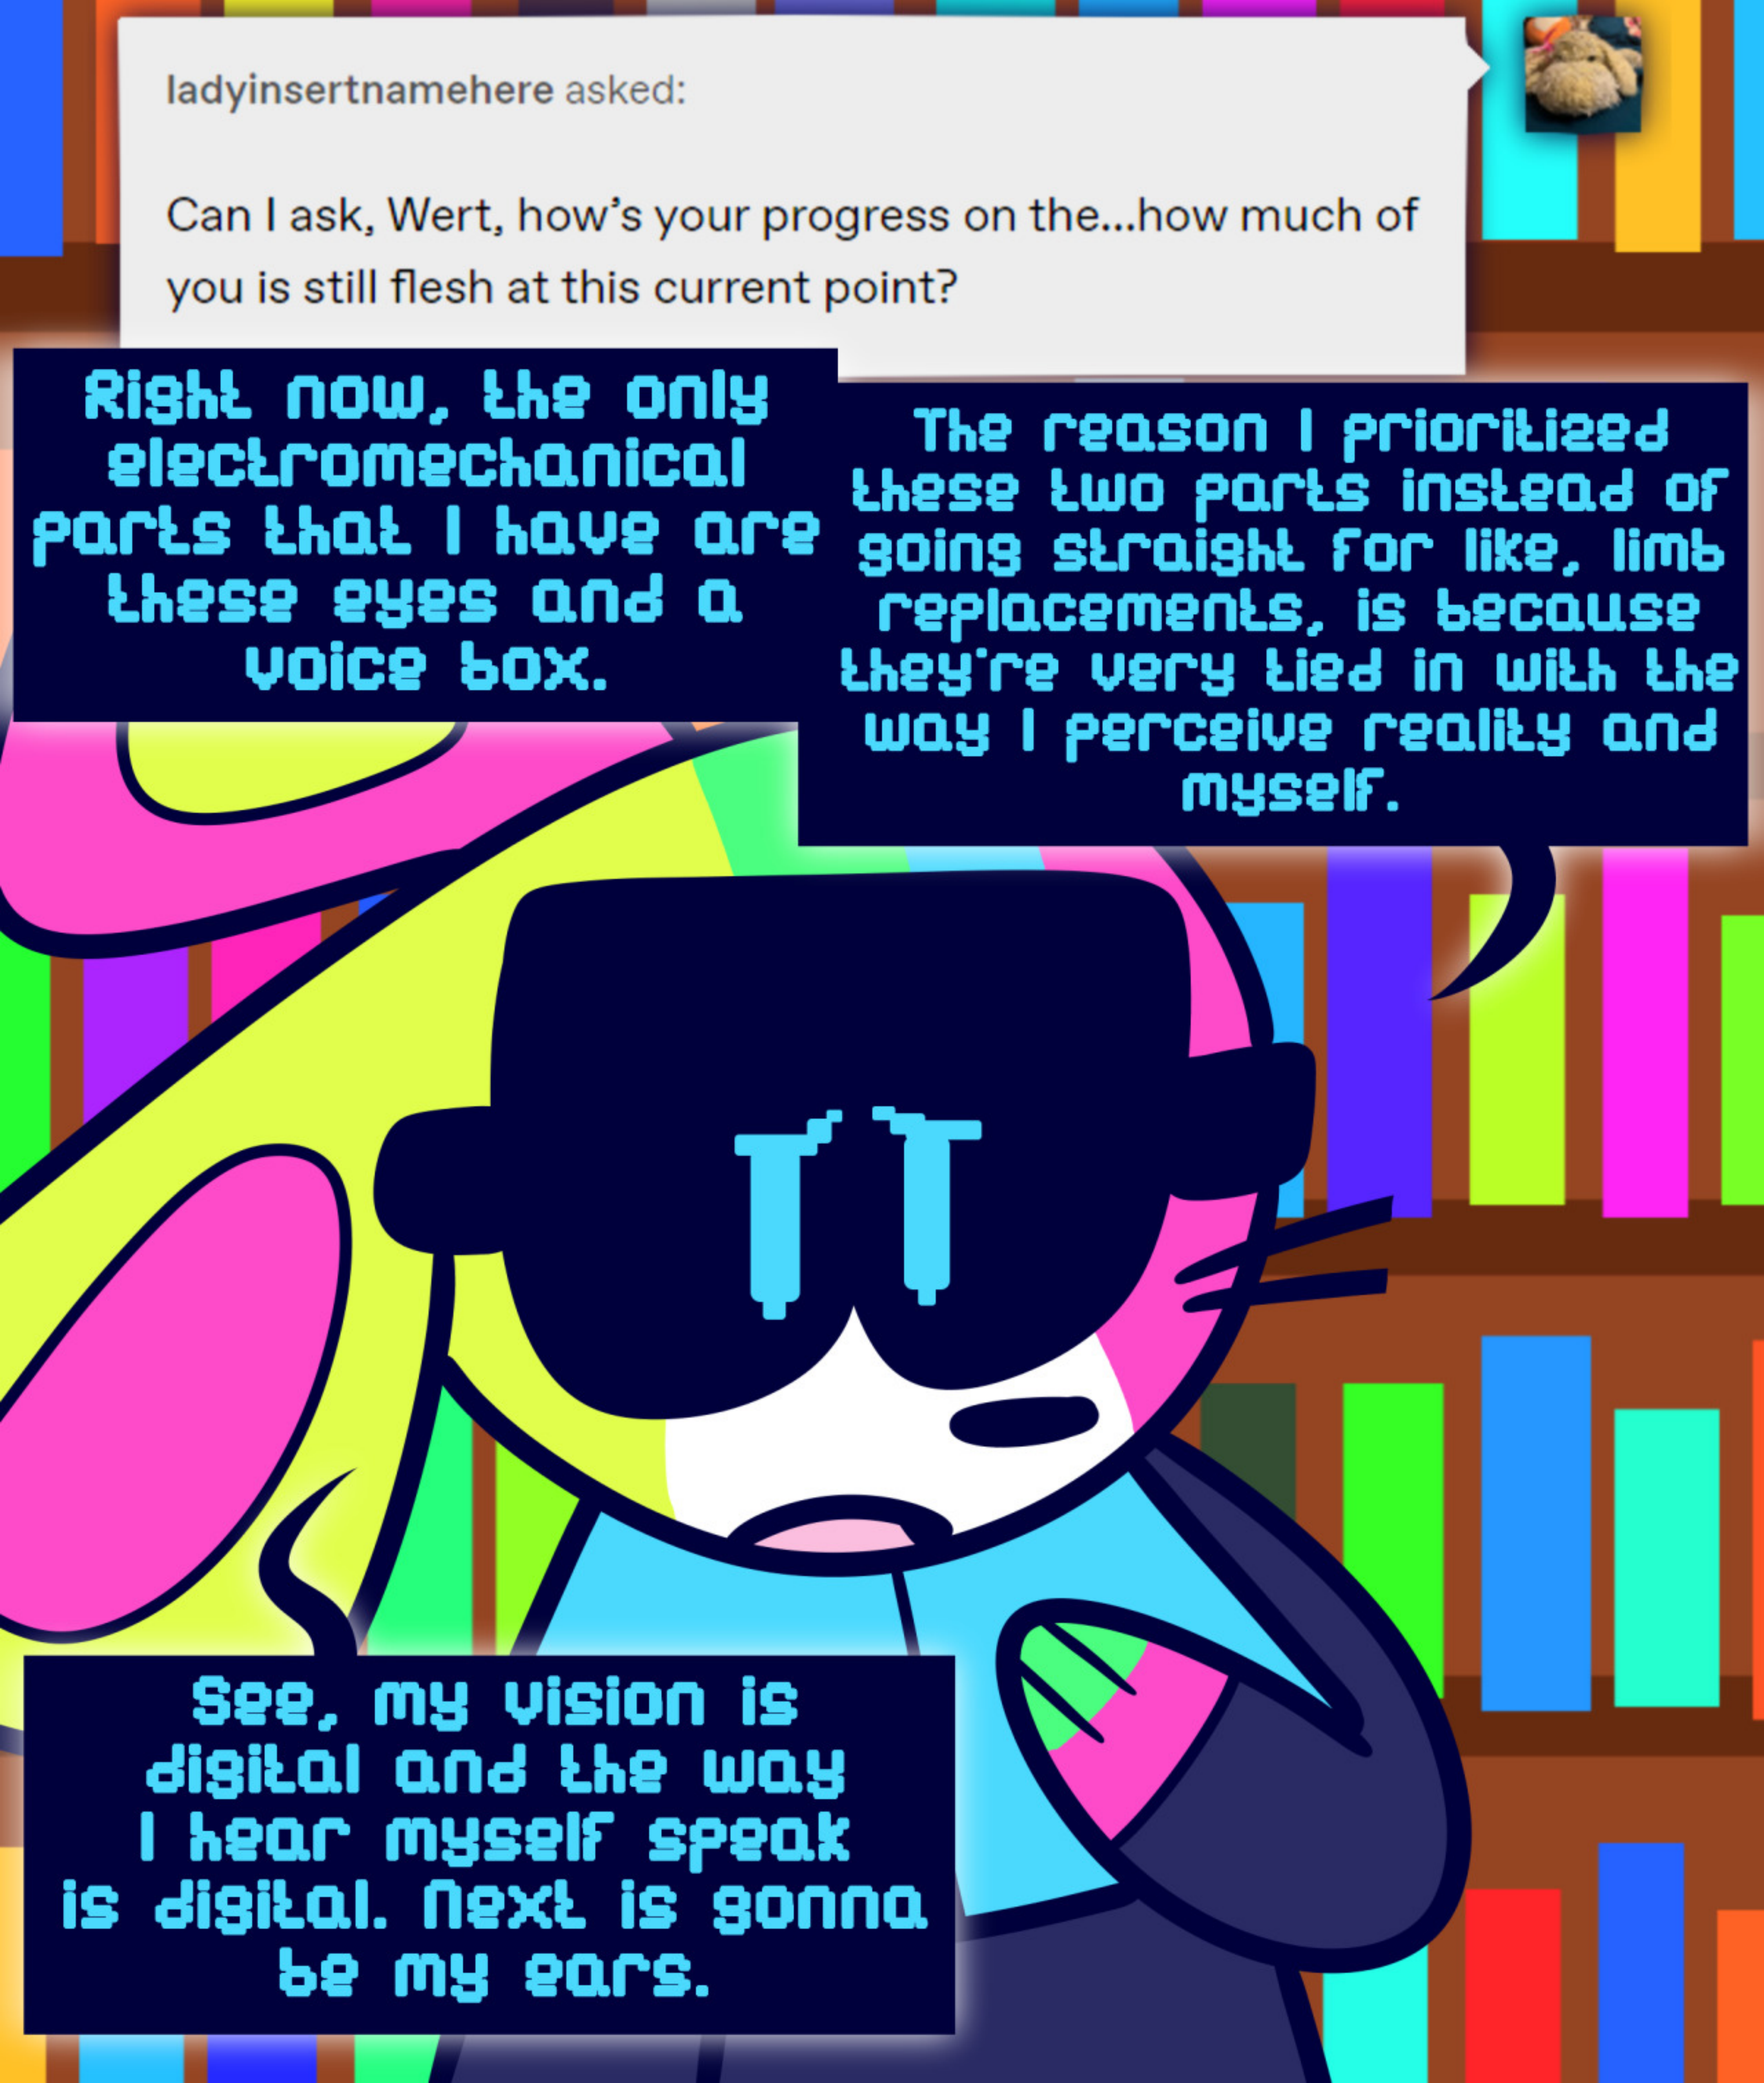
Like I was... trapped? I guess? In something that didn't really belong to me.



solarpawbs asked:

Any reason why you hate having flesh, Qwerty??

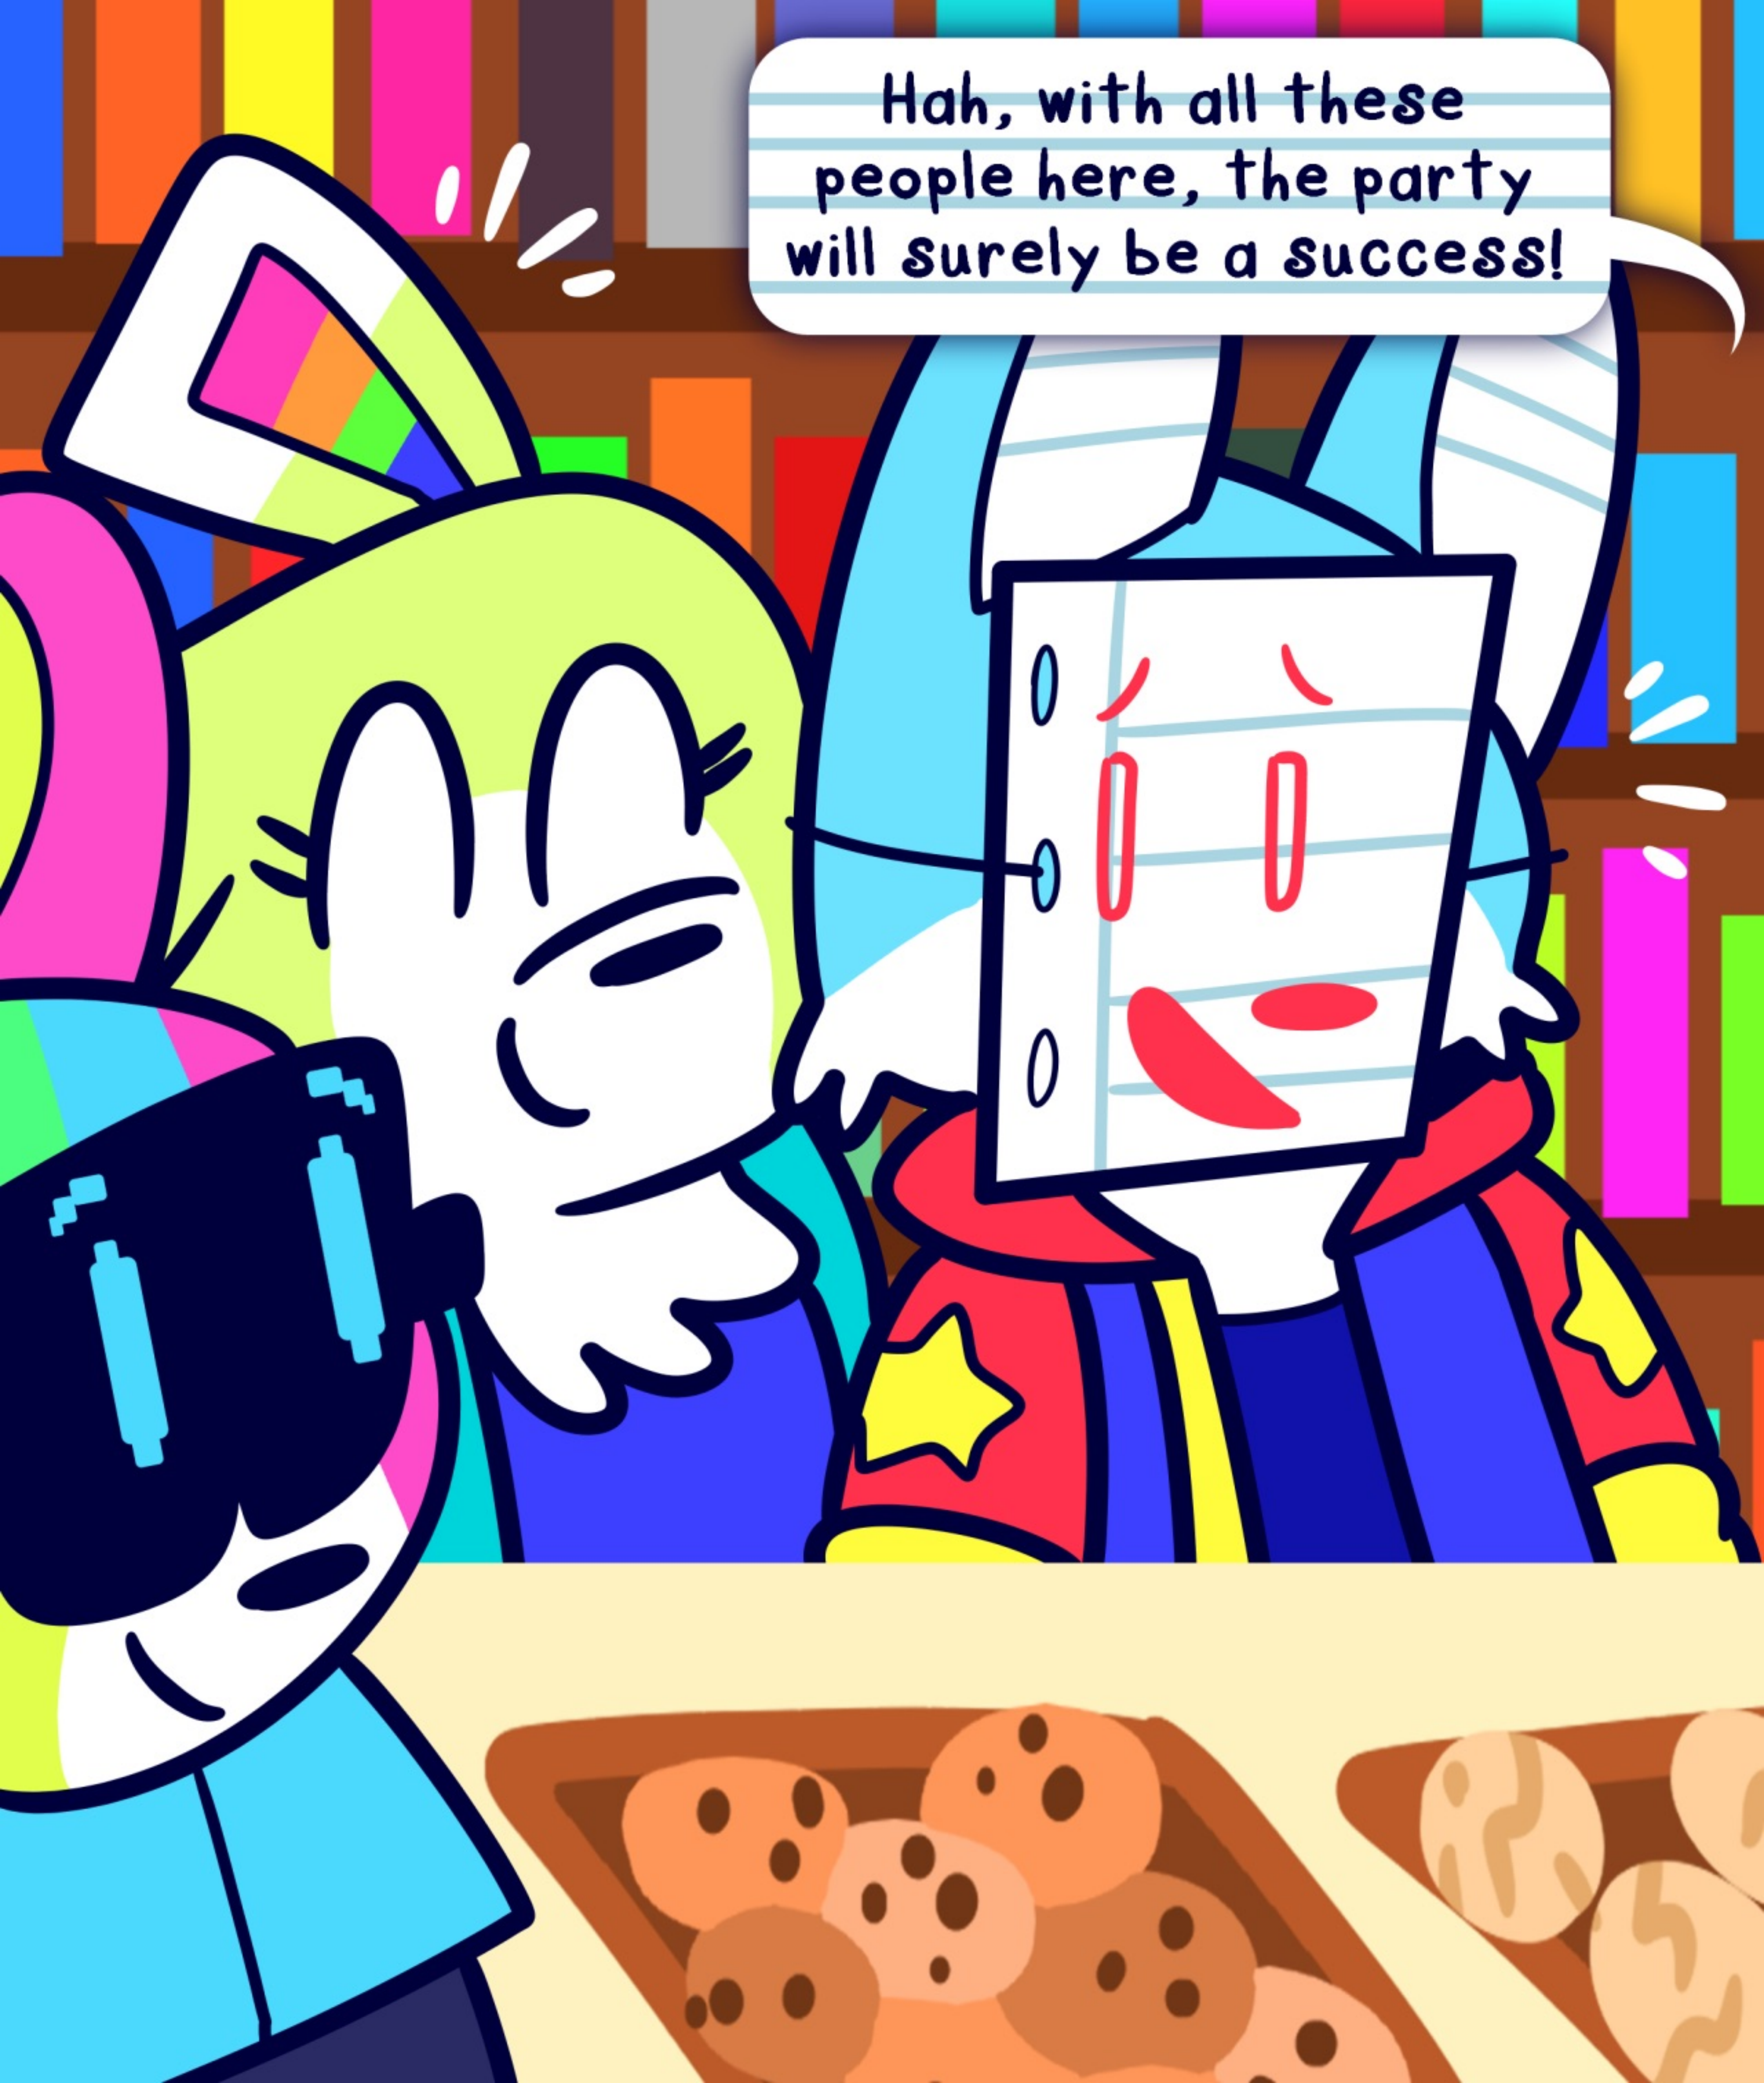
I always feel so dragged down by it, and I feel comforted by the idea of having a body where I choose what it looks like and what it does. Every piece of it in my control.
I'm not to that point yet, but... I'm getting there...!



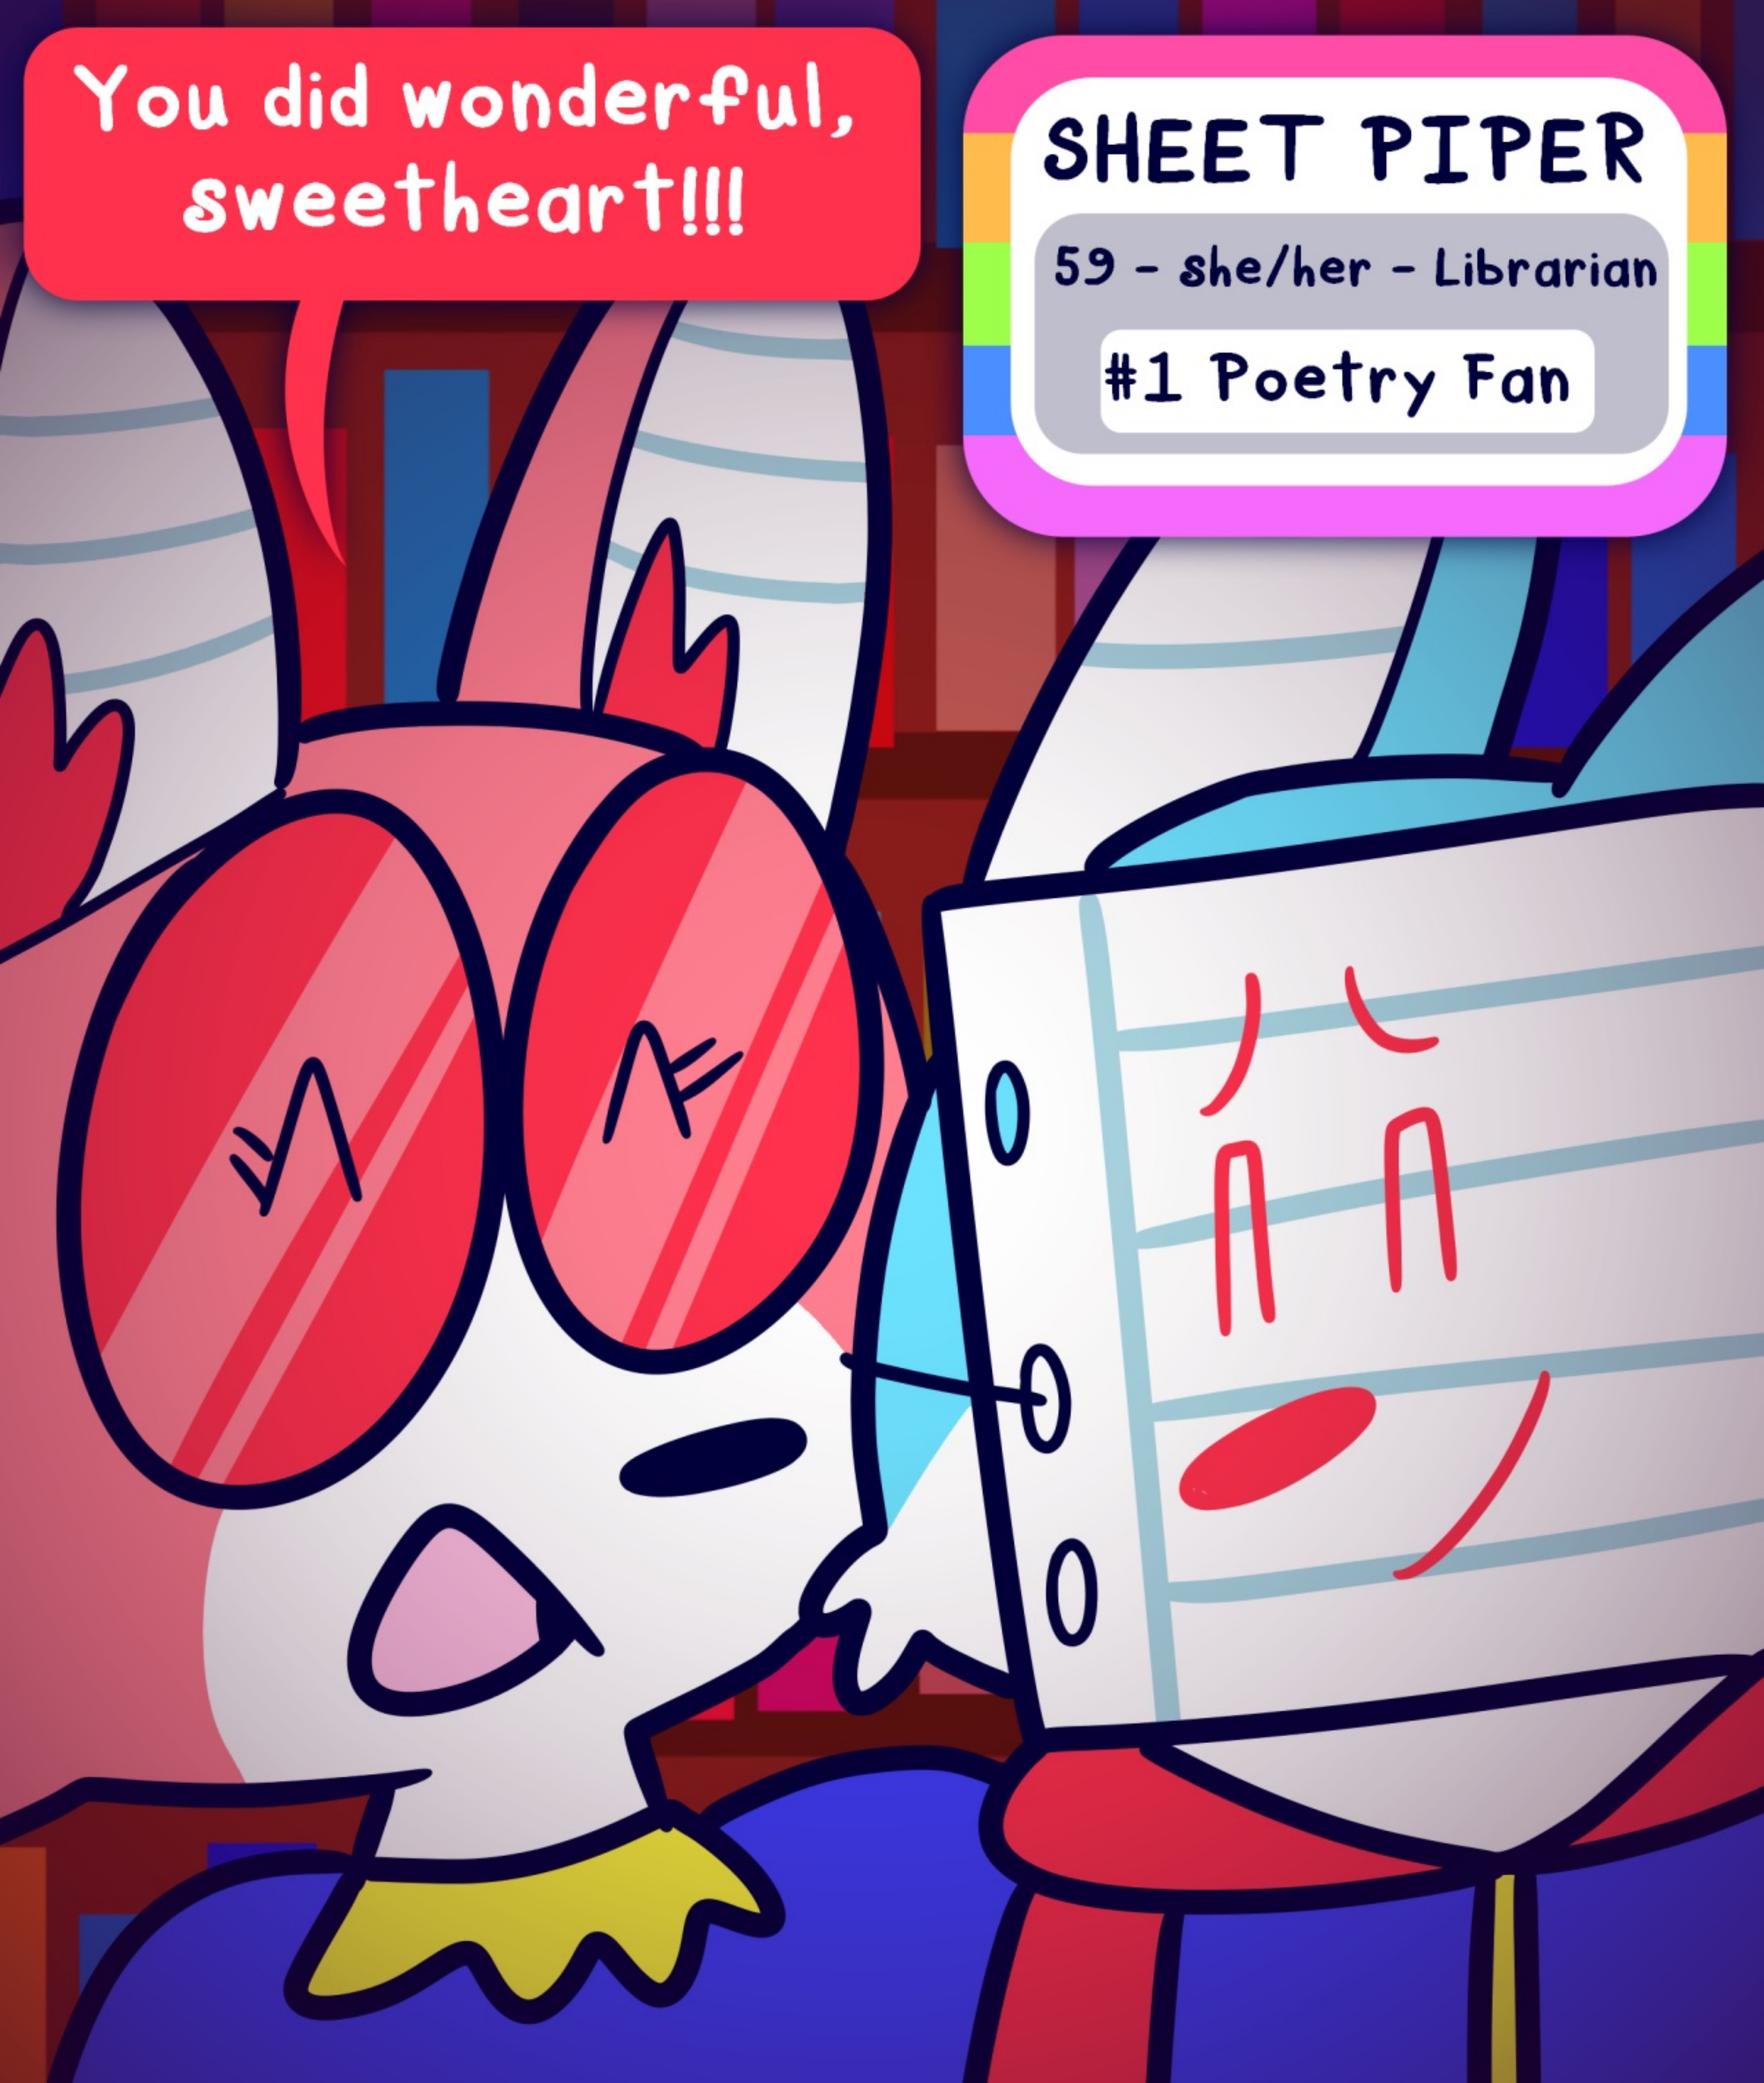
ladyinsertnamehere asked:

Can I ask, Wert, how's your progress on the...how much of you is still flesh at this current point?

Right now, the only electromechanical parts that I have are these eyes and a voice box.
The reason I prioritized these two parts instead of going straight for like, limb replacements, is because they're very tied in with the way I perceive reality and myself.
See, my vision is digital and the way I hear myself speak is digital. Next is gonna be my ears.



Hah, with all these people here, the party will surely be a success!



You did wonderful, sweetheart!!!

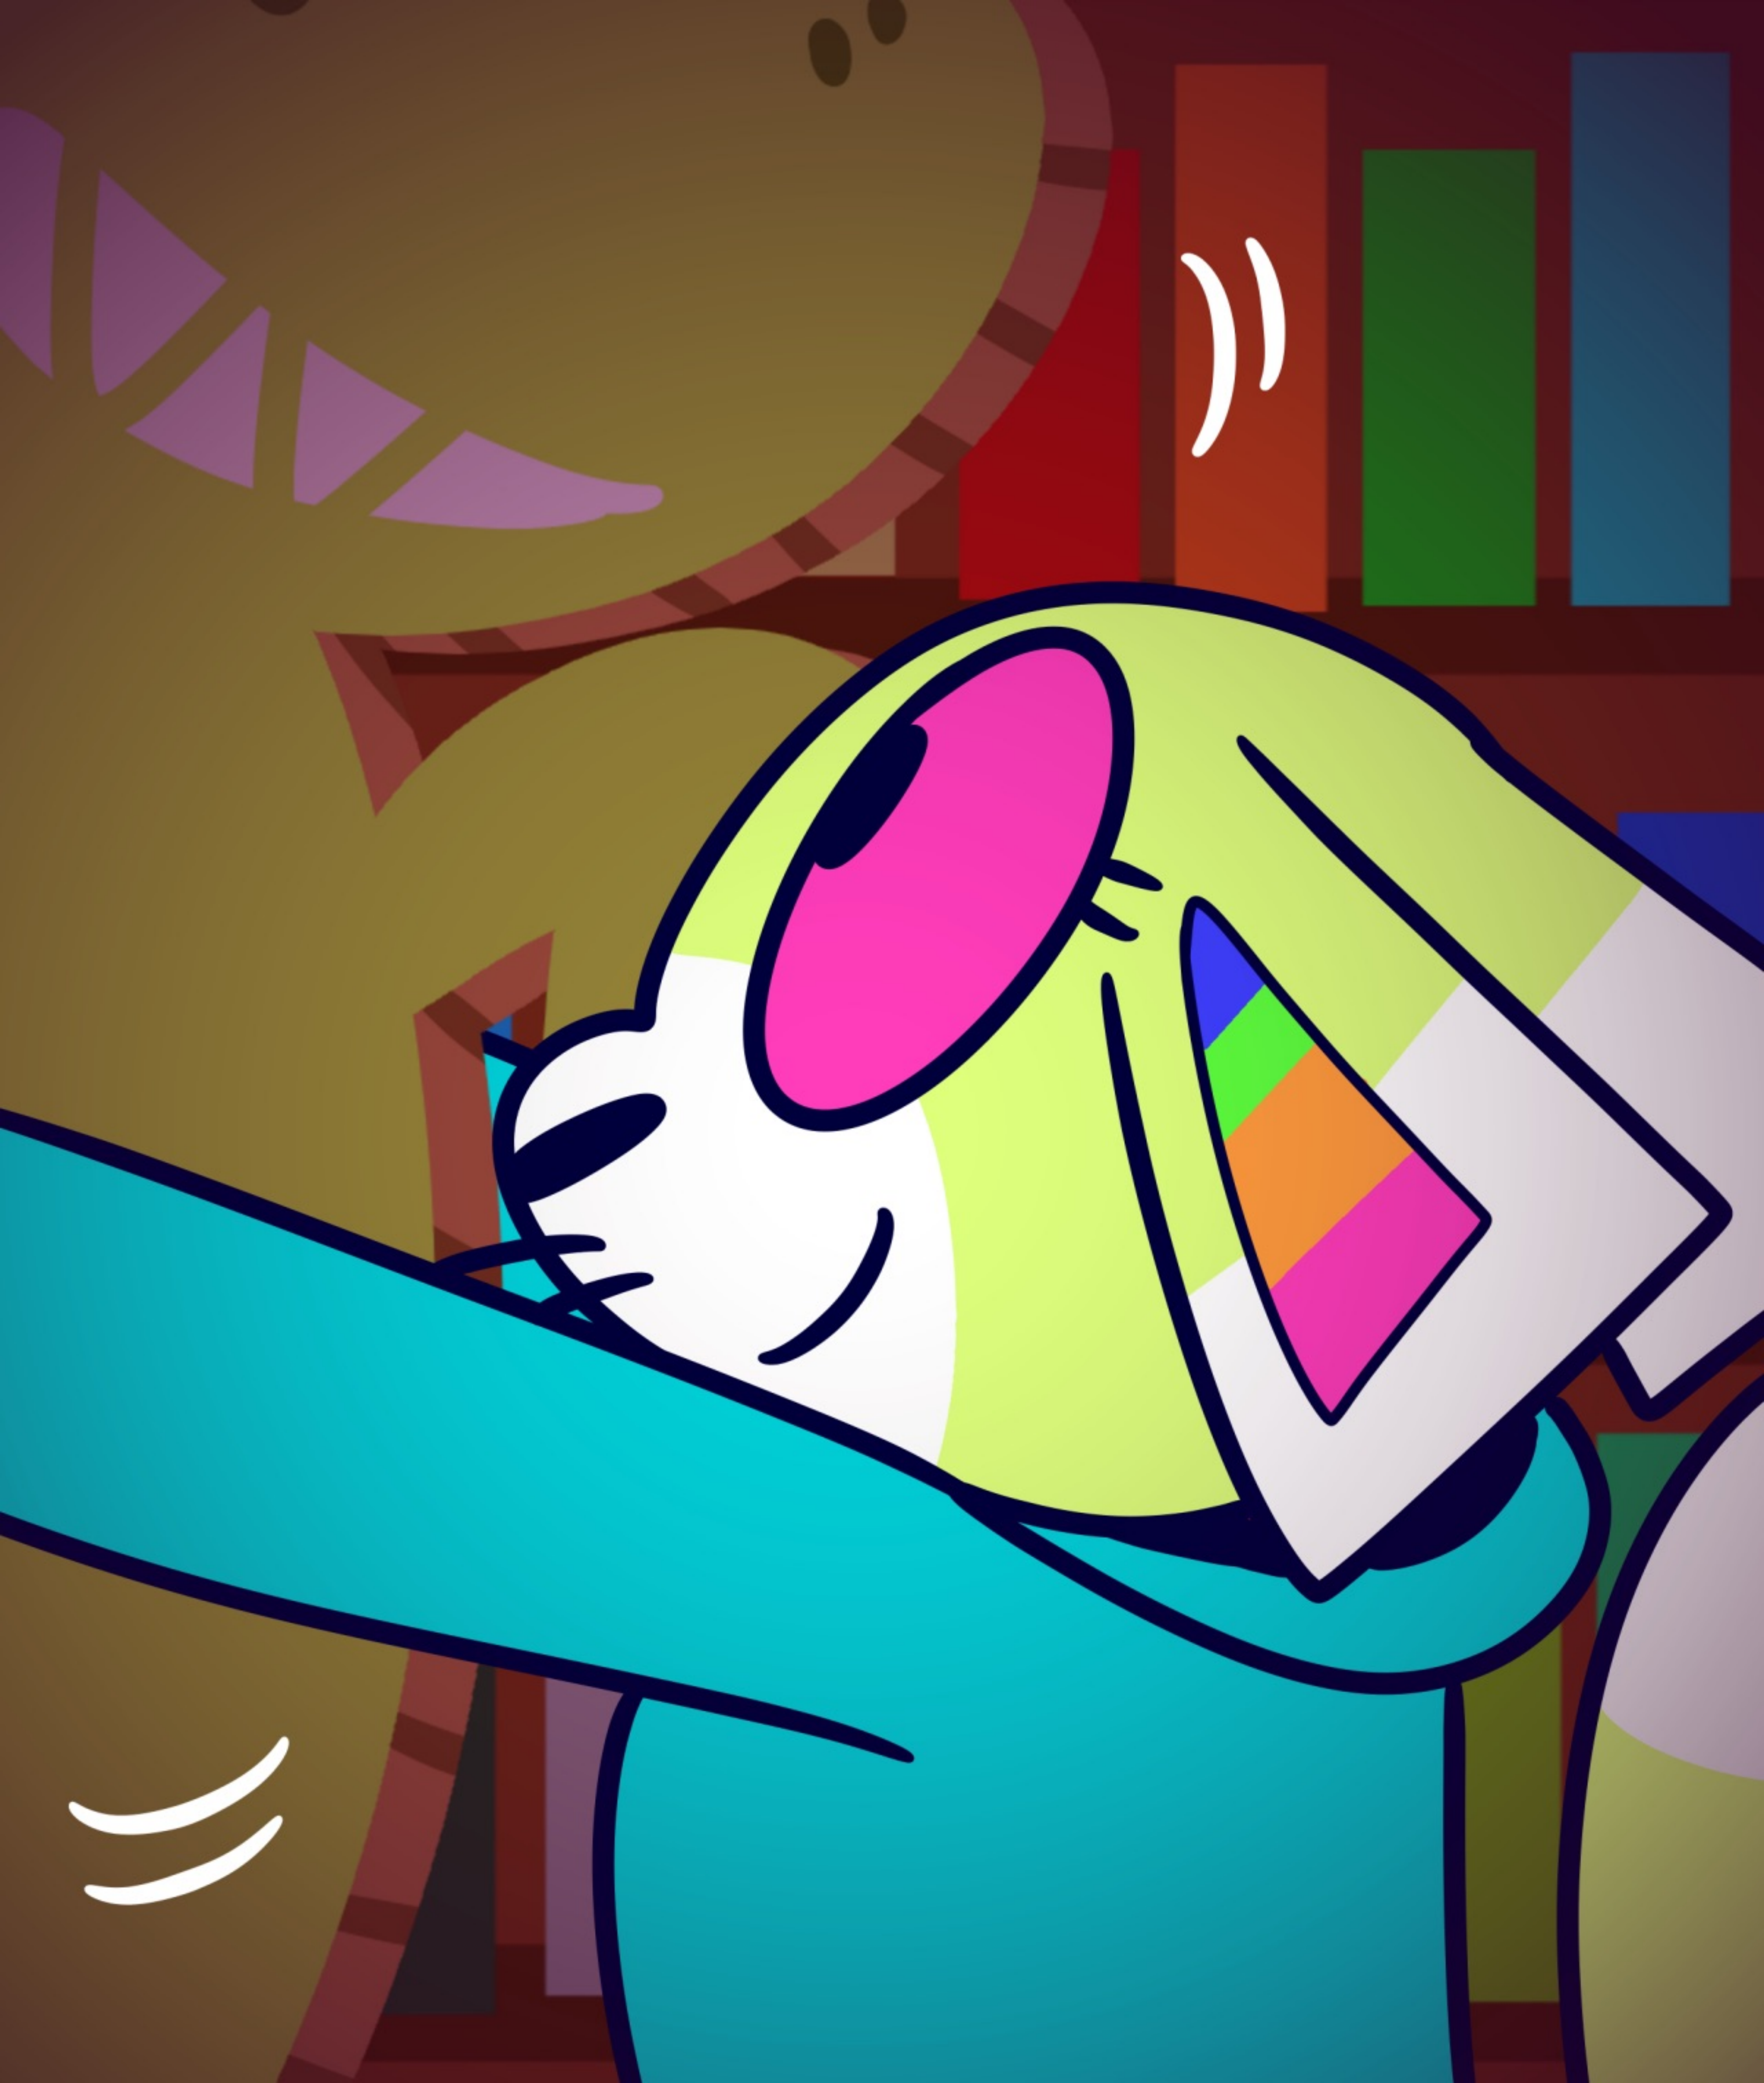
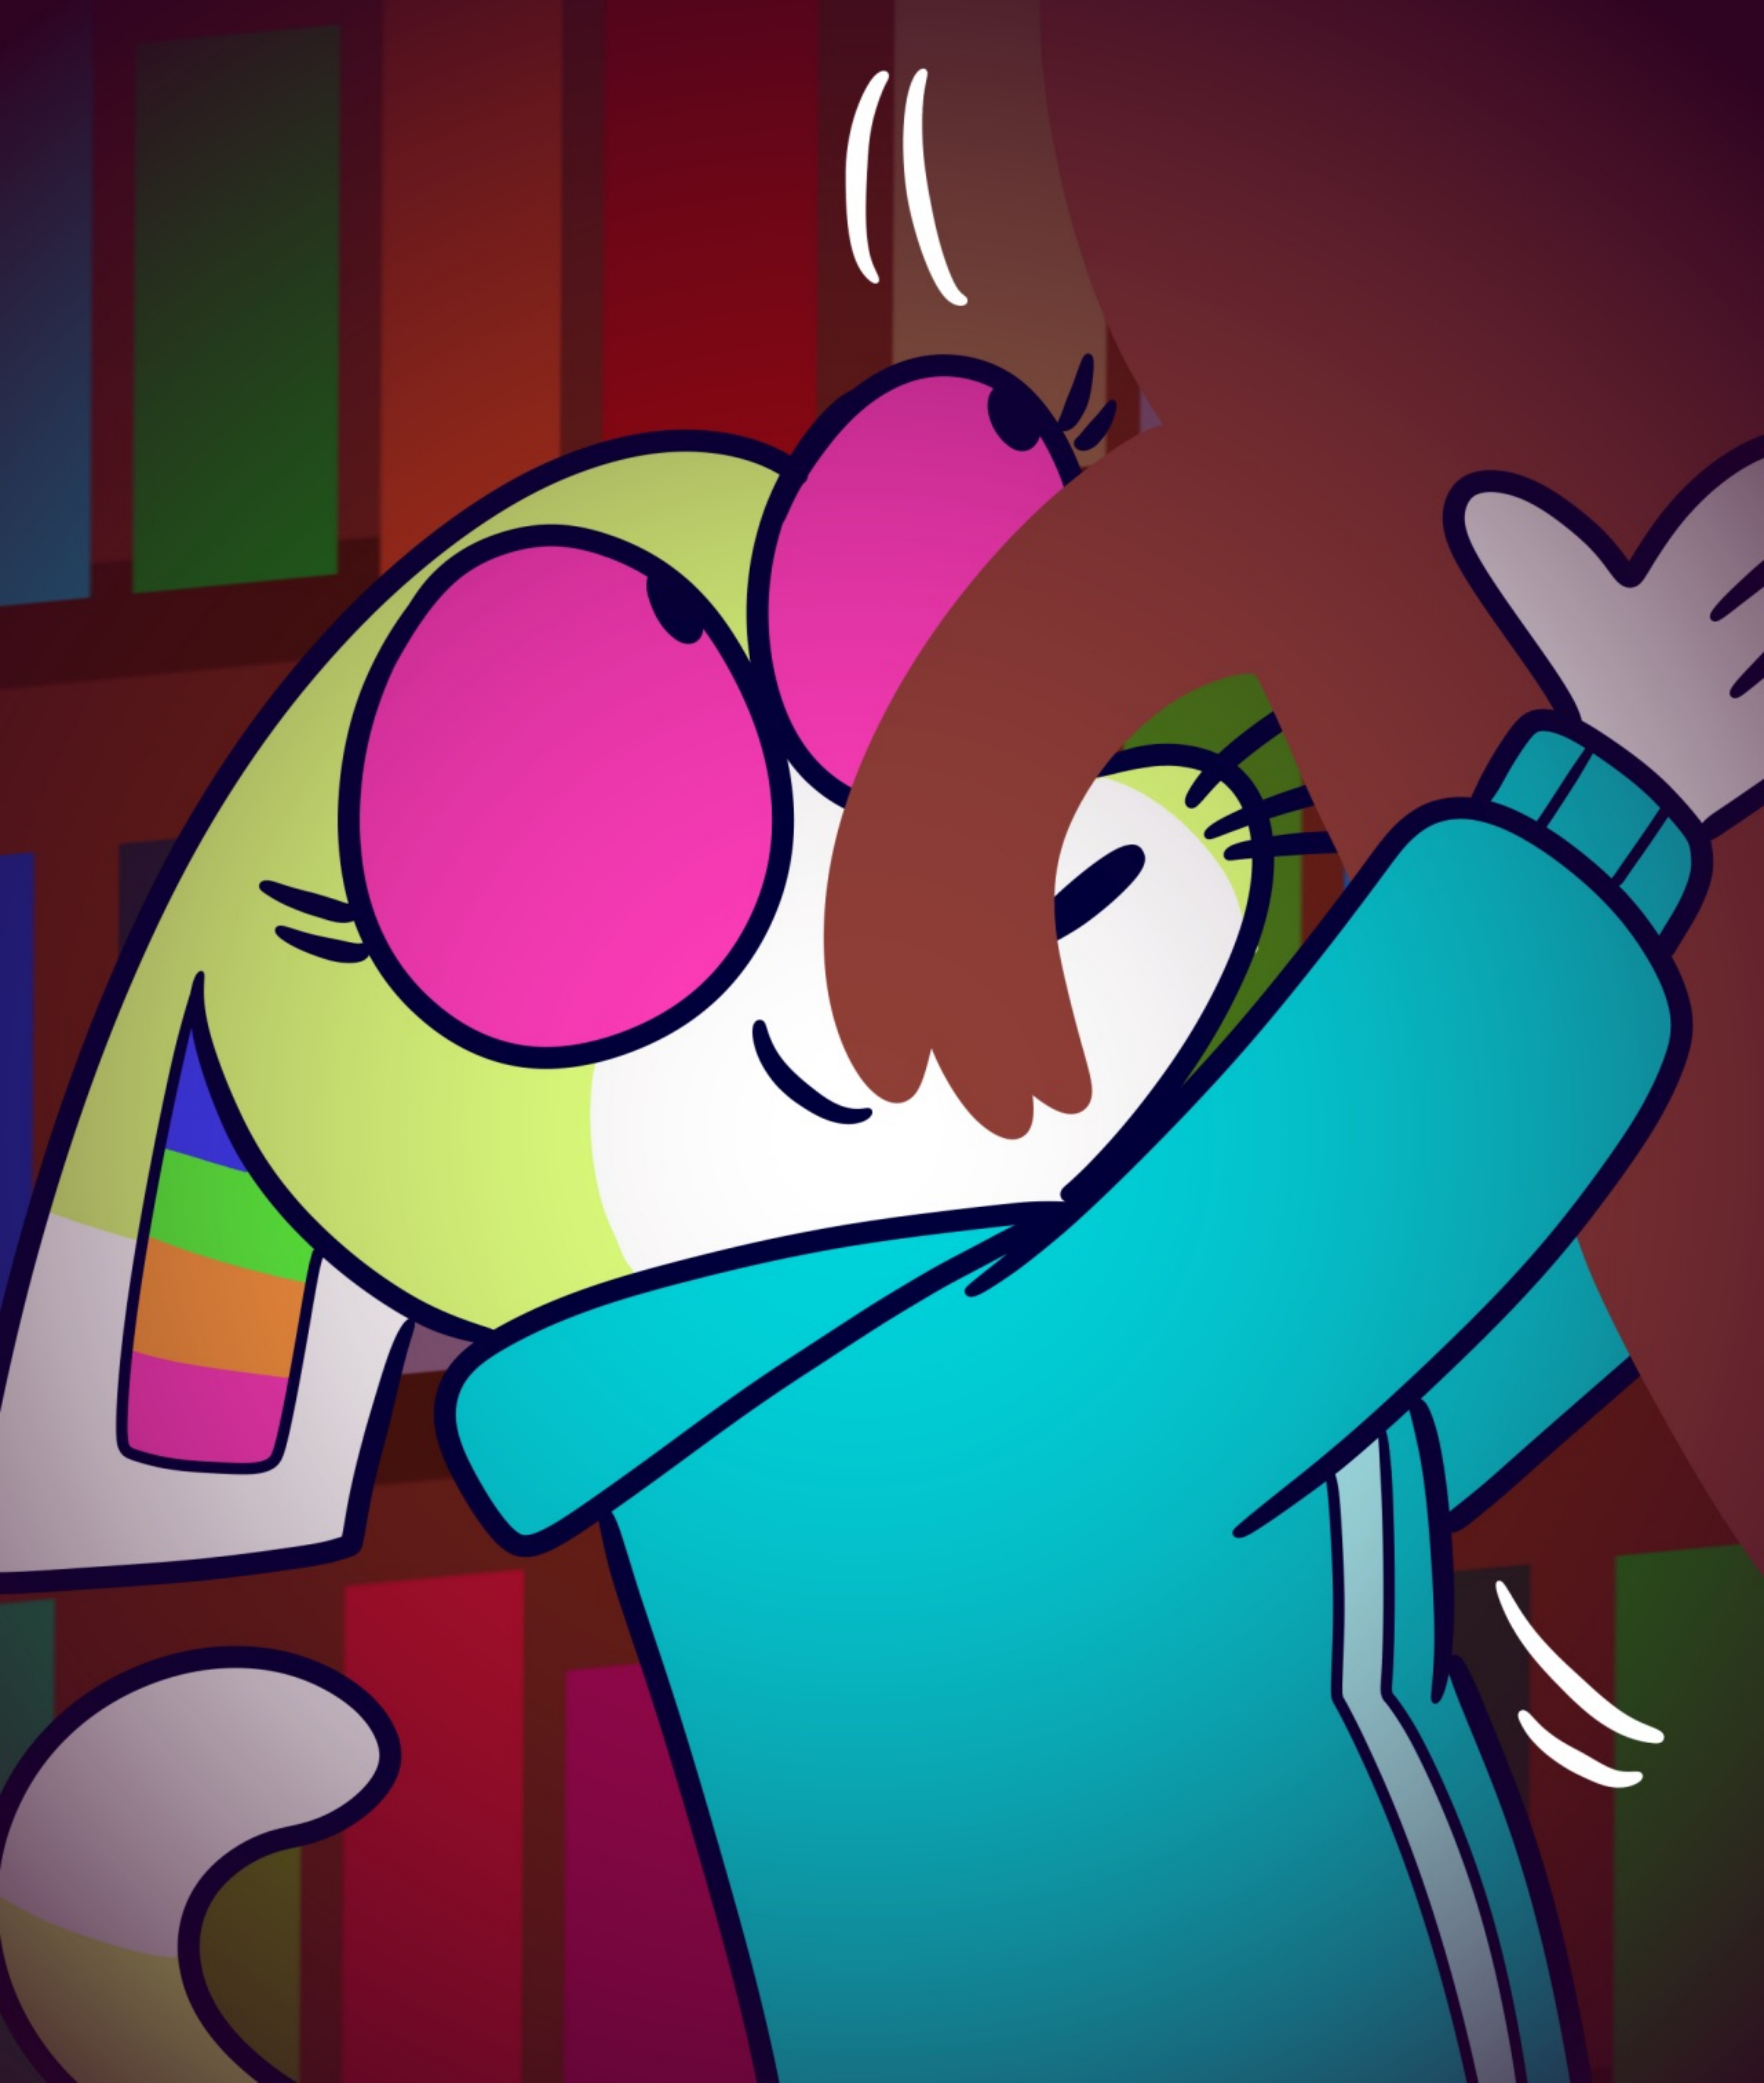
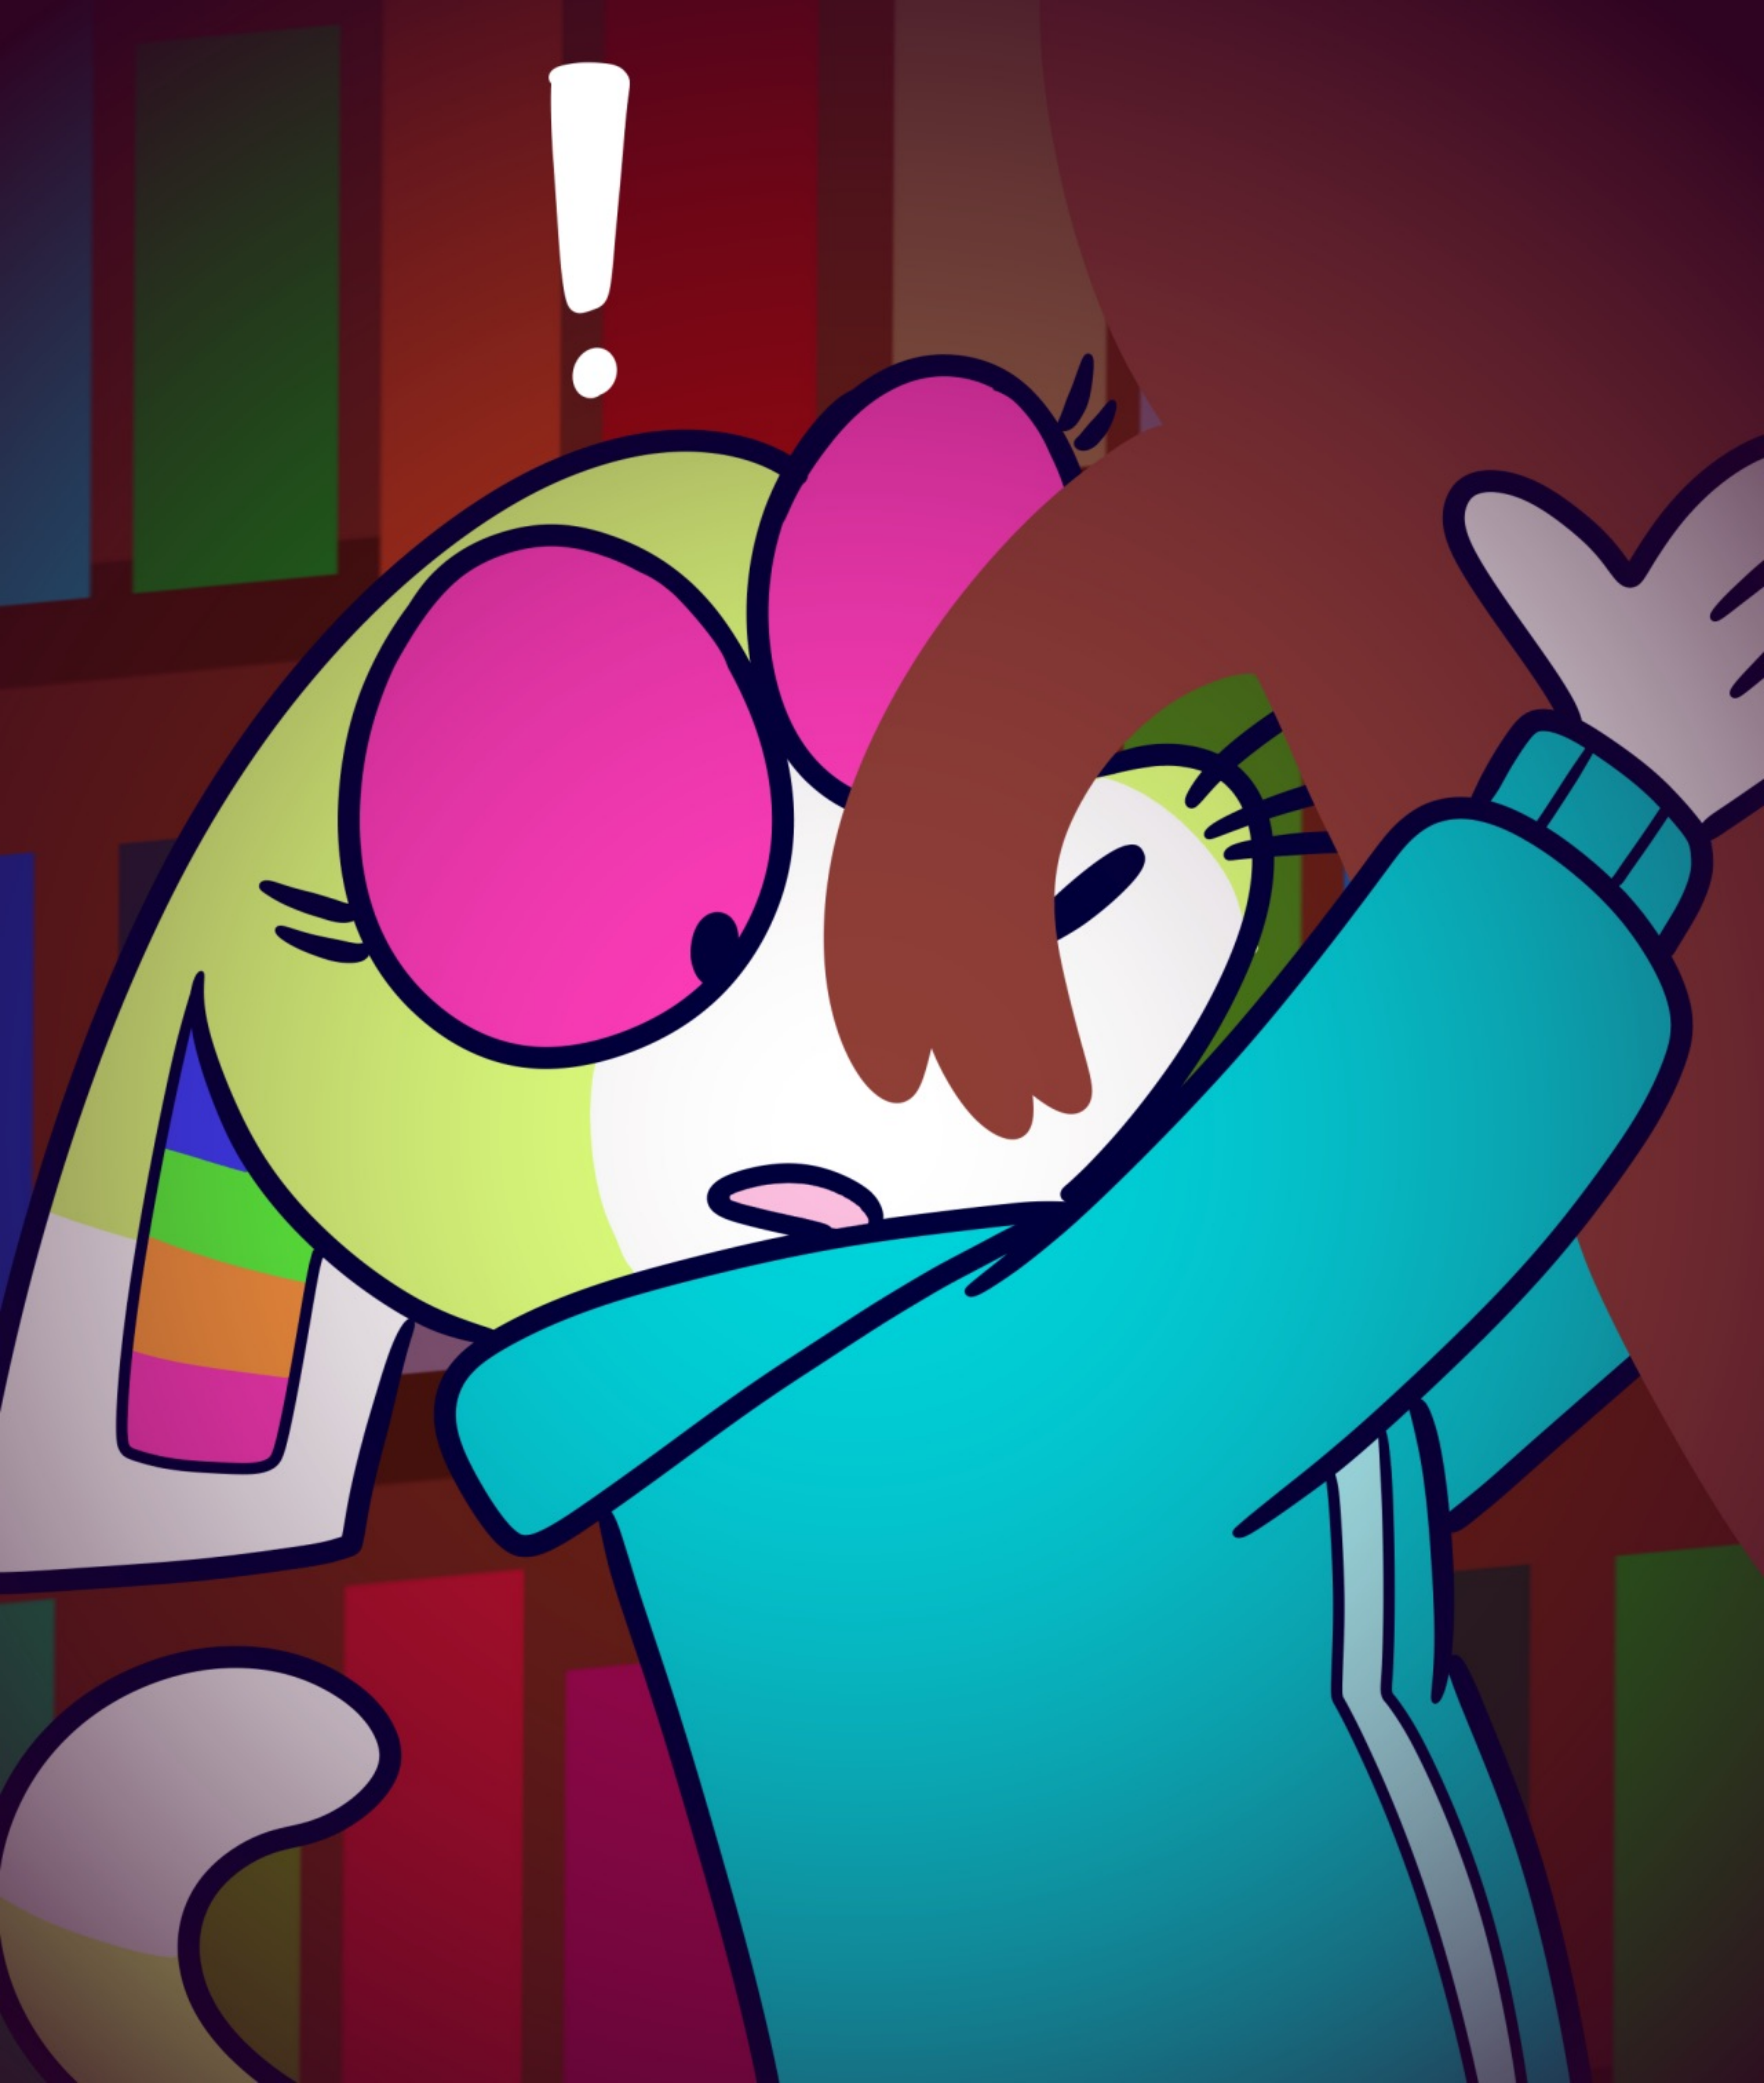
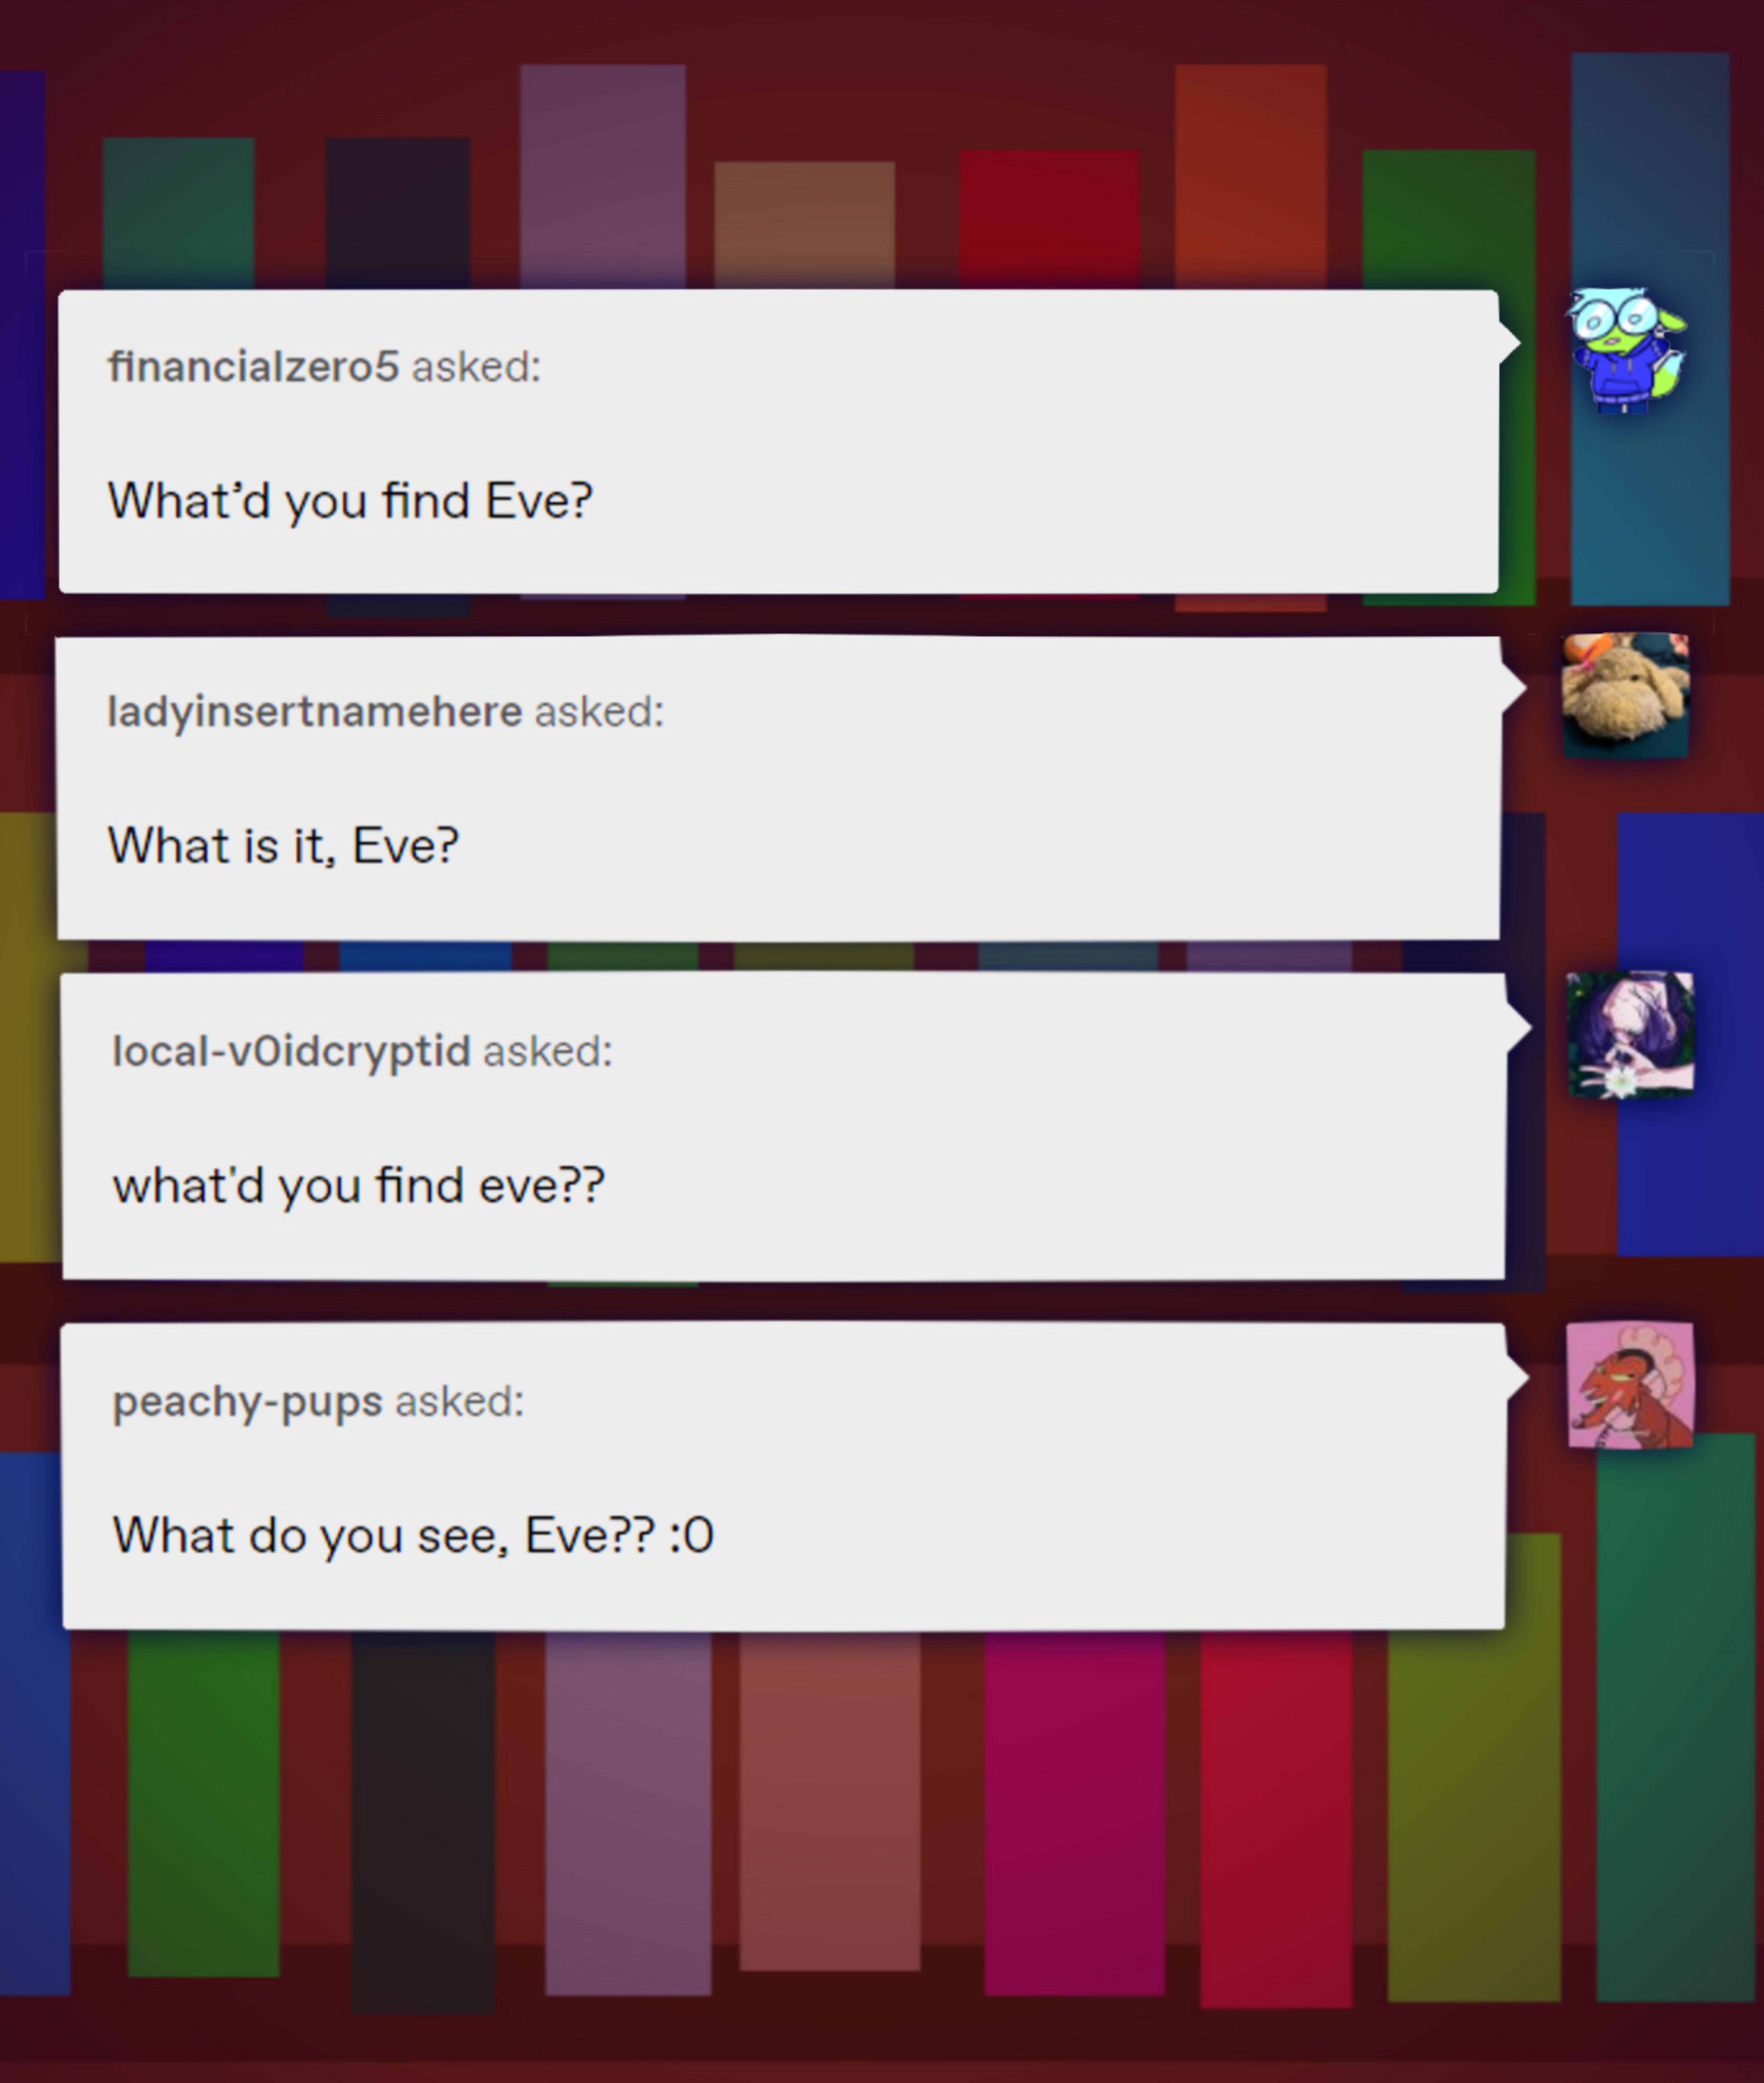
Gladly! Like I said, love to be useful!









financialzero5 asked:

What'd you find Eve?

ladyinsertnamehere asked:

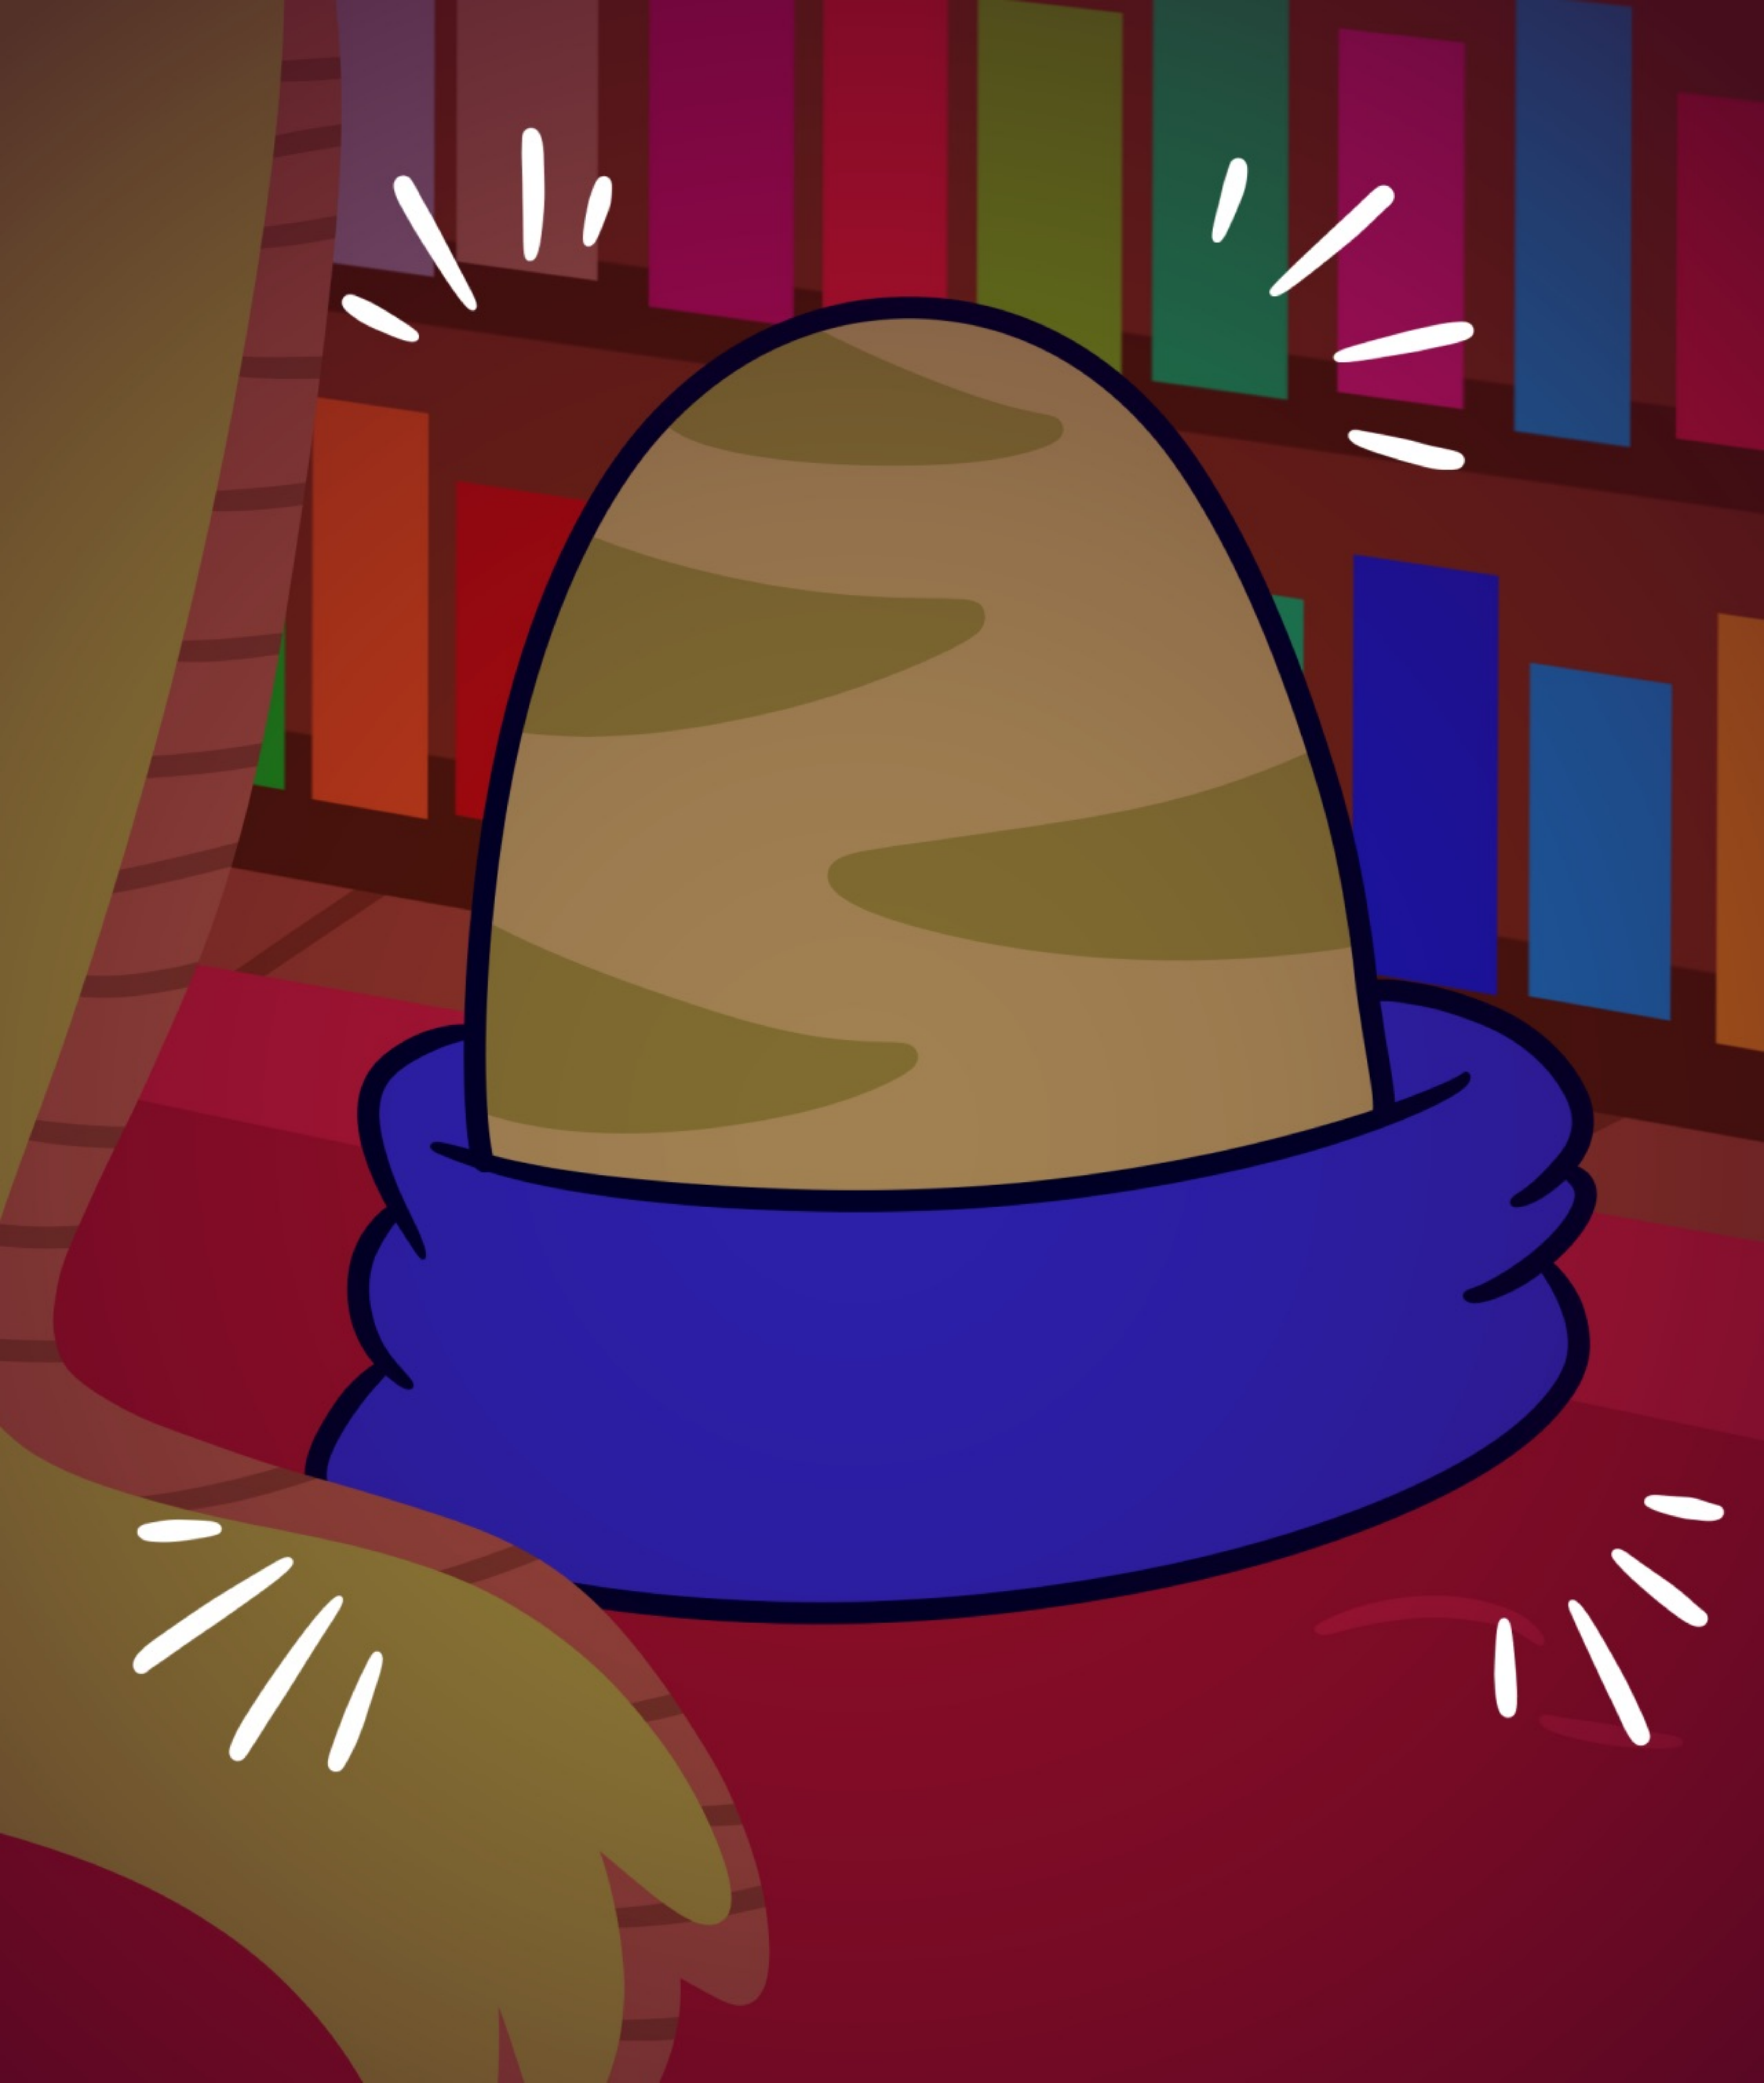
What is it, Eve?

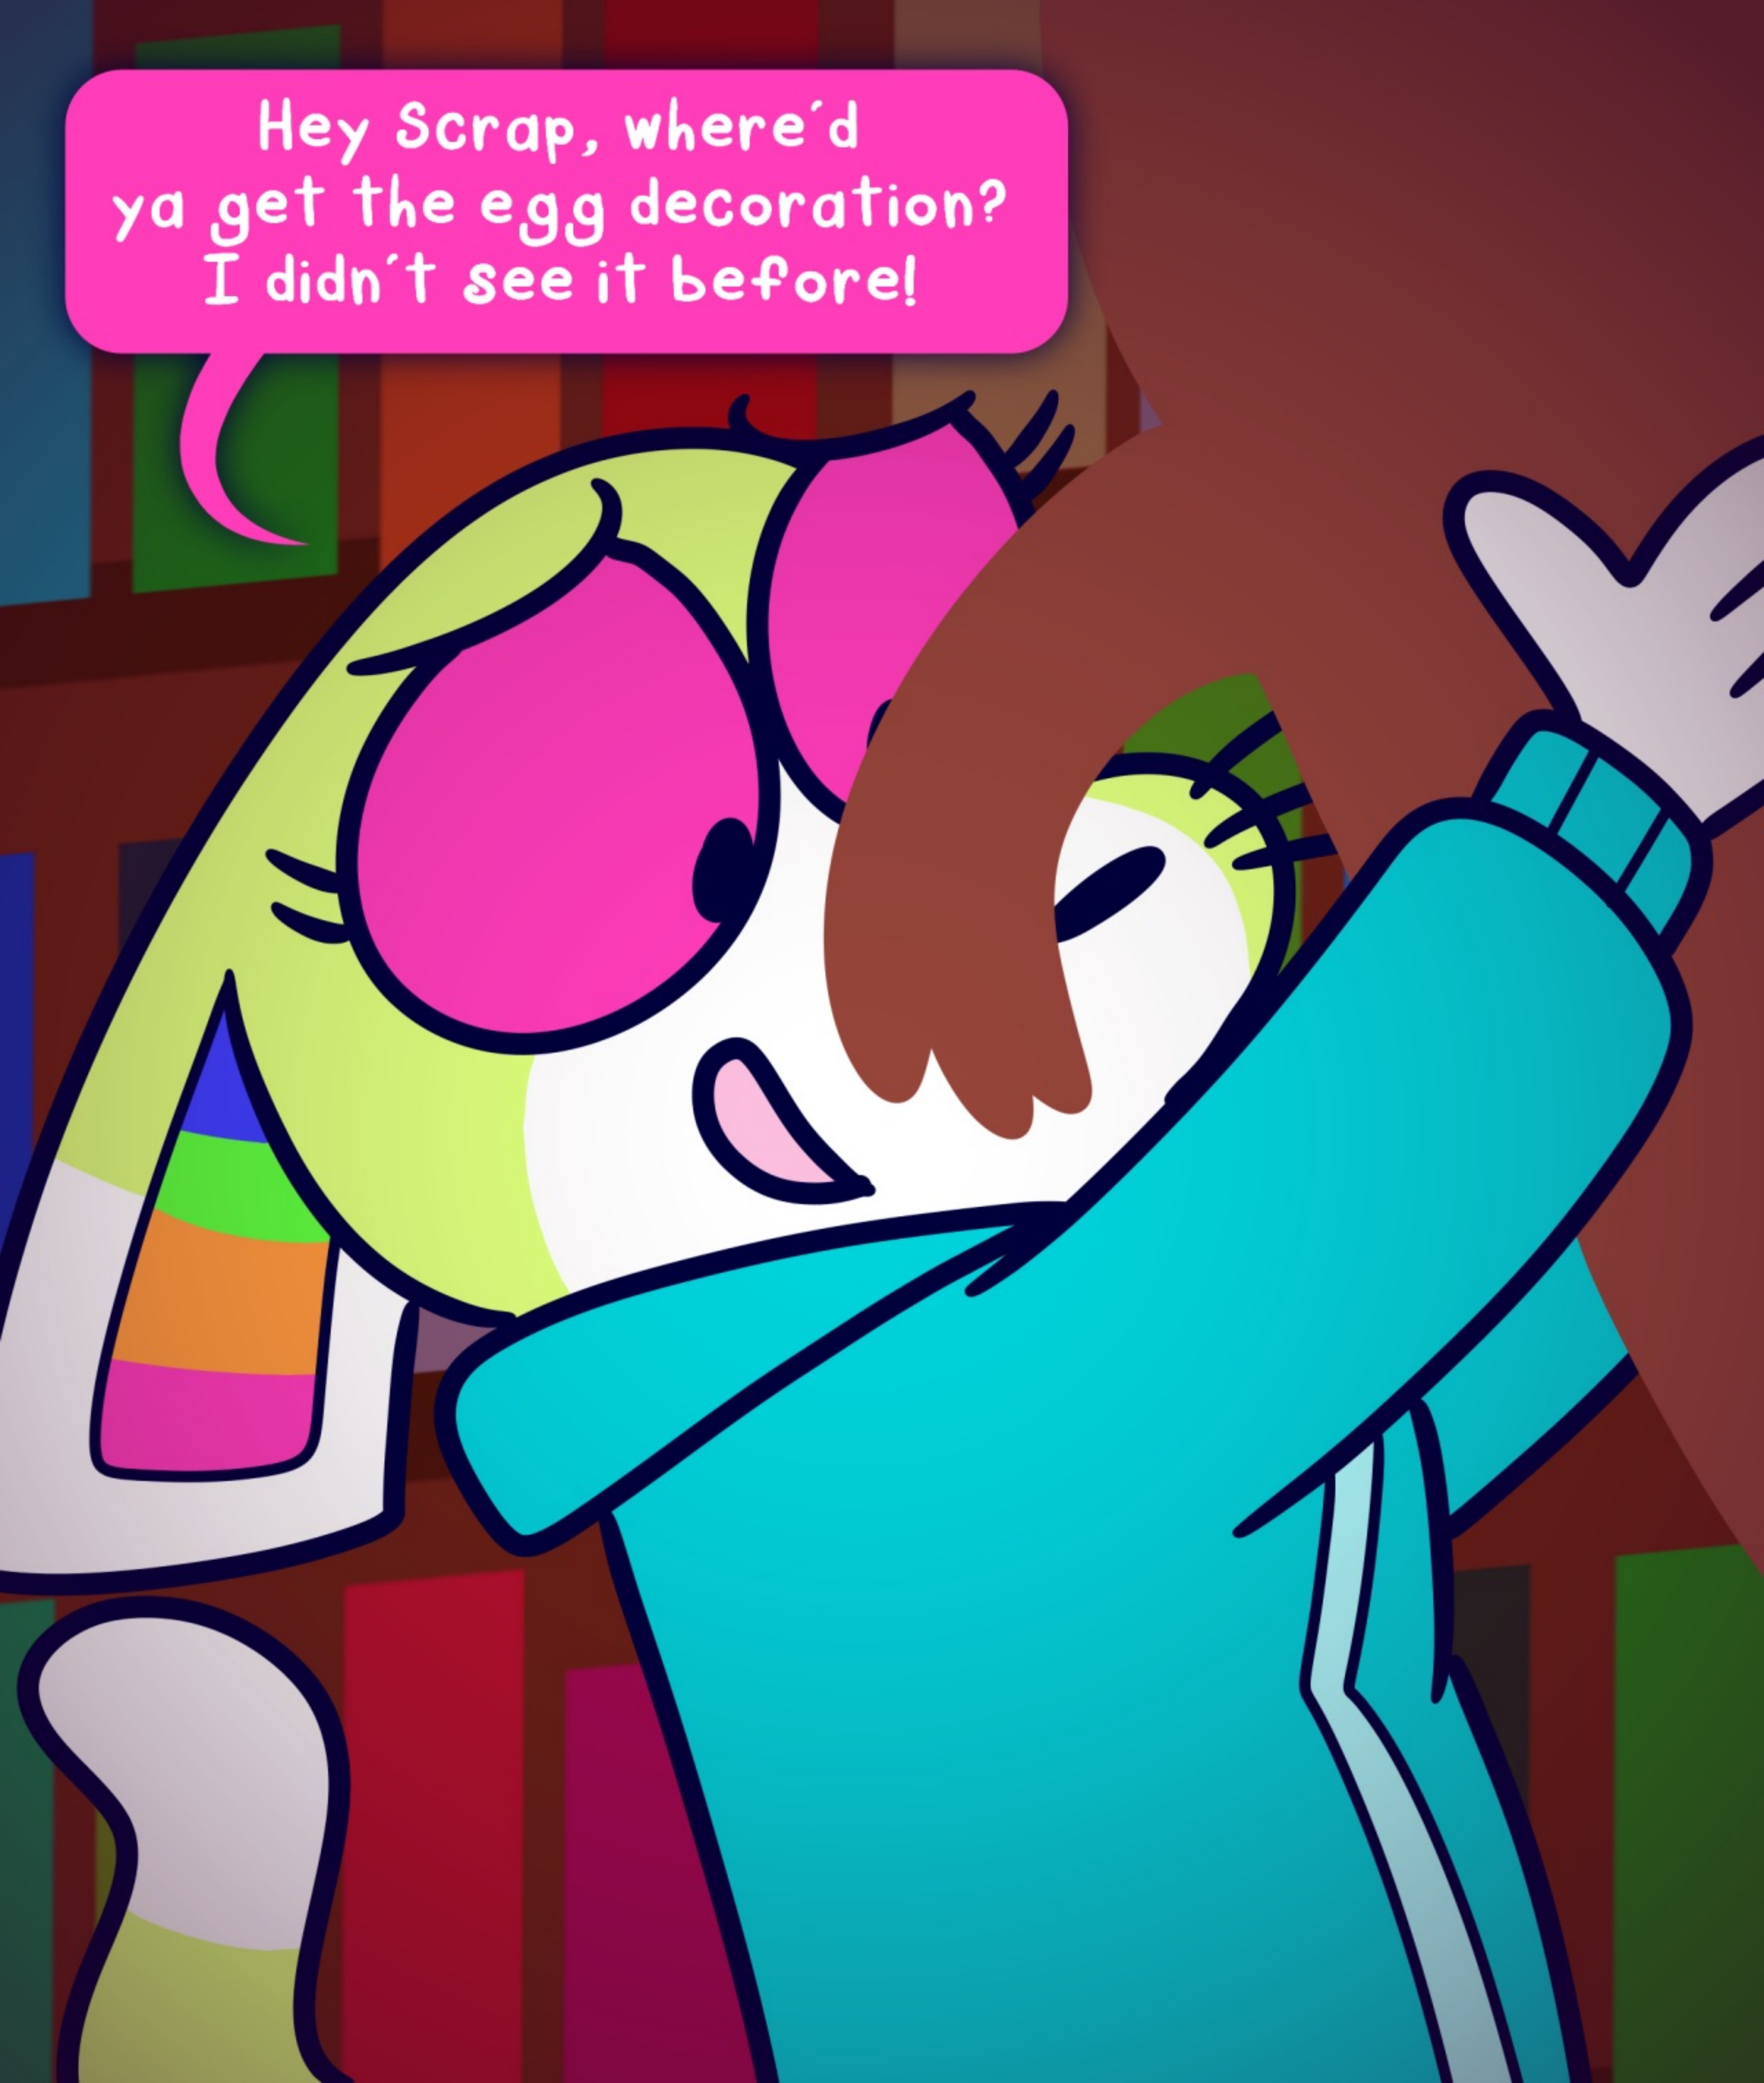
local-v0idcryptid asked:

what'd you find eve??

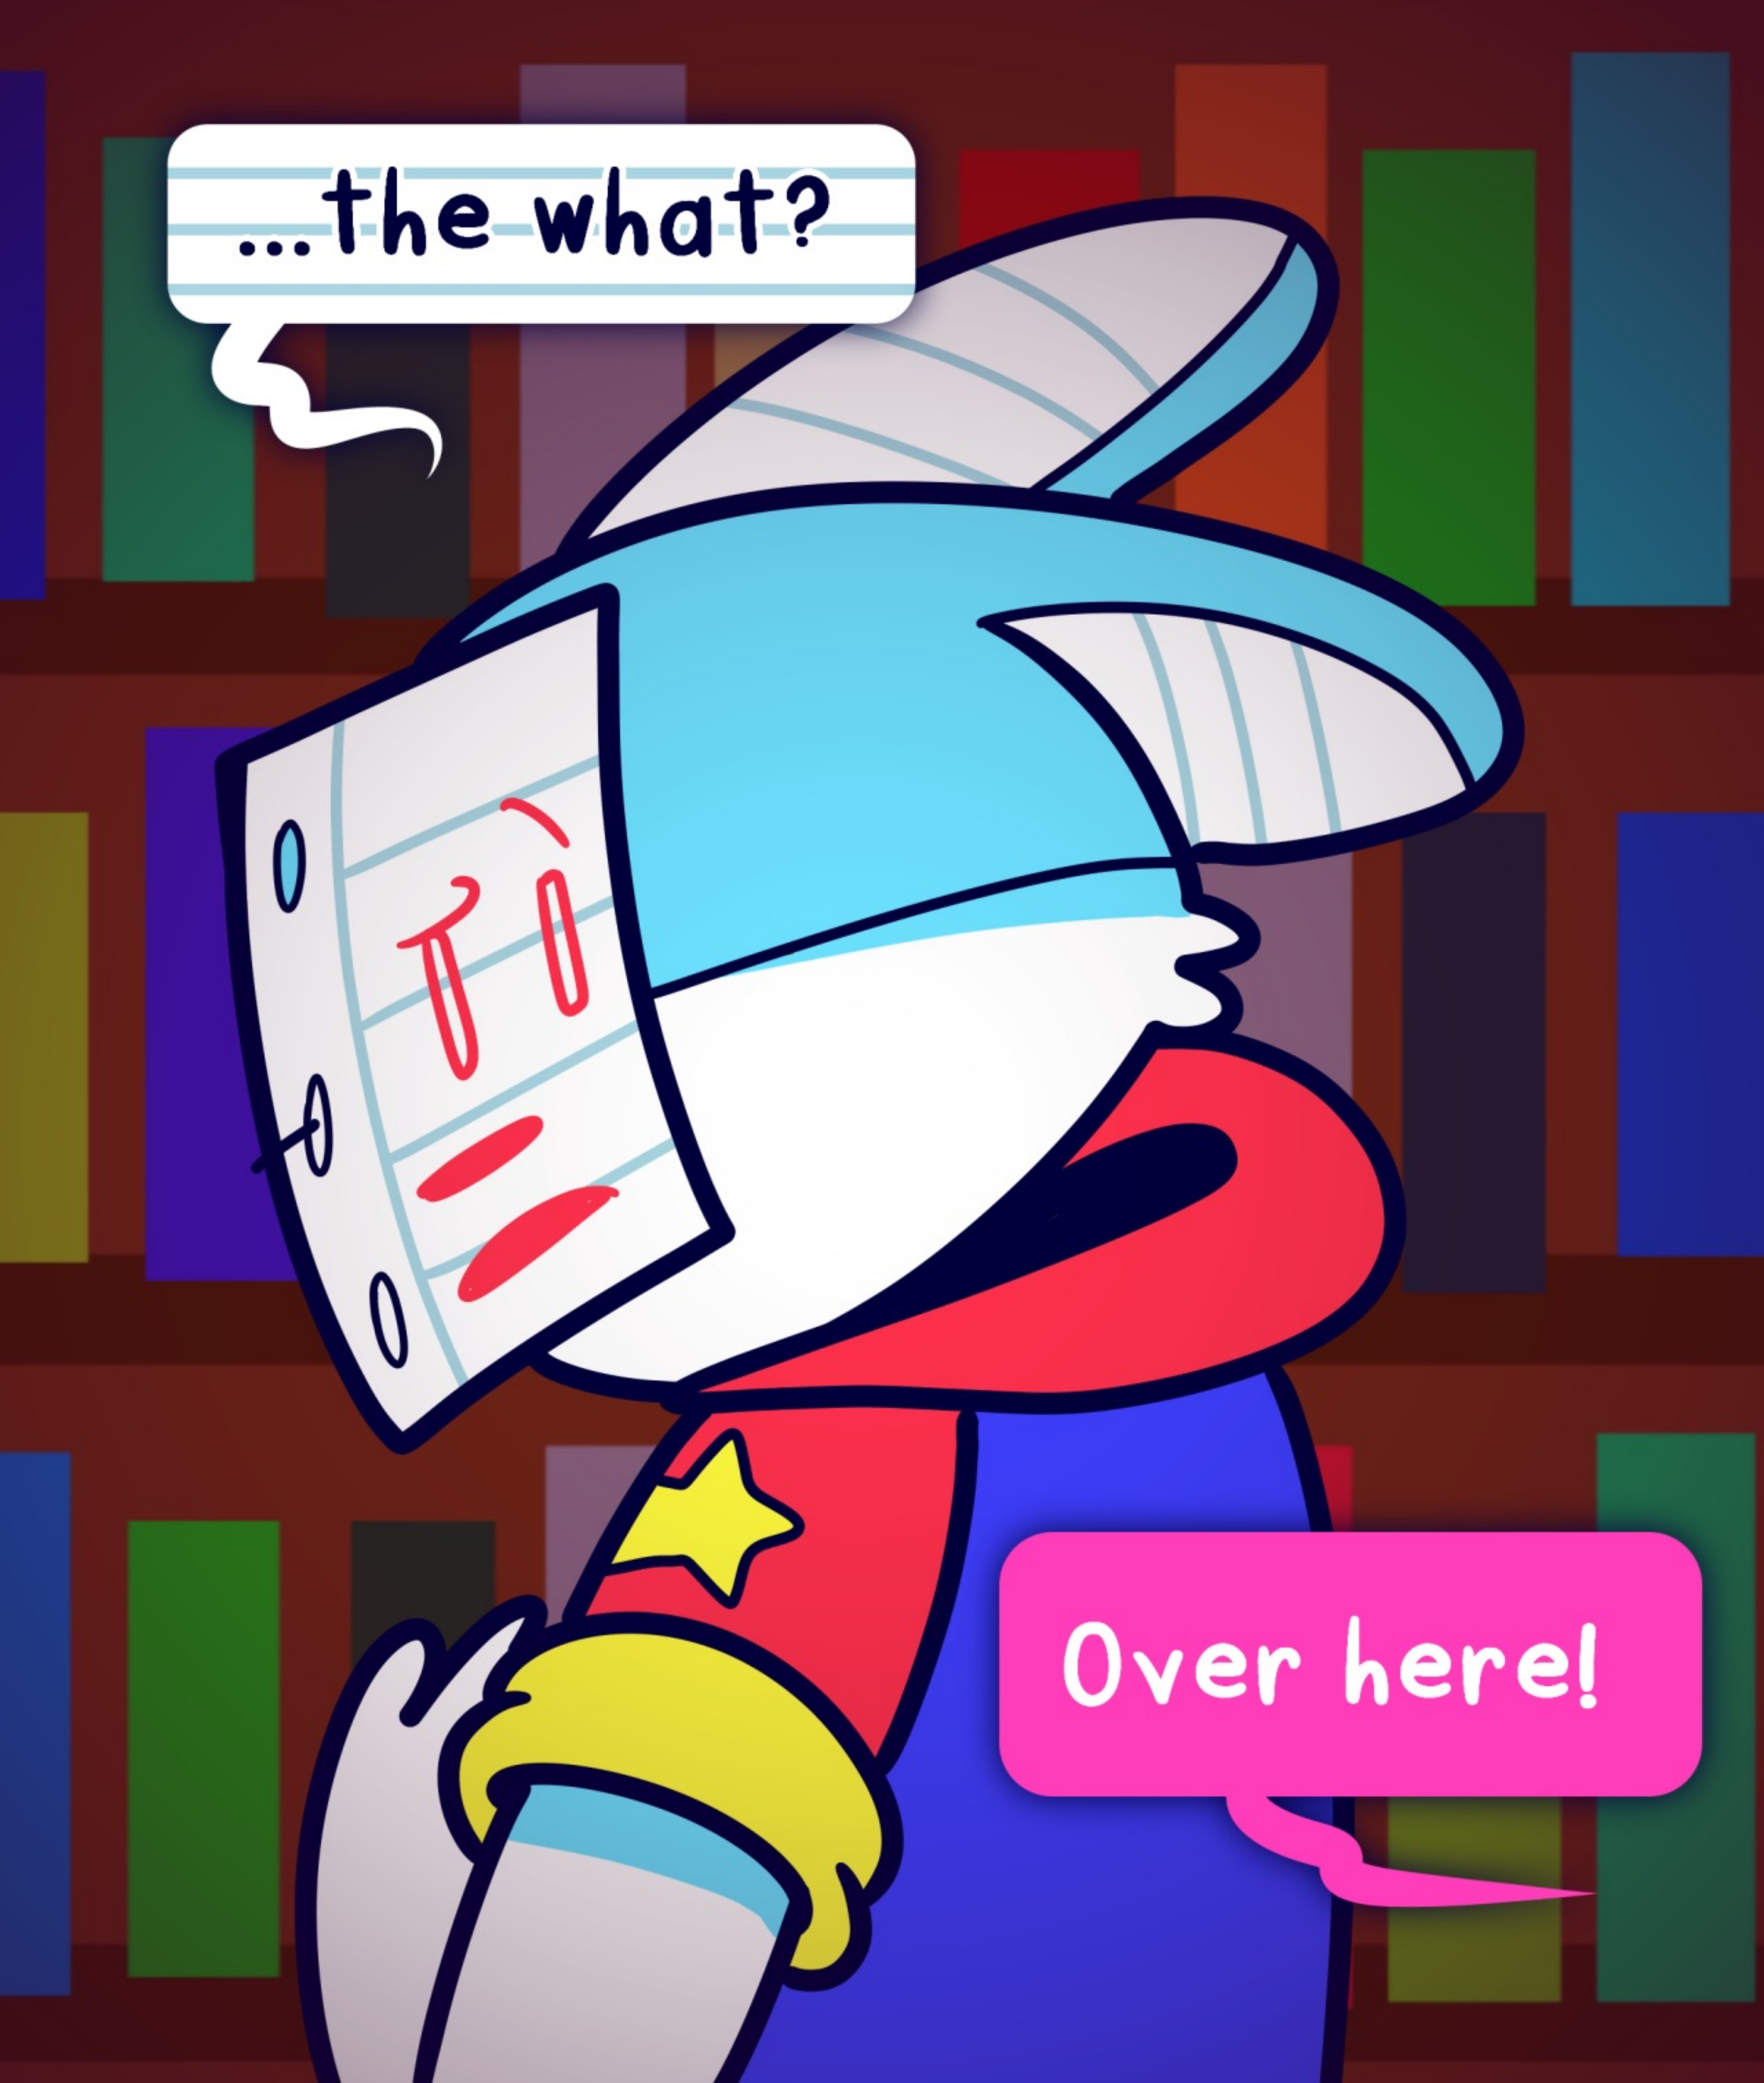
peachy-pups asked:

What do you see, Eve?? :0

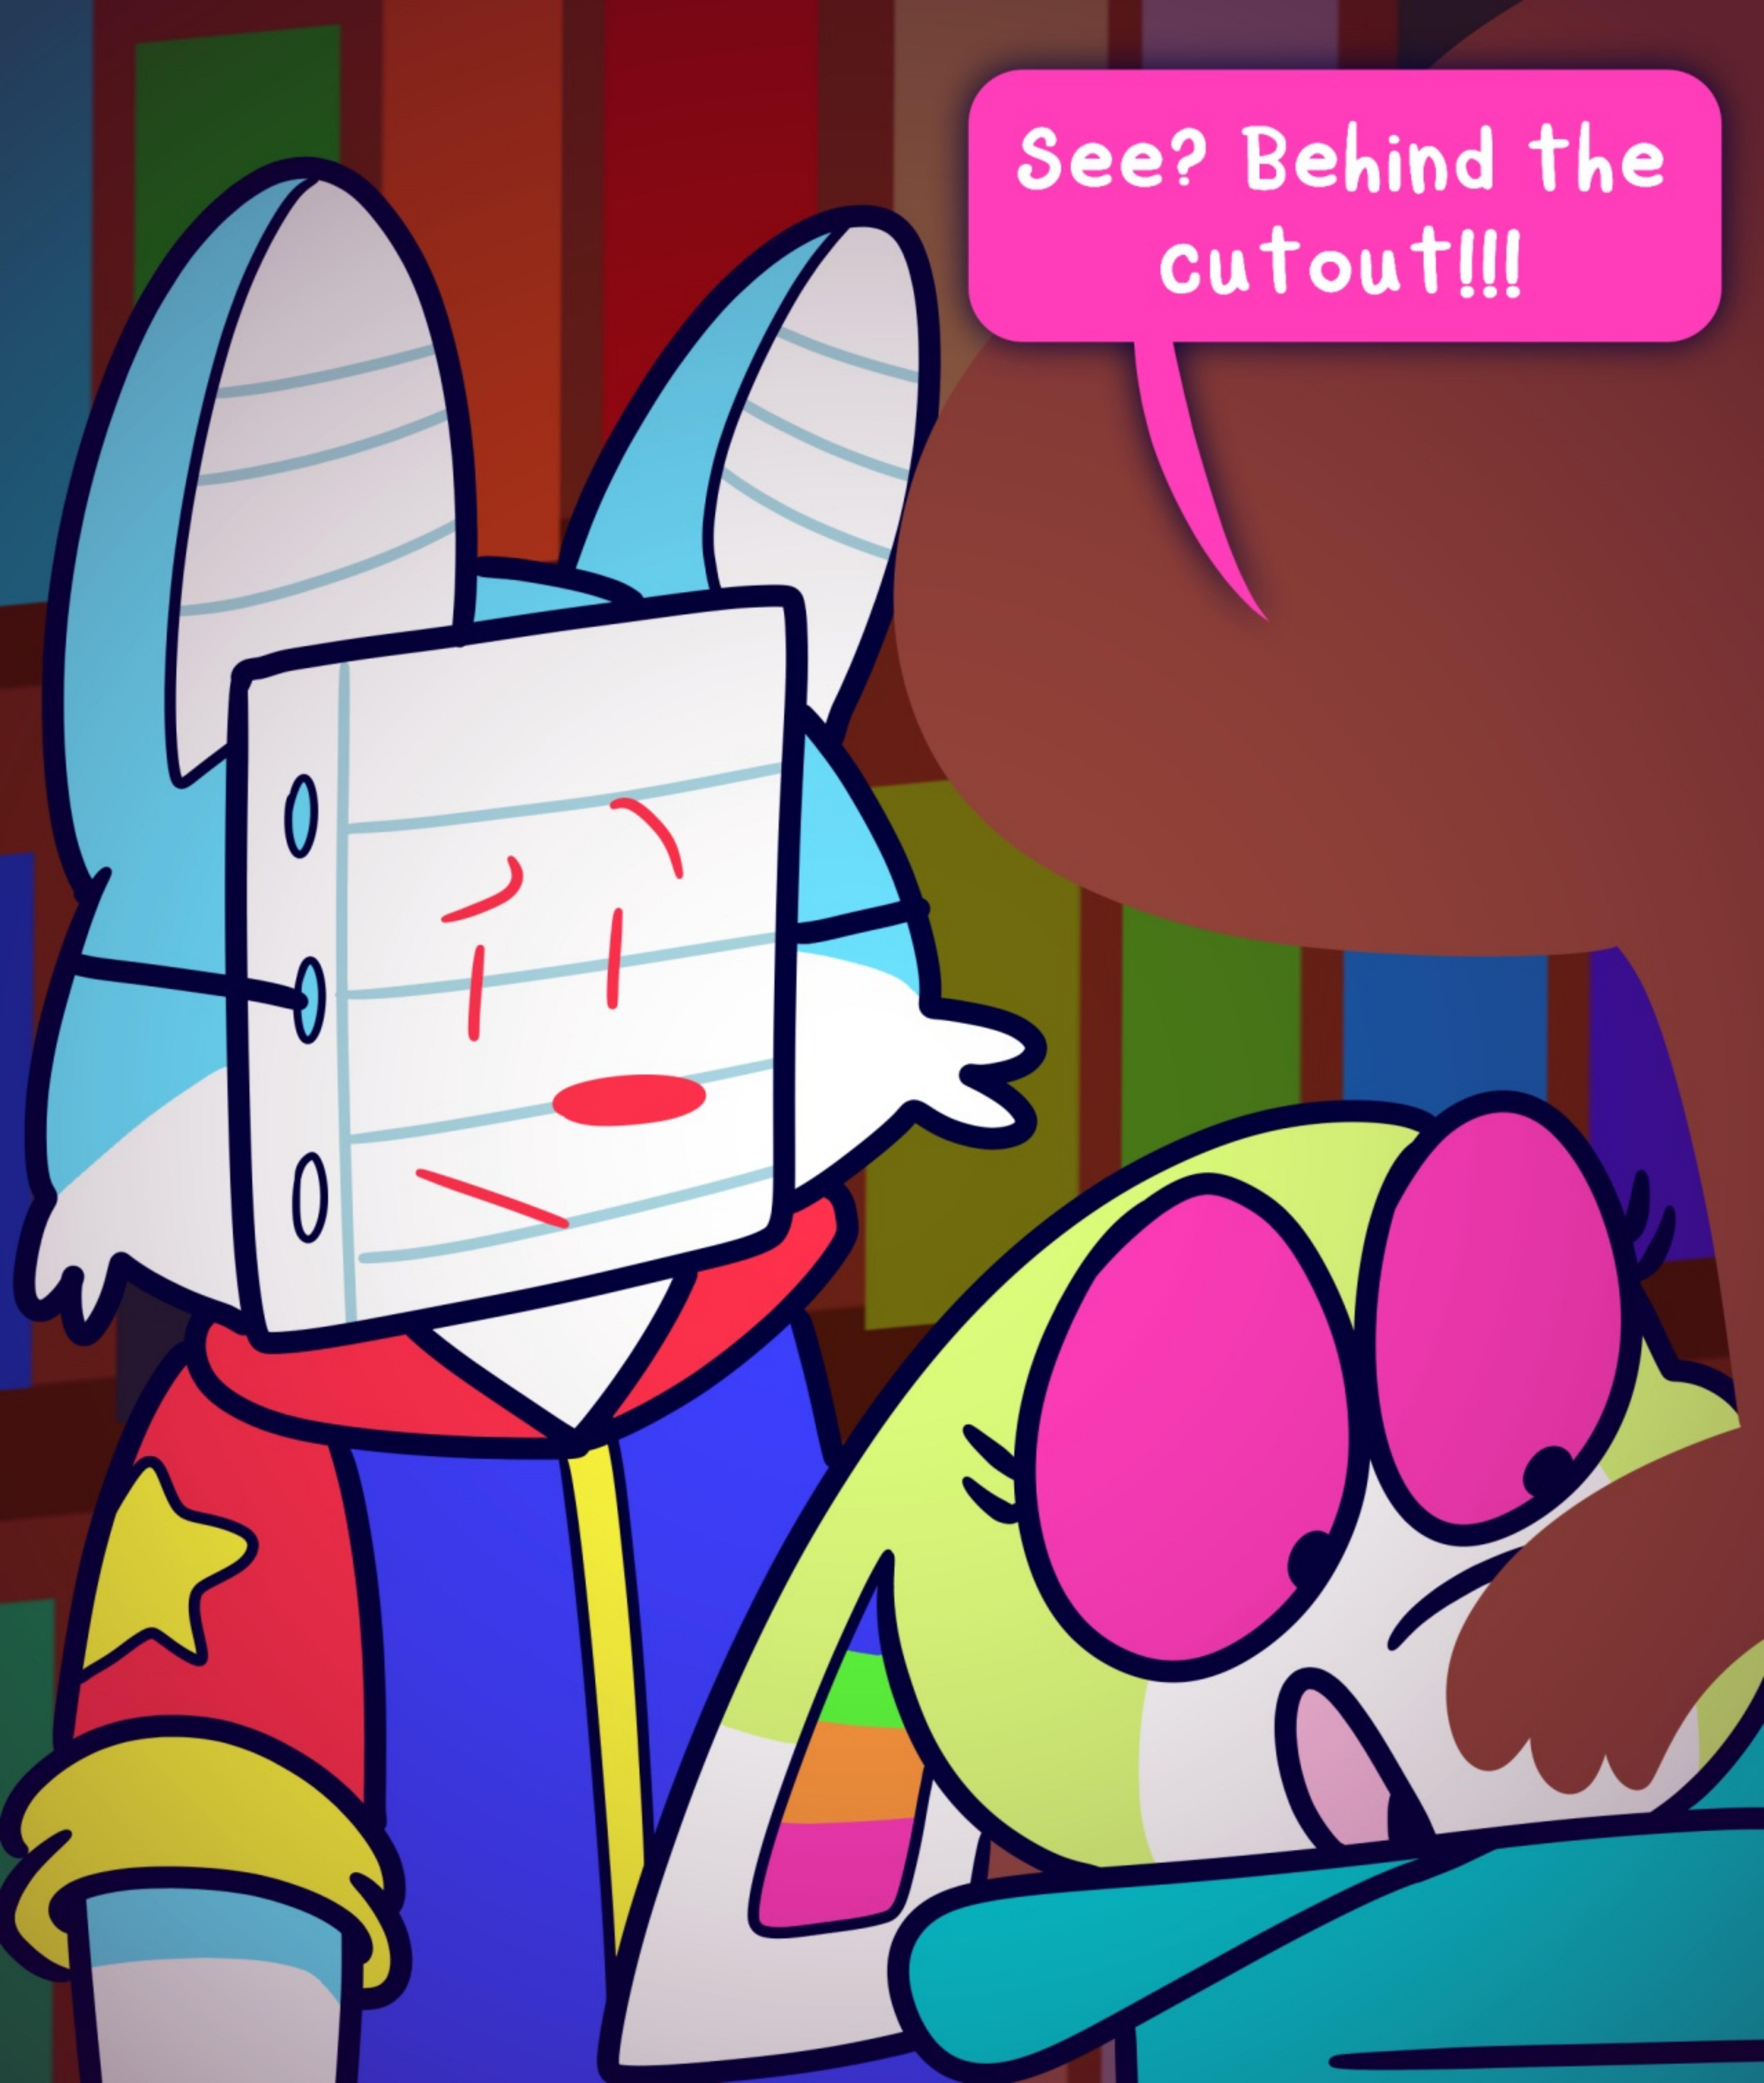




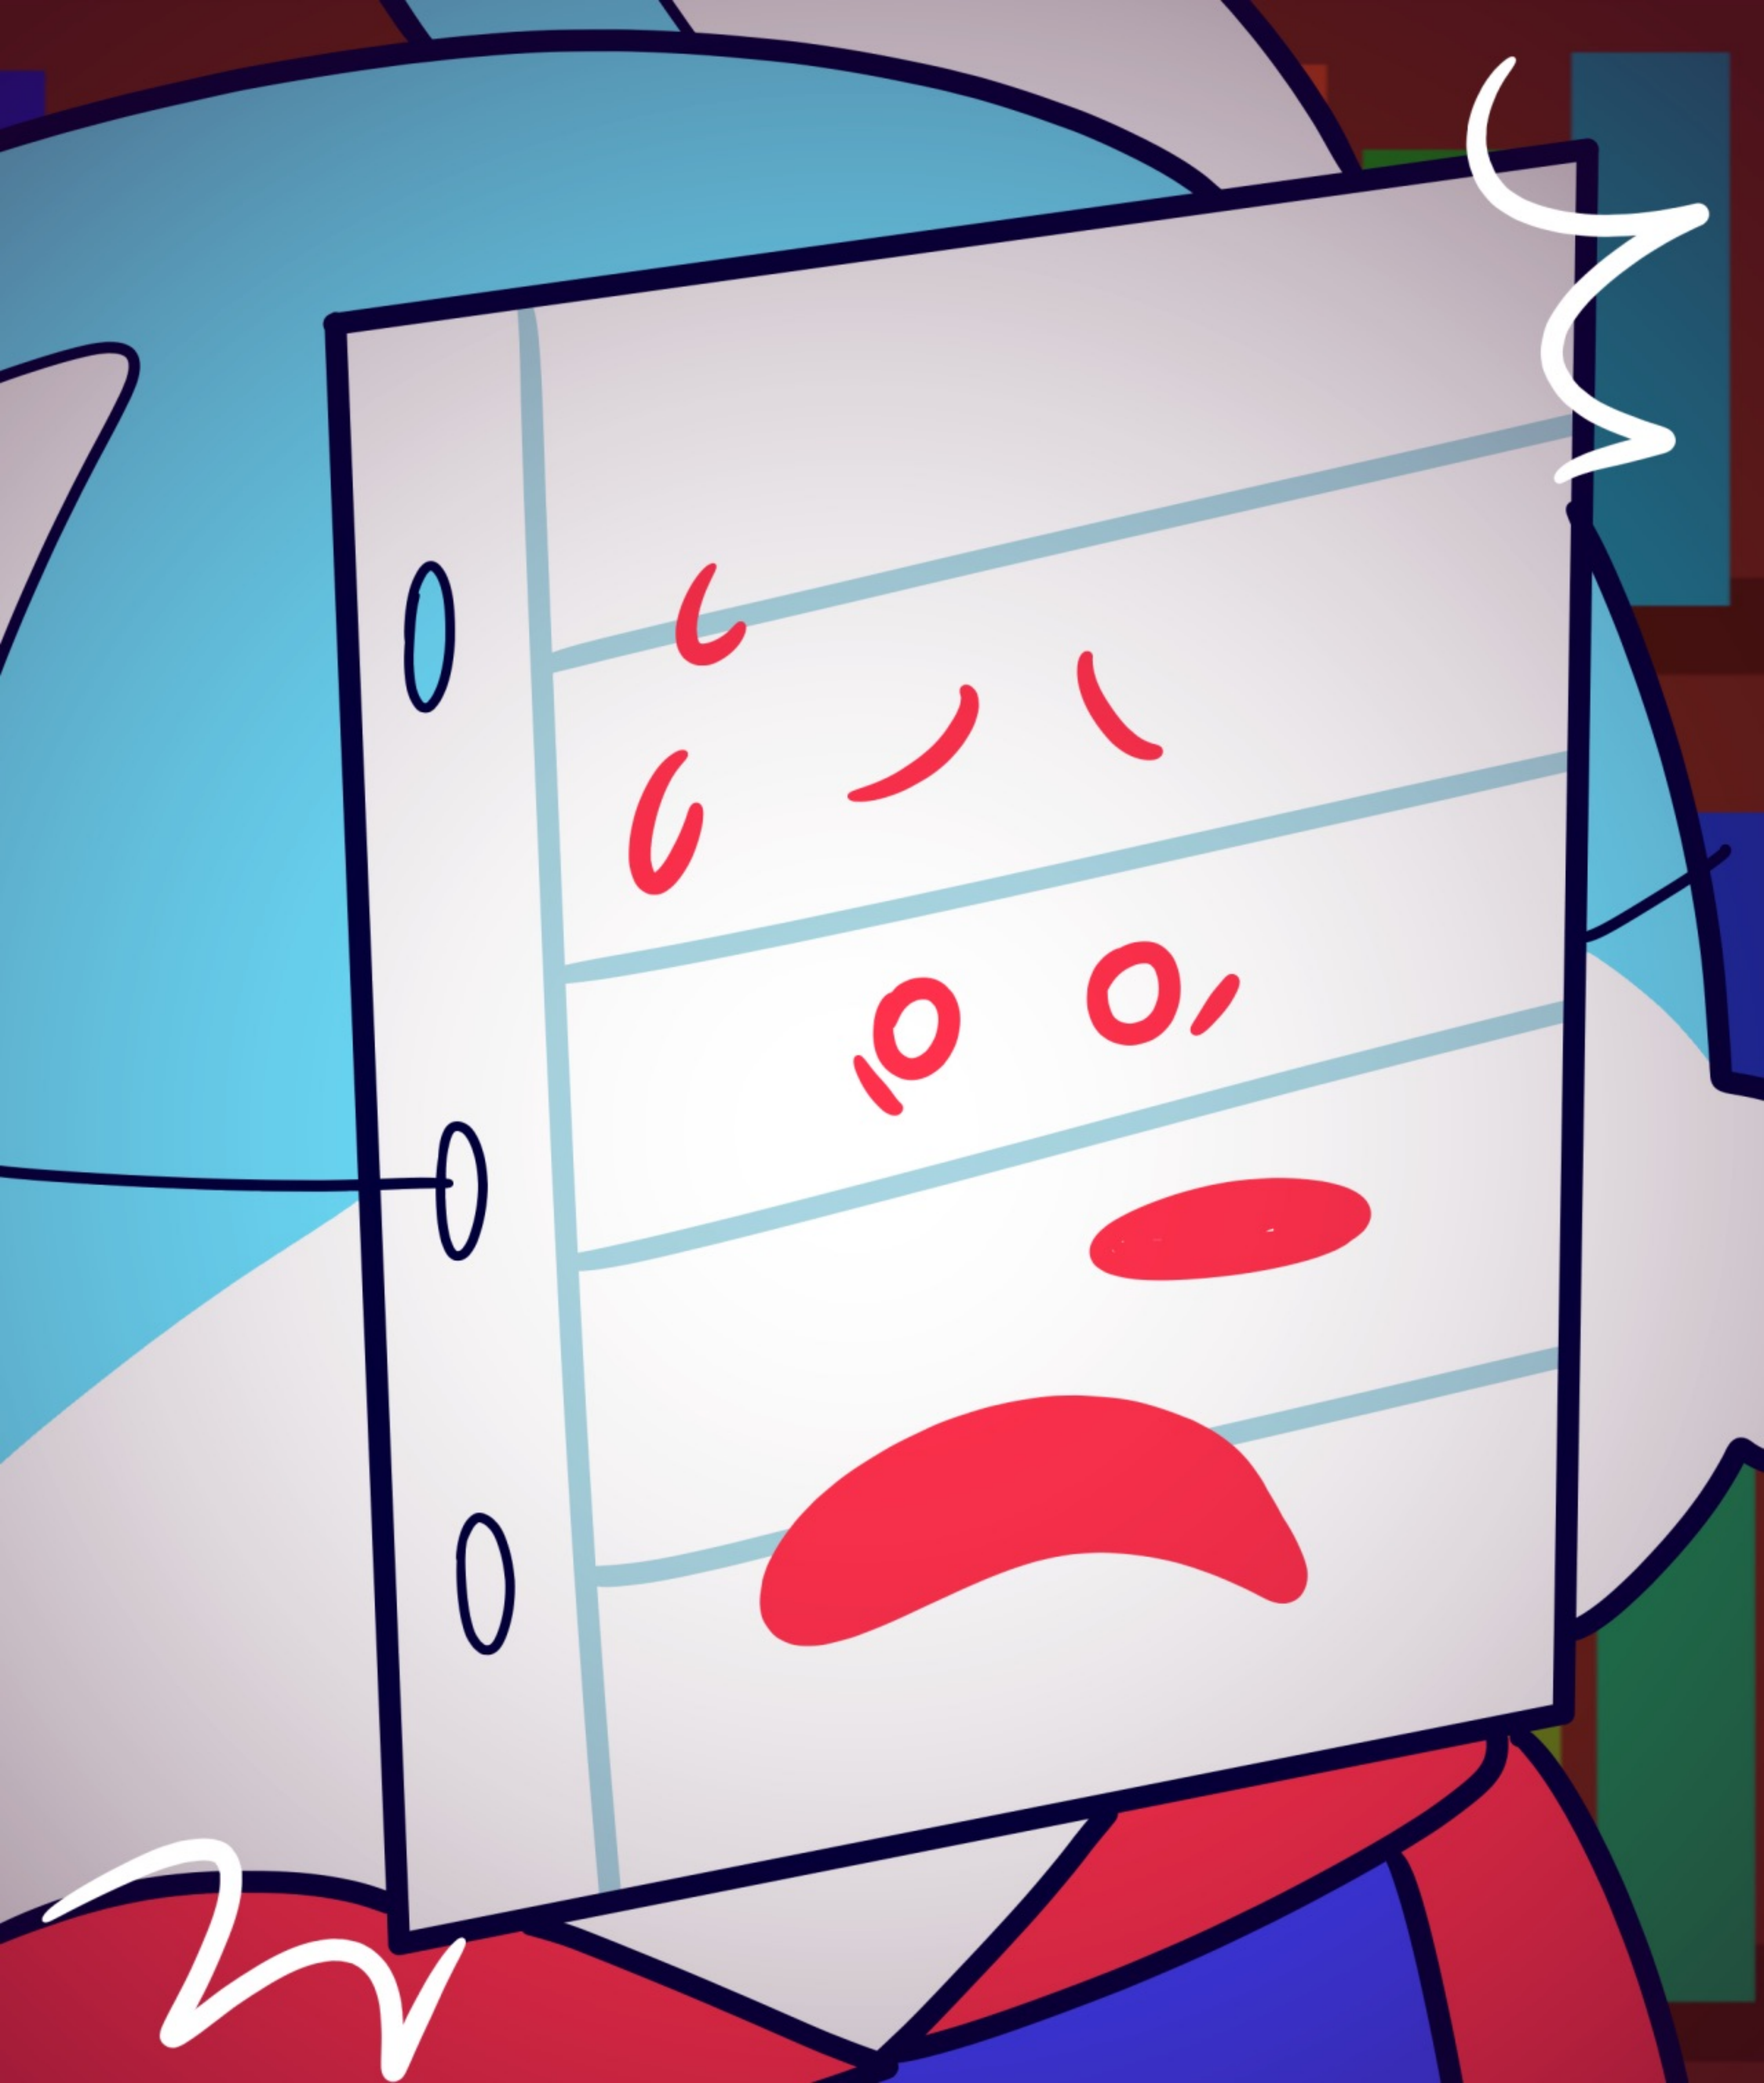
Hey Scrap, where´d ya get the egg decoration? I didn´t see it before!

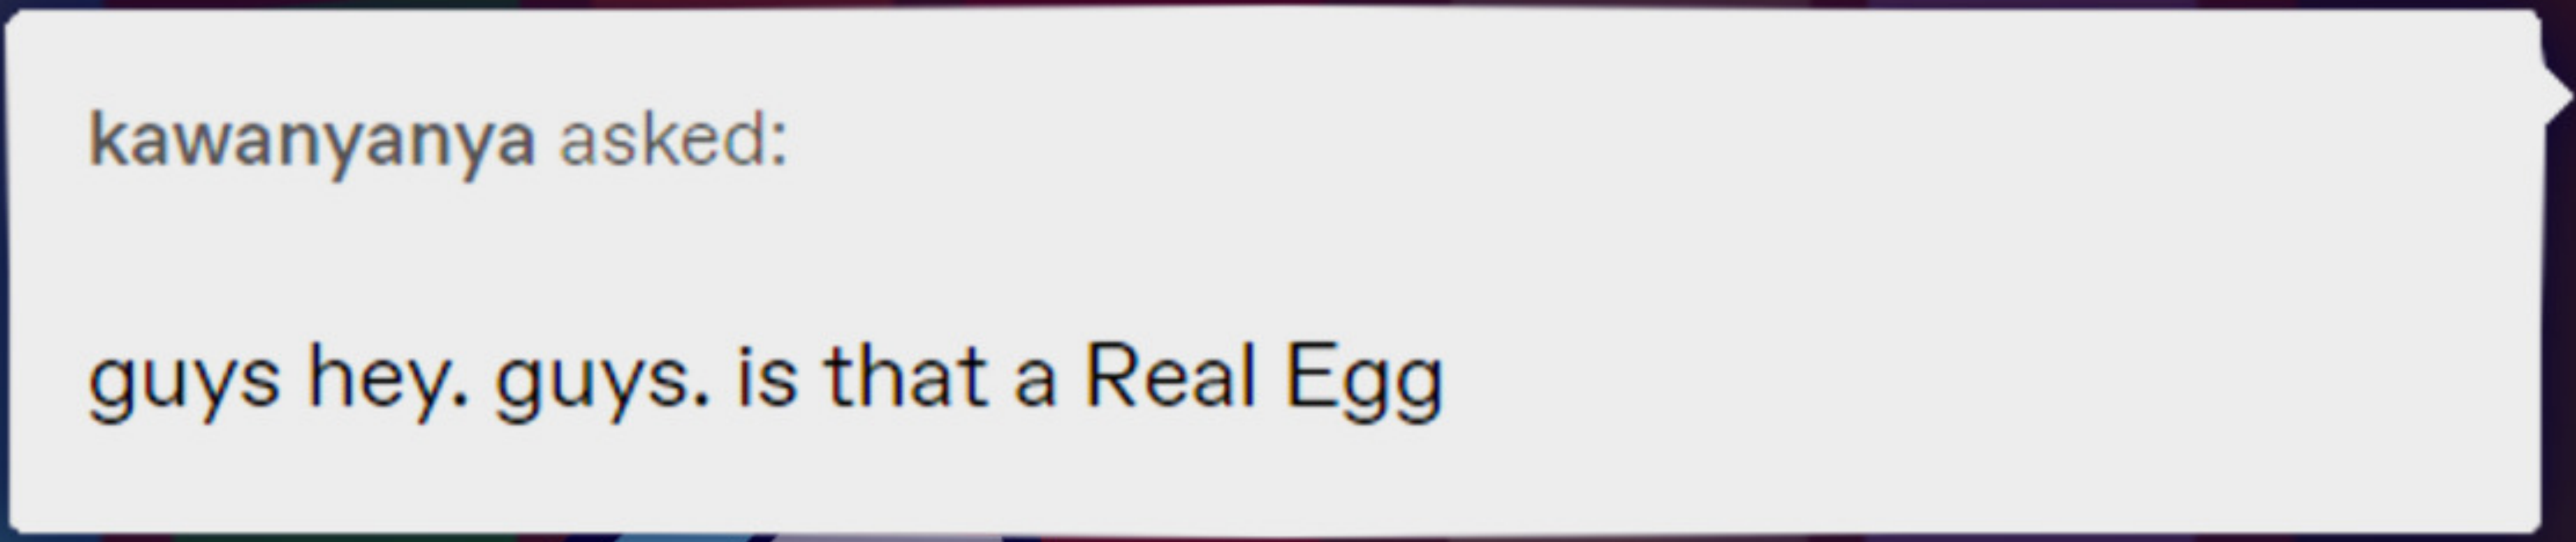


...the what?
Over here!



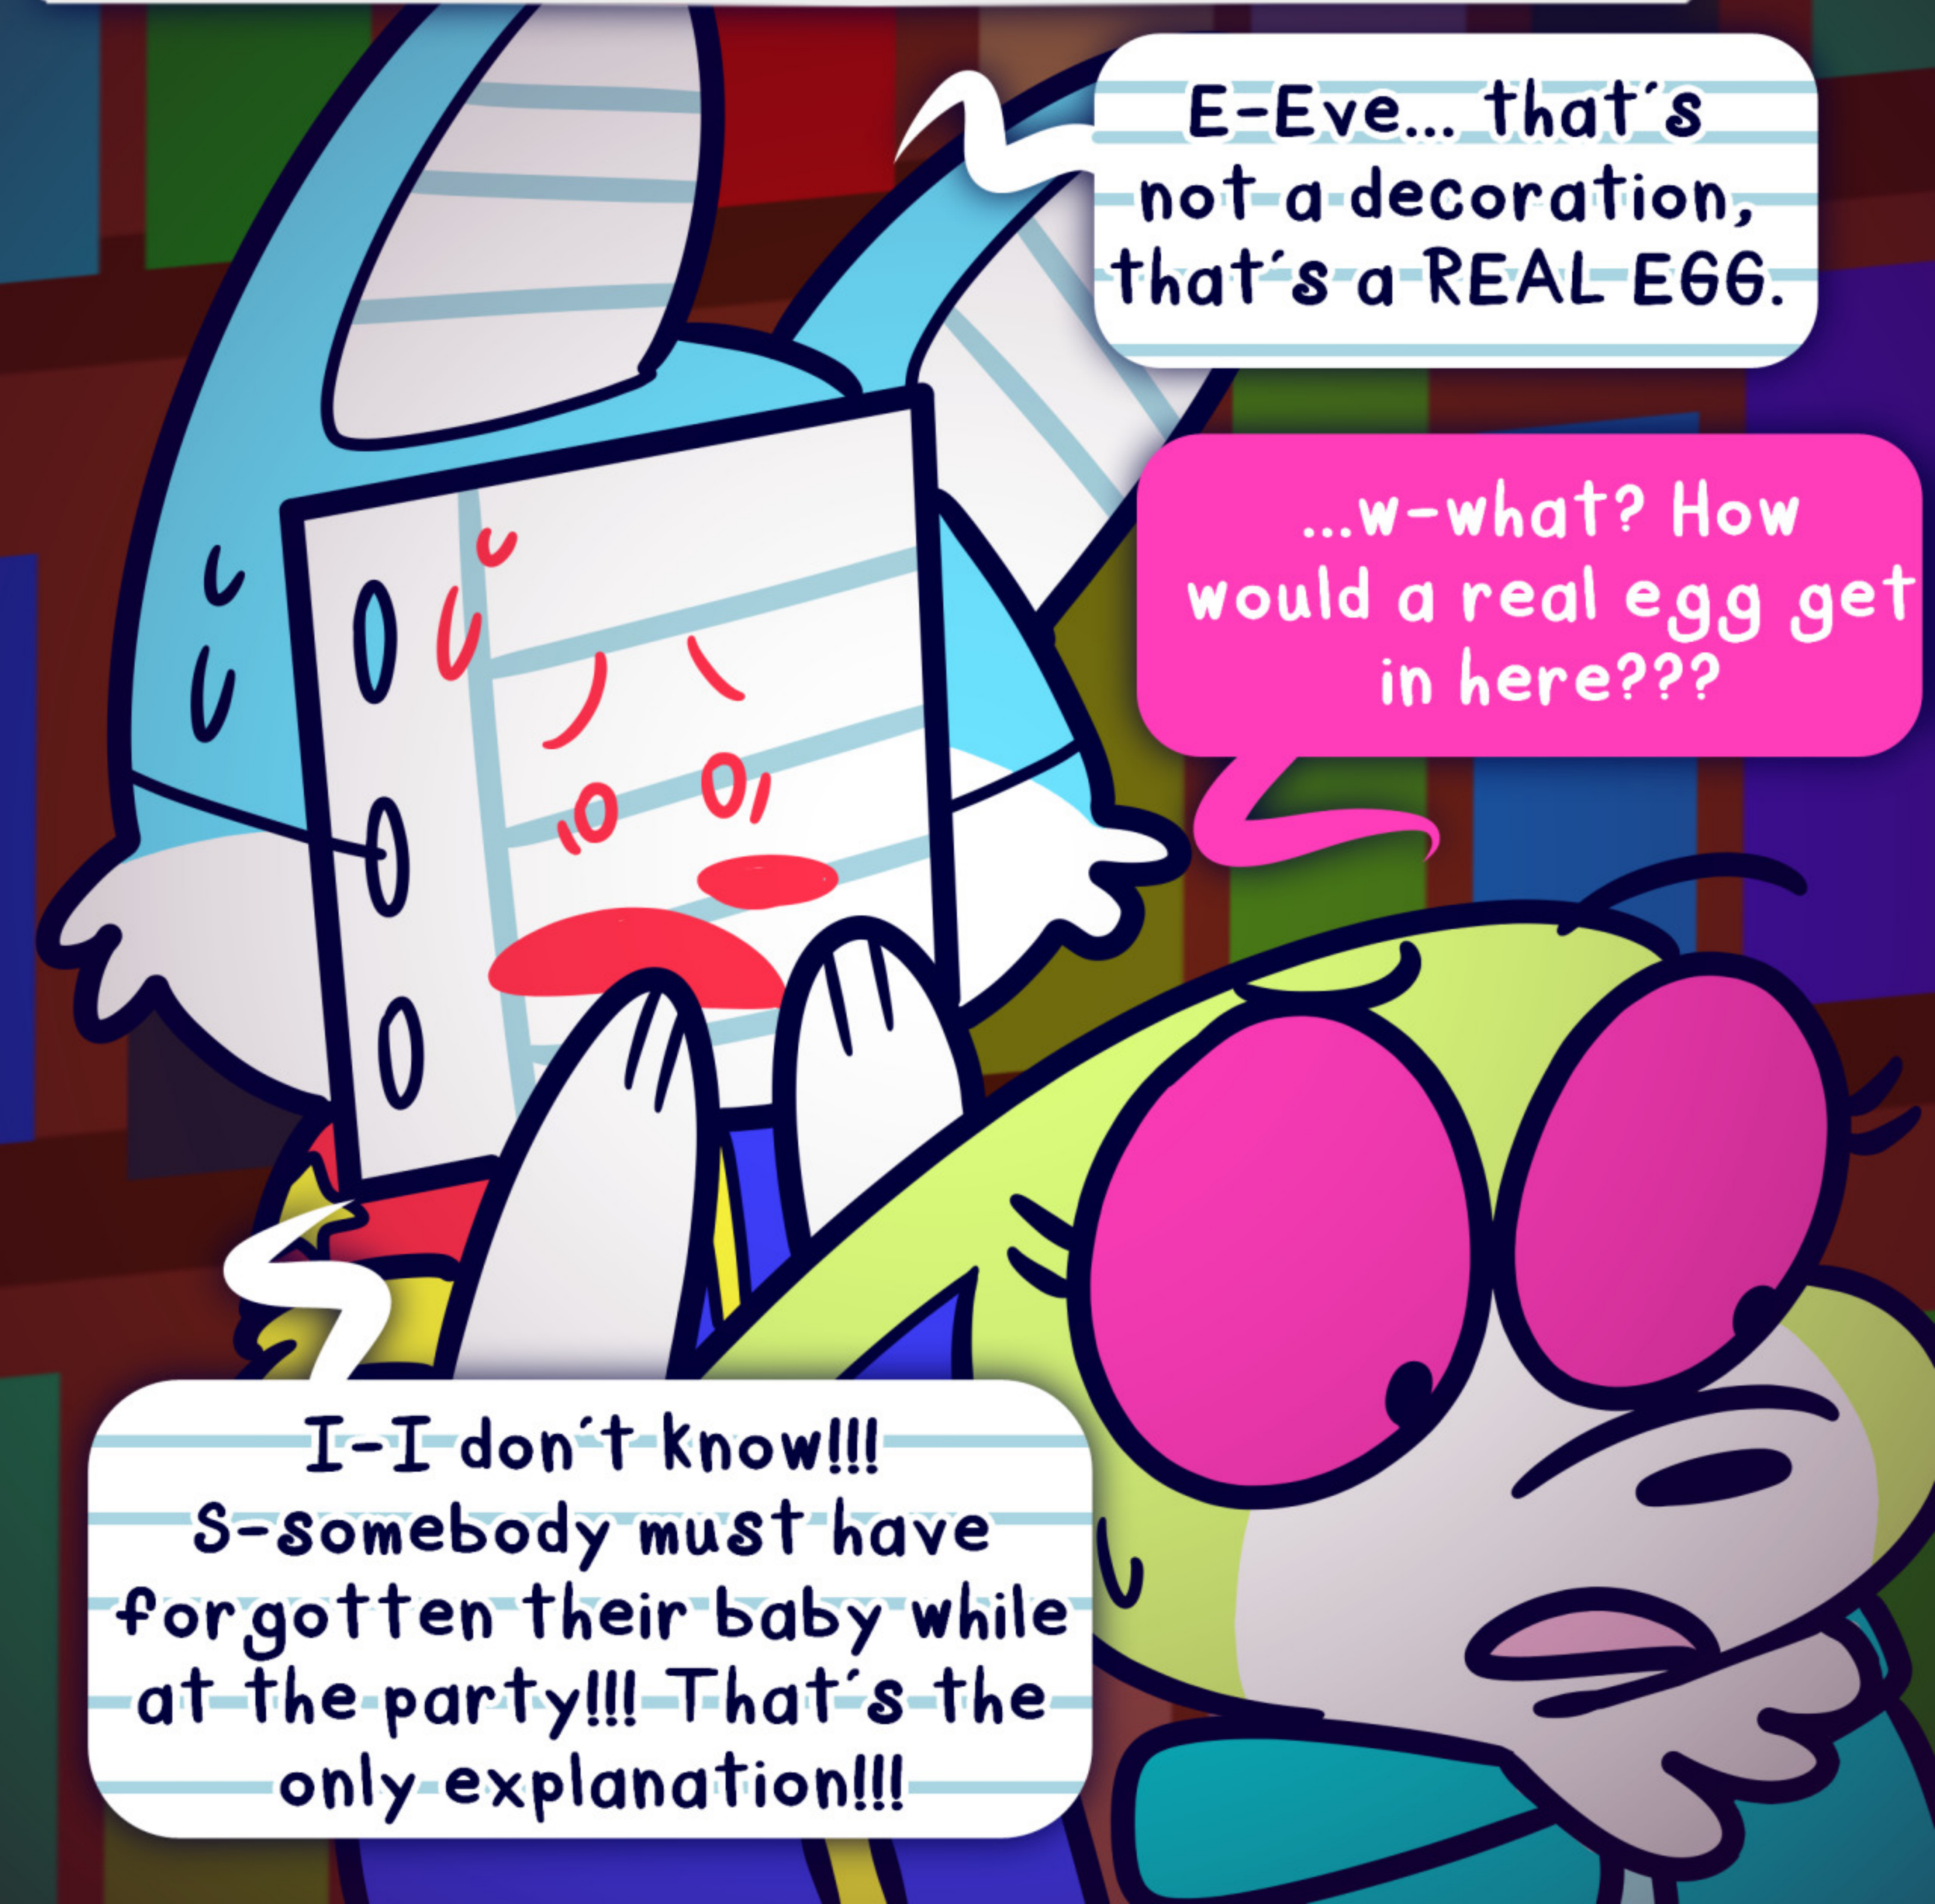
See? Behind the cutout!!!



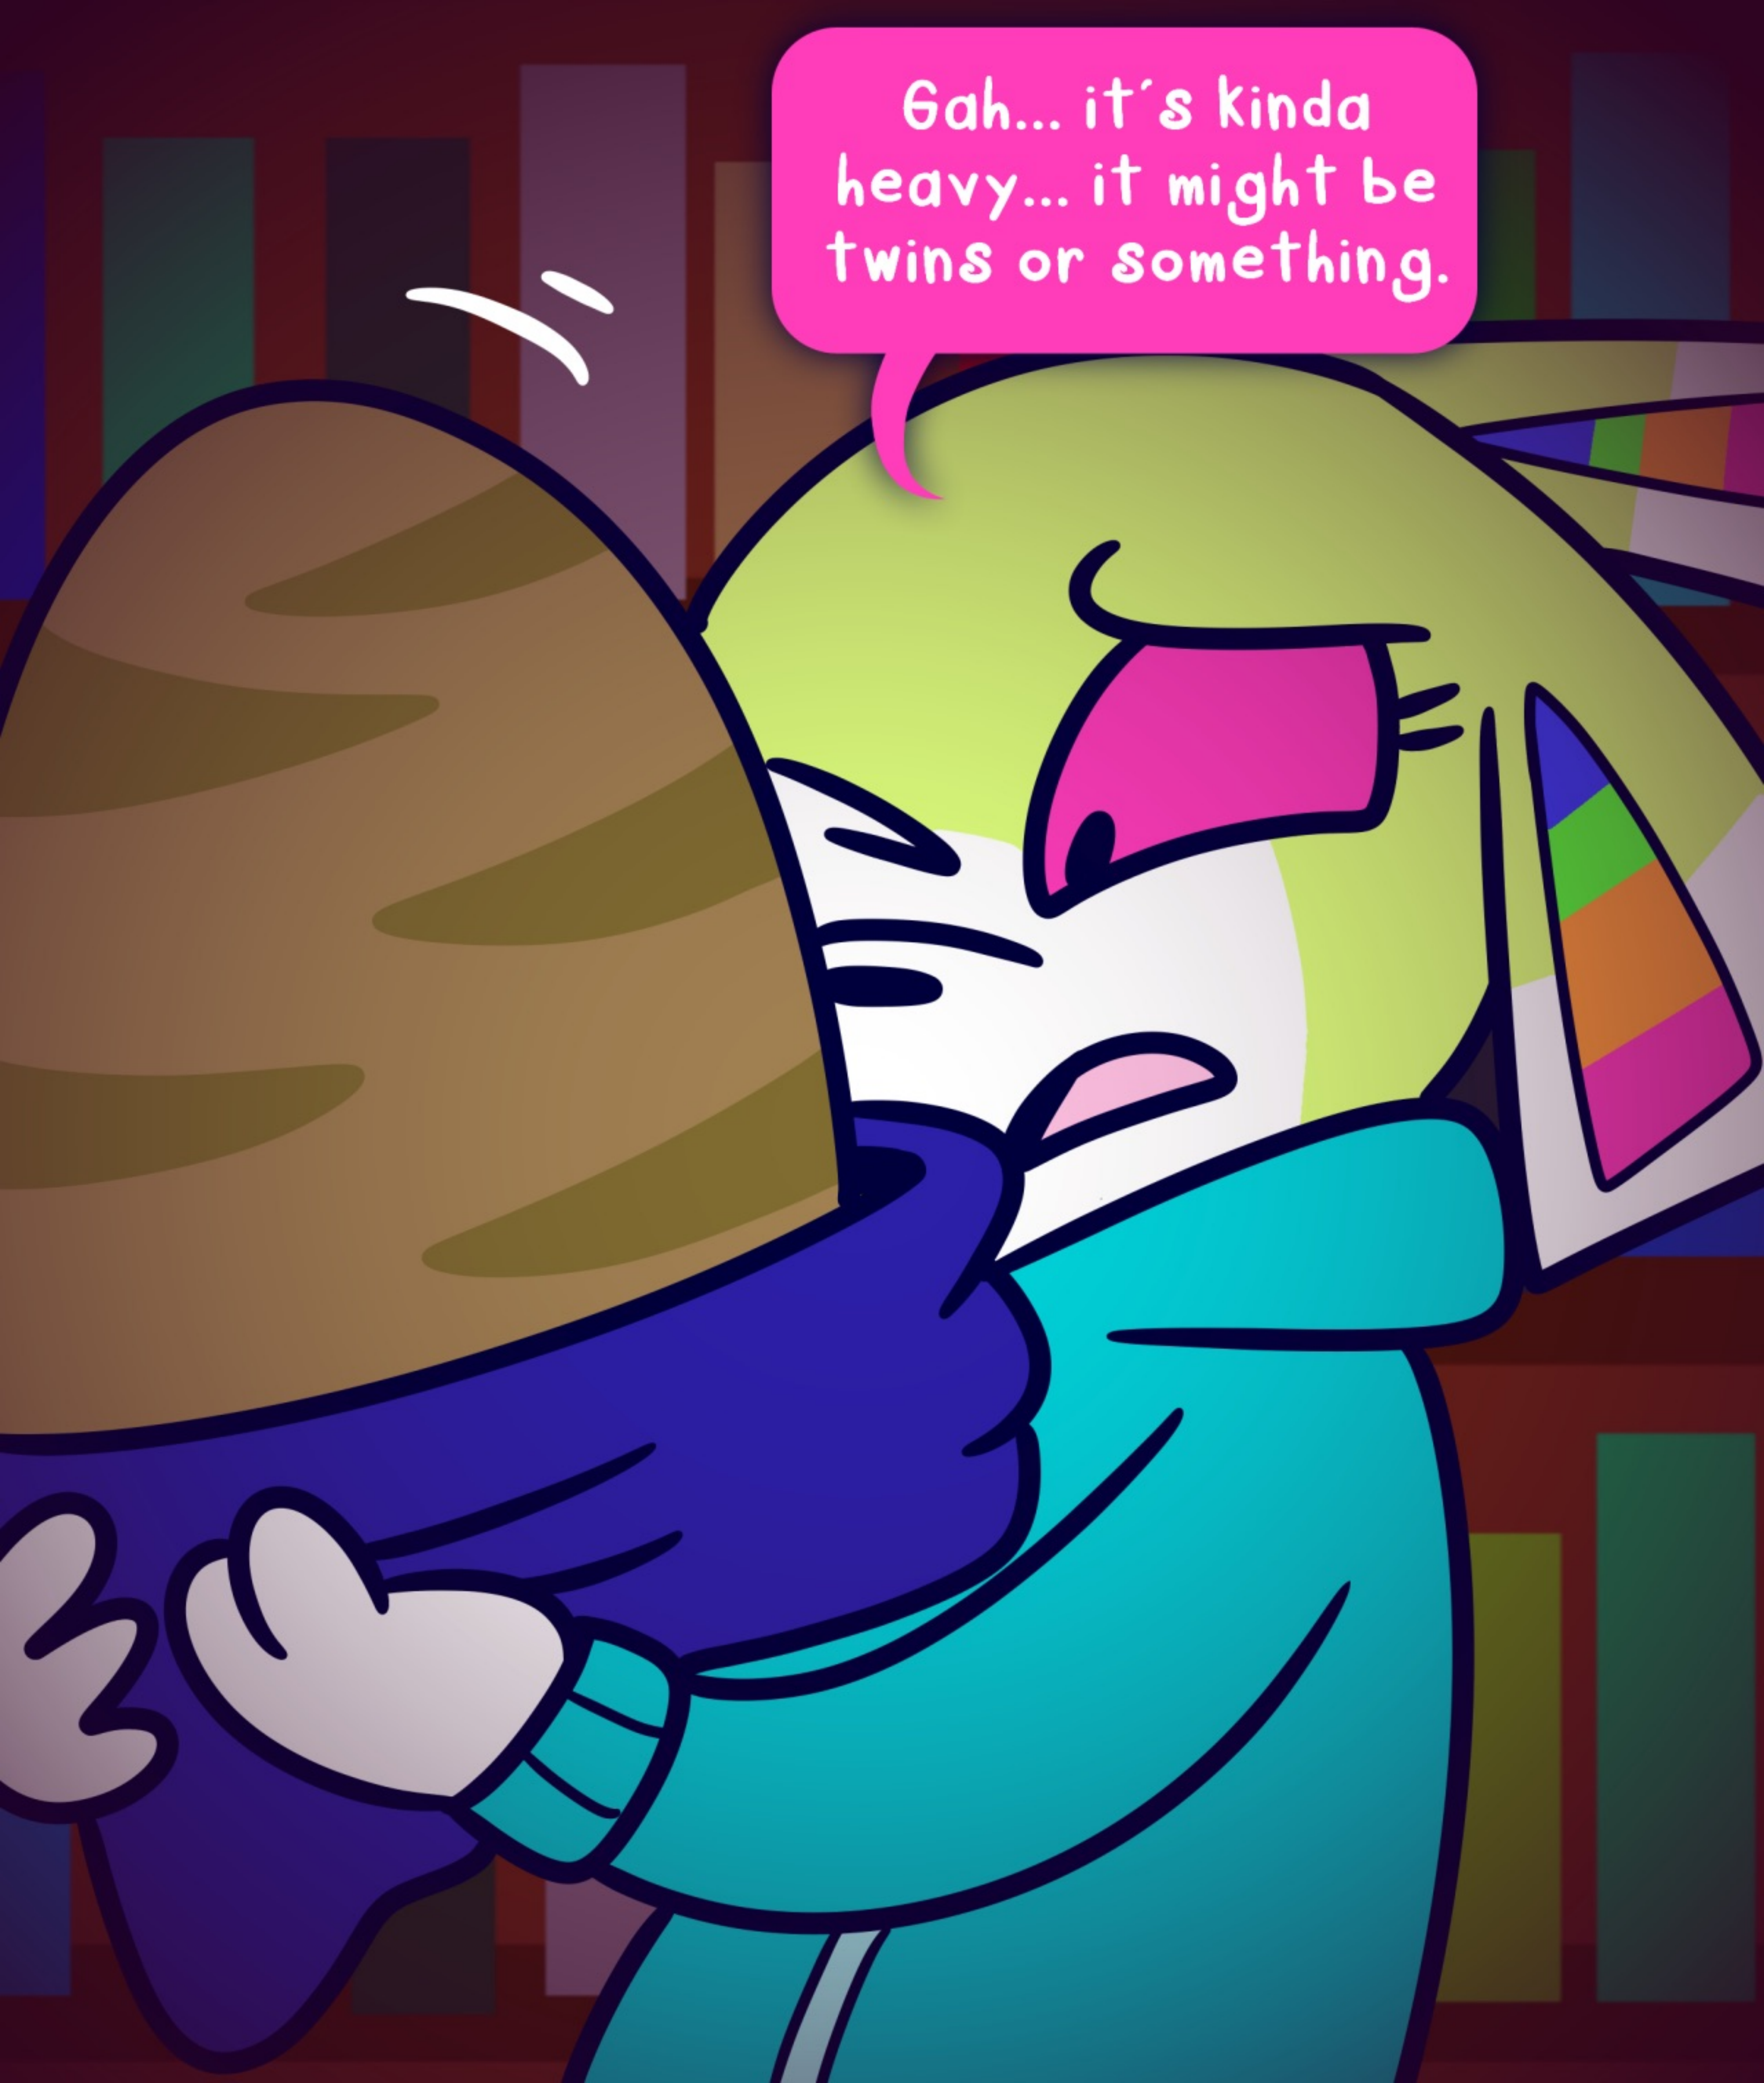


kawanyanya asked:

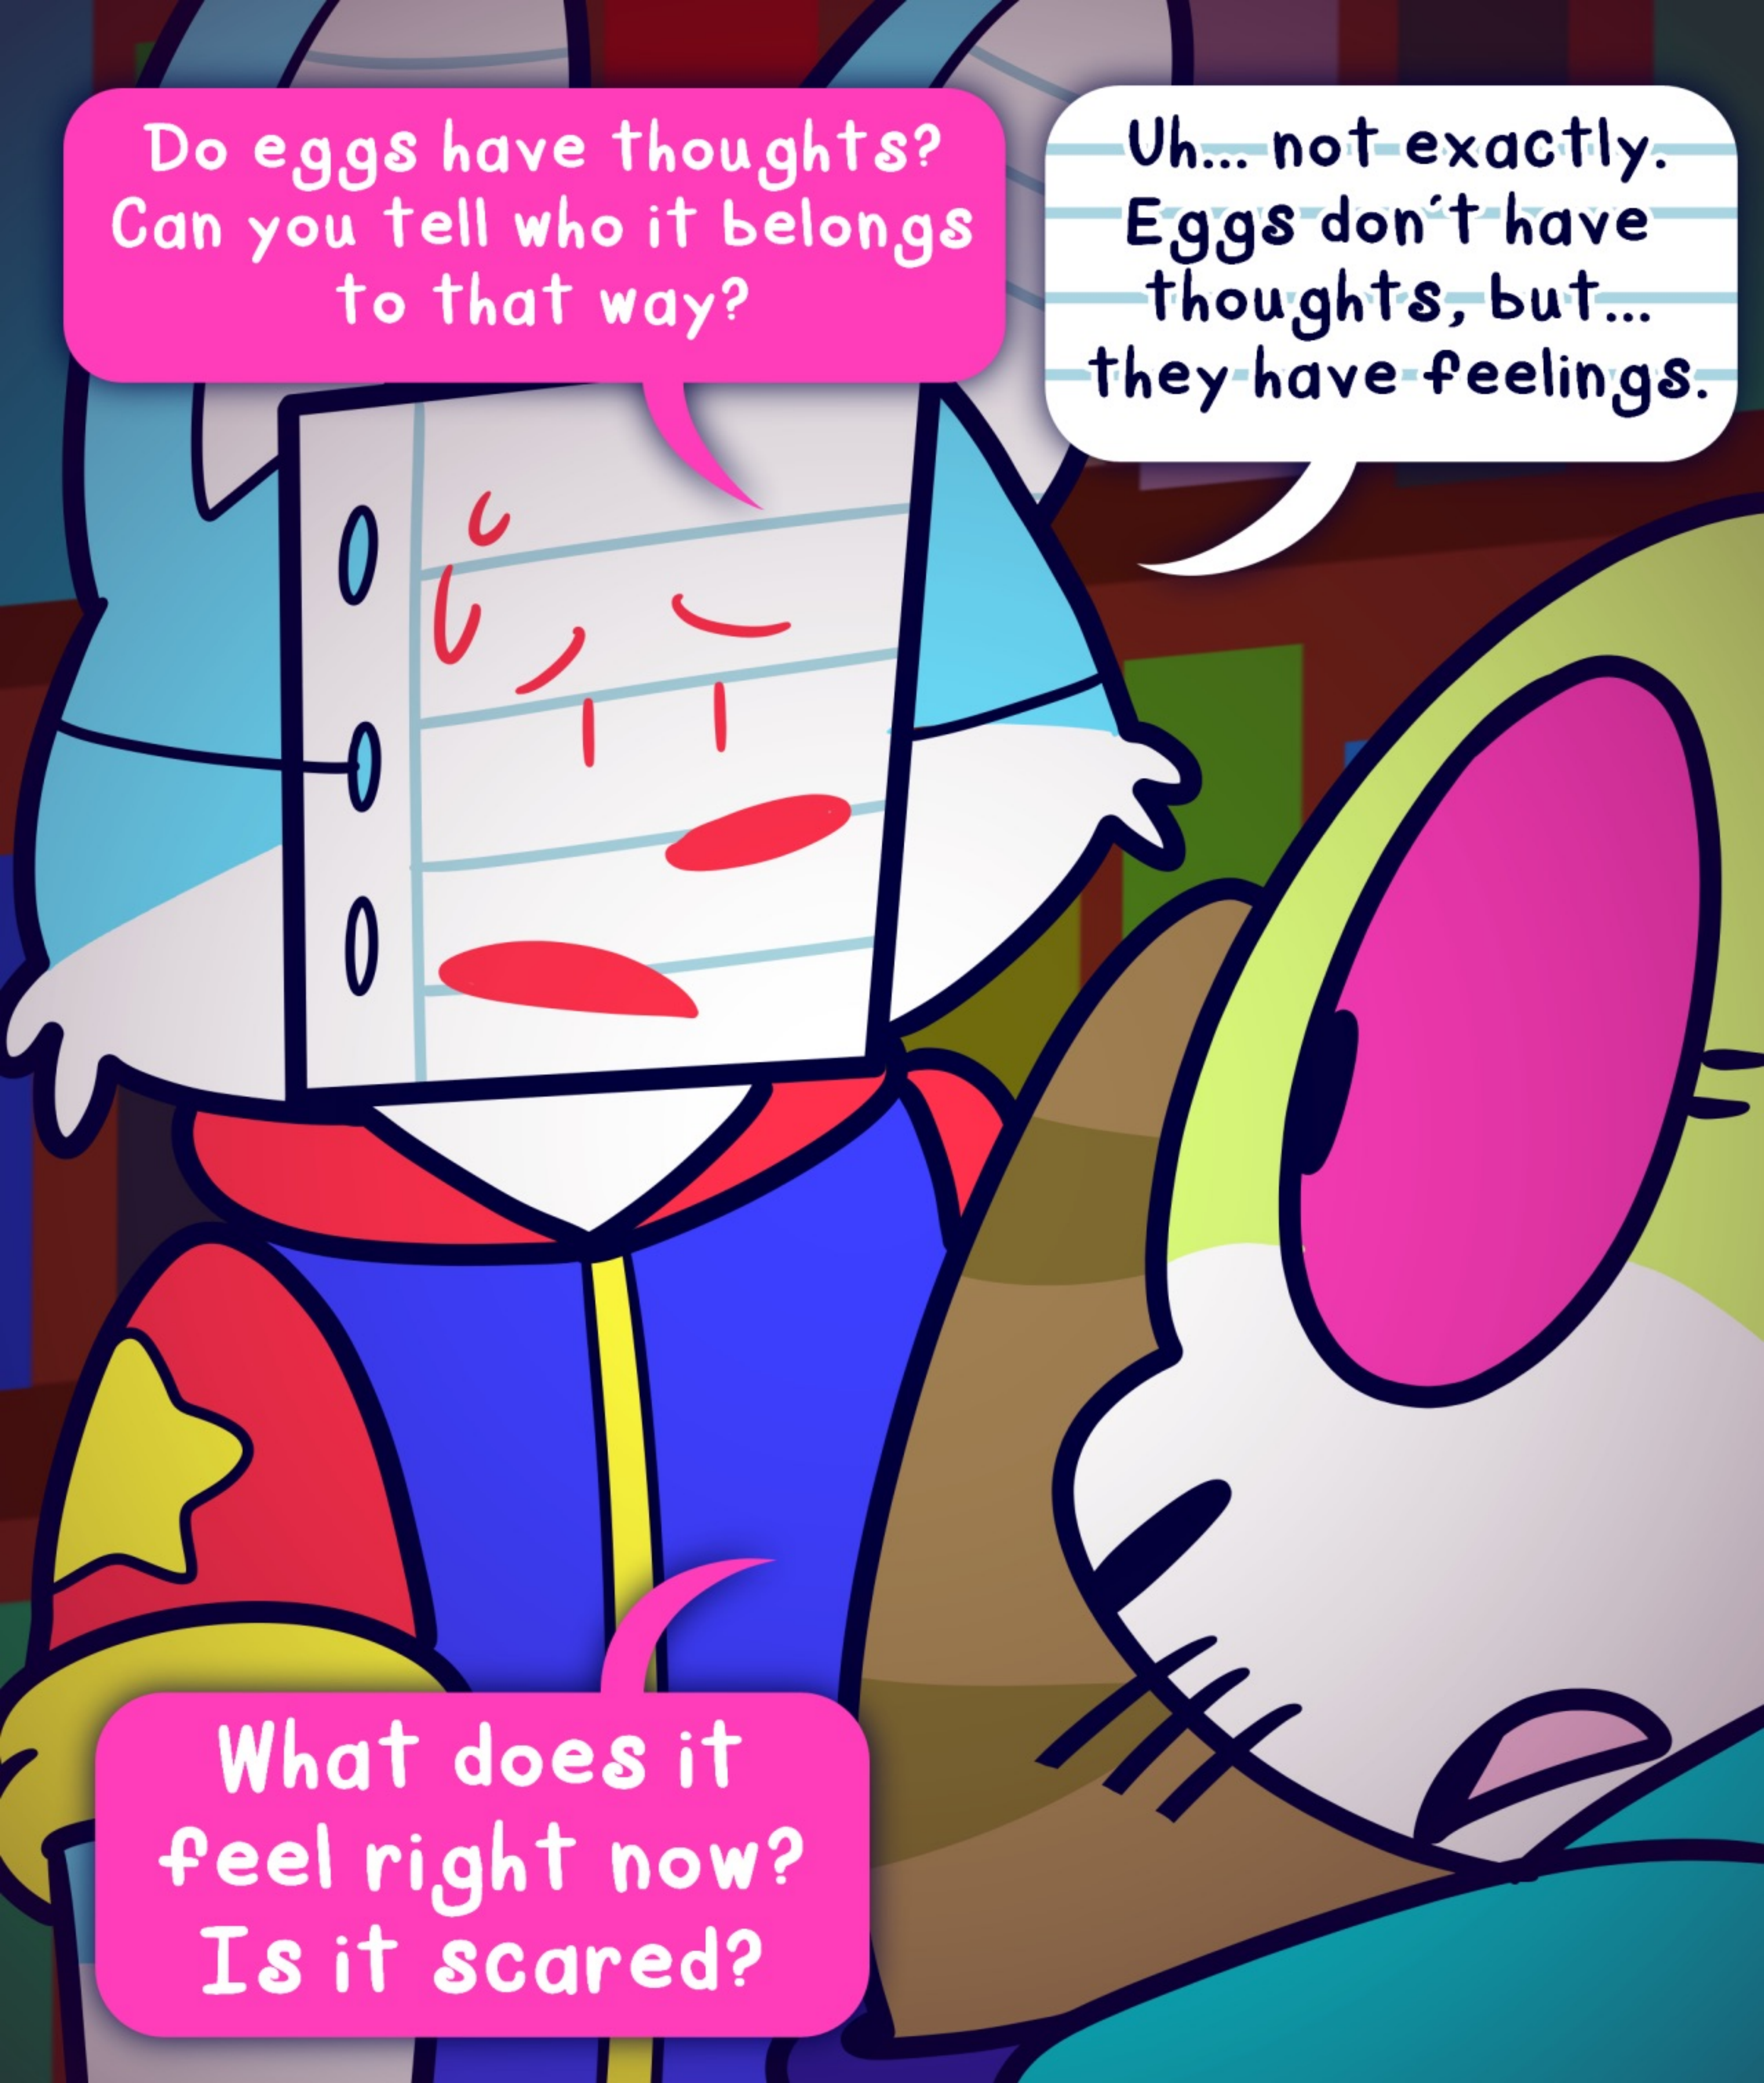
guys hey. guys. is that a Real Egg



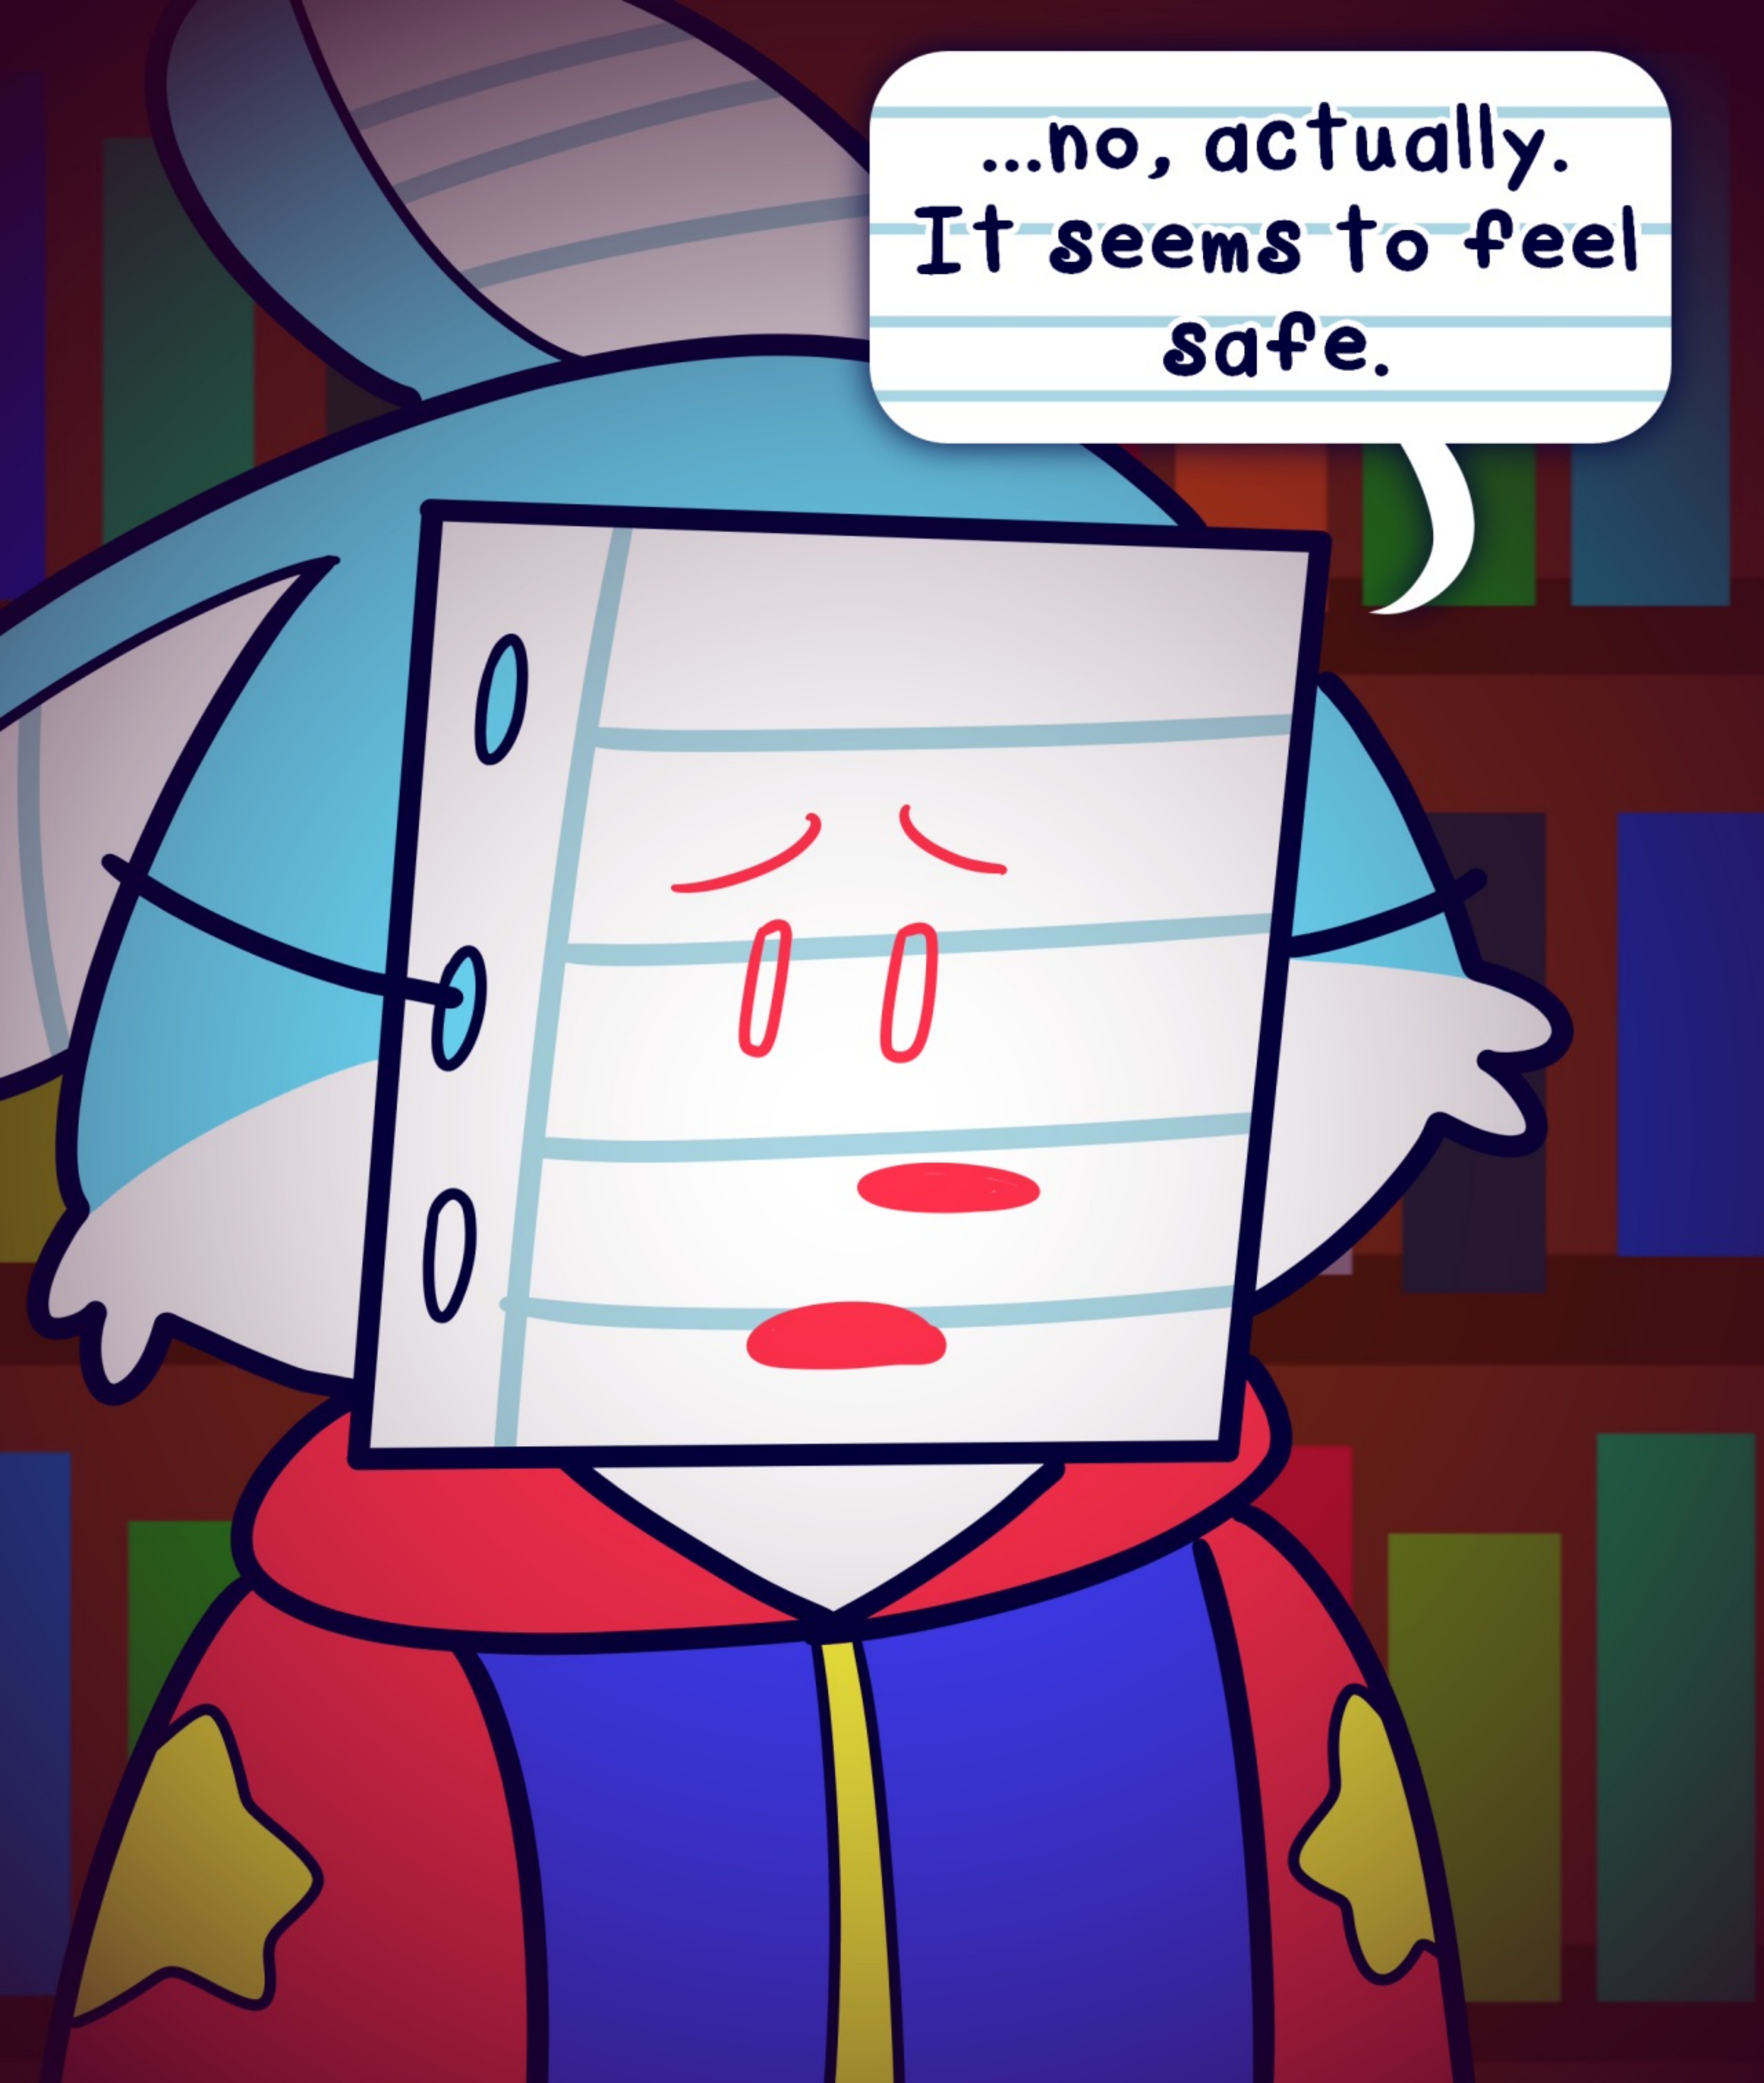
E-Eve... that´s not a decoration, that´s a REAL EGG.
...w-what? How would a real egg get in here???
I-I don´t know!!! S-somebody must have forgotten their baby while at the party!!! That´s the only explanation!!!



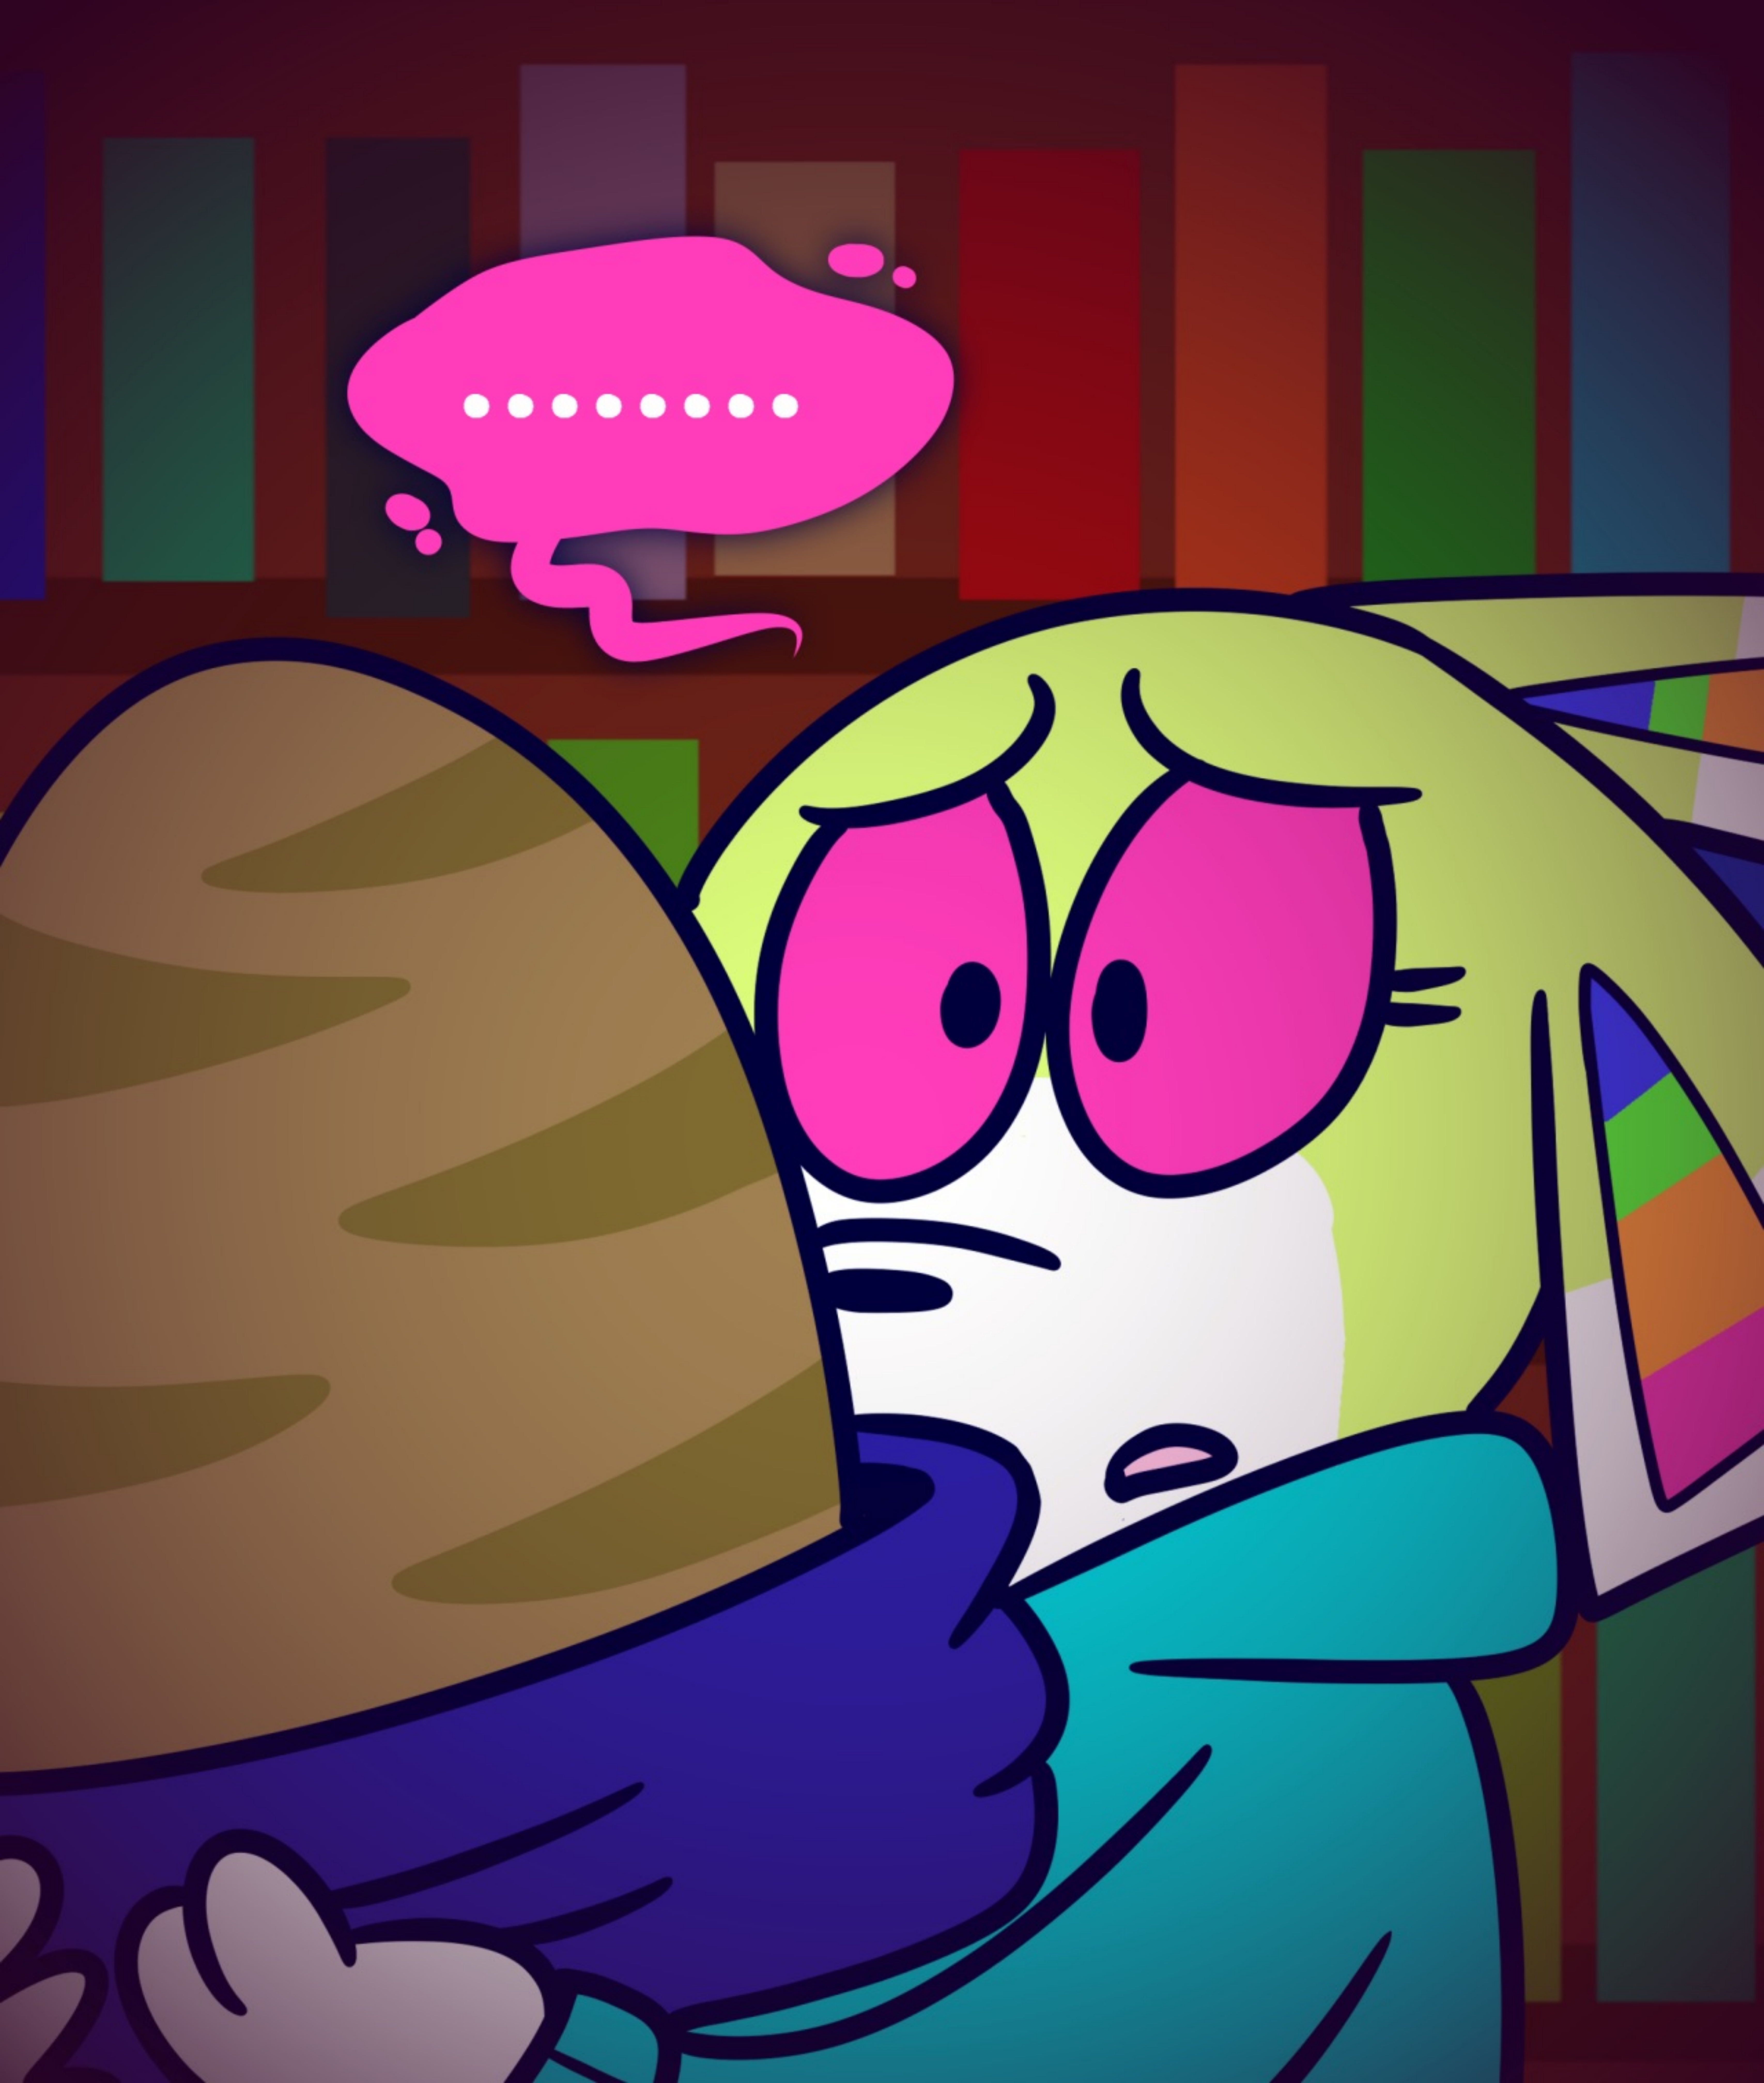
Gah... it´s kinda heavy... it might be twins or something.

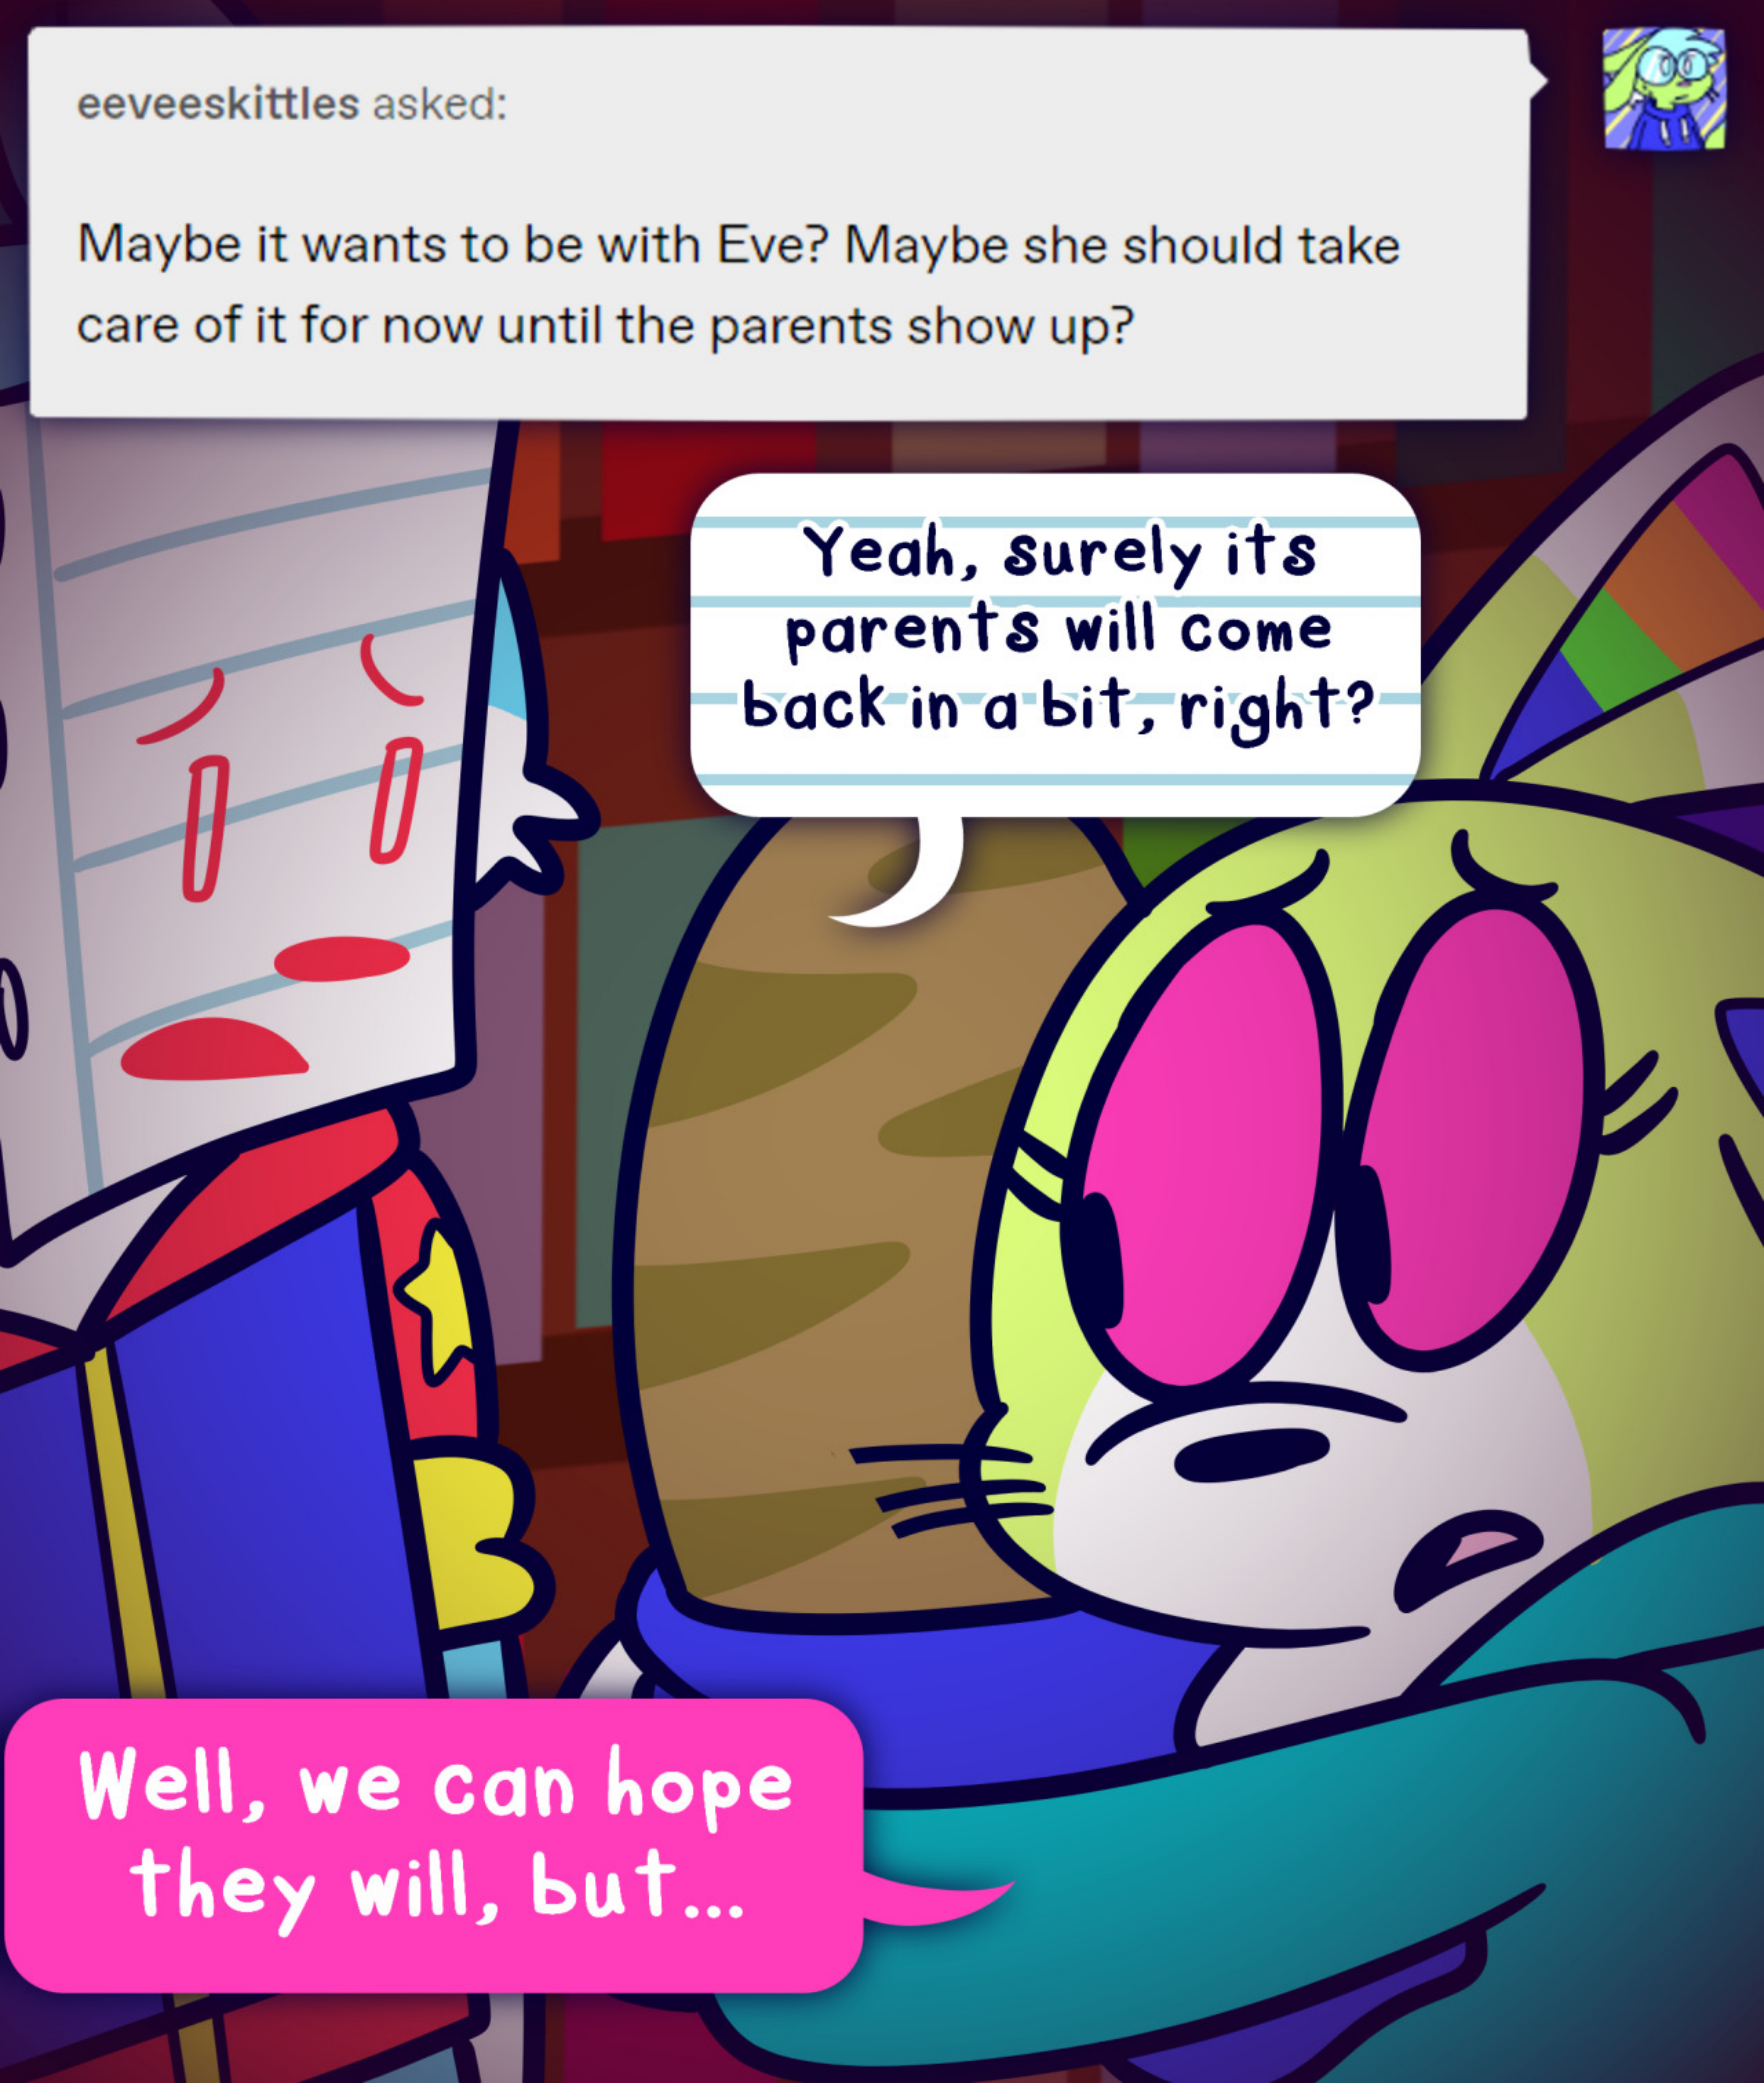


Do eggs have thoughts? Can you tell who it belongs to that way?
Uh... not exactly. Eggs don't have thoughts, but... they have feelings.
What does it feel right now? Is it scared?



...no, actually. It seems to feel safe.

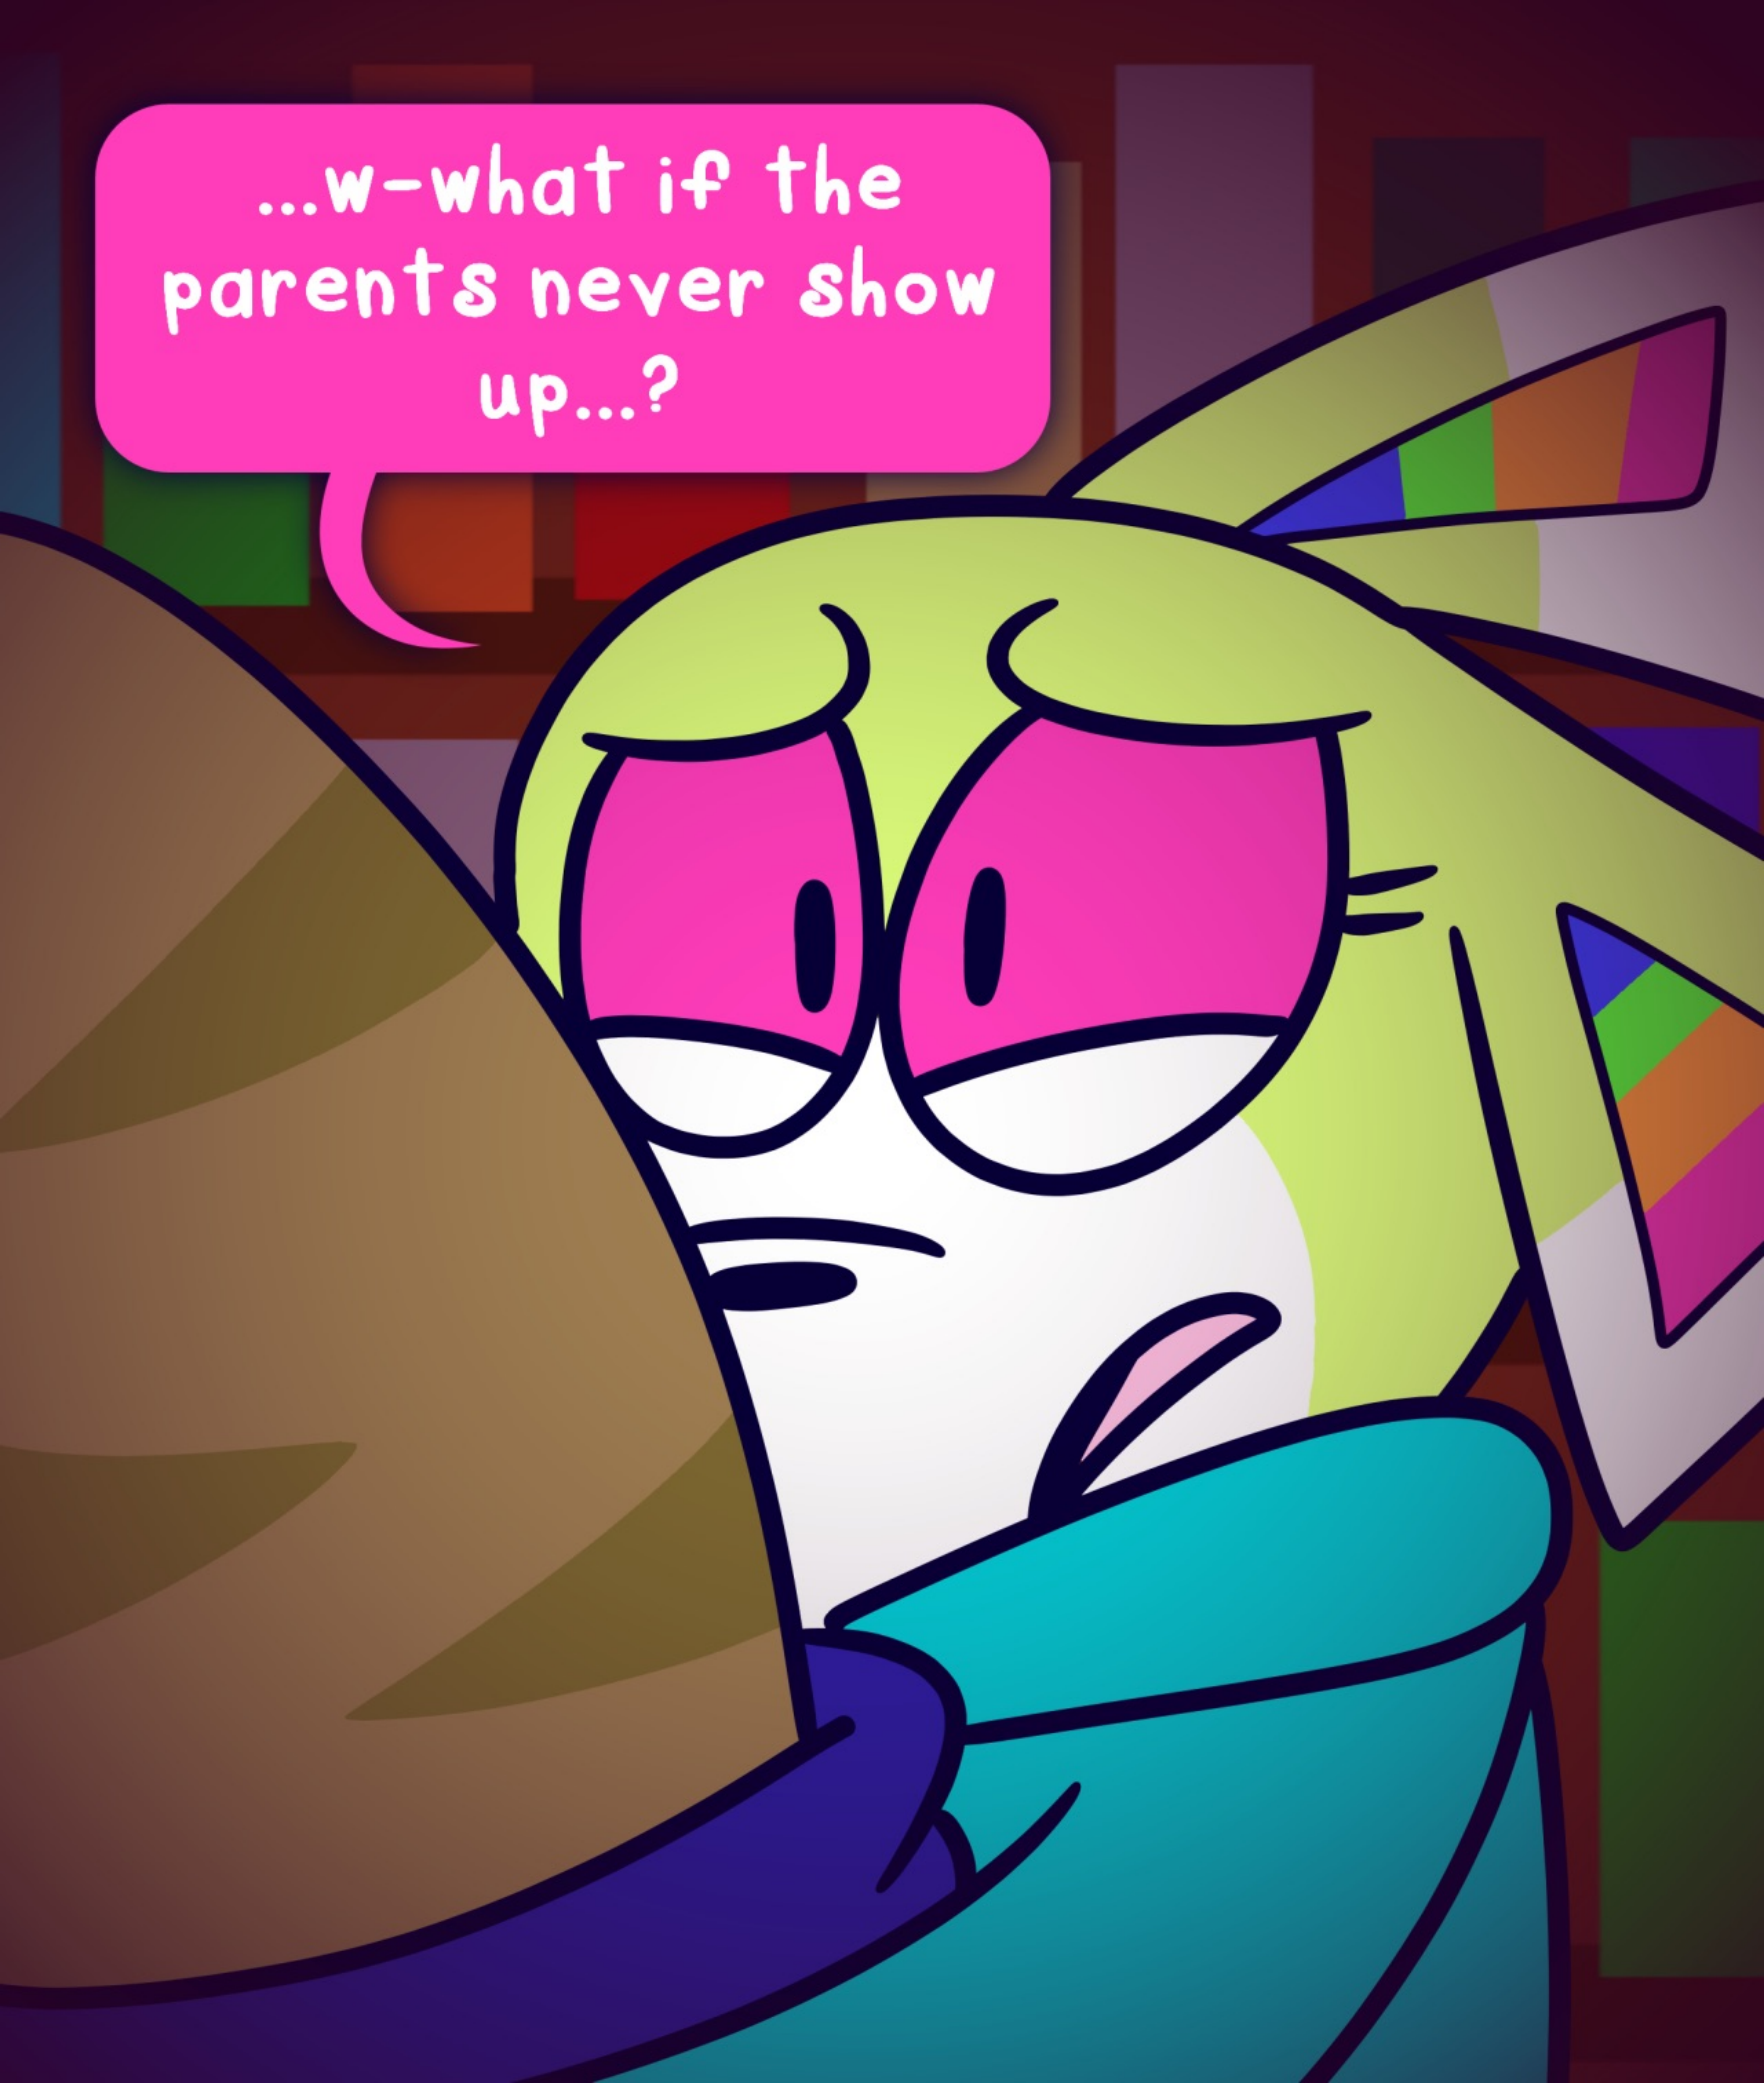




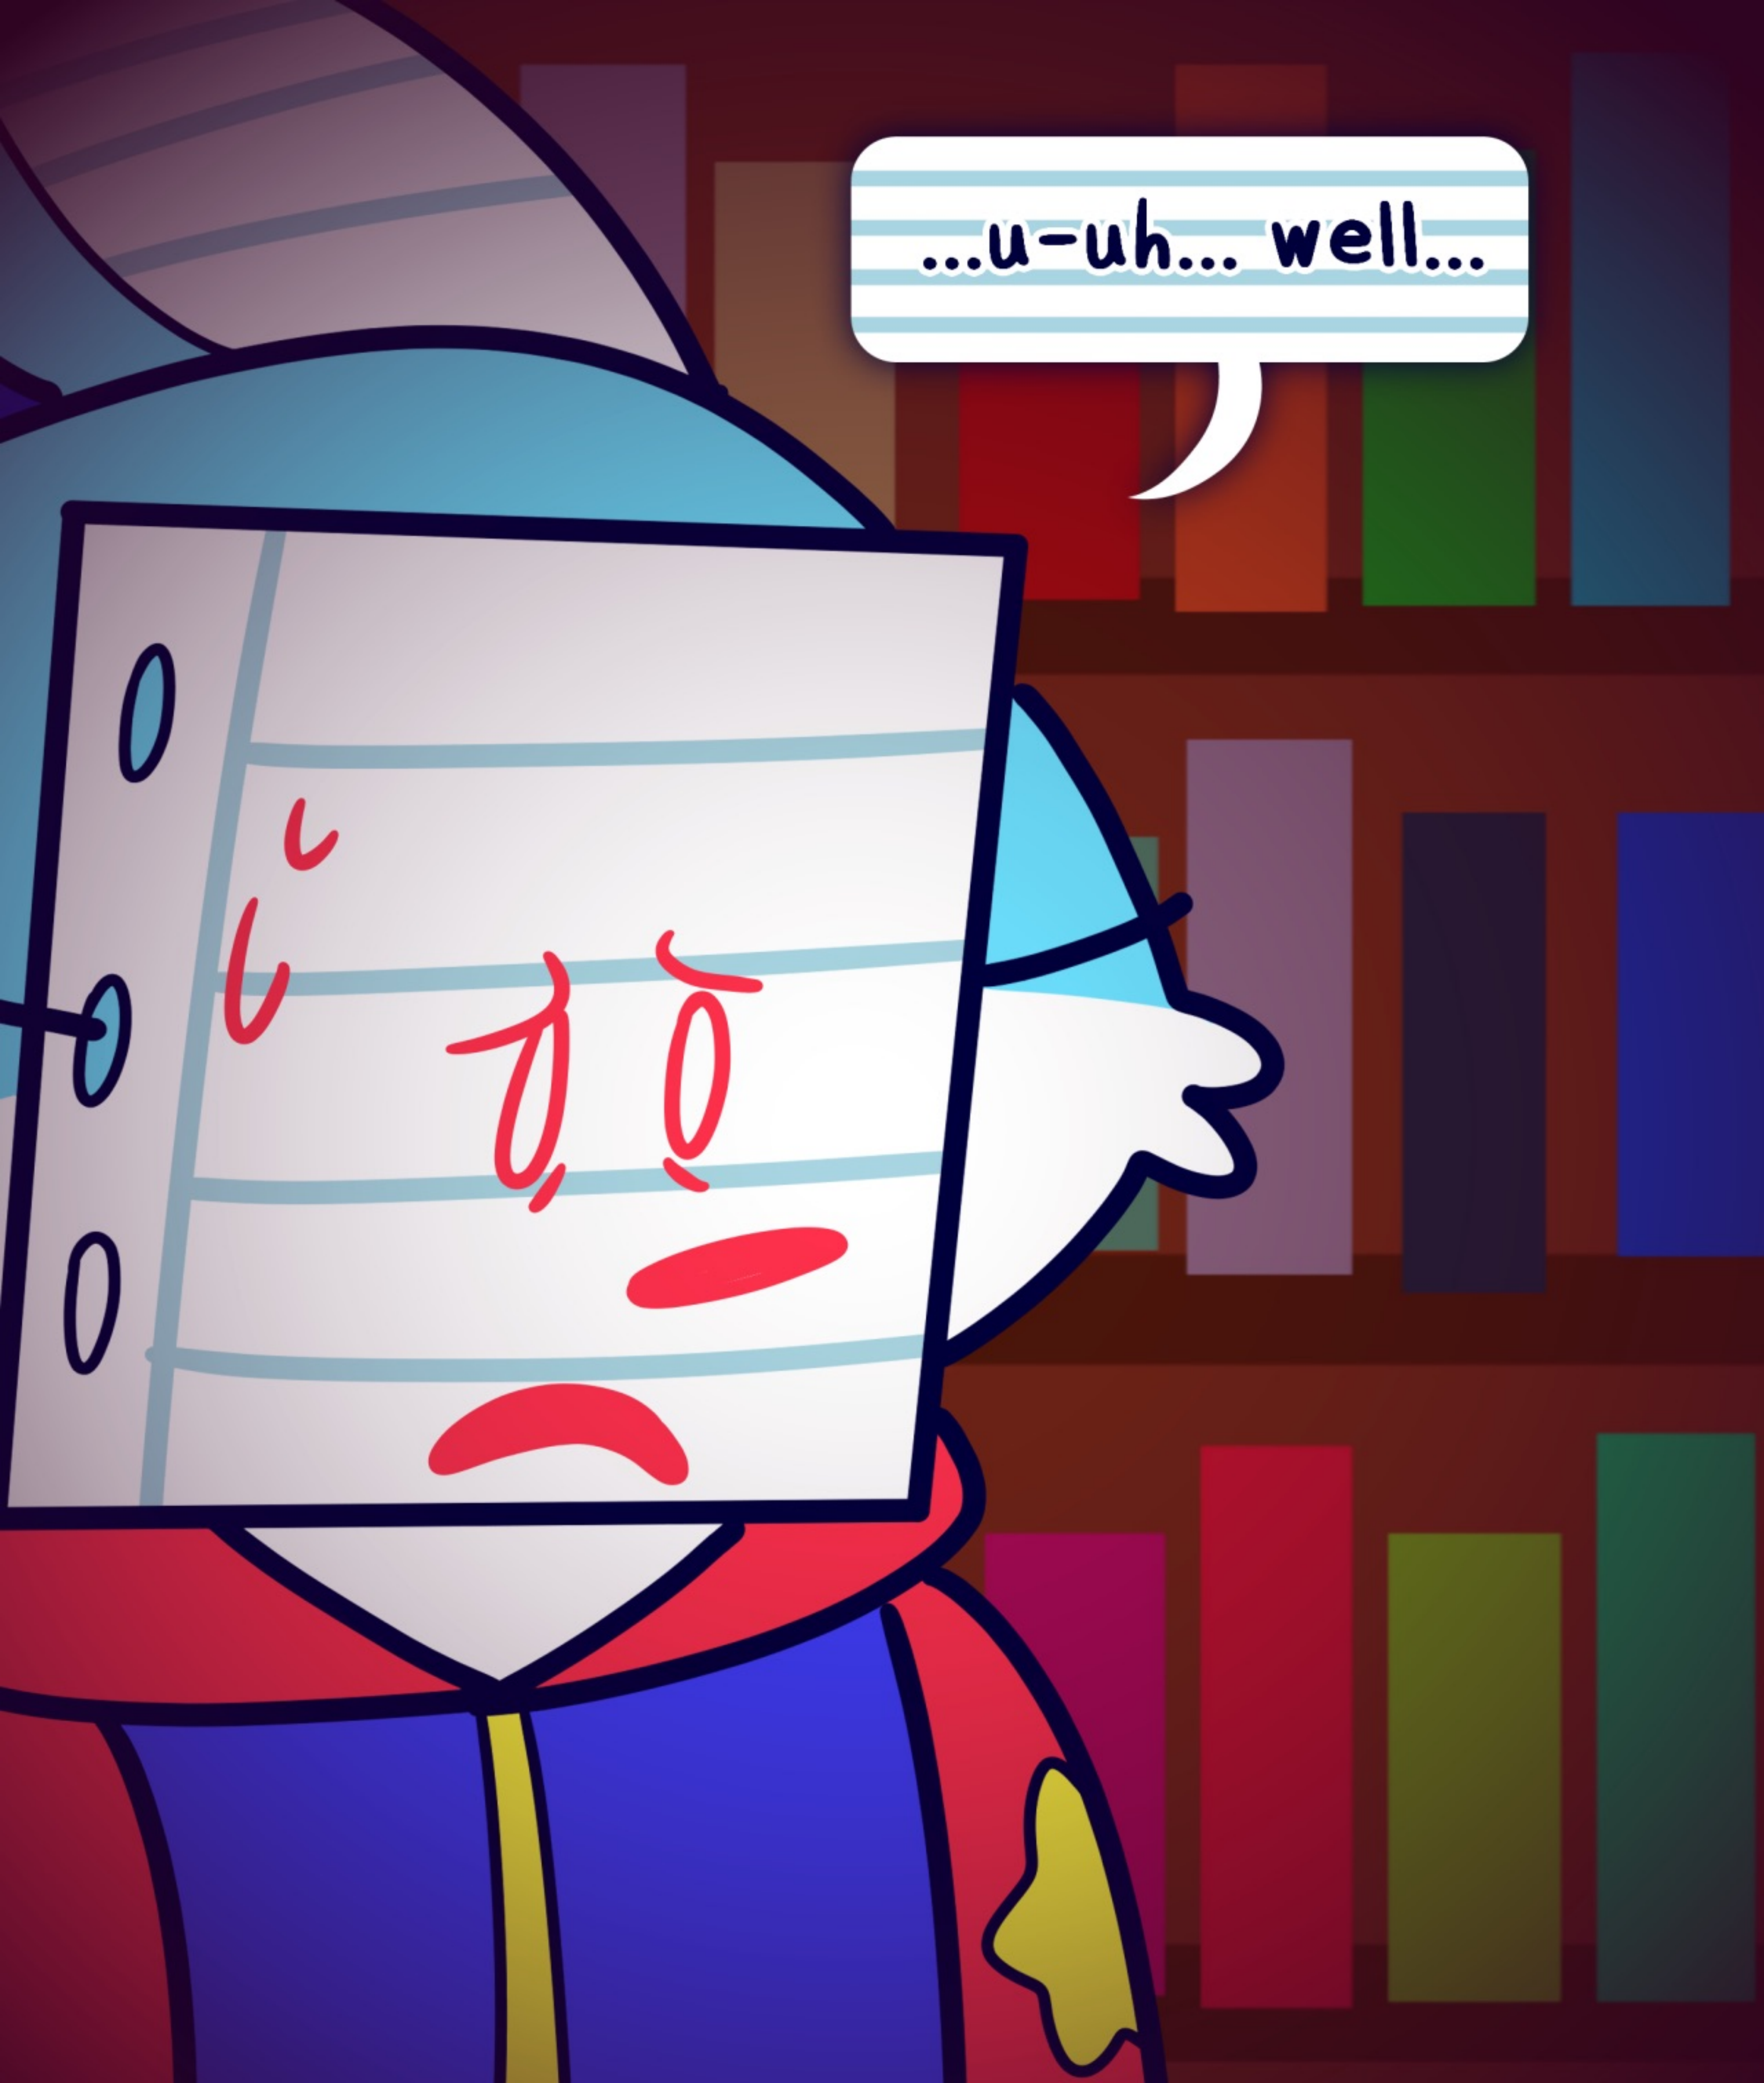
eeveeskittles asked:

Maybe it wants to be with Eve? Maybe she should take care of it for now until the parents show up?

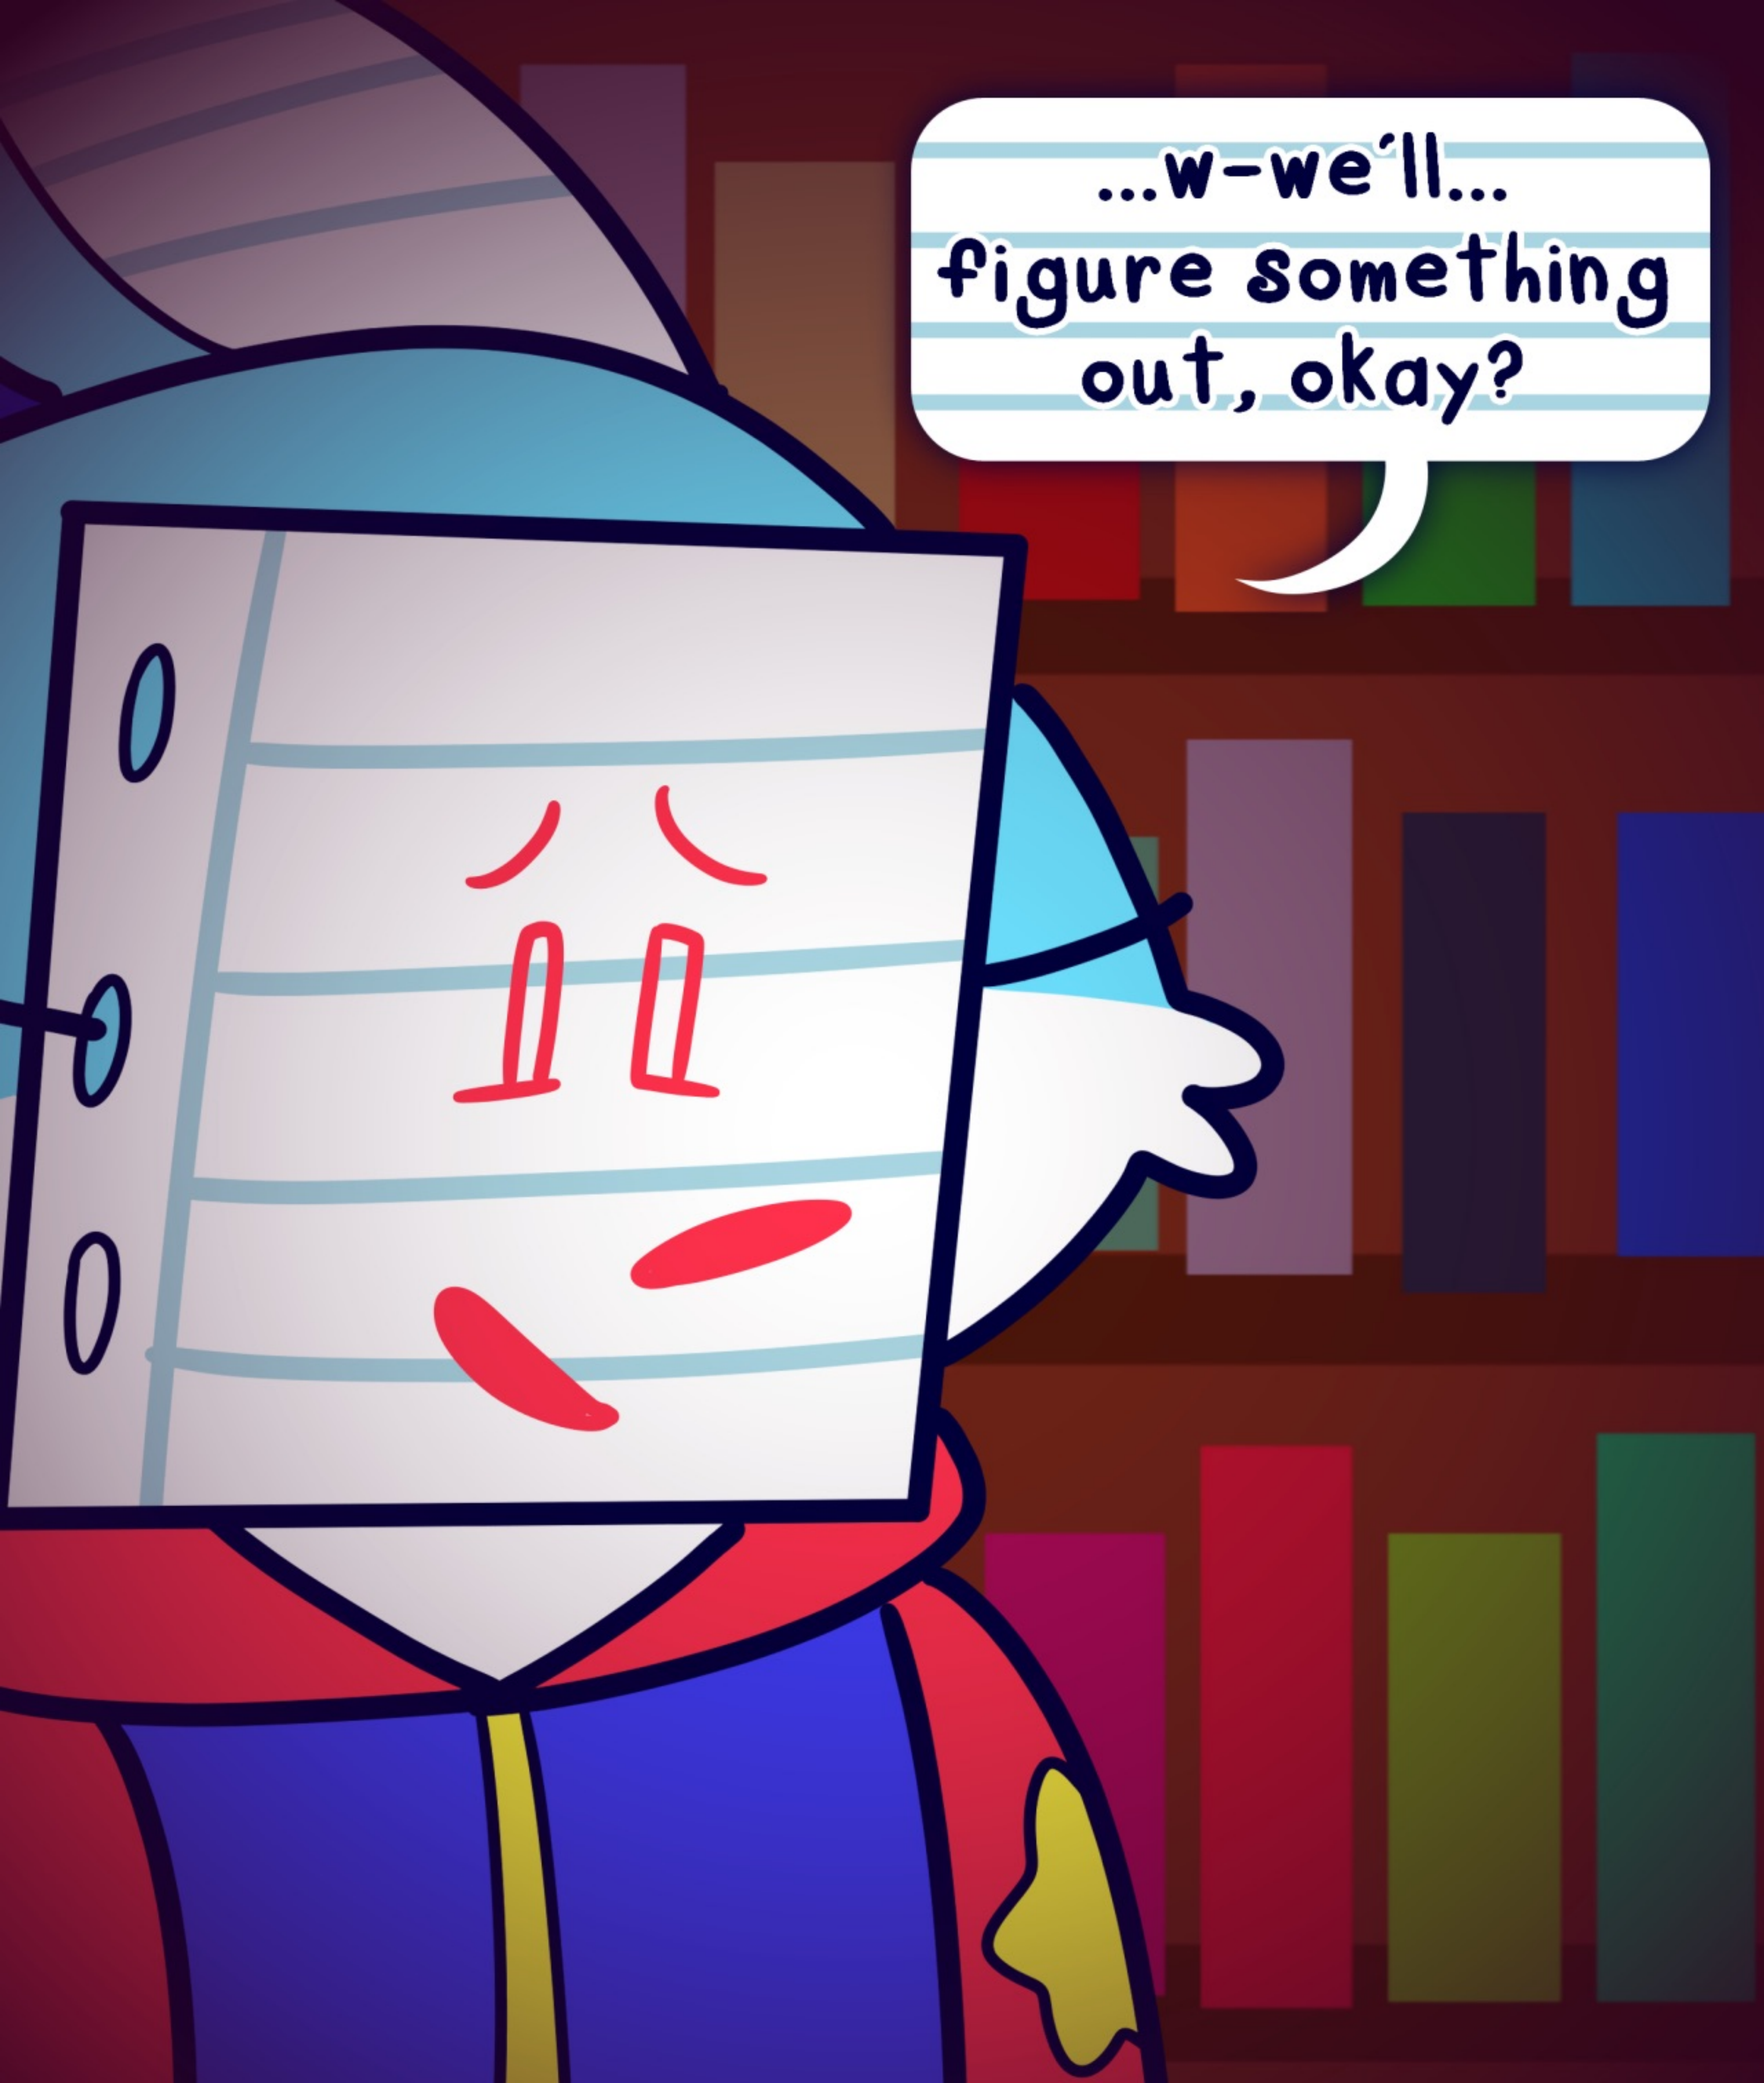
Yeah, surely its parents will come back in a bit, right?
Well, we can hope they will, but...



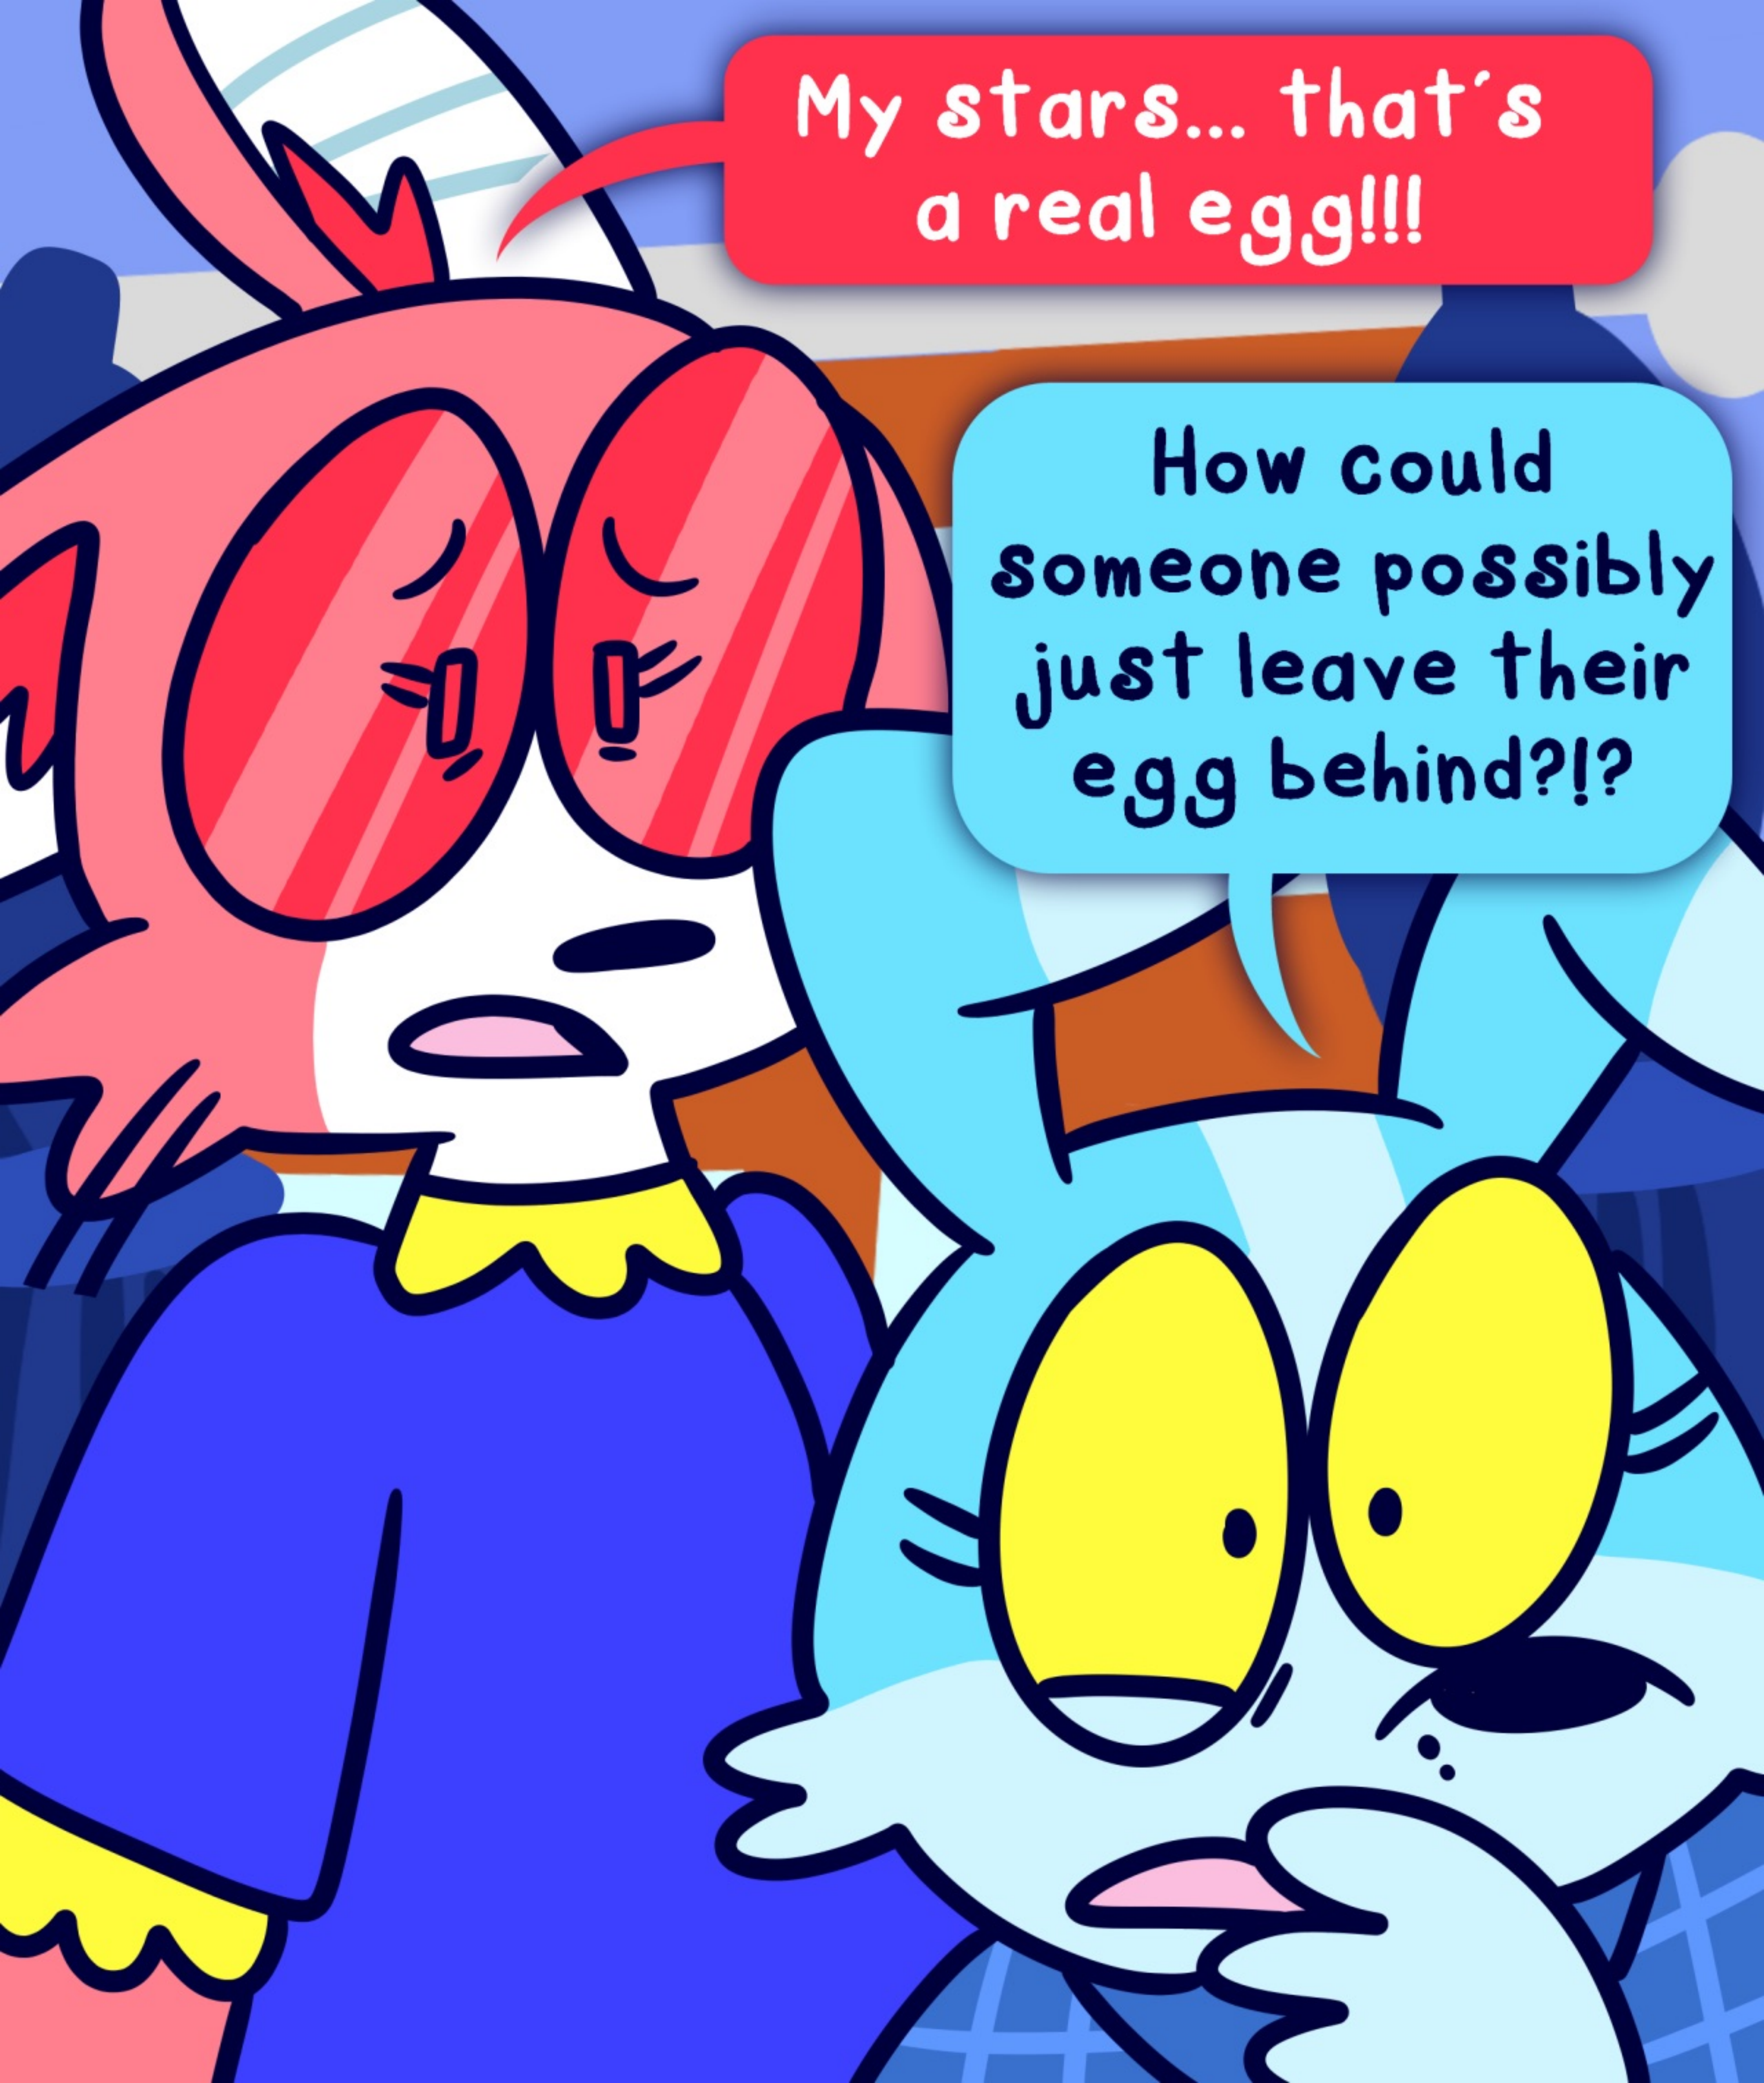
...w-what if the parents never show up...?



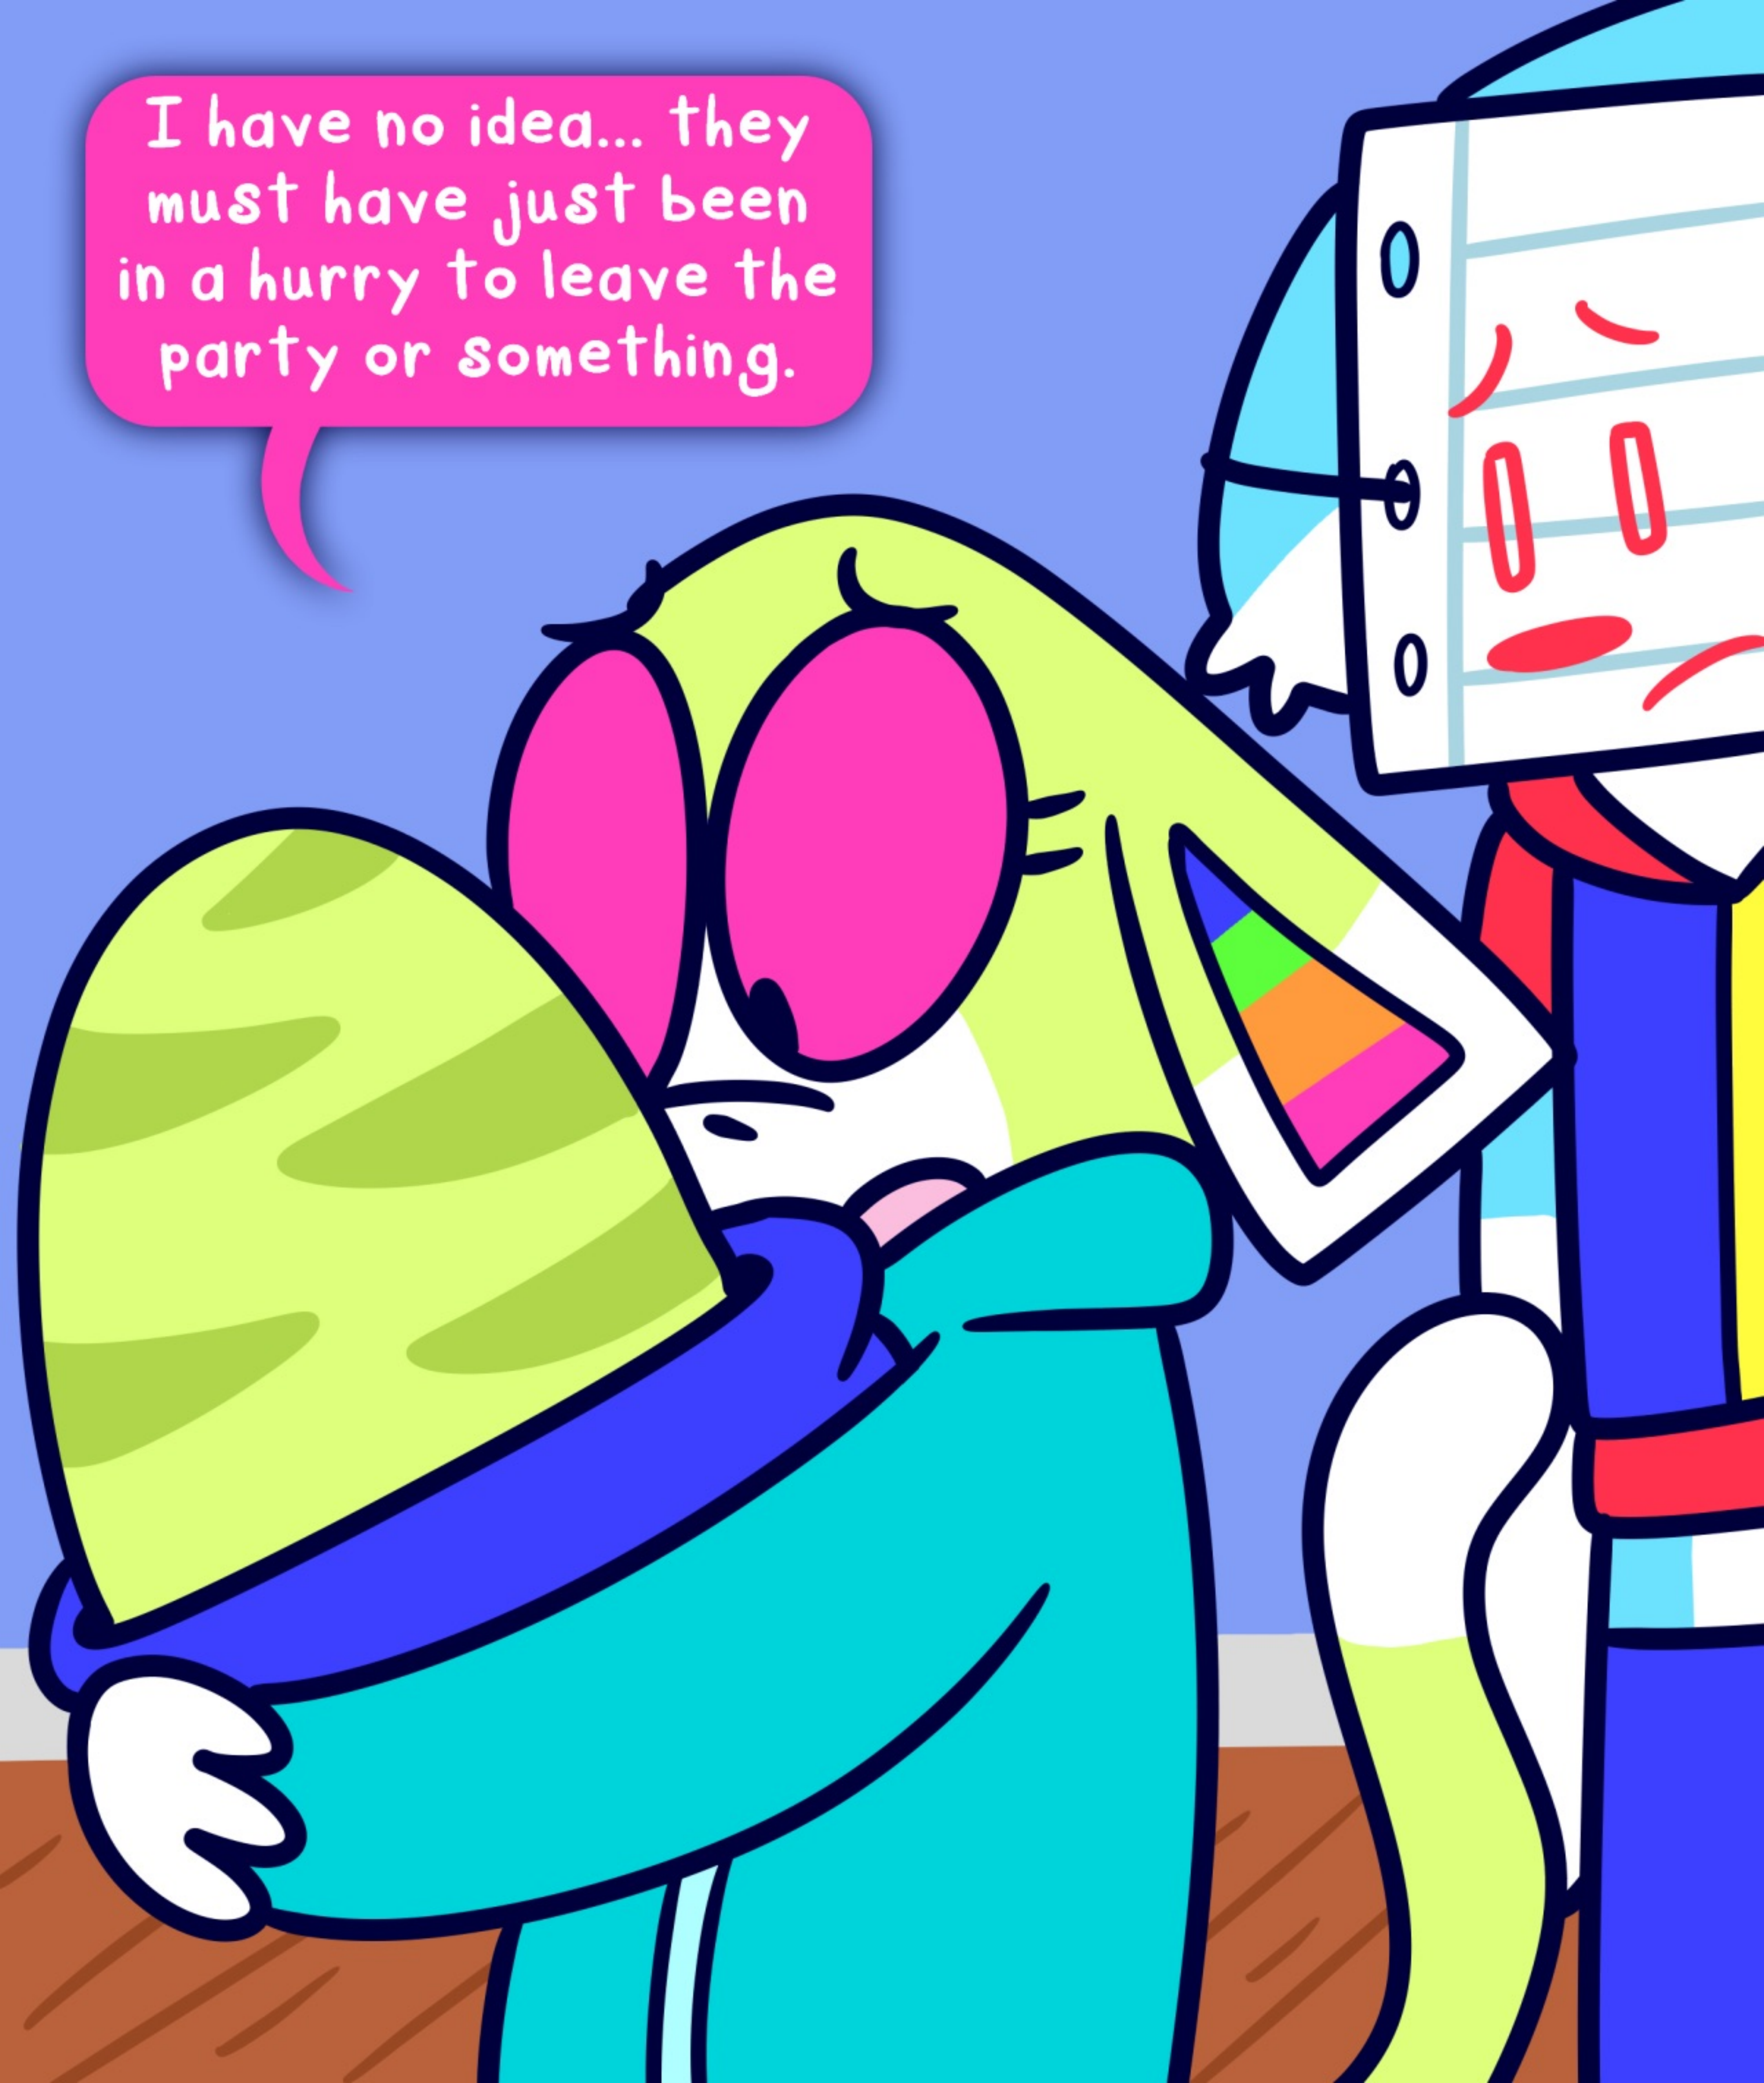
...u-uh... well...



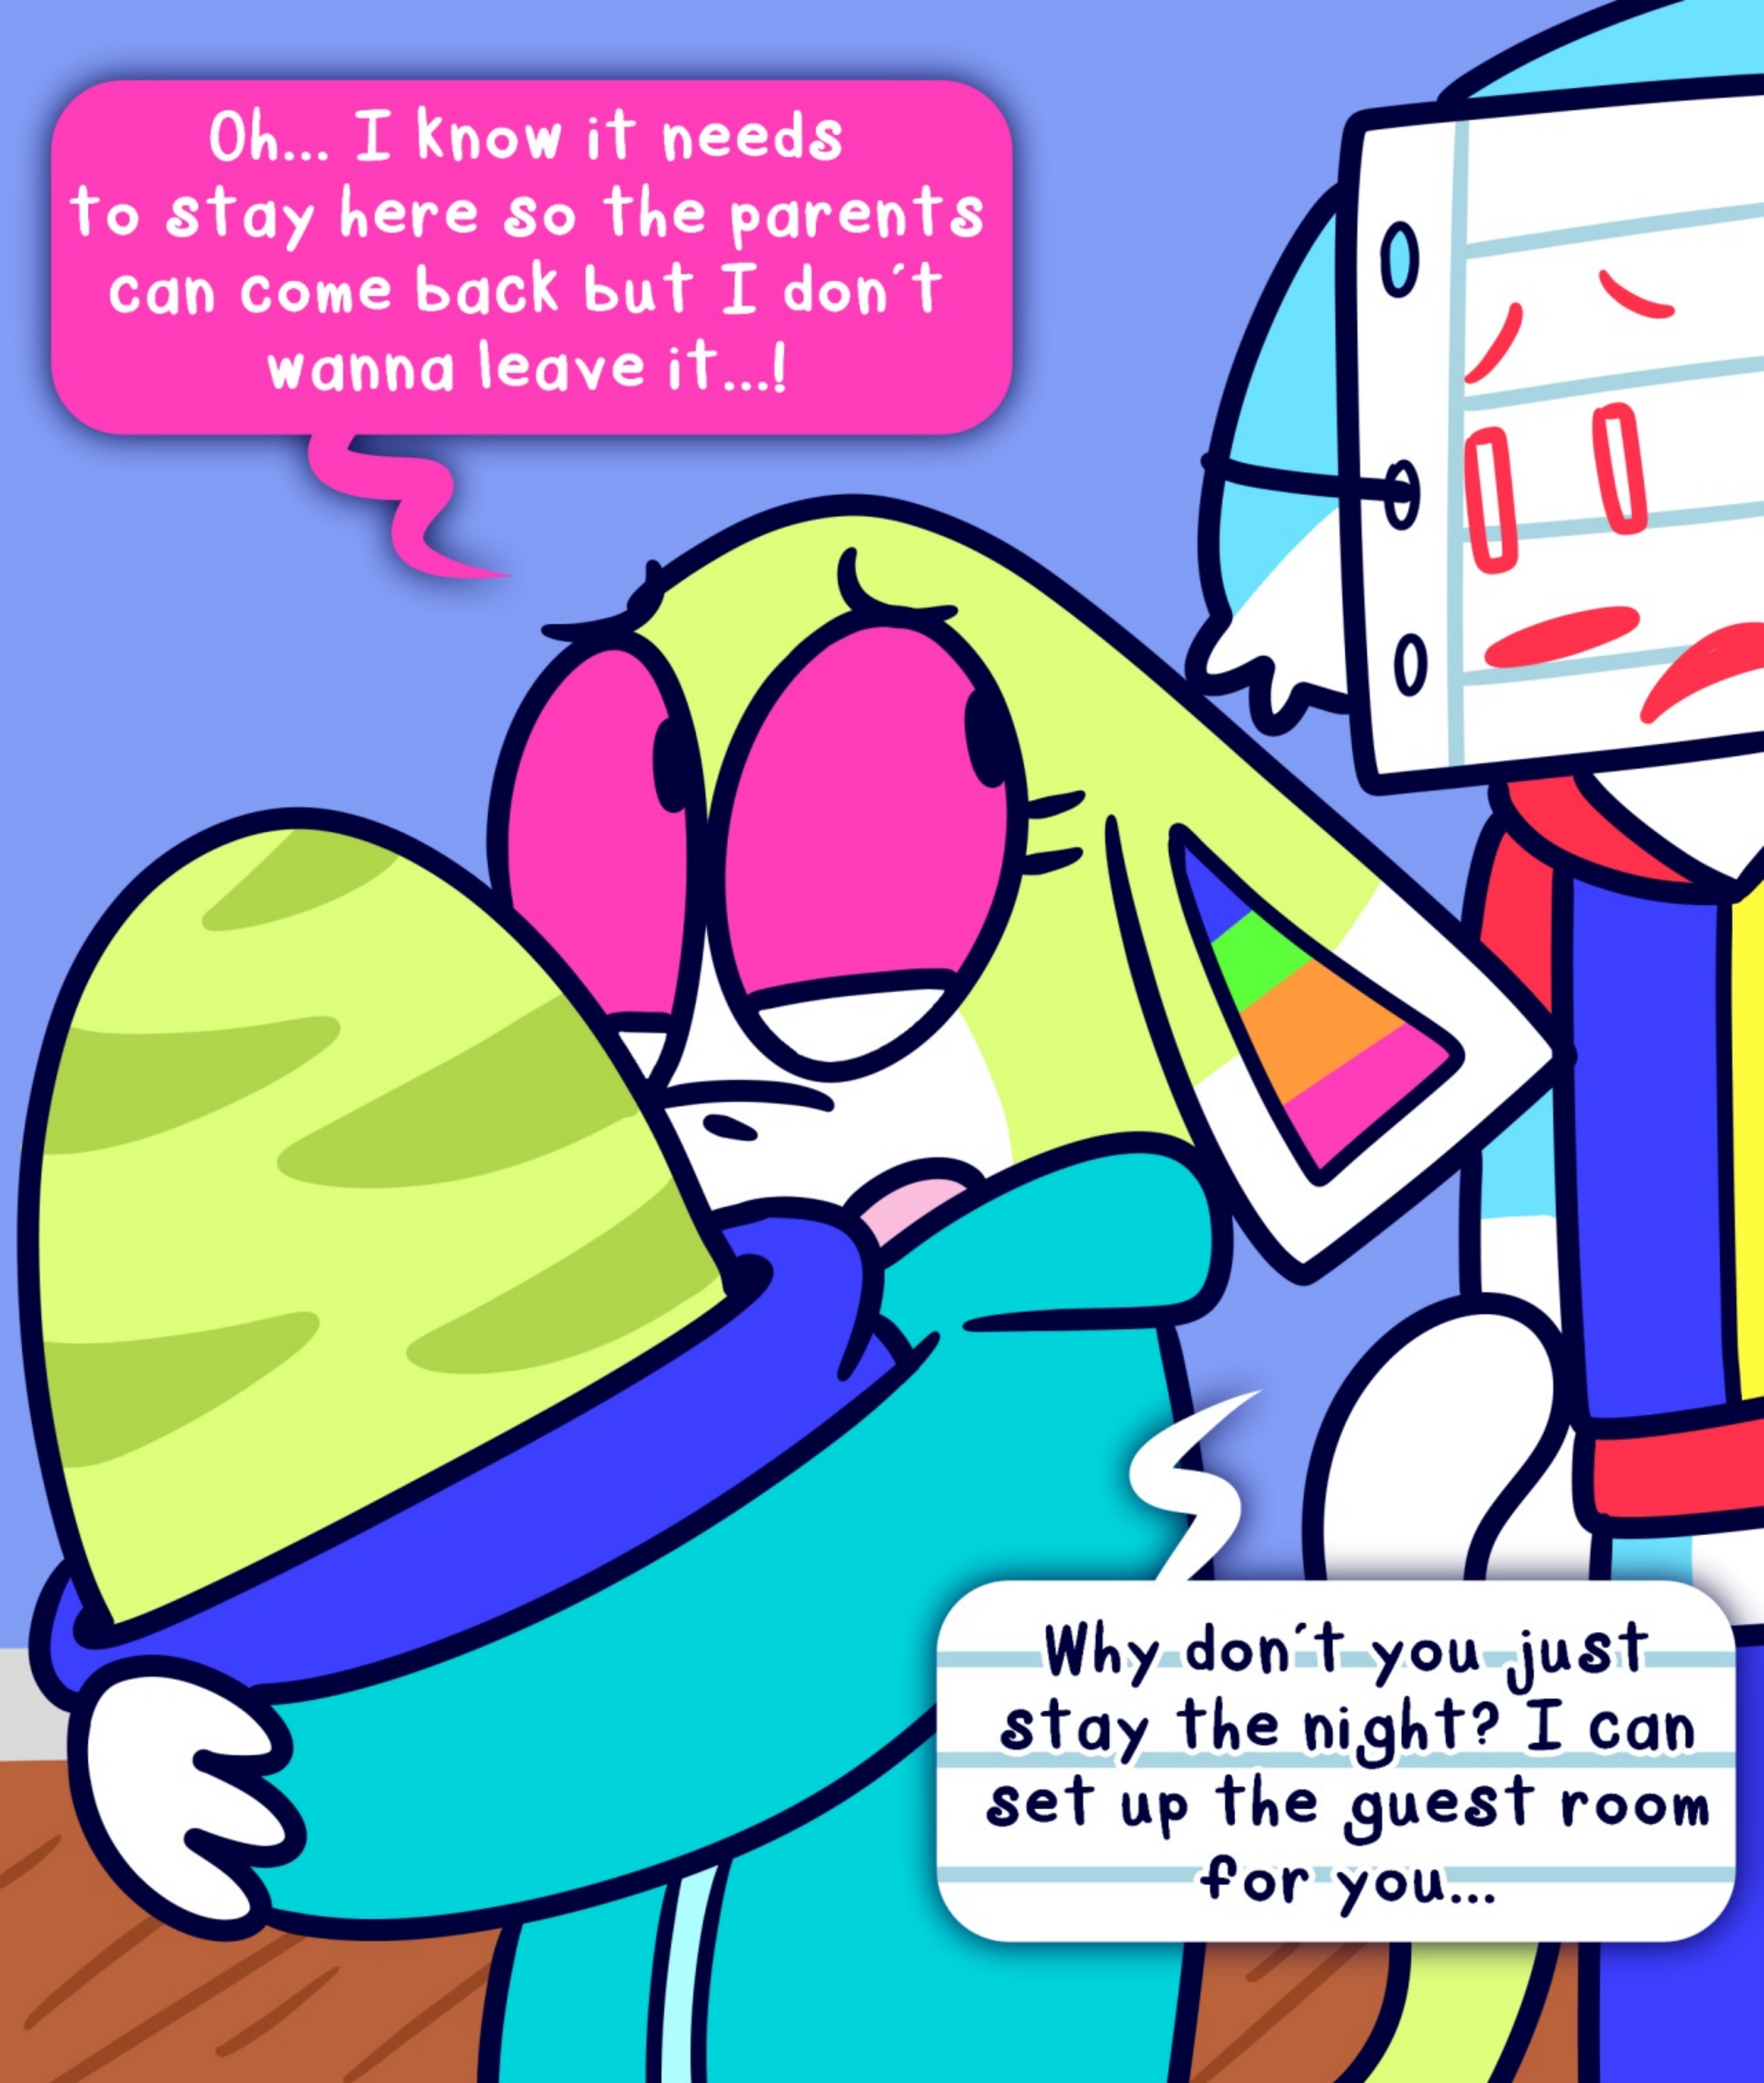
...w-we'll...
figure something
out, okay?



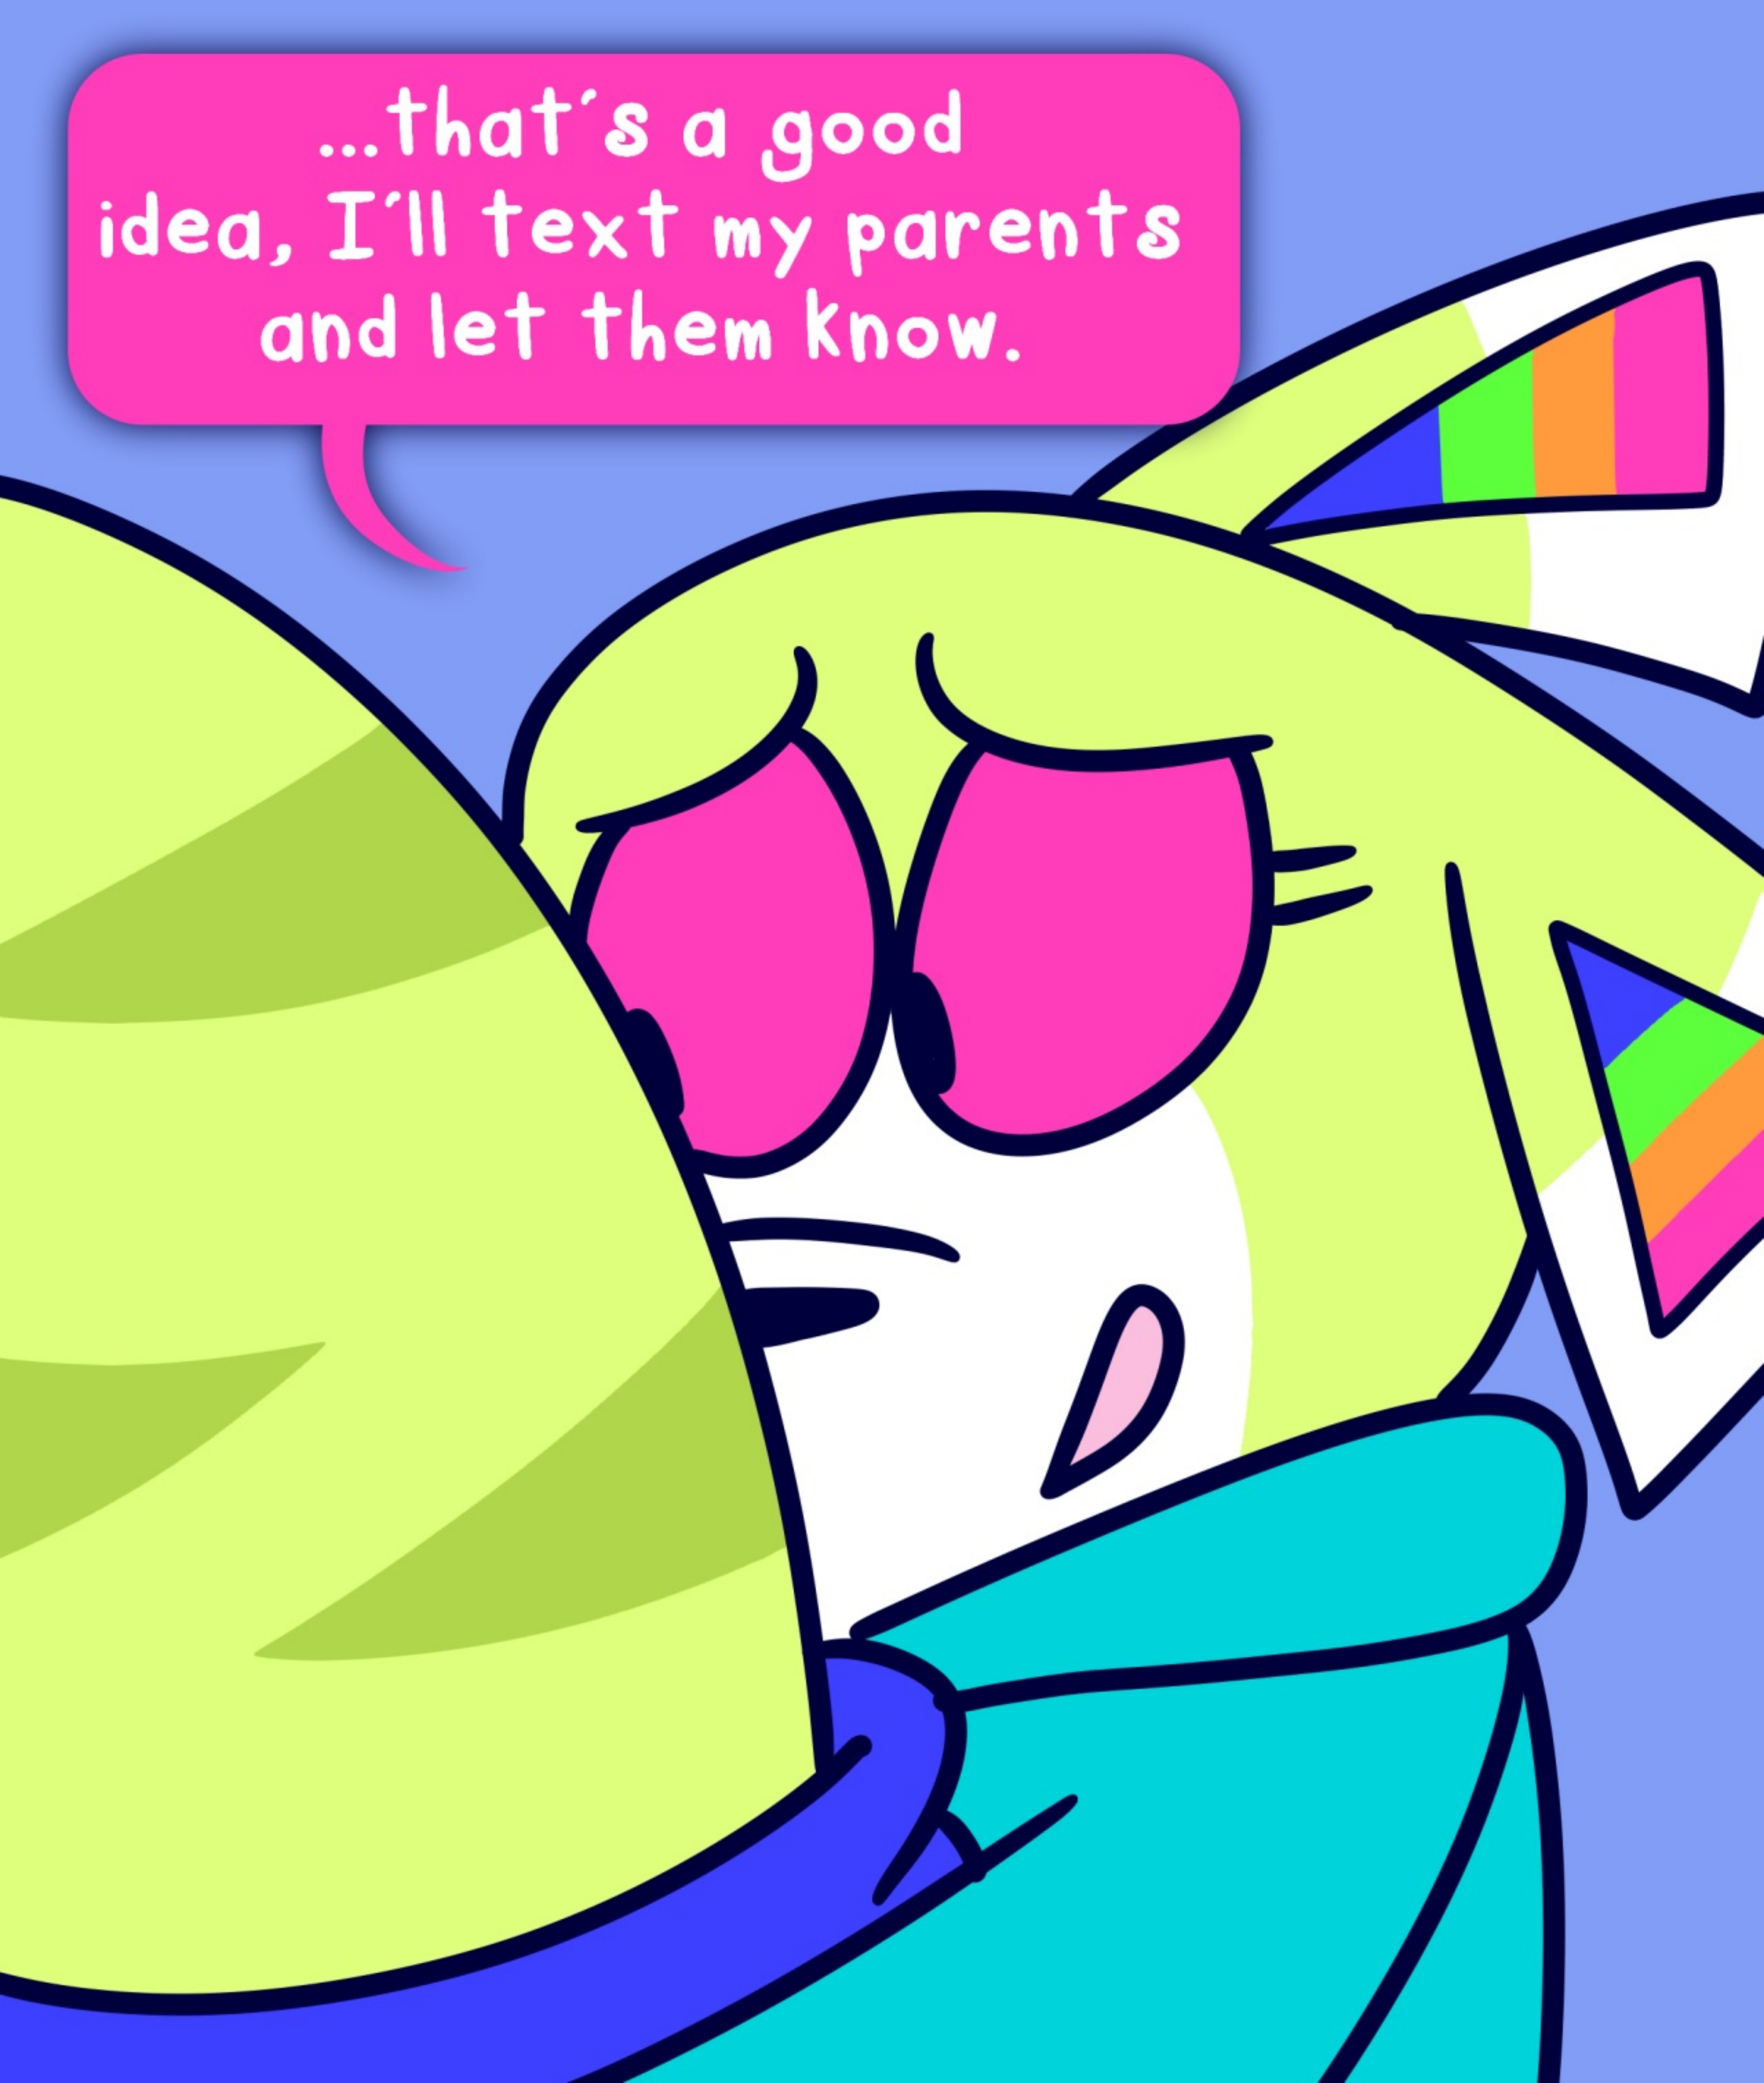
My stars... that's a real egg!!!
How could someone possibly just leave their egg behind?!?



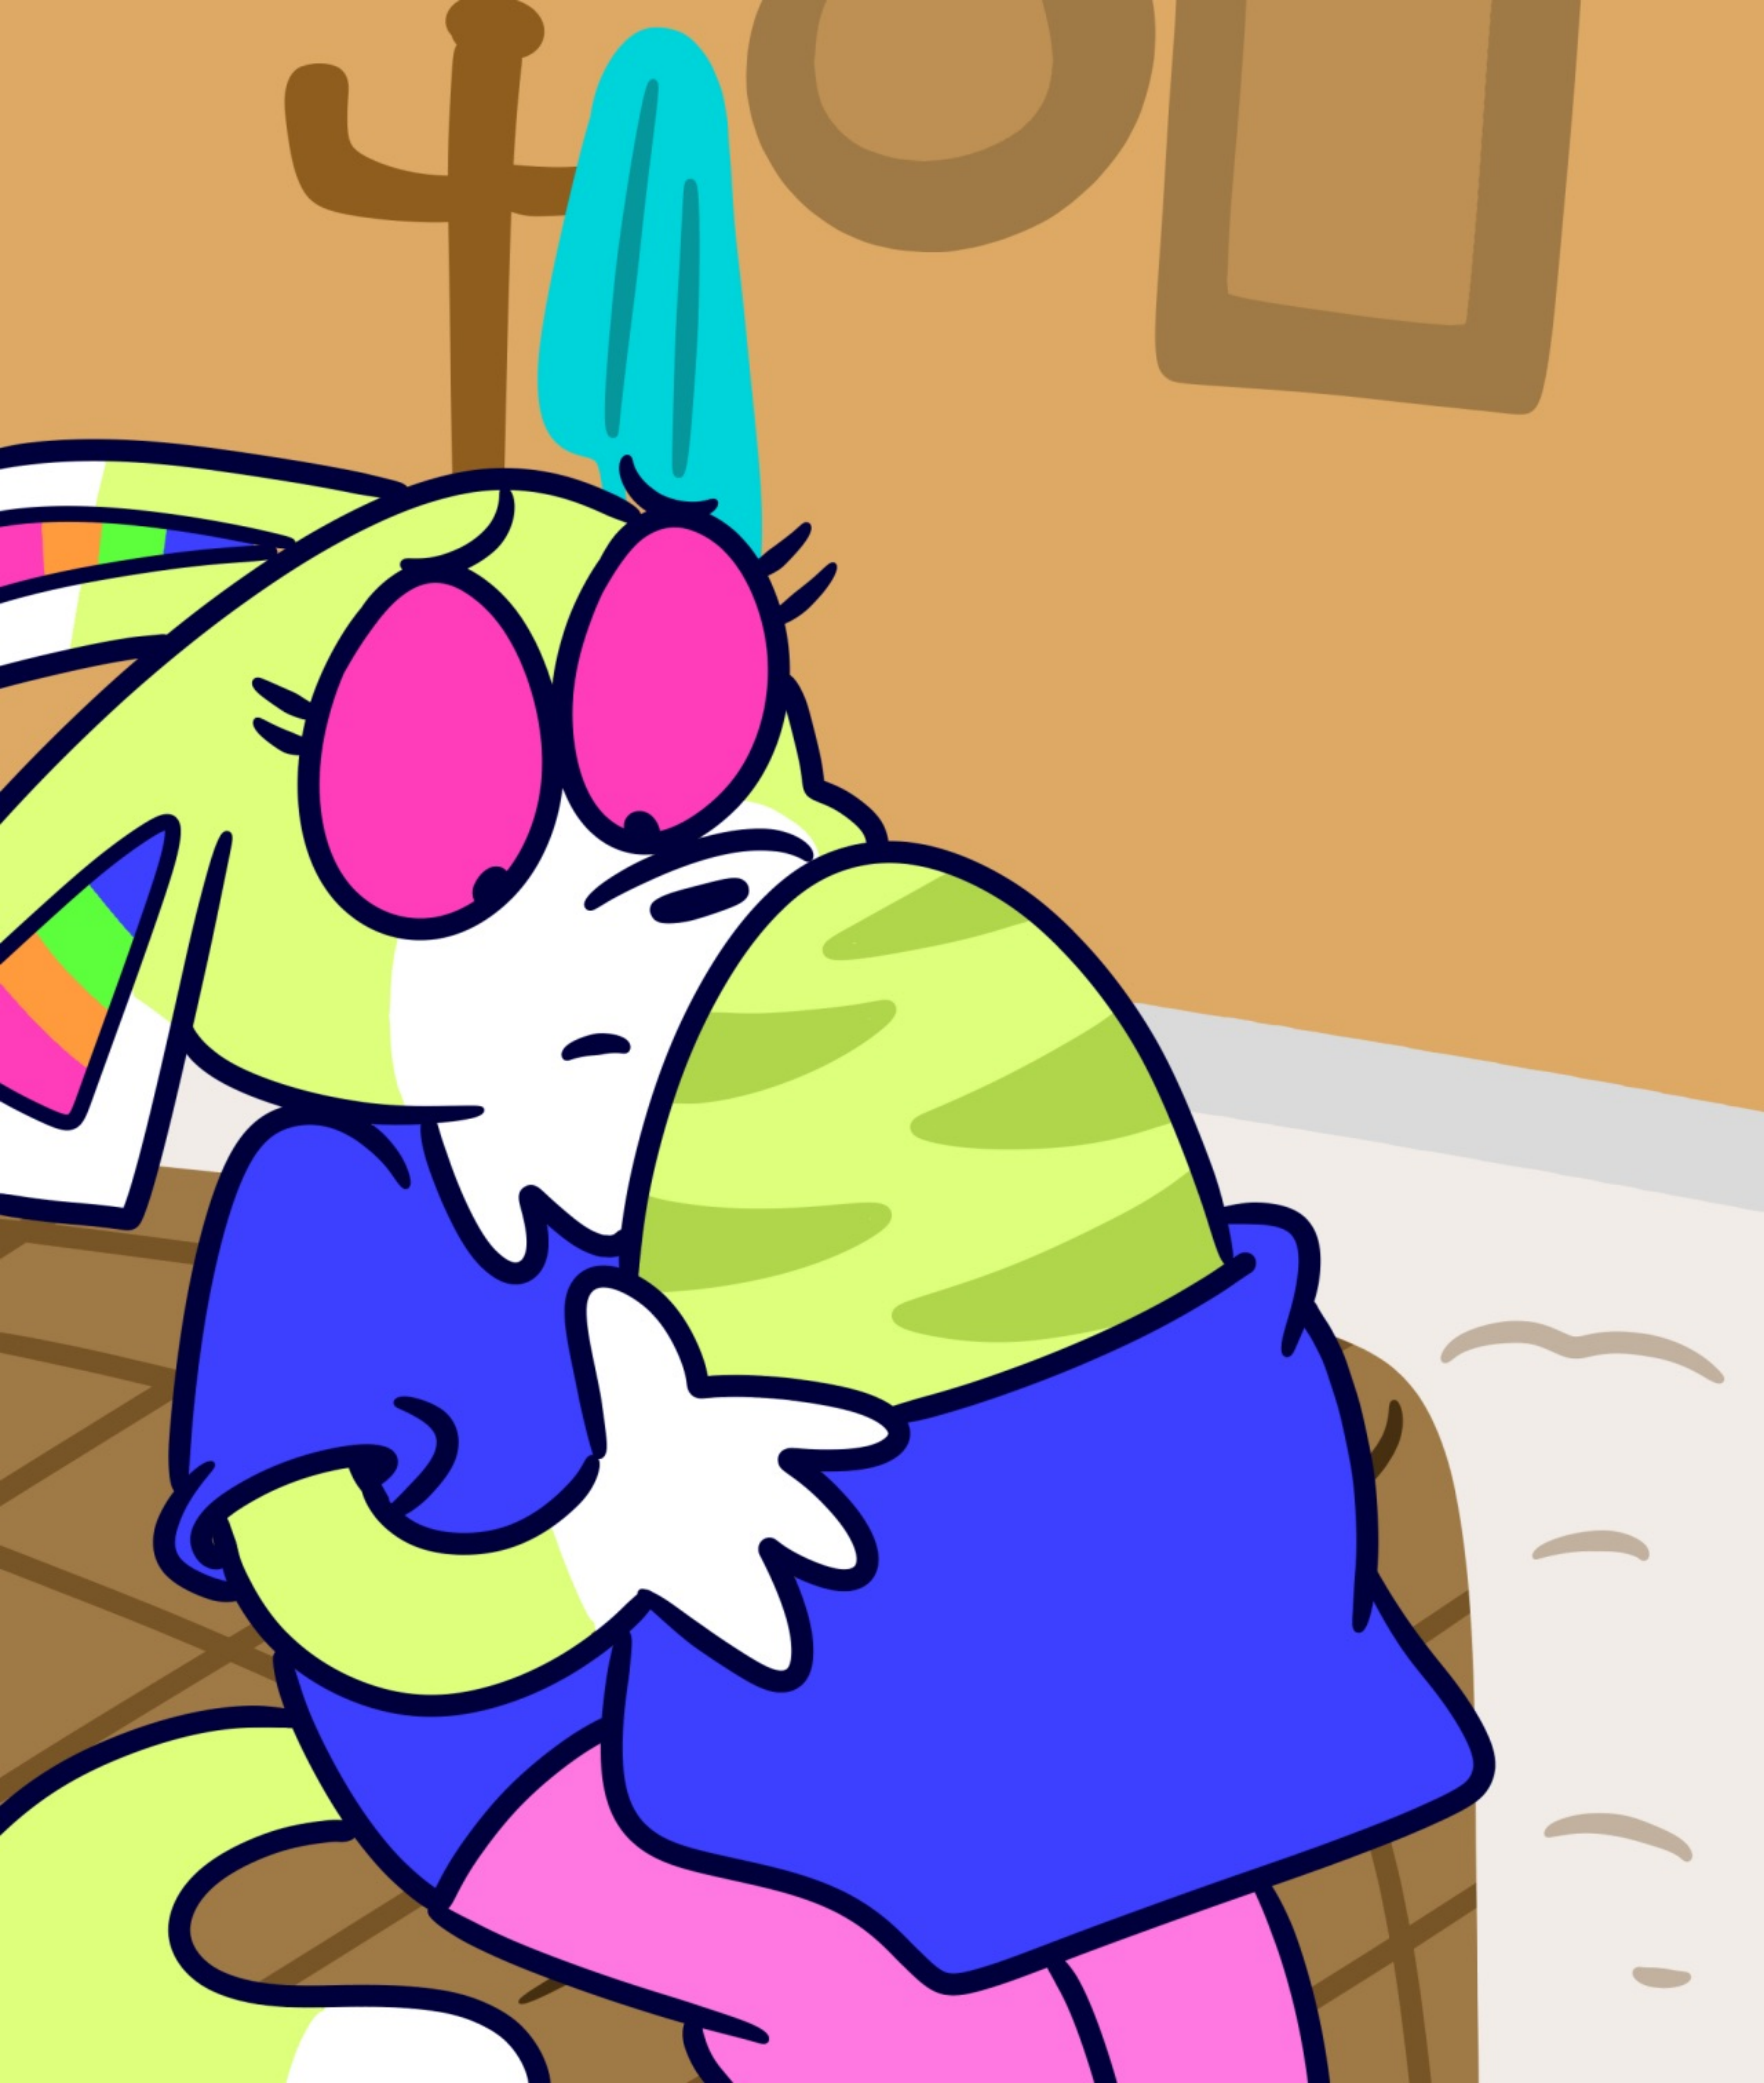
I have no idea... they must have just been in a hurry to leave the party or something.

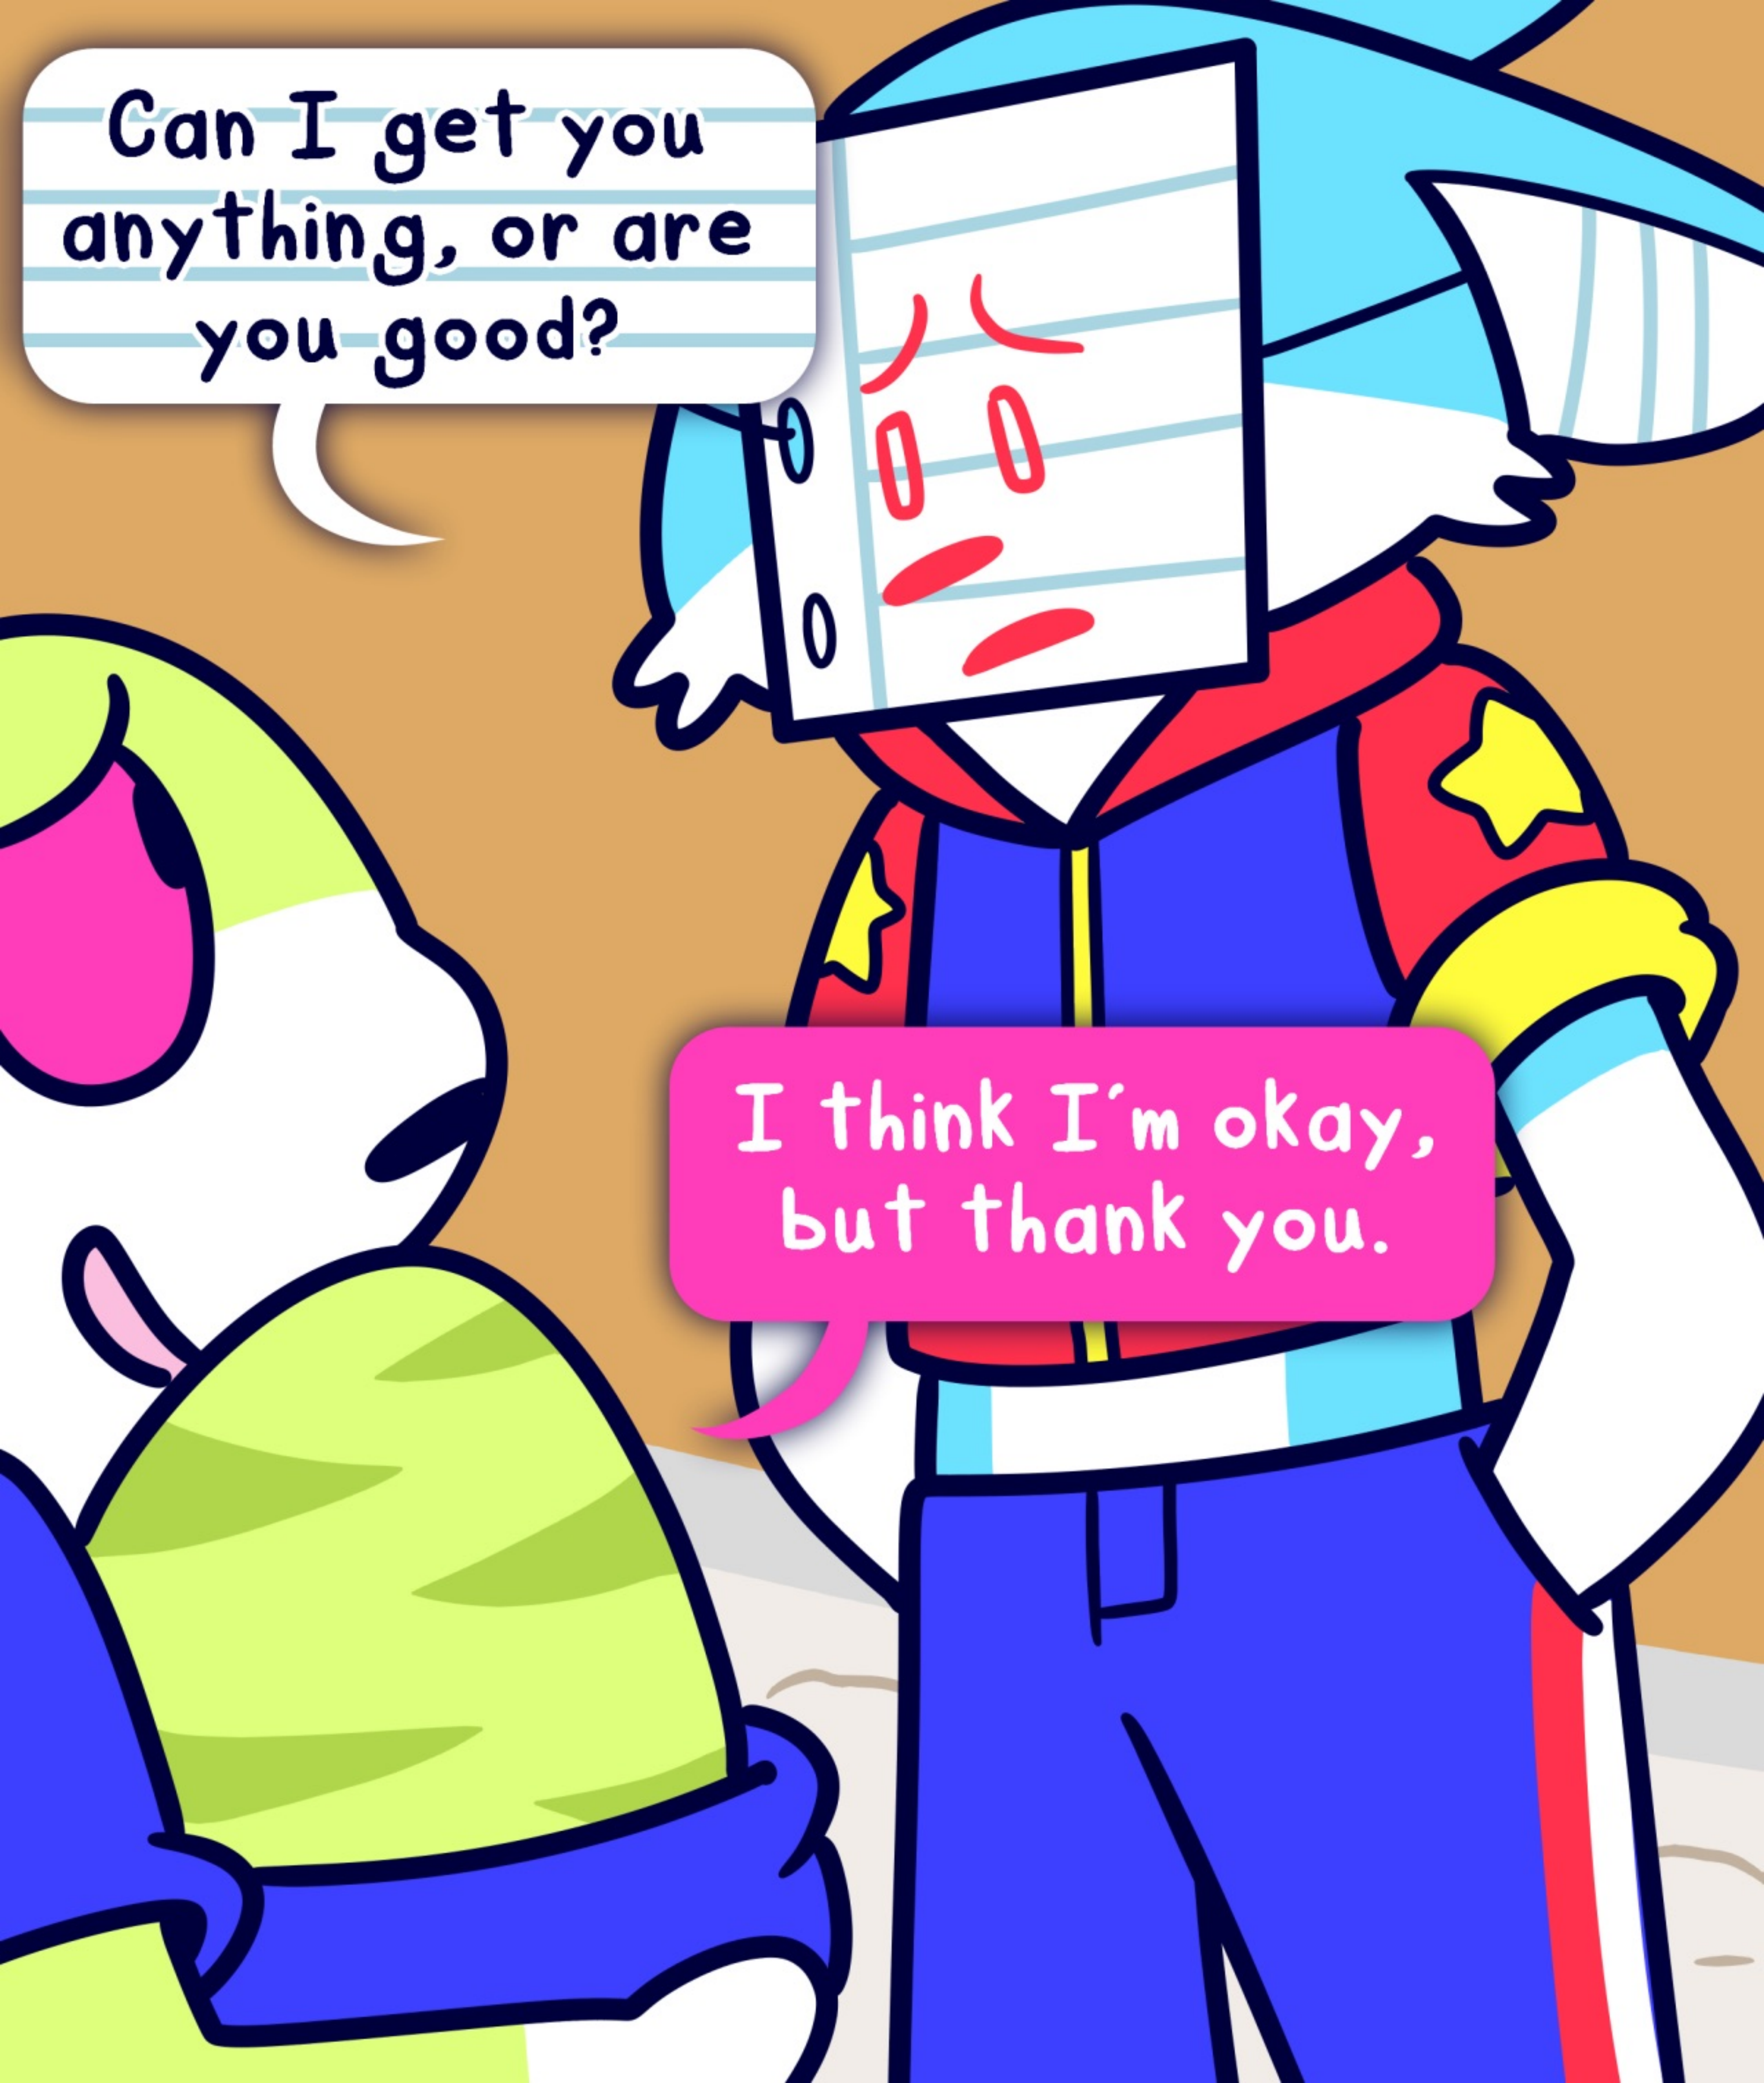


Oh... I know it needs to stay here so the parents can come back but I don´t wanna leave it...!
Why don´t you just stay the night? I can set up the guest room for you...

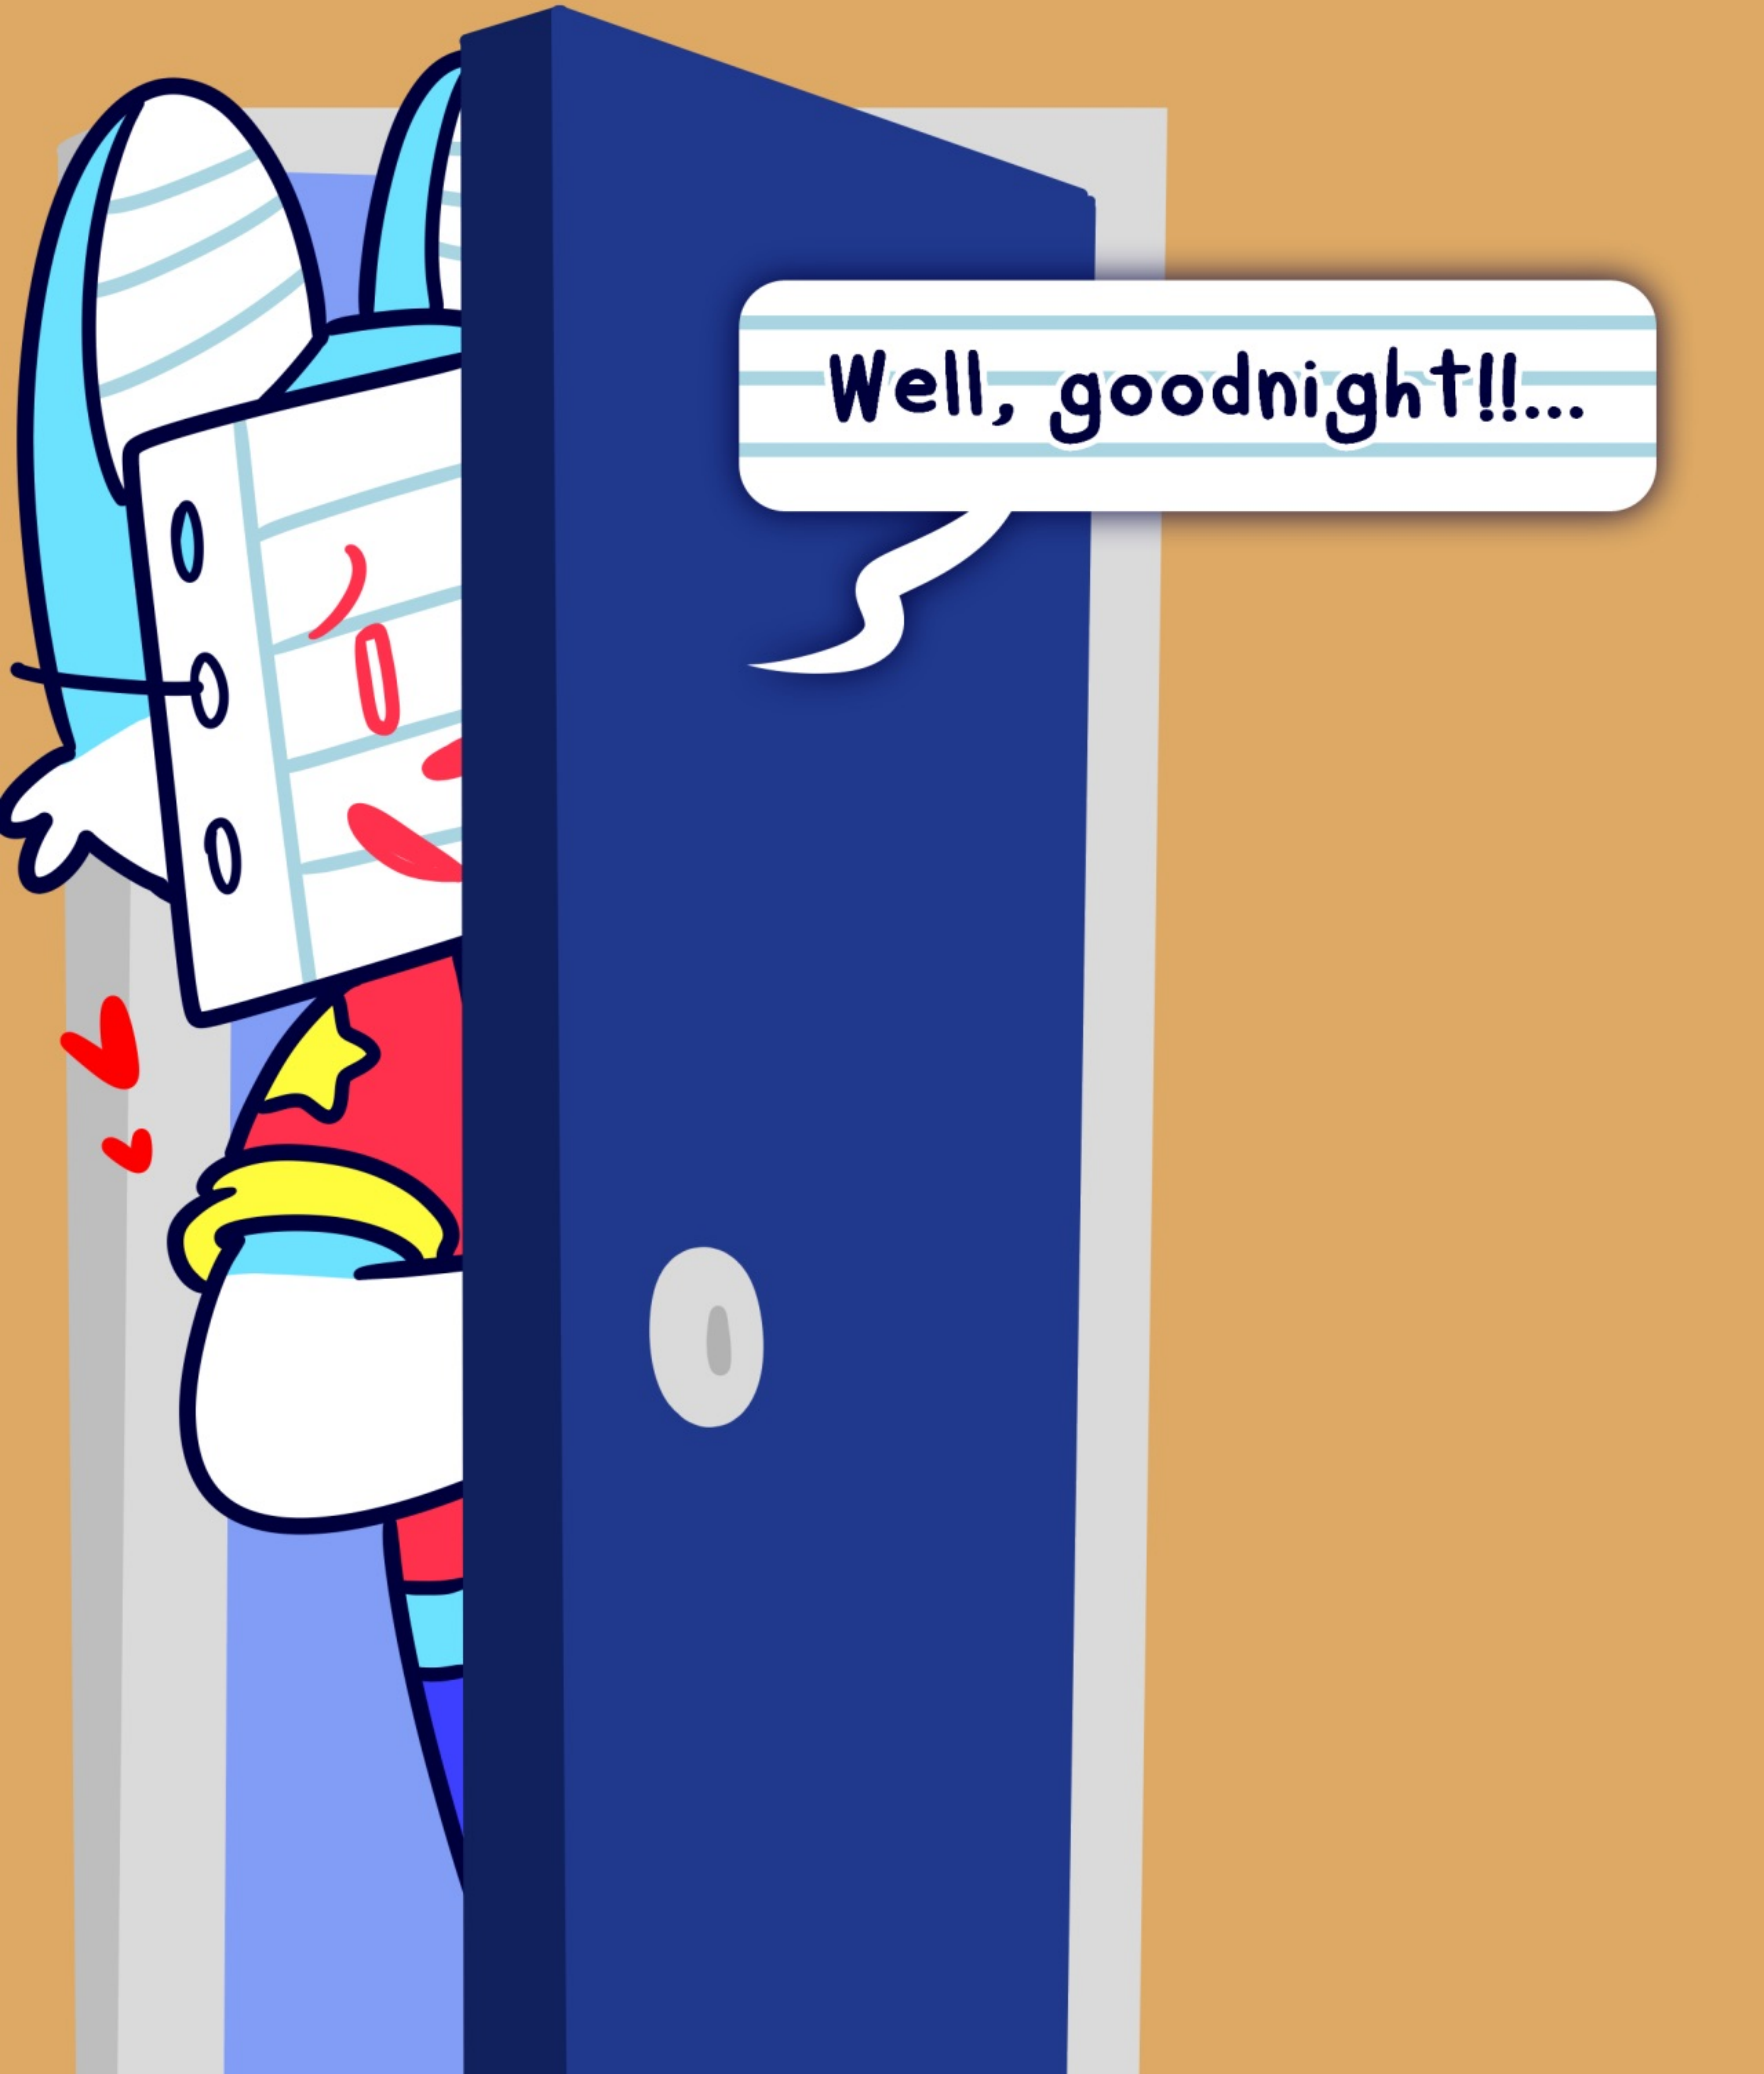


...that´s a good idea, I´ll text my parents and let them know.

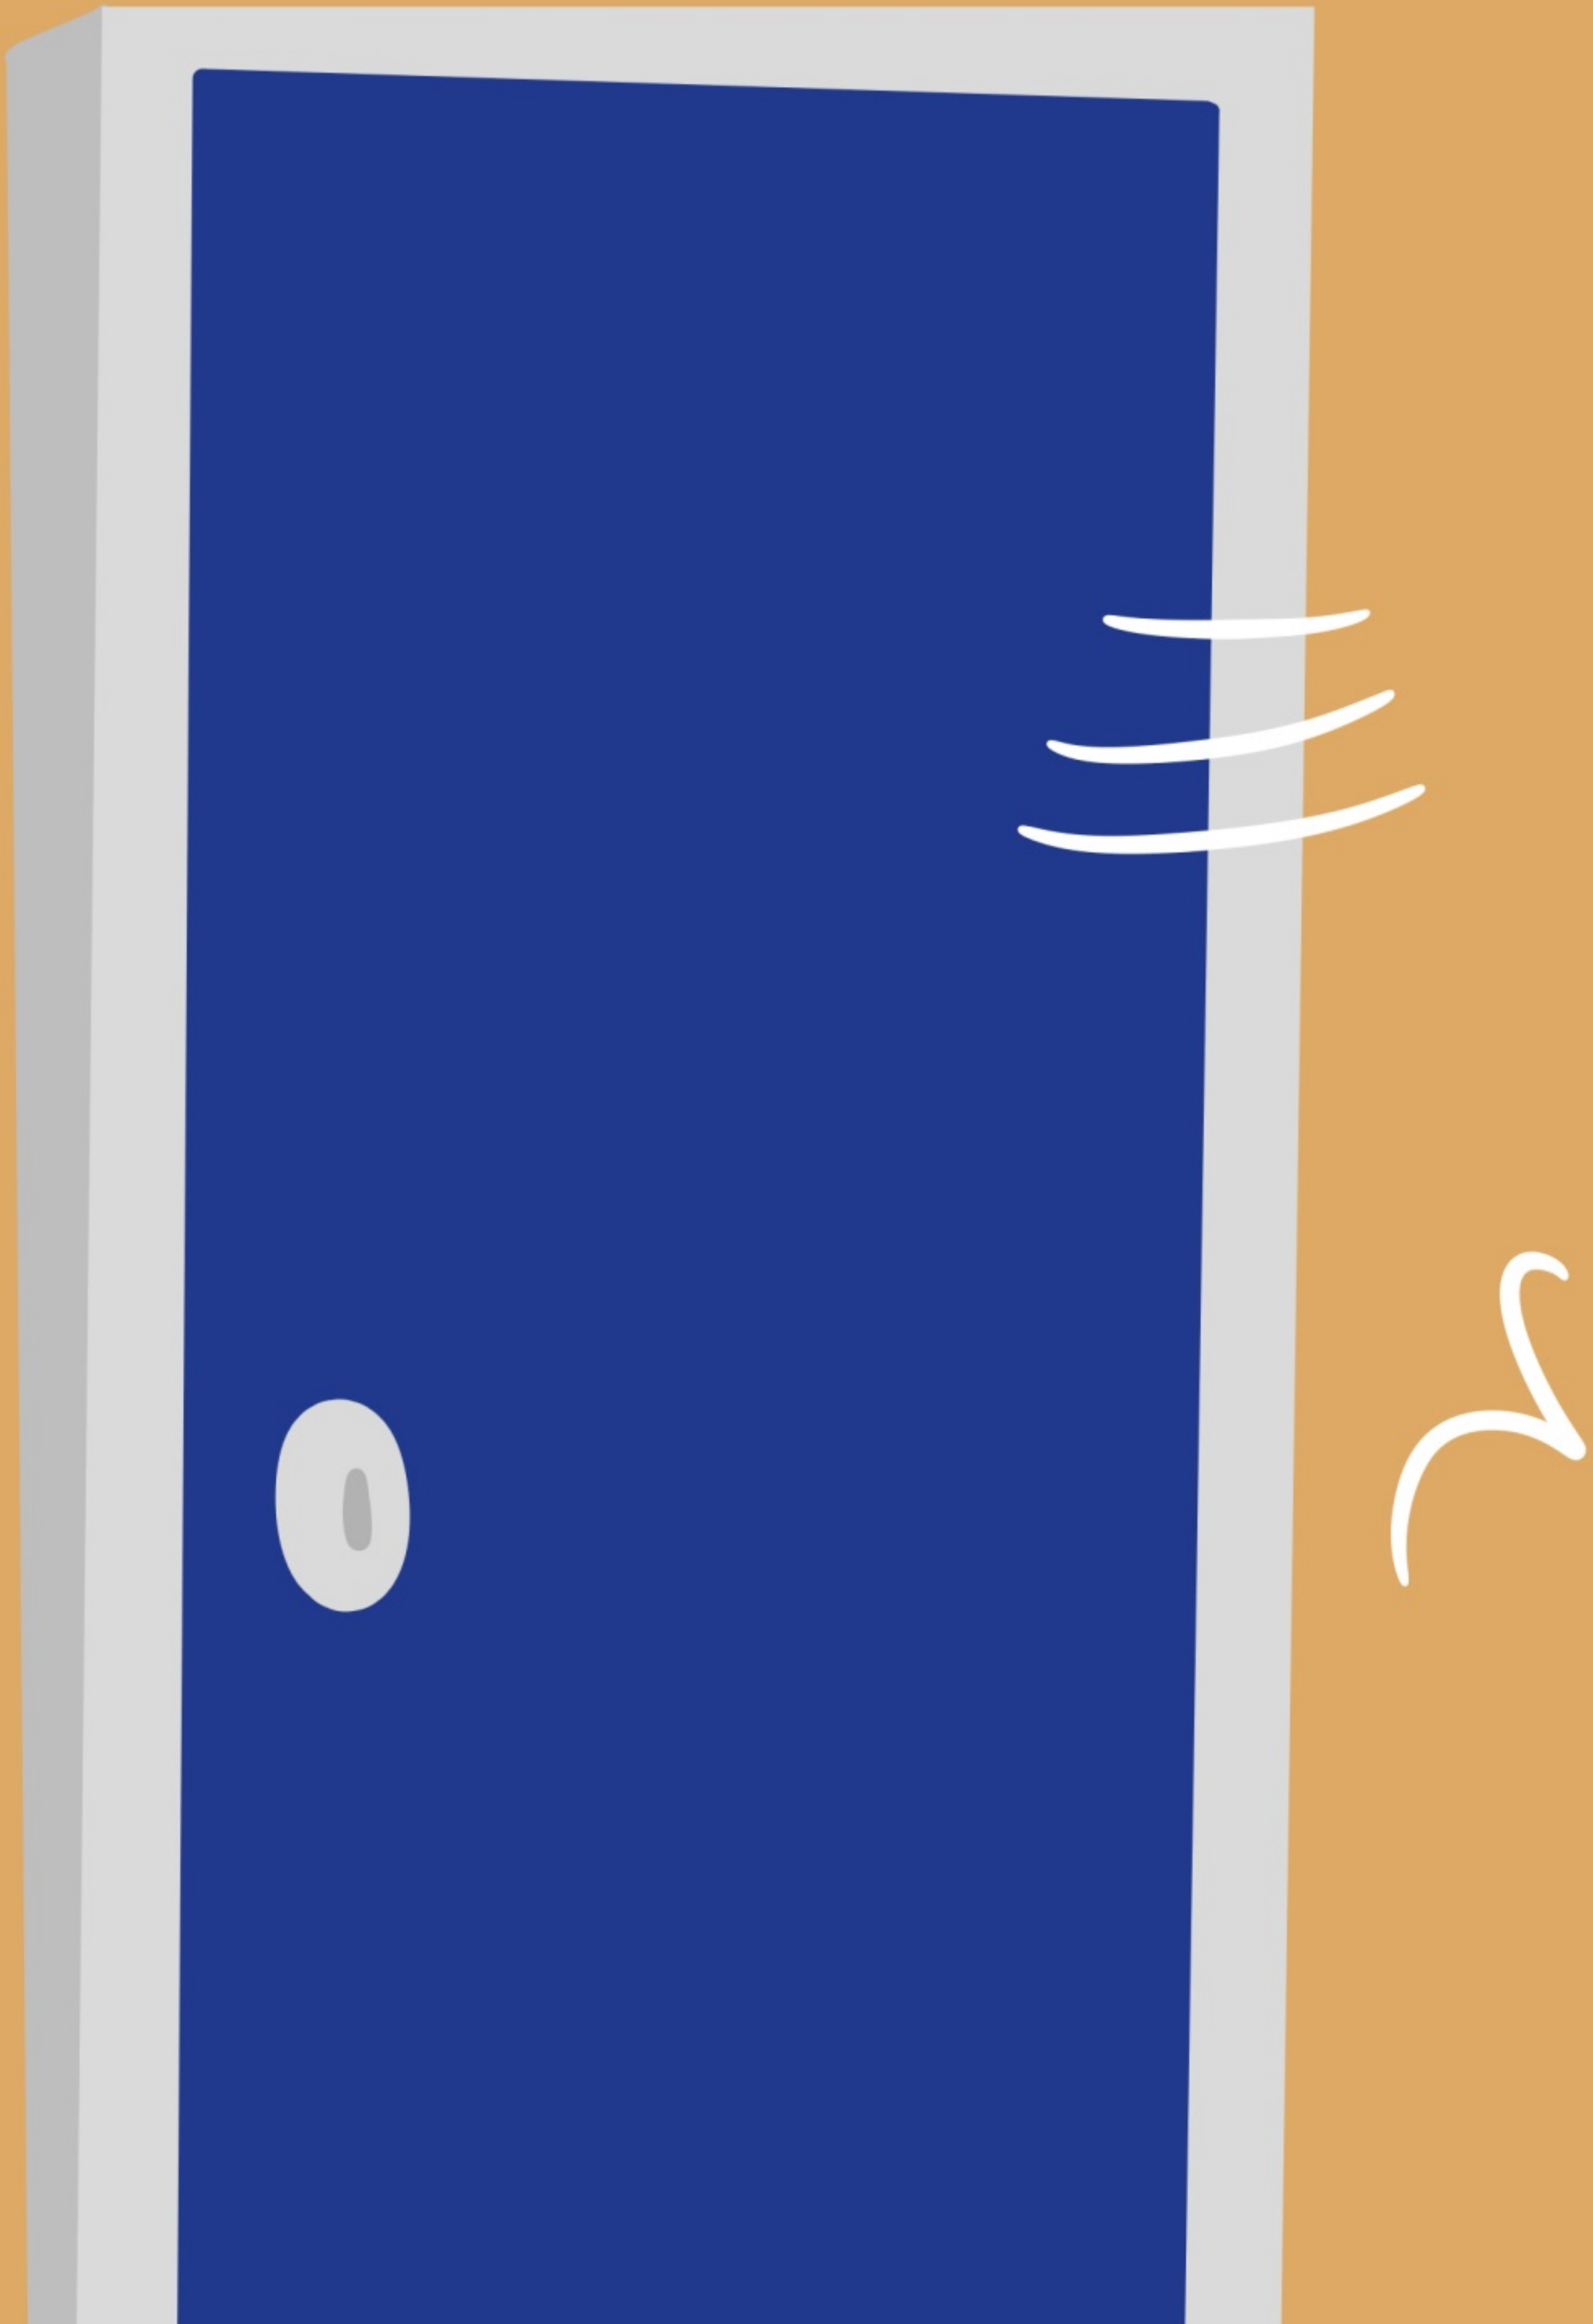


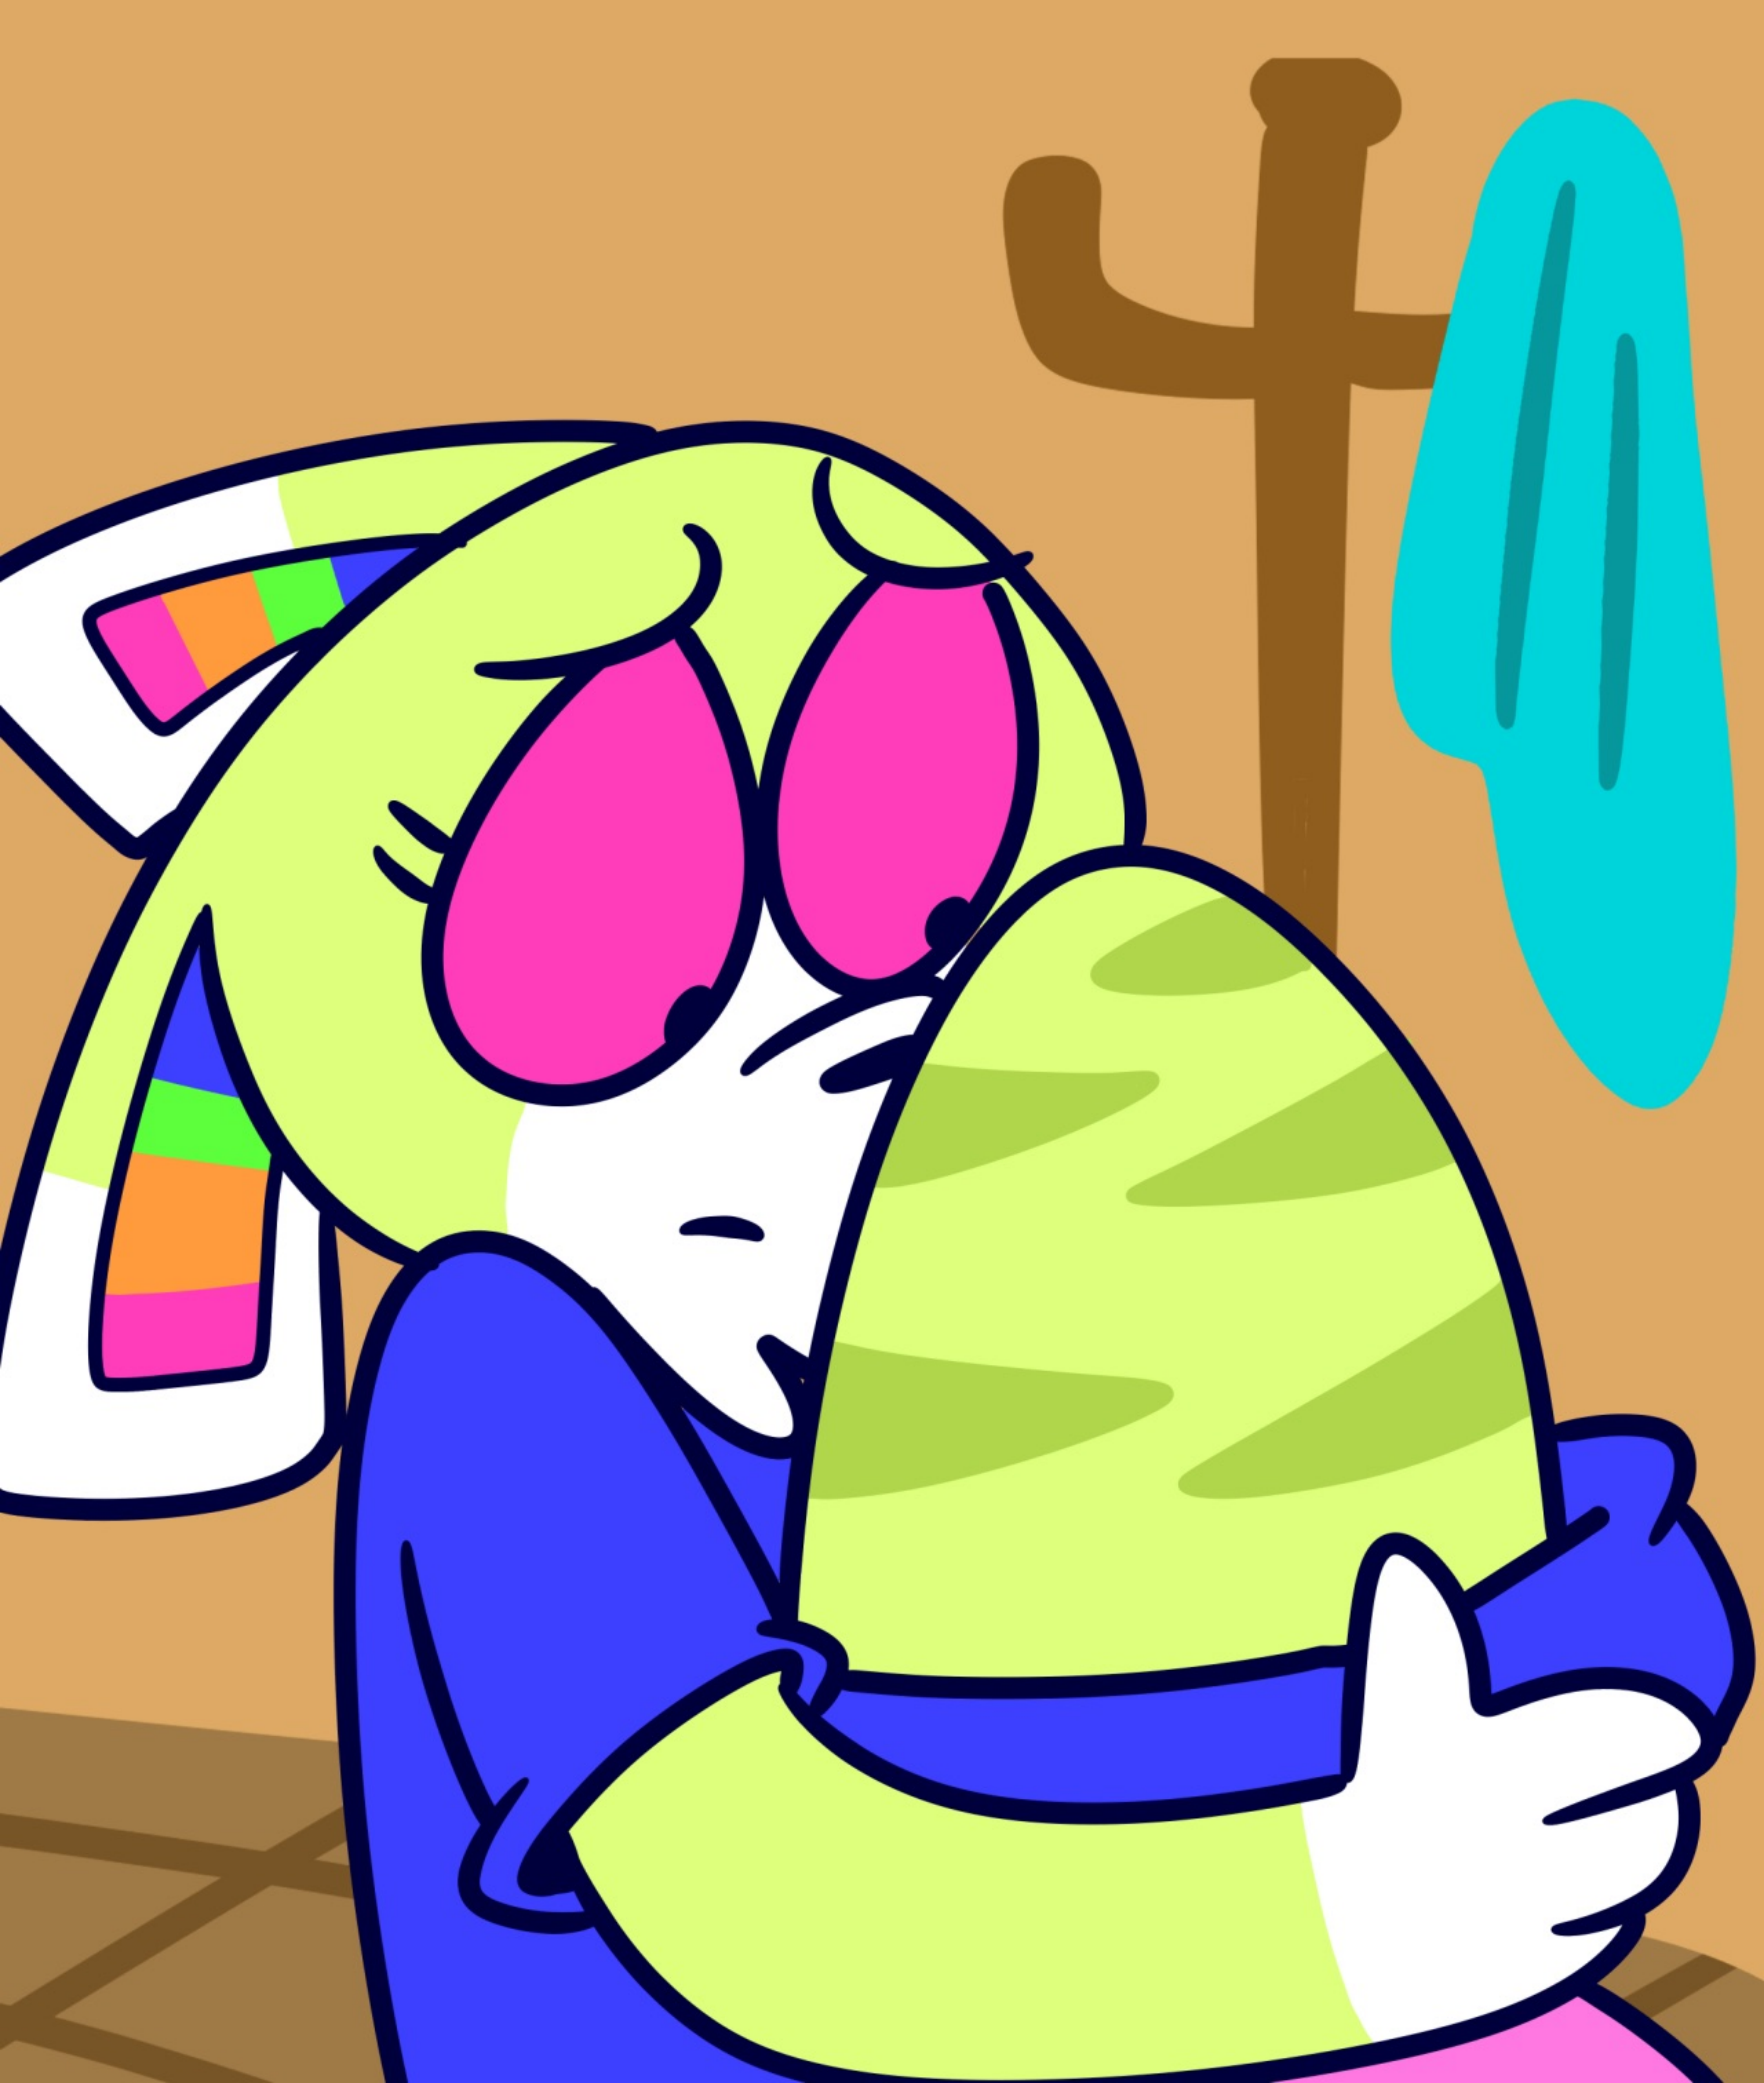


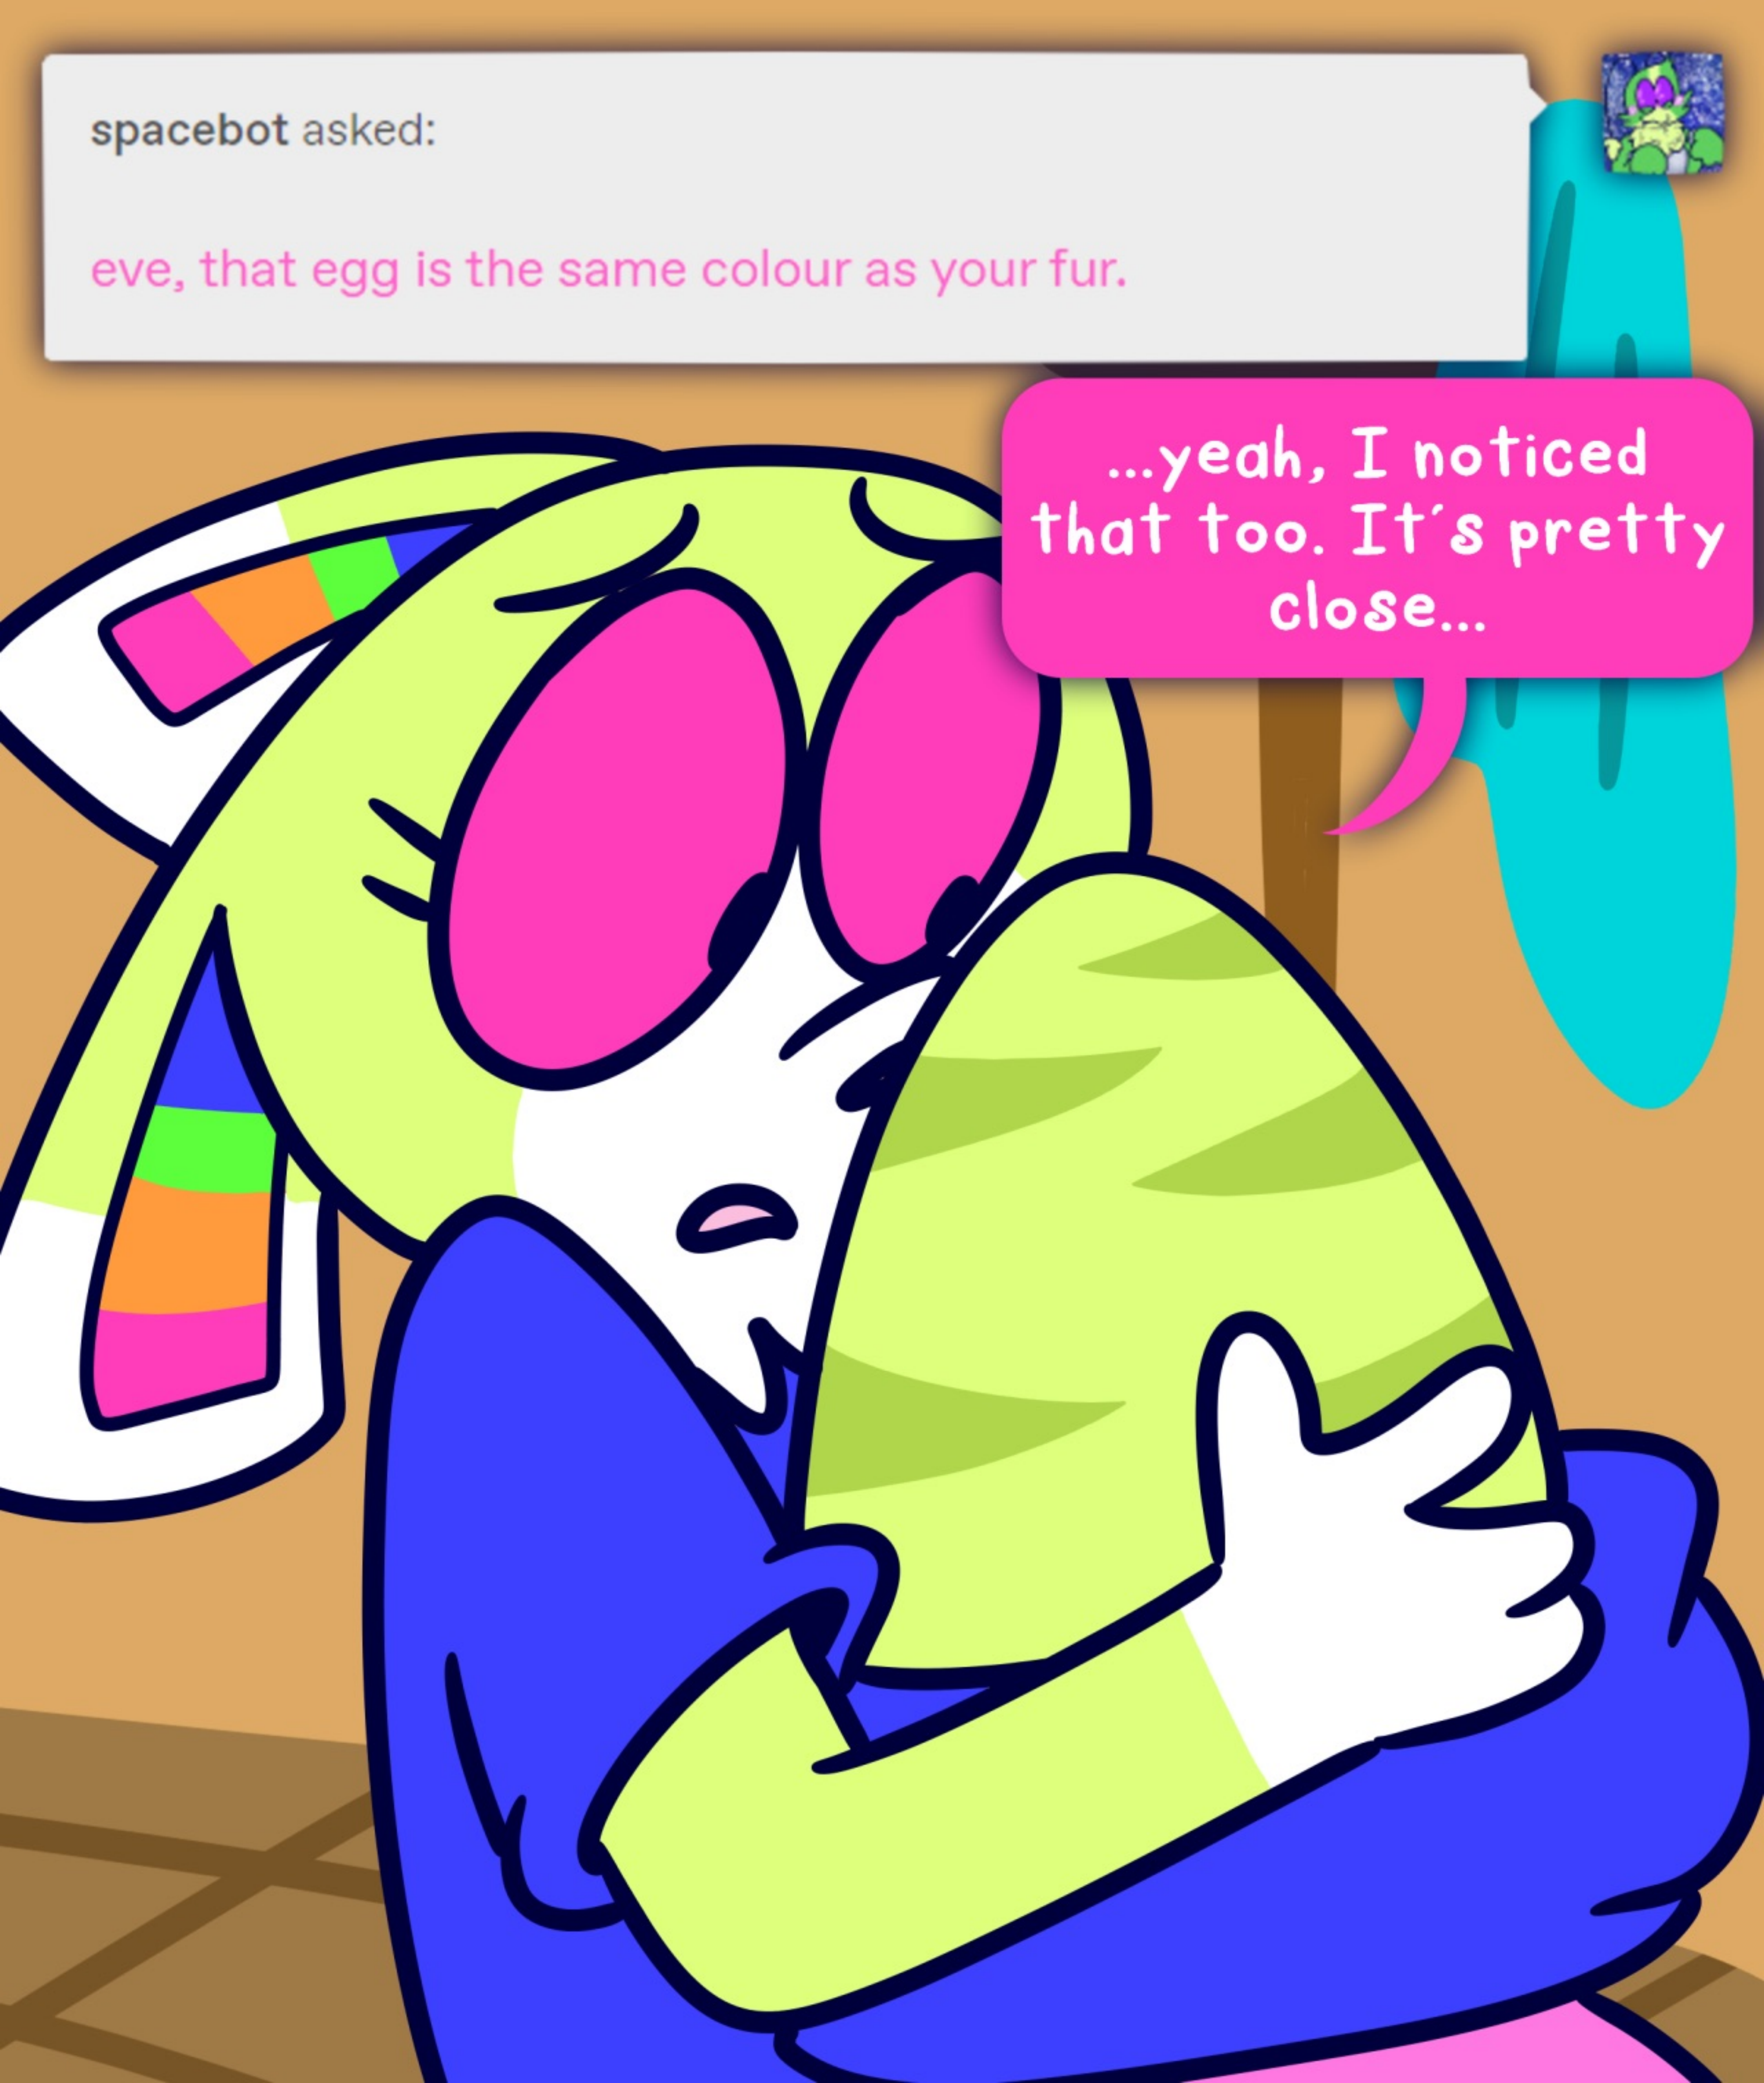
Can I get you anything, or are you good?
I think I´m okay, but thank you.



Well, goodnight!!...



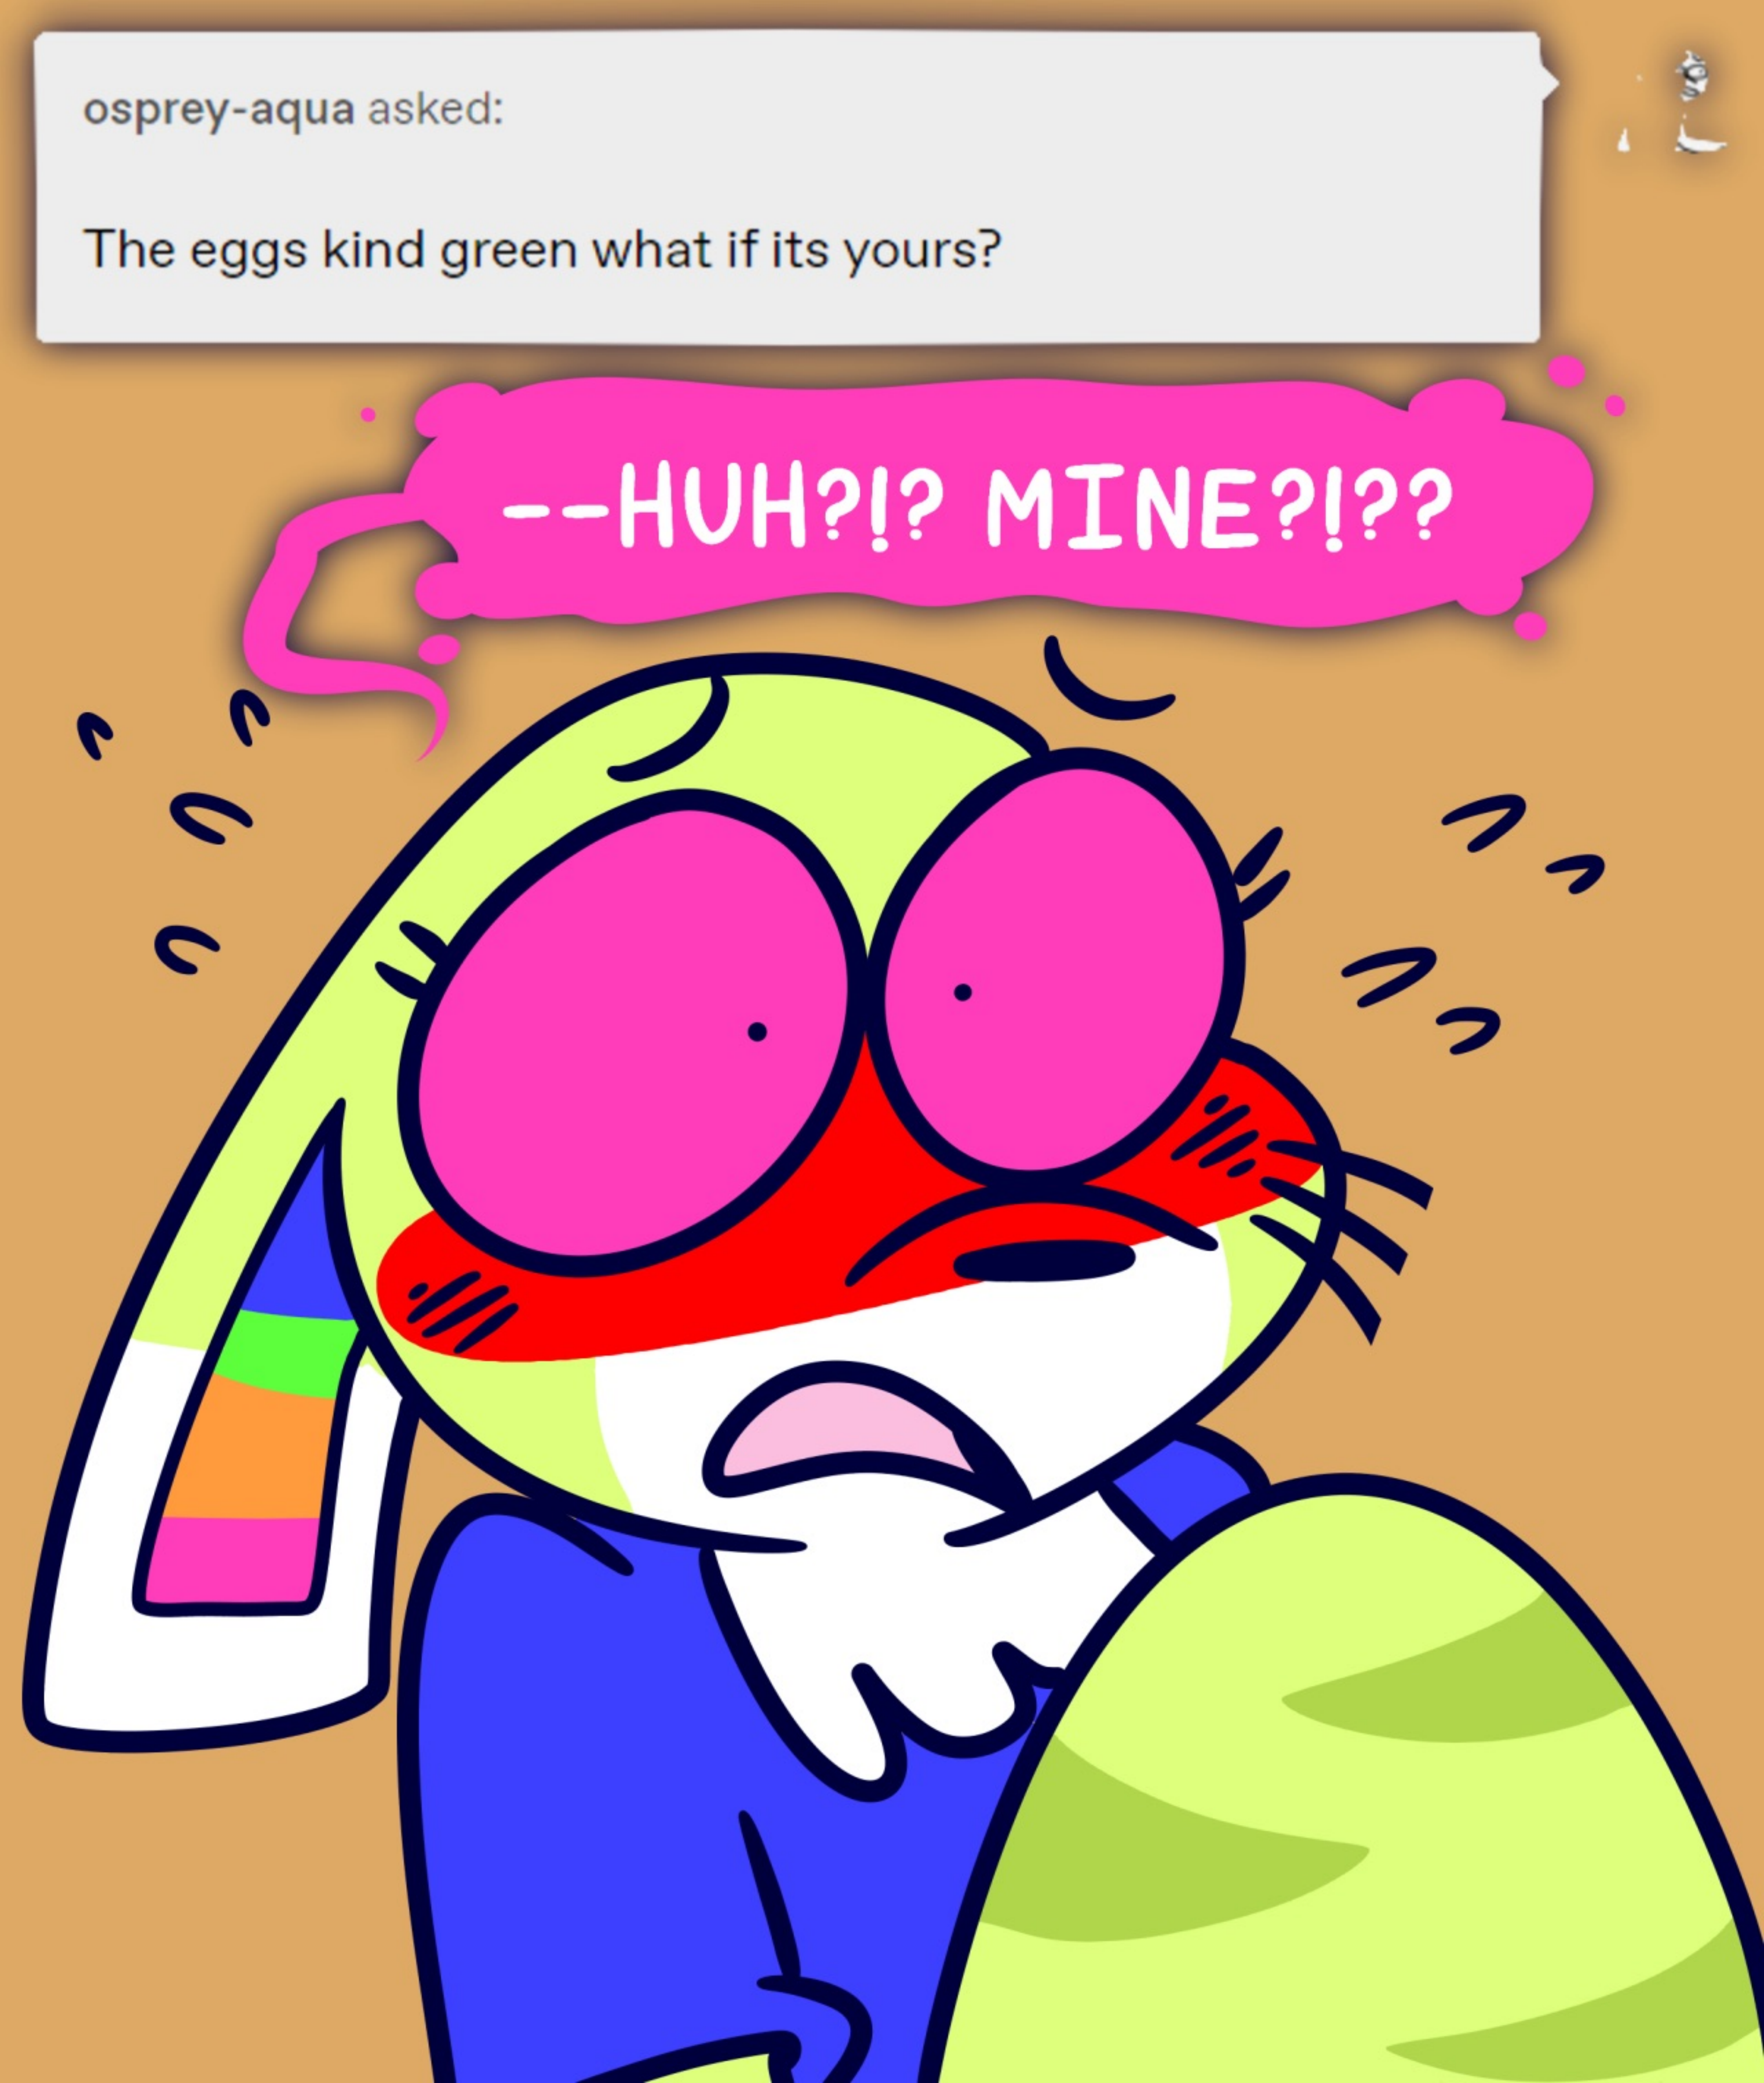




spacebot asked:

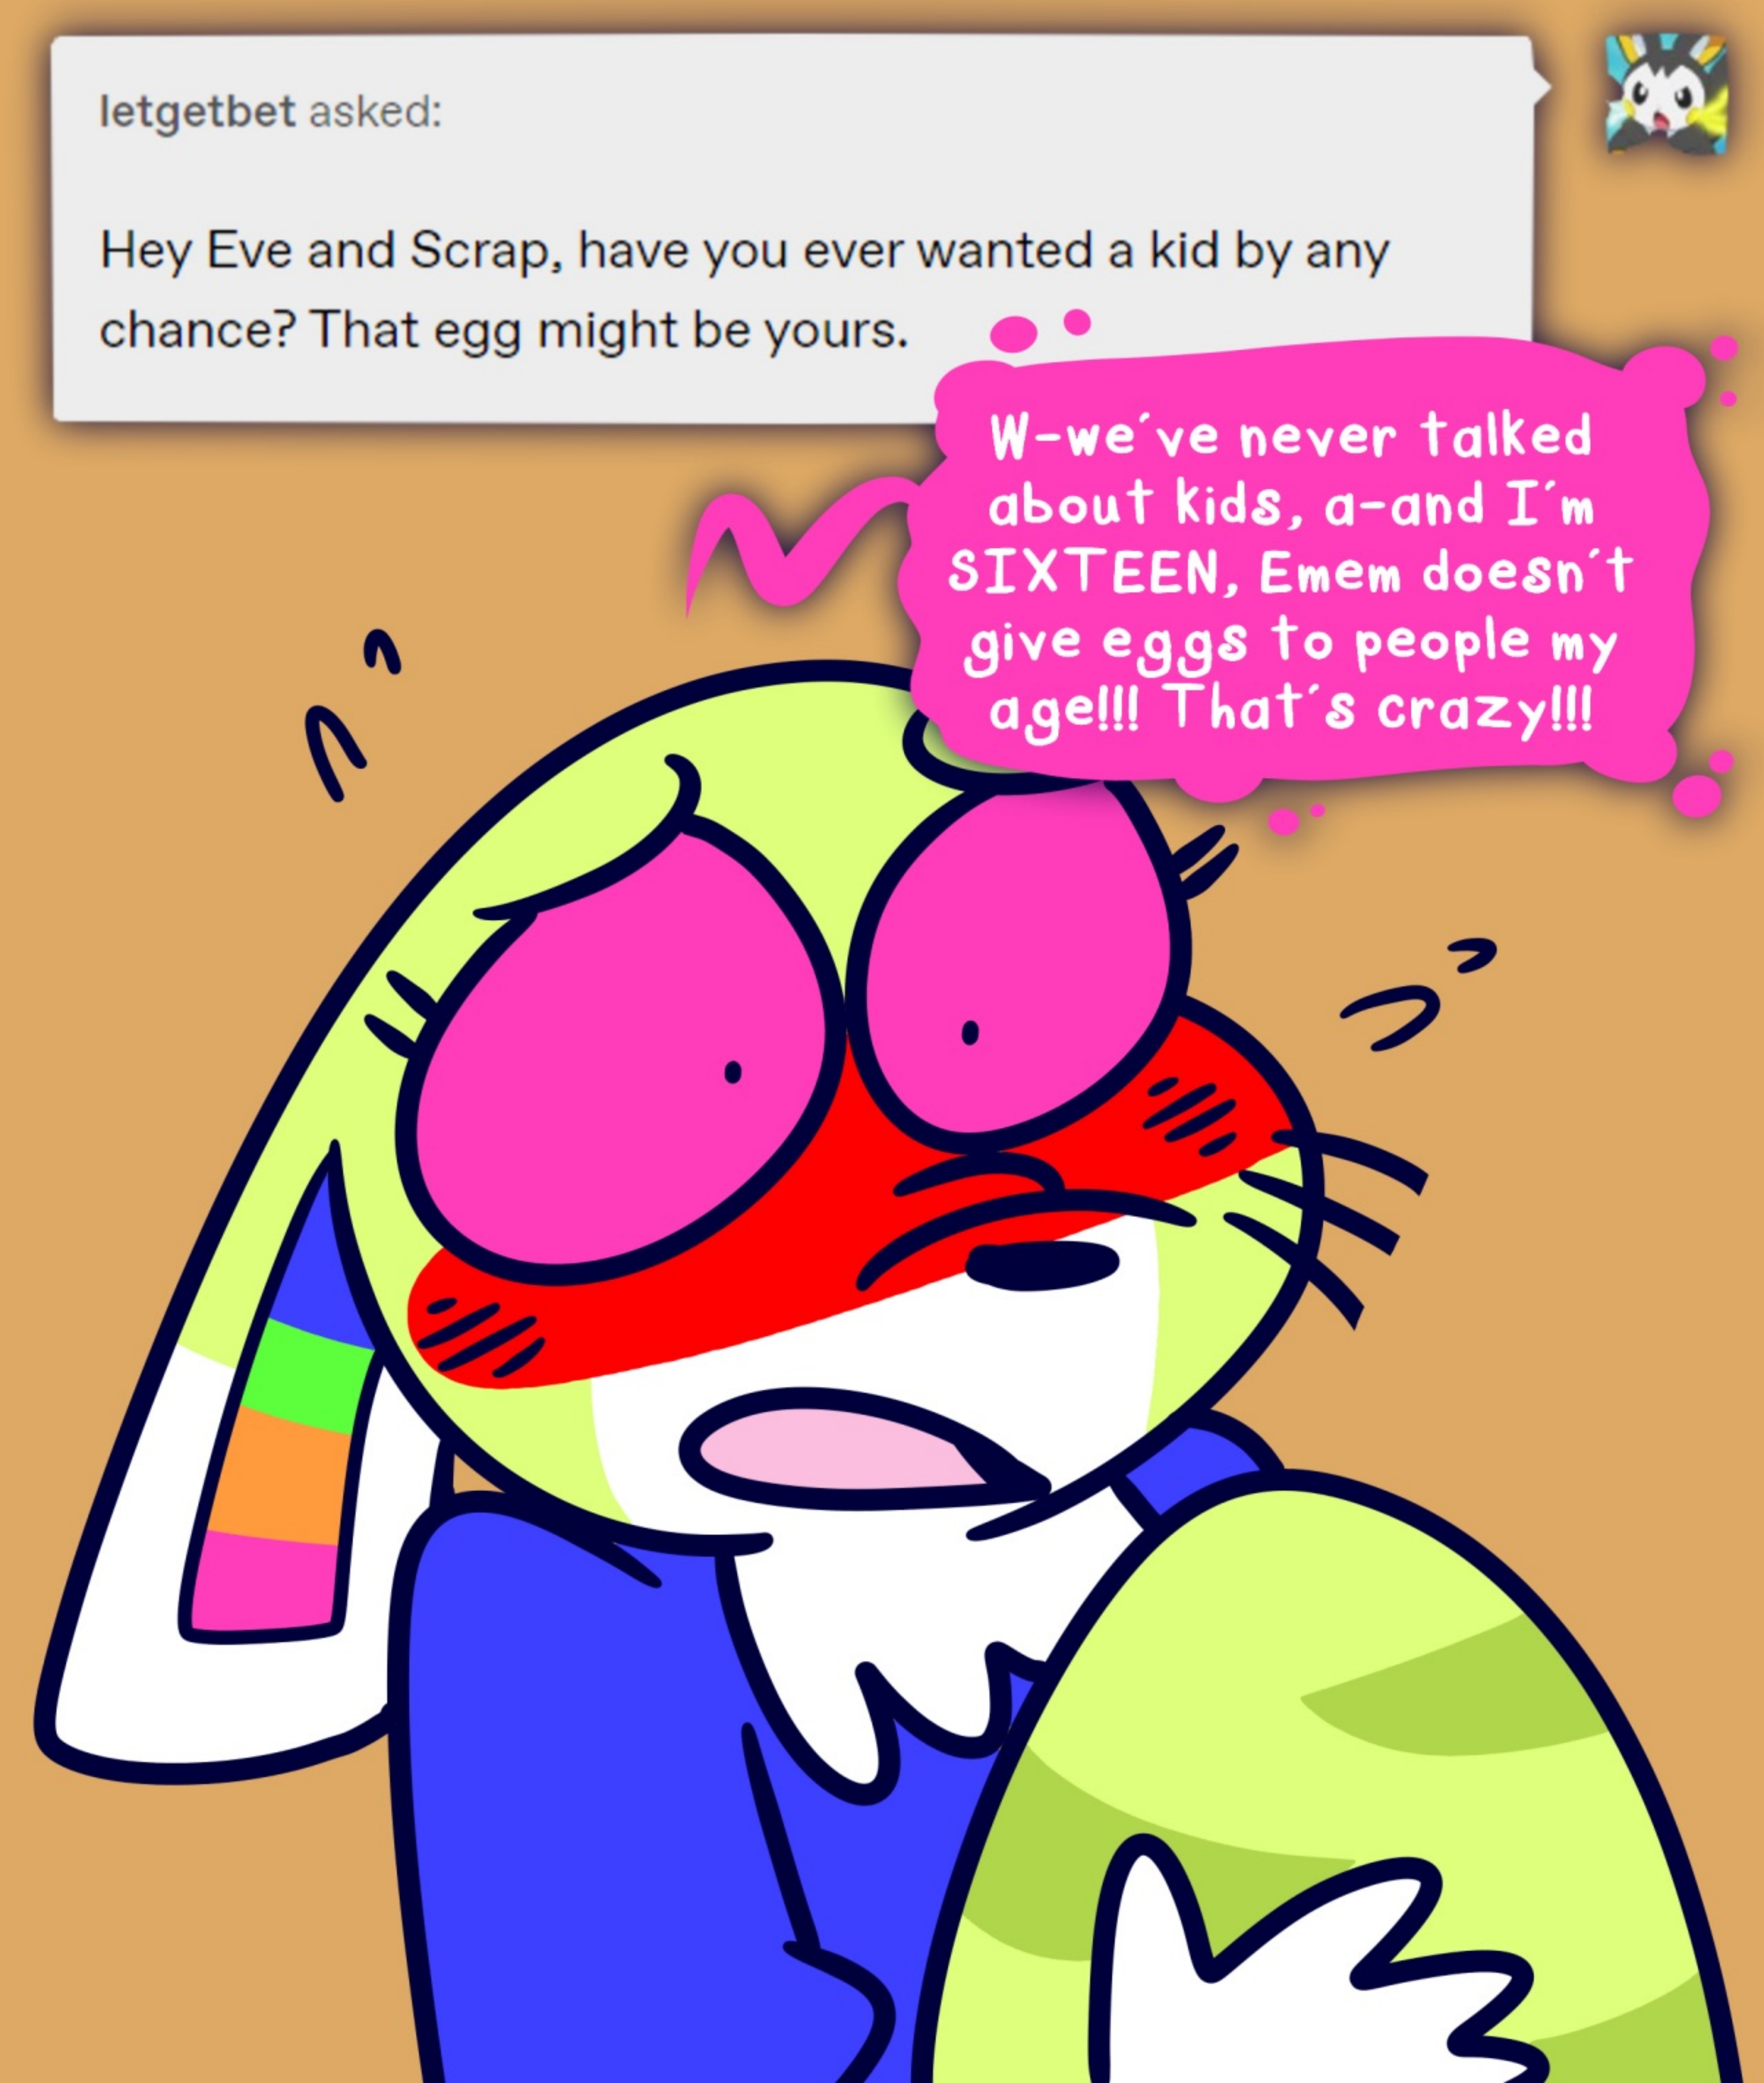
eve, that egg is the same colour as your fur.

...yeah, I noticed that too. It's pretty close...



osprey-aqua asked:

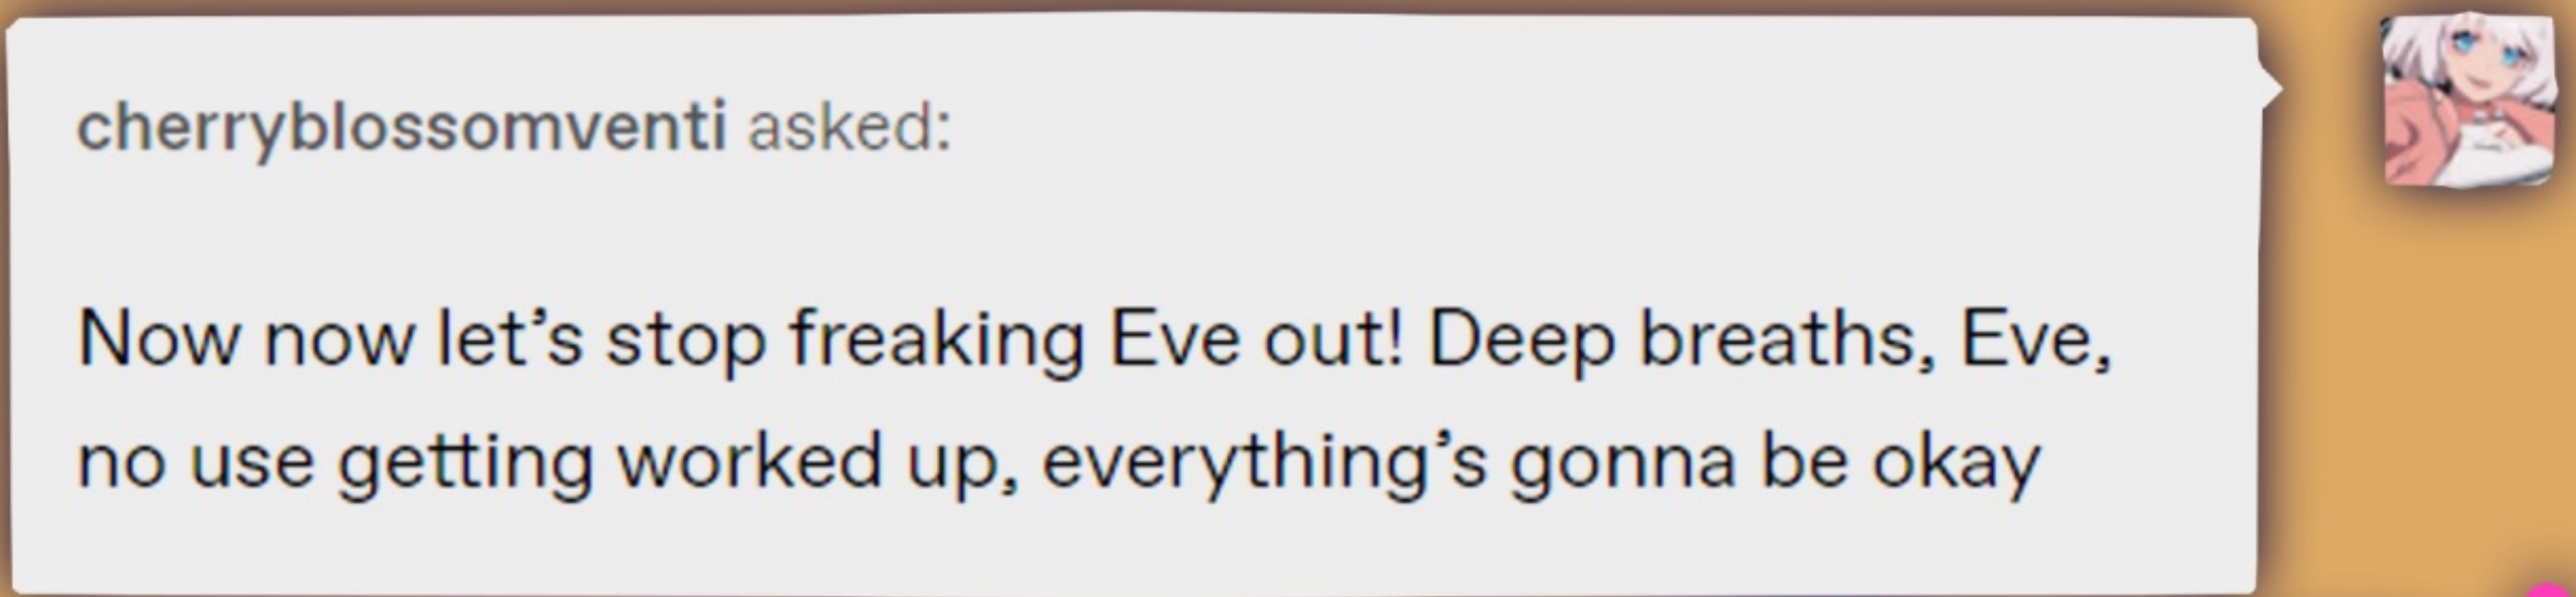
The eggs kind green what if its yours?



letgetbet asked:

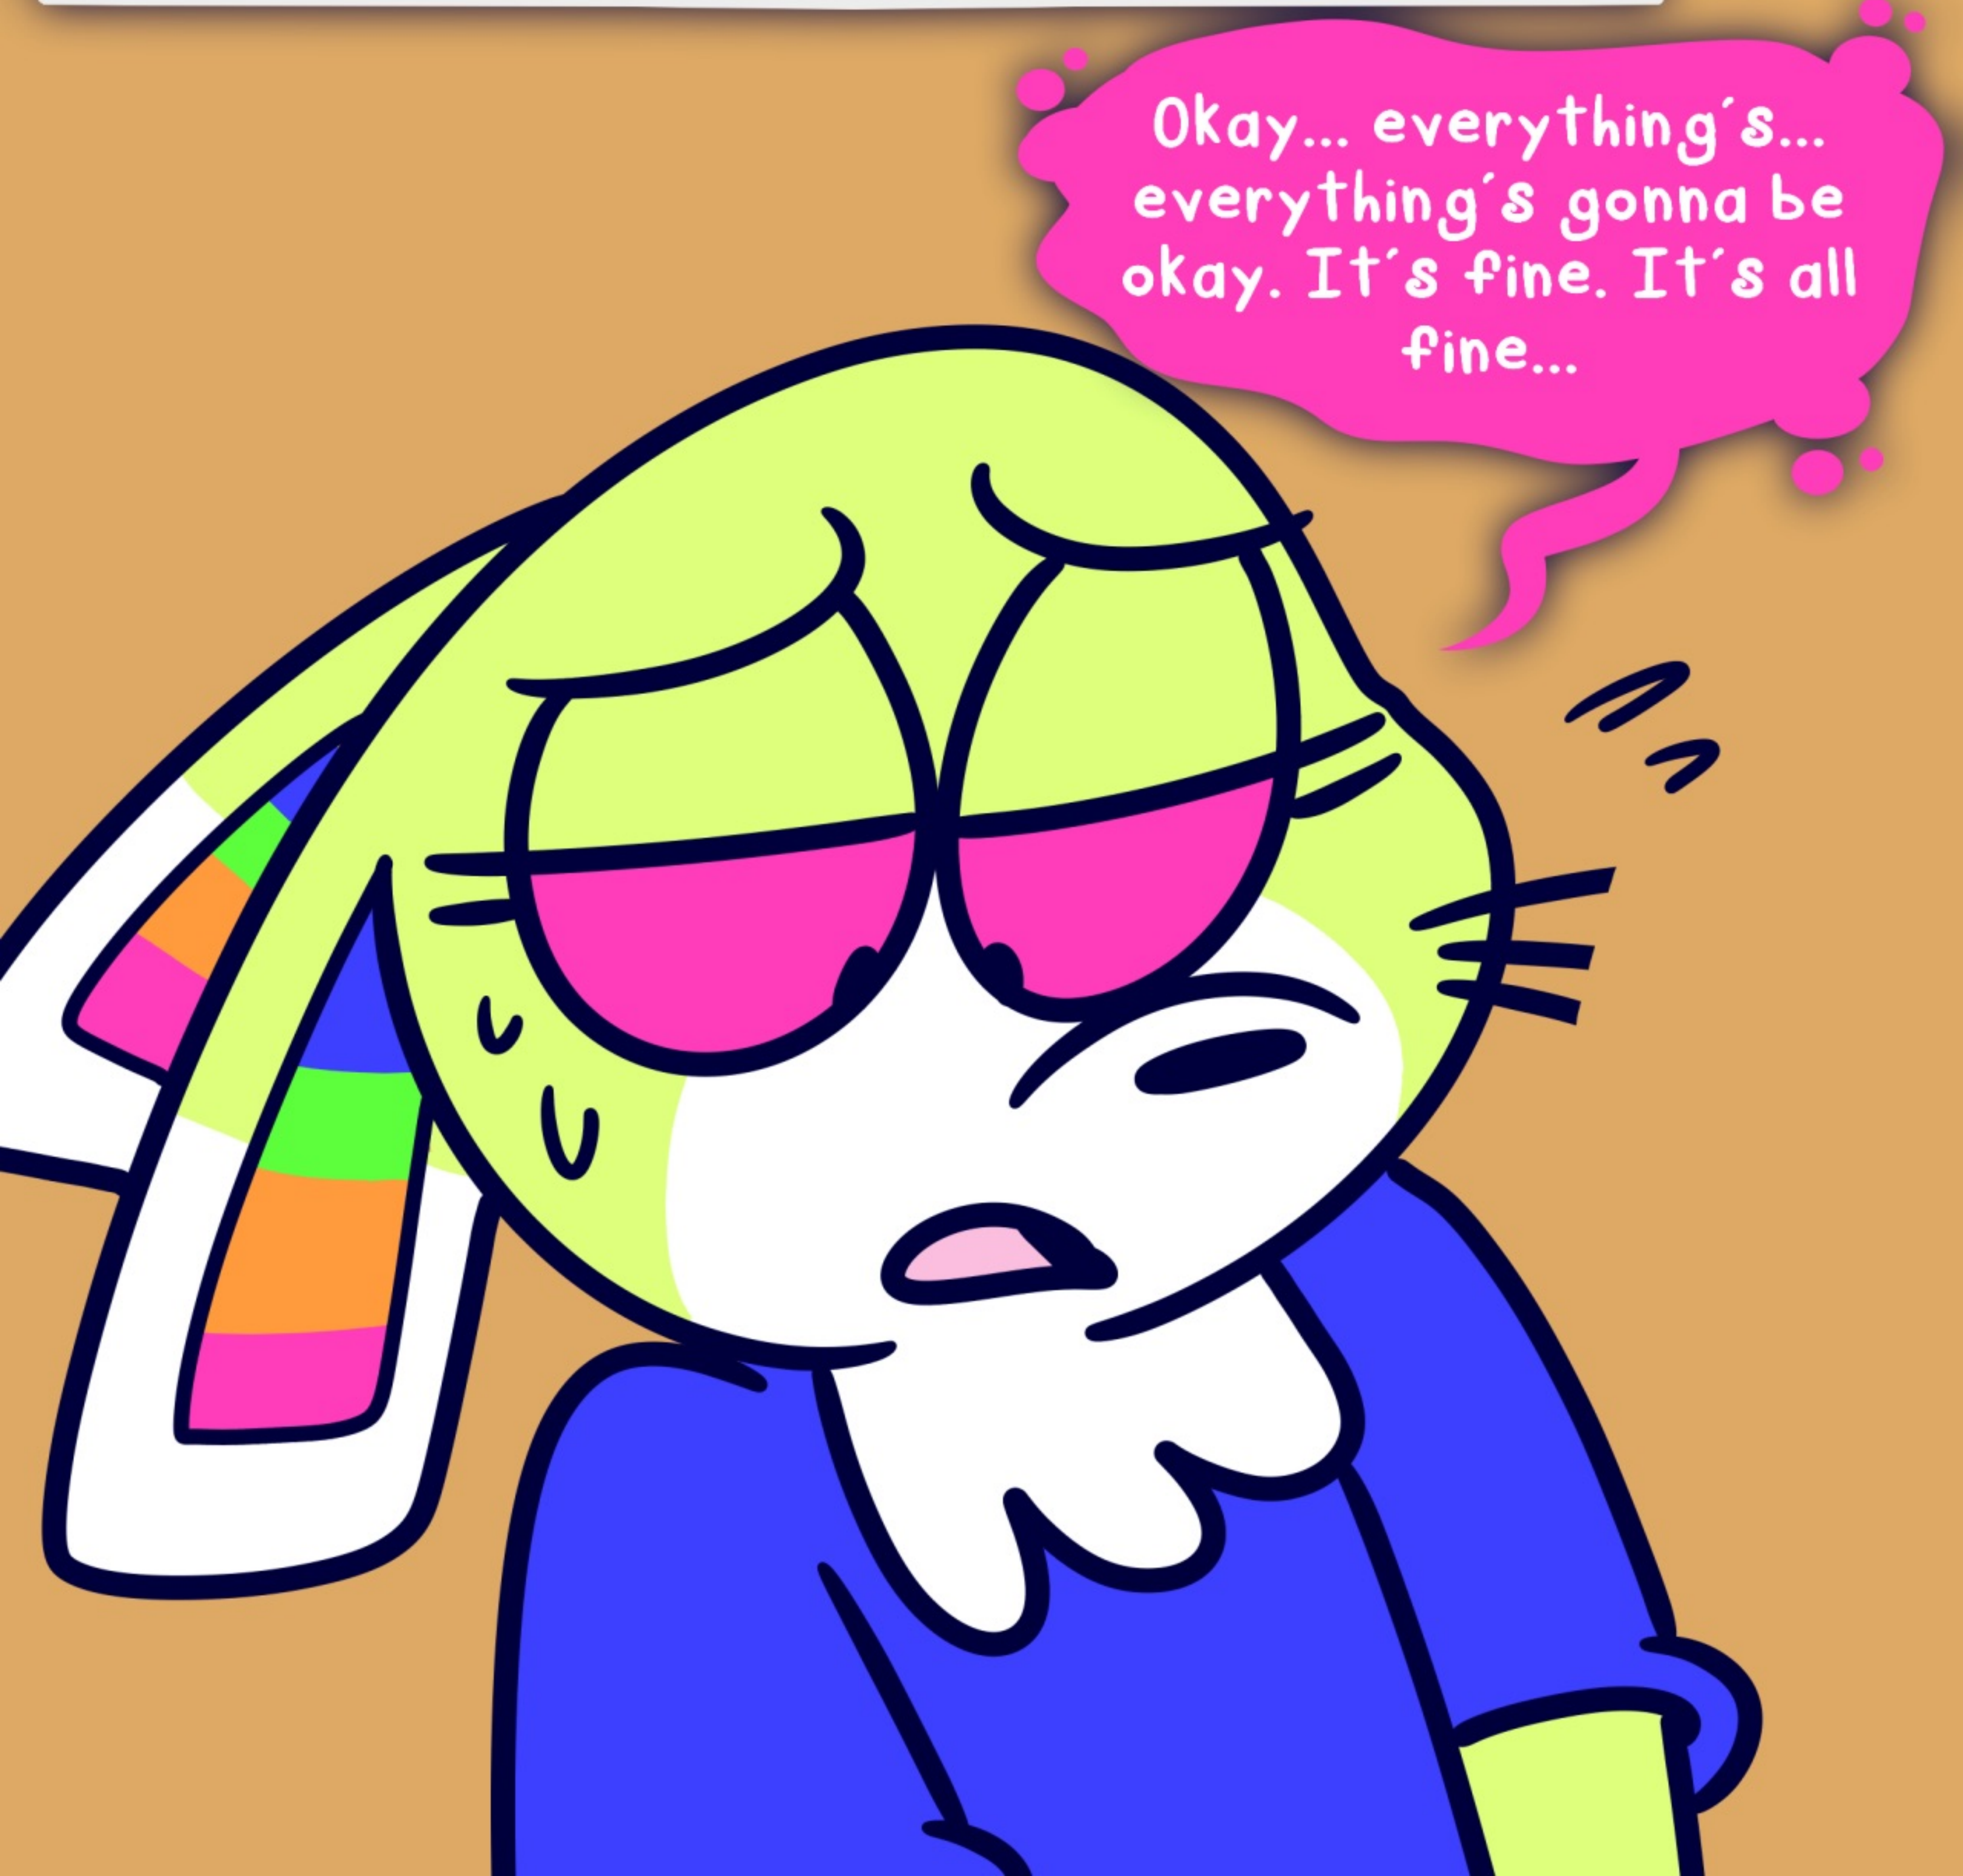
Hey Eve and Scrap, have you ever wanted a kid by any chance? That egg might be yours.

W-we´ve never talked about kids, a-and I´m SIXTEEN, Emem doesn´t give eggs to people my age!!! That´s crazy!!!

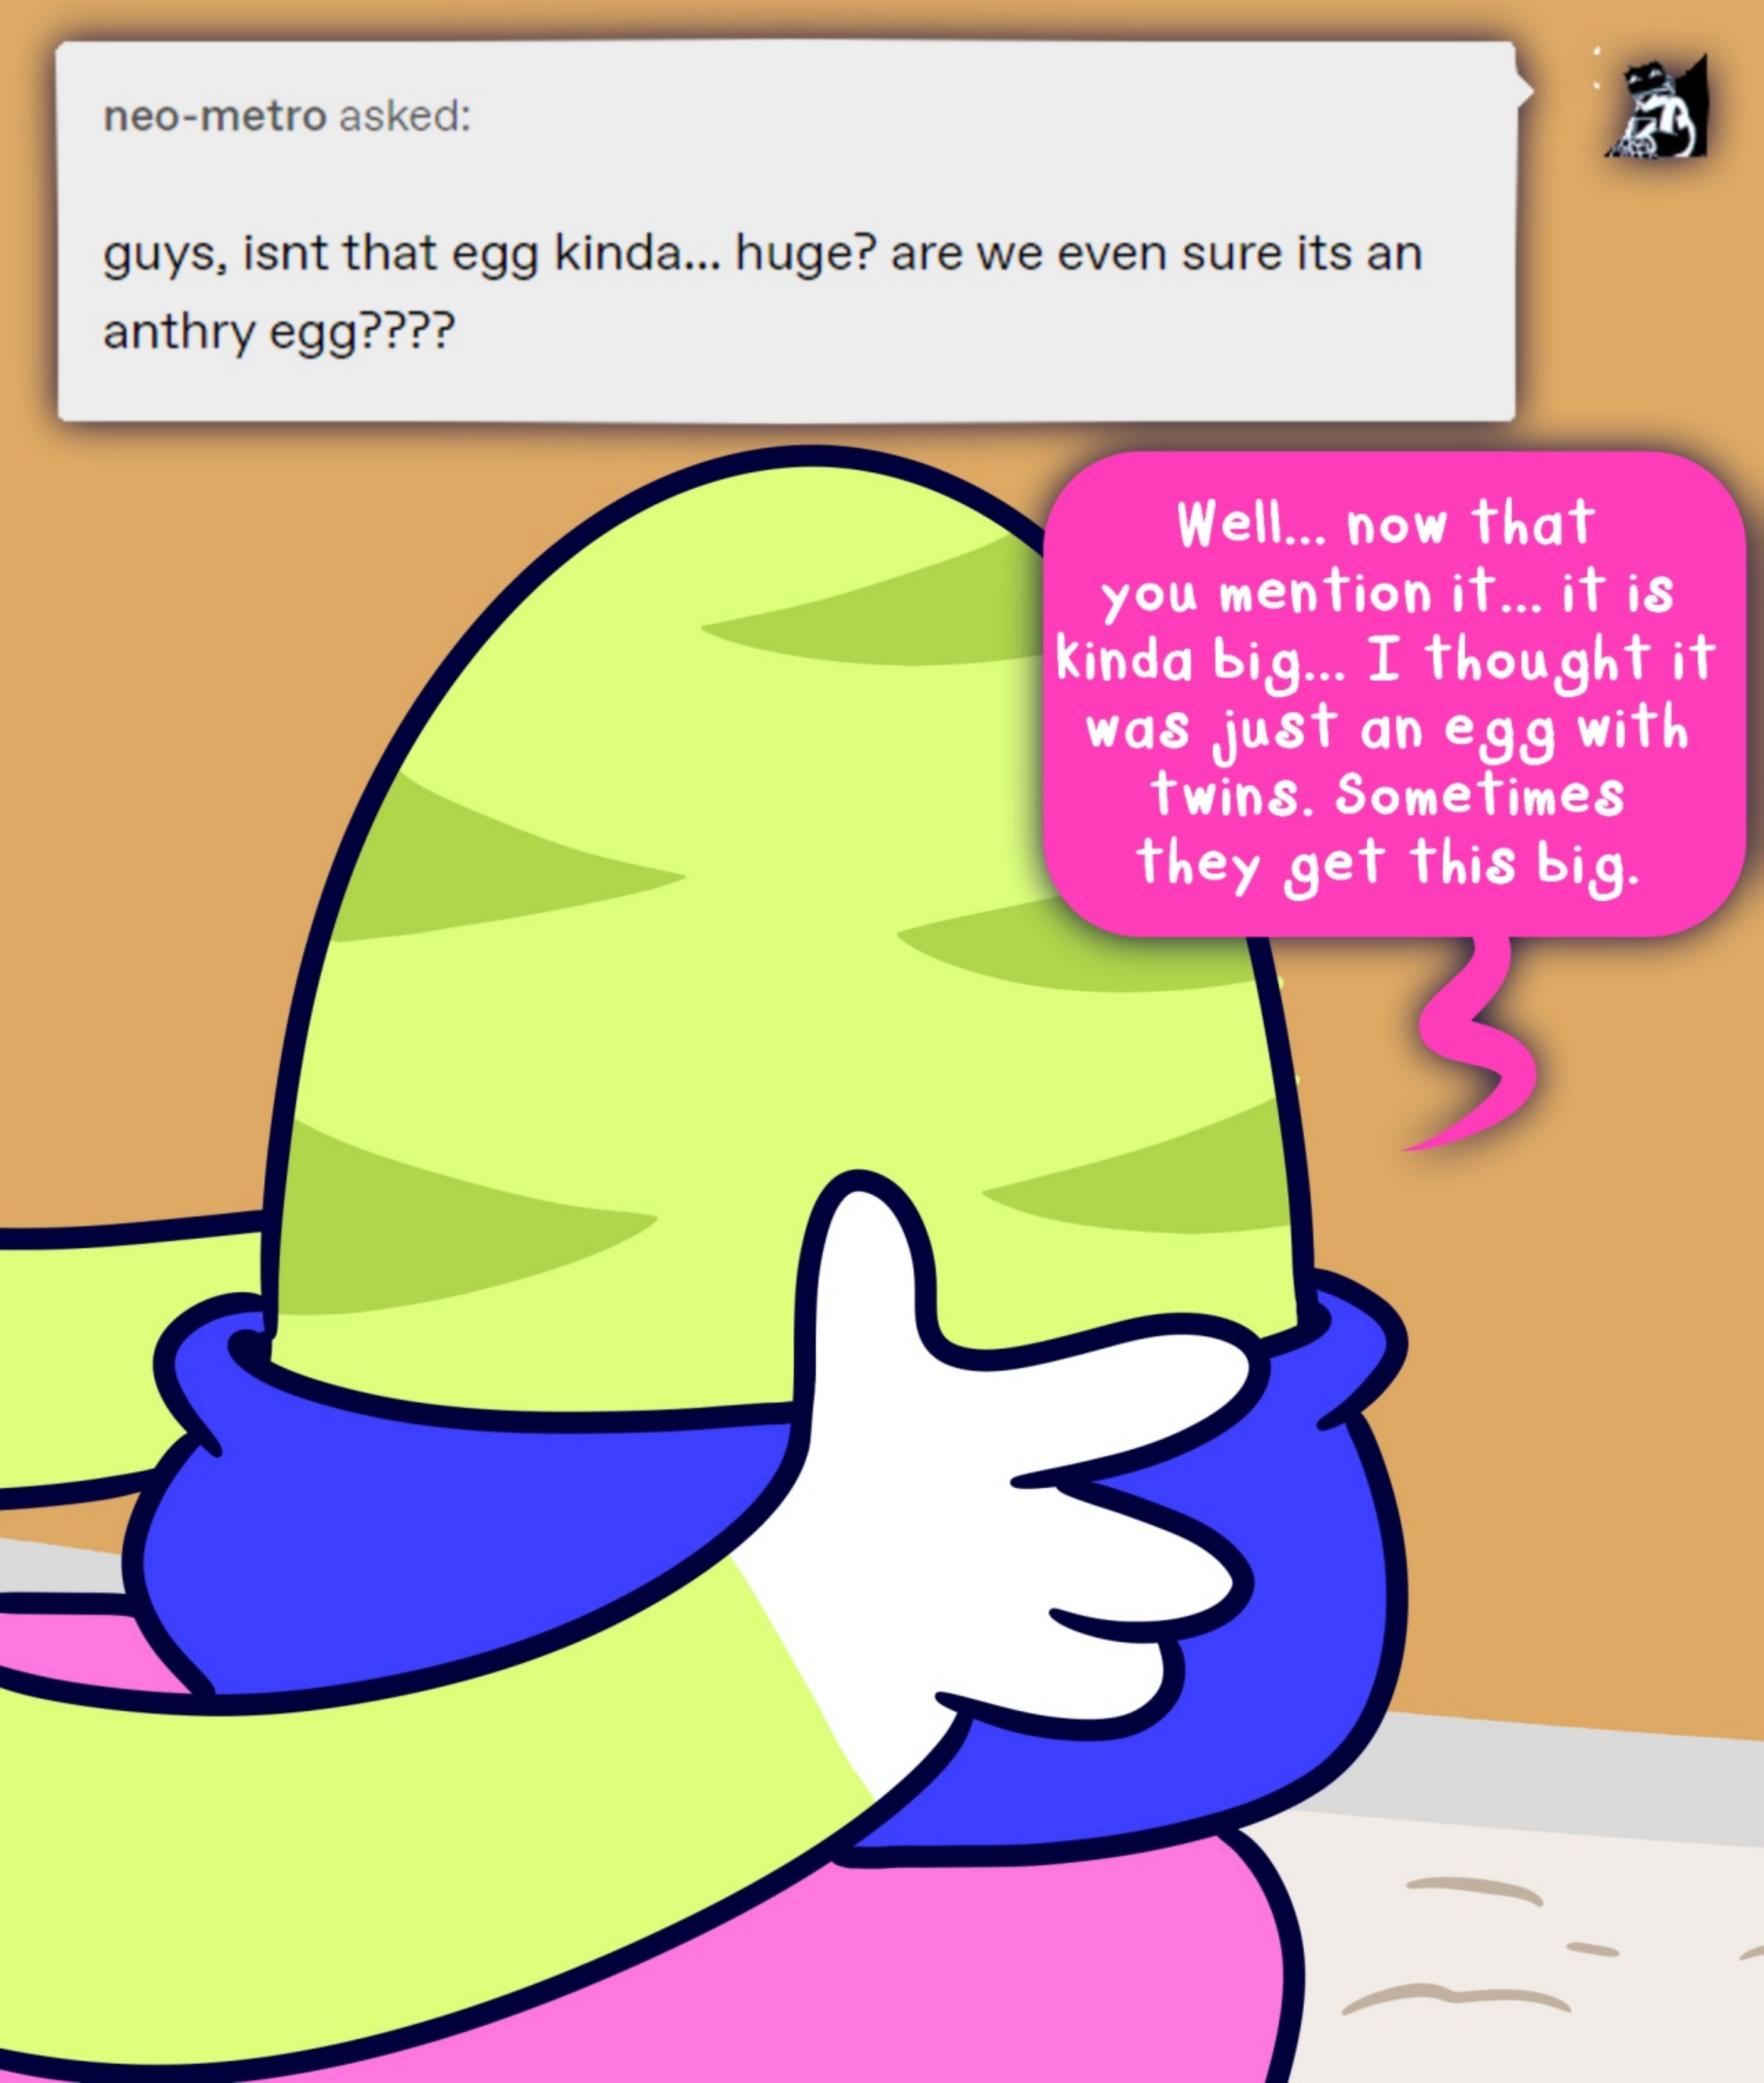


cherryblossomventi asked:

Now now let’s stop freaking Eve out! Deep breaths, Eve, no use getting worked up, everything’s gonna be okay



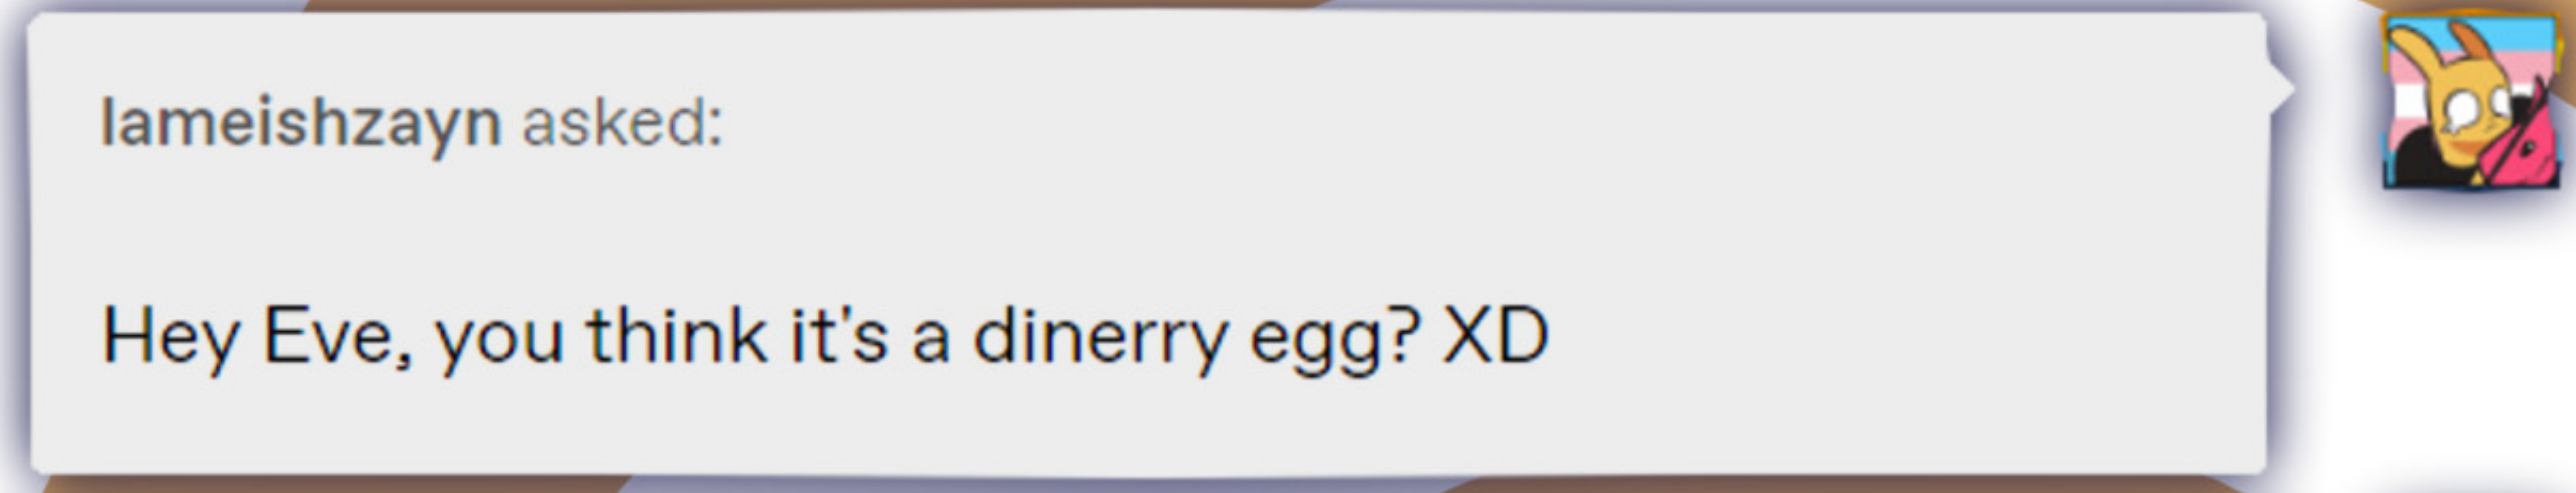
Okay... everything´s... everything´s gonna be okay. It´s fine. It´s all fine...



neo-metro asked:

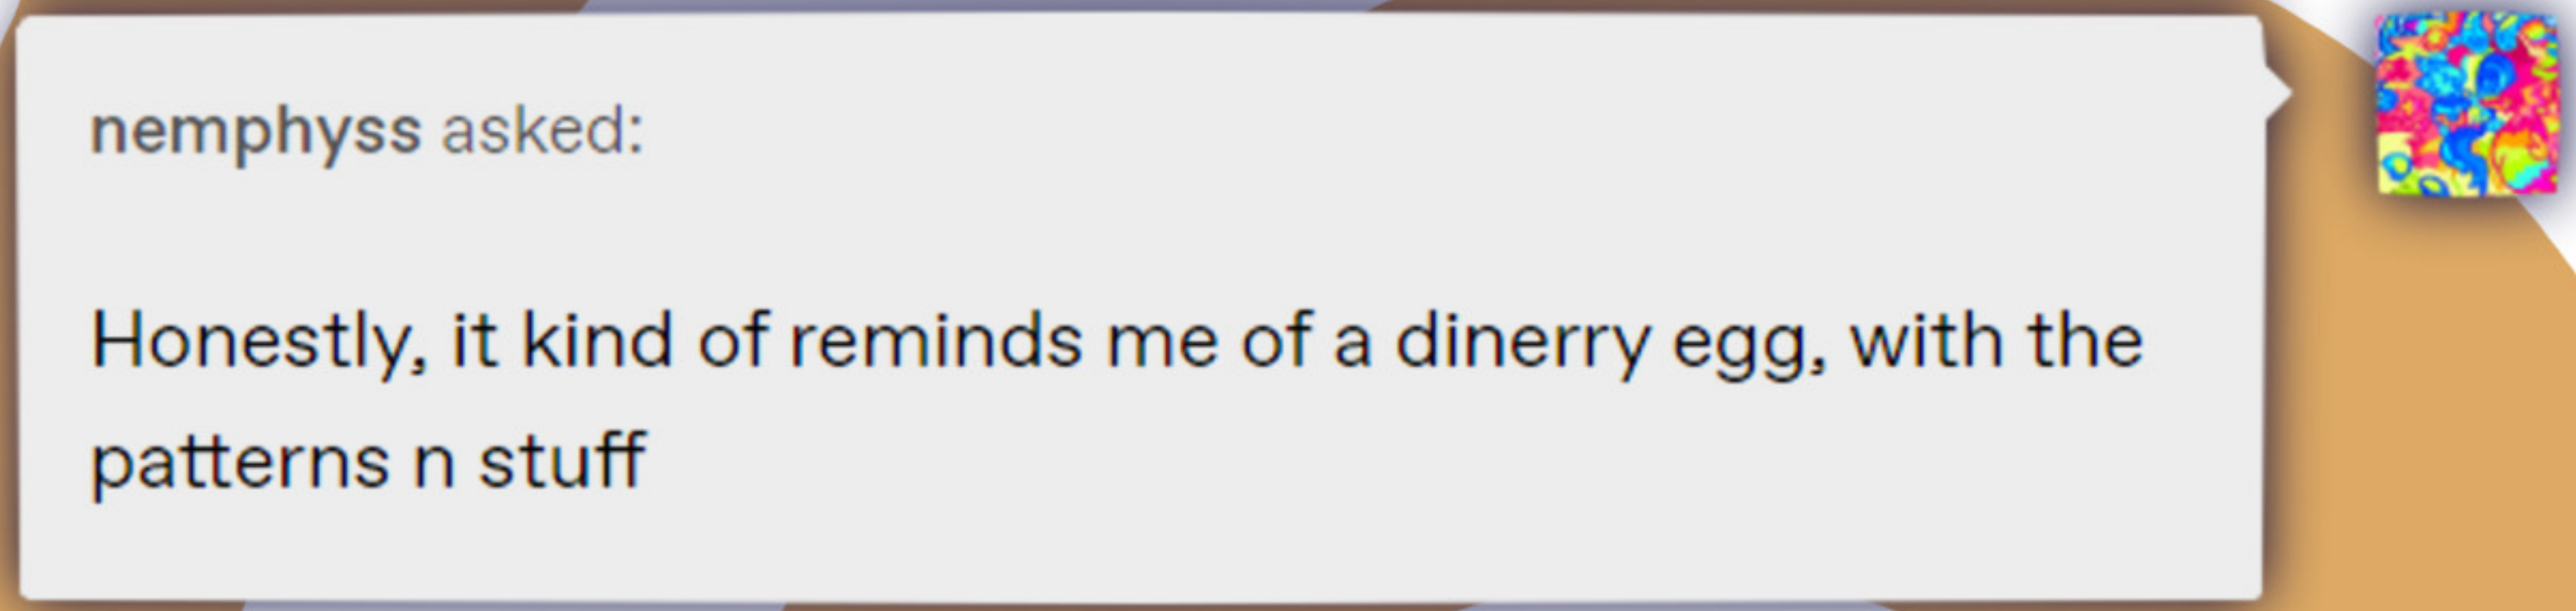
guys, isnt that egg kinda... huge? are we even sure its an anthry egg????

Well... now that you mention it... it is kinda big... I thought it was just an egg with twins. Sometimes they get this big.



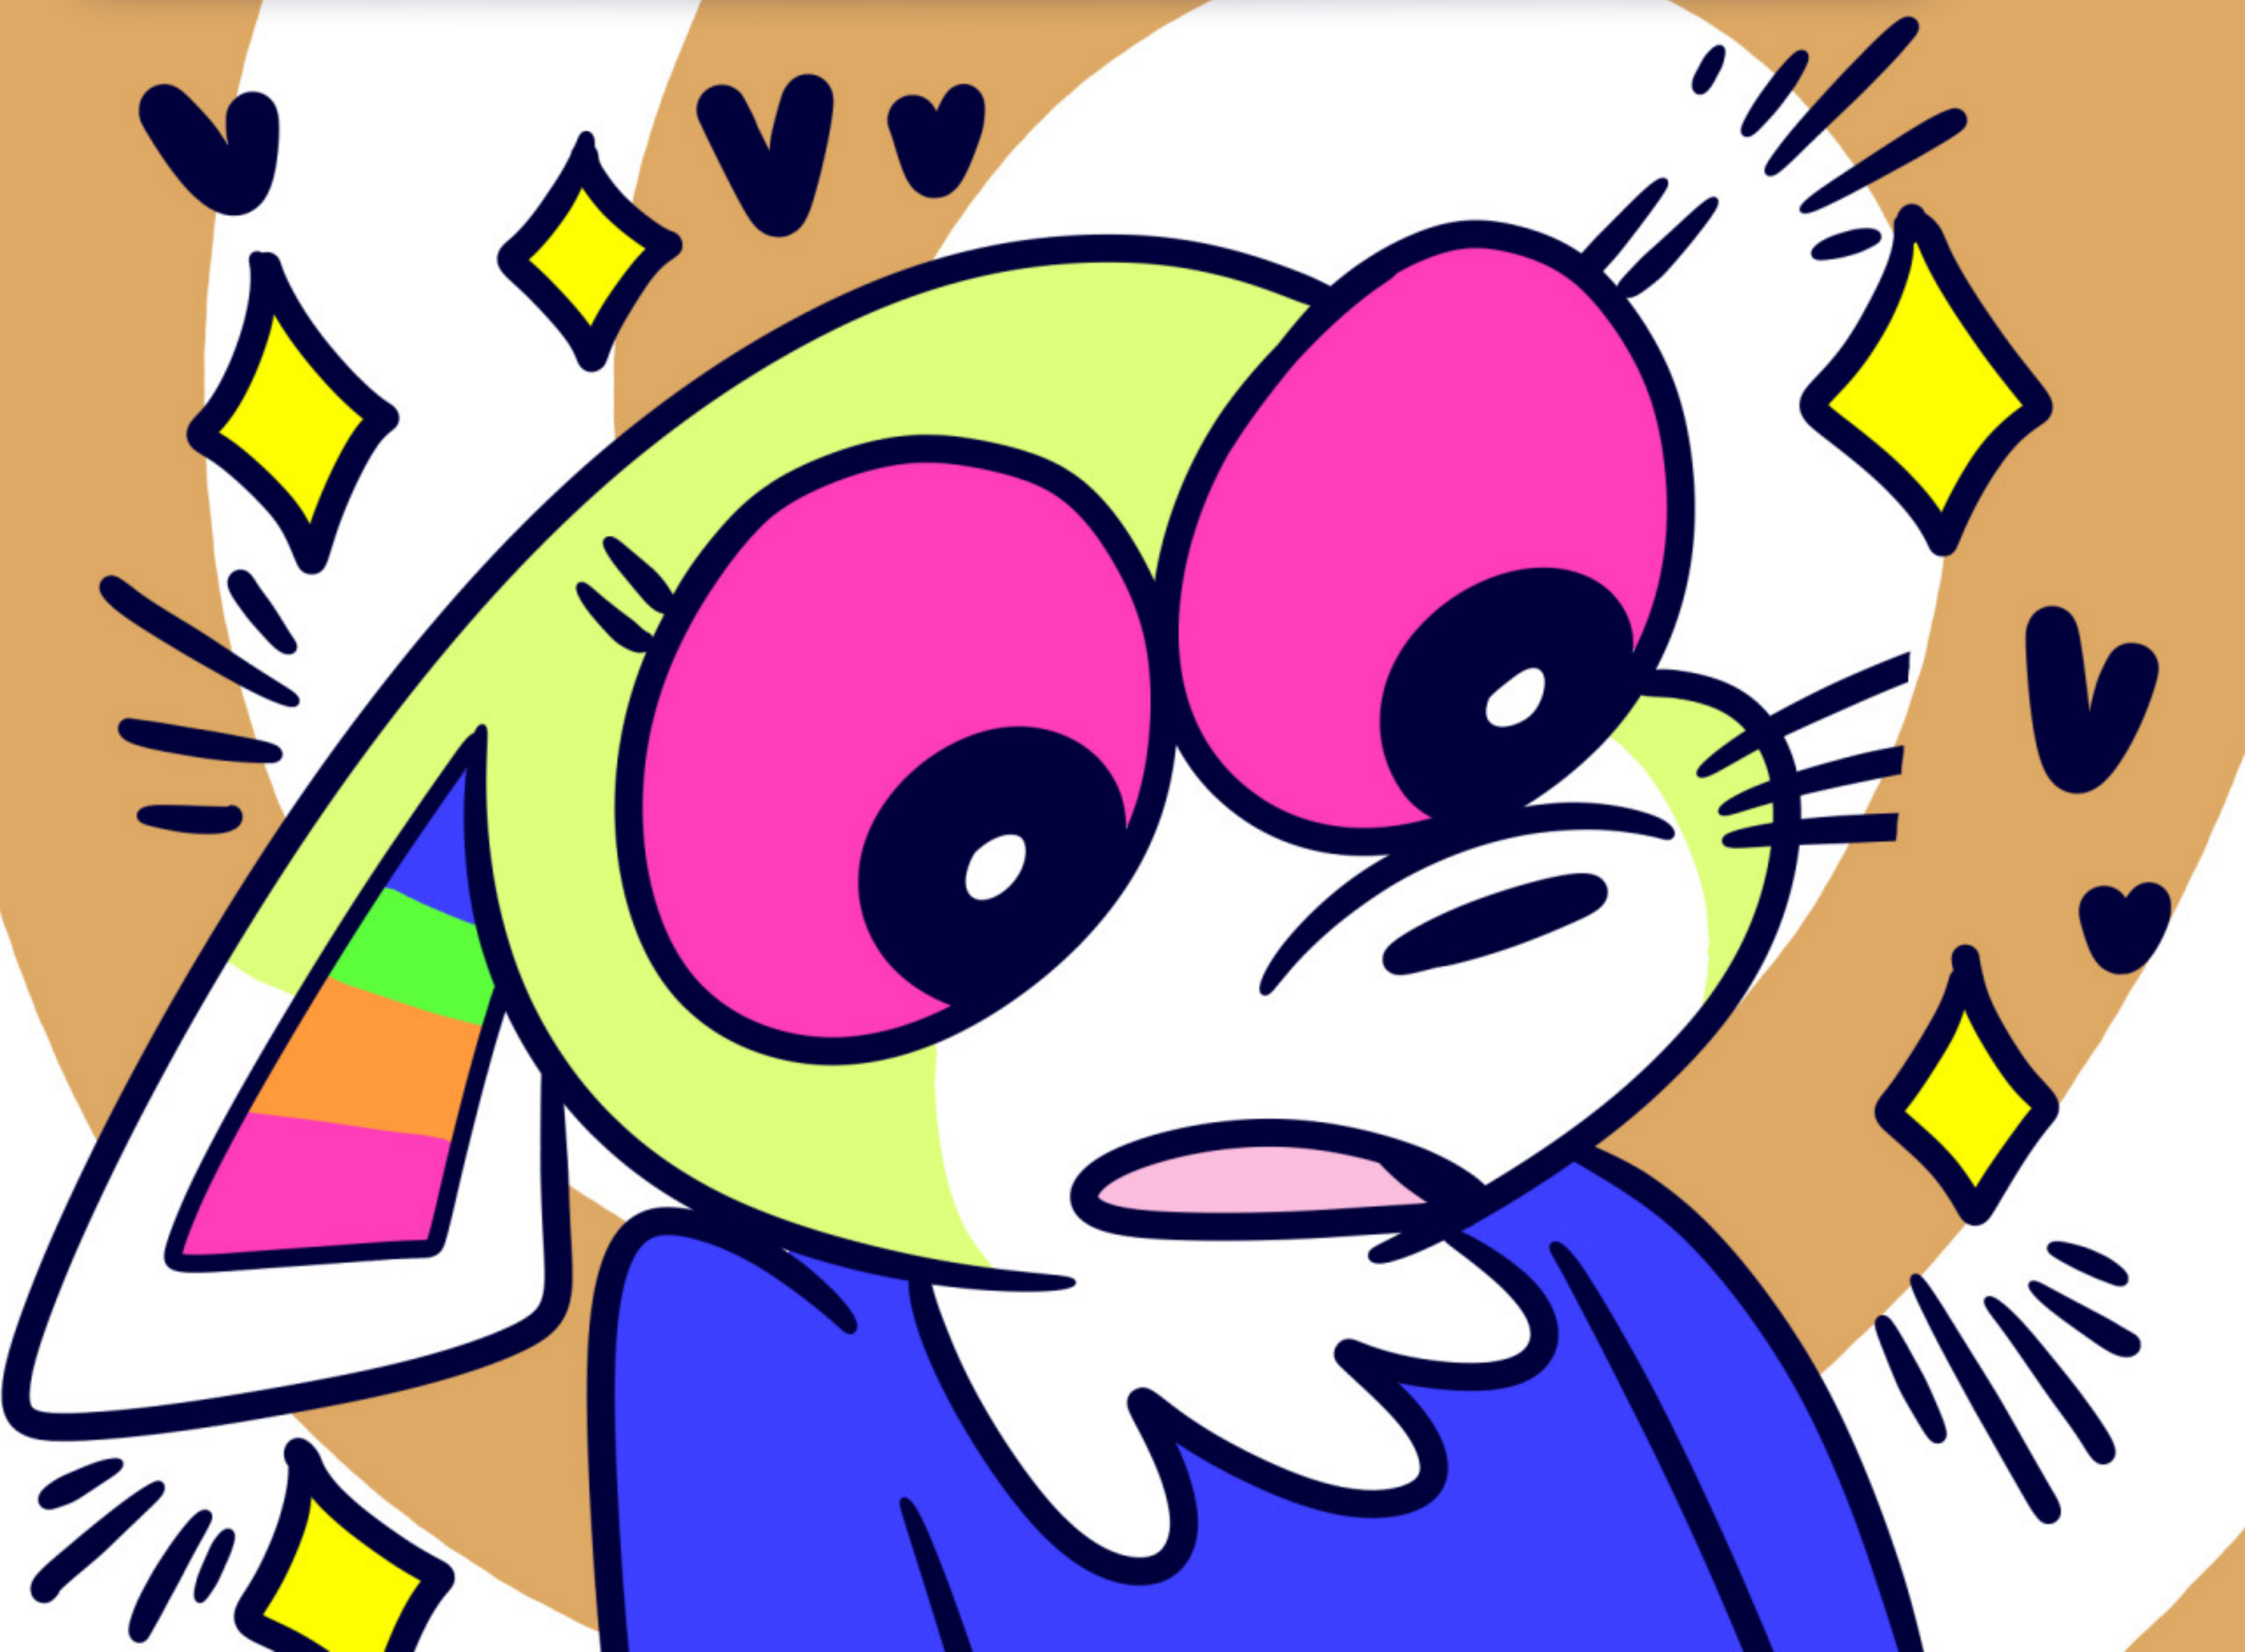
lameishzayn asked:

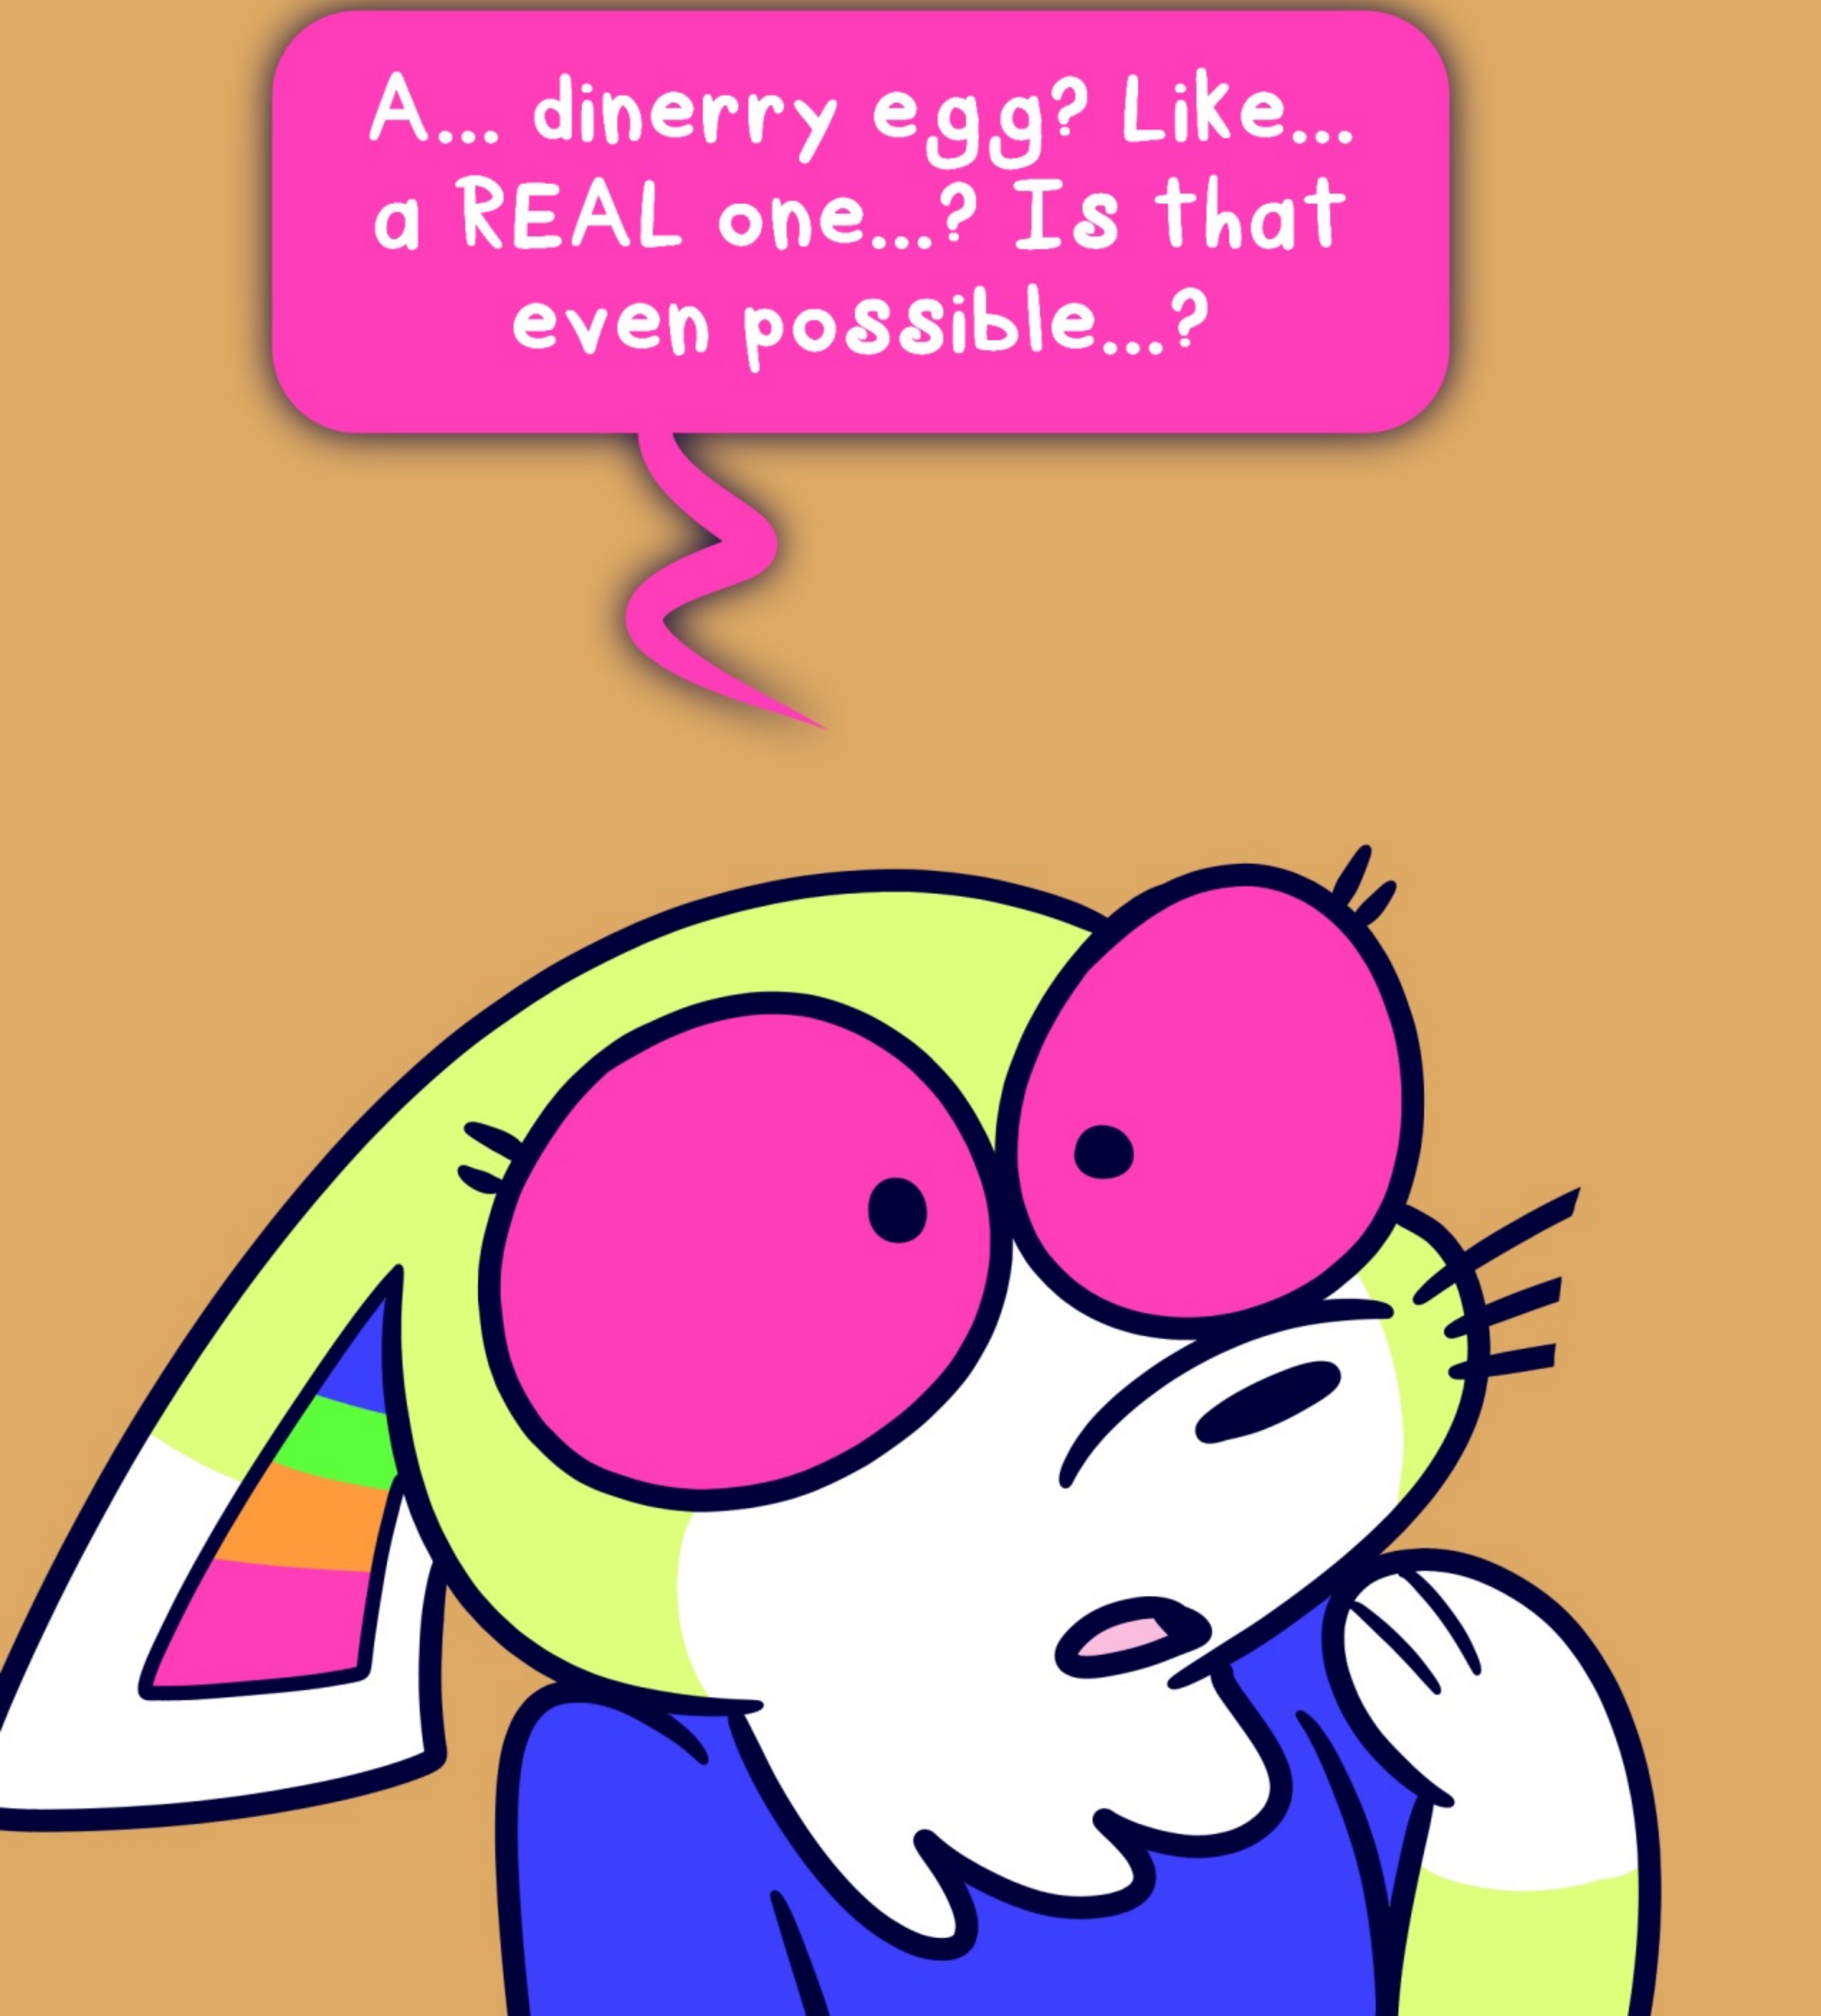
Hey Eve, you think it's a dinerry egg? XD



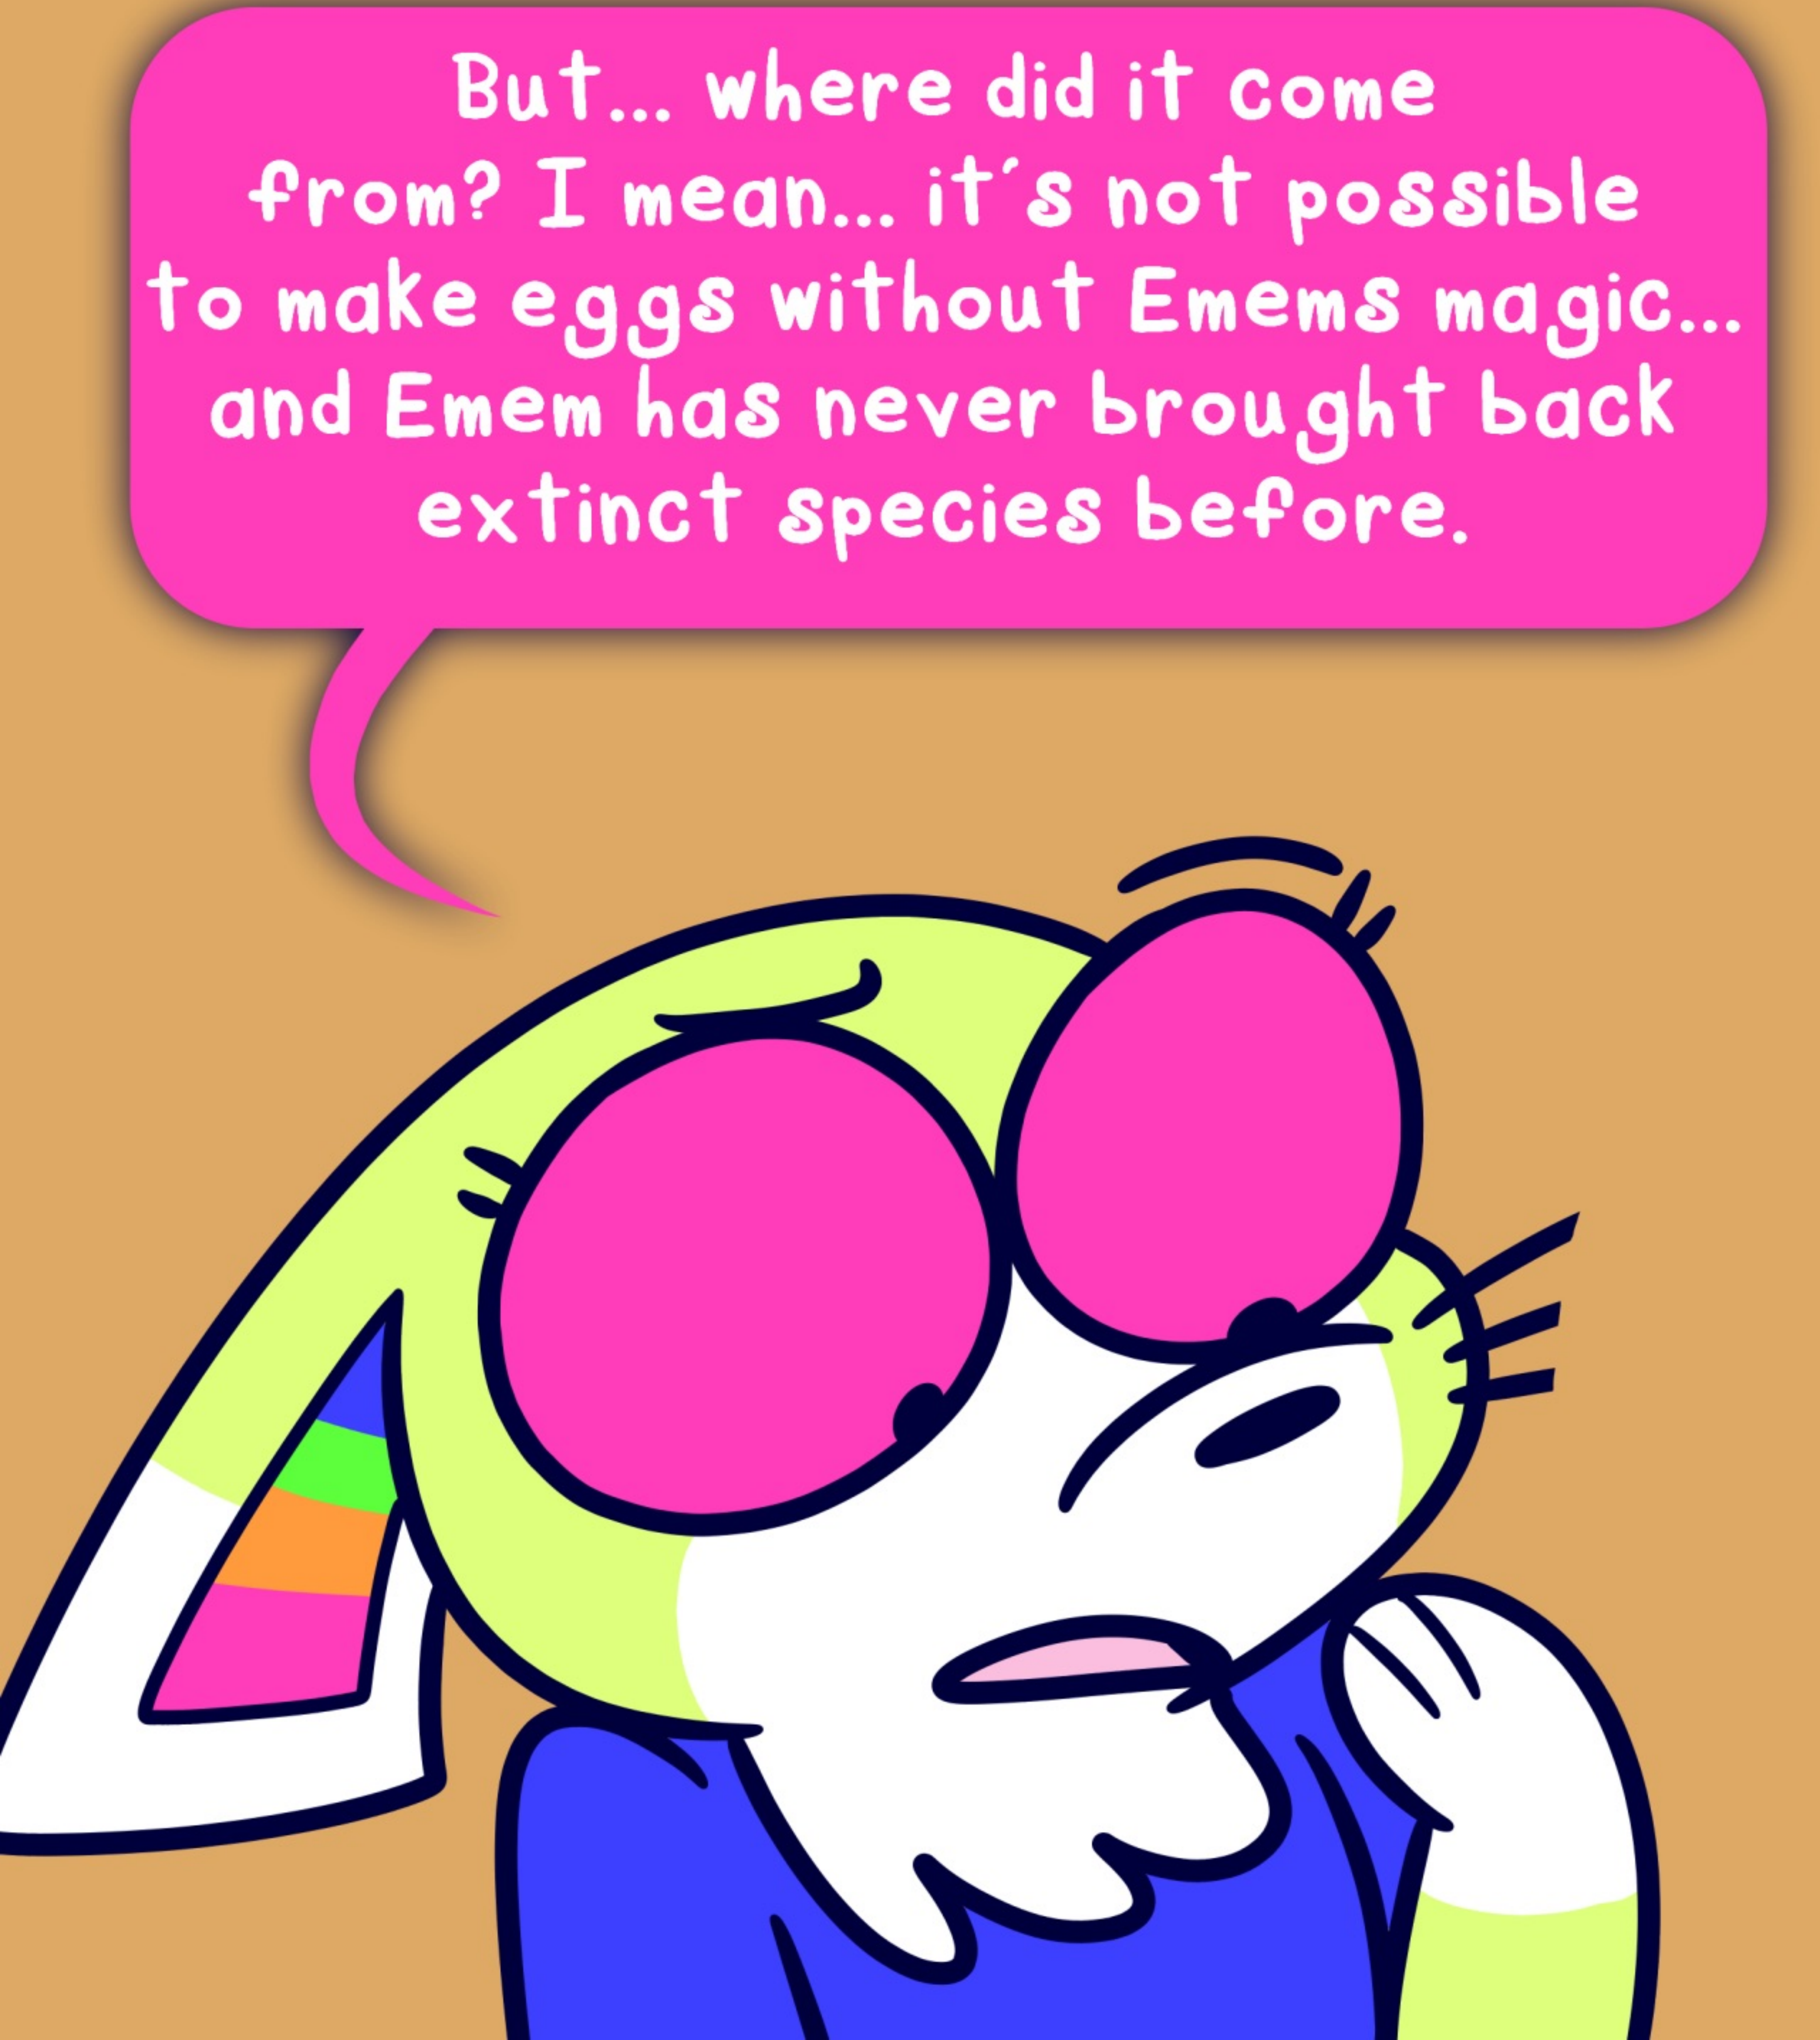
nemphyss asked:

Honestly, it kind of reminds me of a dinerry egg, with the patterns n stuff

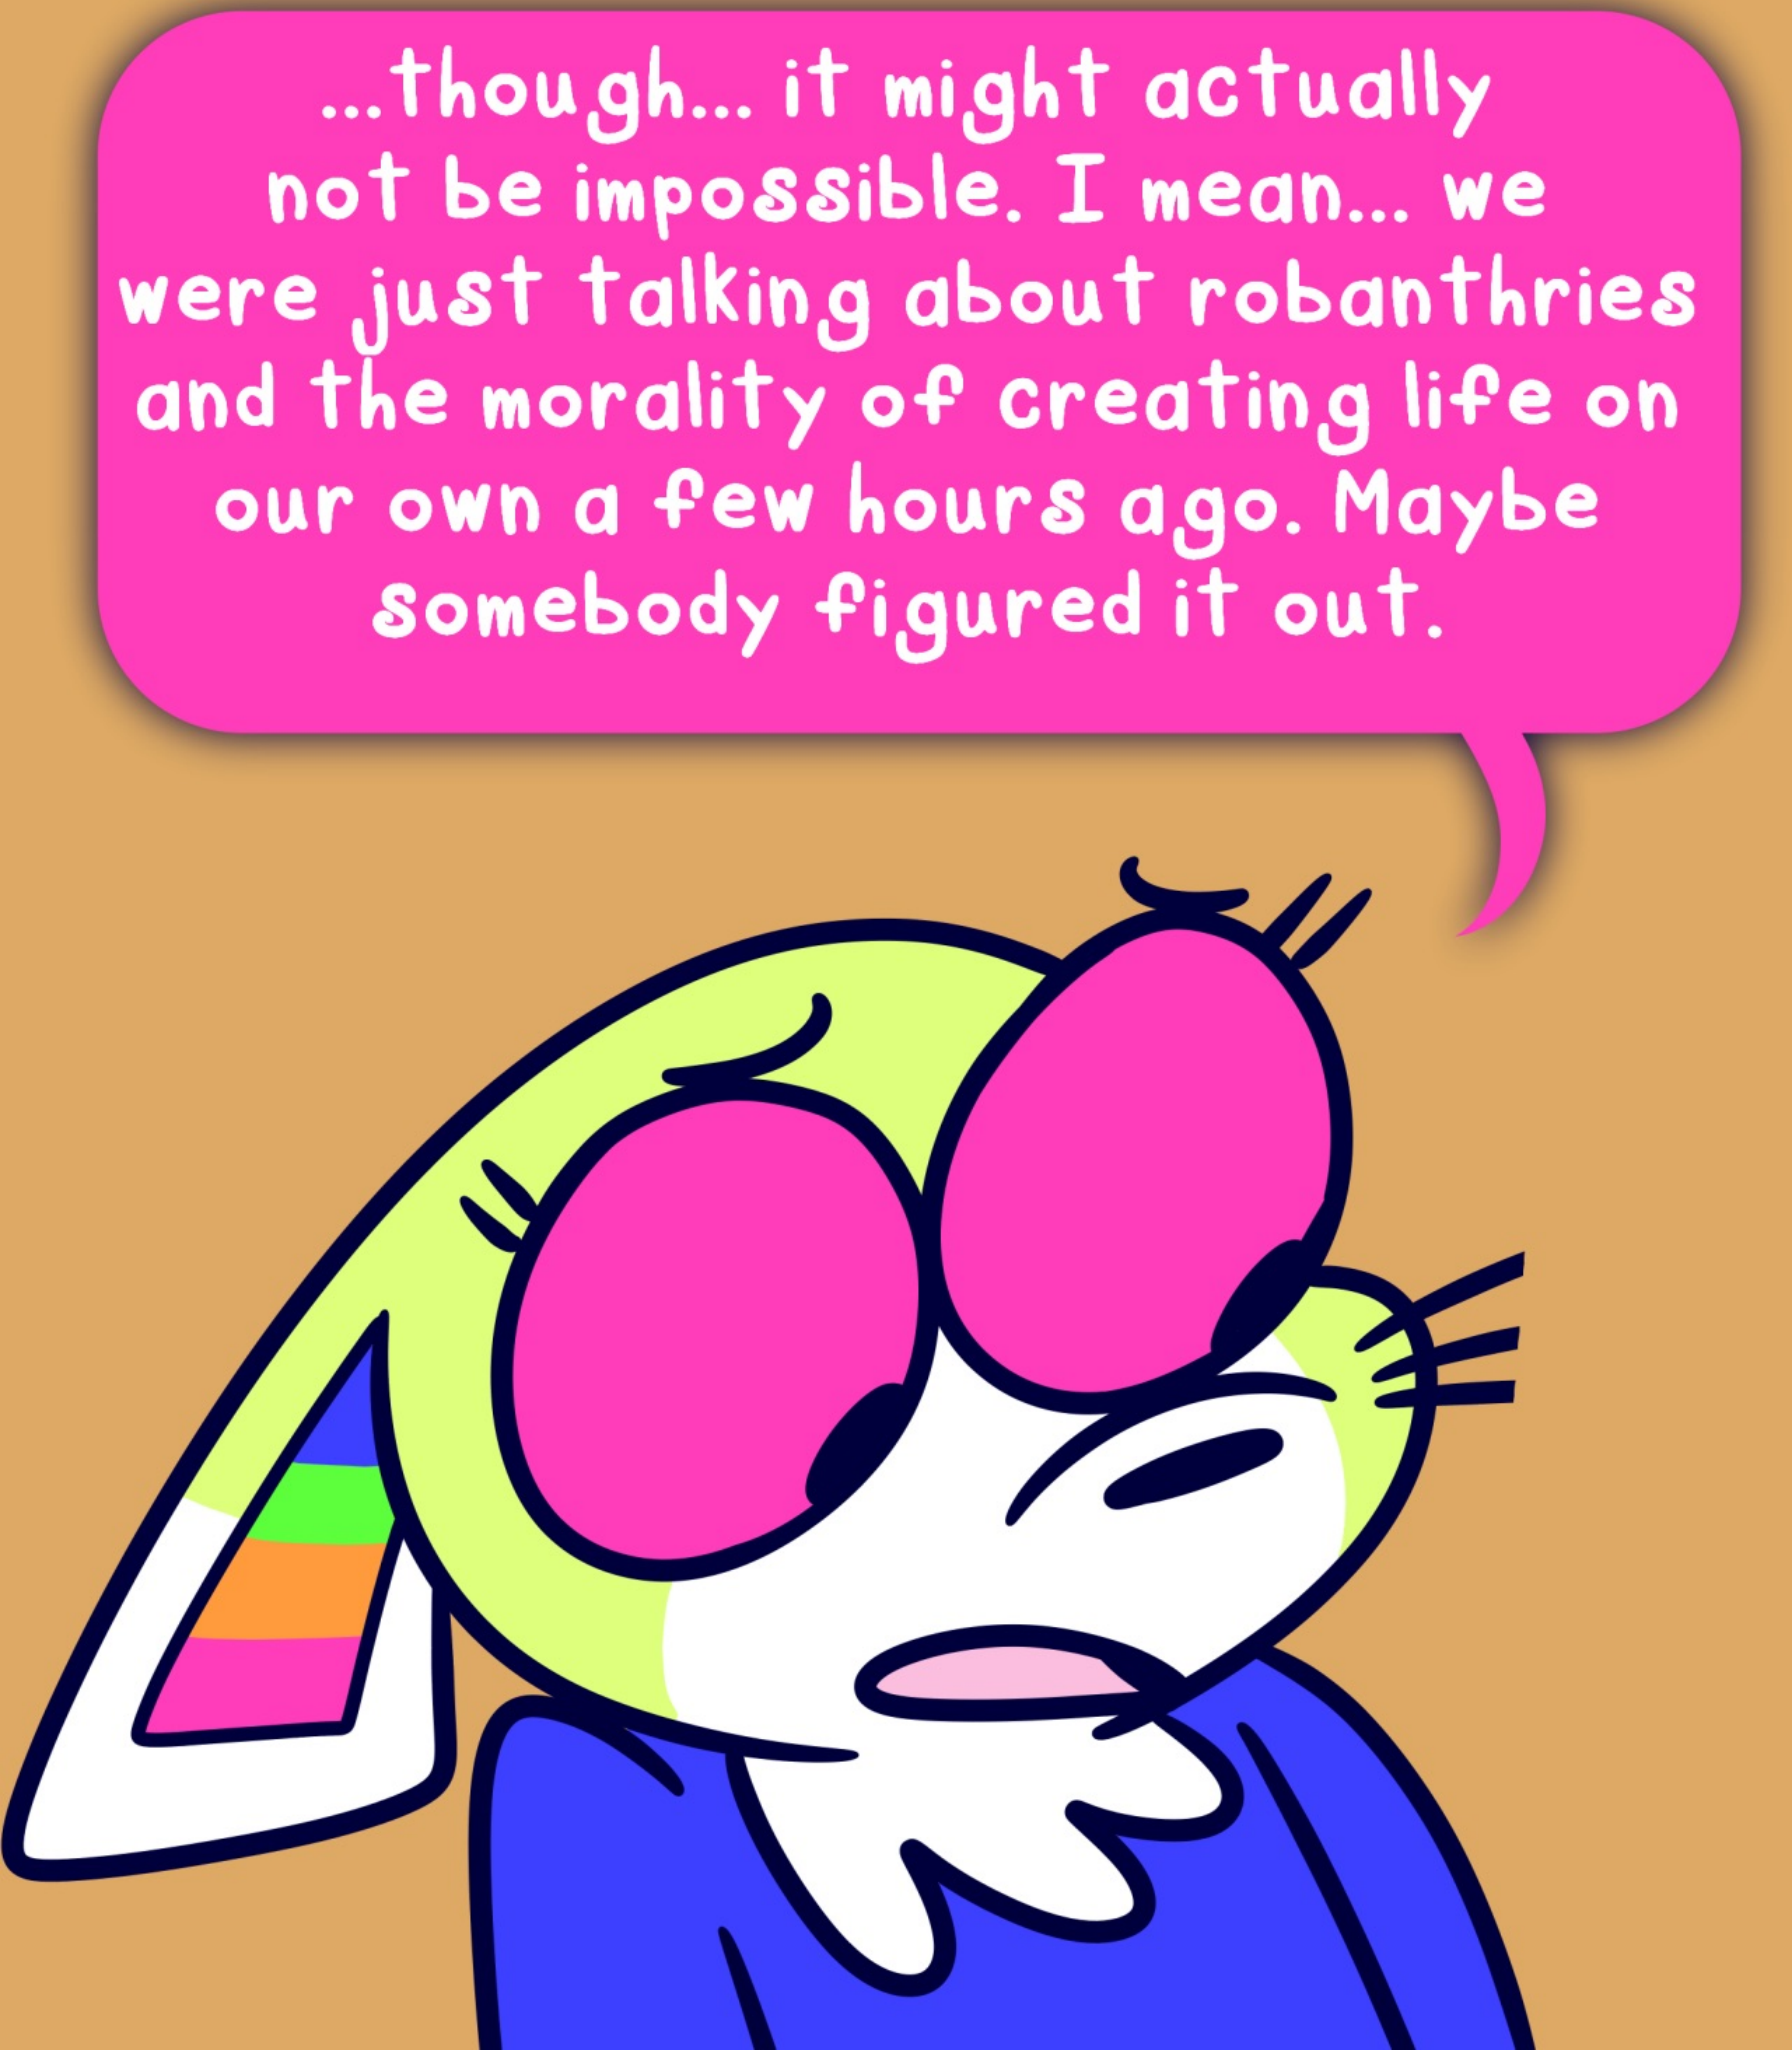




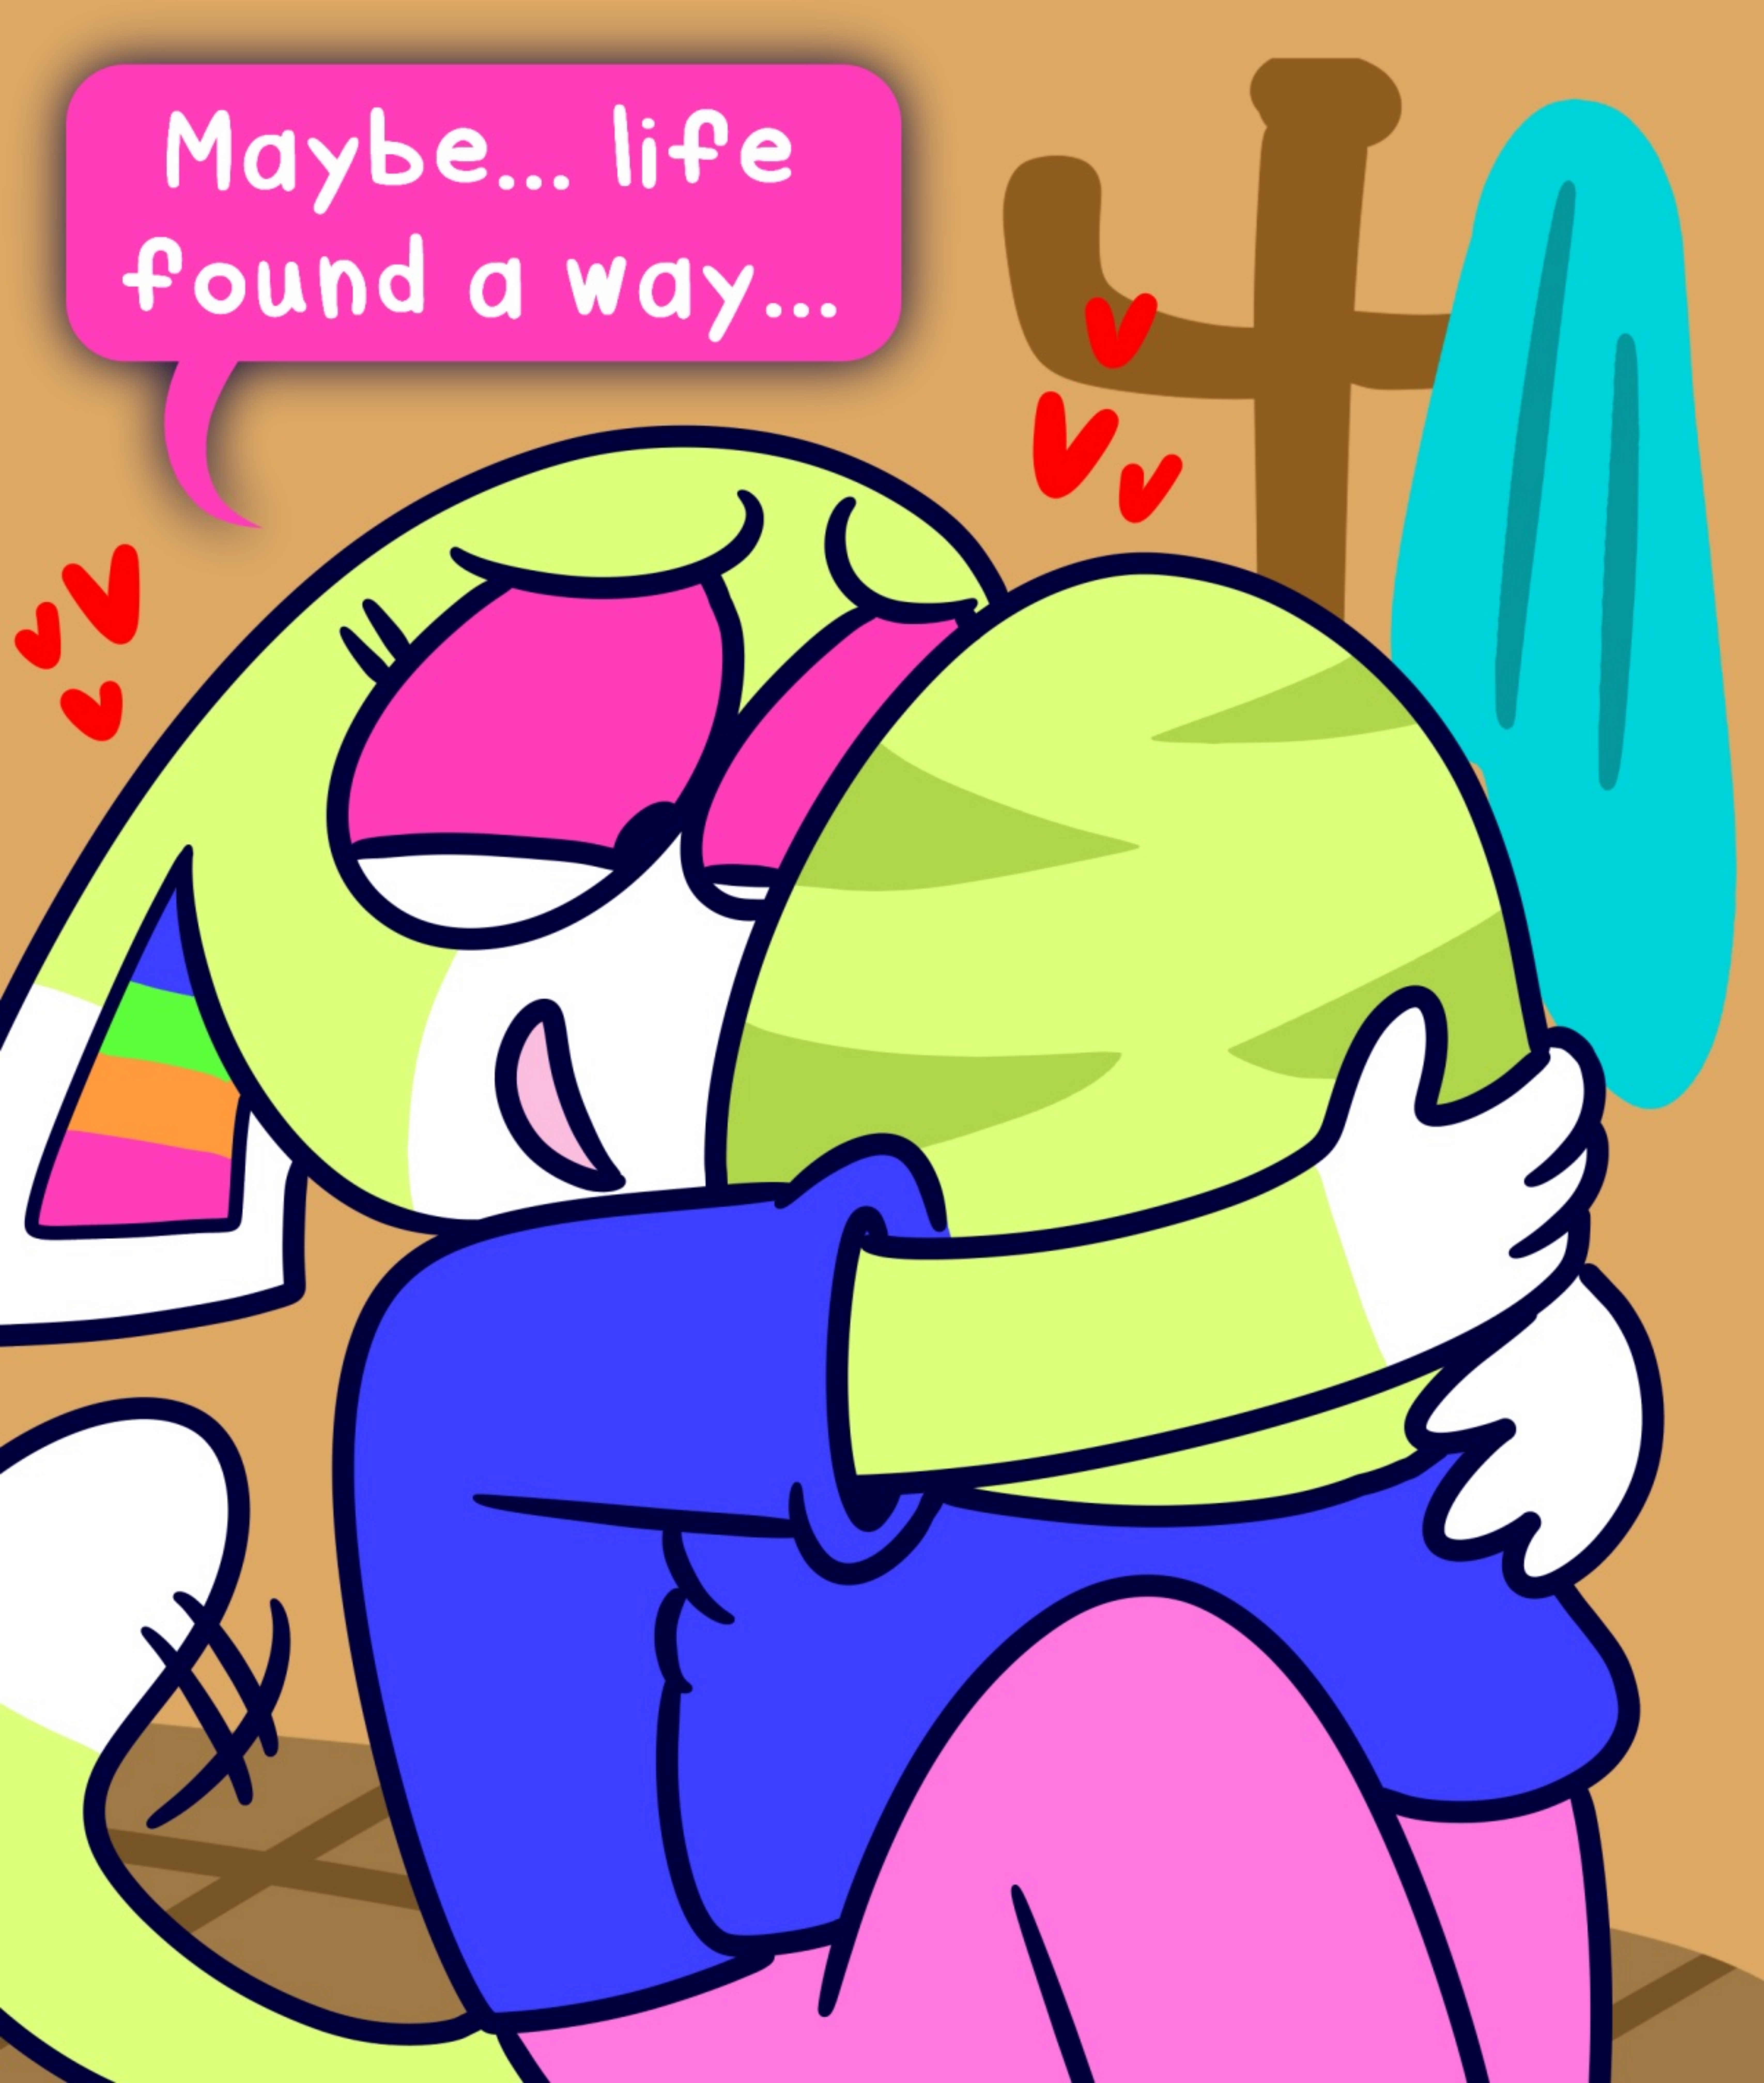
A... dinerry egg? Like... a REAL one...? Is that even possible...?



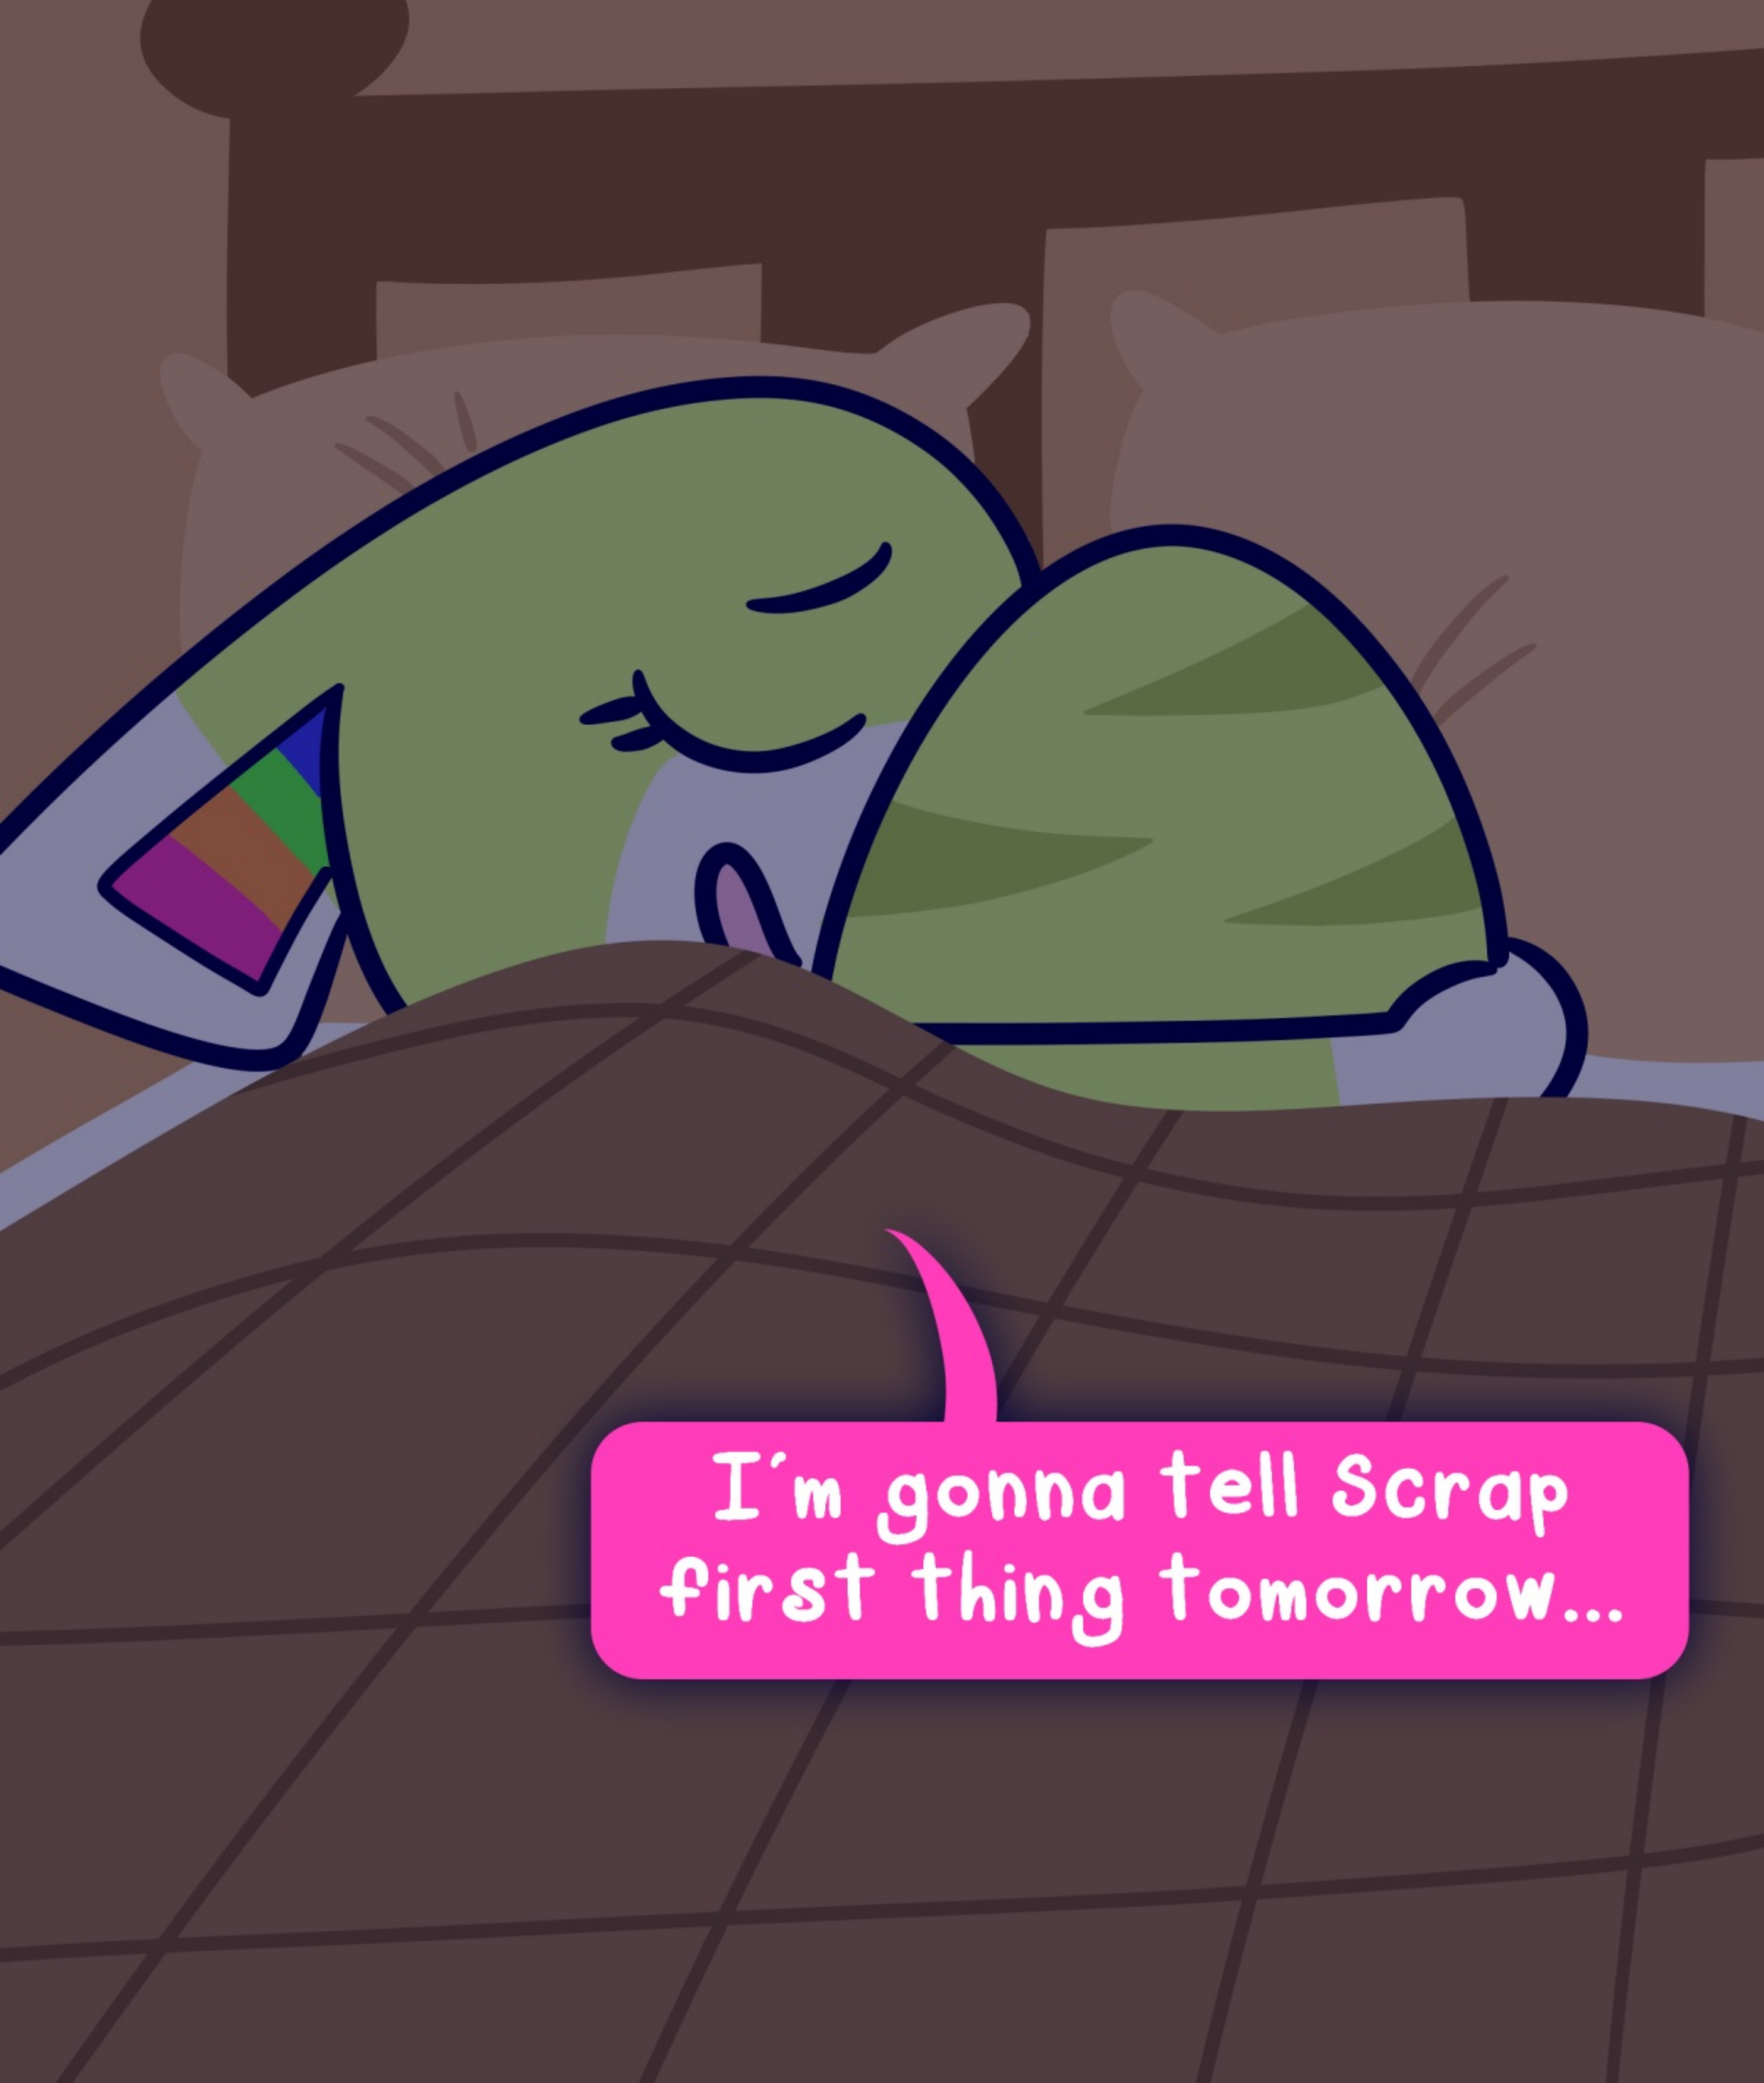
But... where did it come from? I mean... it´s not possible to make eggs without Emems magic... and Emem has never brought back extinct species before.



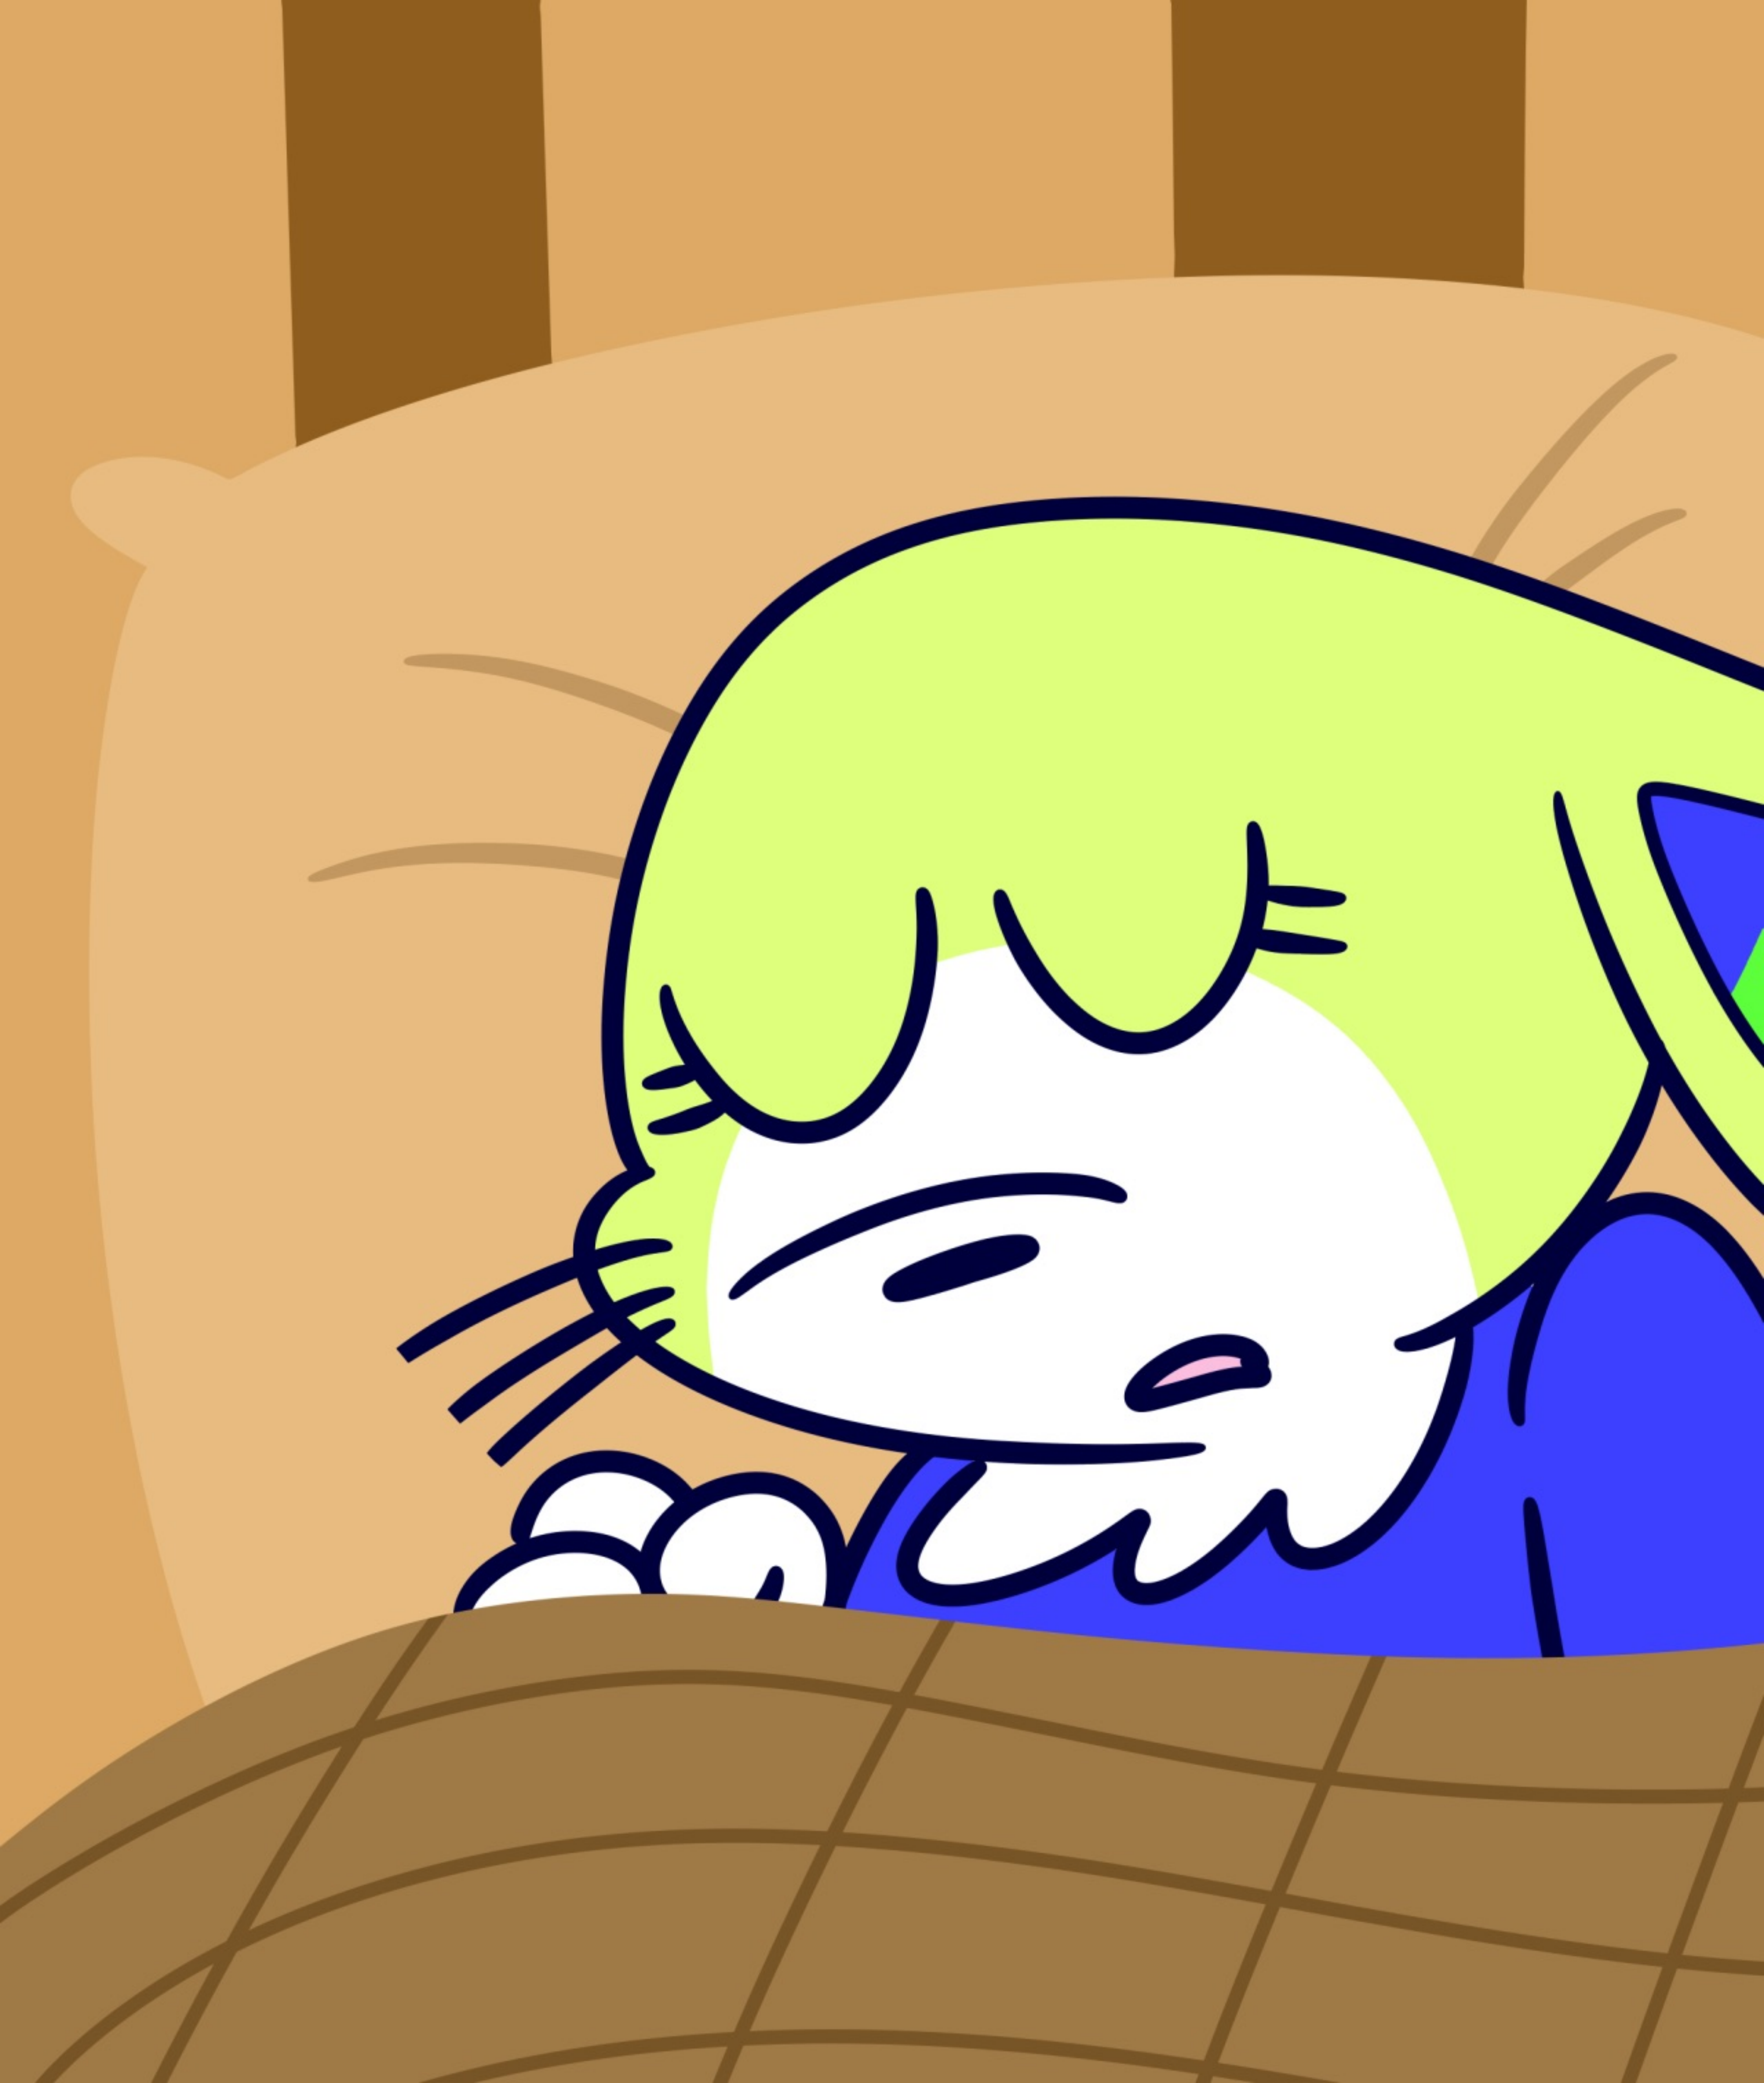
...though... it might actually not be impossible. I mean... we were just talking about robanthries and the morality of creating life on our own a few hours ago. Maybe somebody figured it out.

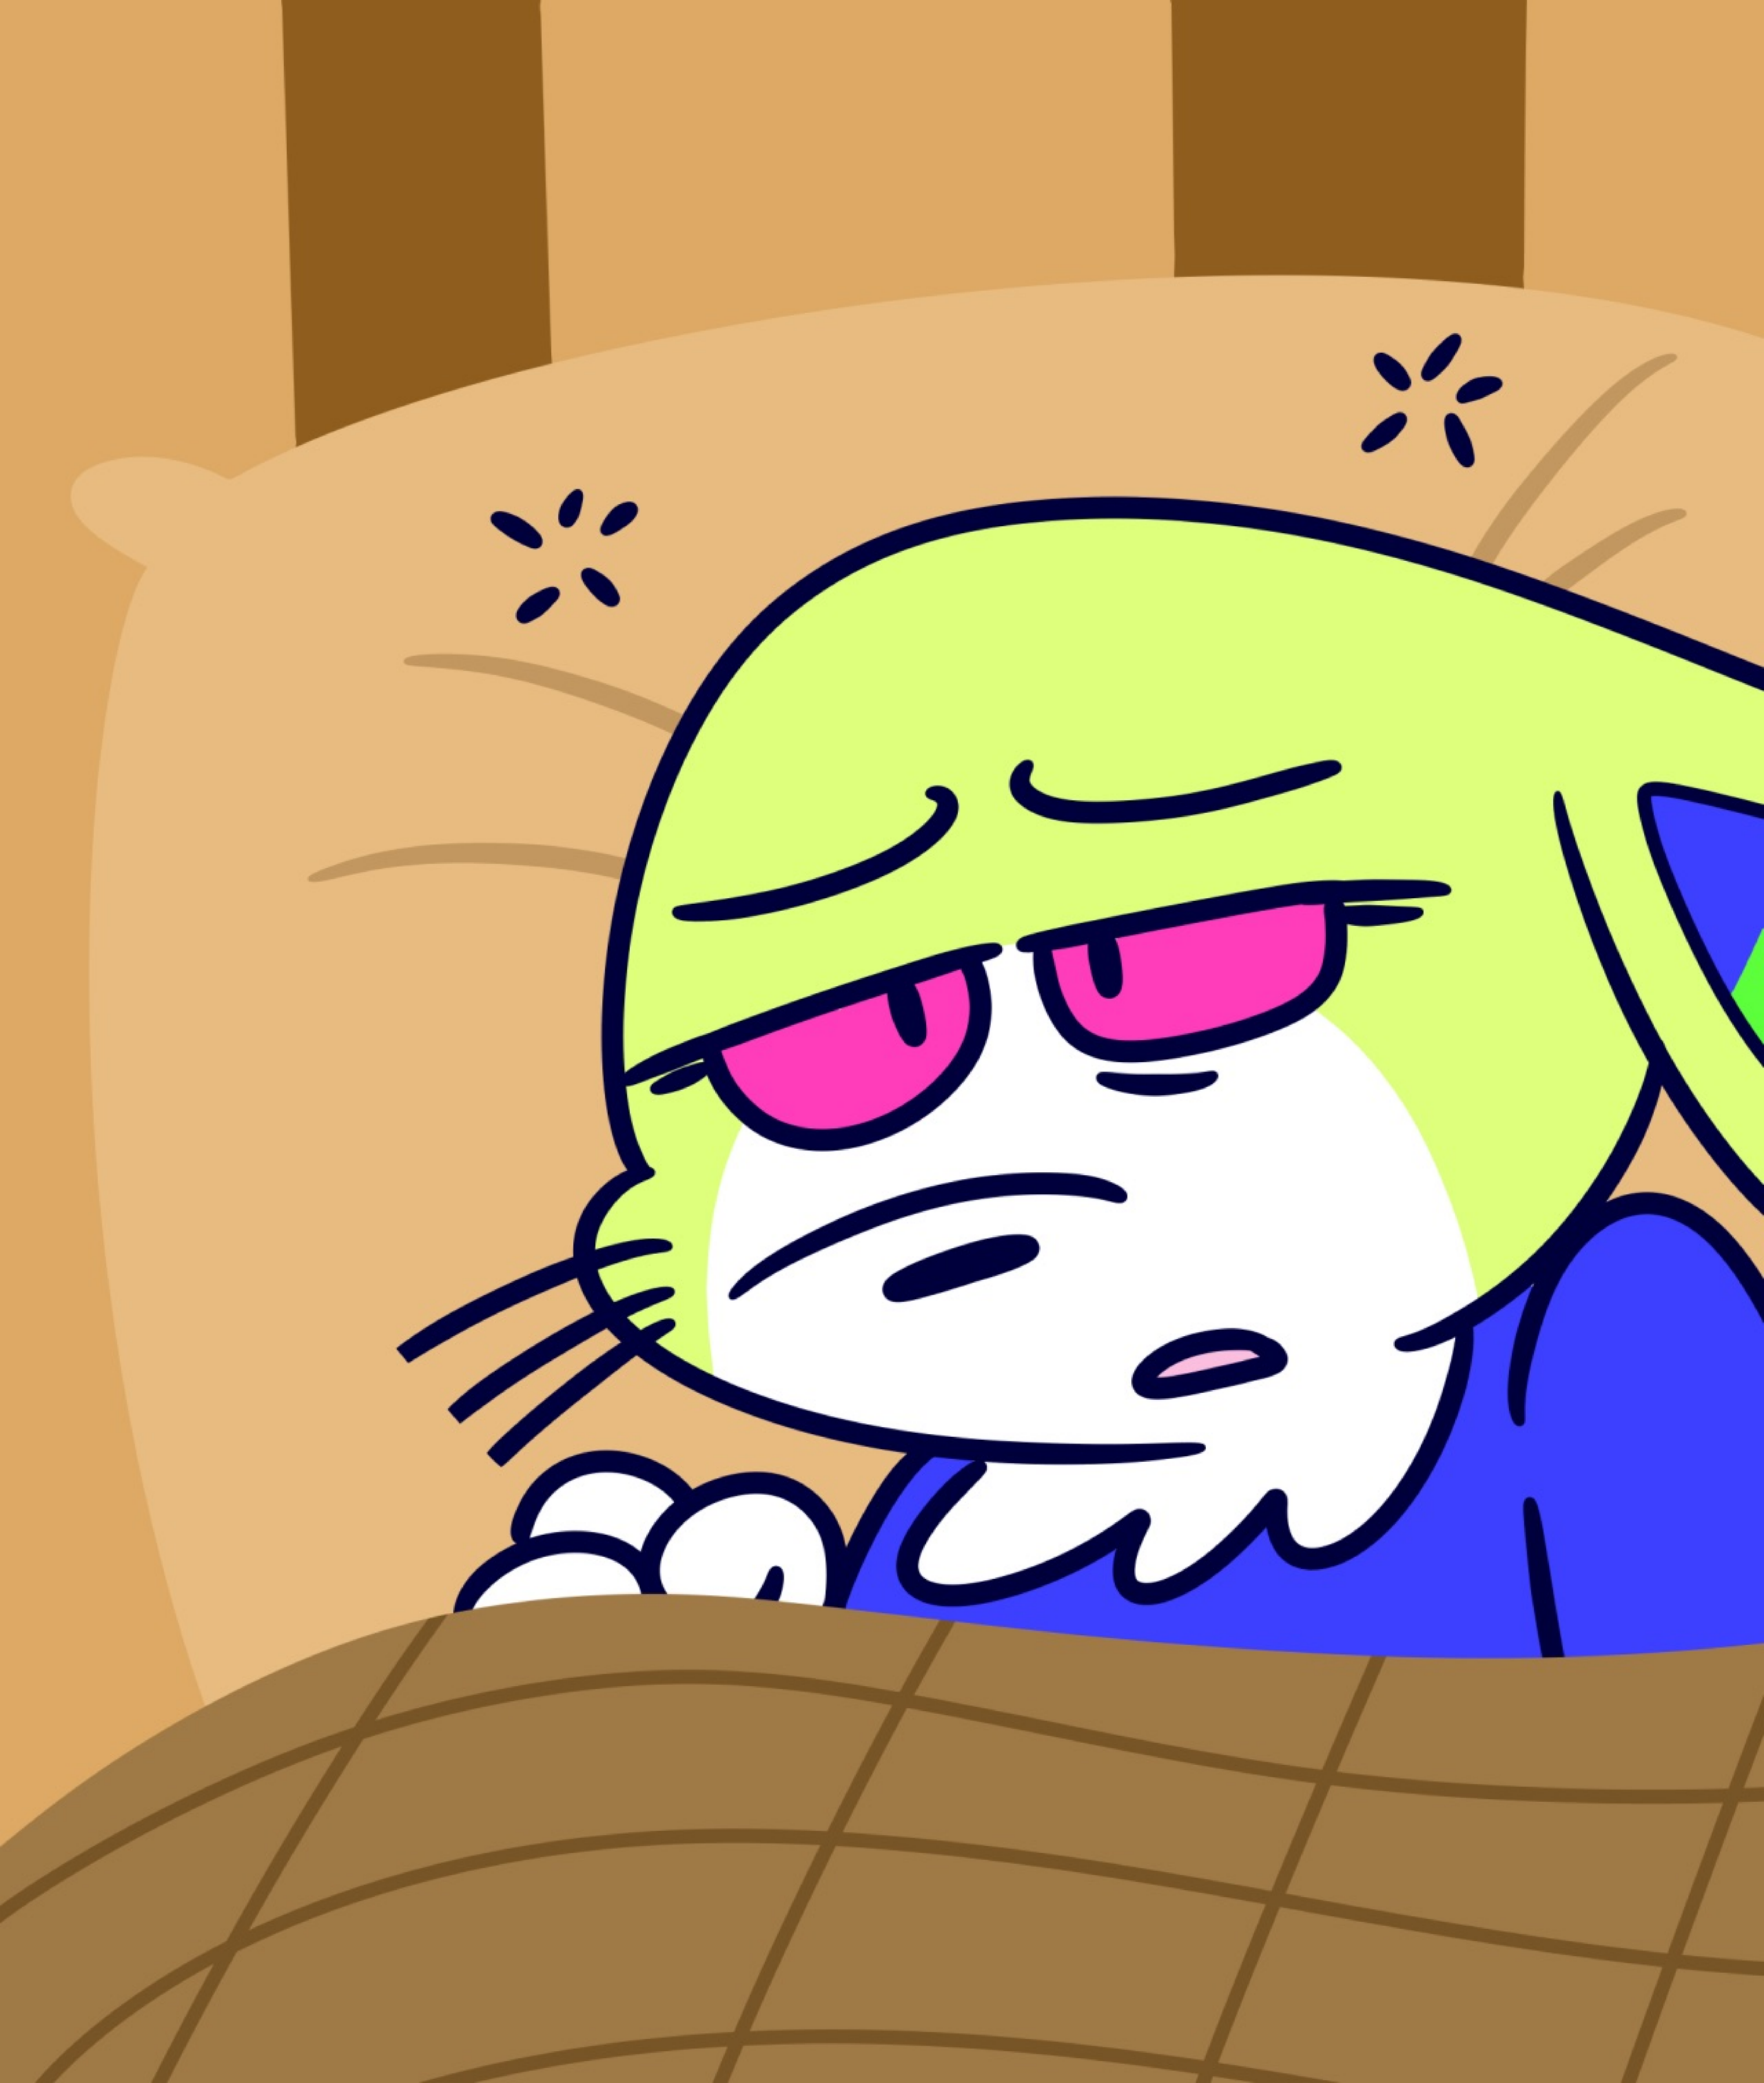


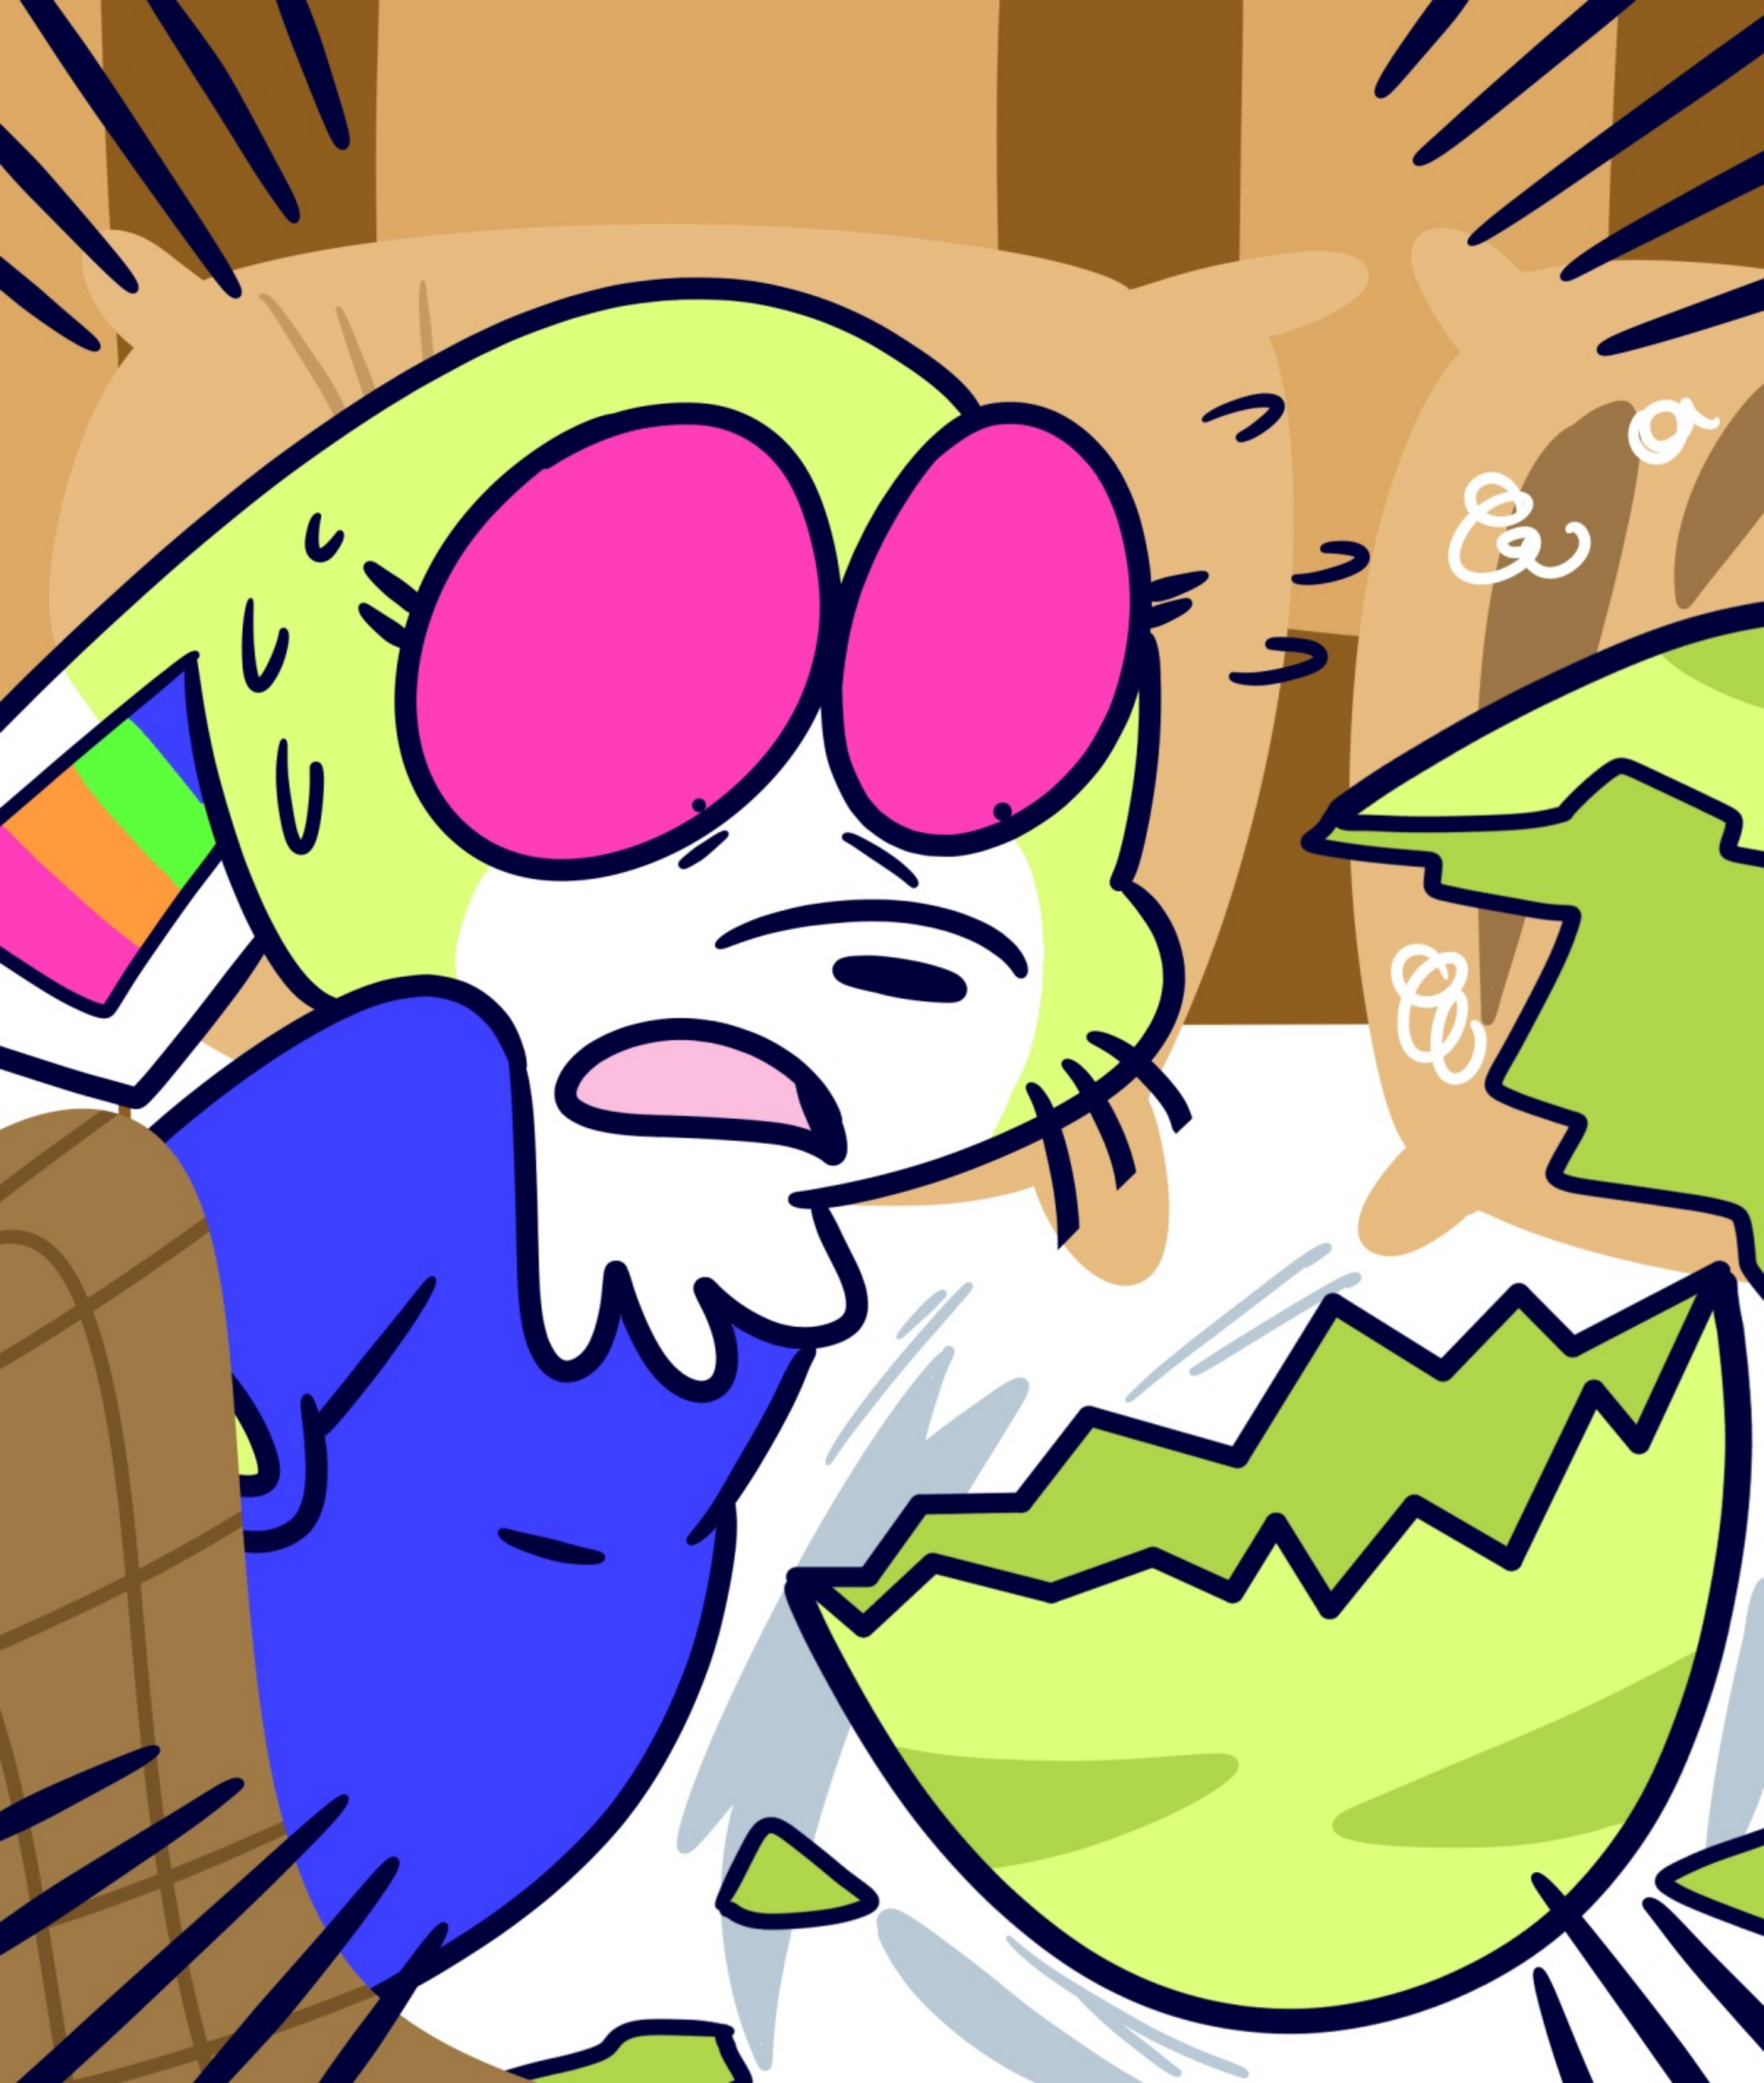
Maybe... life found a way...

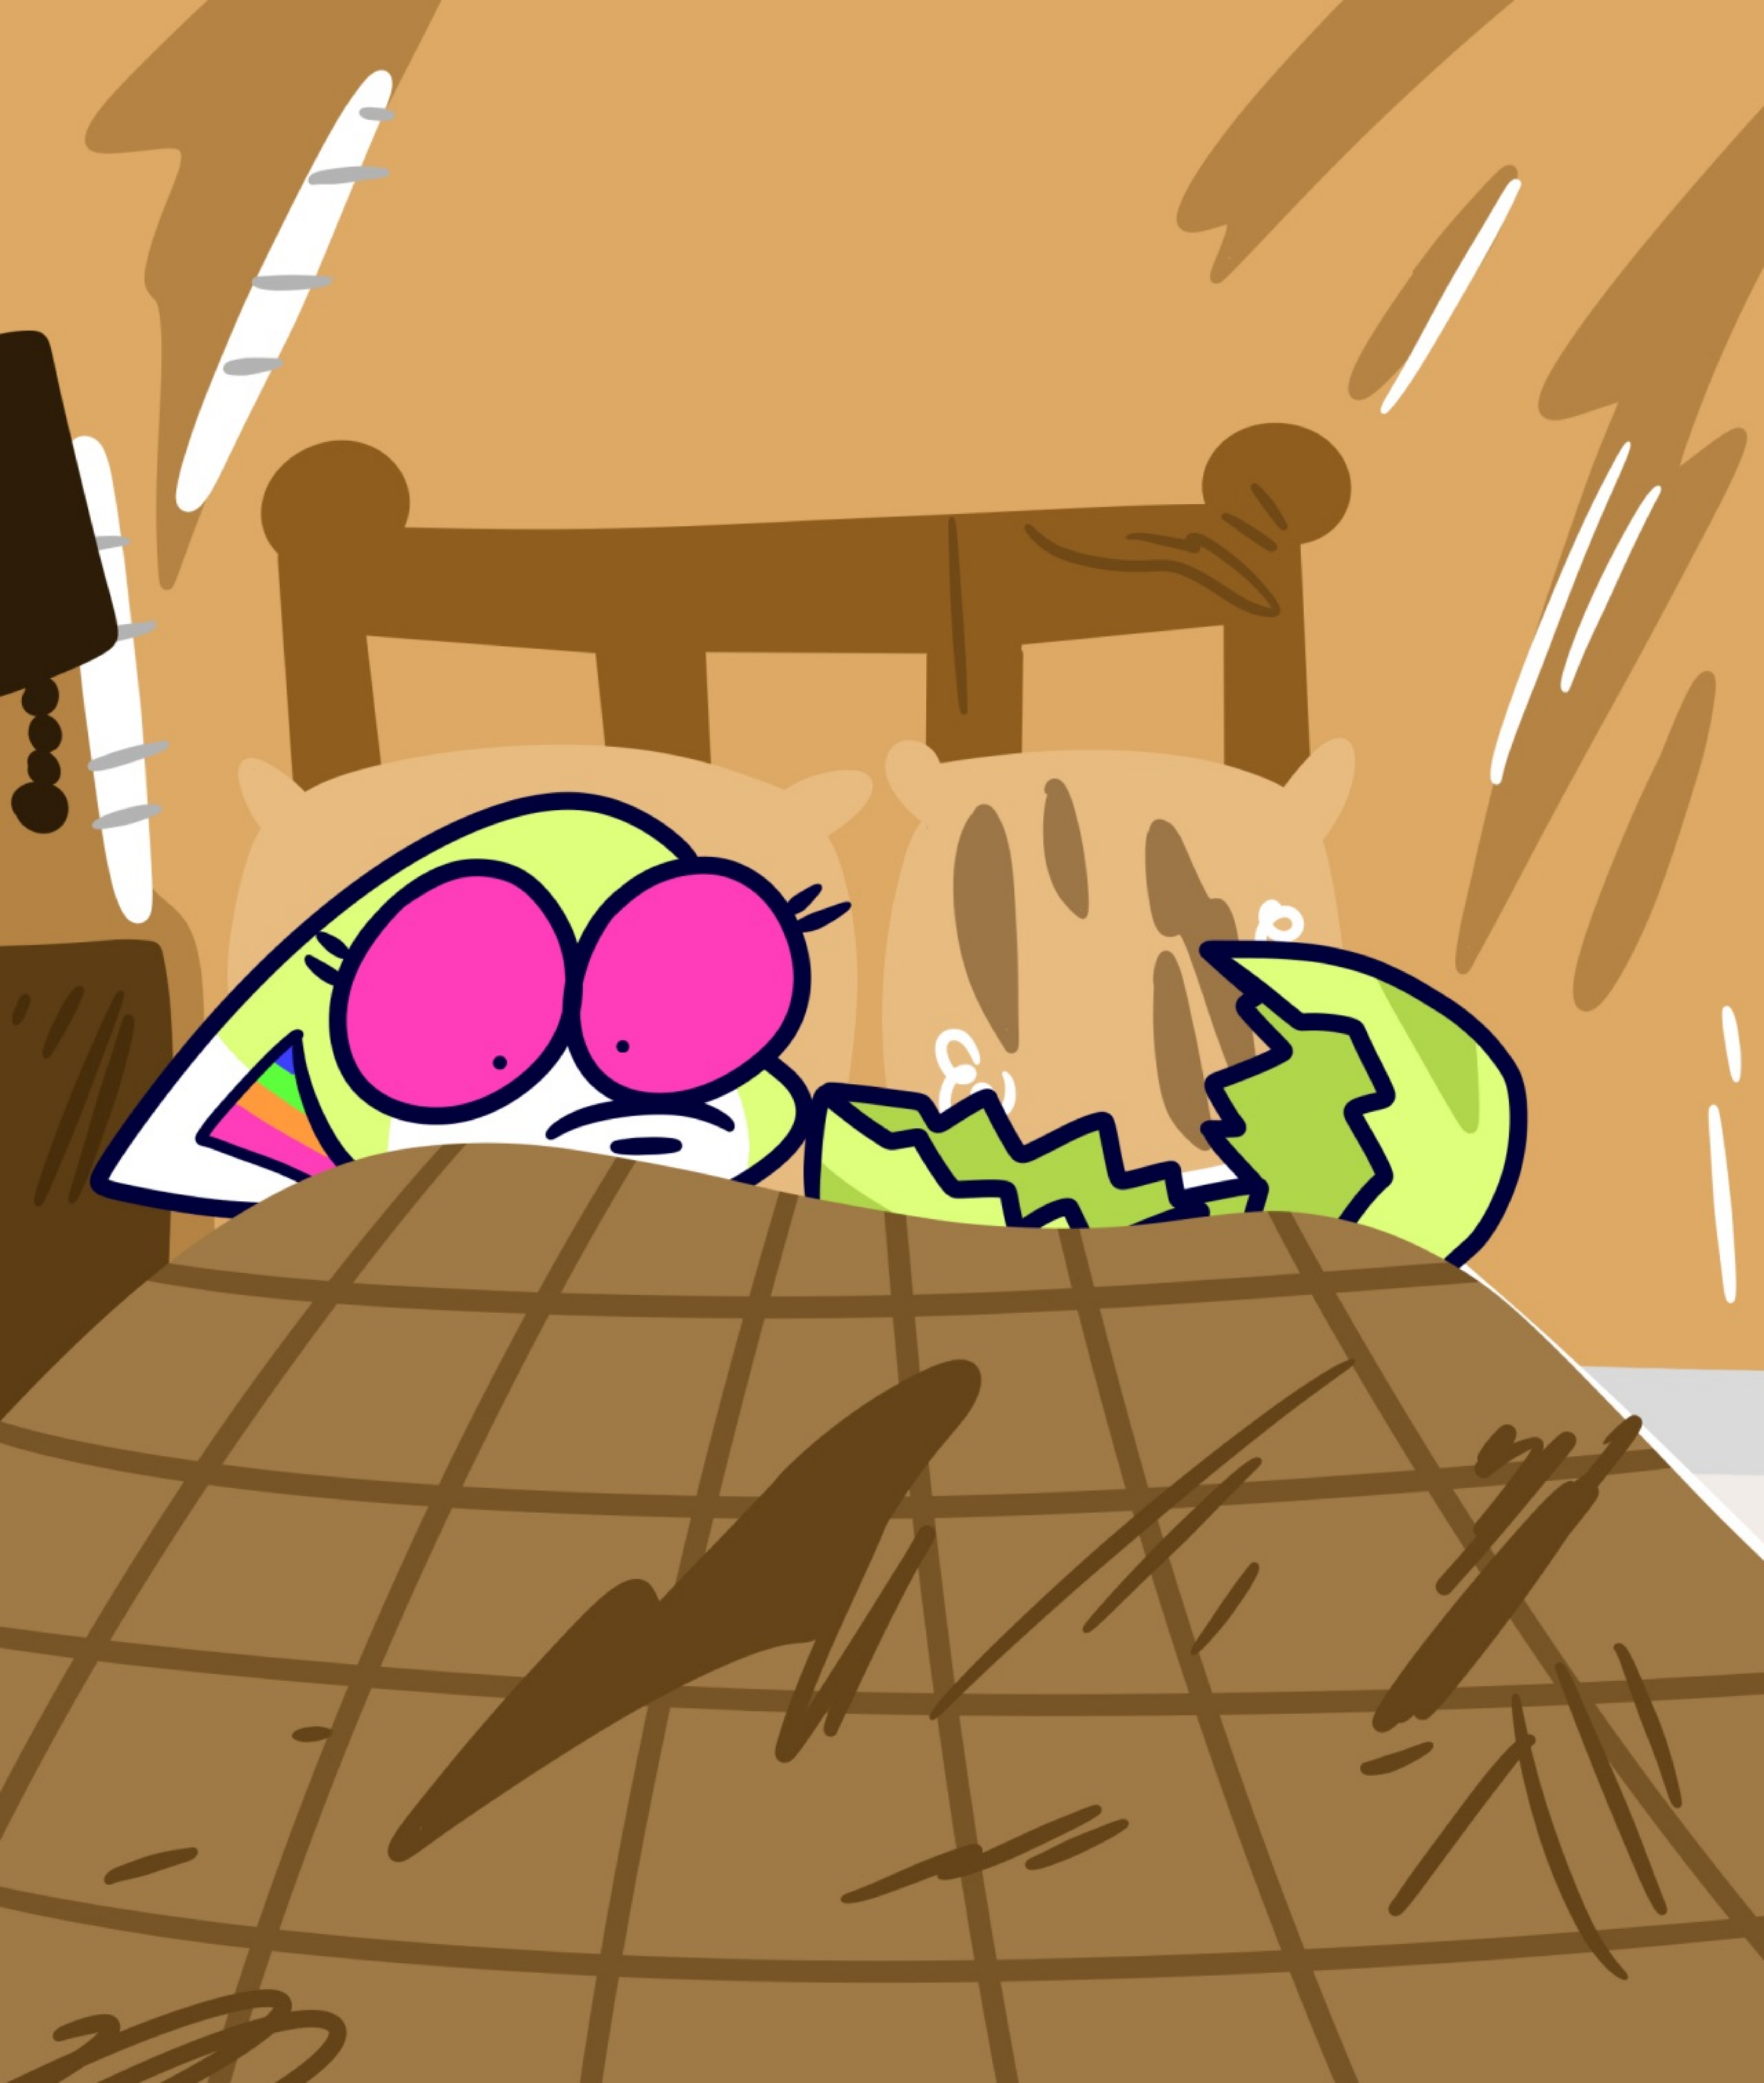


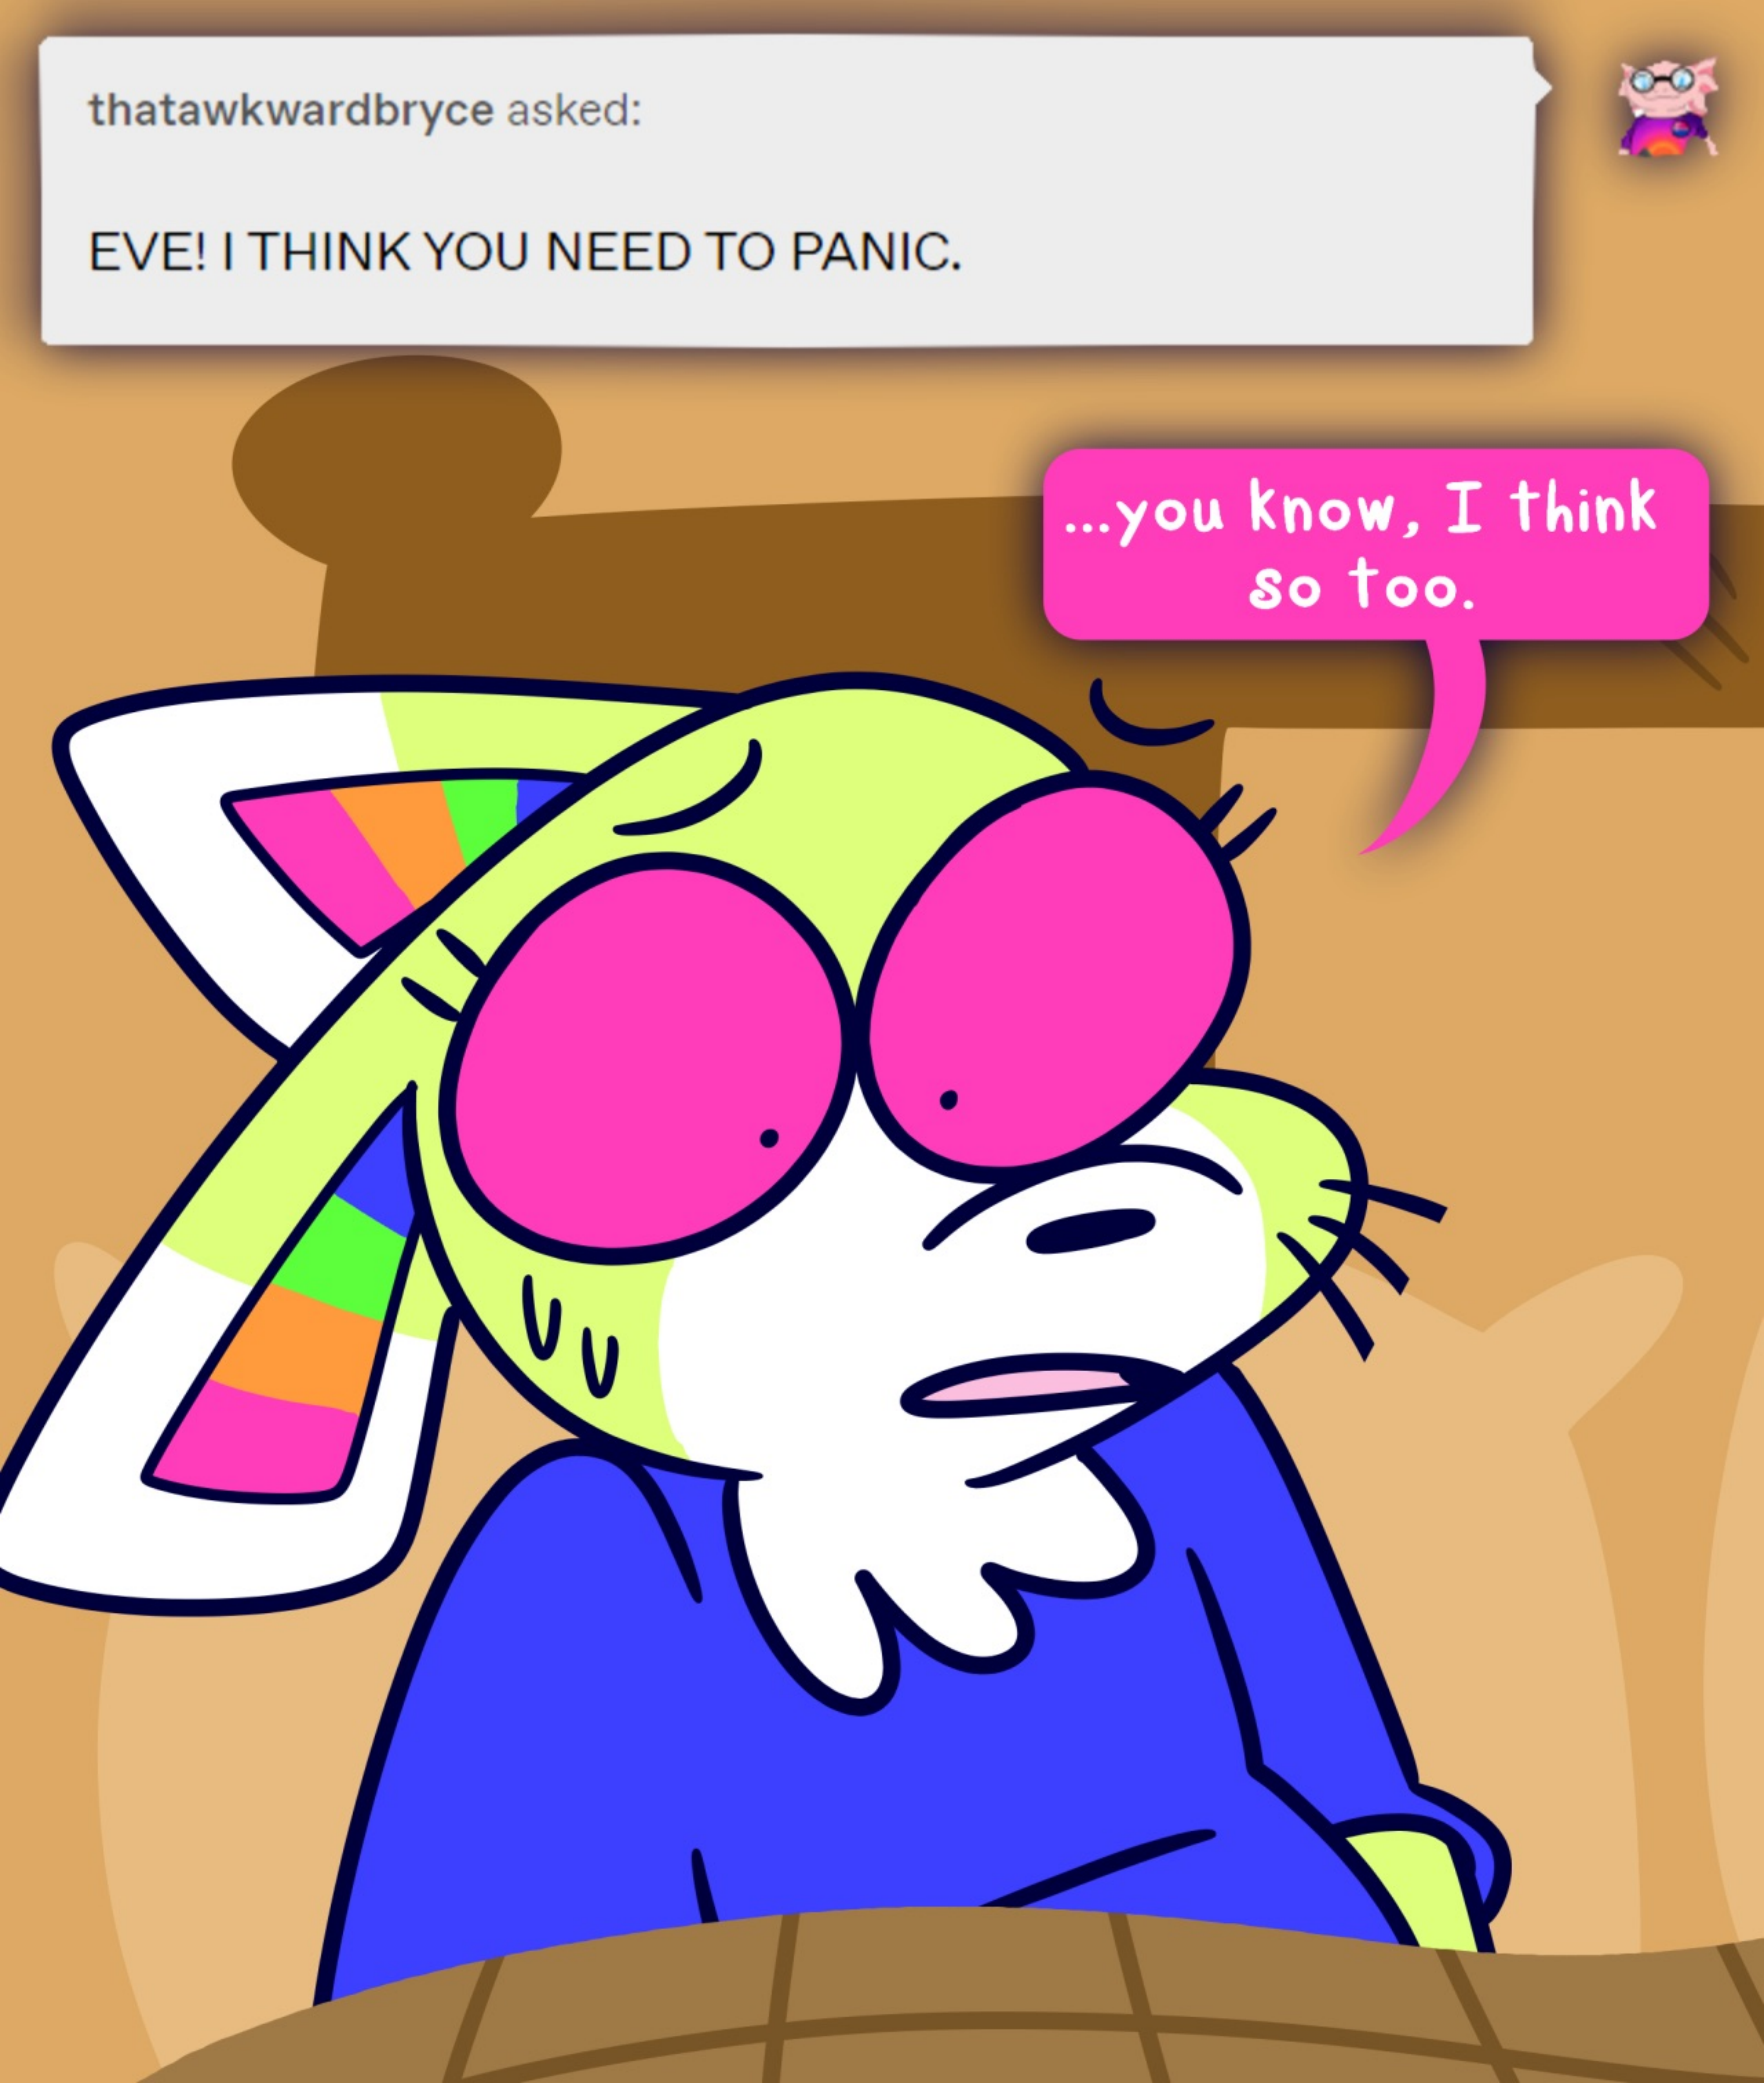
I´m gonna tell Scrap first thing tomorrow...







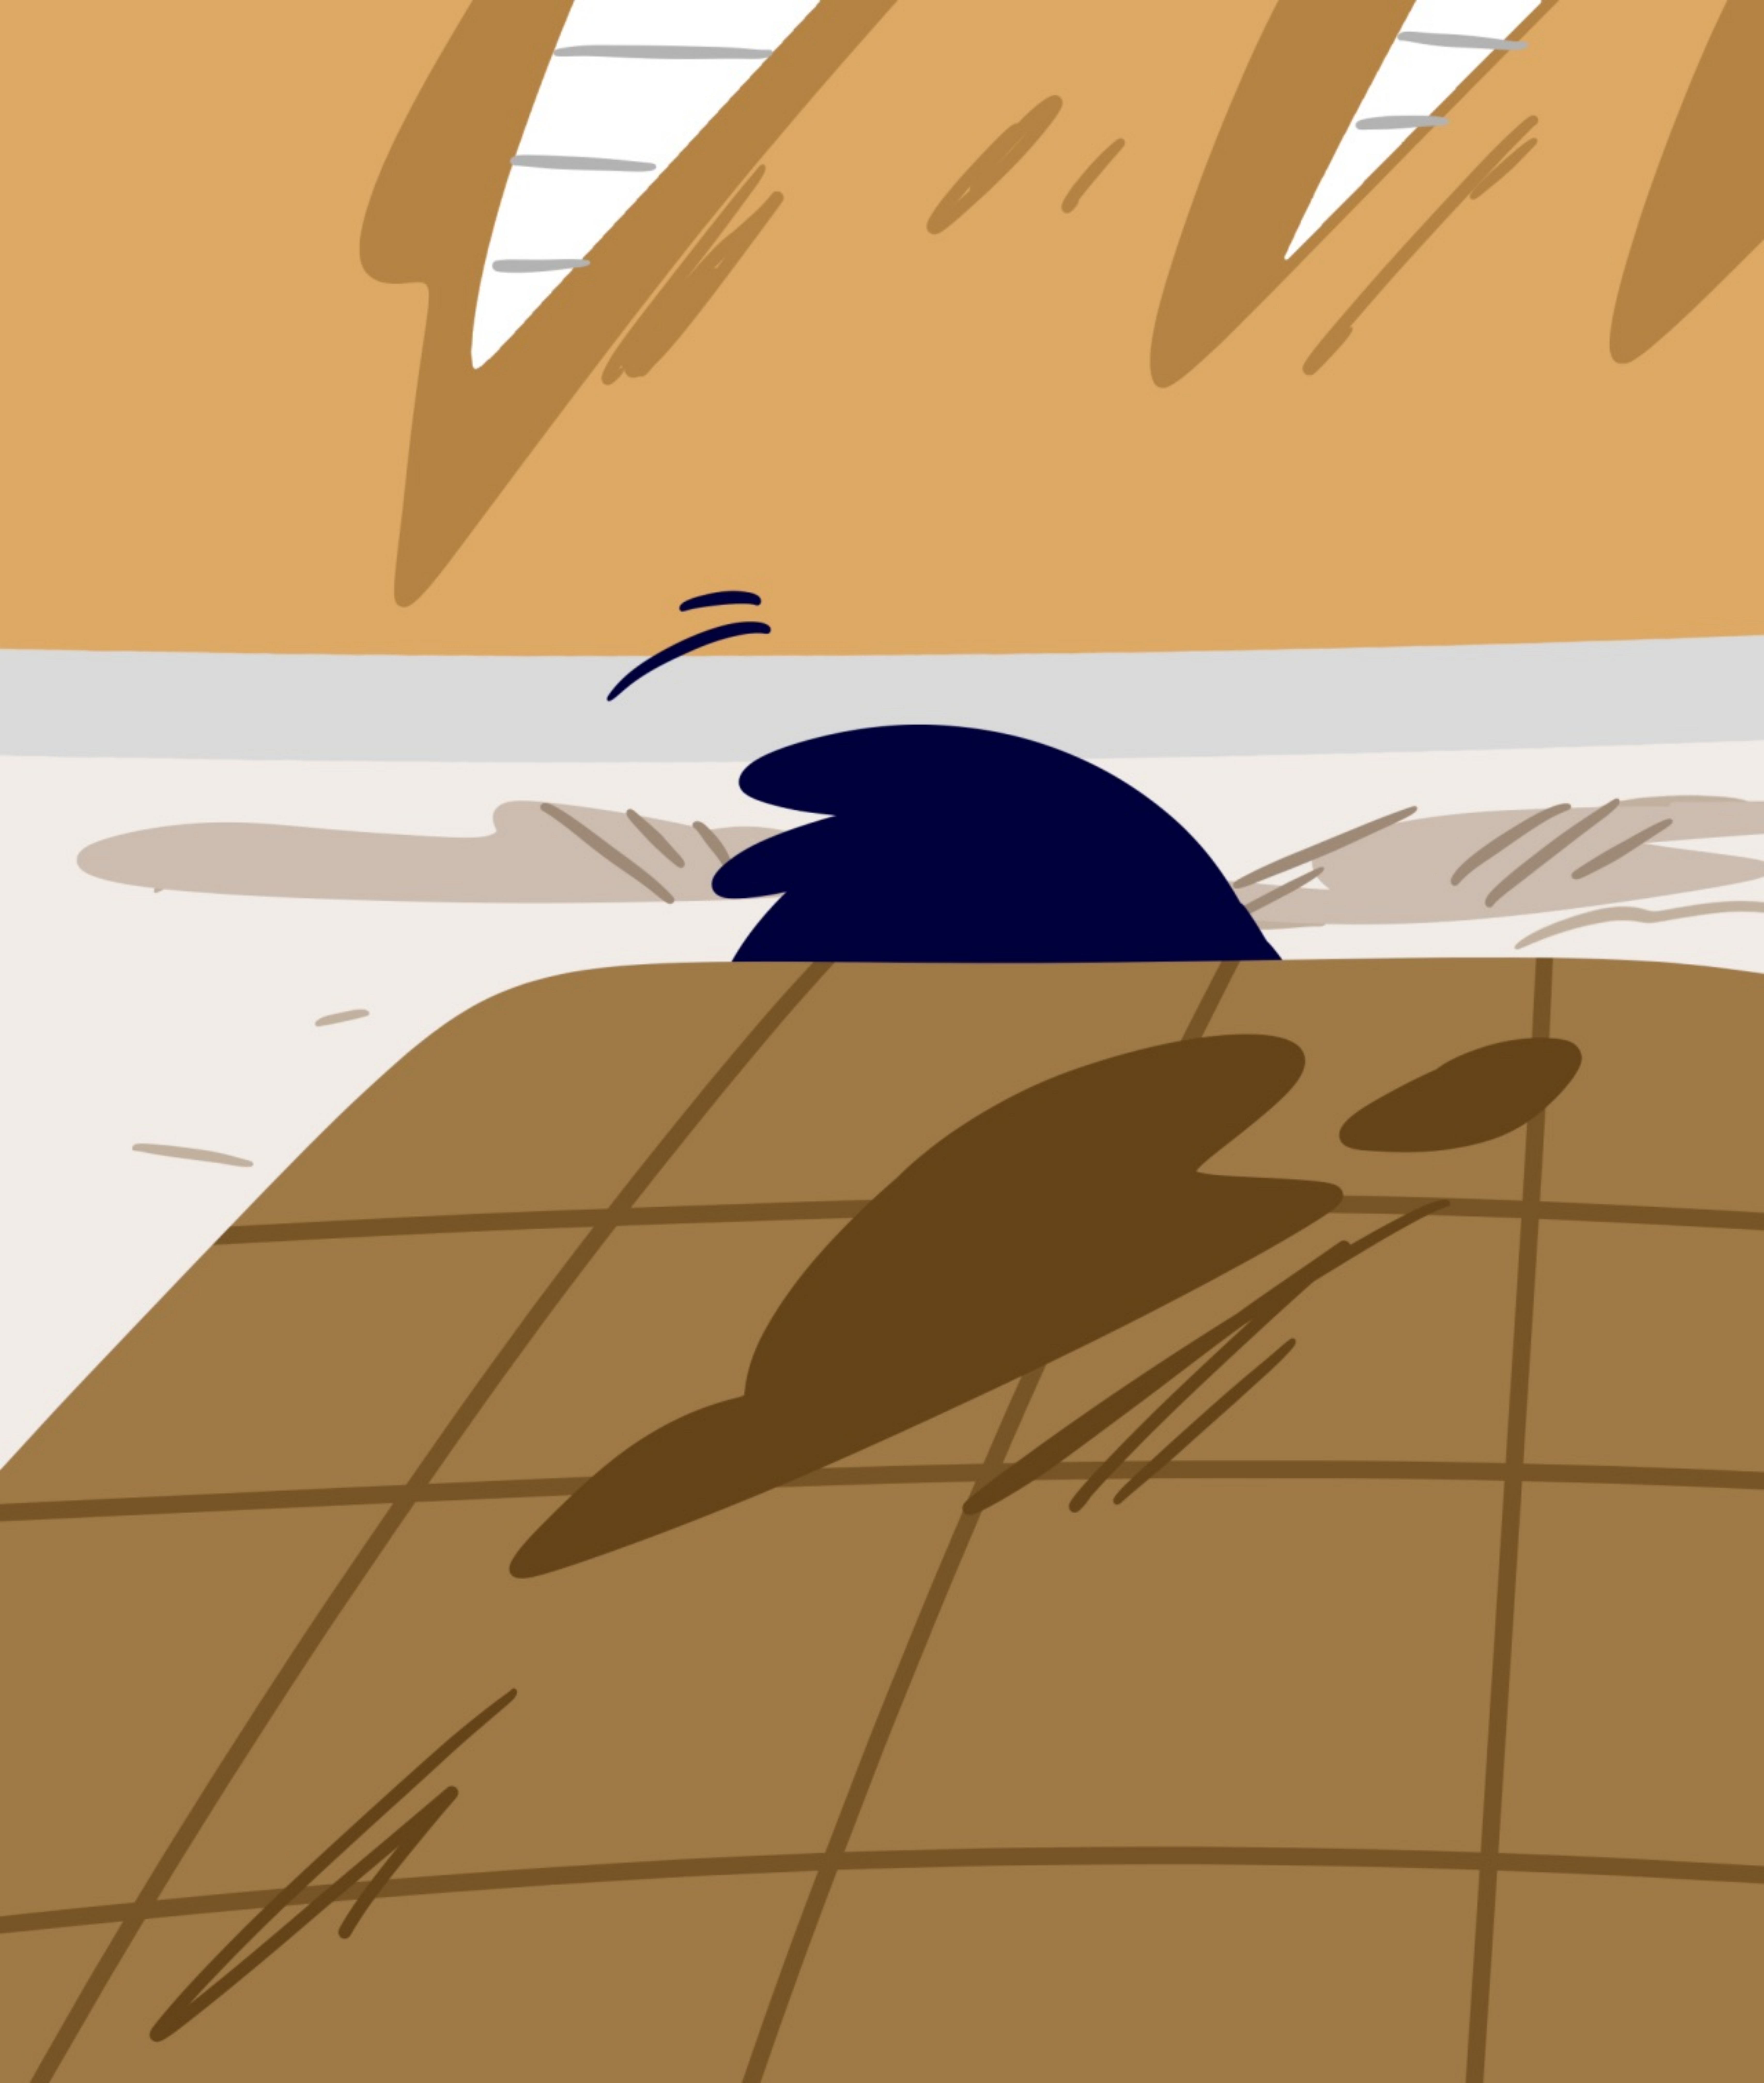


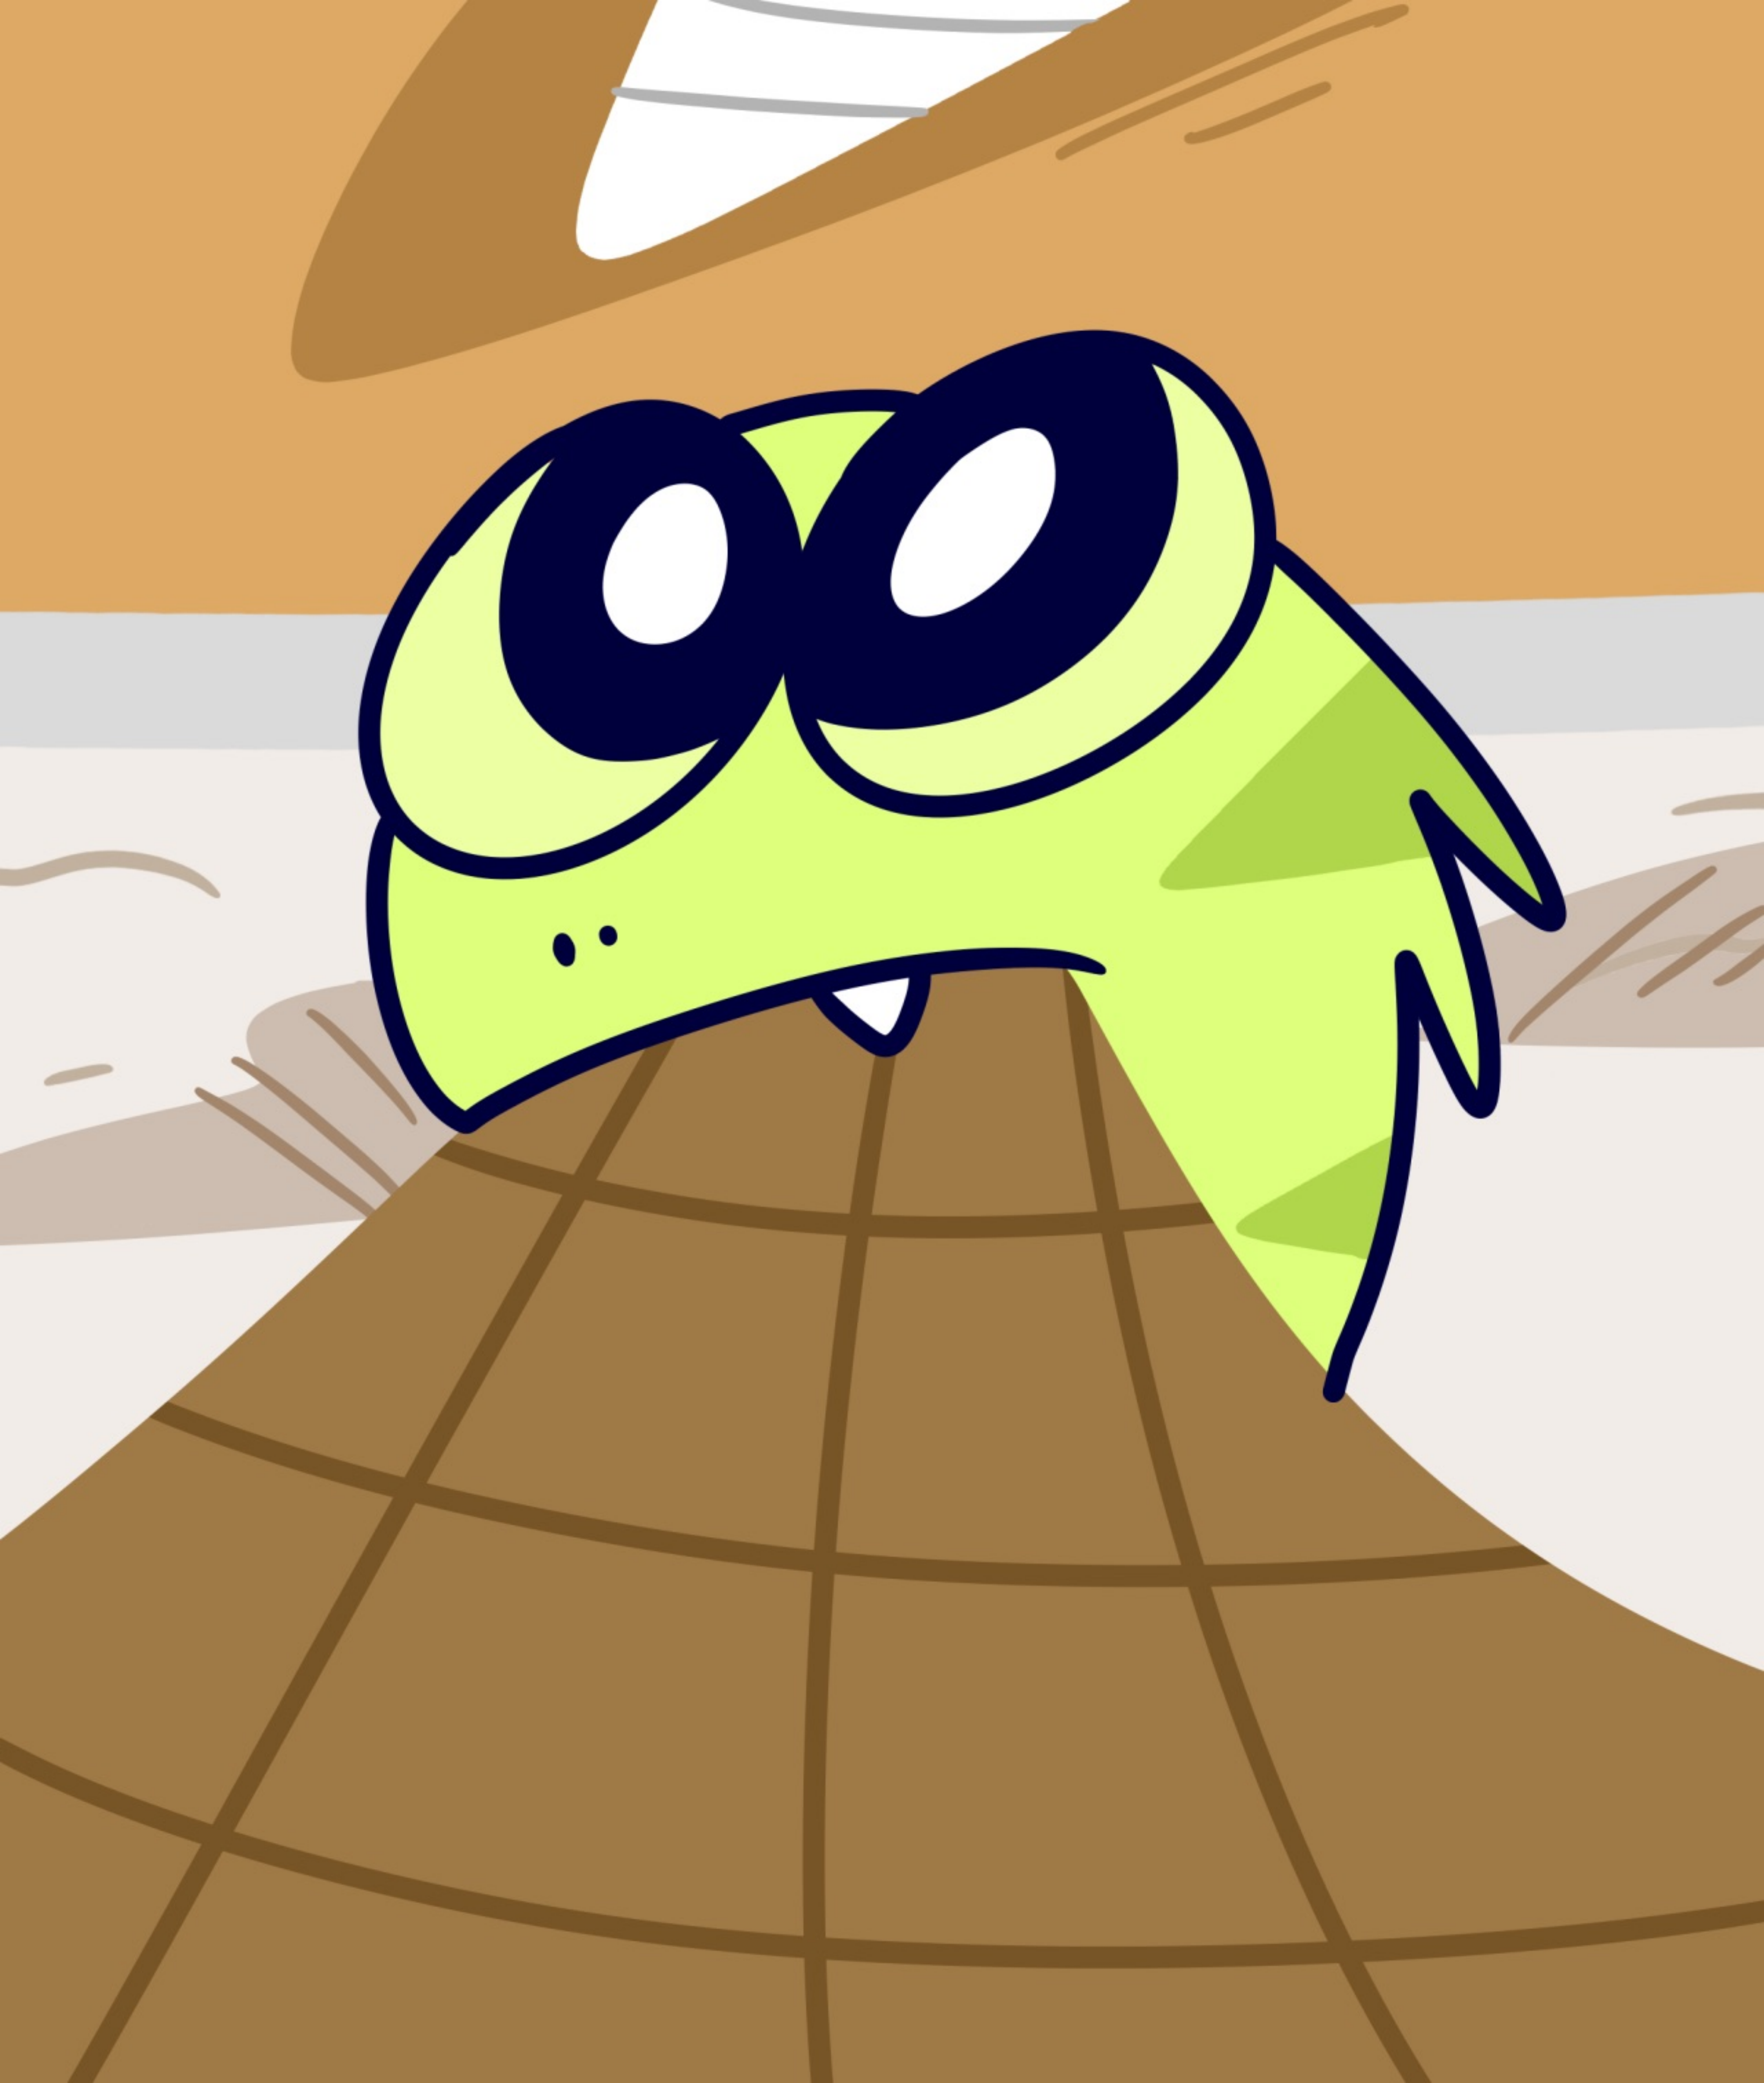


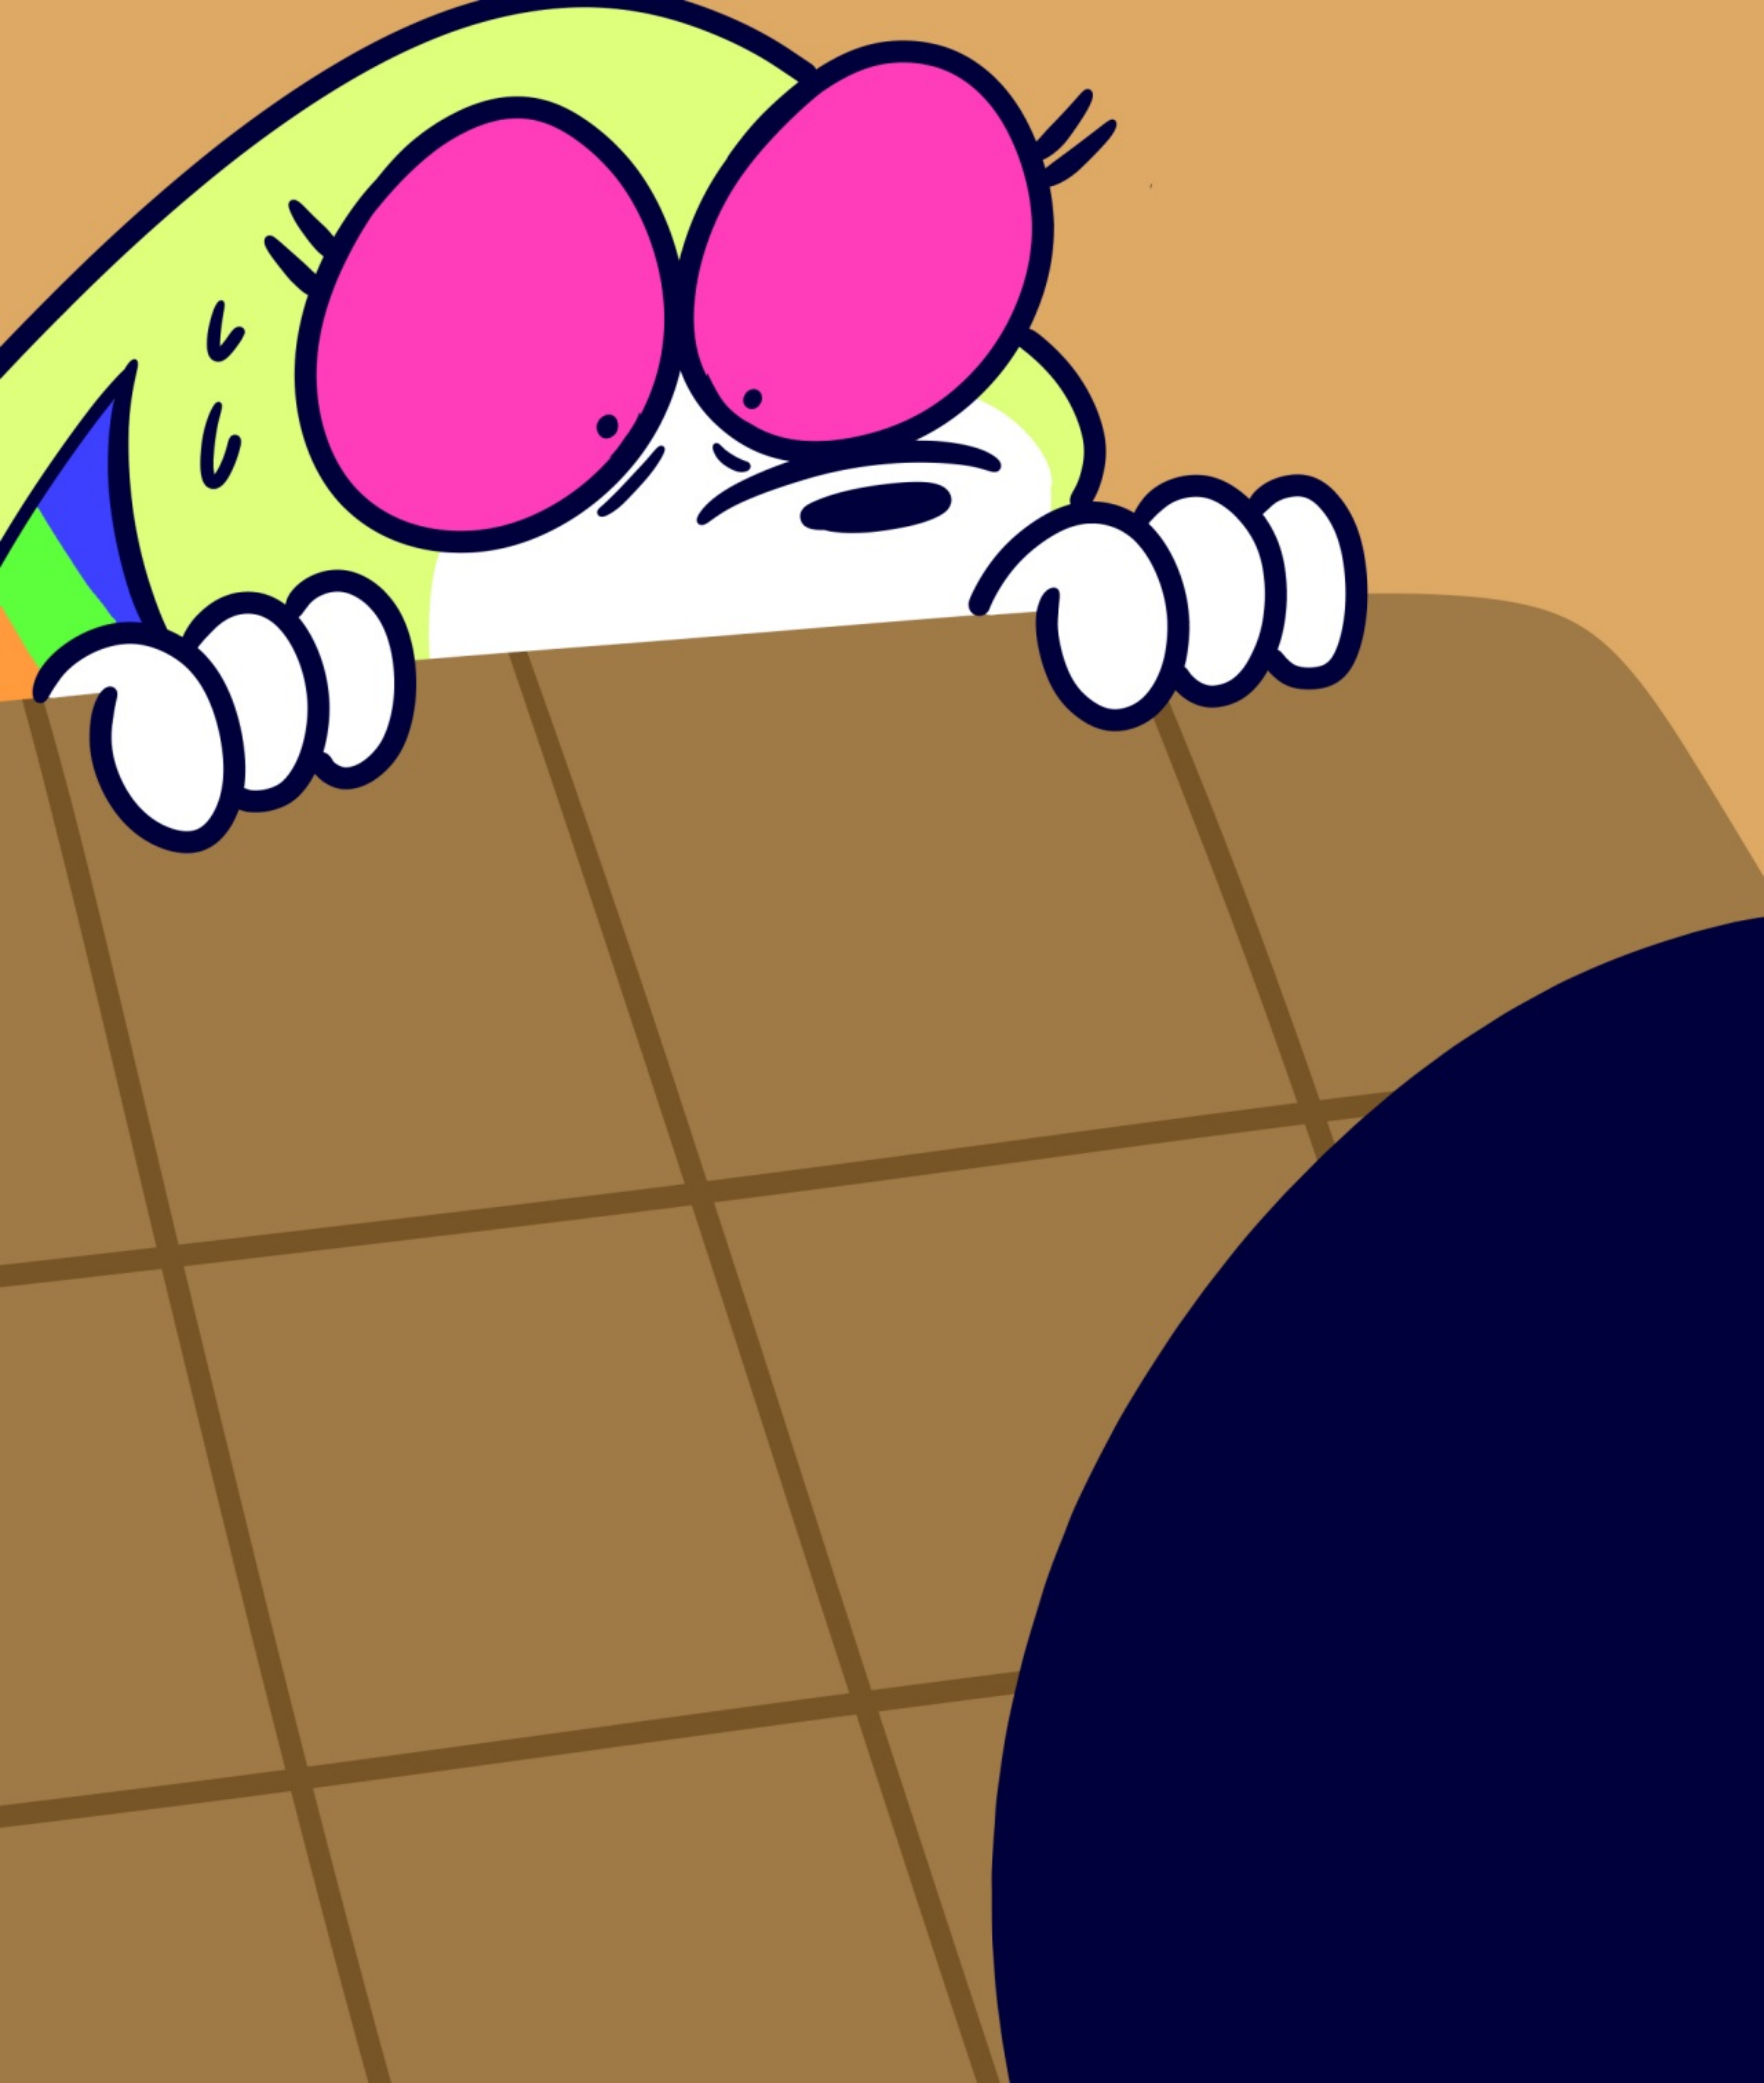
thatawkwardbryce asked:

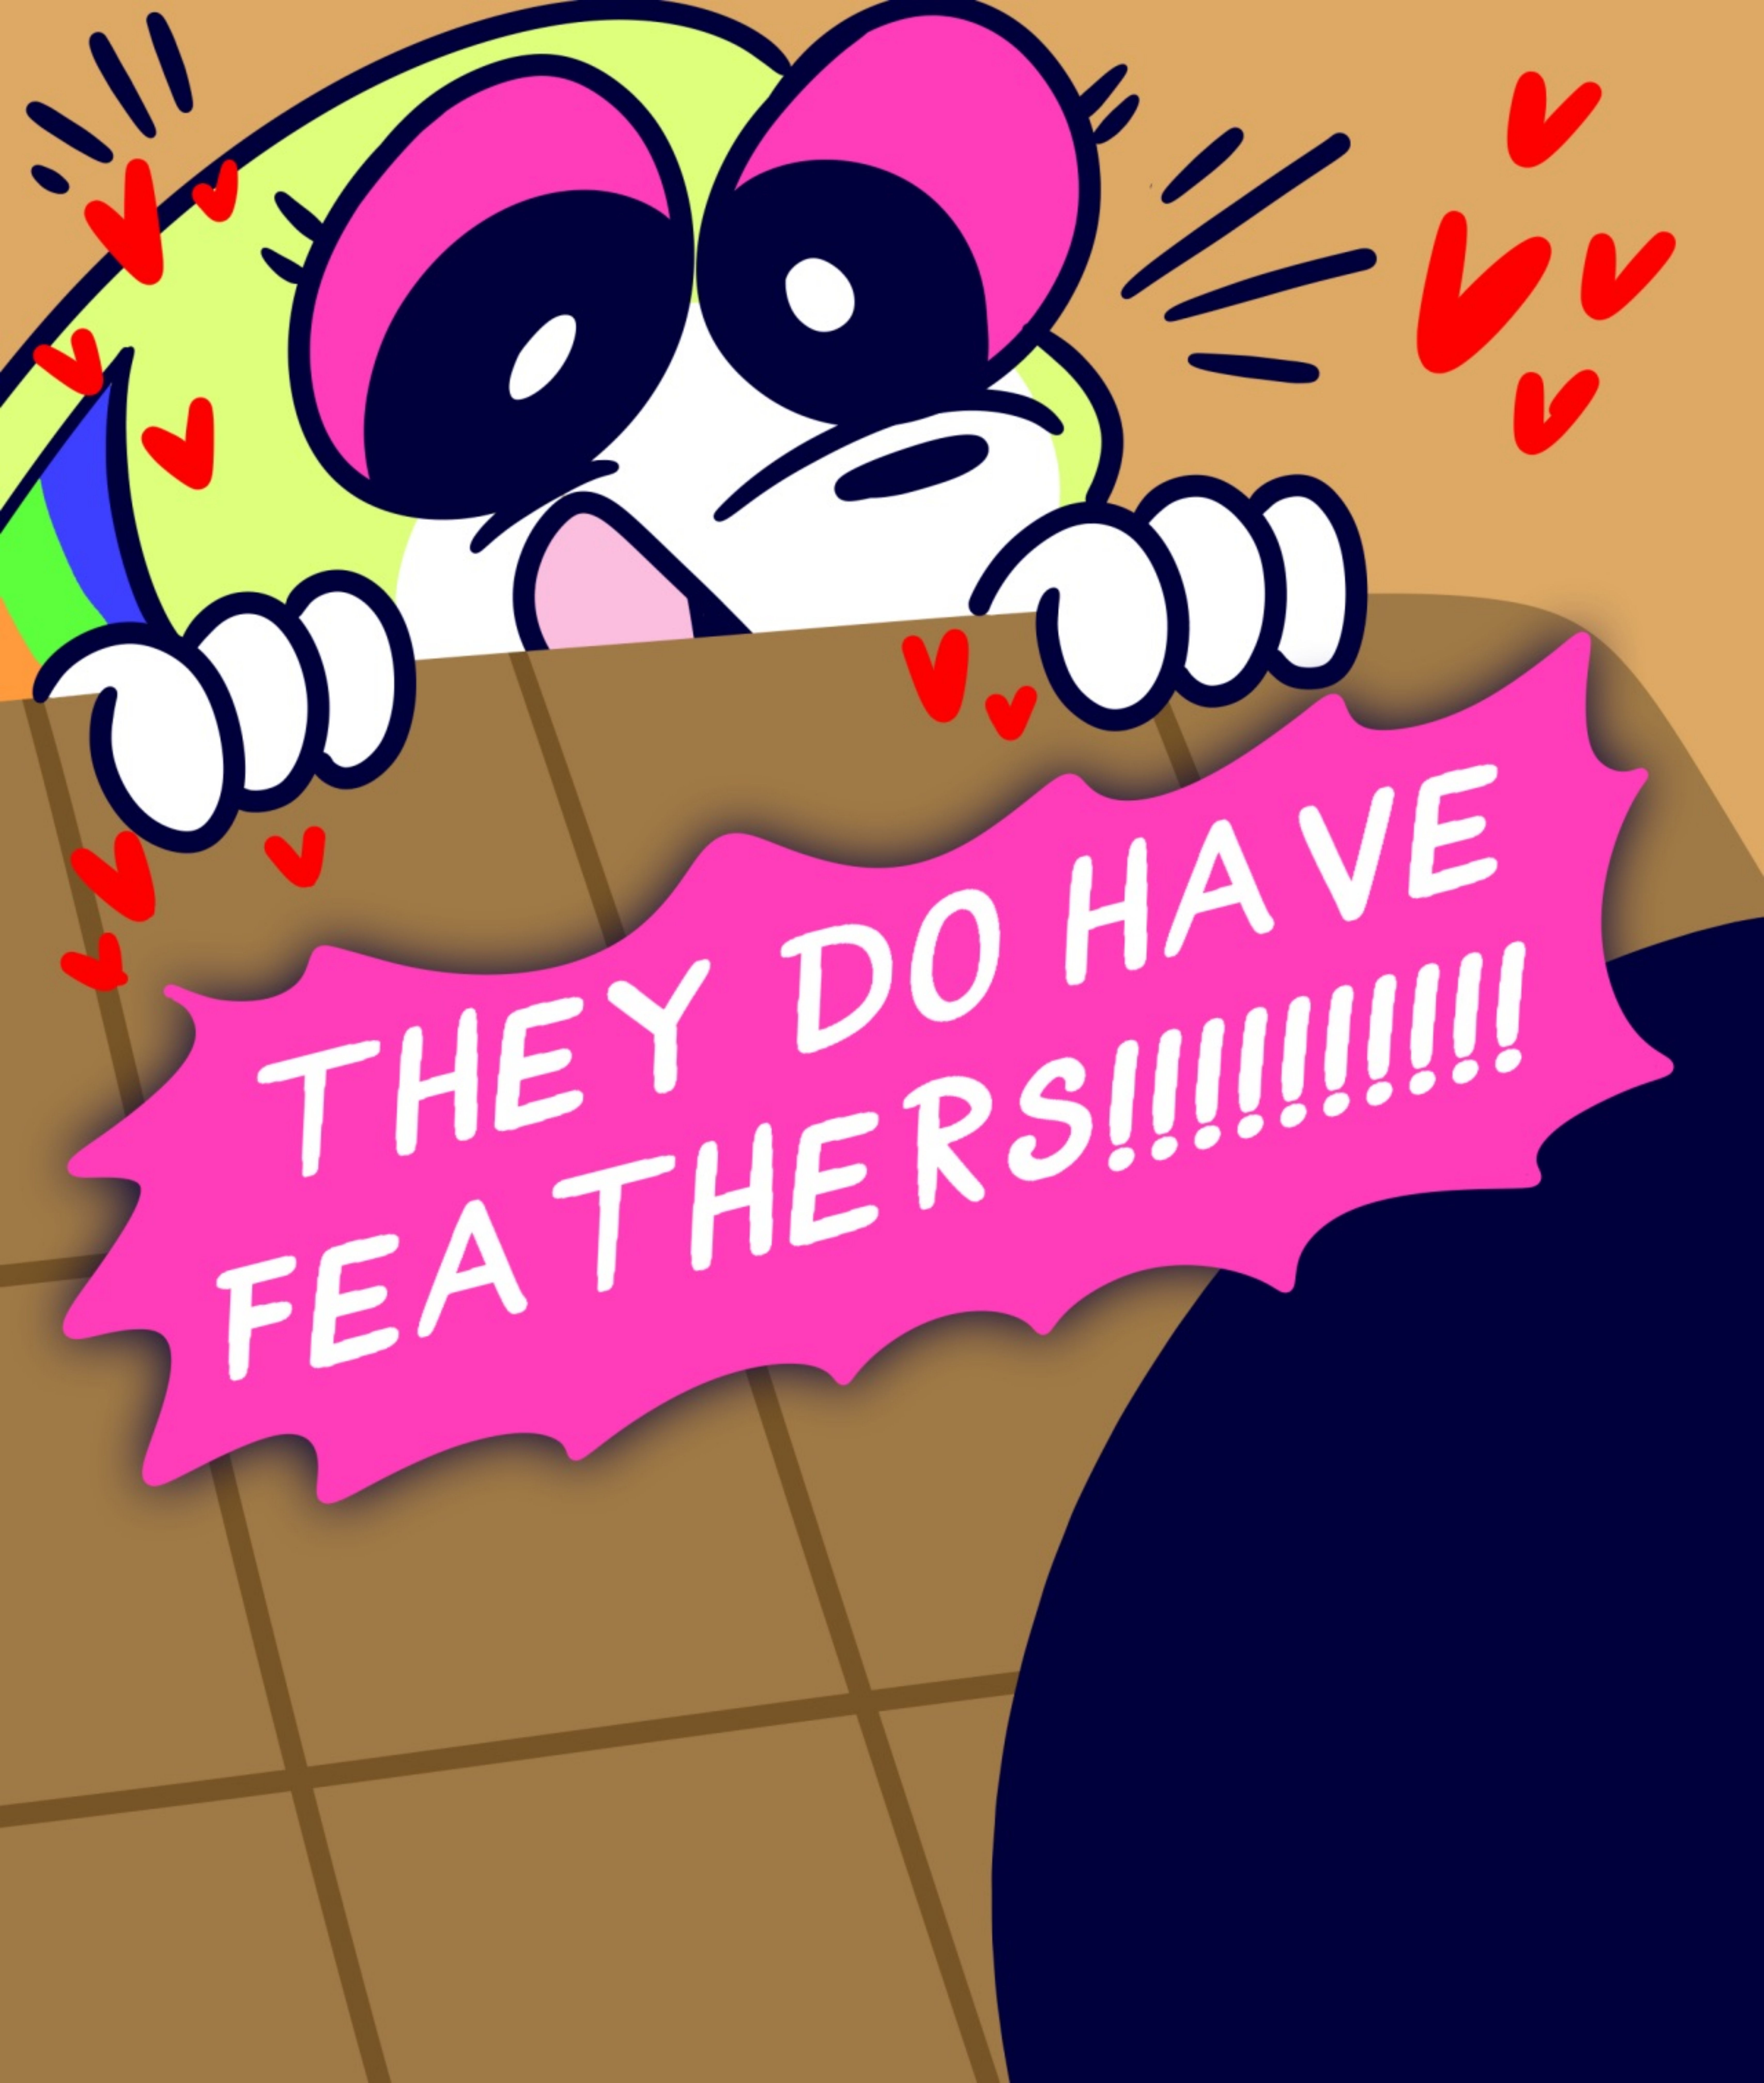
EVE! I THINK YOU NEED TO PANIC.

...you know, I think so too.

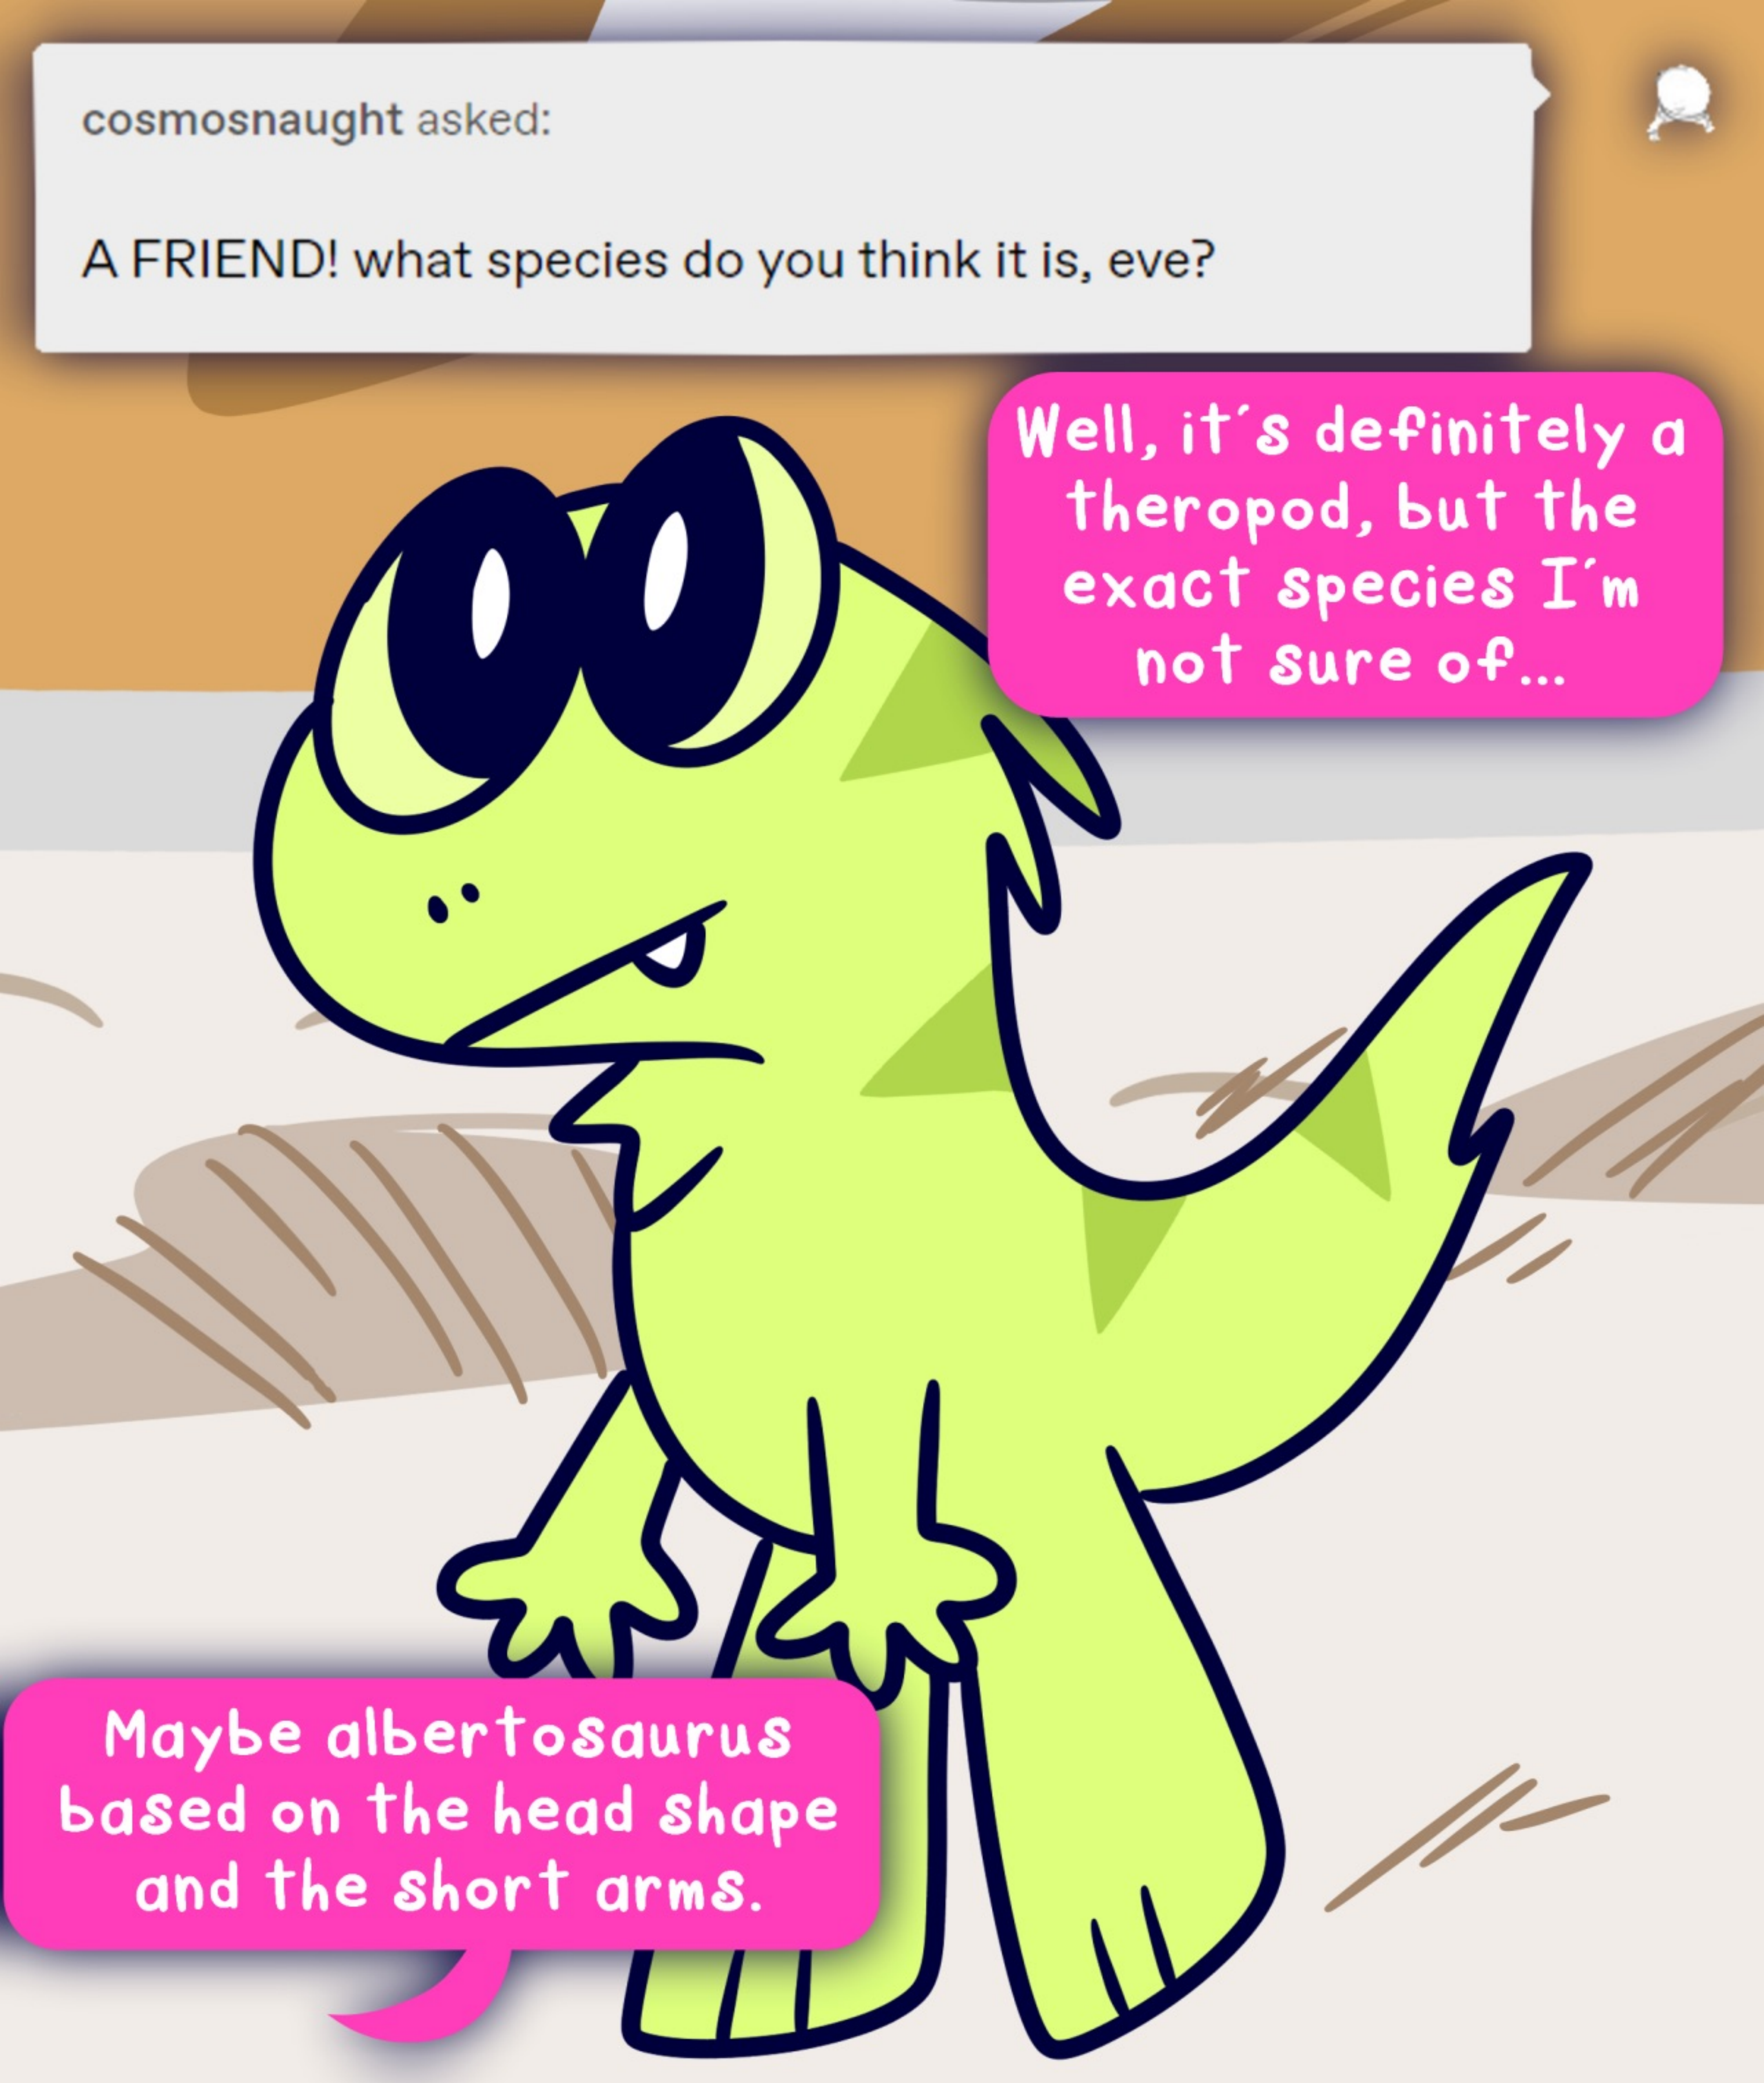




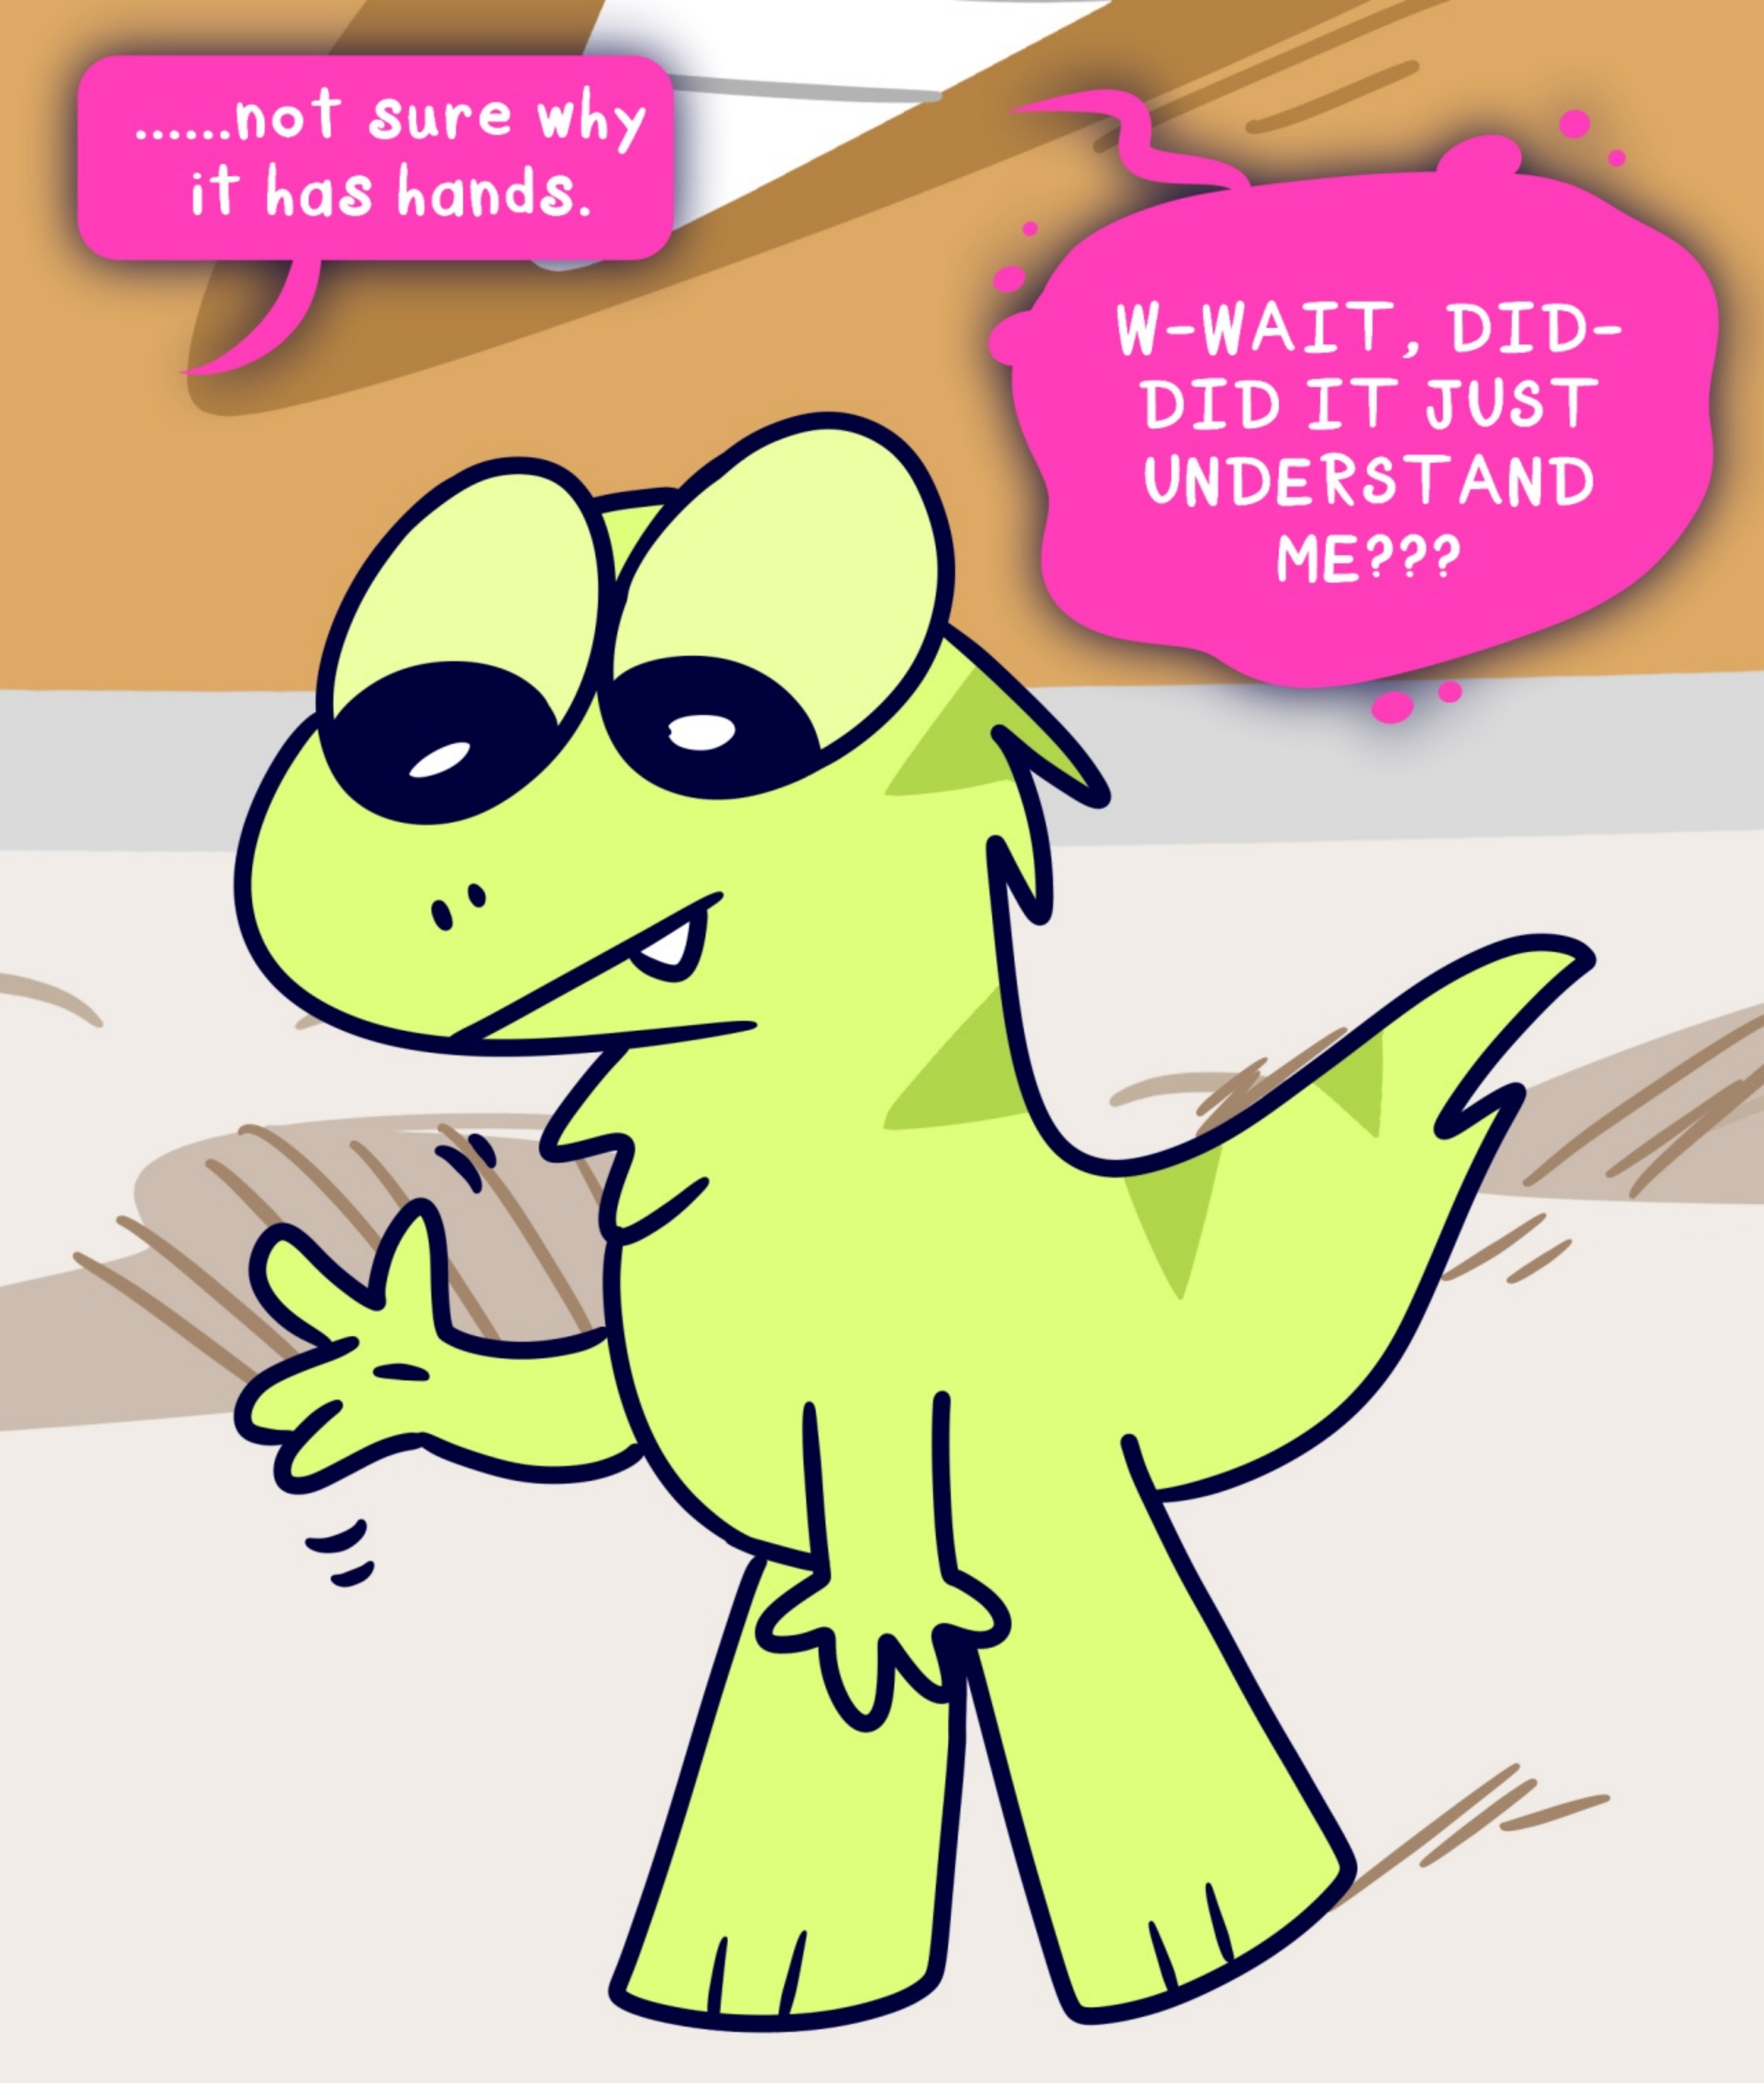




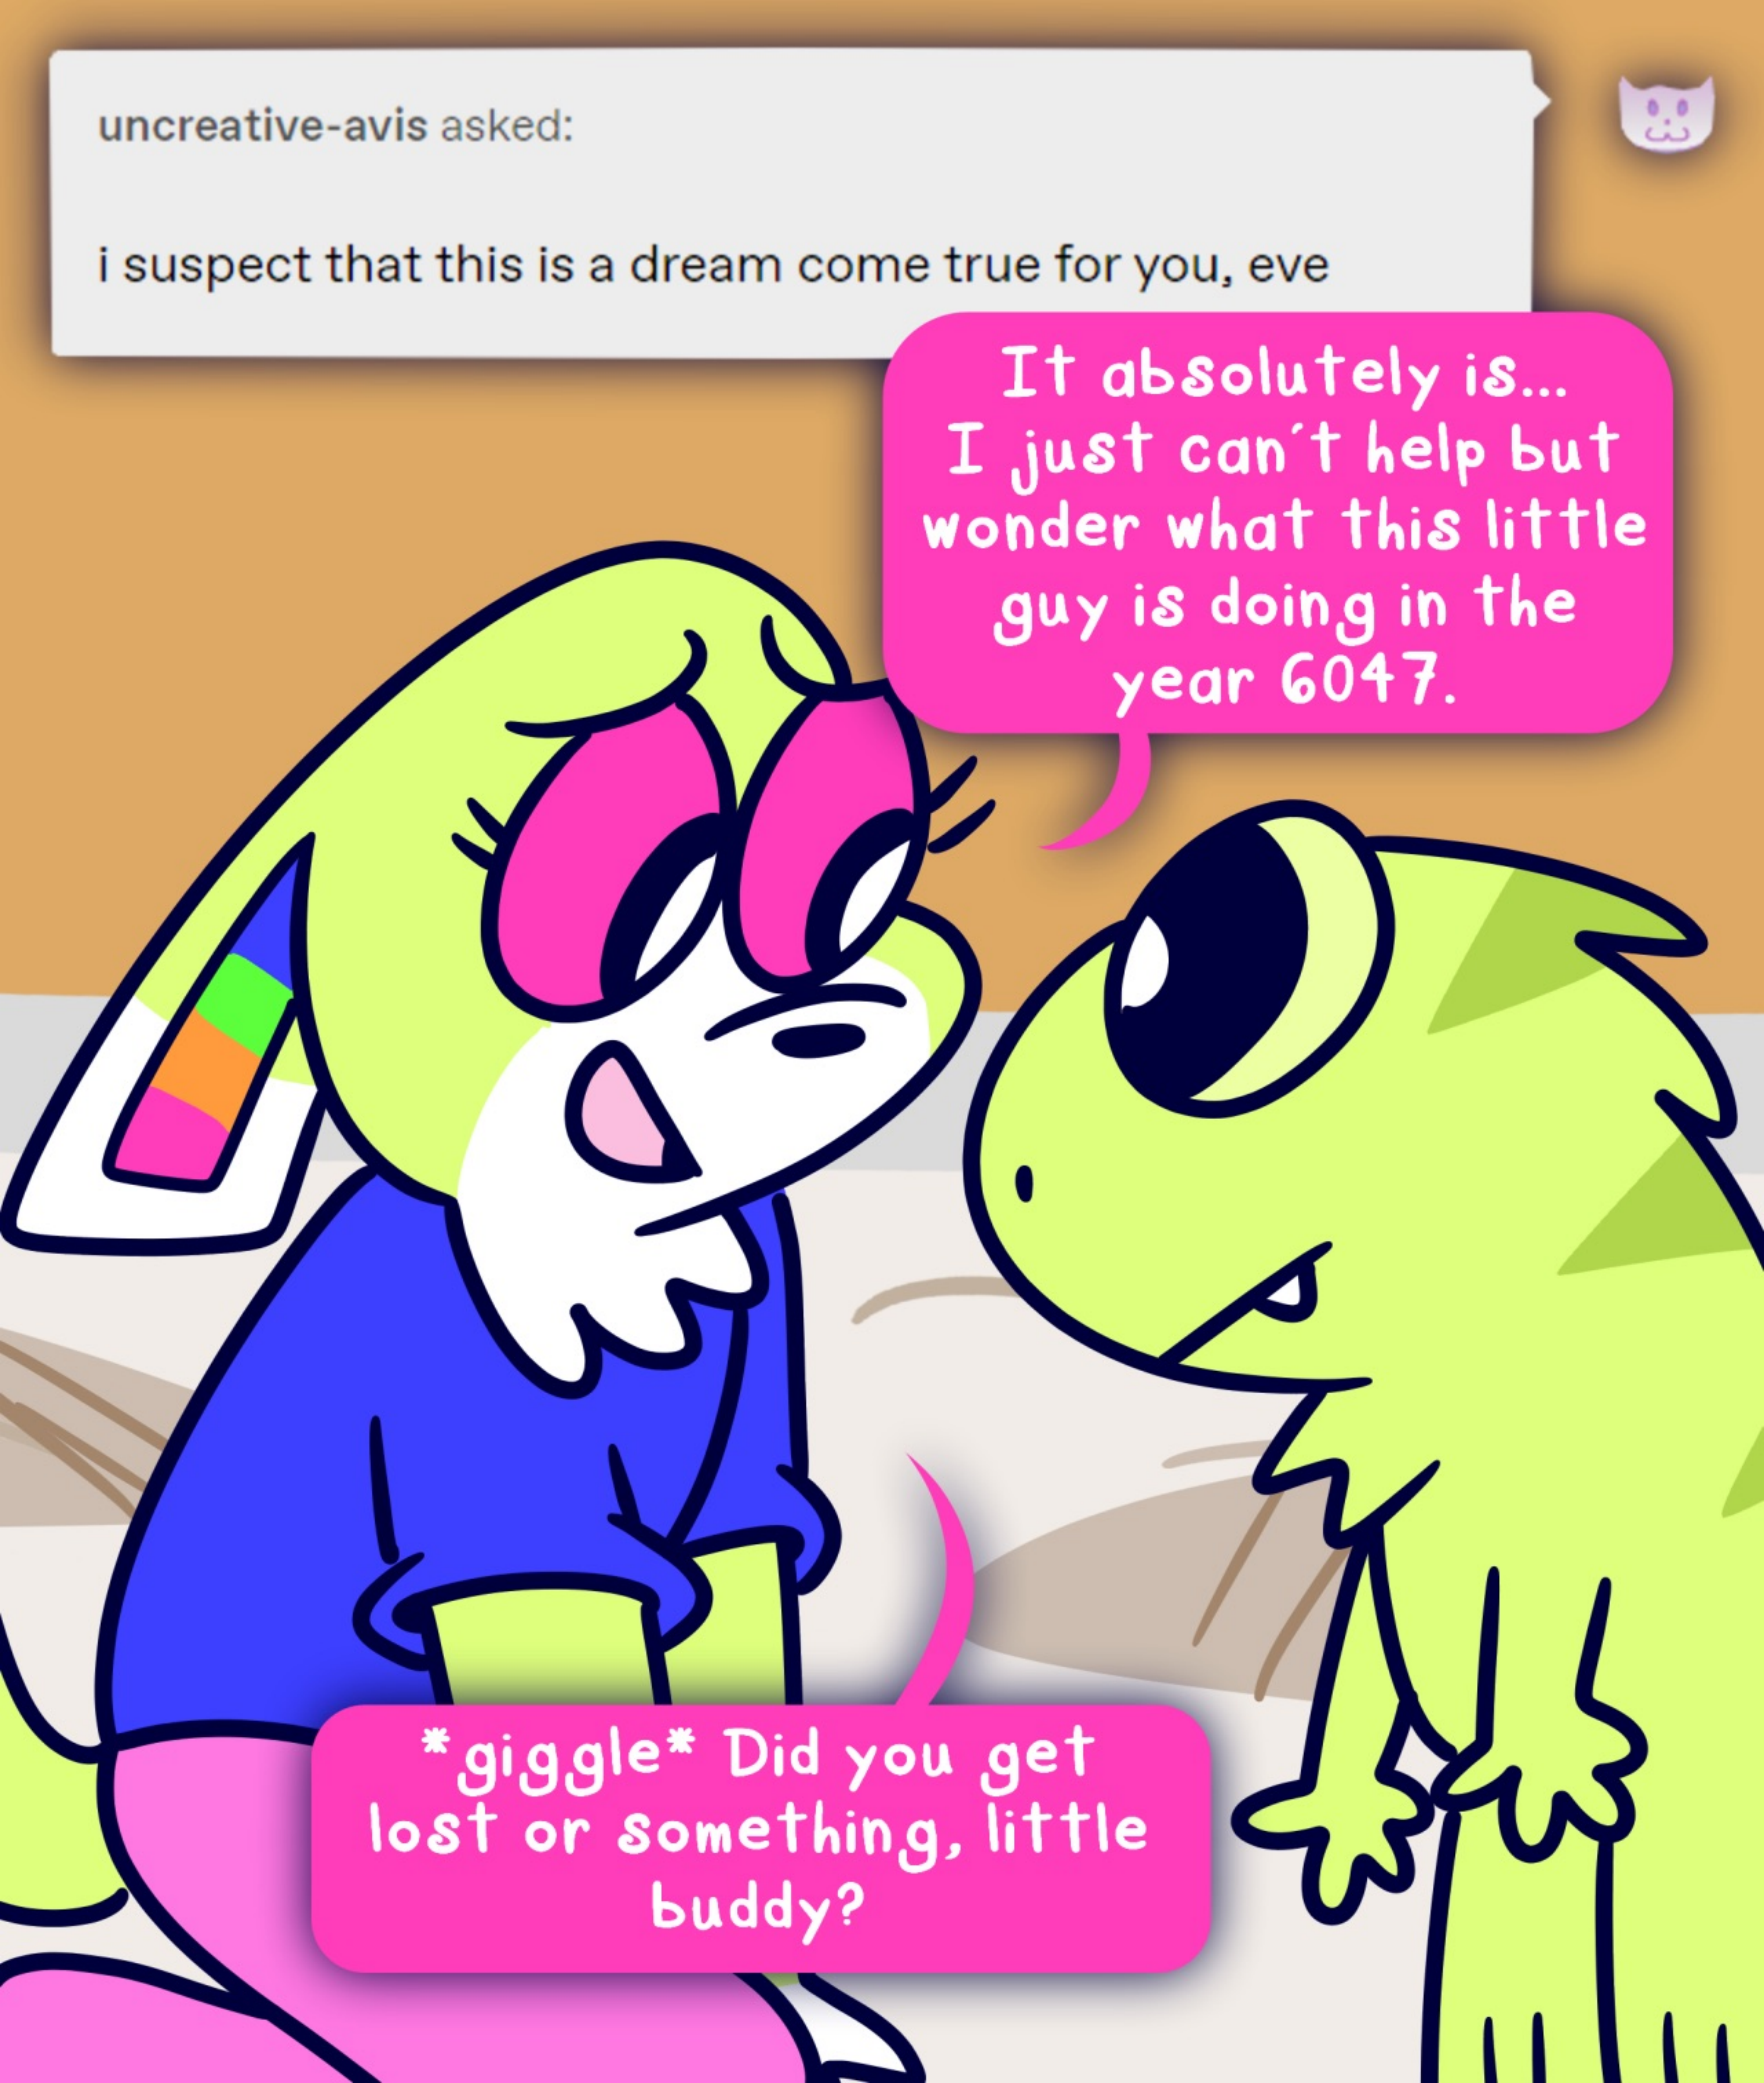
THEY DO HAVE FEATHERS!!!!!!!!!!!



cosmosnaught asked:
A FRIEND! what species do you think it is, eve?
Well, it´s definitely a theropod, but the exact species I´m not sure of...
Maybe albertosaurus based on the head shape and the short arms.



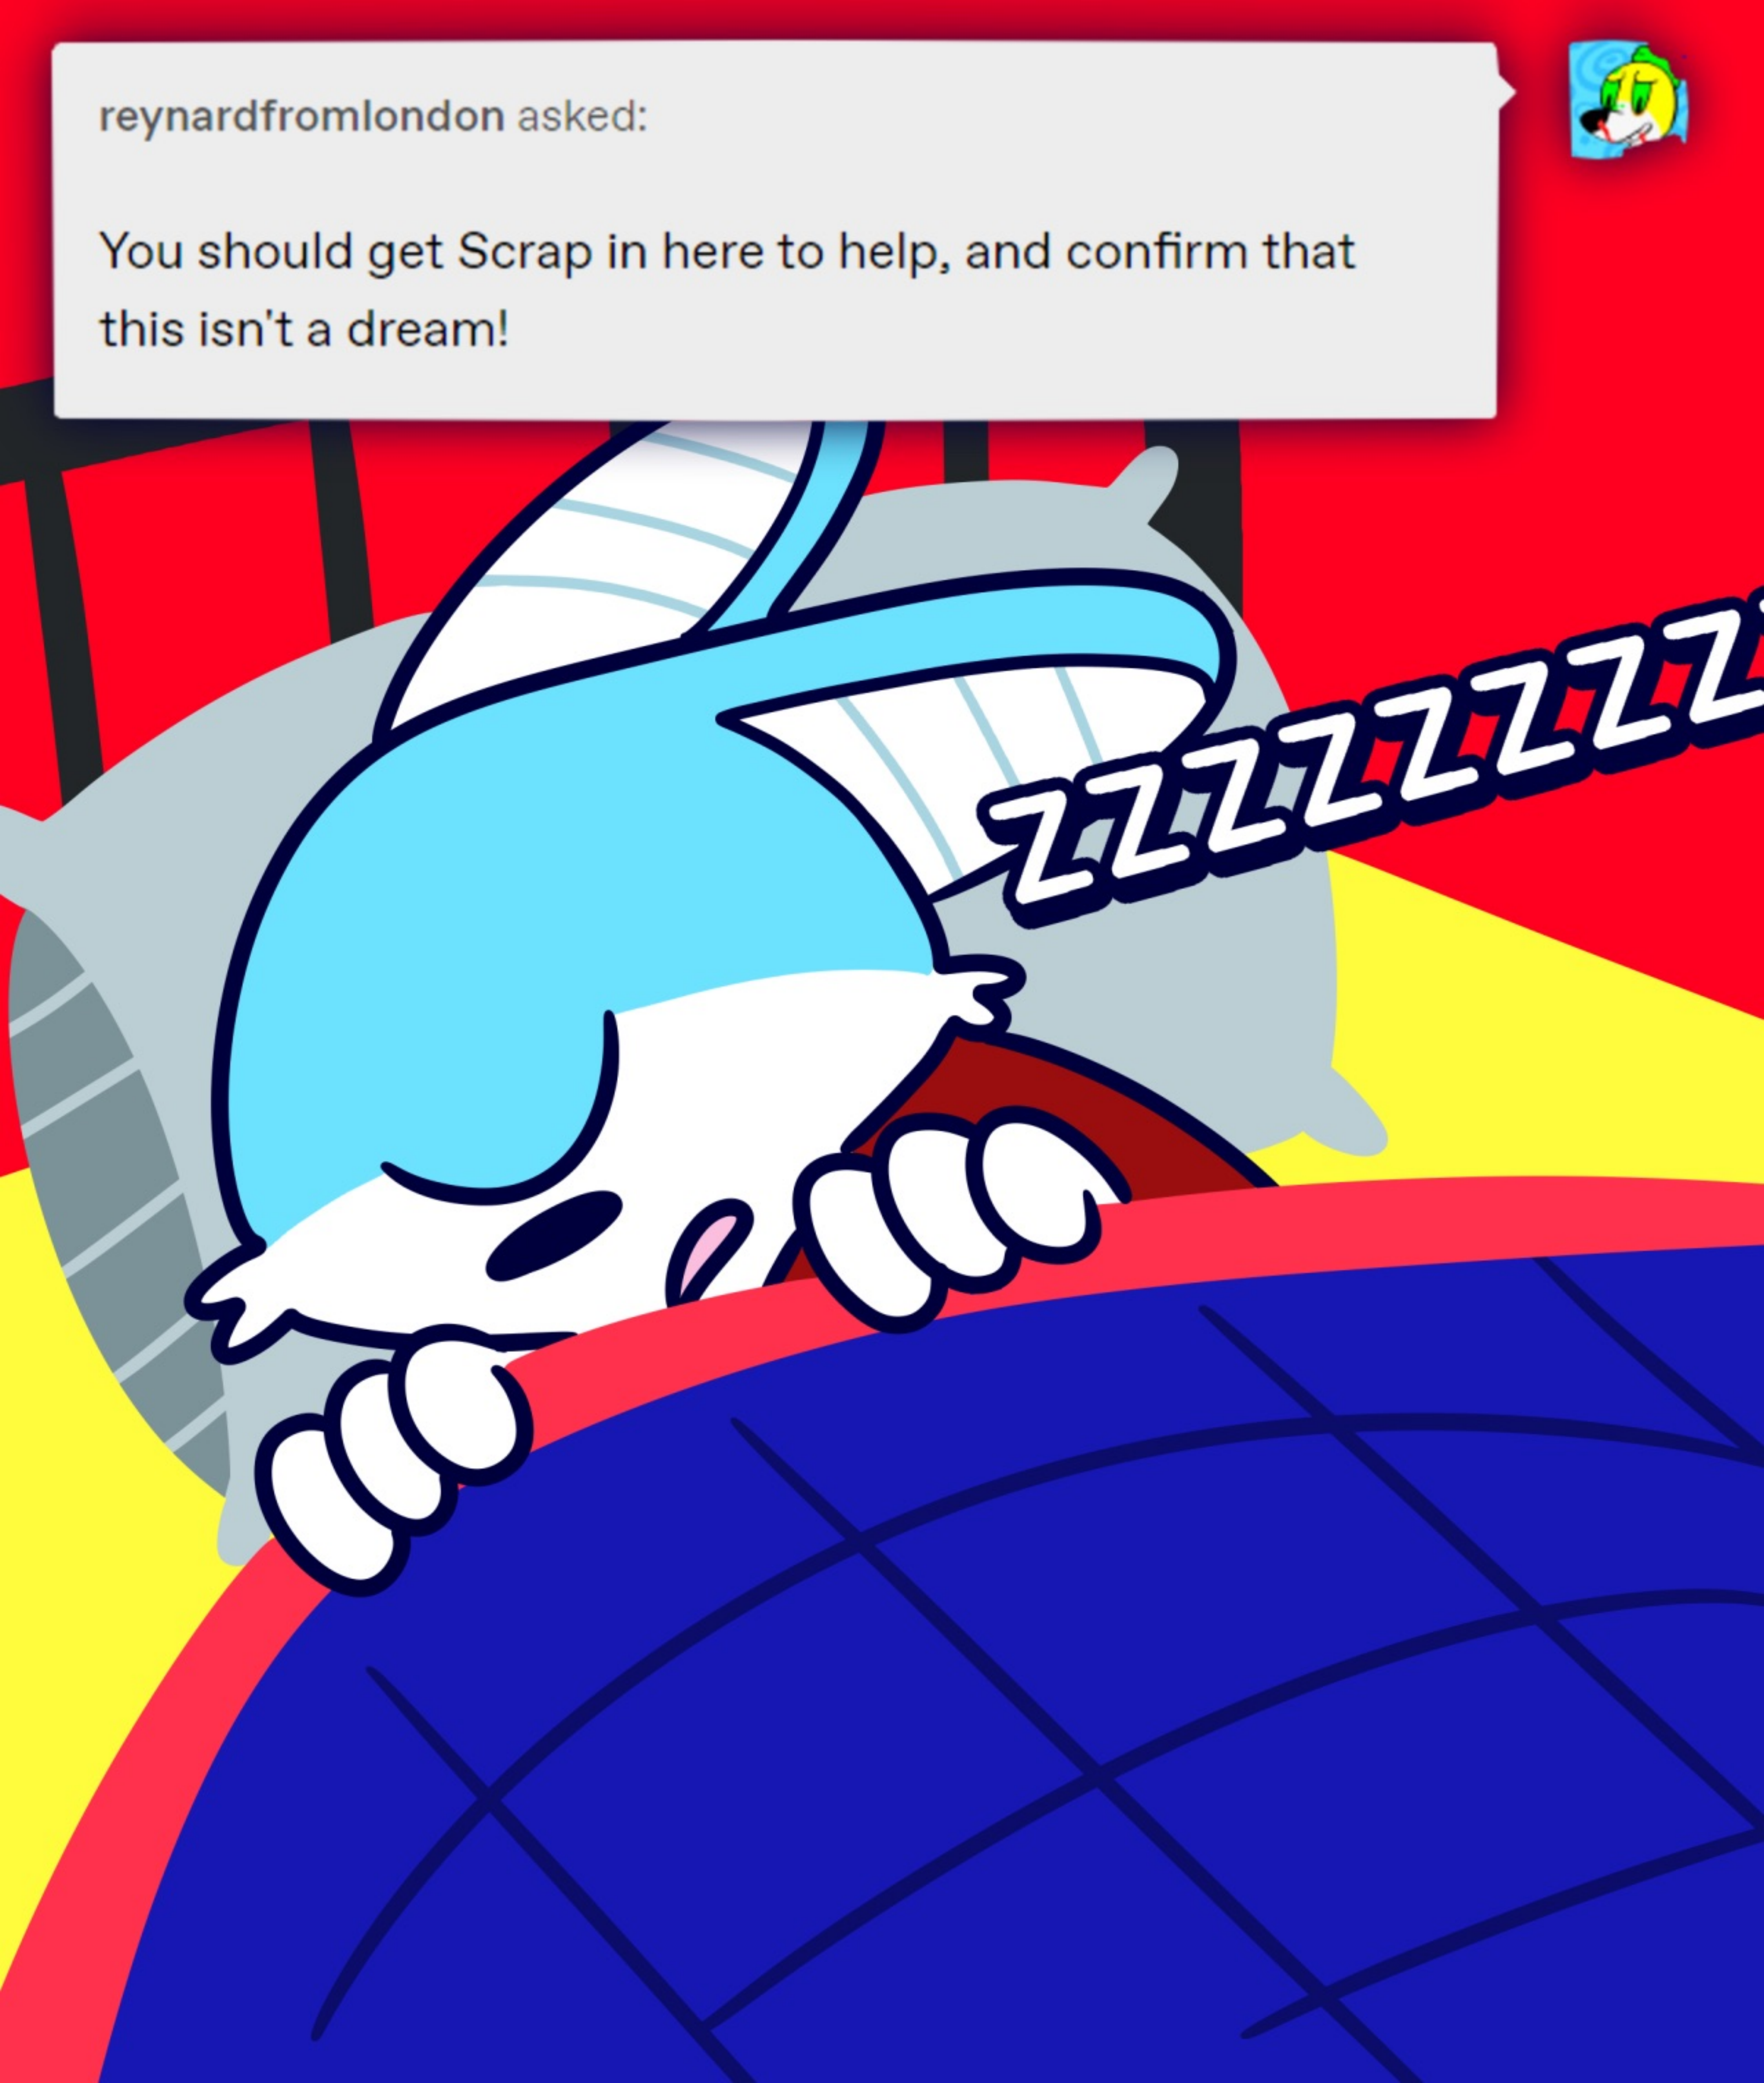
......not sure why it has hands.
W-WAIT, DID-DID IT JUST UNDERSTAND ME???



uncreative-avis asked:

i suspect that this is a dream come true for you, eve

It absolutely is... I just can´t help but wonder what this little guy is doing in the year 6047.
giggle Did you get lost or something, little buddy?



reynardfromlondon asked:

You should get Scrap in here to help, and confirm that this isn't a dream!

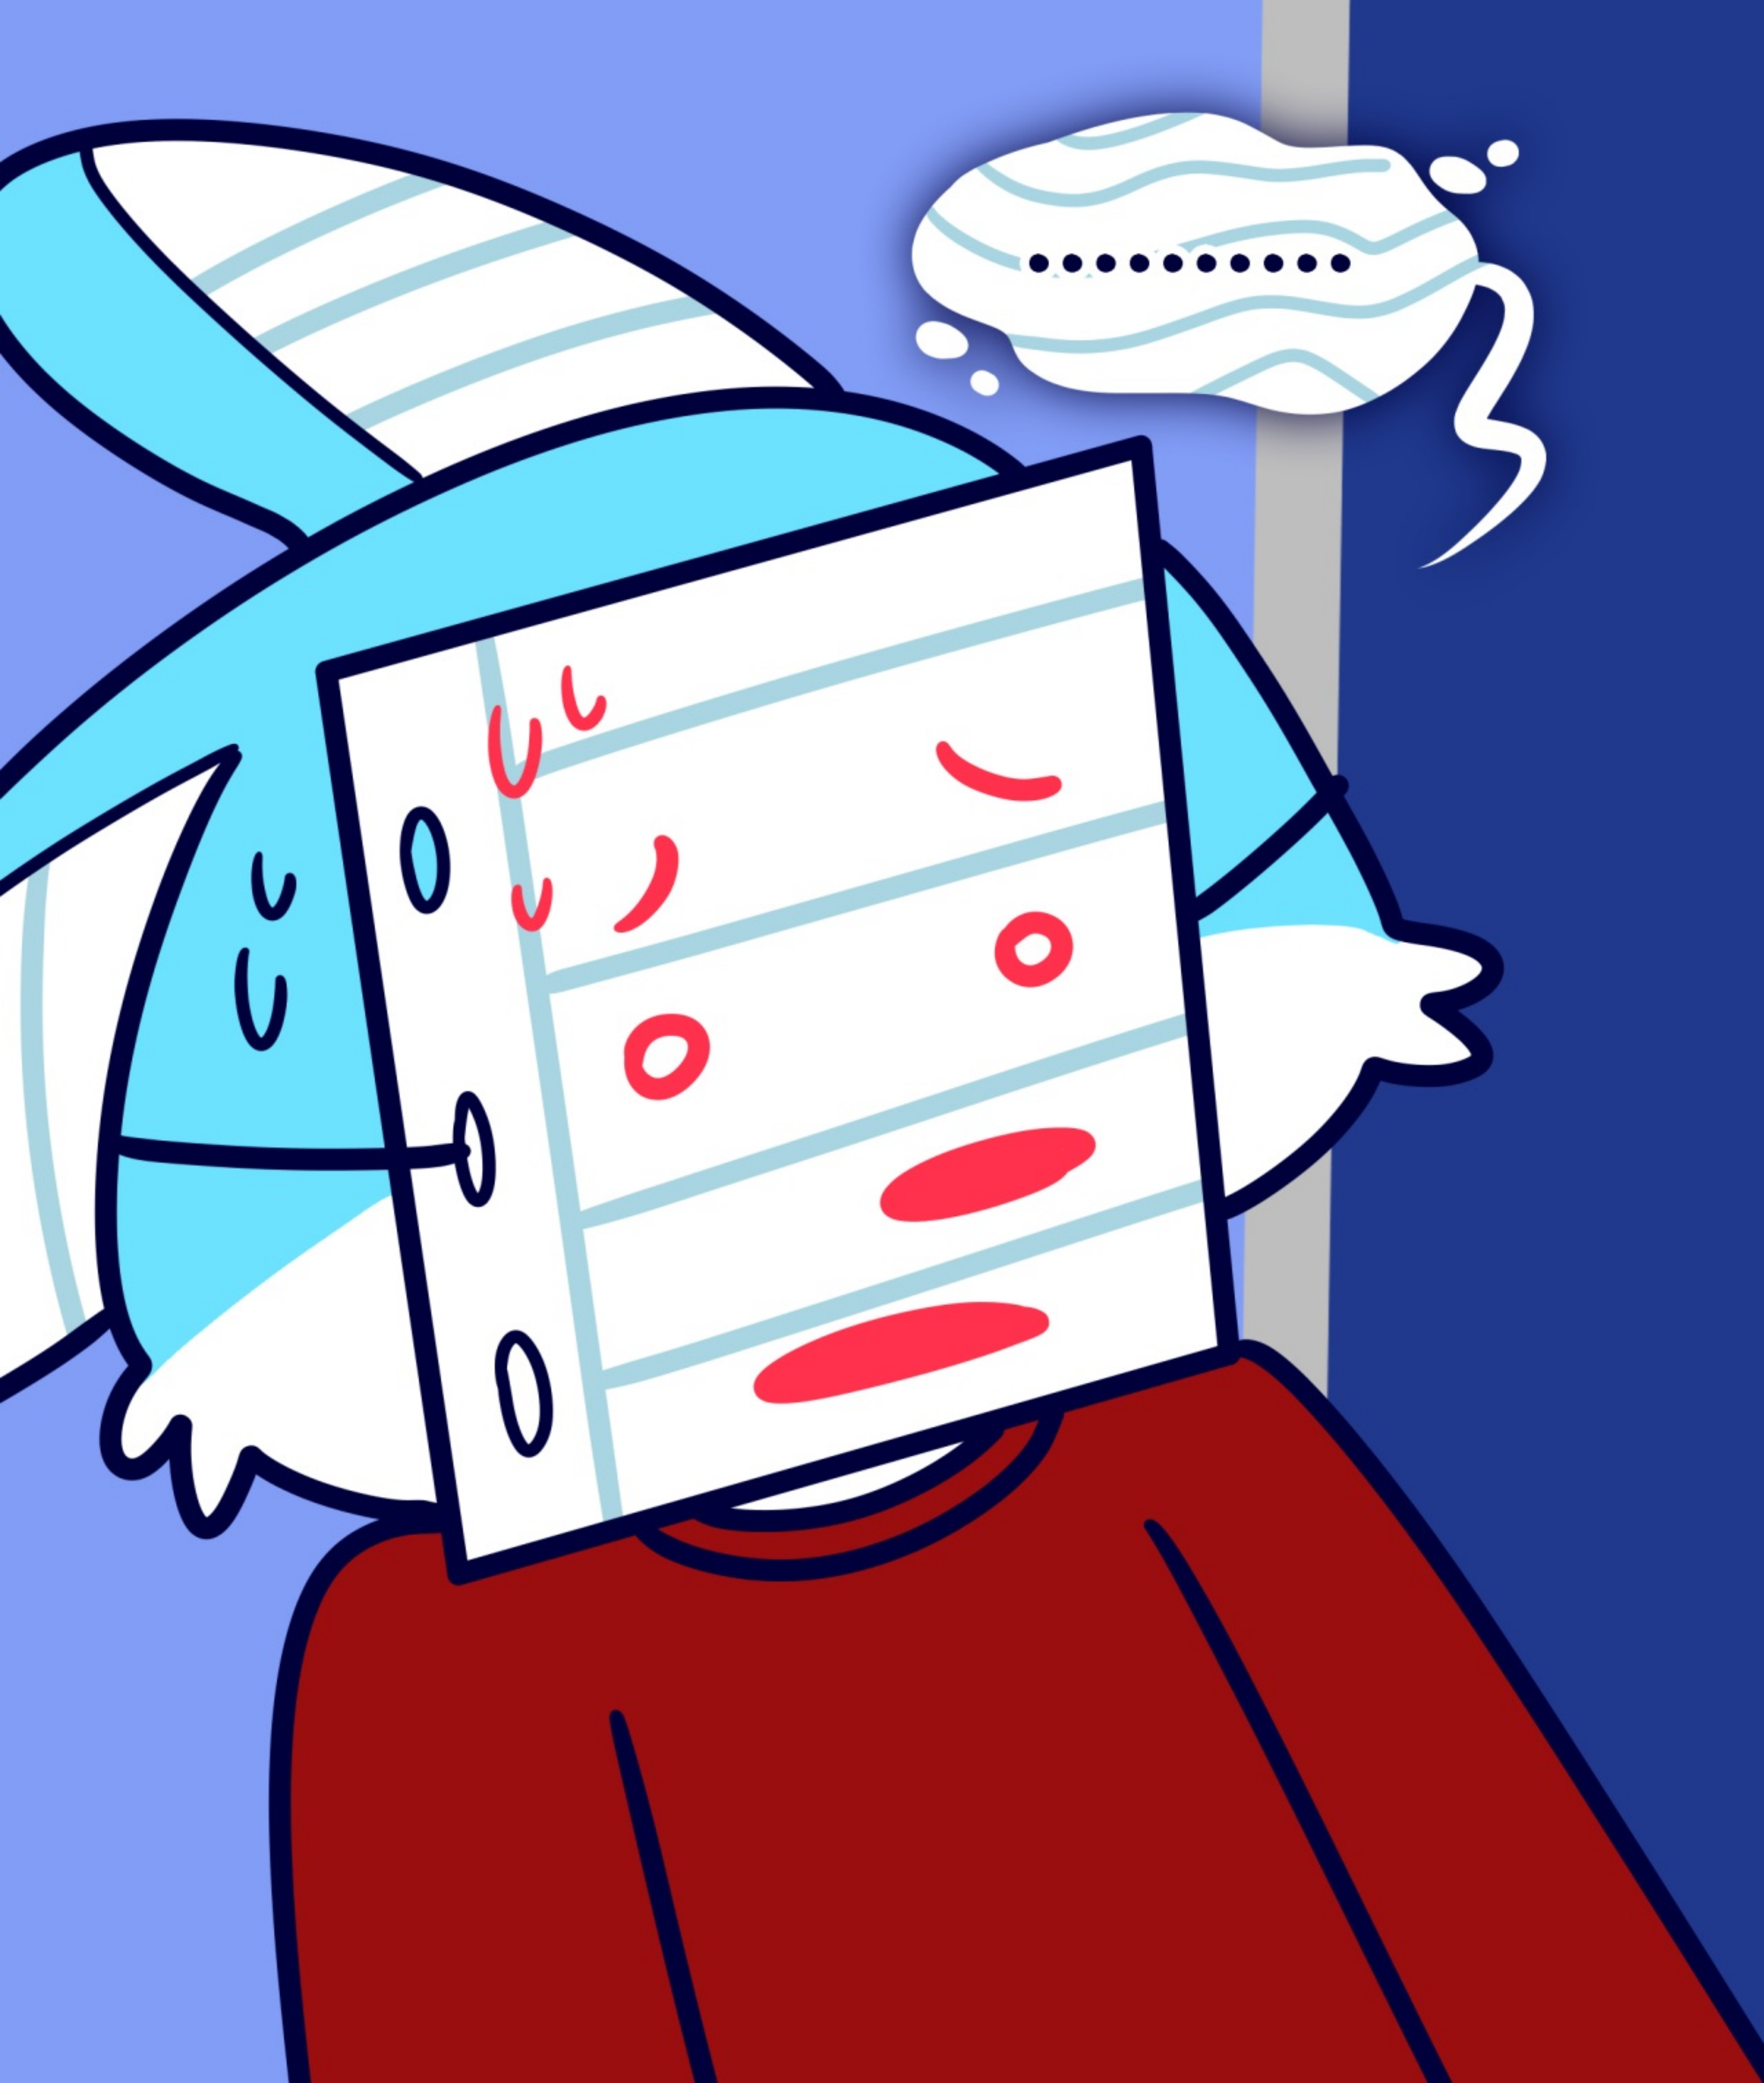
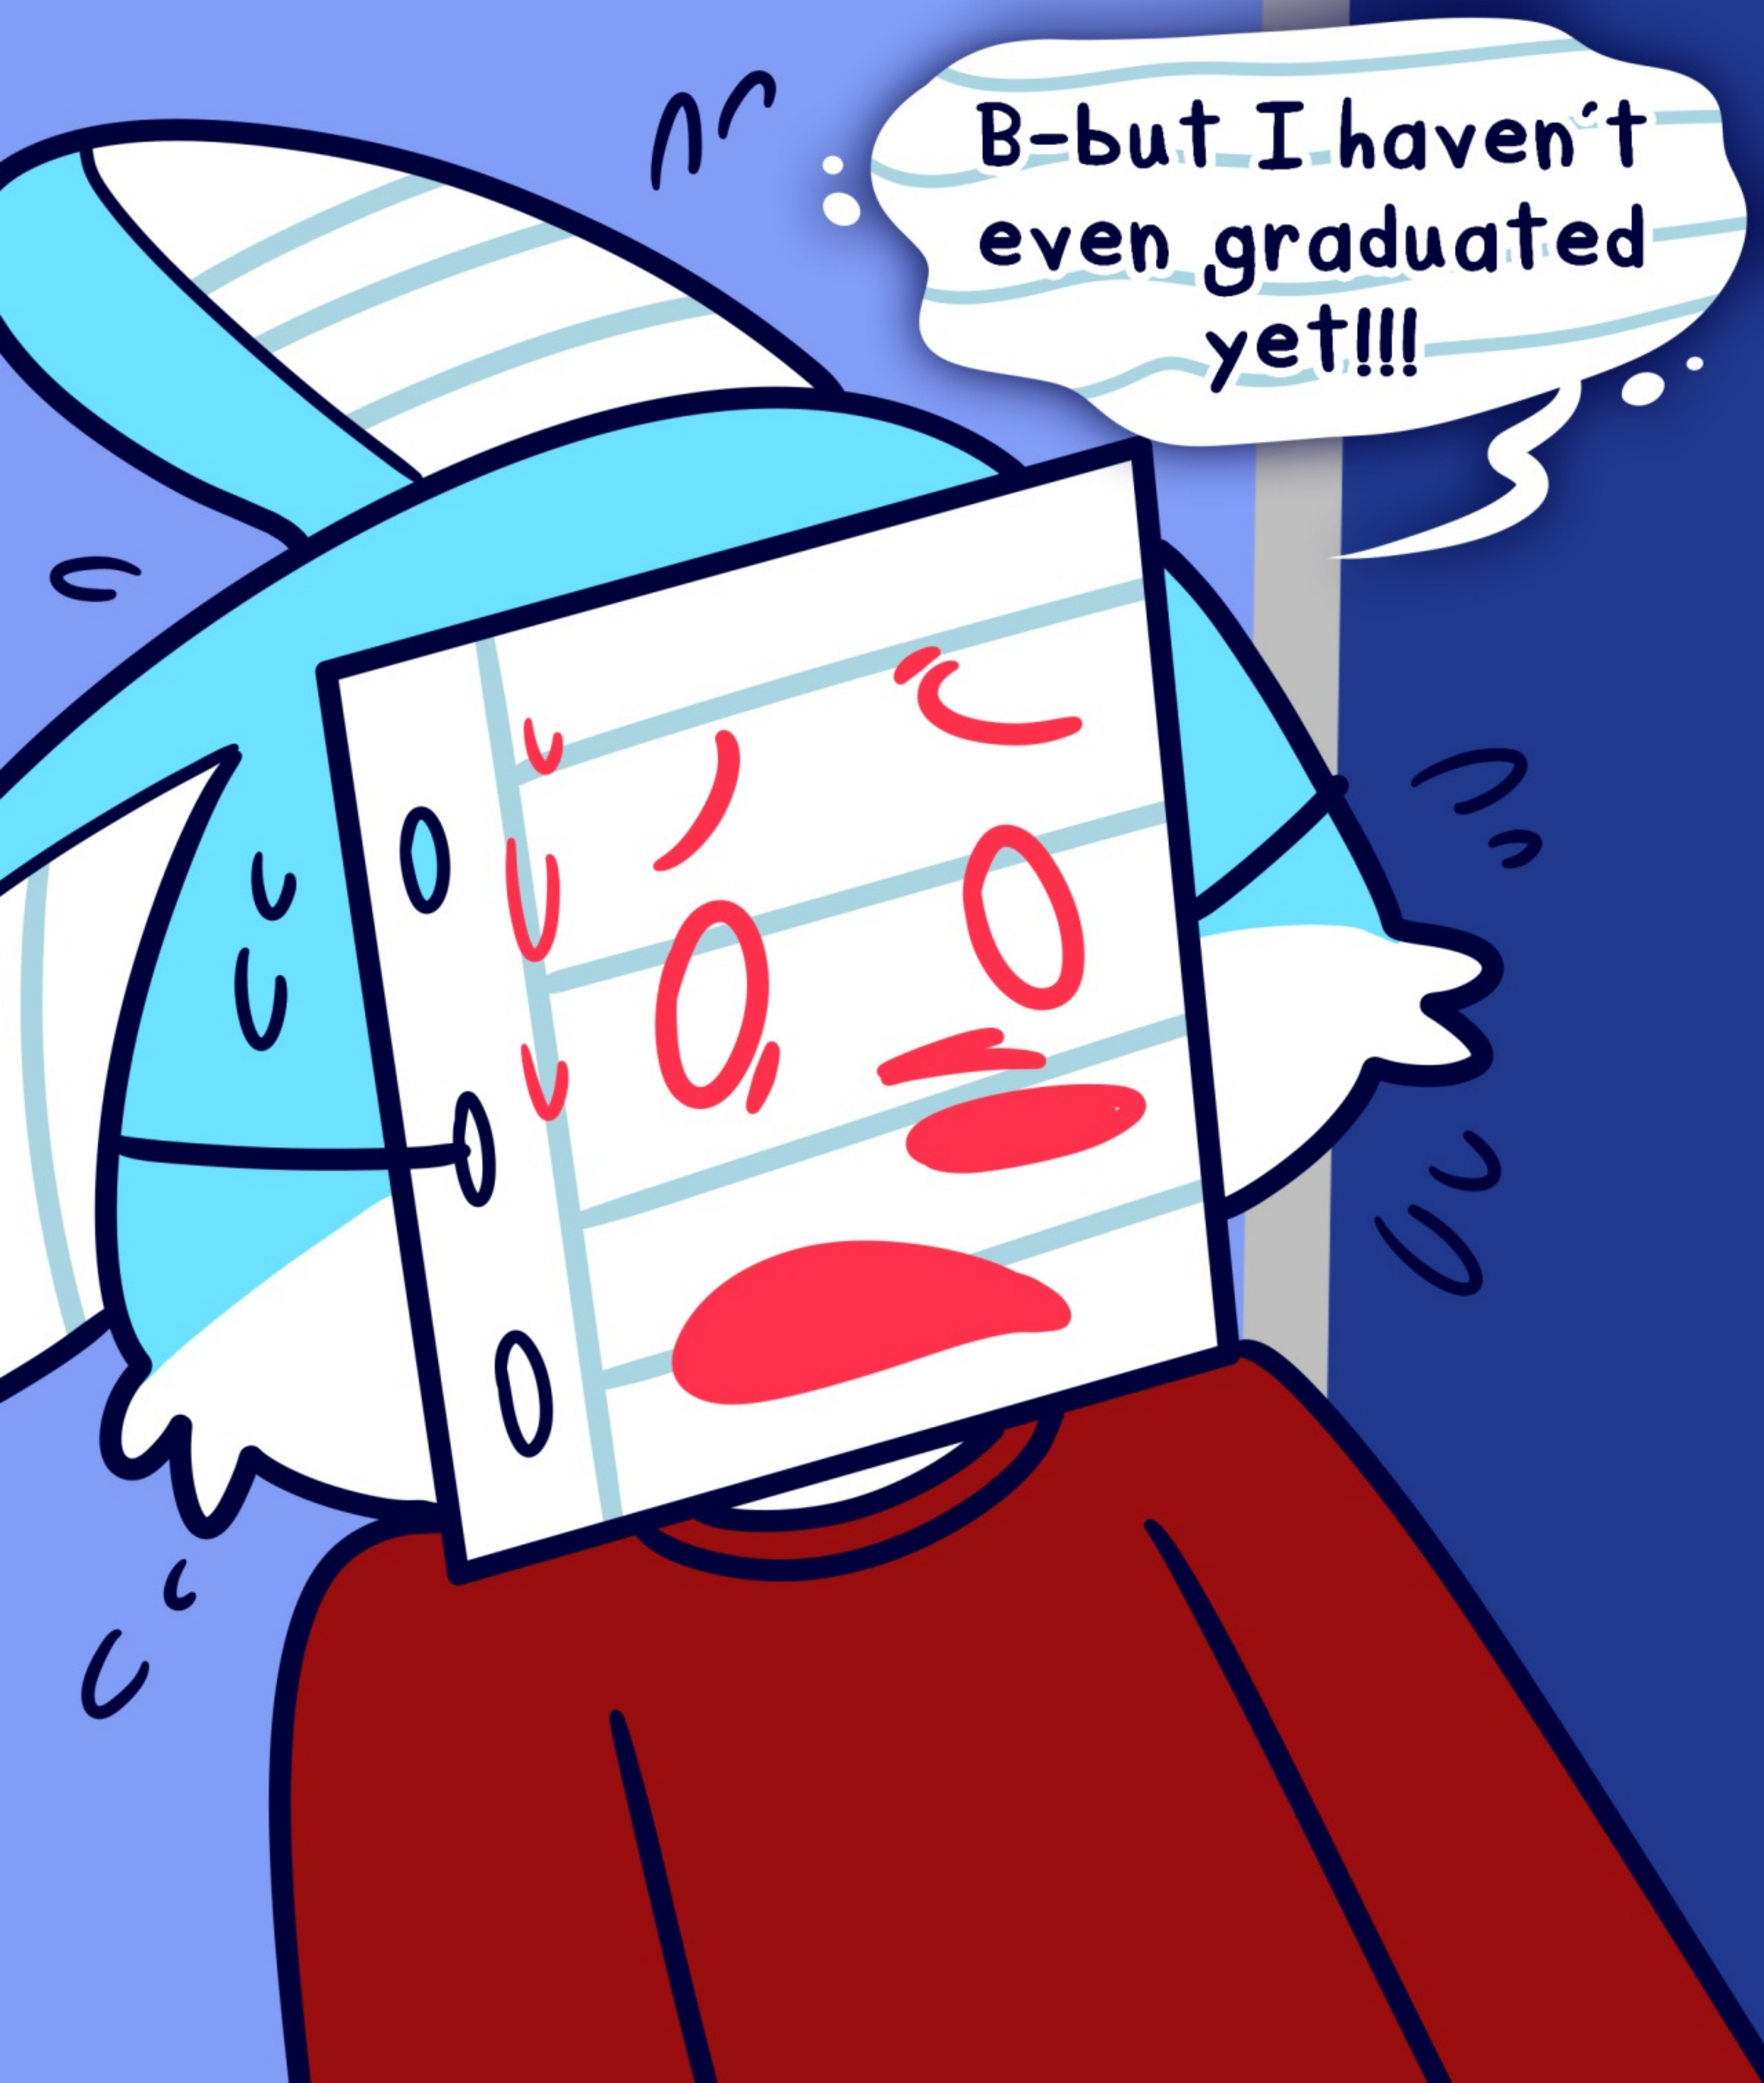
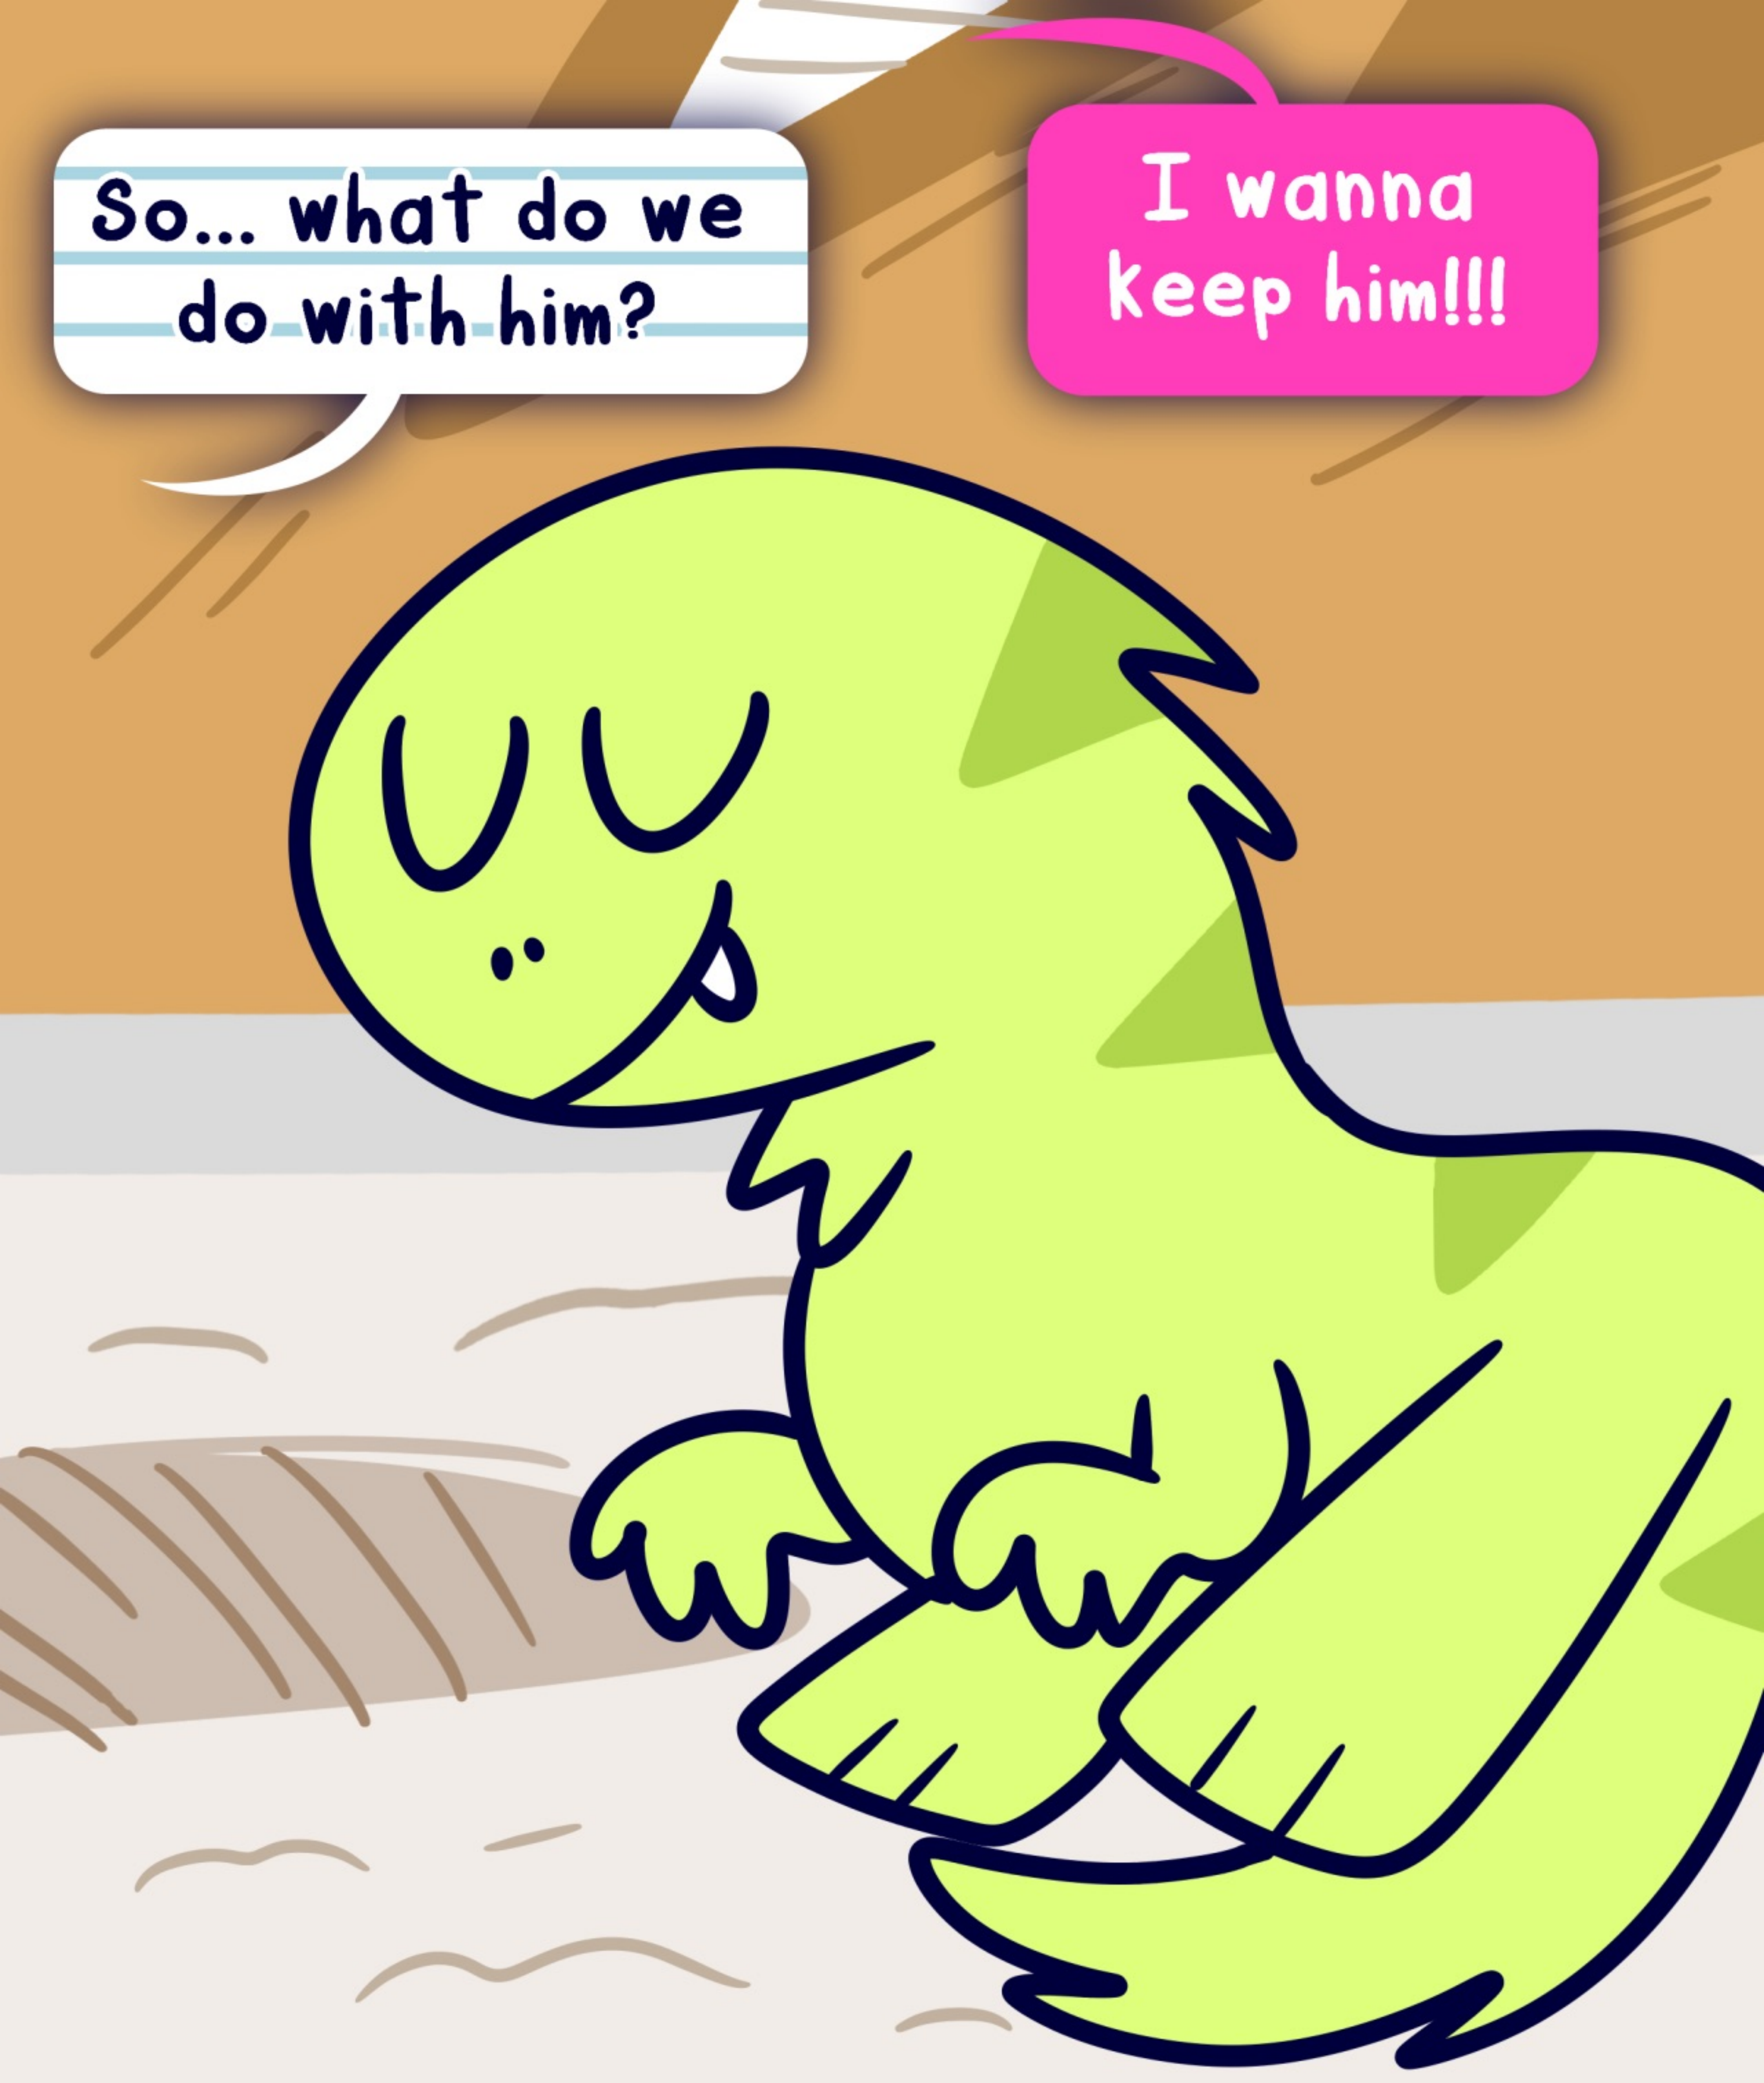
I decided he's a boy! His name is PIPPY!!!
You're a dad, Scrap!!!!

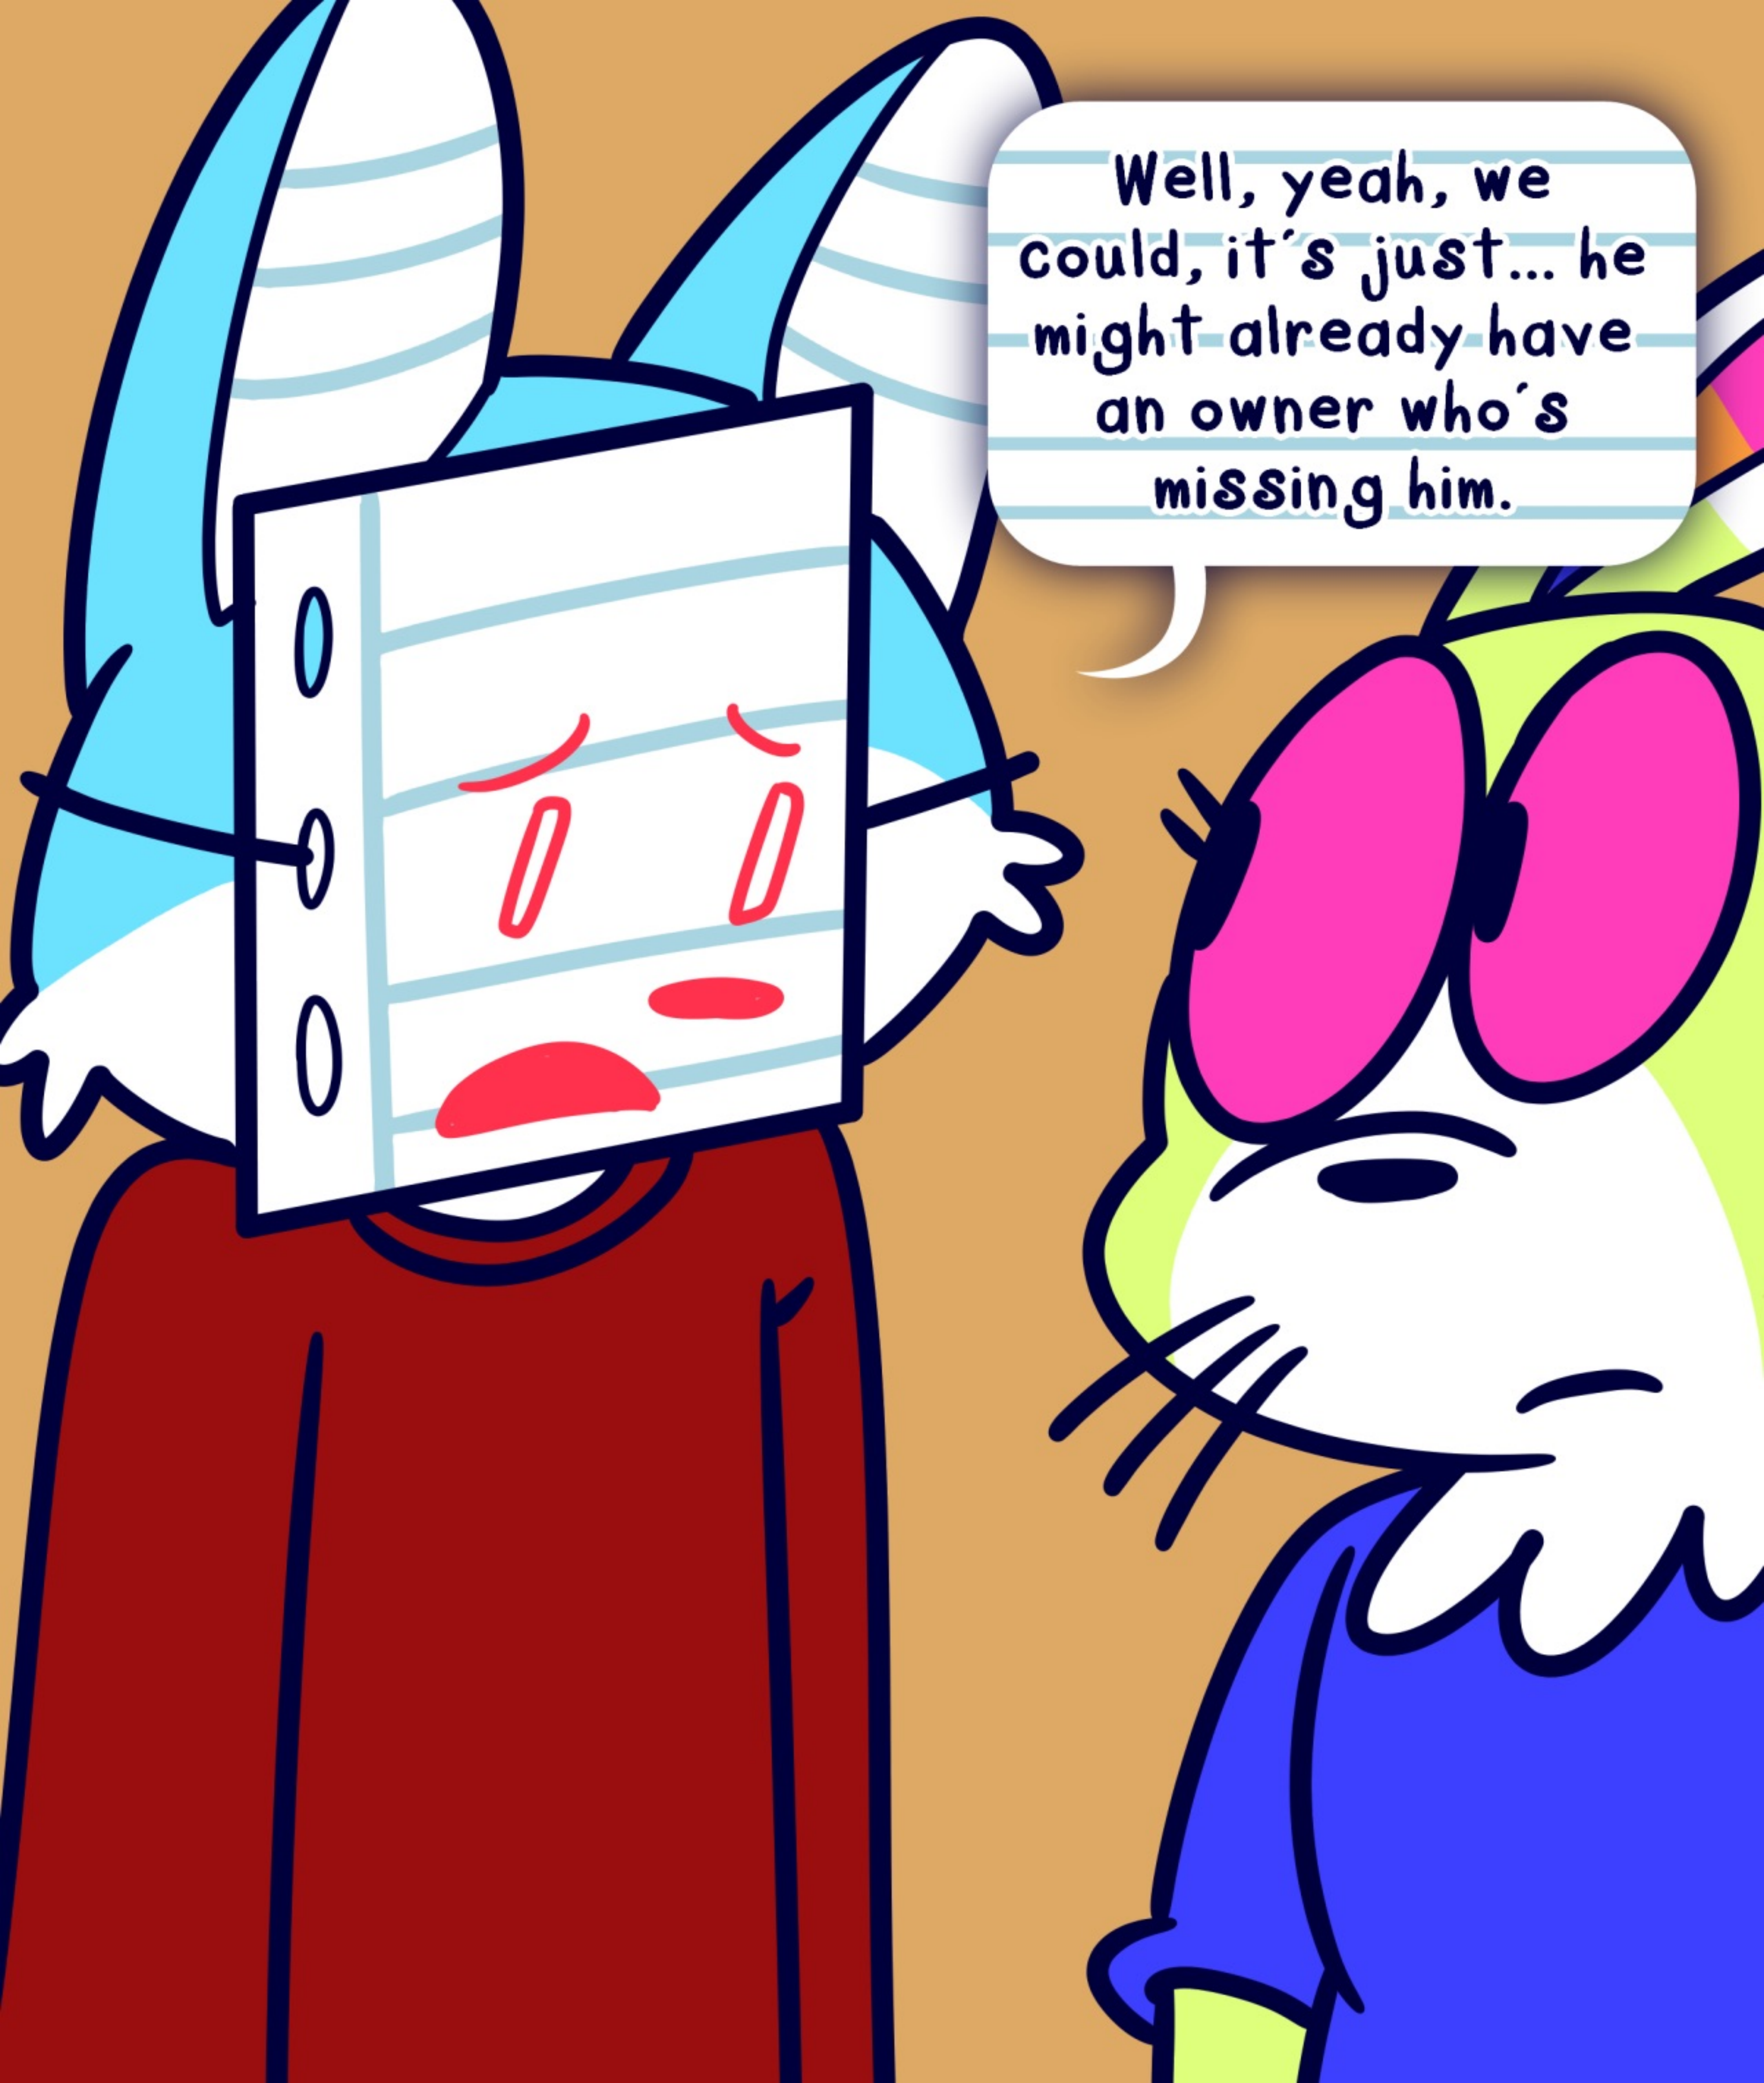




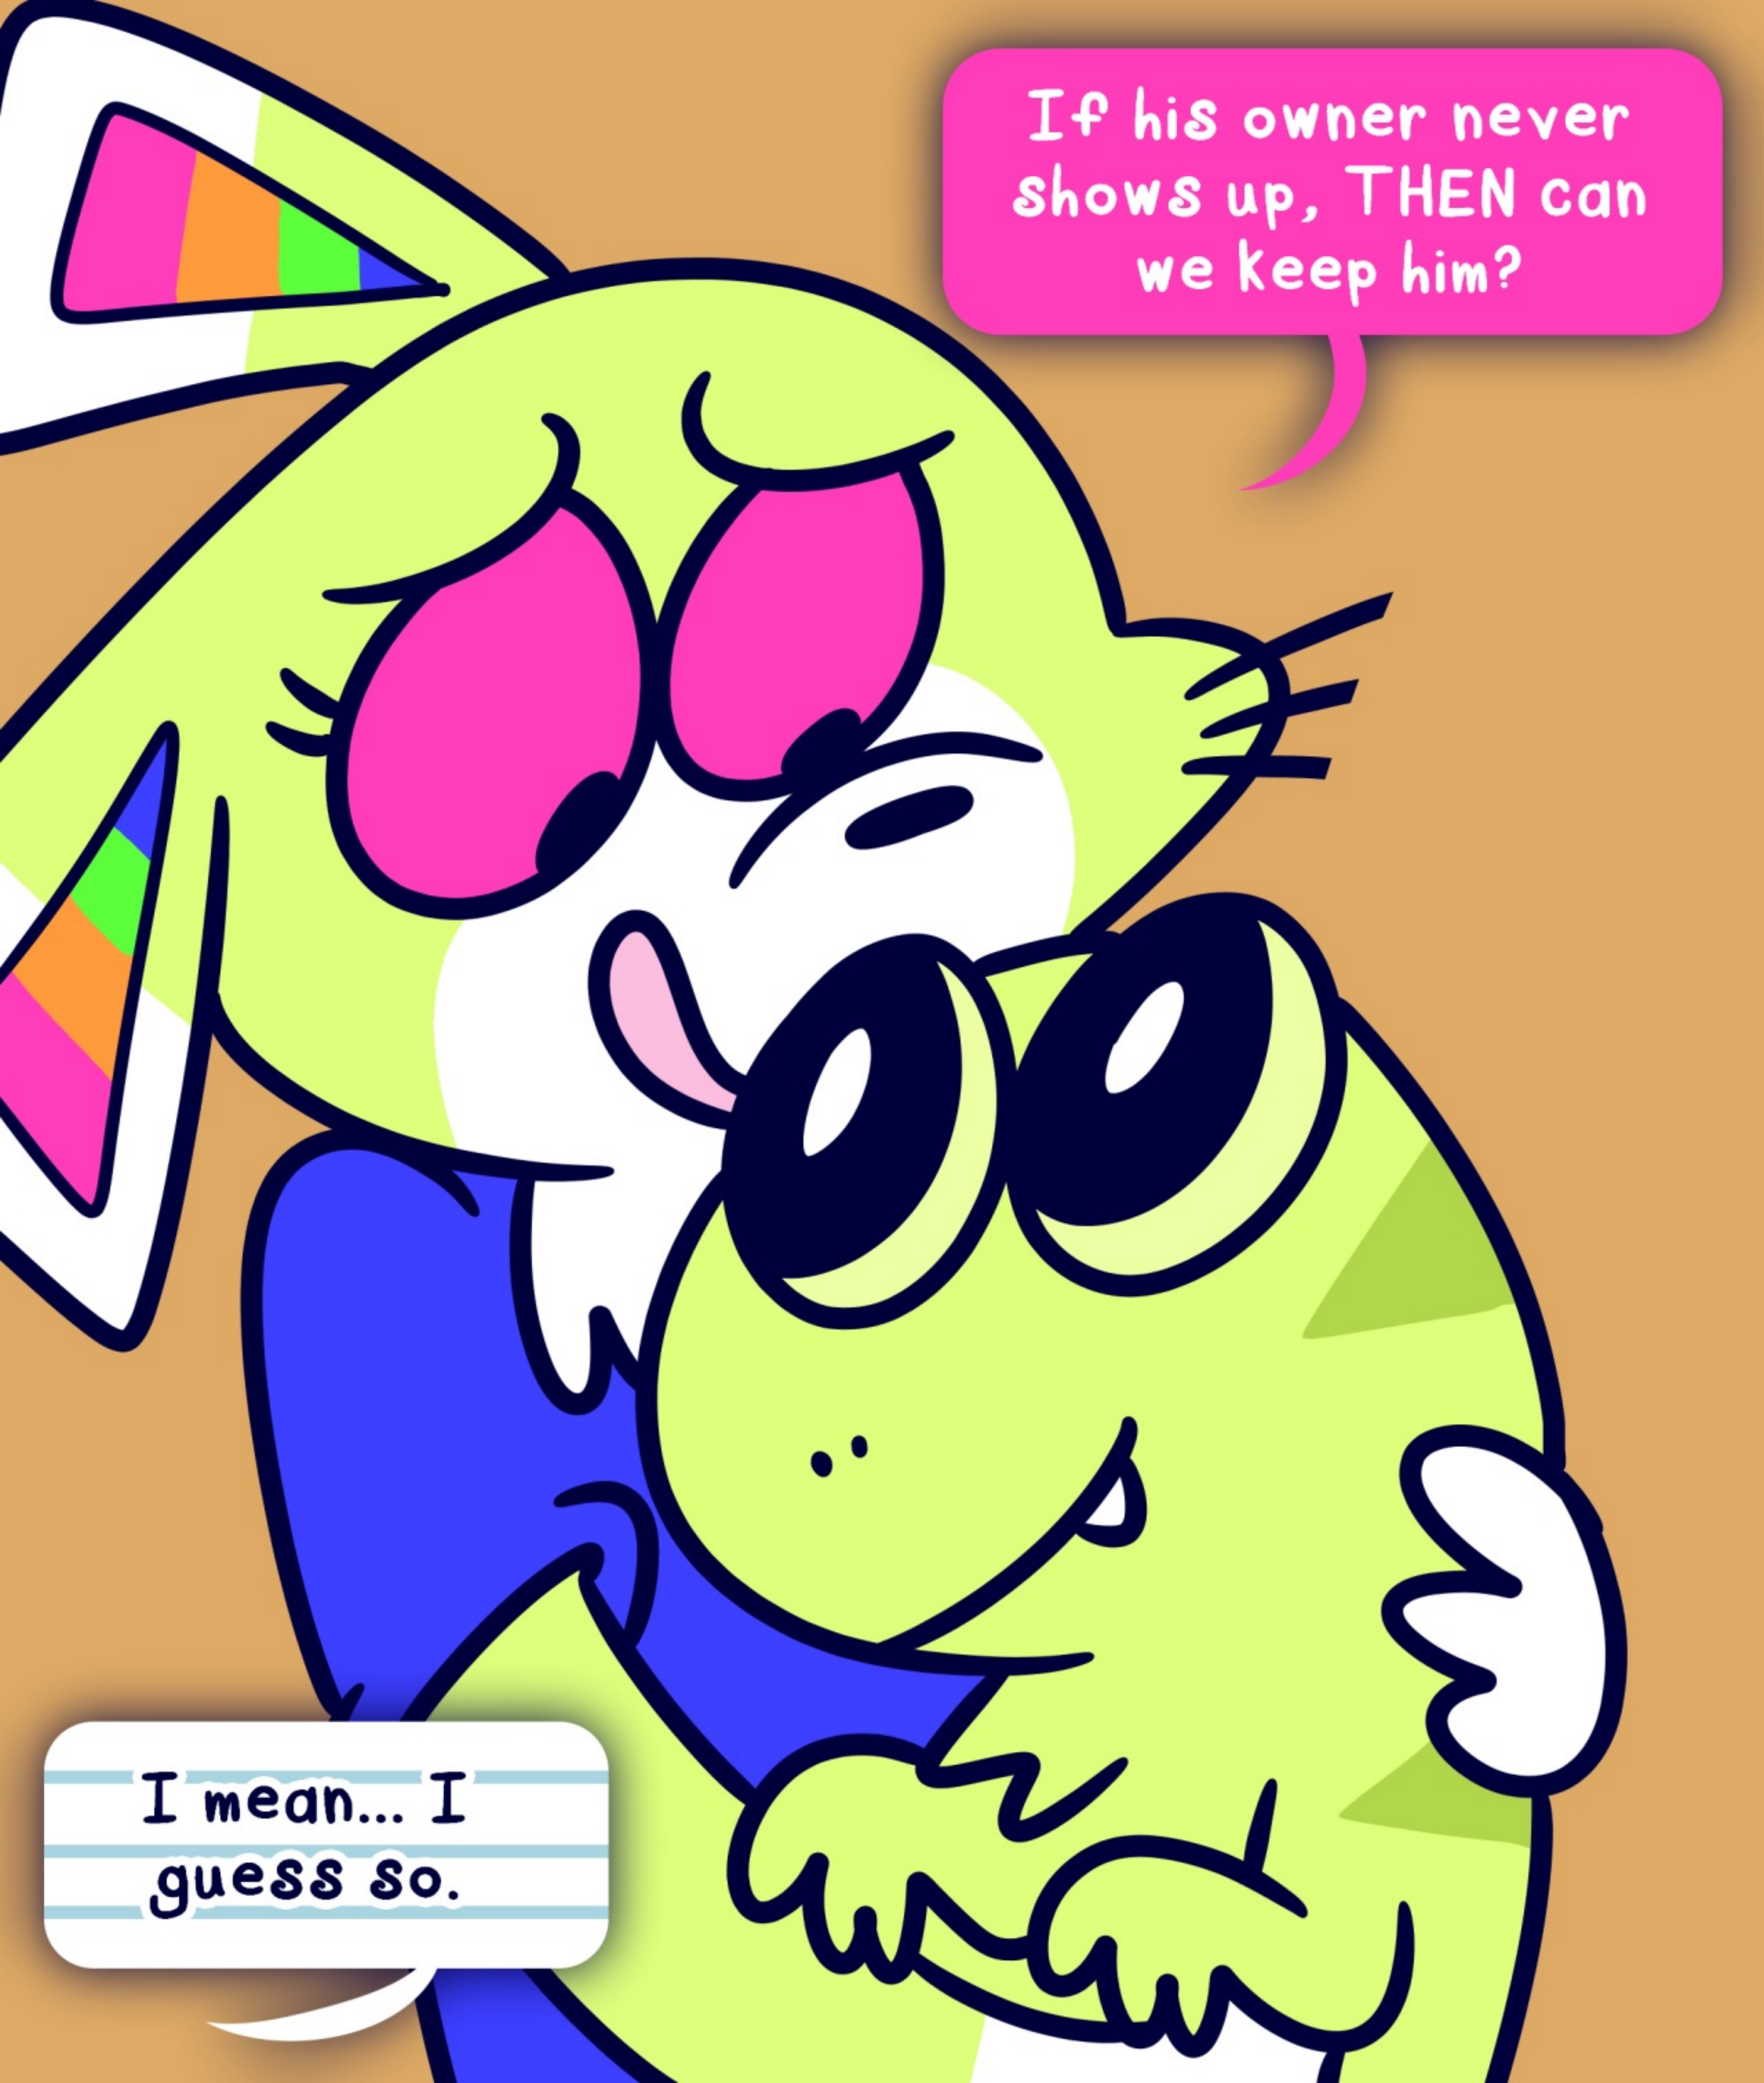
B-but I haven't even graduated yet!!!



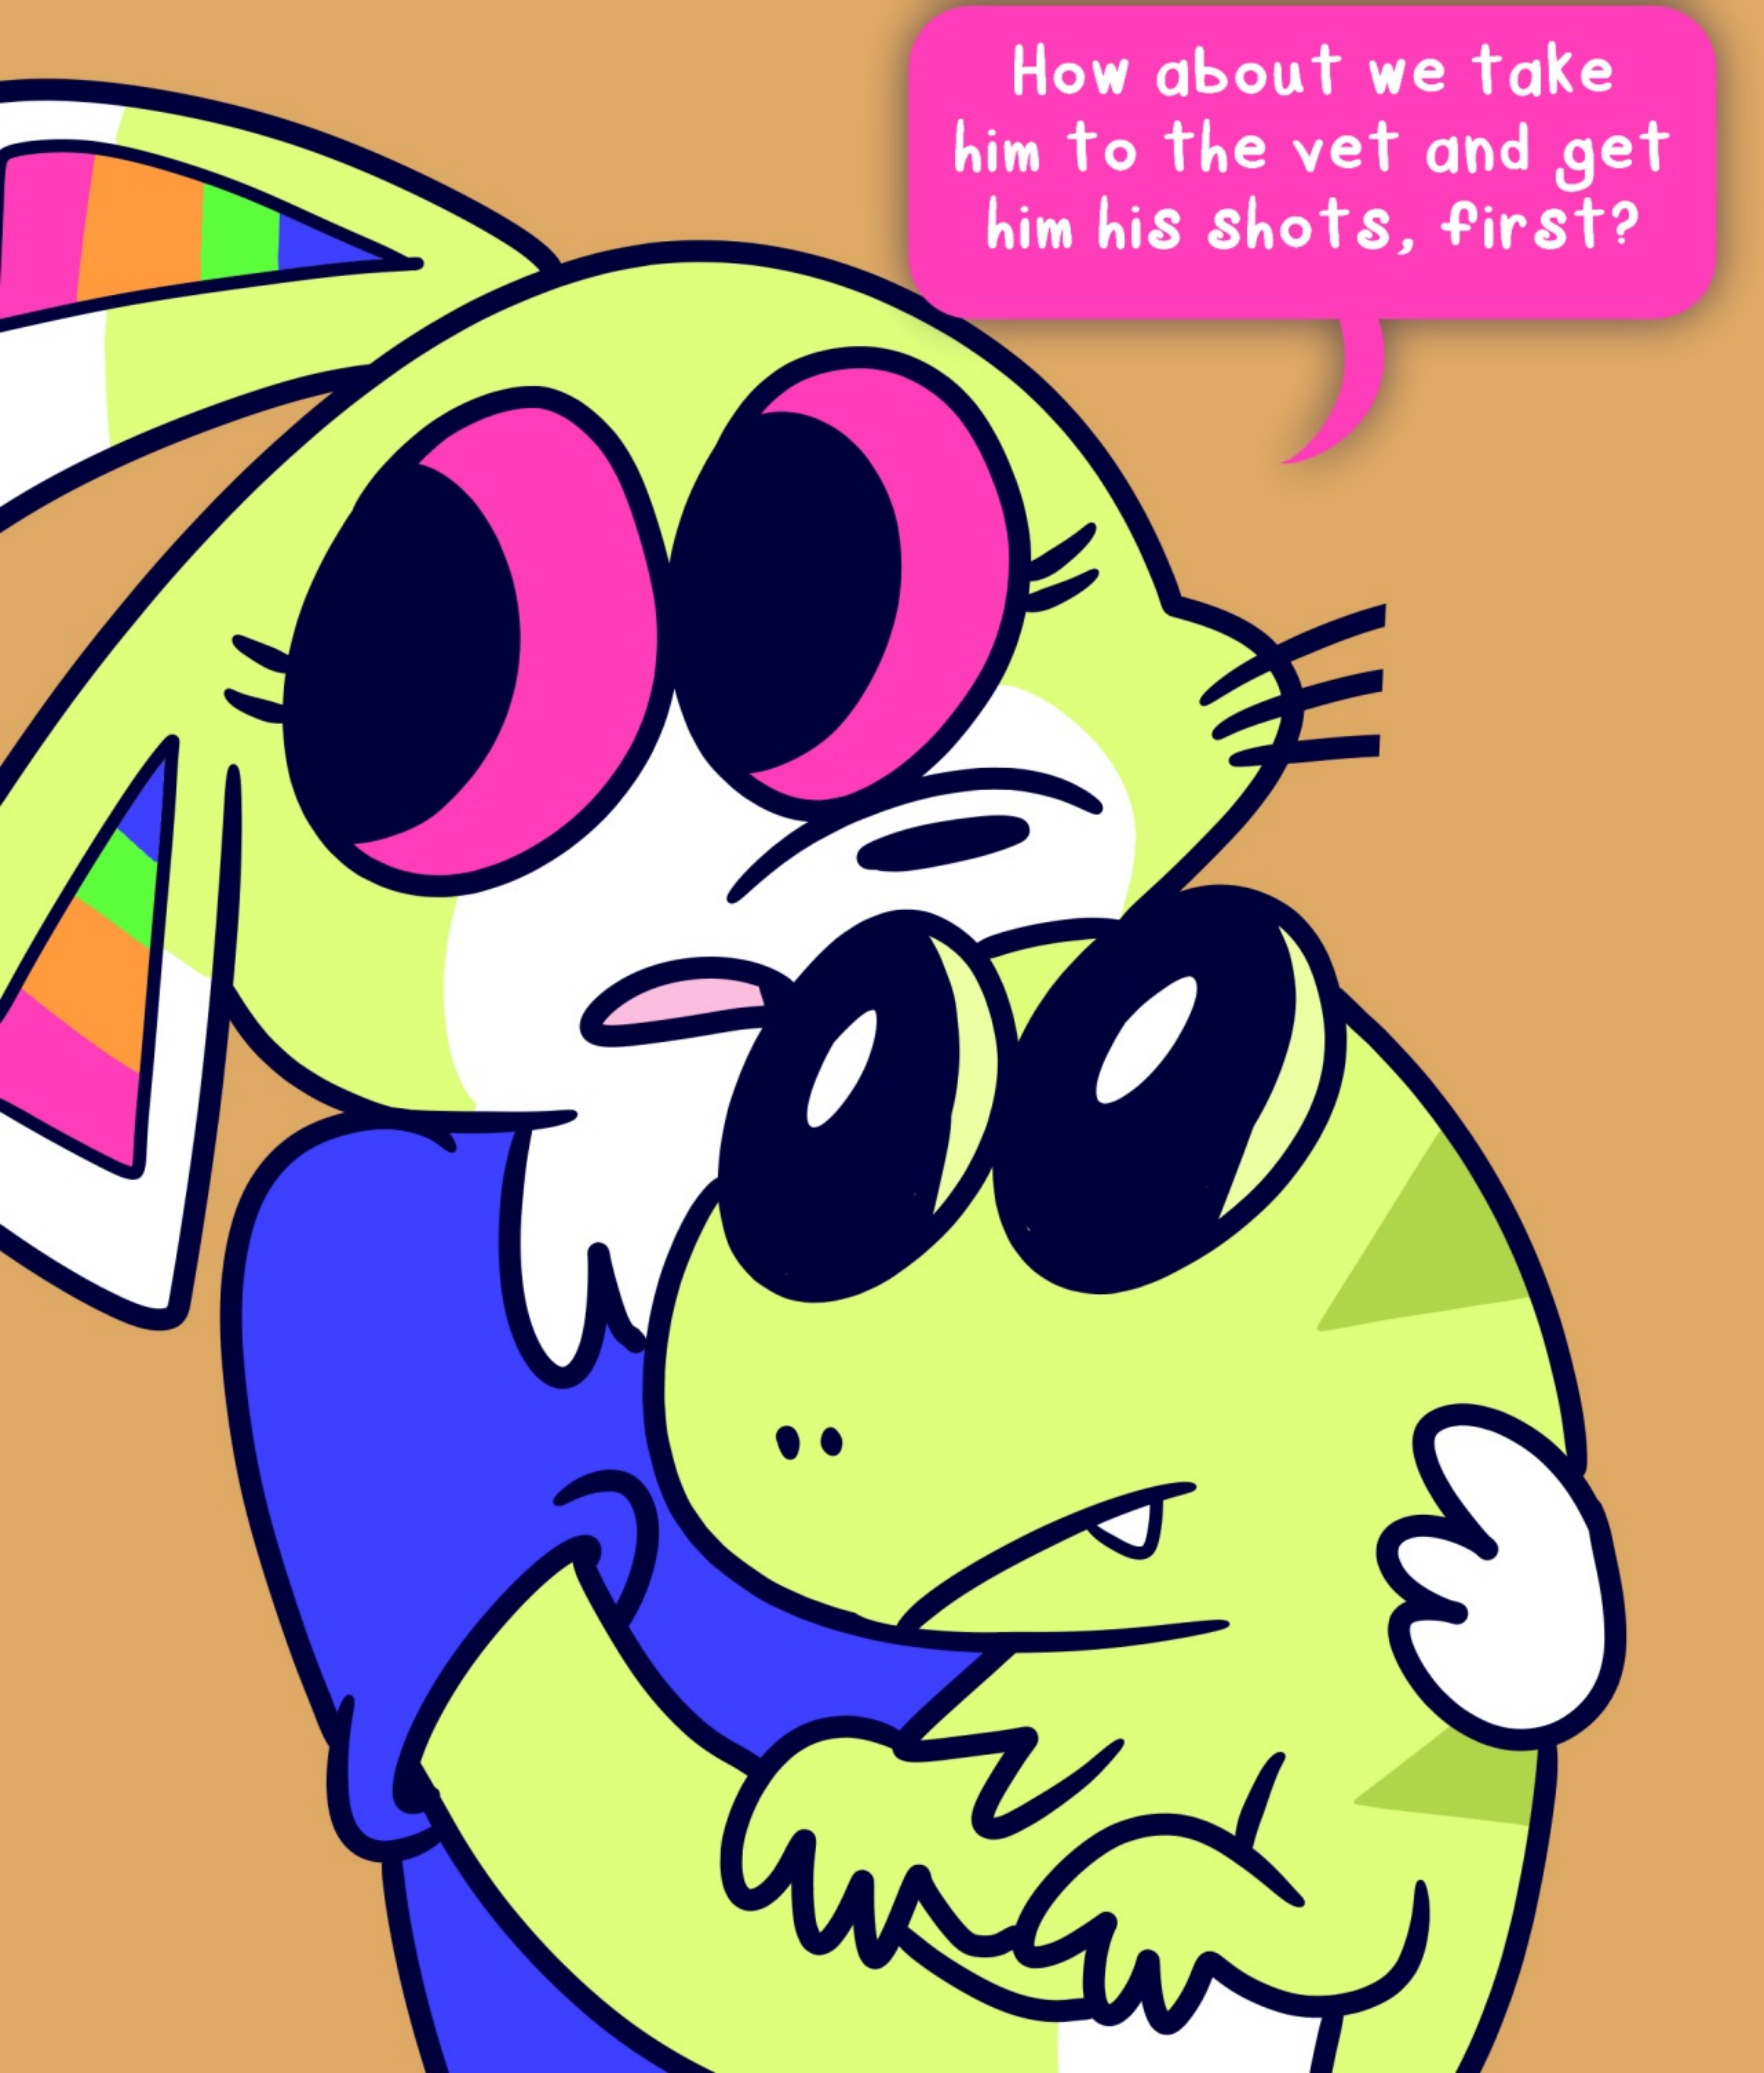
So... what do we do with him?
I wanna keep him!!!



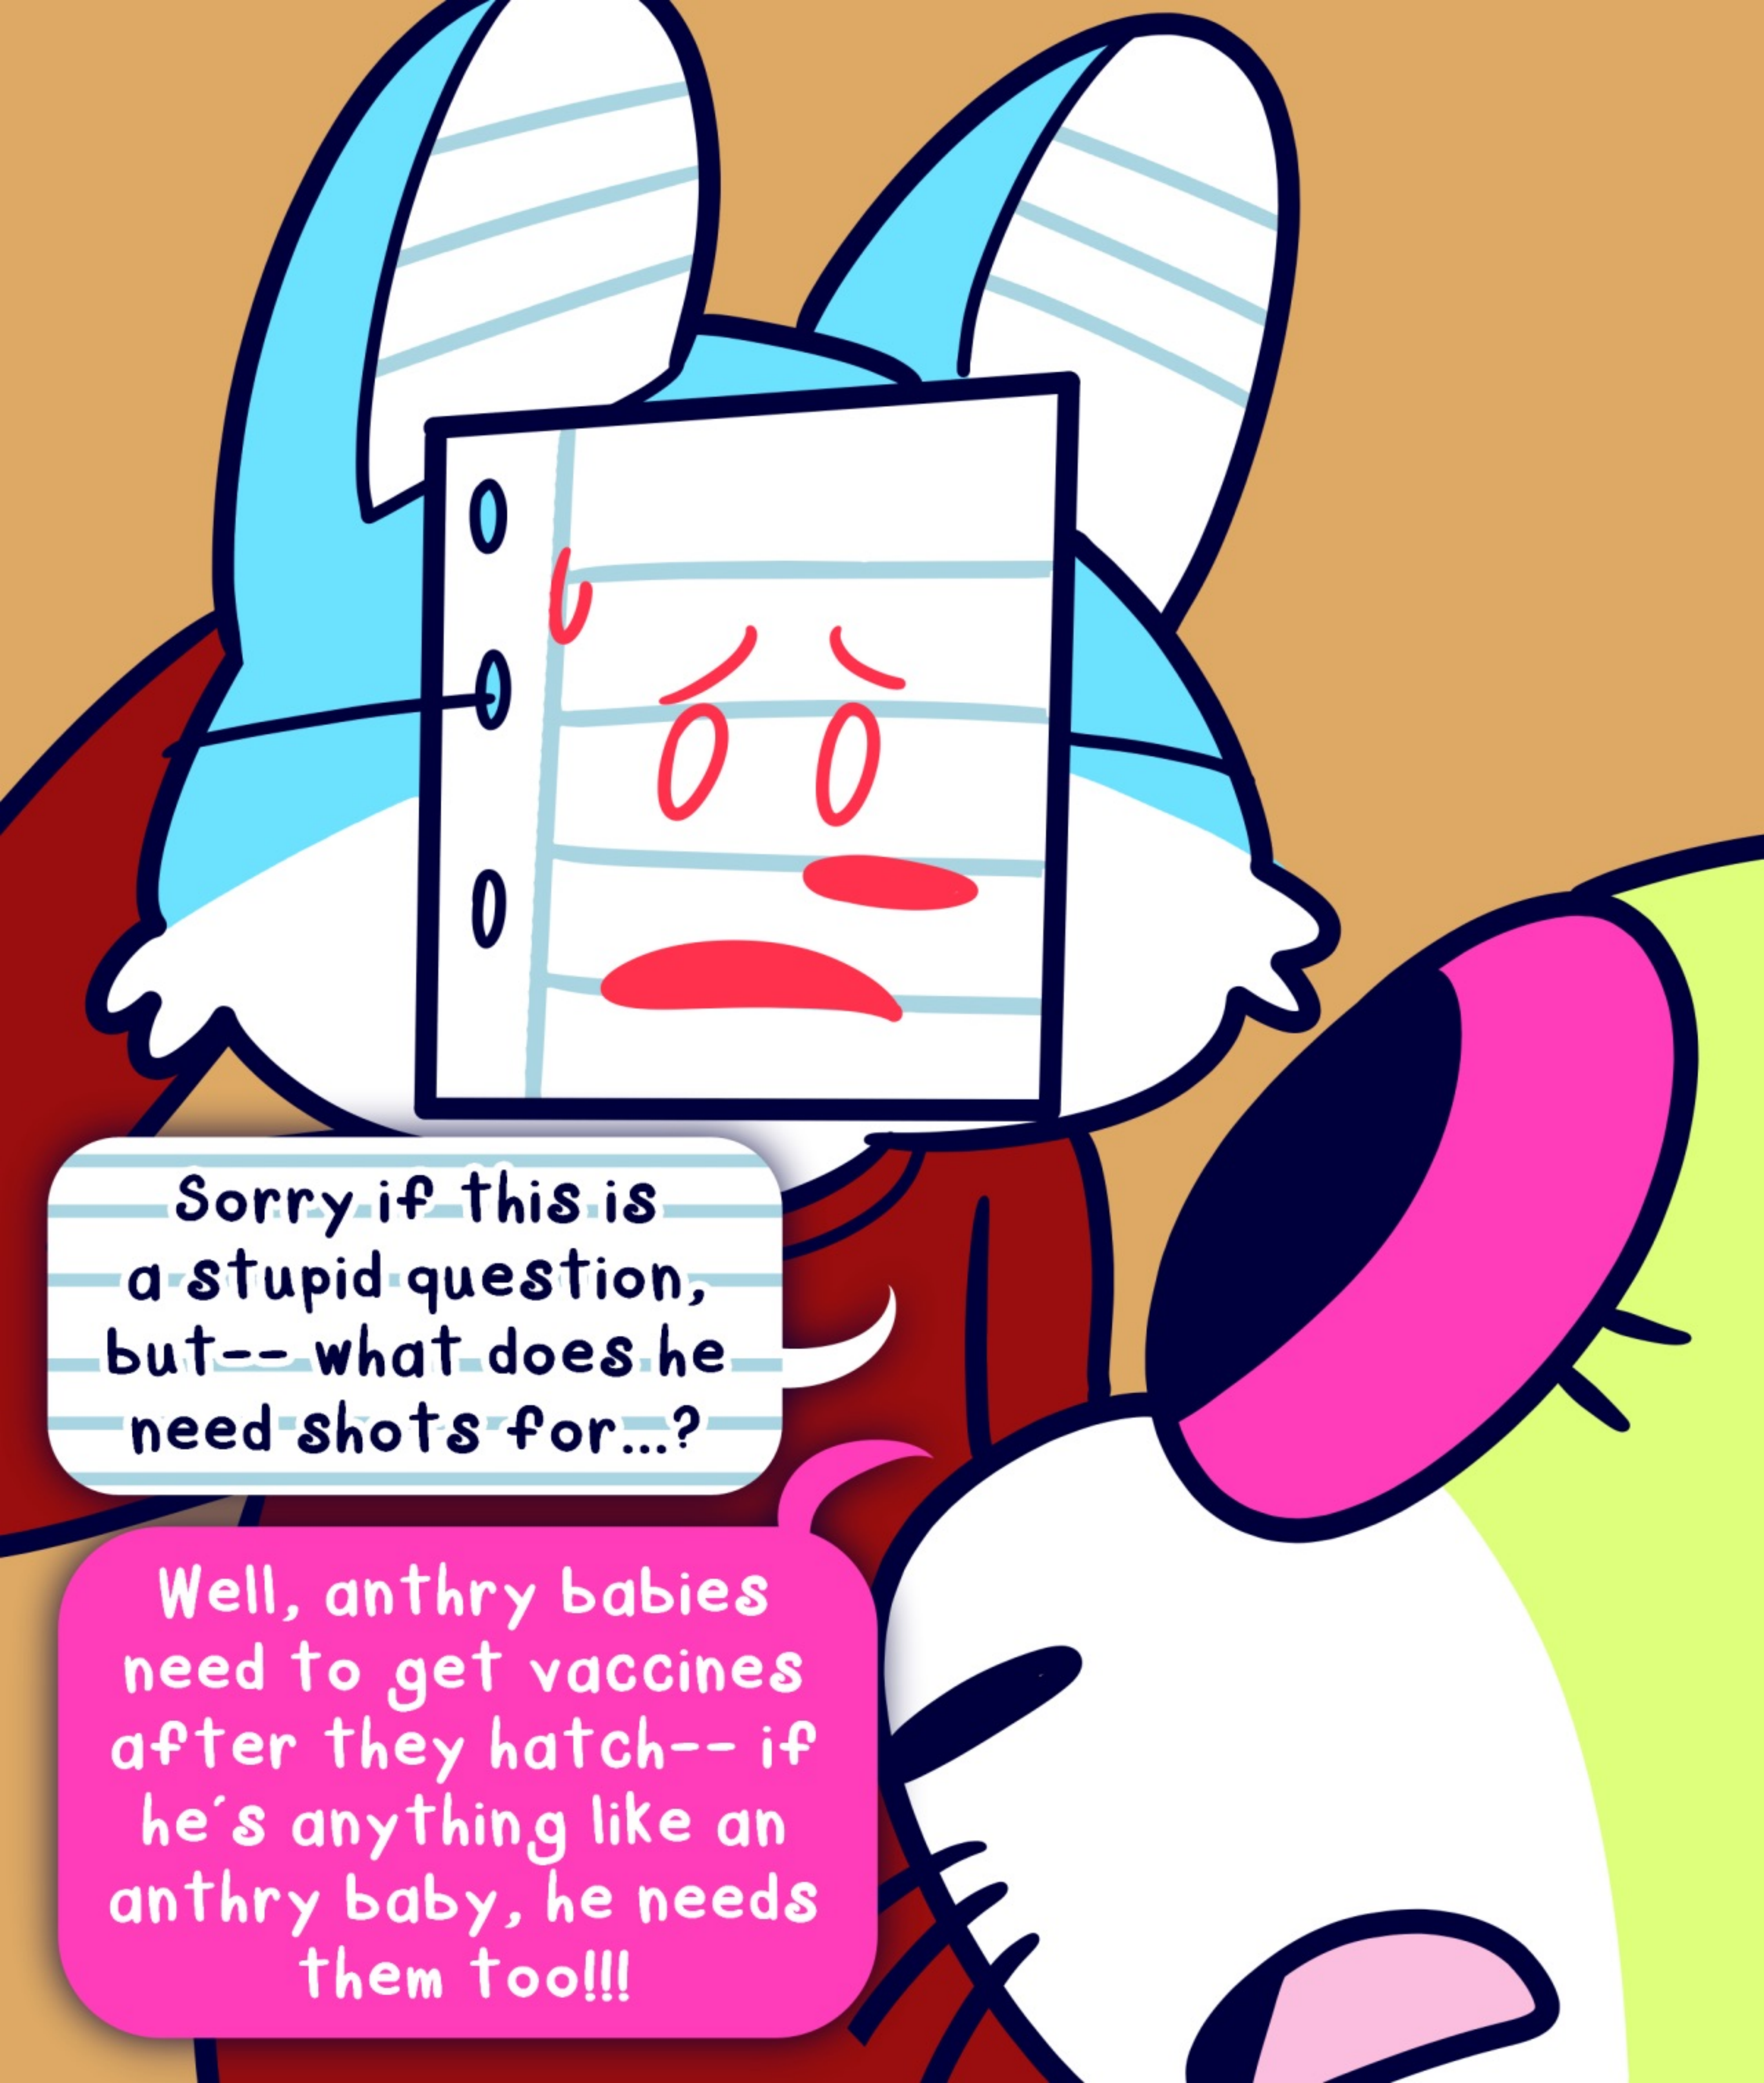
Well, yeah, we could, it´s just... he might already have an owner who´s missing him.



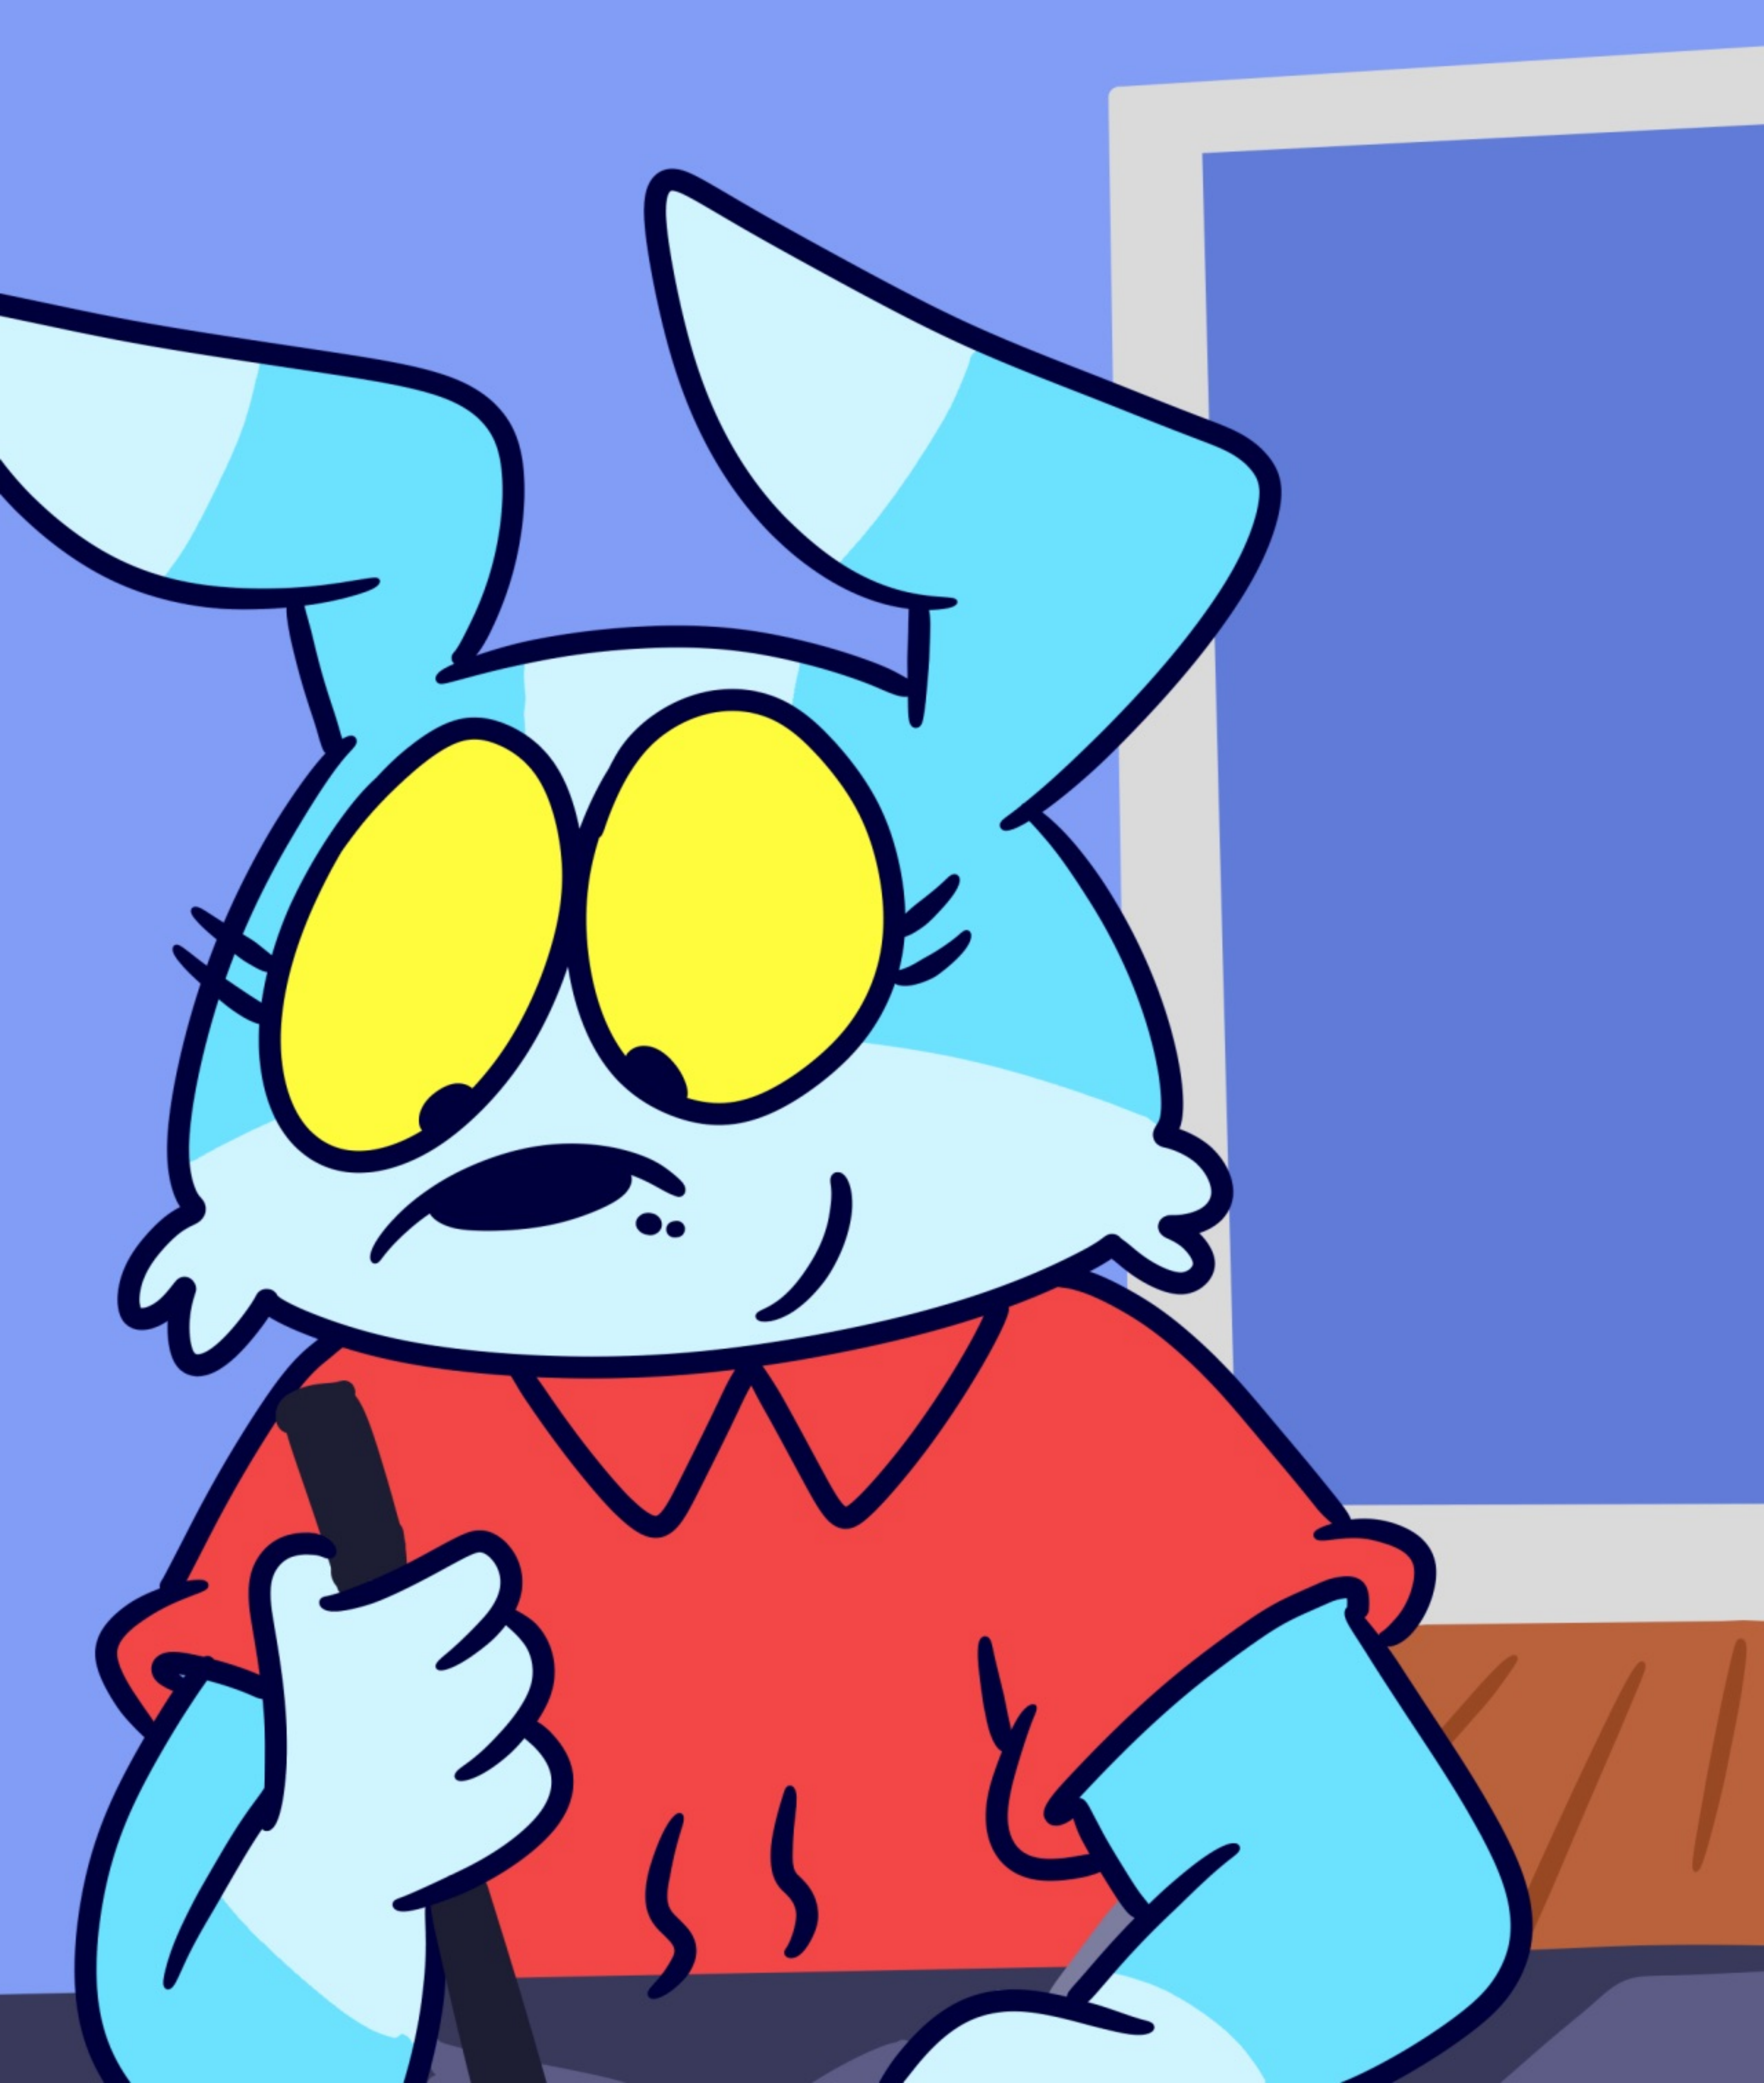
If his owner never shows up, THEN can we keep him?
I mean... I guess so.

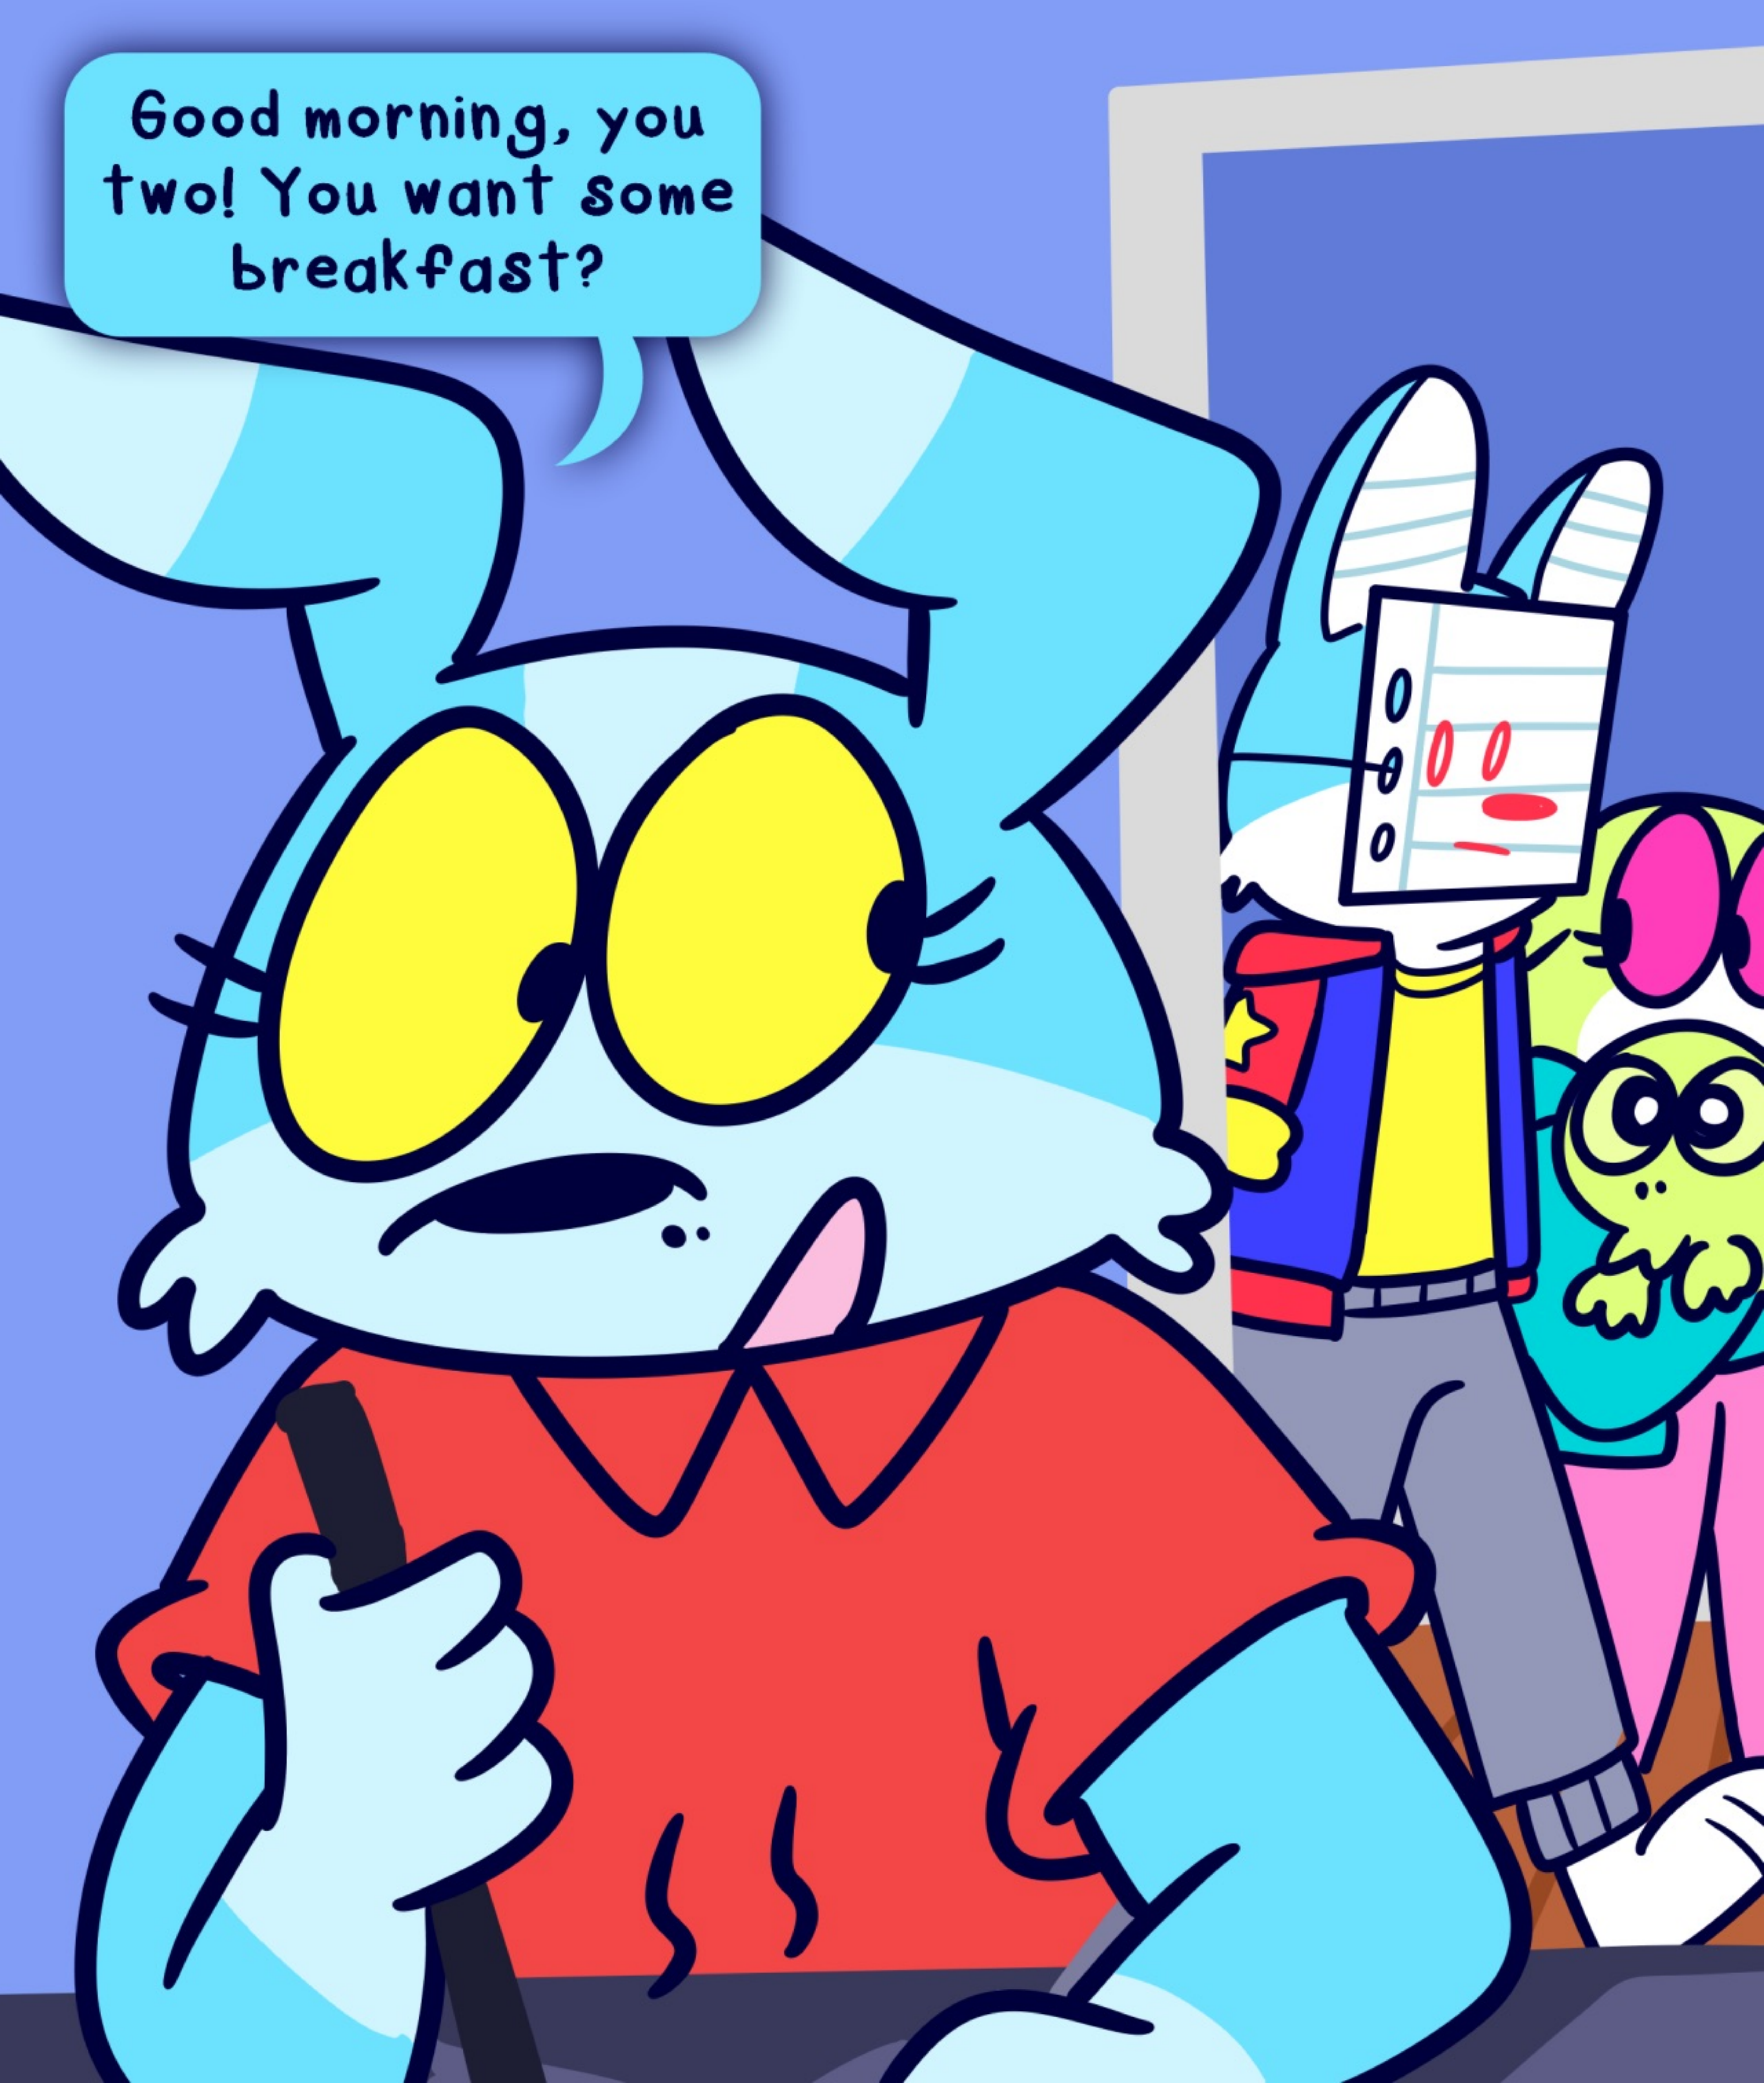


How about we take him to the vet and get him his shots, first?

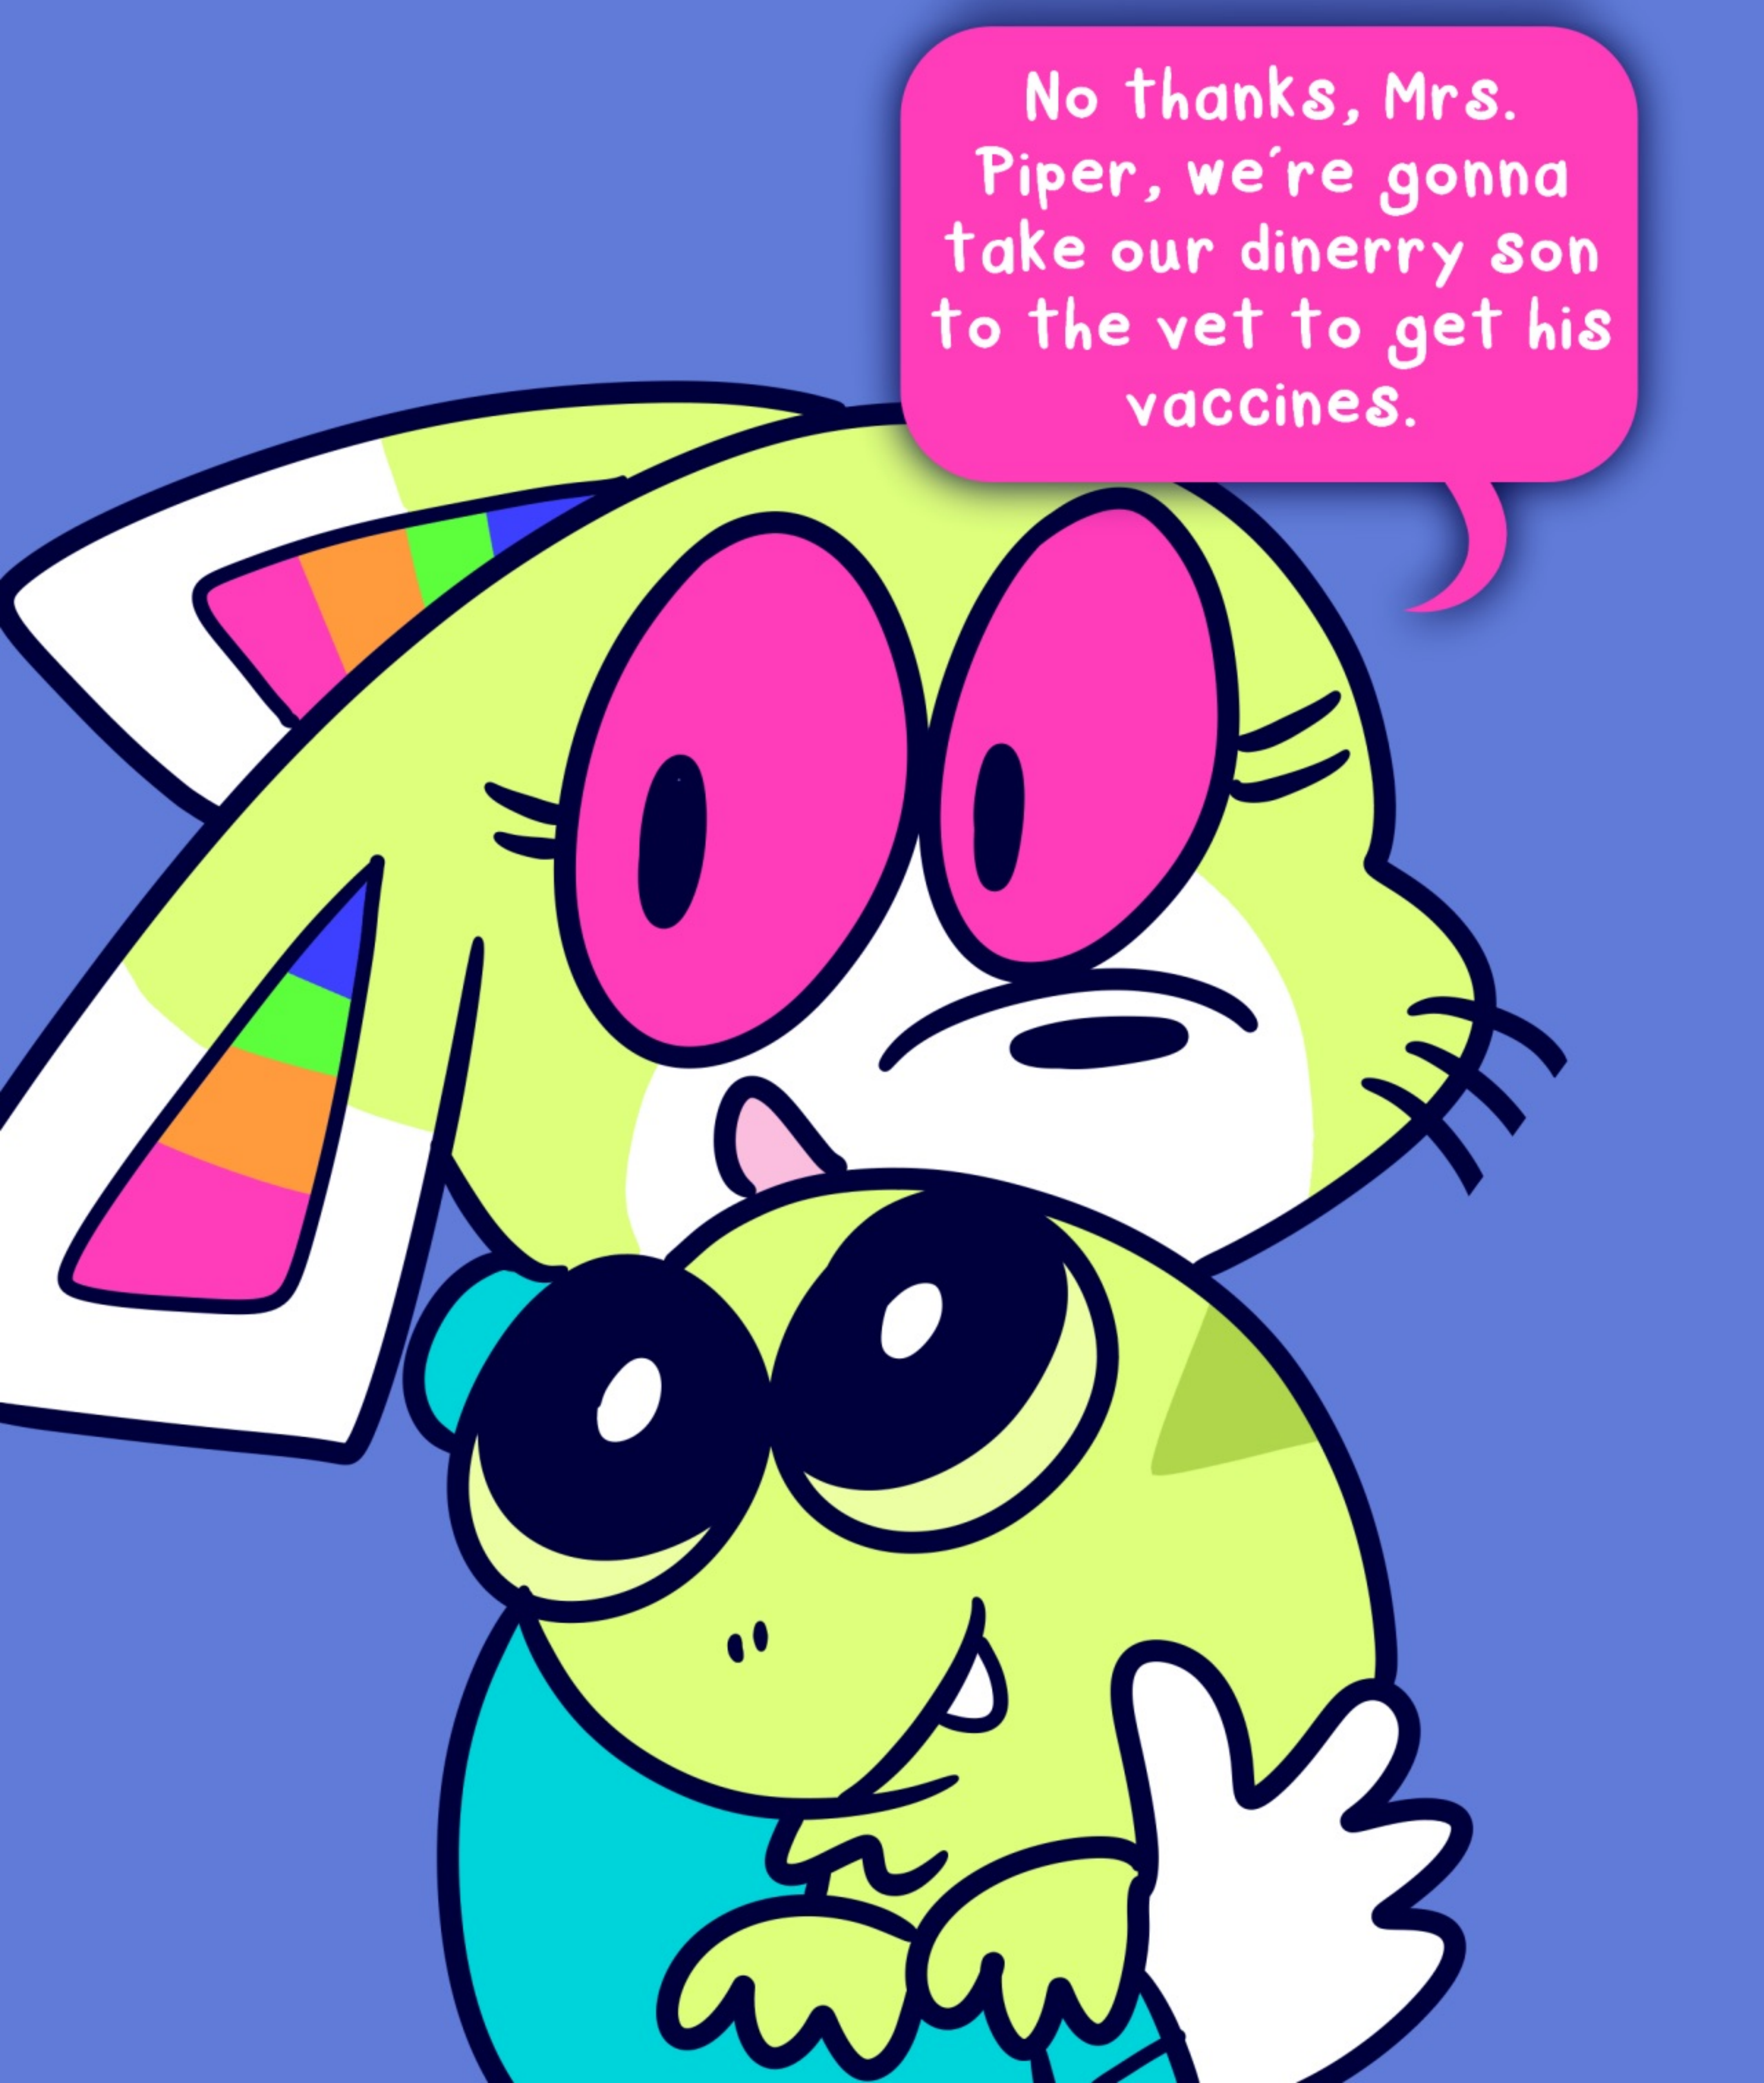


Sorry if this is a stupid question, but-- what does he need shots for...?
Well, anthry babies need to get vaccines after they hatch-- if he´s anything like an anthry baby, he needs them too!!!

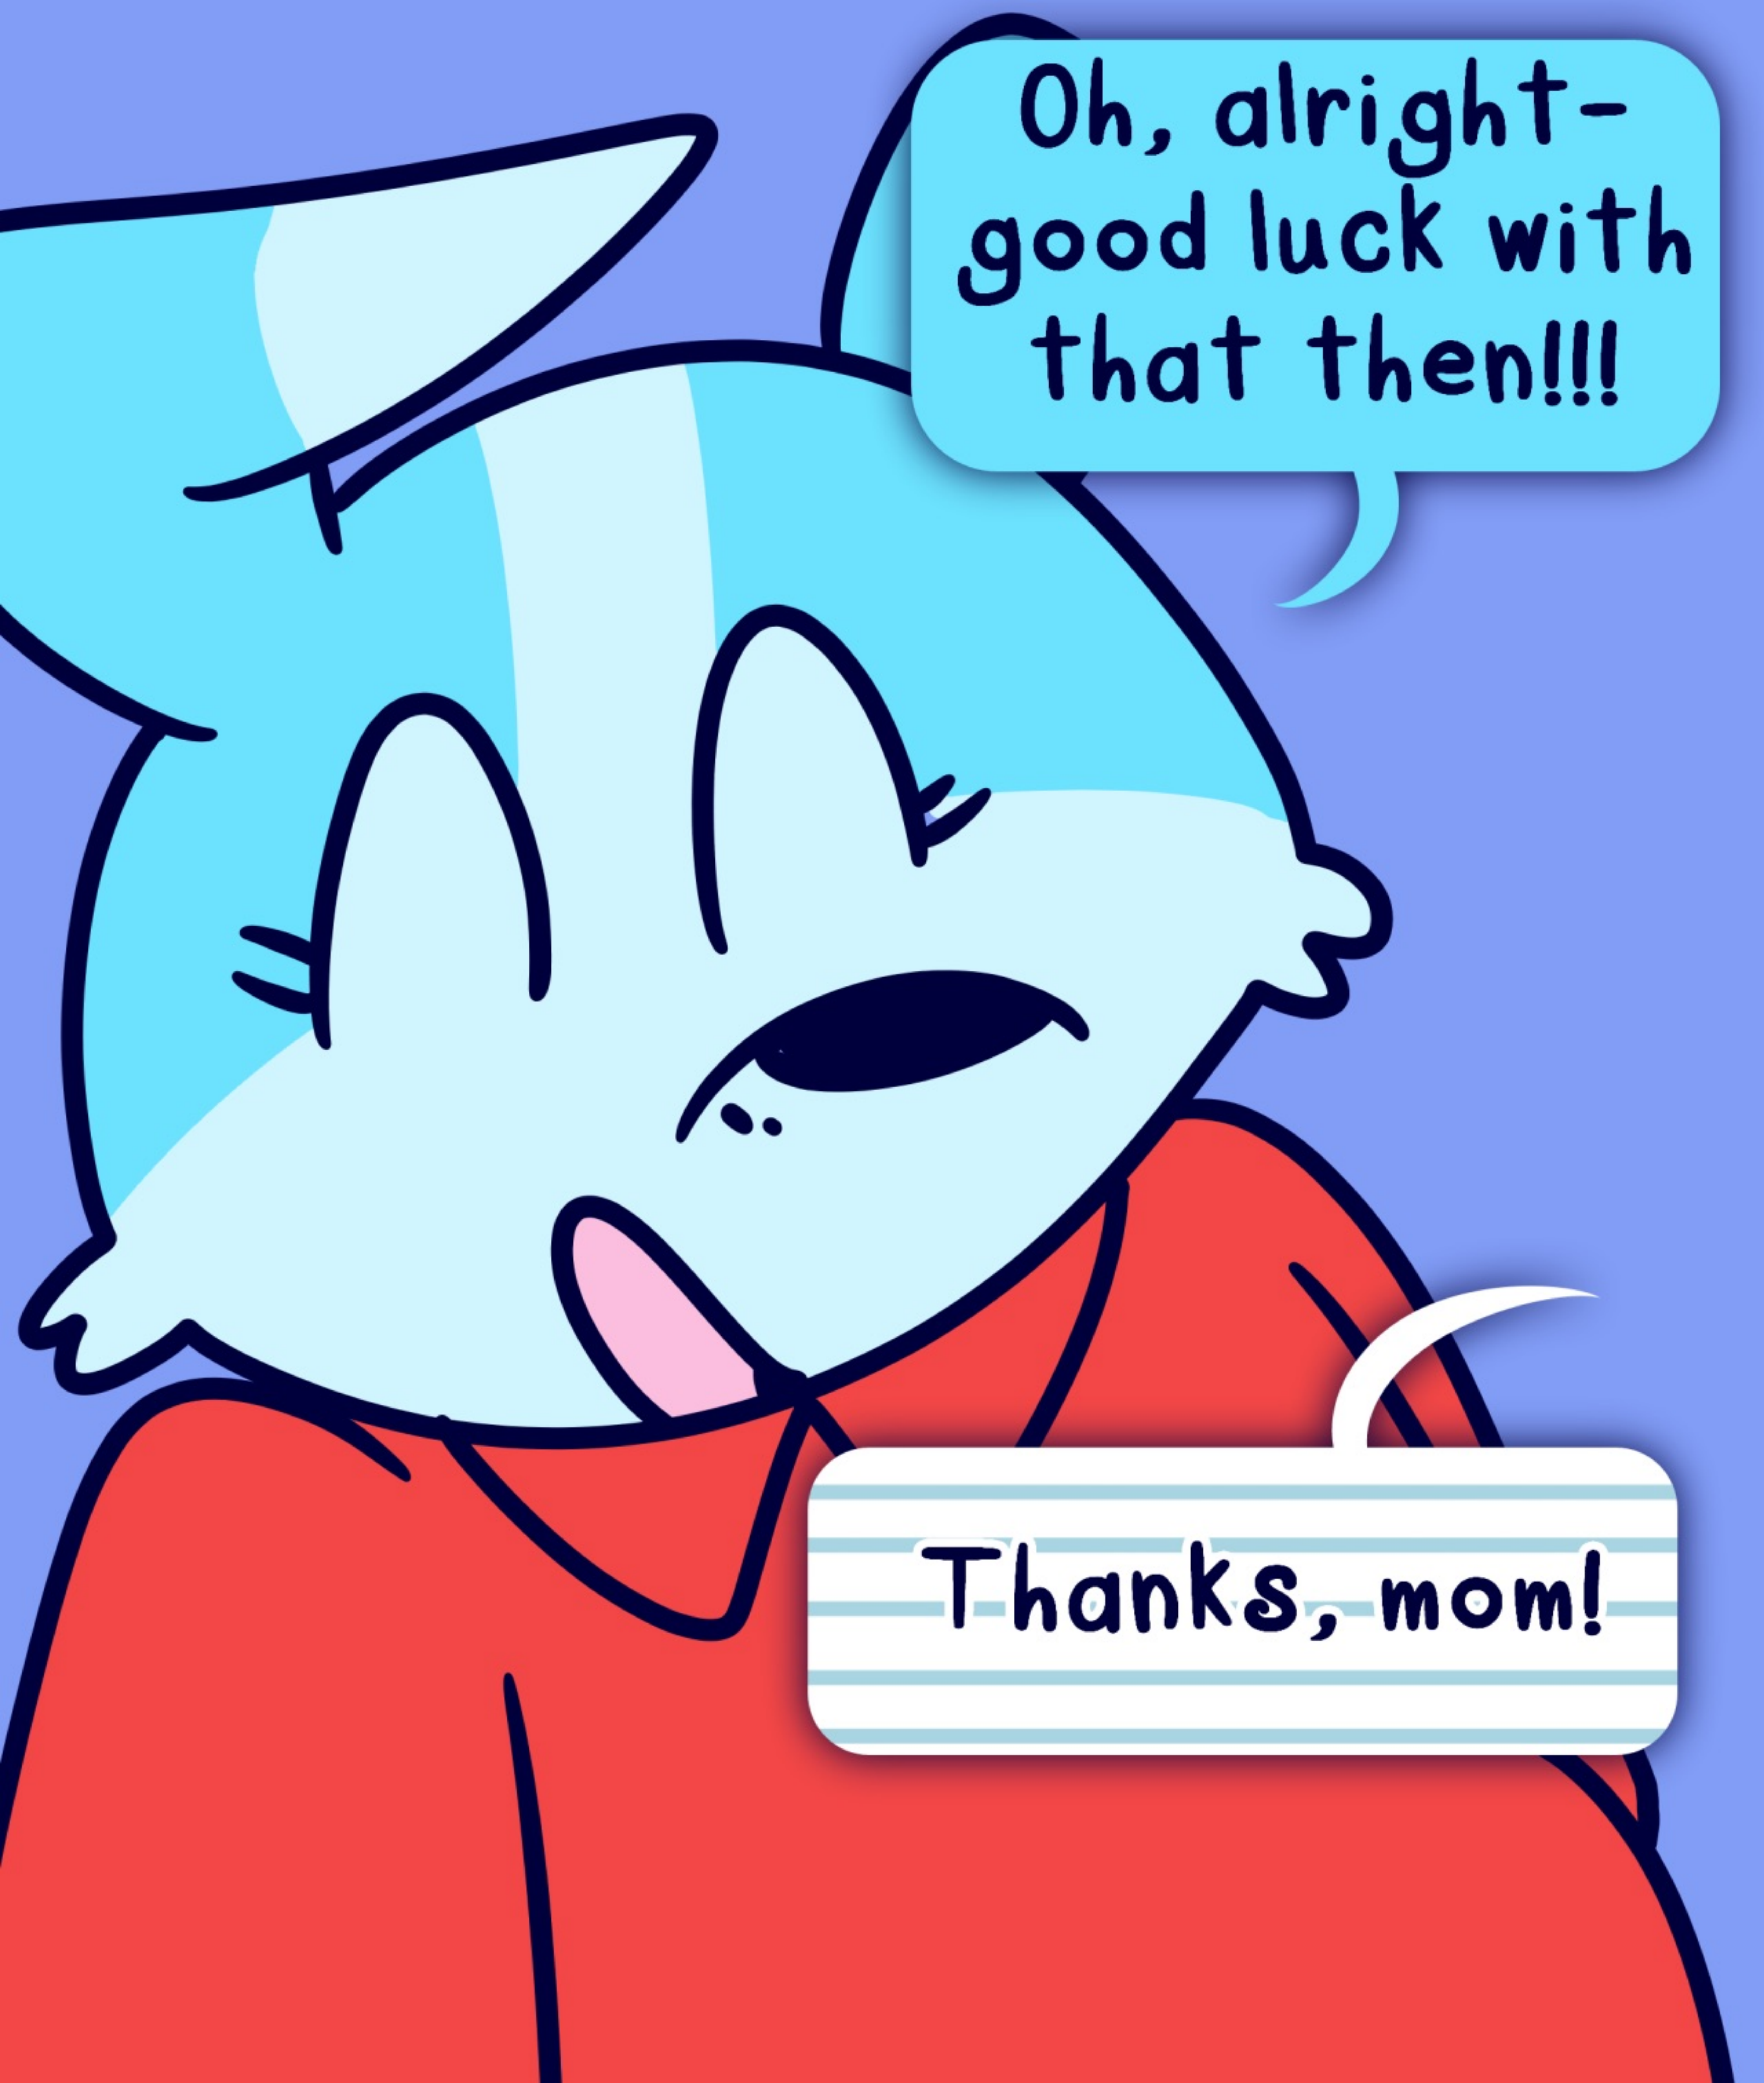




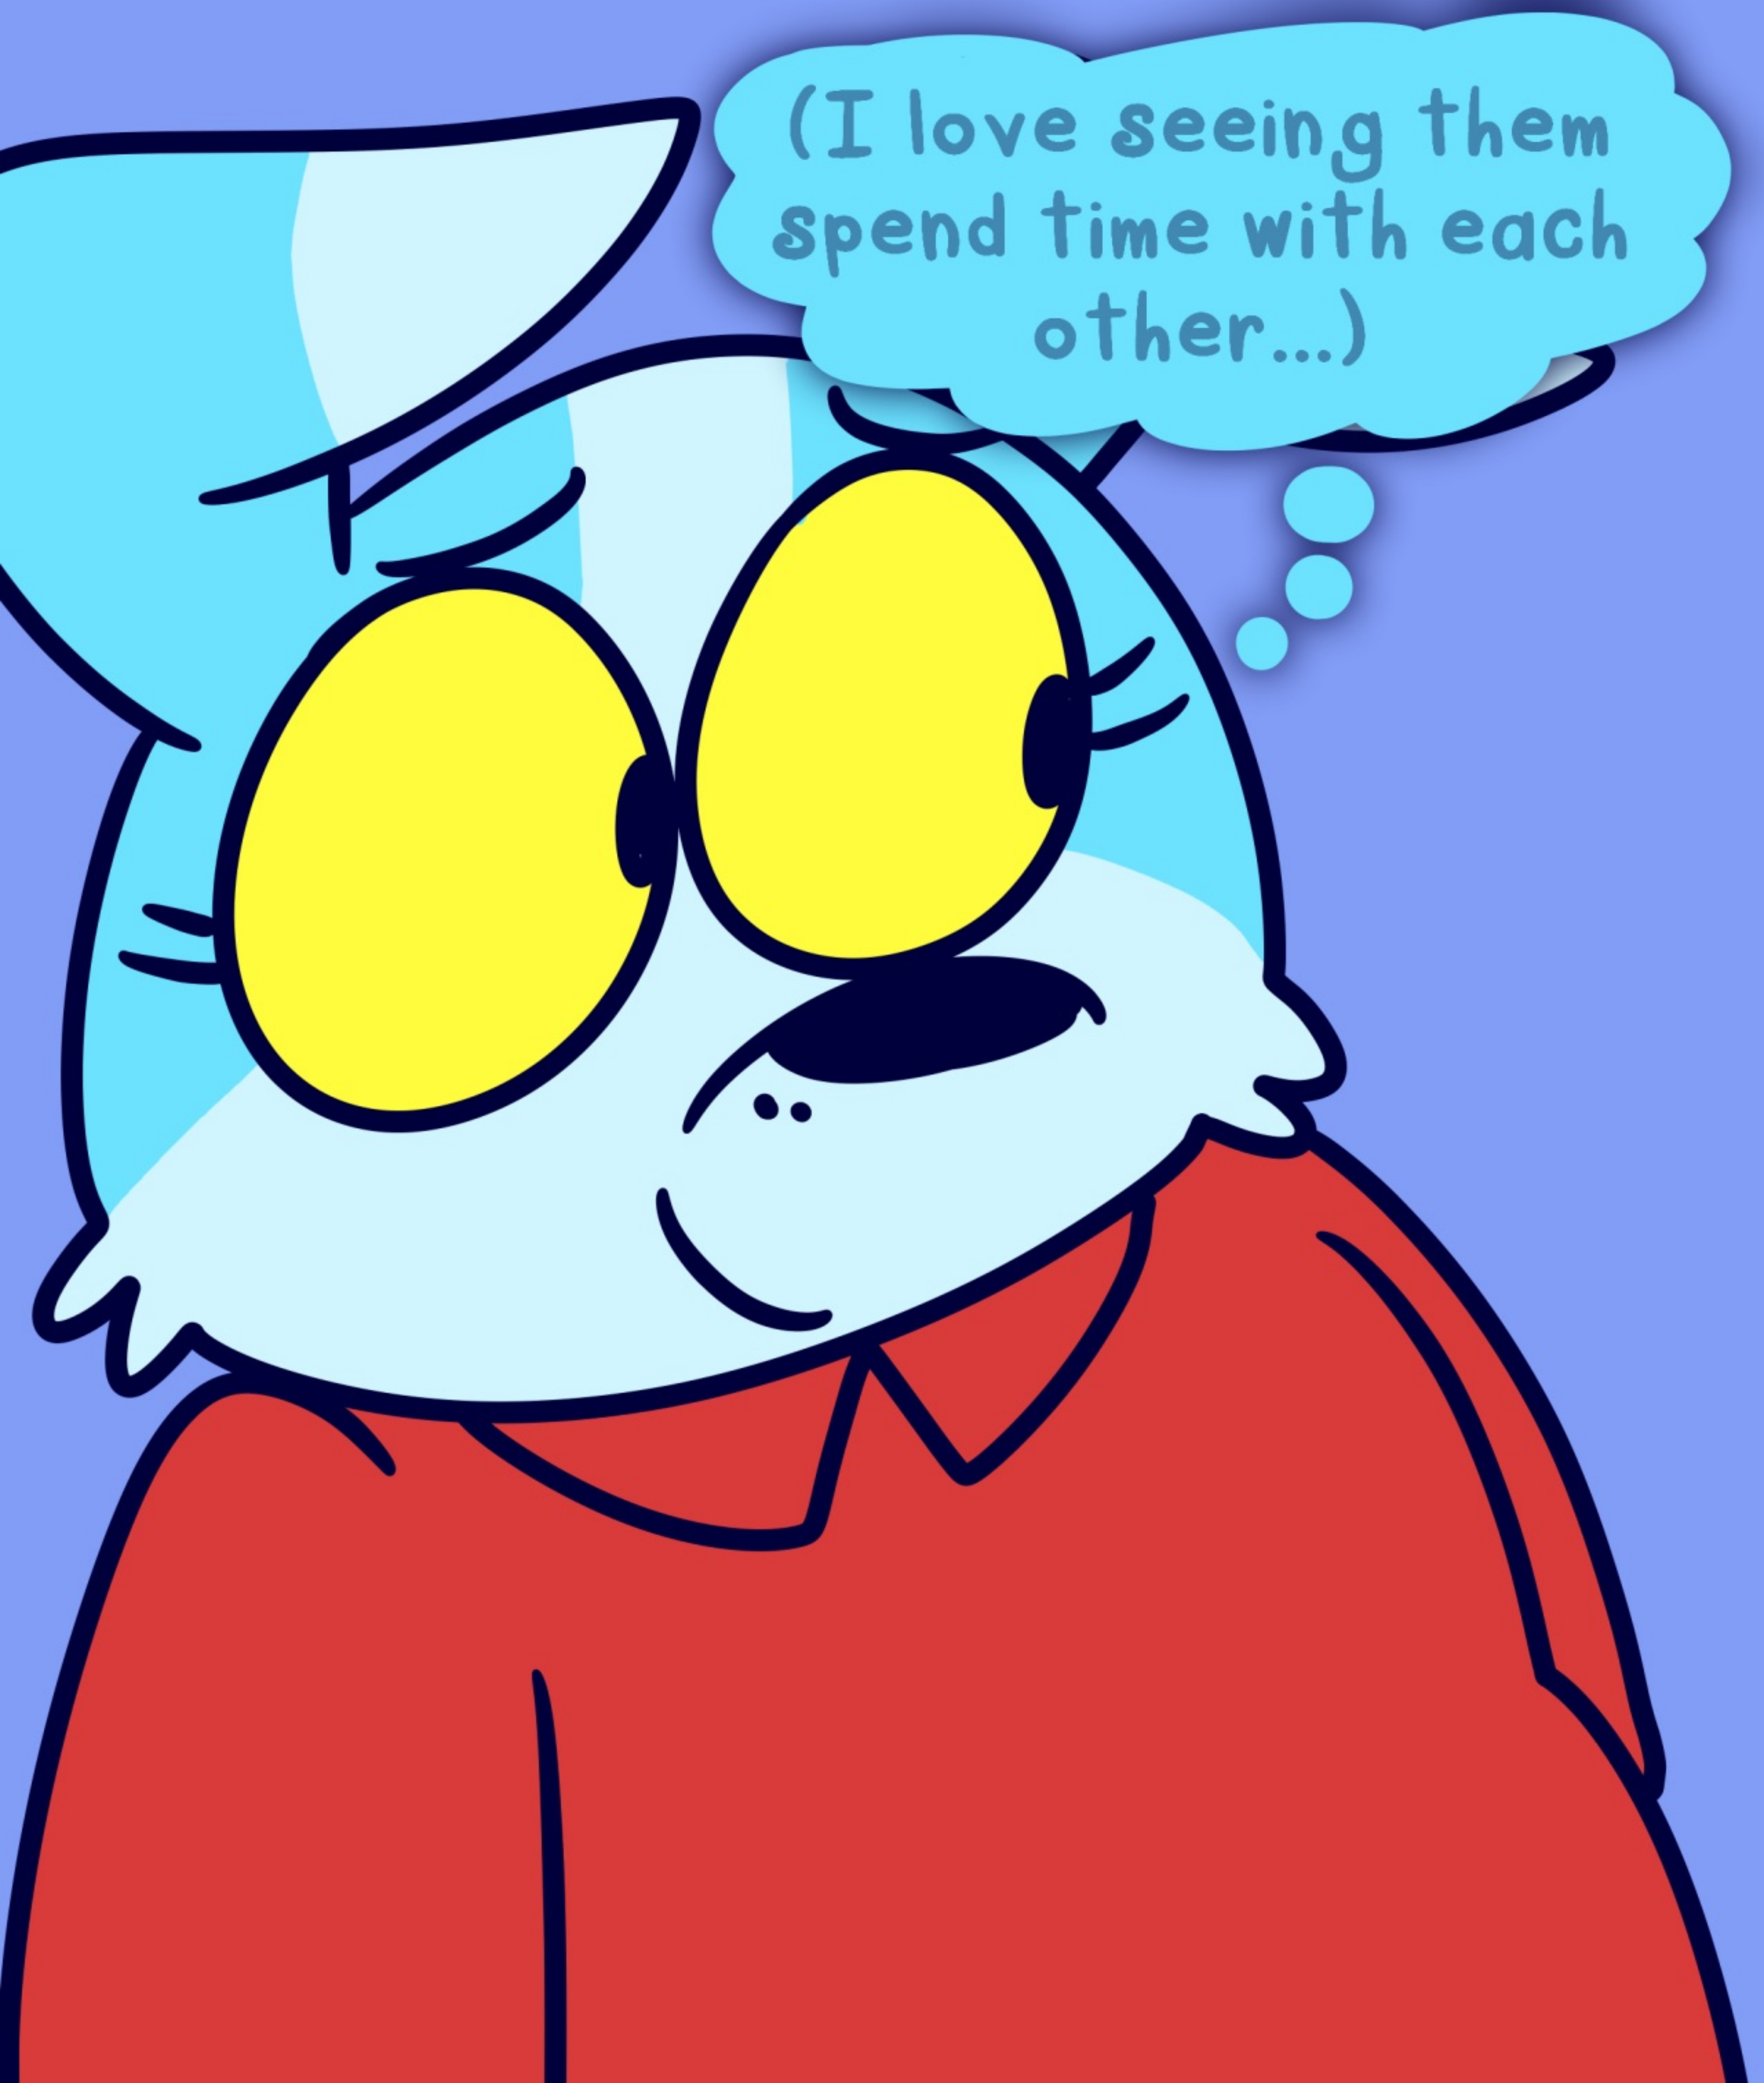
Good morning, you two! You want some breakfast?



No thanks, Mrs. Piper, we´re gonna take our dinerry son to the vet to get his vaccines.



Oh, alright- good luck with that then!!!
Thanks, mom!



(I love seeing them spend time with each other...)

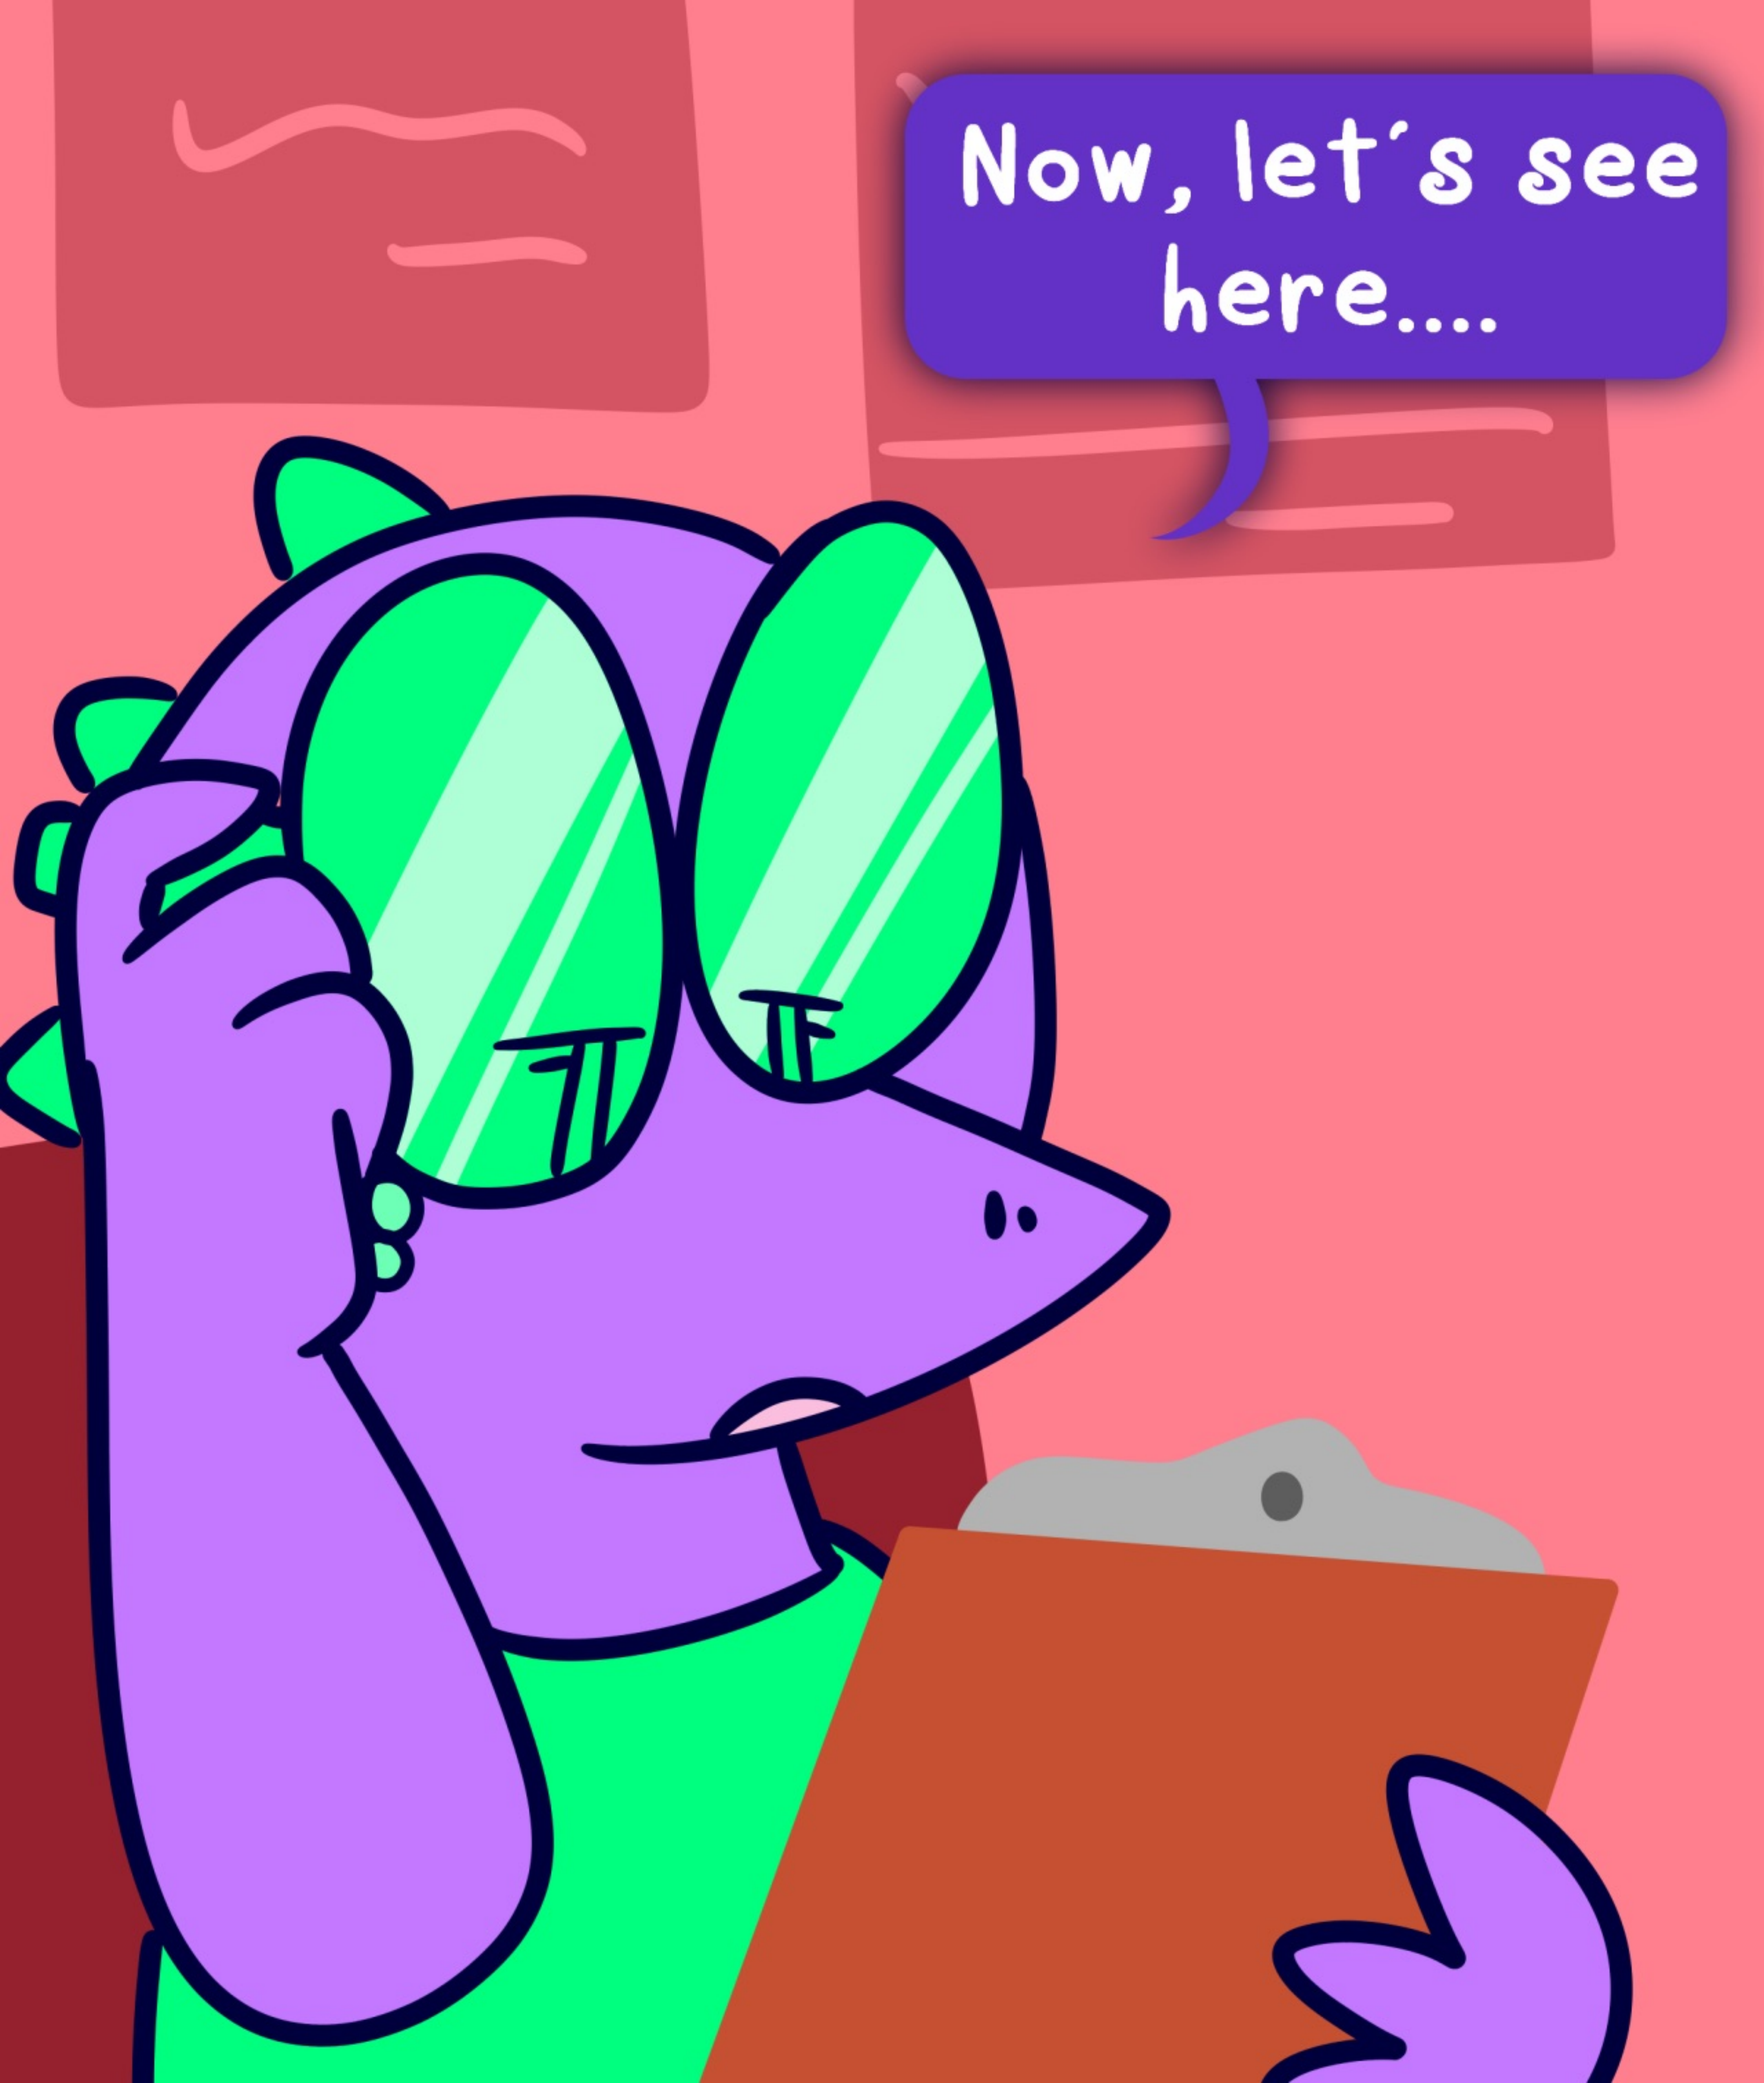
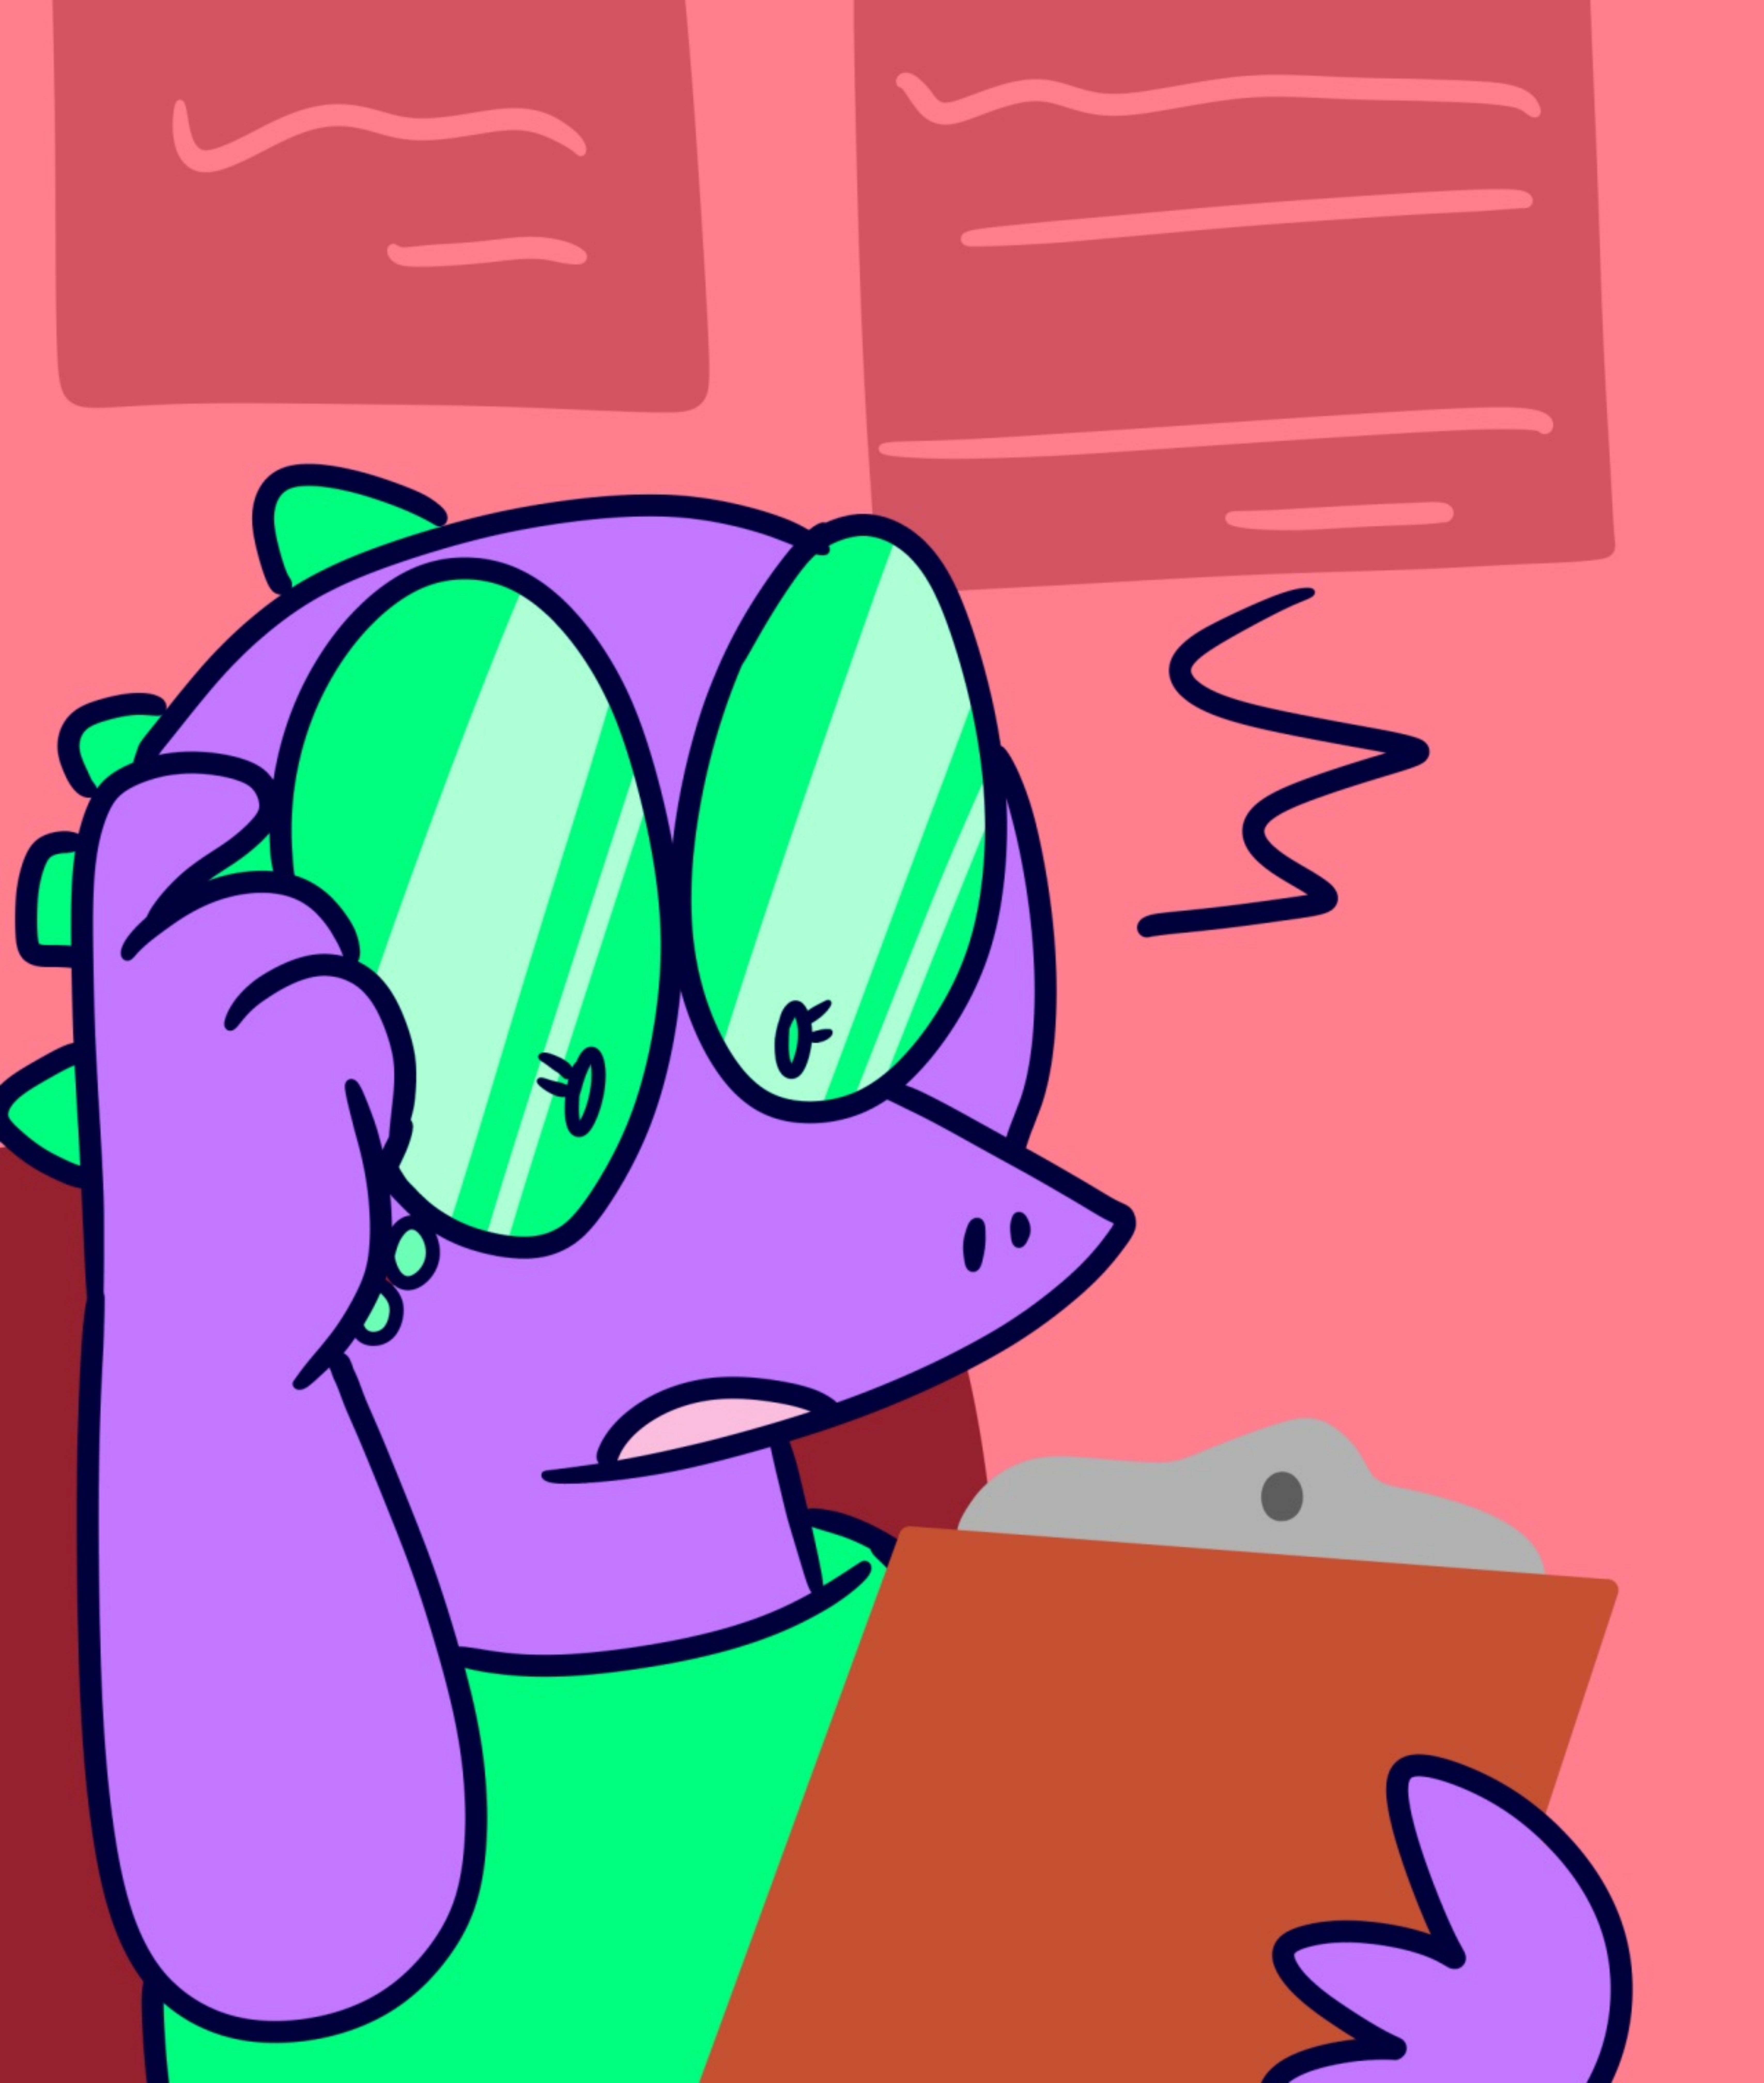
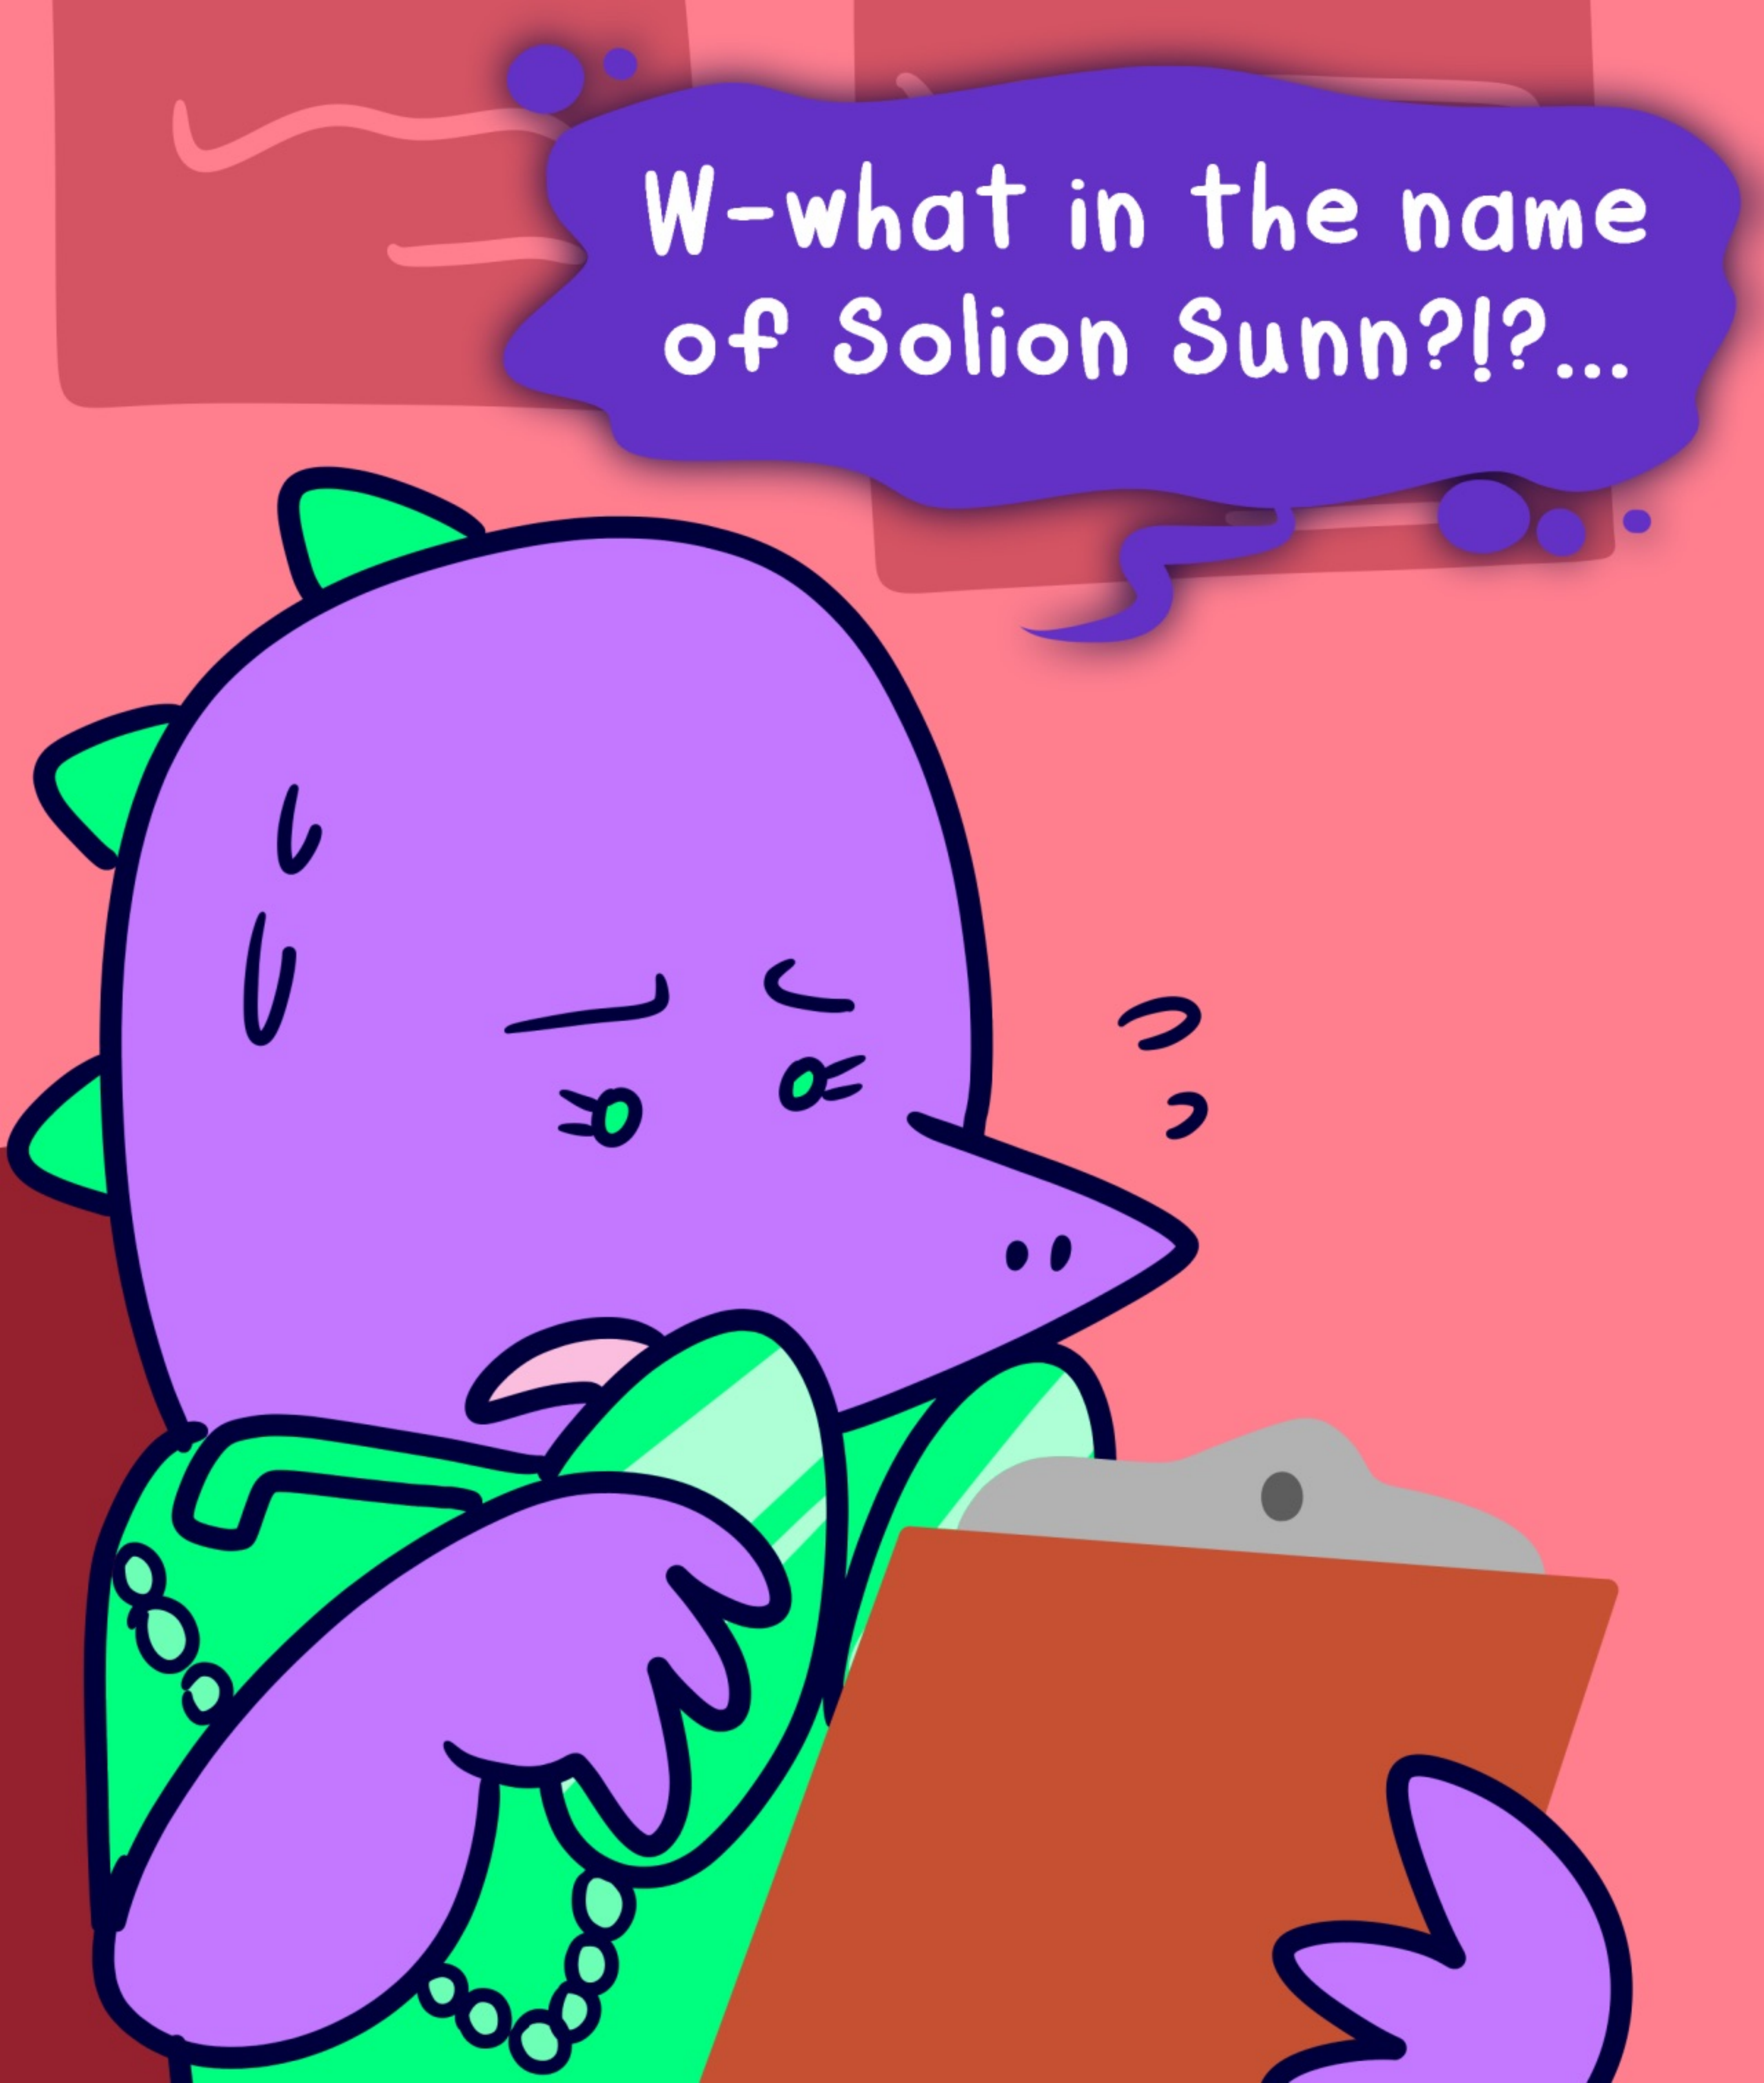
Here you go, ma'am.

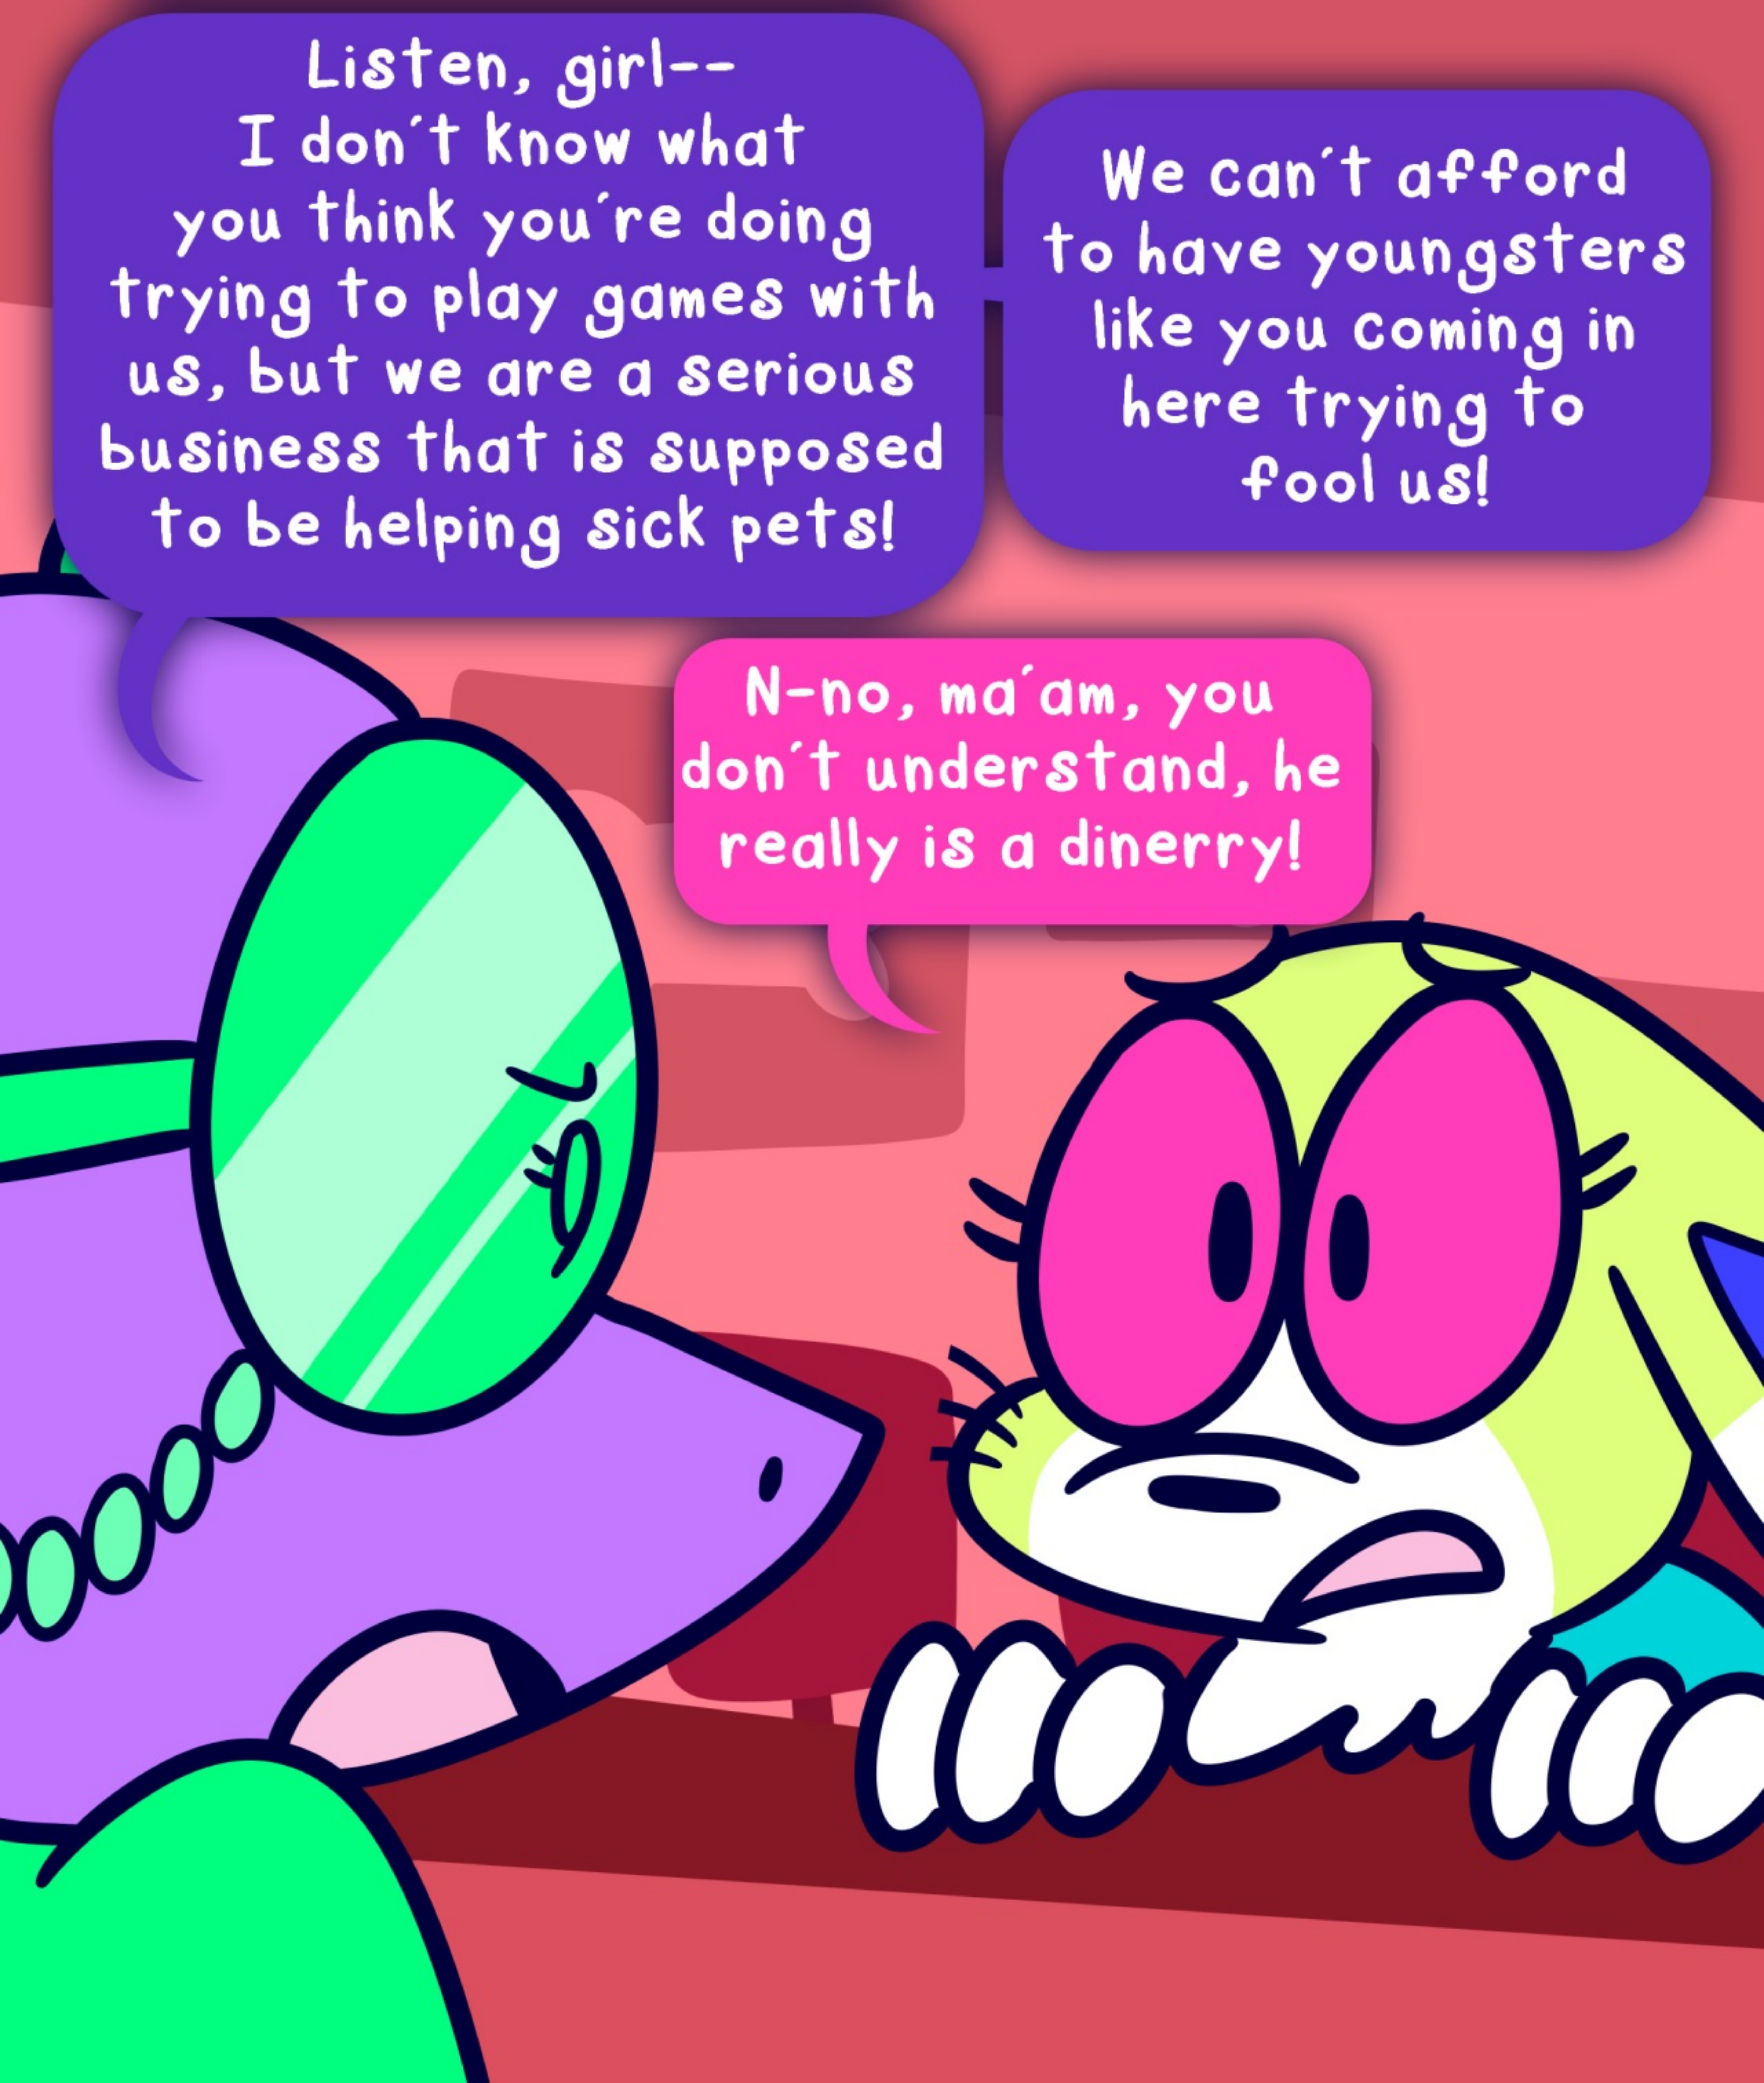


Now, let´s see here....

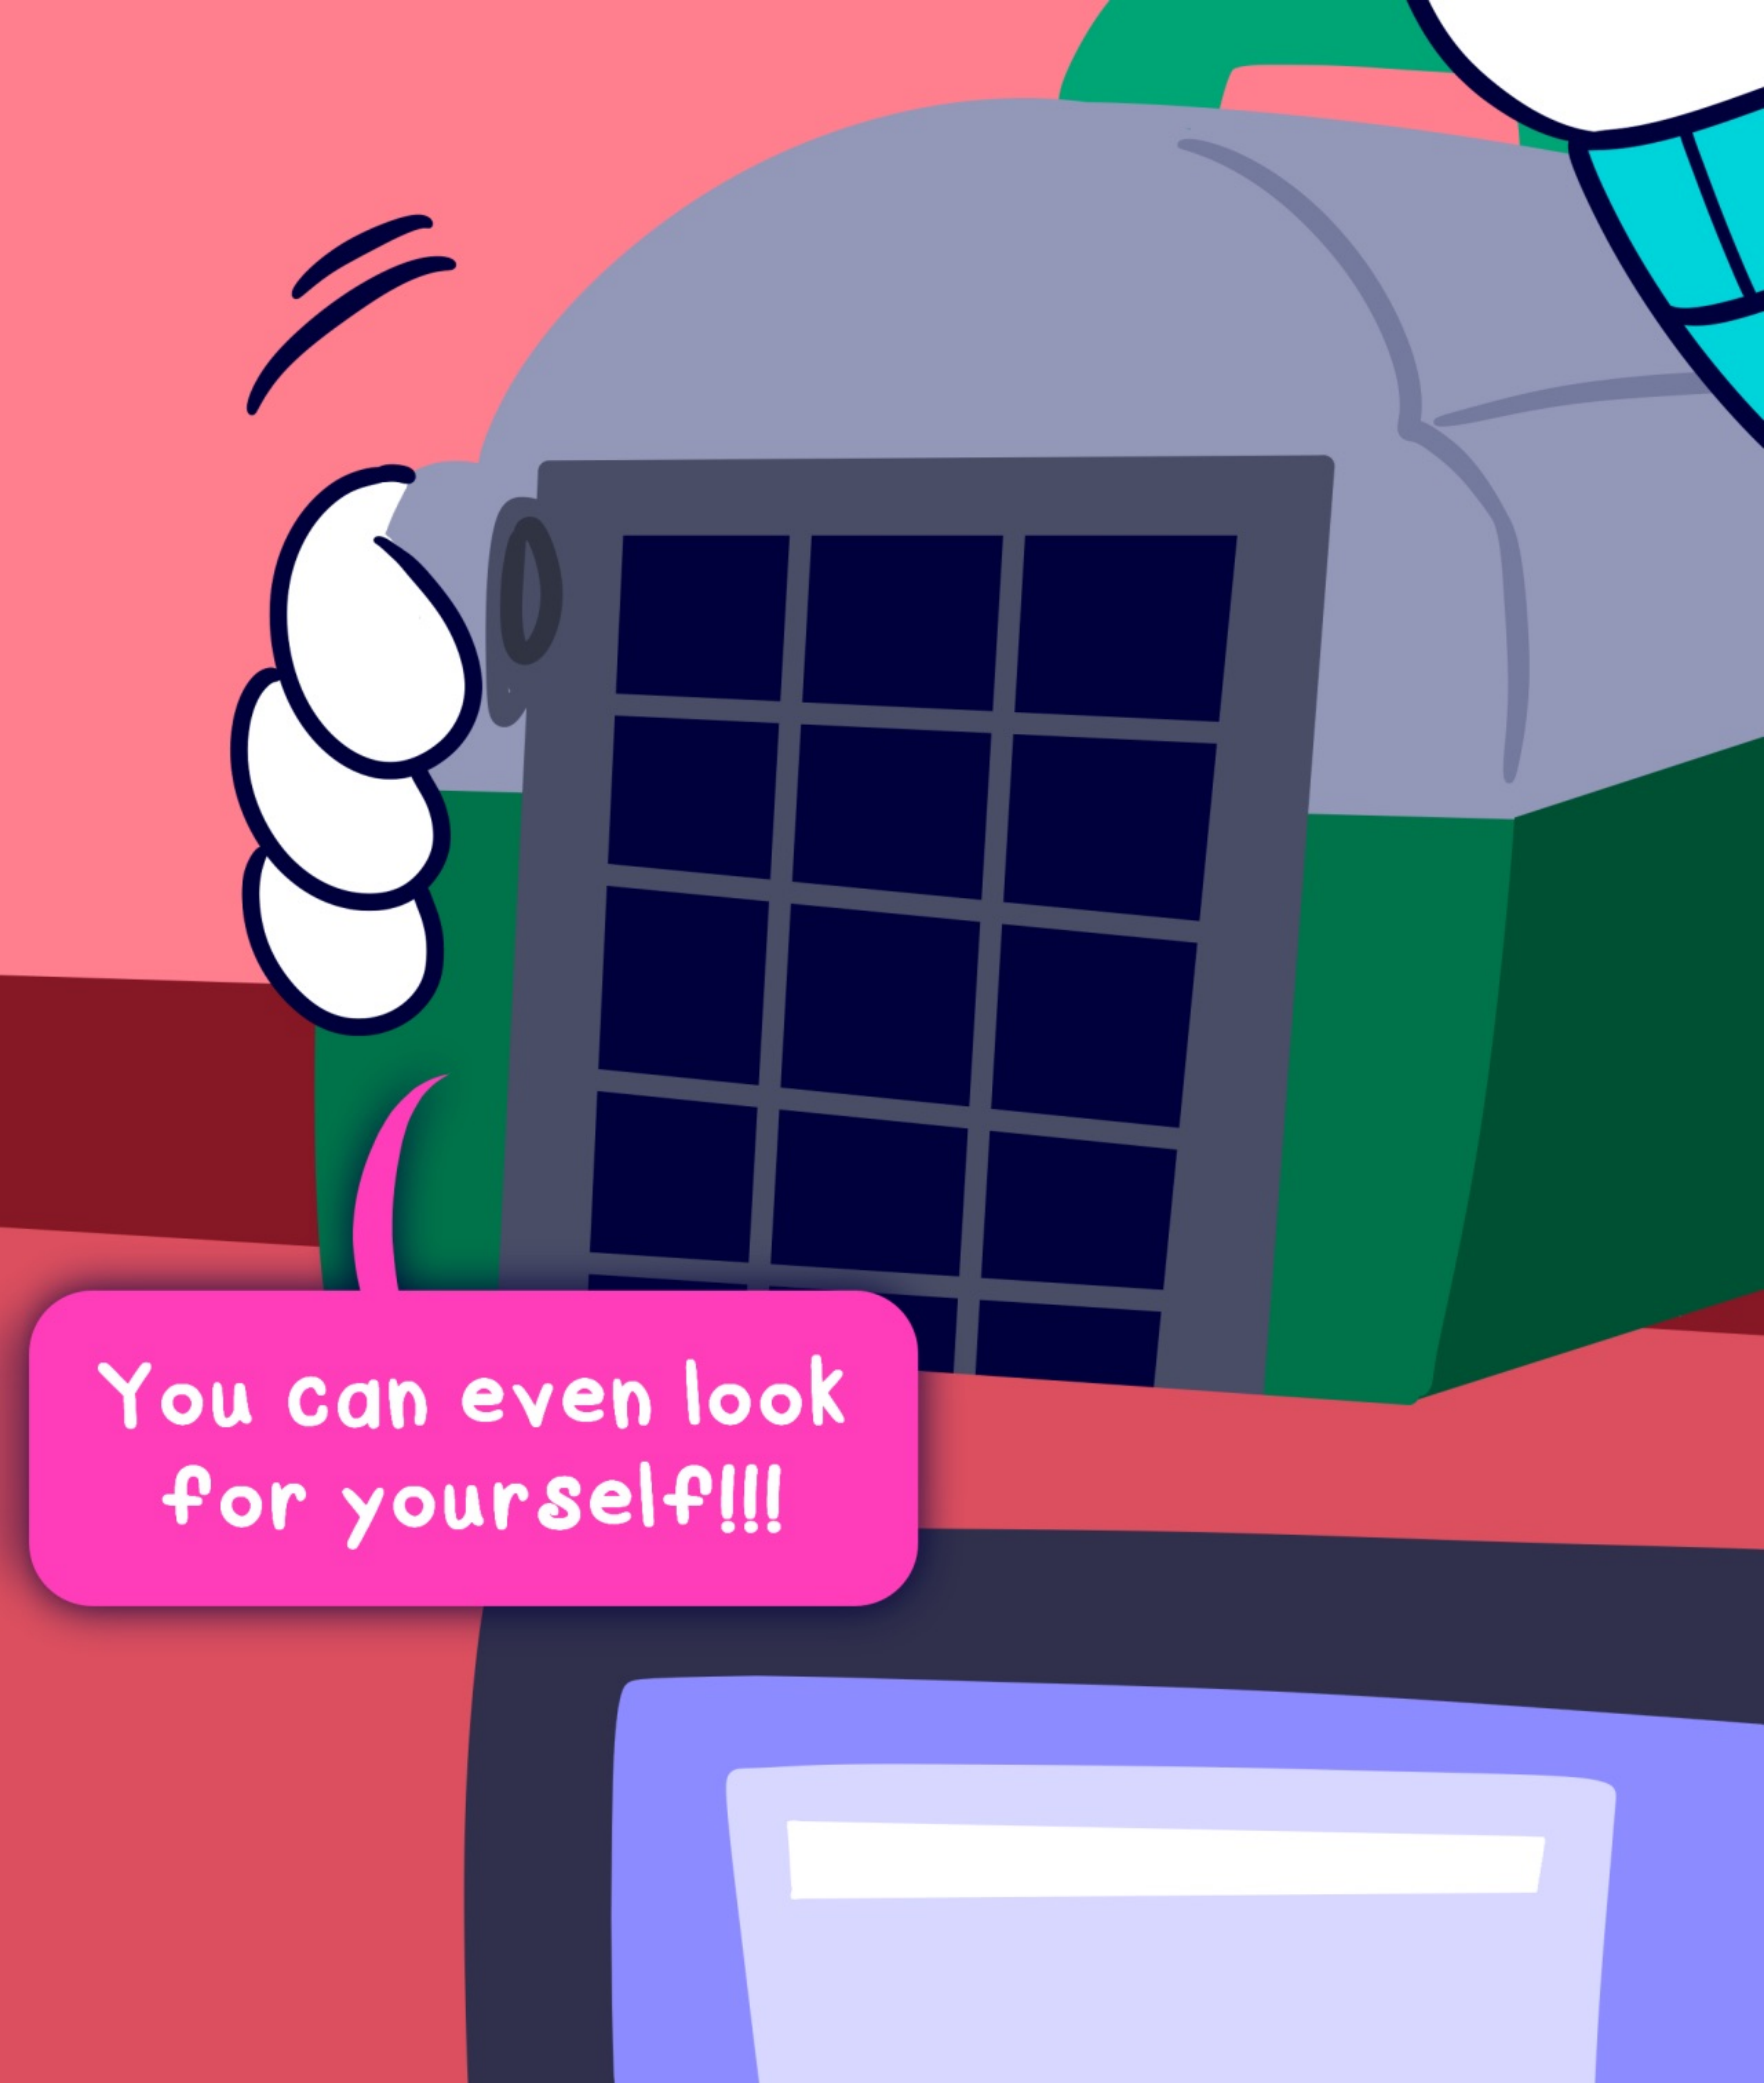




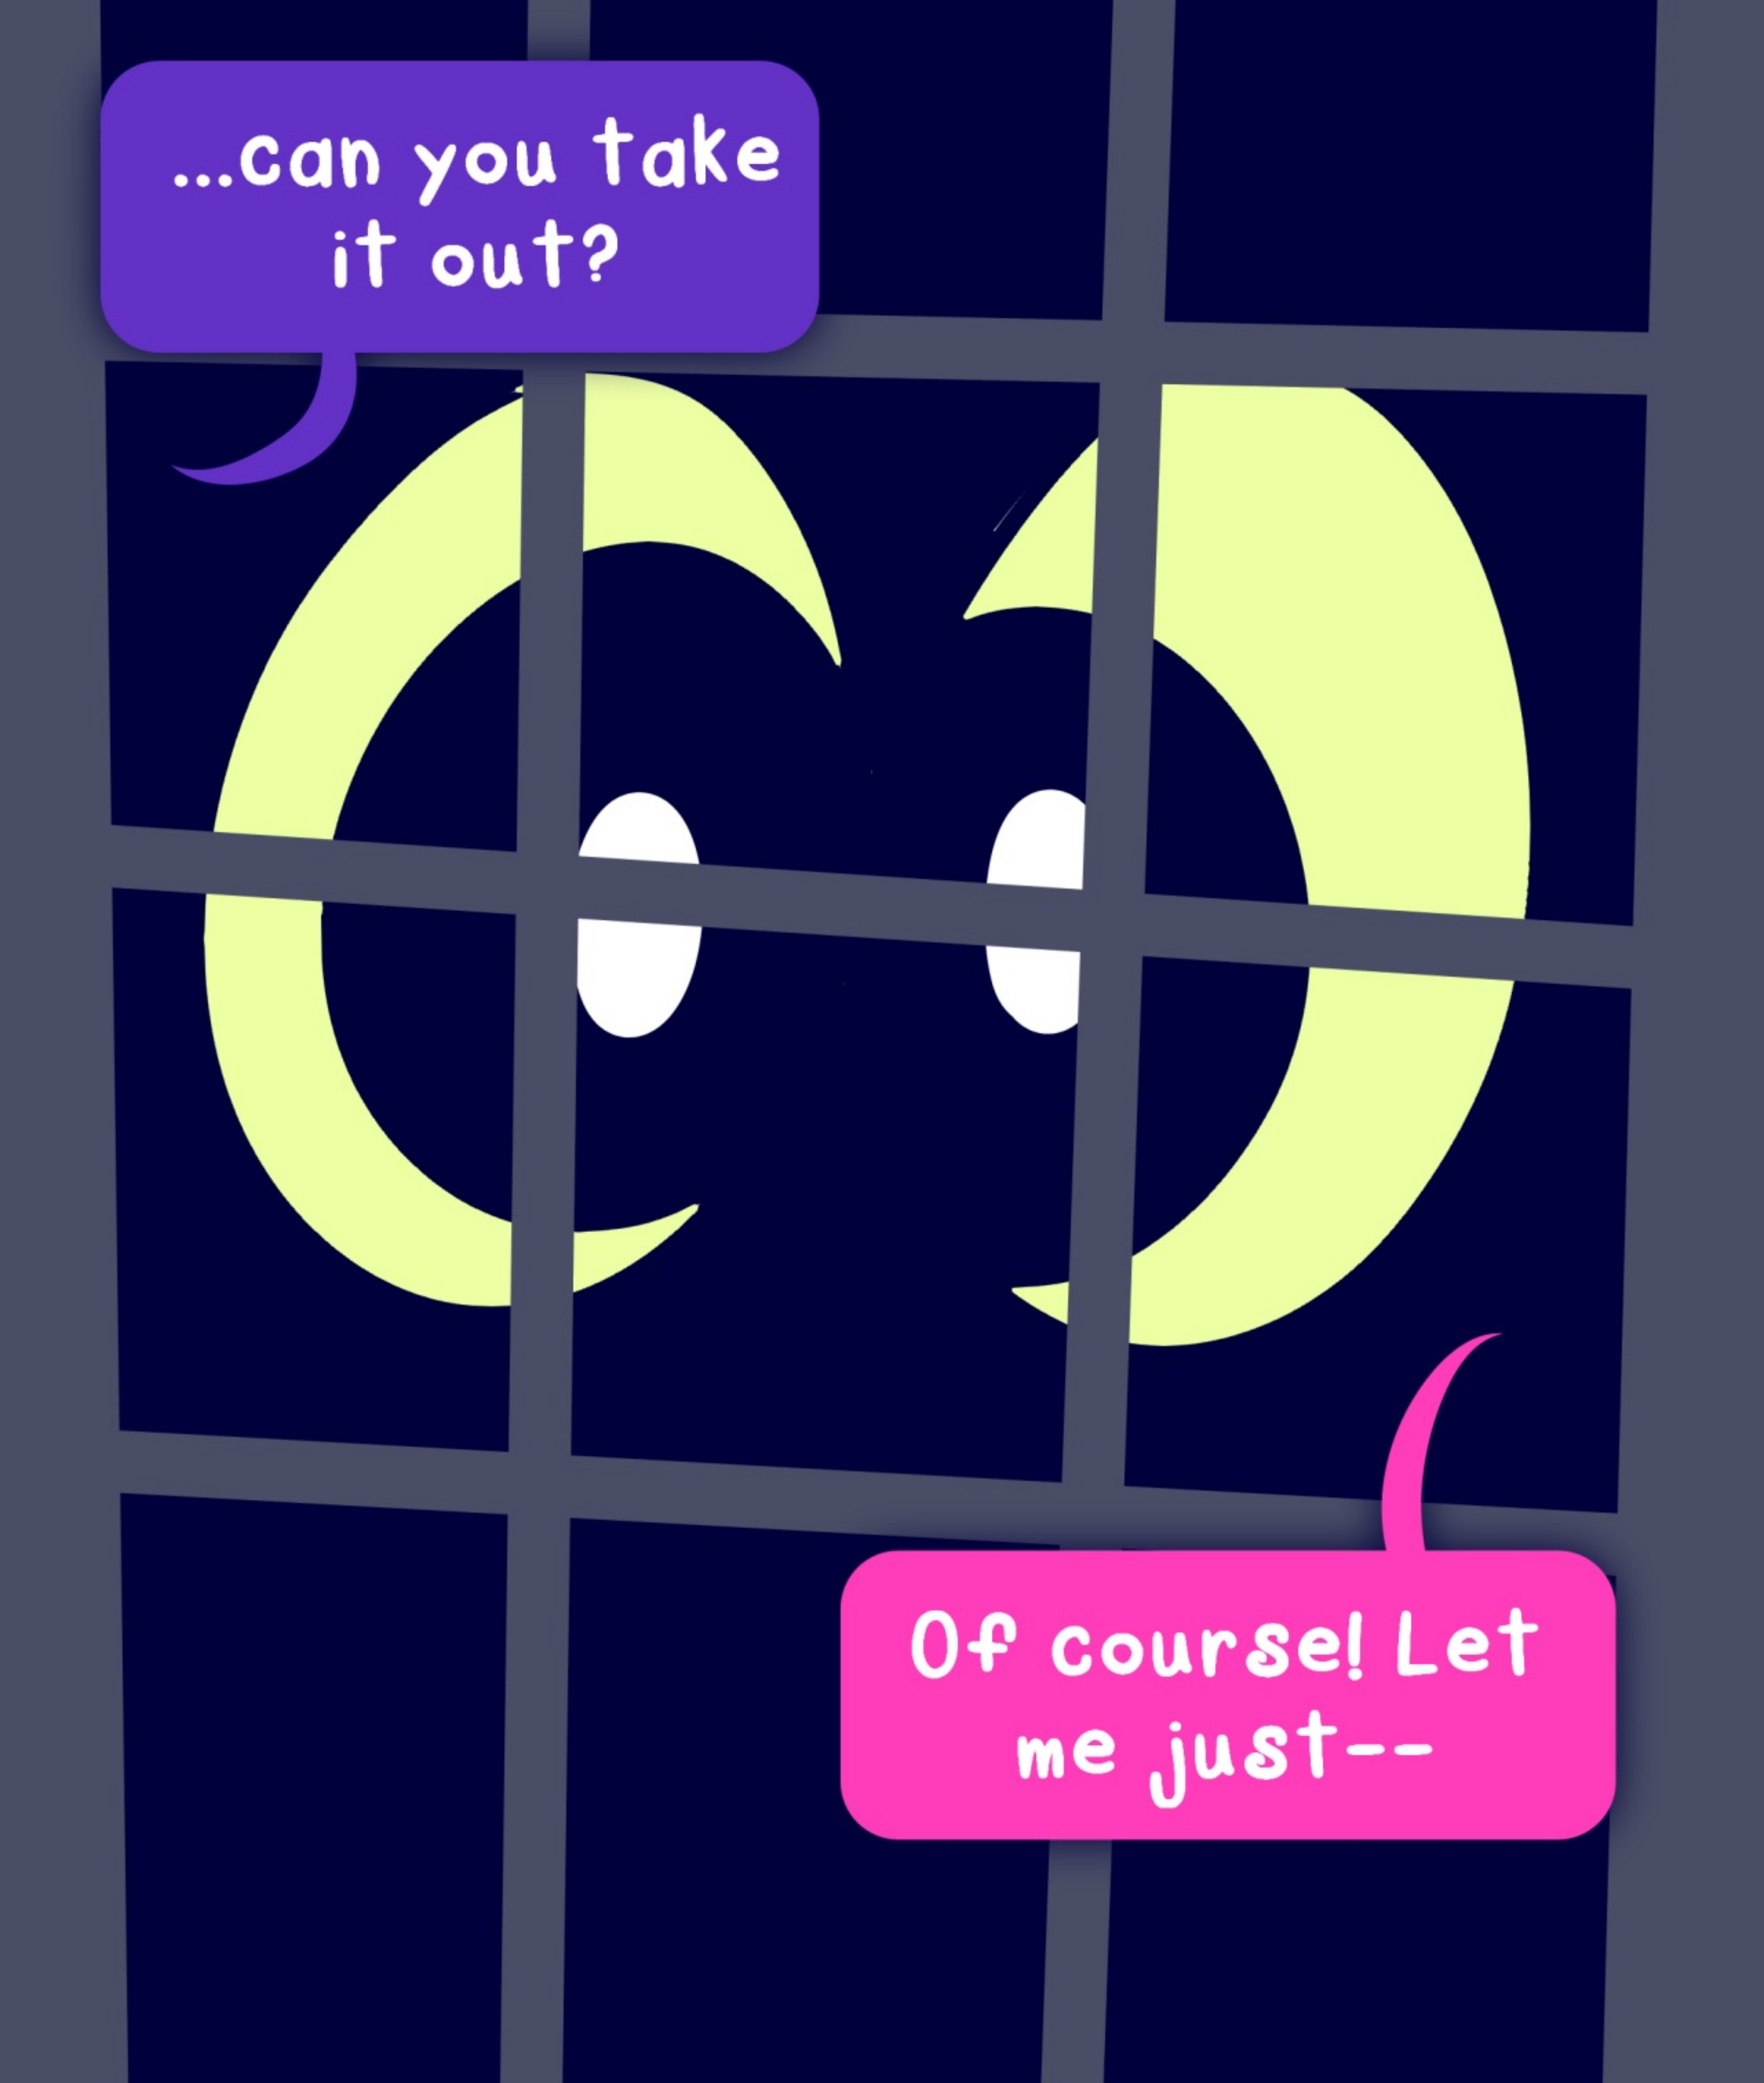
W-what in the name of Solion Sunn?!?...



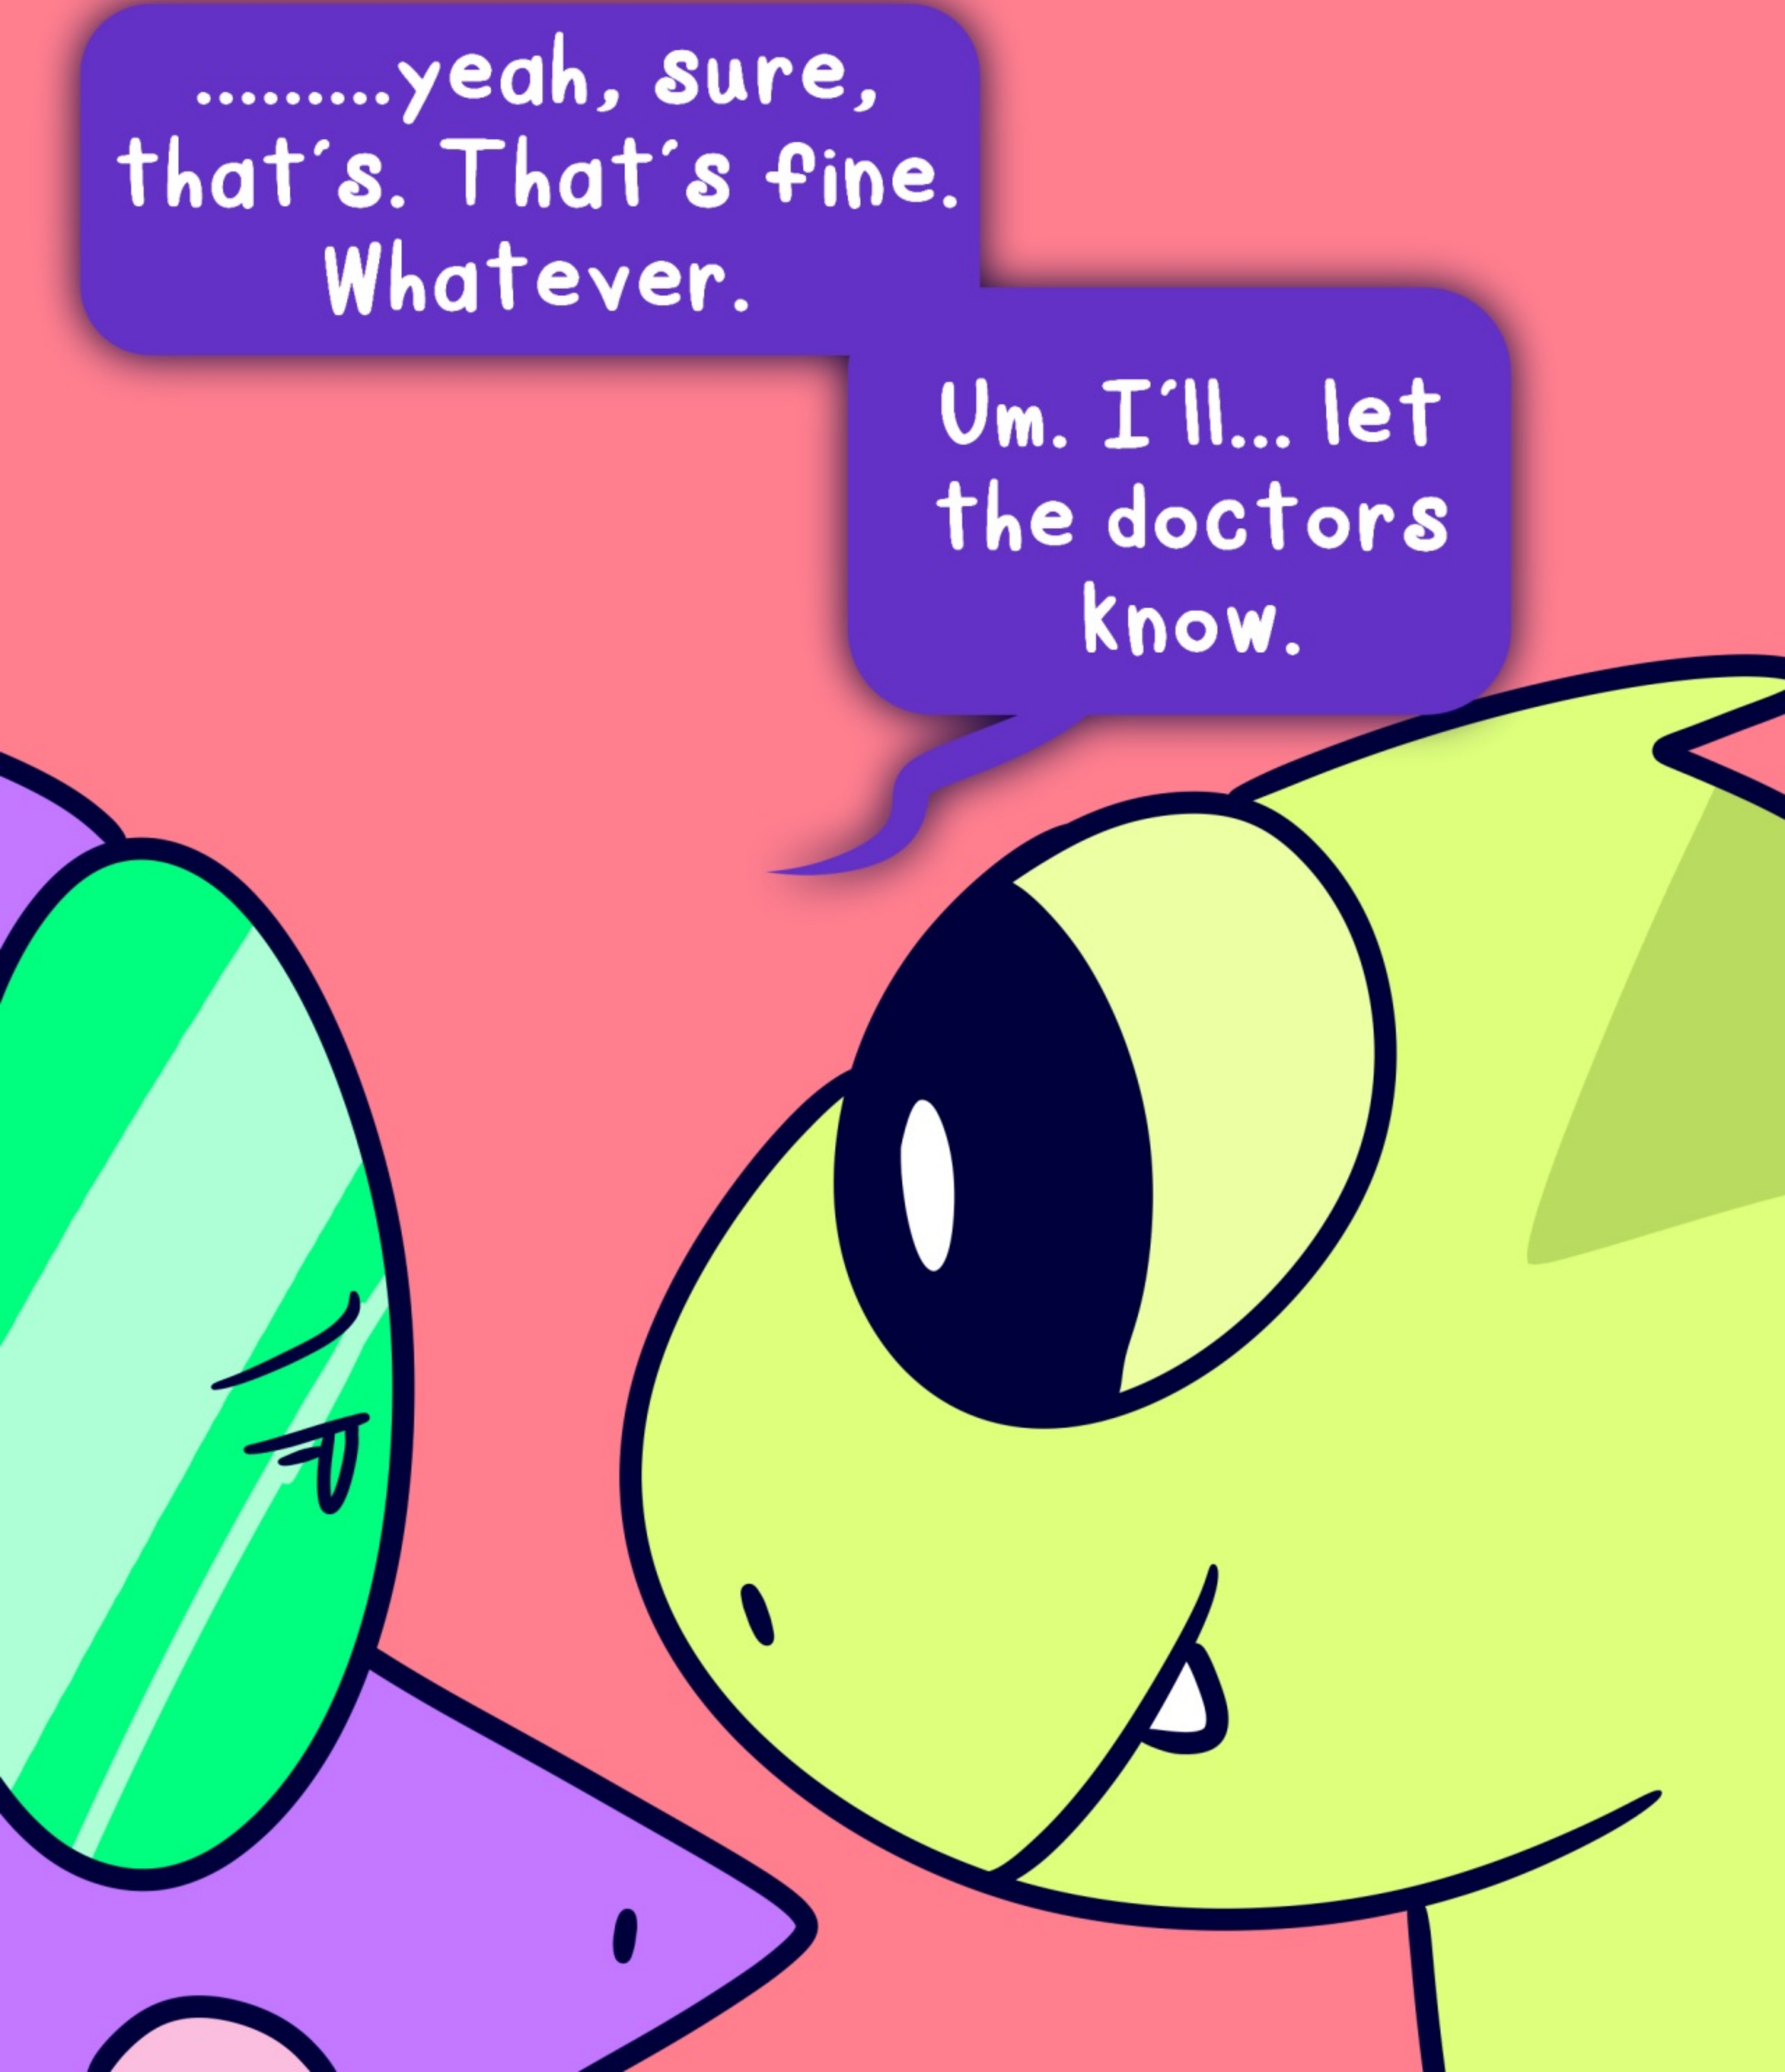
Listen, girl-- I don't know what you think you're doing trying to play games with us, but we are a serious business that is supposed to be helping sick pets!
We can't afford to have youngsters like you coming in here trying to fool us!
N-no, ma'am, you don't understand, he really is a dinerry!



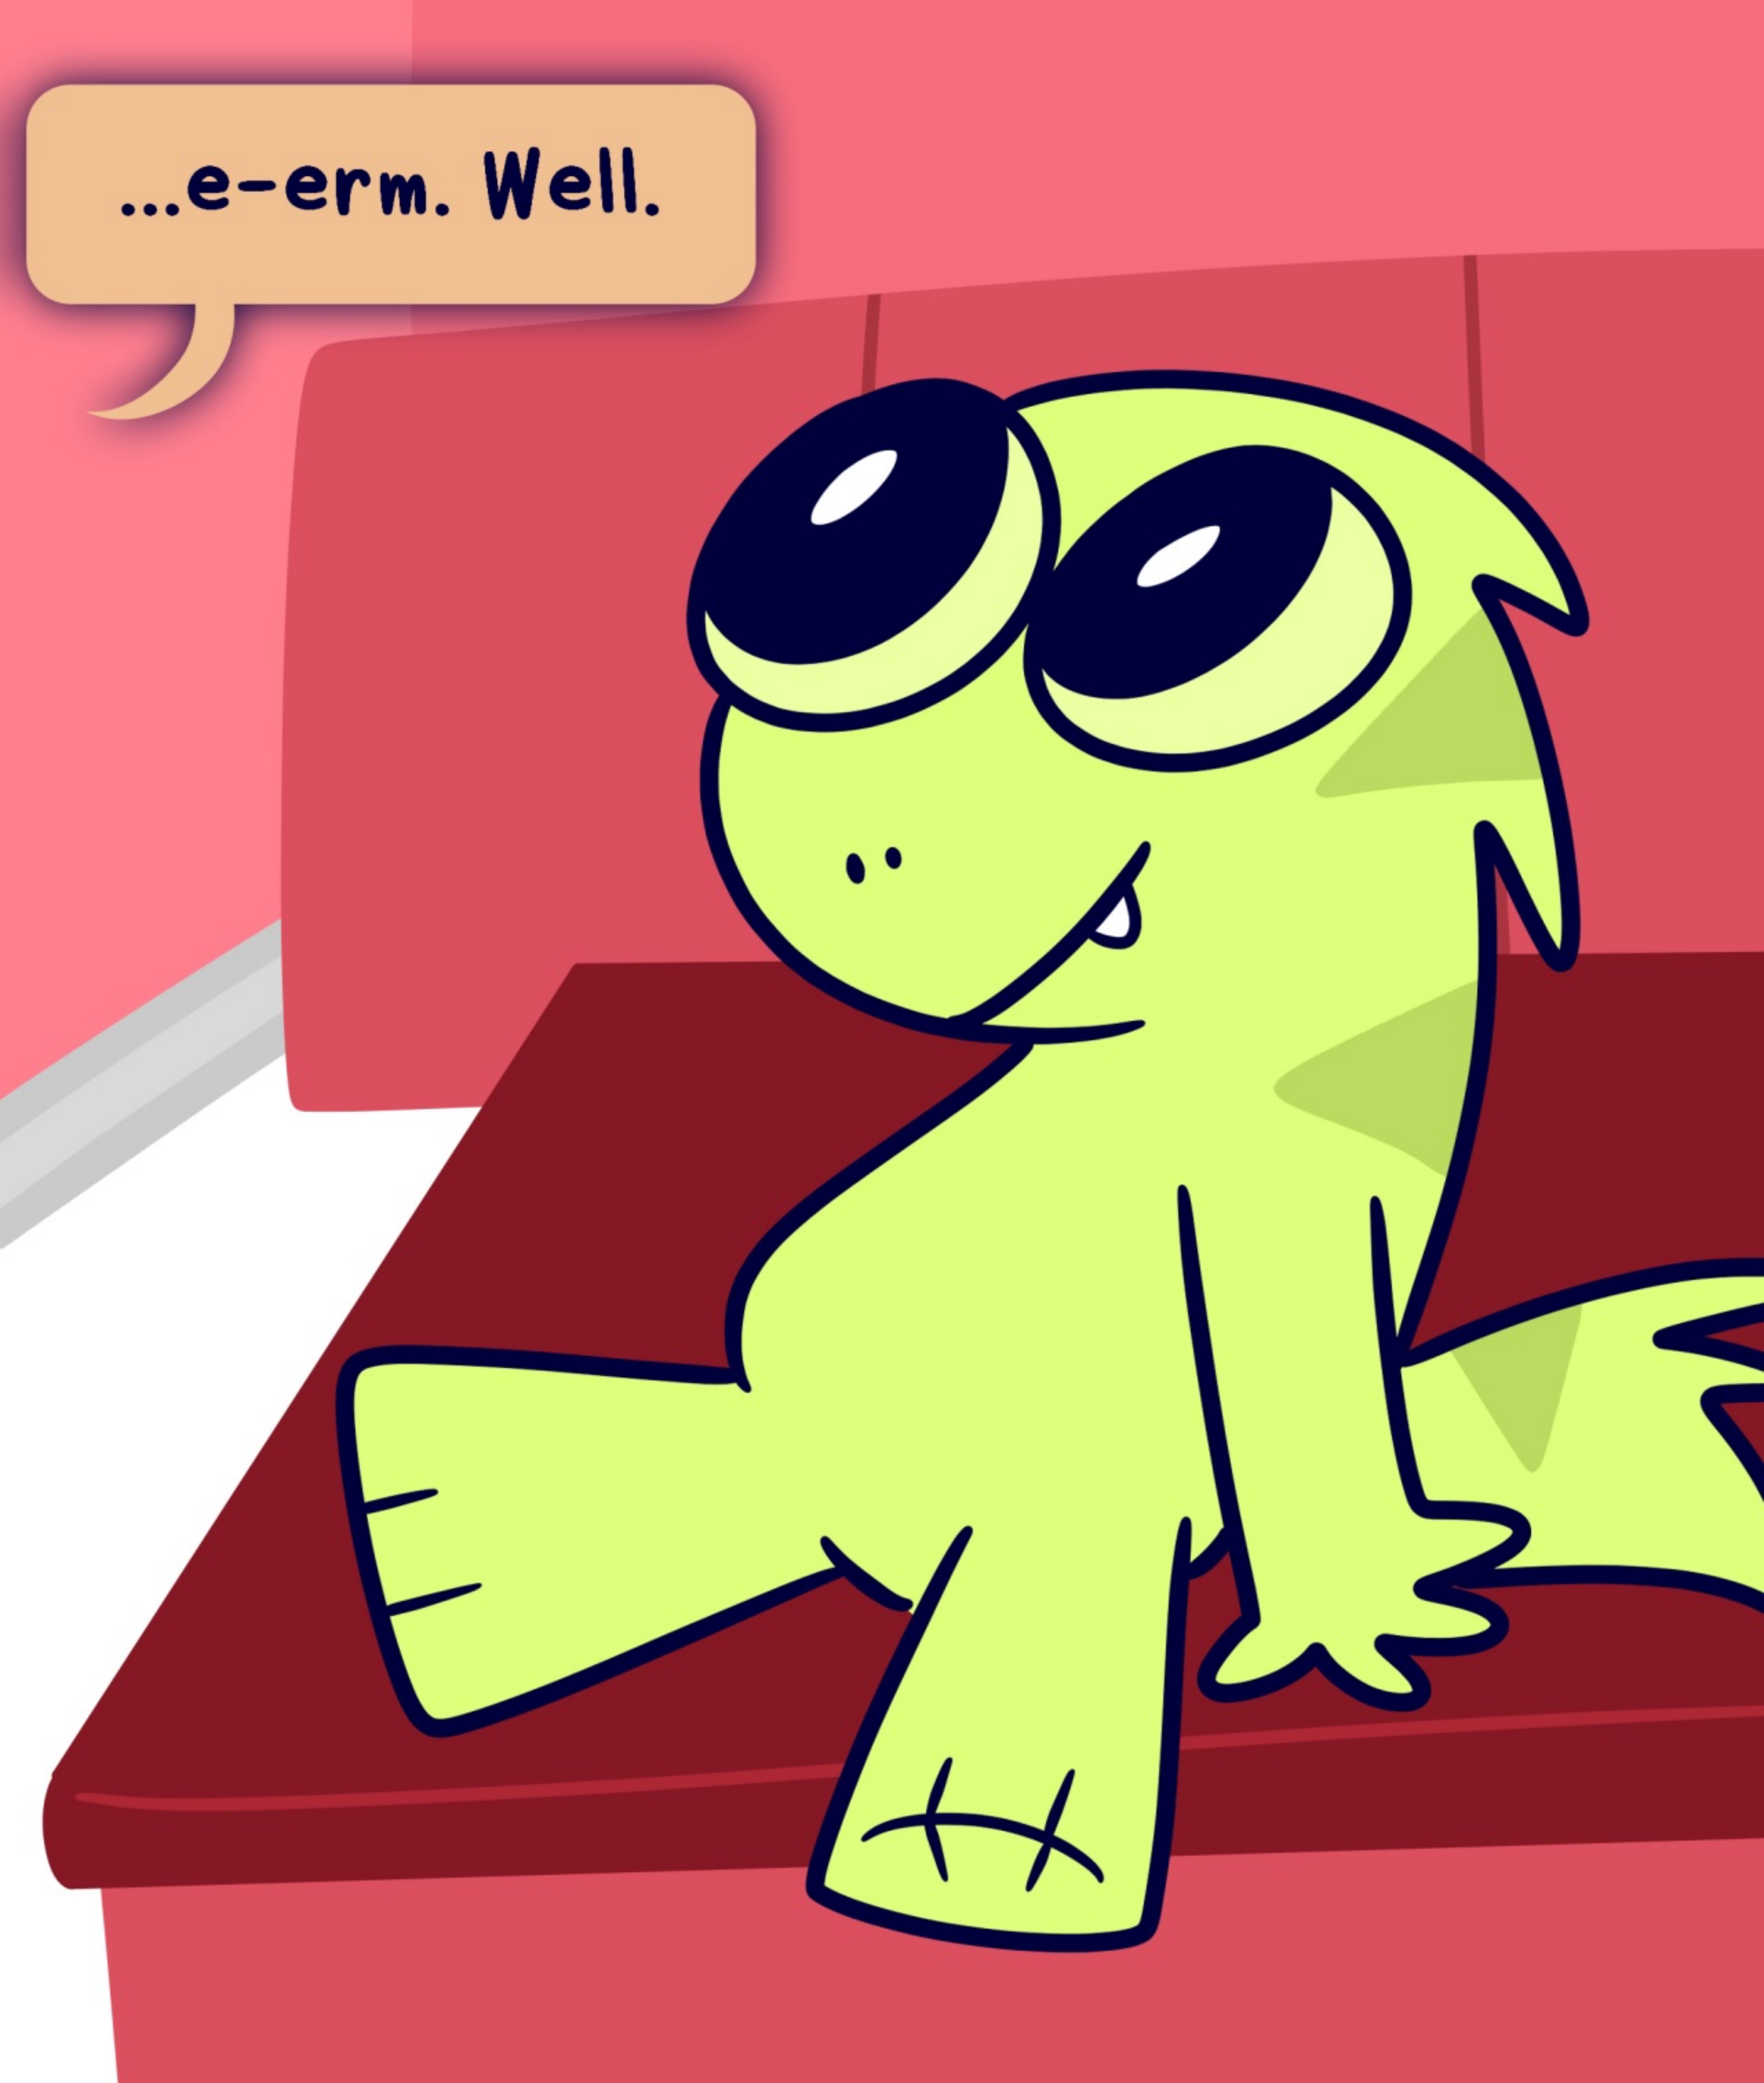
You can even look for yourself!!!



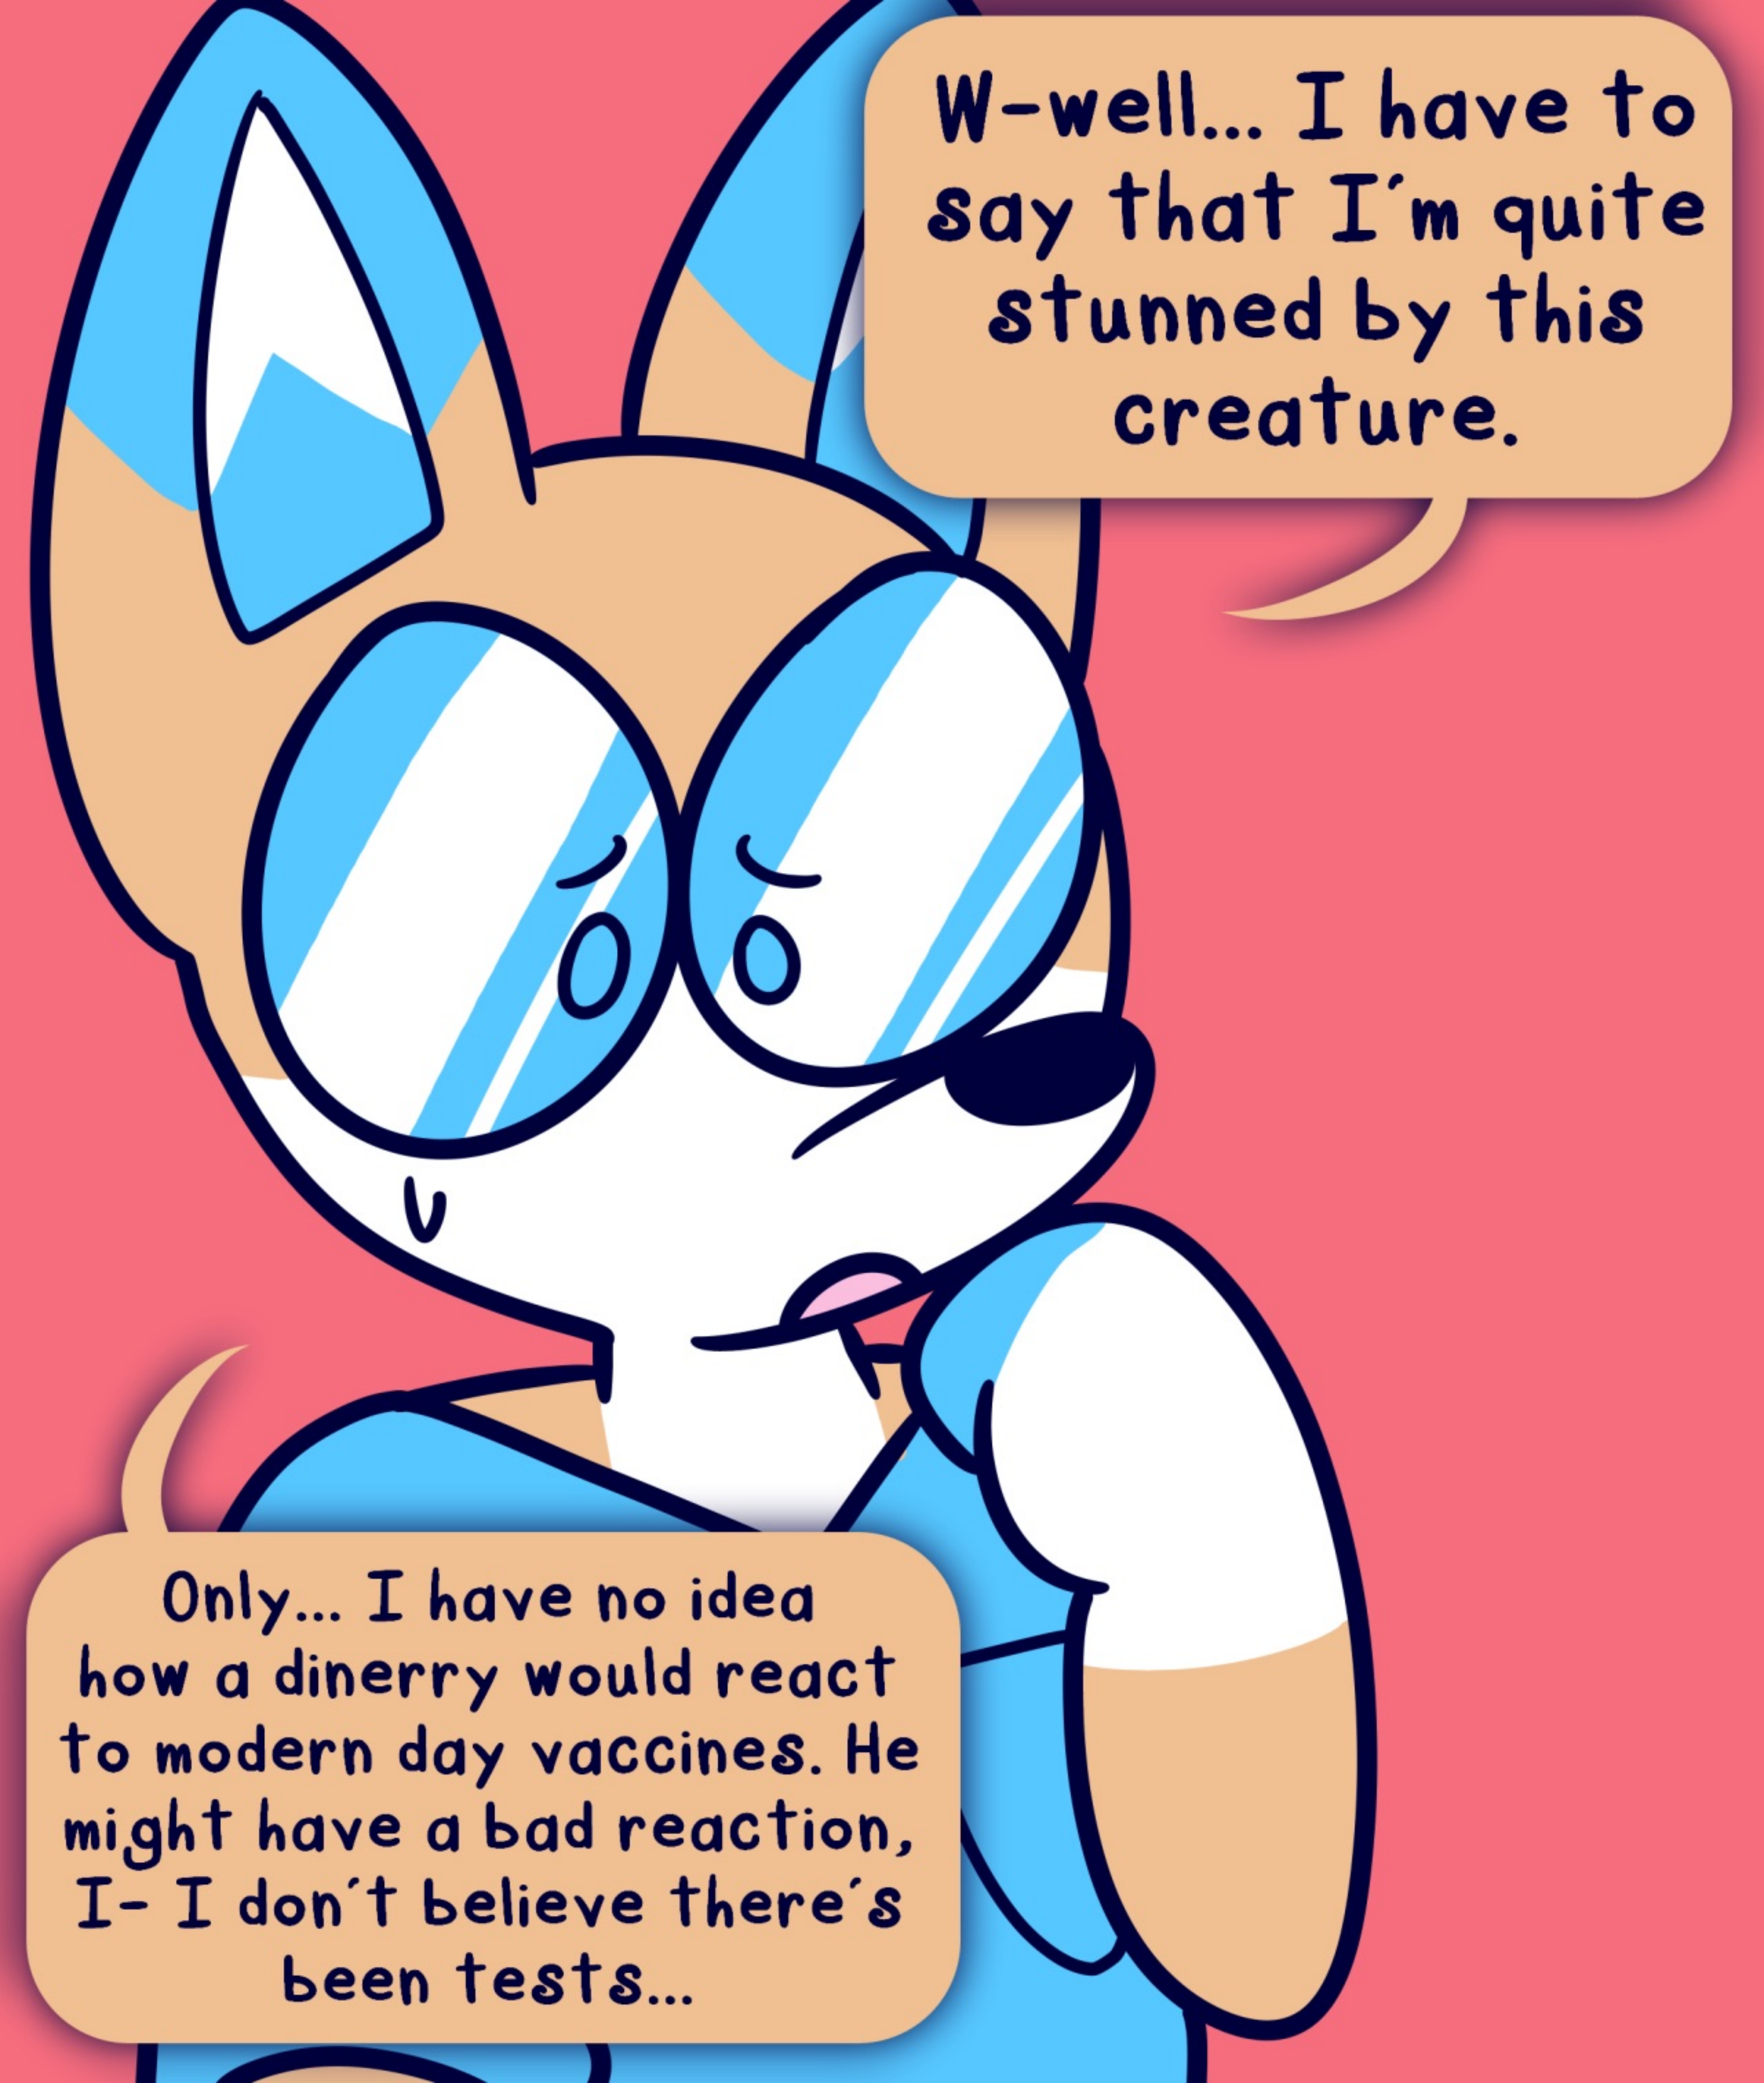
...can you take it out?
Of course! Let me just--



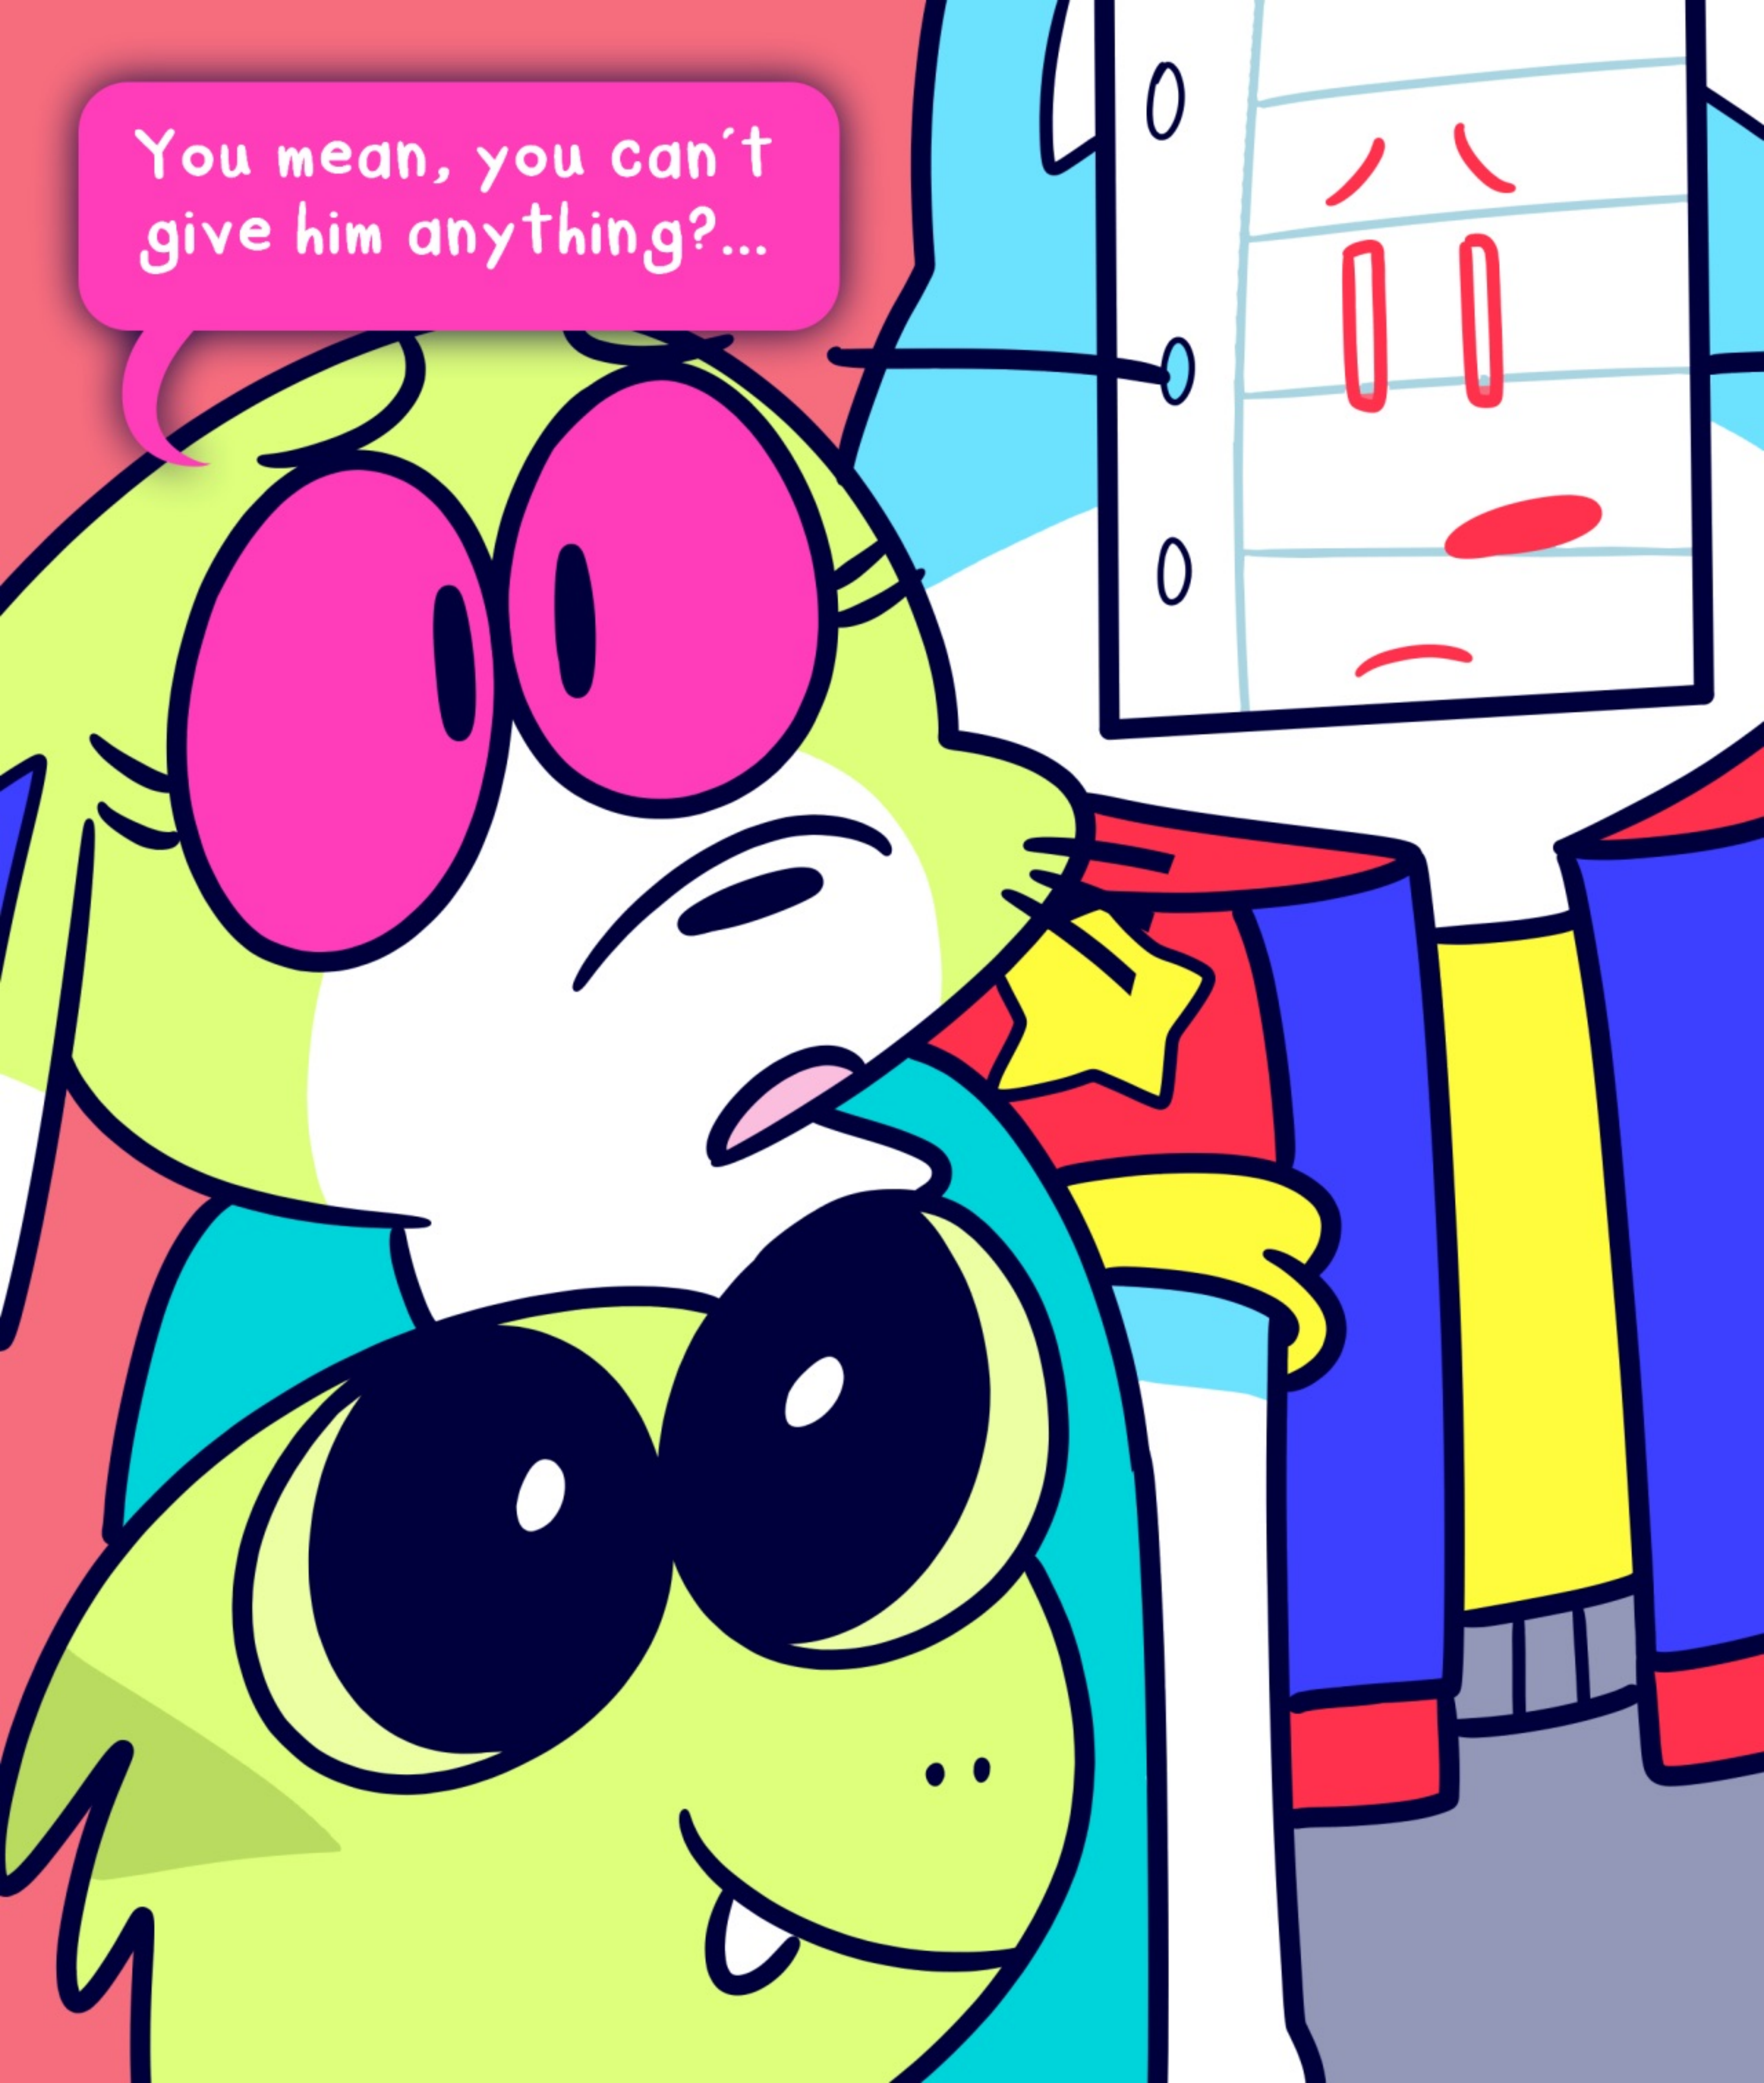
.........yeah, sure, that´s. That´s fine. Whatever.
Um. I´ll... let the doctors know.



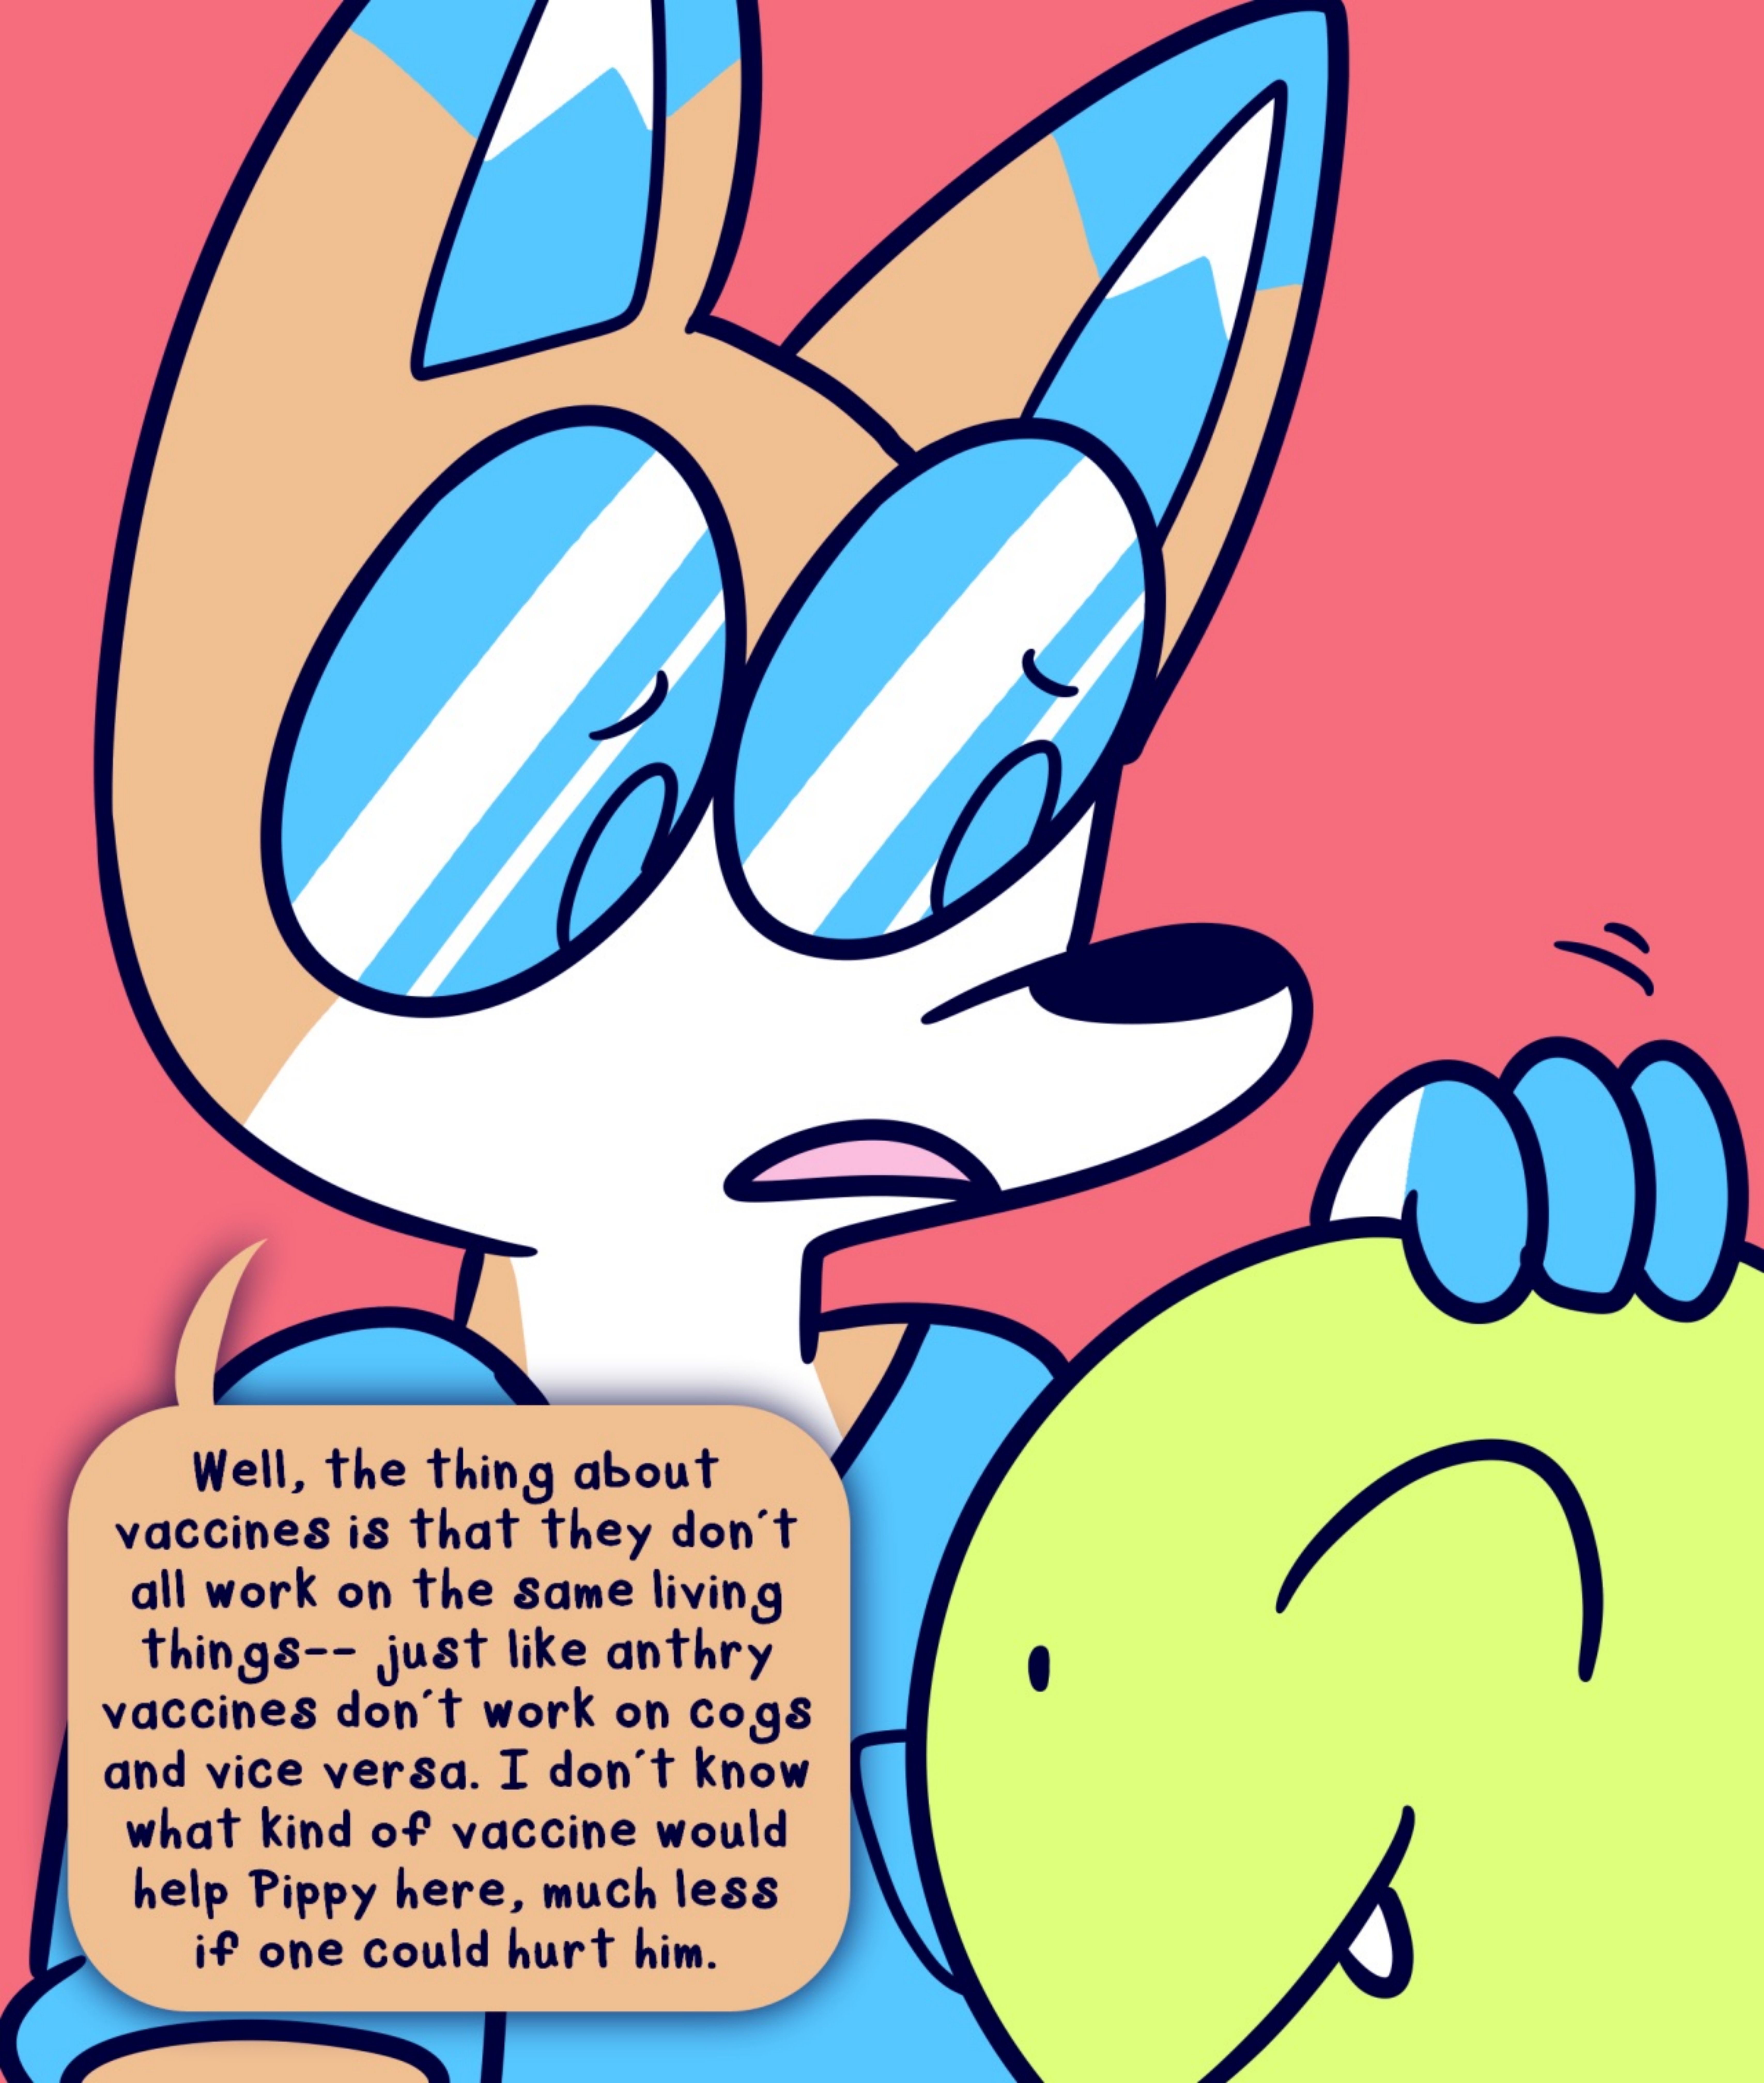
...e-erm. Well.



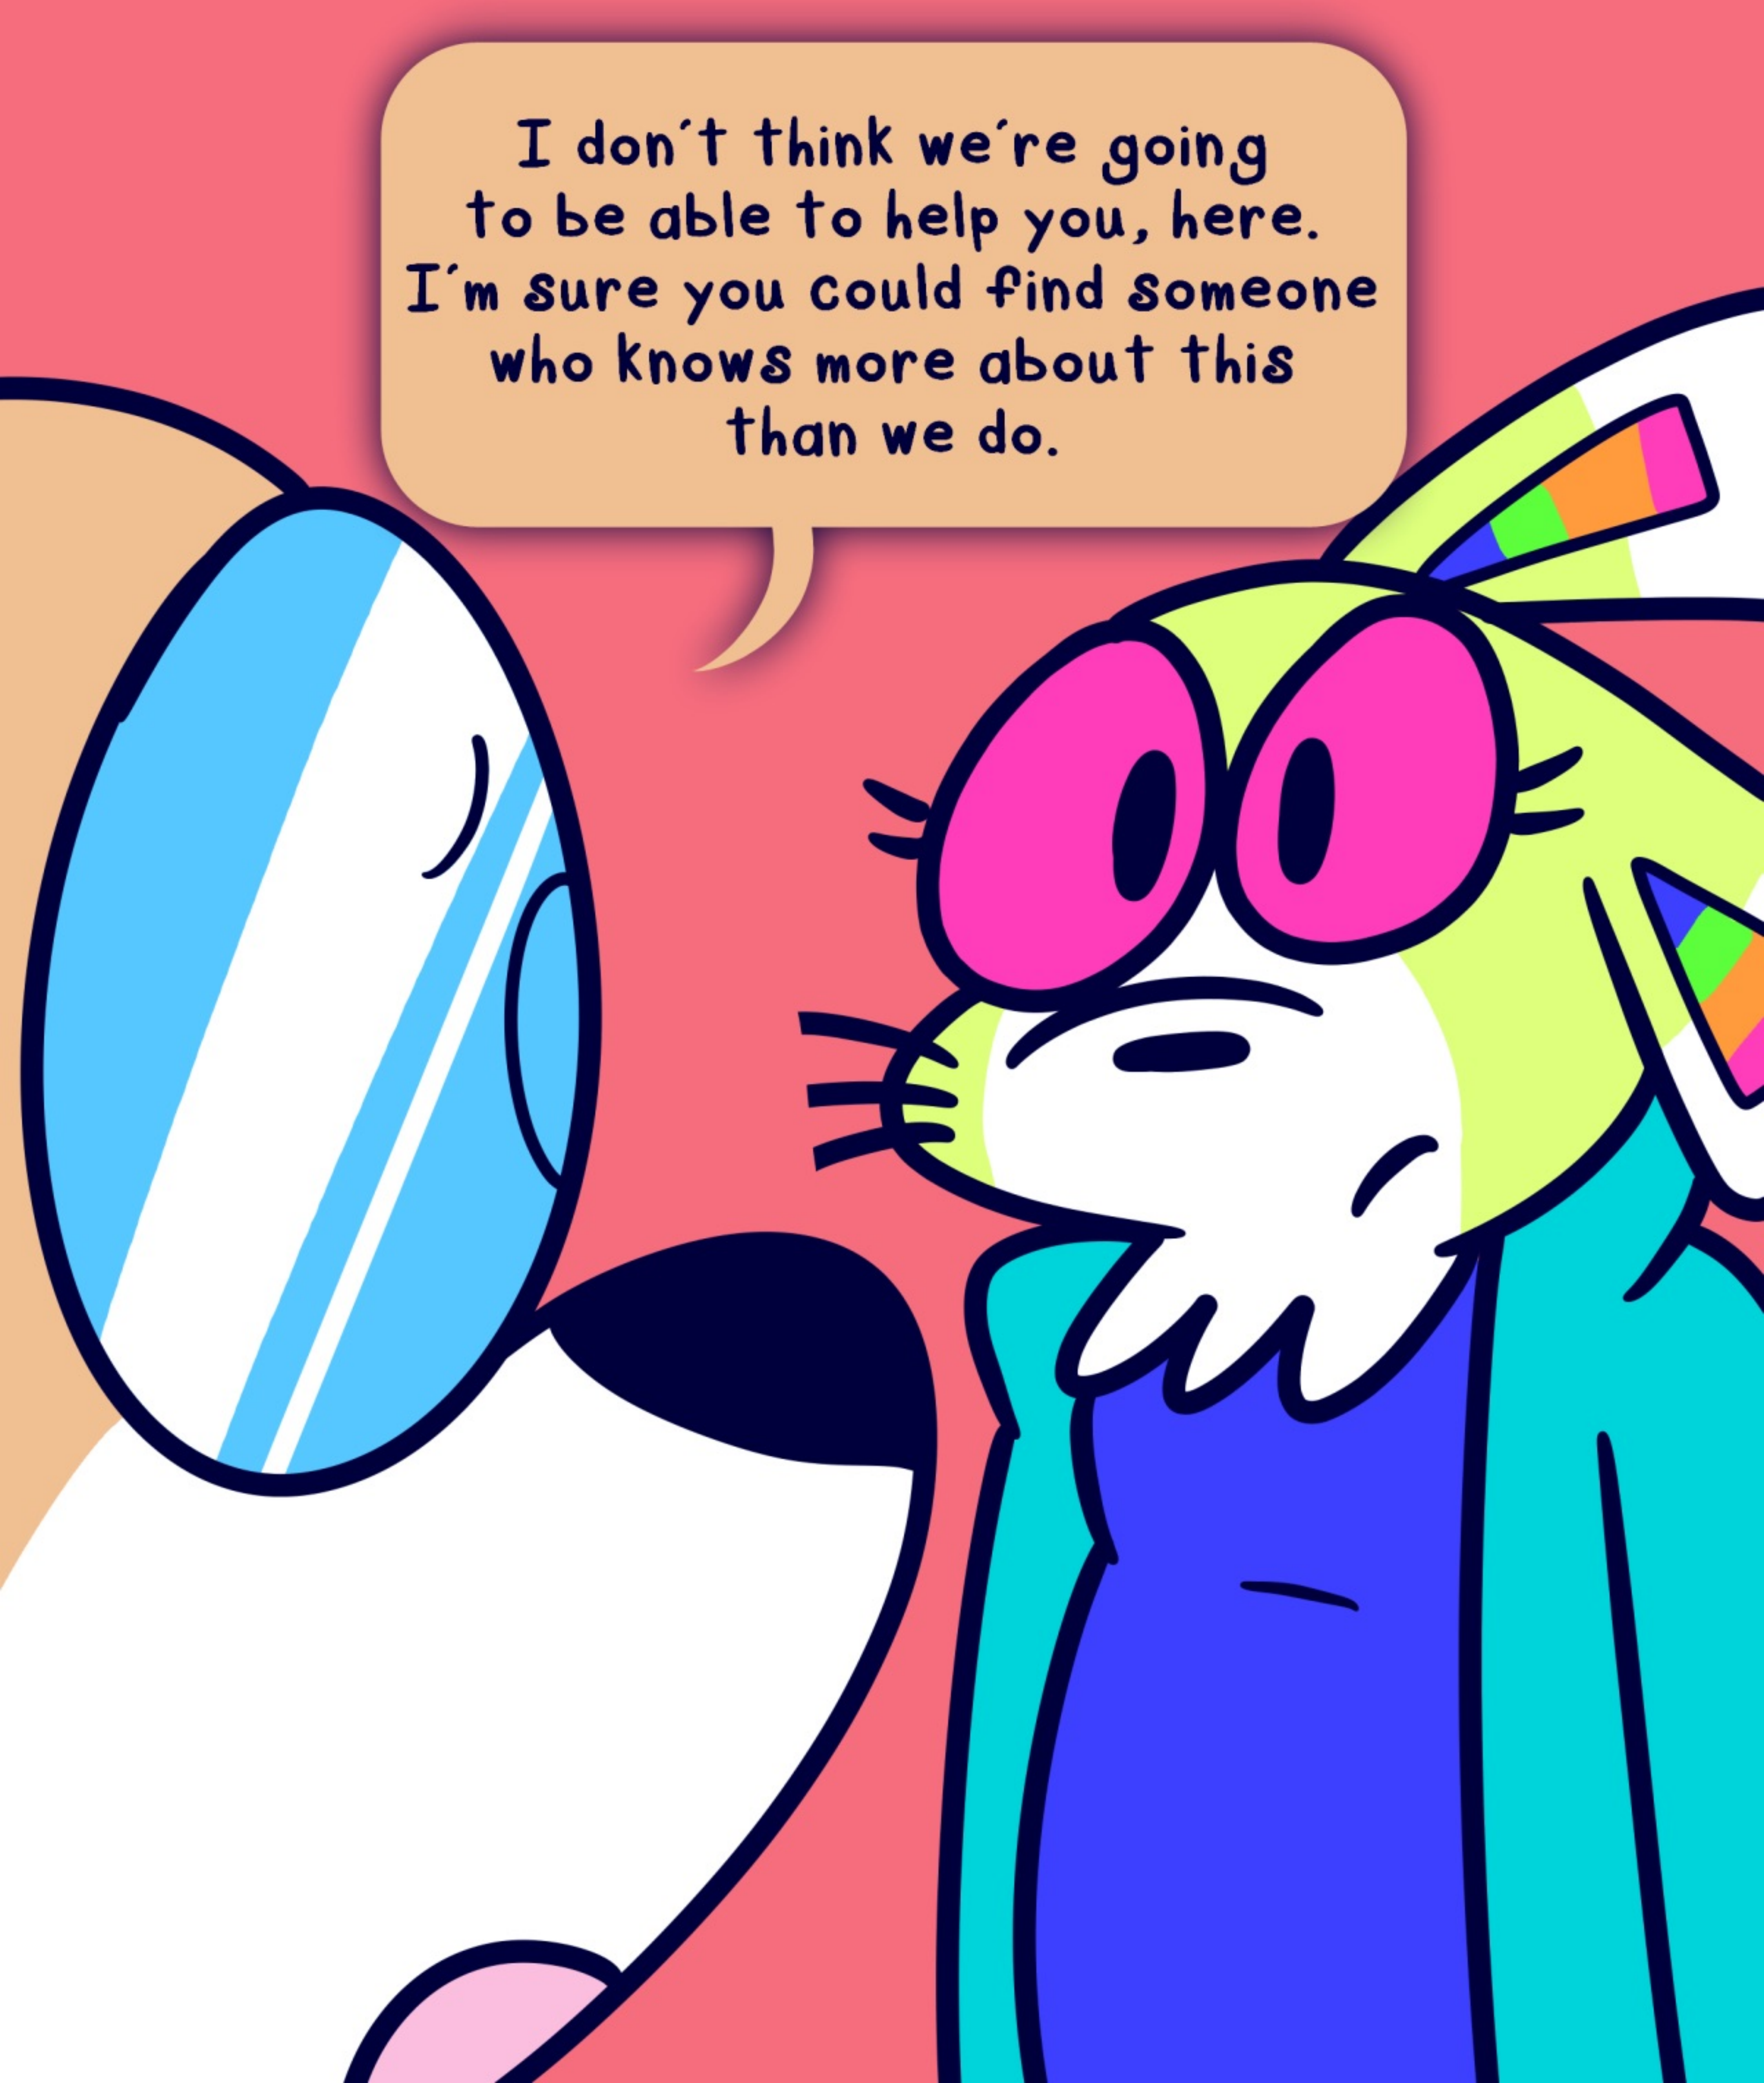
W-well... I have to say that I´m quite stunned by this creature.
Only... I have no idea how a dinerry would react to modern day vaccines. He might have a bad reaction, I- I don´t believe there´s been tests...



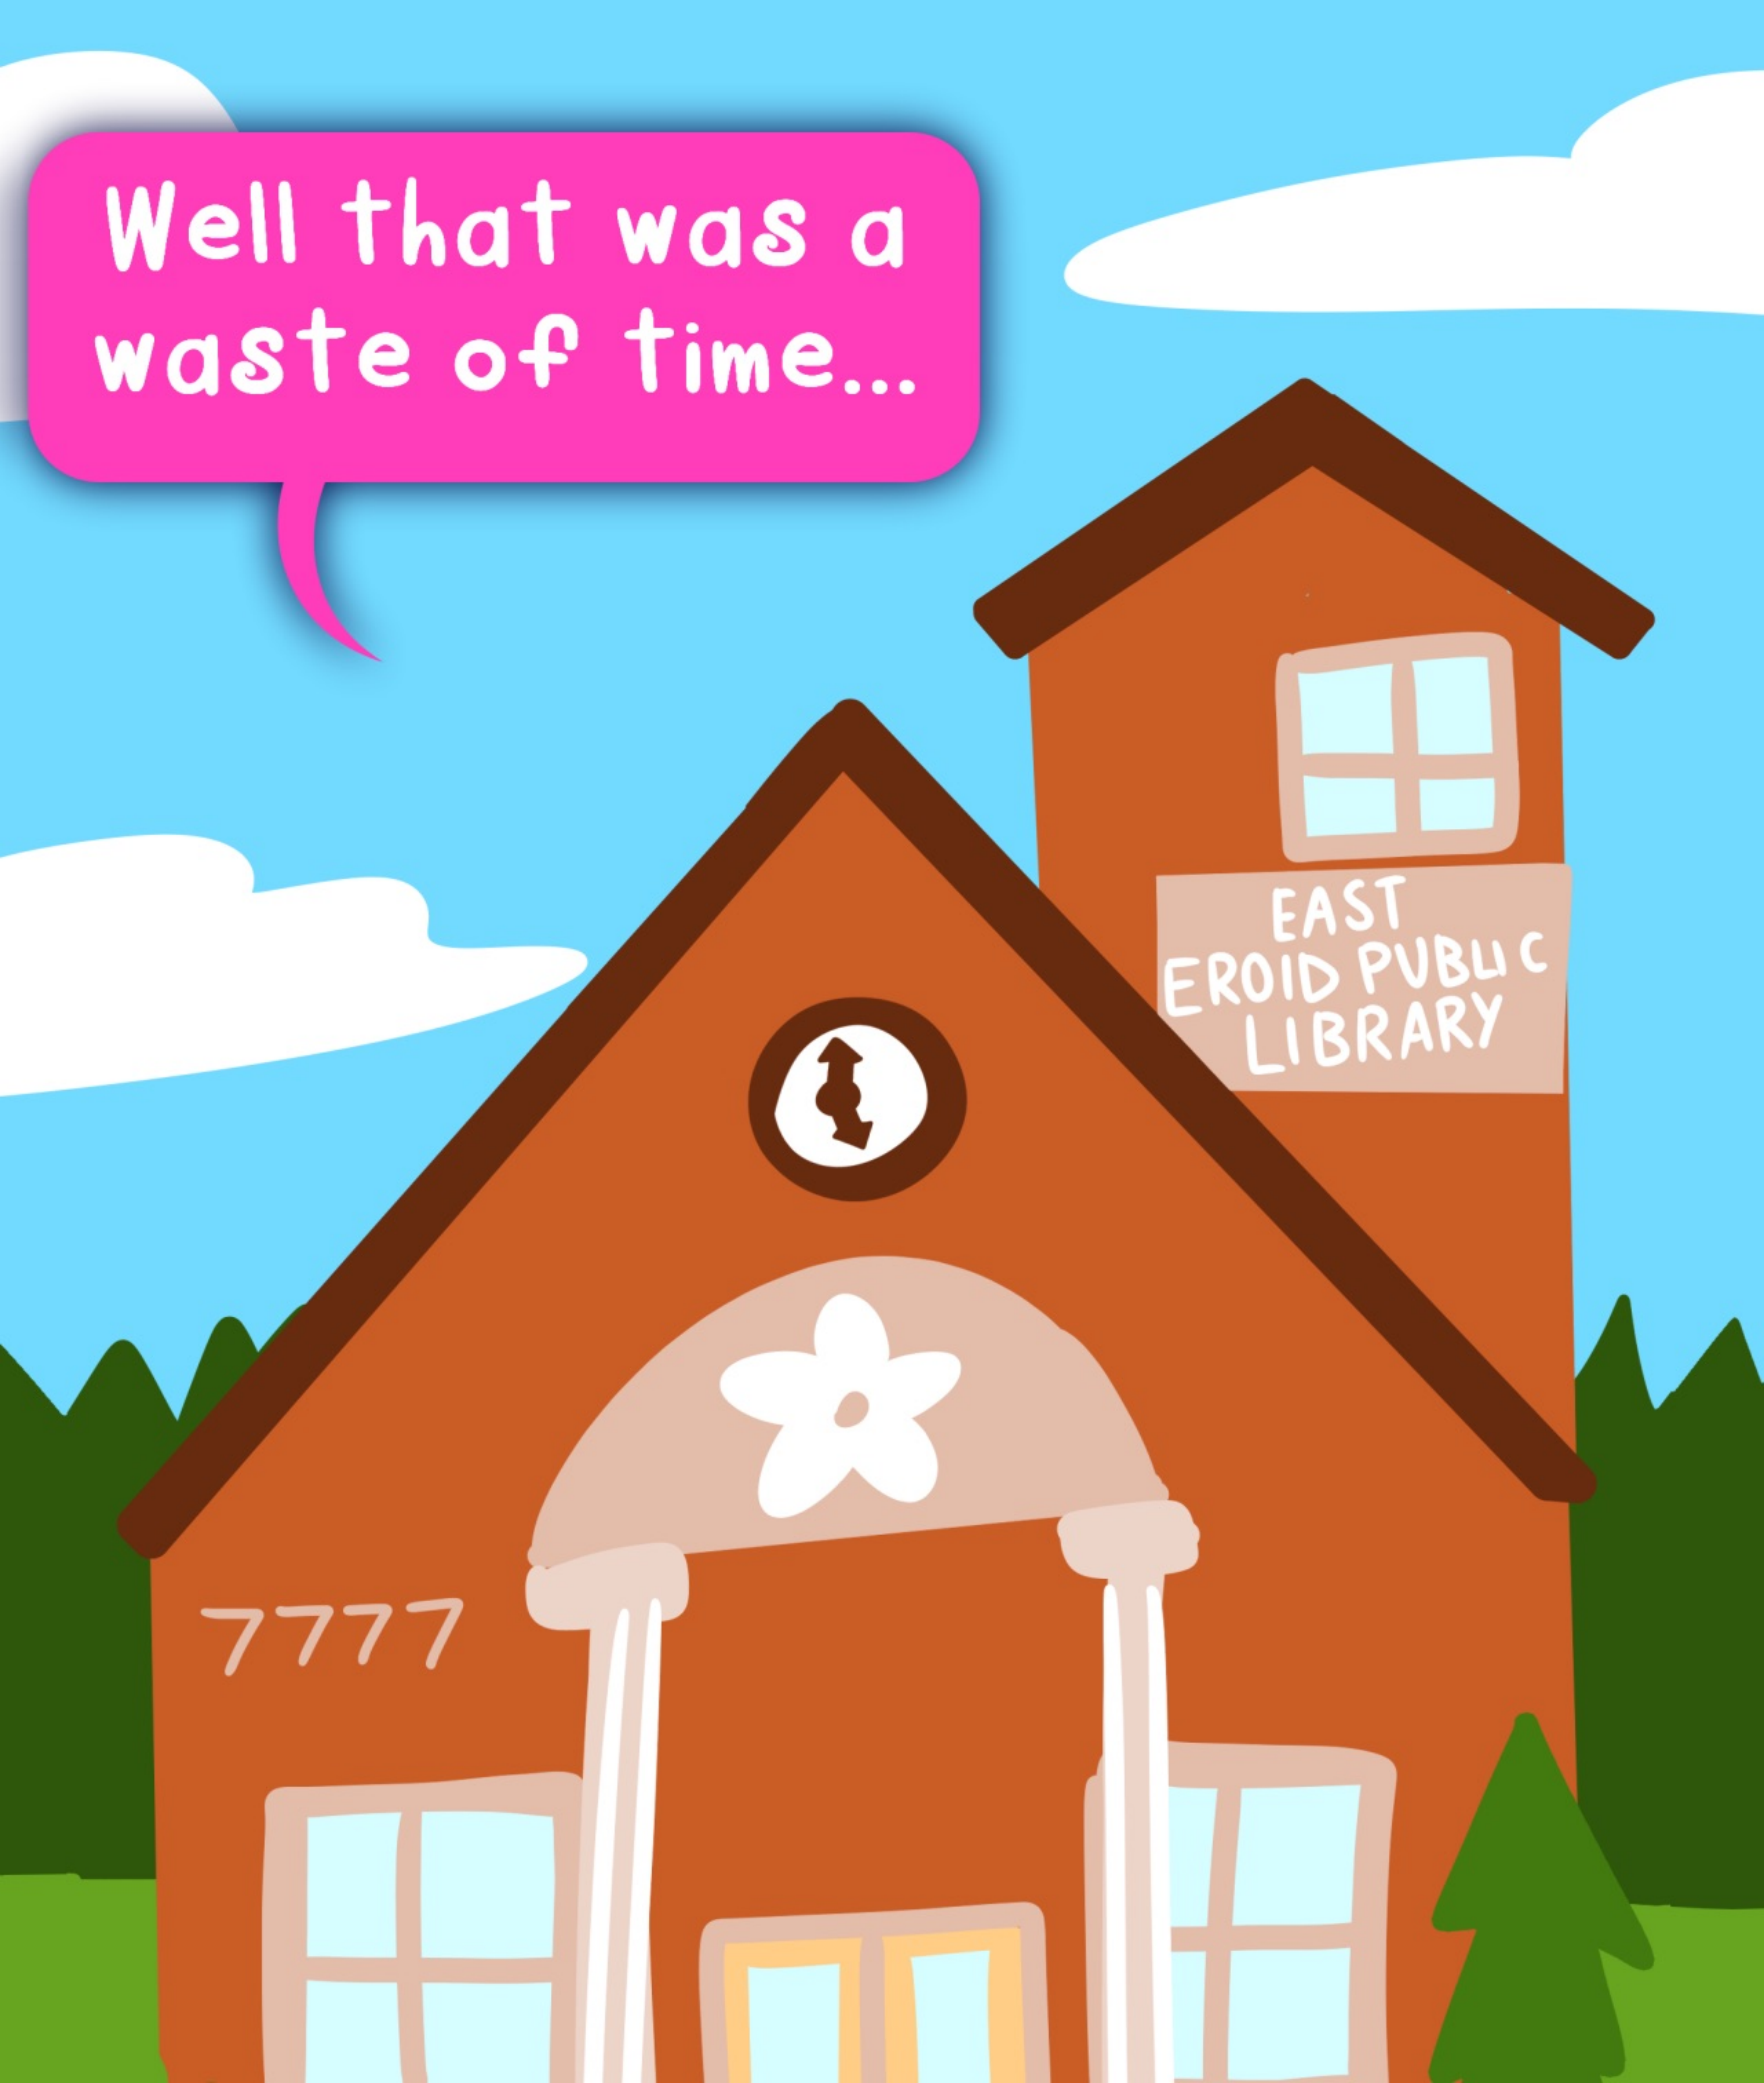
You mean, you can´t give him anything?...



Well, the thing about vaccines is that they don't all work on the same living things-- just like anthry vaccines don't work on cogs and vice versa. I don't know what kind of vaccine would help Pippy here, much less if one could hurt him.



I don't think we're going to be able to help you, here. I'm sure you could find someone who knows more about this than we do.



Well that was a waste of time...
EAST EROID PUBLIC LIBRARY

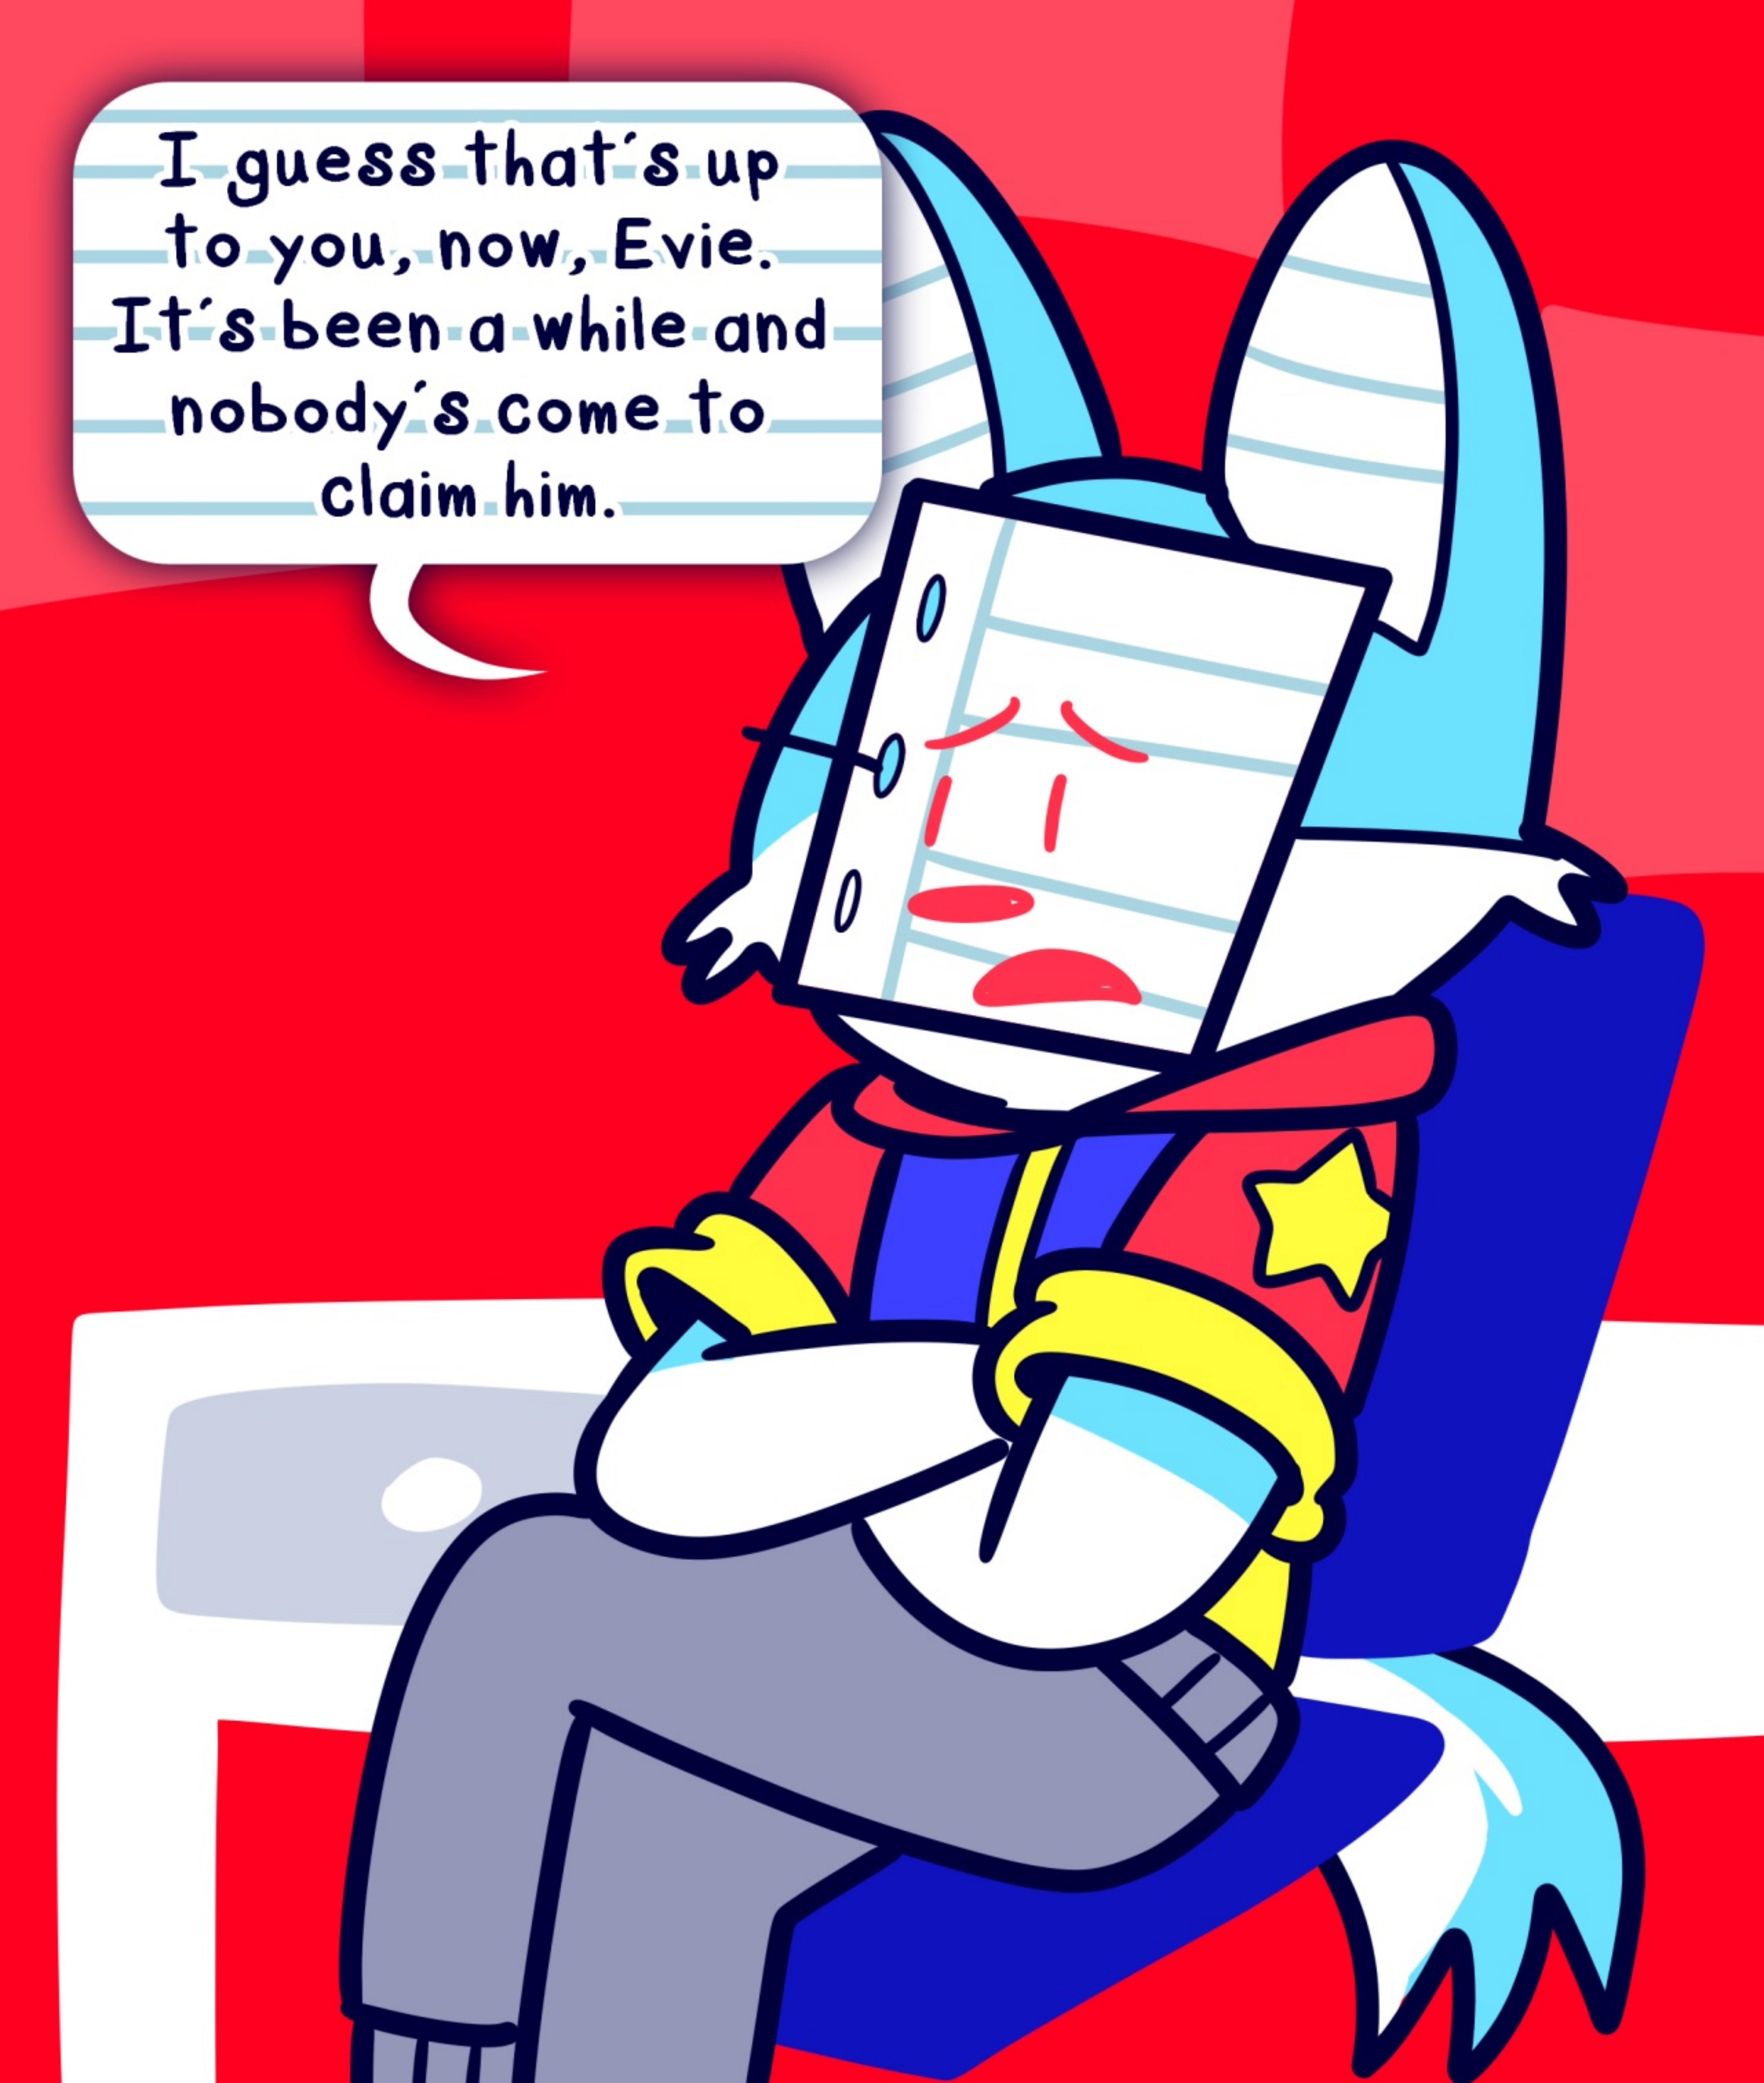
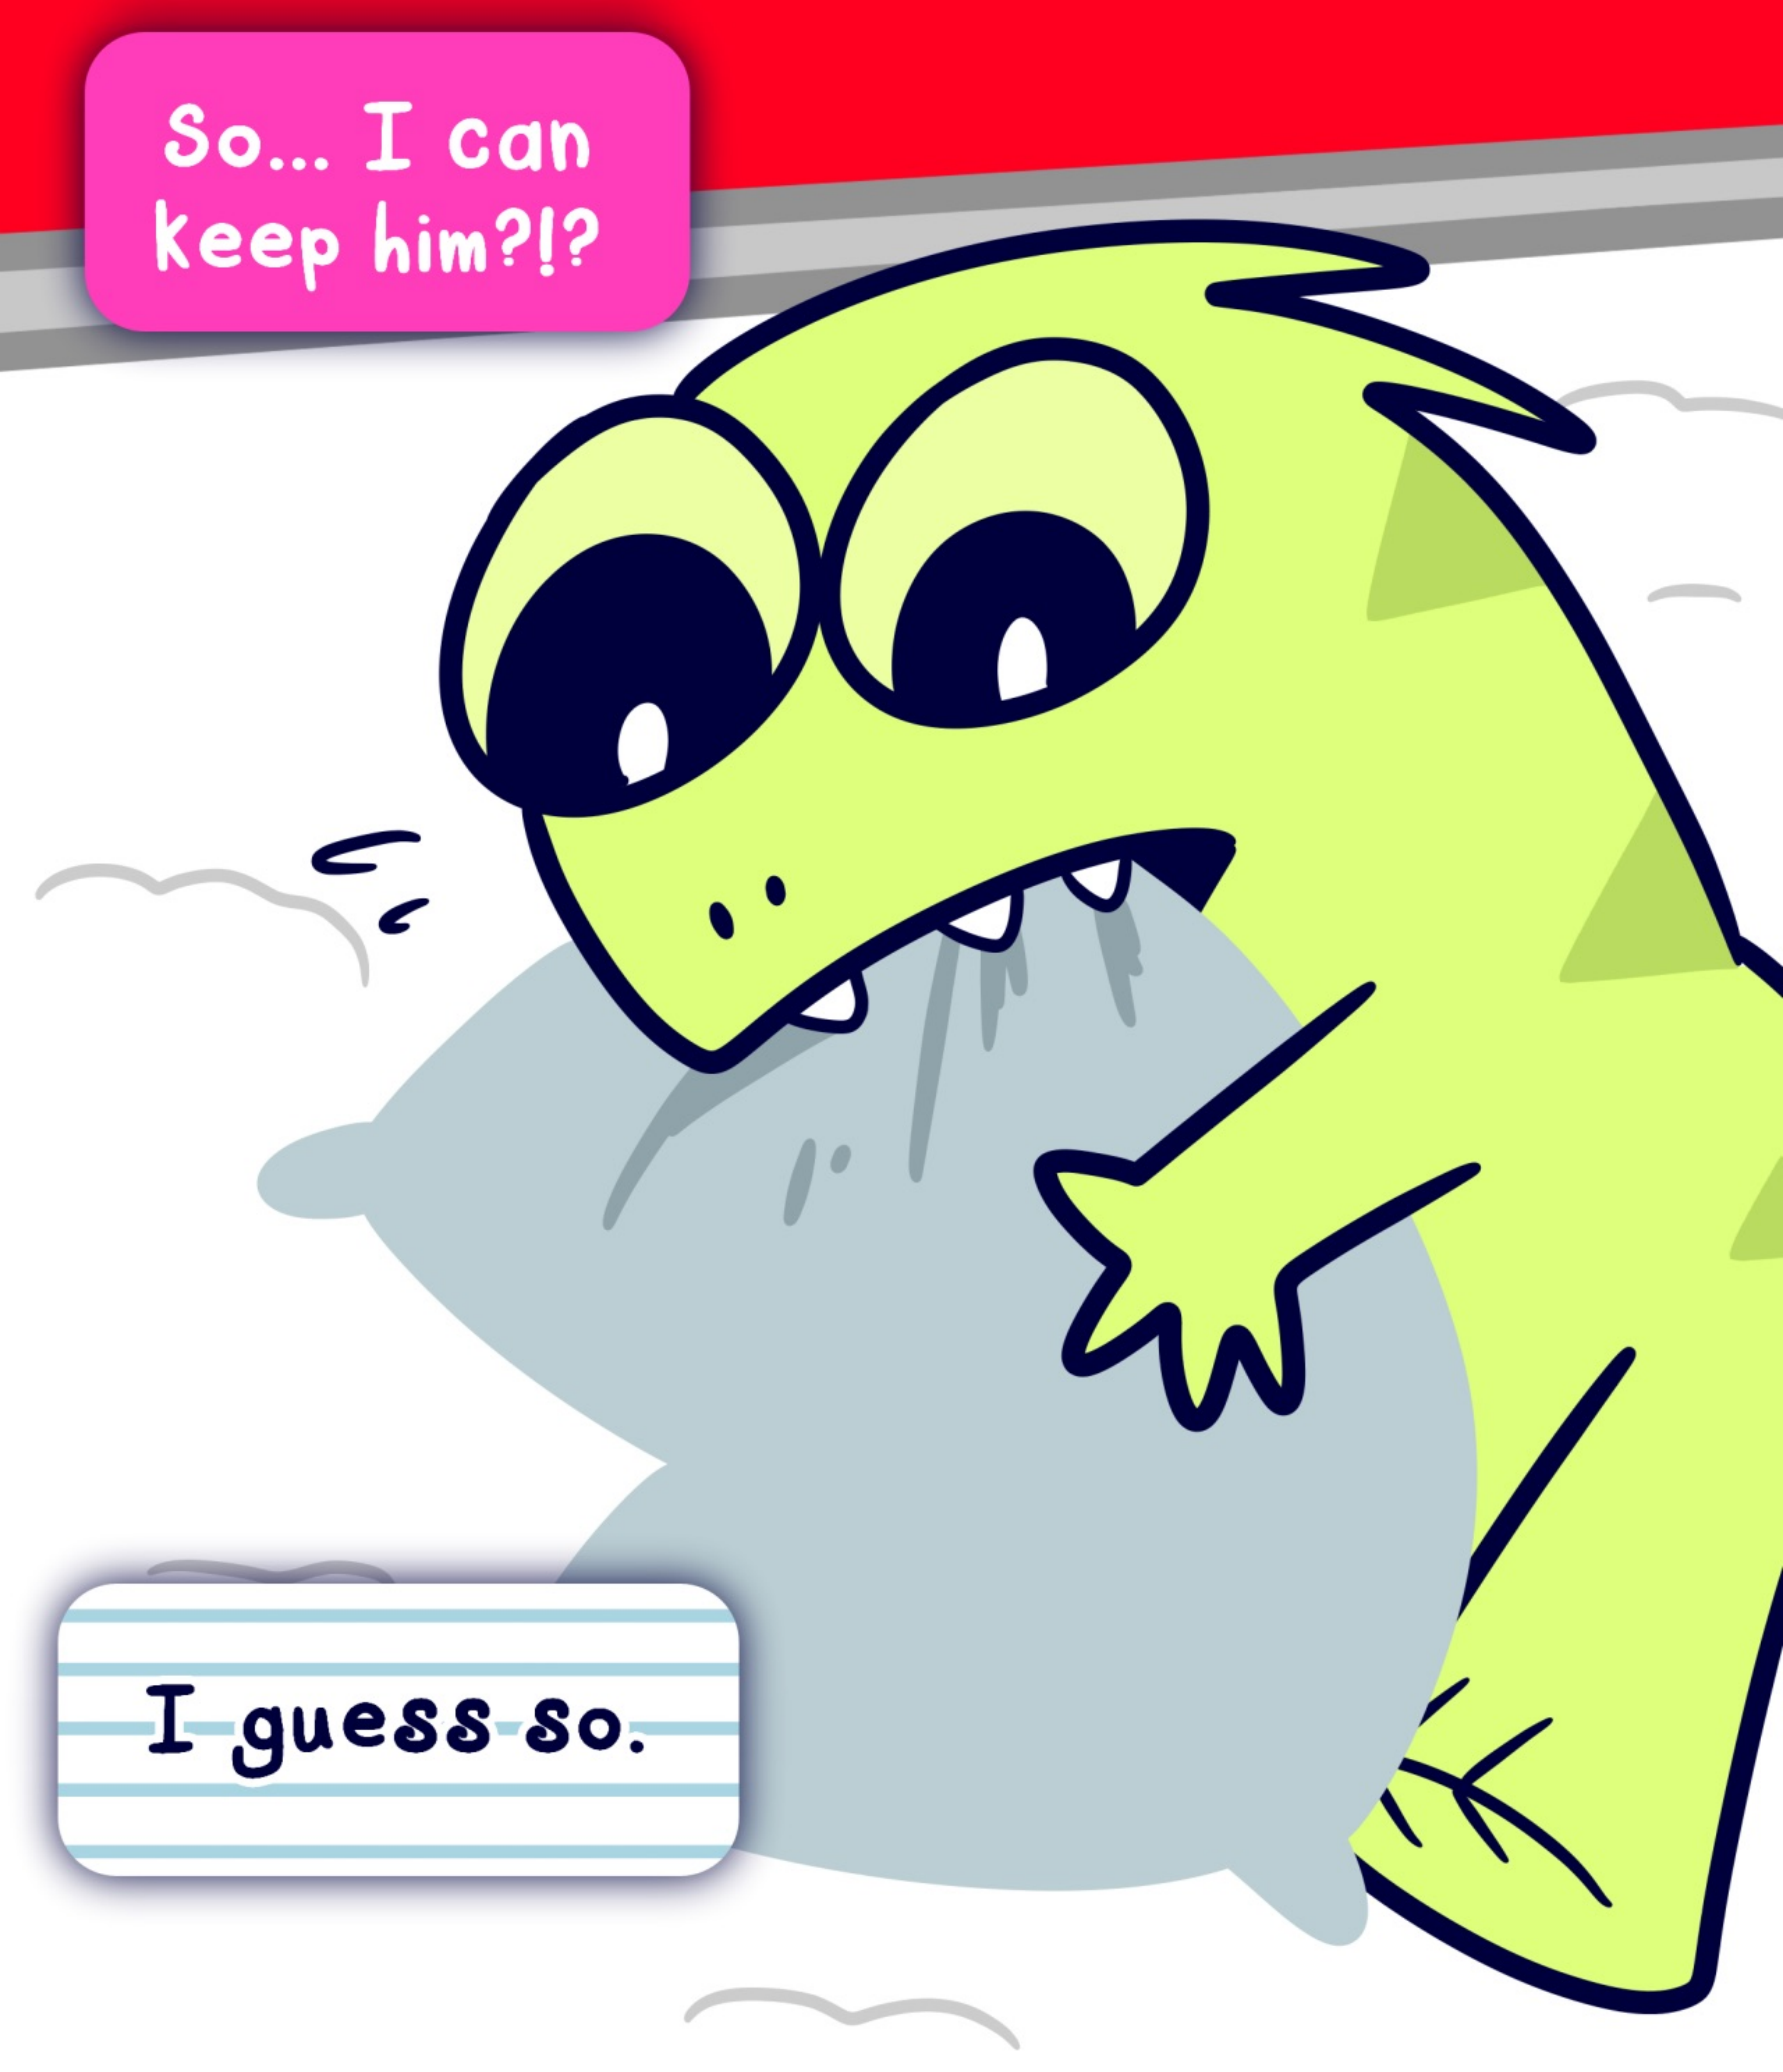
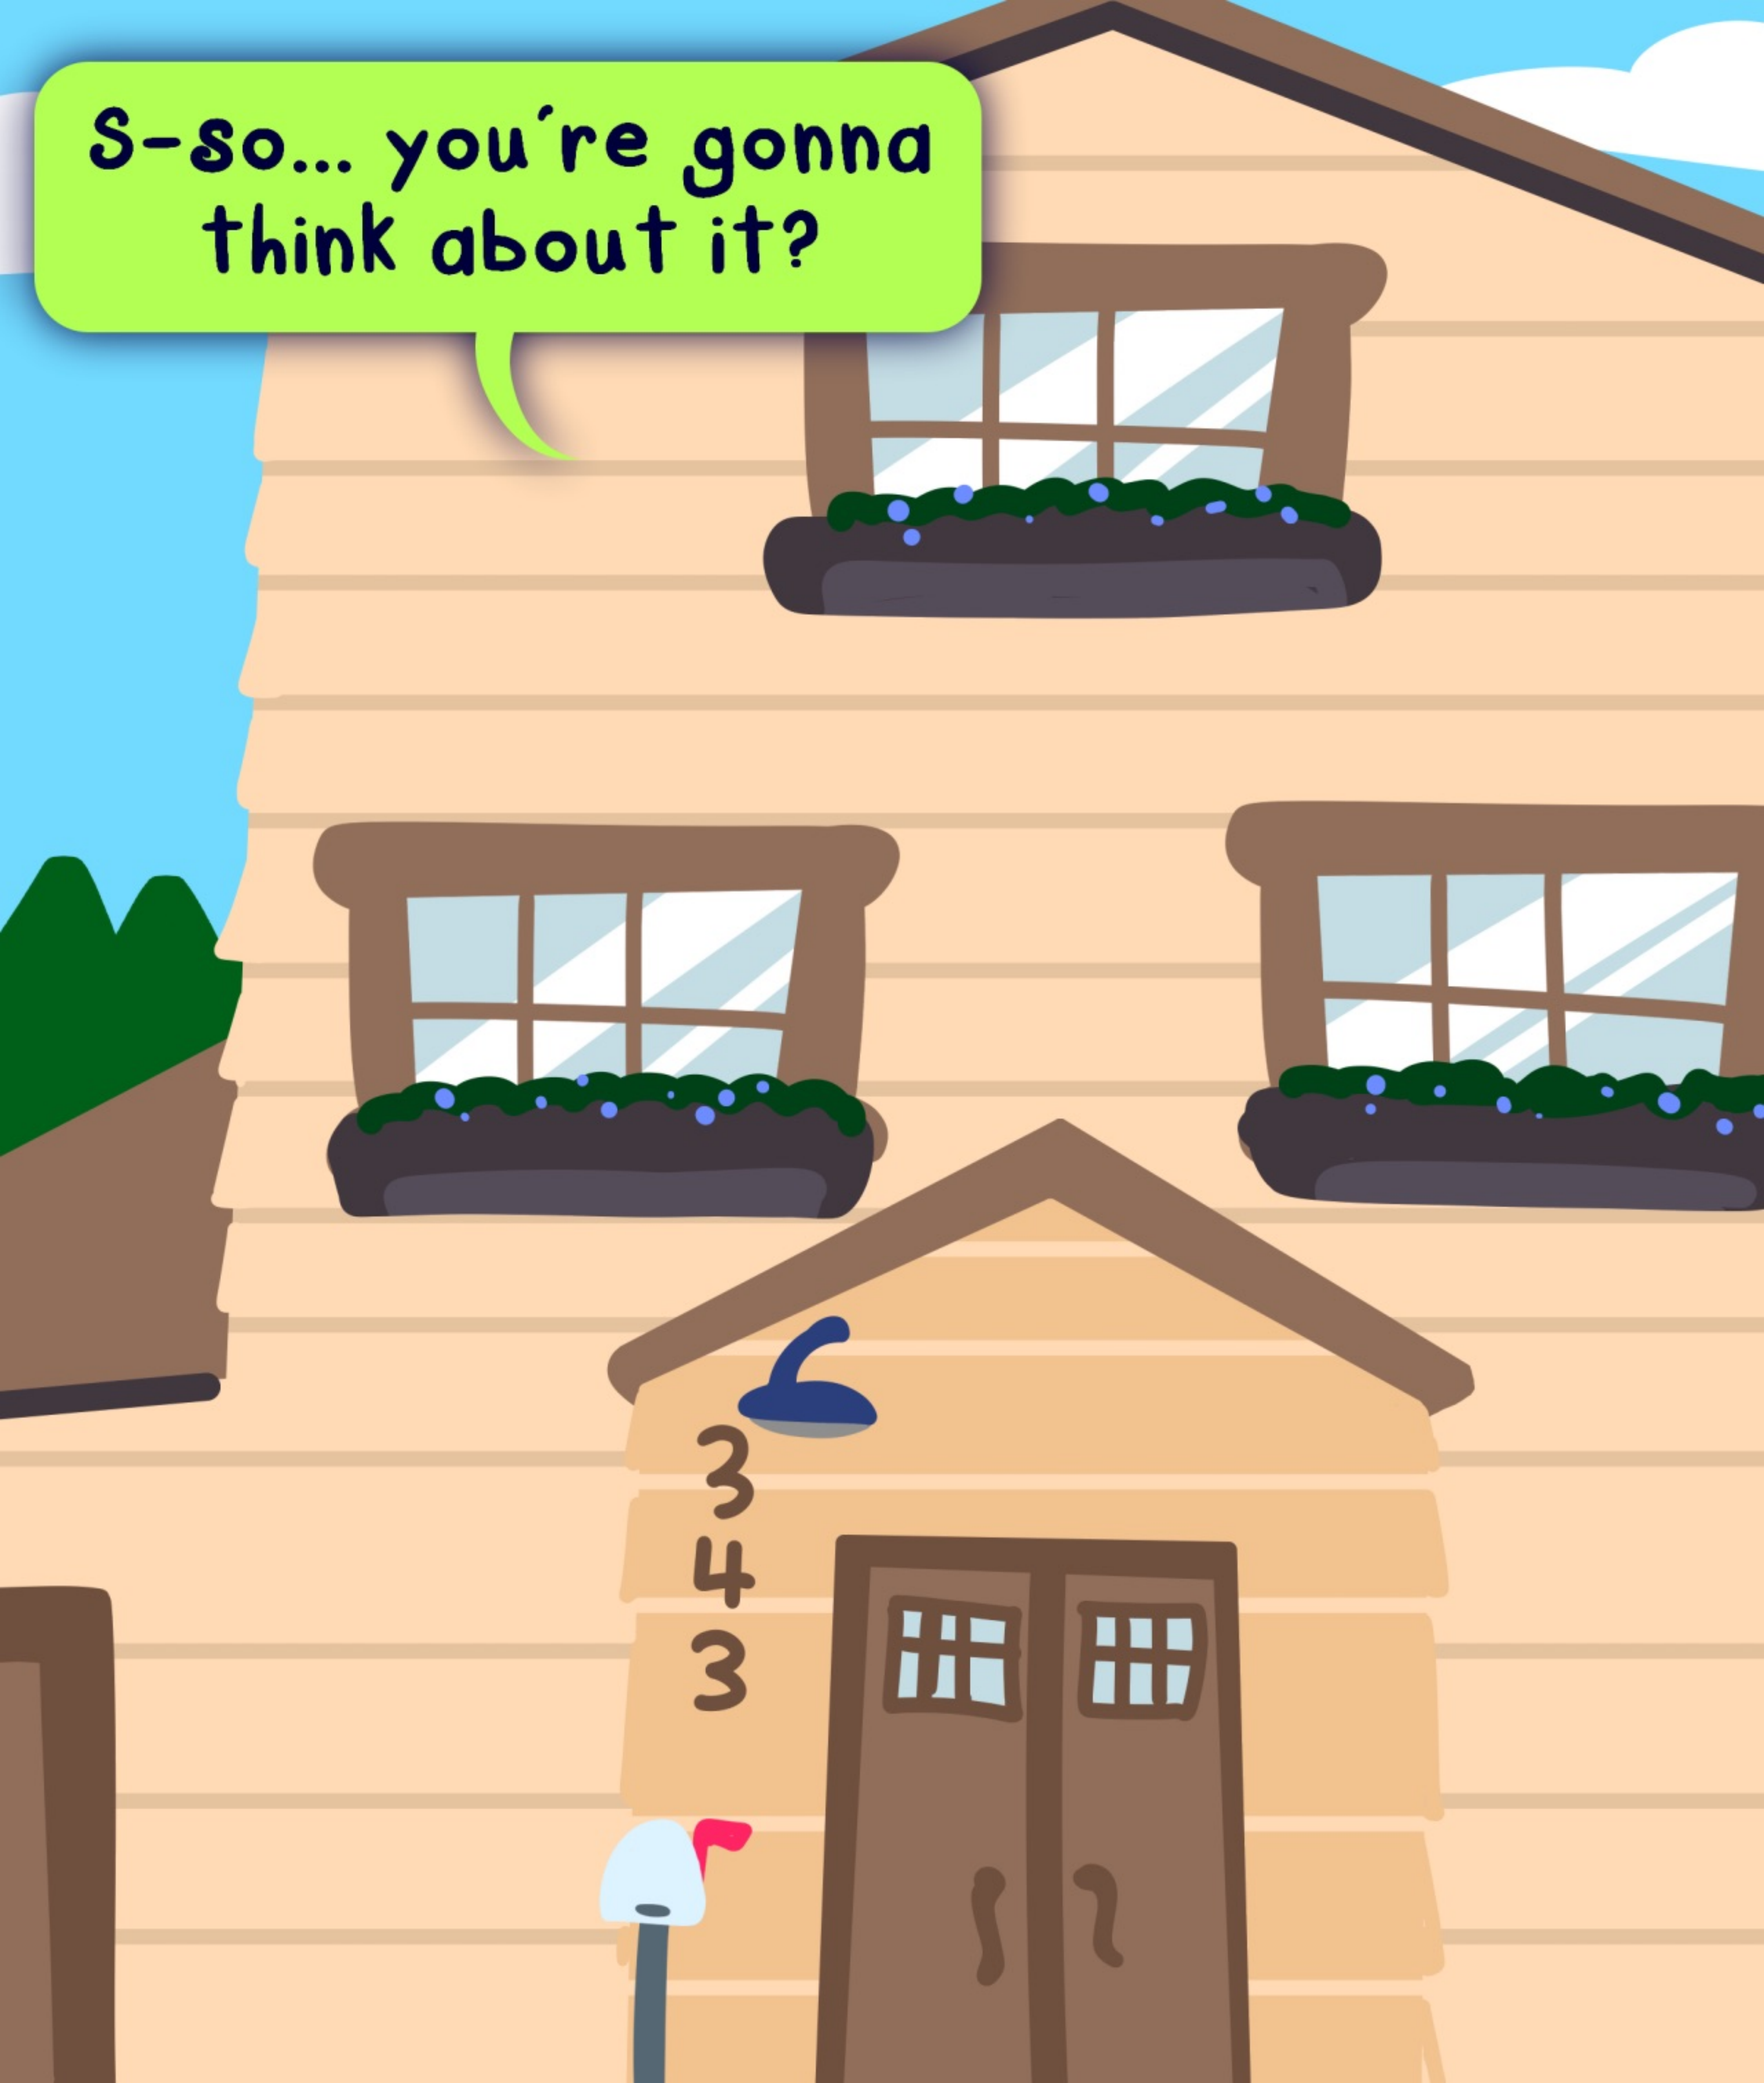
And the owners still haven´t showed up yet... what do we do with him?...



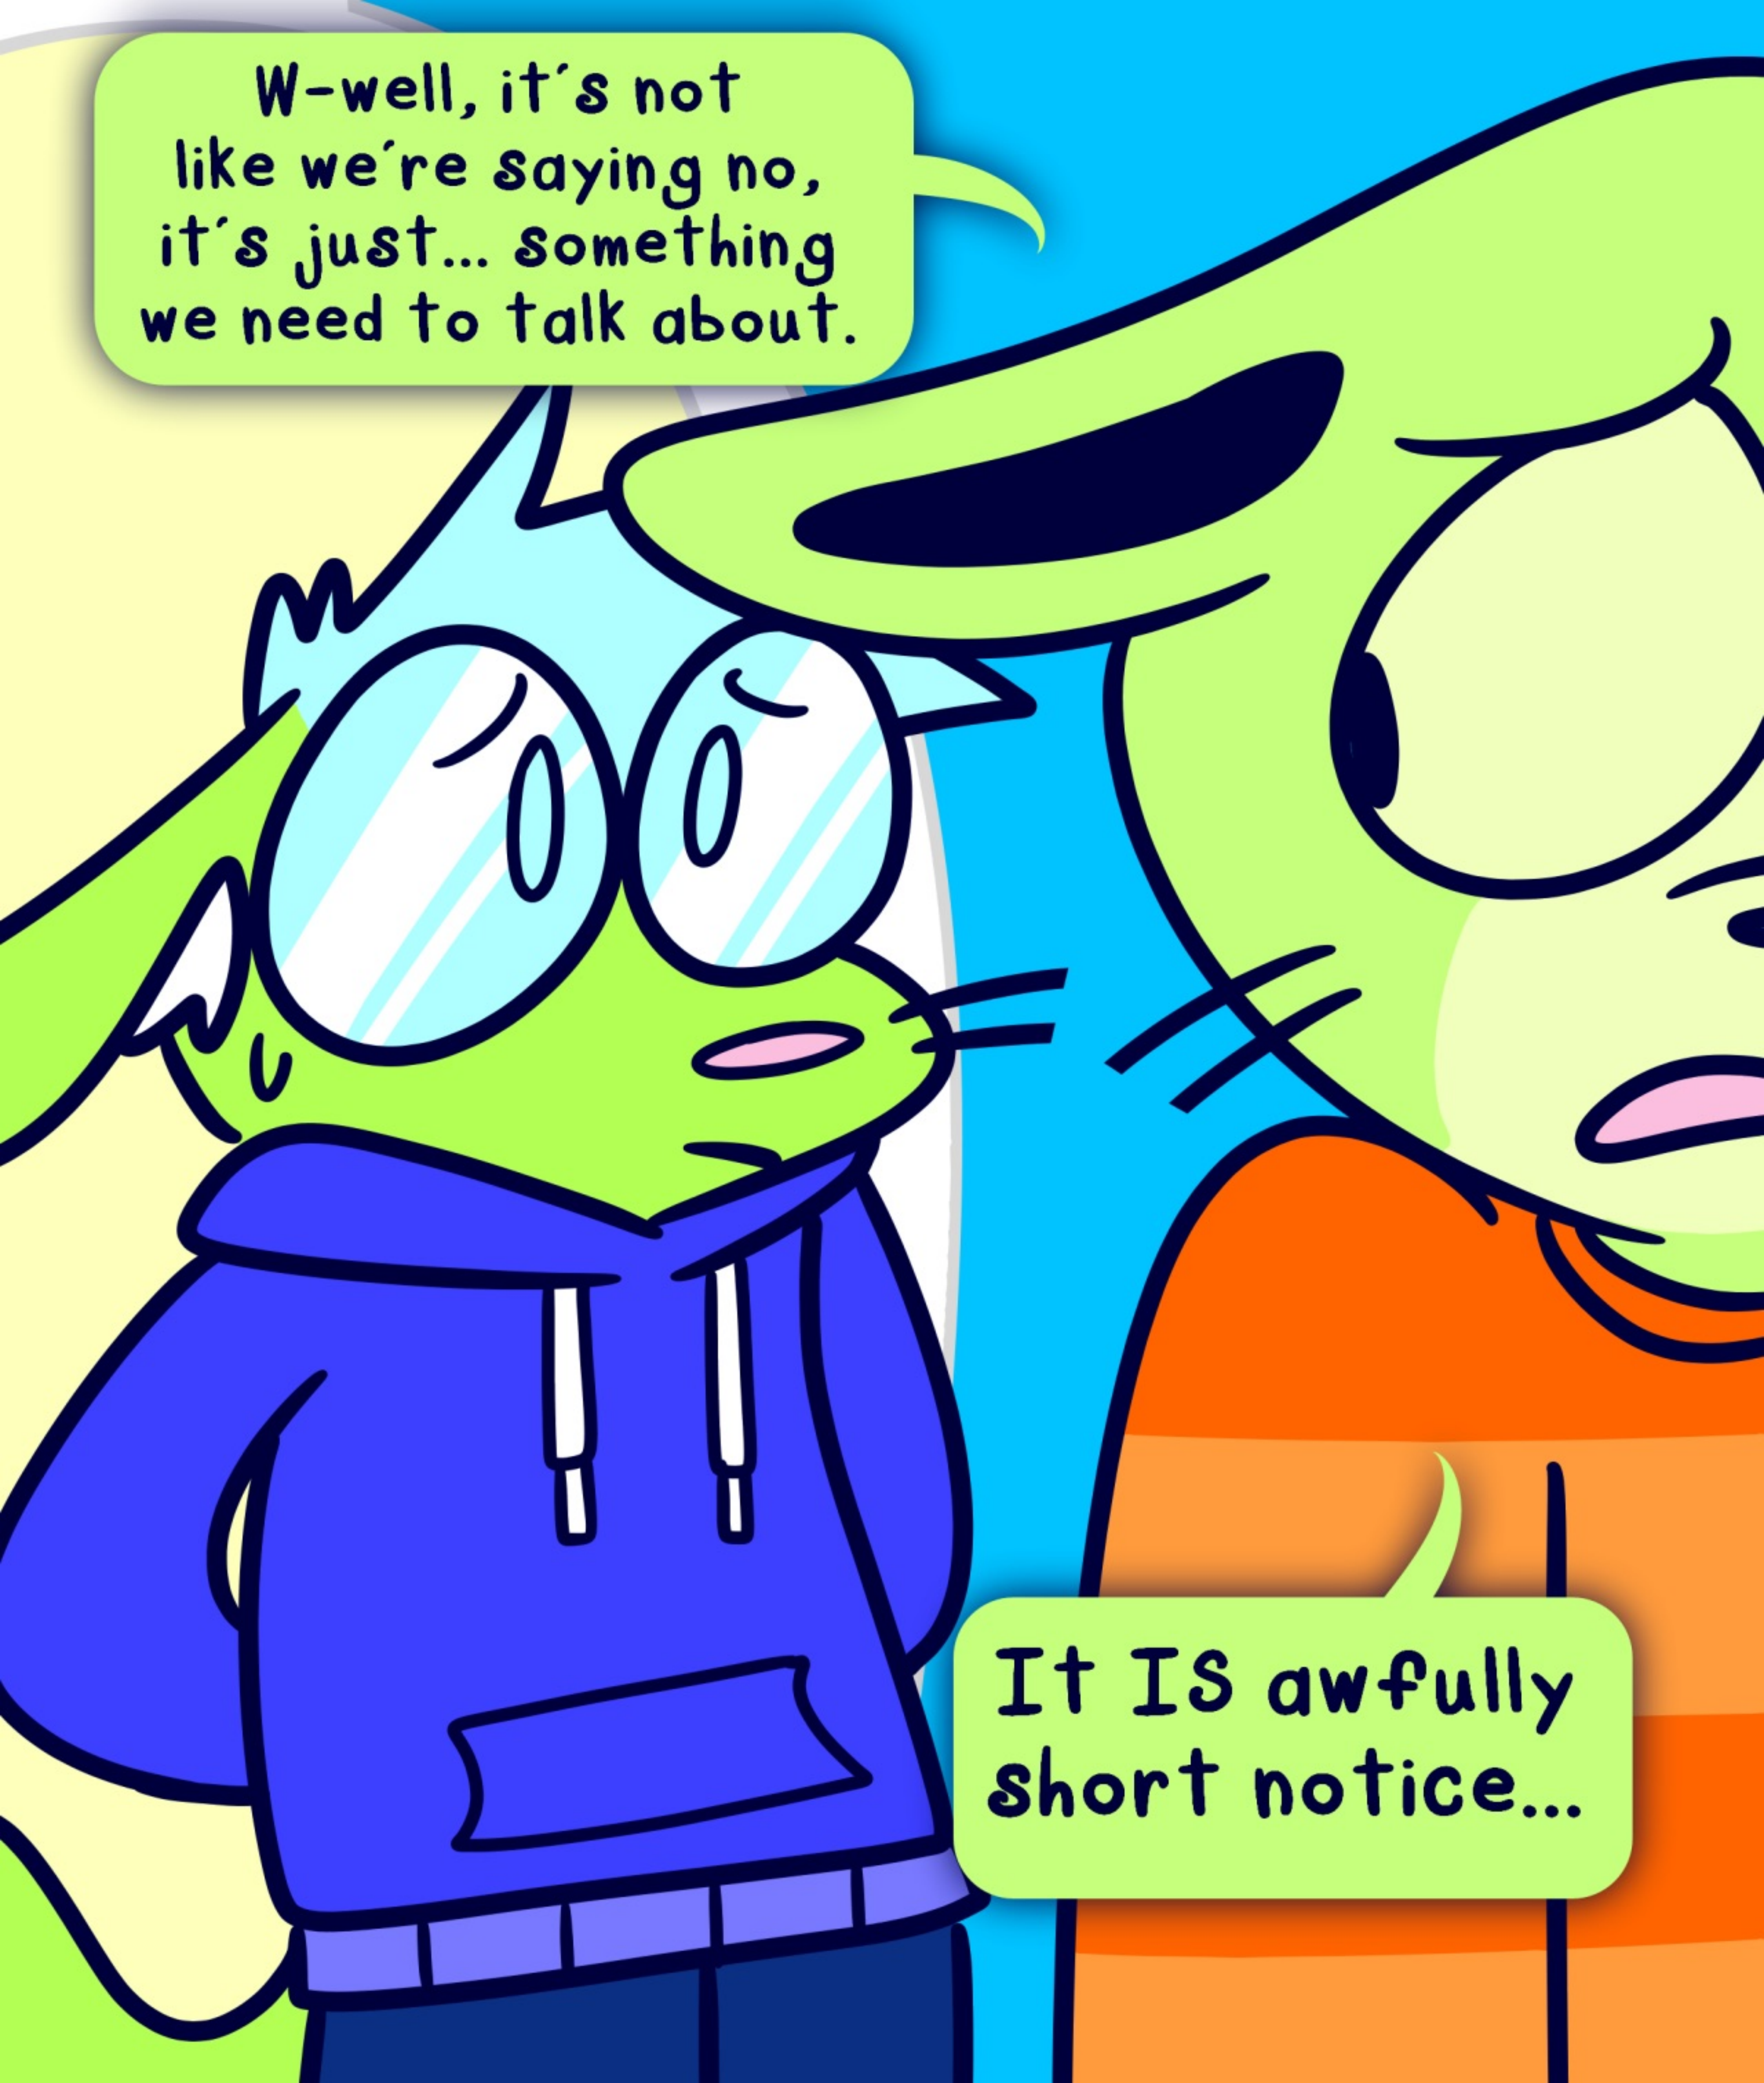
I guess that´s up to you, now, Evie. It´s been a while and nobody´s come to claim him.



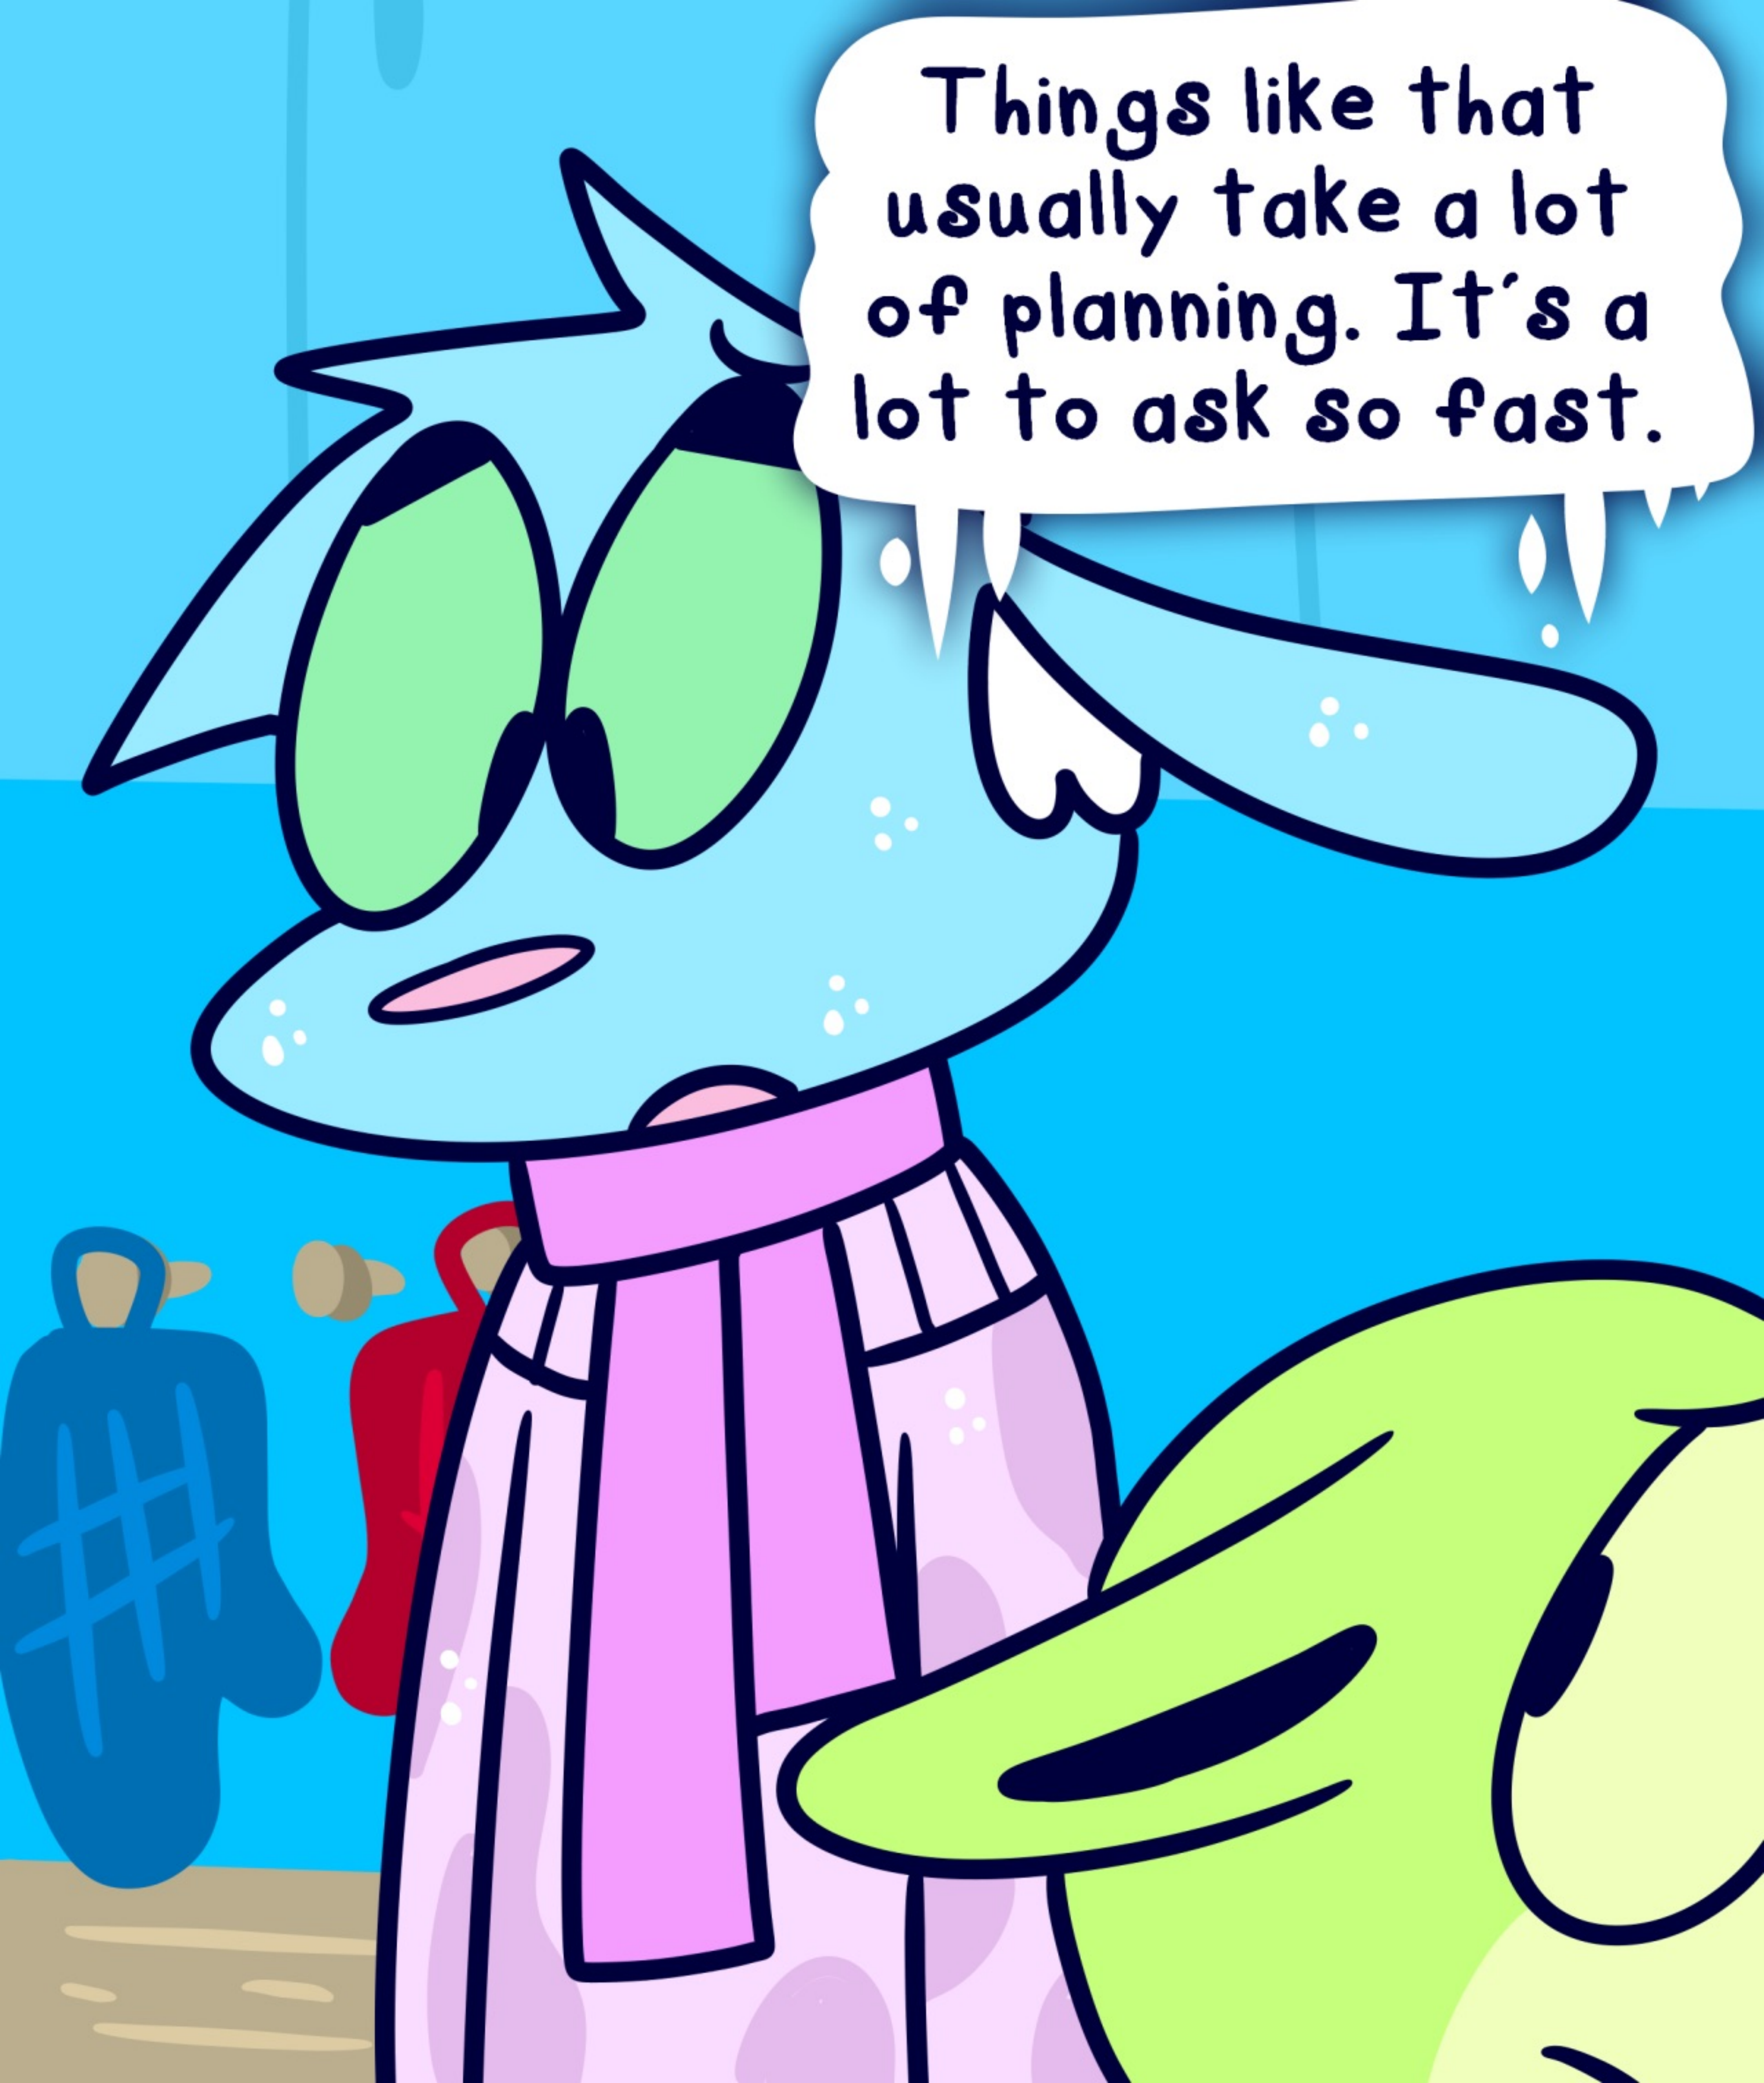
So... I can keep him?!?
I guess so.



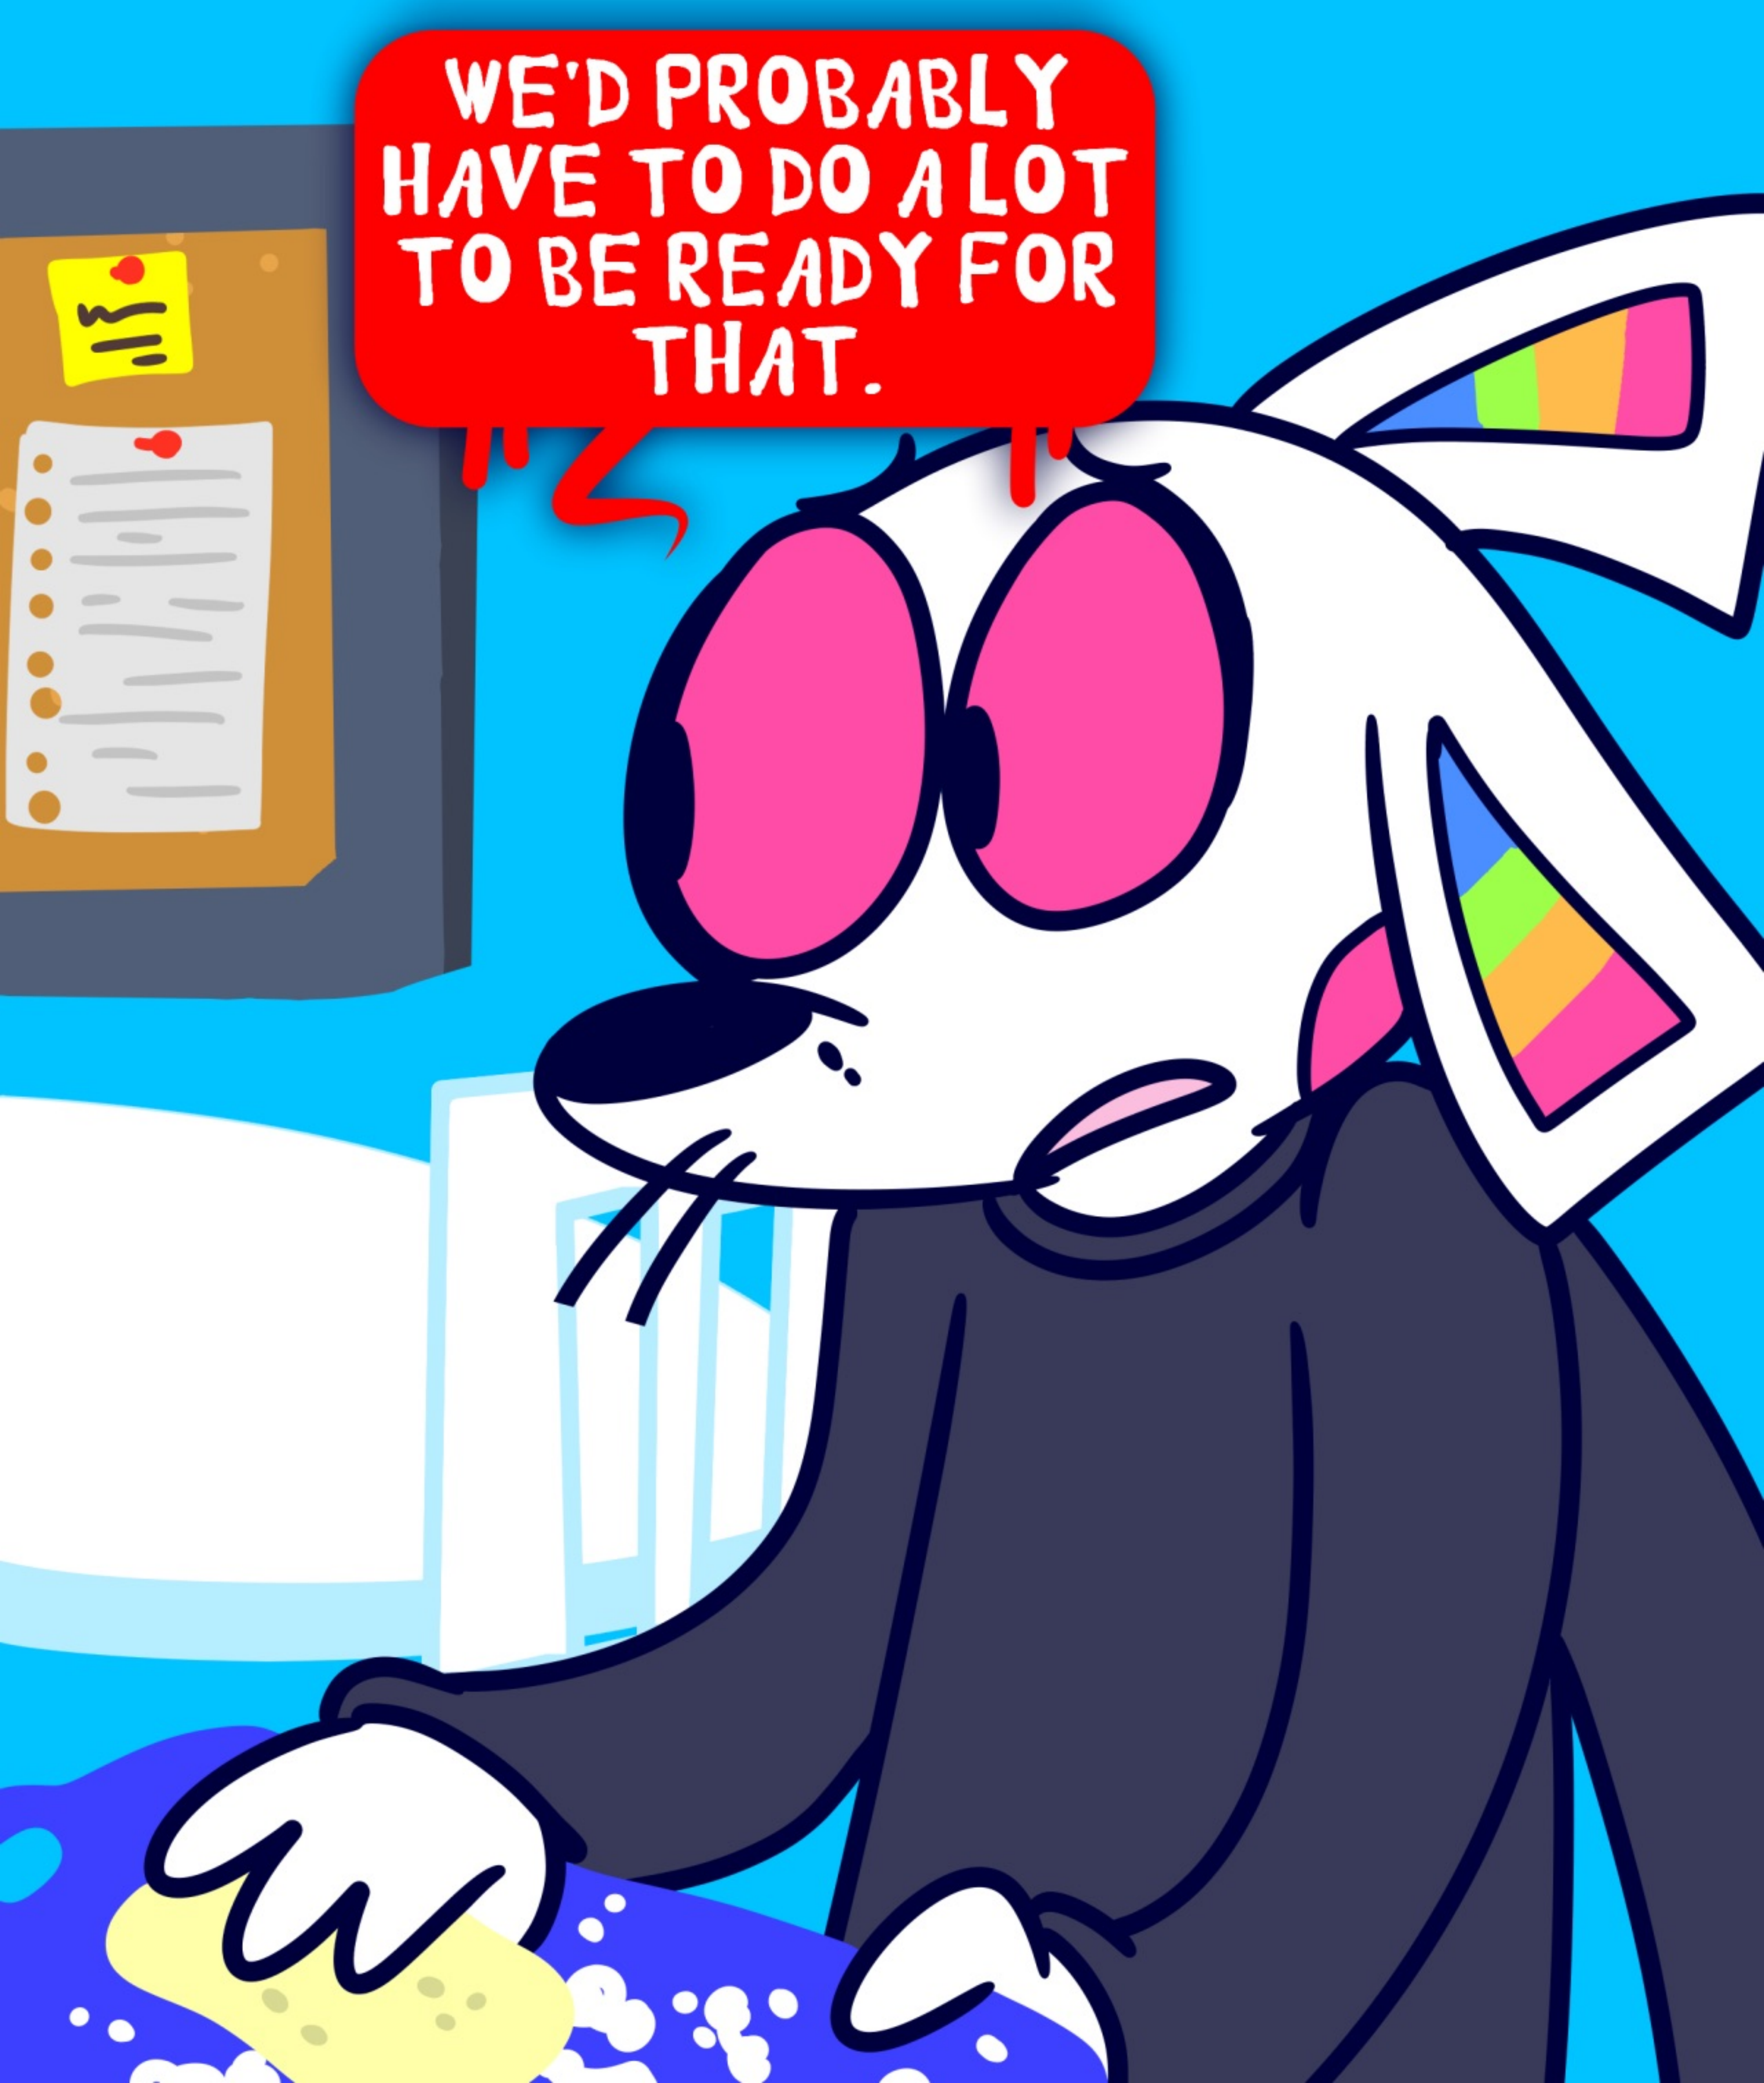
S-so... you're gonna think about it?
343



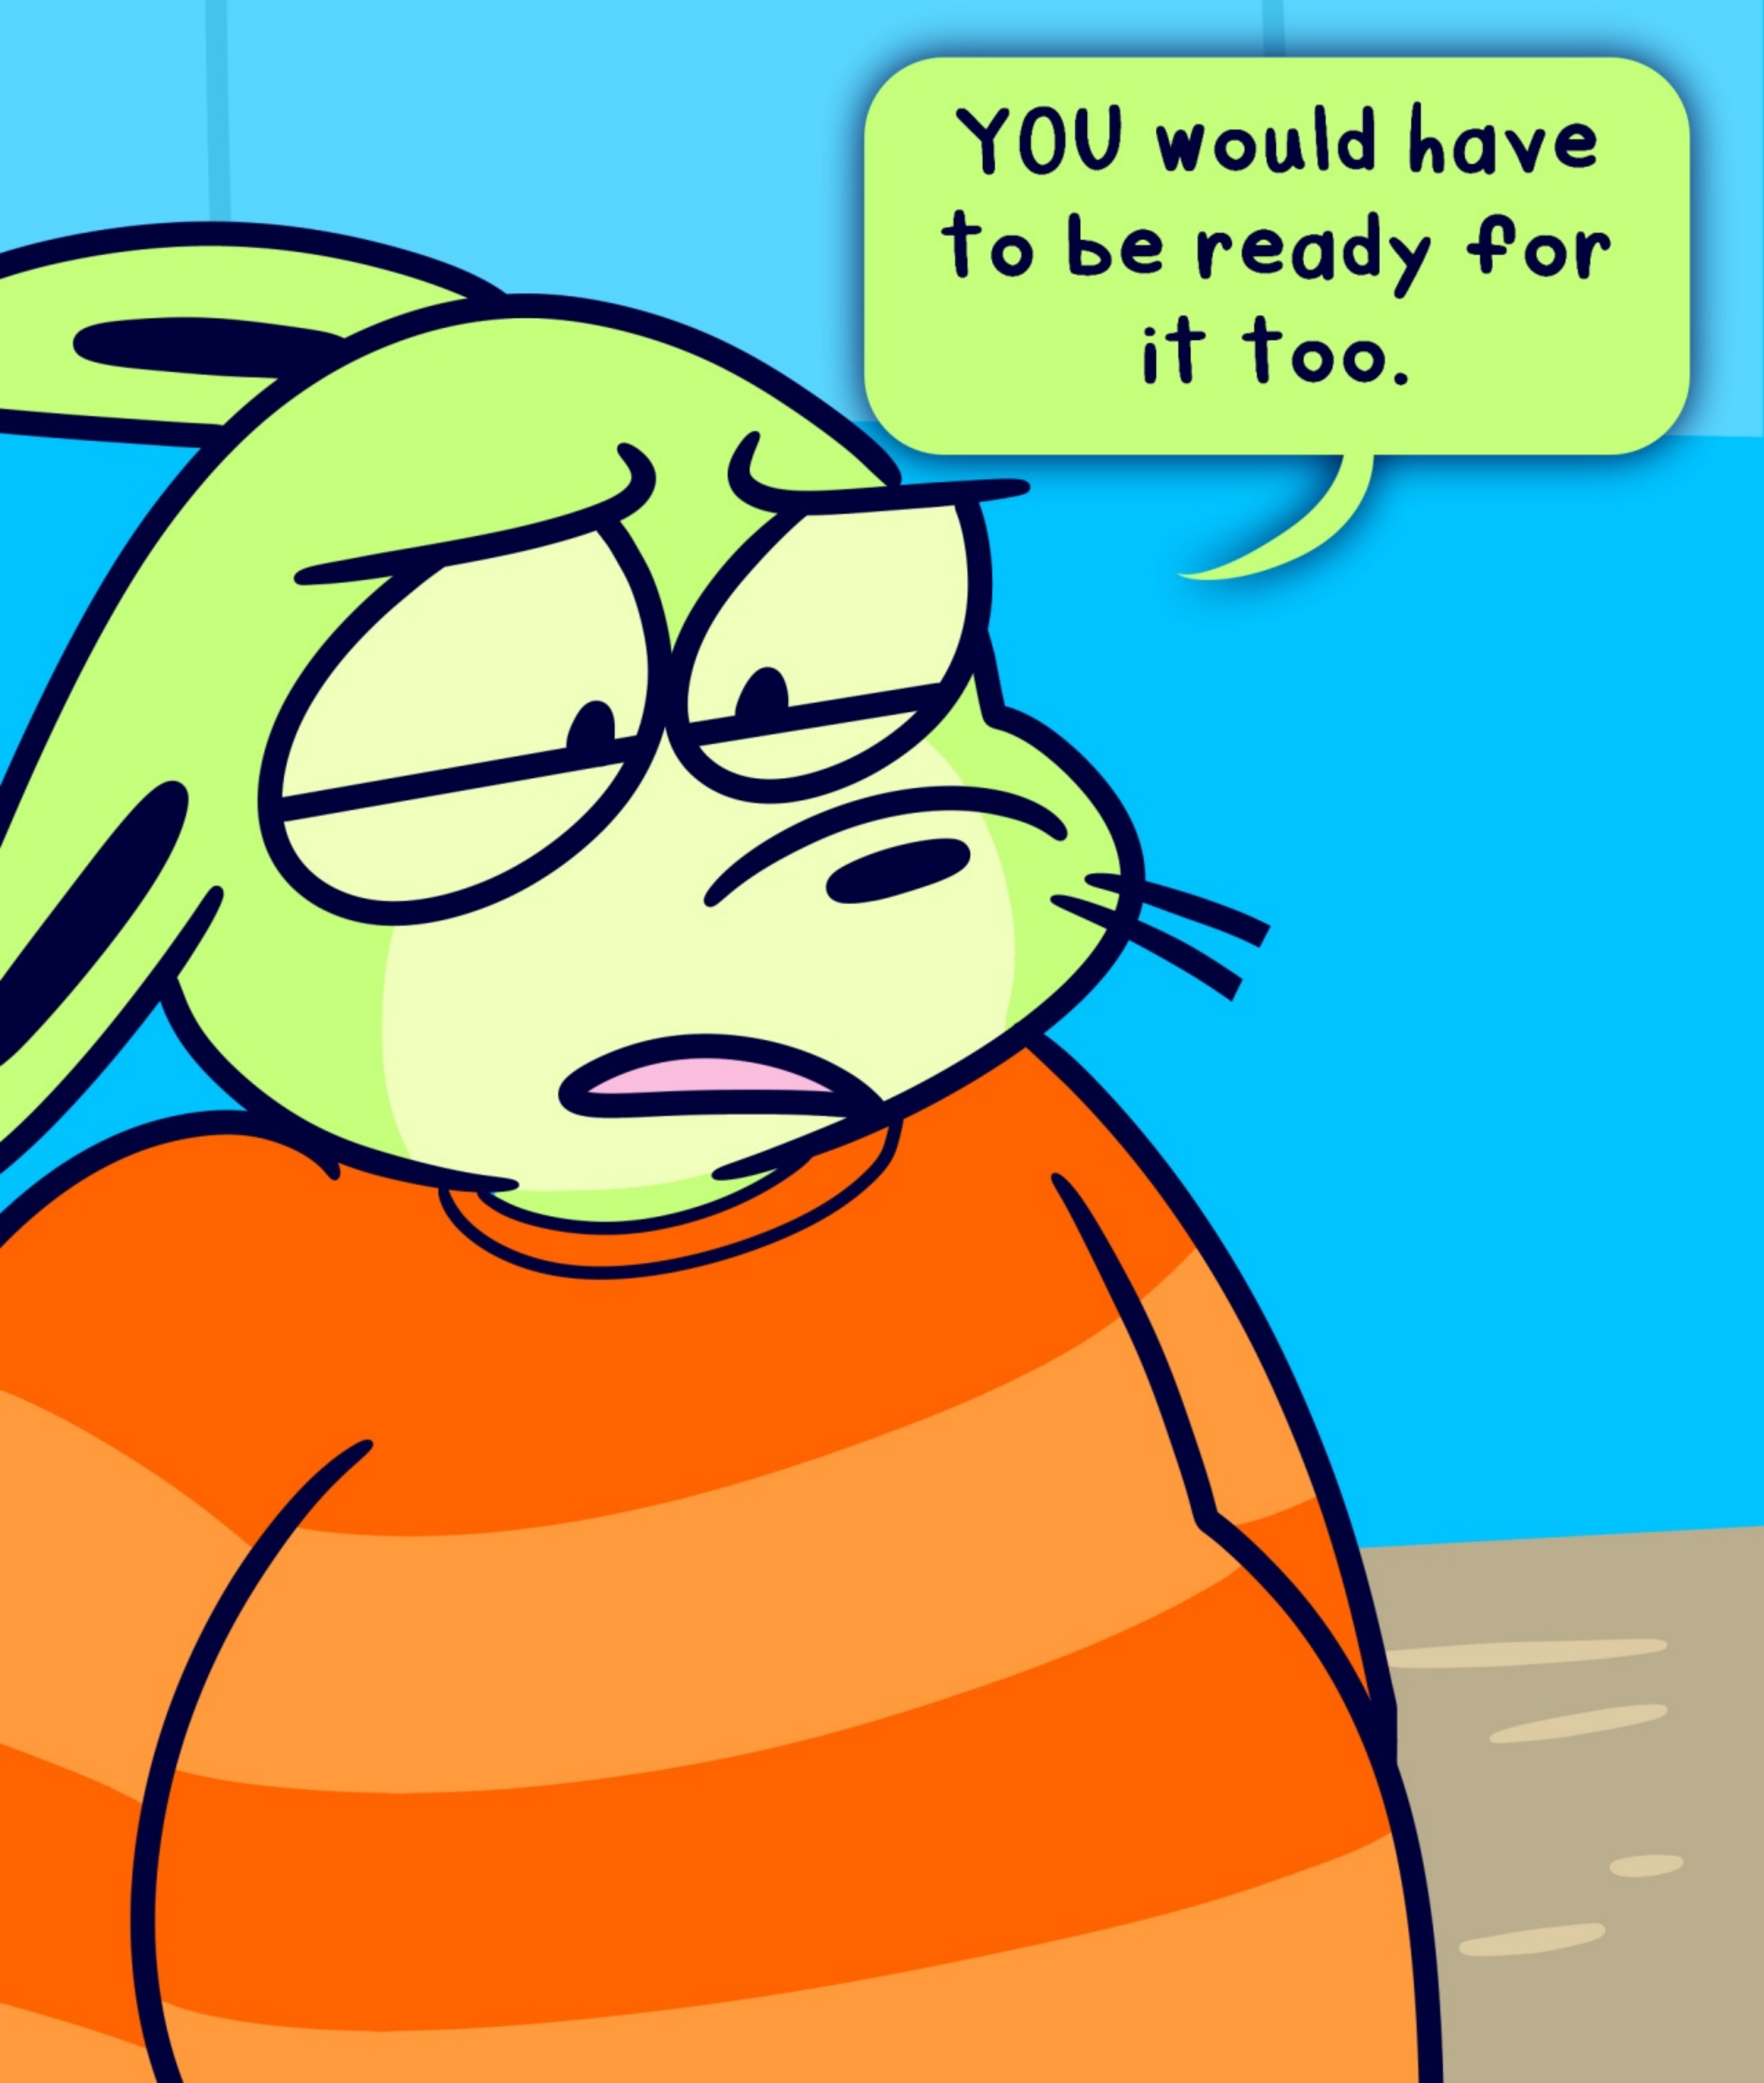
W-well, it's not like we're saying no, it's just... something we need to talk about.
It IS awfully short notice...



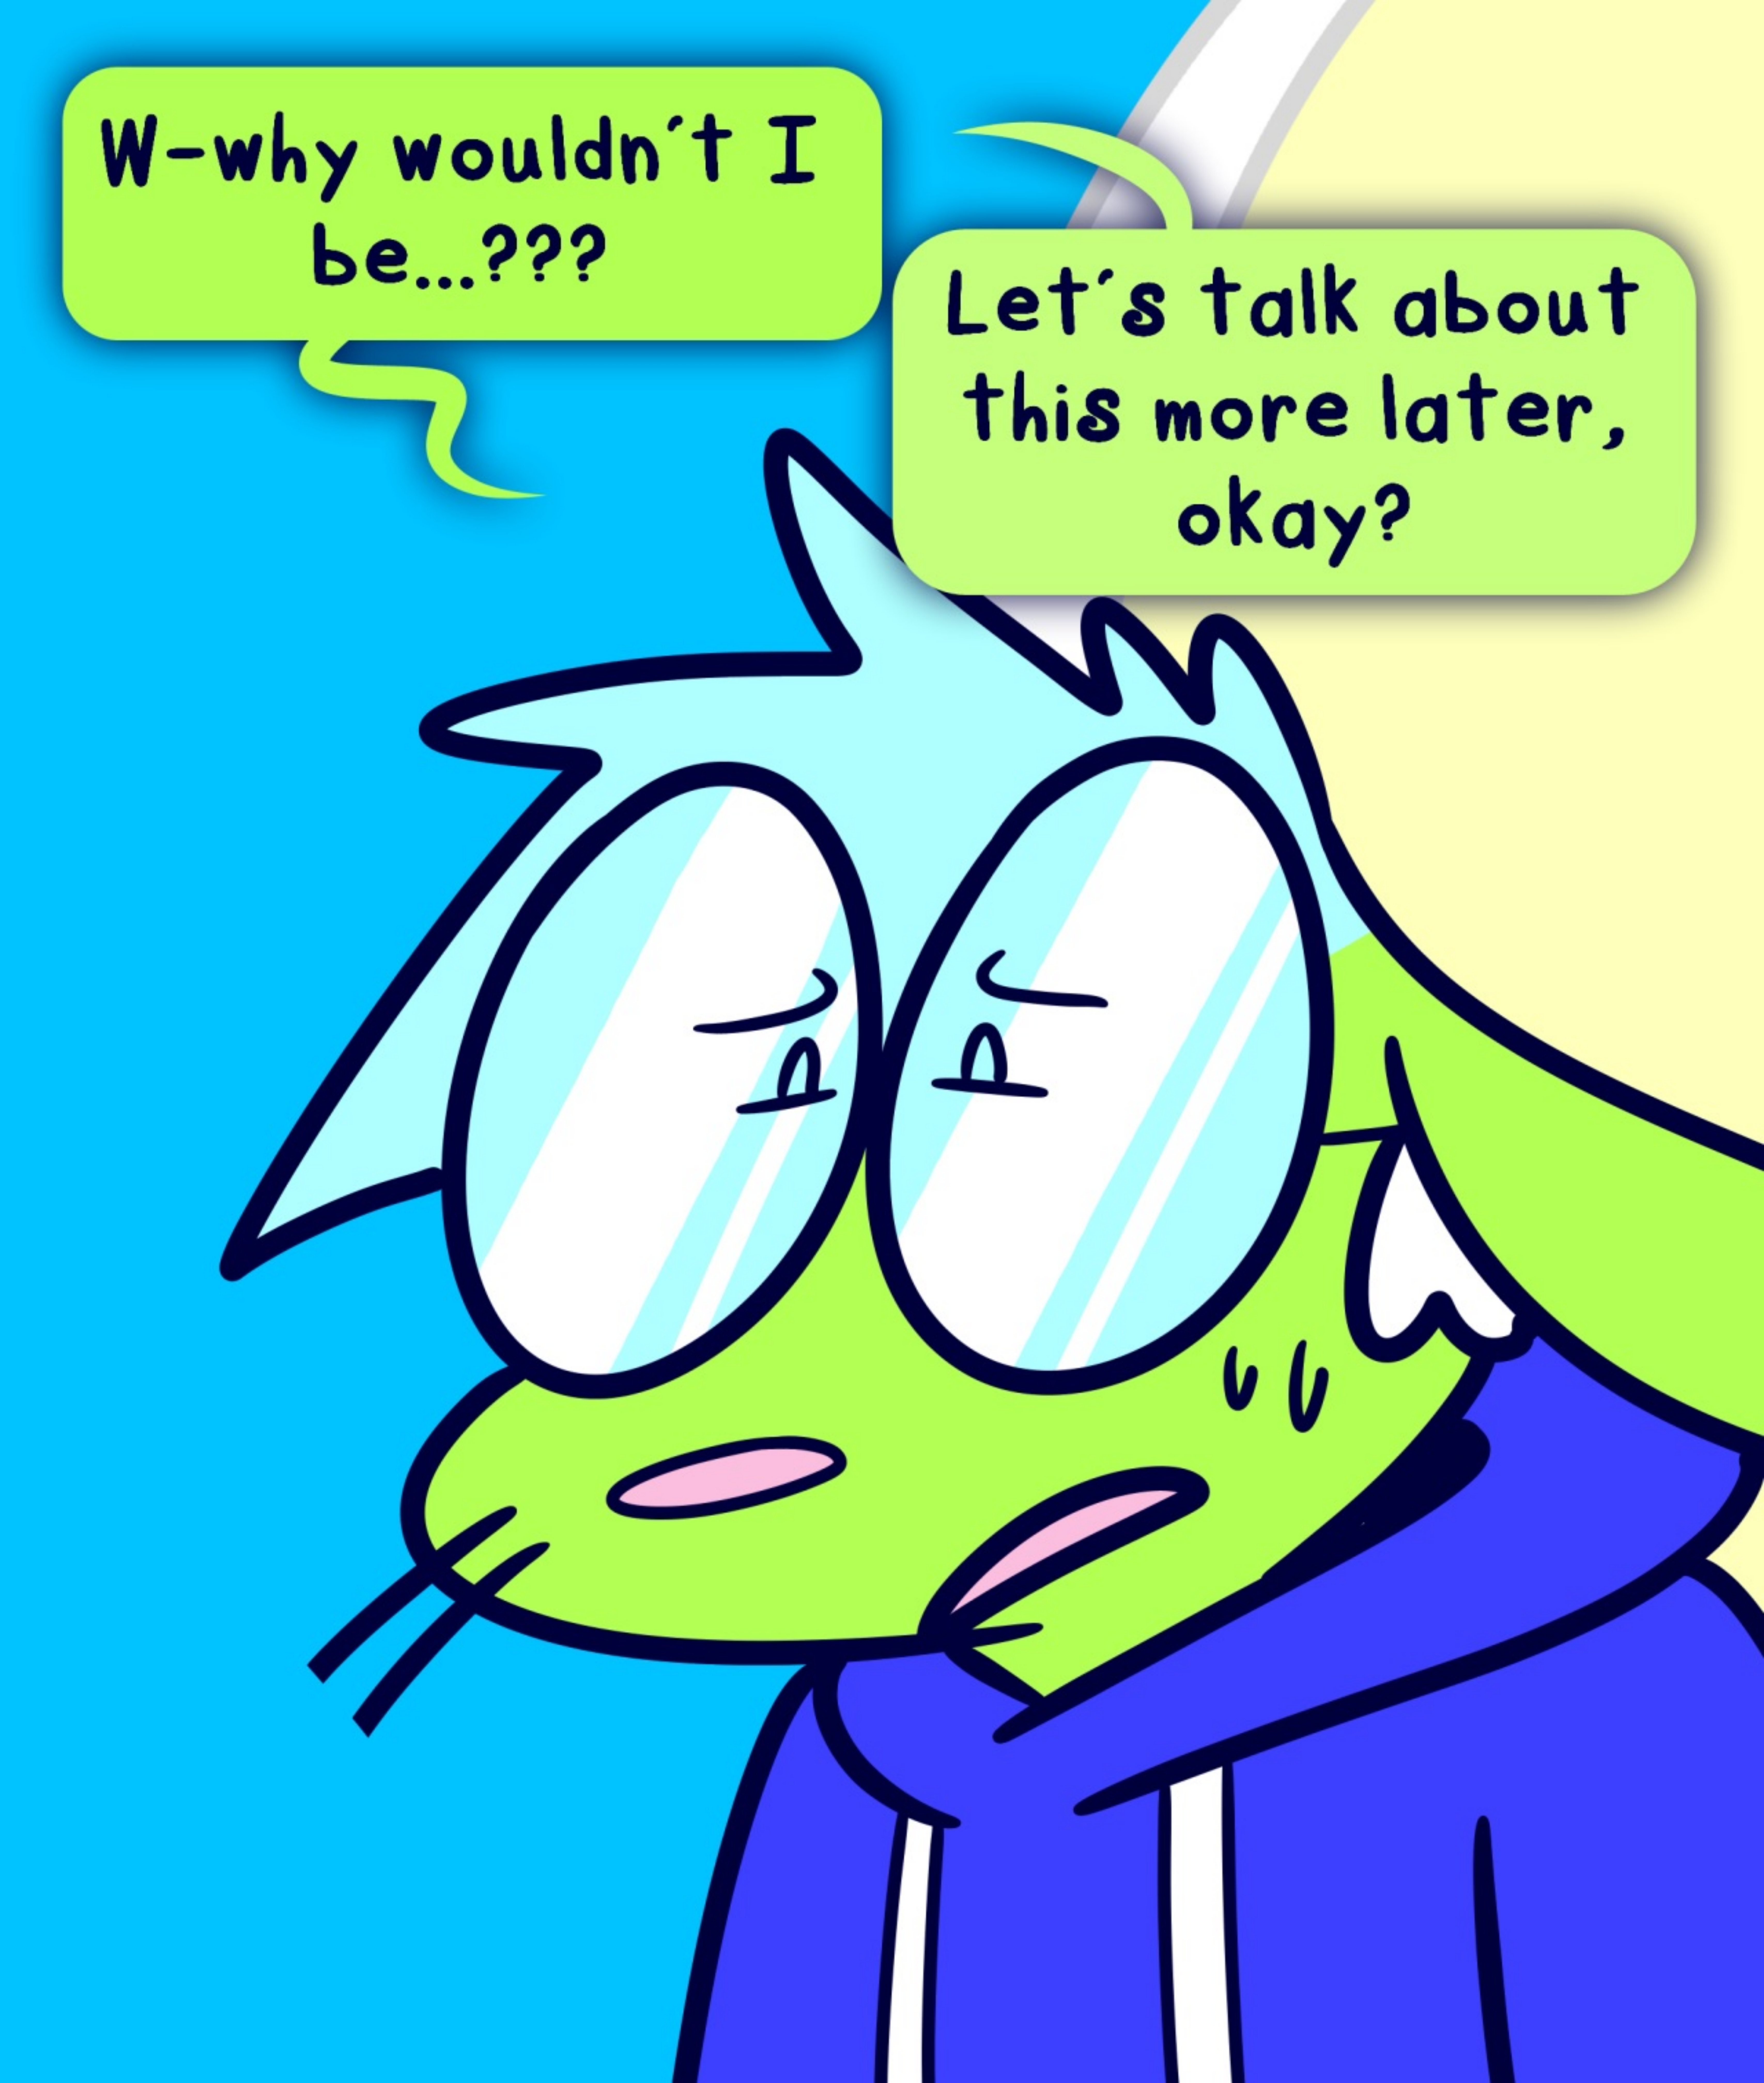
Things like that usually take a lot of planning. It's a lot to ask so fast.



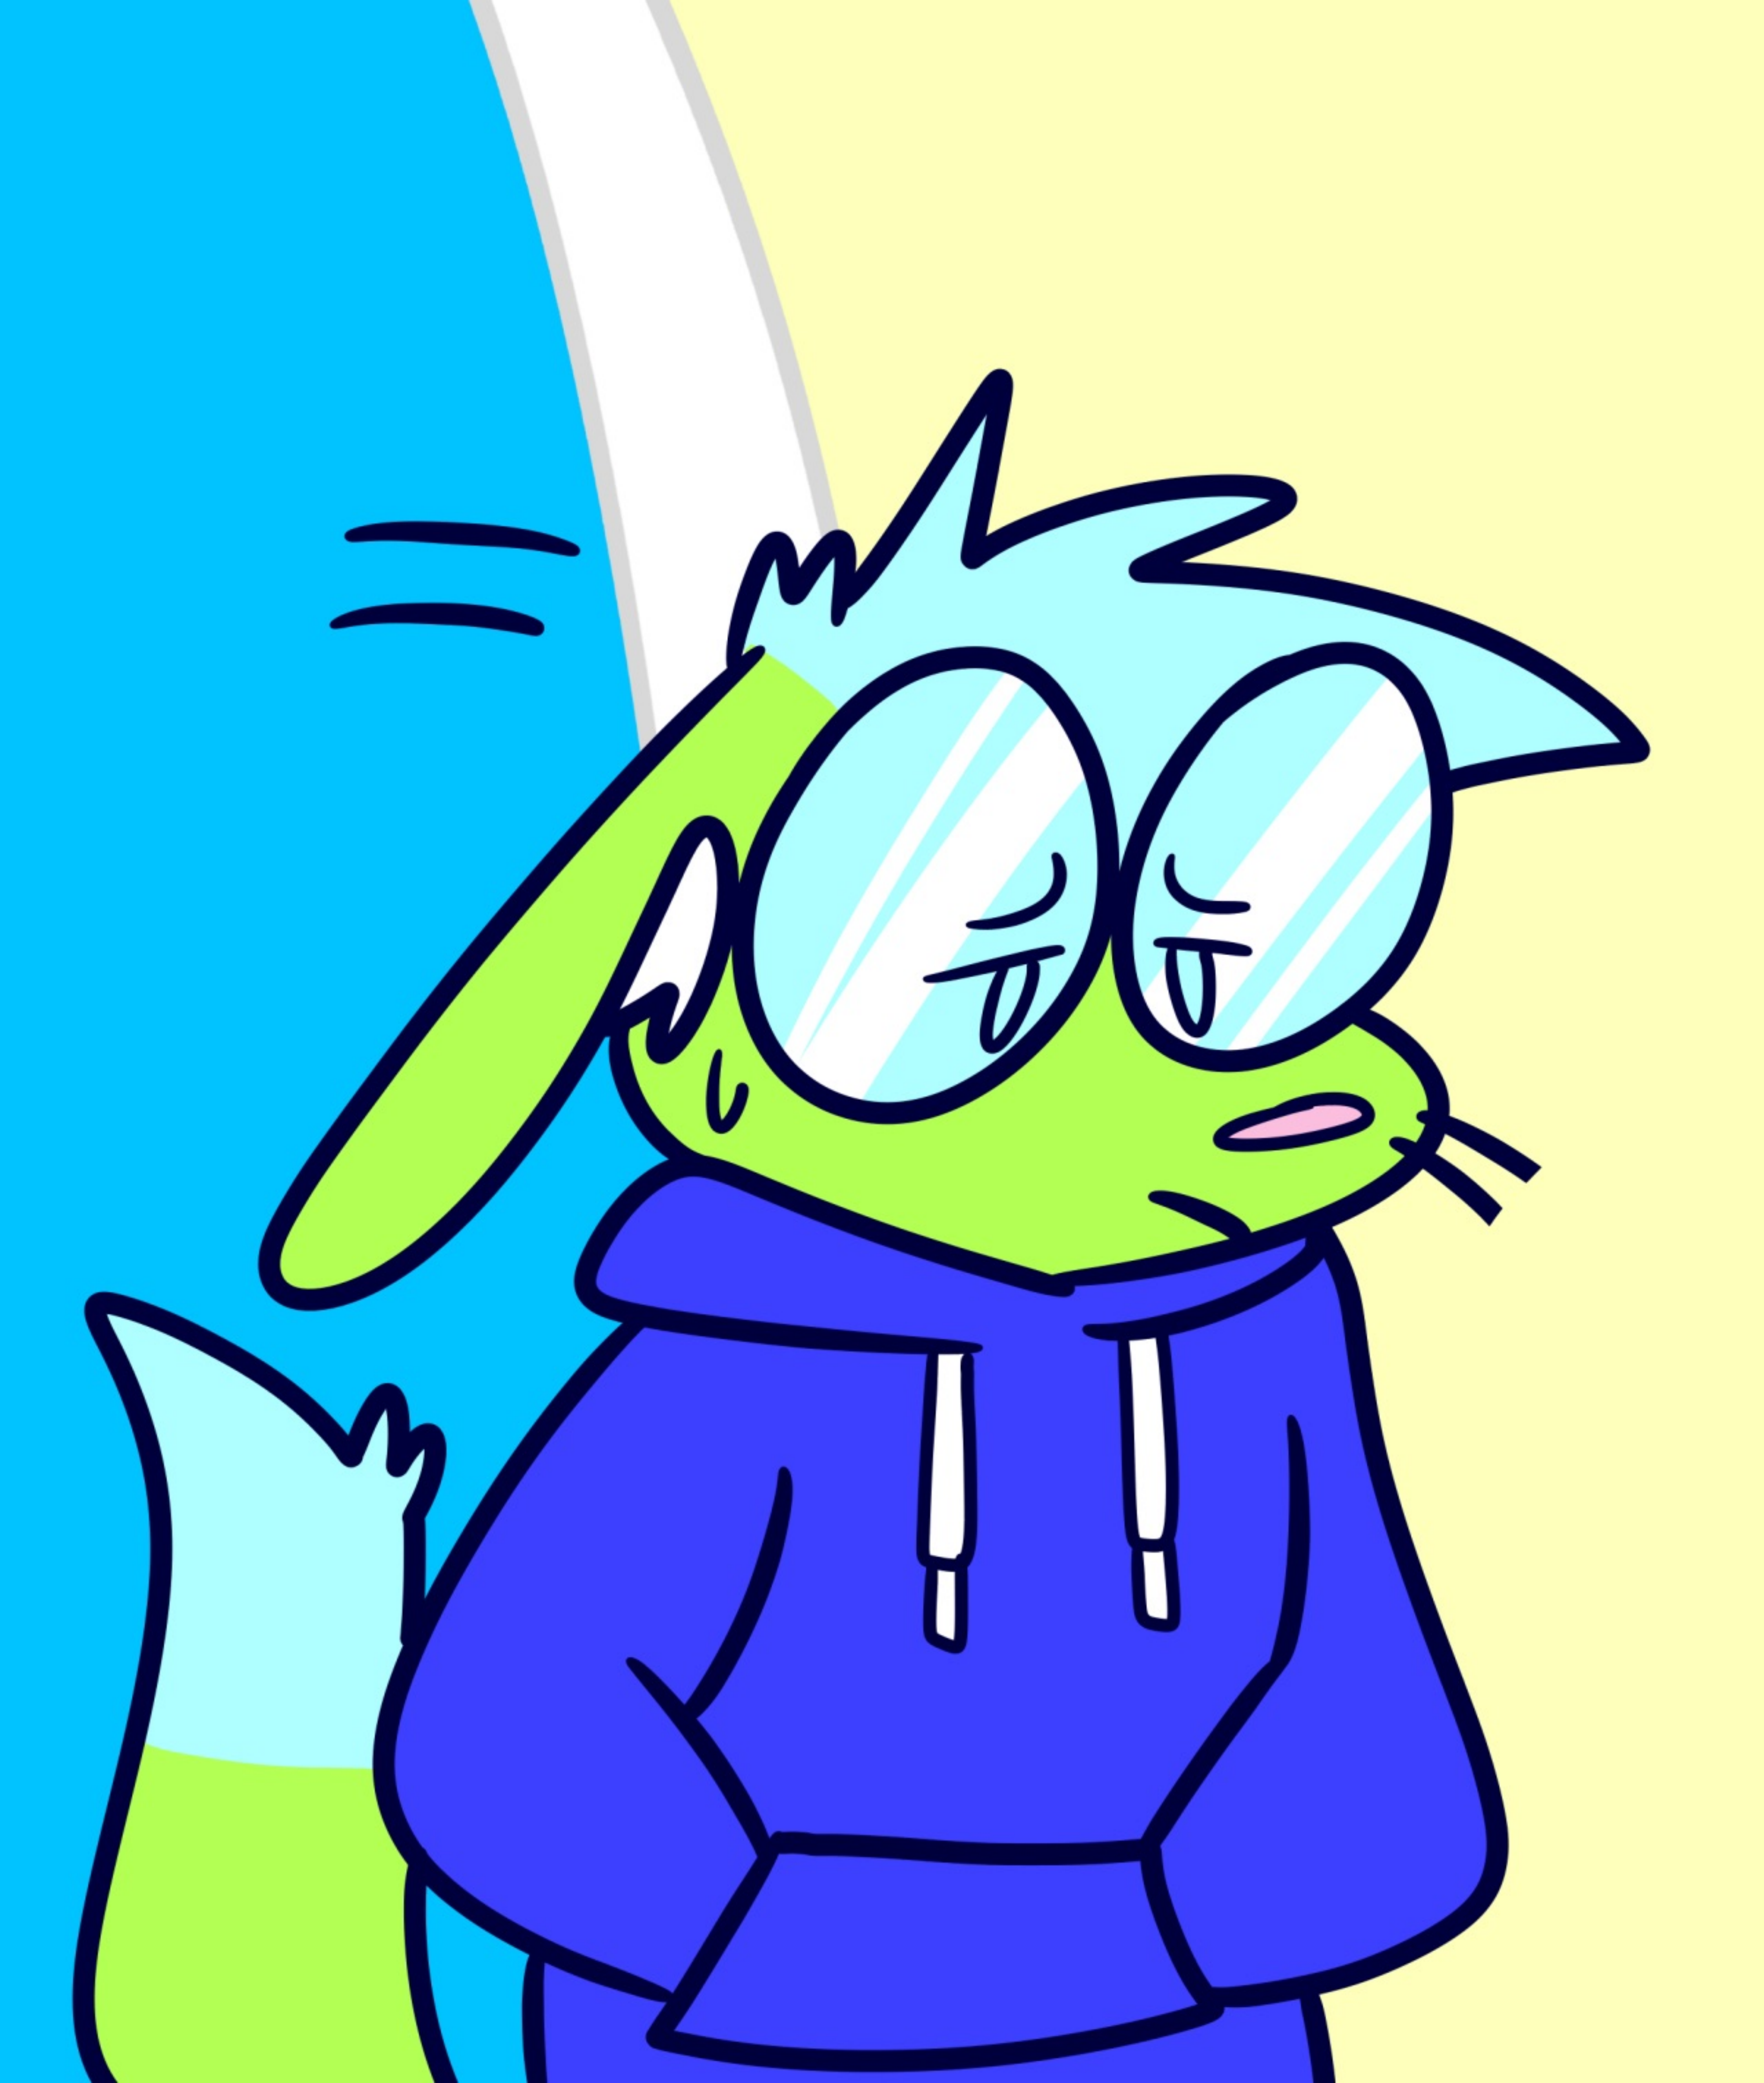
WE'D PROBABLY HAVE TO DO A LOT TO BE READY FOR THAT.

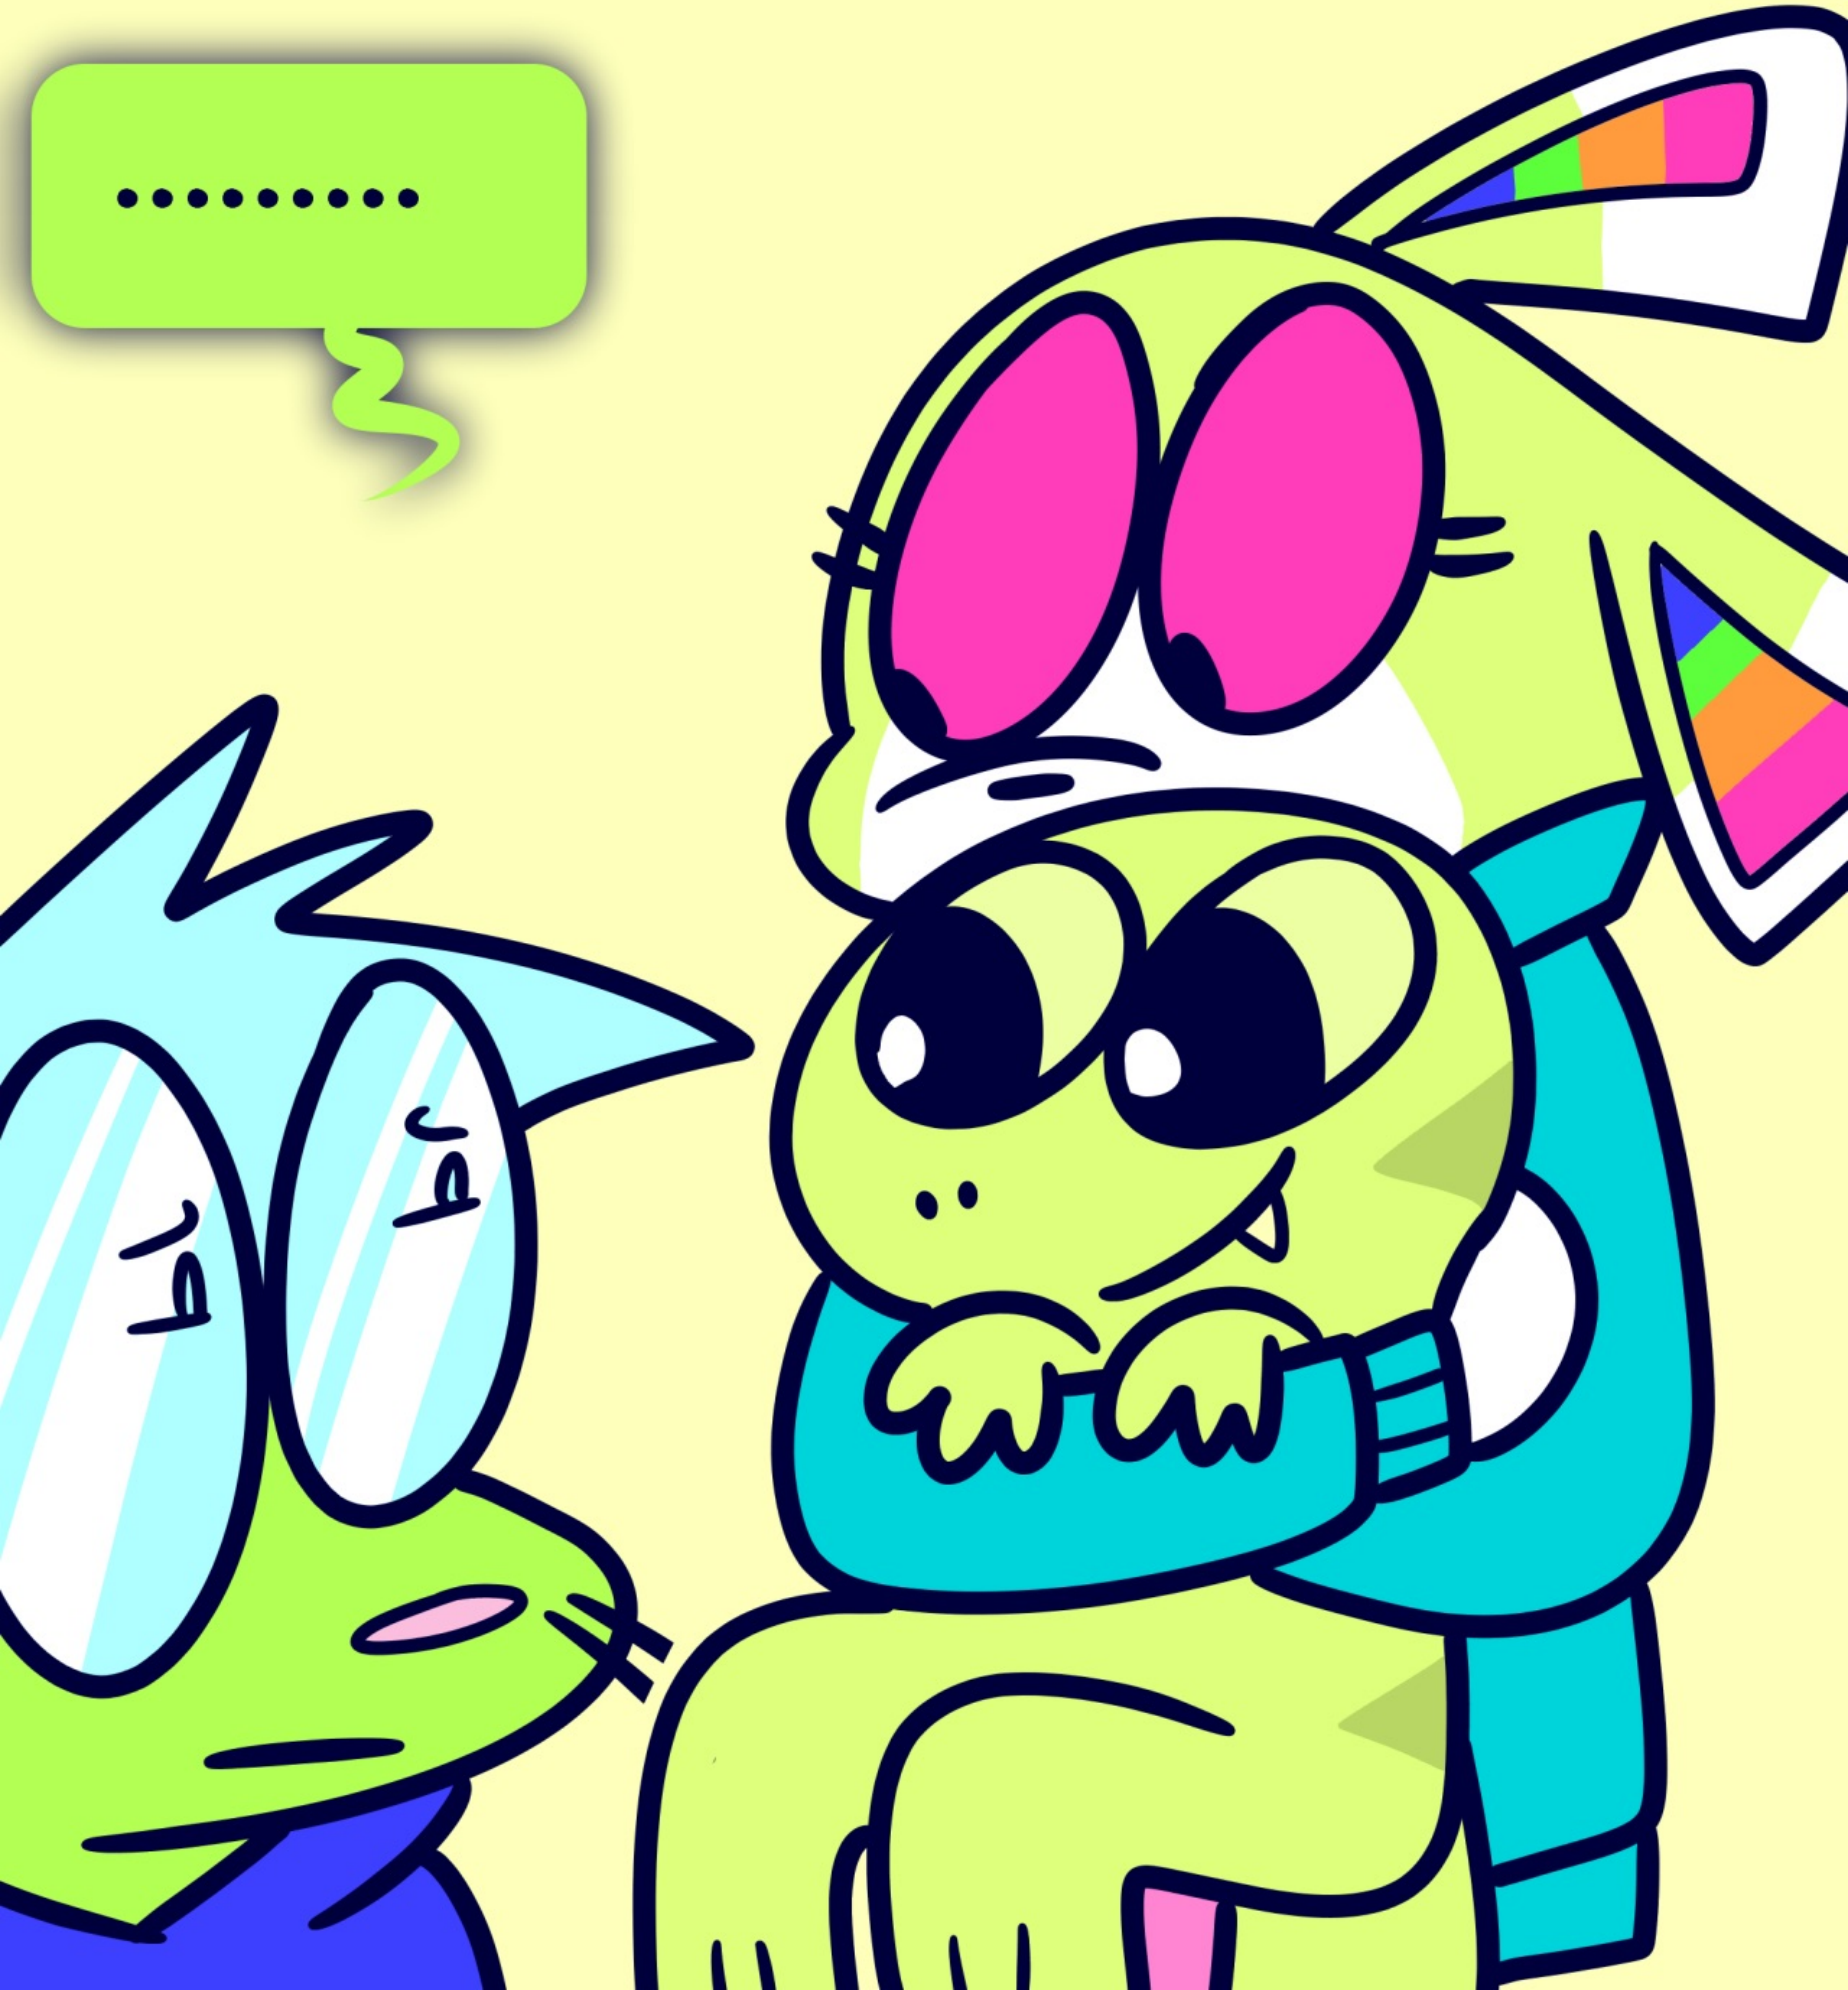


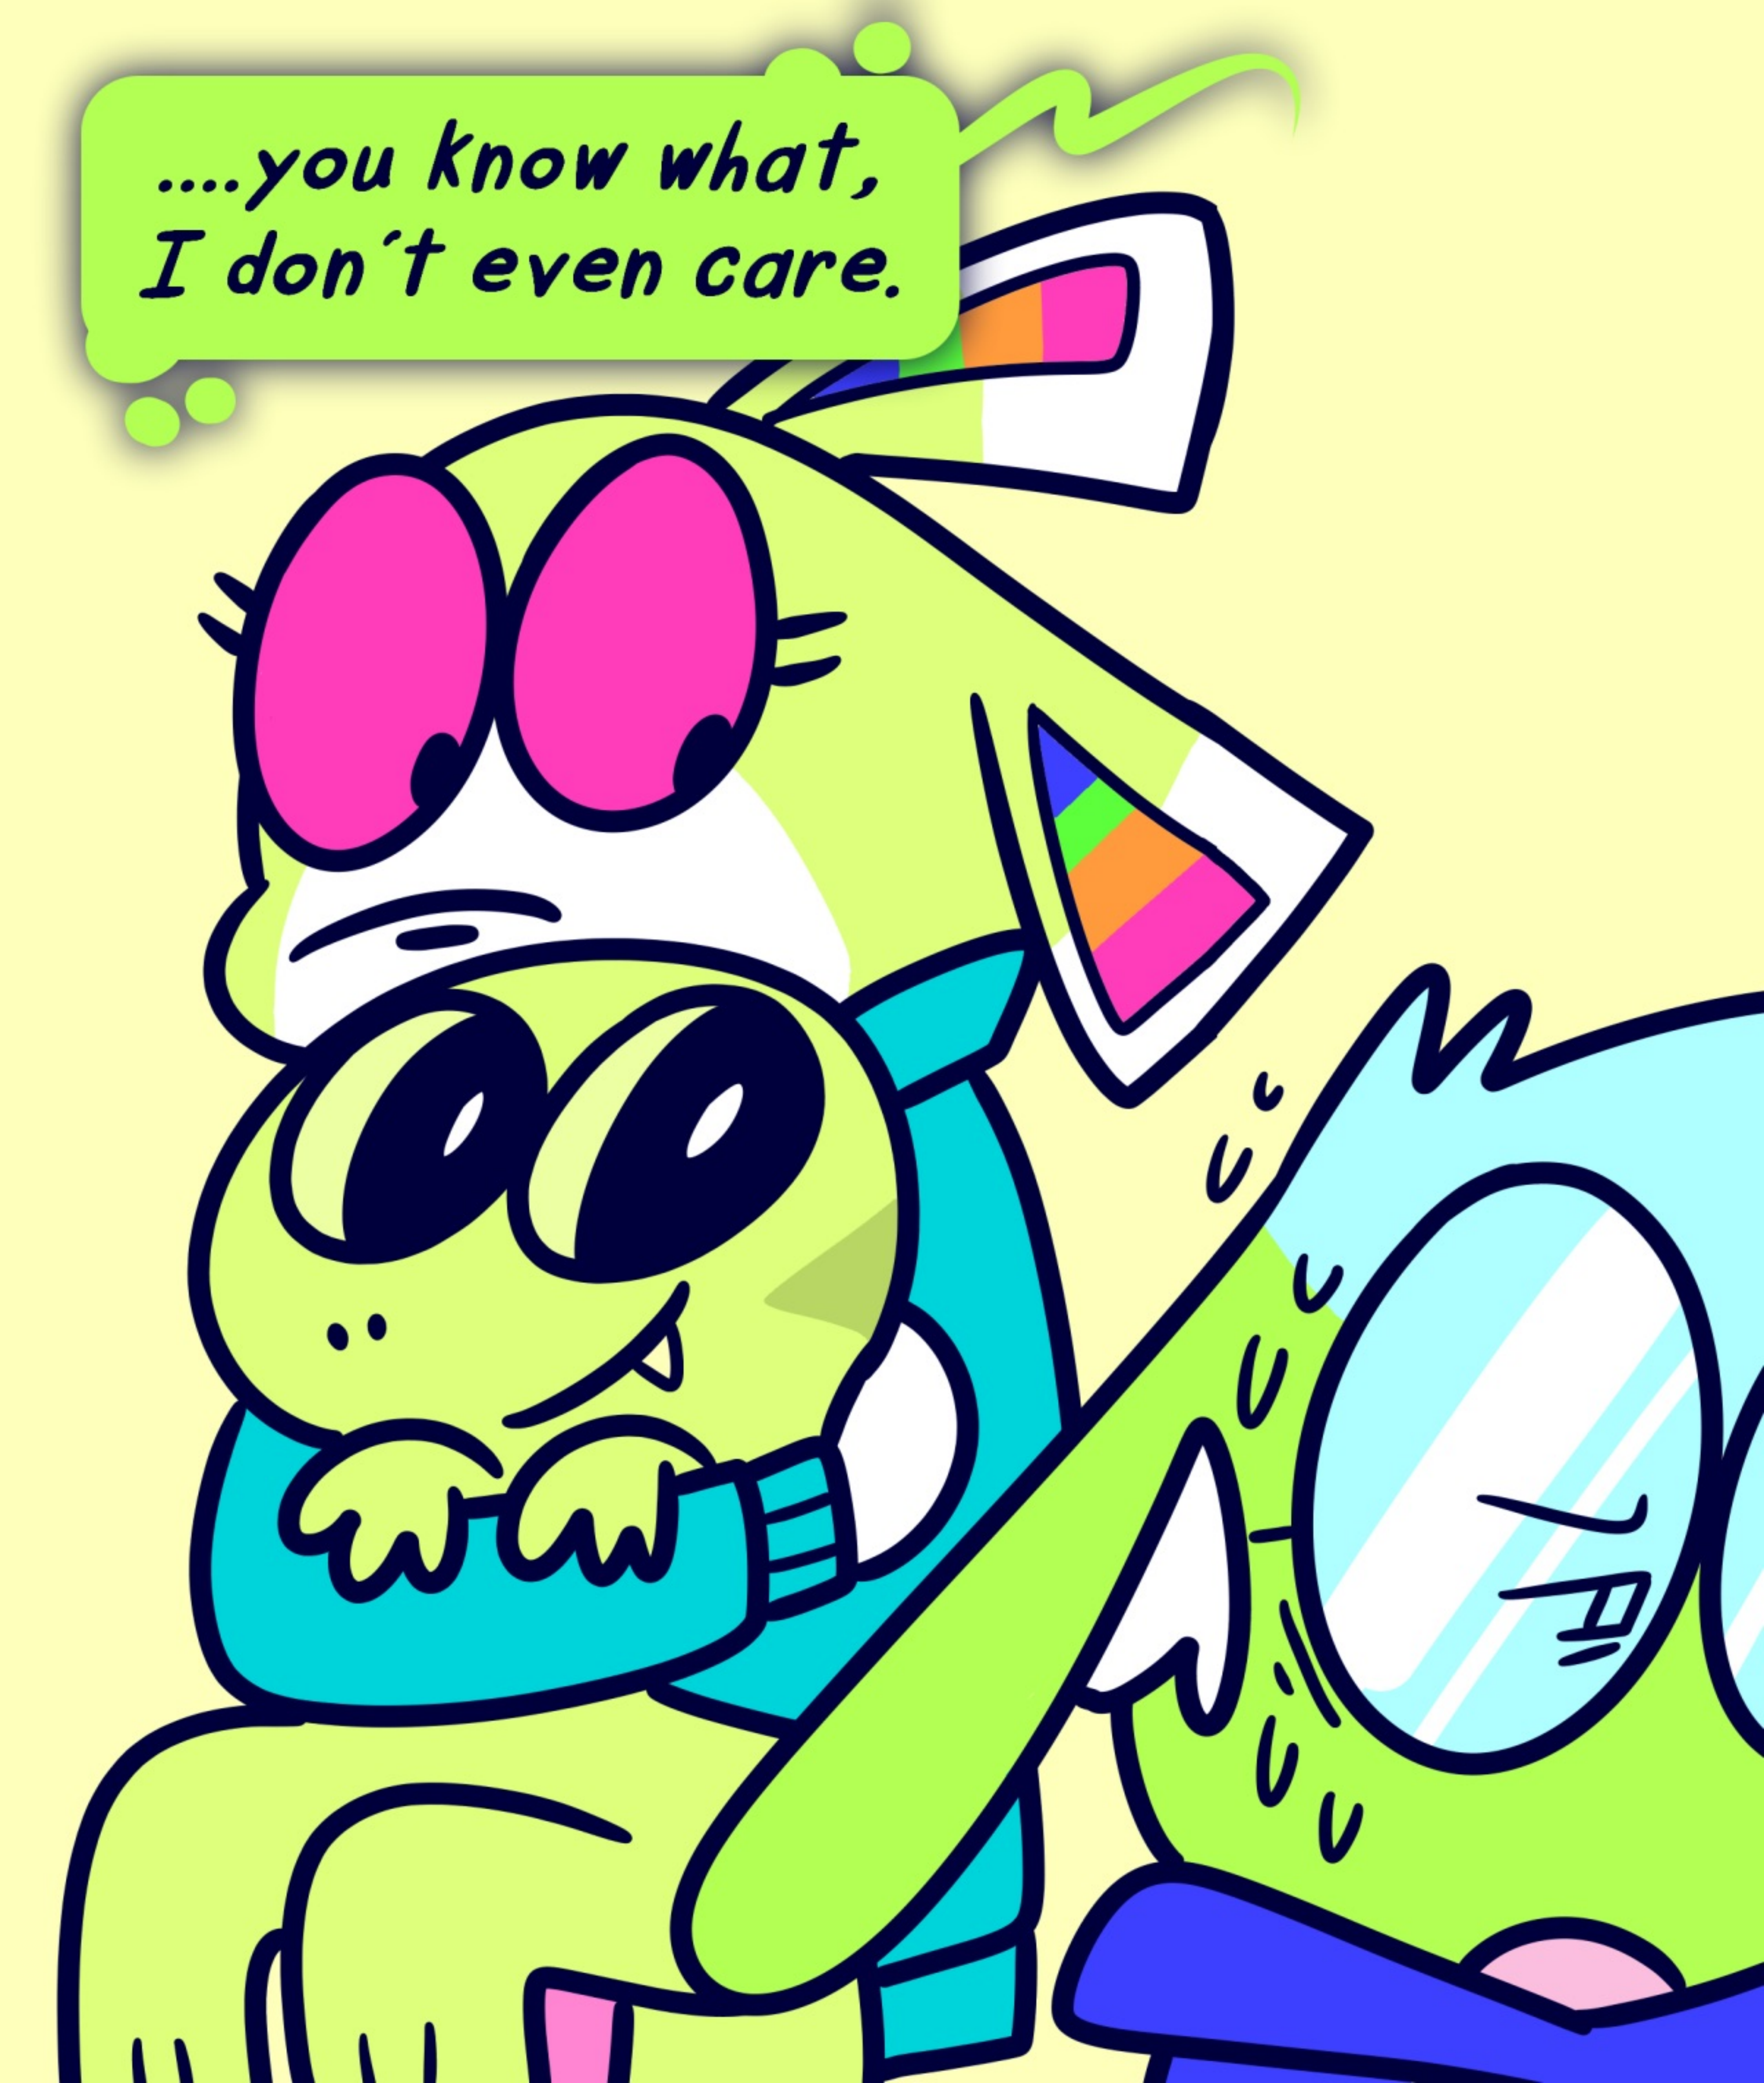
YOU would have to be ready for it too.



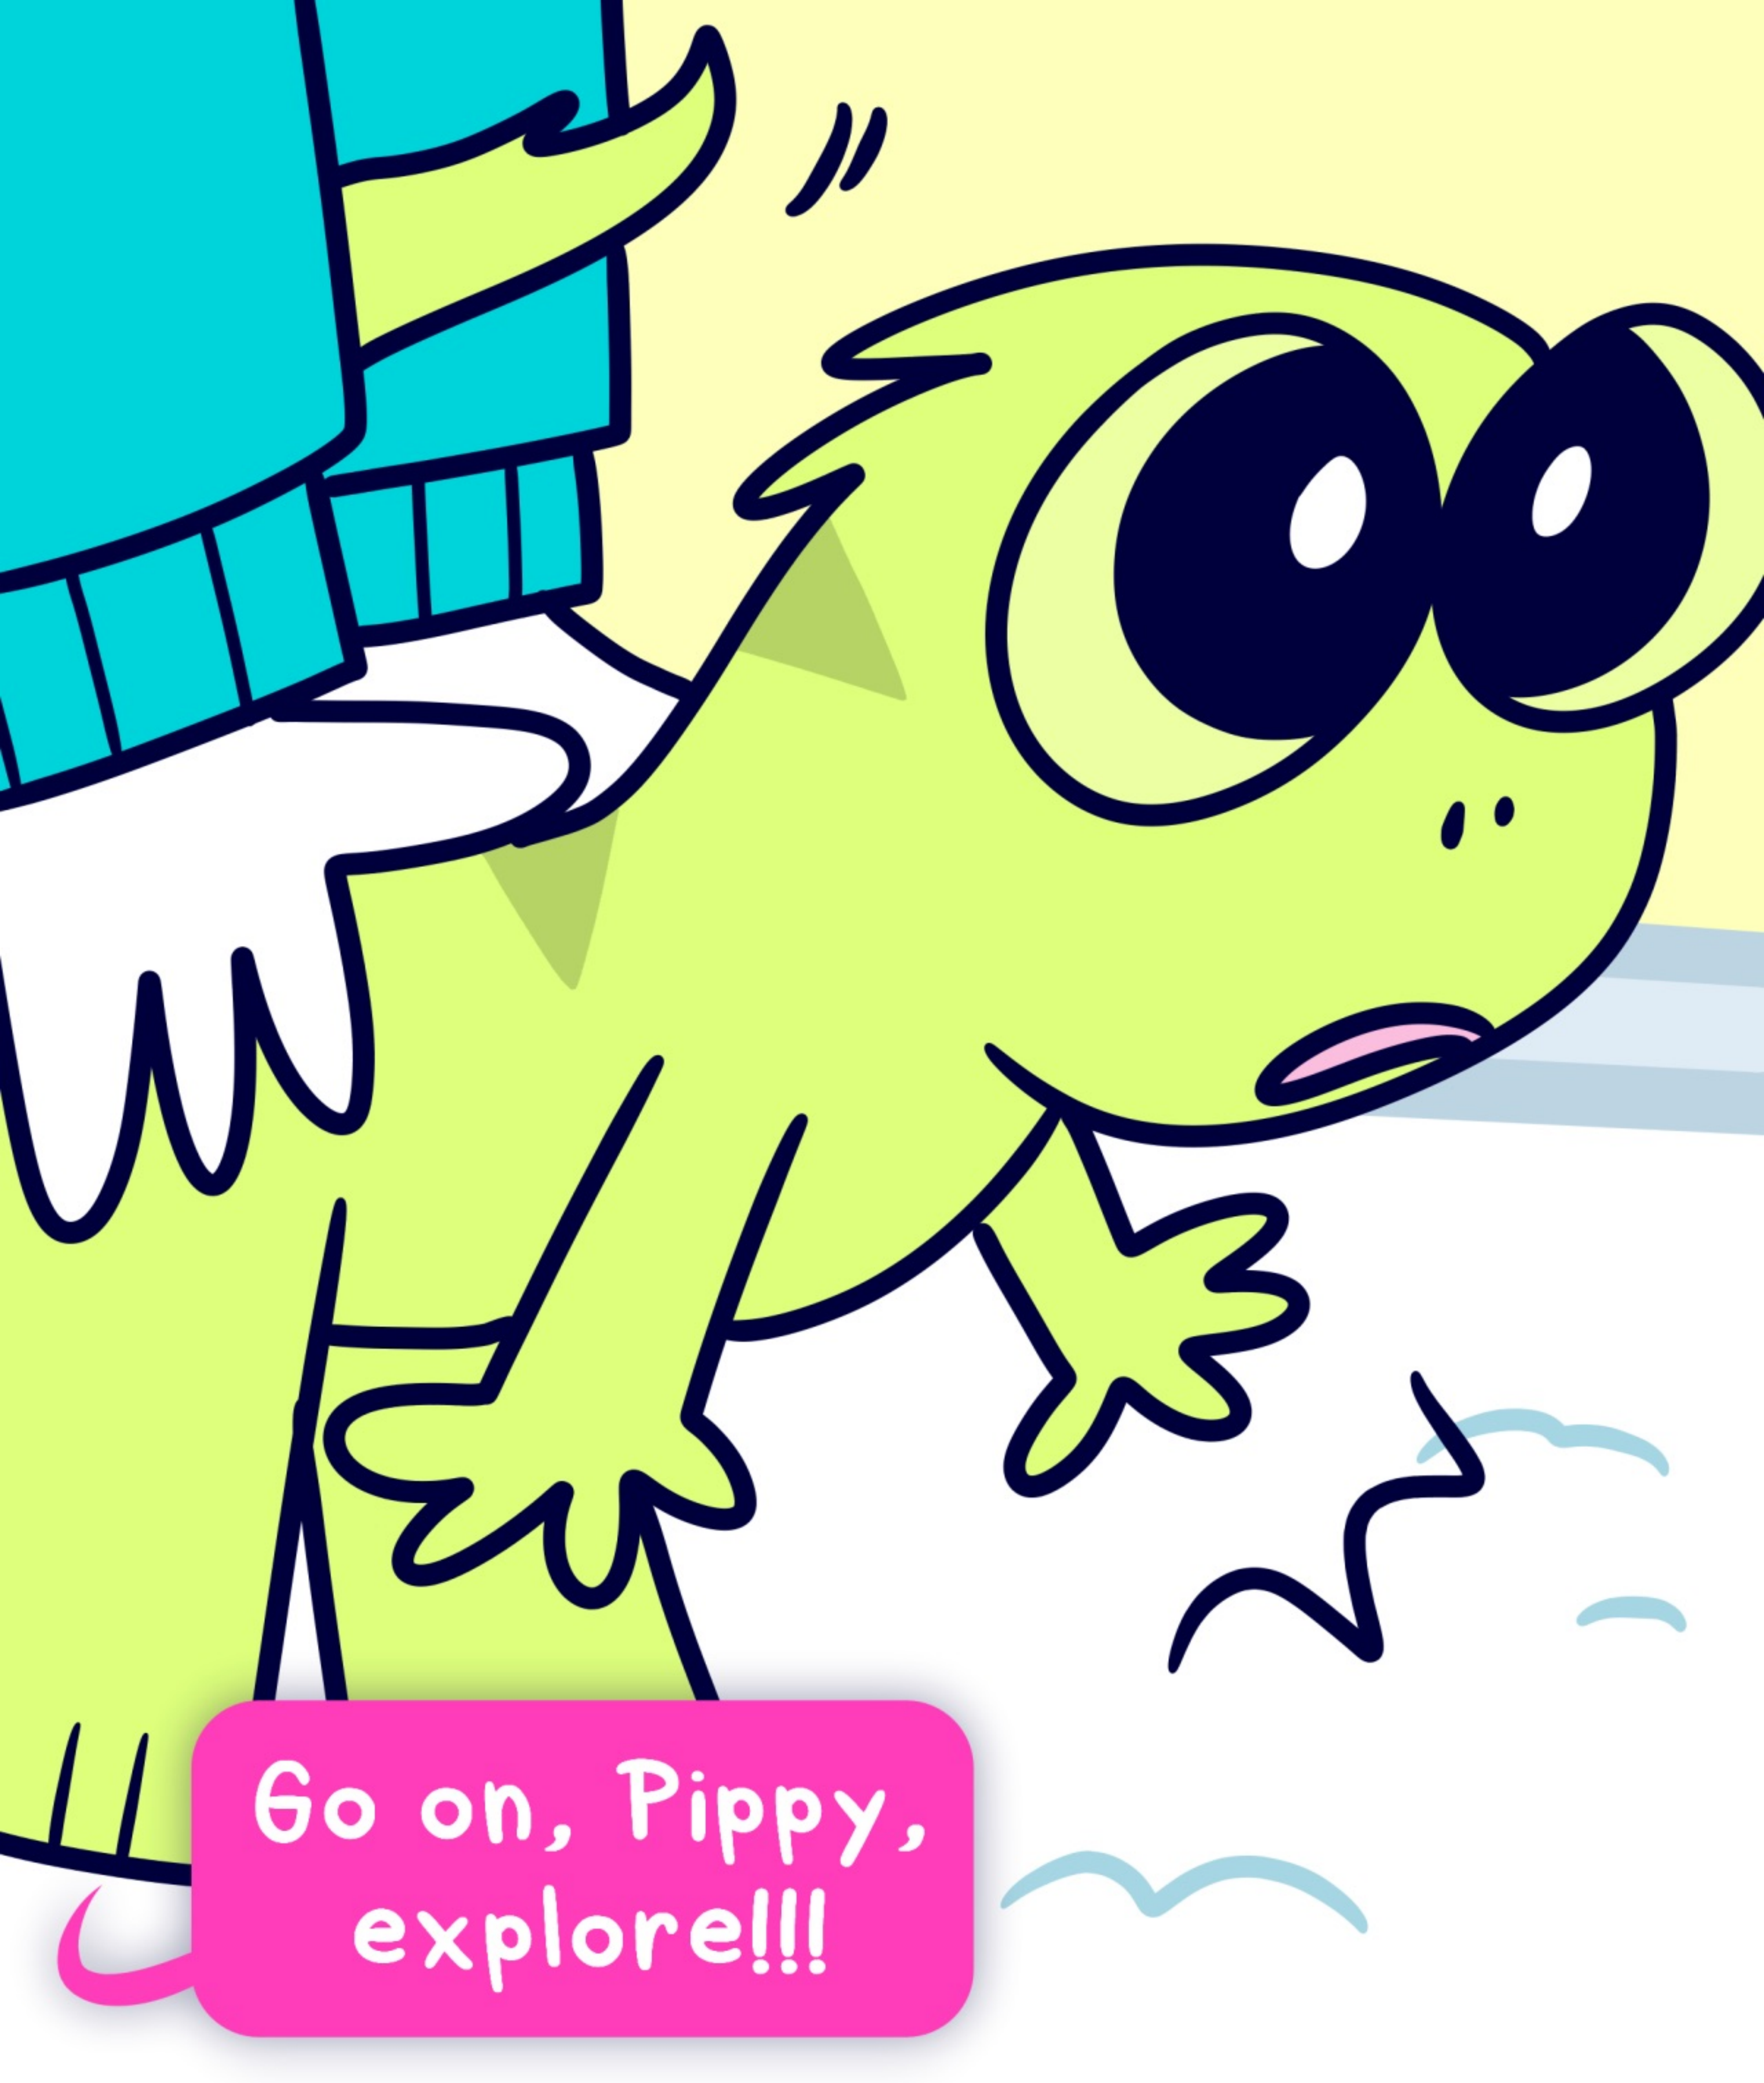
W-why wouldn´t I be...???
Let´s talk about this more later, okay?



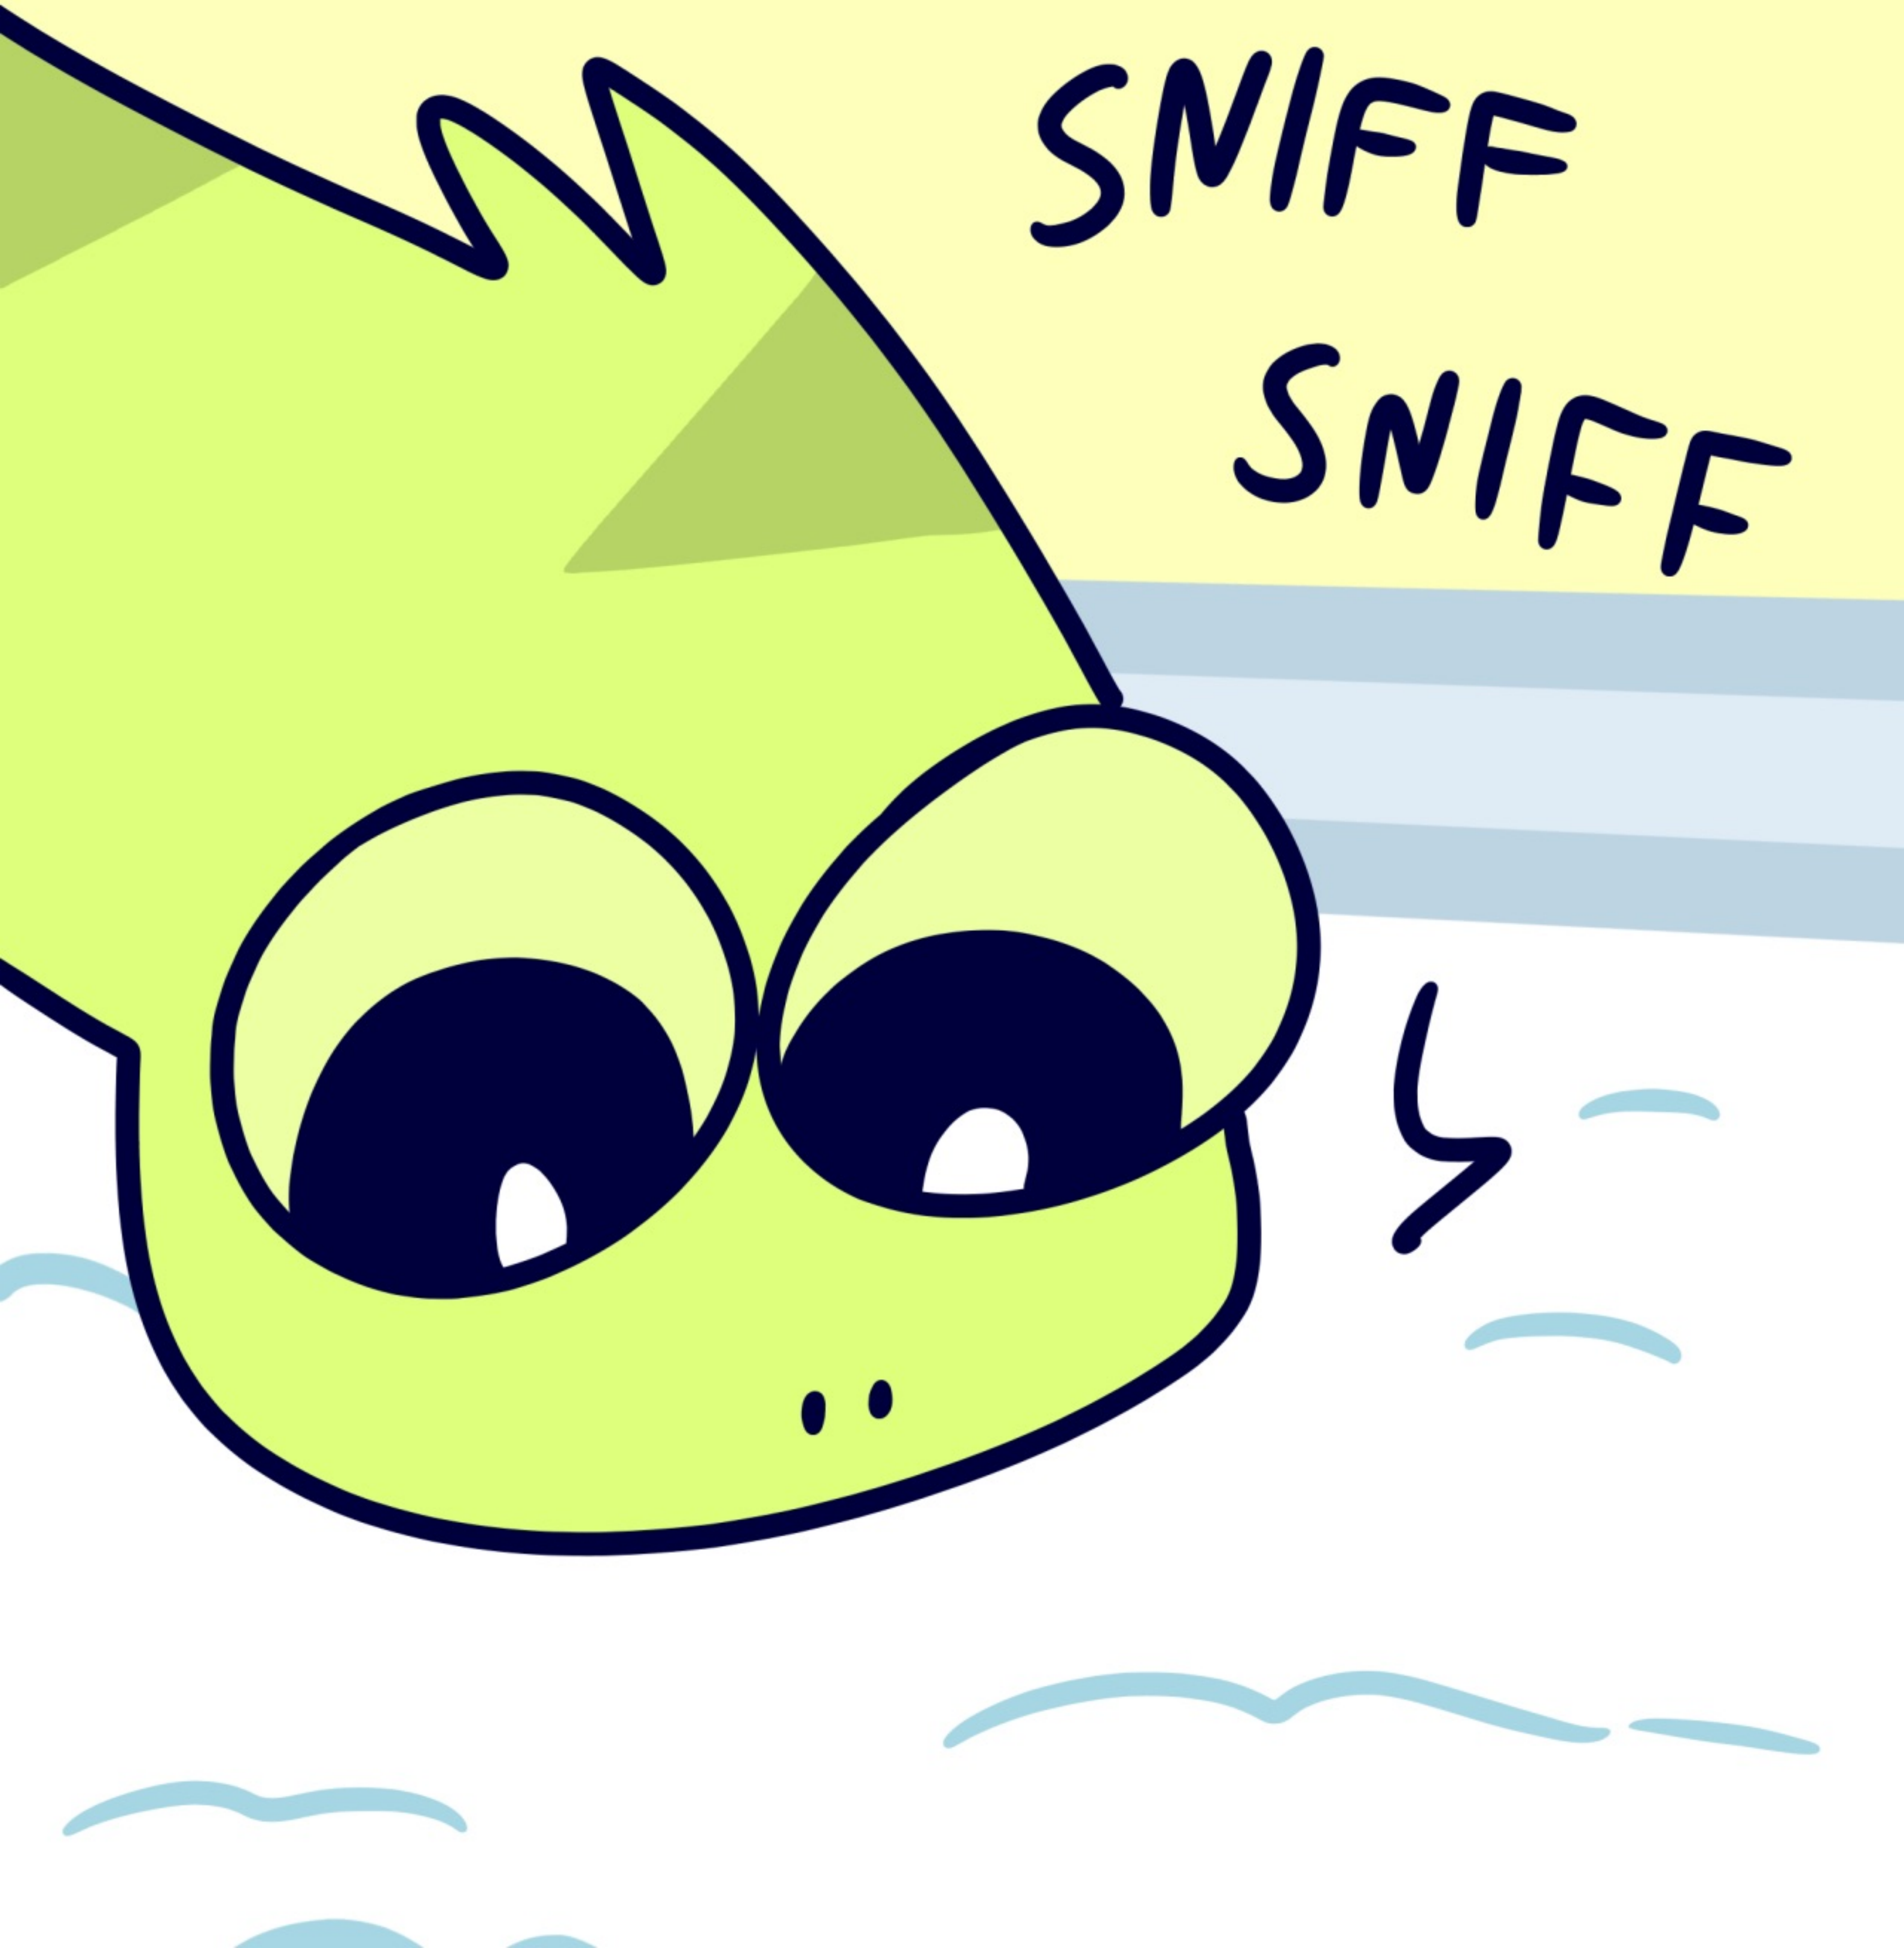




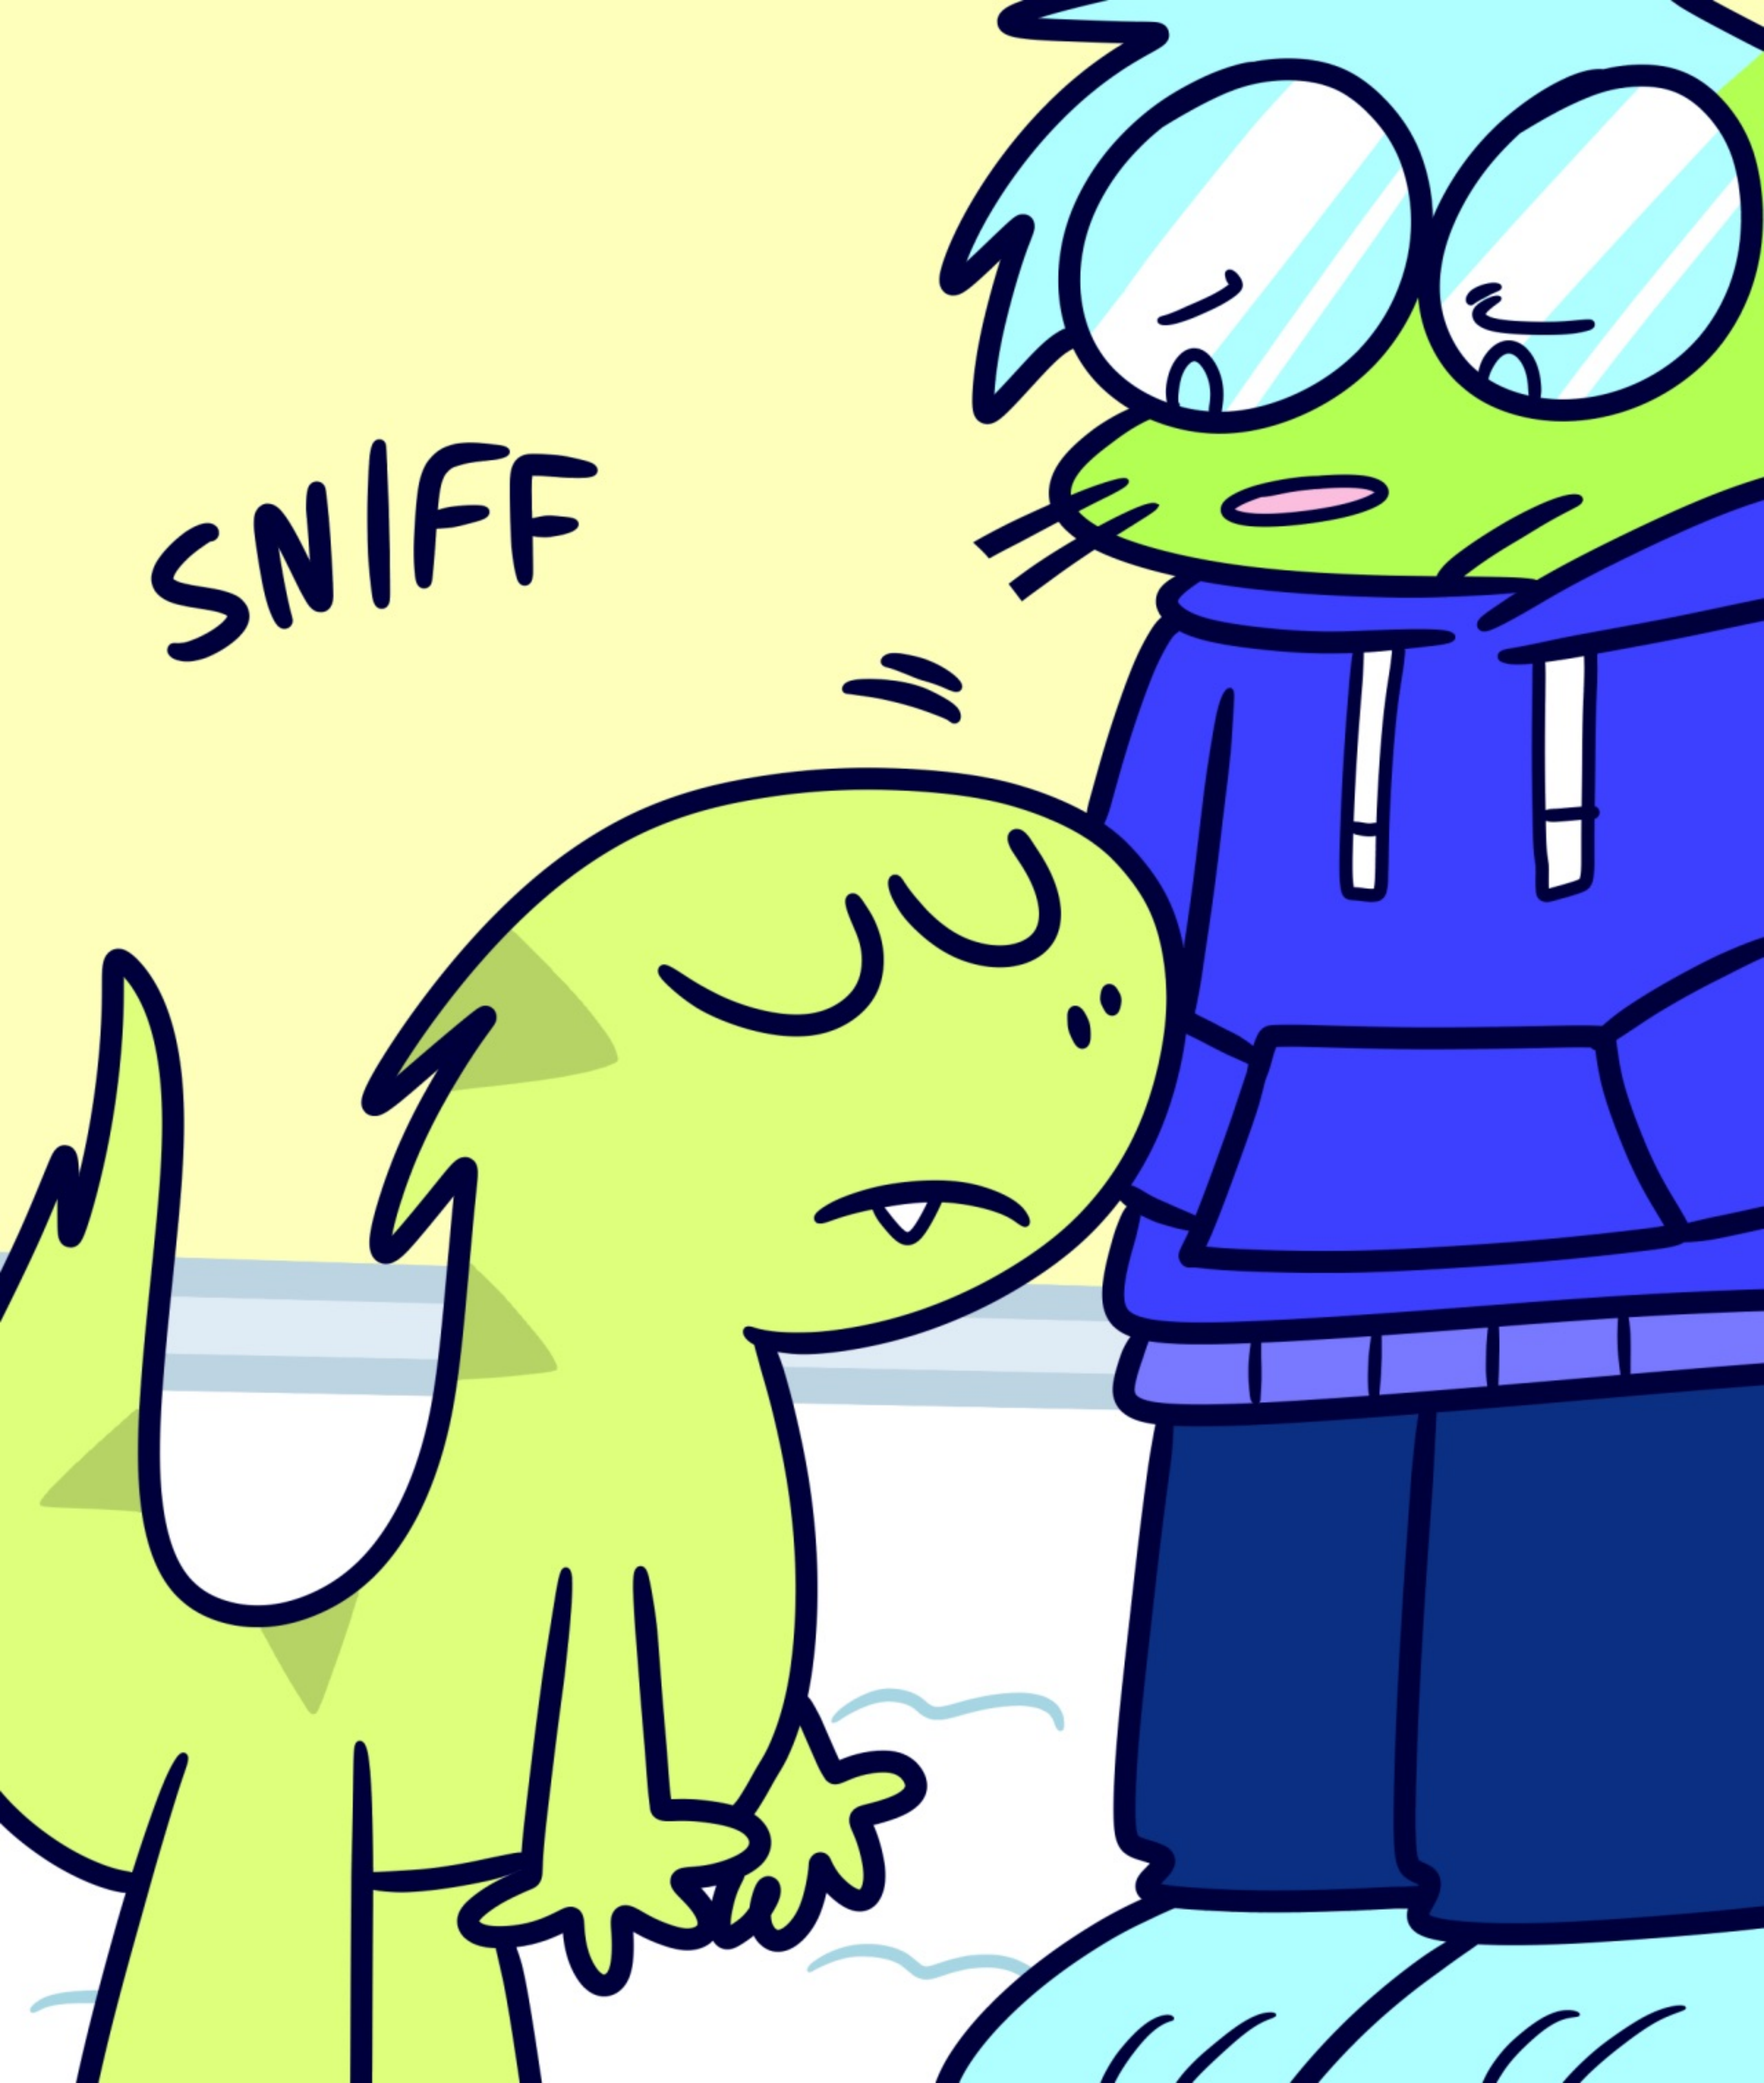
....you know what,
I don´t even care.



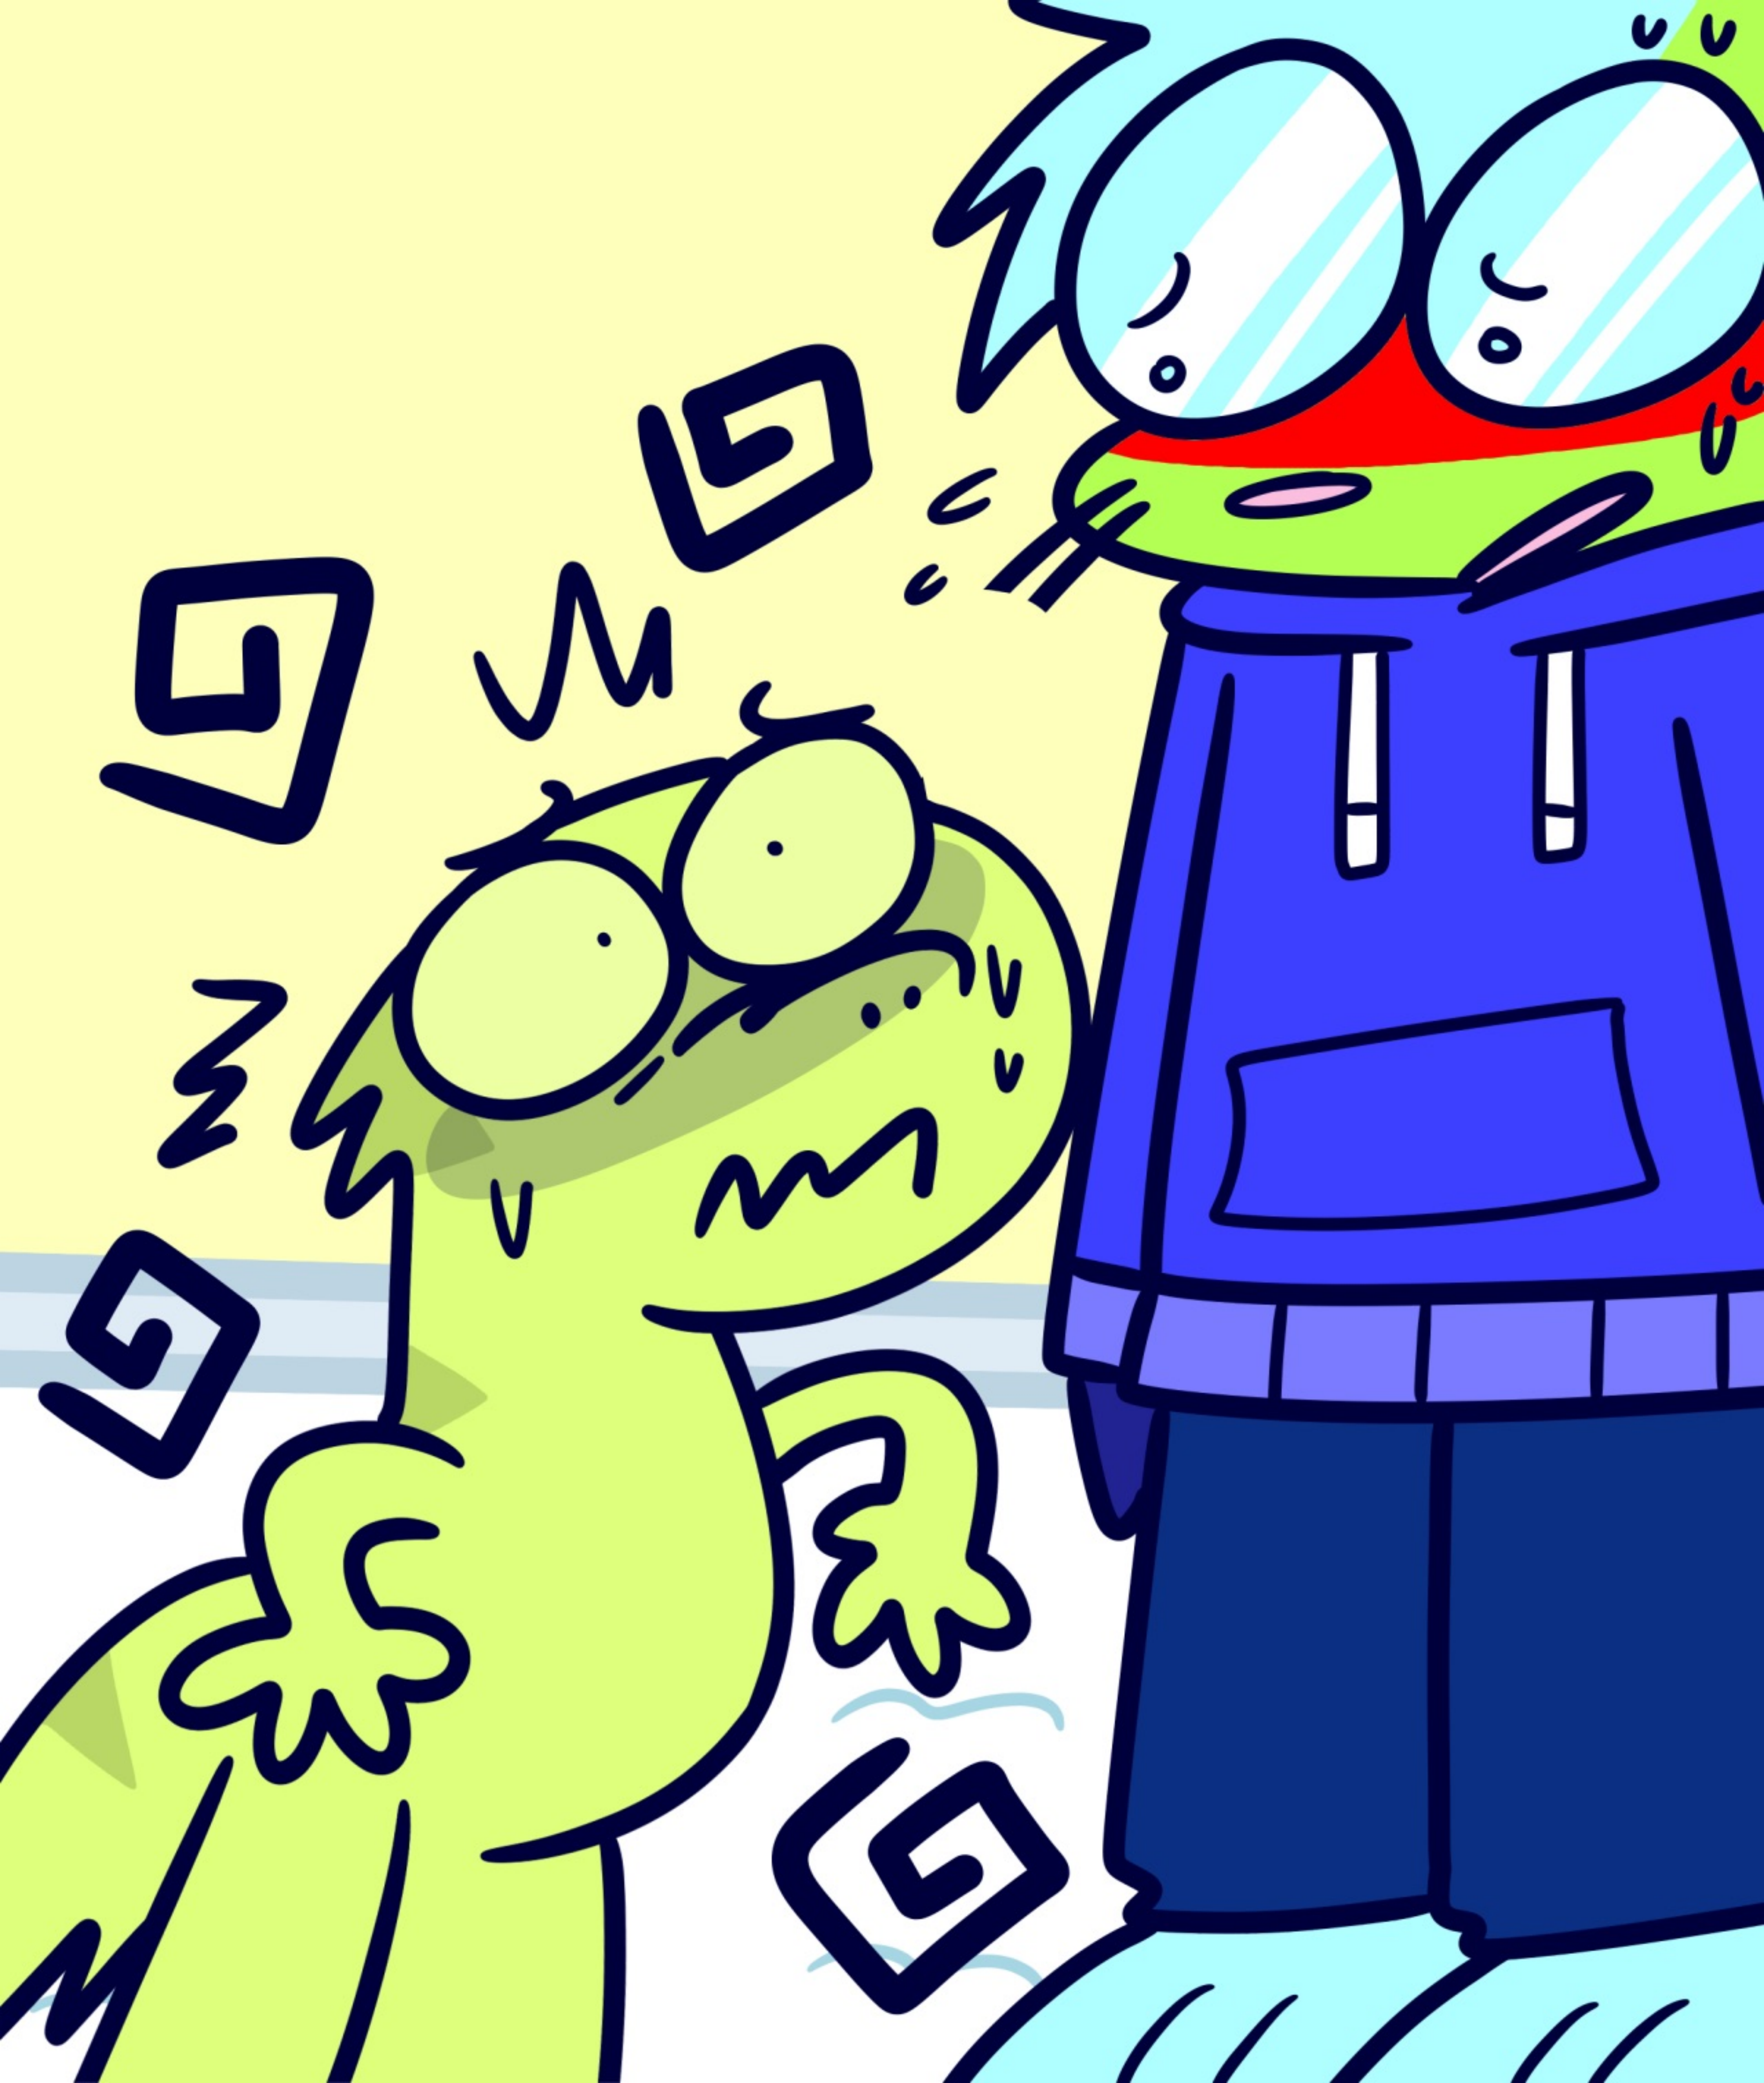
Go on, Pippy, explore!!!

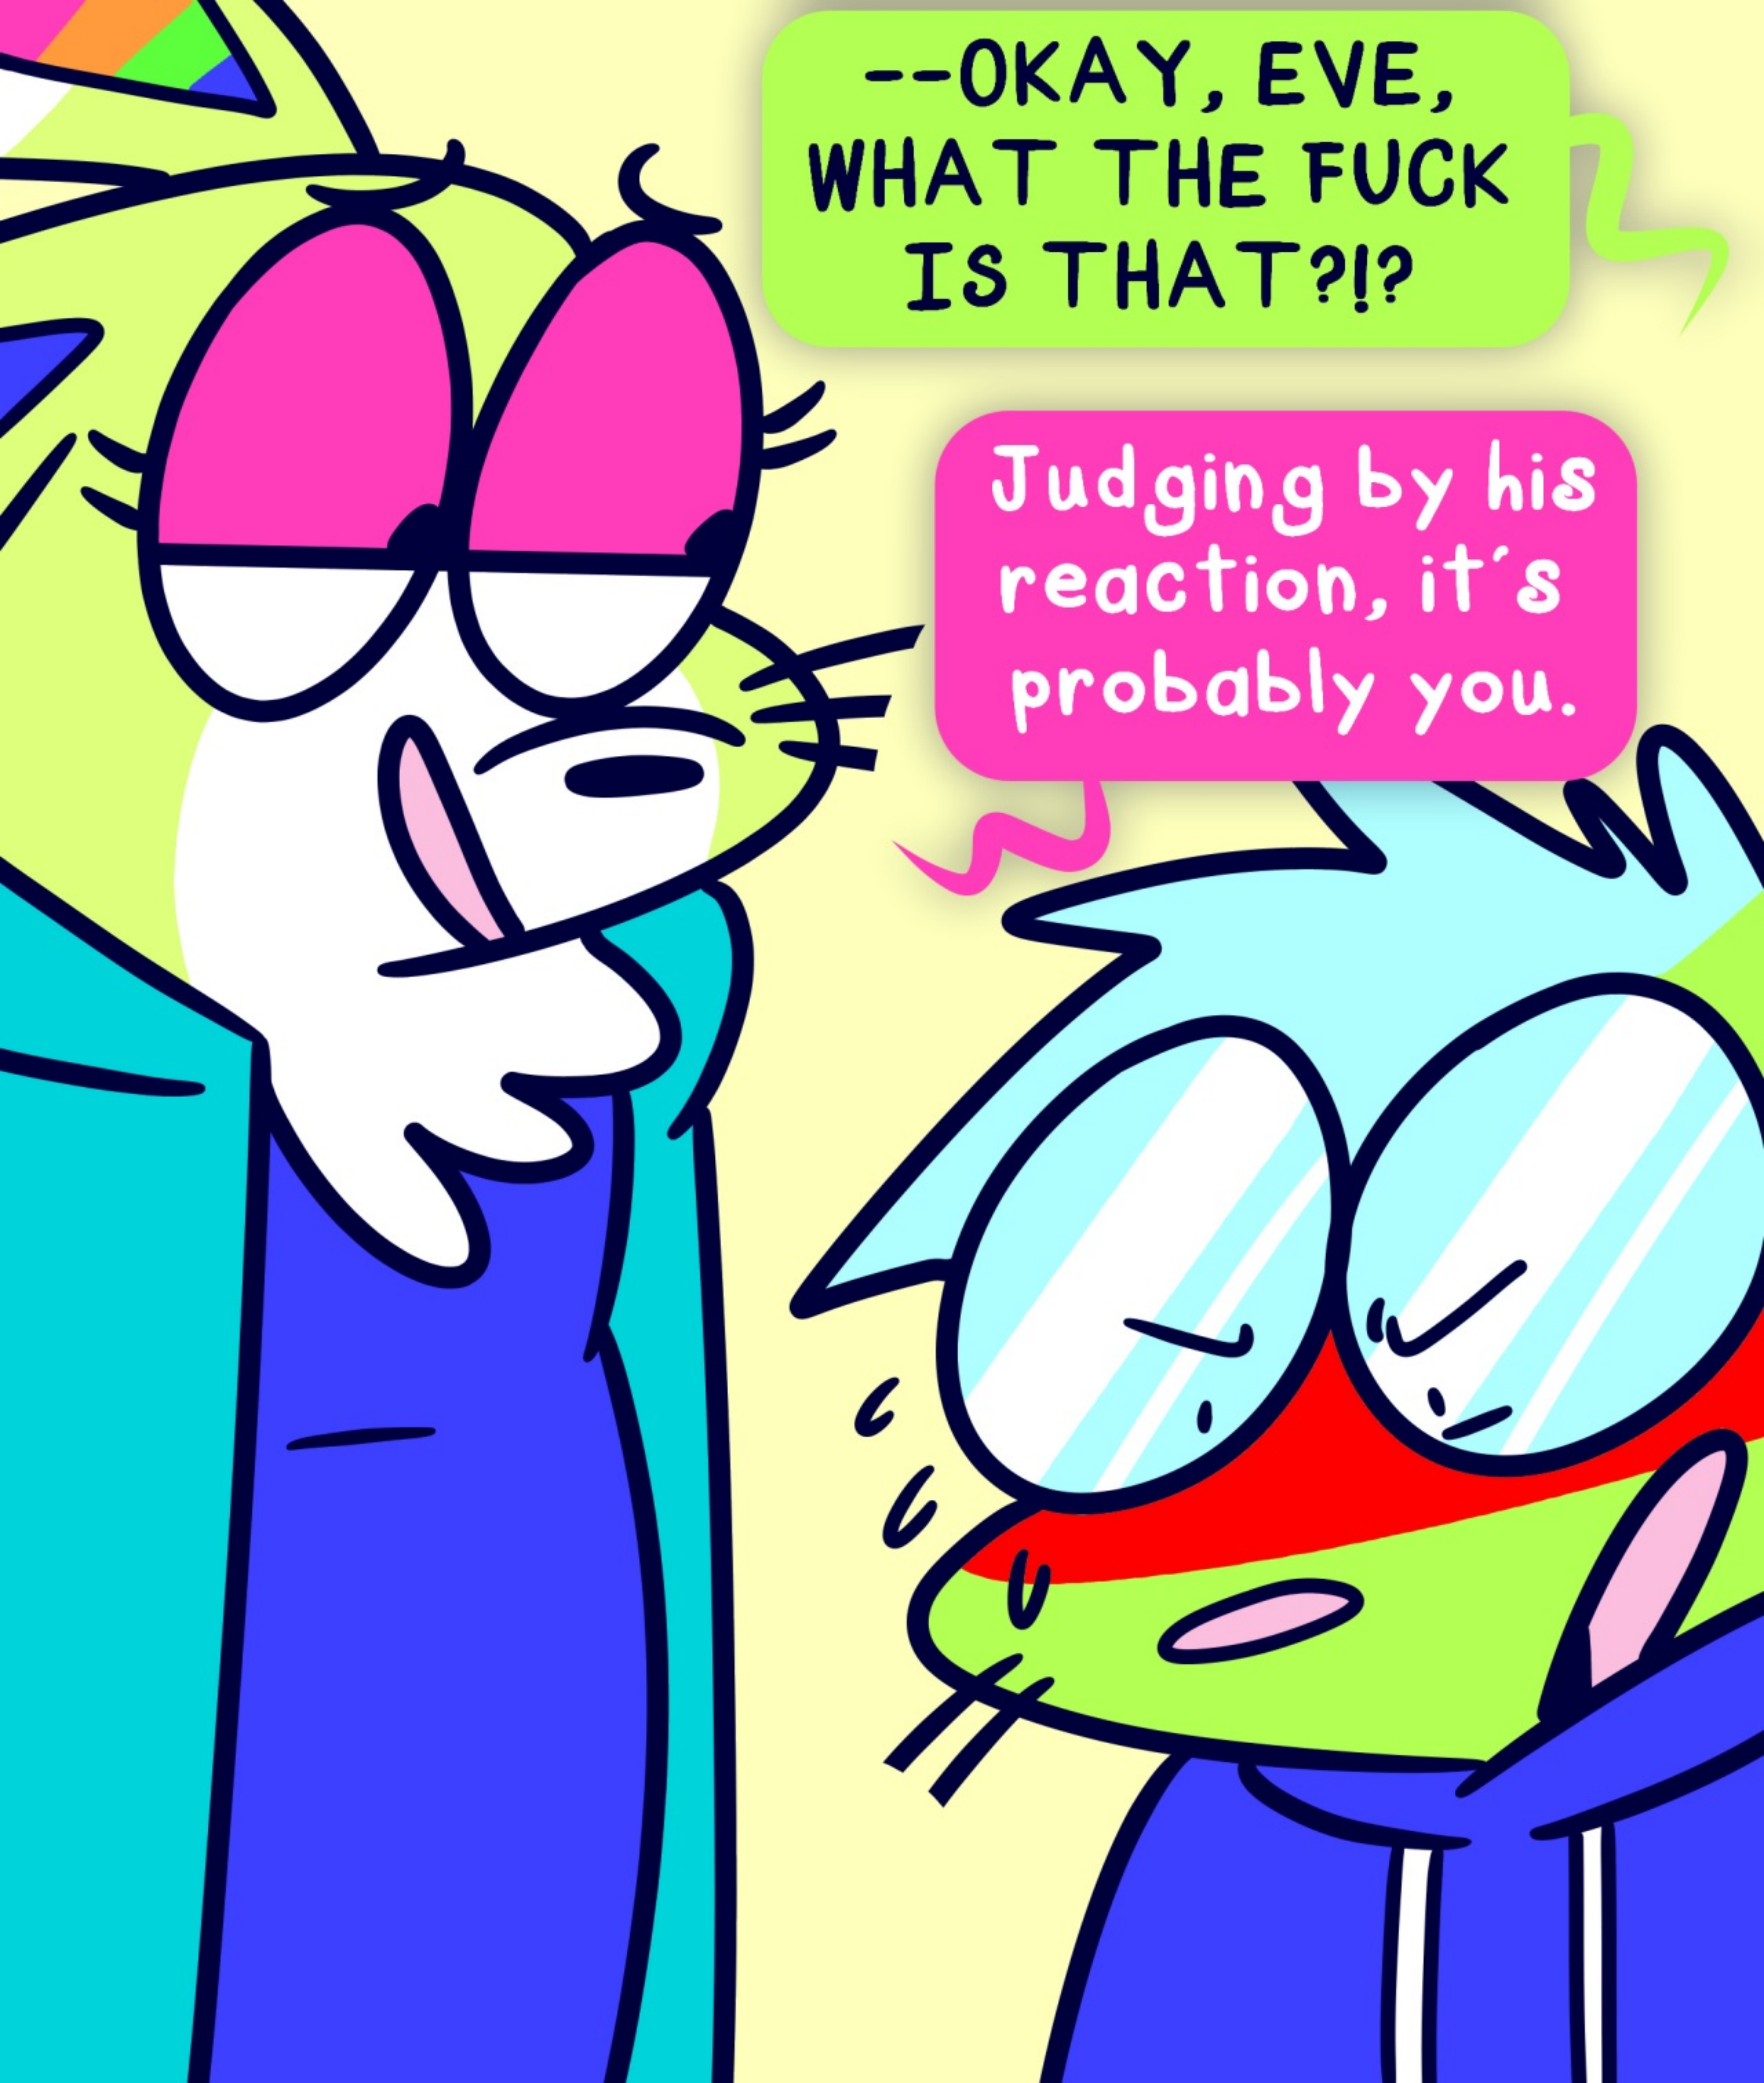


SNIFF
SNIFF

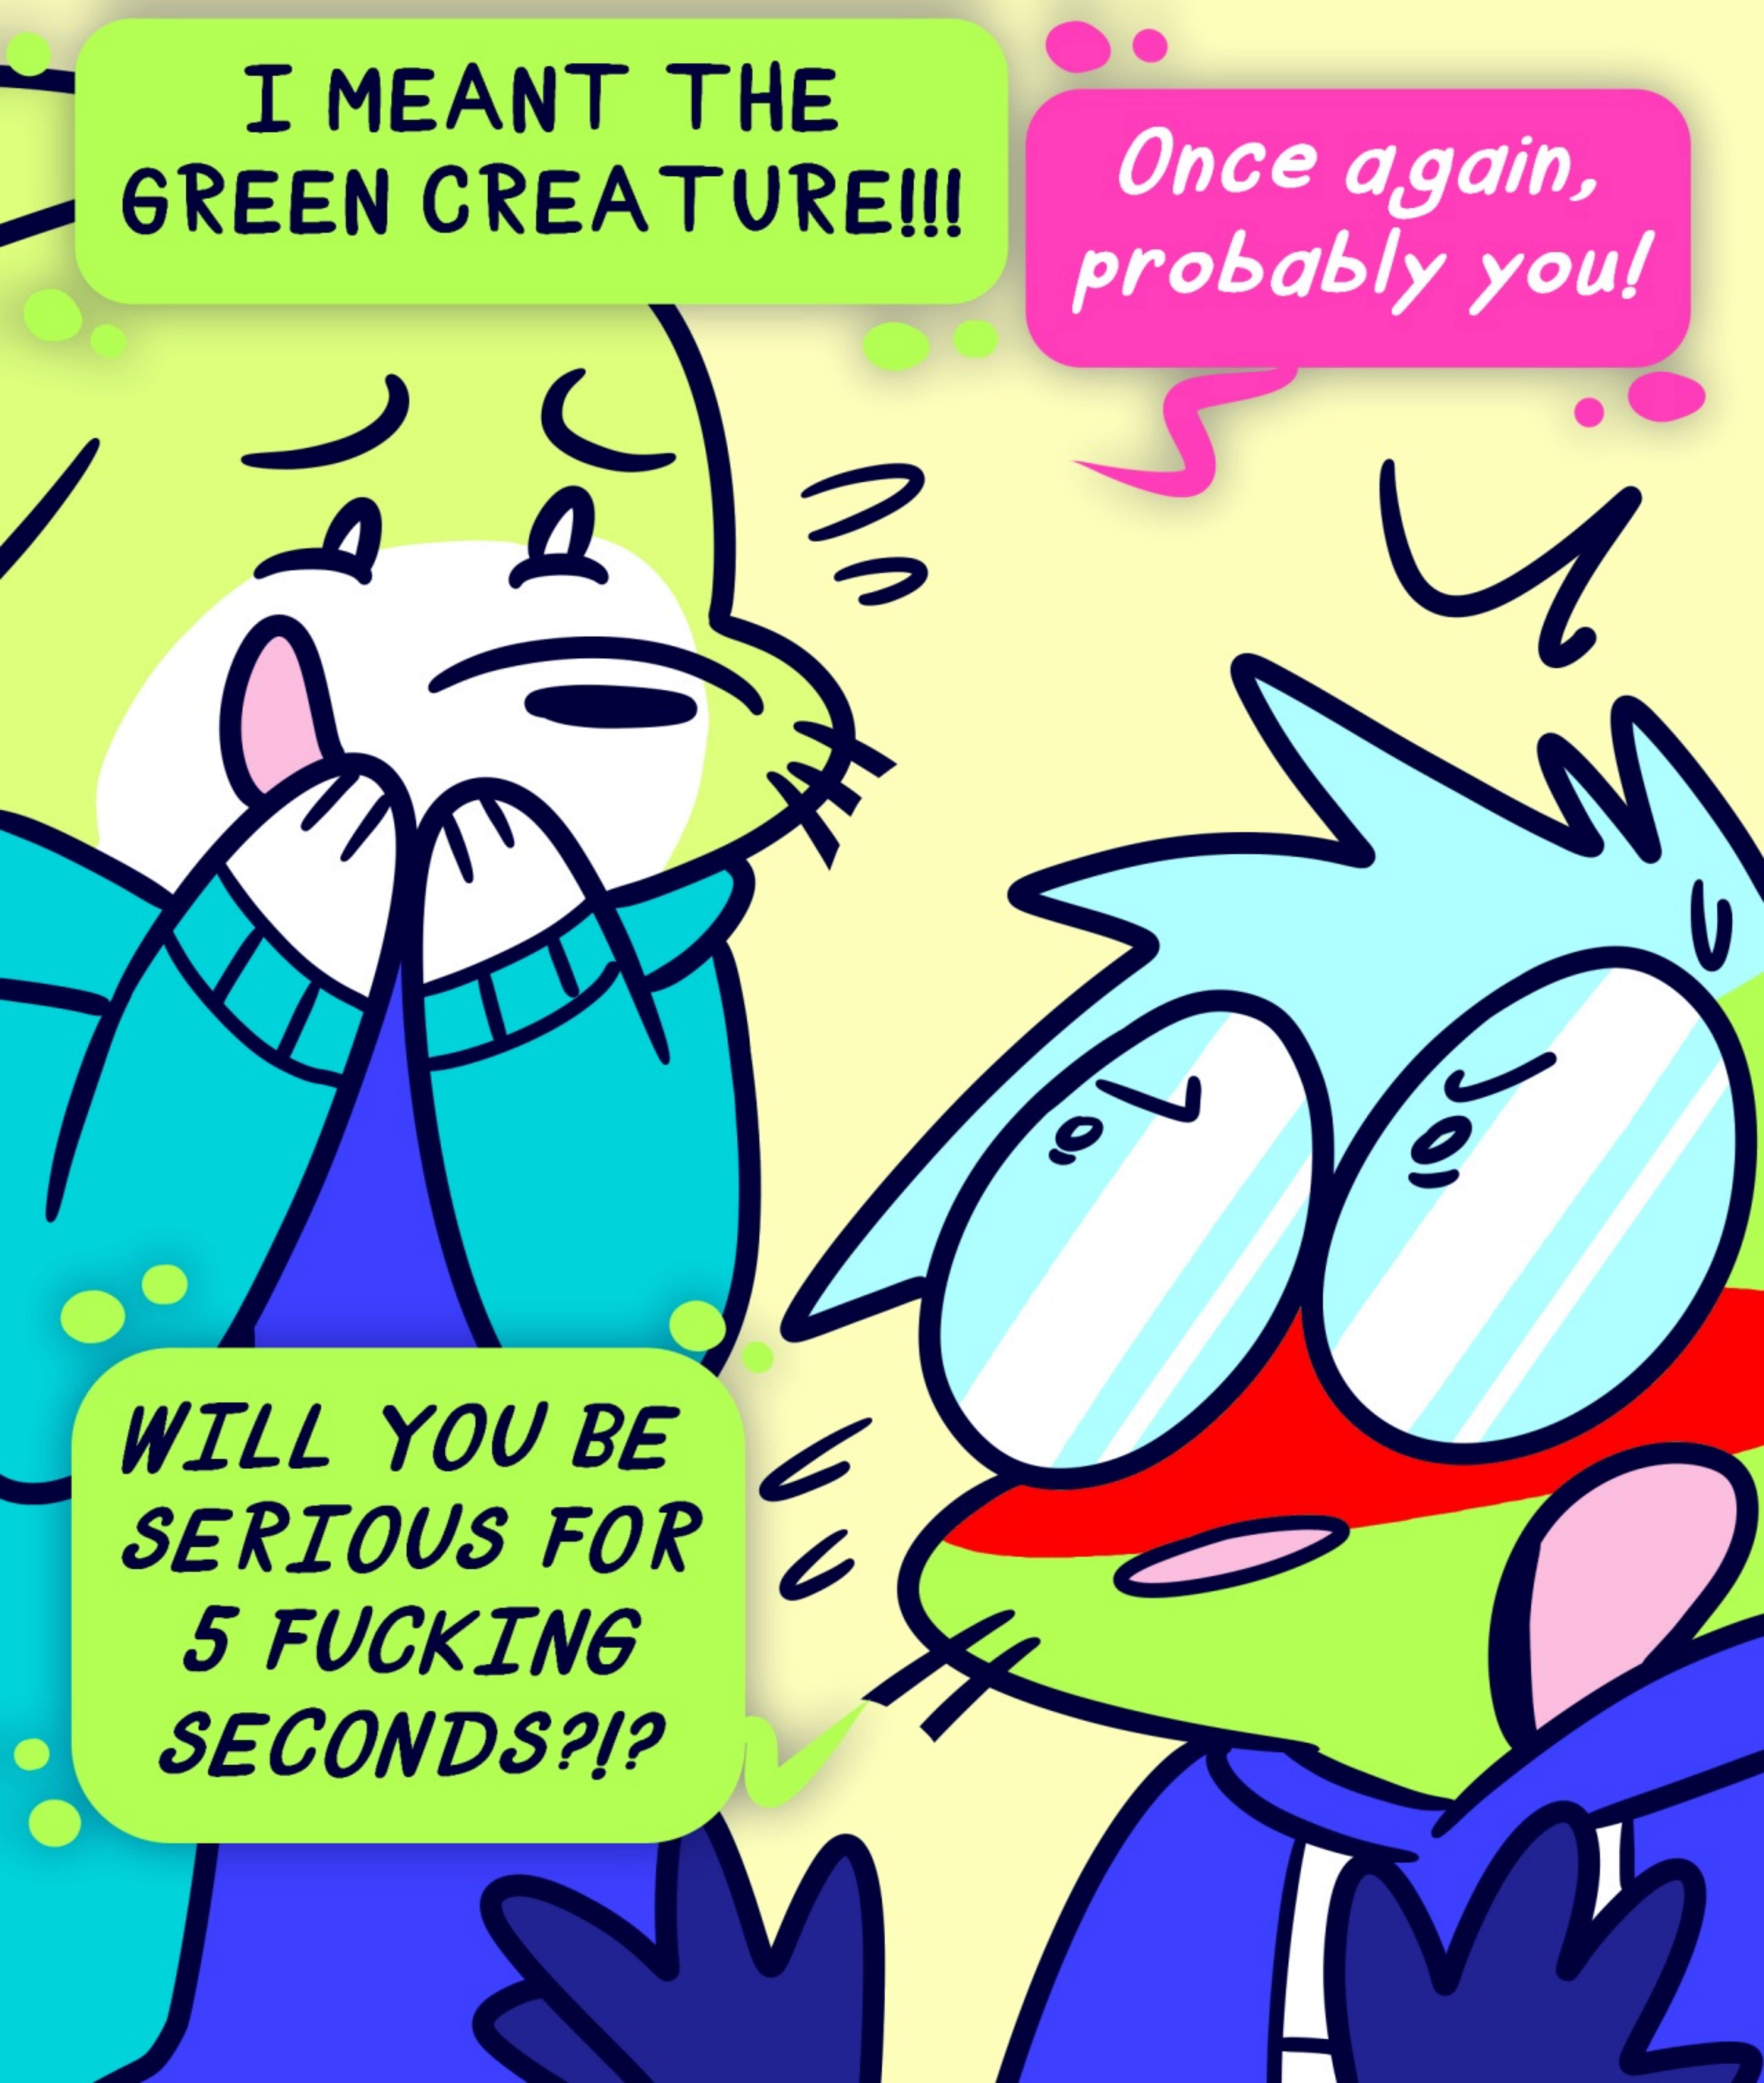


SNIFF

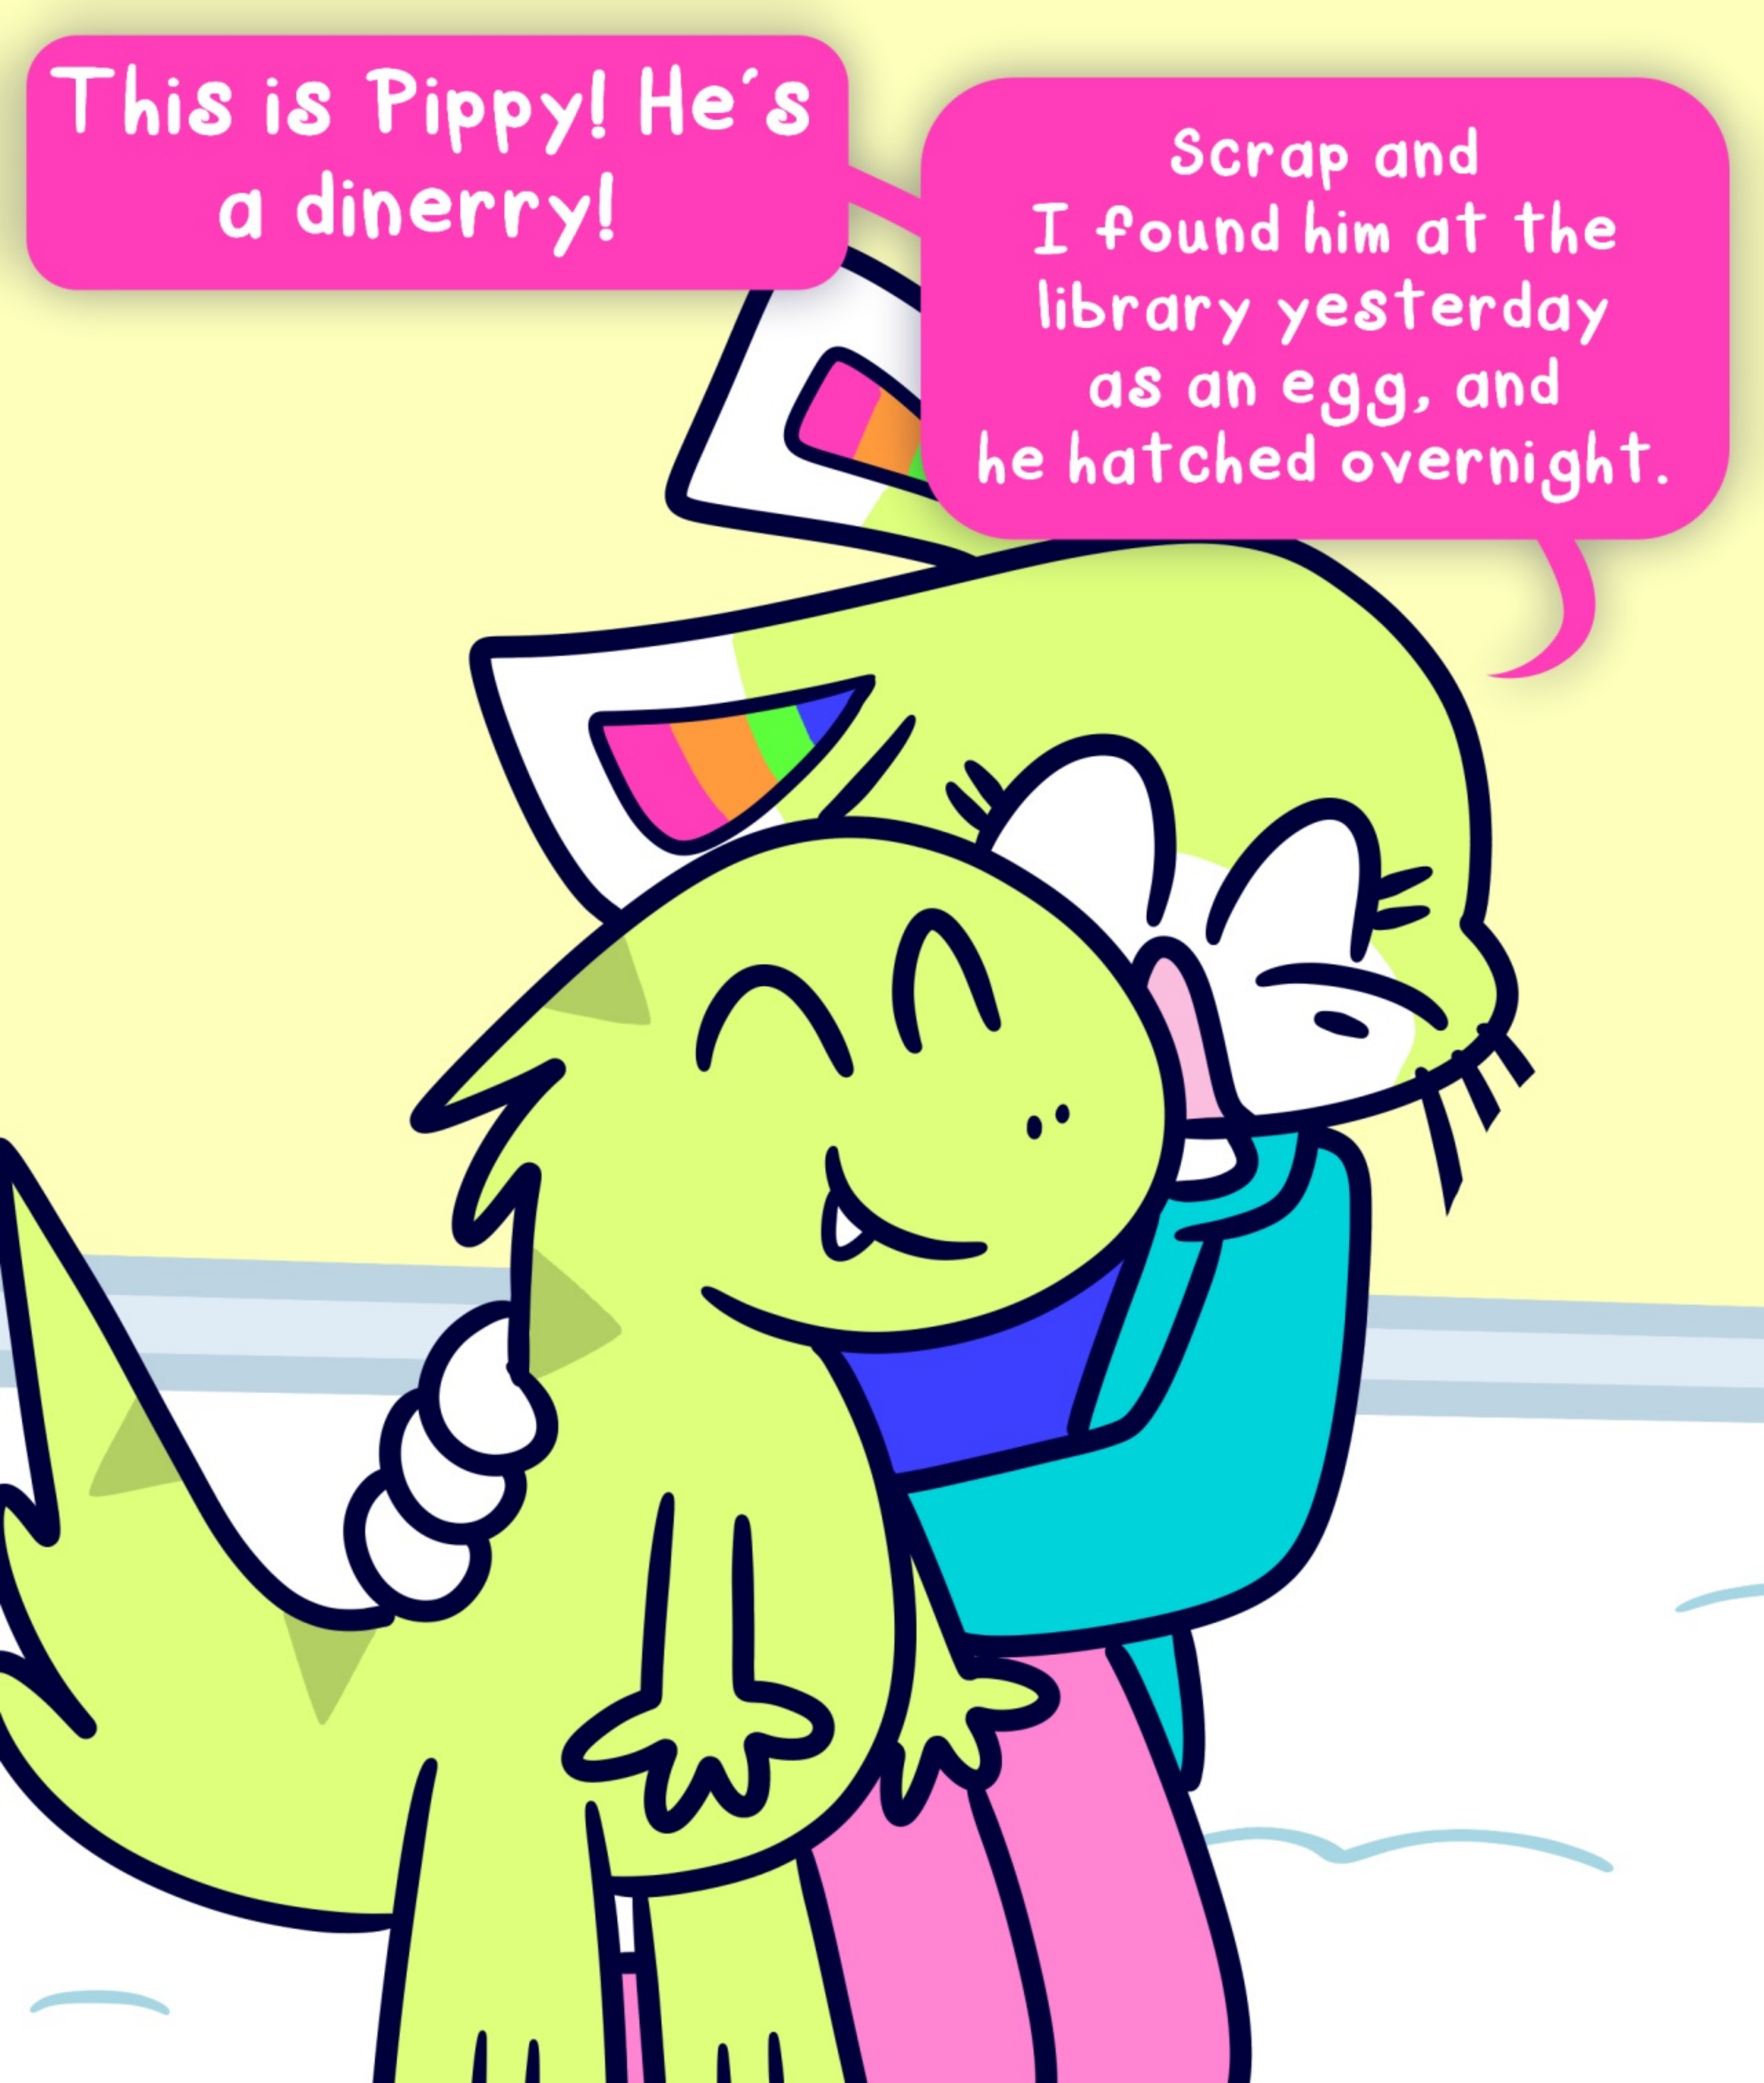




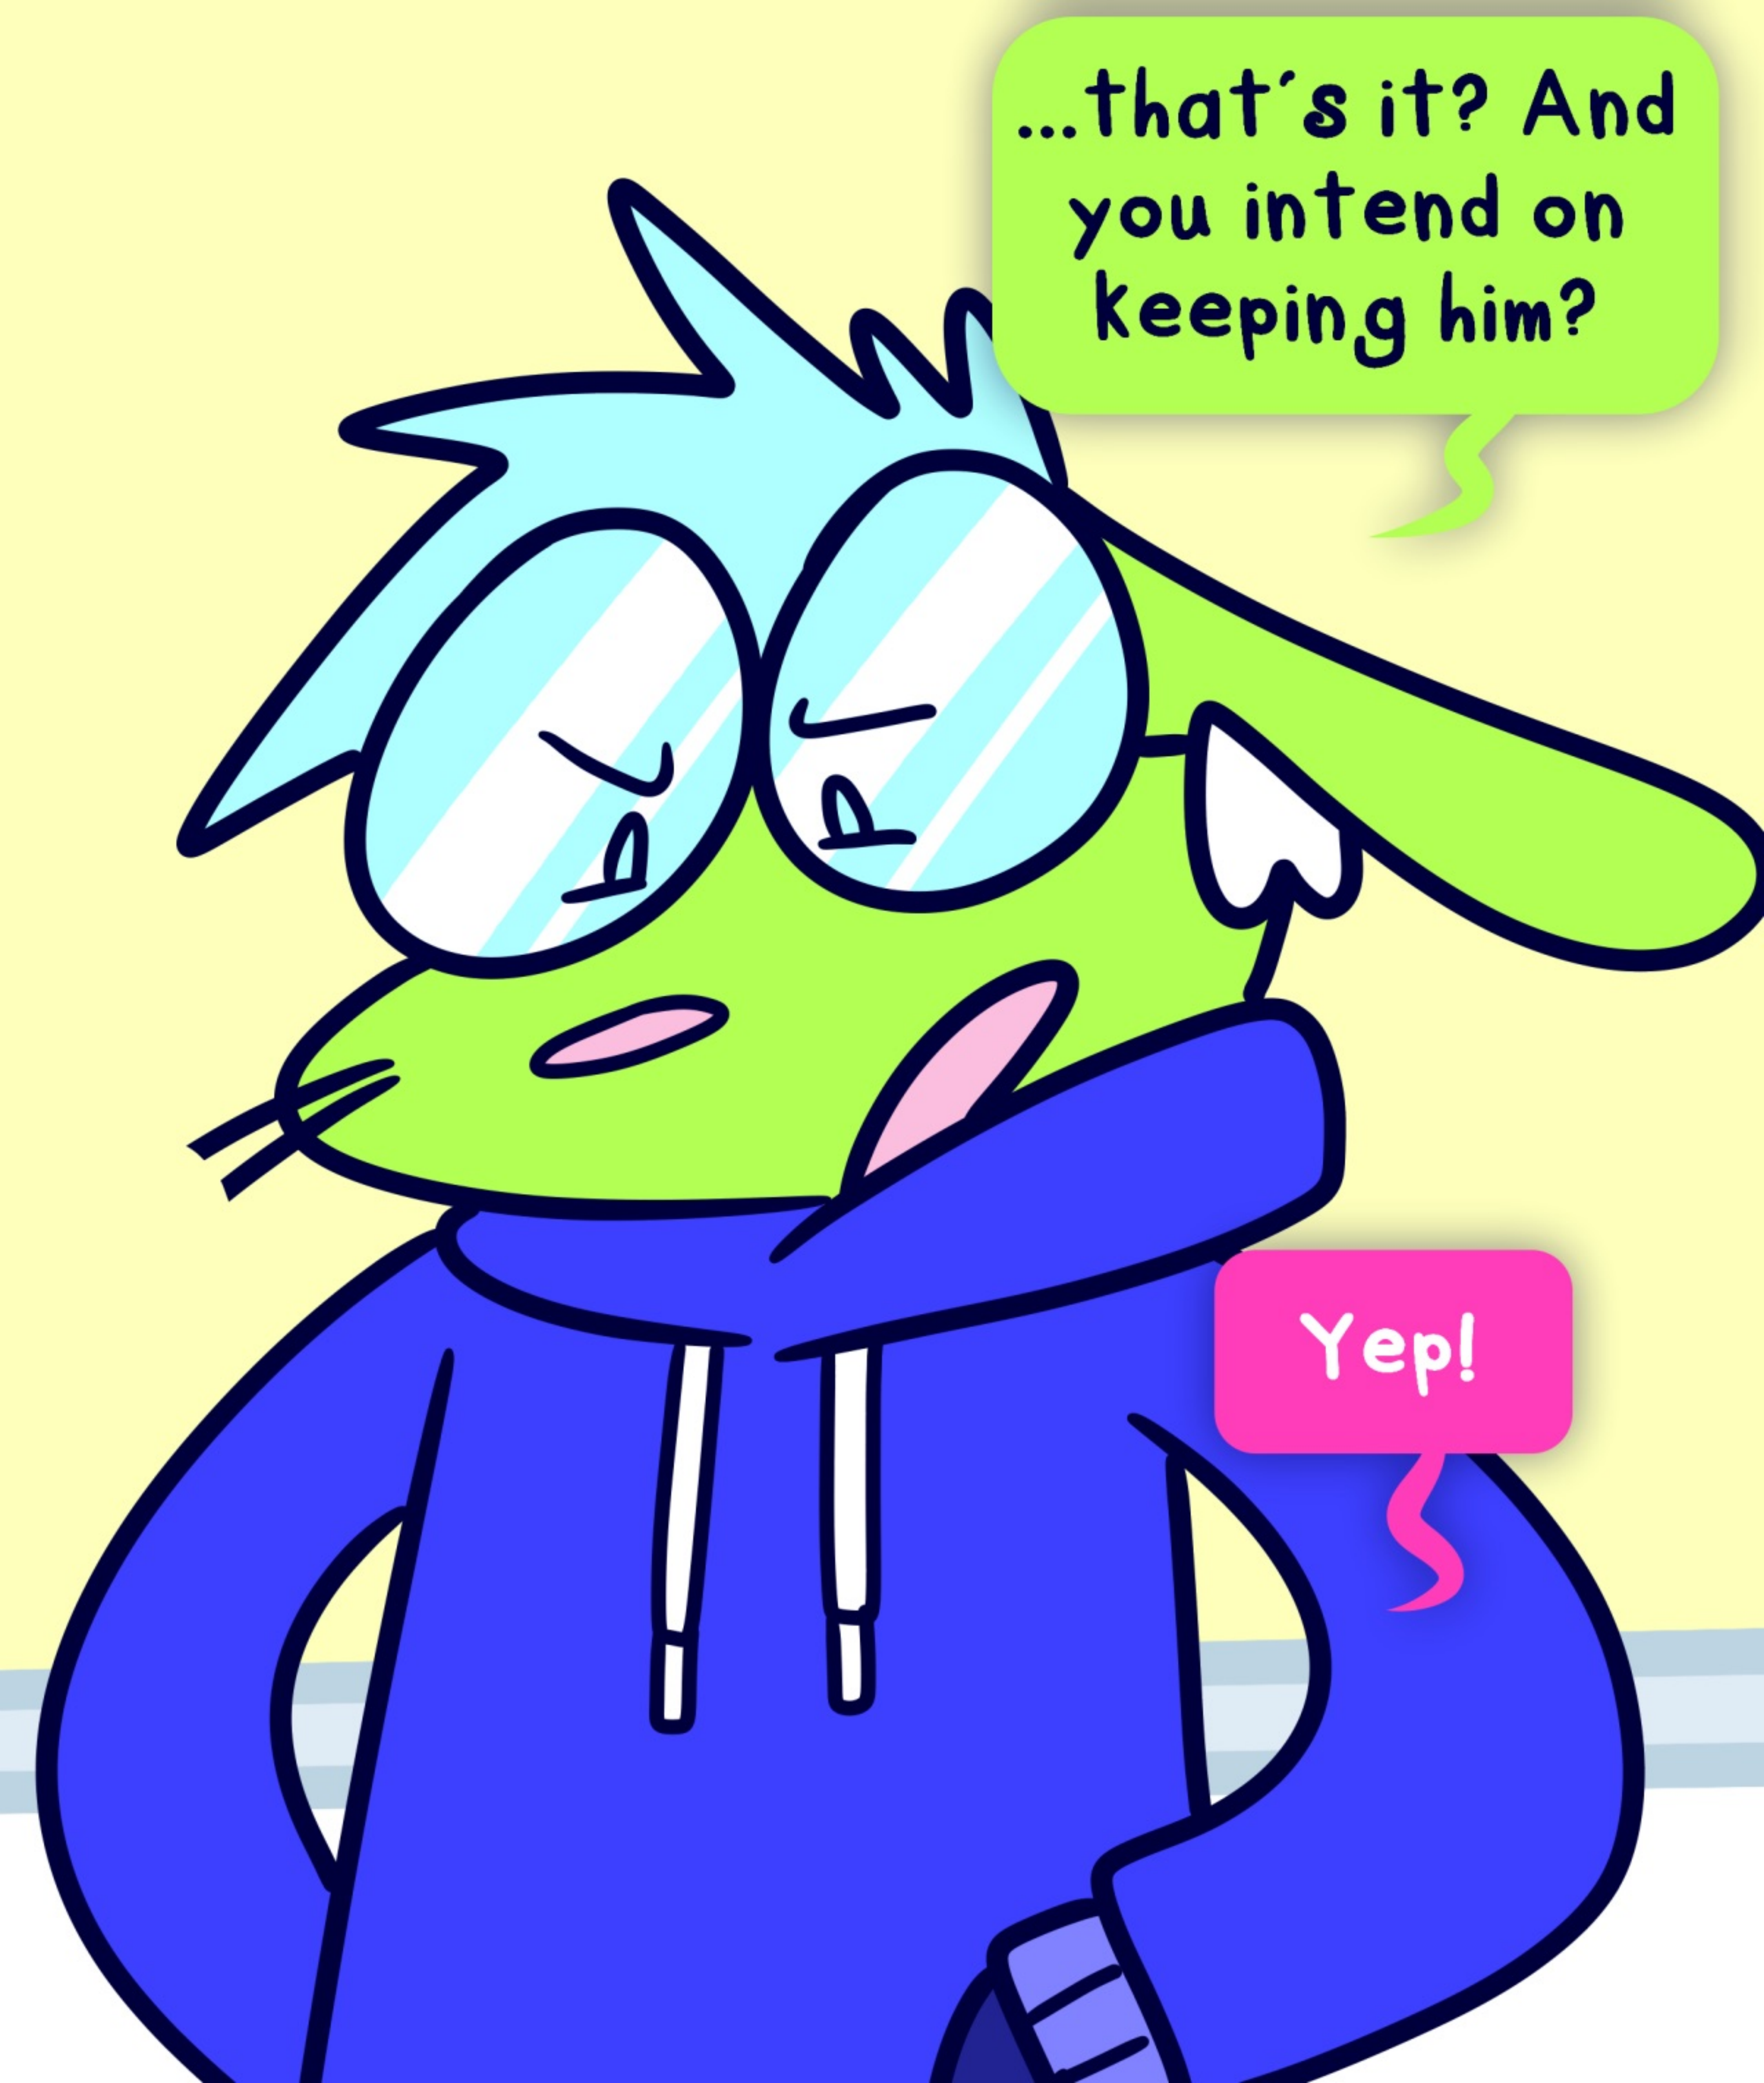
--OKAY, EVE, WHAT THE FUCK IS THAT?!?
Judging by his reaction, it´s probably you.



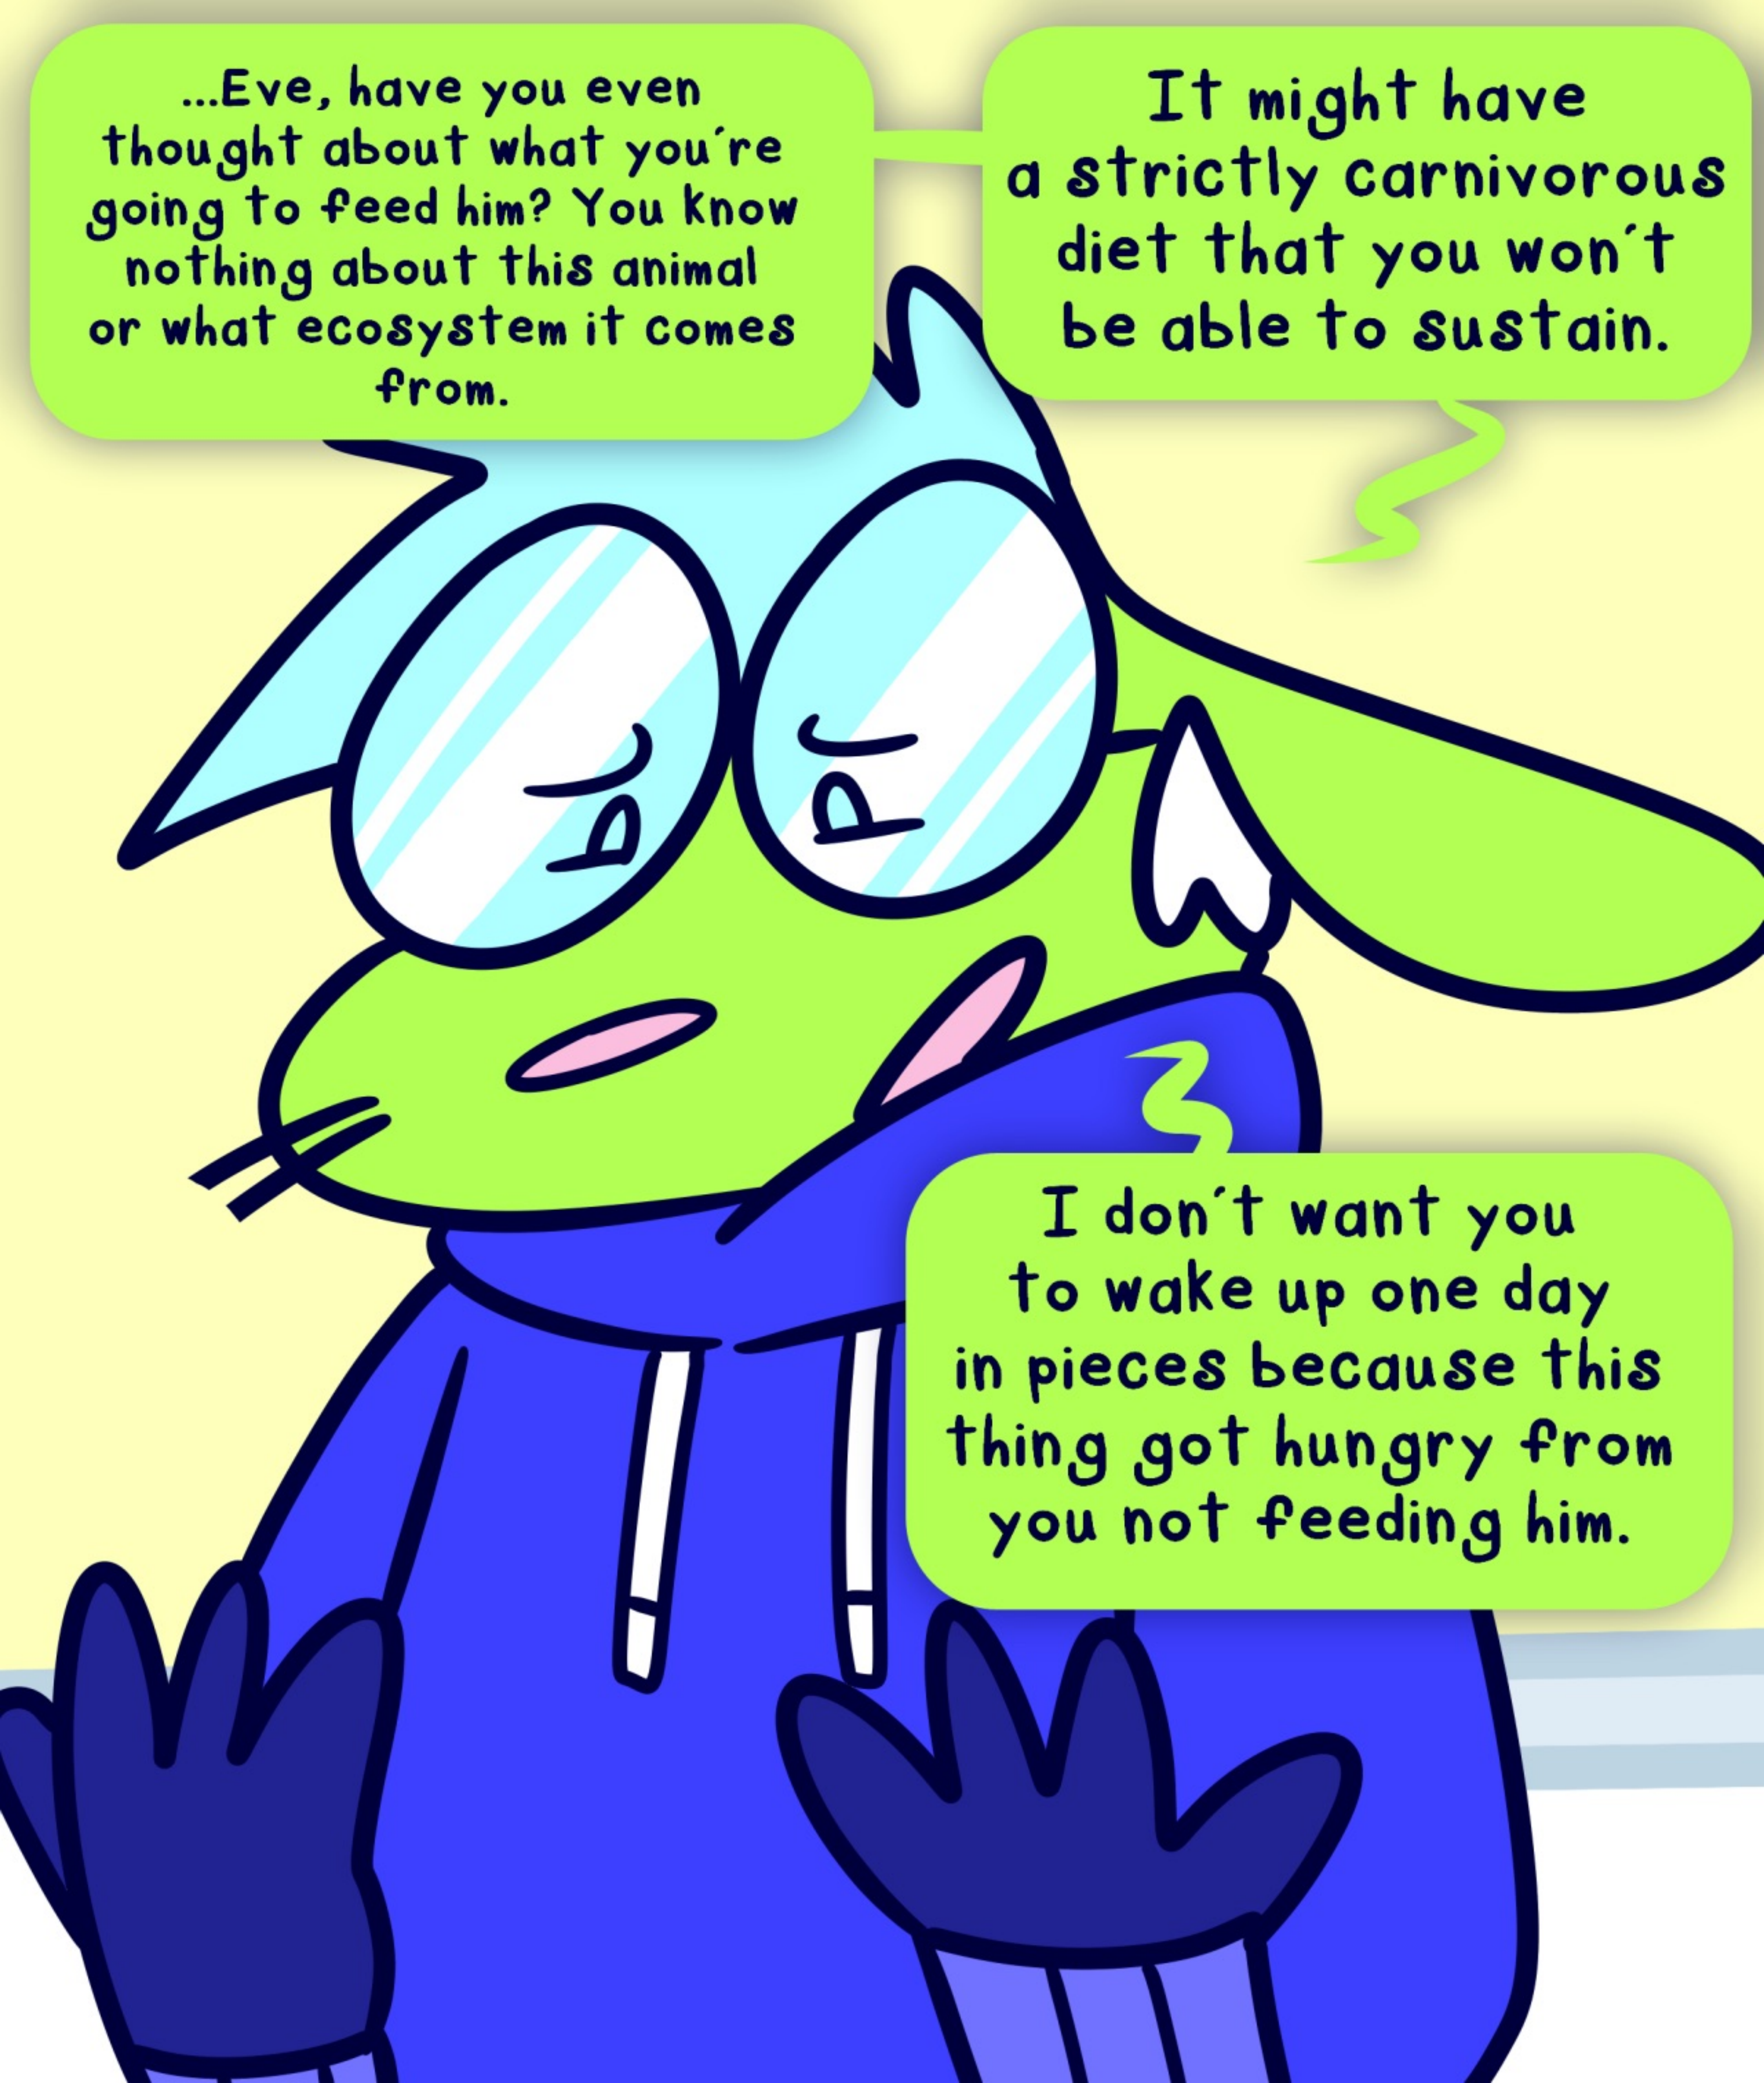
I MEANT THE GREEN CREATURE!!!
Once again, probably you!
WILL YOU BE SERIOUS FOR 5 FUCKING SECONDS?!?



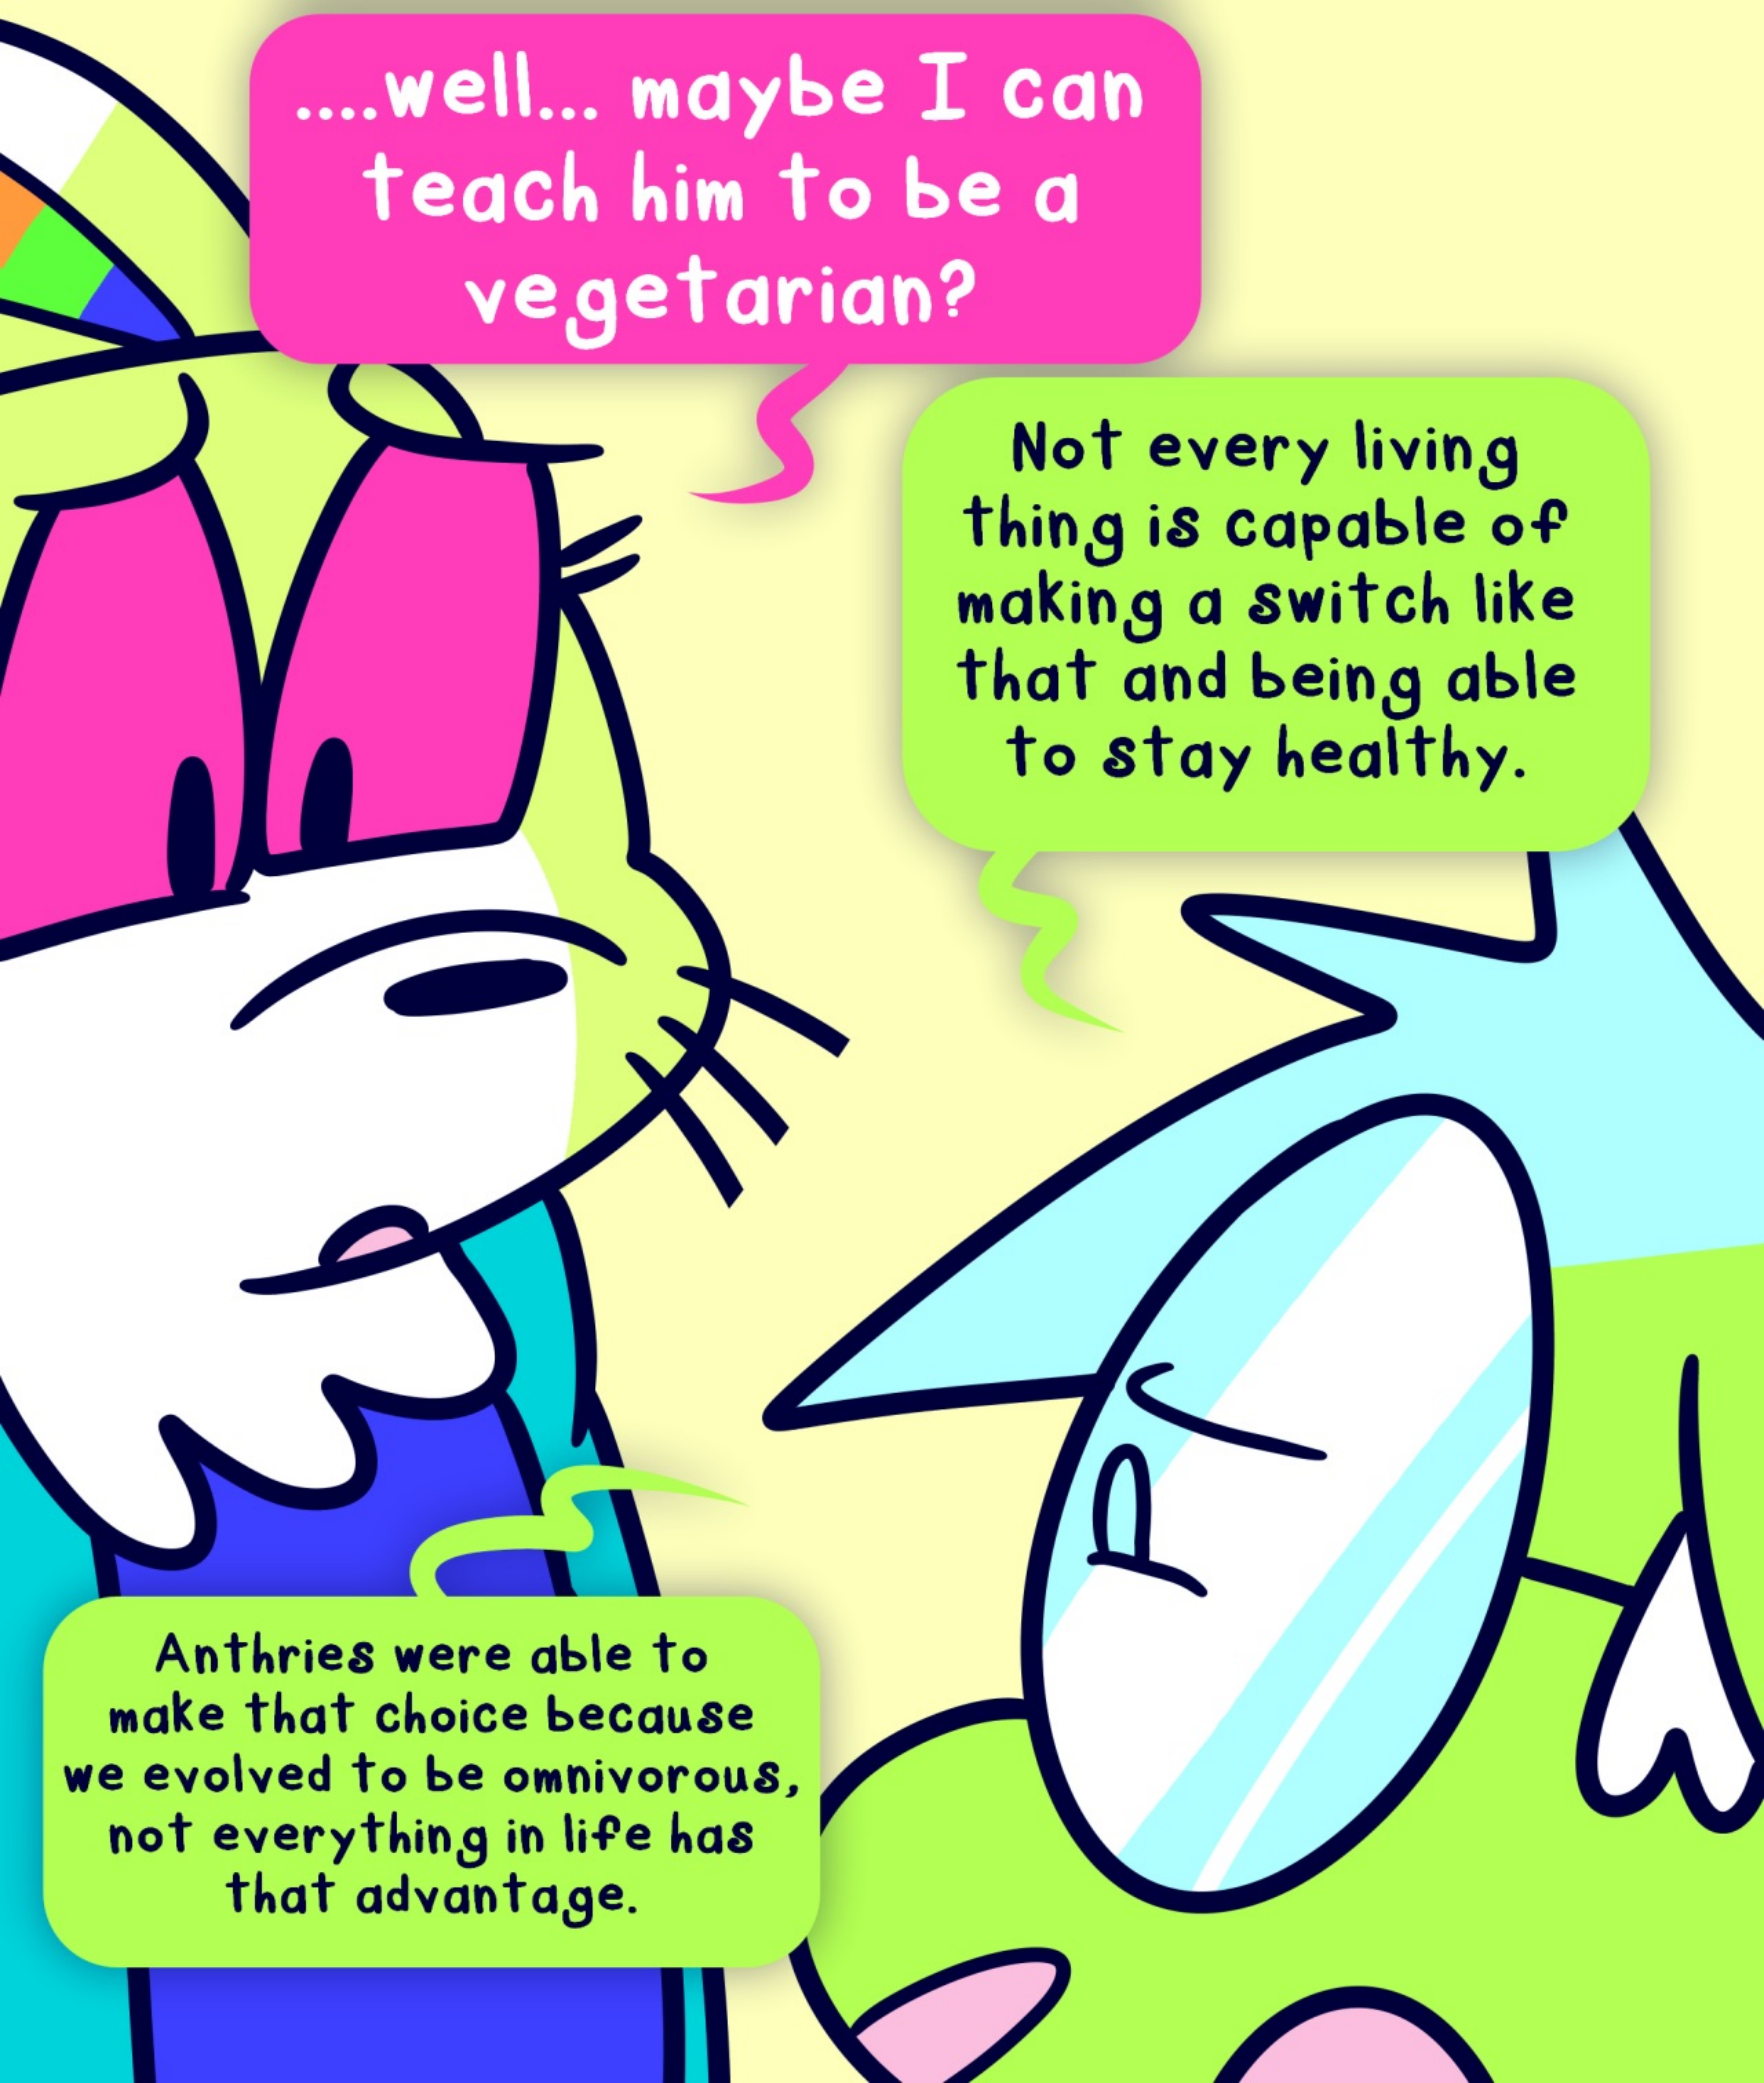
This is Pippy! He´s a dinerry!
Scrap and I found him at the library yesterday as an egg, and he hatched overnight.



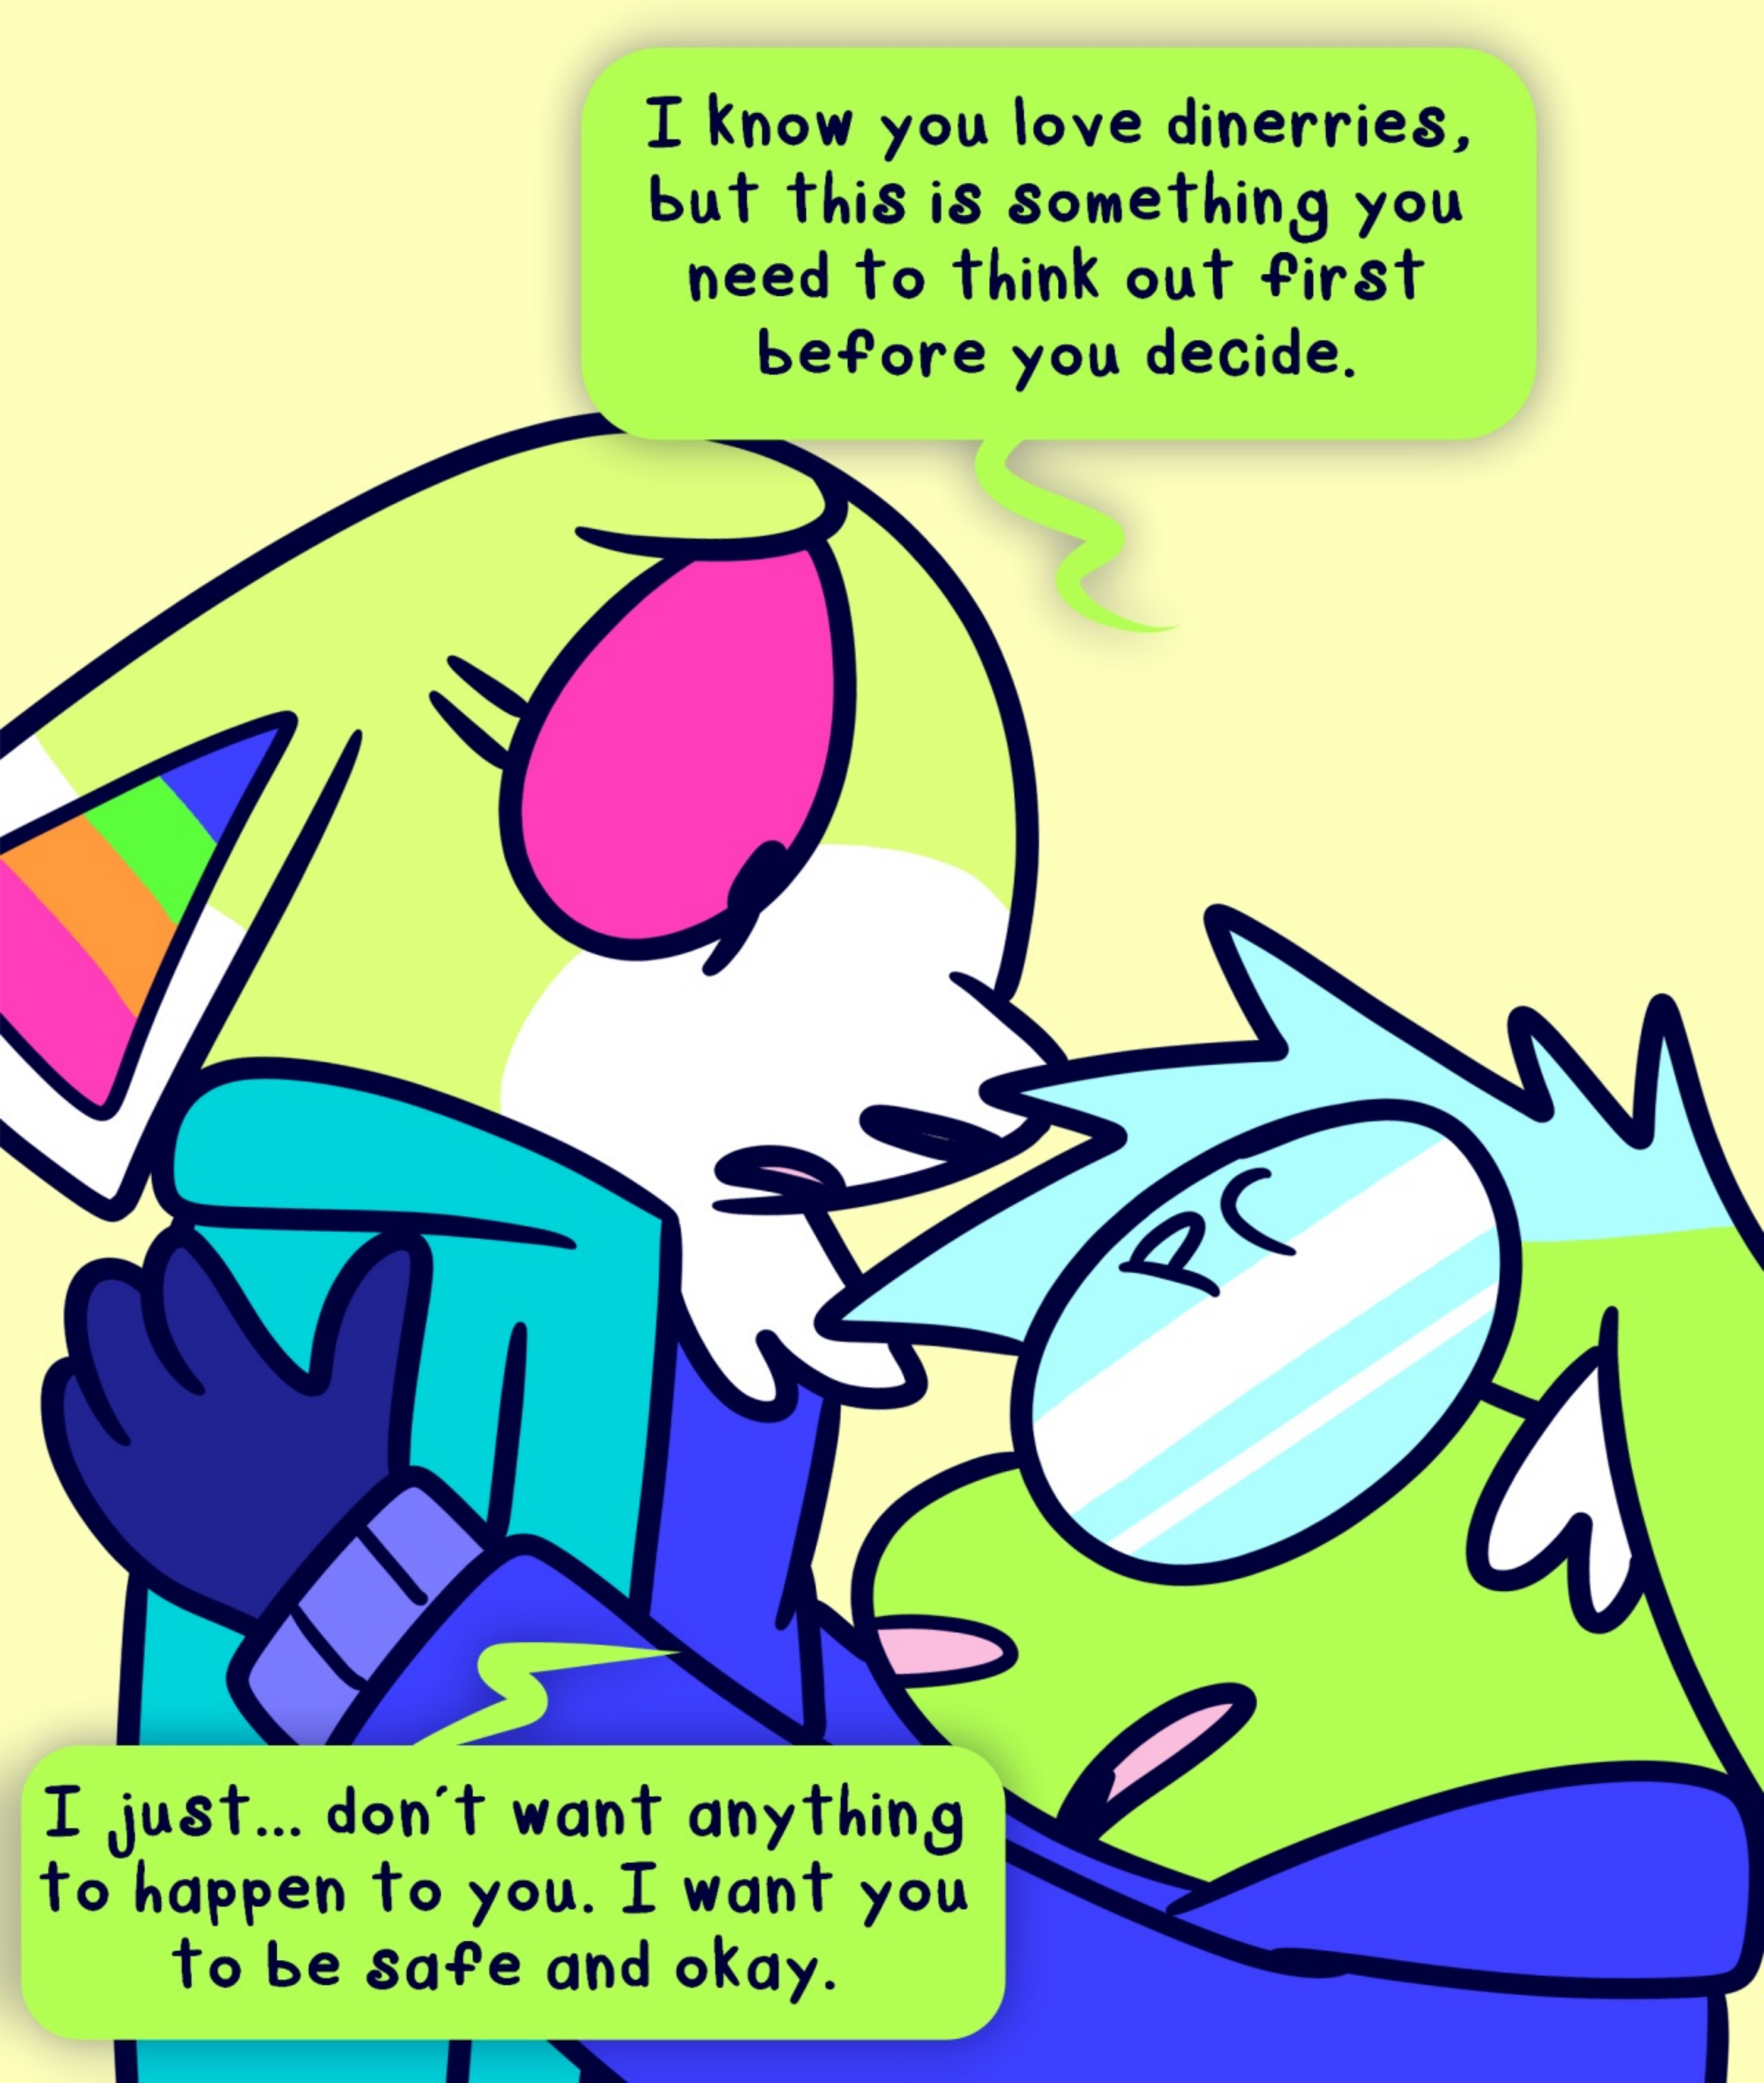
...that´s it? And you intend on keeping him?
Yep!



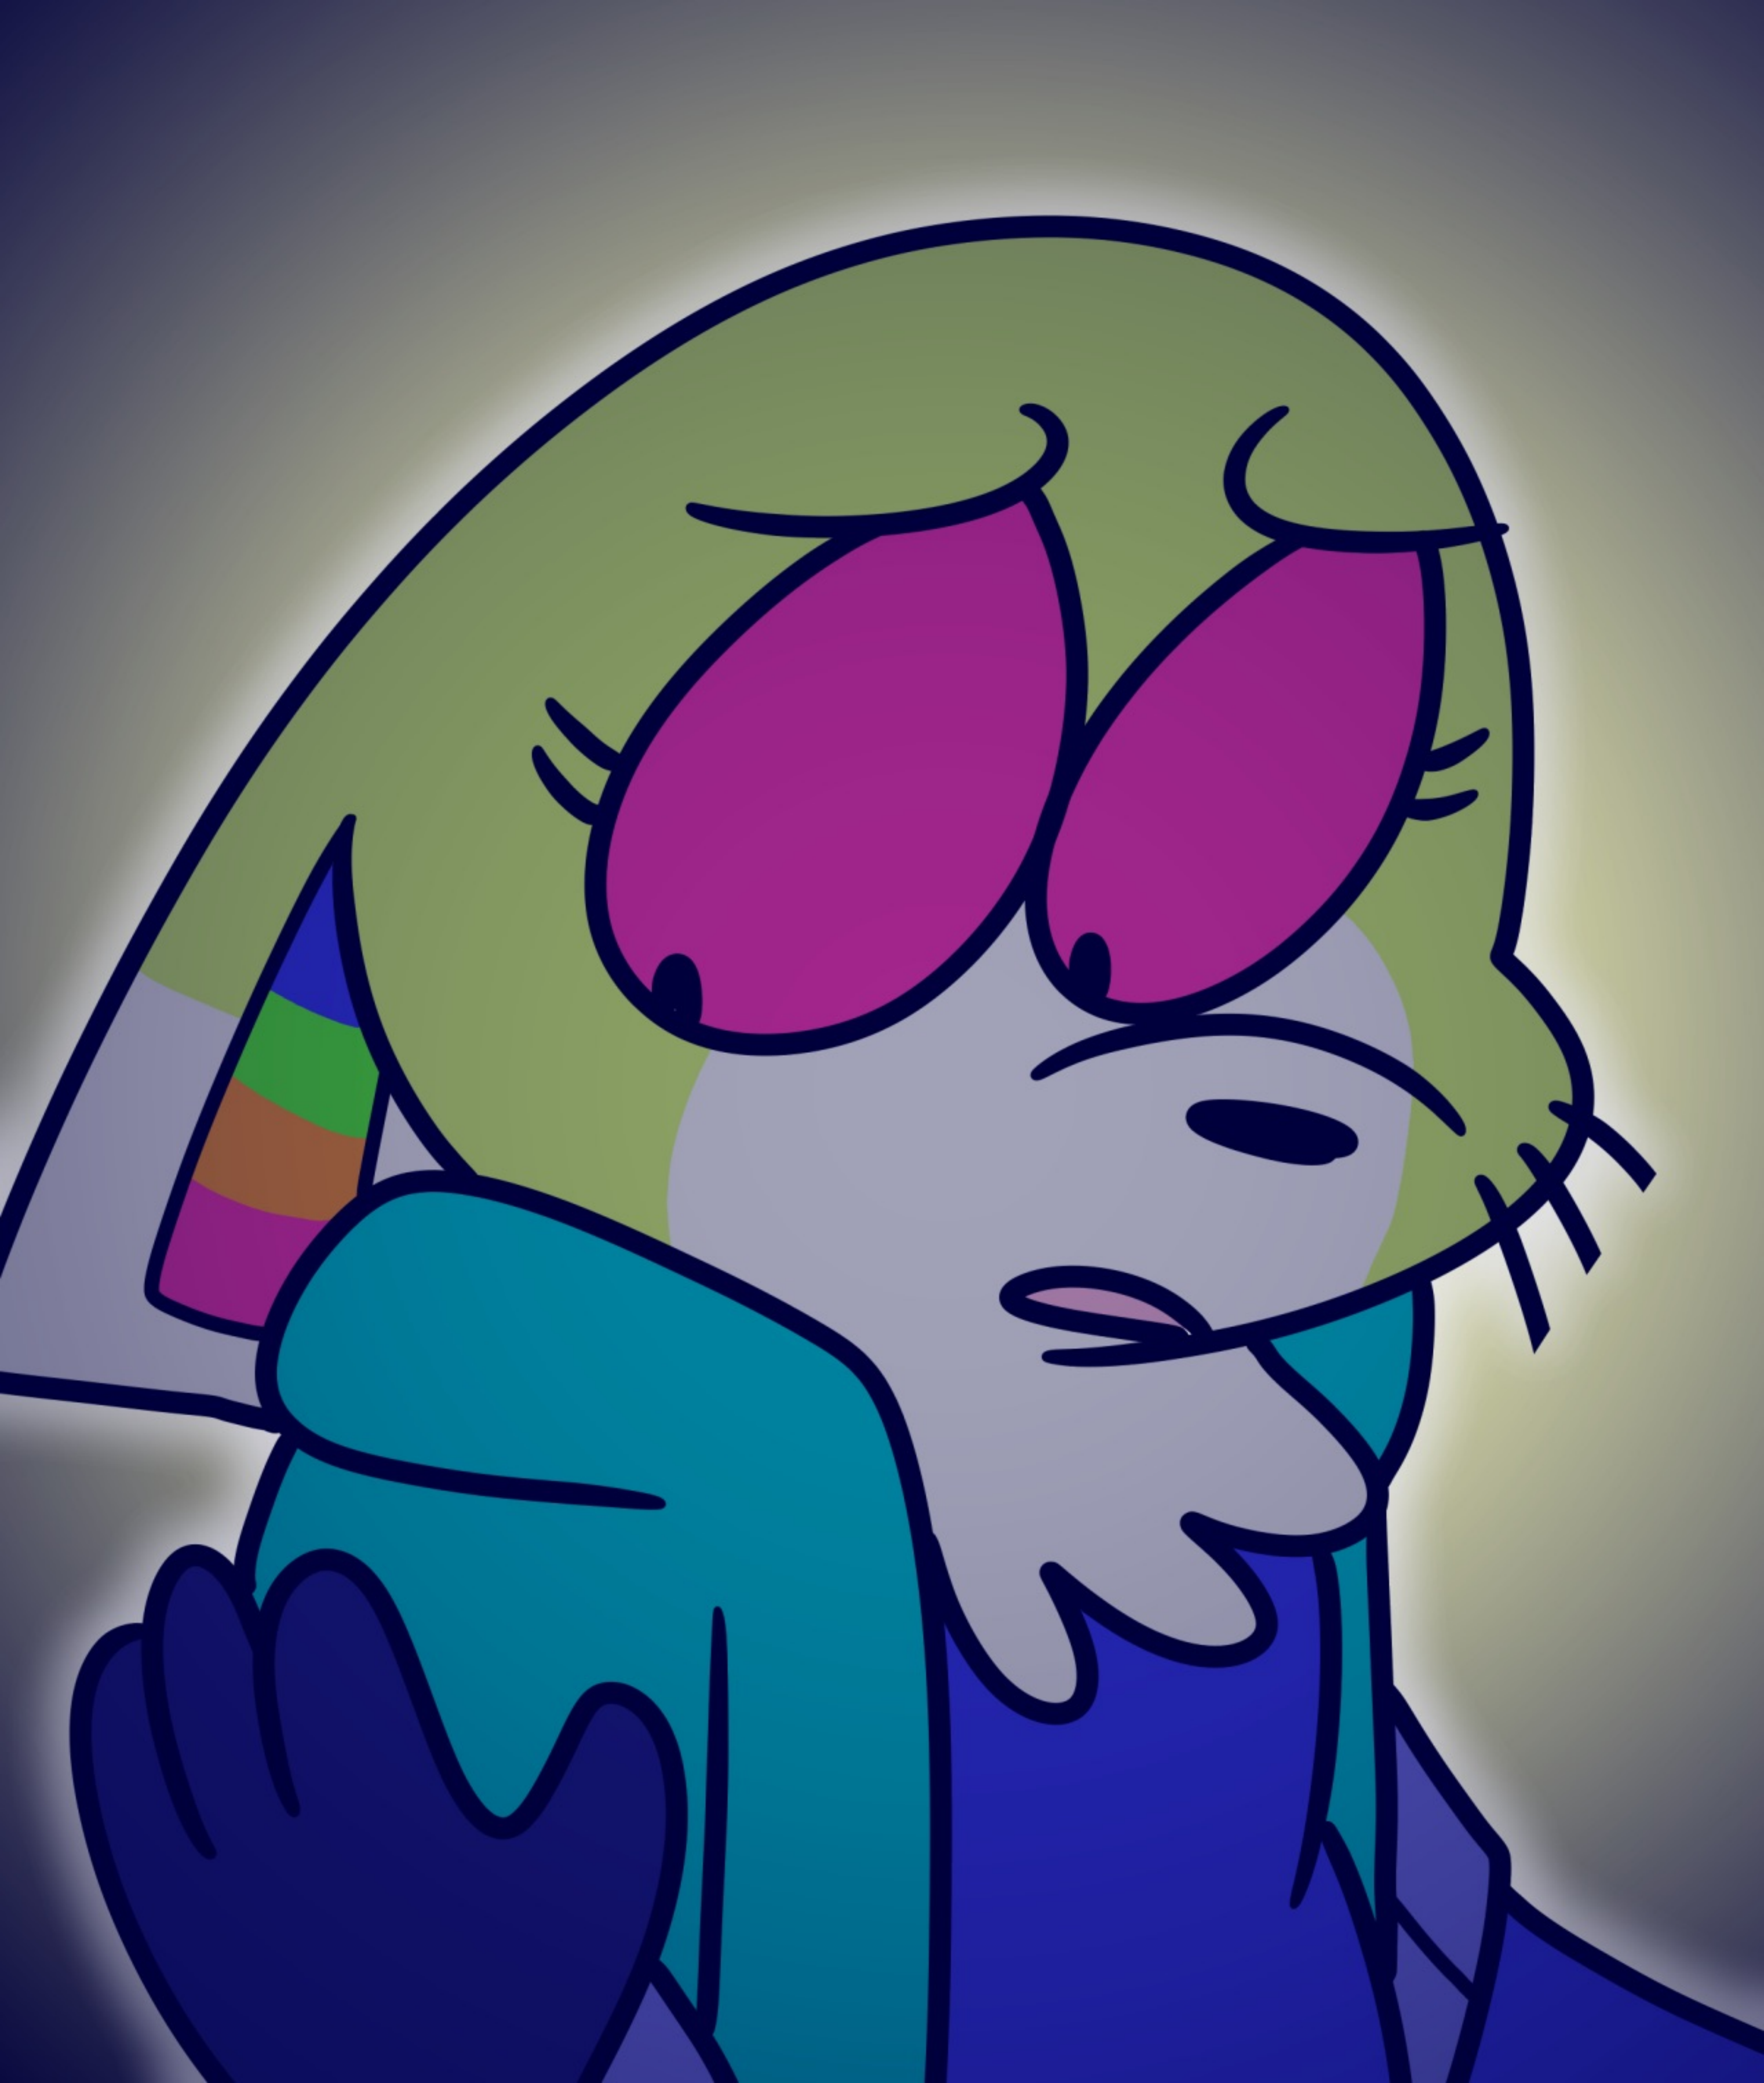
...Eve, have you even thought about what you're going to feed him? You know nothing about this animal or what ecosystem it comes from.
It might have a strictly carnivorous diet that you won't be able to sustain.
I don't want you to wake up one day in pieces because this thing got hungry from you not feeding him.

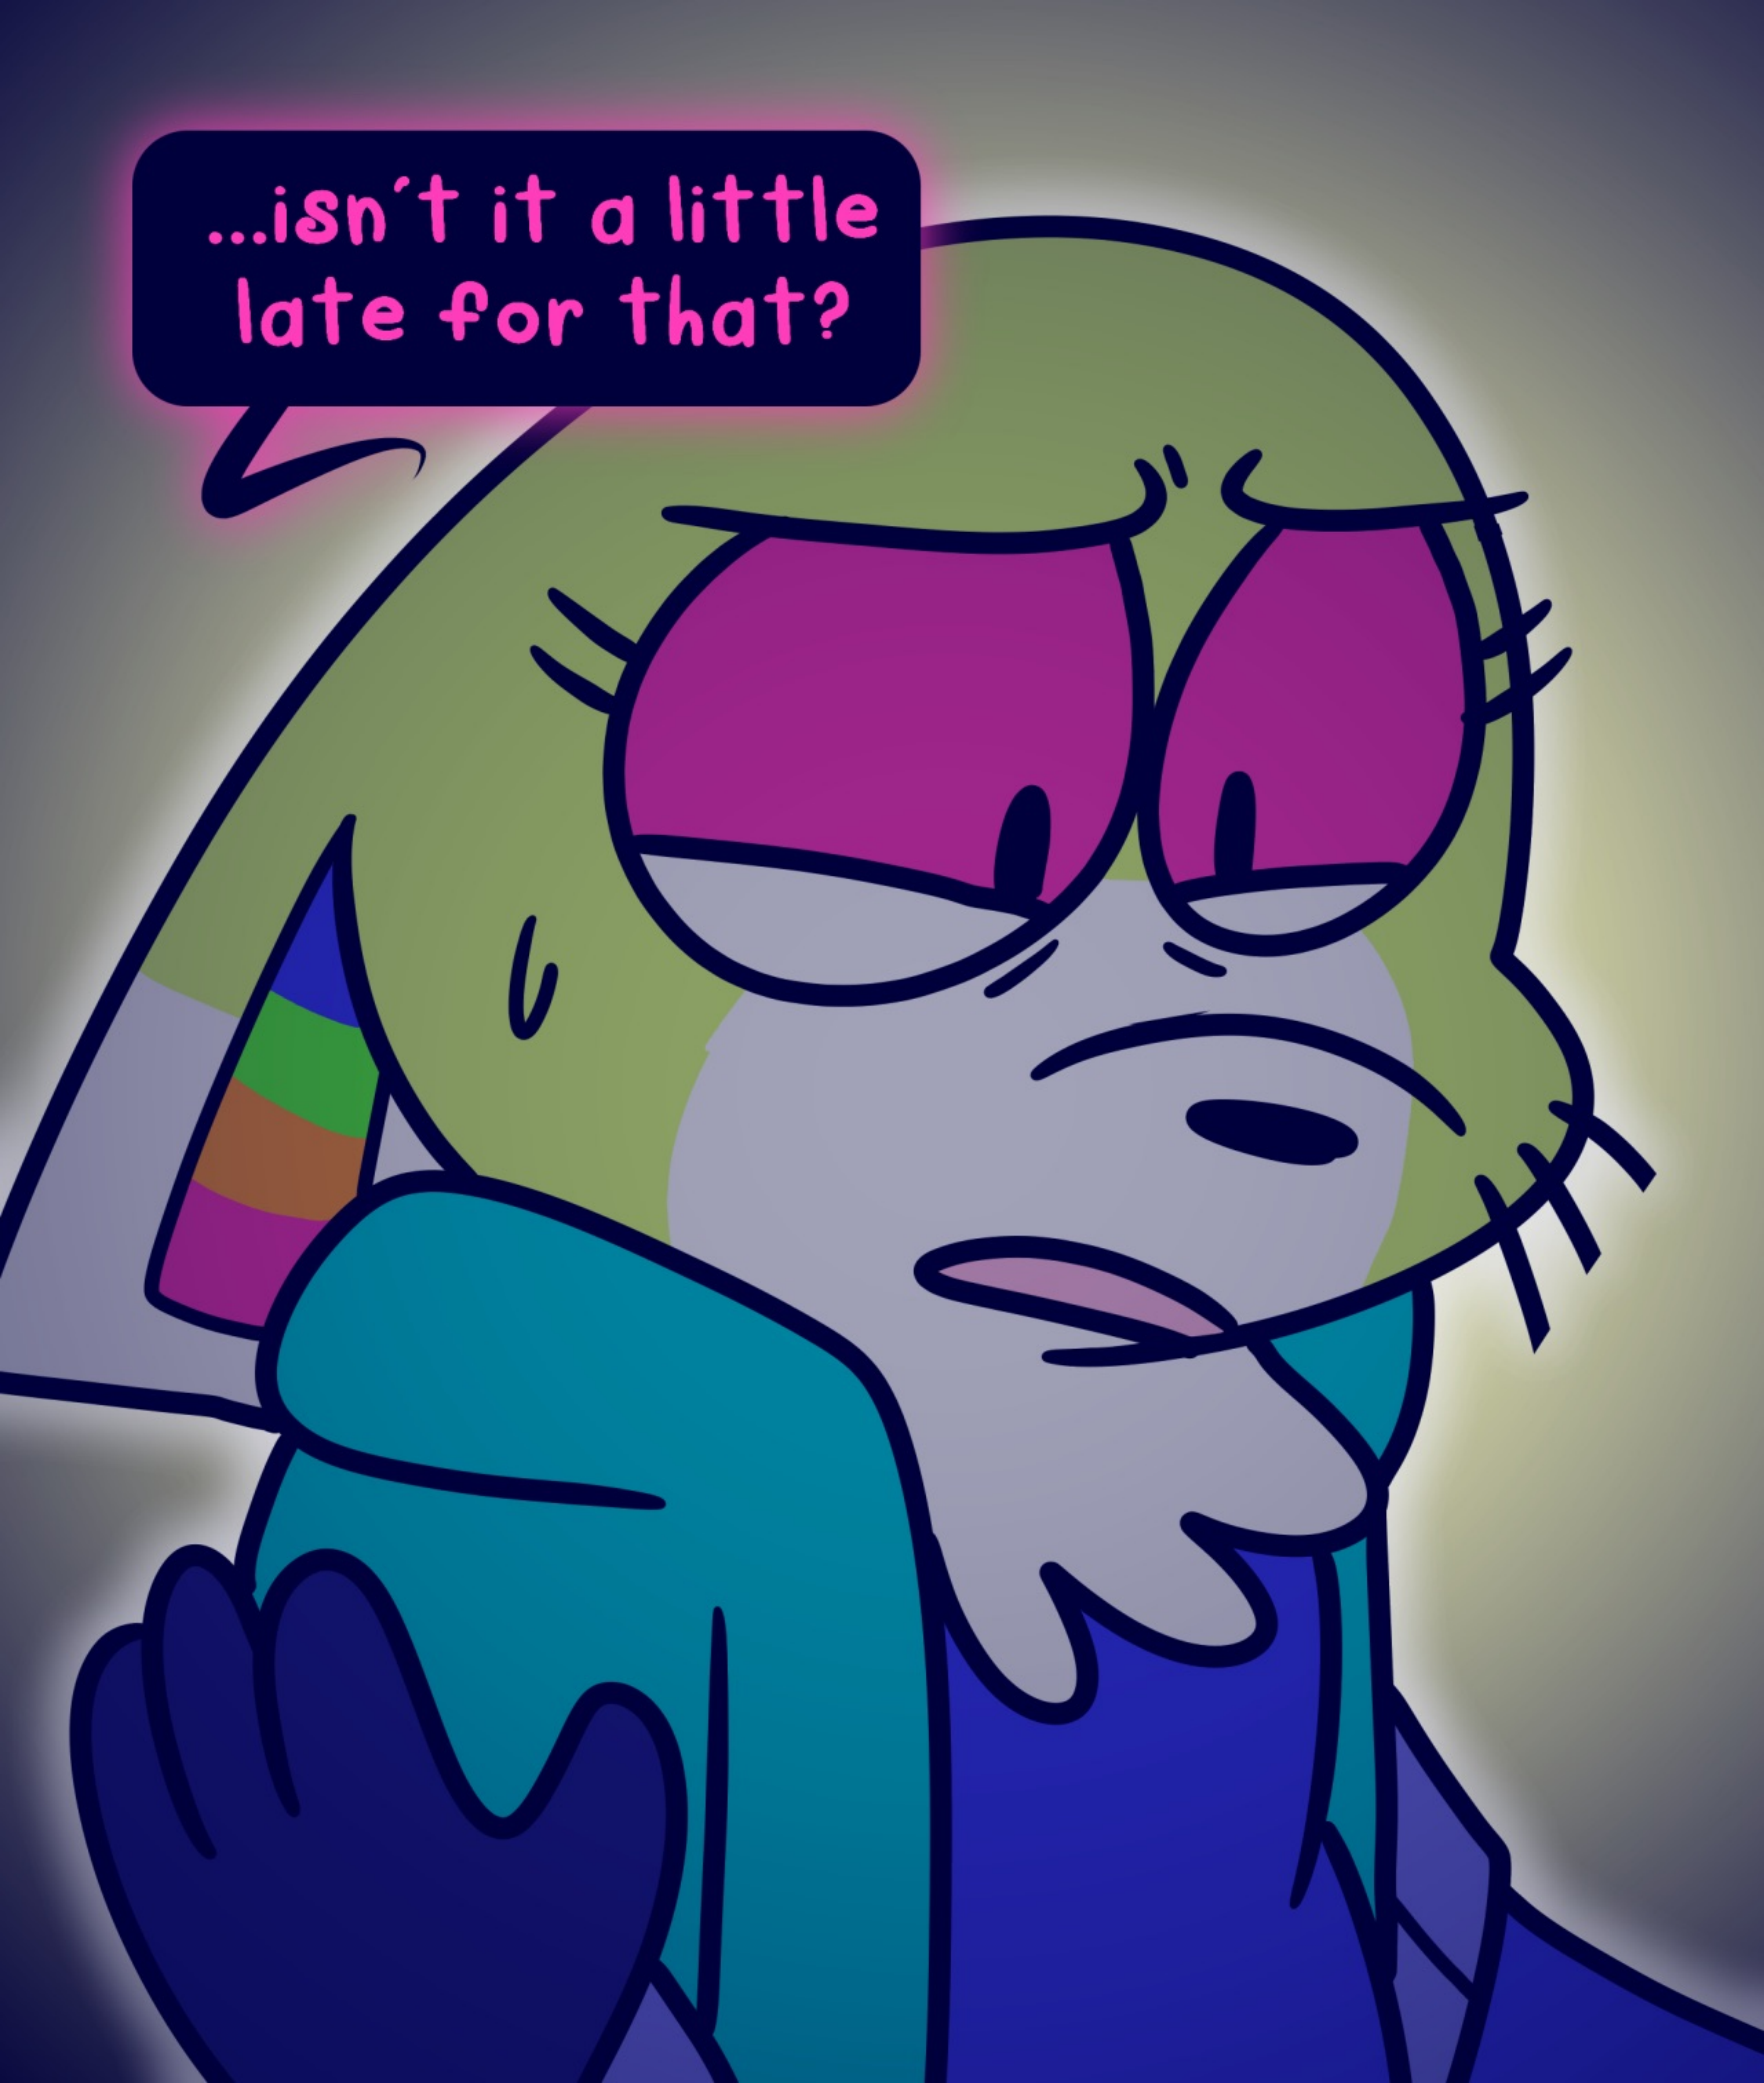


....well... maybe I can teach him to be a vegetarian?
Not every living thing is capable of making a switch like that and being able to stay healthy.
Anthries were able to make that choice because we evolved to be omnivorous, not everything in life has that advantage.

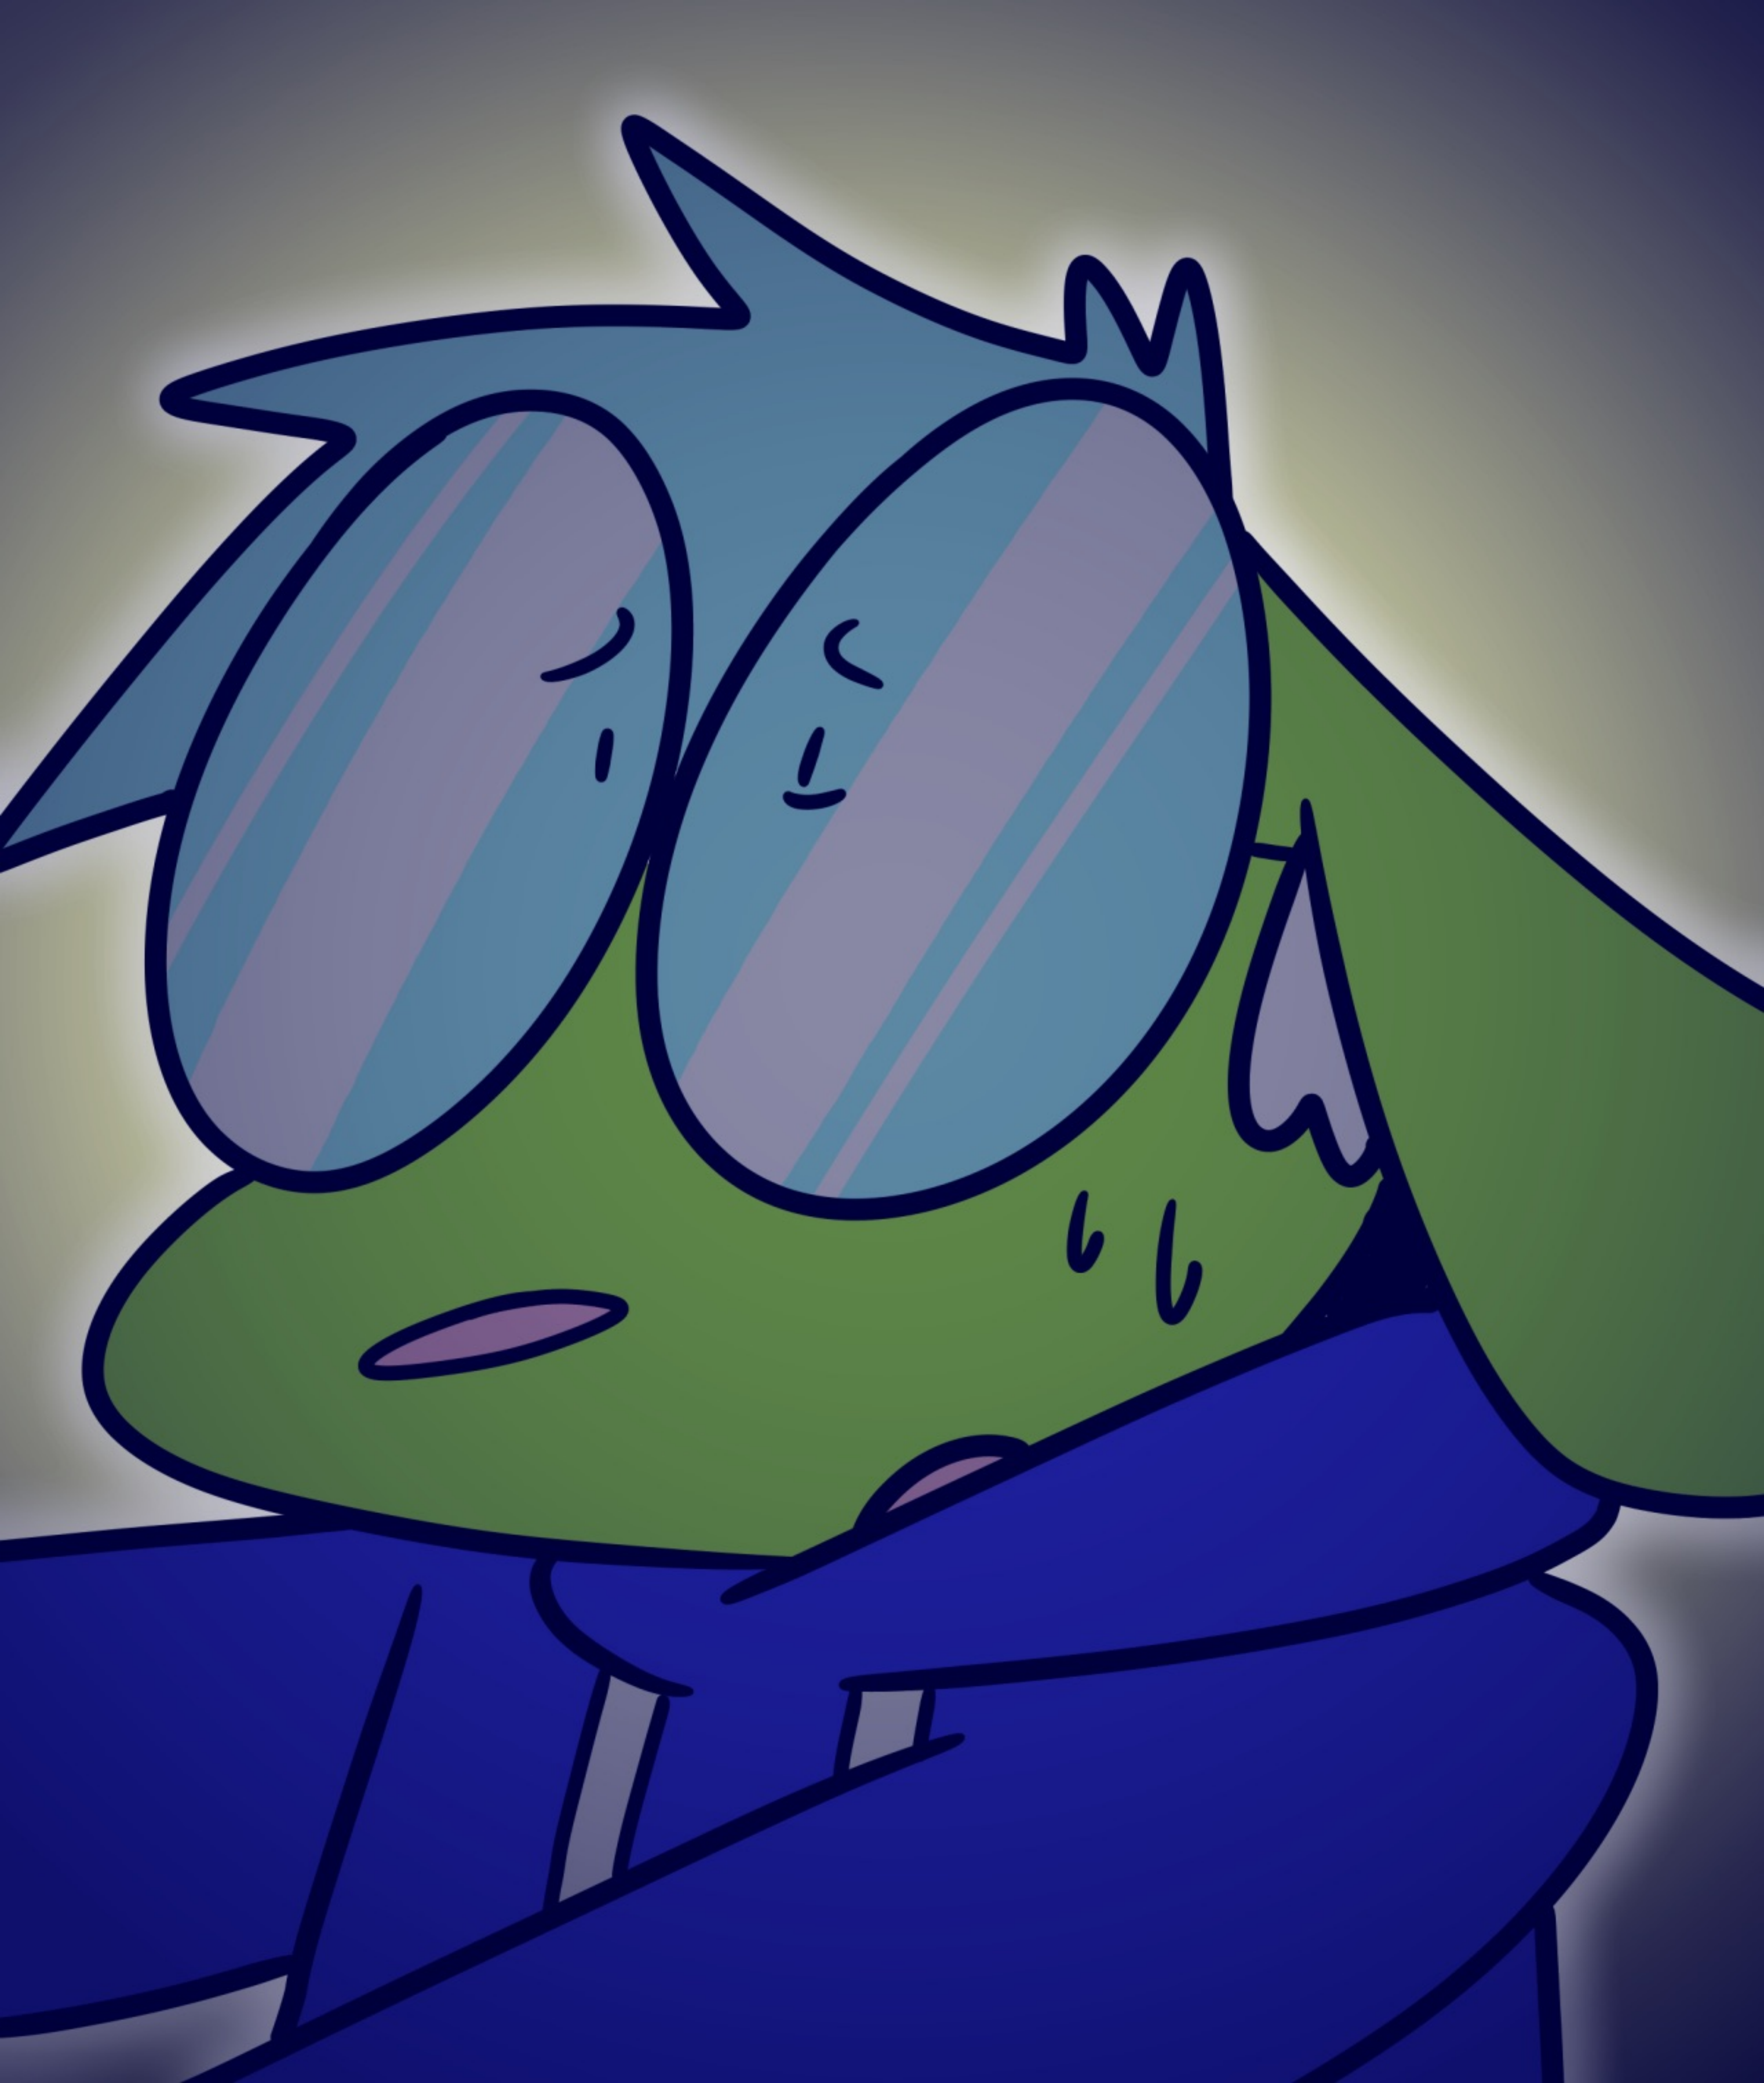


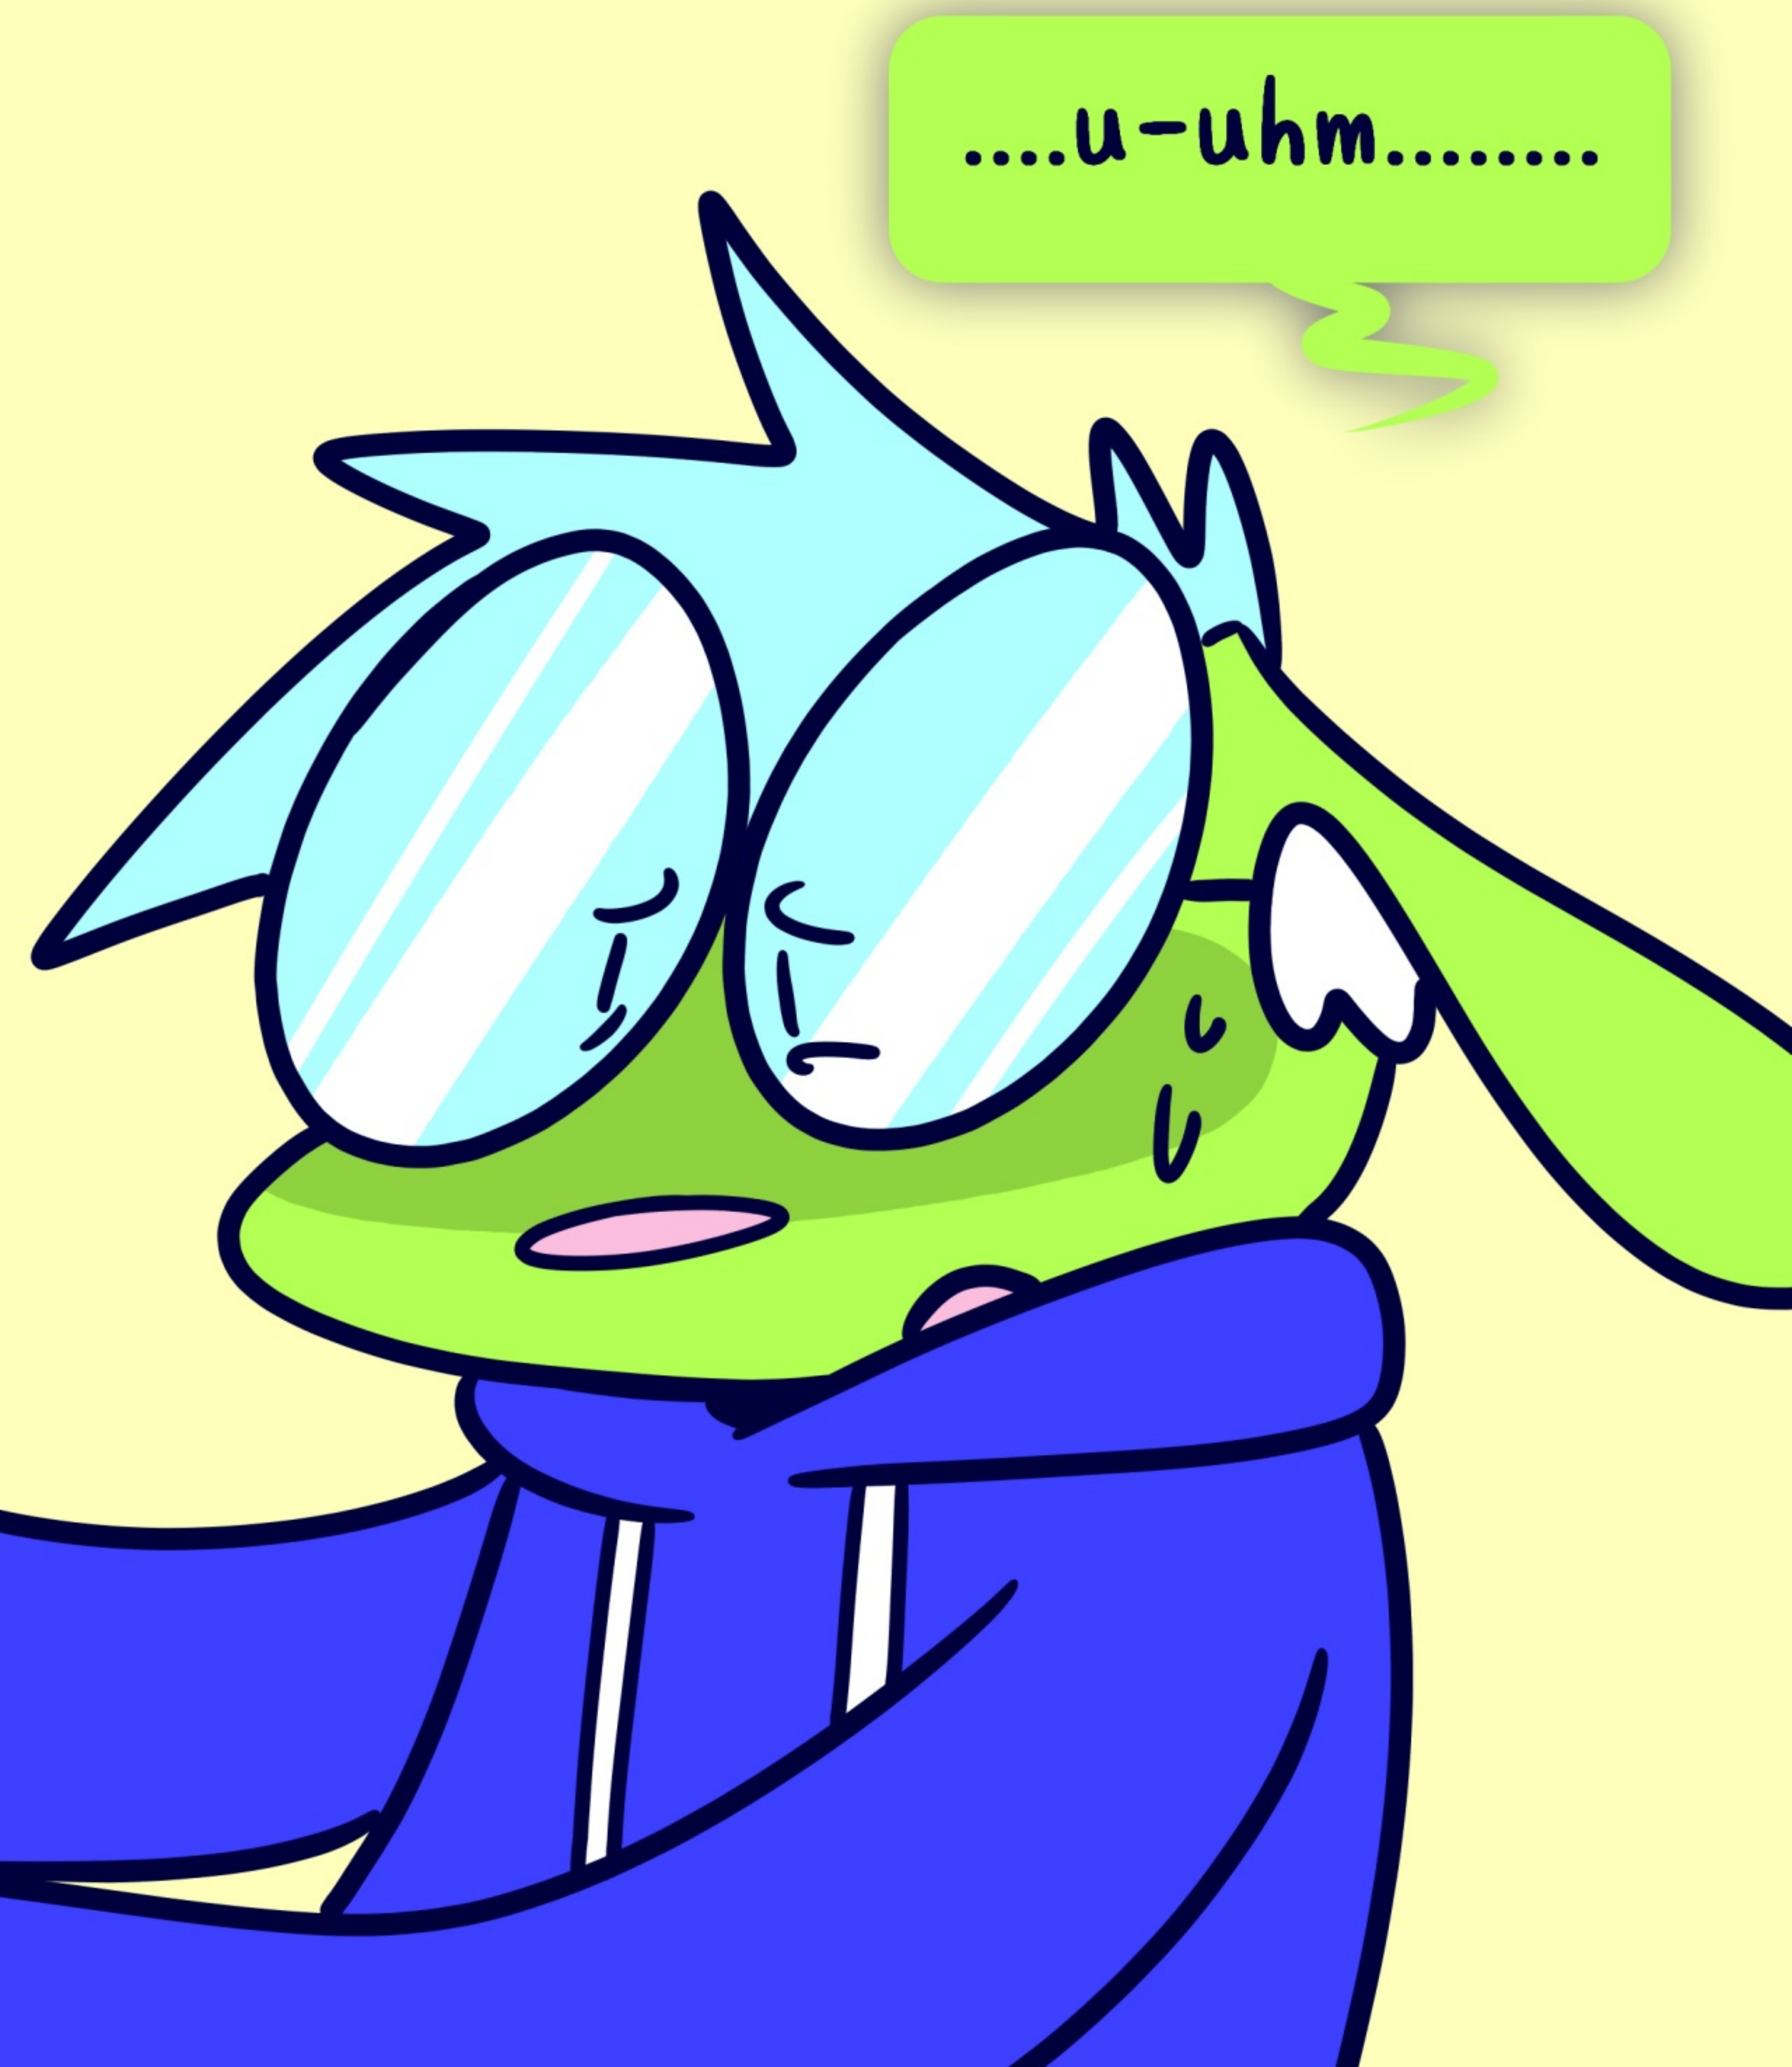
I know you love dinerries, but this is something you need to think out first before you decide.
I just... don´t want anything to happen to you. I want you to be safe and okay.



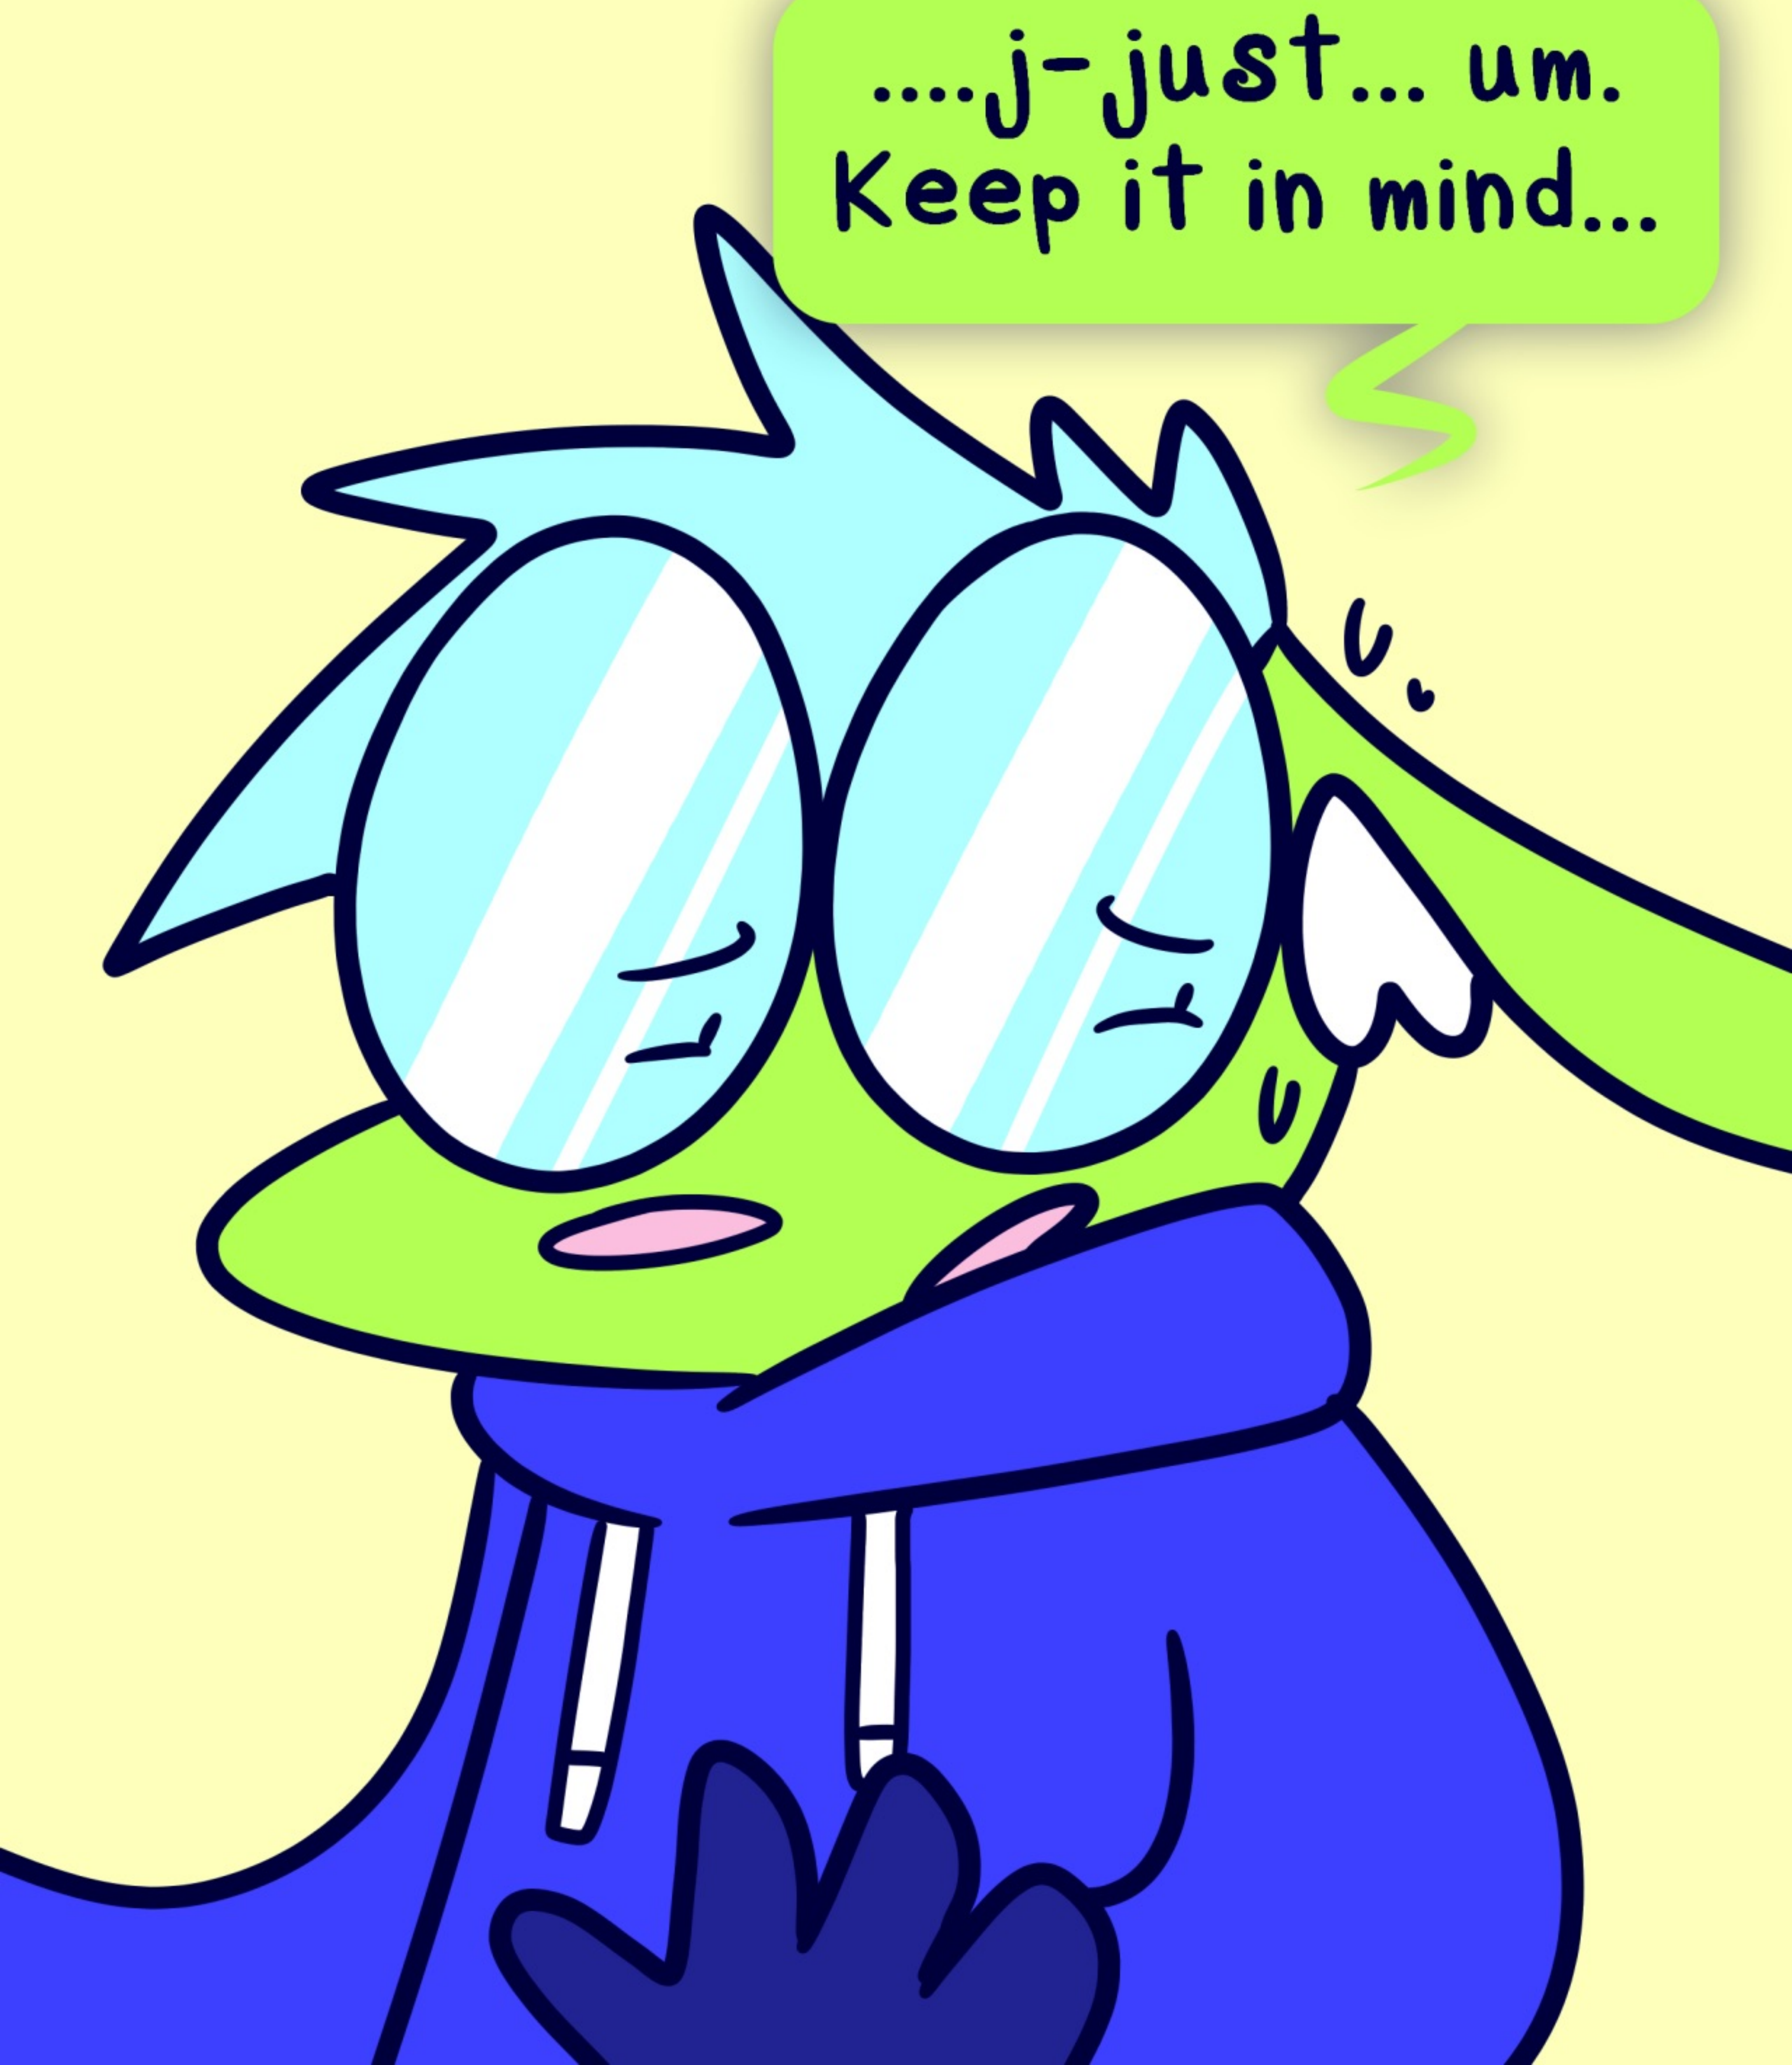


...isn´t it a little late for that?

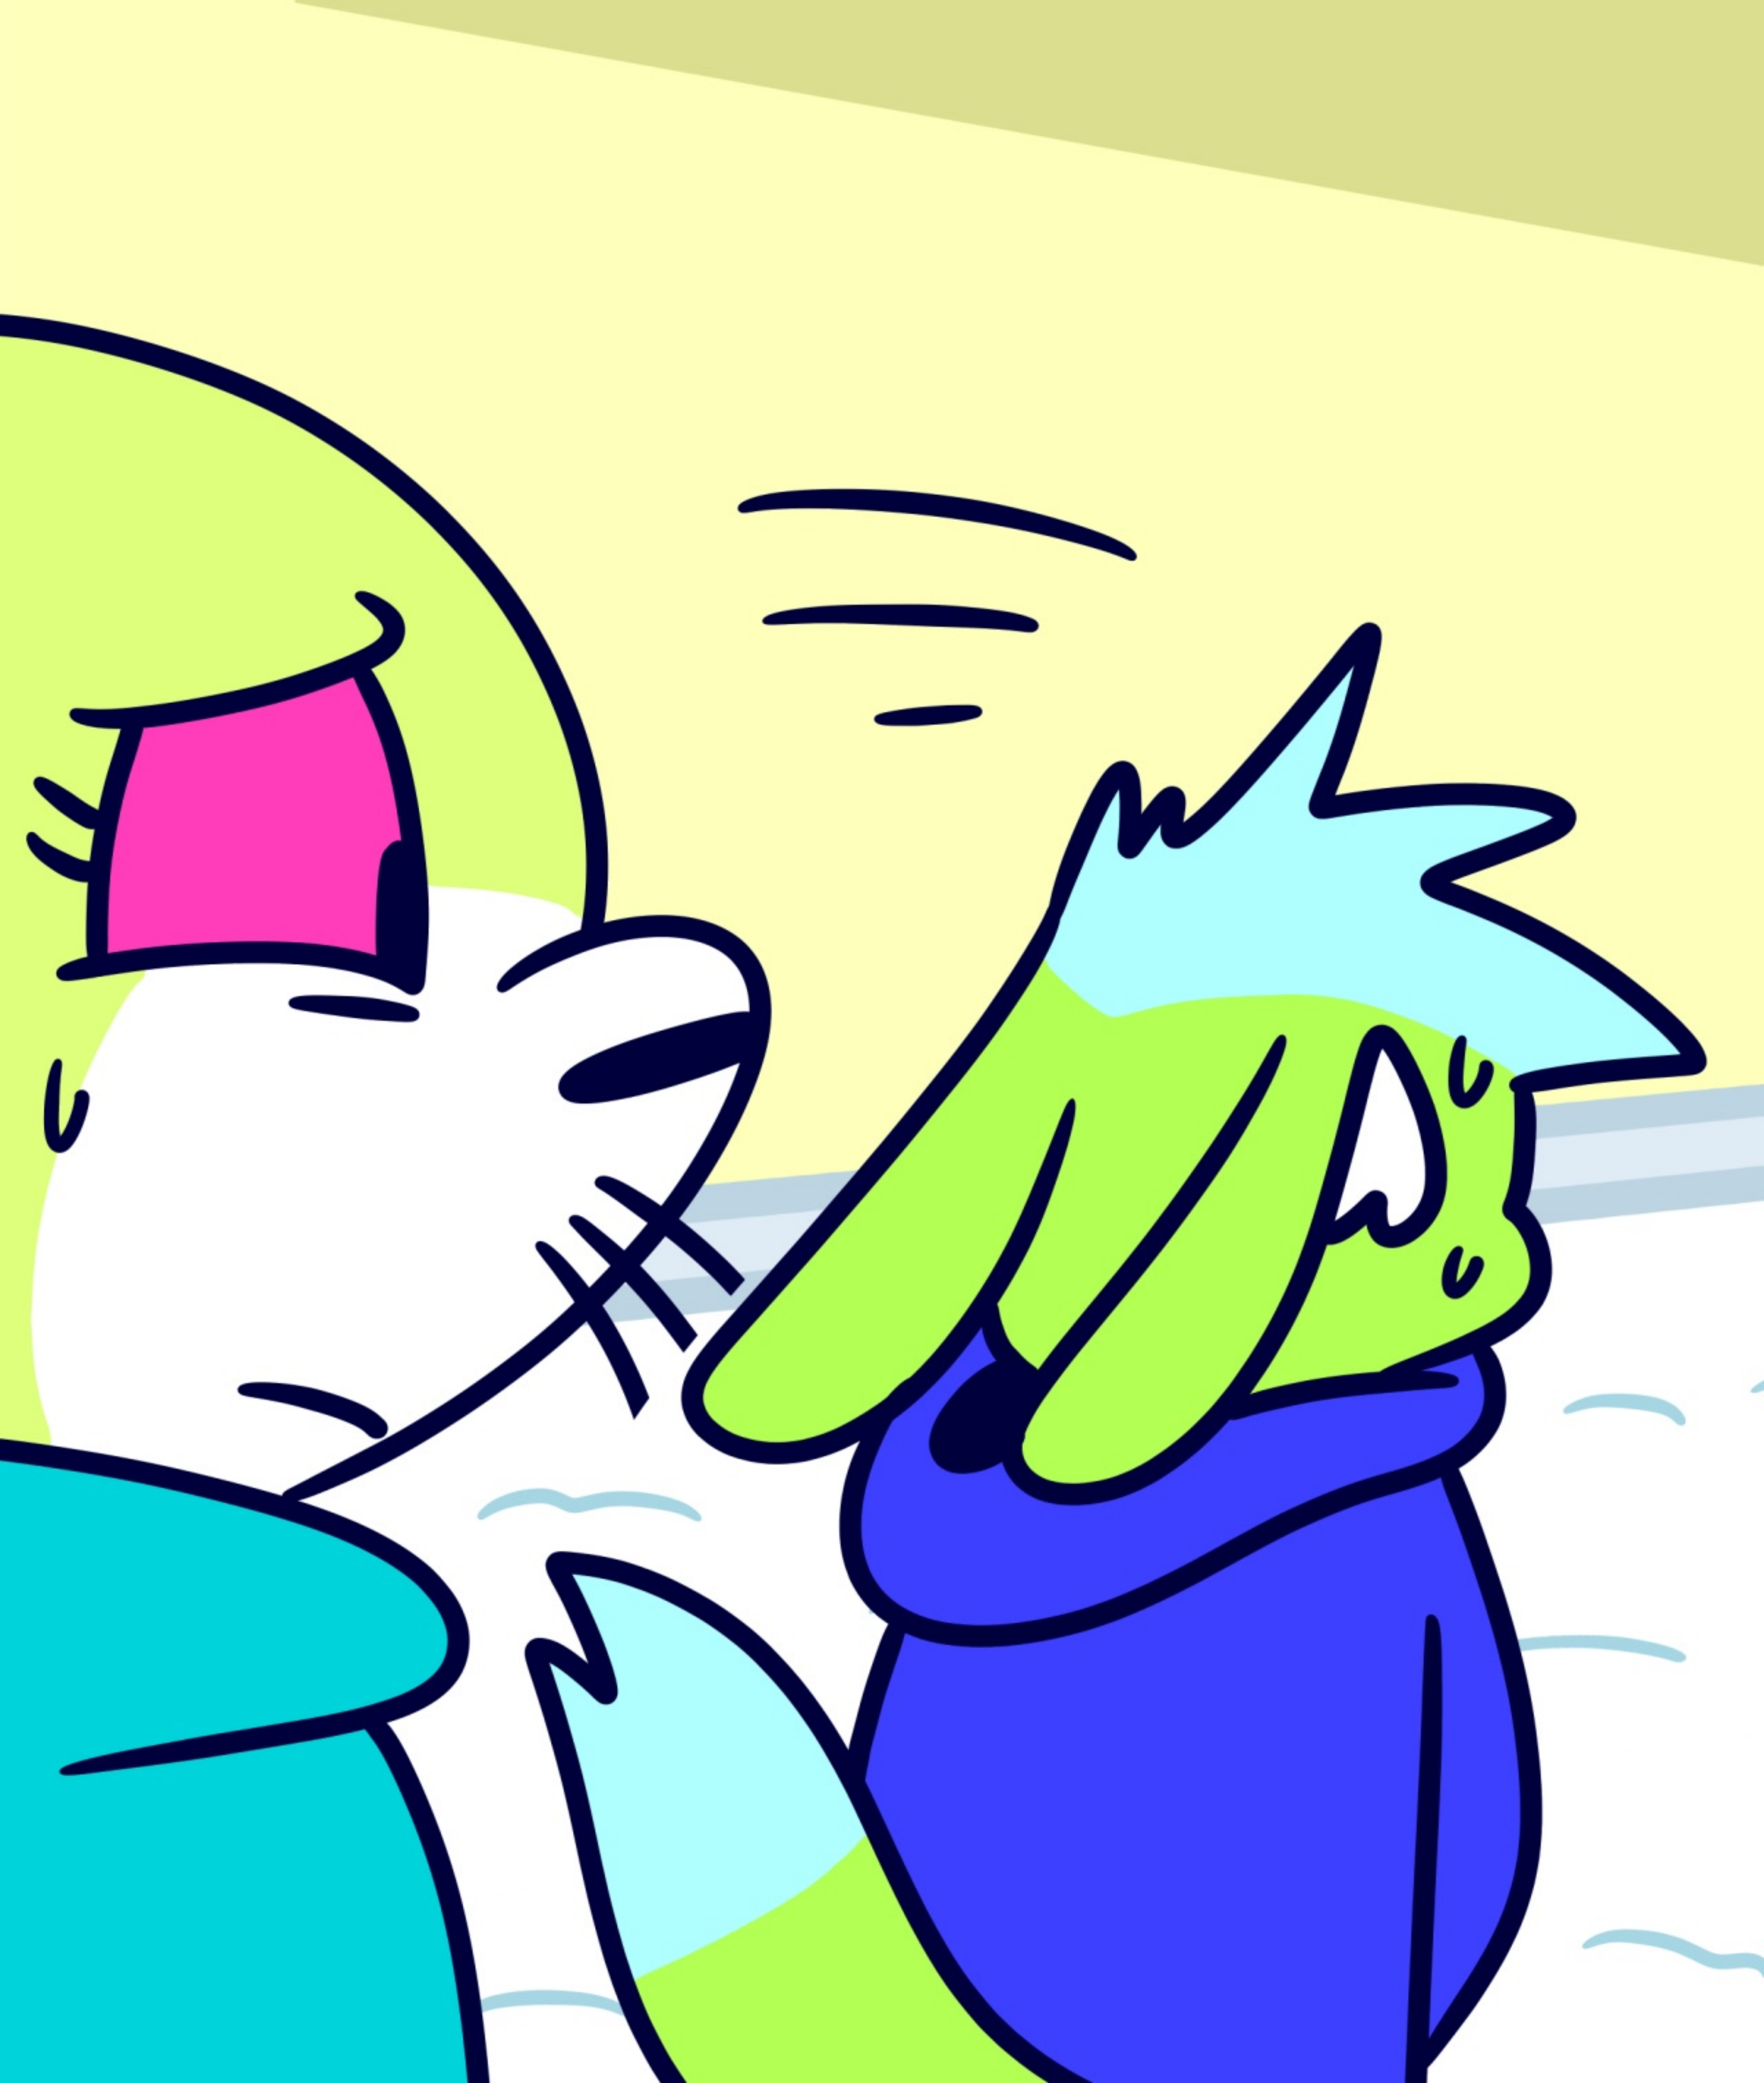


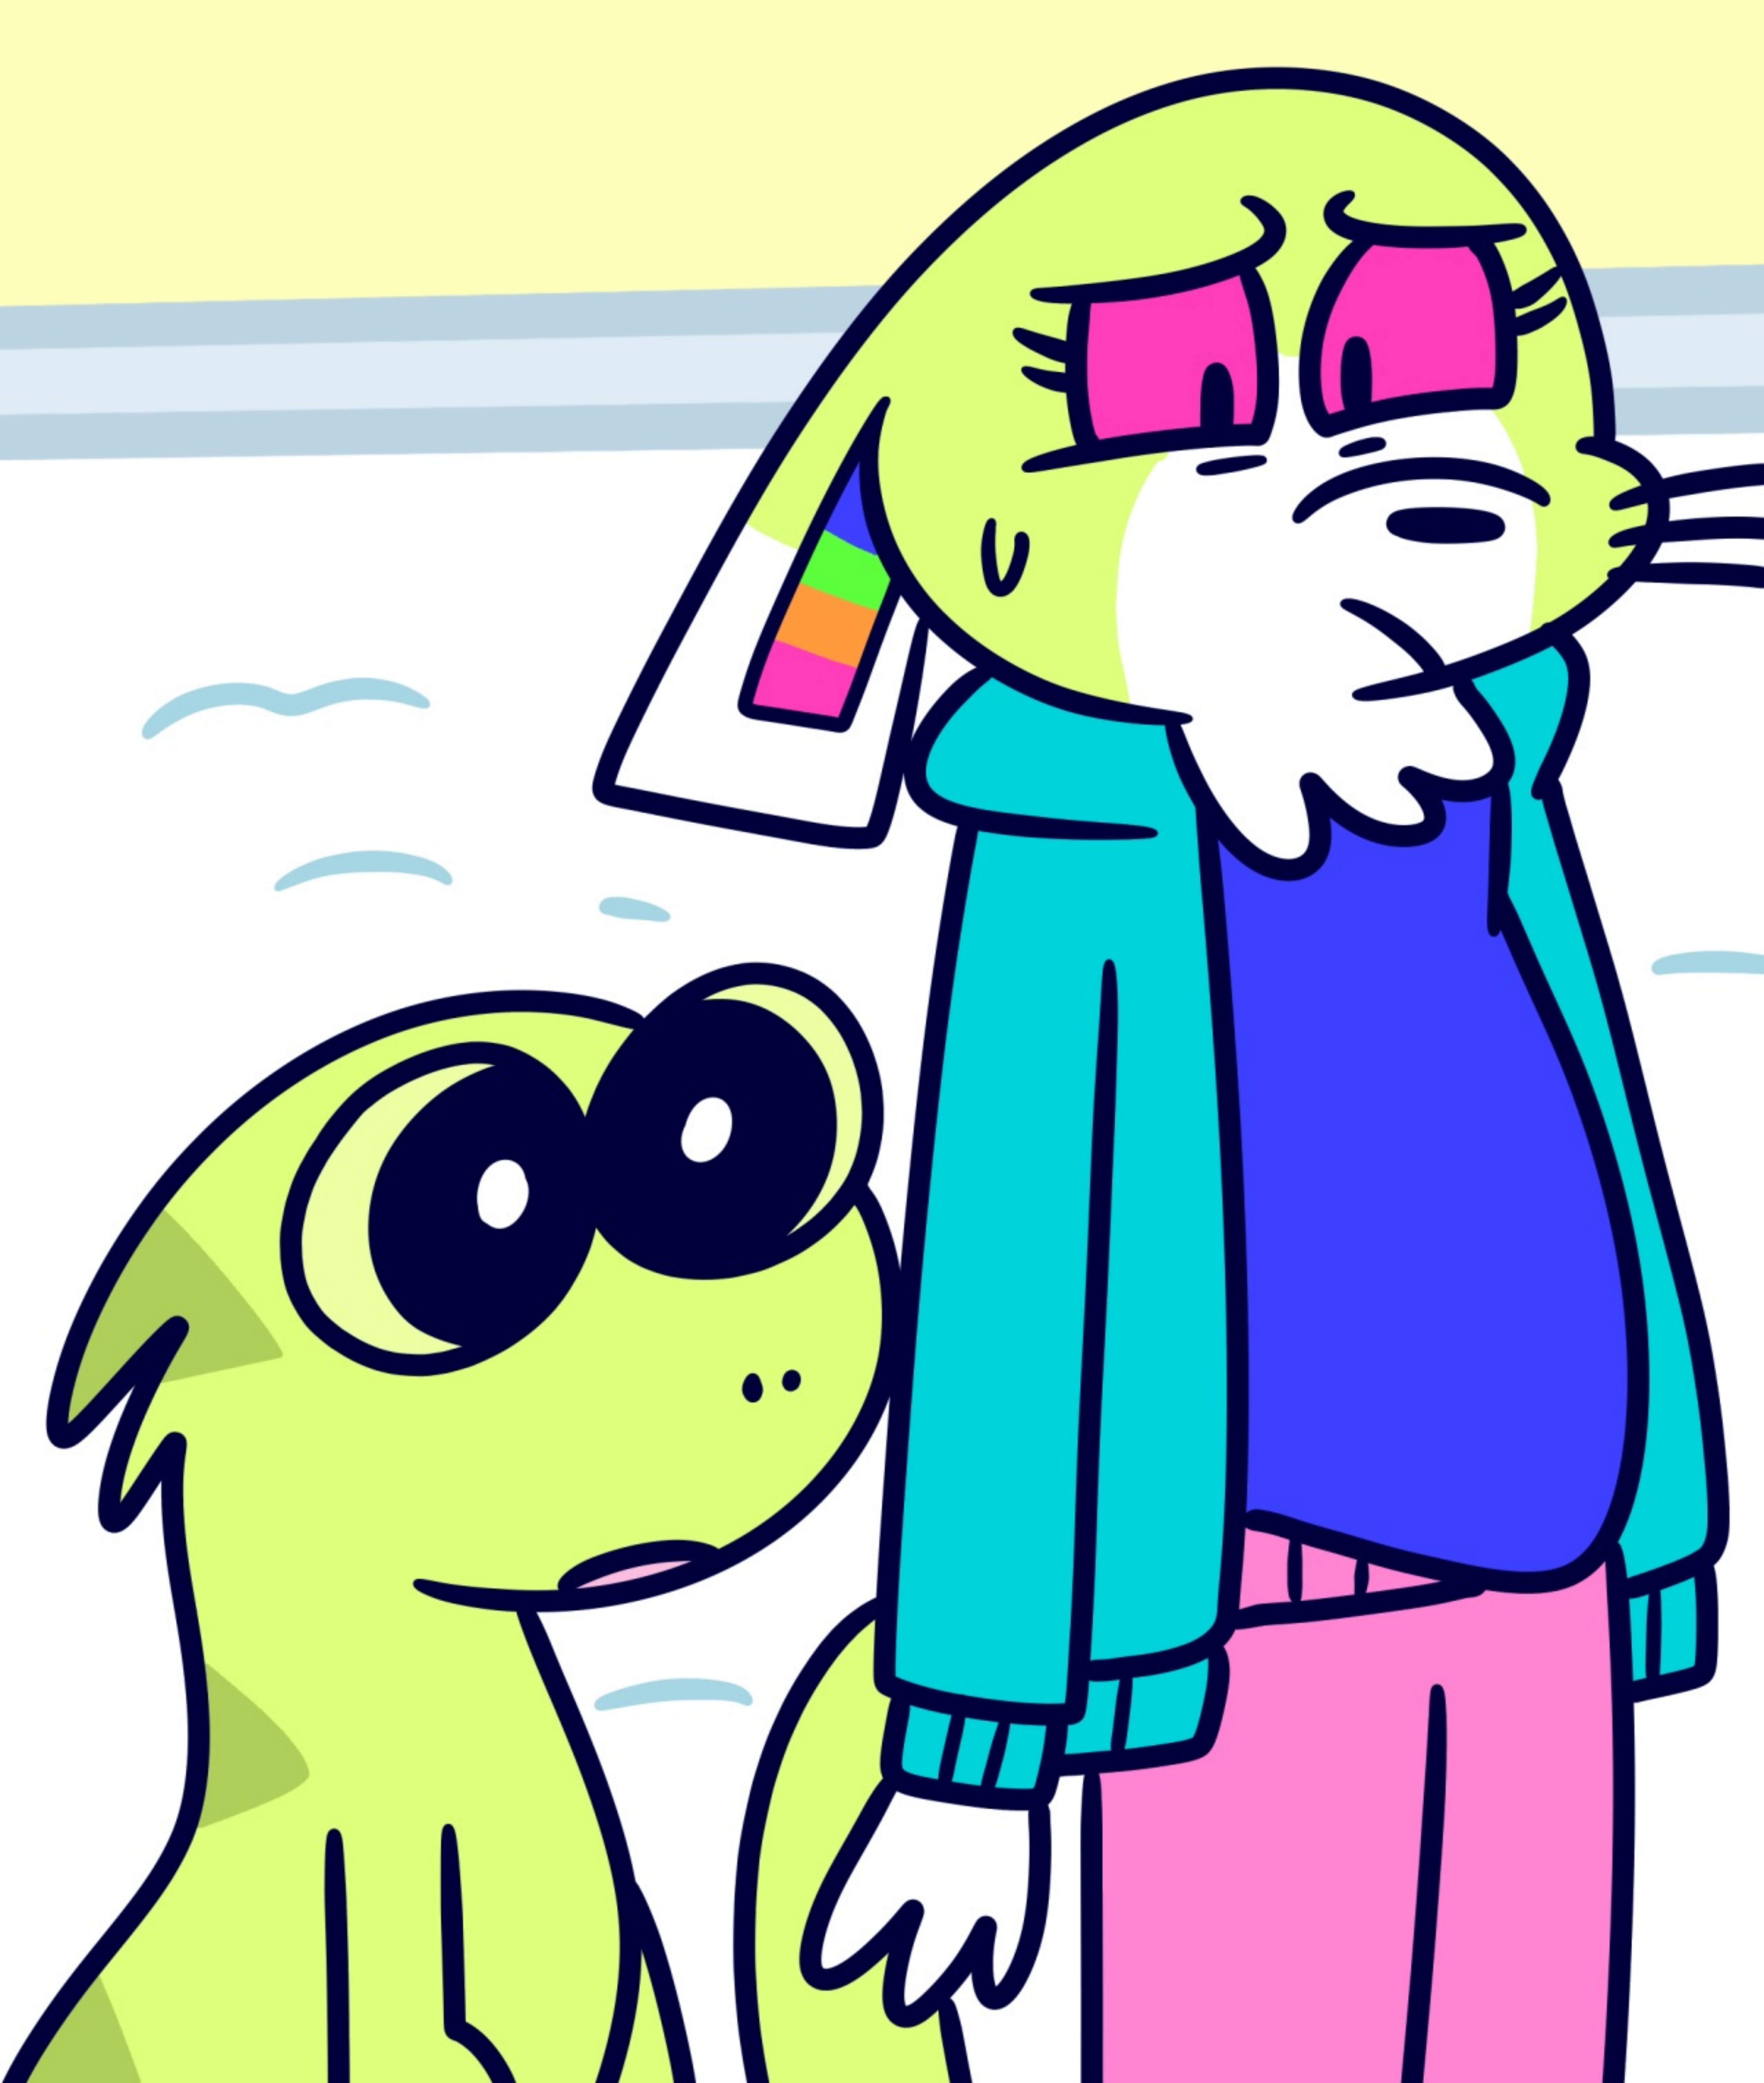


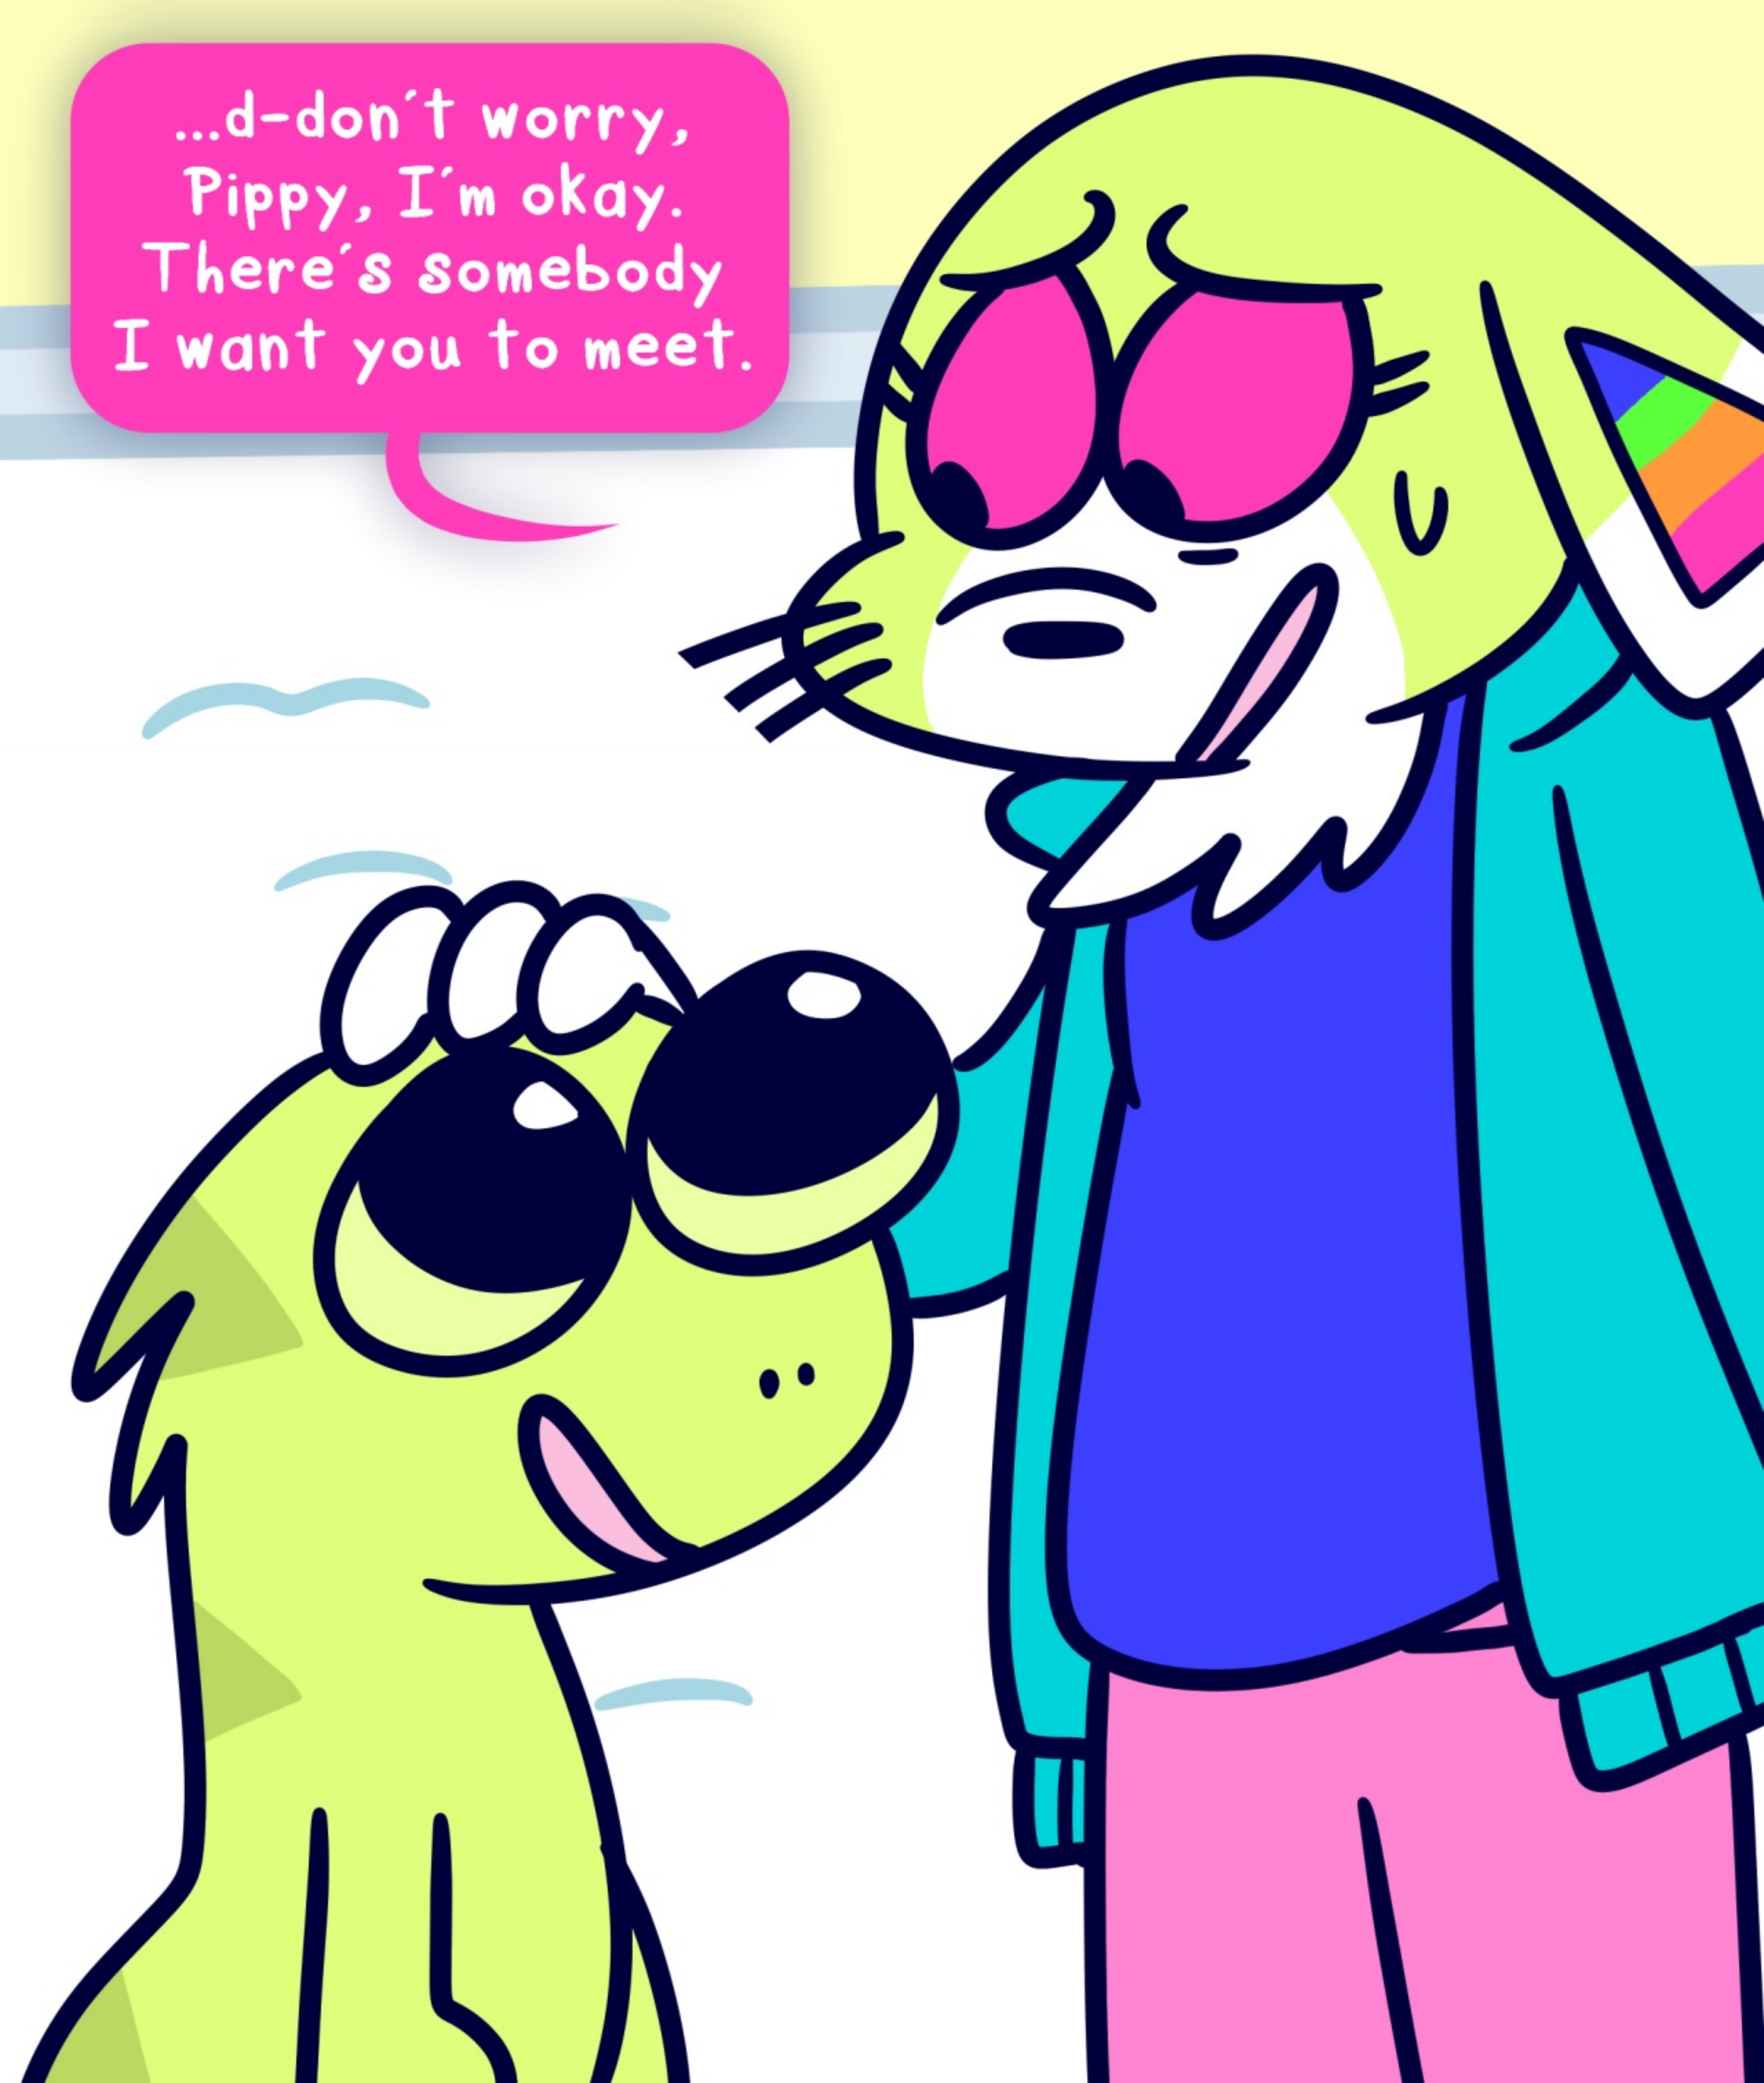
....u-uhm........



....j-just... um.
Keep it in mind...

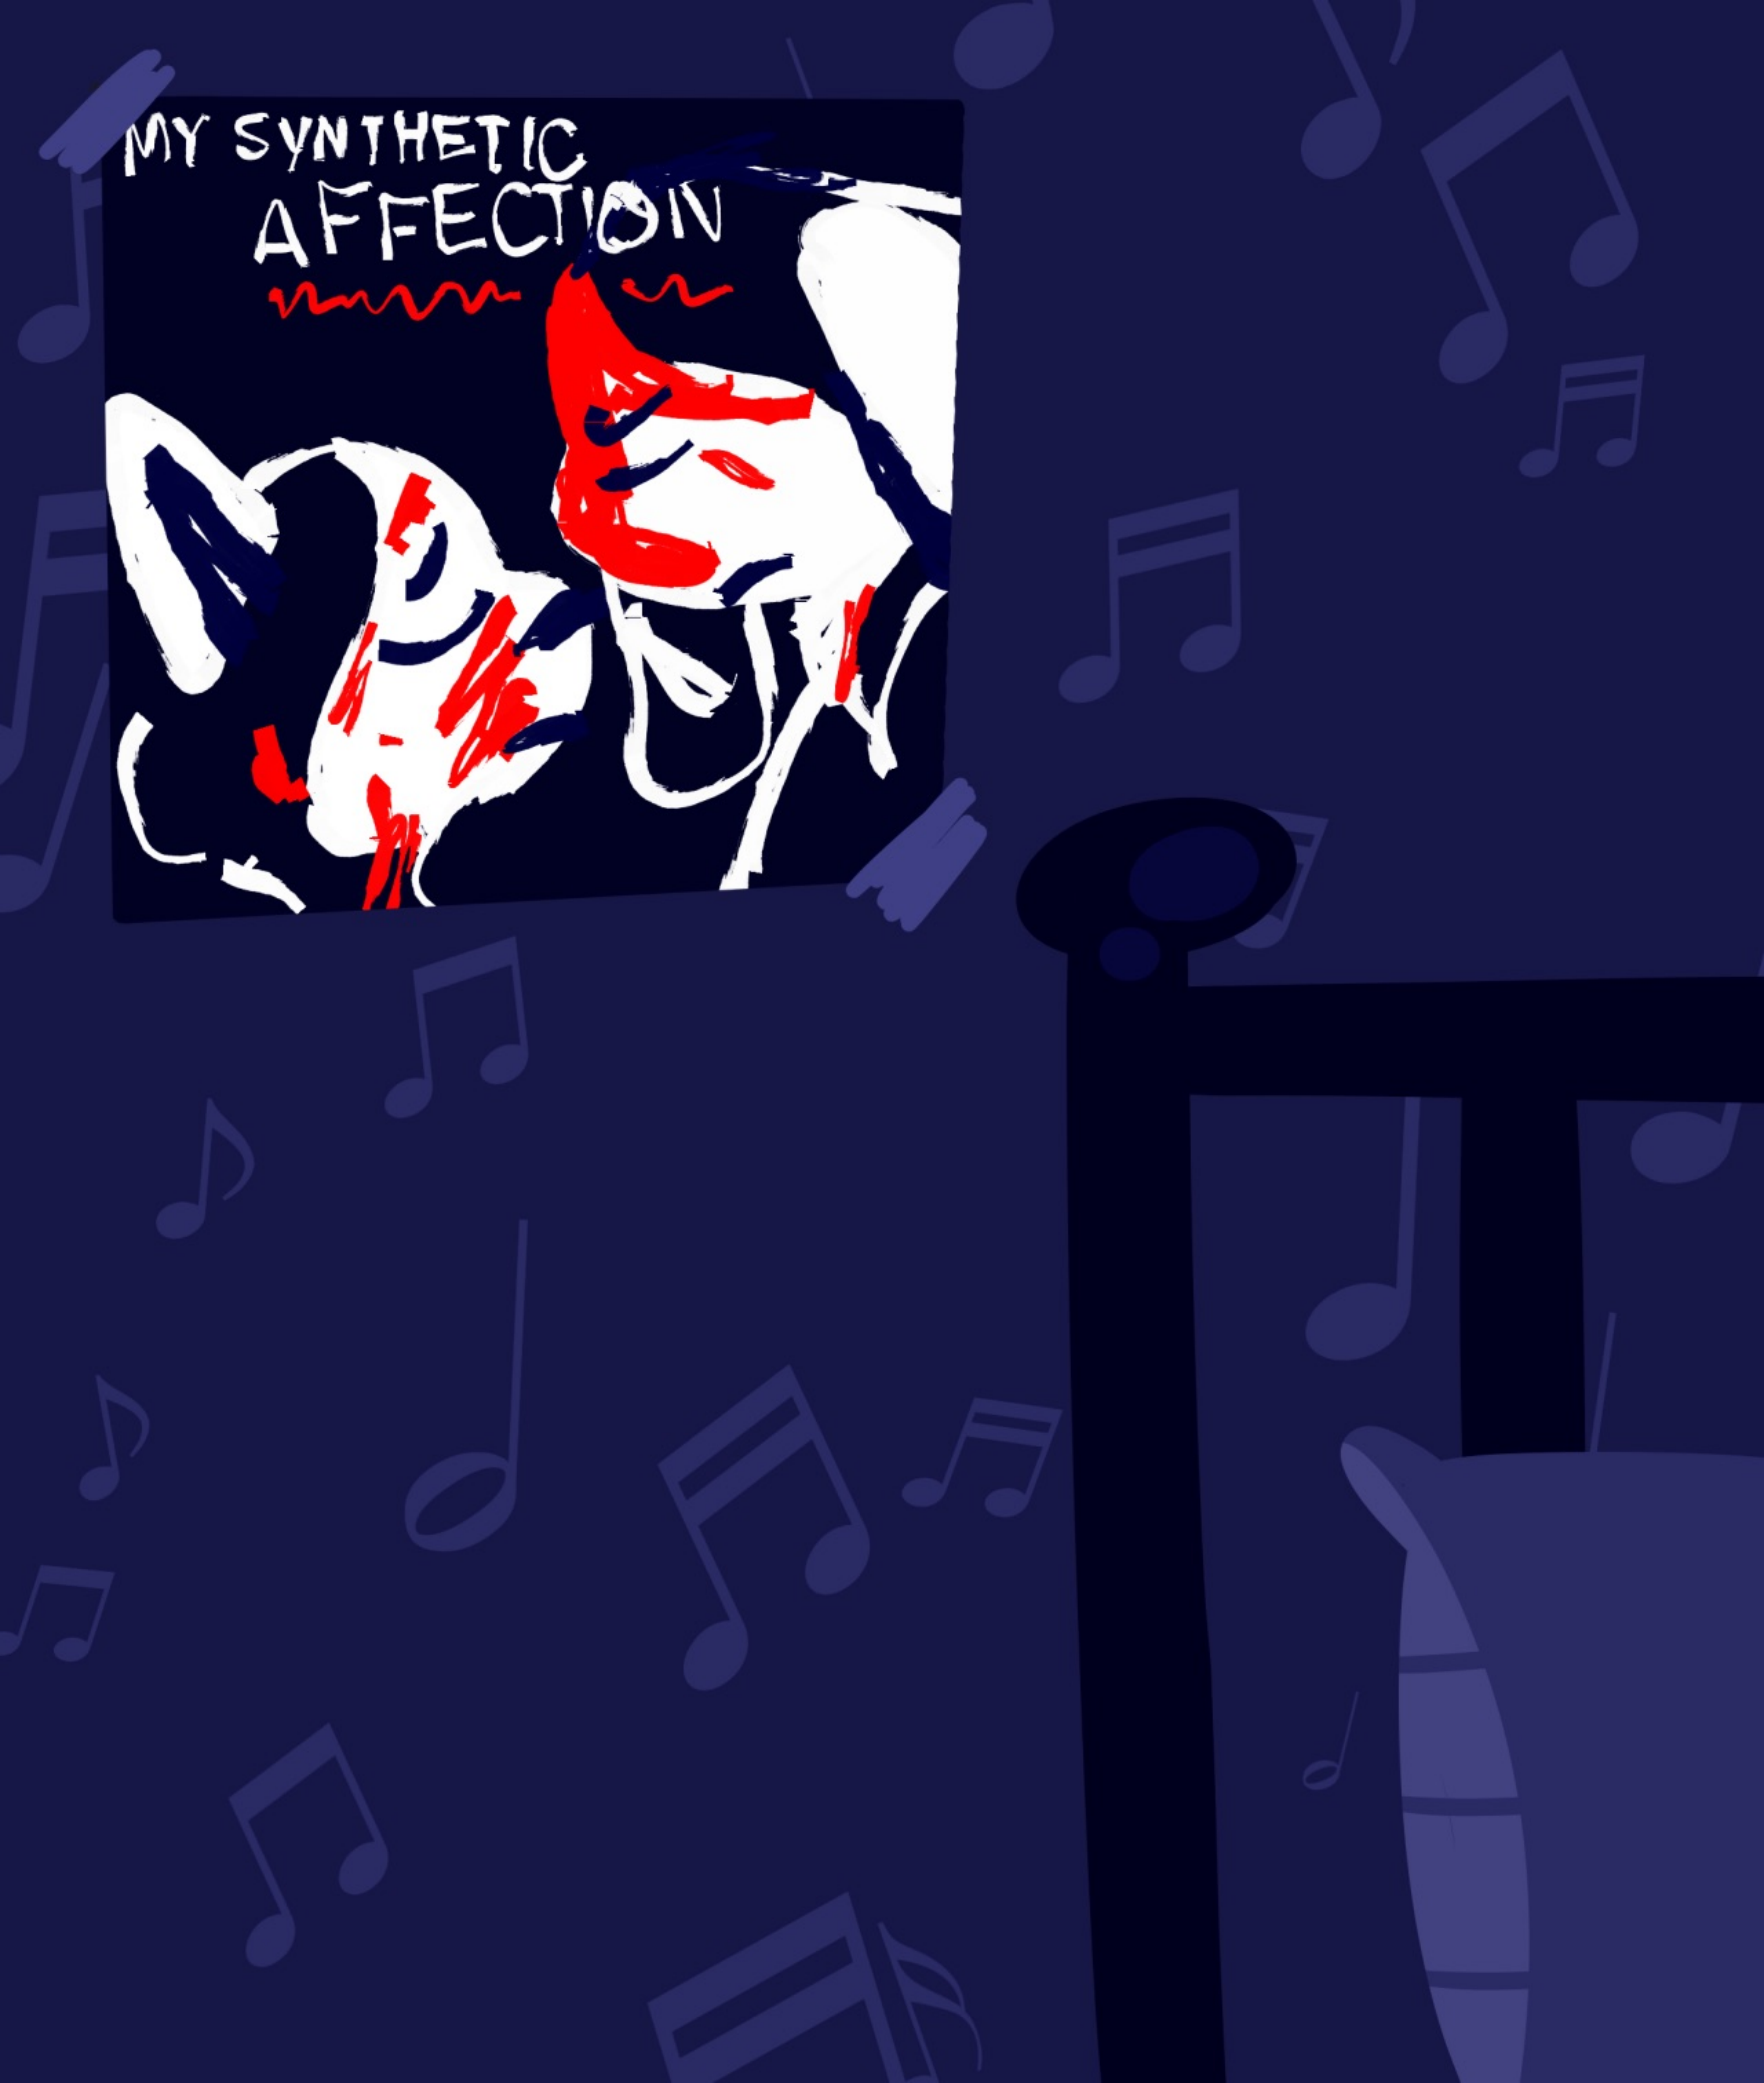






...d-don't worry, Pippy, I'm okay. There's somebody I want you to meet.

NORMA



MY SYNTHETIC

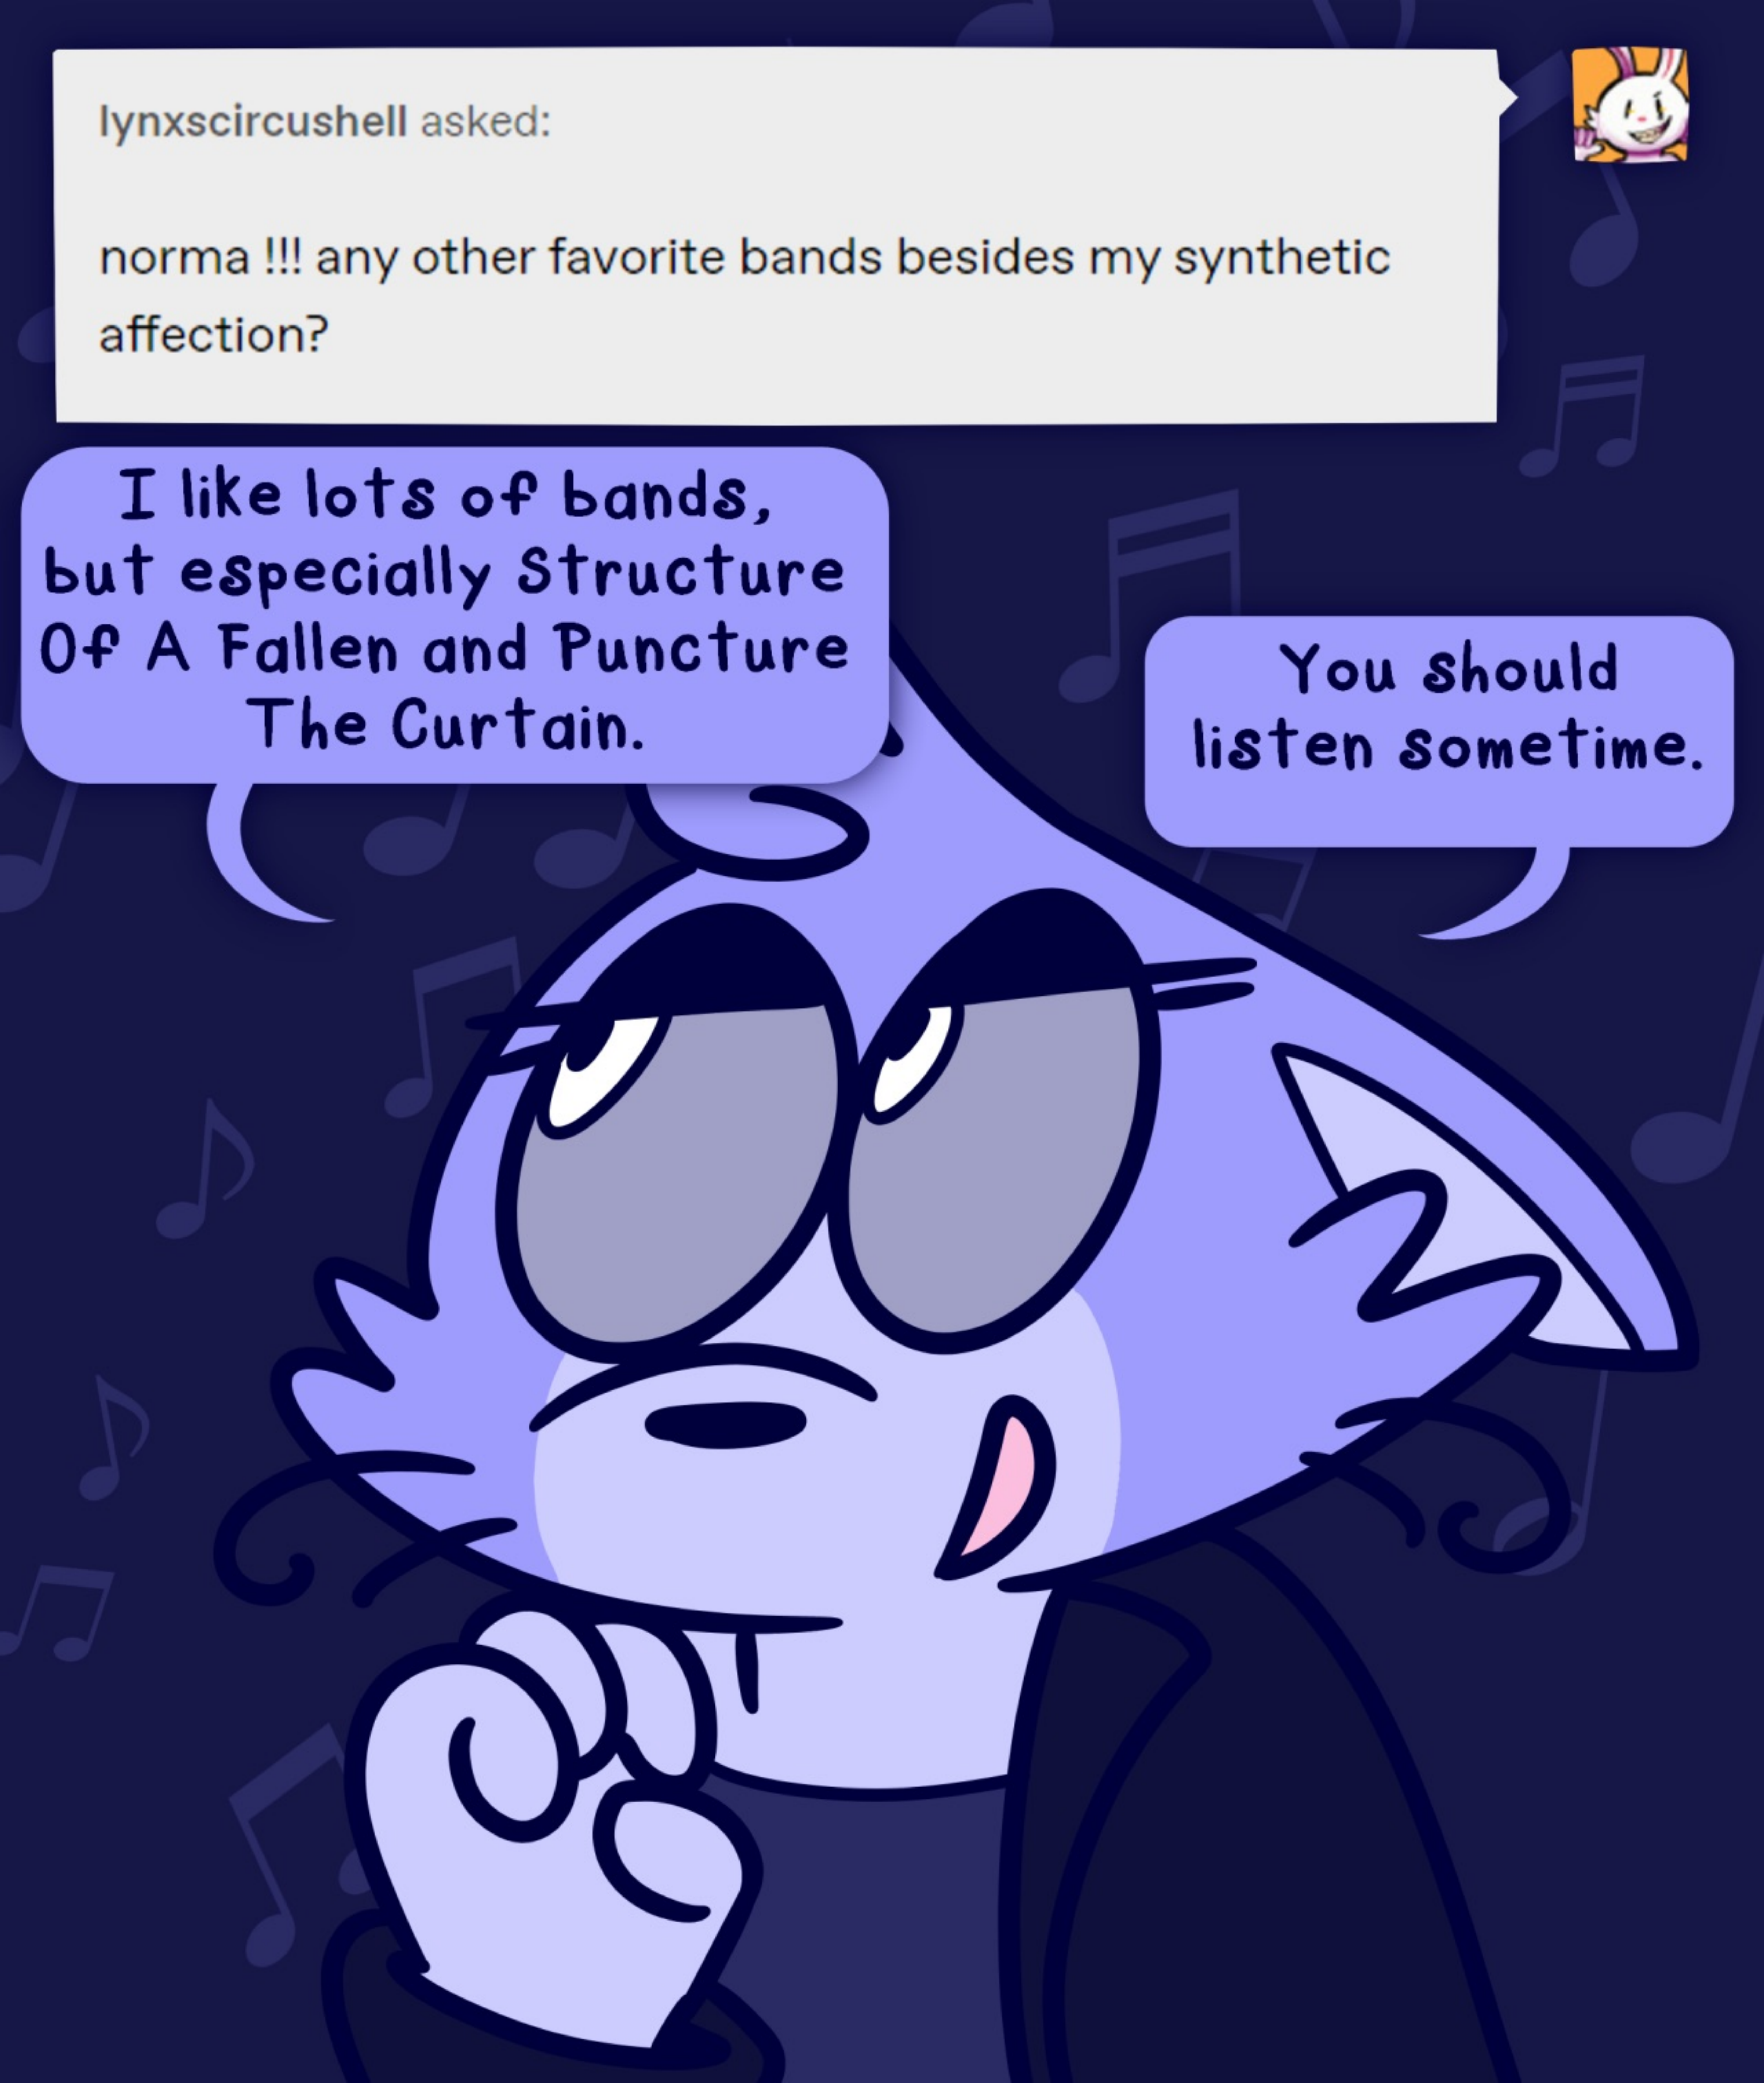
ladyinsertnamehere asked:

NORMYYYY I love ur wallpaper and posters btw

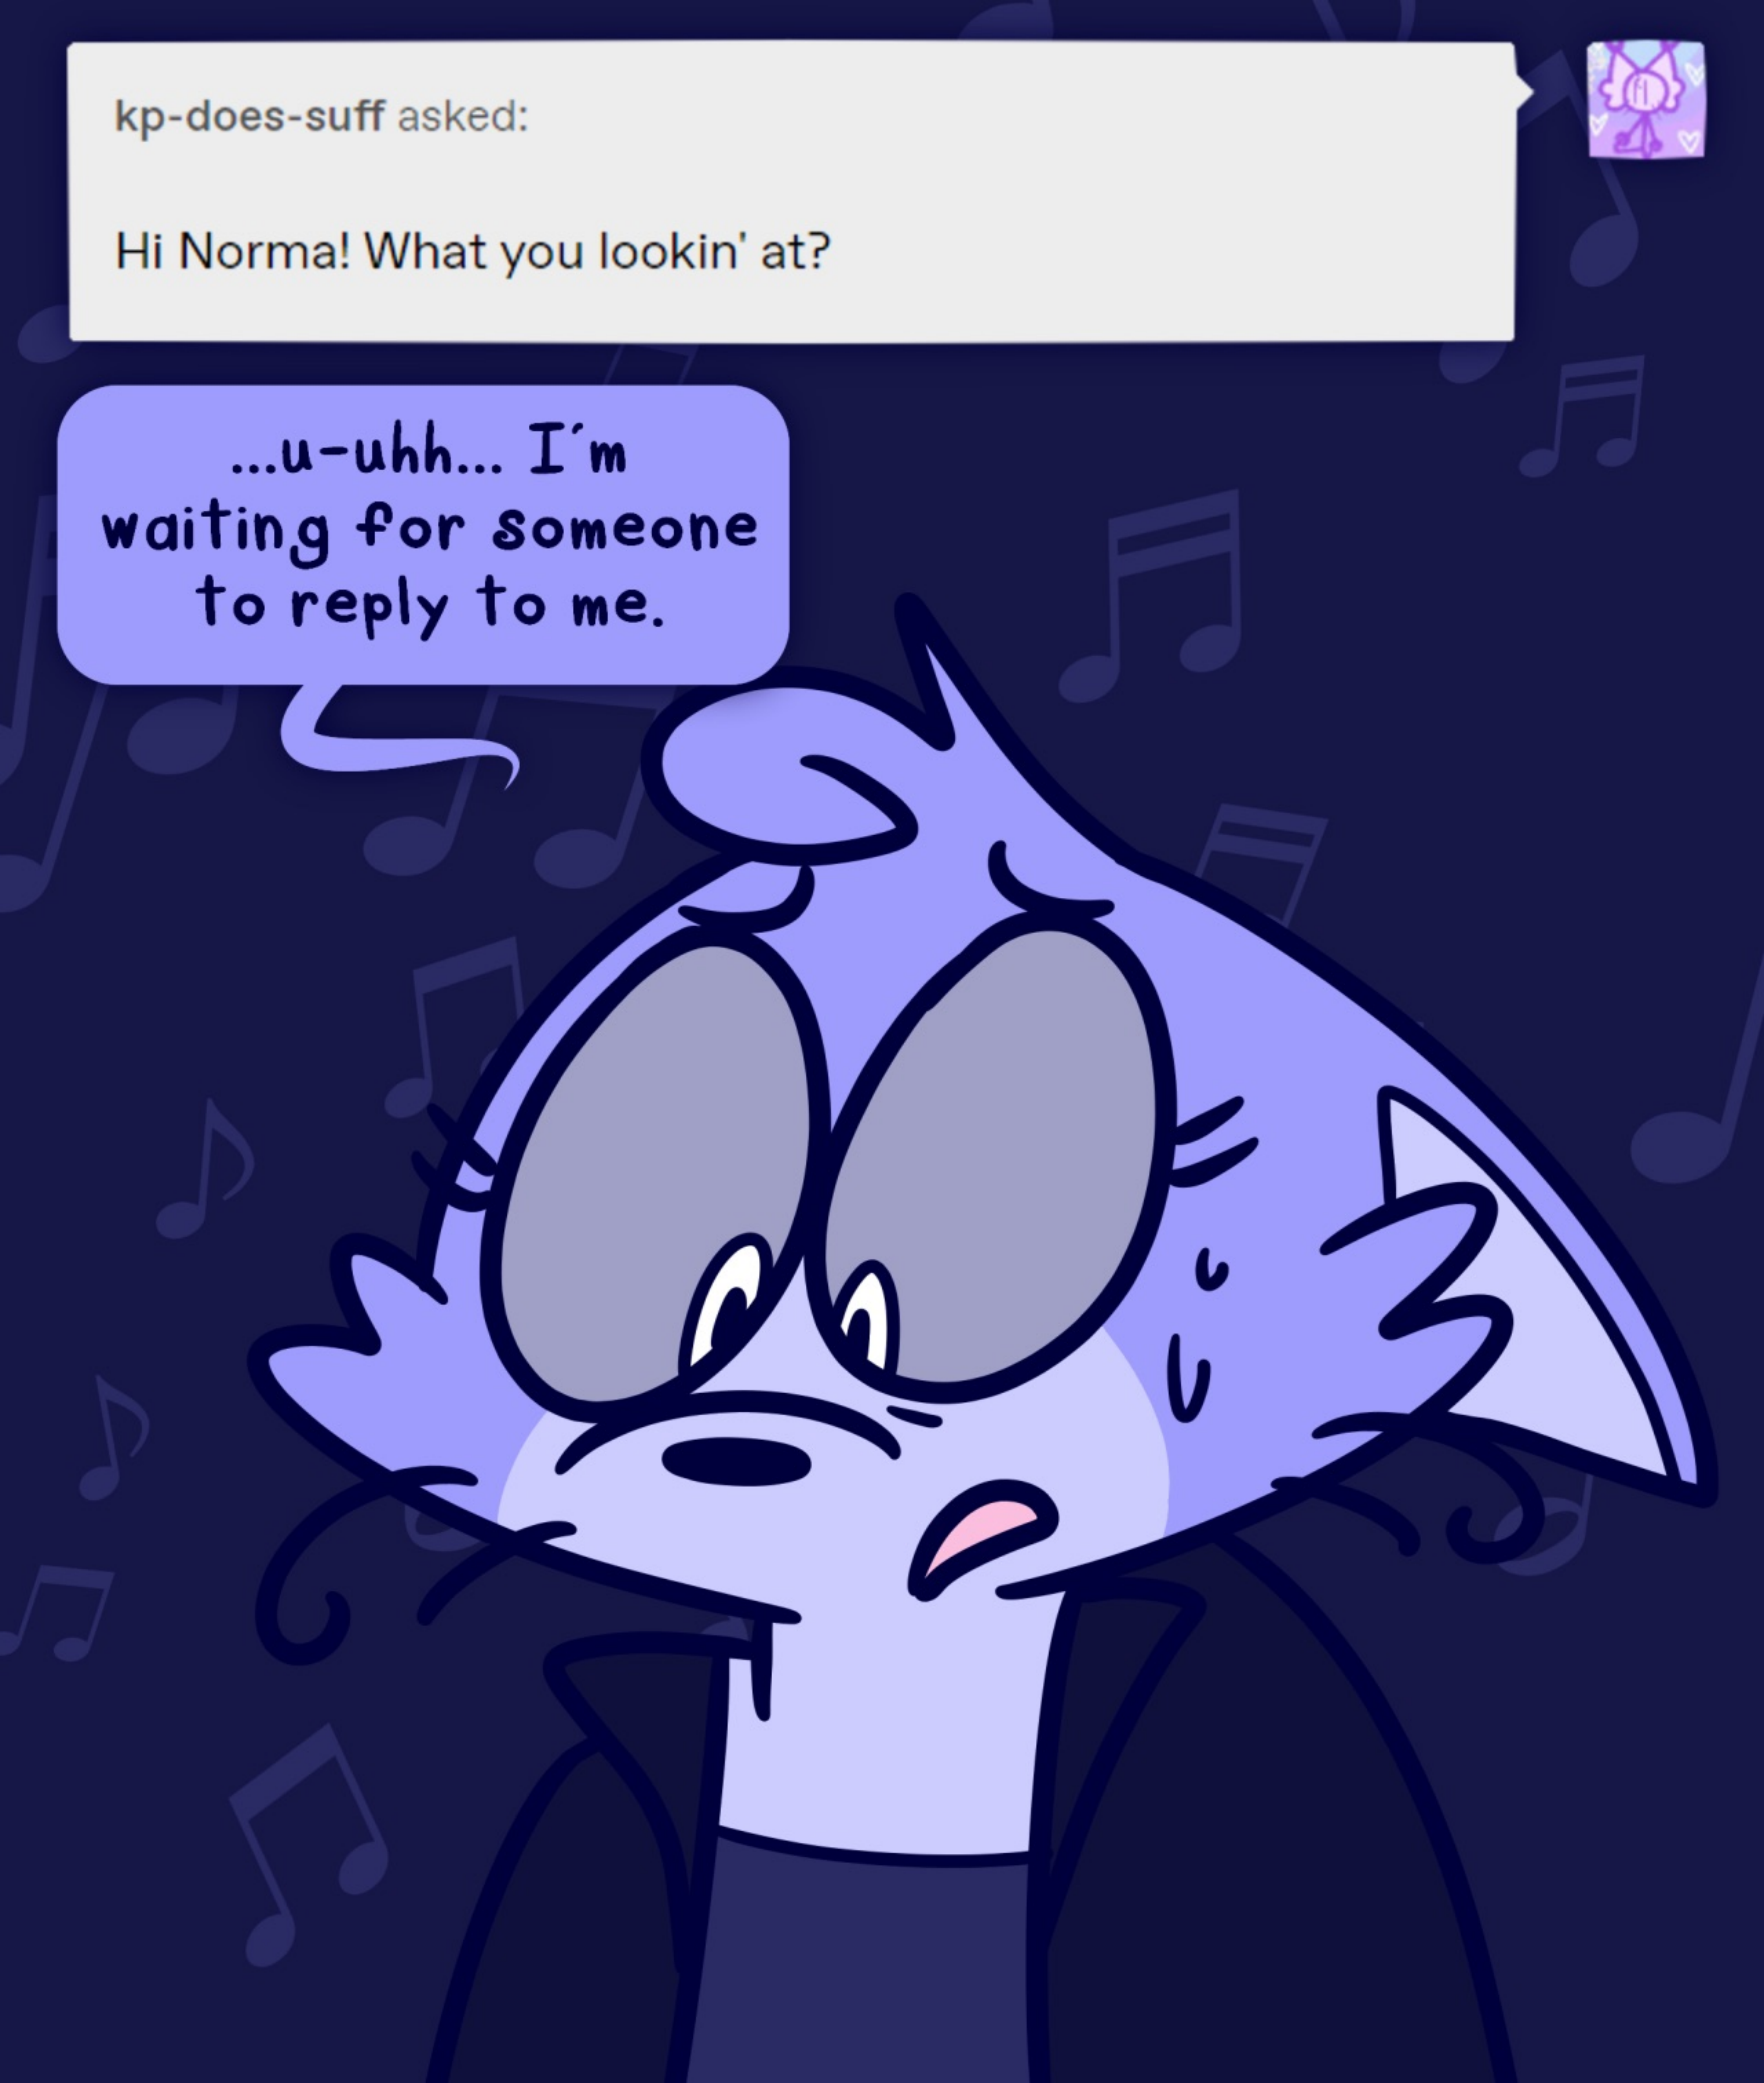
Oh, hey. Thanks.



lynxscircushell asked:

norma !!! any other favorite bands besides my synthetic affection?

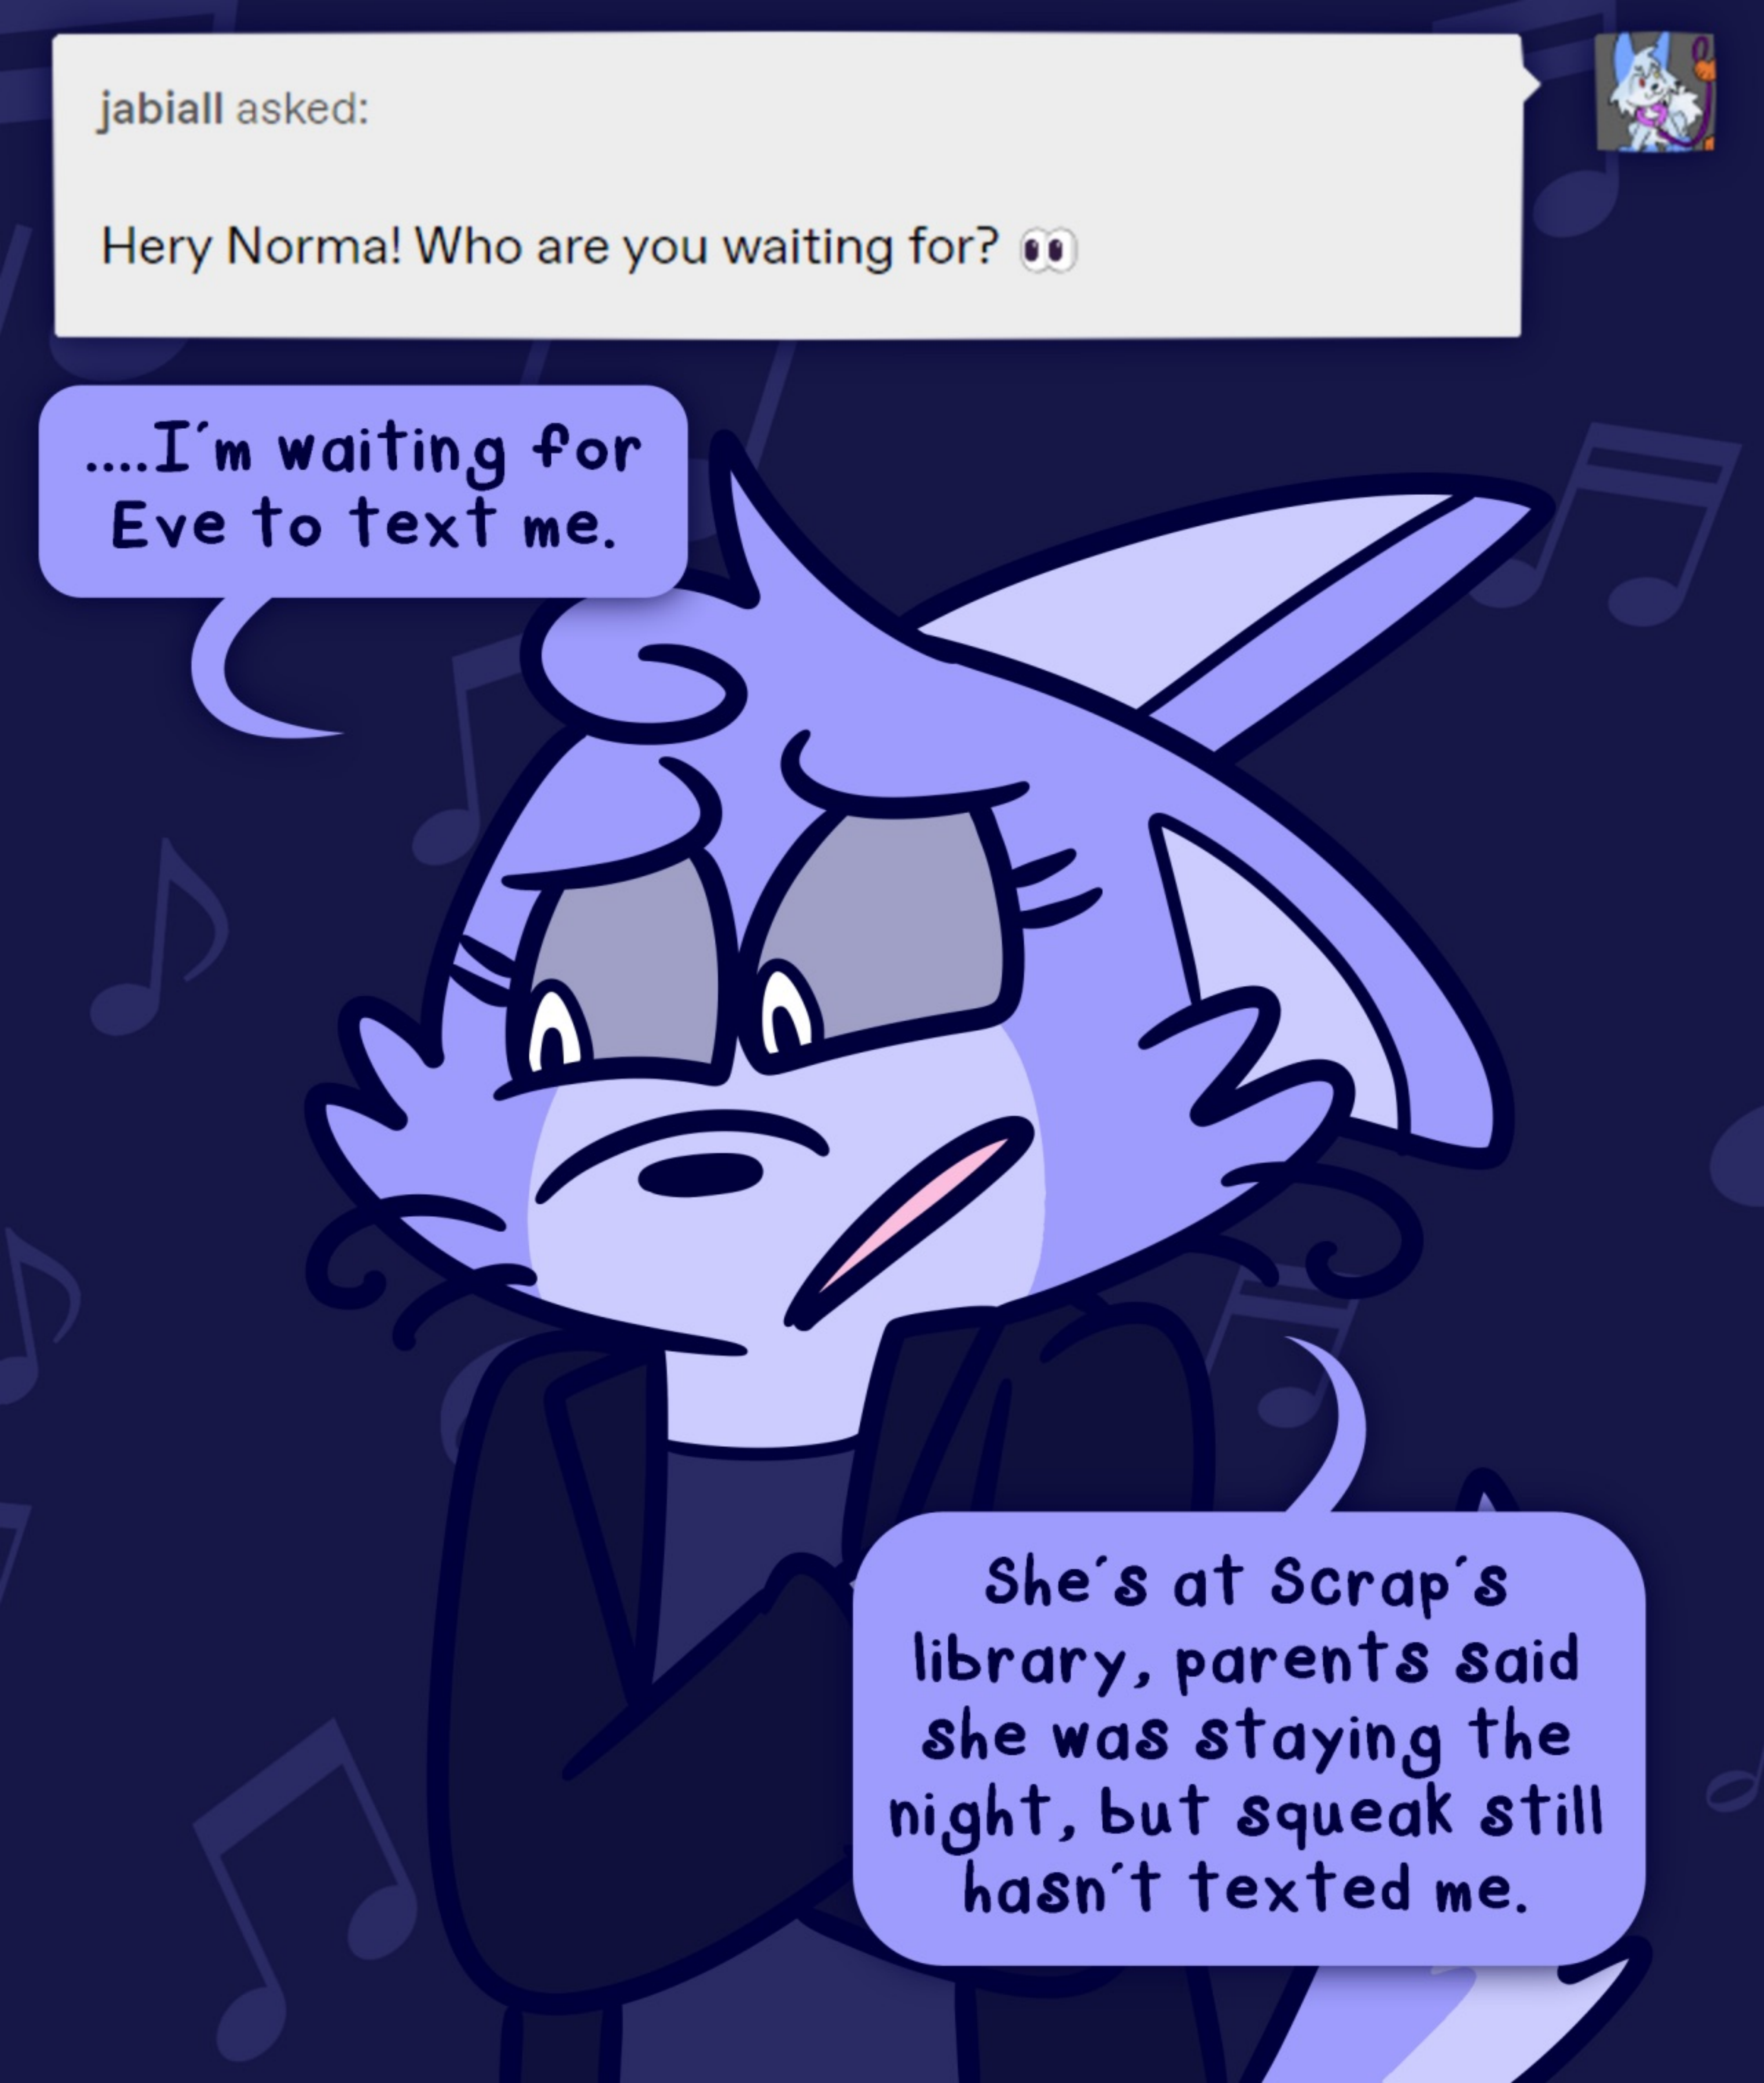
I like lots of bands, but especially Structure Of A Fallen and Puncture The Curtain.
You should listen sometime.



kp-does-suff asked:

Hi Norma! What you lookin' at?

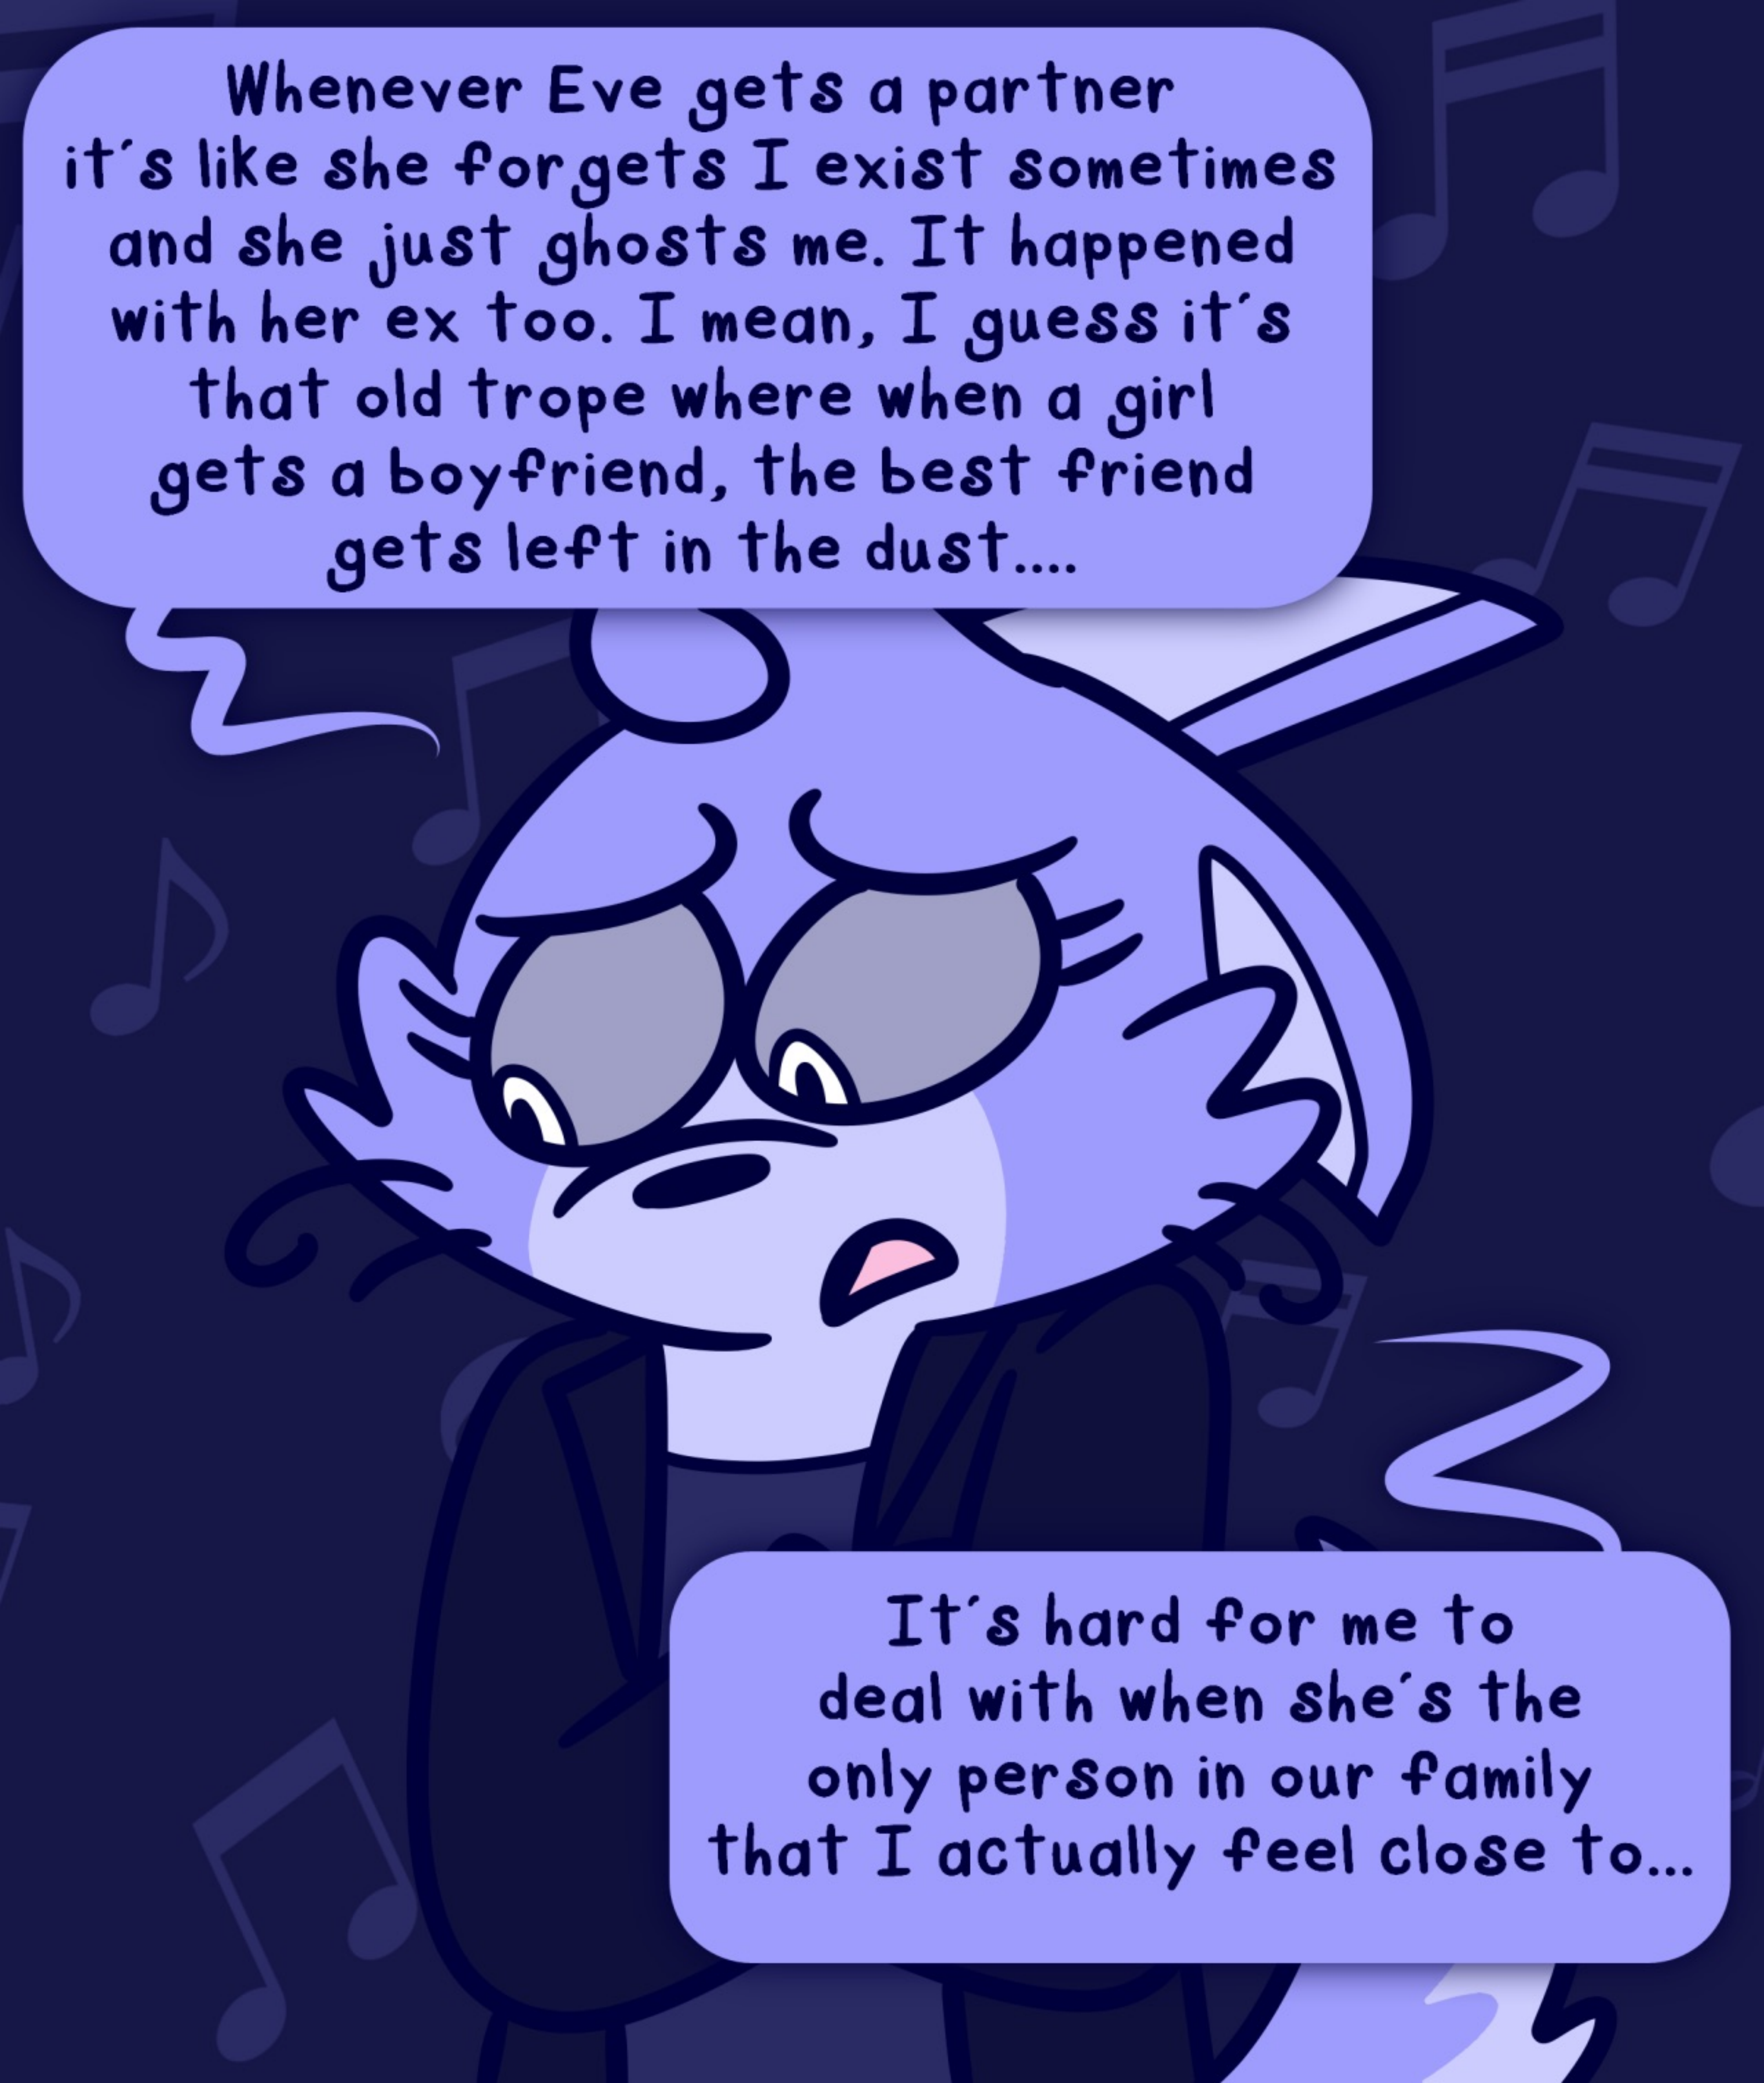
...u-uhh... I´m waiting for someone to reply to me.



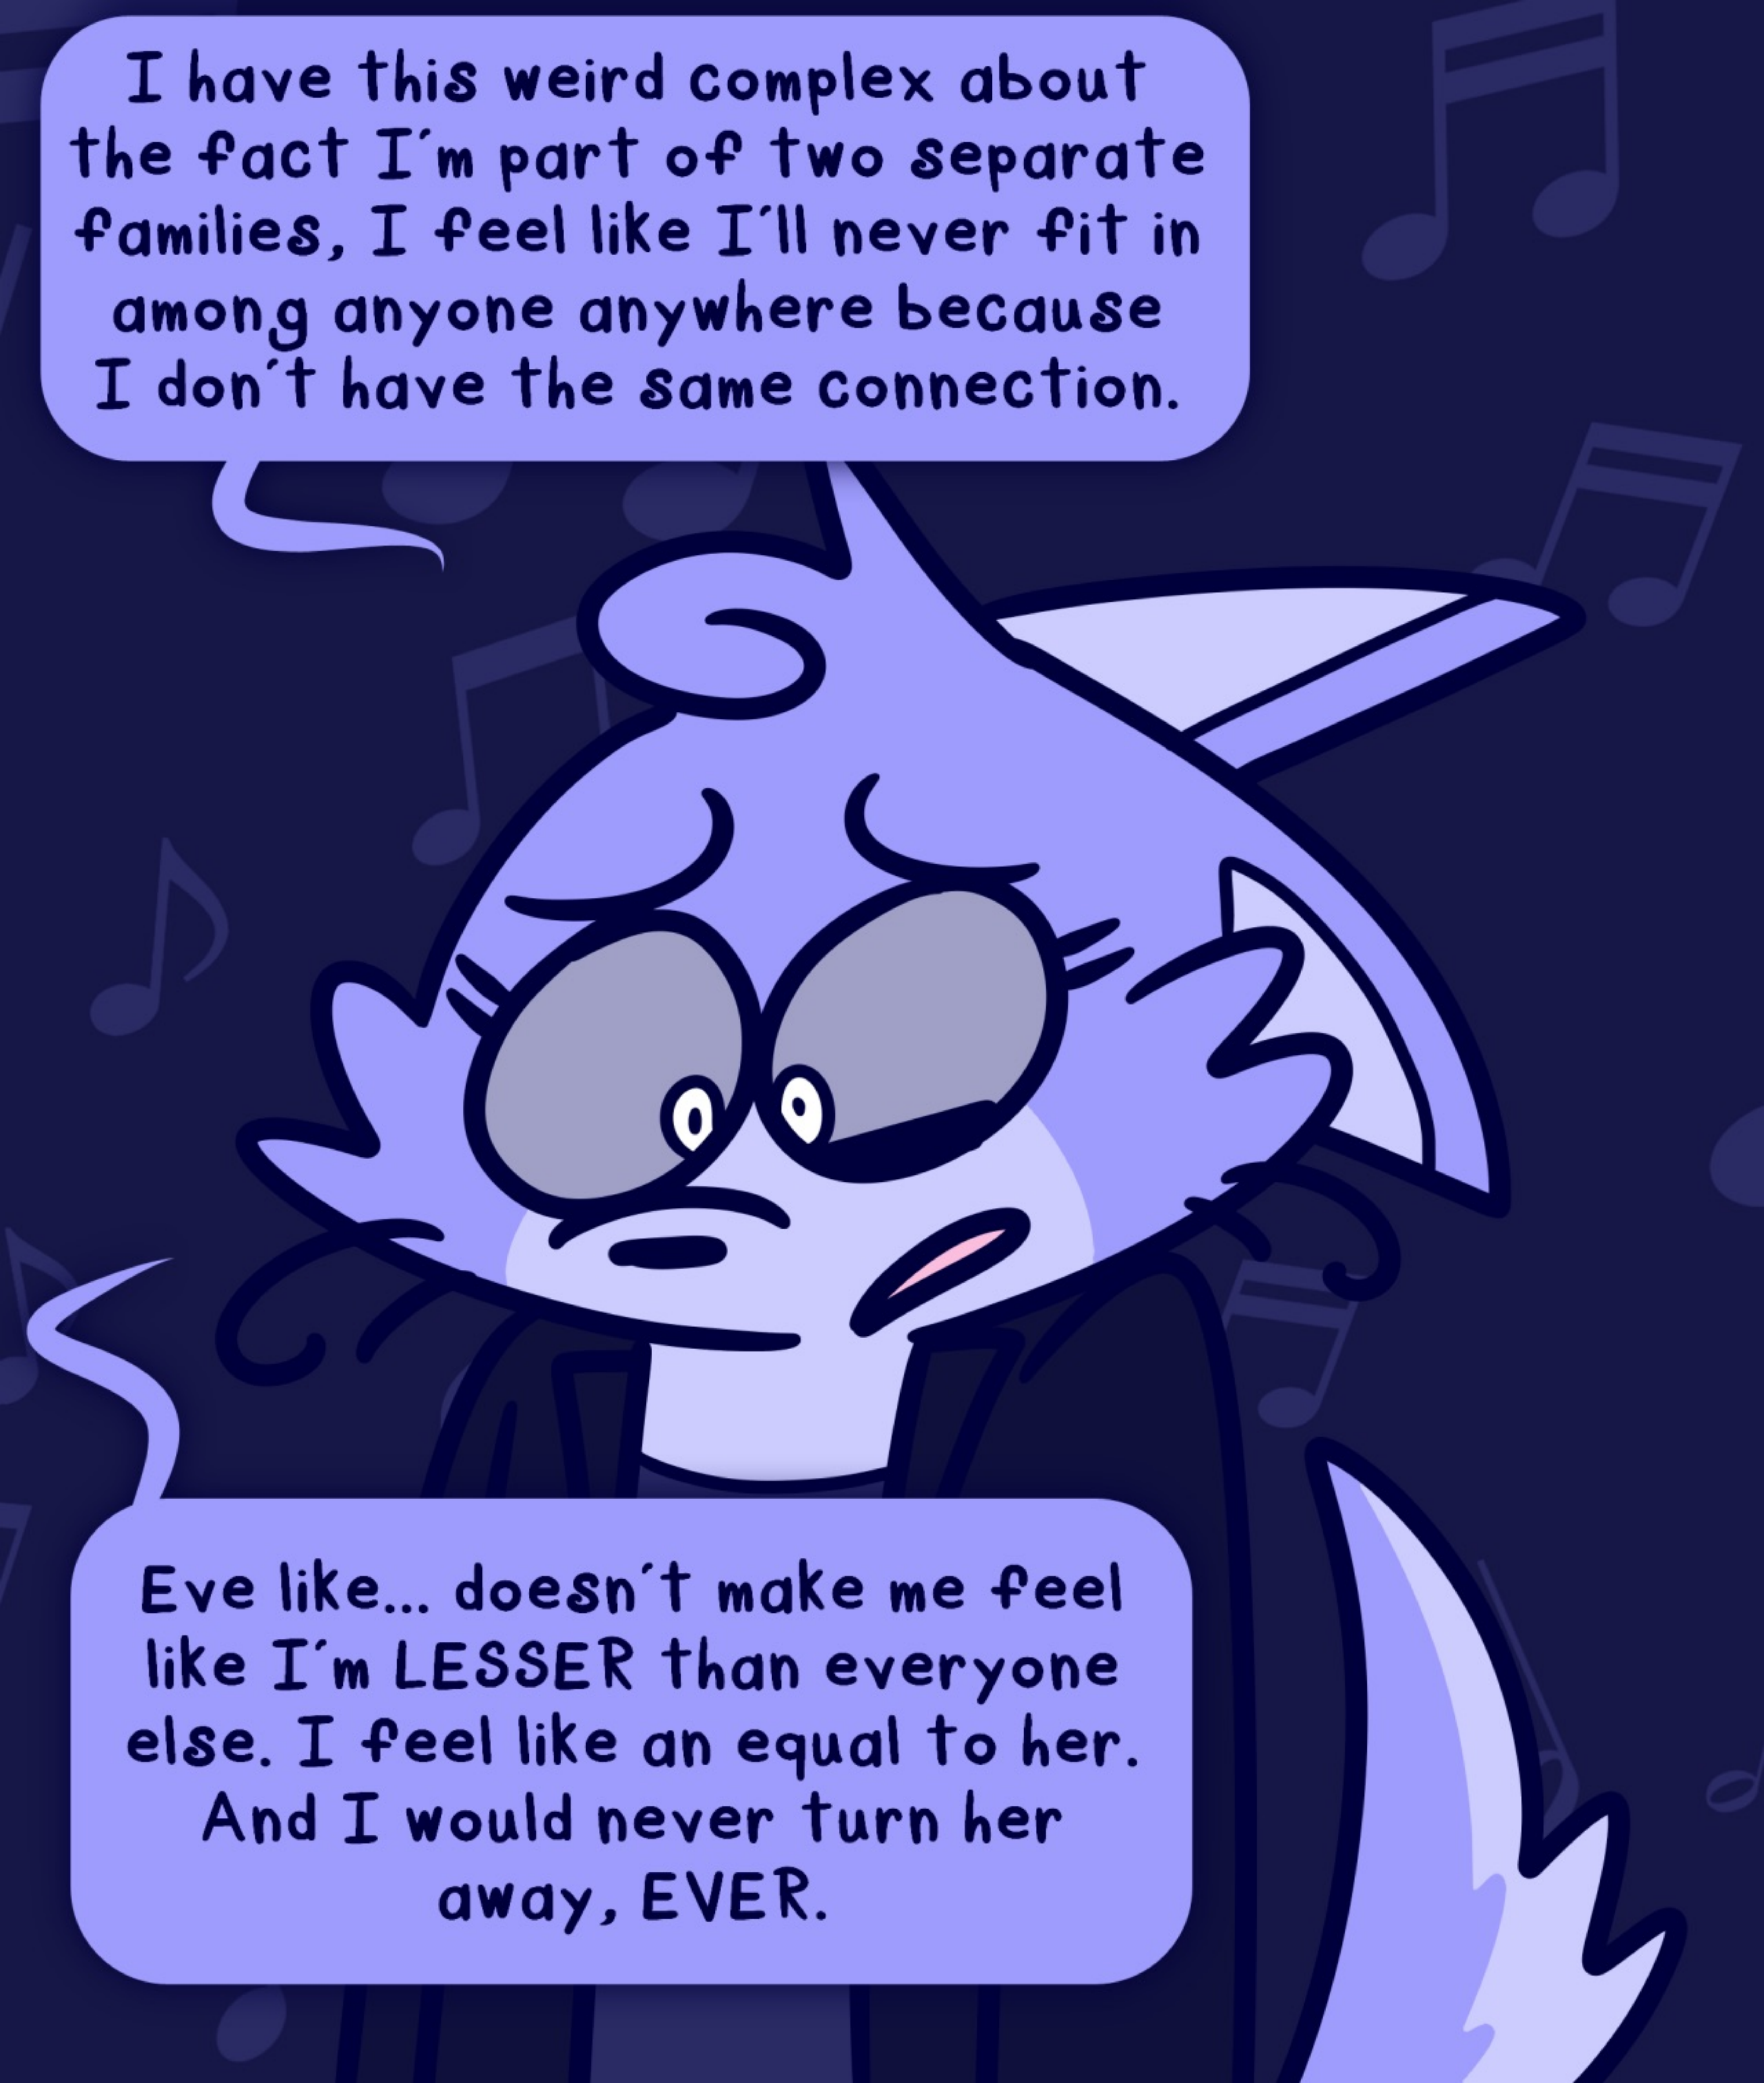
jabiall asked:

Hery Norma! Who are you waiting for? 👀

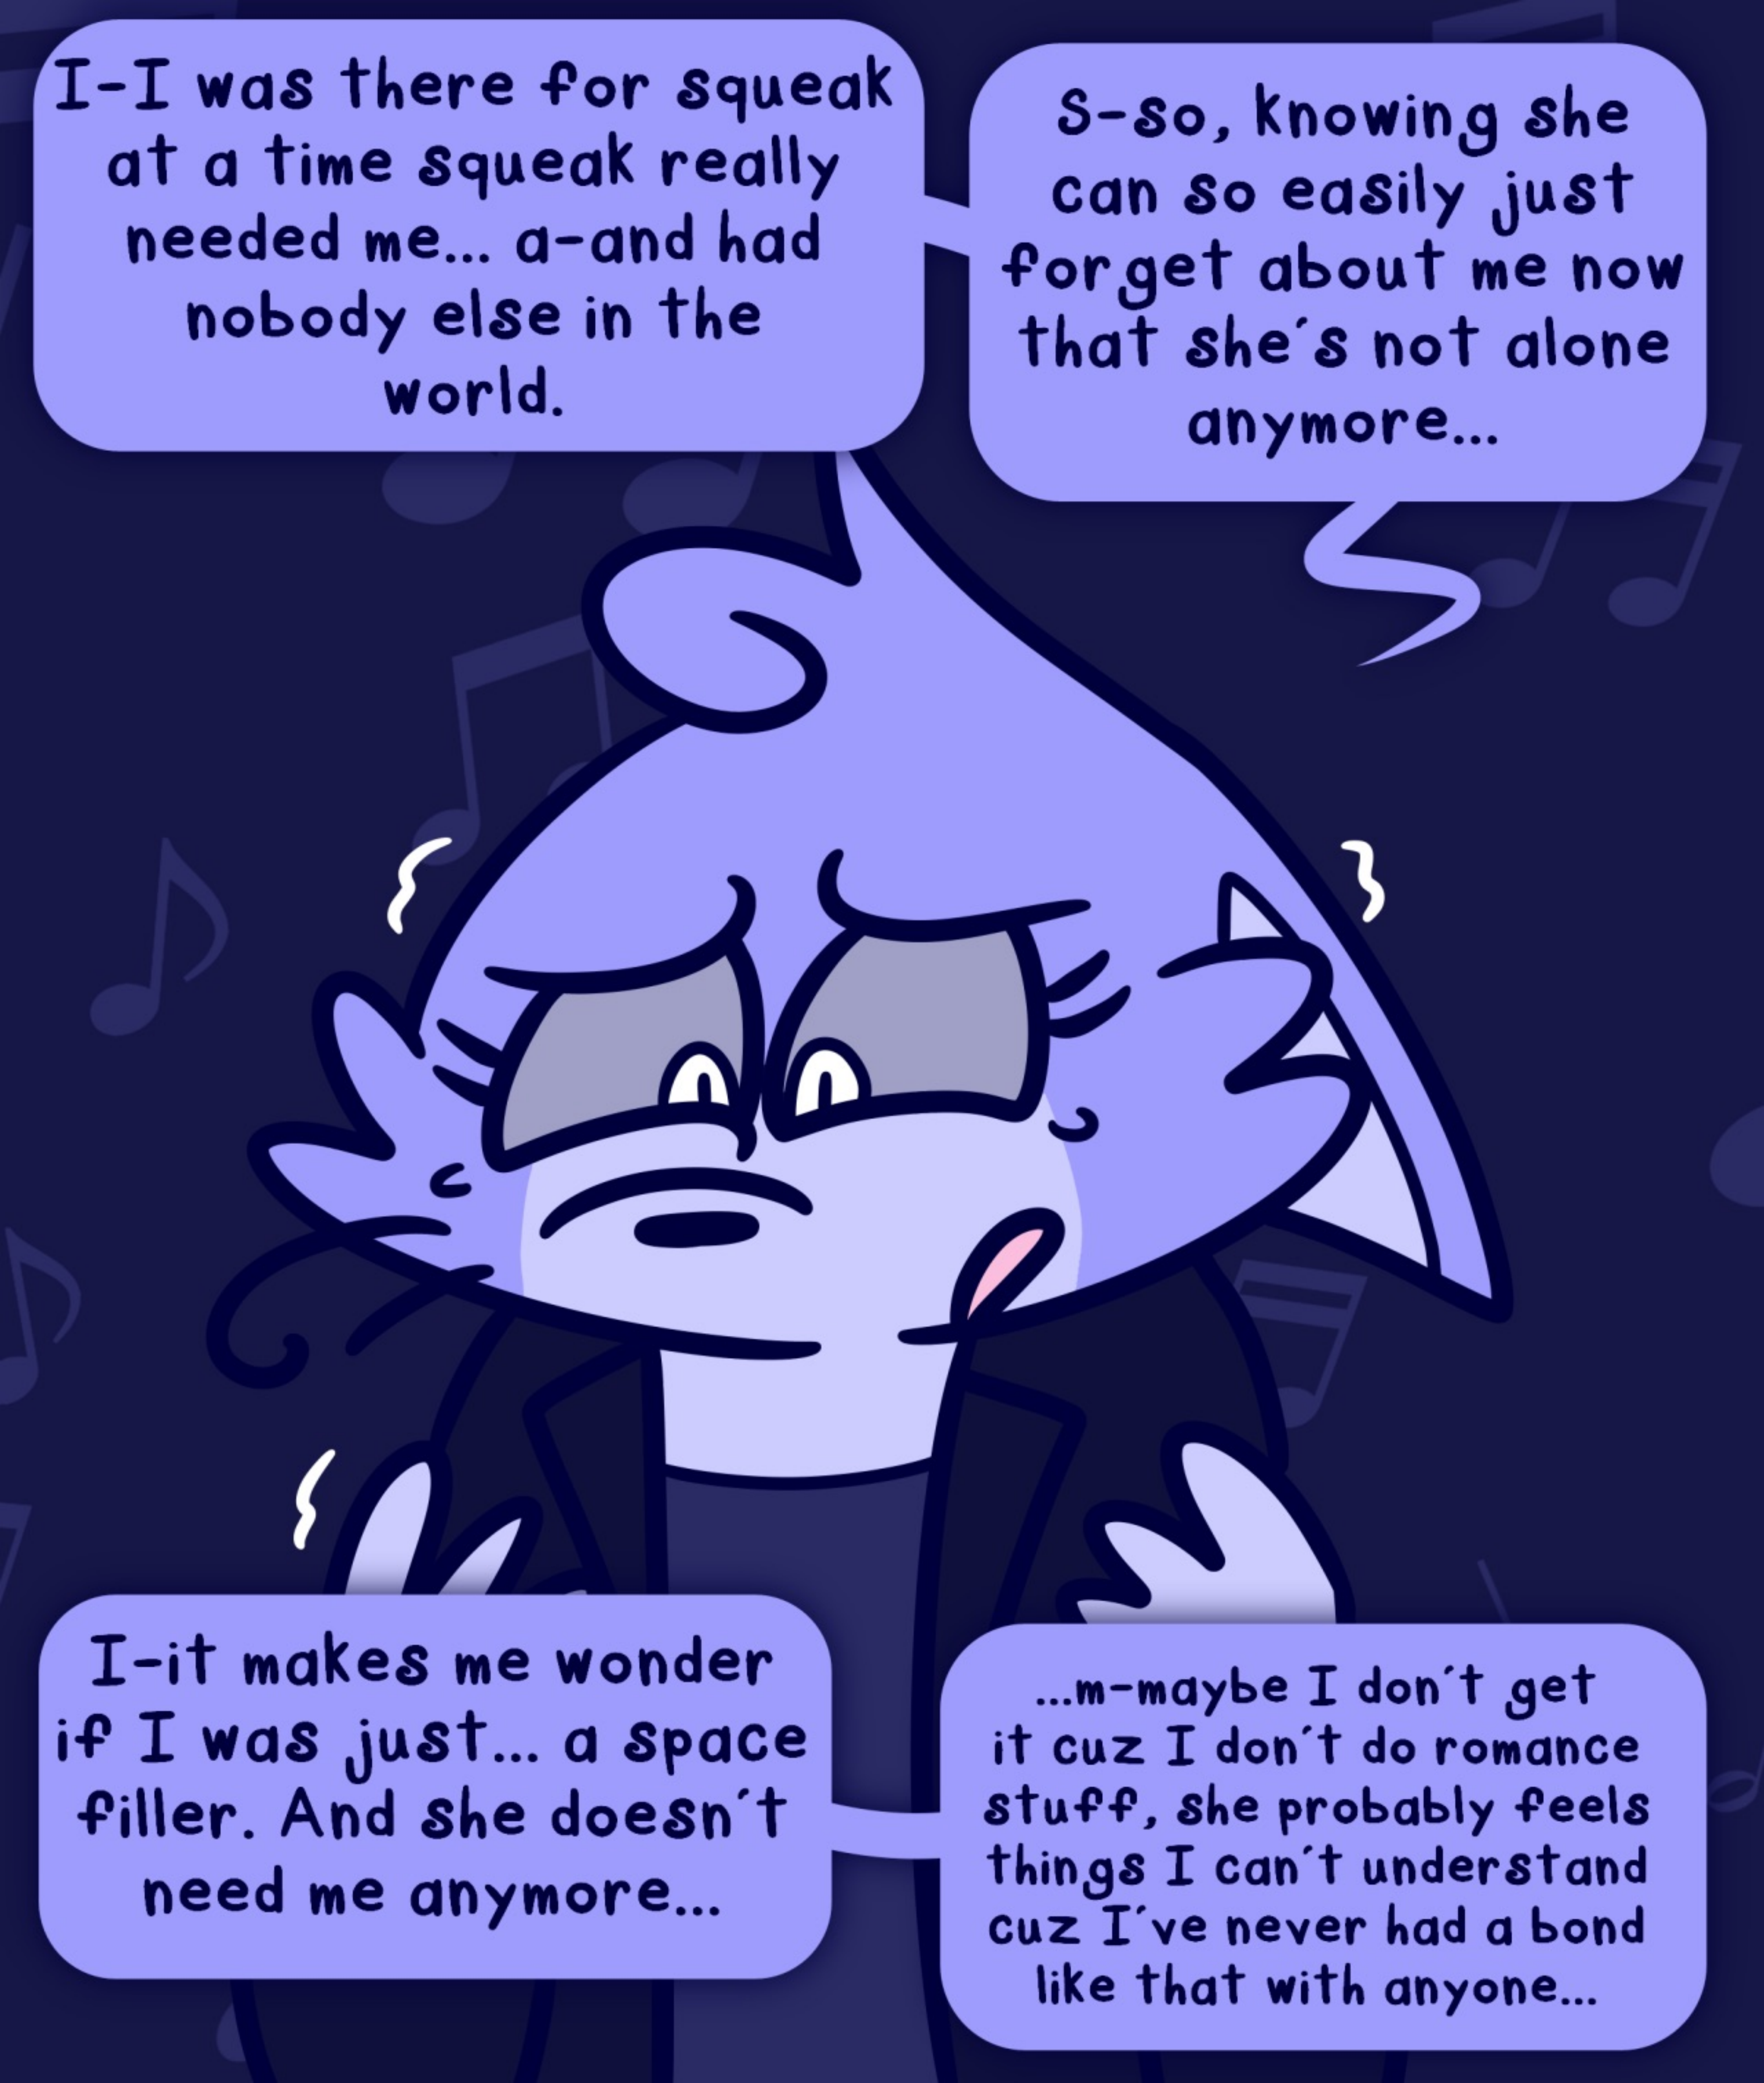
....I'm waiting for Eve to text me.
She's at Scrap's library, parents said she was staying the night, but squeak still hasn't texted me.



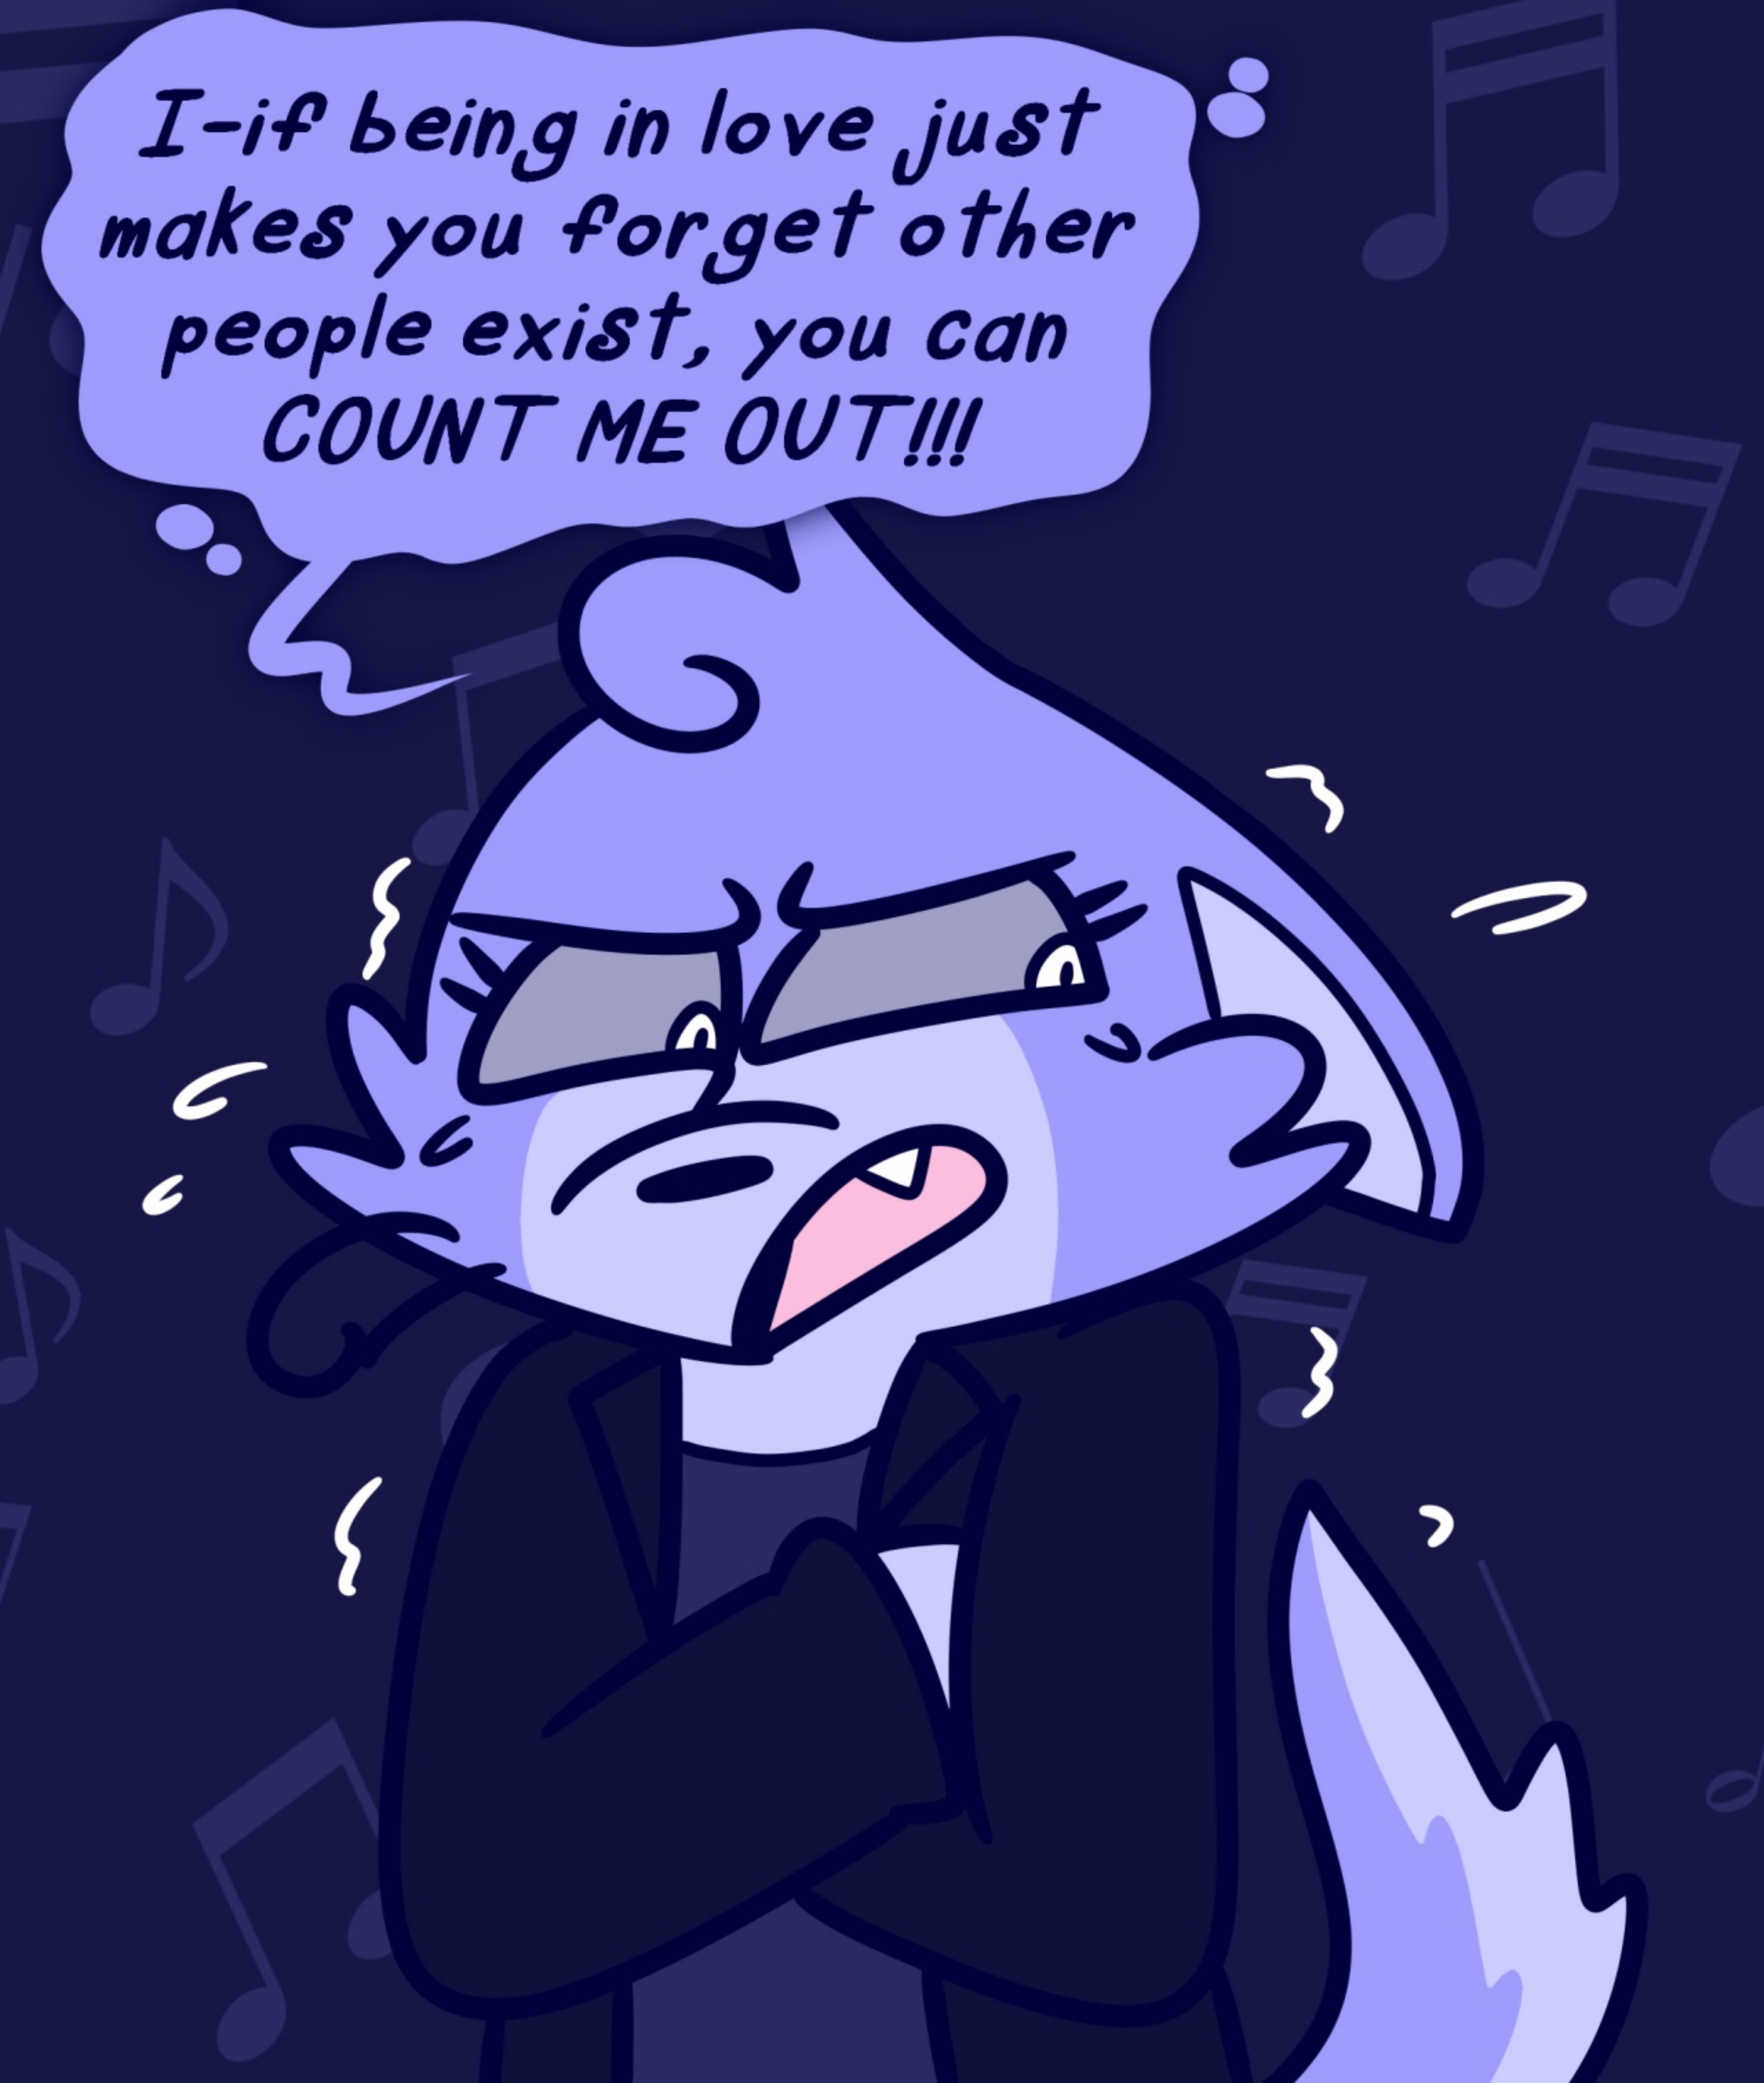
Whenever Eve gets a partner it´s like she forgets I exist sometimes and she just ghosts me. It happened with her ex too. I mean, I guess it´s that old trope where when a girl gets a boyfriend, the best friend gets left in the dust....
It´s hard for me to deal with when she´s the only person in our family that I actually feel close to...



I have this weird complex about the fact I'm part of two separate families, I feel like I'll never fit in among anyone anywhere because I don't have the same connection.
Eve like... doesn't make me feel like I'm LESSER than everyone else. I feel like an equal to her. And I would never turn her away, EVER.



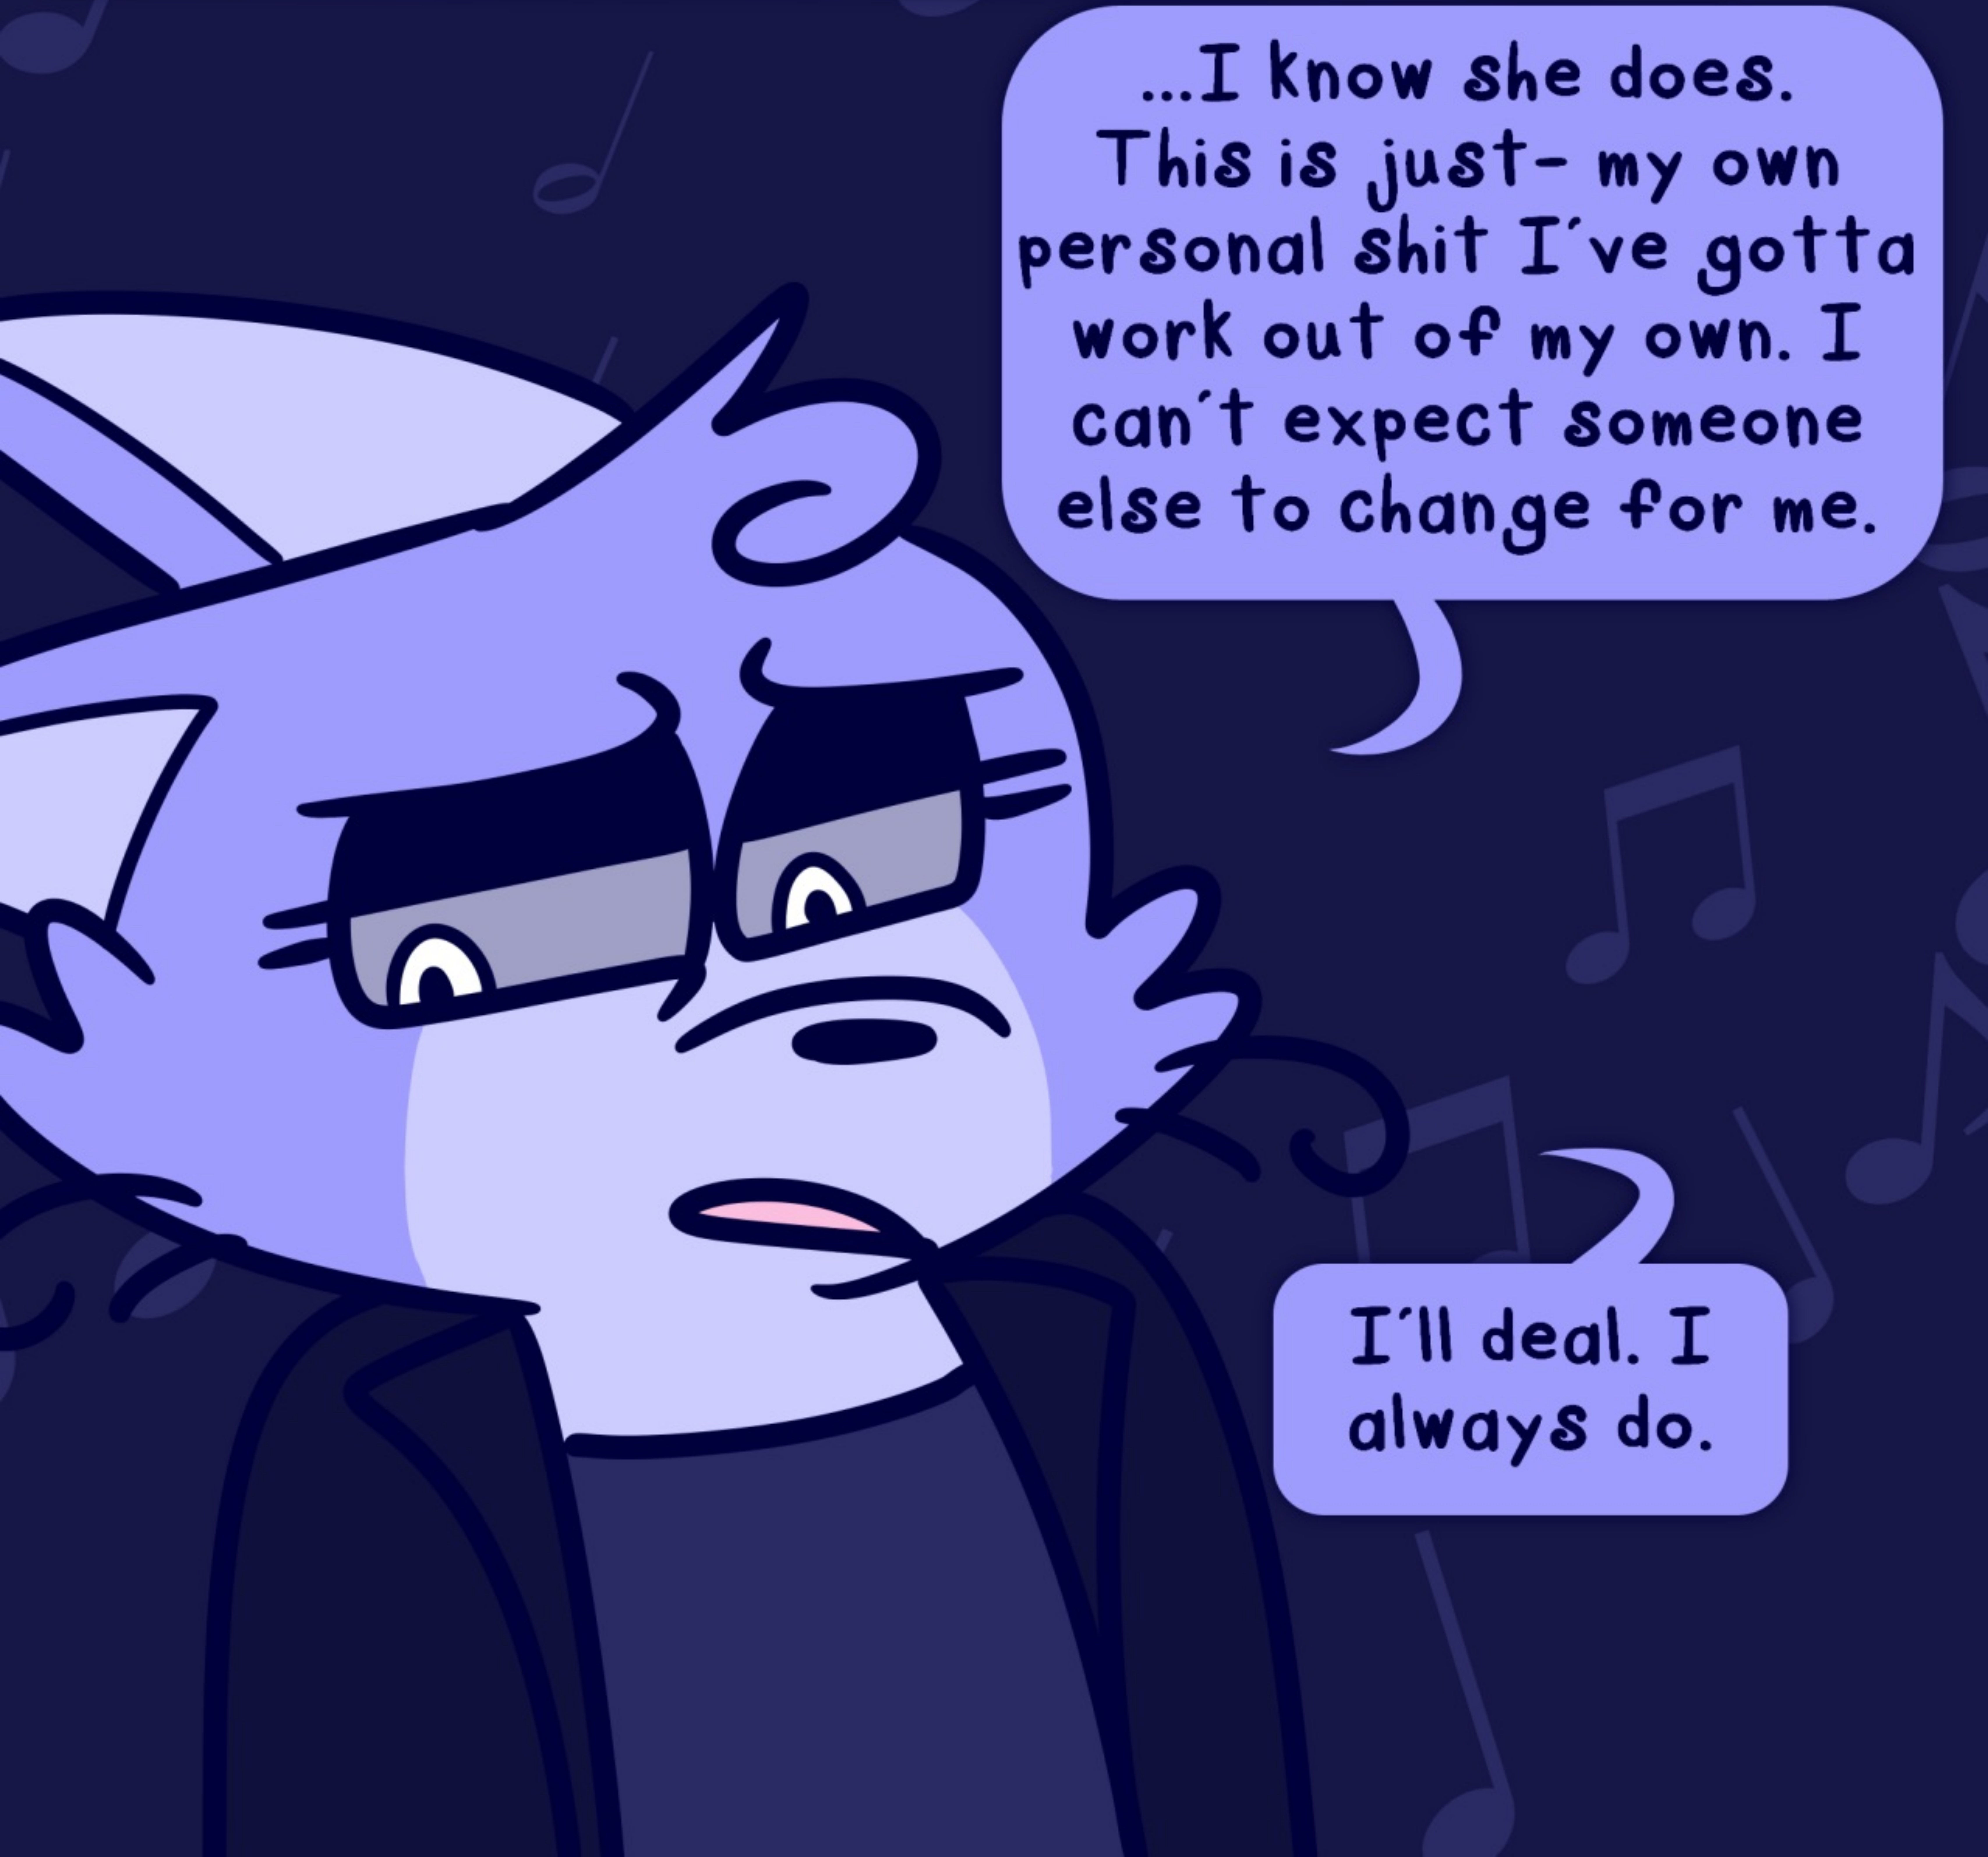
I-I was there for squeak at a time squeak really needed me... a-and had nobody else in the world.
S-so, knowing she can so easily just forget about me now that she's not alone anymore...
I-it makes me wonder if I was just... a space filler. And she doesn't need me anymore...
...m-maybe I don't get it cuz I don't do romance stuff, she probably feels things I can't understand cuz I've never had a bond like that with anyone...



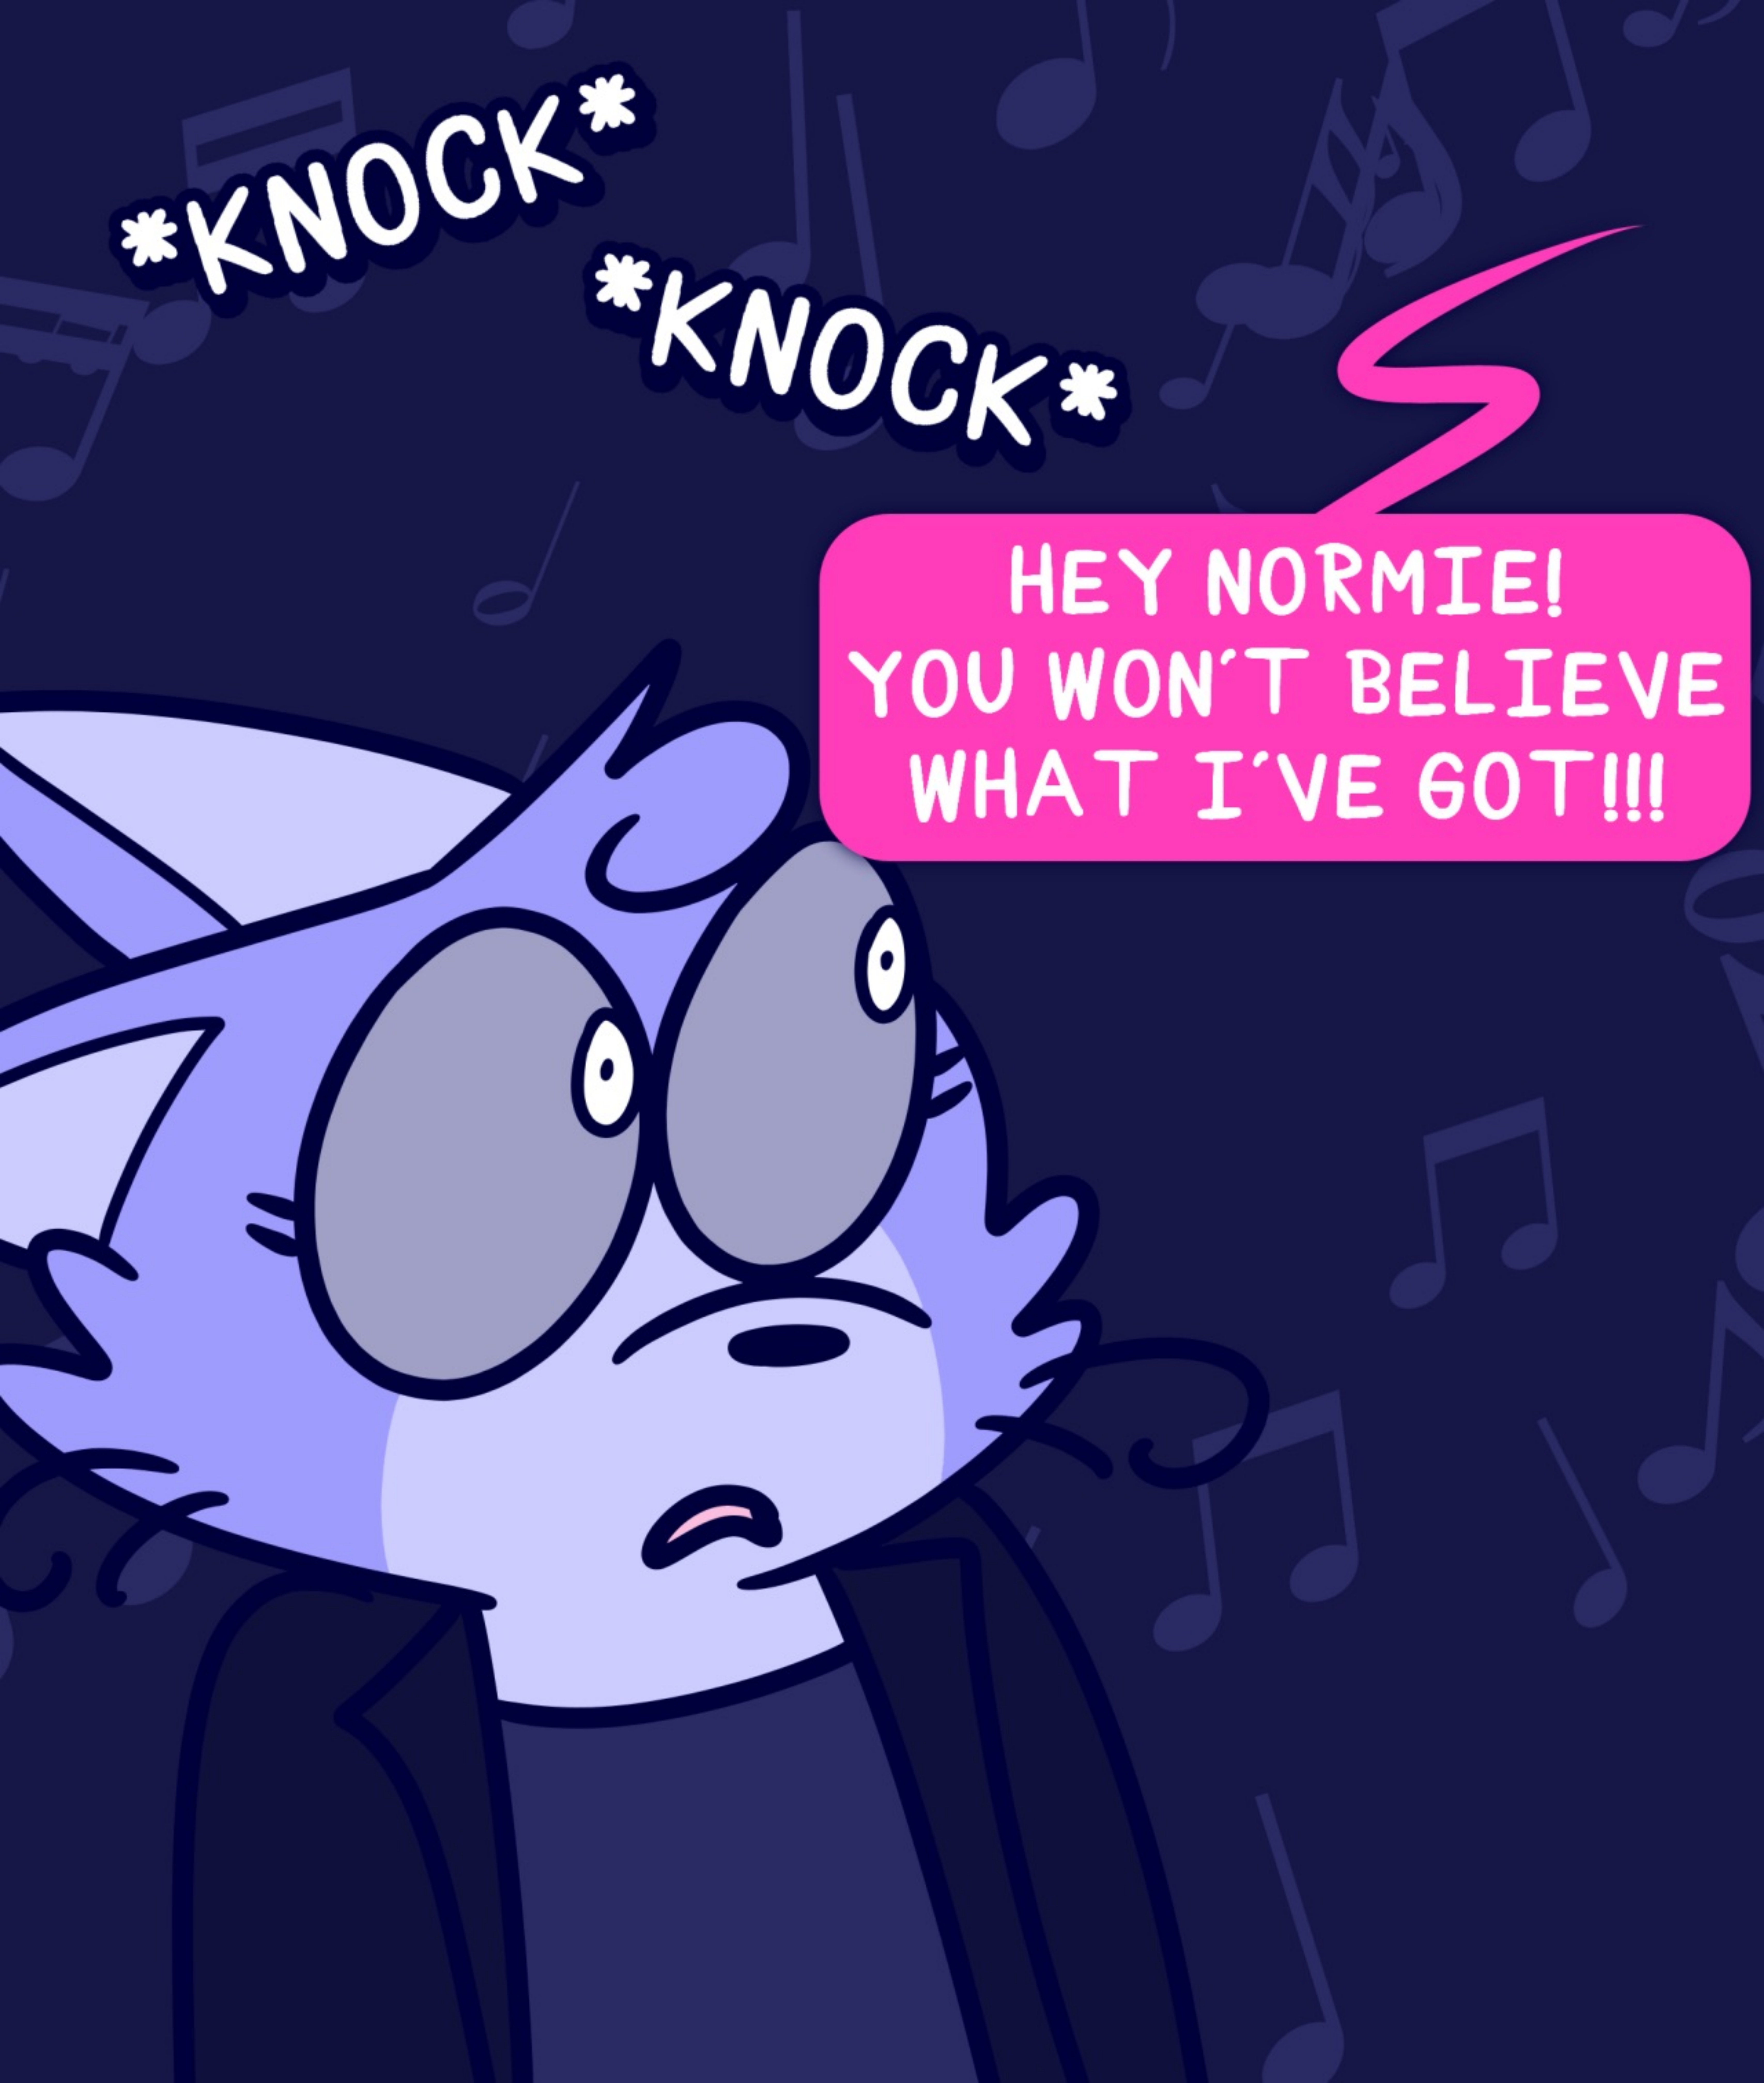
I-if being in love just makes you forget other people exist, you can COUNT ME OUT!!!

eeveeskittles asked:

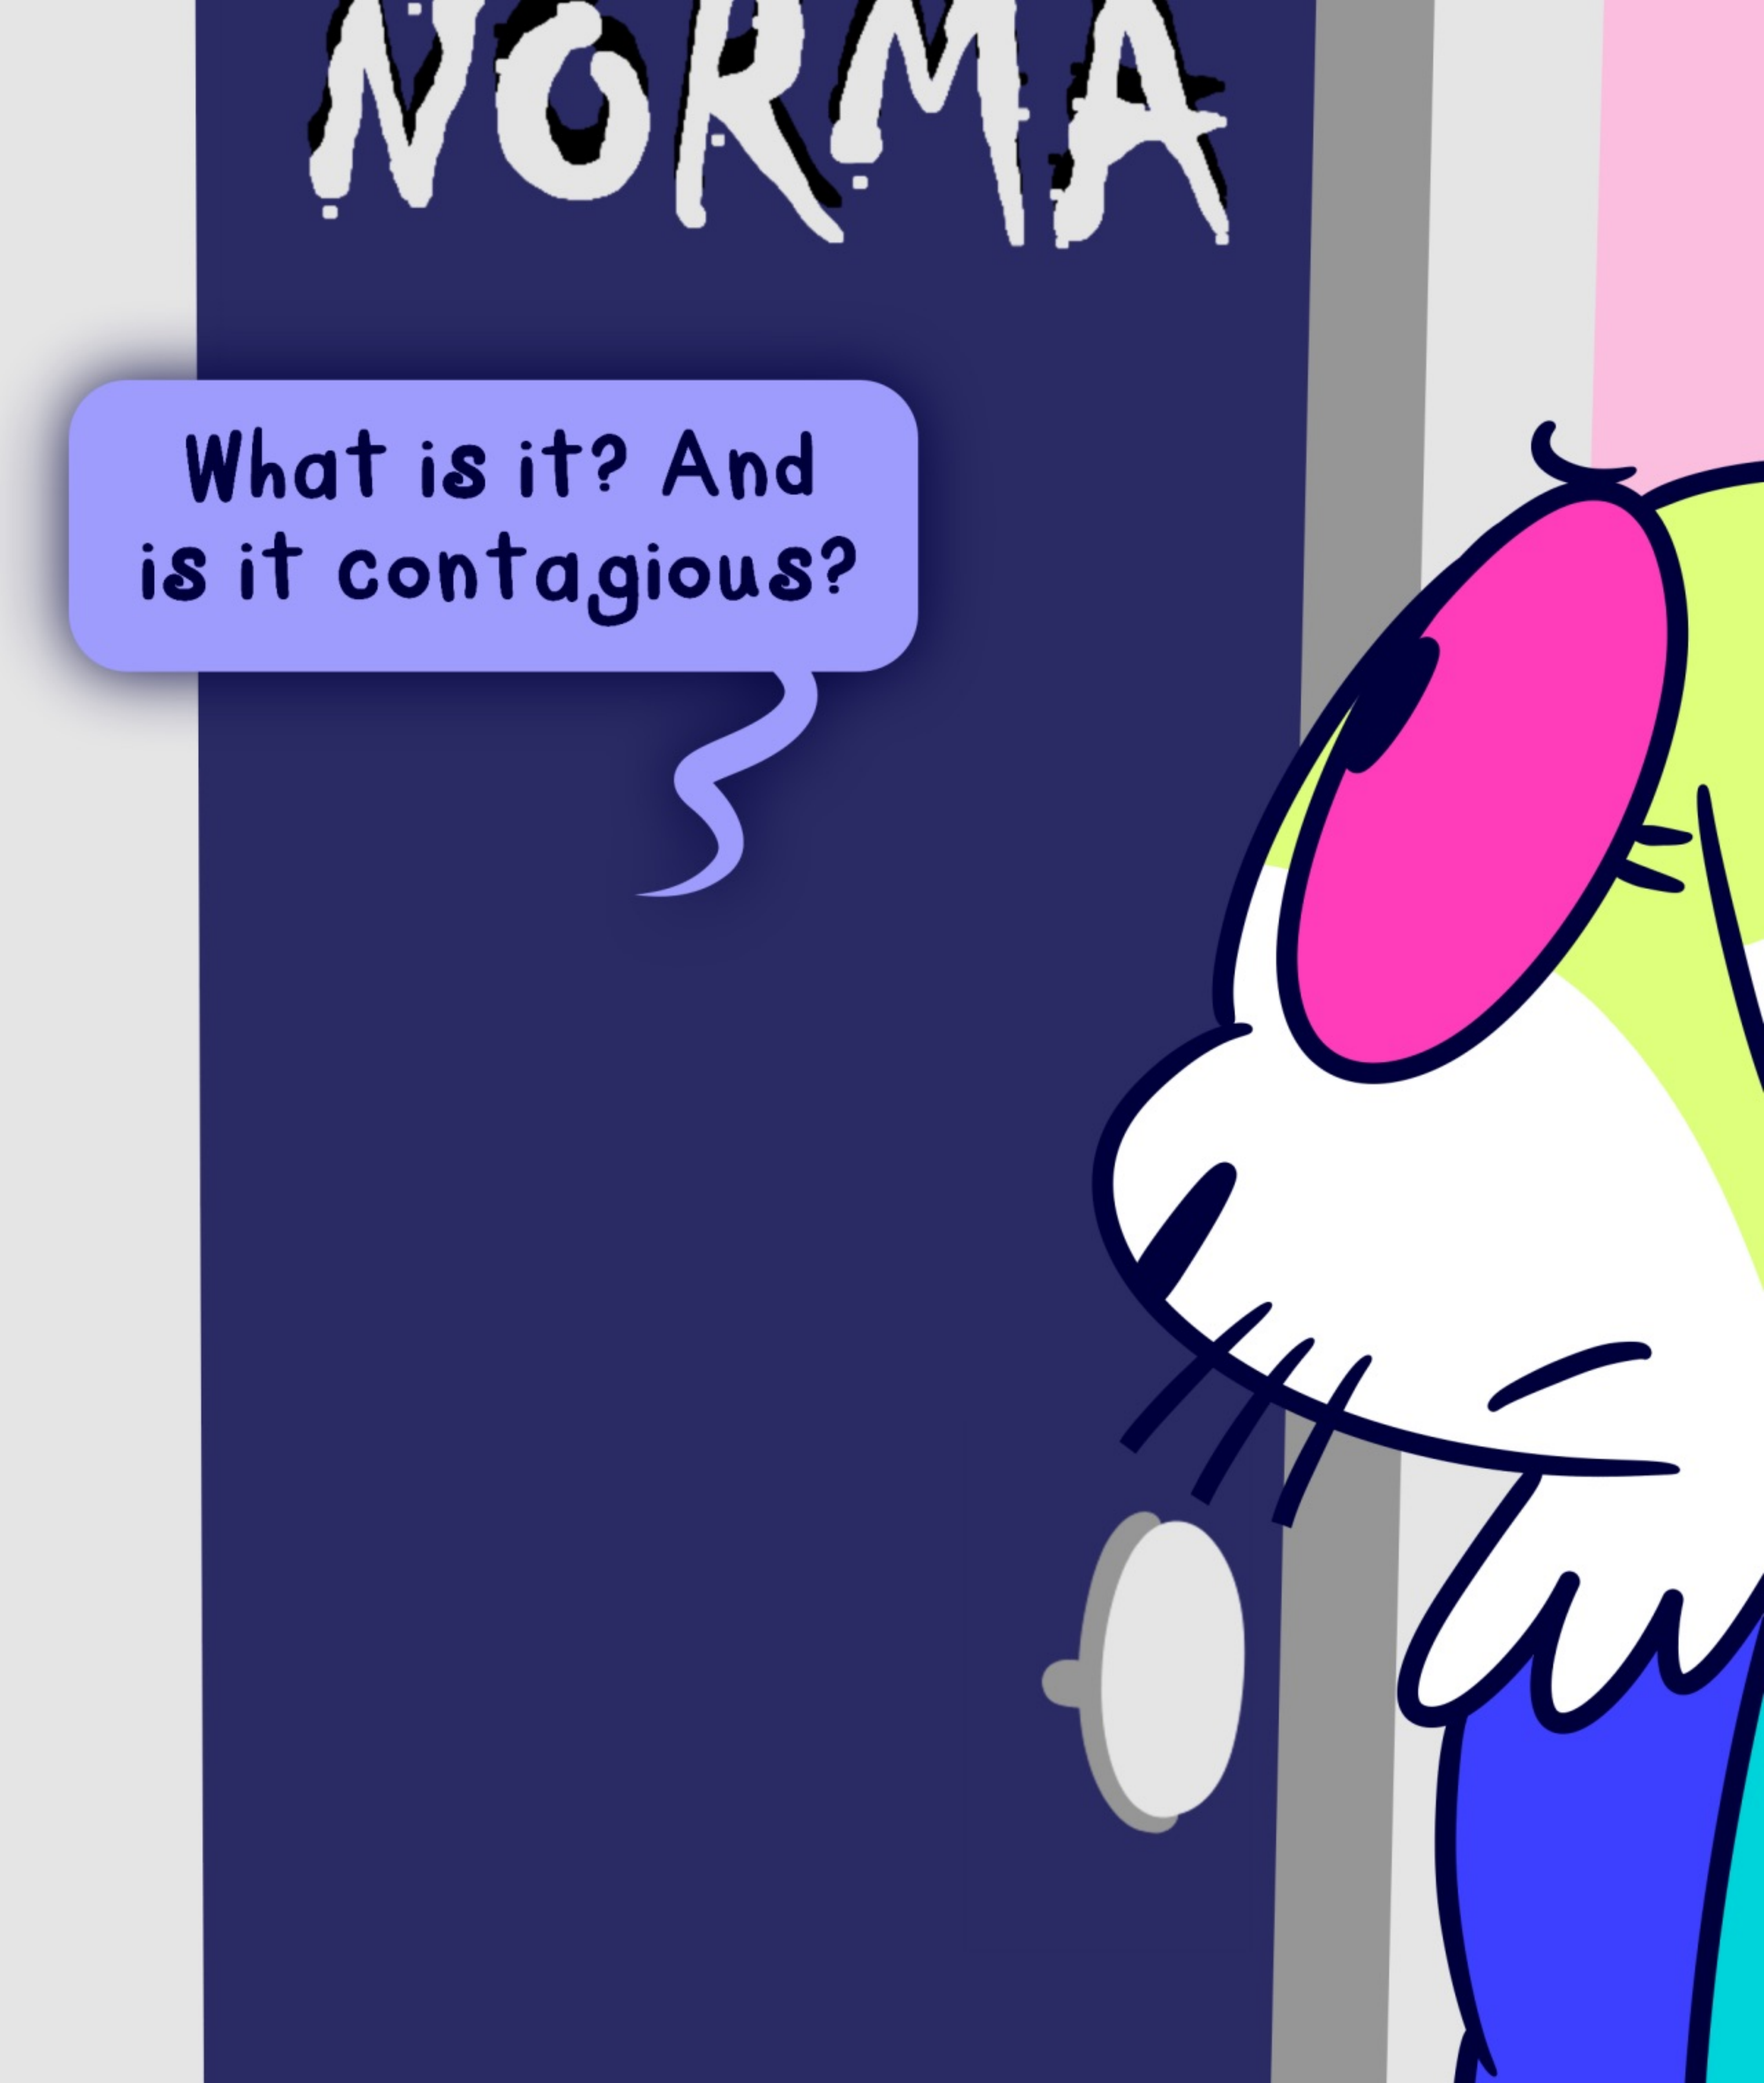
Aww Norma- I'm positive Eve still cares about you!



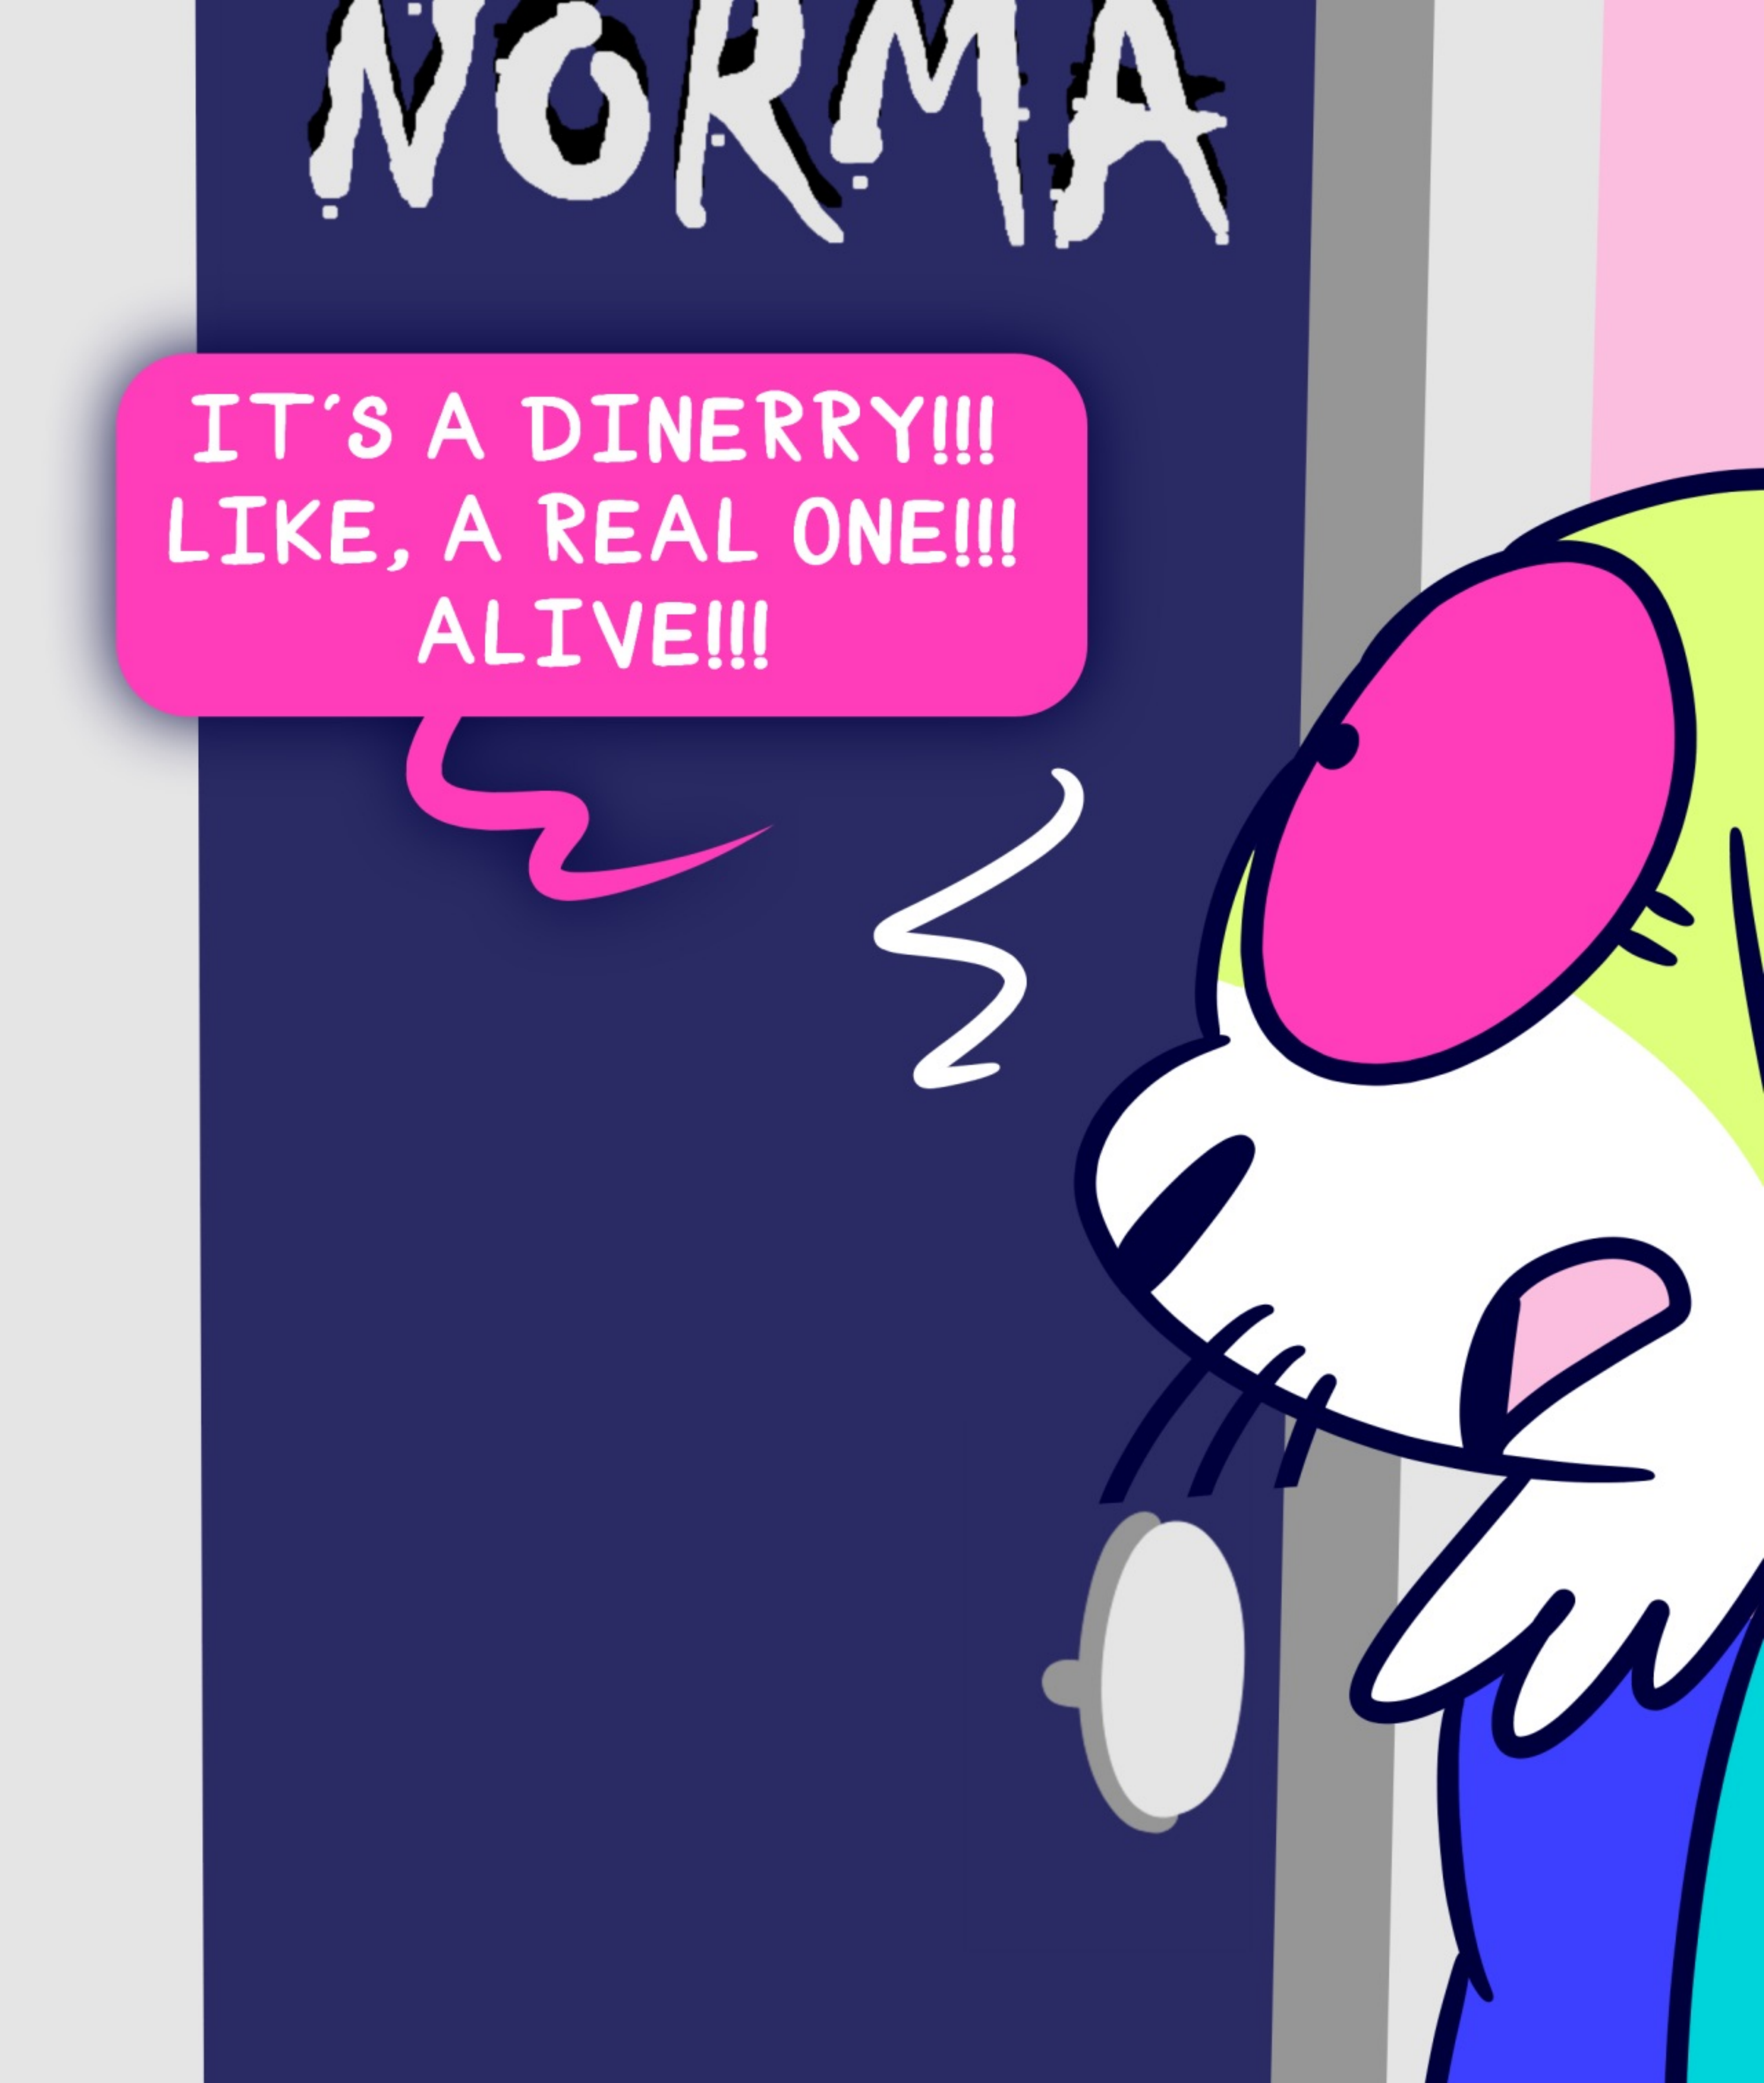
...I know she does. This is just- my own personal shit I've gotta work out of my own. I can't expect someone else to change for me.
I'll deal. I always do.



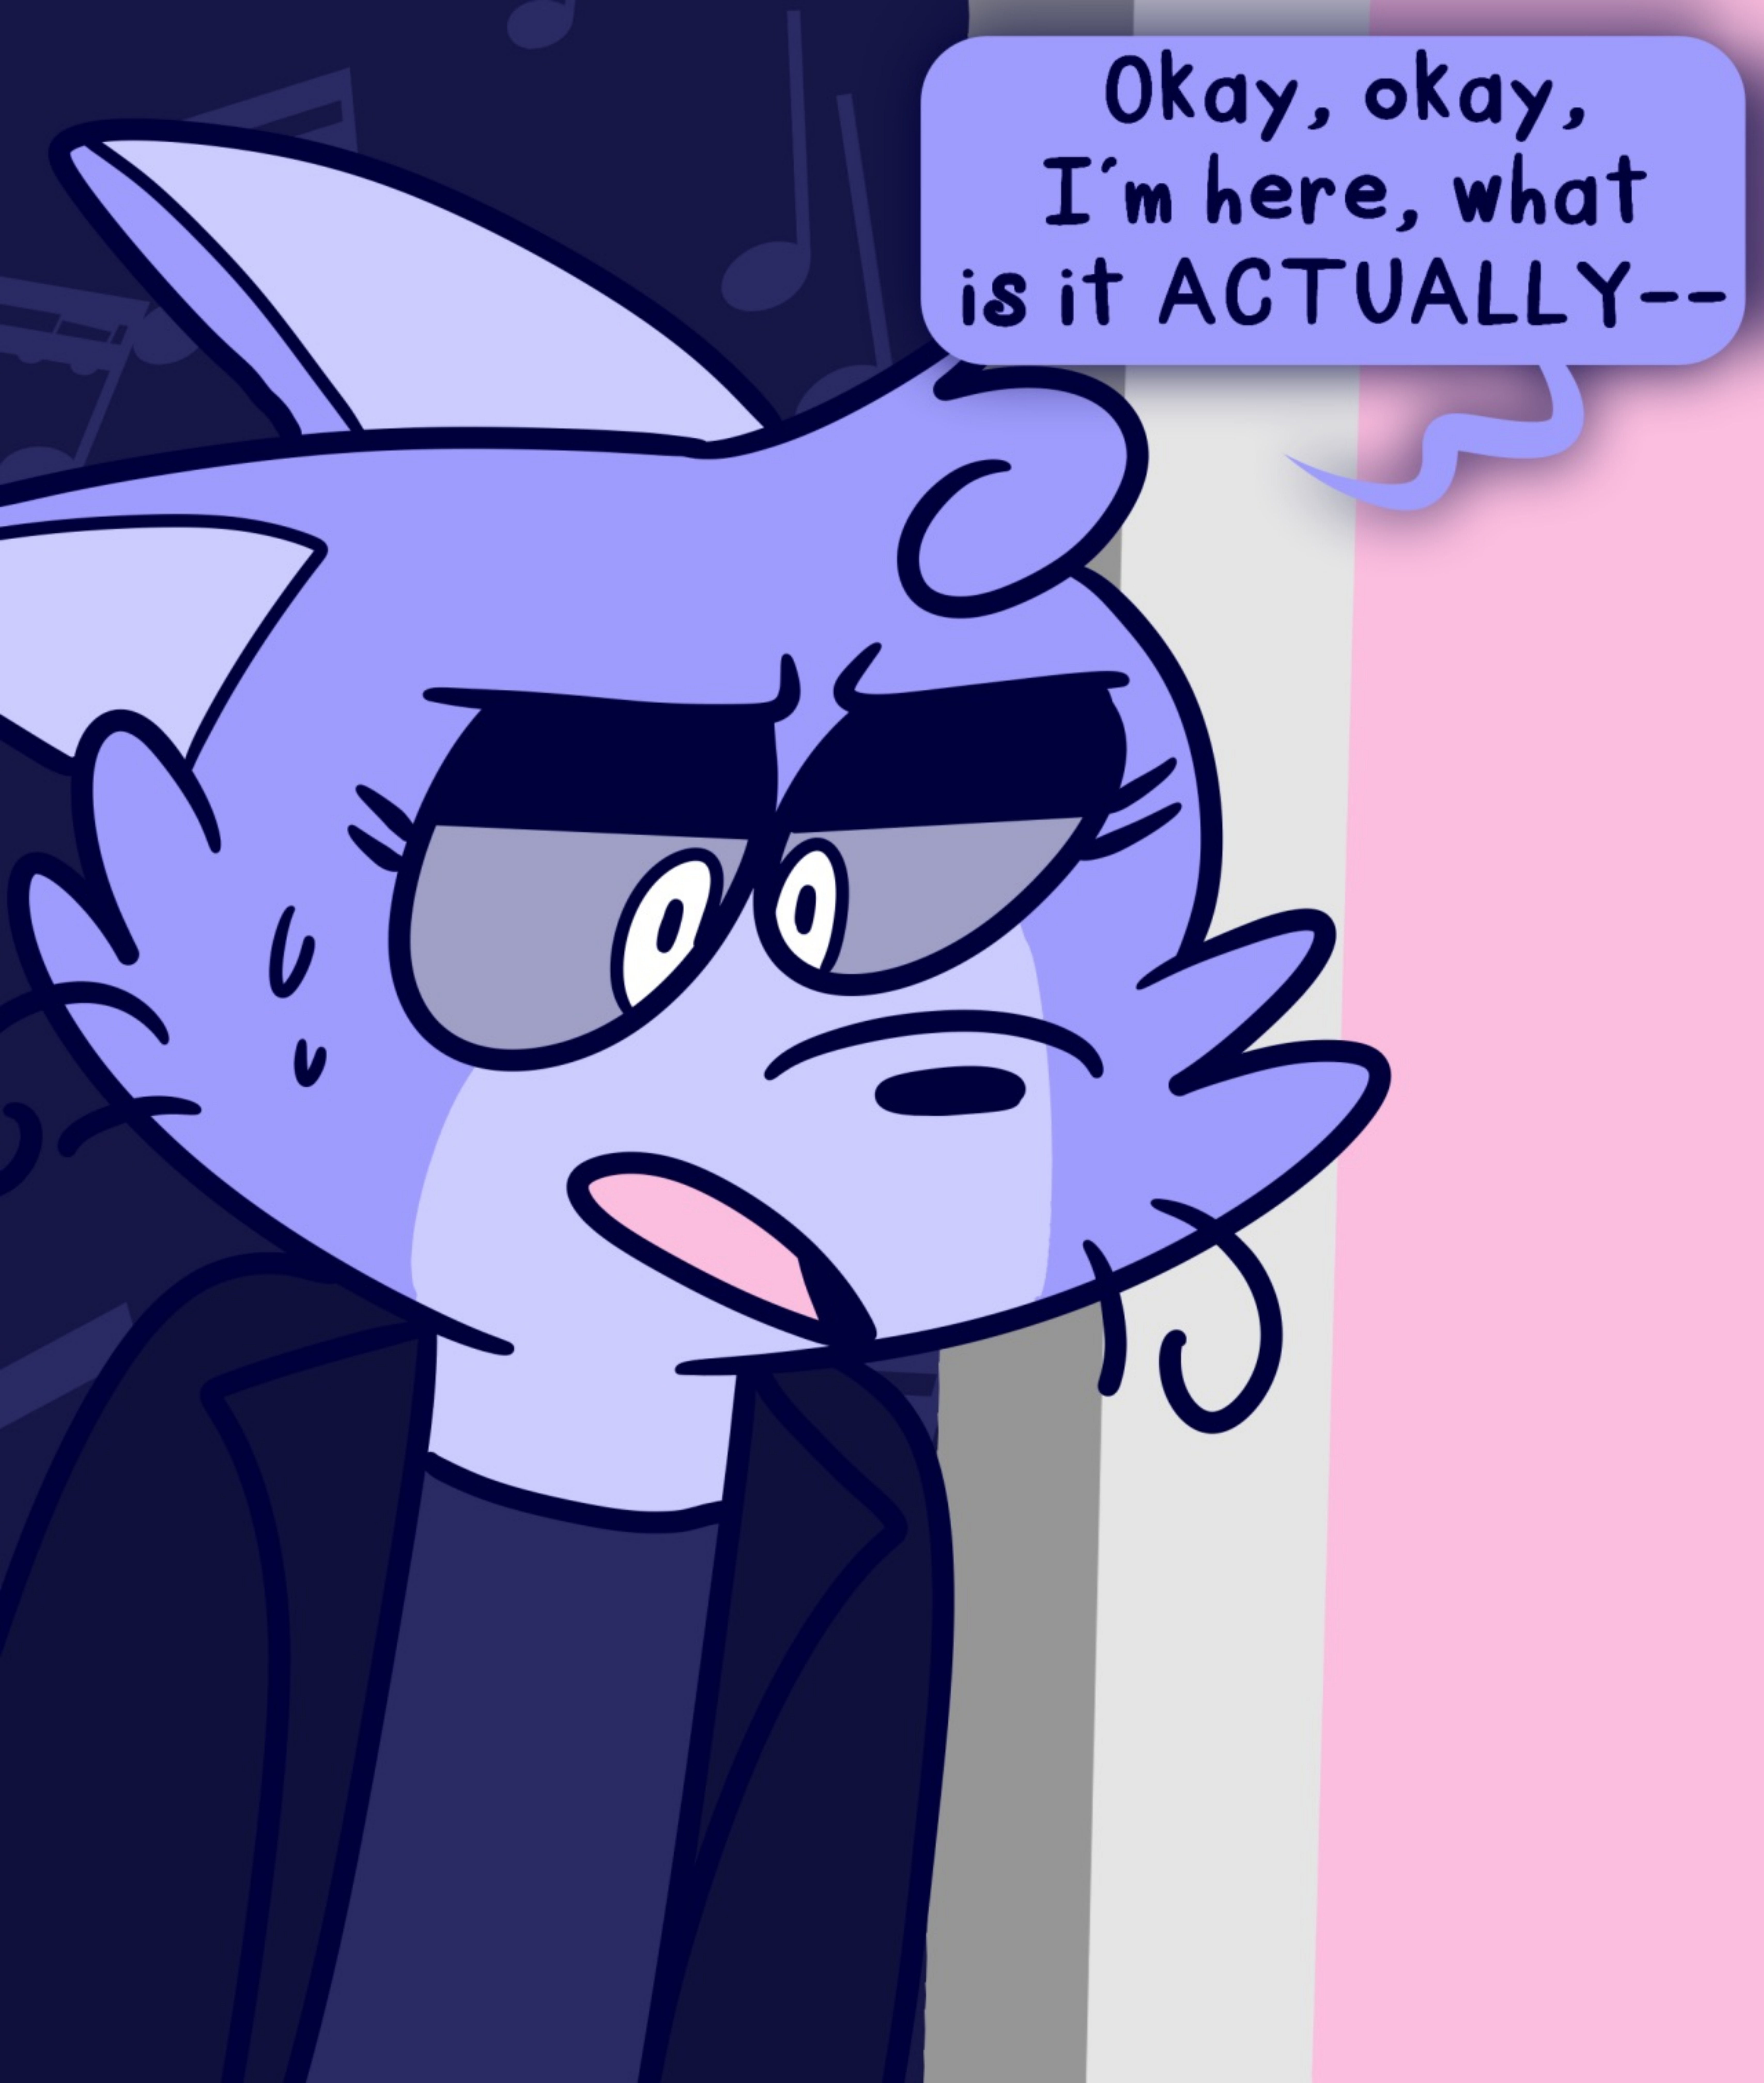
KNOCK
KNOCK
HEY NORMIE!
YOU WON'T BELIEVE
WHAT I'VE GOT!!!



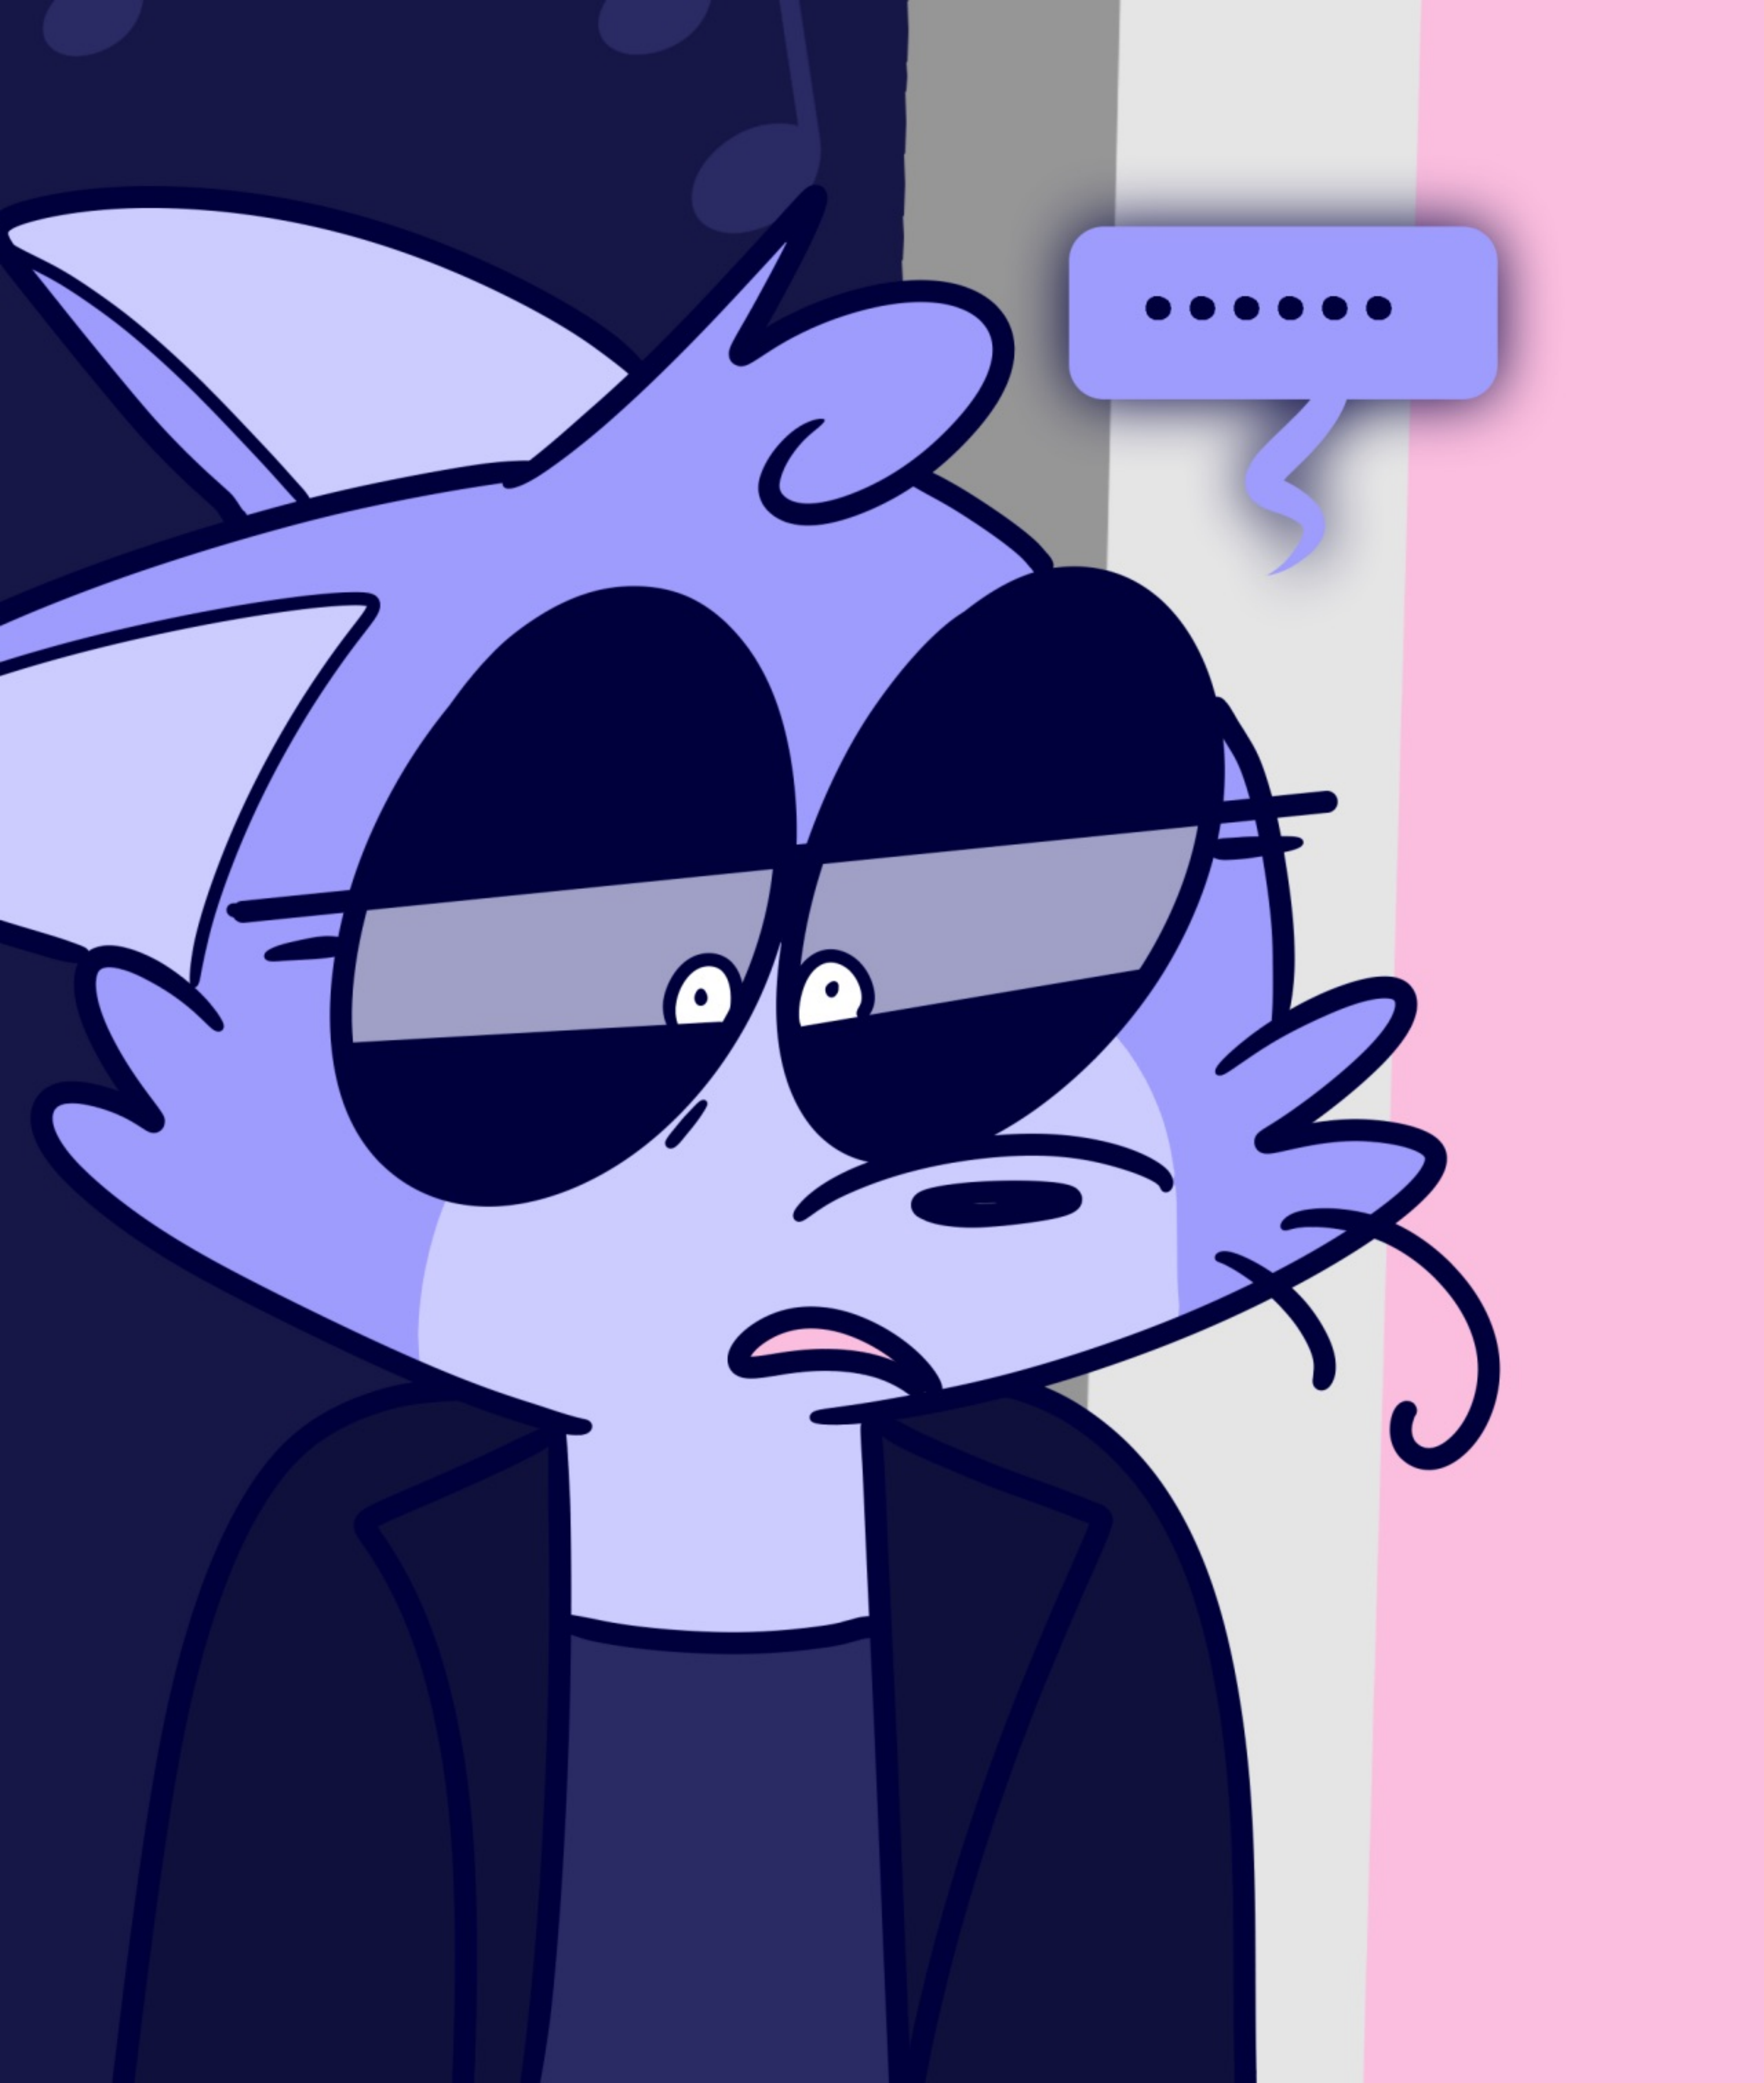
NORMA
What is it? And is it contagious?

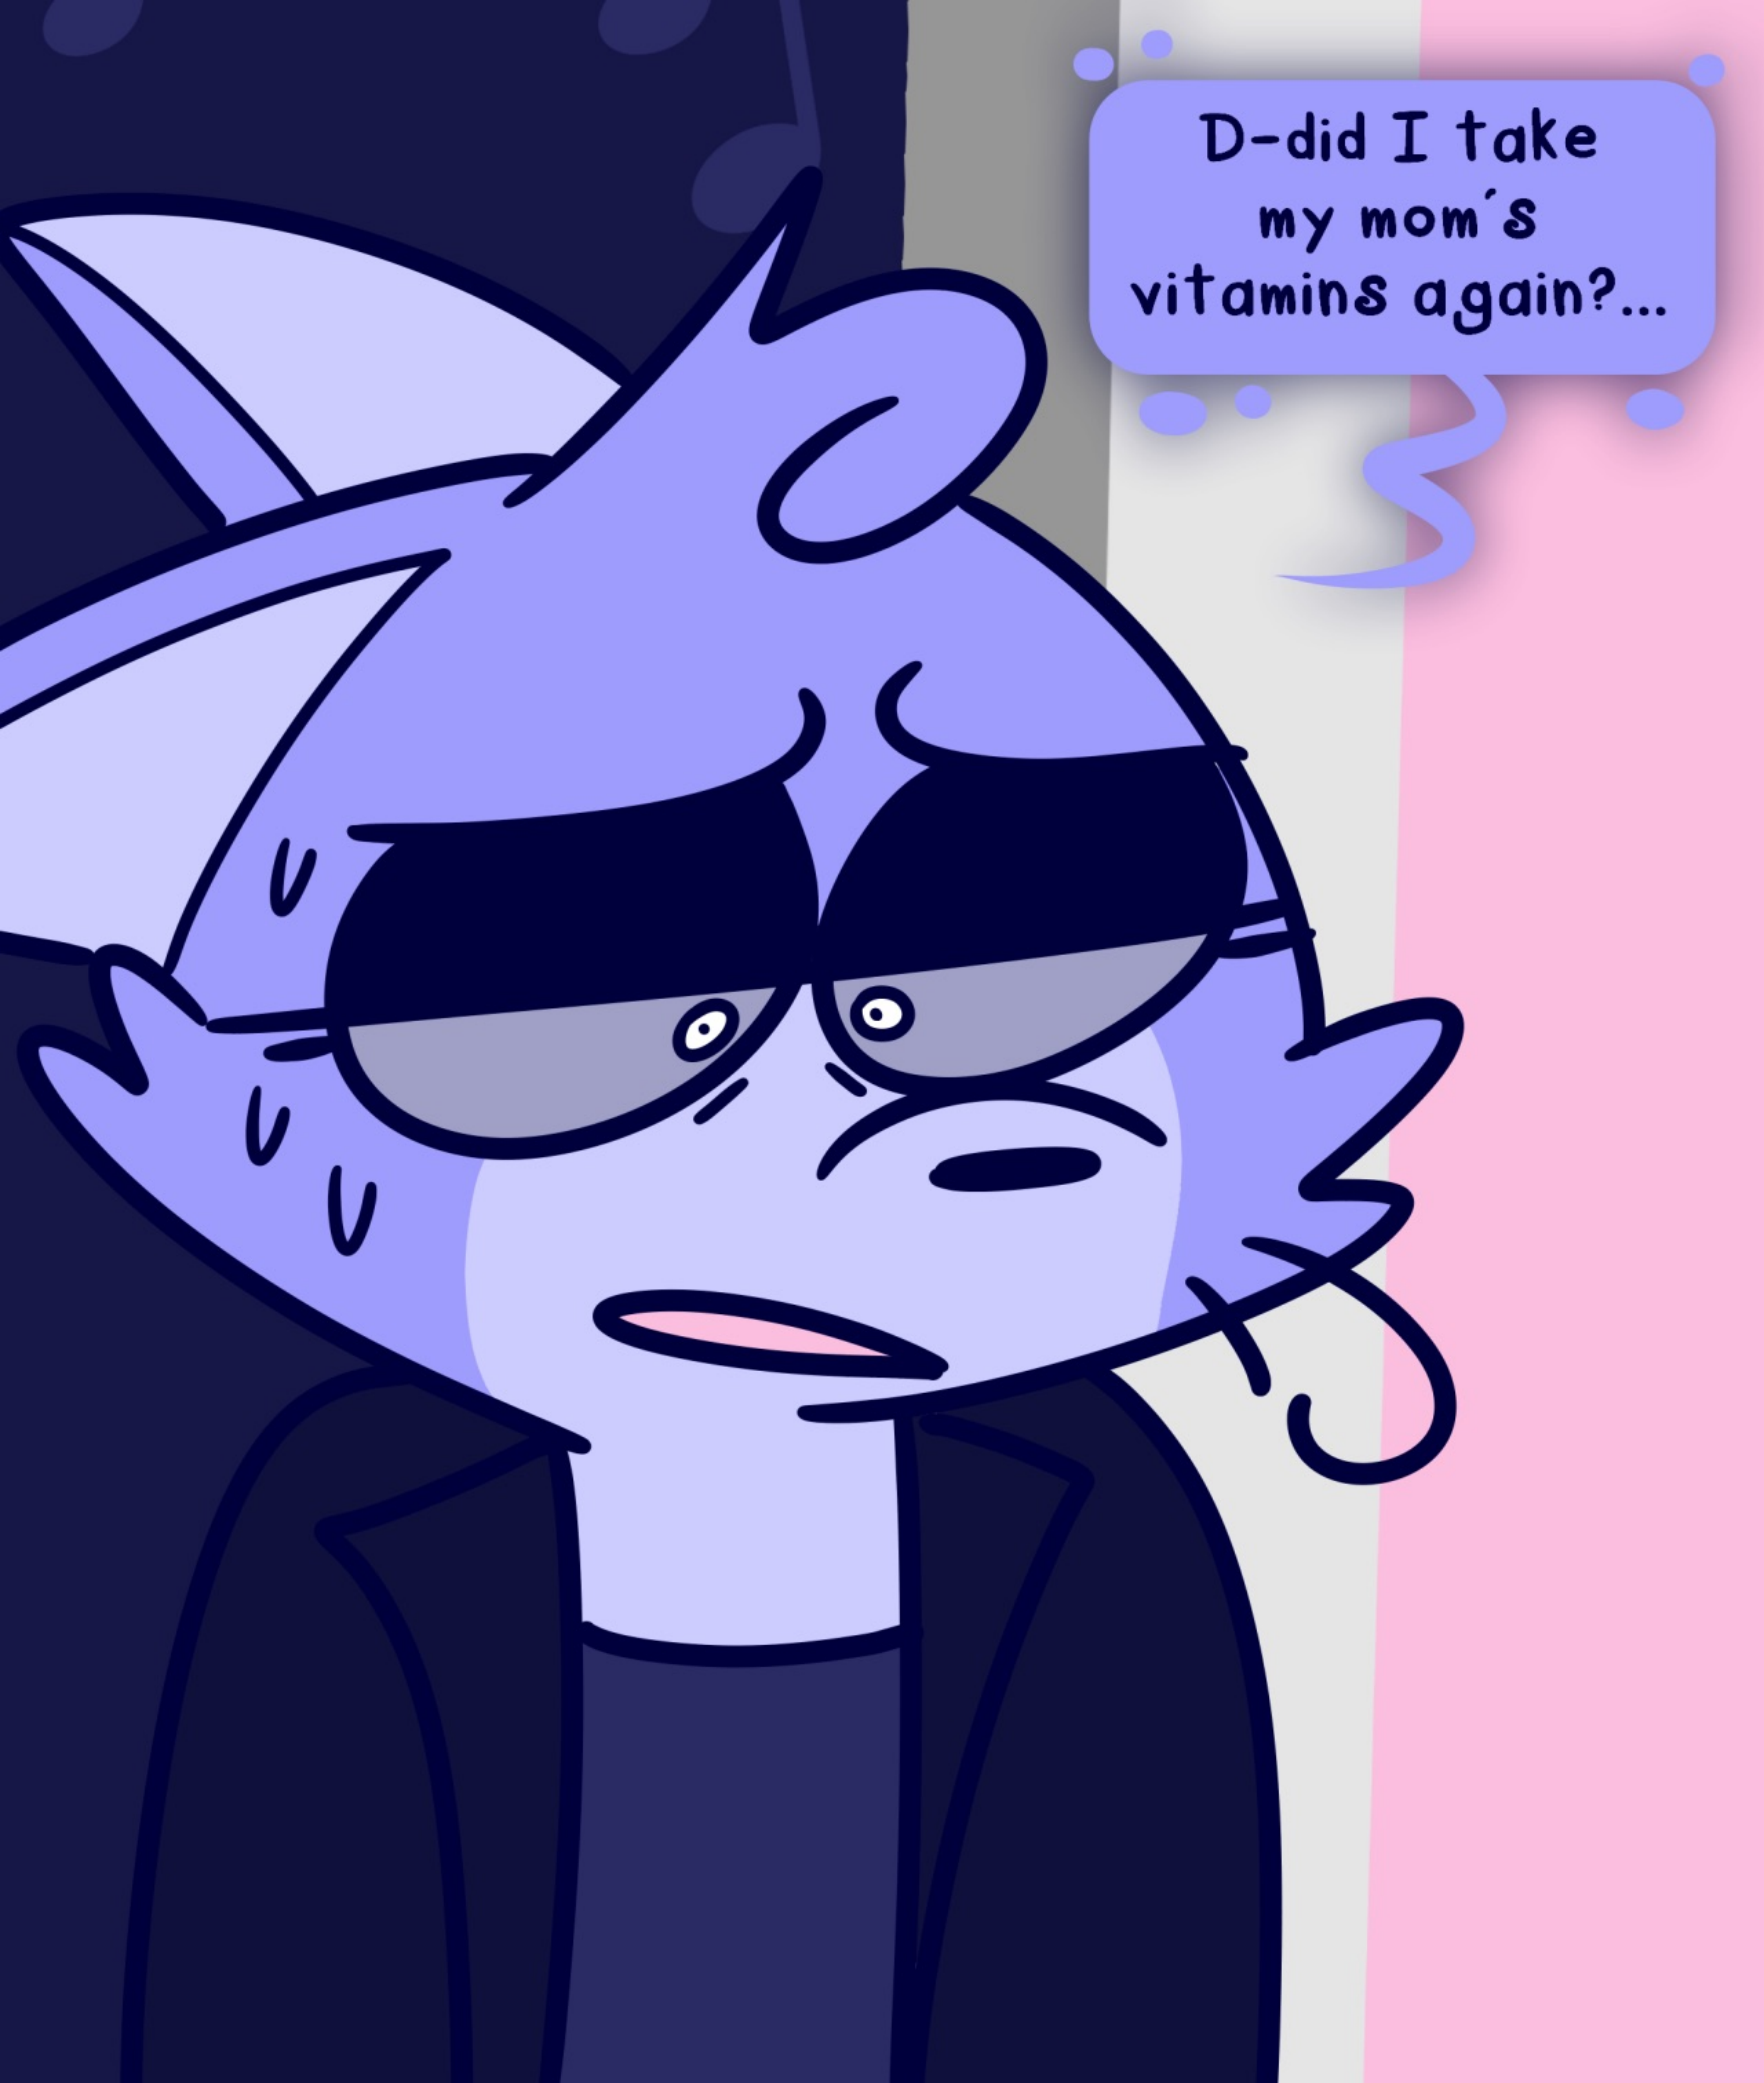


NORMA
IT´S A DINERRY!!! LIKE, A REAL ONE!!! ALIVE!!!

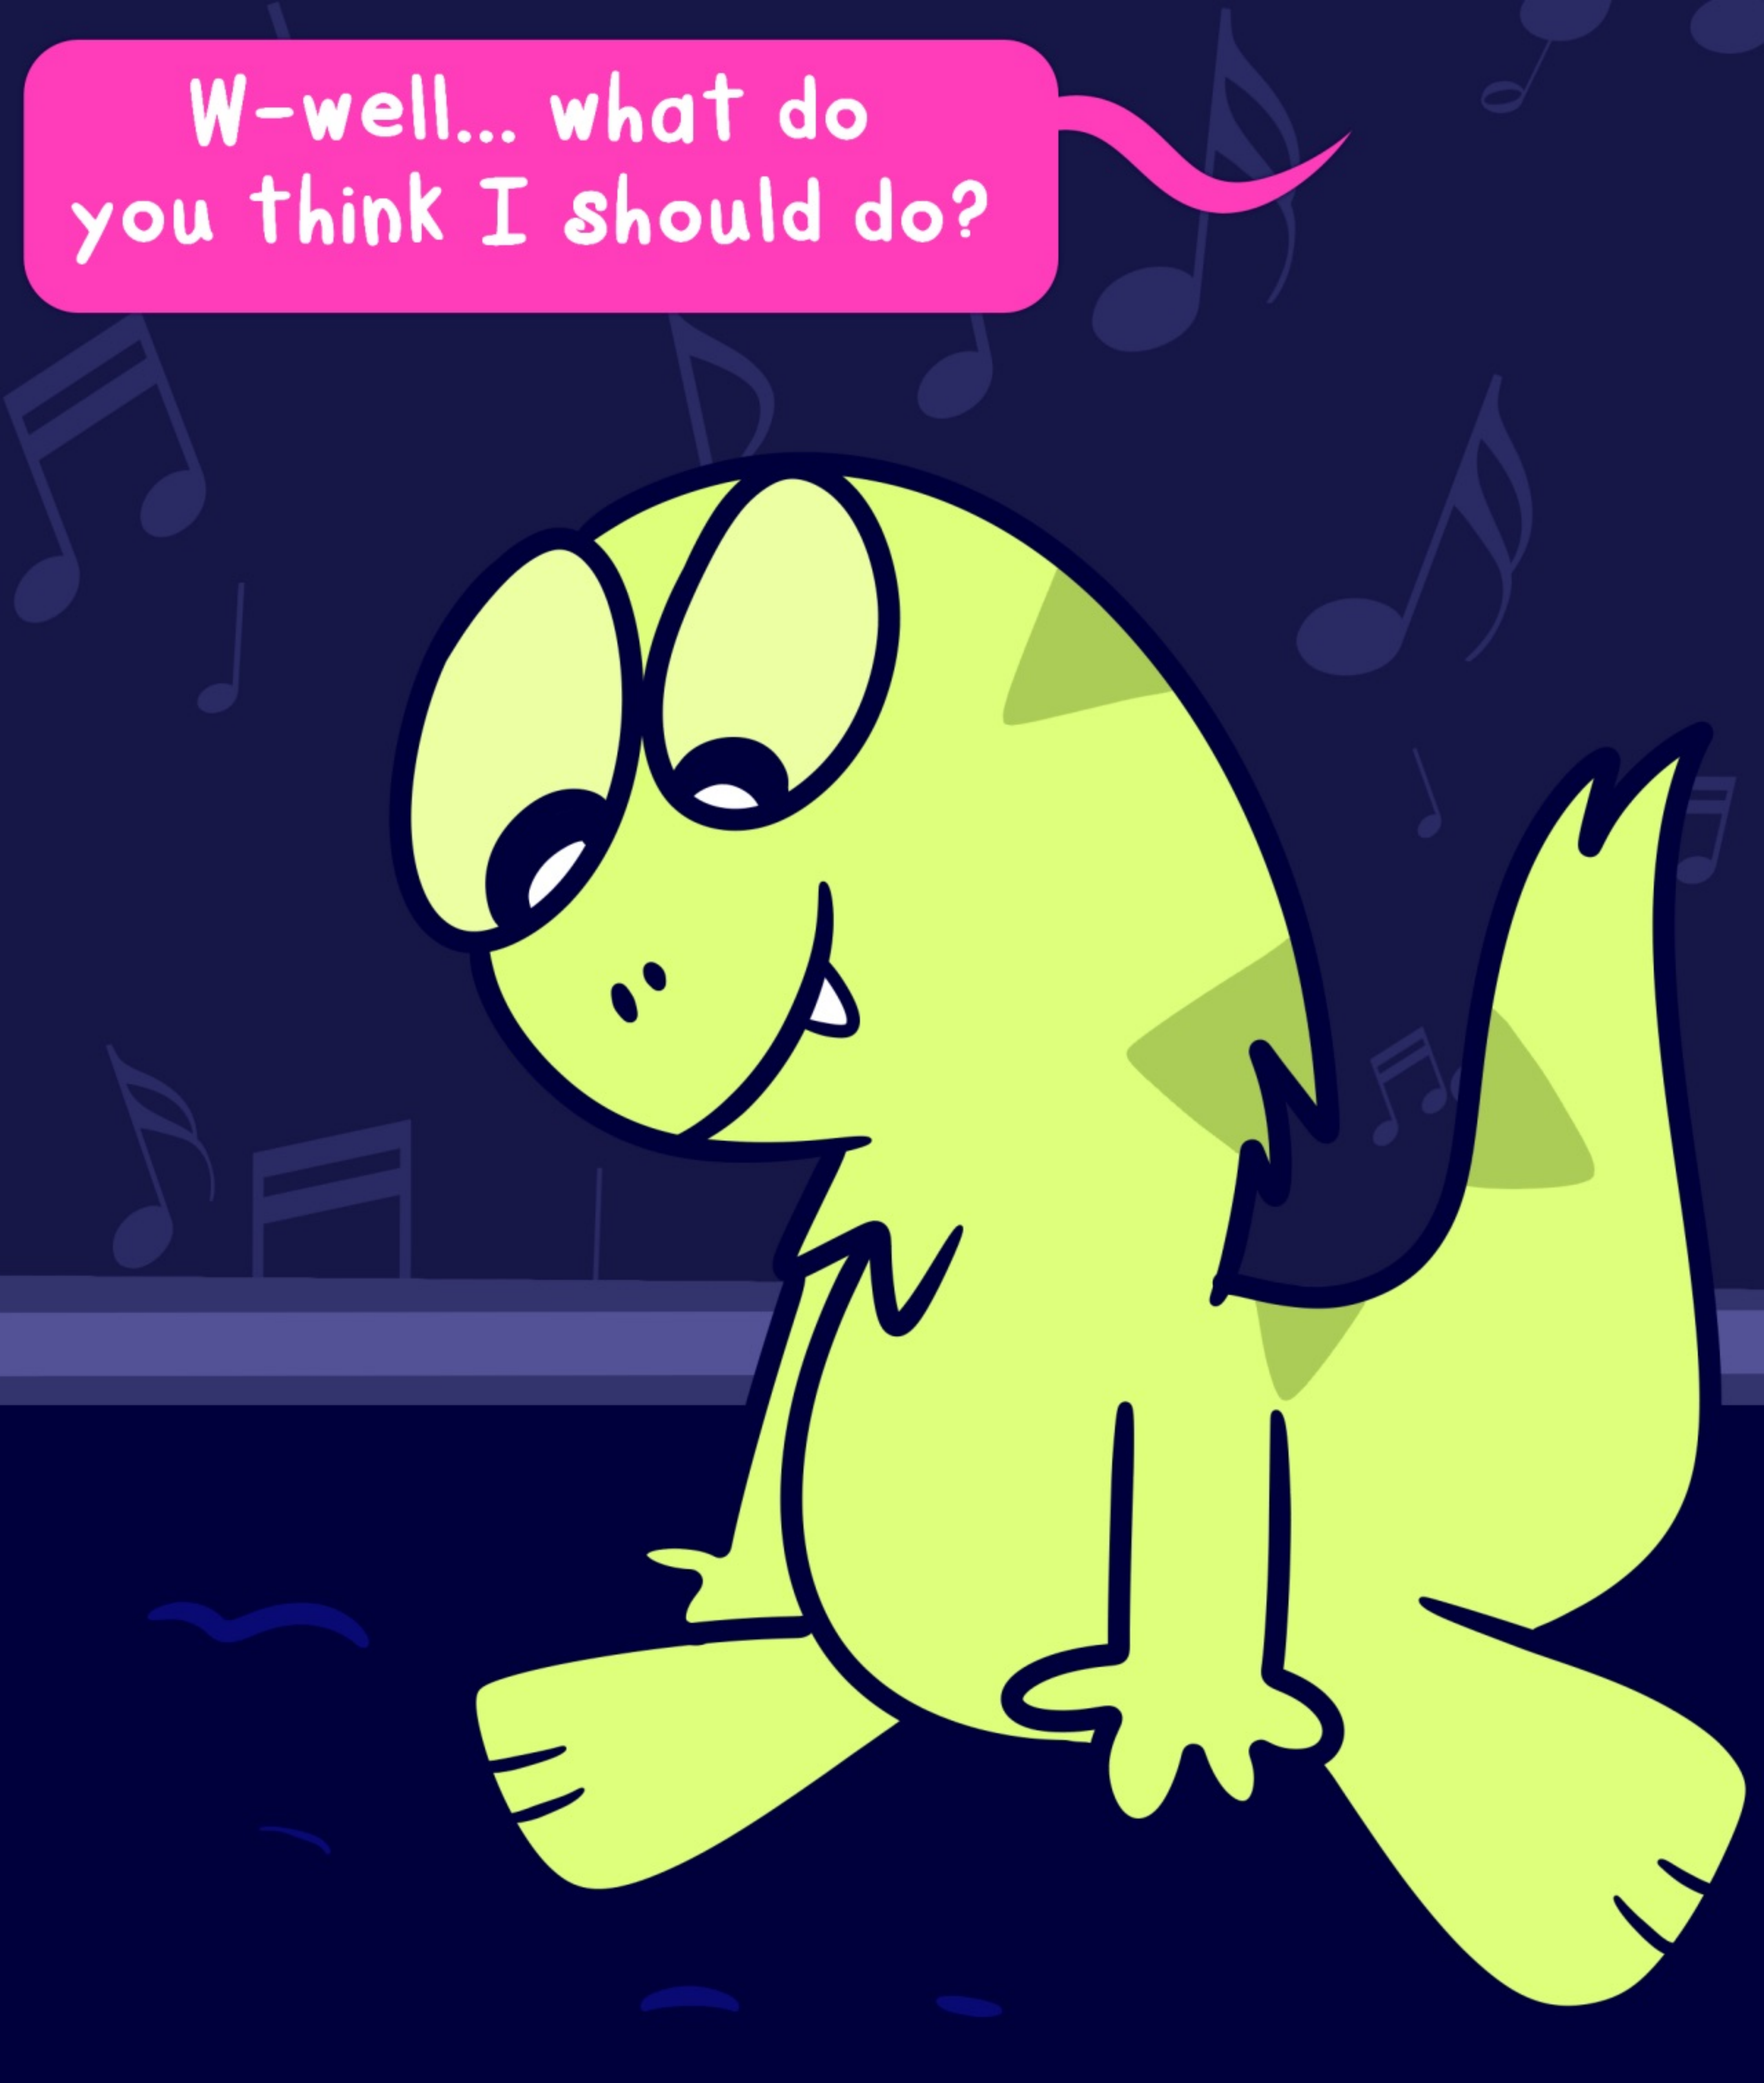


Okay, okay,
I´m here, what
is it ACTUALLY--

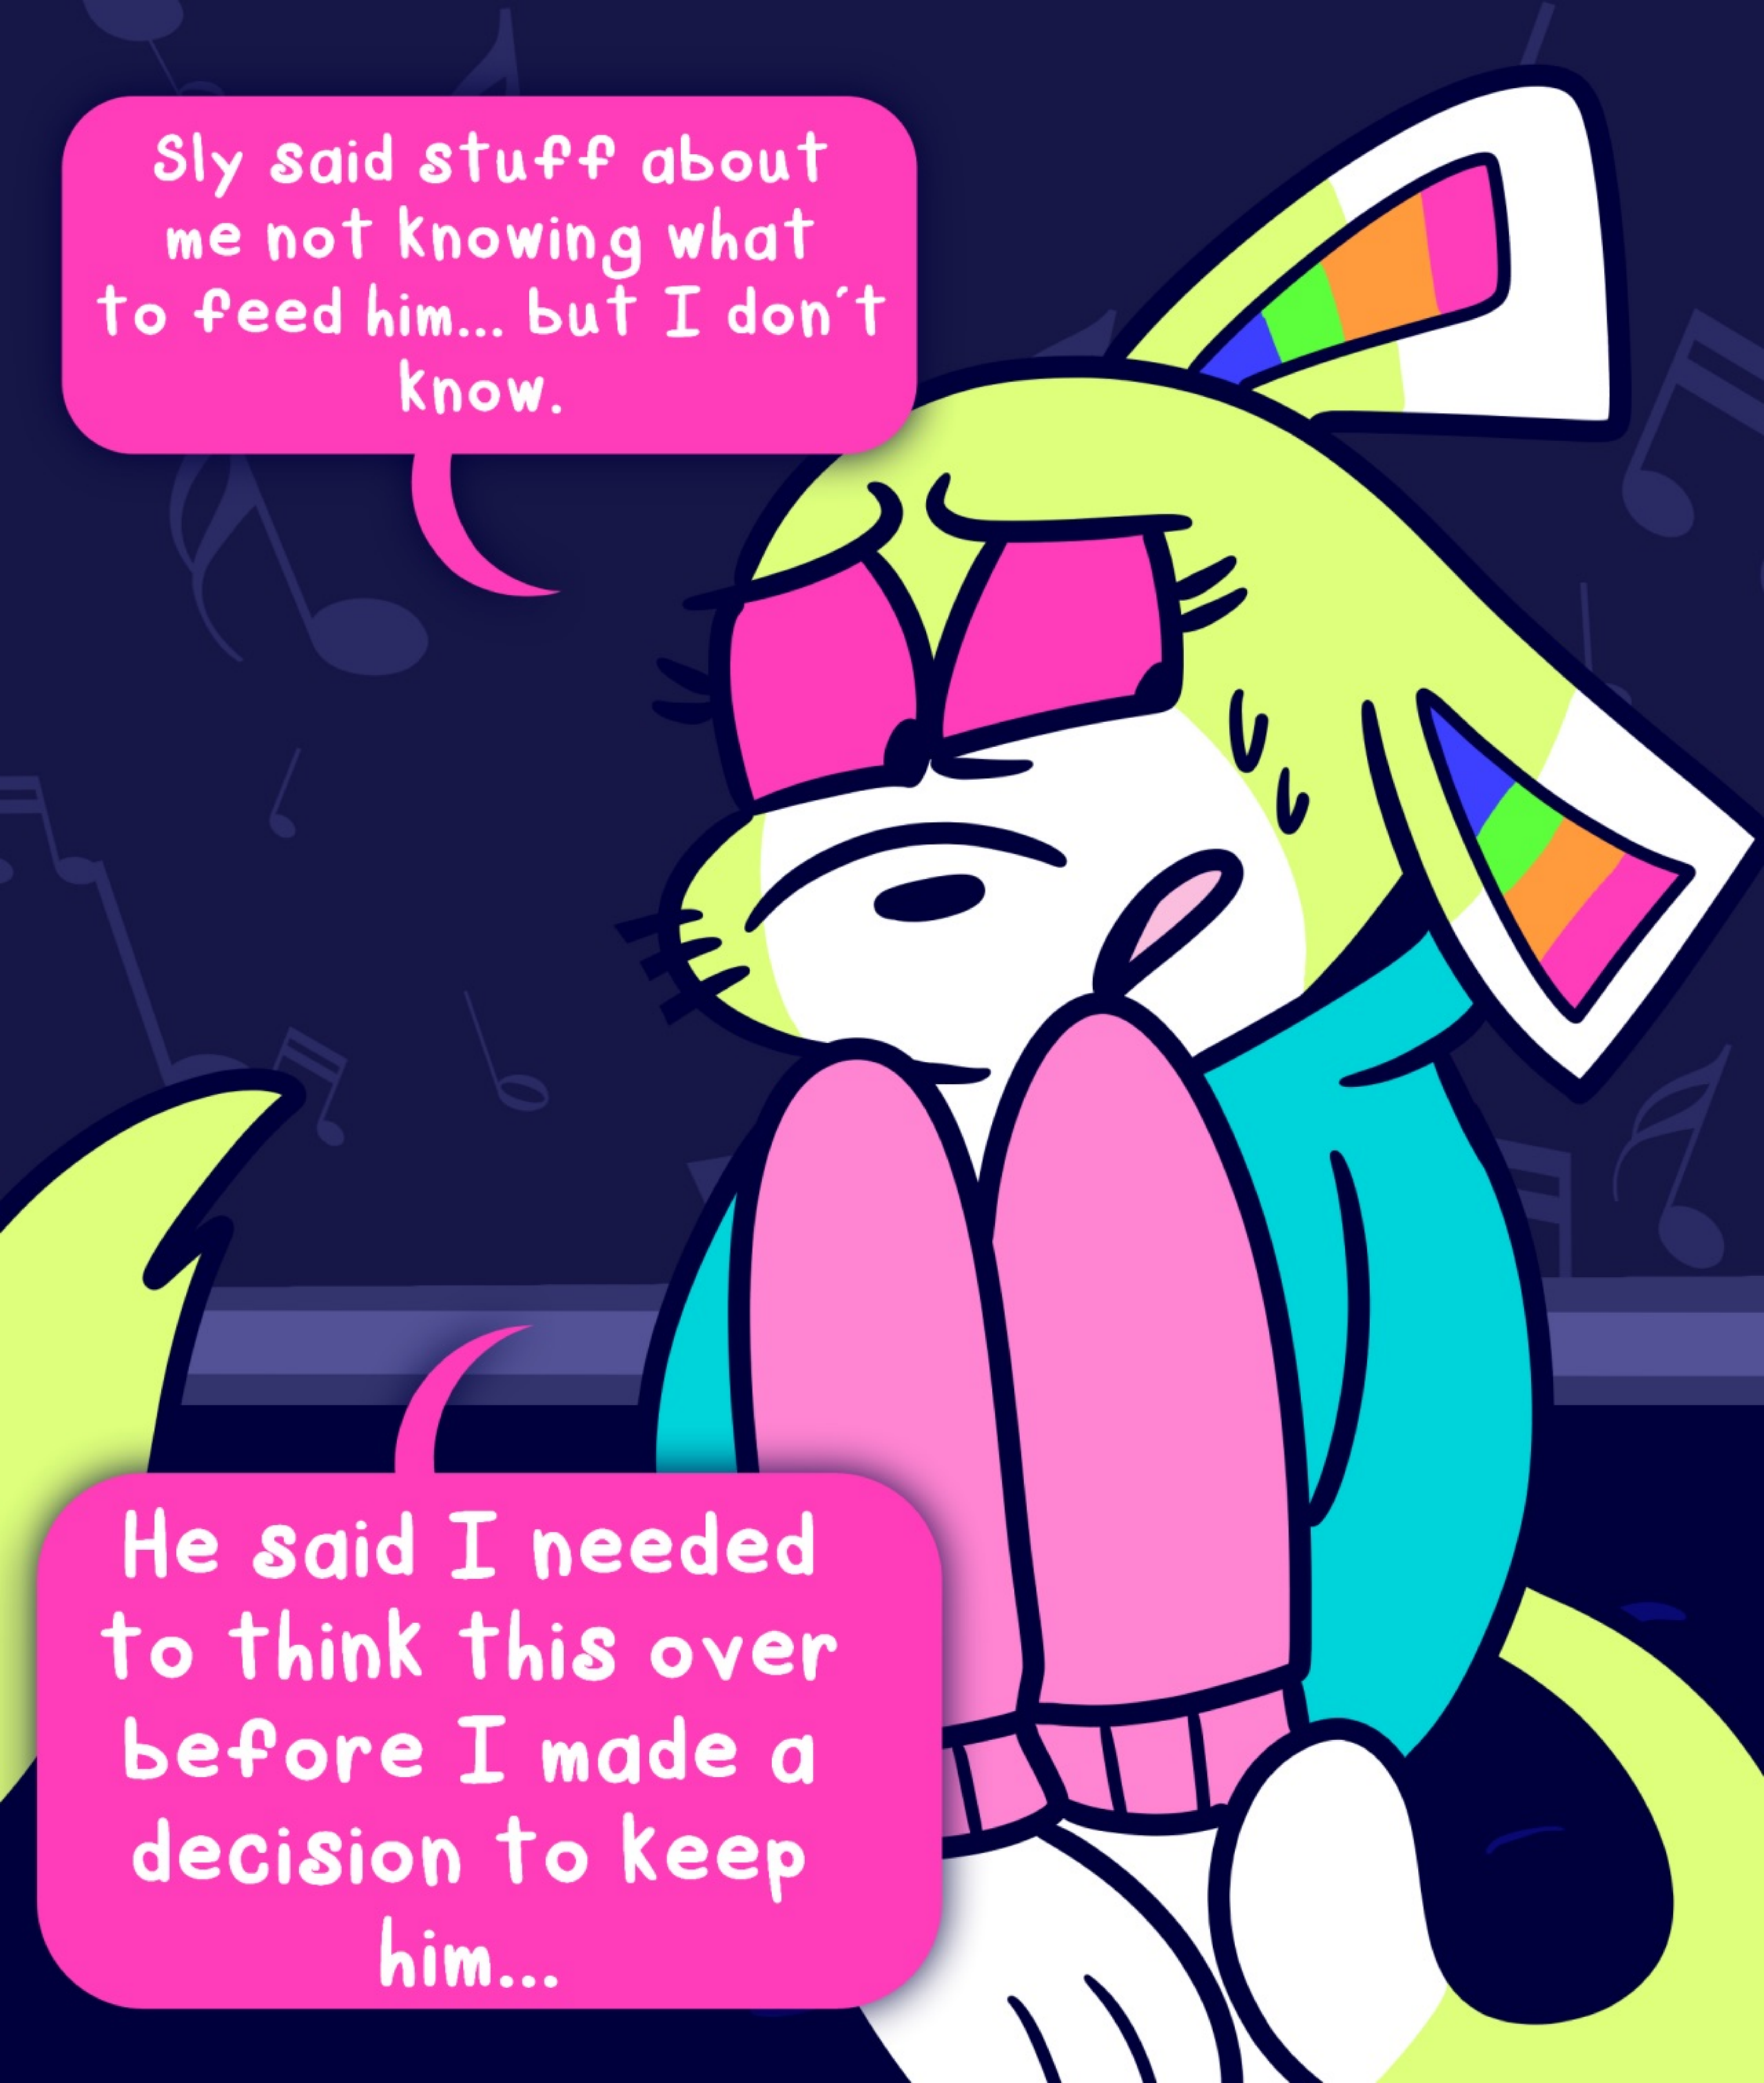




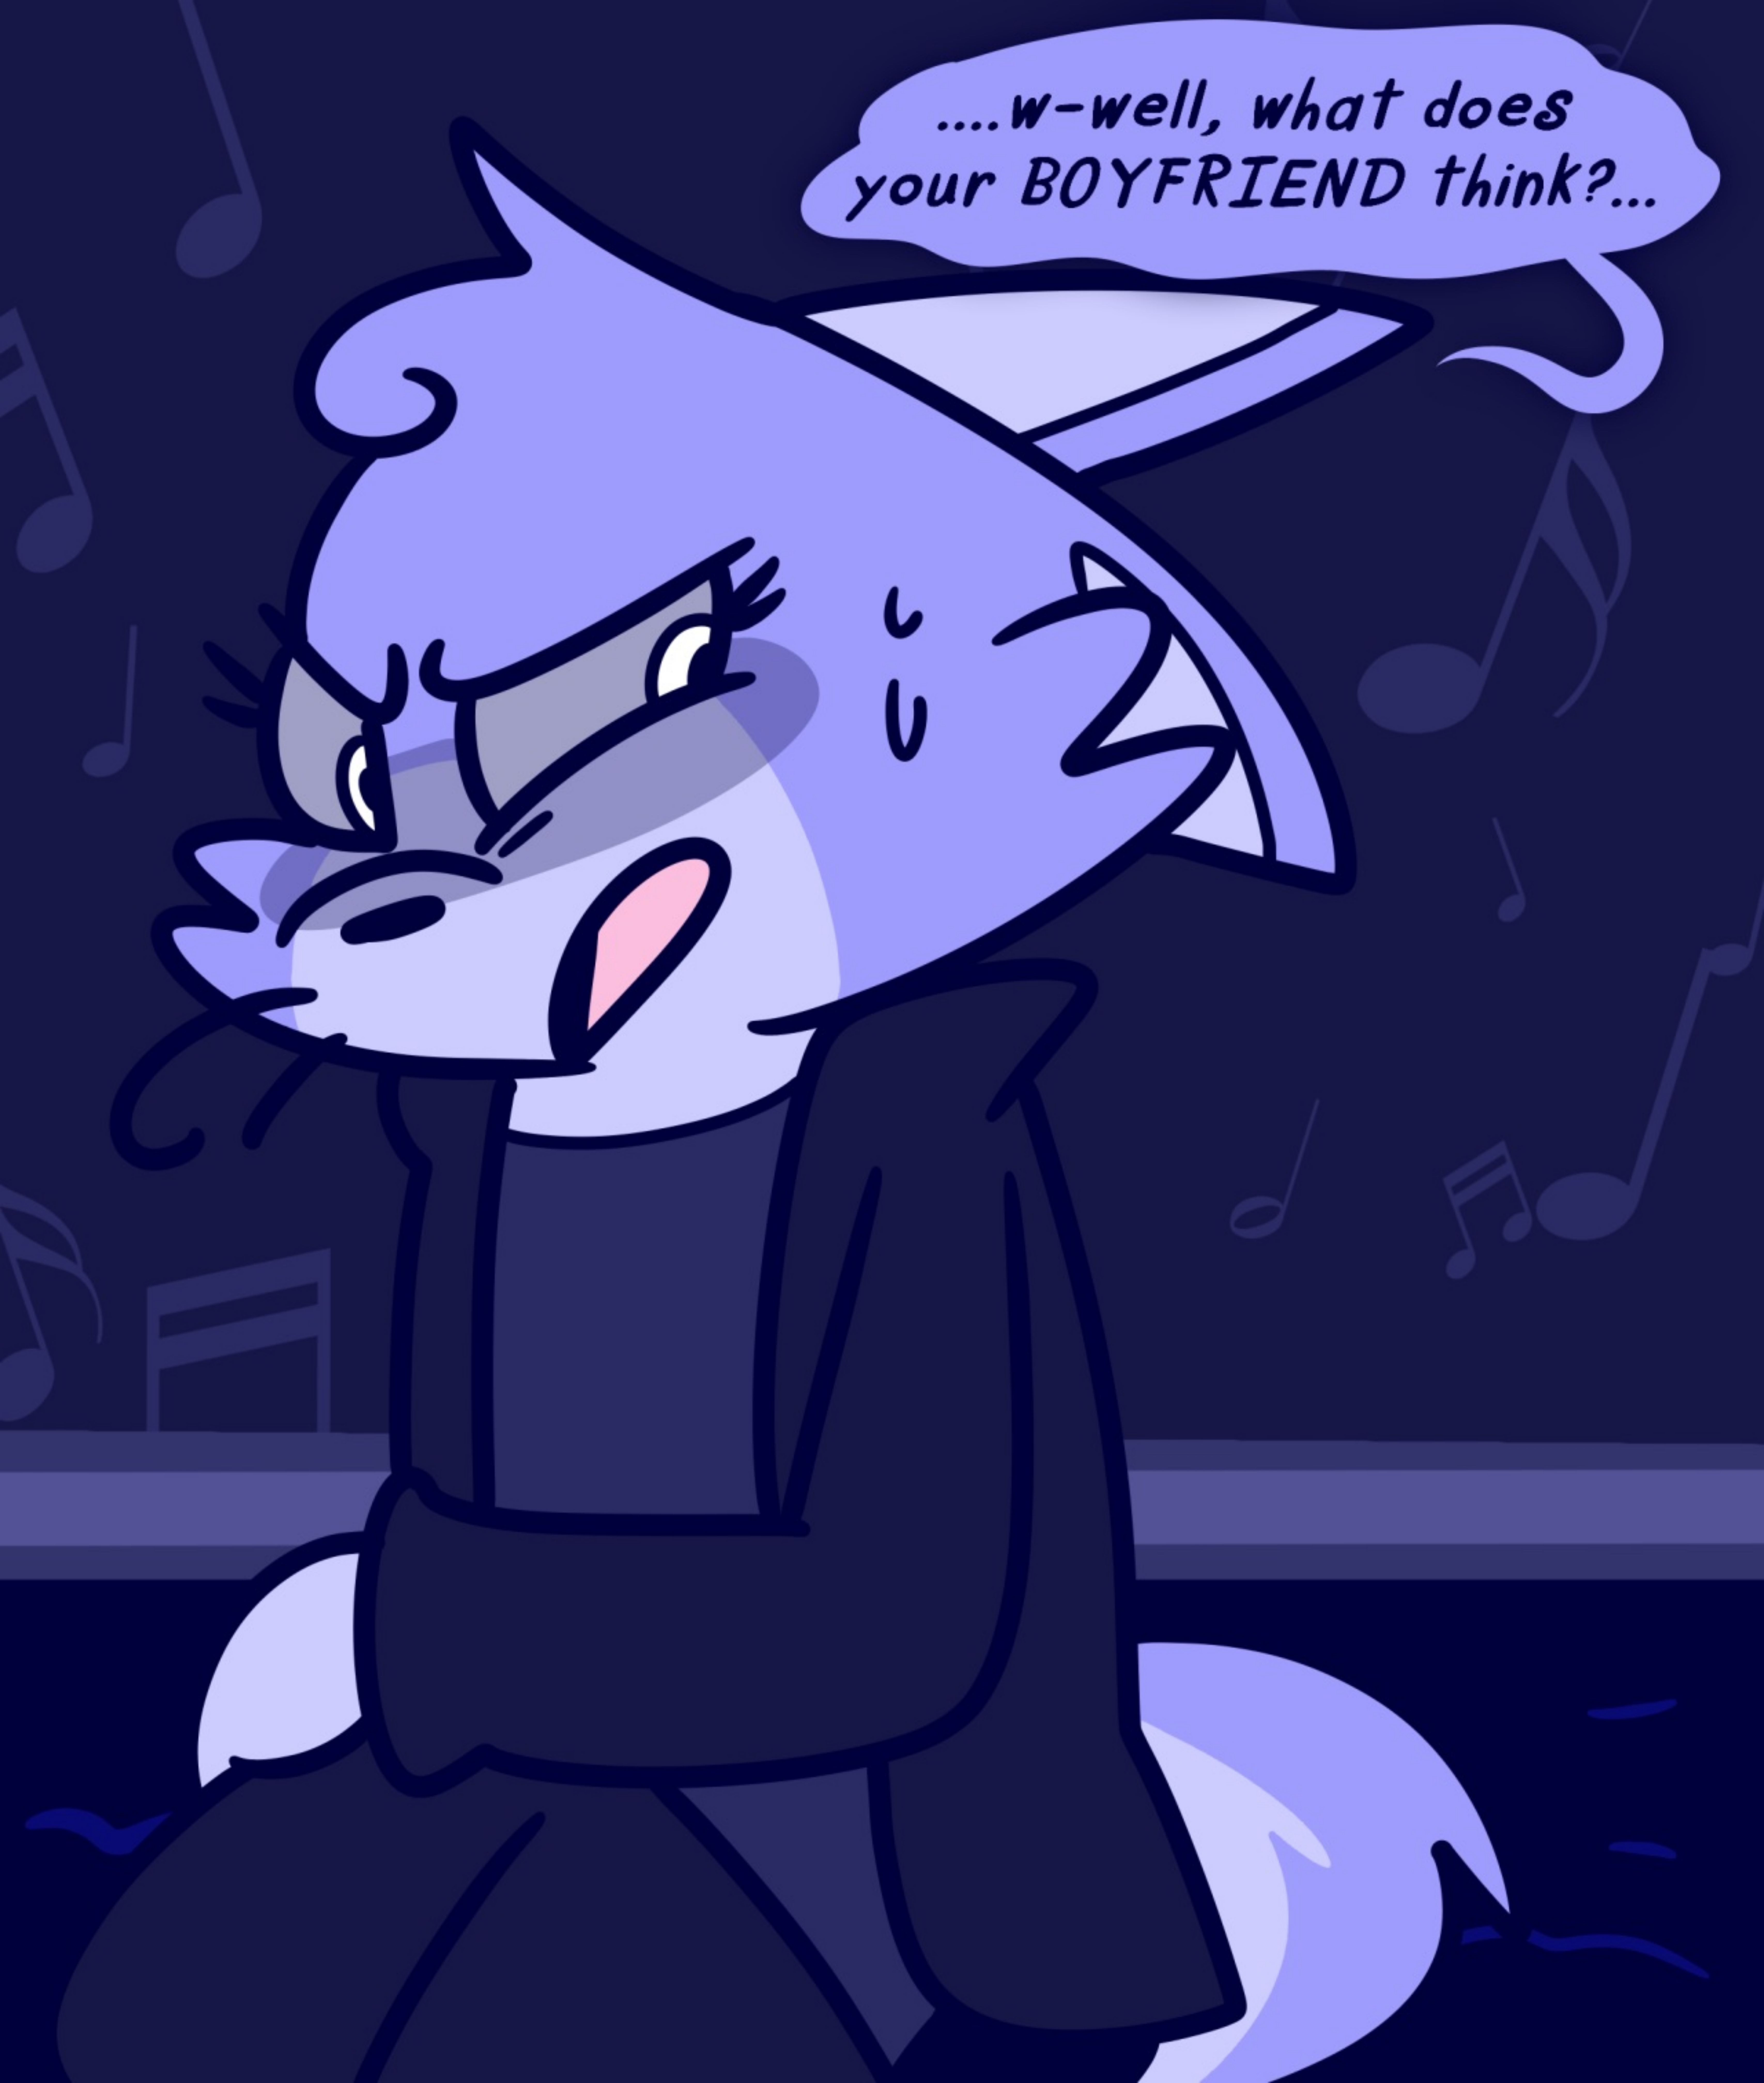
D-did I take my mom's vitamins again?...



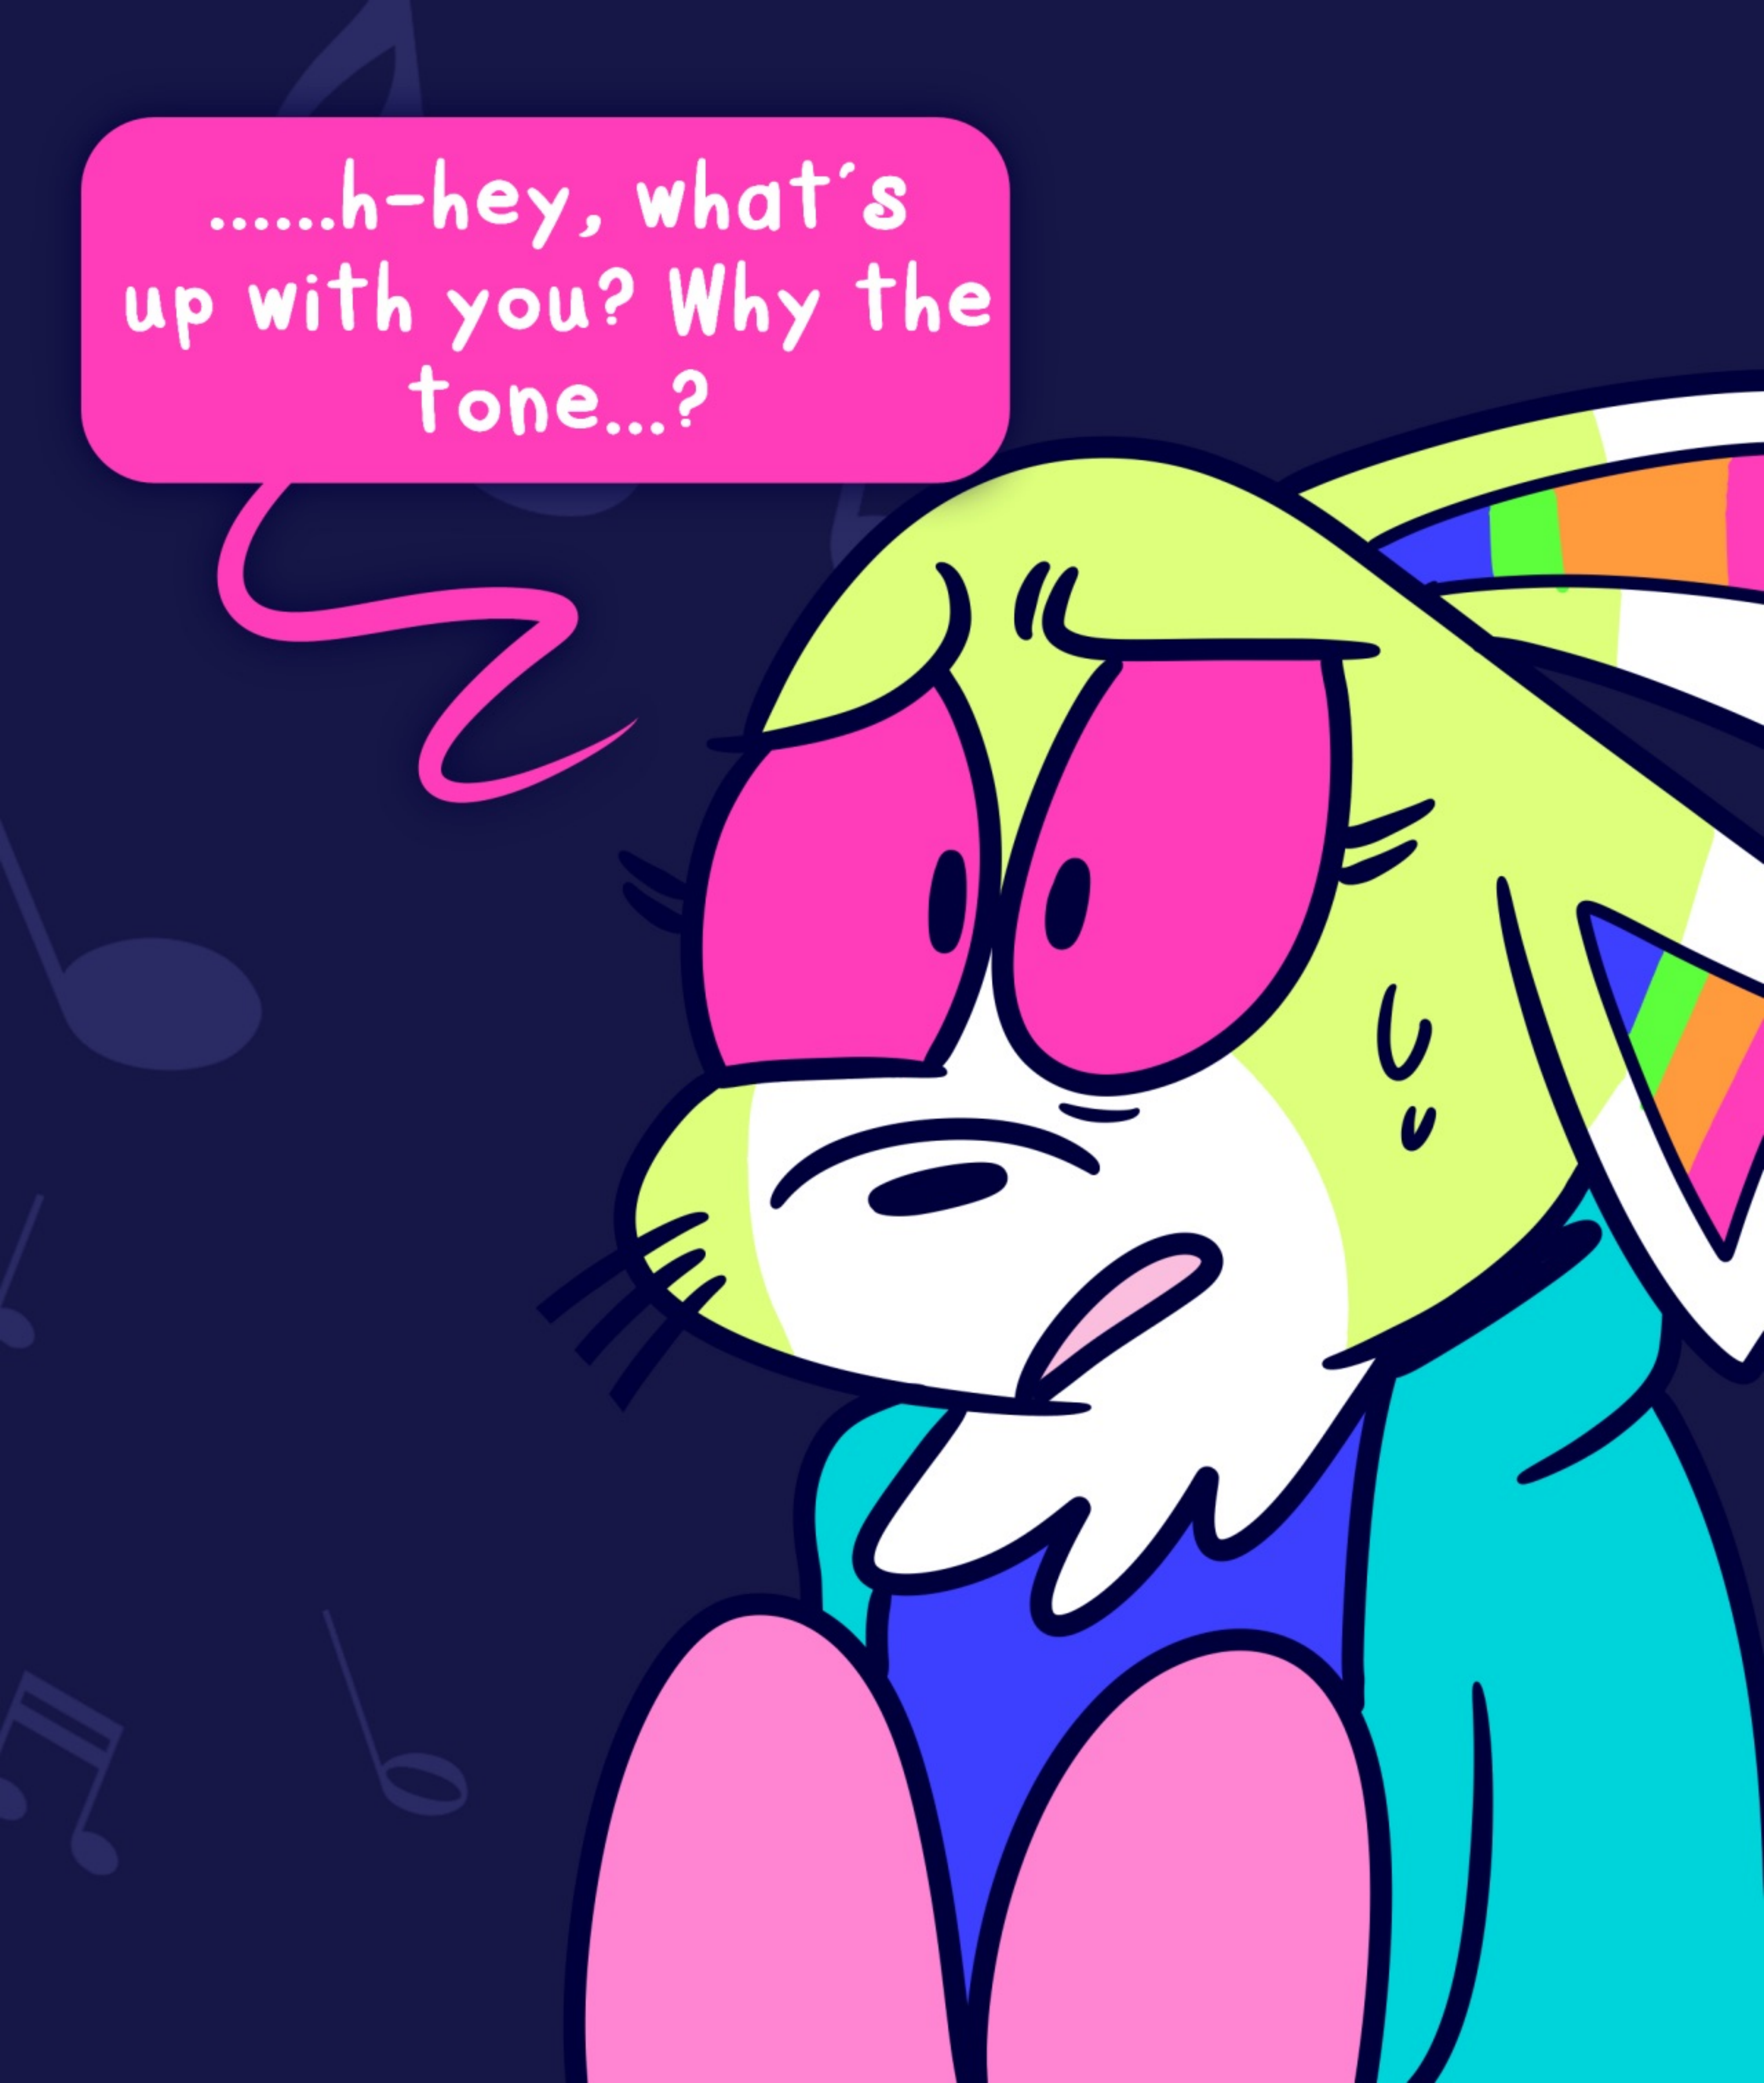
W-well... what do you think I should do?



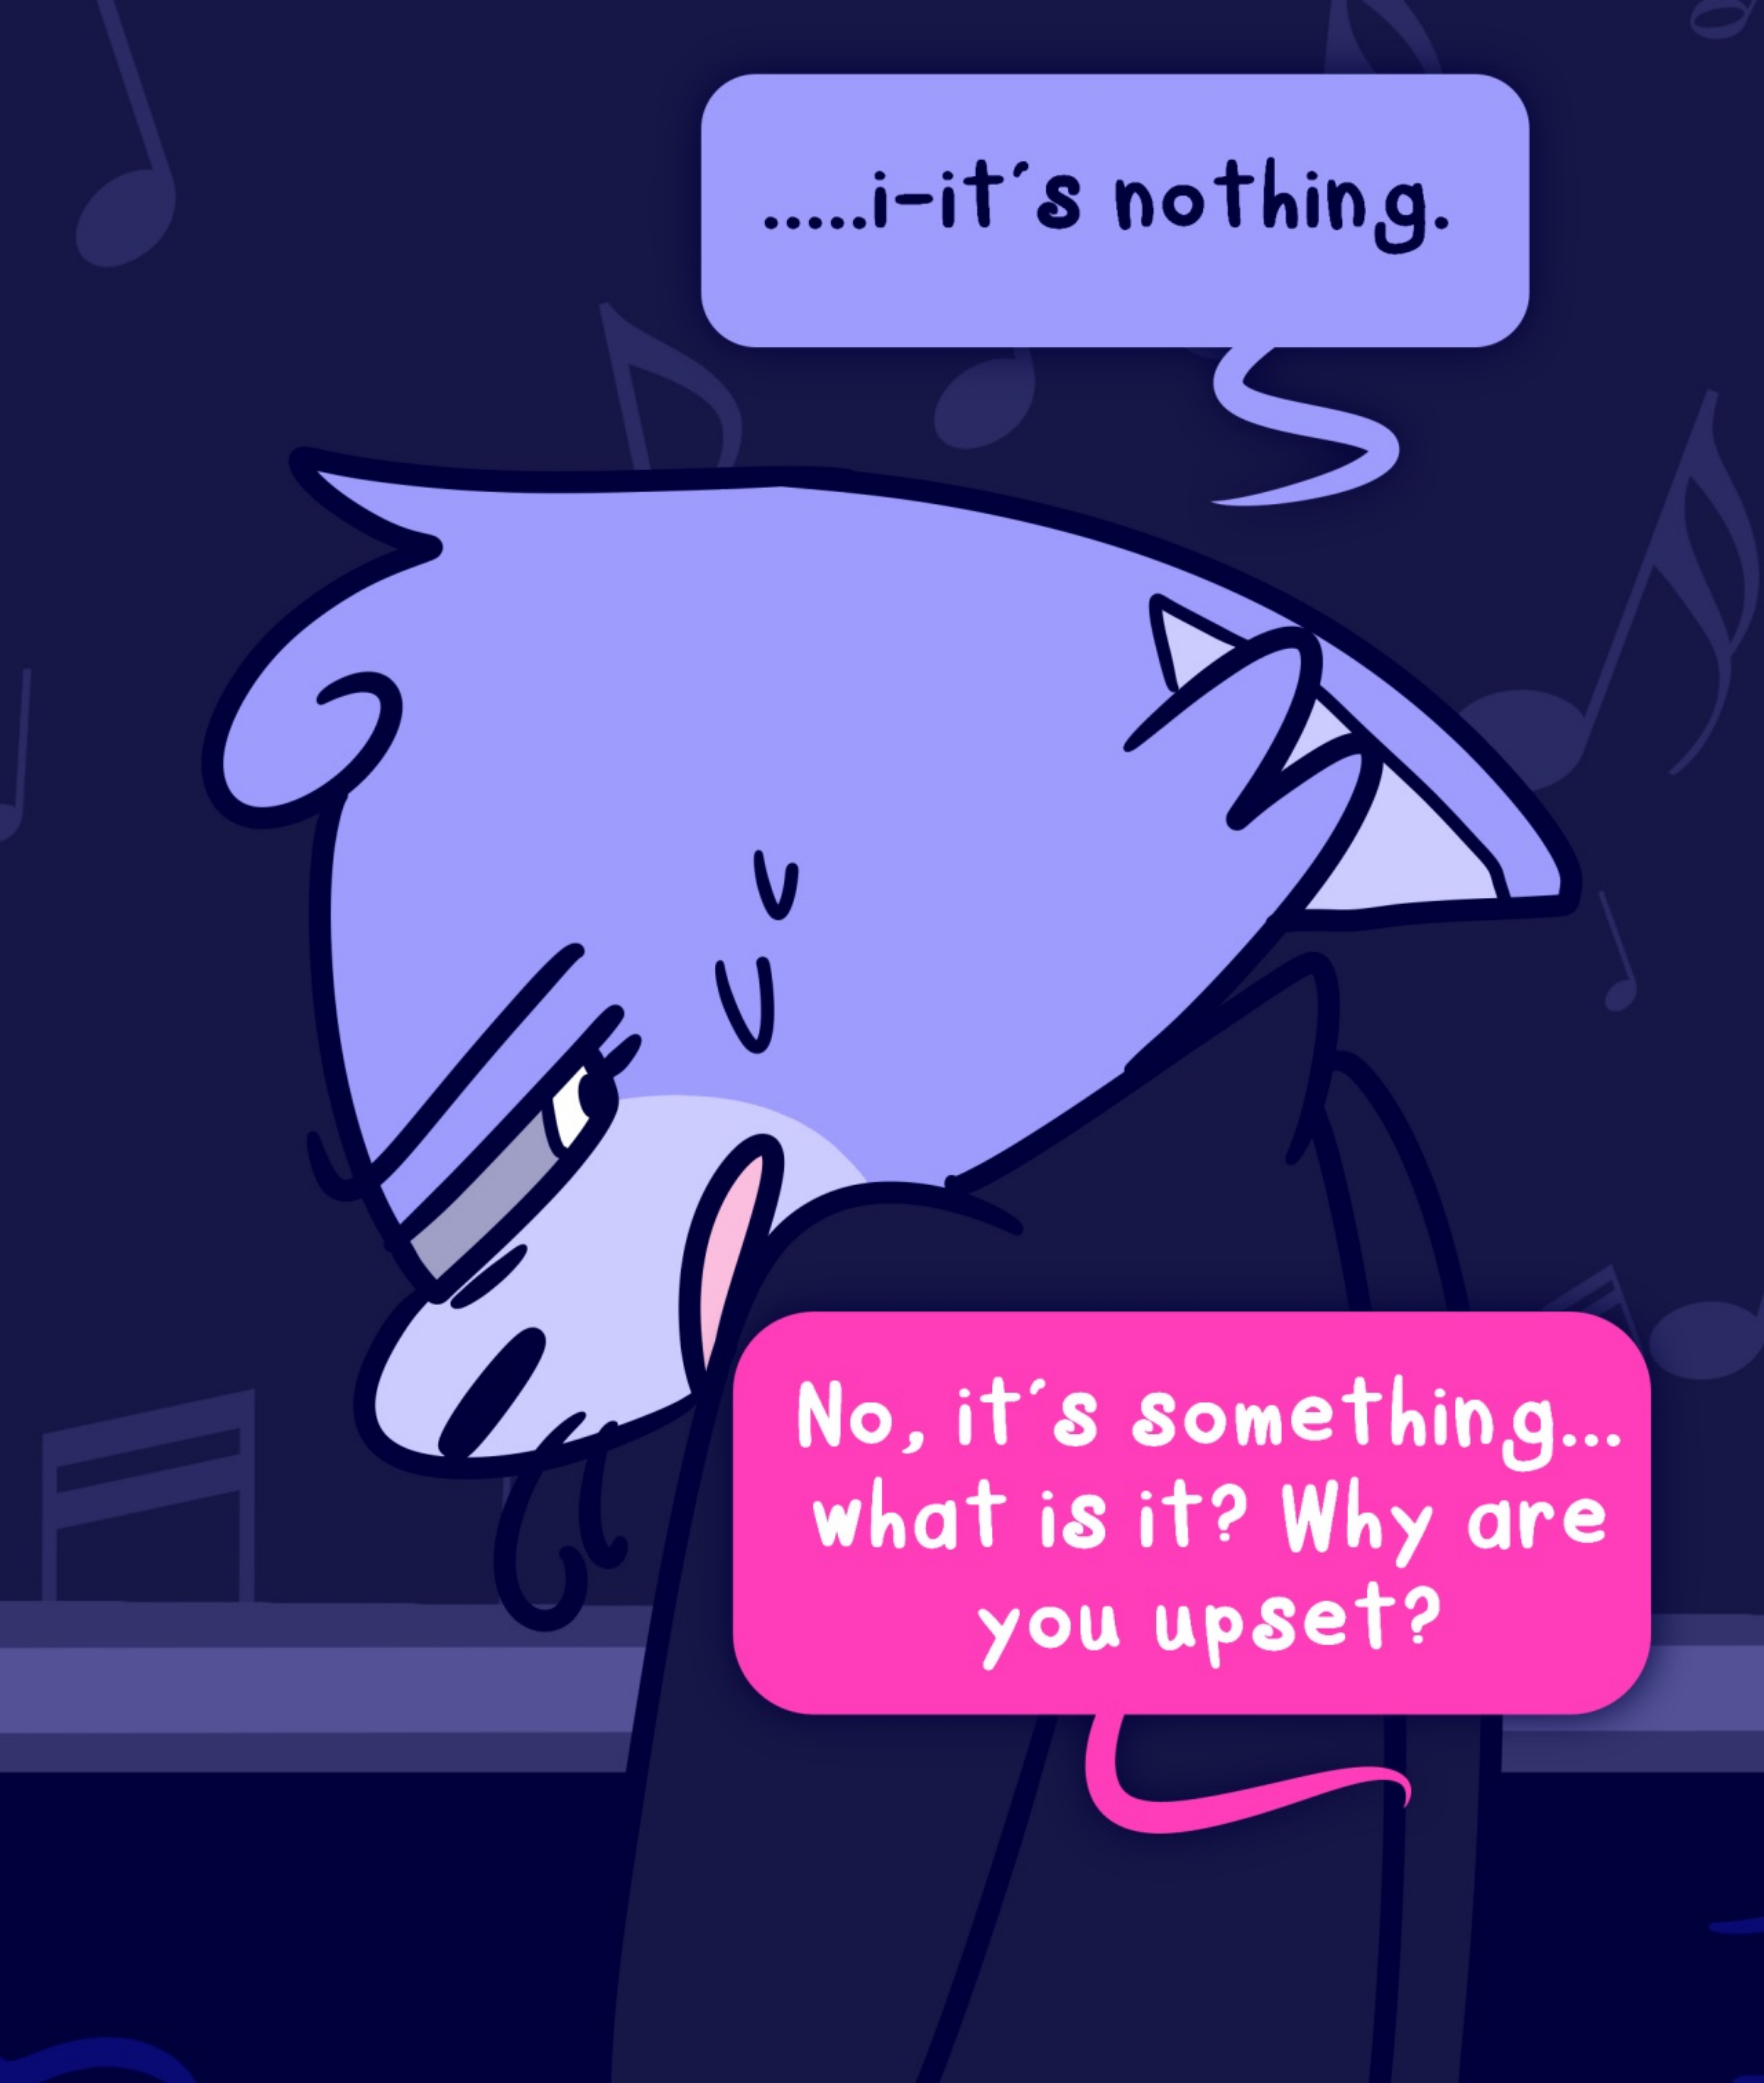
Sly said stuff about me not knowing what to feed him... but I don´t know.
He said I needed to think this over before I made a decision to keep him...



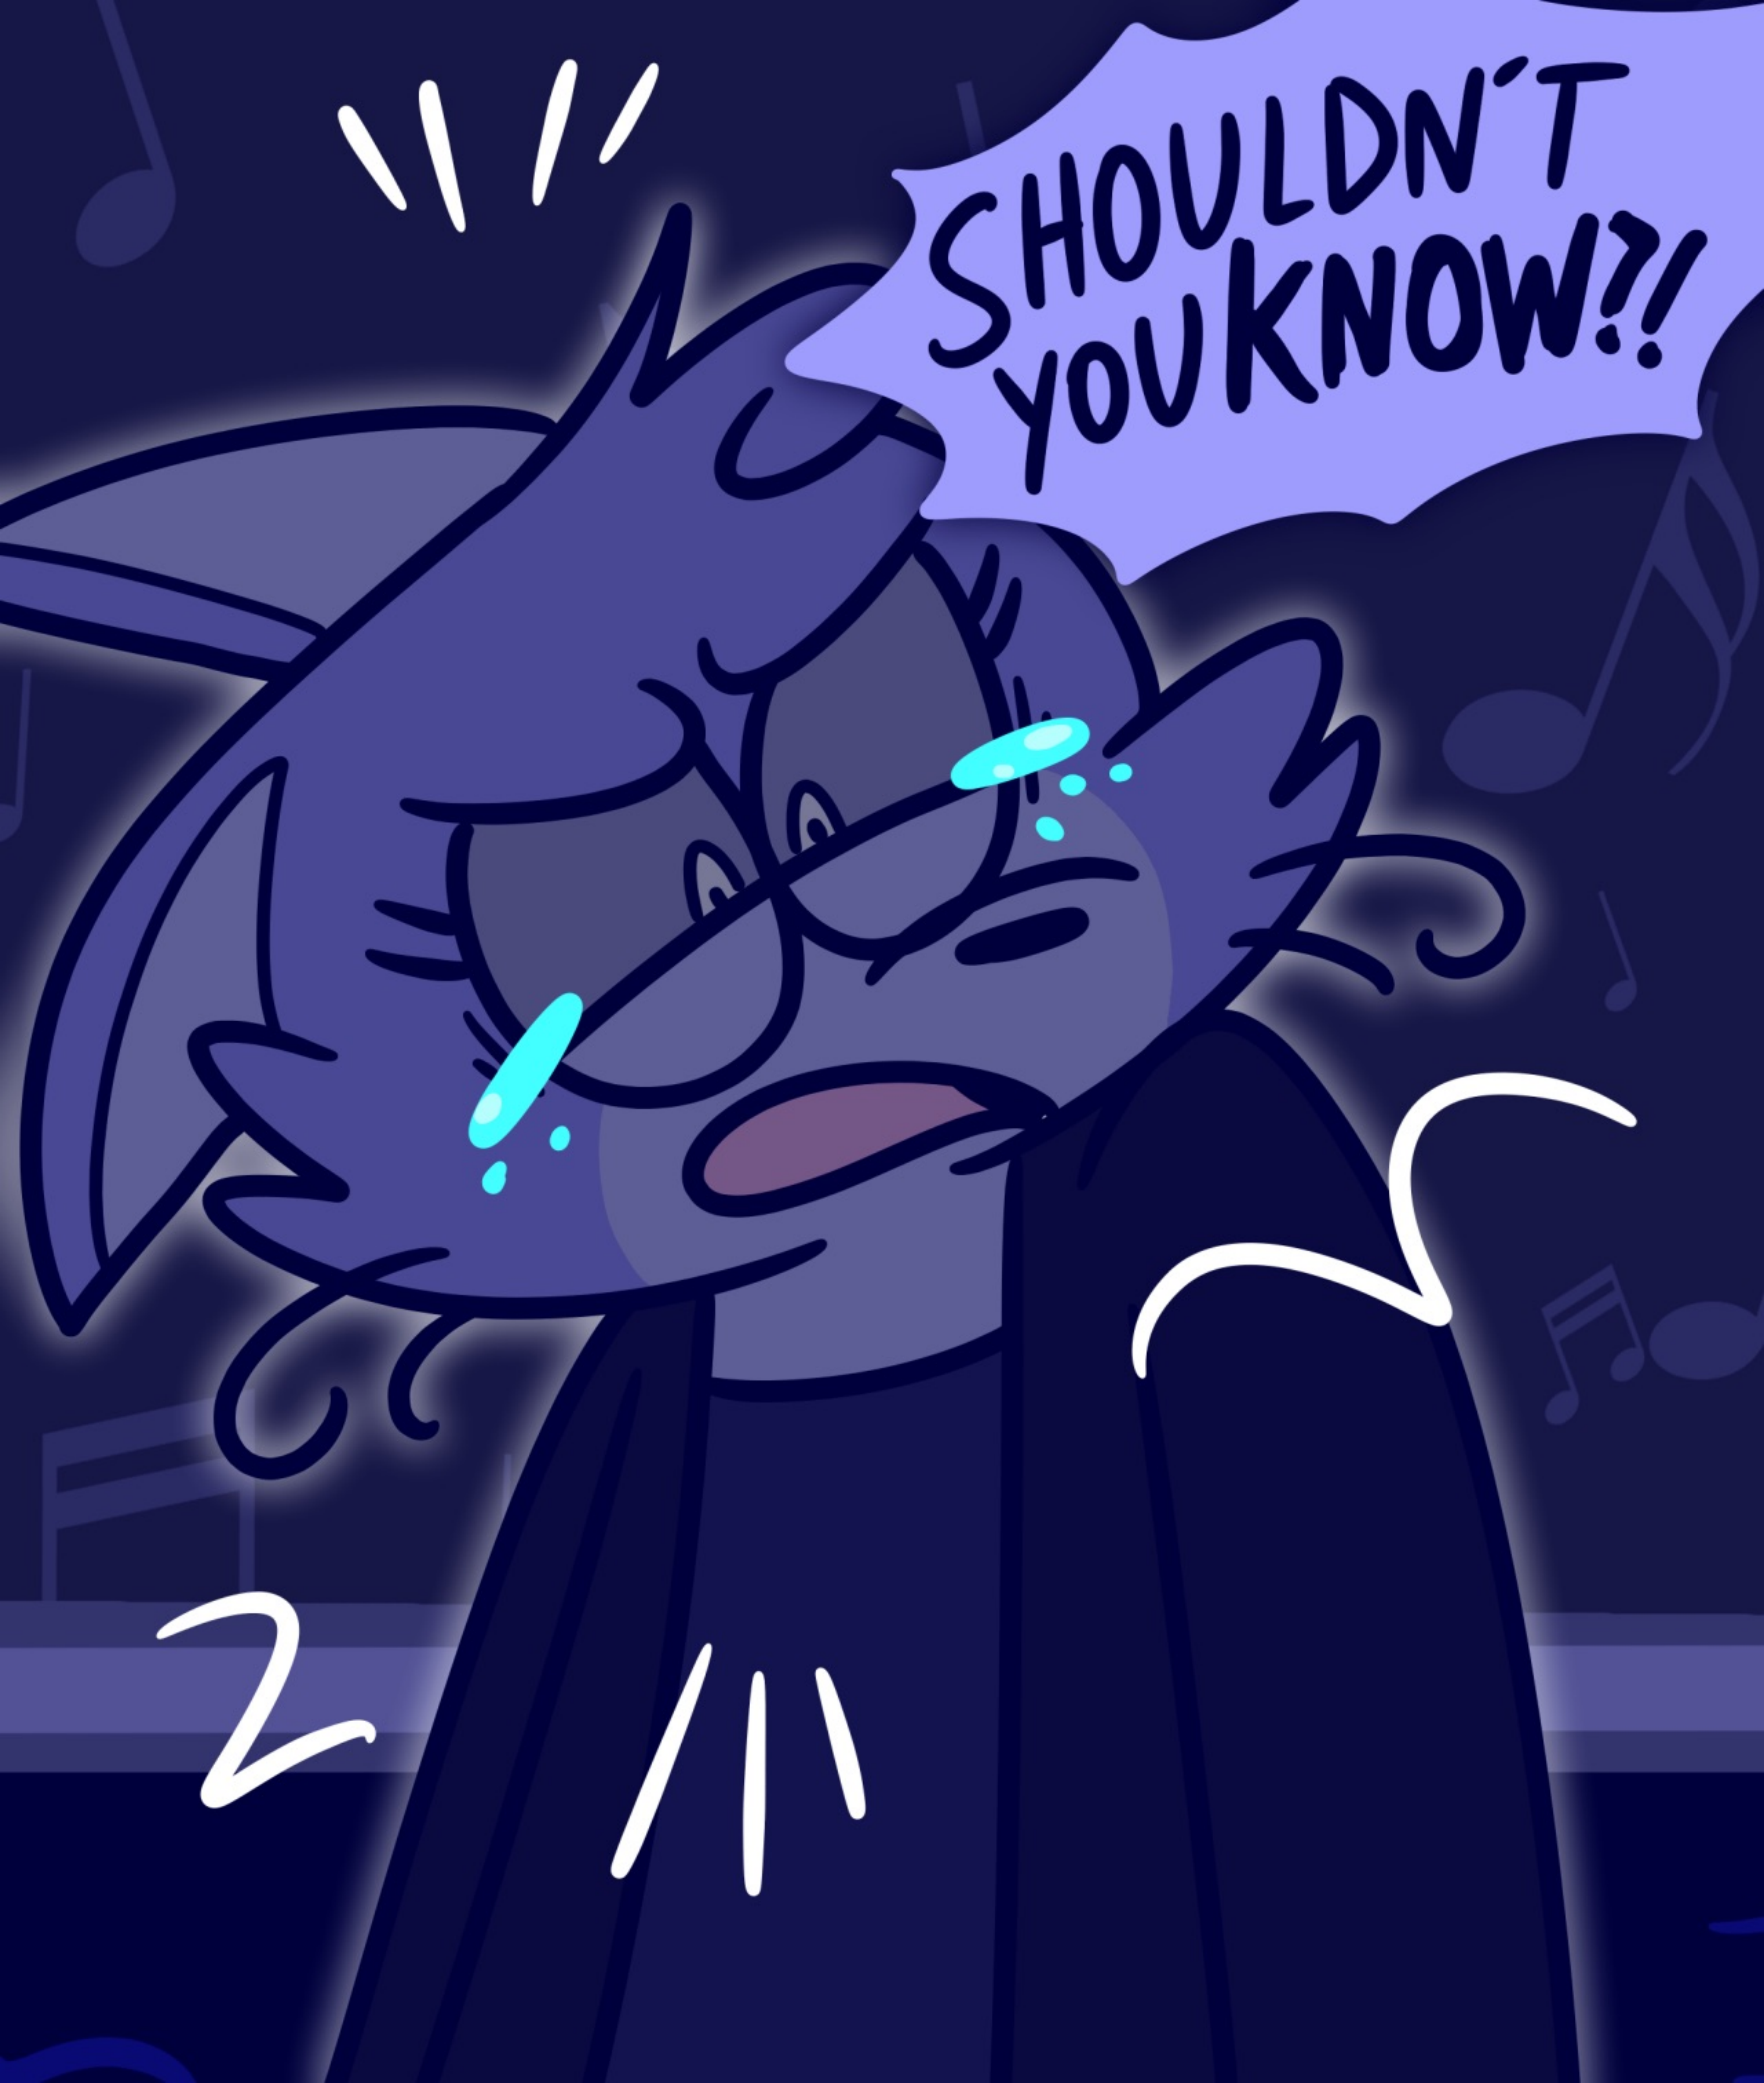
....w-well, what does your BOYFRIEND think?...



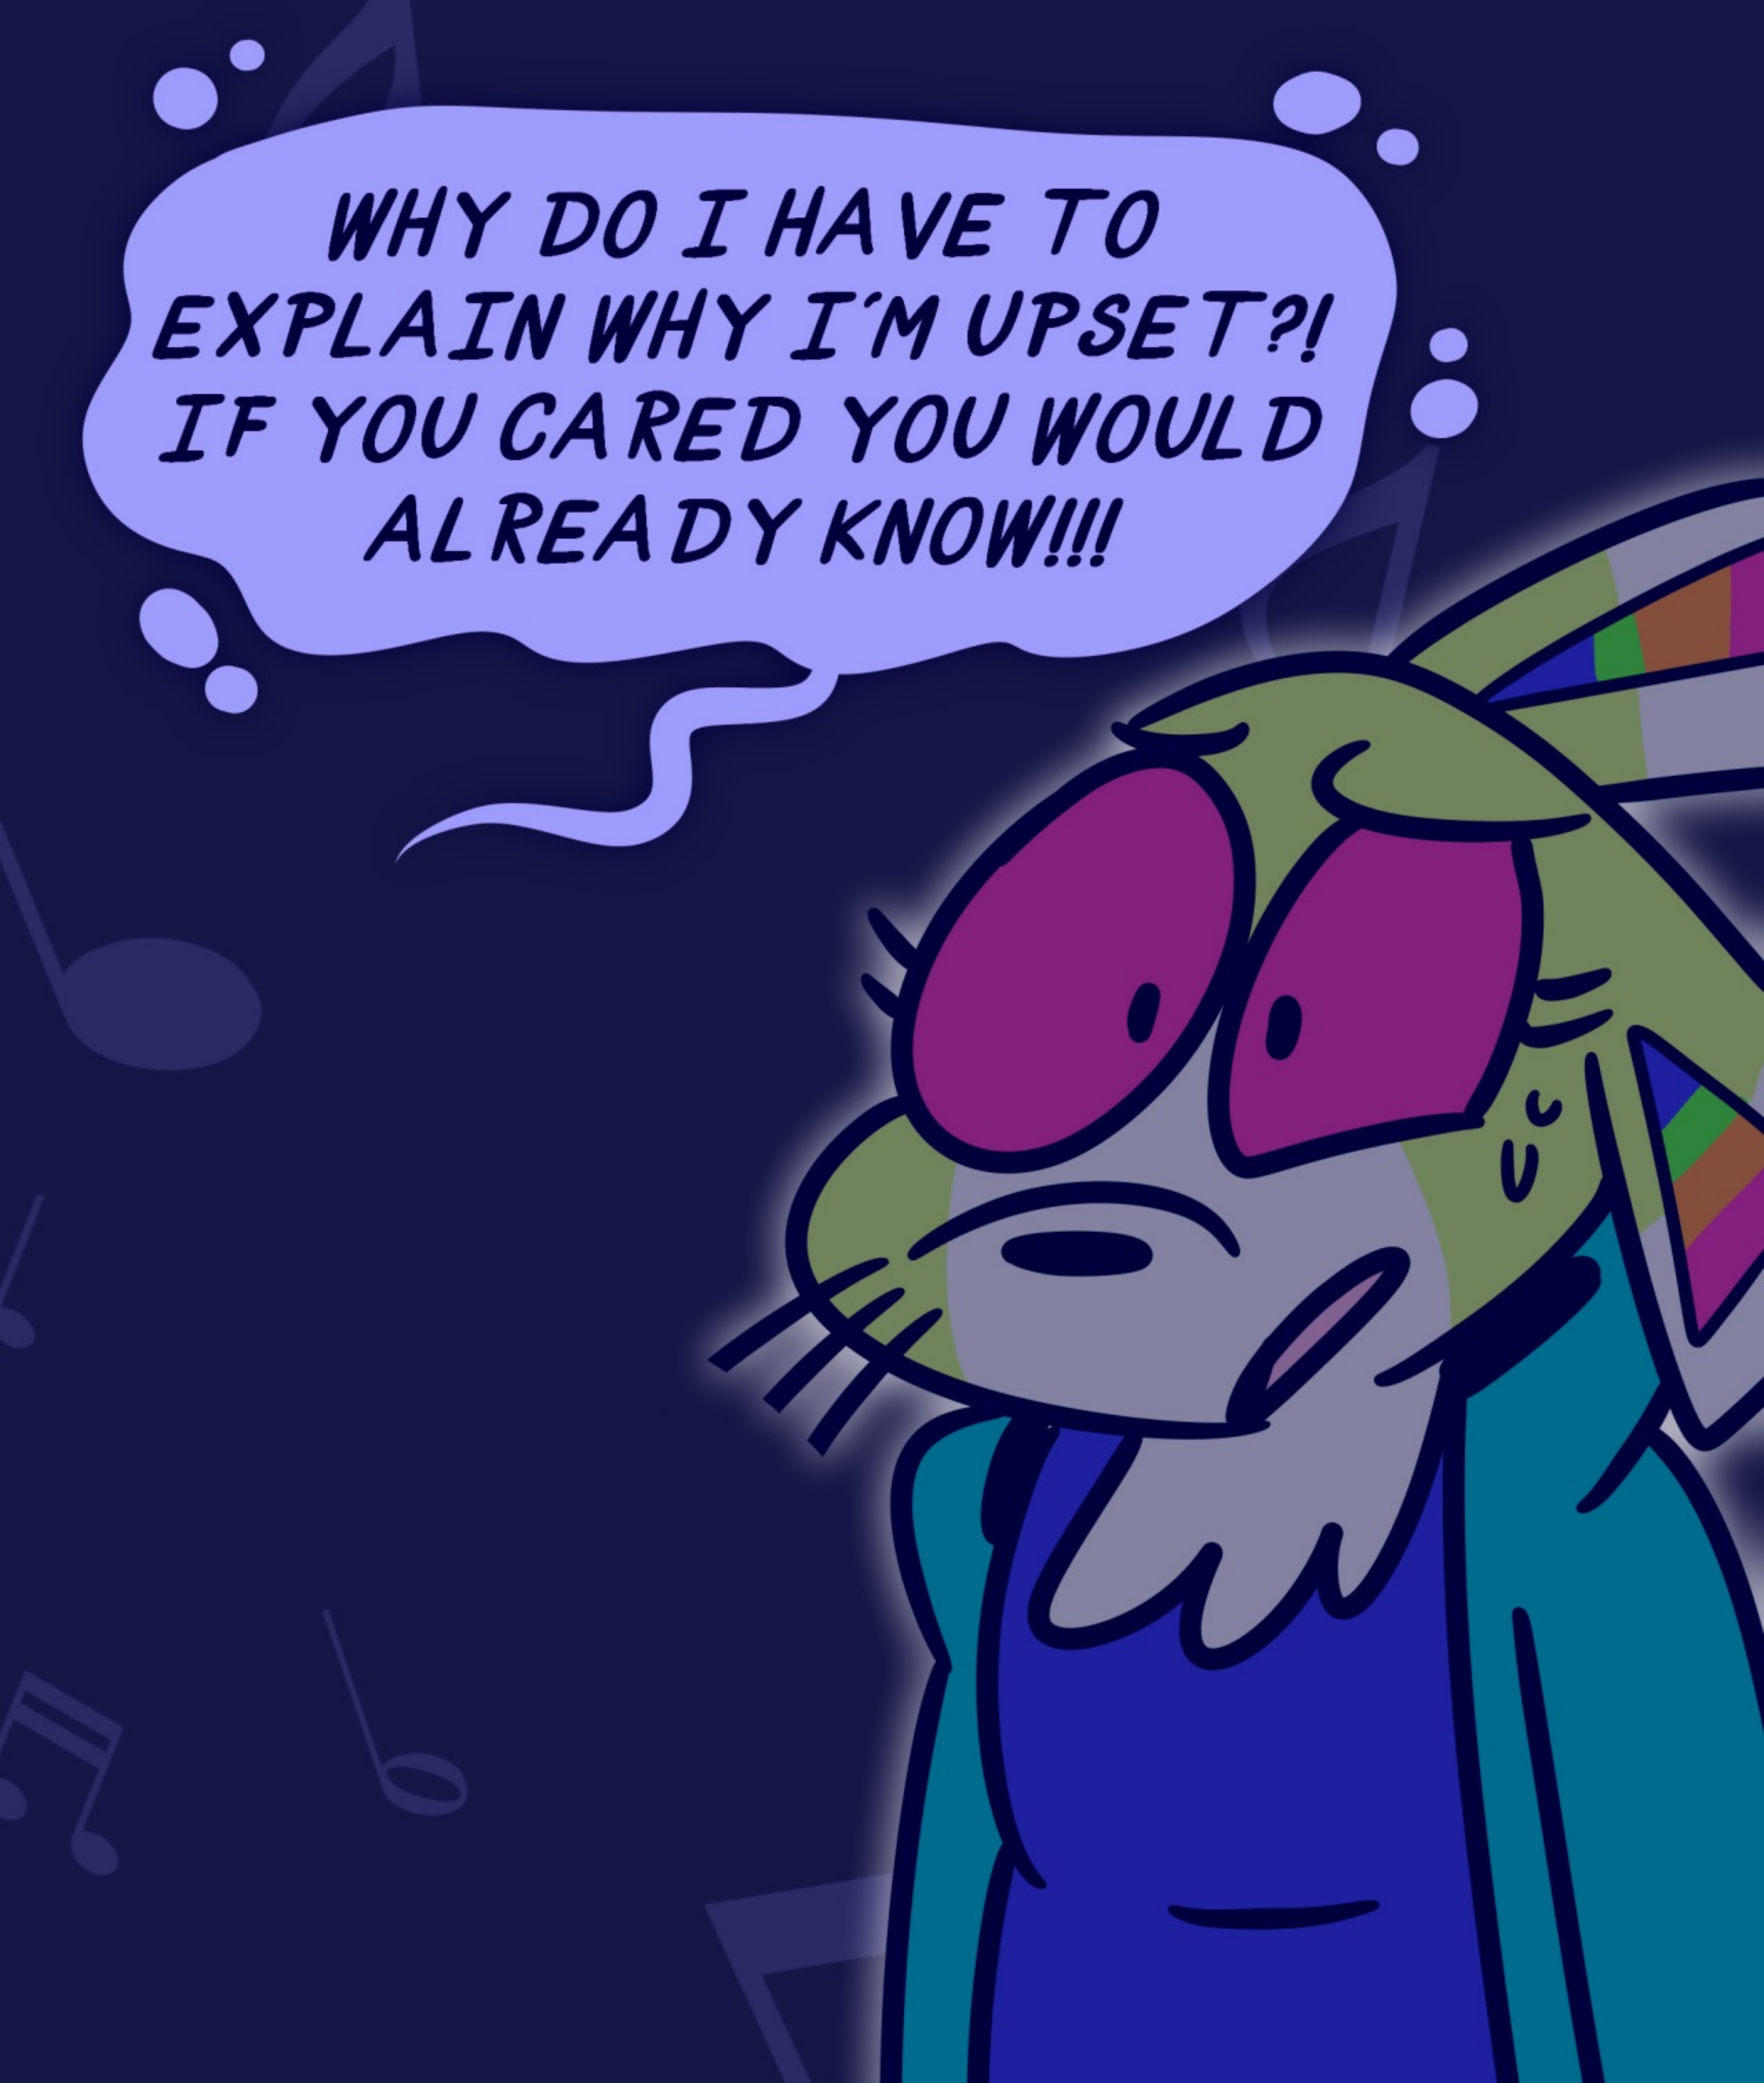
......h-hey, what´s up with you? Why the tone...?



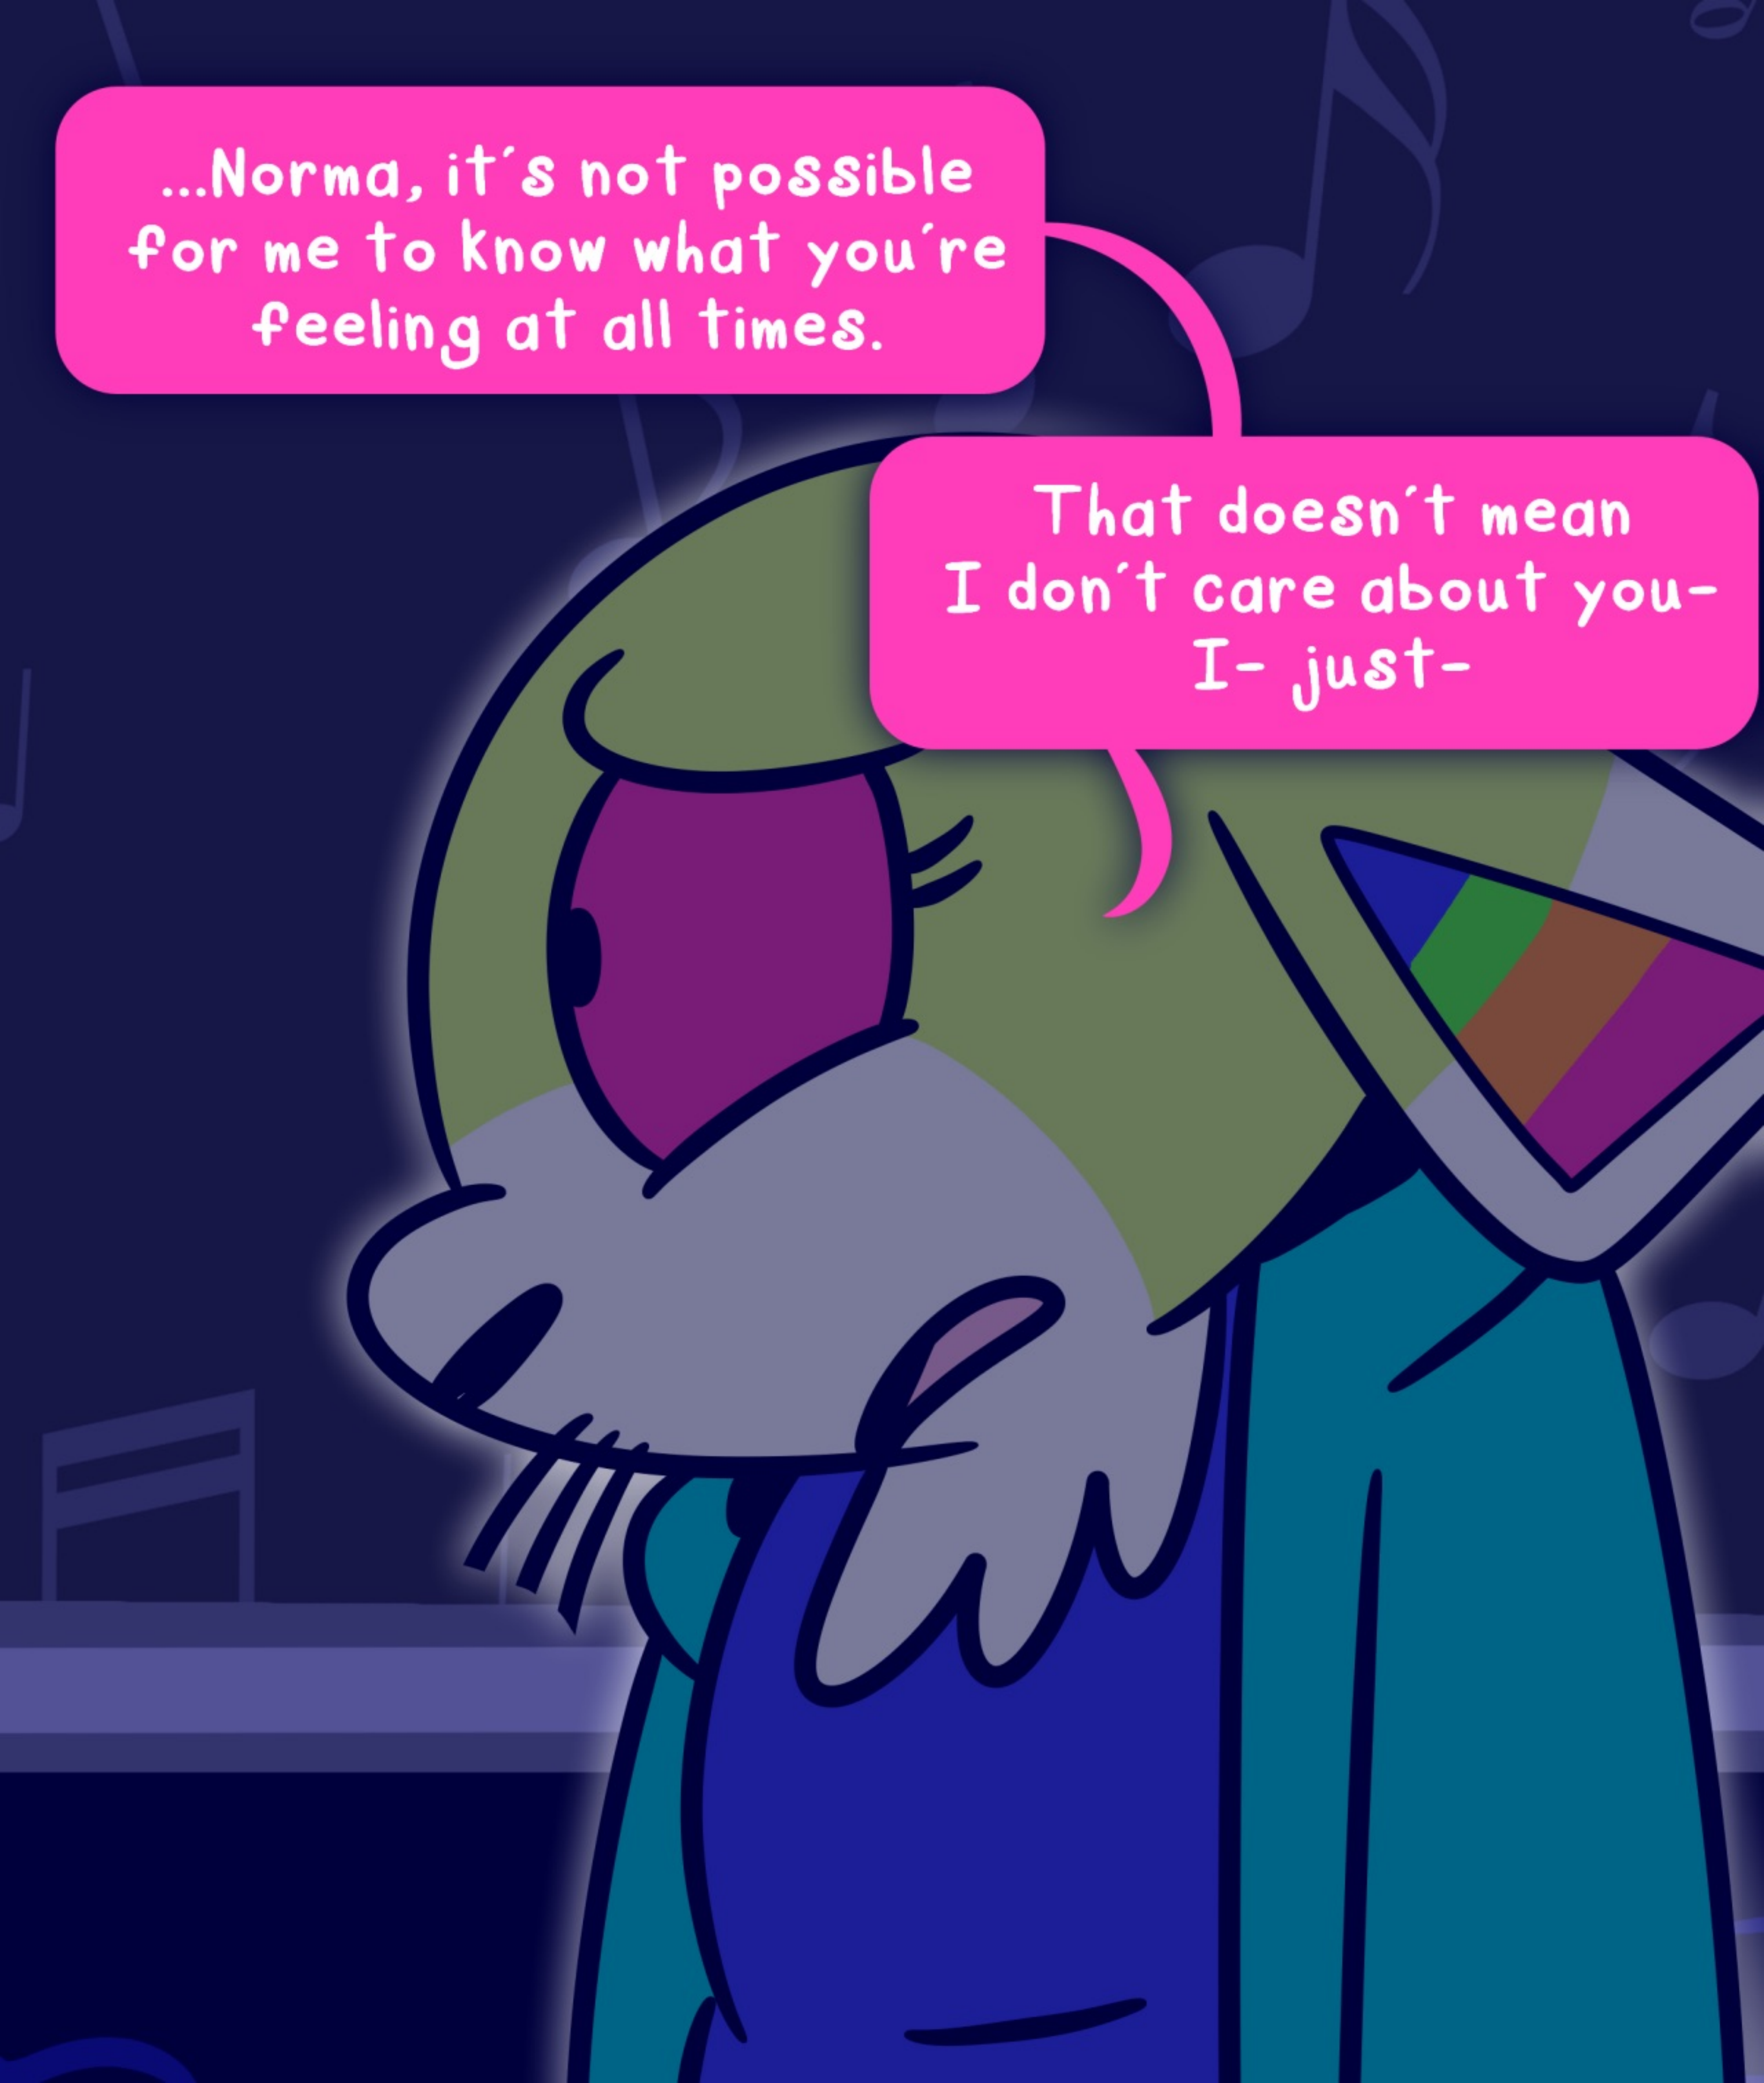
.....i-it´s nothing.
No, it´s something... what is it? Why are you upset?



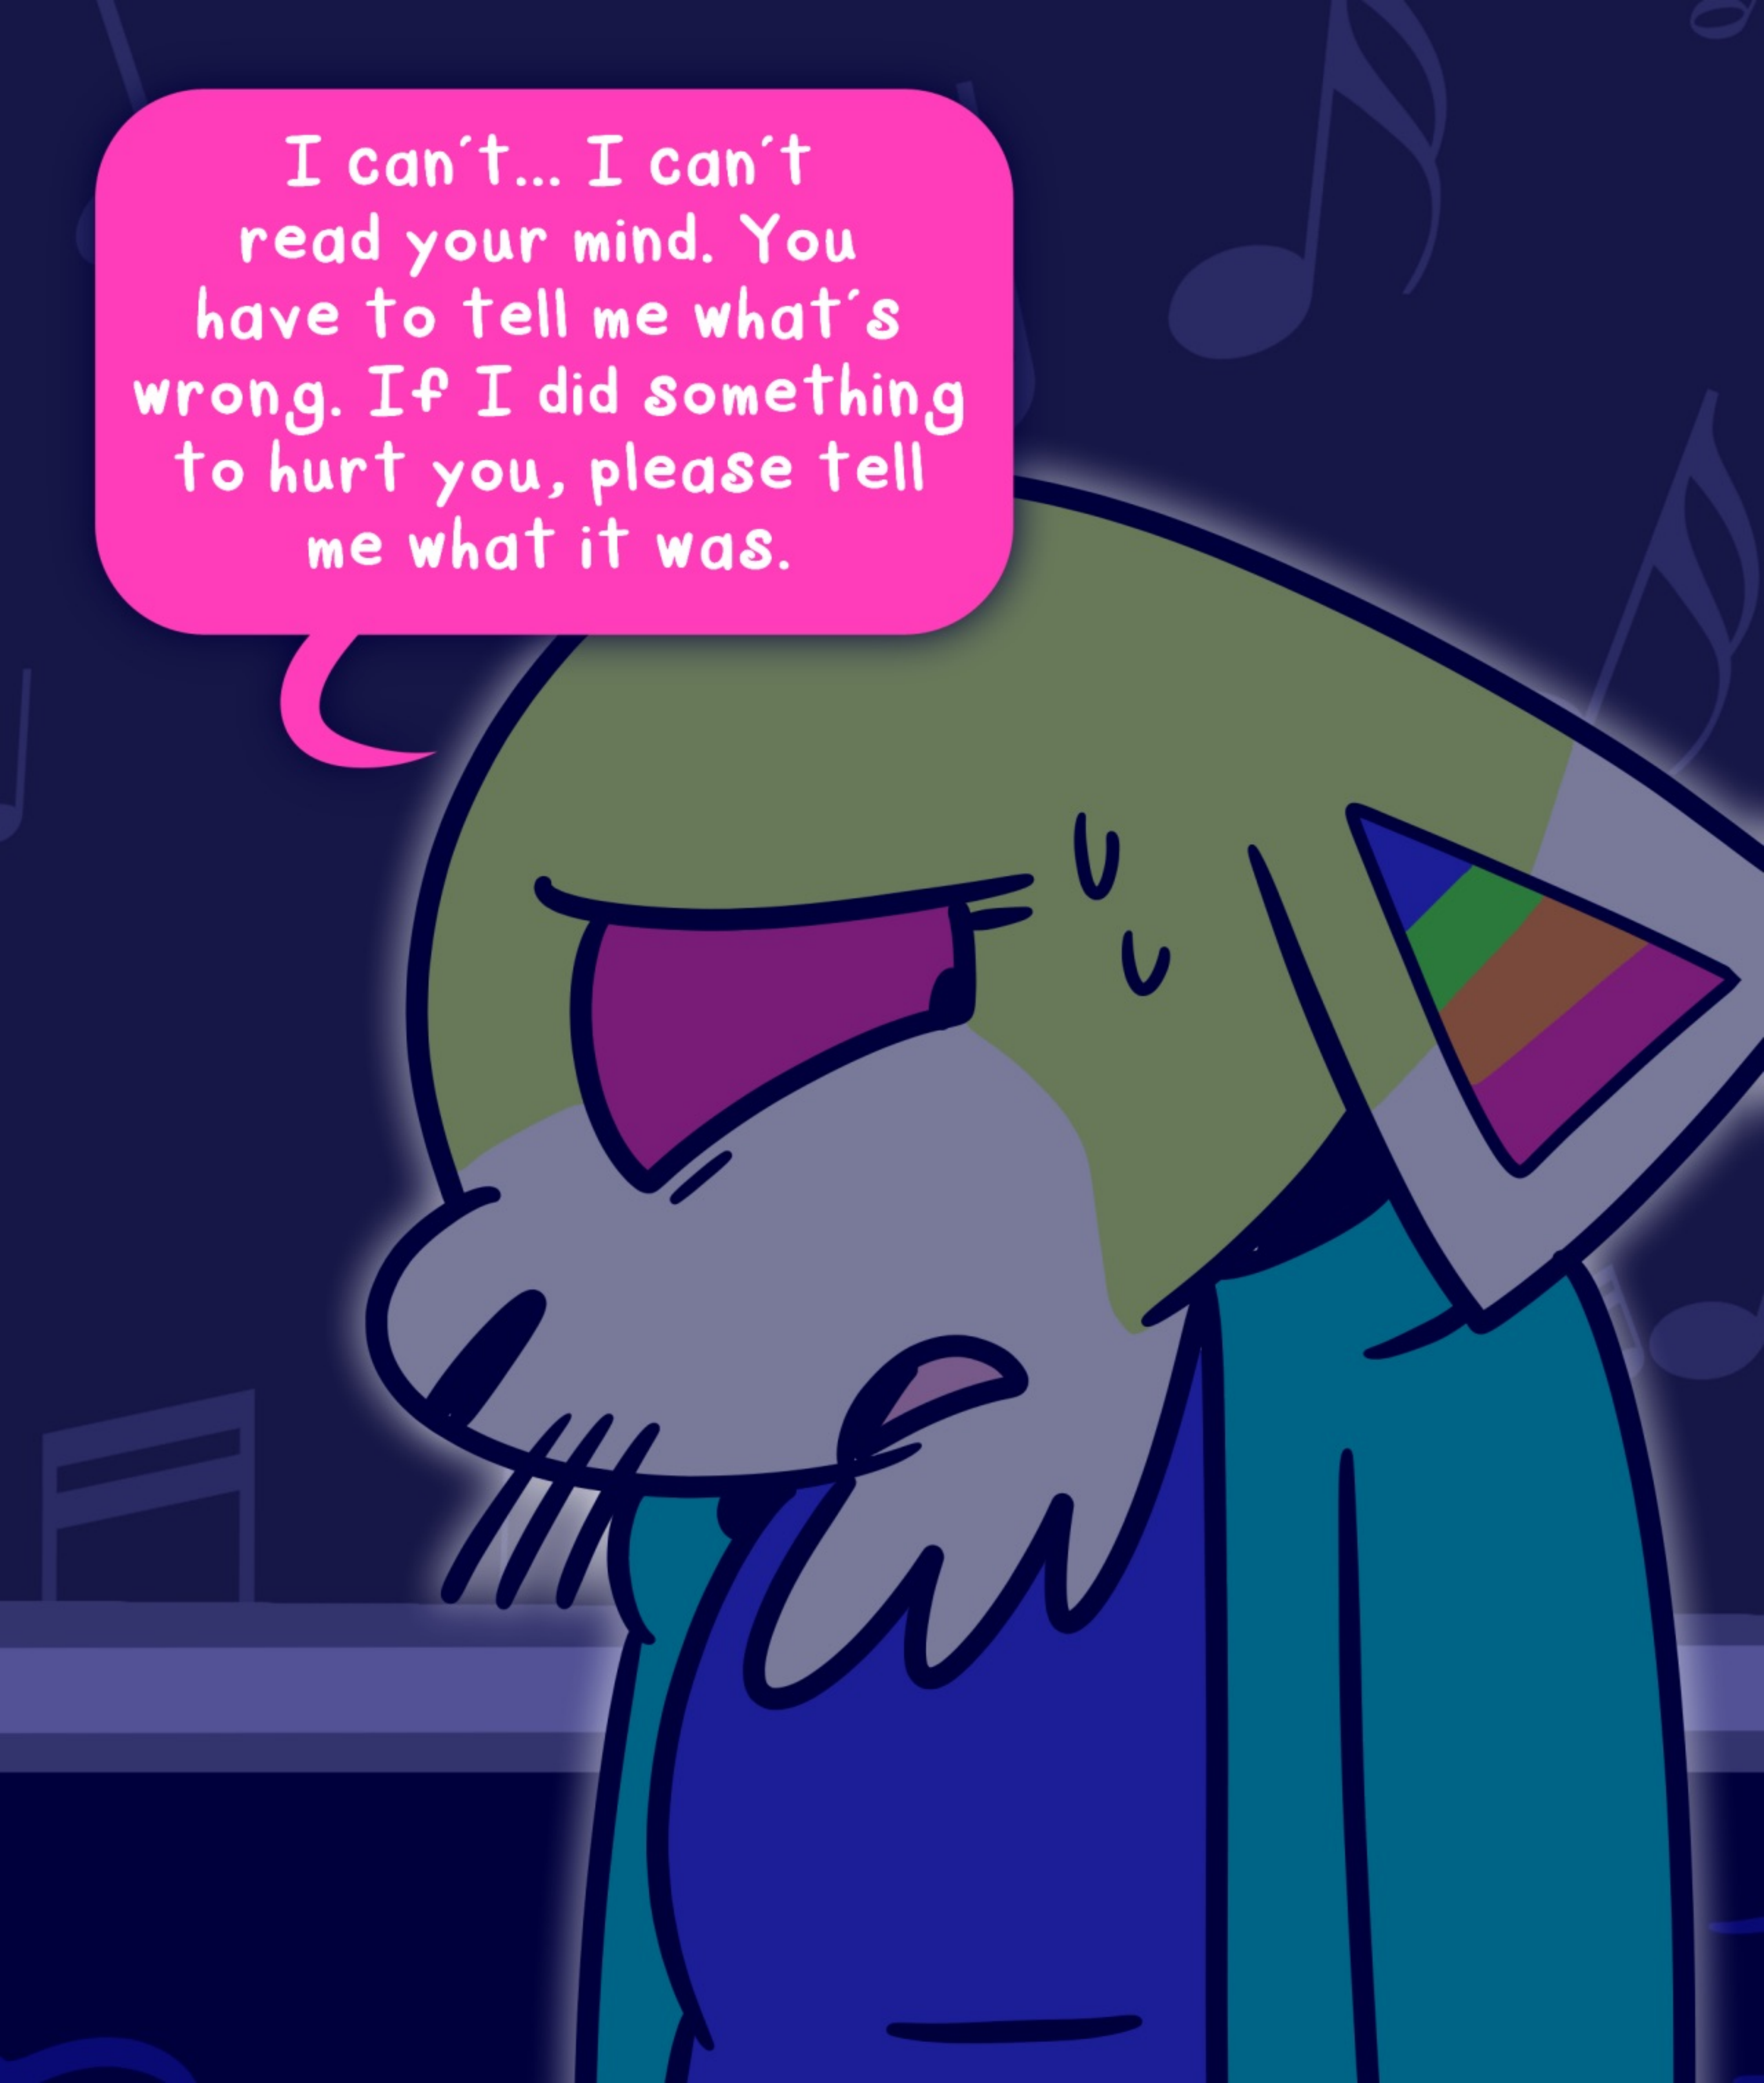
SHOULDN'T YOU KNOW?!



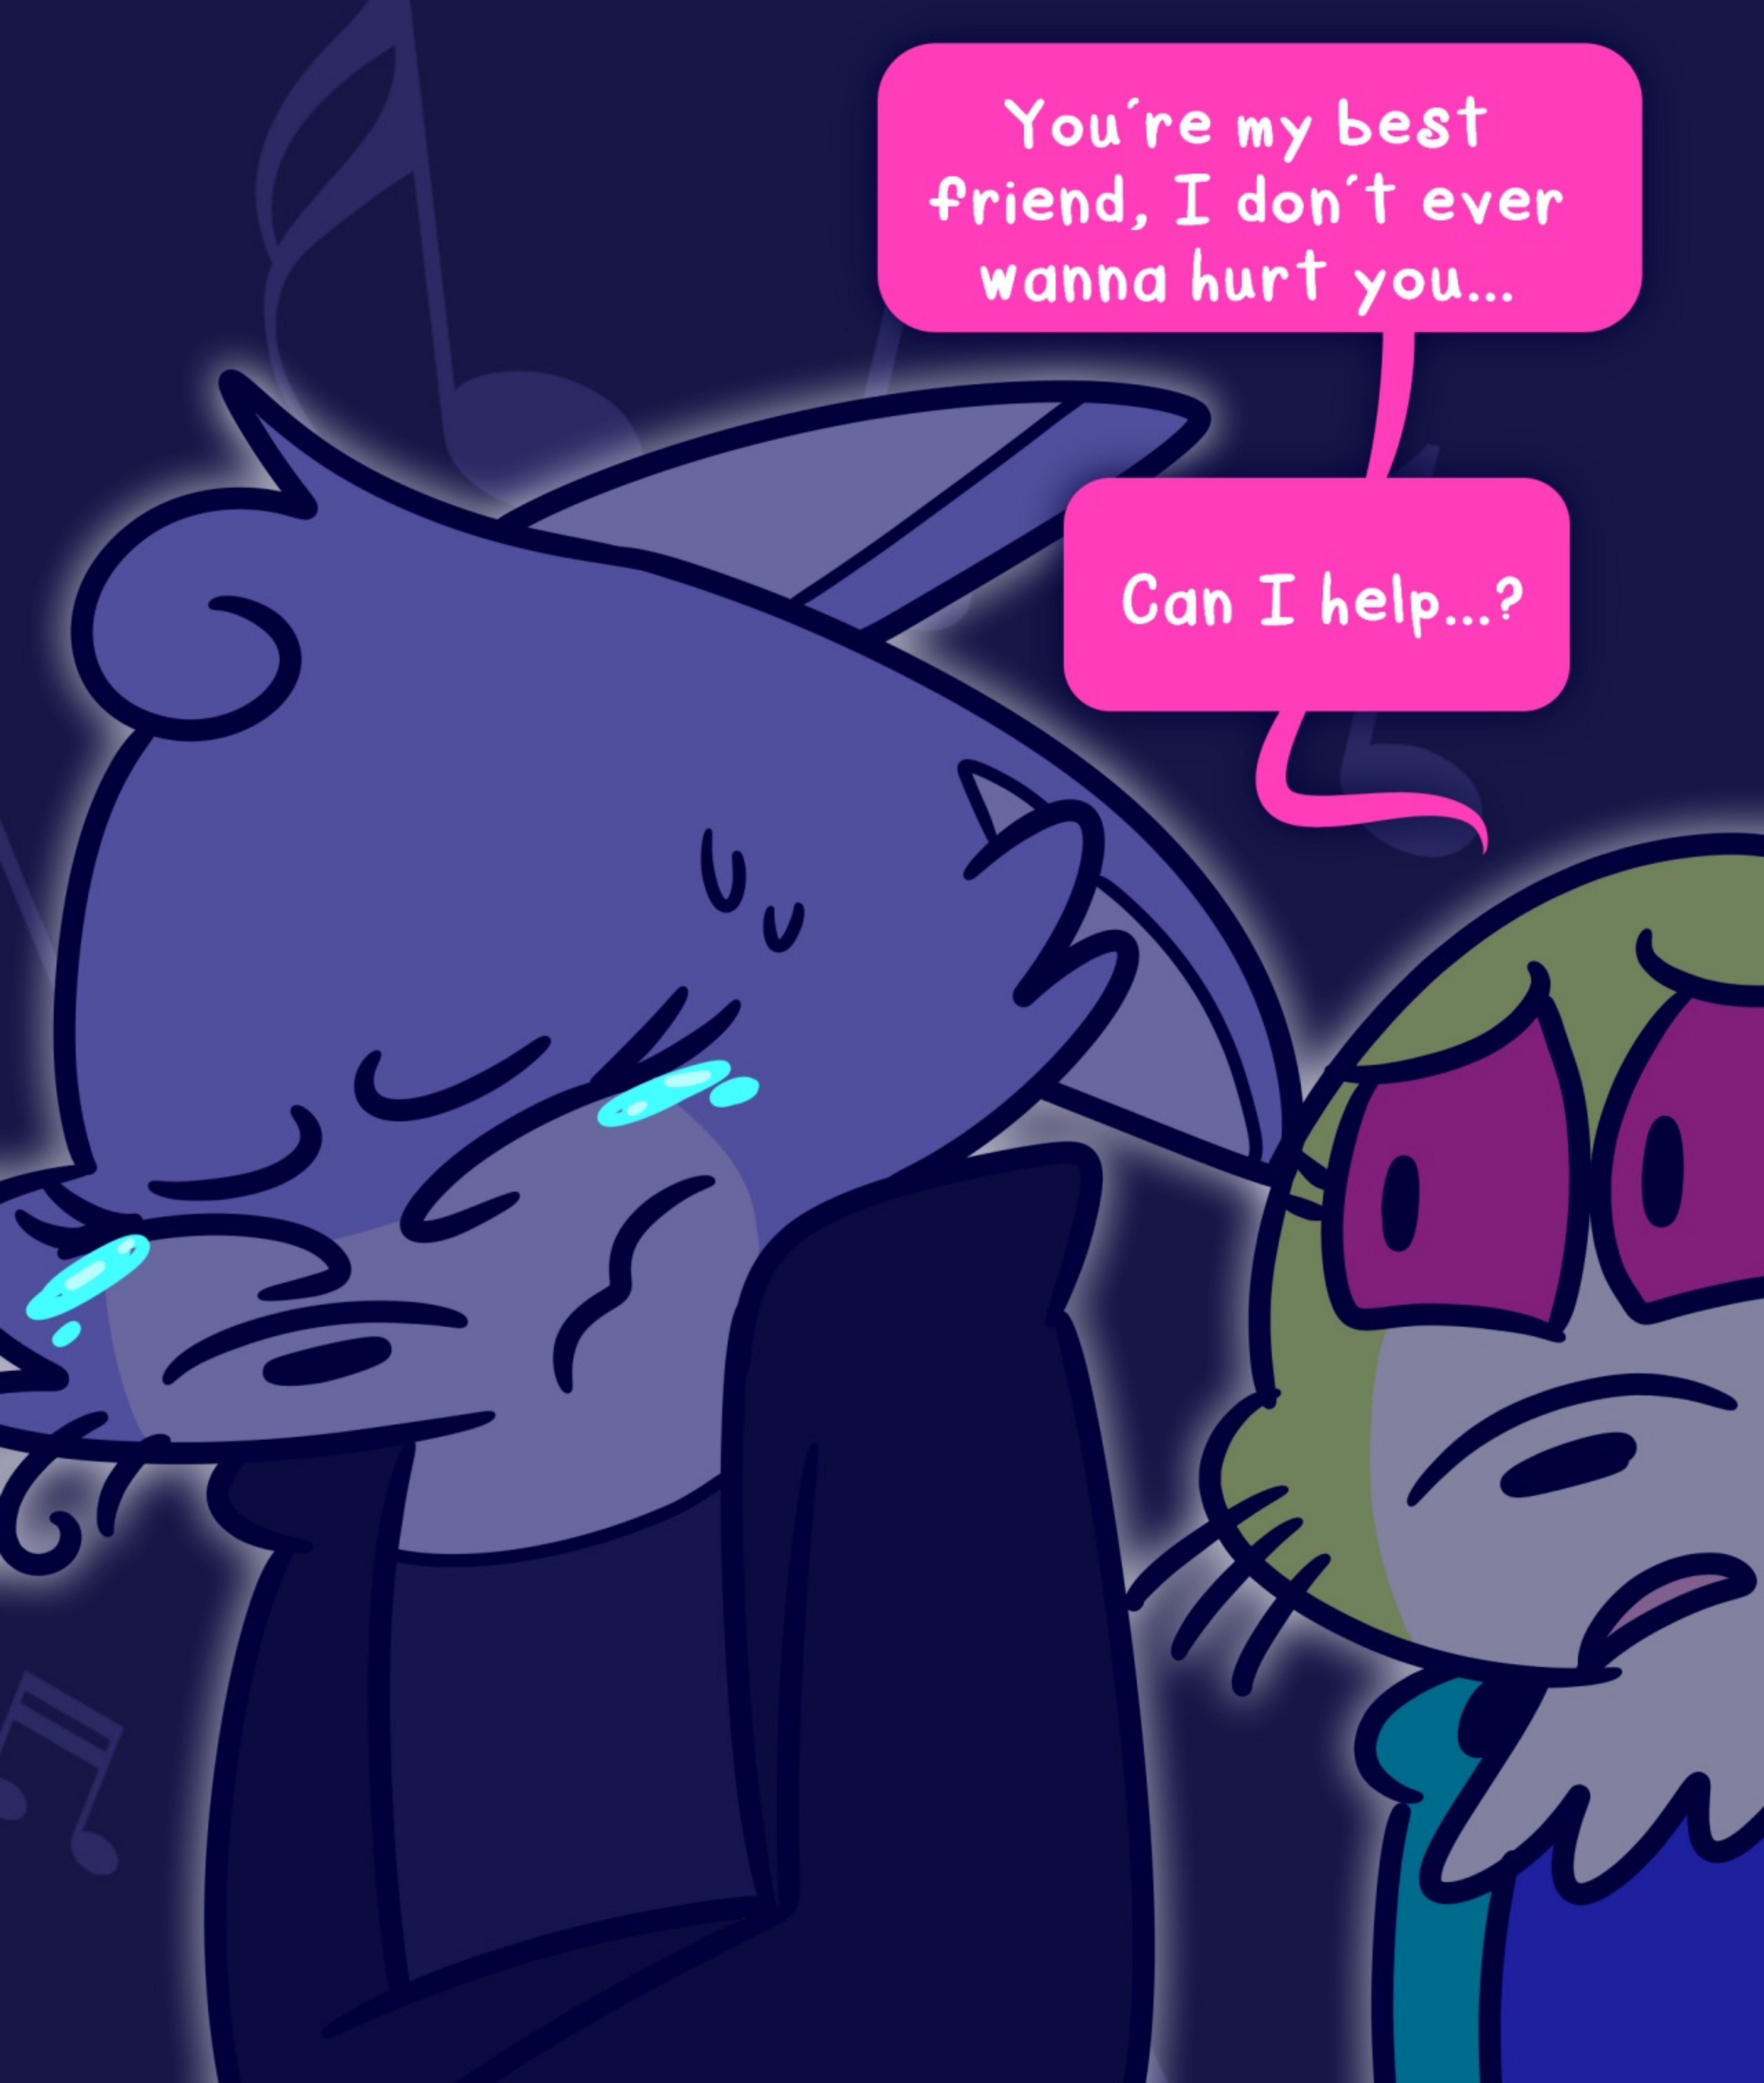
WHY DO I HAVE TO EXPLAIN WHY I'M UPSET?! IF YOU CARED YOU WOULD ALREADY KNOW!!!



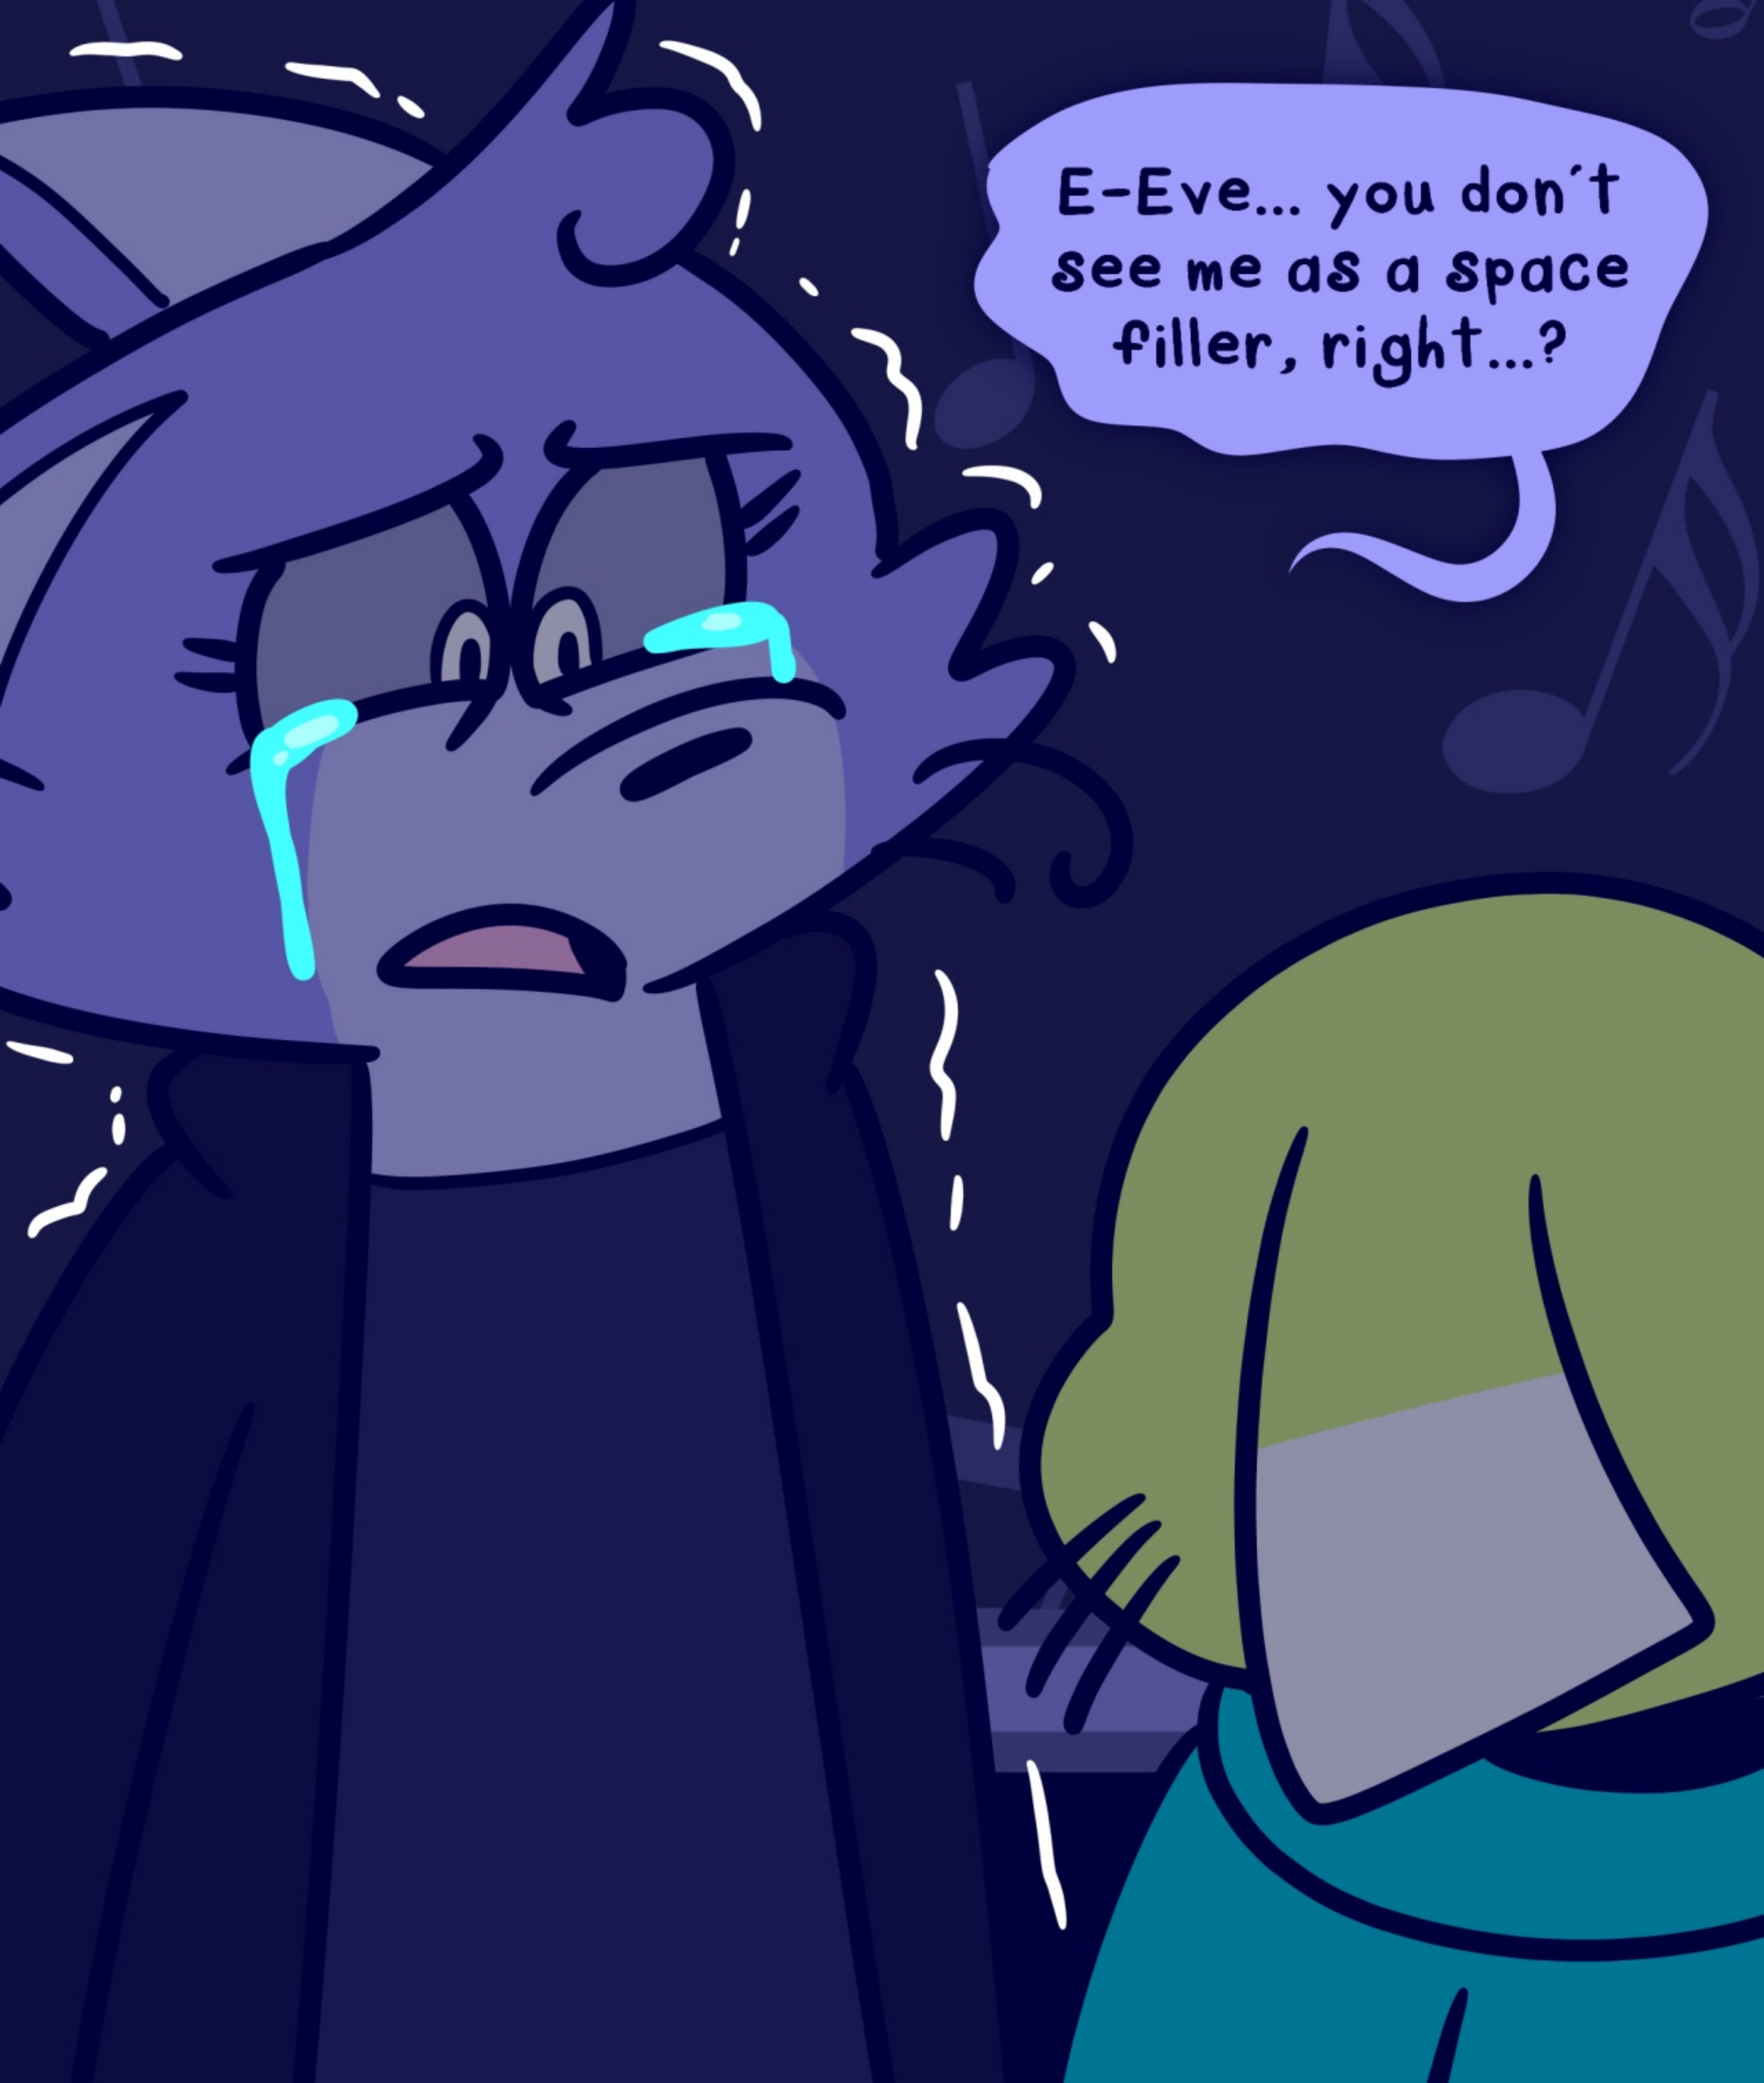
...Norma, it's not possible for me to know what you're feeling at all times.
That doesn't mean I don't care about you- I- just-



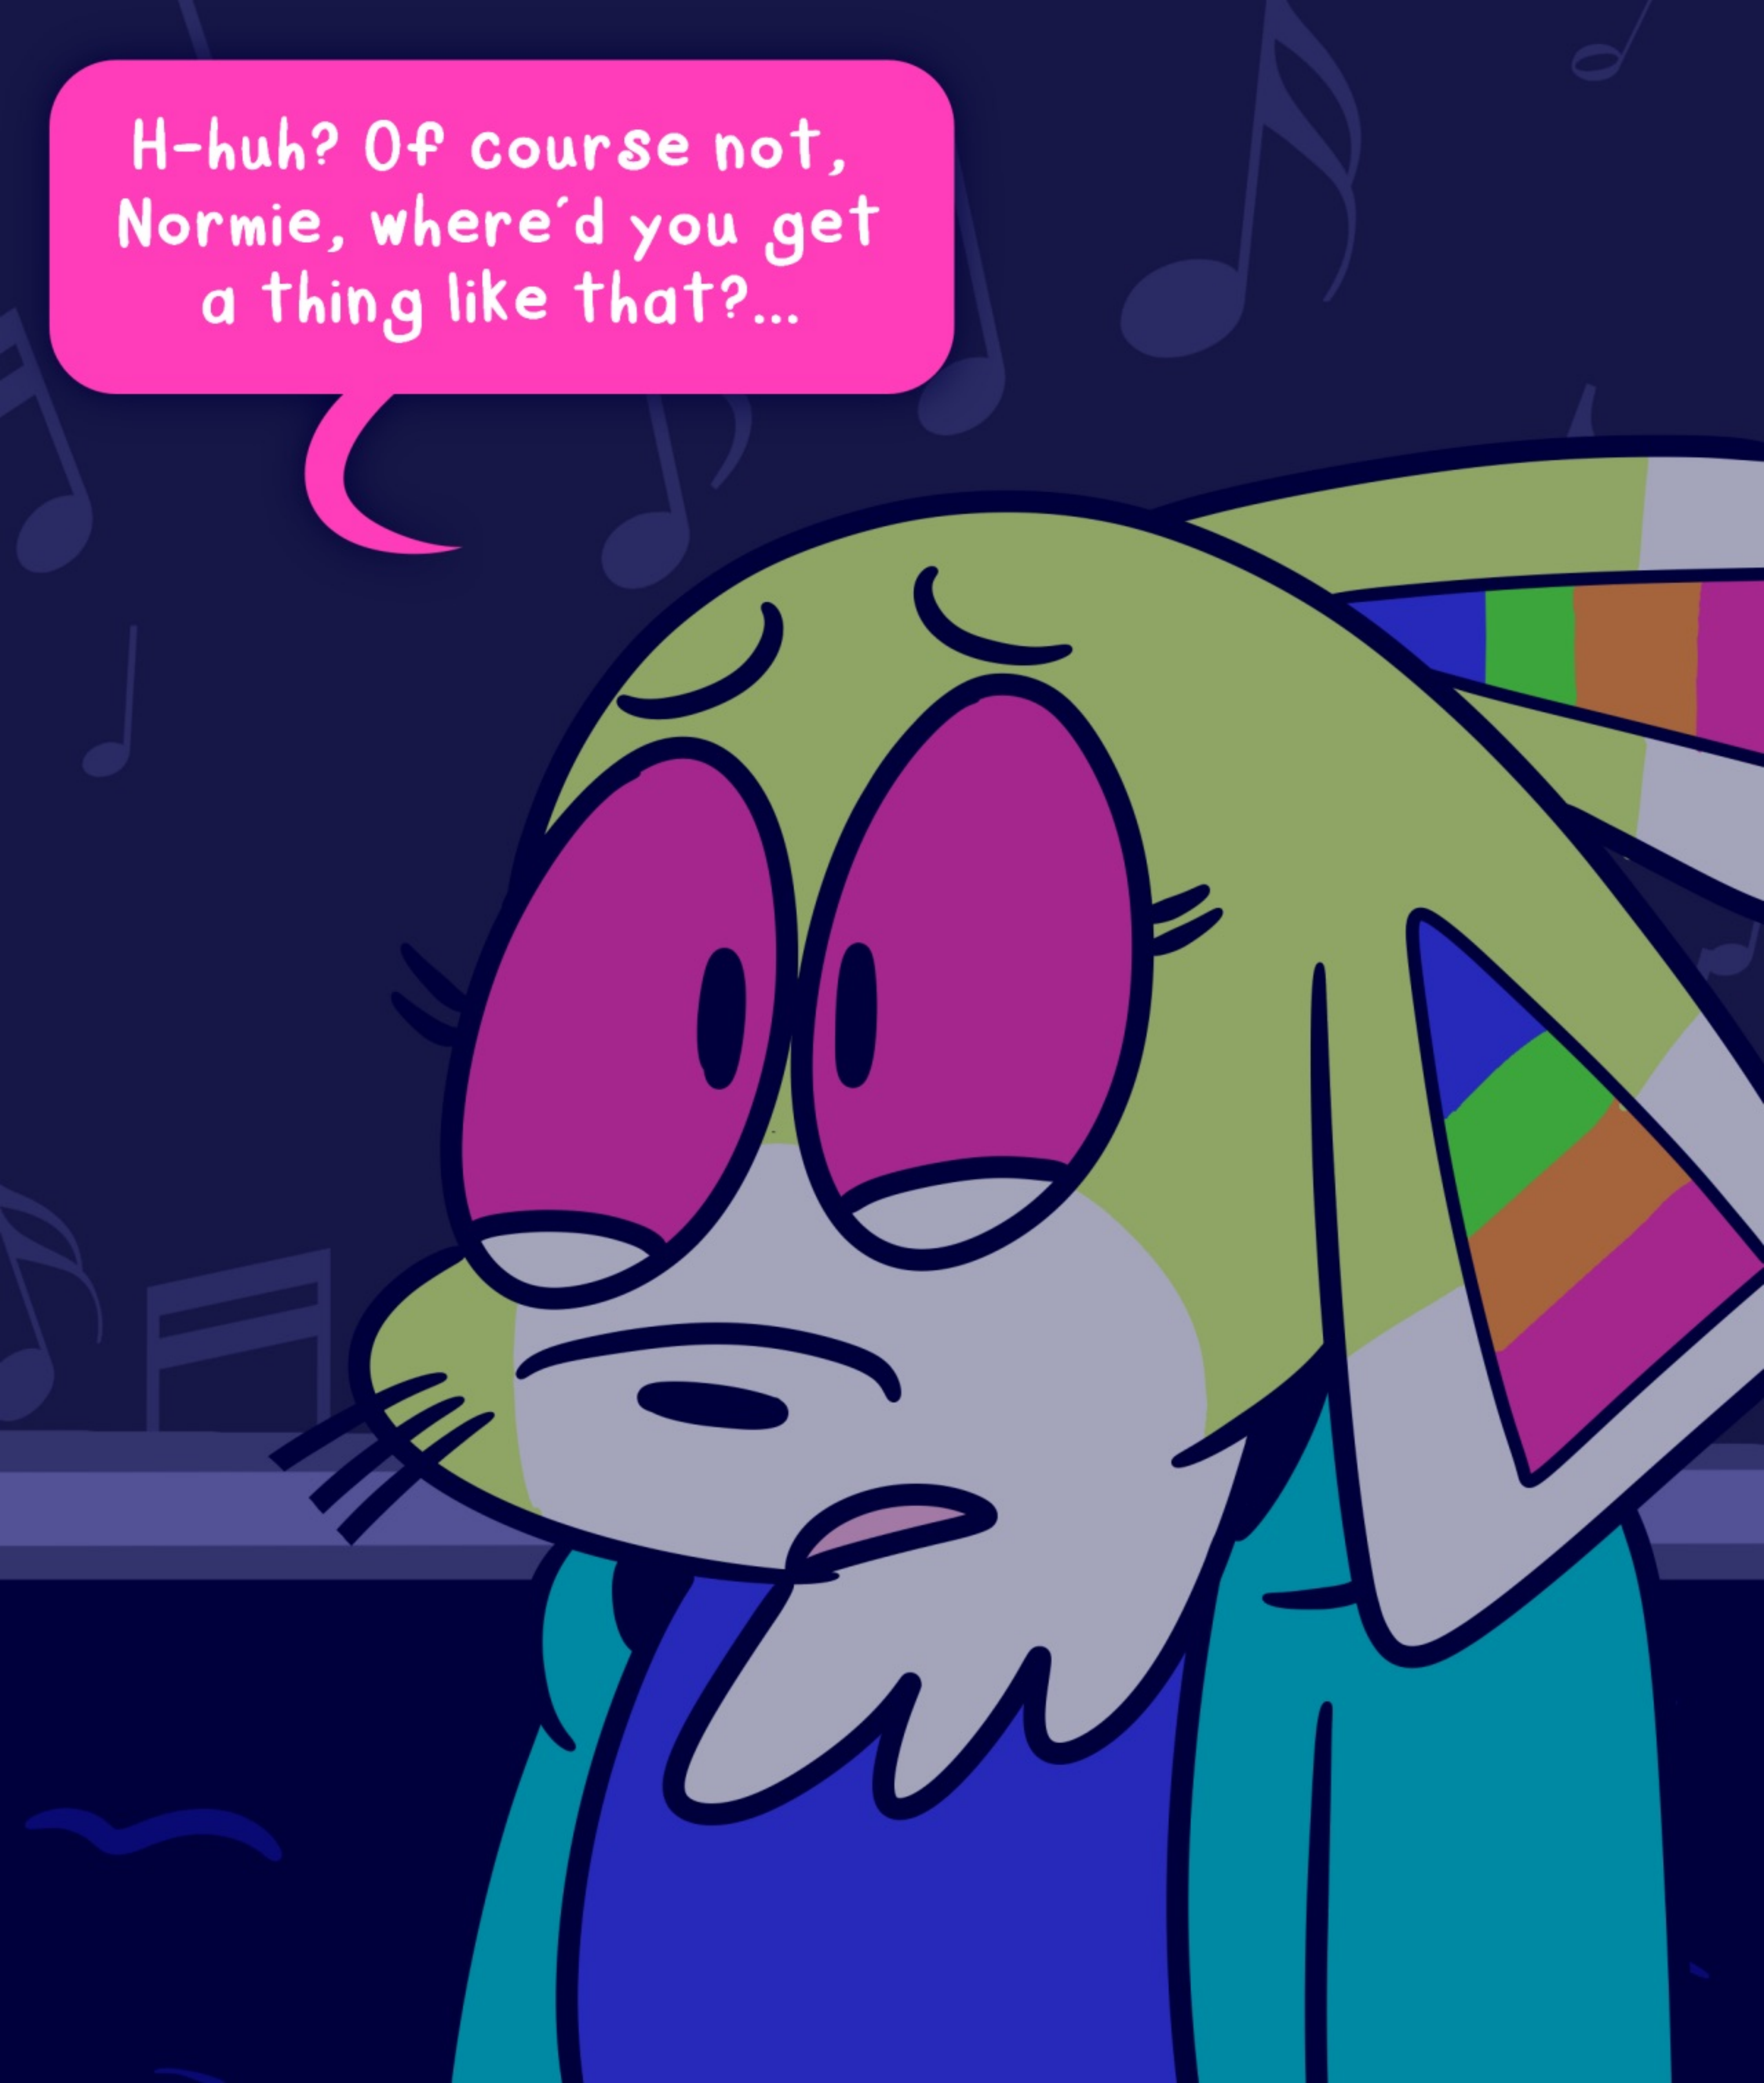
I can´t… I can´t read your mind. You have to tell me what´s wrong. If I did something to hurt you, please tell me what it was.



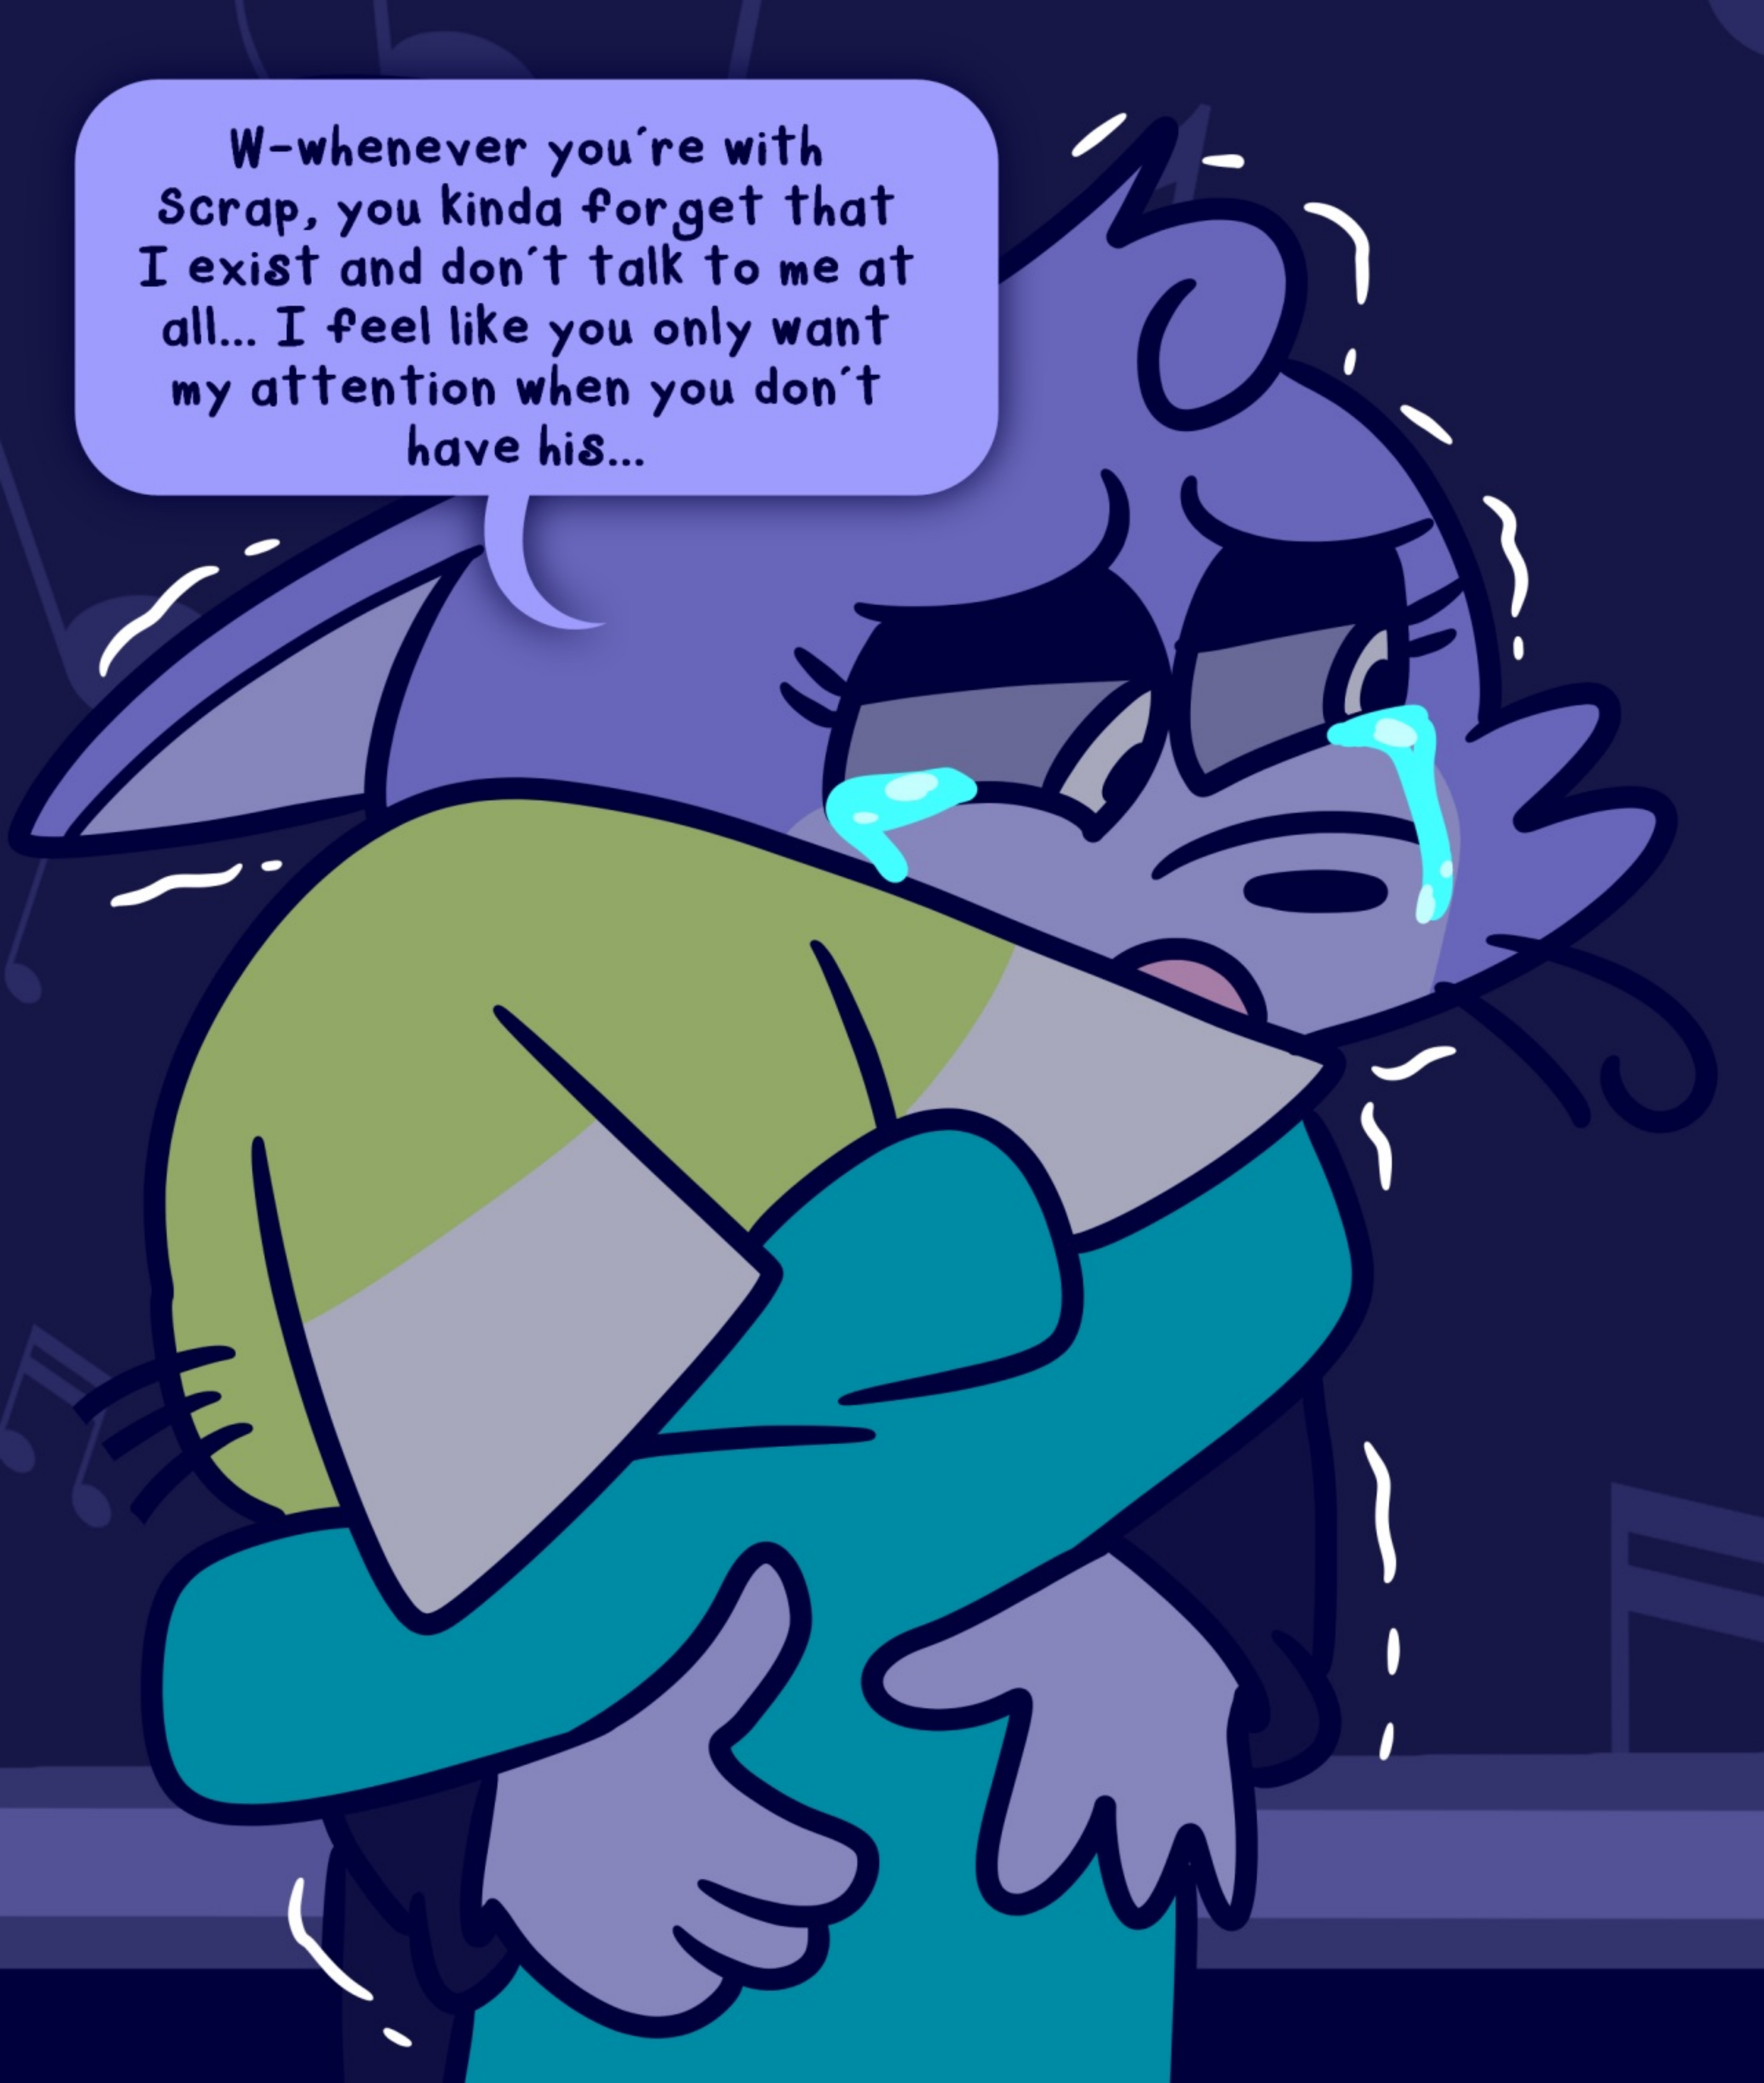
You're my best friend, I don't ever wanna hurt you...
Can I help...?



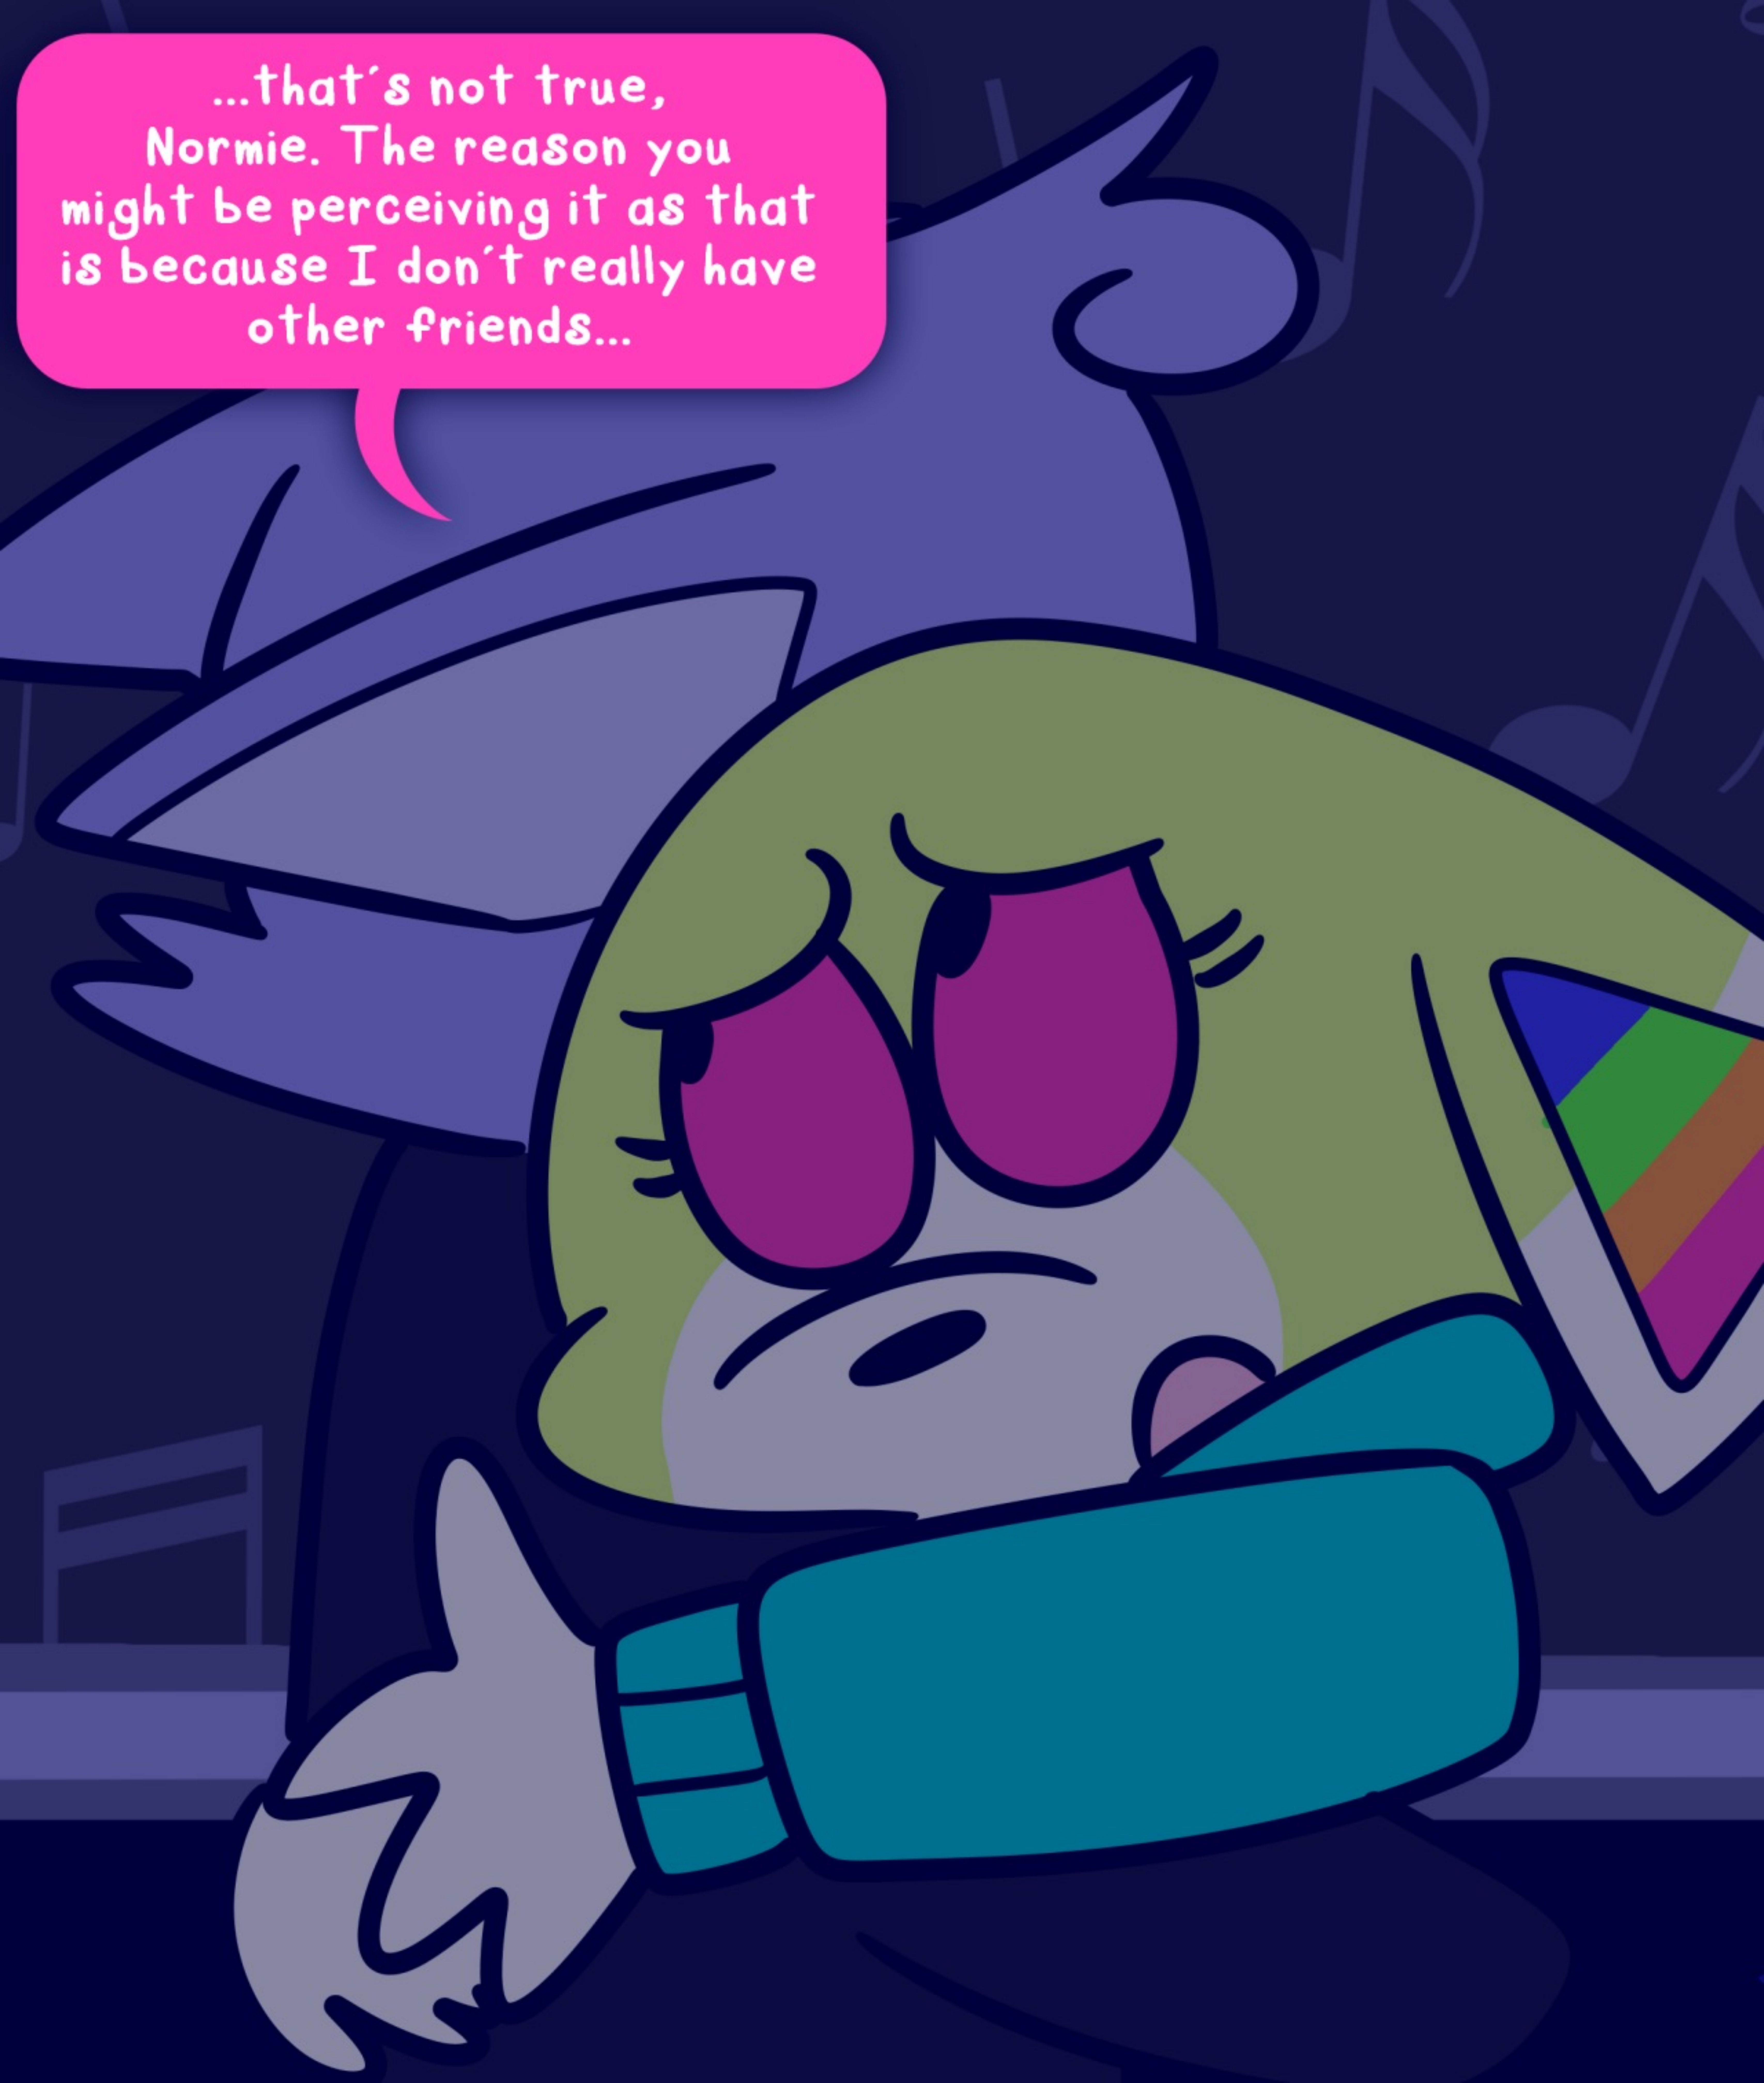
E-Eve... you don´t see me as a space filler, right...?



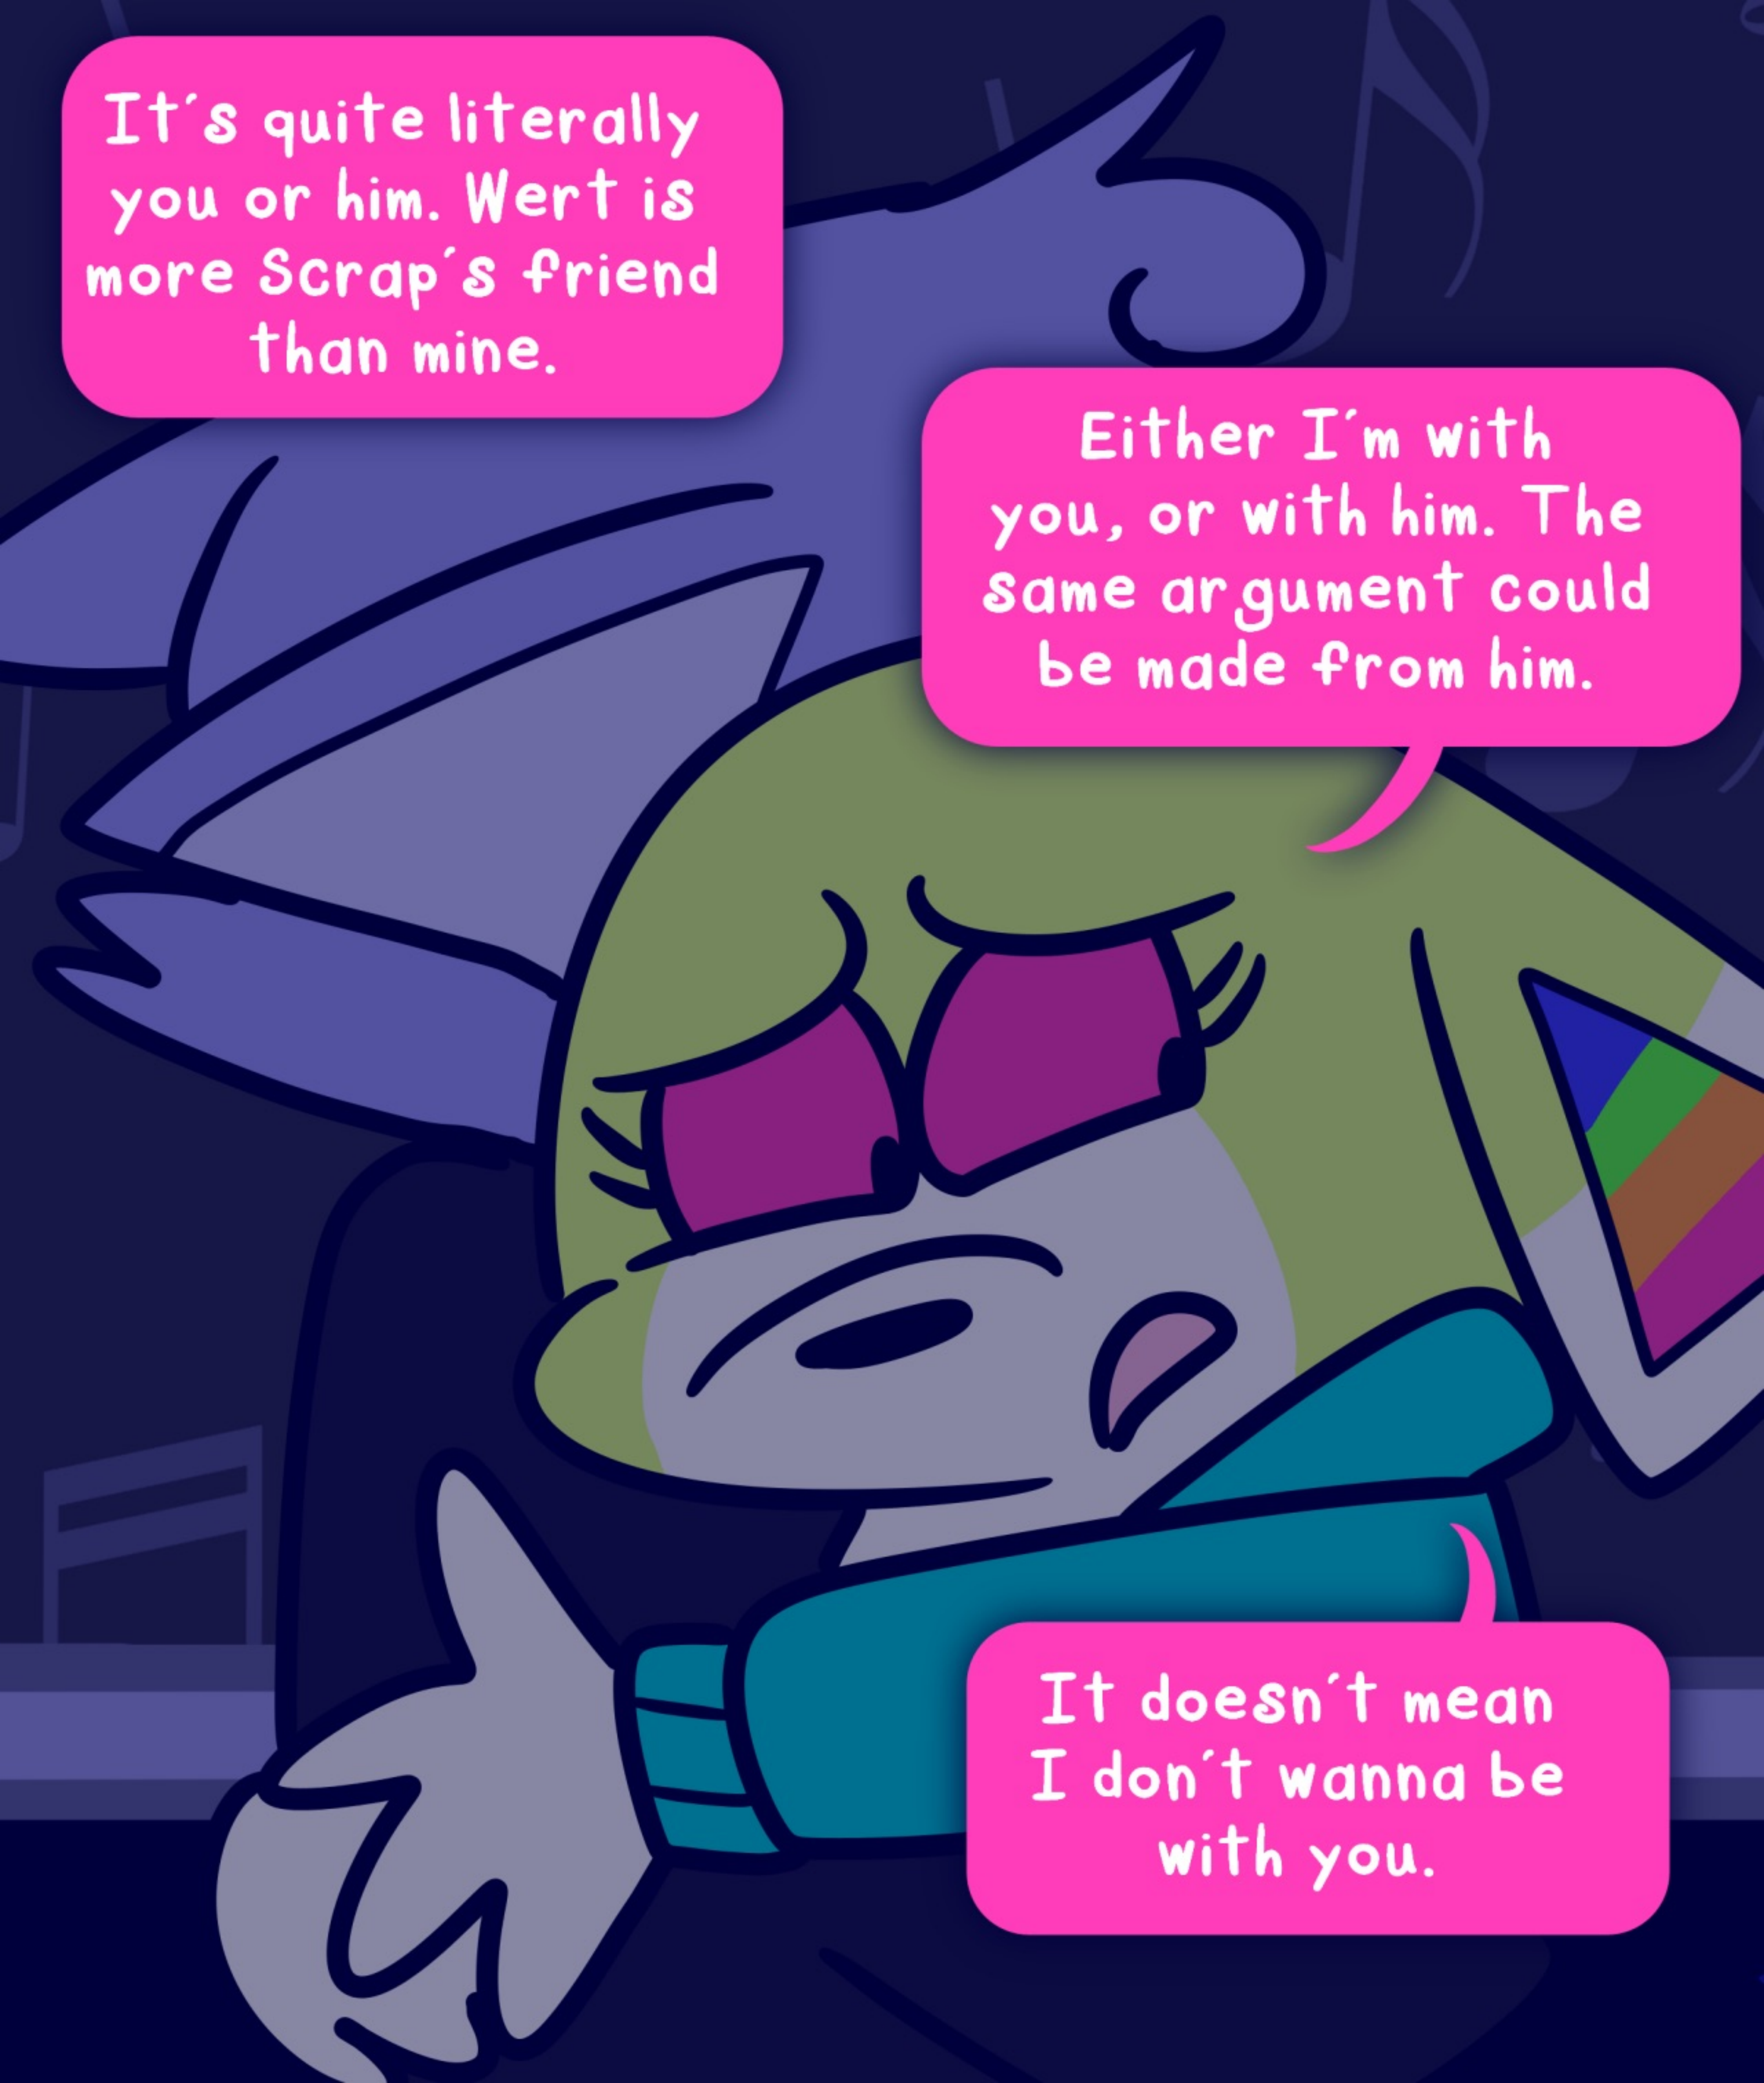
H-huh? Of course not, Normie, where'd you get a thing like that?...



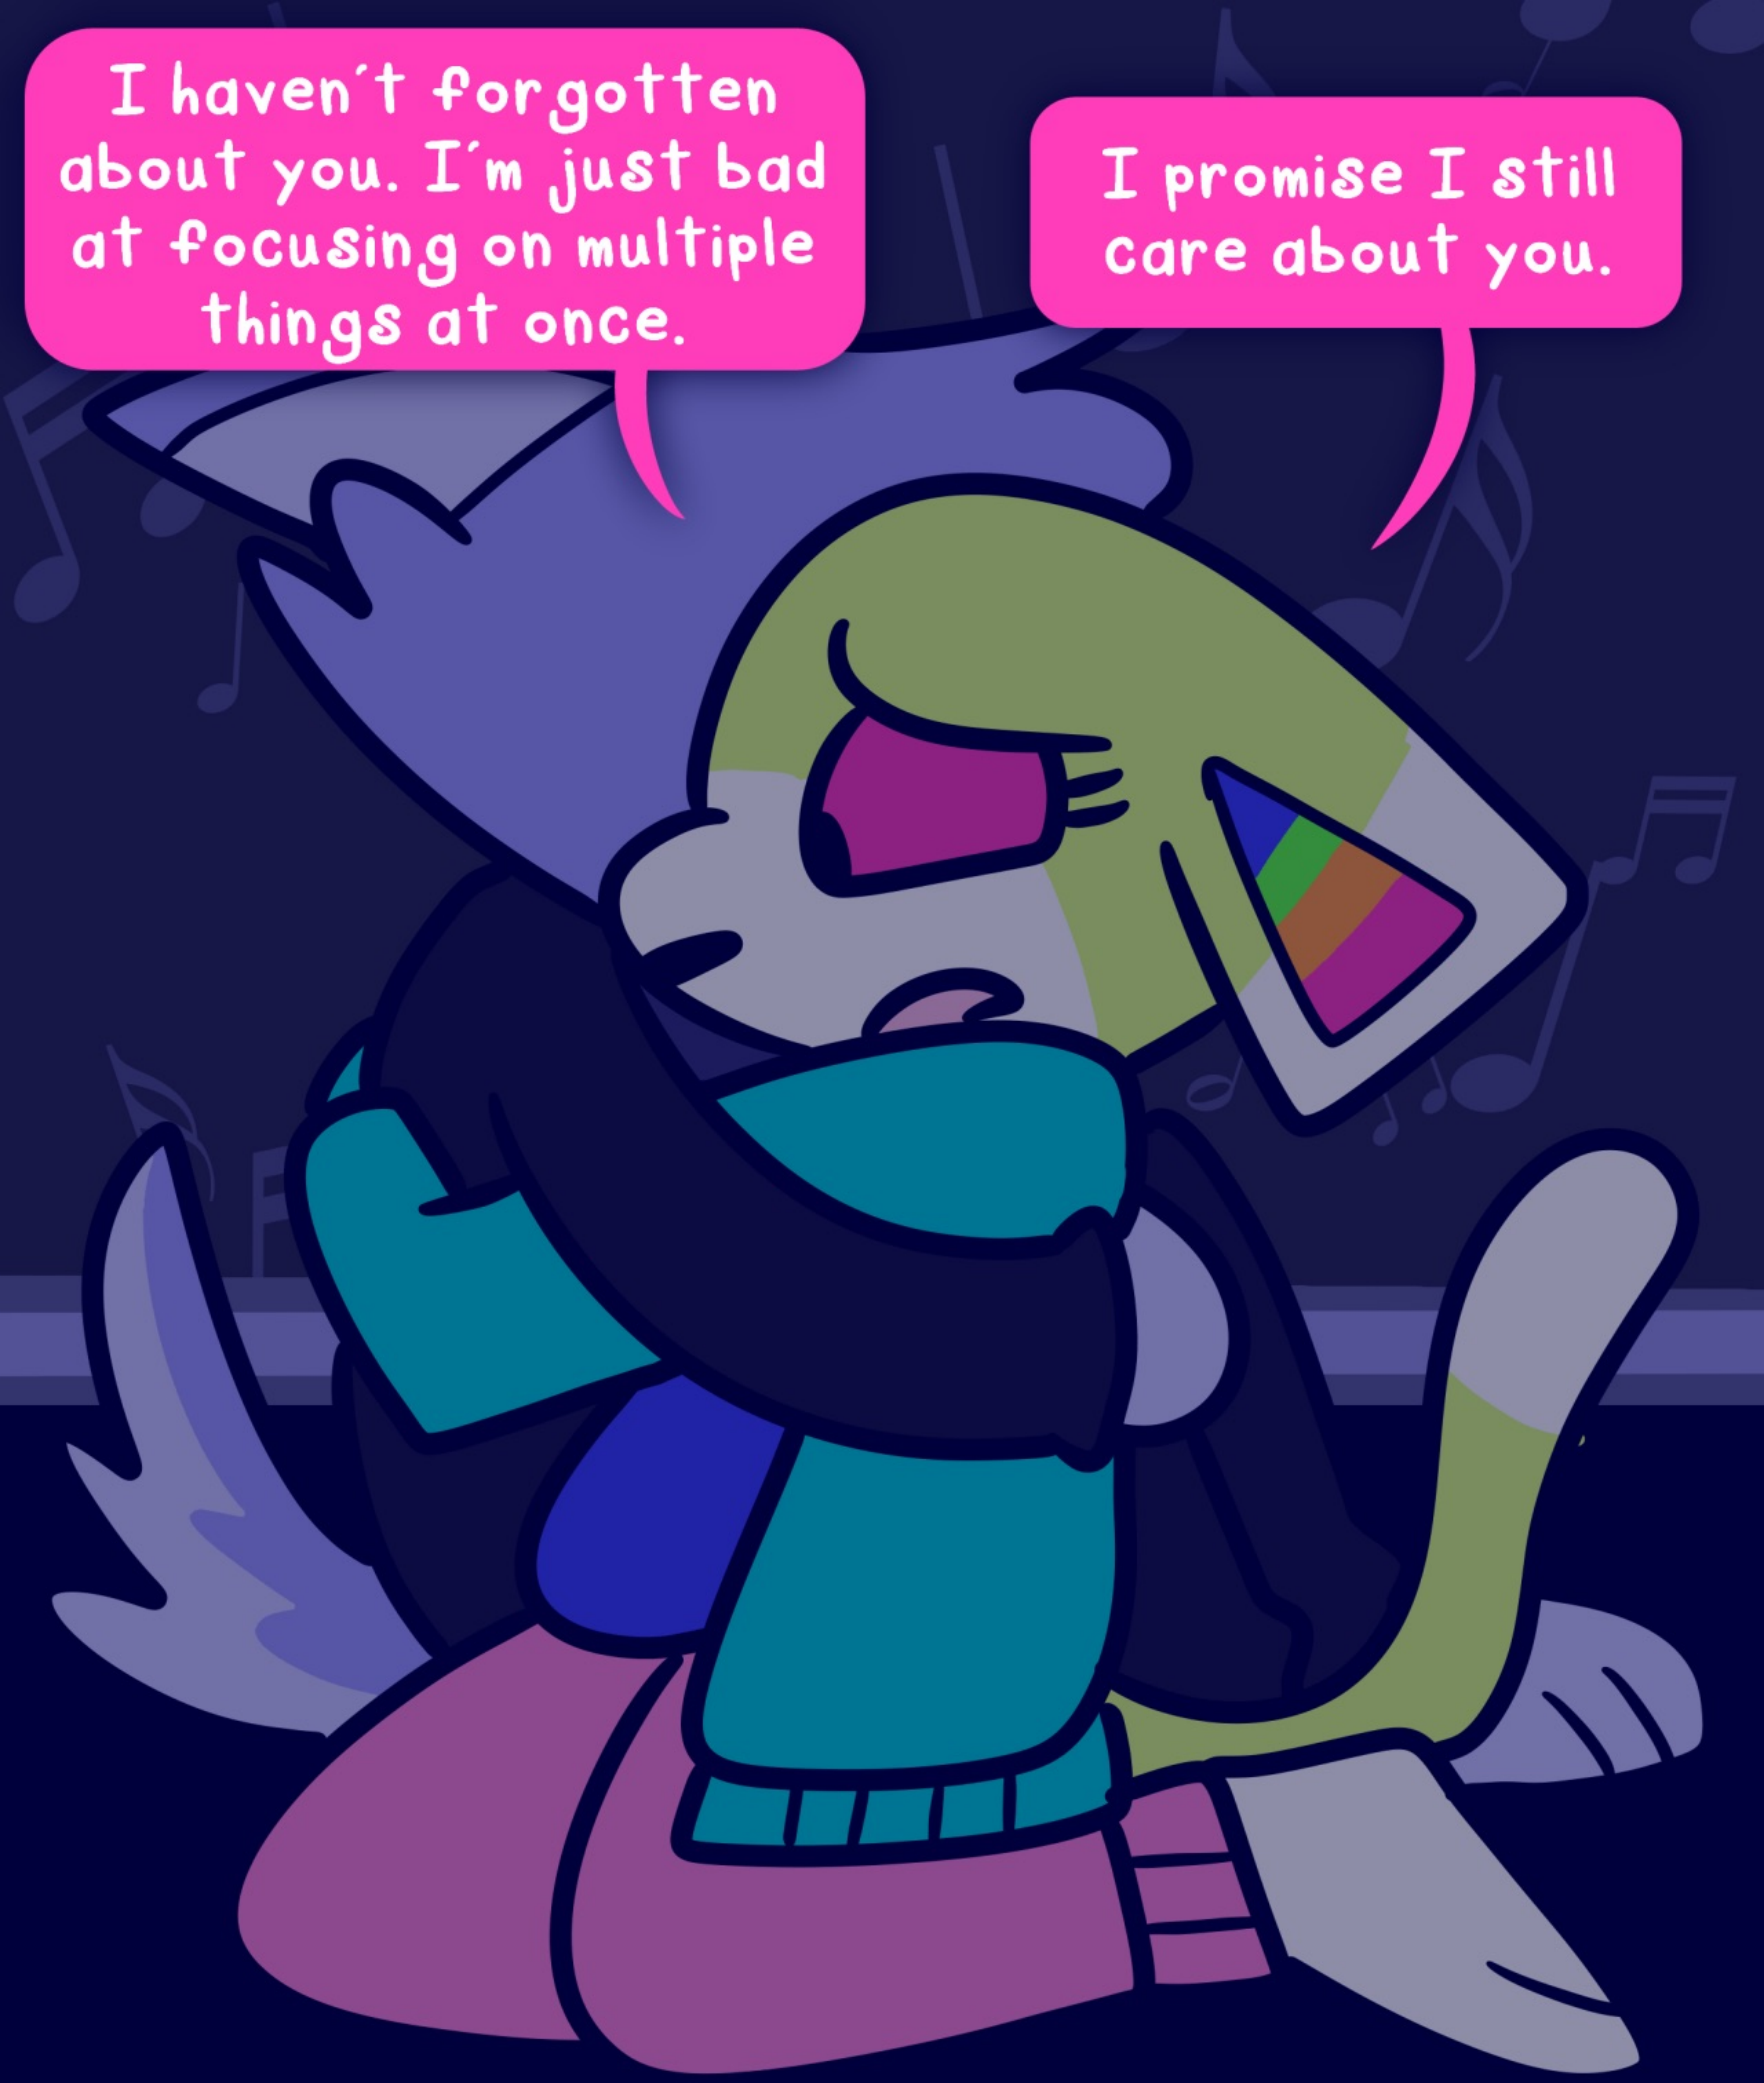
W-whenever you're with Scrap, you kinda forget that I exist and don't talk to me at all... I feel like you only want my attention when you don't have his...



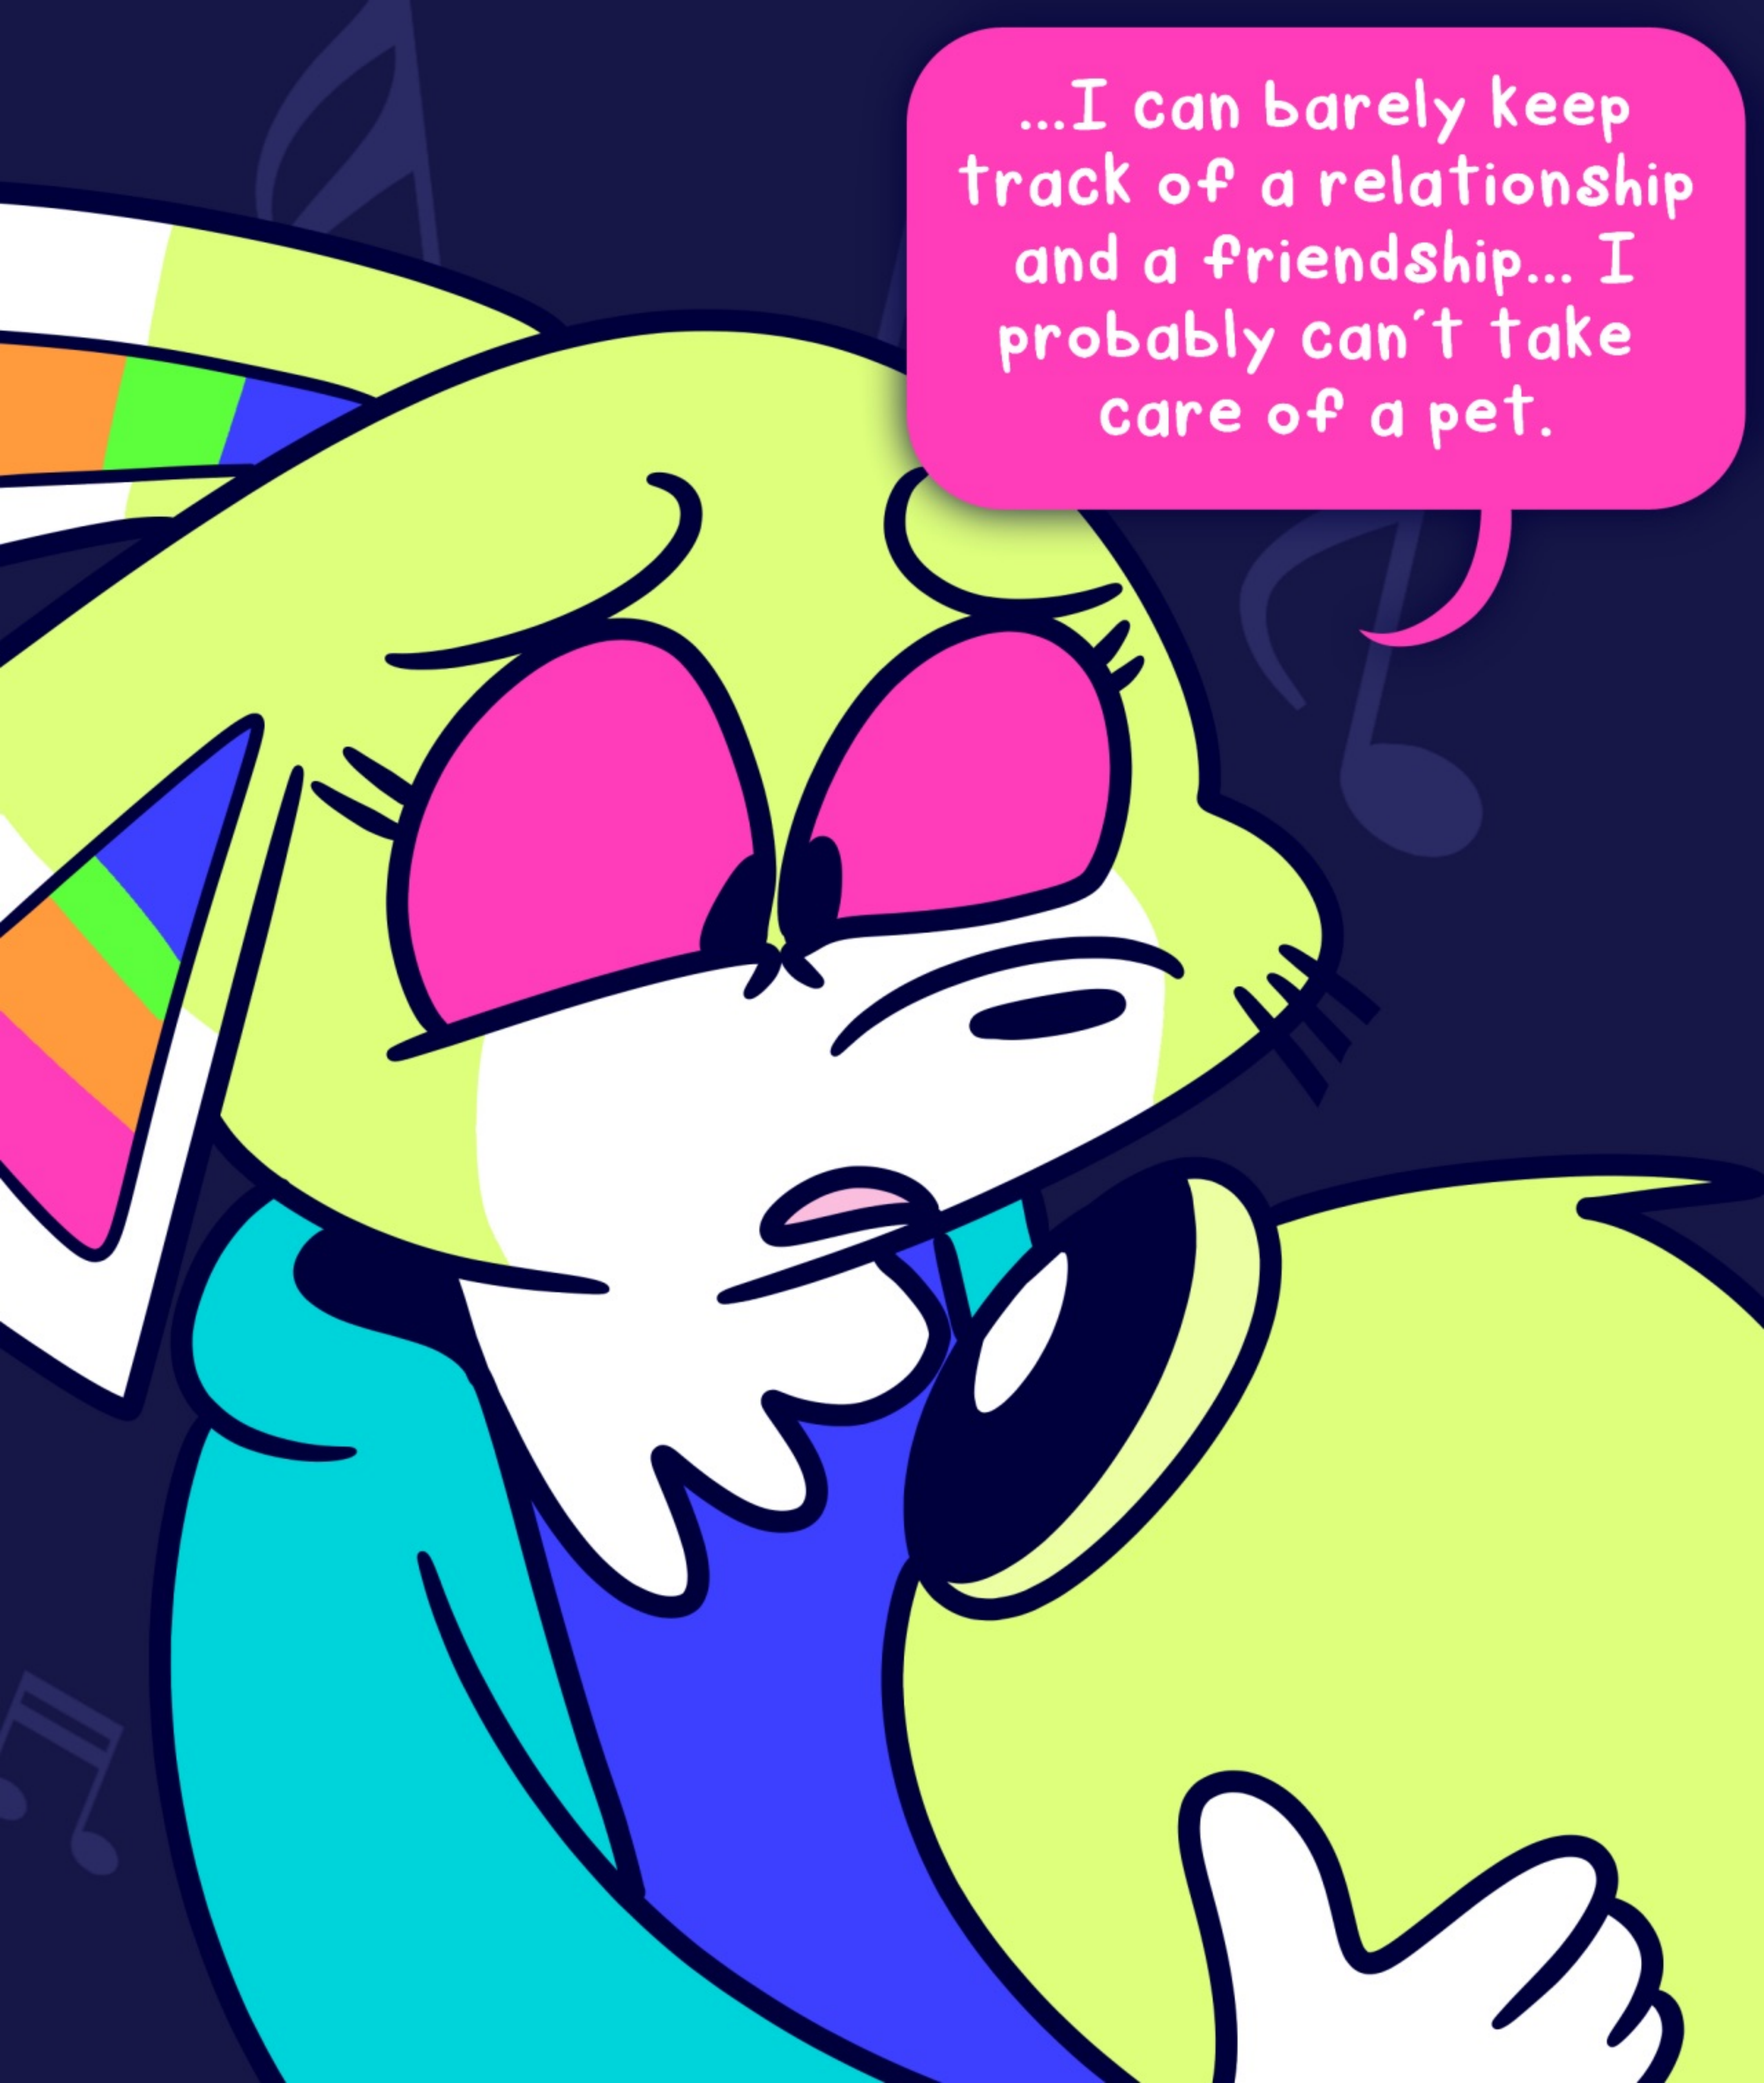
...that´s not true, Normie. The reason you might be perceiving it as that is because I don´t really have other friends...



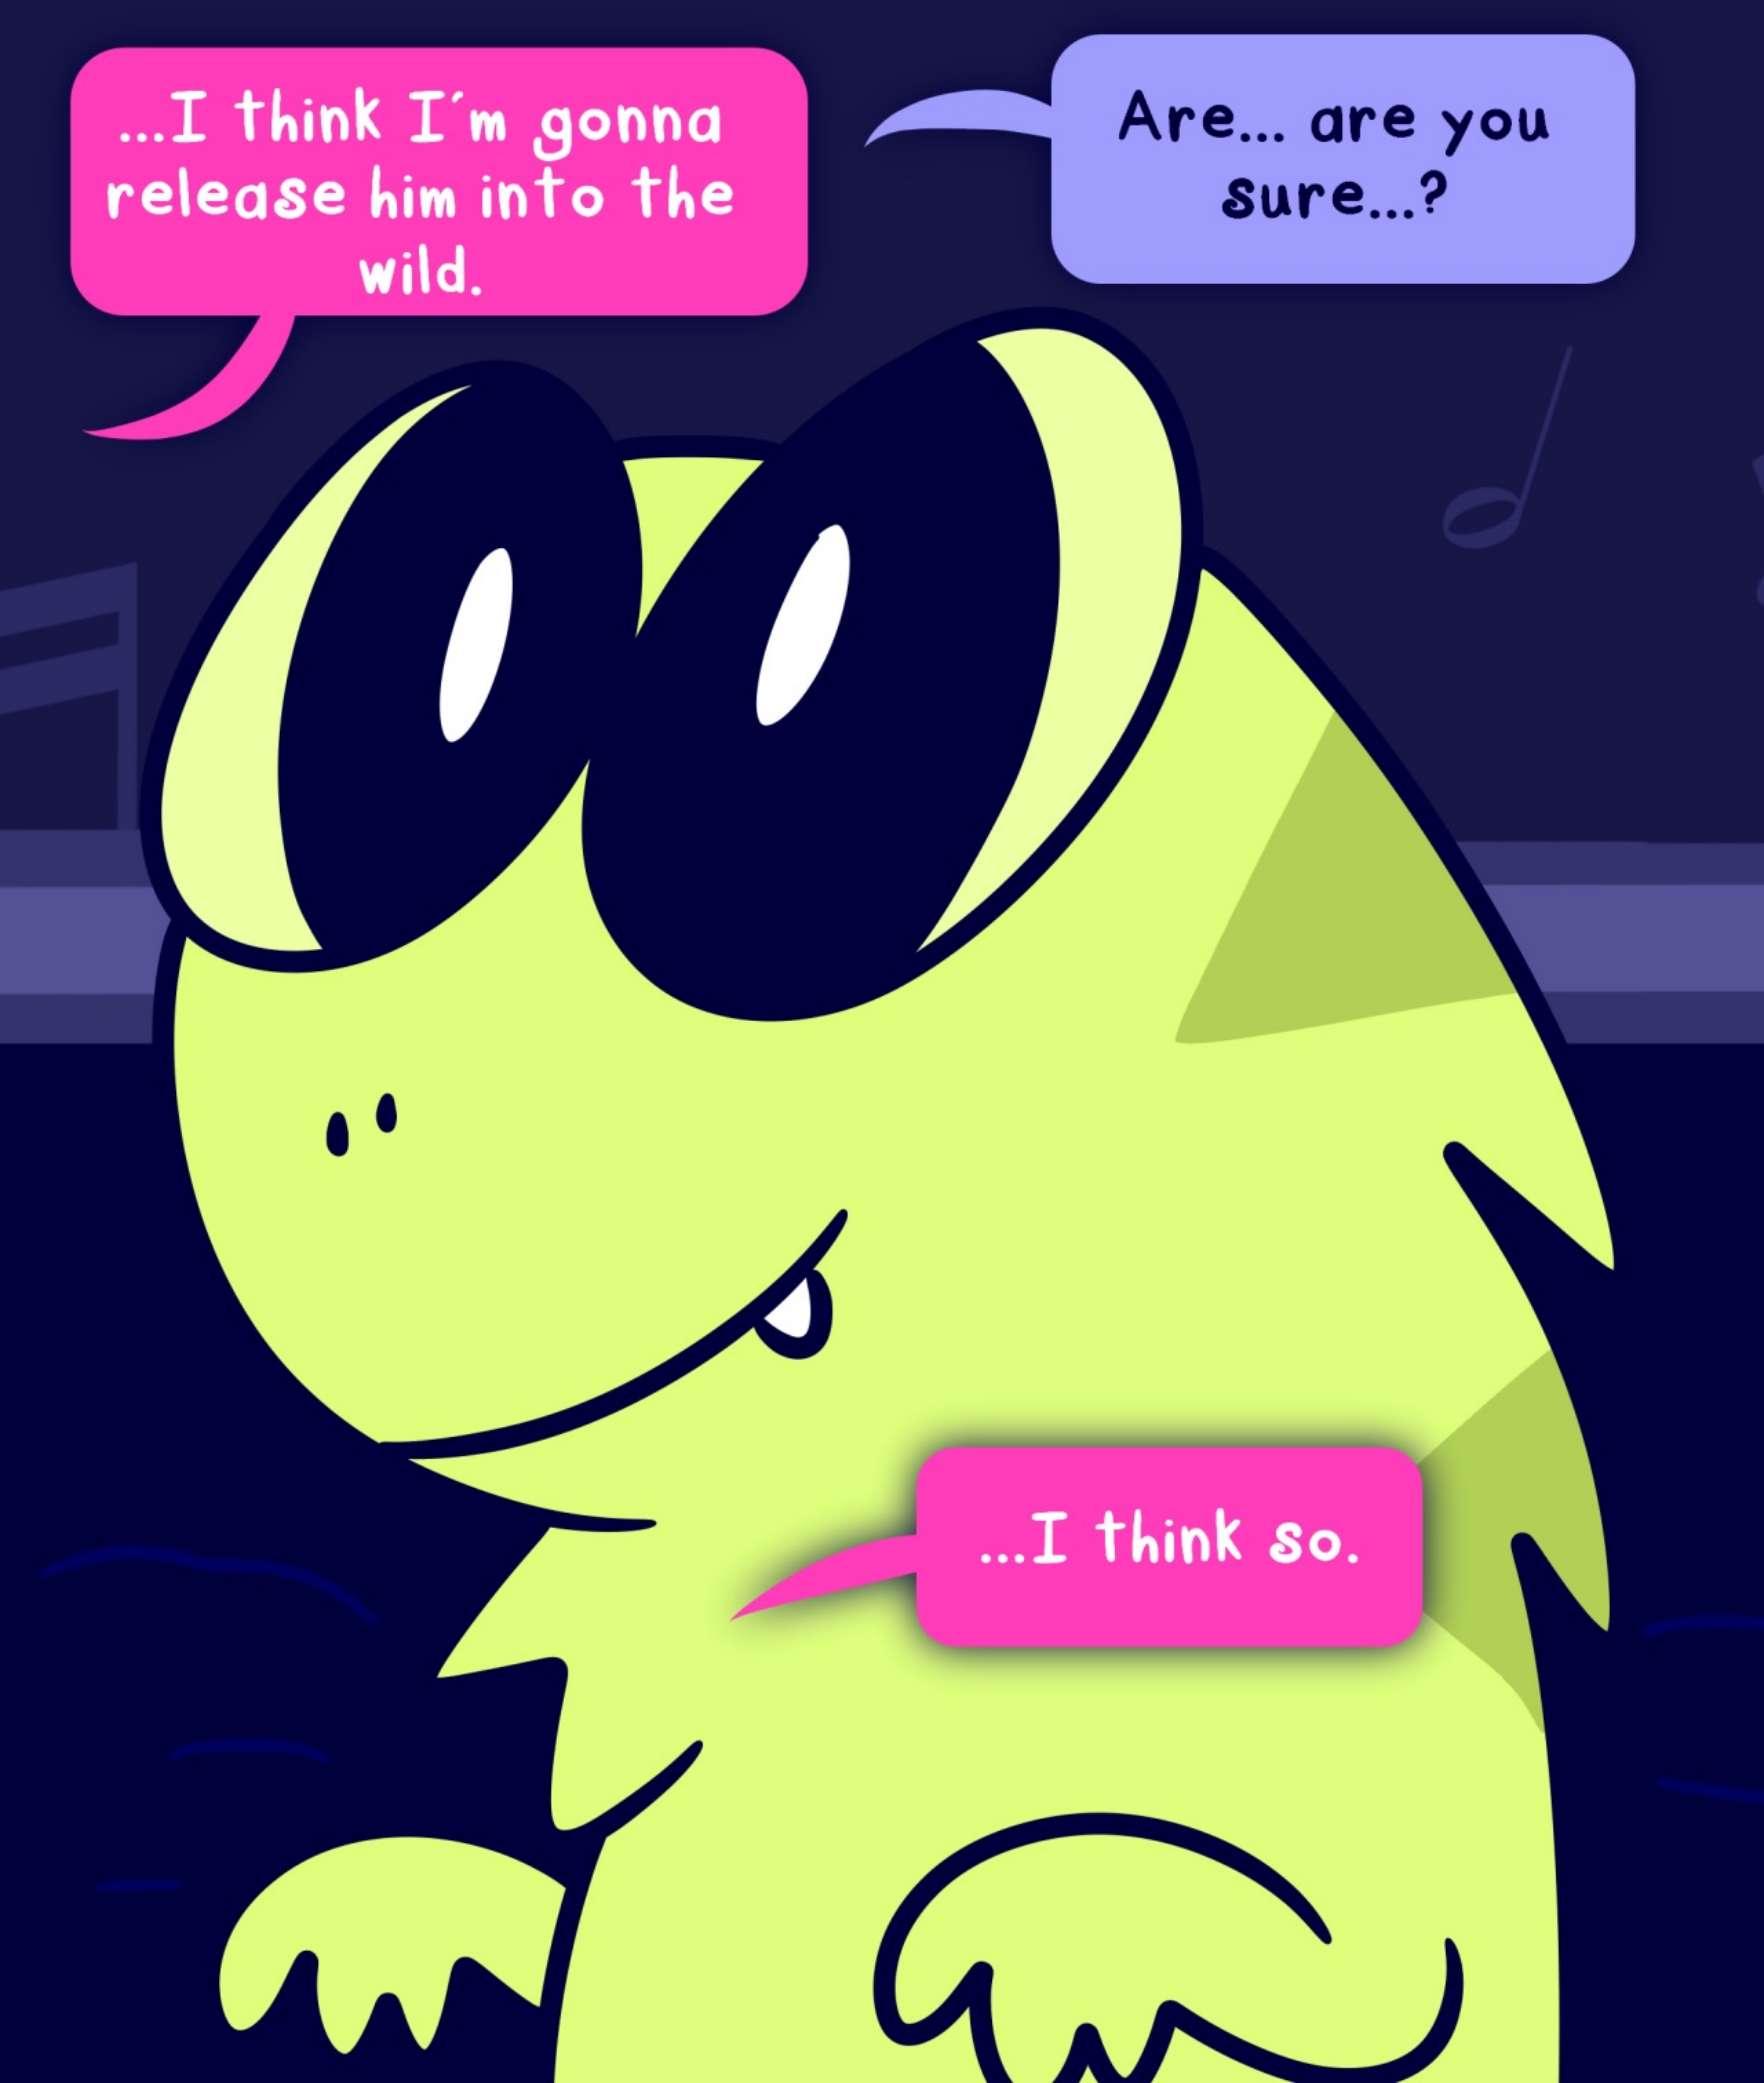
It´s quite literally you or him. Wert is more Scrap´s friend than mine.
Either I´m with you, or with him. The same argument could be made from him.
It doesn´t mean I don´t wanna be with you.



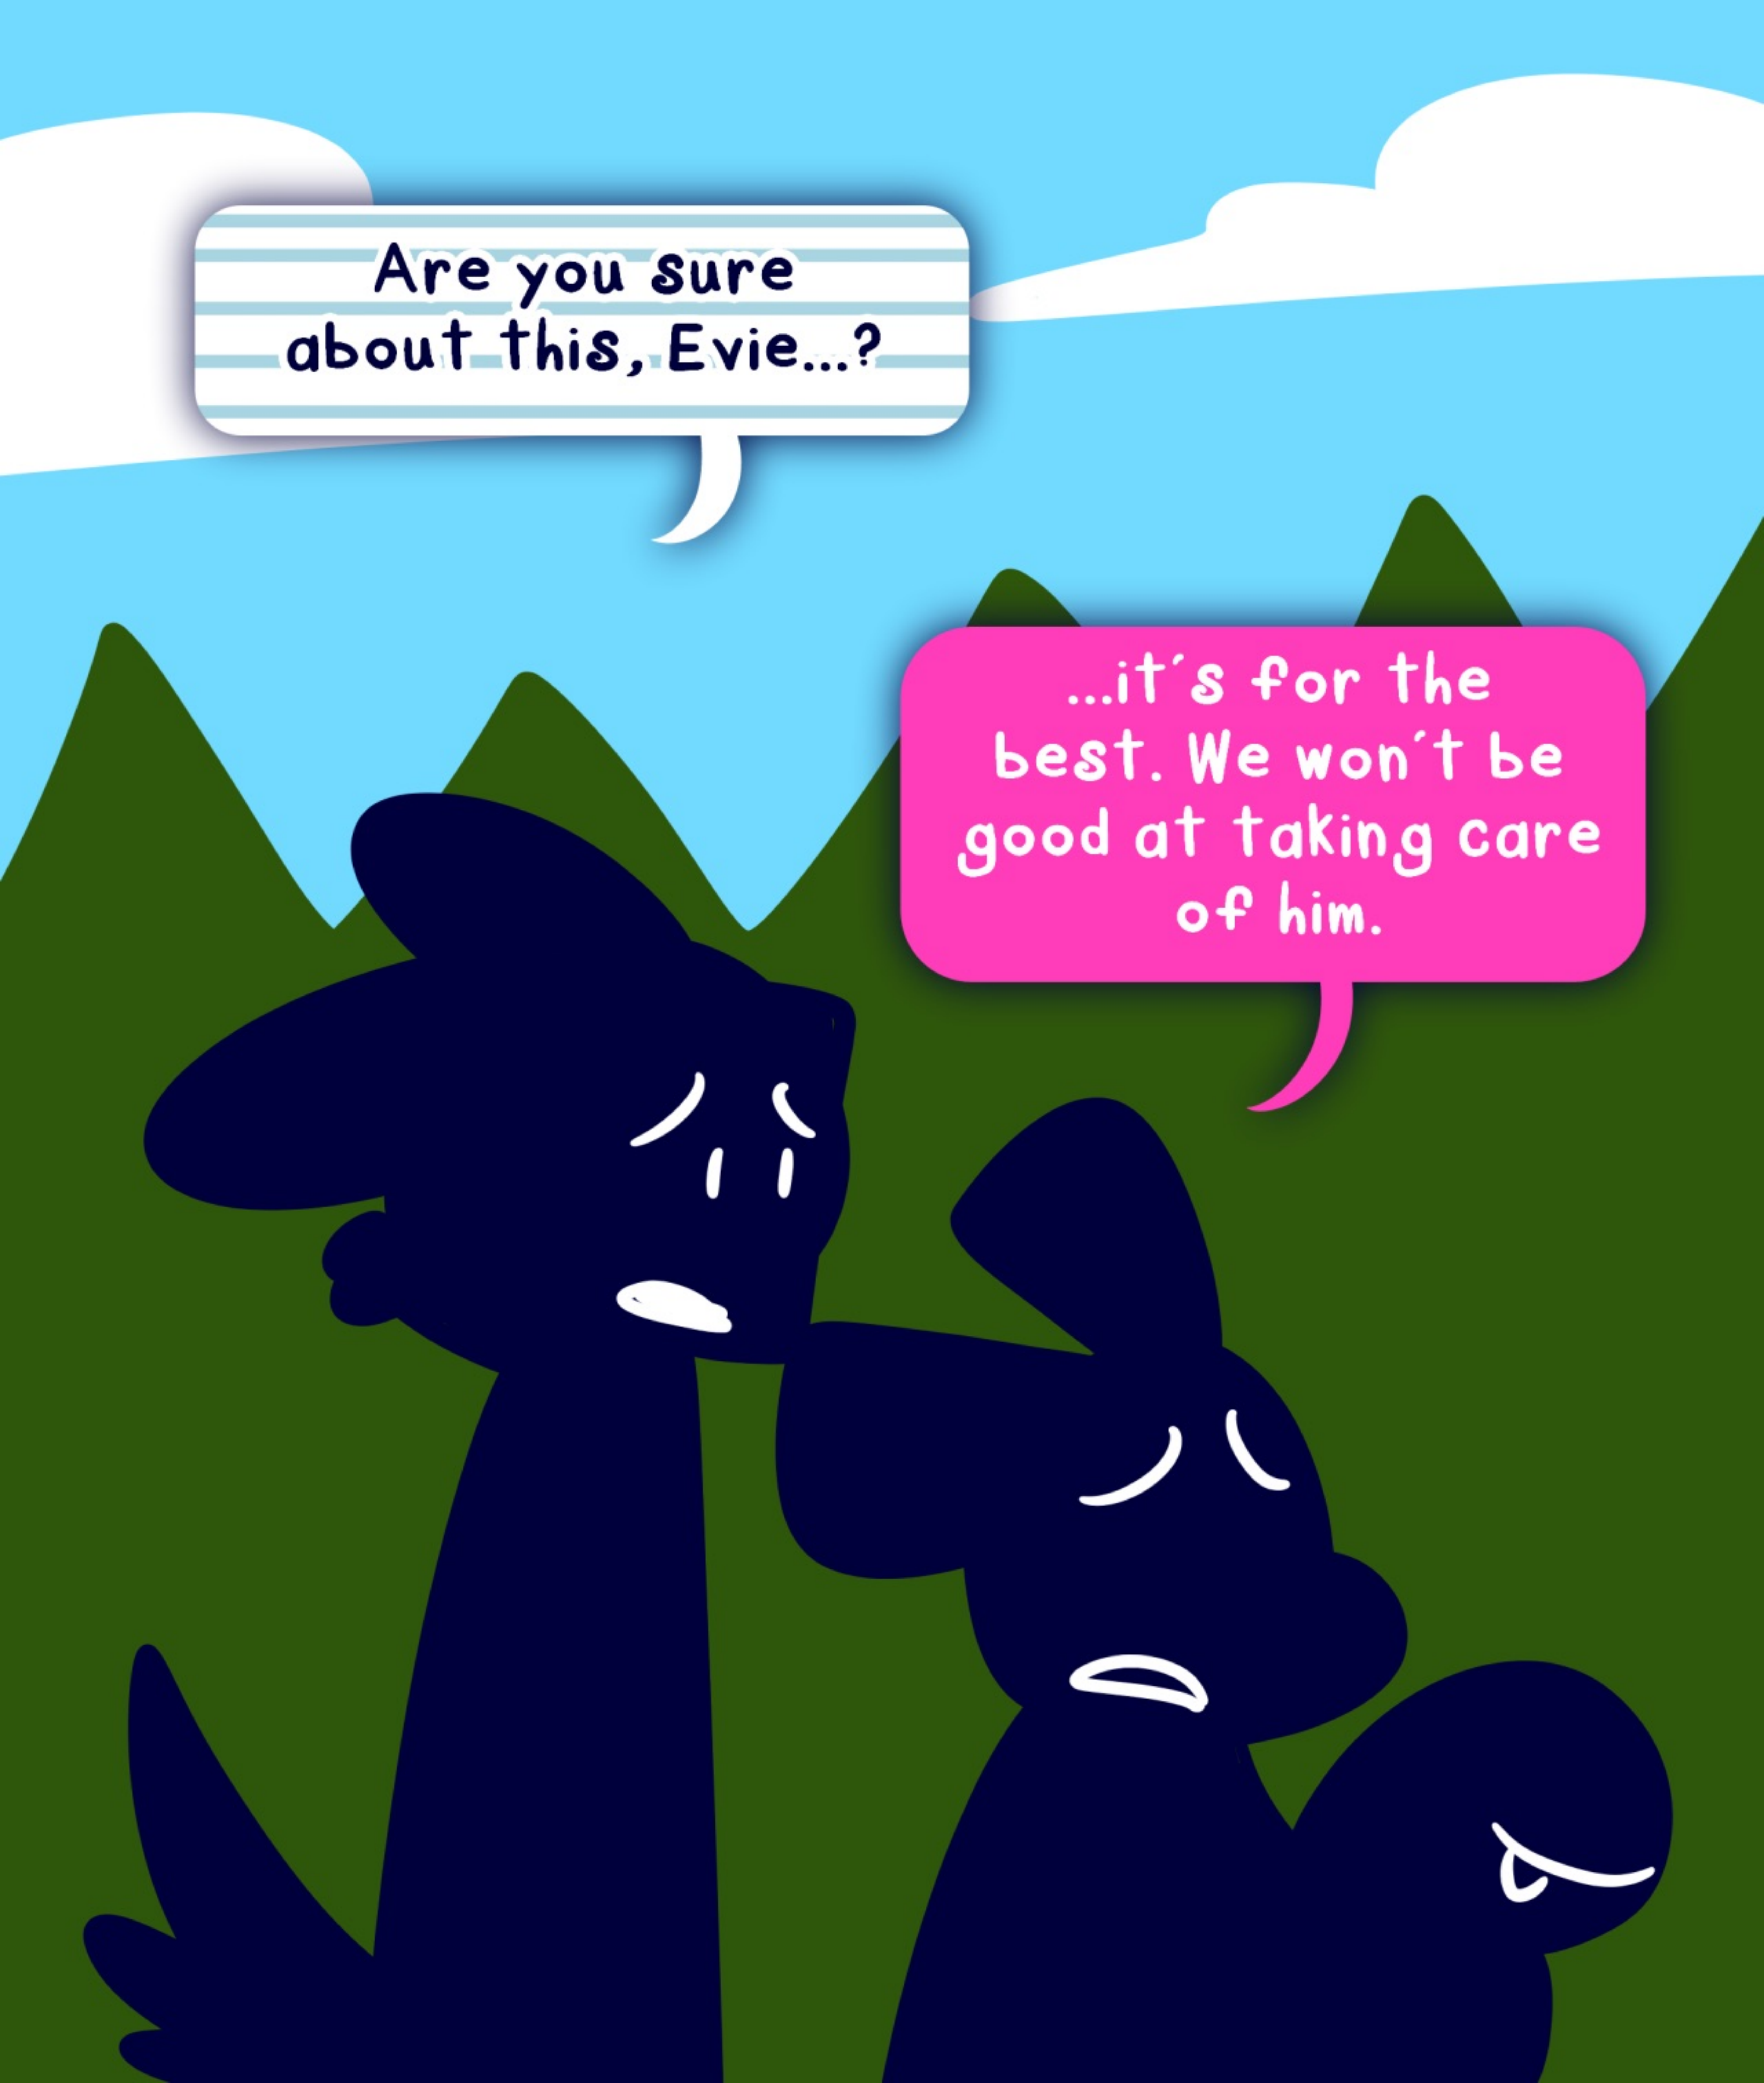
I haven't forgotten about you. I'm just bad at focusing on multiple things at once.
I promise I still care about you.



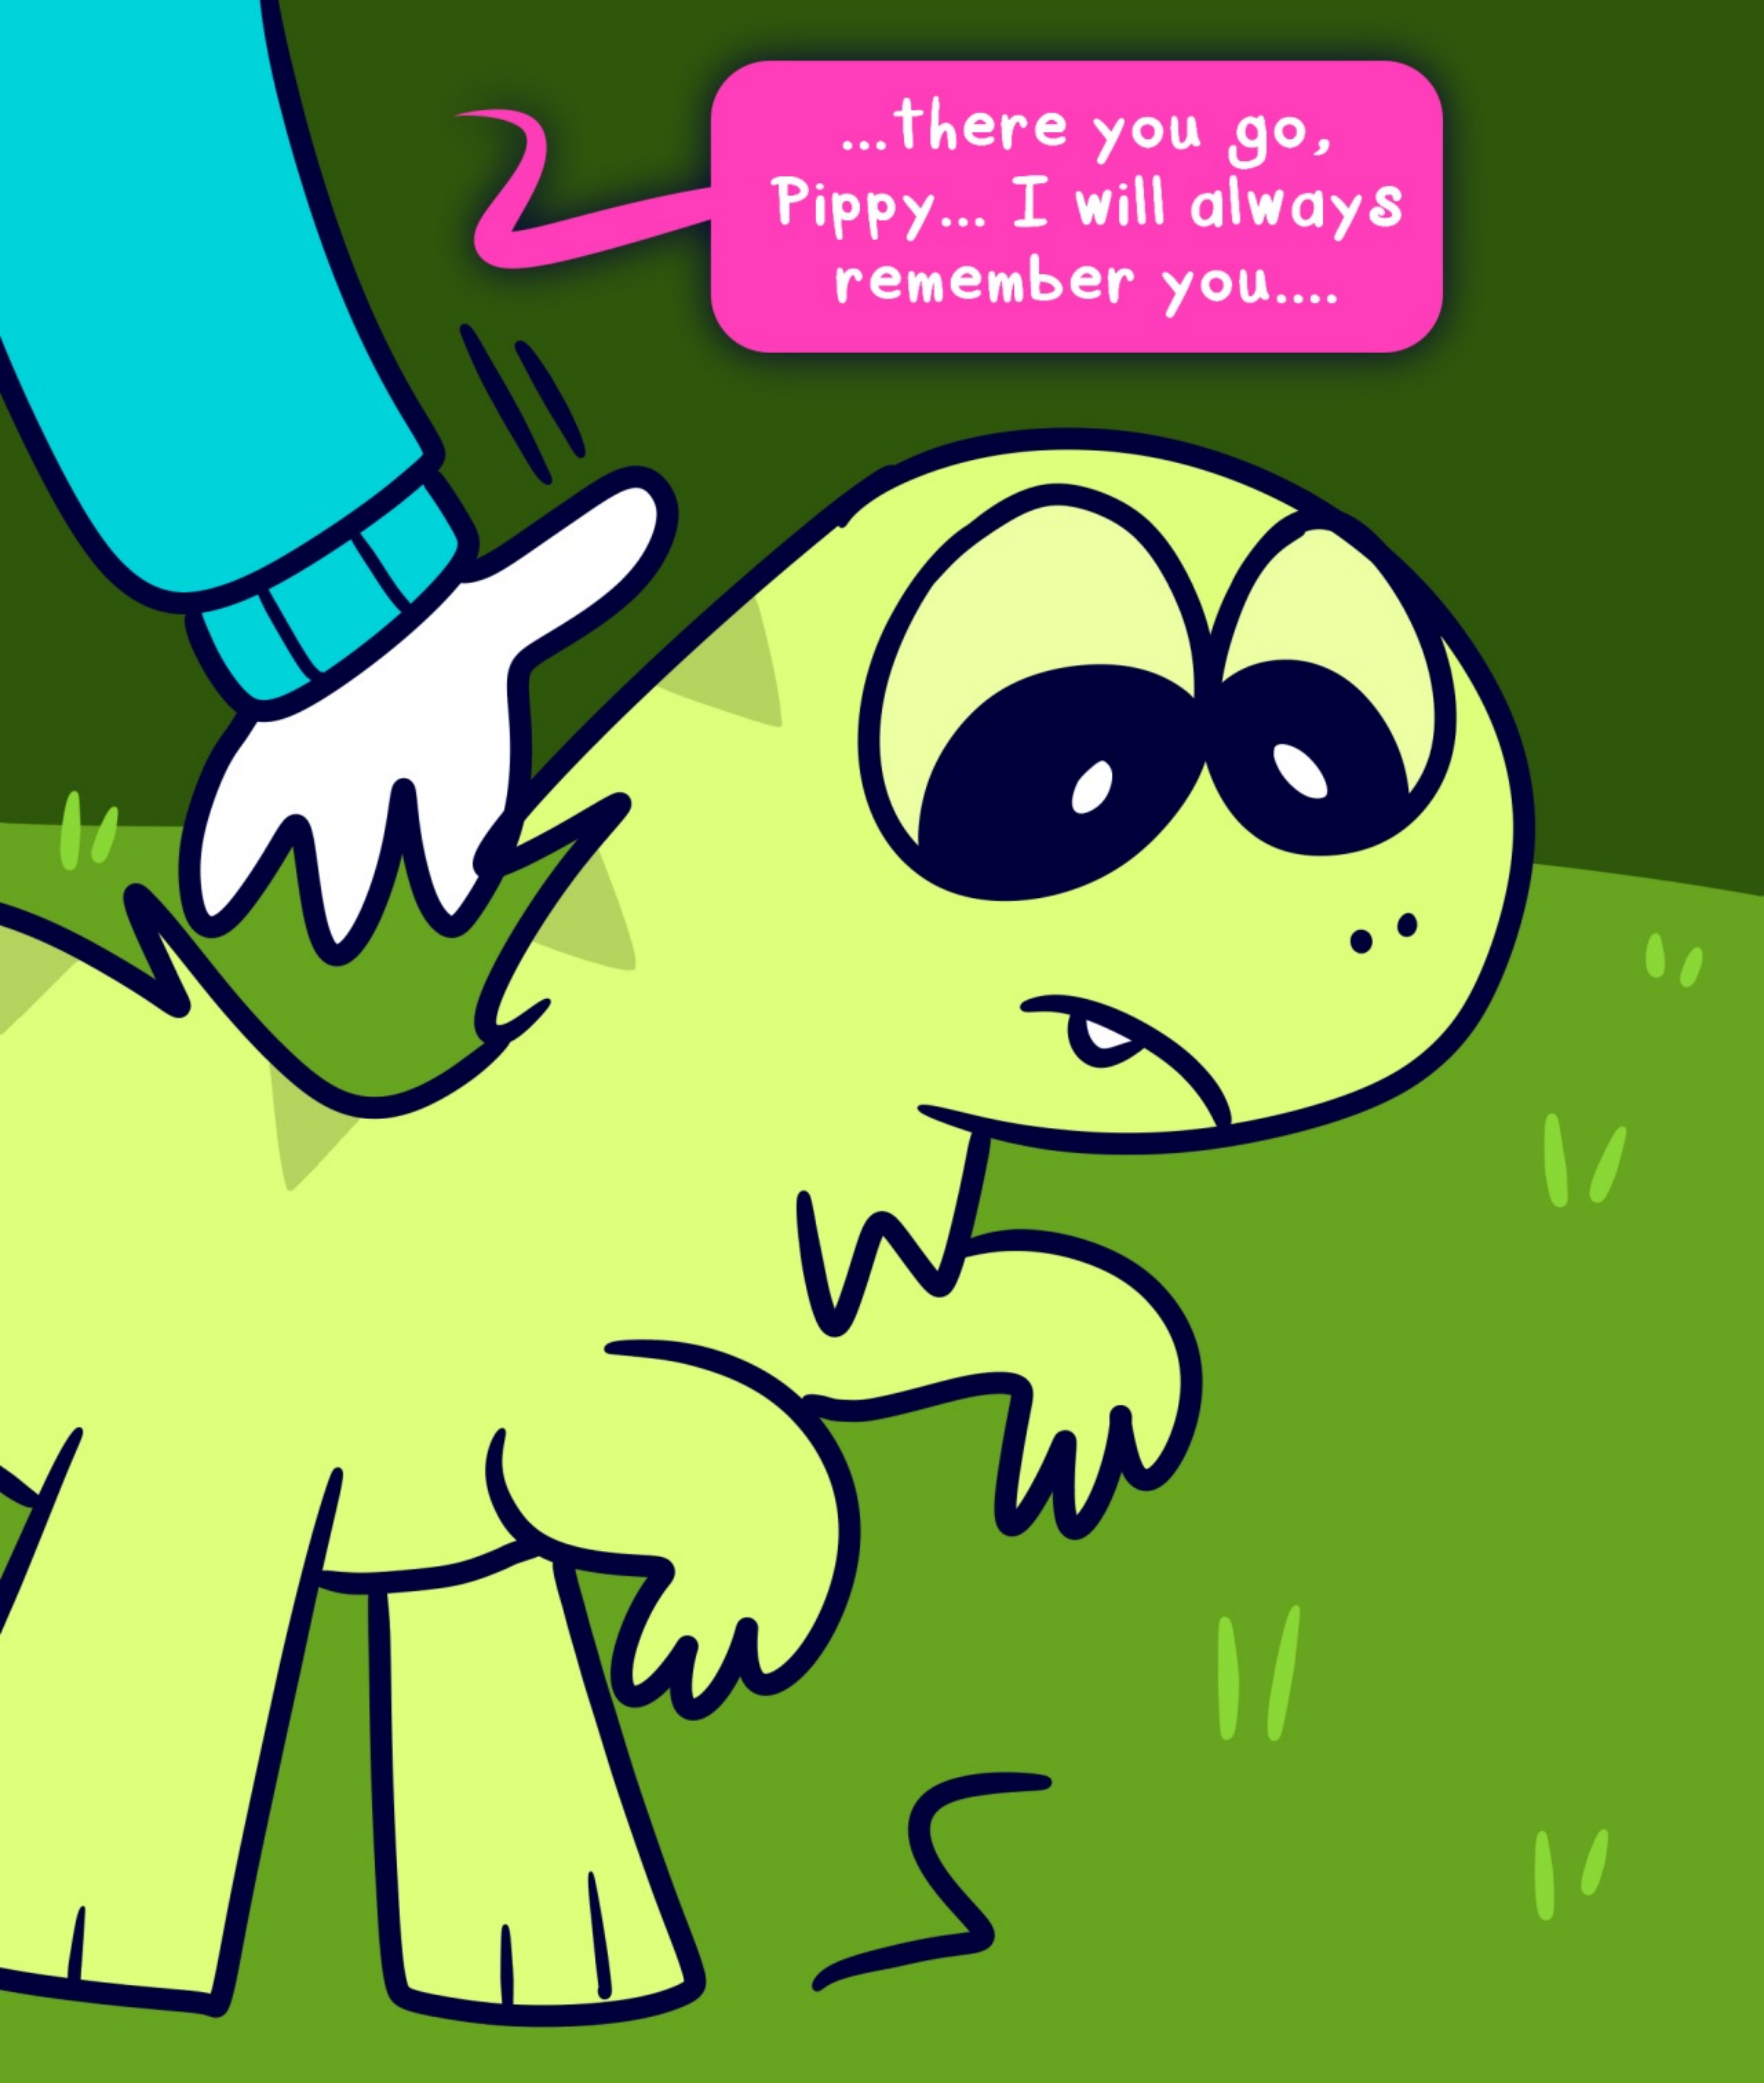
...I can barely keep track of a relationship and a friendship... I probably can´t take care of a pet.



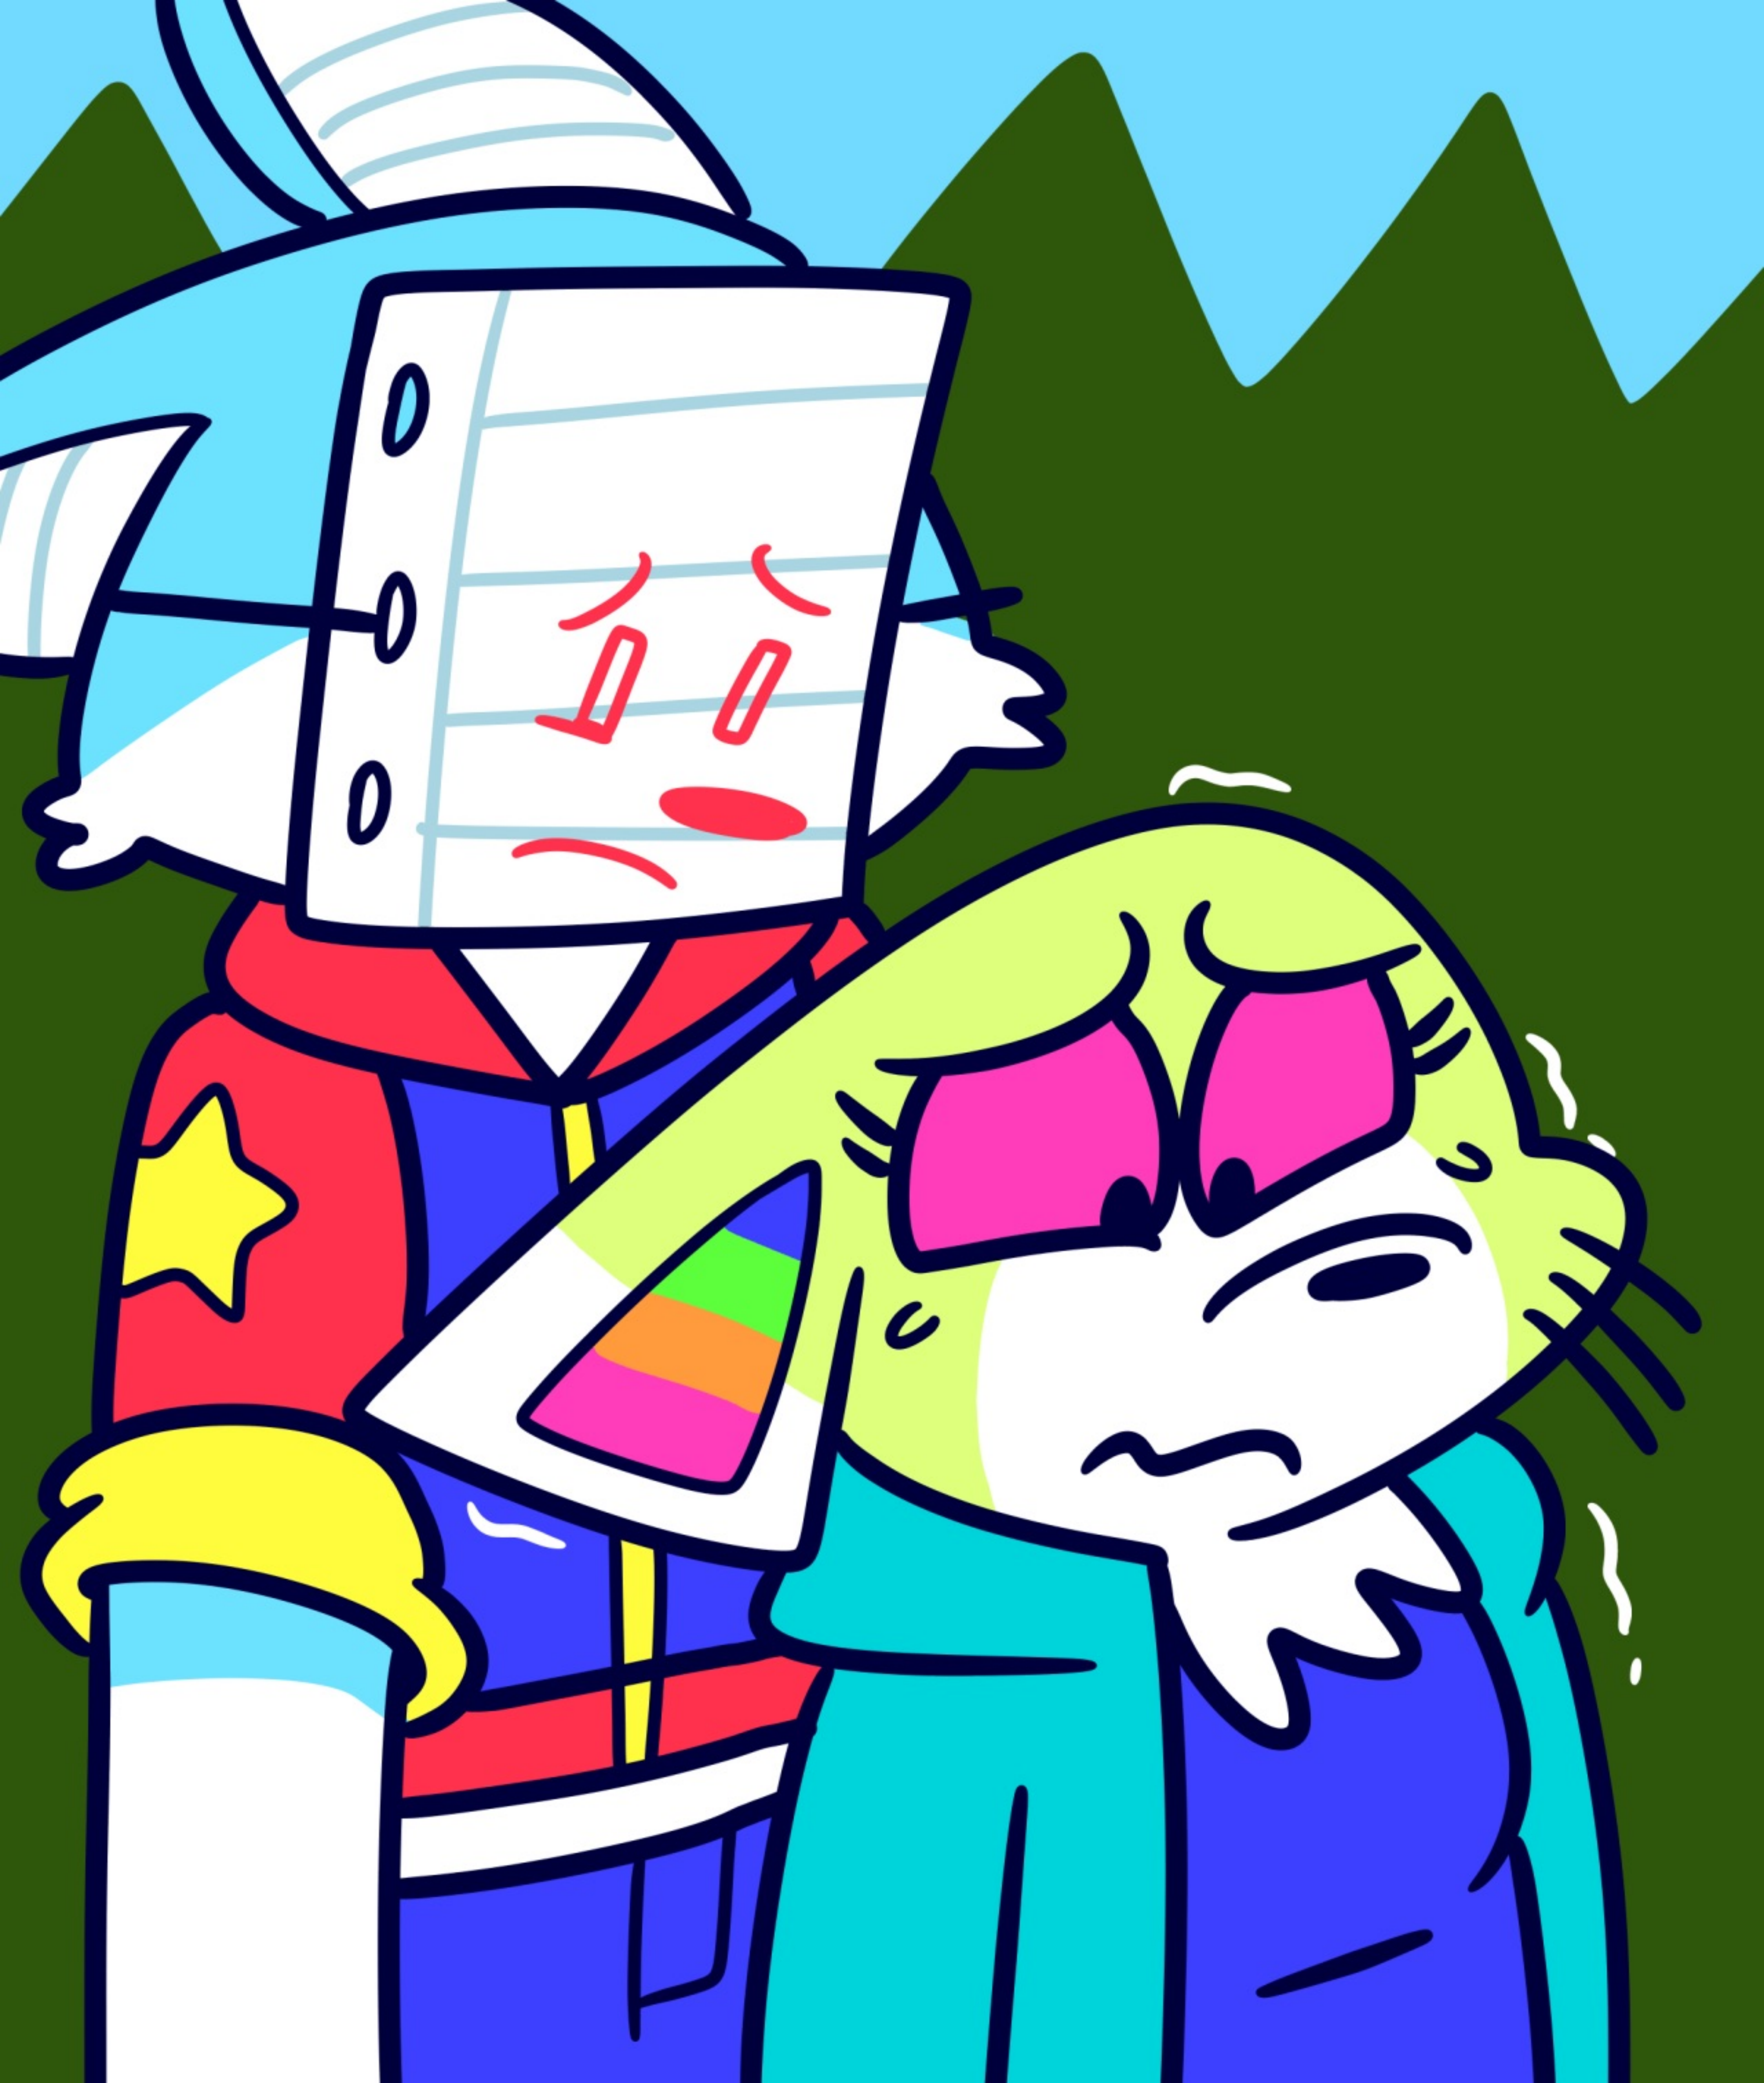
...I think I'm gonna release him into the wild.
Are... are you sure...?
...I think so.

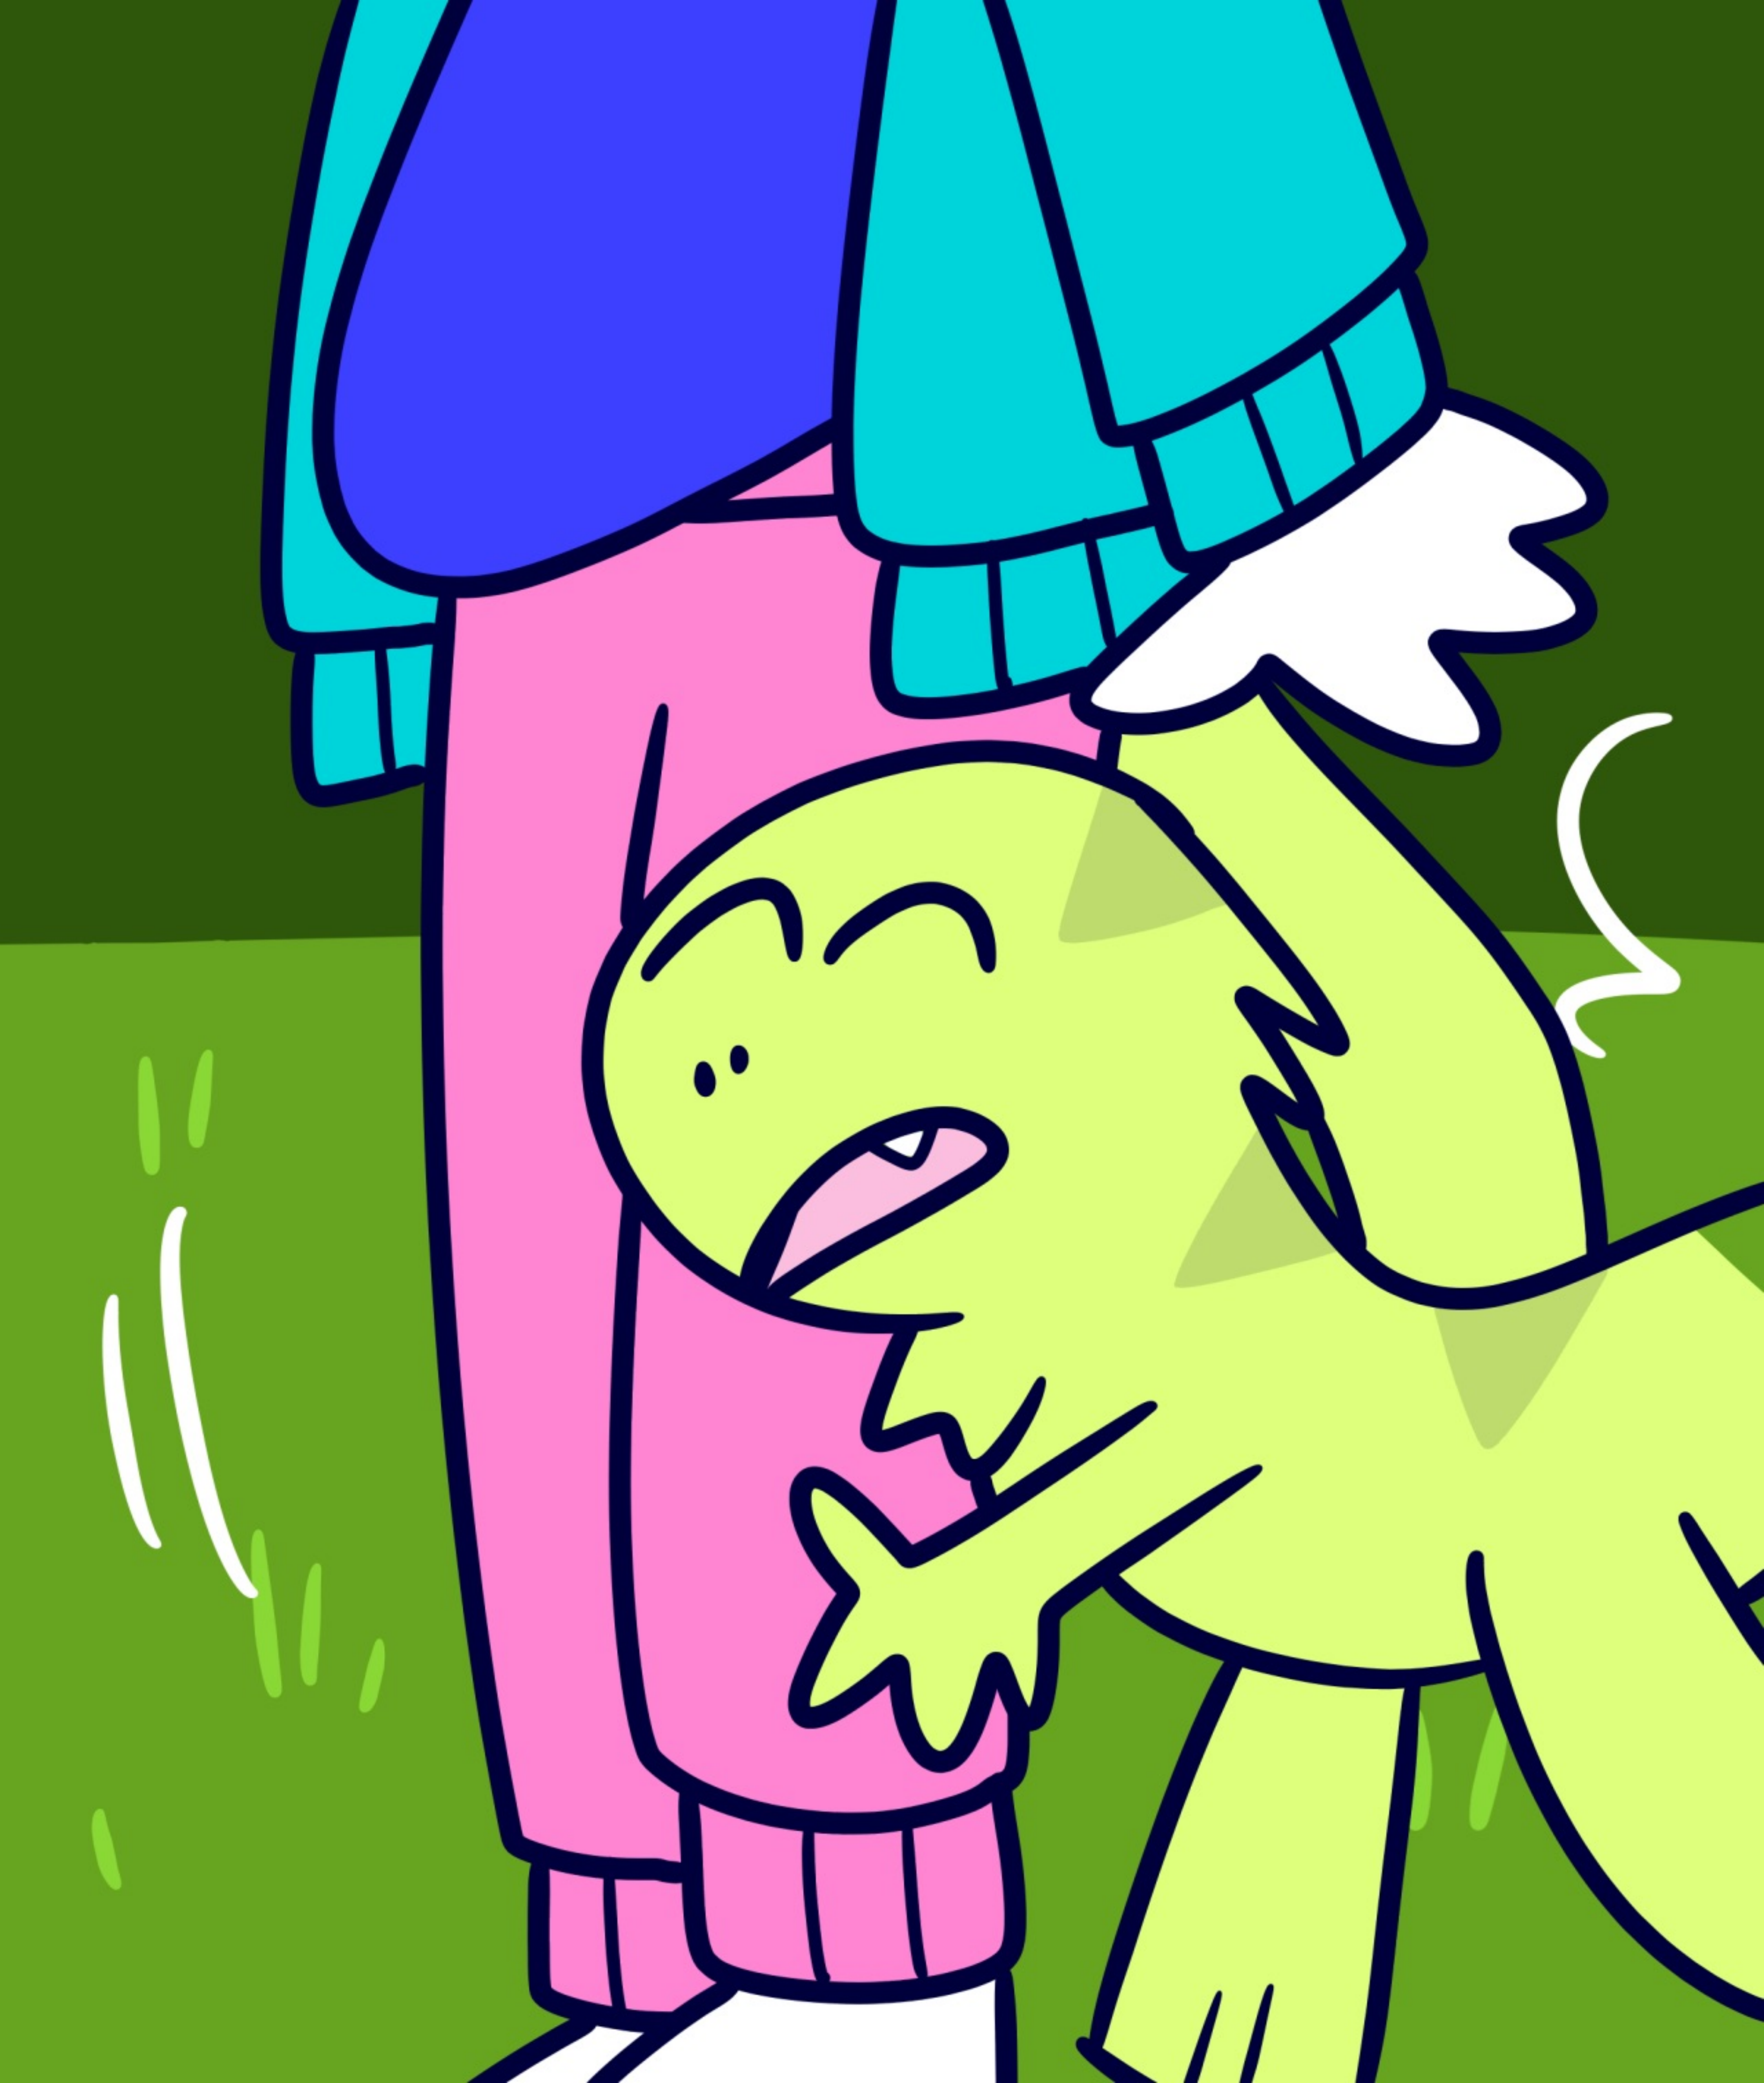


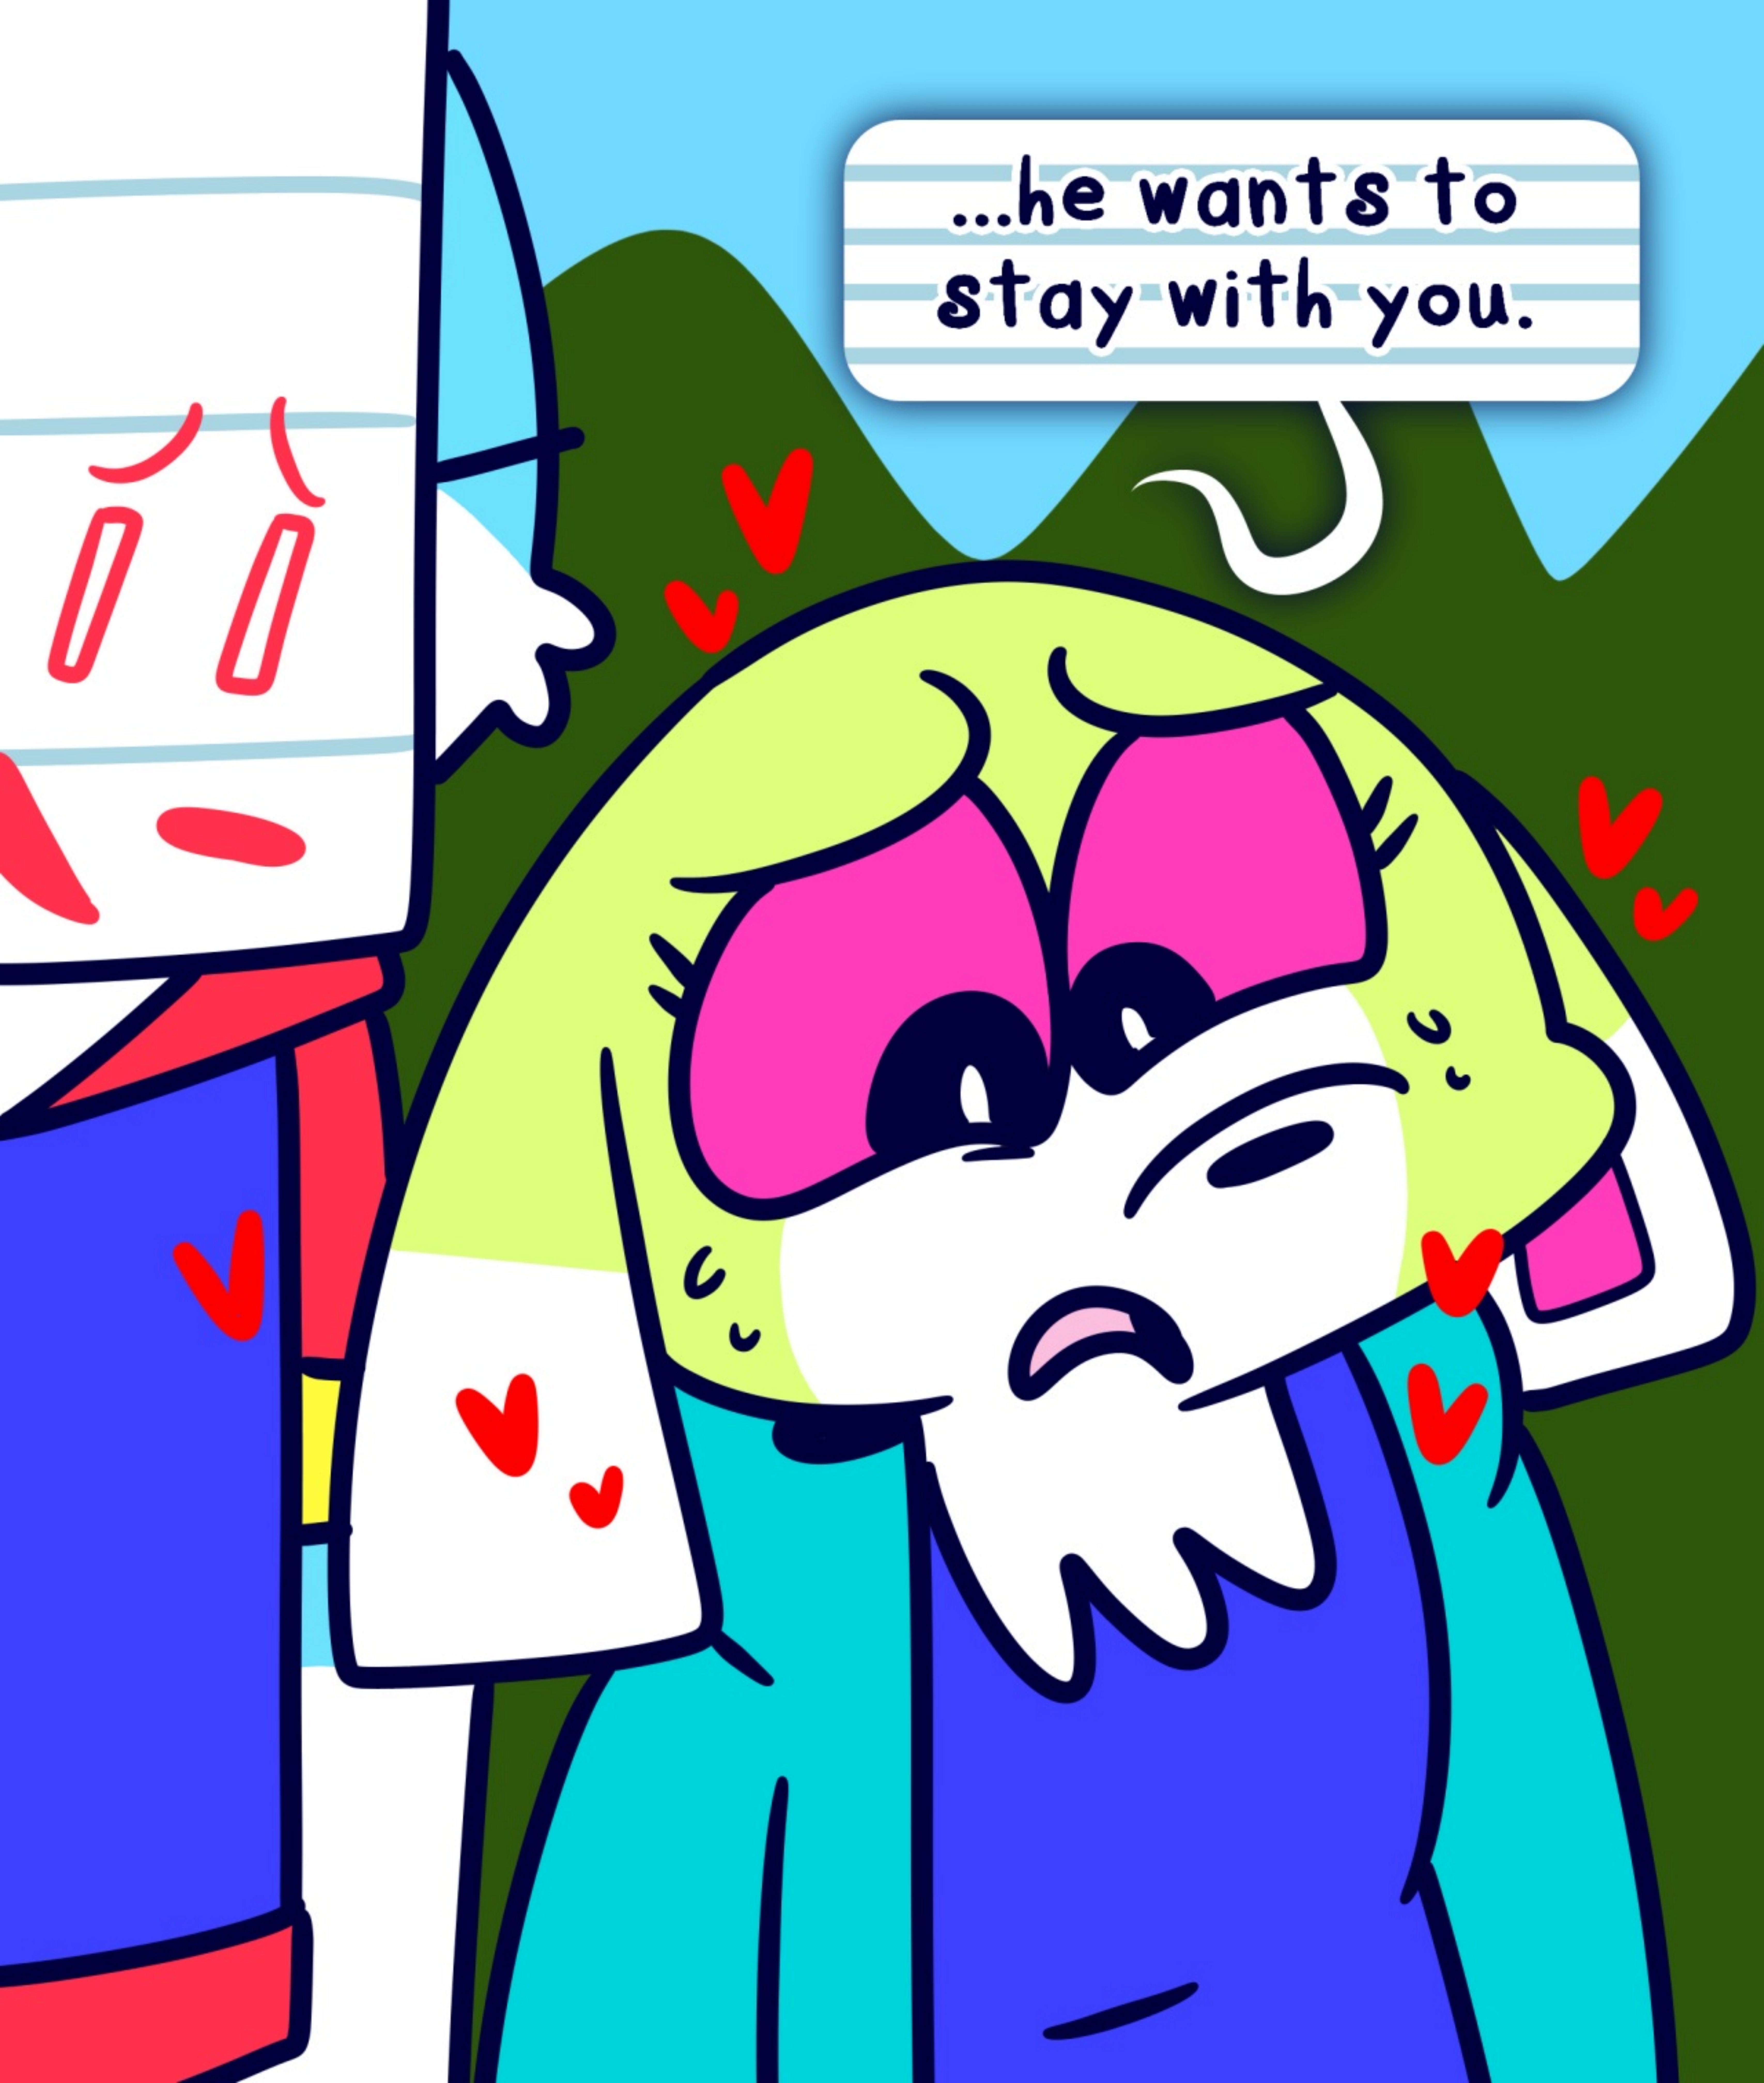
Are you sure about this, Evie...?
...it´s for the best. We won´t be good at taking care of him.



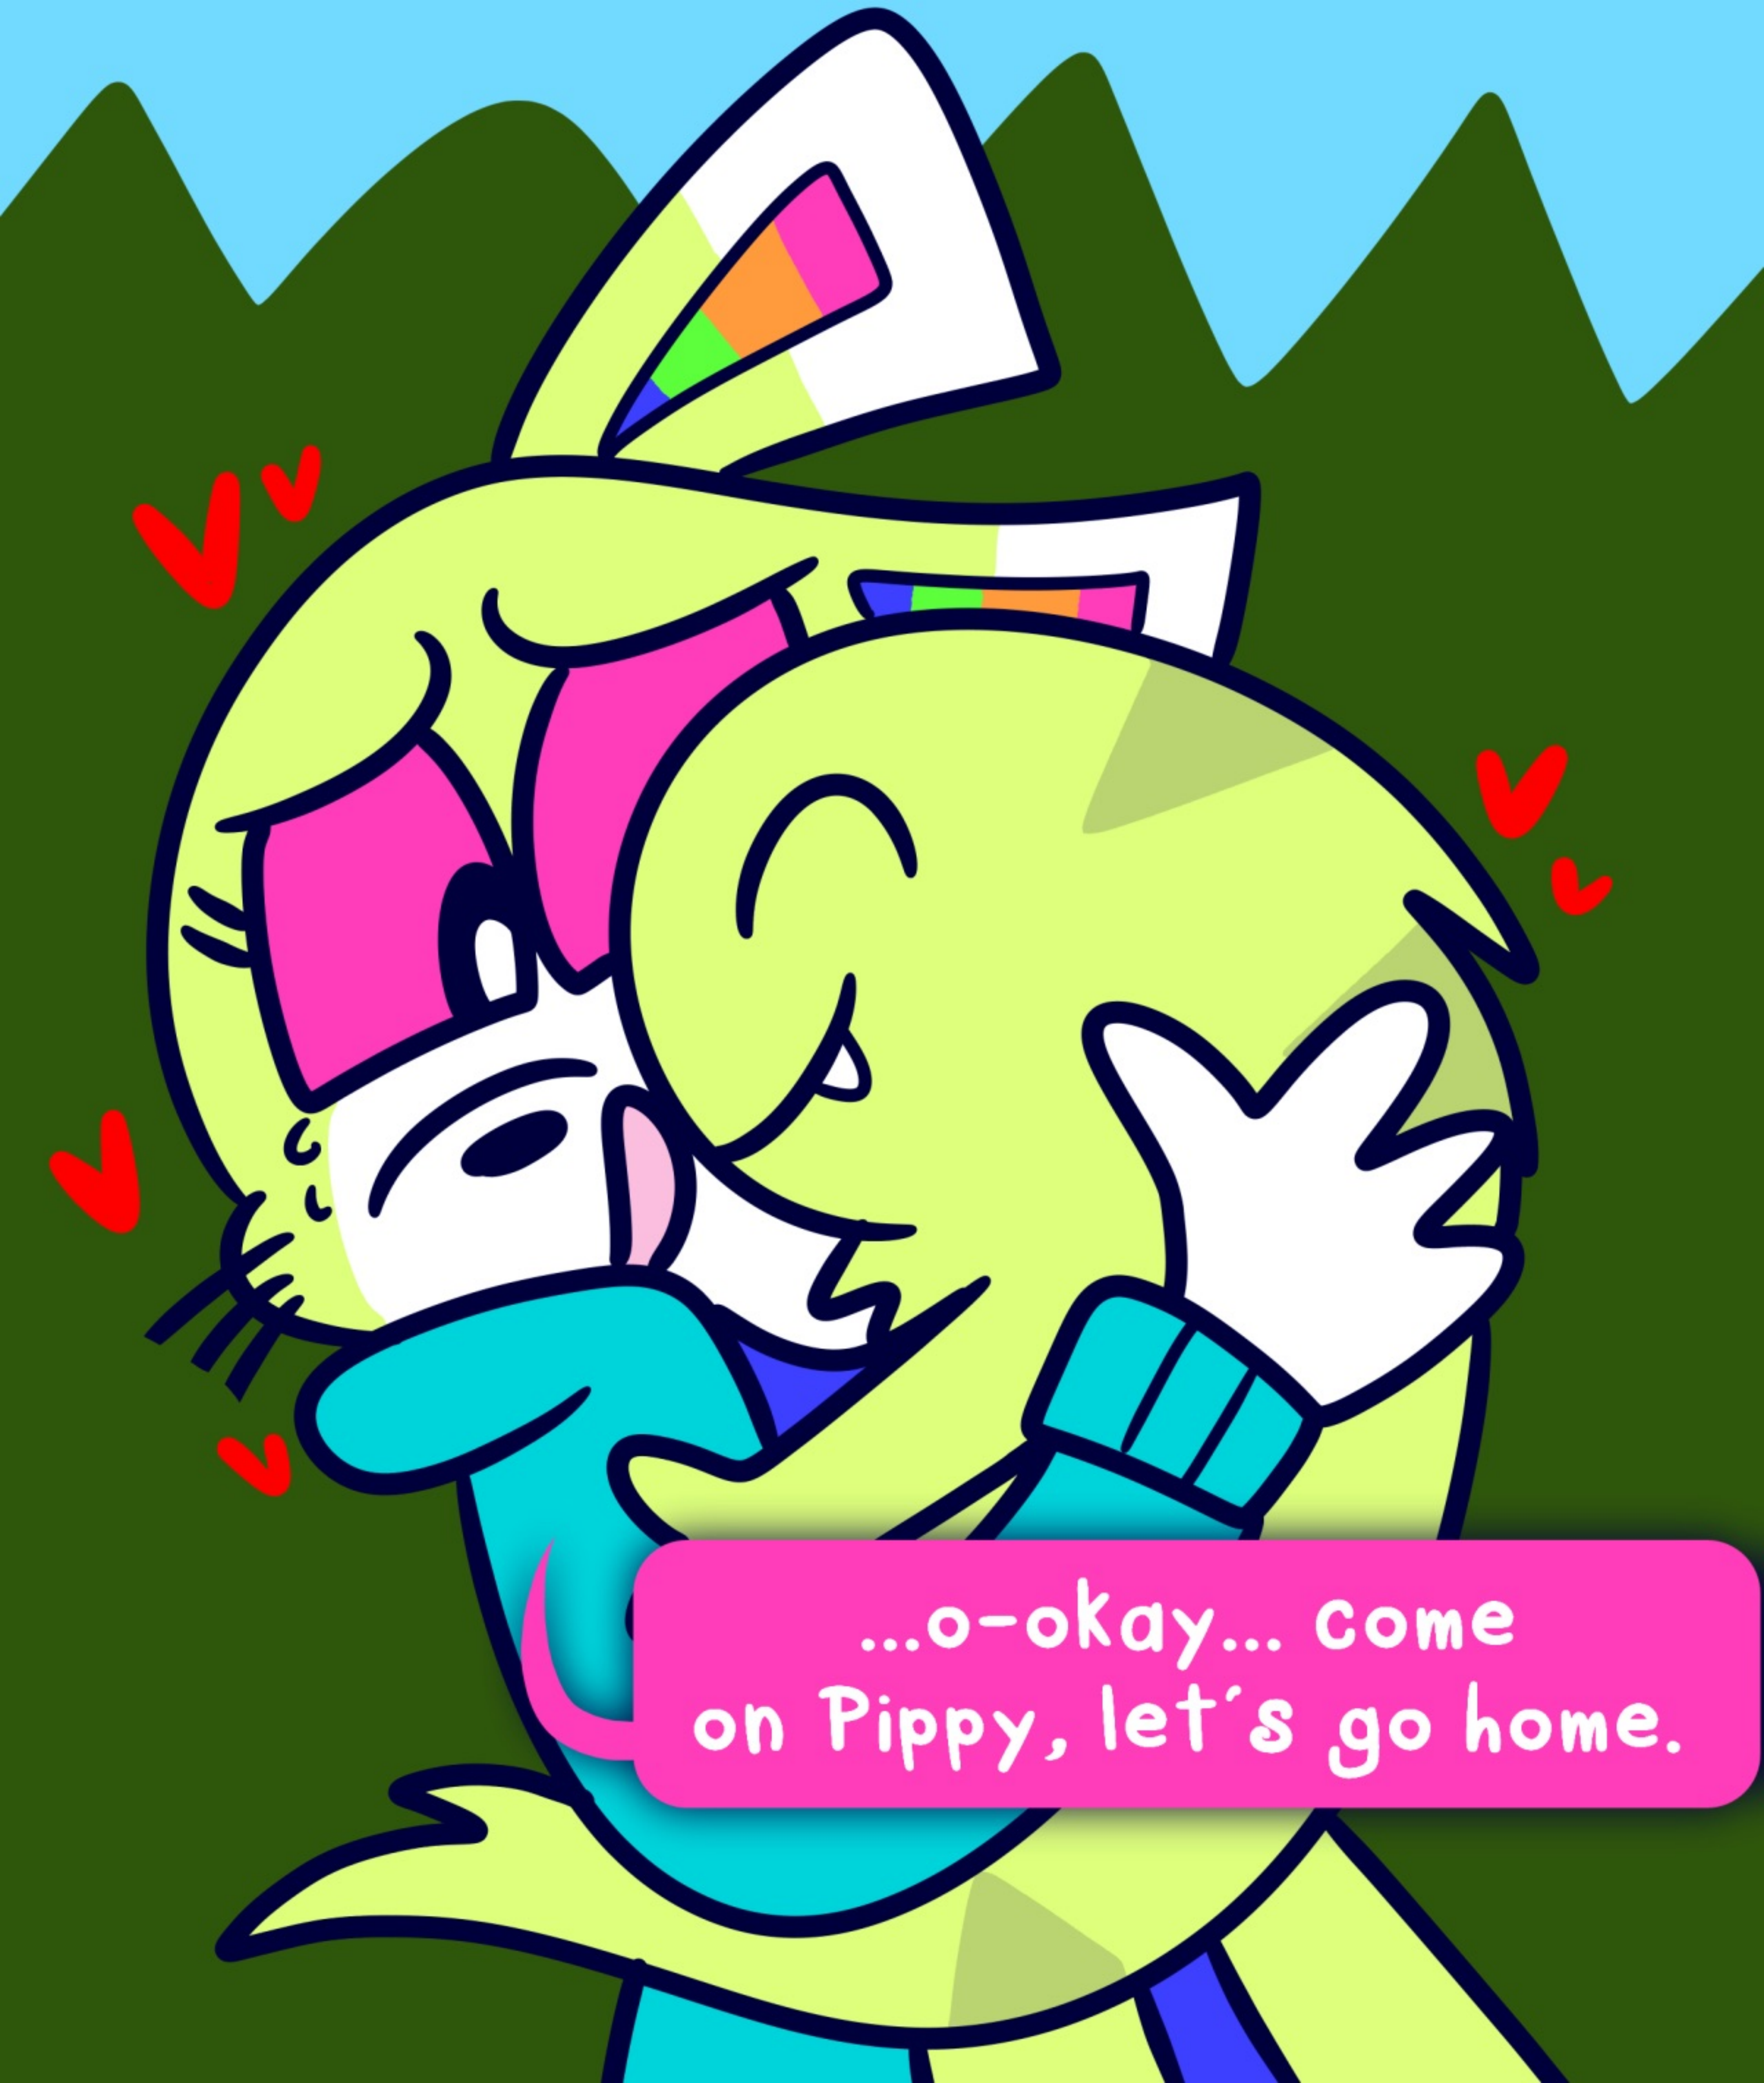
...there you go, Pippy... I will always remember you....



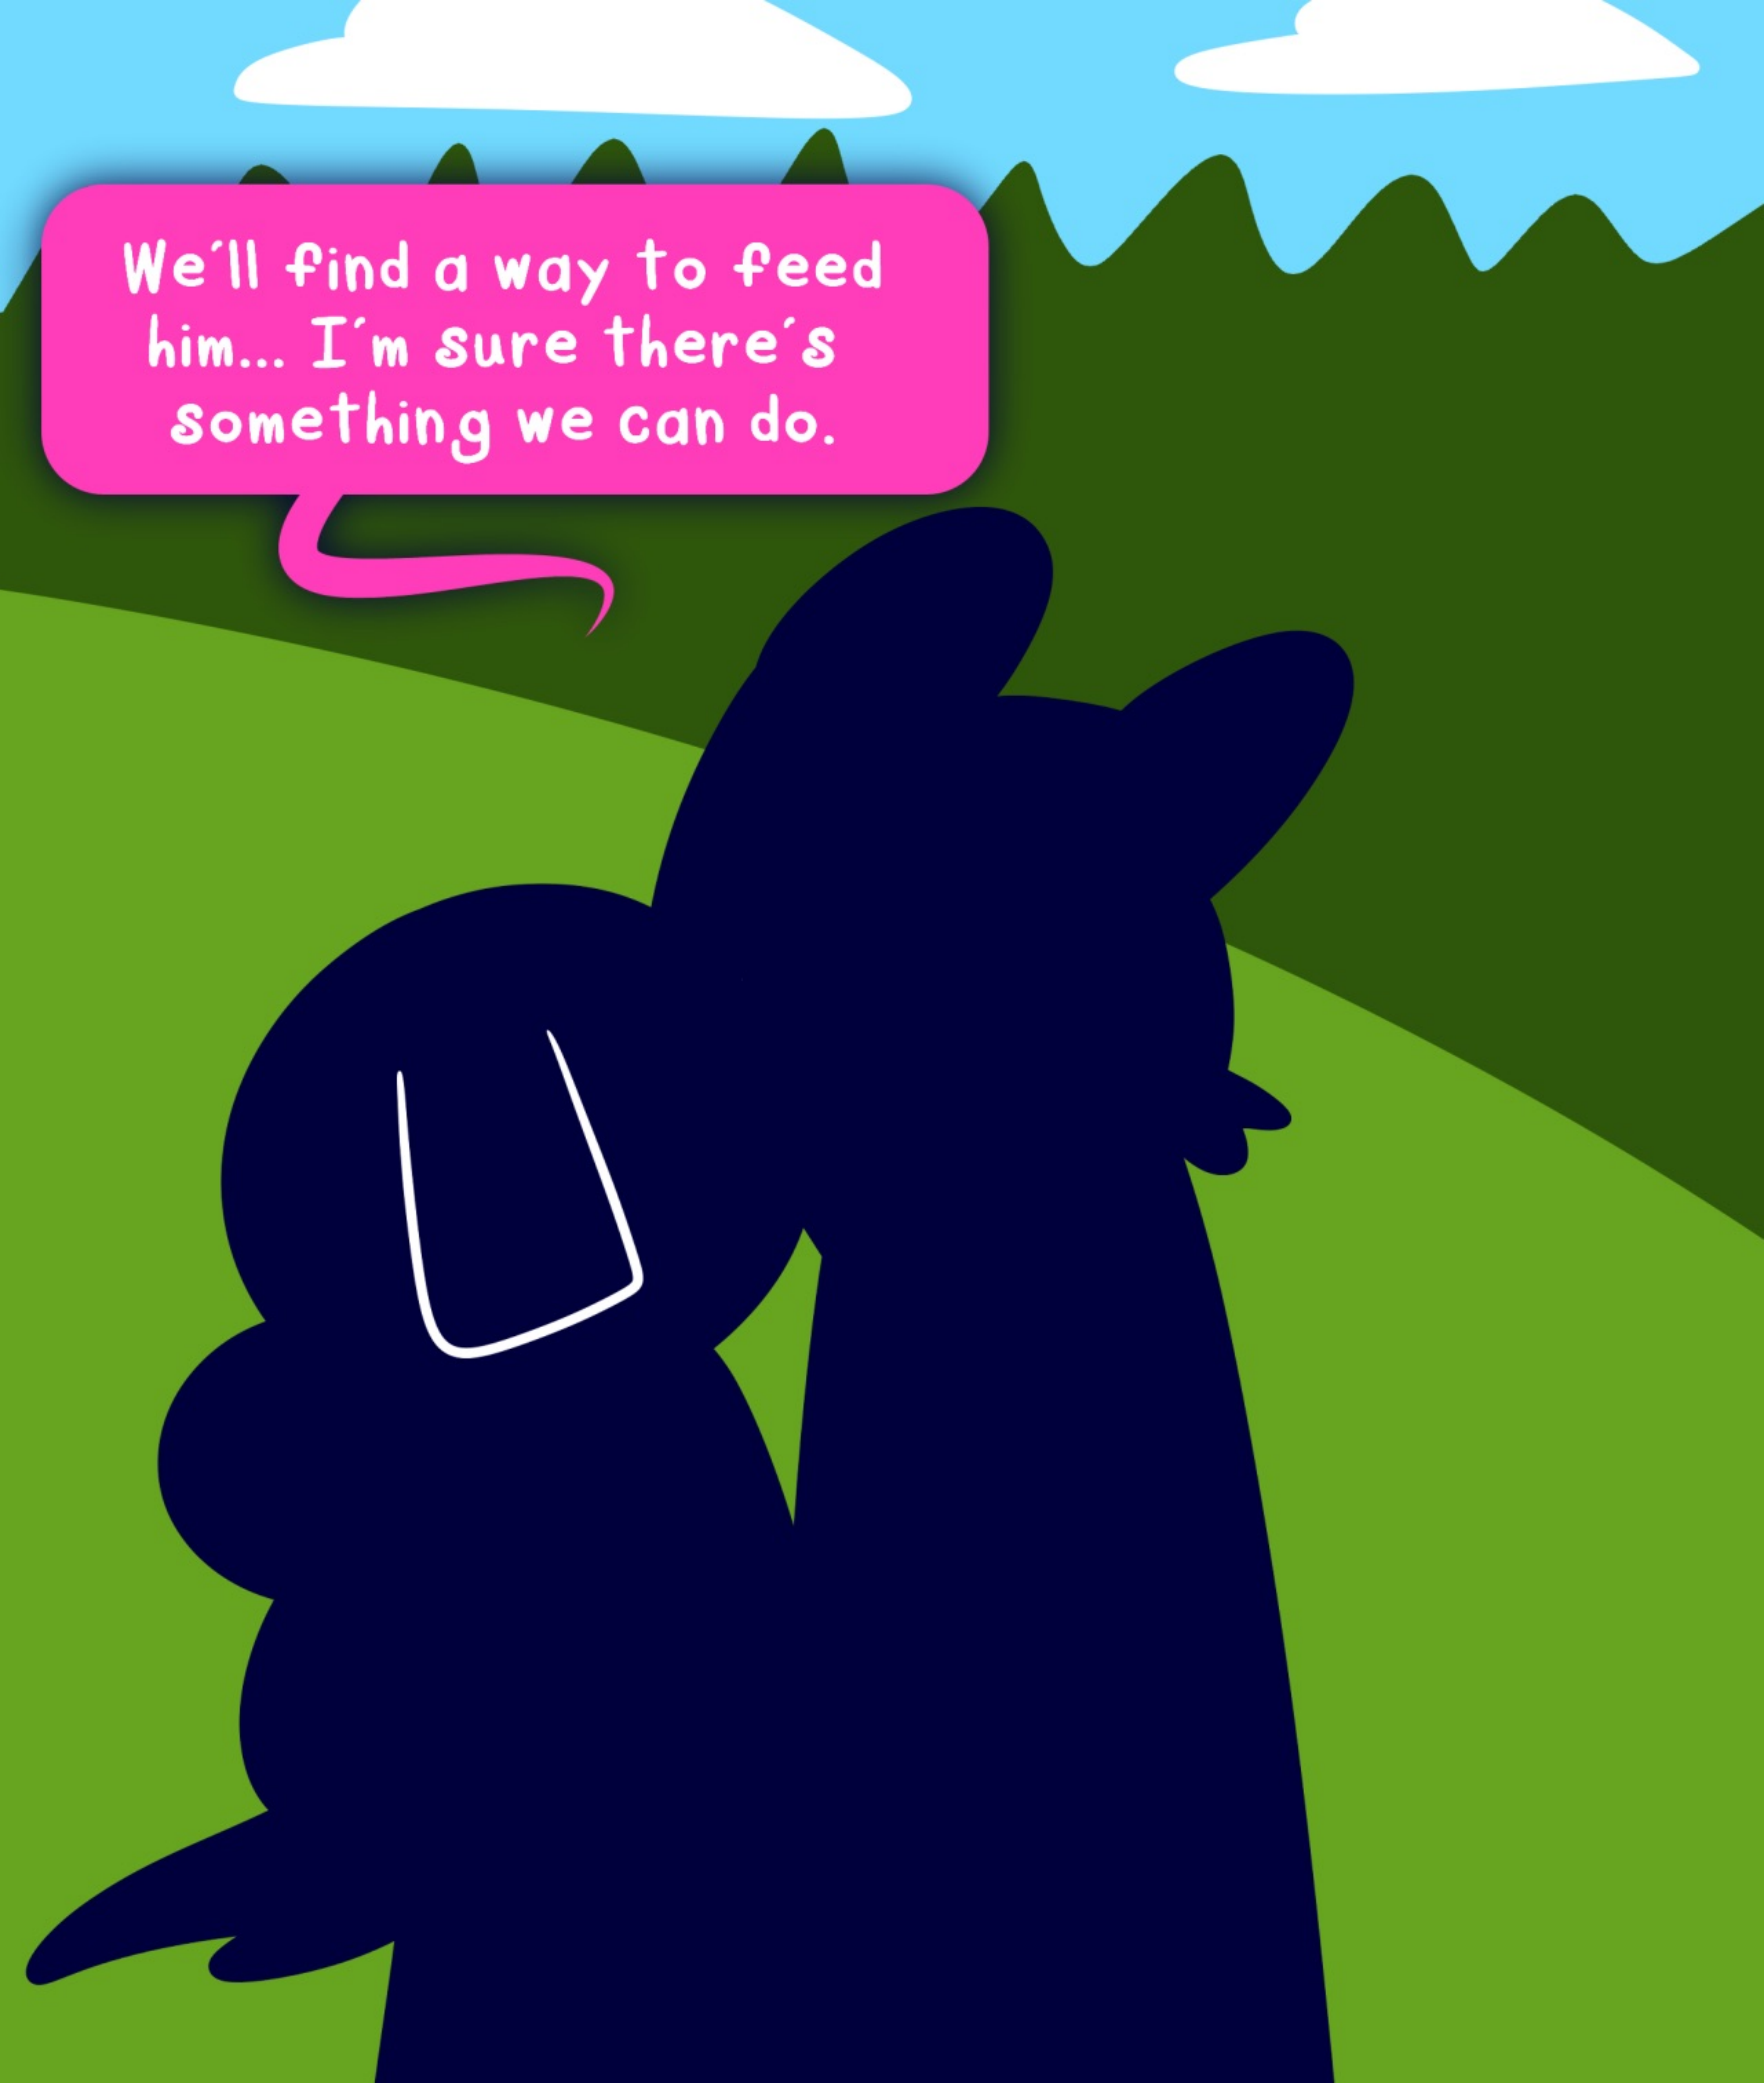




...he wants to stay with you.



...o-okay... come on Pippy, let´s go home.



We'll find a way to feed him... I'm sure there's something we can do.
